

MANUAL OF REGULATIONS

FOR NON-BANKS

December 2019

FOREWORD

The Manual of Regulations for Non-Bank Financial Institutions (MORNBFI) is designed to be an authoritative codification of regulations governing non-bank financial institutions (NBFIs) supervised by, or are under the regulatory ambit of, the Bangko Sentral ng Pilipinas (Bangko Sentral) such as quasi-banks (QB), non-stock savings and loan associations (NSSLAs), pawnshops, trust corporations, non-bank credit card issuers and other NBFIs.

The MORNBFI organizes the Bangko Sentral rules and policy issuances that implement the broader provisions of Republic Act (R.A.) No. 8791 (The General Banking Law of 2000) for quasi-banks, and other pertinent laws and regulations governing above-mentioned NBFIs.

While the MORNBFI provides the rules governing the operations of pertinent NBFIs in the country, it also serves as a useful reference for any individual, institution or agency with an active interest in NBFIs.

As the Bangko Sentral pursues its strategic financial sector reforms that are aligned with international standards and best practices, it is essential that the regulatory issuances implementing such reforms are reflected in the MORNBFI in a prompt manner. Thus, the Bangko Sentral will continuously enhance the digital MORNBFI with the end view of enhancing user experience.

This edition covers rules and regulations issued as of end-December 2019.

BENJAMIN E. DIOKNO
Governor

PREFACE

Manual of Regulations for Non-Bank Financial Institutions

The Manual of Regulations for Non-Bank Financial Institutions (MORNBFI) serves as the principal source of banking regulations issued by the Monetary Board of the Bangko Sentral. The 31 December 2020 MORNBFI edition contains the latest updates and amendments on banking regulations. It also covers adoption of international standards and best practices, as well as amendments to existing policies.

The Monetary Board, in its Resolution No. 1203 dated 07 December 1994, directed the creation of a multi-departmental Ad Hoc Review Committee with representatives from the then Supervision and Examination Sector (SES), renamed as the Financial Supervision Sector (FSS)¹ and the Office of the General Counsel and Legal Services (OGCLS). The Committee was officially constituted under Office Order No. 2 series of 1995, with the latest reconstitution under Office Order No. 0373 dated 05 February 2018. The Committee has the following functions:

1. Update the Manual of Regulations for Banks (MORB) and the MORNBFI (collectively referred herein as the “Manuals”) on a continuing basis;
2. Issue clearance to proposed Circulars;
3. Effect corrections/revisions to the Manuals to ensure consistency and good order; and

¹ Effective 02 May 2018 under Office Order No. 1061 dated 11 April 2018.

4. Oversee the posting of the Manuals in the BSP Website.

Cognizant of the value of digital technology to enhance efficiency, the MOR Committee embarked on a project to digitize the Manuals to improve usability as well as the timeliness of incorporating regulatory updates to the Manuals. The Task Force on the Creation of the New Manual of Regulations for Banks and Non-Bank Financial Institutions (Task Force) was constituted under Office Order No. 0374 dated 05 February 2018 to undertake the said project. Following the recommendation of the Task Force, the New Digital MORNBFI as of 31 December 2018 was approved by the Monetary Board and was issued under Circular No. 1066 dated 4 December 2019.

The MOR Committee is composed of: Ms. Chuchi G. Fonacier, Deputy Governor, FSS, Adviser; Ms. Veronica B. Bayangos, Director, Supervisory Policy and Research Department (SPRD),² Chairman; Atty. Asma A. Panda, Deputy General Counsel, OGCLS, Vice Chairman, and other senior officers from the following: Financial Supervision Sub-sector I (FSSS I), FSSS II, FSSS III, Policy and Specialized Supervision Sub-Sector (PSSS) and OGCLS.

The Committee Secretariat is composed of SPRD personnel led by Ms. Ma. Cecilia U. Contreras, Supervision and Examination Specialist II, and assisted by Ms. Jessa Camille D. Ramos and Mr. Eden P. Bansuan, both Supervision and Examination Analyst II.

The Bangko Sentral ng Pilipinas

² The renaming of the Office of Supervisory Policy Development (OSPD) to SPRD was approved pursuant to Monetary Board Resolution No. 2106 dated 14 December 2018.

USER'S GUIDE

The Manual of Regulations for Non-Bank Financial Institutions (the “Manual”) covers:

1. Q-Regulations (*Regulations Governing NBFIs Performing Quasi-Banking Functions*) which is divided into eleven (11) parts with the following topics:

Part	Topic
I	Organization, Management and Administration
II	Deposit Substitutes, Borrowings and Other Liabilities
III	Loans, Investments and Special Credits
IV	Trust, Other Fiduciary Business and Investment Management Activities
V	Foreign Exchange Operations
VI	Treasury and Money Market Operations
VII	Electronic Services and Operations
VIII	Regulations on Payment Systems
IX	Anti-Money Laundering Regulations
X	Bangko Sentral Regulations on Financial Consumer Protection
XI	Other Non-Banking Regulations

