Q1 2022

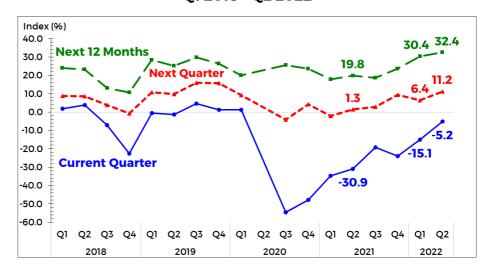

CONSUMER EXPECTATIONS SURVEY

Second Quarter 2022

Consumer Confidence Improves in Q2 and for Q3 2022, and the Next 12 Months

Nationwide Consumer Outlook

Figure 1. **Overall Consumer Outlook Index Philippines** Q1 2018 - Q2 2022

in Q2 2022...

Consumer The consumer sentiment in the country was less pessimistic in sentiment is Q2 2022, as the overall confidence index (CI)2 improved to less pessimistic -5.2 percent from -15.1 percent in Q1 2022. The higher CI, albeit remaining negative, indicated that the number of households with optimistic views increased, but was still less than those with pessimistic views. According to the respondents, their improved outlook in Q2 2022 was brought about by their expectations of: (a) availability of more jobs and permanent employment, (b) positive developments related to the COVID-19 situation, such as declining number of COVID-19 cases and the consequent easing of travel and social gathering restrictions, and (c) additional and high income.

> The sentiment of consumers was also less pessimistic in Colombia, Israel and Japan, while the outlook of consumers in

The Consumer Expectations Survey (CES) is a quarterly survey of a random sample of about 5,000 households in the Philippines. Results of the CES provide advance indication of consumer sentiments for the current and next quarters and the next 12 months, as reflected in the overall CI, as well as in the selected economic indicators. The Q2 2022 CES was conducted during the period 25 April to 5 May 2022.

² The CI is computed as the percentage of households that answered in the affirmative less the percentage of households that answered in the negative with respect to their views on a given indicator. A positive CI indicates a favorable view, except for the inflation rate and the peso borrowing rate, where a positive CI indicates the opposite.

Australia, Czech Republic, Poland, Taiwan, United Kingdom and United States was more pessimistic.³

next 12 months.

... and more Similarly, the consumer sentiment turned more upbeat for the optimistic for next quarter and the next 12 months as the CIs increased to the next 11.2 percent (from 6.4 percent) and 32.4 percent (from quarter and the 30.4 percent), respectively. Survey respondents attributed their more favorable outlook in the near term to expectations of: (a) more available jobs, (b) good governance, (c) positive developments in the COVID-19 situation, and (d) additional and high income.

Figure 2. **Consumer Outlook Index by Component Indicator** Q1 2020 - Q2 2022

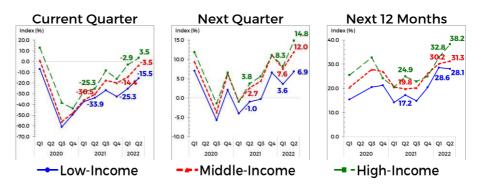

In Q2 2022, The consumer sentiment improved in Q2 2022 as the less consumer pessimistic outlook was observed across the three component outlook indicators, namely: country's economic condition, family's improves financial situation, and family income. Likewise, the consumer across the outlook across the component indicators for Q3 2022 turned three more buoyant as their corresponding indices became more component positive. Meanwhile, the sentiment for the next 12 months was indicators... more optimistic for the economic condition of the country and family's financial situation, but was steady for family income.

³ CI of other countries can be accessed via the following links: https://www.conference-board.org/data/ consumerconfidence.cfm. http://www.tradingeconomics.com/, http://ww.roymorgan.com/morganpoll/ http://ec.europa.eu/economy_finance/db_indicators/surveys/index_en.htm. consumer-confidence. and Switzerland releases quarterly consumer confidence index. However, Australia, Canada, Columbia, Czech Republic, euro area, Finland, France, Indonesia, Israel, Italy, Japan, Netherlands, Poland, South Korea, Taiwan, Thailand, Turkey, United Kingdom, and the United States record their consumer confidence index monthly. Meanwhile, for cross-country assessment of the consumer sentiment, the latest CI level was compared with the CI level of the previous reference period.

