## Philippines: Balance of Payments Position

in million US dollars

---

|      |           | <u>Overall<br/>BOP Position</u> | <u>Year-to-Date</u> |
|------|-----------|---------------------------------|---------------------|
| 2000 |           |                                 | -509                |
| 2001 |           |                                 | -202                |
| 2002 |           |                                 | 810                 |
| 2003 |           |                                 | 115                 |
| 2004 |           |                                 | -280                |
| 2005 |           |                                 | 2410                |
| 2006 |           |                                 | 3769                |
| 2007 |           |                                 | 8556                |
| 2008 |           |                                 | 89                  |
| 2009 |           |                                 | 6421                |
| 2010 |           |                                 | 15243               |
| 2011 |           |                                 | 11400               |
| 2012 |           |                                 | 9236                |
| 2013 |           |                                 | 5085                |
| 2014 |           |                                 | -2858               |
| 2015 |           |                                 | 2616                |
| 2016 |           |                                 | -1038               |
| 2017 | January   | -9                              | -9                  |
|      | February  | -436                            | -445                |
|      | March     | -550                            | -994                |
|      | April     | 917                             | -78                 |
|      | May       | -59                             | -136                |
|      | June      | -569                            | -706                |
|      | July      | -678                            | -1384               |
|      | August    | -7                              | -1391               |
|      | September | 24                              | -1367               |
|      | October   | -368                            | -1735               |
|      | November  | -44                             | -1780               |
|      | December  | 917                             | -863                |
| 2018 | January   | -531                            | -531                |
|      | February  | -429                            | -961                |
|      | March     | -266                            | -1227               |
|      | April     | -270                            | -1497               |
|      | May       | -583                            | -2080               |
|      | June      | -1177                           | -3257               |
|      | July      | -455                            | -3712               |
|      | August    | 1272                            | -2440               |
|      | September | -2696                           | -5136               |
|      | October   | -458                            | -5594               |
|      | November  | 847                             | -4747               |
|      | December  | 2442                            | -2306               |