2. S-Regulations (*Regulations Governing Non-Stock Savings and Loan Associations*) which is divided into eight (8) parts with the following topics:

Part	Topic
I	Organization, Management and Administration
II	Deposit and Borrowing Operations
III	Loans and Investments
IV	Electronic Services and Operations
V	Regulations on Payment Systems
VI	Anti-Money Laundering Regulations
VII	Bangko Sentral Regulations on Financial Consumer Protection
VIII	Other NSSLA Regulations

3. P-Regulations (*Regulations Governing Pawnshops*) which is divided into seven (7) parts with the following topics:

Part	Topic
I	Pawnshop Business - Organization, Management and Administration
II	Borrowing Operations
III	Pawning Operations
IV	Regulations on Payment Systems
V	Anti-Money Laundering Regulations
VI	Bangko Sentral Regulations on Financial Consumer Protection
VII	Miscellaneous

4. T-Regulations (*Regulations Governing Trust Corporations*) which is divided into four (4) parts with the following topics:

Part	Topic
I	Organization, Management and Administration
II	Asset Management Operations
III	Trust, Other Fiduciary Business and Investment Management Activities
IV	Other Regulations

5. CC-Regulations (*Regulations Governing Non-Bank Credit Card Issuers*) consists only of one (1) part, i.e., “Organization, Management and Administration”.

6. N-Regulations (*Regulations Governing Other NBFIs*) which is divided into ten (10) parts with the following topics:

Part	Topic
I	Organization, Management and Administration
II	Borrowing Operations
III	Loans, Investments and Special Credits
IV	Electronic Services and Operations
V	Regulations on Payment Systems
VI	Anti-Money Laundering Regulations
VII	Financial Consumer Protection
VIII	Other Regulations
IX	Regulations Specific to Money Service Business Operations
X	Other Regulations Applicable to Specific Types of Non-Bank Financial Institutions

Each Part is further divided into Sections. For clearer, simple and citation-friendly numbering, a suffix is added to the Section number to indicate the specific book or type of non-bank financial institution it applies to, as follows:

Suffix	Type of Non-Bank Financial Institution
Q	Quasi-Banking
S	Non-Stock Savings and Loan Associations (NSSLAs)
P	Pawnshops
N	Other Non-Bank Financial Institutions
T	Trust Corporations
CC	Non-Bank Credit Card Issuers

The last two digits refer to the Section number, while the first digit/s refers to the Part number of the Manual.

The following examples illustrate the format arrangement per Section:

Example: Section 101-Q

TABLE OF CONTENTS

POWERS OF THE BANGKO SENTRAL TO EXAMINE QUASI-BANKS

Section	001-Q	Examination by the Bangko Sentral
Section	002-Q	Supervisory Enforcement Policy
Section	003-Q	Prompt Corrective Action Framework

PART ONE - ORGANIZATION, MANAGEMENT AND ADMINISTRATION

A. SCOPE OF AUTHORITY AND OPERATIONS OF QUASI-BANKS

Section	101-Q	Scope of Quasi-Banking
Section	102-Q	Basic Guidelines in Establishing Quasi-Banks
Section	103-Q	Mergers and Acquisitions
Section	104-Q	Establishment of Branches and Other Offices
Section	105-Q	Quasi-Bank Premises and Other Fixed Assets

B. SPECIAL AUTHORITIES

Section	111-Q	Licensing
---------	-------	-----------

C. CAPITALIZATION AND RISK-BASED CAPITAL

Section	121-Q	Minimum Required Capital
Section	122-Q	Deposits for Stock Subscription
Section	123-Q	Dividends
Section	124-Q	Basel I Risk-Based Capital
Section	125-Q	Basel III Risk-Based Capital
Section	126-Q	Domestic Systematically Important Banks
Section	127-Q	Basel III Leverage Ratio Framework
Section	128-Q	Treatment of Equity Investment with Reciprocal Stockholdings
Section	129-Q	Sanctions on Net Worth Deficiency
Section	130-Q	Internal Capital Adequacy Assessment Process and Supervisory Review Process

D. CORPORATE GOVERNANCE GUIDELINES

Section	131-Q	Policy Statement and Definition of Terms
Section	132-Q	Board of Directors
Section	133-Q	Board-Level Committees
Section	134-Q	Officers
Section	135-Q	Remuneration and Other Incentives
Section	136-Q	Confirmation of the Election/Appointment of Directors and Officers, Bio-data of Directors and Officers, Interlocking Directorships and/or Officerships, Rules of procedure on Administrative Cases Involving Directors and Officers of BSFIs
Section	137-Q	Disqualification of Directors/Trustees and Officers

E. RISK MANAGEMENT

Section	141-Q	Supervision by Risk
Section	142-Q	Risk Governance Framework
Section	143-Q	Credit Risk Management
Section	144-Q	Market Risk Management
Section	145-Q	Liquidity Risk Management
Section	146-Q	Operation Risk Management
Section	147-Q	Information Technology Risk Management
Section	148-Q	Business Continuity Management
Section	149-Q	Social Media Risk Management
Section	150-Q	Management on Interest Rate Risk in the Banking Book

