P Preliminary
[1] Details may not add up to total due to rounding.
[2] Total amount of remittances of overseas Filipinos (OFs) from countries not elsewhere classified.
. Rounds off to zero
-- Undefined/indeterminate growth rate

NOTE: There are some limitations on the remittance data by source. A common practice of remittance centers in various cities abroad is to course remittances through correspondent banks mostly located in the U.S. On the other hand, remittances coursed through money couriers cannot be disaggregated by actual country source and are lodged under the country where the main offices are located,which, in many cases is in the U.S. Therefore, the U.S. would show up to be the main source of OF remittances because banks attribute the origin of funds to the most immediate source.

Source: Data are based on bank reports submitted to the Bangko Sentral ng Pilipinas.

[p] Preliminary
[1] Details may not add up to total due to rounding.
[2] Total amount of remittances of overseas Filipinos (OFs) from countries not elsewhere classified.
. Rounds off to zero
-- Undefined/indeterminate growth rate

NOTE: There are some limitations on the remittance data by source. A common practice of remittance centers in various cities abroad is to course remittances through correspondent banks mostly located in the U.S. On the other hand, remittances coursed through money couriers cannot be disaggregated by actual country source and are lodged under the country where the main offices are located, which, in many cases is in the U.S. Therefore, the U.S. would show up to be the main source of OF remittances because banks attribute the origin of funds to the most immediate source.
Source: Data are based on bank reports submitted to the Bangko Sentral ng Pilipinas.

[p] Preliminary
[1] Details may not add up to total due to rounding.
[2] Total amount of remittances of overseas Filipinos (OFs) from countries not elsewhere classified.
. Rounds off to zero

NOTE: There are some limitations on the remittance data by source. A common practice of remittance centers in various cities abroad is to course remittances through correspondent banks mostly located in the U.S. On the other hand, remittances coursed through money couriers cannot be disaggregated by actual country source and are lodged under the country where the main offices are located, which, in many cases is in the U.S. Therefore, the U.S. would show up to be the main source of OF remittances because banks attribute the origin of funds to the most immediate source.

Source: Data are based on bank reports submitted to the Bangko Sentral ng Pilipinas.