Figure 3. **Consumer Outlook Index by Income Group** Q1 2020 - Q2 2022

income groups.

...and across Consistent with the national trend, consumer confidence across income groups also improved in Q2 2022. Aside from the reasons previously cited for the less pessimistic outlook in the current quarter, the low-income group anticipated good governance as another reason for their more favorable sentiment in the current quarter.

> The outlook of consumers across income groups was more optimistic for the next quarter compared with the previous survey's results. Meanwhile, the sentiment for the next 12 months remained steady for the low-income group, but was more optimistic for the middle- and high-income groups.4

NCR and AONCR Consumer Outlook

Figure 4. **Consumer Outlook Index for NCR and AONCR** Q1 2020 - Q2 2022

⁴ Low-income group refers to households with monthly family income of less than ₱10,000. Middle-income group refers to households with monthly family income between ₱10,000 and ₱29,999. High-income group refers to households with monthly family income of more than \$30,000. Starting Q1 2019, the monthly family income is estimated using the income of the respondent, spouse, and other family members as well as the OFW remittances received in the last 12 months.

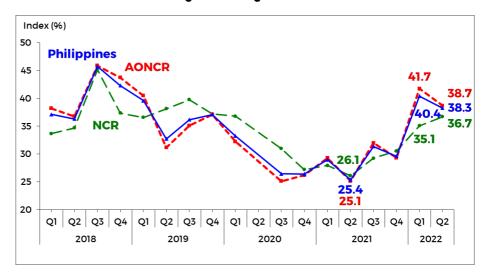

Consumer Mirroring the national trend, the consumer sentiment in both confidence in the National Capital Region (NCR) and Areas Outside the NCR the NCR and (AONCR) improved in Q2 2022. The less negative outlook in AONCR both the NCR and AONCR was reflected in all three improves in components of consumer confidence. In addition to the Q2 2022. reasons cited by consumers for their less pessimistic outlook in the current quarter, respondents in AONCR attributed their improved sentiment to expectations of good governance.

> For Q3 2022, the consumer outlook in both the NCR and AONCR was more favorable compared with that of the previous survey's results. Meanwhile, for the next 12 months, consumer confidence remained steady in the NCR, but improved in AONCR.

Expenditures on Basic Goods and Services

Figure 5. **Confidence Index: Expenditures for the Next Quarter** Q1 2018 - Q2 2022

Consumer Meanwhile, the households' spending outlook on goods and spending is less services for Q3 2022 was less upbeat as the CI declined to upbeat for 38.3 percent from 40.4 percent in the Q1 2022 survey result. This Q3 2022. suggests that while more respondents continue to expect higher spending on basic goods and services, a moderation in spending among consumers is expected for Q3 2022, which may reflect adjustments in their spending pattern related to their expectations of higher inflation outlook in Q3 2022. By geographical location, consumer spending for Q3 2022 was expected to increase in the NCR, but to decrease in AONCR.

In terms of spending by type of consumer item for Q3 2022, more respondents indicated higher expenditure allocation to clothing and footwear, and restaurants and cafés. In contrast, respondents indicated lower spending for food, beverages and tobacco, electricity, fuel, transportation, and personal care and effects. Meanwhile, households' spending on house rent and water, medical care, communication, furnishing, education, recreation and culture remained unchanged compared with their spending outlook in the Q1 2022 survey.