F. COMPLIANCE, INTERNAL CONTROL AND AUDIT

Section	161-Q	Compliance Framework
Section	162-Q	Internal Control Framework
Section	163-Q	Internal Audit Function
Section	164-Q	Framework on the Selection of External Auditors

G. REPORTING GOVERNANCE

Section	171-Q	Records
Section	172-Q	Reports
Section	173-Q	Audited Financial Statements
Section	174-Q	Public Disclosures

H. CONDUCTION BUSINES IN AN UNSAFE OR UNSOUND MANNER

Section	181-Q	Conducting Business in an Unsafe or Unsound Manner
----------------	--------------	--

PART TWO - DEPOSIT SUBSTITUTES, BORROWINGS AND OTHER LIABILITIES

A. DEPOSIT SUBSTITUTE OPERATIONS

Section	201-Q	Deposit Substitute Instruments
Section	202-Q	Minimum Trading Lot
Section	203-Q	Money Market Placements of Rural Banks
Section	204-Q	Without Recourse Transactions
Section	205-Q	Issuance of Bonds and Commercial Papers

B. RESERVES

Section	211-Q	Reserves Against Deposit Substitutes
Section	212-Q	Composition of Reserves
Section	213-Q	Exemptions from Reserve Requirements
Section	214-Q	Computation of Reserves Position
Section	215-Q	Reserve Deficiencies; Sanctions

C. INTEREST

Section	221-Q	Yield/Interest Rates
----------------	--------------	----------------------

D. BORROWINGS FROM THE BANGKO SENTRAL

Section	231-Q	Repurchase Agreements with the Bangko Sentral
Section	232-Q	Enhanced Intraday Liquidity Facility

E. OTHER BORROWINGS

Section	241-Q	Borrowings from the Government
Section	242-Q	Borrowings from Banks, Quasi-banks and Other Financial Intermediaries

F. OTHER LIABILITIES

Section	251-Q	Disclosure of Remittance Charges and Other Relevant Information
----------------	--------------	---

PART THREE – LOANS, INVESTMENTS AND SPECIAL CREDITS

A. GENERAL PROVISIONS ON LENDING OPERATIONS

Section	301-Q	Grant of Loans and Other Credit Accommodations
Section	302-Q	Secured Loans and Other Credit Accommodations
Section	303-Q	Past Due Accounts and Non-Performing Loans
Section	304-Q	Interest and Other Charges
Section	305-Q	“Truth in Lending Act” Disclosure Requirement

B. TYPES OF LOANS AND CREDITS

Section	311-Q	Agricultural Loans
Section	312-Q	Interbank Loans

C. LOANS AND OTHER CREDIT ACCOMMODATIONS TO DIRECTORS, OFFICERS, STOCKHOLDERS AND THEIR RELATED INTERESTS/SUBSIDIARIES/AFFILIATES

Section	321-Q	Policy Statement
Section	322-Q	Transactions, Covered and Not Covered
Section	323-Q	Loans, Other Credit Accommodations and Guarantees Granted to Subsidiaries and/or Affiliates
Section	324-Q	Direct or Indirect Borrowings
Section	325-Q	Individual Ceiling
Section	326-Q	Aggregate Ceiling
Section	327-Q	Credit Accommodations Under Officers, Fringe Benefit Plans
Section	328-Q	Procedural and Reportorial Requirements
Section	329-Q	Supervisory Enforcement Actions
Section	330-Q	Applicability to Government Borrowings in Government- Owned or – Controlled Quasi-Banks

D. CREDIT CONCENTRATION AND PRUDENTIAL LIMITS

Section	341-Q	Large Exposures and Credit Risk Concentrations
Section	342-Q	Credit Exposure Limit to a Single Borrower

E. EQUITY INVESTMENTS

Section	351-Q	Investment in Non-Allied Undertakings
---------	-------	---------------------------------------

F. SUNDRY PROVISIONS

Section	361-Q	Purchase of Receivables and Other Obligations
Section	362-Q	Acquired Assets in Settlement of Loans

PART FOUR – TRUST, OTHER FIDUCIARY BUSINESS AND INVESTMENT MANAGEMENT ACTIVITIES

A. STATEMENT OF PRINCIPLES AND SCOPE

Section	401-Q	Statement of Principles
Section	402-Q	Scope of Regulations
Section	403-Q	Definitions

B. TRUST AND OTHER FIDUCIARY BUSINESS

Section	411-Q	Authority to Perform Trust and Other Fiduciary Business
Section	412-Q	Organization and Management
Section	413-Q	Trust and Other Fiduciary Business
Section	414-Q	Unit Investment Trust Funds
Section	415-Q	Investment Management Activities
Section	416-Q	Security for the Faithful Performance of Trust and Other Fiduciary Business
Section	417-Q	Reserves Against Trust and Other Fiduciary Accounts (TOFA)-Others
Section	418-Q	Required Retained Earnings Appropriation
Section	419-Q	Unsafe or Unsound Manner

