Key Highlights

Massive Infrastructure Investment Push for Long-Term Economic Growth

Government targets public infrastructure spending of 5%-6% of GDP from 2022 to 2028 to drive economic growth, improve quality of life and address infrastructure gaps. Under the Administration's "Build Better More" program, 186 Infrastructure Flagship Projects (IFP) worth PHP9.6 trillion (US\$167.9 billion) across several key sectors, with physical connectivity leading in both project count and cost. Other significant sectors include water resources, agriculture, health, digital connectivity.

Improved Regulatory and Business Environment

Key measures in place include Public-Private Partnership (PPP) Code, Amended Public Service Act, and Executive Orders No. 18 and 59, which promote private sector participation and streamline permitting processes.

PPP is Vital to IFP Strategy

IFPs are financed through national government allocations, official development assistance, or PPPs. There are 35 PPP projects in the IFP that present viable investment opportunities. PPPs are envisioned to foster innovation, operational efficiency, and private sector engagement.

Philippine Infrastructure Push: Investment Opportunity

“Build Better More” program to help ensure country’s sustainable, robust, and inclusive growth

^{1/} Infrastructure Outlays figures for 2010-2018 are obligation-based; 2019 onwards are cash-based.

Infrastructure programs/activities/projects (PAPs) under Philippine Development Plan’s 2023-2028 Public Investment Program (US\$225.1bn)

186

Projects amounting to PHP9.6tn (US\$167.9bn) have been identified as Infrastructure Flagship Projects (IFP), which are urgently needed infrastructure projects of national significance.

Promoting an Enabling Policy and Regulatory Environment Conducive to Investment

Public Private Partnership Code (Republic Act (RA) No. 11966)

- Update project approval thresholds for Build-Operate-Transfer (BOT) projects, which were set 29 years ago, while allowing Department of Economy, Planning and Development’s (DEPdev) Investment Coordination Committee to review, evaluate, and update
 - ✓ Projects costing PHP15bn(US\$263.2mn) and above (previously above PHP300mn/US\$5.3mn) will need Economic and Development Council approval.
- Allow unsolicited proposals in list of PPP projects without new concept or technology requirement, subject to reimbursement of government’s development costs.
- Uphold and retain local autonomy while providing mechanisms to ensure harmonized investment programming between local government units and the NG
- Establish a predictable tariff regime to protect public interest while encouraging private investment

Philippine Infrastructure Push: Investment Opportunity

Amended Public Service Act (RA No. 11659) allows 100% foreign ownership of public services, including telecoms, airports, railways, shipping, and expressways

Executive Order No. 18 create Green Lane units in all government offices to streamline and expedite processing of permit and licenses for Strategic Investments, enhance ease of doing business, and attract more foreign direct investment

Executive Order No. 59 streamline IFP permitting process

Administrative Order No. 19 create interagency committee tasked with coordinating and streamlining Right-of-Way activities for national railway projects

Pipeline Priority Reforms

Proposed Amendments to the Right of Way Act improve process of acquiring land for government infrastructure projects to prevent delays in infrastructure projects

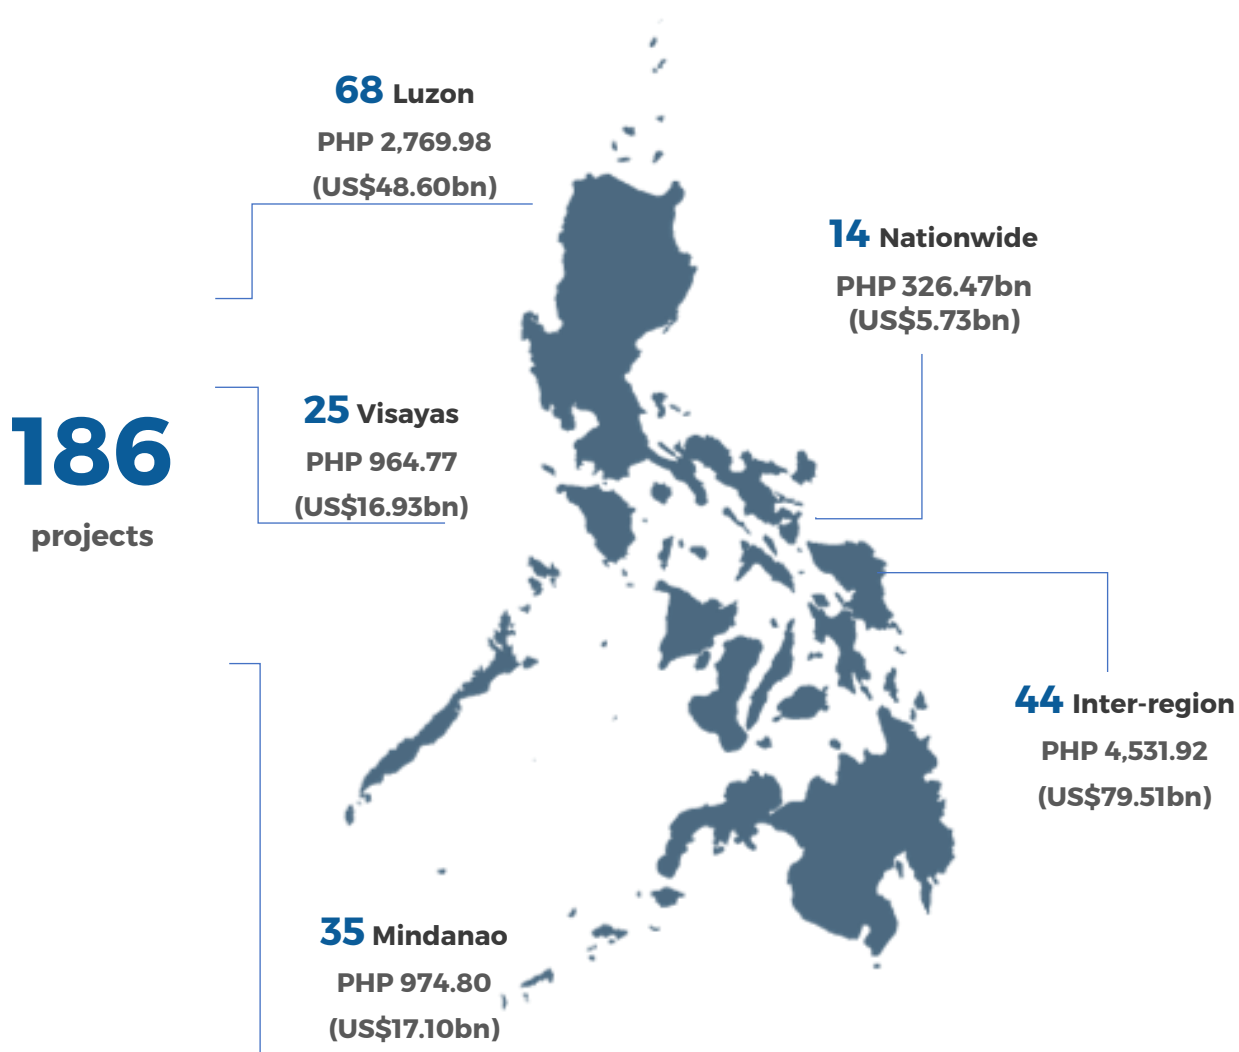

Konektadong Pinoy Act (Open Access in Data Transmission Act) dismantle barriers to market entry and foster a more competitive and inclusive telecommunications sector through infrastructure sharing and reforms to the spectrum management

National Water Resources Management Act establish a comprehensive national framework for water resource management through the creation of Department of Water Resources and Water Regulatory Commission