Expenditures on Big-Ticket Items: Consumer Durables, Motor Vehicle and Housing

Buying The percentage of households in the country that considered sentiment for Q2 2022 as a favorable time to buy big-ticket items increased to big-ticket 15.2 percent from 12.4 percent in Q1 2022. The improved outlook items in on buying conditions in Q2 2022 was evident across the three Q2 2022 is big-ticket items, namely, consumer durables, motor vehicles, more buoyant. and houses and lots. Likewise, the consumers' outlook on buying conditions in both the NCR and AONCR was more upbeat in the current quarter as opposed to their sentiments in the previous quarter.

items

For the next Further, the percentage of households in the country that 12 months, considered the next 12 months as a favorable time to buy buying big-ticket items remained steady at 6 percent from 5.7 percent intentions for in Q1 2022. Buying intentions in both the NCR and AONCR, and big-ticket for all three big-ticket items followed the national trend.

remained The percentage of households that plan to buy/acquire real steady. property within the next 12 months decreased slightly to 5.6 percent from 6.3 percent in the Q1 2022 survey results. This can be attributed to the decline in the number of households that plan to acquire single-detached houses (at 33.4 from 51.2 percent) and agricultural lots (at 12.2 from 12.5 percent).

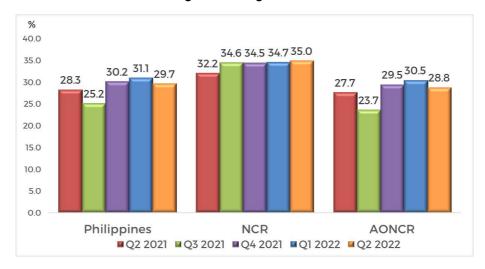

> When asked about the price range of real properties they intend to purchase for the next 12 months, majority, or 57 percent, of the households indicated a range of \$\mathbb{P}\$450,000 and below. Meanwhile, 30.7 percent and 12.3 percent of households plan to buy a house and/or lot worth ₱450,001 to ₱1,700,000 and ₱1,700,001 and above, respectively.5

⁵ Beginning Q2 2018, questions on the type and the amount of house and/or lot intended to be bought by households have been added to the CES questionnaire. The property strata were based on the Housing and Land Use Regulatory Board Memorandum Circular No. 13 series of 2017.

Savings Behavior

Figure 6. **Percentage of Households with Savings** Q2 2021 - Q2 2022

The percentage In Q2 2022, the percentage of households with savings declined of households to 29.7 percent from 31.1 percent in Q1 2022. This was observed with savings across all income groups. By geographical area, the number of decreases savers in the NCR remained steady, but declined in AONCR. in Q2 2022. According to the respondents, they saved money for the following reasons: (a) emergencies, (b) health and medical expenses, (c) retirement, (d) education, (e) housing, and (f) business capital and investment.

Q2 2022.

Similarly, the Respondents with savings kept their money, wholly or partially, percentage of in various institutions. Among savers, 69.3 percent kept their households savings in a bank, lower than the 71 percent in Q1 2022. with savings Meanwhile, 50.6 percent (from 44.8 percent) kept their savings accounts in at home, and 35.7 percent (from 36.6 percent) considered other banks also institutions such as cooperatives, paluwagan, credit/loan decreases in associations, investments, and other institutions (e.g., microfinance and insurance)⁶ for safekeeping of their savings.7

> When asked if households would set aside money for savings in Q2 2022, the percentage of respondents that answered affirmatively increased to 34.3 percent from 32 percent in

⁶ Cooperatives are duly registered associations of at least fifteen (15) persons with a common bond of interest who voluntarily join to achieve a lawful common social and economic end. Associations are organizations of people with a common purpose and having a formal structure. Paluwagan refers to an organization that pools the participants' money, by means of daily, weekly, or monthly collections to be collected by a leader. The participants will cast lots to determine the order by which each of the members will receive the pooled money.

⁷ The question on the preferred savings institution/s of households allows for multiple responses. Hence, the sum of the proportion of households with savings in banks, at home, and in other institutions may exceed 100 percent.

Q1 2022. Notably, the percentage of those that would set aside between 5 and 9 percent of their monthly gross family income for savings increased to 31.7 percent from 29.3 percent in the previous quarter. Conversely, the percentage of respondents that would set aside less than 5 percent of their gross monthly family income for savings declined to 33.5 percent from 35.5 percent a quarter ago. Meanwhile, the percentage of those that would set aside at least 10 percent for their savings remained steady at 34.8 percent from 35.2 percent in Q1 2022.

Selected Economic Indicators

rate to decline. 12 months. interest rates to rise, and the peso to depreciate in Q2 2022, and for Q3 2022 and the next 12 months.