C. INVESTMENT MANAGEMENT ACTIVITIES

Section	421-Q	Authority to Perform Investment Management
Section	422-Q	Organization and Management
Section	423-Q	Conduct of Investment Management Activities
Section	424-Q	Security for the Faithful Performance of Investment Management Activities
Section	425-Q	Required Retained Earnings Appropriation
Section	426-Q	Unsound Manner

D. GENERAL PROVISIONS

Section	431-Q	Securities Custodianship and Securities Registry Operations
Section	432-Q	Custody of Assets
Section	433-Q	Fees and Commissions
Section	434-Q	Taxes
Section	435-Q	Books, Records and Reports Required
Section	436-Q	Audits
Section	437-Q	Authority Resulting from Merger or Consolidation
Section	438-Q	Non-Trust, Non-Fiduciary and/or Non-Investment Management Activities
Section	439-Q	Receivership

Section	440-Q	Surrender of Trust or Investment Management License
---------	-------	---

E. GENERAL PROVISION ON SANCTIONS

Section	499-Q	Sanctions
---------	-------	-----------

PART FIVE – FOREIGN EXCHANGE OPERATIONS

Section	501-Q	Authority; Coverage
Section	502-Q	Specific Foreign Exchange Activities
Section	503-Q	Separate Department
Section	504-Q	Applicability of Pertinent Bangko Sentral Rules

PART SIX – TREASURY AND MONEY MARKET OPERATIONS

A. MONETARY OPERATIONS OF THE BANGKO SENTRAL

Section	601-Q	Monetary Operations
---------	-------	---------------------

B. TREASURE OPERATIONS

Section	611-Q	Treasury Operations
Section	612-Q	Sales and Marketing Guidelines for Financial Products
Section	613-Q	Derivatives Activities
Section	614-Q	Investment Activities of Bangko Sentral-Supervised Financial Institutions (BSFIs)

C. FINANCIAL INSTRUMENTS

Section	621-Q	Forward and Swap Transactions
Section	622-Q	Asset-Backed Securities

PART SEVEN – ELECTRONIC PAYMENT AND FINANCIAL SERVICES

Section	701-Q	Policy Statement
Section	702-Q	Issuance and Operations of Electronic Money

PART EIGHT – NATIONAL RETAIL PAYMENT SYSTEM

Section	801-Q	National Retail Payment System (NRPS) Framework
Section	802-Q	Settlement of Instant Retail Payments
Section	803-Q	Participation in Automated Clearing Houses (ACHs)

**PART NINE – ANTI-MONEY LAUNDERING (AML) AND
COMBATTING THE FINANCING OF TERRORISM REGULATIONS**

Section	901-Q	Bangko Sentral Authority to Check Compliance with the AMLA, as Amended
Section	902-Q	Policy Statement
Section	903-Q	Scope of Regulations
Section	904-Q	Definition of Terms
Section	905-Q	Basic Principles and Policies to Combat Money Laundering

A. RISK MANAGEMENT

Section	911-Q	Risk Management
----------------	--------------	-----------------

B. PREVENTIVE MEASURES

Section	921-Q	Customer Due Diligence
Section	922-Q	Covered and Suspicious Transaction Reporting
Section	923-Q	Additional Preventive Measures for Specific Customers and Activities
Section	924-Q	Record Keeping

C. TRAINING PROGRAM

Section	931-Q	AML Training Program
----------------	--------------	----------------------

D. ENFORCEMENT ACTIONS

Section	941-Q	Sanctions and Penalties
Section	942-Q	Separability Clause

PART TEN – BANGKO SENTRAL REGULATIONS ON FINAINCIAL CONSUMER PROTECTION

Section	1001-Q	Financial Consumer Protection Framework
Section	1002-Q	Policies and Procedures, Consumer Protection Standards of Conduct
Section	1003-Q	Enforcement Actions

PART ELEVEN – OTHER NON-BANK REGULATIONS

A. FEES/CHARGES

Section	1101-Q	Assessment Fees on Quasi-Banks
Section	1102-Q	Payment of Monetary Penalties and Other Charges

B. PHILIPPINE & FOREIGN CURRENCT NOTES AND COINS

Section	1111-Q	Philippine and Foreign Currency Notes and Coins
----------------	---------------	---

C. PERSONAL EQUITY AND RETIREMENT ACCOUNT (PERA)

Section	1121-Q	PERA Market Participants and PERA Investment Products
----------------	---------------	---

D. CREDIT RATING AGENCIES

Section	1131-Q	Recognition and Derecognition of Domestic Credit Rating Agencies for Quasi-Bank Supervisory Purposes
----------------	---------------	--

Section	1132-Q	Internationally Accepted Credit Rating Agencies
----------------	---------------	---

E. OTHERS

Section	1141-Q	Underwriting by Investment Houses
----------------	---------------	-----------------------------------

Section	1142-Q	Regulatory Relief Policy
----------------	---------------	--------------------------

POWERS OF THE BANGKO SENTRAL

001-Q EXAMINATION BY THE BANGKO SENTRAL

The Bangko Sentral shall have supervision over, and conduct periodic or special examinations of, Quasi-Banks (QBs), including their subsidiaries and affiliates in allied activities.

