1/ Starting 2 December 2013, trading of an Exchange Traded Fund (ETF) commenced. ETF is an open-end investment company that trades its shares in the stock exchange. An ETF company issues its shares in blocks called "Creation Units" in exchange for a basket of securities comprising the index it wishes to track. Creation is normally done by institutional investors, who break down the block into smaller portions and sell to retail investors in the Exchange.

Note: Totals may not add up due to rounding.