Consumers anticipate that interest rates may increase, the peso expect the may depreciate against the U.S. dollar, and the unemployment unemployment rate may decline in Q2 2022, and for Q3 2022 and the next

Inflation may Households also expect that the prices of consumer goods and breach the services may rise faster in Q2 2022, and for Q3 2022 and the next target range of 12 months.8 This stemmed from their concerns over higher 2 to 4 percent. household spending for food and utilities, and limited supply of goods and services.

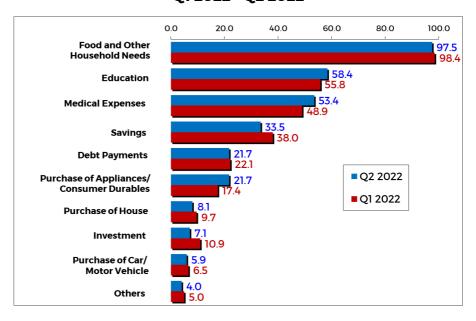

> In particular, consumers expect that the inflation rate will breach the upper end of the government's inflation target range of 2 to 4 percent for 2022 – at 5.7 percent for the next 12 months.

⁸ Starting Q2 2022, questions on the direction of the respondents' inflation rate expectations in the current quarter, and for the next quarter and the next 12 months have been added to the CES questionnaire.

Expenditures of Overseas Filipino Workers (OFWs)

Figure 7. **Uses of OFW Remittances (% to total OFW households)** Q1 2022 - Q2 2022

OFW In Q2 2022, 97.5 percent of the 322 OFW household respondents remittances are indicated that remittance proceeds were used for food and still mainly other household needs, which was slightly lower than the used for food 98.4 percent recorded in Q1 2022. The percentage of OFW and other households that allotted part of their remittances for savings household (33.5 percent), debt payments (21.7 percent), purchase of house needs, (8.1 percent), investments (7.1 percent), and purchase of motor education, and vehicles (5.9 percent) also declined from the Q1 2022 survey medical results. Meanwhile, the percentage of OFW households that expenses in apportioned their remittances for education (58.4 percent), Q2 2022. medical expenses (53.4 percent) and purchase of consumer durables (21.7 percent) increased compared with the previous survey's results.

> In terms of the utilization pattern of remittances by area, a larger percentage of OFW households in the NCR allotted part of their remittances to food and other household needs, medical expenses, savings, purchase of consumer durables, purchase of house, and investments than in AONCR.

Respondent's and/or Spouse's Debt Situation⁹

About 1 in every In Q2 2022, 24.7 percent availed of a loan in the last 12 months, 4 households lower than the 25.8 percent recorded in Q1 2022. By income availed of a group, the highest percentage of households that availed of a loan in the last loan in the last 12 months belonged to the middle-income 12 months. group at 39.5 percent, followed by the low- and high-income groups at 33.2 percent and 27.3 percent, respectively.

> By geographical area, the percentage of households that availed of a loan in the last 12 months was higher in AONCR (25.7 percent) than in the NCR (18.1 percent).

> Credit access was easy for the 24.7 percent of households that availed of a loan, with the CI unchanged at 91.4 percent. For respondents who found it difficult to apply for a loan, some reasons they cited include: (a) too many or difficulty in completing requirements, (b) lack of collateral, and (c) income is too low to support loan application.

12 months are households). goods.

Loan proceeds Most household respondents used their loan proceeds in the in the last last 12 months to purchase basic goods (51.9 percent of followed by business start-up/expansion mainly used to (26.9 percent), payment of other debts (13 percent), purchase basic health-related expenses (10.2 percent), and education-related expenses (8.6 percent). Respondents also indicated that loans used to purchase real estate (22.9 percent) accounted for the biggest percentage share of total outstanding loans. This was followed by business start-up/expansion (20.9 percent), purchase of basic goods (17.1 percent), purchase of vehicles (14.1 percent), and health-related expenses (5.9 percent). Furthermore, respondents reported that 85.2 percent of their loans were paid on schedule, 8.5 percent were behind schedule, while 6.3 percent were ahead of schedule.