The head and examiners of the appropriate department of the Bangko Sentral are authorized to administer oaths to any director, officer, or employee of QBs, including their subsidiaries and affiliates engaged in allied activities, and to compel the presentation of all books, documents, papers or records necessary in their judgment to ascertain the facts relative to the true condition of the institution as well as the books and records of persons and entities relative to or in connection with the operations, activities or transactions of the institution under examination, subject to the provision of existing laws protecting or safeguarding the secrecy or confidentiality of investments of private persons, natural or juridical, in debt instruments issued by the Government.

The term "*examination*" shall refer to an investigation of an institution under the supervisory authority of the Bangko Sentral to determine whether the institution is operating on a safe and sound basis, inquire into its solvency and liquidity, and assess the effectiveness of its compliance function to ascertain that it is conducting business in accordance with laws and regulations. Regular or periodic examination shall be done, with an interval of twelve (12) months from the last date thereof. Special examination may be conducted earlier, or at shorter interval, when authorized by the Monetary Board by an affirmative vote of five (5) members.

In the full exercise of the supervisory powers of the Bangko Sentral, examination by the Bangko Sentral of institutions shall be complemented by overseeing thereof. In this regard, the term "*overseeing*" shall refer to a limited investigation of an institution, or any investigation that is limited in scope, conducted to inquire into a particular area/aspect of an institution's operations, for the purpose of overseeing that laws and regulations are complied with, inquiring into the solvency and liquidity of the institution, enforcing prompt corrective action, or such other matters requiring immediate investigation: *Provided*, That (i) specific authorizations be issued by the Deputy Governor of the supervision sector of the Bangko Sentral, and (ii) periodic summary reports on overseeing conducted be submitted to the Monetary Board.

- a. *Scope of examination.* Consistent with a risk-based approach to supervision, the scope of examination may include, but need not be limited to, the following:
 - (1) Appraisal of the overall quality of corporate governance;
 - (2) Assessment of the risk management system, which shall include the evaluation of the effectiveness of management oversight and self-assessment functions (e.g., internal audit, risk management and compliance); adequacy of policies, procedures, and limits; effectiveness of risk measurement, monitoring and management information system; and robustness of internal controls;
 - (3) Review of the institution's operations and overall risk profile;
 - (4) Evaluation of financial performance, capital adequacy, asset quality, and liquidity; and
 - (5) Any other activity relevant to the above.
- b. *Conduct of examination.* The conduct of examination shall include, but need not be limited to, the interview of any quasi-bank's directors, officers, and personnel; and the verification, review, and evaluation of documents and records, including making copies of the records, taking possession thereof and keeping them under the custody of the Bangko Sentral after giving proper receipts thereof.

For this purpose "*records*" shall refer to information, whether in its original form or otherwise, including documents, signatures, seals, texts, images, sounds, speeches, or data compiled, recorded or stored, as the case may be: (1) in written form on any material; (2) on film, negative, tape or other medium so as to be capable of being reproduced; or (3) by means of any recording device or process, computer or other electronic device or process and regardless of whether these information are stored and kept by the BSFI or another entity duly authorized by the BSFI (e.g., technology service provider). Records shall also include audio, photographic, and video evidence of events, acts, or transactions of the BSFI, including all records of communication, oral (e.g., voice recordings) or written (e.g., letters) of officers and employees of the BSFI: *Provided*, That the recording was made in connection with the performance of the official functions of the concerned officers or employees and coursed through BSFI- issued computers, telephones, mobile phones, and similar devices.

Refusal to permit examination. Any act or omission that impedes, delays or obstructs the duly authorized Bangko Sentral examiner from conducting an examination of a BSFI, including the act of refusing to accept or honor the letter of authority to examine presented by the examiner of the Bangko Sentral, shall be considered as a refusal to permit examination.

The refusal of the BSFI to permit examination shall be reported by the Bangko Sentral examiner to the head of the appropriate department of the Bangko Sentral, who shall forthwith make a written demand upon the BSFI concerned for such examination. If the BSFI continues to refuse the said examination without any satisfactory explanation thereof, a report on such refusal shall be submitted by the Bangko Sentral examiner concerned to the said Department Head.

Sanctions. A BSFI that wilfully refuses to permit examination shall pay a fine of P30,000 per day from the day of the refusal and for as long as such refusal lasts, without prejudice to the sanctions under Section 34 of R.A. No. 7653.

The fine shall be imposed starting on the day following the receipt by the concerned Head of Department in the supervising sector of the report from the Bangko Sentral examiner that the BSFI continues to refuse to permit examination notwithstanding with written demand made by Department Head.

Aside from the fine mentioned above, the BSFI and/or its concerned directors and/or officers may be subject to non-monetary sanctions provided under Section 37 of R.A. No. 7653 (The New Central Bank Act) and Sec 4009Q.

(Circular No. 957 dated 17 April 2017)

002-Q SUPERVISORY ENFORCEMENT POLICY

The Policy sets forth guidance on the Bangko Sentral's supervision-by-risk framework. It also puts together in a holistic manner all the enforcement tools available to the Bangko Sentral as contained in various laws and rules and regulations¹ and communicates the deployment thereof in a consistent manner by the Bangko Sentral in the course of performing its supervisory function. It further sets out the guiding principles and objectives behind the deployment of such enforcement actions.

Nothing in this Section shall be construed as superseding enforcement actions previously imposed against Bangko Sentral-supervised FIs pursuant to existing laws, Bangko Sentral rules and regulations.

a. Statement of policy and rationale

The Bangko Sentral is issuing this Supervisory Enforcement Policy to provide guidance in its supervision-by-risk framework. The Bangko Sentral recognizes that risk-taking is integral to a financial institution's business. The existence of risk is not necessarily a reason for concern so long as Management exhibits the ability to effectively manage that level of risk and operates the financial institution (FI) in a safe and sound manner. Thus, when risk is not properly managed, the Bangko Sentral may deploy a wide range of enforcement actions provided under existing laws, Bangko Sentral rules and regulations, taking into consideration the nature and extent of the supervisory issues and concerns and the level of cooperation provided by Management.

The Bangko Sentral adopts a holistic approach to supervision with the objective of guiding FIs under its supervision to mitigate risk and achieve the desired changes.

Bangko Sentral's risk-based supervision, of which enforcement action is a key part, focuses on the safety and soundness of operations of the FIs. This policy sets forth the expectations of the Bangko Sentral when it deploys enforcement action and the consequences when expected actions are not performed within prescribed timelines.

Thus, this over-arching policy is needed - (a) as a collation of various enforcement actions already present in various laws, rules and regulations; (b) for better guidance of the FIs and the bank supervisors; and (c) as a means to broadcast to the banking/financial industry the consequences of failure to address the Bangko Sentral requirements and supervisory expectations.

b. Objectives of the enforcement policy.

The Bangko Sentral's Supervisory Enforcement Policy aims to achieve the following two (2) key objectives:

- (1) Achieving the desired change. Effect a change in the overall condition and governance of Bangko Sentral-supervised FIs consistent with the expectations set under relevant laws and regulations; and

¹ Section 4 of R.A. No. 8791 (General Banking Law of 2000) defines the scope of Bangko Sentral's supervisory powers, which may be grouped into three (3) categories: (i) issuance of rules; (ii) examination and investigation; and (iii) enforcement of Prompt Corrective Action (PCA)

- (2) Mitigating risk. Mitigate risks to the FIs and other stakeholders in order to maintain the stability of the financial system.
- c. General principles

The Bangko Sentral, in the deployment of enforcement actions, is guided by the following general principles:

- (1) Root cause diagnosis. The enforcement action addresses the underlying cause of the supervisory issues and concerns.
- (2) Consistently matching the severity of enforcement action to the supervisory issue. The deployment of appropriate enforcement action is commensurate to the severity of the supervisory issues and concerns. The severity of the supervisory issues and concerns is assessed in terms of prevalence² and persistence.
- (3) Successive or simultaneous deployment of enforcement actions. Enforcement actions may be deployed successively or simultaneously taking into account the nature and seriousness of the difficulties encountered by the FIs and the ability and willingness of the FI's Management to address the supervisory issues and concerns.
- (4) Monitorability and follow-through. The Bangko Sentral monitors the FI's progress/compliance with the expected actions to address the supervisory issues, concerns and problems.
- (5) Escalation of enforcement actions. Enforcement actions may be escalated if the desired change is not achieved and the root causes of the FI's issues, concerns and problems are not addressed by the FI within prescribed timelines.

d. Categories of enforcement actions

The three (3) main categories of enforcement action are: (1) corrective actions, (2) sanctions and (3) other supervisory actions. These enforcement actions may be imposed singly or in combination with others.

(a) Corrective actions

Corrective actions are enforcement actions intended to require the FI to address the underlying cause of supervisory issues, concerns and problems. These include the following:

(i) Bangko Sentral Directives

Directives are basically orders and instructions communicated by the appropriate supervising department in Bangko Sentral requiring the FI to undertake a specific positive action or refrain from performing a particular activity within a prescribed timeline.

(ii) Letter of Commitment (LOC)

The LOC is an enforcement action where the FI's Board of Directors (Board) is required, upon approval and/or confirmation by the Monetary Board, to make a written commitment to undertake a specific positive action or refrain from performing a particular activity with a given time period.

The LOC is generally used to arrest emerging supervisory concerns before these develop into serious weaknesses or problems, or to address remaining supervisory issues and concerns.

(b) Sanctions

Sanctions that may be imposed on an FI and/or its directors and officers, as provided under existing laws, Bangko Sentral rules and regulations, are subject to the prior approval and/or confirmation by the Monetary Board. Such sanctions include the following:

(i) FIs

- Restrictions on activities and privileges
- Suspension of authorities, privileges and other activities
- Divestment and/or Unwinding
- Monetary sanction - penalties/fines Against the FI

² Prevalence pertains to the pervasiveness of the supervisory issues, concerns and problems in relation to their impact on the FI's solvency, asset quality, operating performance and liquidity, among others.