> In the last 12 months, the loans availed by majority of households (83.9 percent) were uncollaterized.¹⁰ Meanwhile, households that availed of a secured loan used the following assets as collaterals: ATM account¹¹ (4.3 percent), harvest proceeds (1.5 percent), other real properties (1.5 percent), and vehicles (1.4 percent).

⁹ Beginning Q2 2018, questions on the respondent and/or spouse debt situation have been added to the CES questionnaire.

¹⁰ Most of the uncollateralized loans availed by the respondents in the last 12 months were provided by relatives and friends (32.4 percent), lending companies (21.5 percent), and individual money lenders (13.8 percent). These uncollateralized loans were mainly used for purchase of basic goods (40.6 percent) and business start-up/expansion (18.4 percent).

¹¹ Refers to "Sangla ATM" practice.

Relatives and friends (29.8 percent) were the top loan providers in Q2 2022. This is followed by lending companies (20.3 percent), individual money lenders (13.7 percent), banks (11.2 percent), and cooperatives (7.5 percent).

Less than 10 percent of respondents plan to apply for a loan in Q3 2022 and the next 12 months.

Less than There are 7 percent and 9.9 percent of households that 10 percent of expressed their intention to apply for a loan in the next quarter respondents and the next 12 months, respectively.

About the Survey

5,287 households nationwide participated in the survey

5,287 The Consumer Expectations Survey (CES) started in Q3 2004 households covering only the NCR. Beginning Q1 2007, the BSP has nationwide expanded the survey's scope to cover the whole country.

The Q2 2022 CES was conducted during the period **25 April to 5 May 2022**. The CES samples were drawn from the Philippine Statistics Authority's (PSA) Master Sample of Households, which is considered as a representative sample of households nationwide. The CES sample households were generated using a stratified multi-stage probability sampling scheme. ¹³

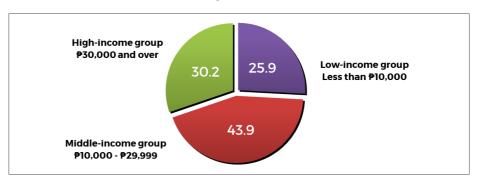

In Q2 2022 CES, 5,437 households were surveyed – 2,716 (50 percent) were from the NCR and 2,721 (50 percent) from AONCR. Of these households, 5,287 participated in the survey, equivalent to a response rate of 97.2 percent. Respondents consisted of 2,627 households in the NCR (with 96.7 percent response rate) and 2,660 households in AONCR (with 97.8 percent response rate). The middle-income group comprised the largest percentage of respondents (43.9 percent), followed by the high-income group (30.2 percent) and the low-income group (25.9 percent).

¹² Approval for the conduct of the Q2 2022 CES was issued on 11 January 2022 through PSA Approval No. BSP-2169.

¹⁵ The Master Sample was subdivided into Primary Sampling Units (PSU) (i.e., a whole barangay or a portion of a large barangay or combinations of small barangays), which were ordered according to the following: (1) North-South/West-East Geographic location; (2) Decreasing Population of Households with Overseas Workers; and (3) Decreasing Wealth index. Sample households were then drawn from each of the systematically selected sample PSUs.

Figure 8.
Percentage of Respondents by Income Group
Q2 2022

Technical Notes

The overall consumer confidence index is computed as the average of the three indices, namely:

- 1. <u>Economic Condition</u> refers to the perception of the respondent regarding the general economic condition of the country.
- 2. <u>Family's Financial Situation</u> refers to the level of: (a) household income in cash as well as in kind, (b) savings, (c) outstanding debts, (d) investments, and (e) assets.
- 3. <u>Family Income</u> includes primary income and receipts from other sources received by all family members as participants in any economic activity or as recipients of transfers, pensions, grants, and the like.

¹ Starting Q2 2022, the questionnaire was enhanced to include expectations on the direction of the inflation rate in the current quarter, and for the next quarter and the next 12 months.

A quarterly survey conducted by the Department of Economic Statistics

² Starting Q2 2022, computation of the Inflation Rate (Pt. Forecast) was changed into the average of the expected range of inflation rate specified by the respondents.