- (ii) Directors and officers
 - Reprimand
 - Restriction on compensation and benefits
 - Divestment
 - Suspension
 - Disqualification
 - Removal
 - Monetary penalties/fines

The foregoing sanctions to individuals are without prejudice to the filing of separate civil or criminal actions against them, when appropriate.

(c) Other supervisory actions

Subject to prior Monetary Board approval, the Bangko Sentral, when warranted, may deploy other supervisory actions such as:

- (i) Initiation into the PCA Framework;
- (ii) Issuance of a cease and desist order (CDO) against the FI as well as its directors and officers;
- (iii) Conservatorship; and
- (iv) Placement under receivership.

(d) Due process

An integral part of the deployment of enforcement actions is the observance of due process in all cases.

The FI and/or its directors and officers are afforded fair and reasonable opportunity to explain their side and to submit evidence/s in support thereof, which are given due consideration in determining the appropriate enforcement action(s) to be imposed.

(Circular No., as amended by Circular Nos. 903 dated 29 February 2016, 894 dated 07 December 2015, 875 dated 15 April 2015)

003-Q PROMPT CORRECTIVE ACTION FRAMEWORK

The framework for the enforcement of prompt corrective action (PCA) on banks which is in *Appendix Q-40*, shall govern the PCA taken on QBs to the extent applicable, or by analogy.

PART ONE

ORGANIZATION, MANAGEMENT AND ADMINISTRATION

A. SCOPE OF AUTHORITY AND OPERATIONS OF QUASI-BANKS

101-Q SCOPE OF QUASI-BANKING

Quasi-banking functions consist of the following:

- a. Borrowing funds for the borrower's own account;
- b. Twenty (20) or more lenders at any one time;
- c. Methods of borrowing: issuance, endorsement, or acceptance of debt instruments of any kind, other than deposits, such as:
 - (1) acceptances;
 - (2) promissory notes;
 - (3) participations;
 - (4) certificates of assignment or similar instruments with recourse;
 - (5) trust certificates;
 - (6) repurchase (repo) agreements; and
 - (7) such other instruments as the Monetary Board may determine; and
- d. Purpose:
 - (1) relending;
 - (2) purchasing receivables or other obligations.

As used in the definition of *quasi-banking functions*, the following terms and phrases shall be understood, as follows:

Borrowing shall refer to all forms of obtaining or raising funds through any of the methods and for any of the purposes provided in Items "c" and "d" above, whether the borrower's liability thereby is treated as real or contingent.

For the borrower's own account shall refer to the assumption of liability in one's own capacity and not in representation, or as an agent or trustee, of another.

Lenders shall refer to individuals and corporate entities that are not banks, quasi-banks or other financial intermediaries as provided herein.

Purchasing of receivables or other obligations shall refer to the acquisition of claims collectible in money or securities of any amount and maturity from domestic or foreign sources.

Relending shall refer to the extension of loans by an institution with antecedent borrowing transactions. Relending shall be presumed in the absence of express stipulation, when the institution is regularly engaged in lending.

Regularly engaged in lending shall refer to the practice of extending loans, advances, discounts or rediscounts as a matter of business, i.e., continuous or consistent lending as distinguished from isolated lending transactions.

Financial intermediaries. *Financial intermediaries* shall mean persons or entities whose principal functions include the lending, investing or placement of funds or evidences of indebtedness or equity deposited with them, acquired by them, or otherwise coursed through them either for their own account or for the account of others.

Principal shall mean chief, main, most considerable or important, of first importance, leading, primary, foremost, dominant or preponderant, as distinguished from secondary or incidental.

Functions shall mean actions, activities or operations of a person or entity by which his/its business or purpose is fulfilled or carried out. The business or purpose of a person or entity may be determined from the purpose clause in its articles of incorporation/partnership, and from the nature of the business indicated in his/its application for registration of business filed with the appropriate government agency.

To be considered a financial intermediary, a person or entity must perform any of the following functions on a regular and recurring, not on an isolated basis:

- a. Receive funds from one (1) group of persons, irrespective of number, through traditional deposits, or issuance of debt or equity securities; and make available/lend these funds to another person or entity, and in the process acquire debt or equity securities;
- b. Use principally the funds received for acquiring various types of debt or equity securities;
- c. Borrow against, or lend on, or buy or sell debt or equity securities;
- d. Hold assets consisting principally of debt or equity securities such as promissory notes, bills of exchange, mortgages, stocks, bonds, and commercial papers;
- e. Realize regular income in the nature of, but need not be limited to, interest, discounts, capital gains, underwriting fees, guarantees, fees, commissions, and service fees, principally from transactions in debt or equity securities or by being an intermediary between suppliers and users of funds.

Non-banking financial intermediaries shall include the following:

- (1) A person or entity licensed and/or registered with any government regulatory body as a non-bank financial intermediary, such as investment house (IH), investment company, financing company, securities dealer/broker, lending investor (IH), pawnshop, money broker, fund manager, cooperative, insurance company, non-stock savings and loan association (NSSLA) and building and loan association.
- (2) A person or entity which holds itself out as a non-banking financial intermediary, such as by the use of a business name, which includes the term financing, finance, investment, lending and/or any word/phrase of similar import which connotes financial intermediation, or an entity which advertises itself as a financial intermediary and is engaged in the function(s) where financial intermediation is implied.
- (3) A person or entity performing any of the functions enumerated in Items "a" to "e" above.

Guidelines on lender count. The following guidelines shall govern lender count on borrowings or funds mobilized by non-bank financial intermediaries:

- a. For purposes of ascertaining the number of lenders/placers to determine whether or not a non-bank financial intermediary is engaged in quasi-banking functions, the names of payees on the face of each debt instrument shall serve as the primary basis for counting the lenders/placers except when proof to the contrary is adduced such as the official receipts or documents other than the debt instrument itself. In such case the actual/real lenders/placers as appearing in such proof, shall be the basis for counting the number of lenders/placers.

In a debt instrument issued to two (2) or more named payees under an and/or and or arrangement, the number of payees appearing on the instrument shall be the basis for counting the number of lenders/placers: *Provided, however,* That a debt instrument issued in the name of a husband and wife followed by the word spouses, whether under an and, and/or or arrangement or in the name of a designated payee under an in trust for (ITF) arrangement, shall be counted as one (1) borrowing/placement.

- b. Each debt instrument payable to bearer shall be counted as one (1) lender/placer except when the non-bank financial intermediary can prove that there is only one (1) owner for several debt instruments so payable.
- c. Two (2) or more debt instruments issued to the same payee, irrespective of the date and amount shall be counted as one (1) borrowing or placement.
- d. Debt instruments underwritten by IHS or traded by securities dealers/brokers whether on a firm, standby or best efforts basis shall be counted on the basis of the number of purchasers thereof and shall not be treated as having been issued solely to the underwriter or trader: *Provided, however,* That in case of unsold debt instruments in a firm commitment underwriting, the underwriter shall be counted as a lender.
- e. Each buyer, assignee, and/or indorsee shall be counted in determining the number of lenders/placers of funds mobilized through sale, assignment, and/or indorsement of securities, or receivables on a without recourse basis, whenever the terms and/or attendant documentation, practice, or circumstances indicate that the sale, assignment, and/or indorsement thereof legally obligates the non-bank financial intermediary to repurchase or reacquire the securities/receivables sold, assigned, indorsed or to pay the buyer, assignee, or indorsee at some subsequent time.
- f. Funds obtained by way of advances from stockholders, directors, officers, regardless of nature, shall be considered borrowed funds or funds mobilized and such stockholders, directors or officers shall be counted in determining the number of lenders/placers.

Transactions not considered quasi-banking. The following shall not constitute quasi-banking:

- a. Borrowing by commercial, industrial and other non-financial companies, through the means listed in this Section for the limited purpose of financing their own needs or the needs of their agents or dealers; and
- b. The mere buying and selling without recourse of instruments mentioned in this Section: *Provided, That:*

- (1) The institution selling without recourse shall indicate or stamp in conspicuous print on the instrument/s, as well as on the confirmation of sale (COS), the phrase without recourse or sans recourse and the following statement:

(Name of financial intermediary)
assumes no liability for the payment, directly or indirectly, of this instrument.

- (2) In the absence of the phrase without recourse or sans recourse and the above-required accompanying statement, the instrument so issued, endorsed or accepted shall automatically be considered as falling within the purview of the rules on quasi-banking.

Provided, further, That any of the following practices or practices similar and/or tantamount thereto in connection with a without recourse transaction renders such transaction as with recourse and within the purview of the rules on quasi-banking.

- (a) Issuance of postdated checks by a financial intermediary, whether for its own account or as an agent of the debt instrument issuer, in payment of the debt instrument sold, assigned or transferred without recourse;
- (b) Issuance by a financial intermediary of any form of guaranty on sale transactions or on negotiations or assignment of debt instruments without recourse; or
- (c) Payment with the funds of the financial intermediary which assigned, sold or transferred the debt instrument without recourse, unless the financial intermediary can show that the issuer has with the said financial intermediary funds corresponding to the amount of the obligation.

Any IH violating the provisions of this Section on Transactions not considered quasi-banking shall be subject to the sanctions provided in Sections 12 and 16 of P.D. No. 129, as amended.

Delivery of securities.

- a. Securities sold on a without recourse basis allowed under Item “b” of this Section on Transactions not considered quasi-banking shall be delivered directly to the purchaser or to the purchaser’s designated Bangko Sentral accredited securities custodian or SEC authorized central securities depository in accordance with the guidelines set forth in *Appendix Q-37*. The securities custodian shall hold the securities in the name of the buyer: *Provided,* That a QB/non-bank financial institution (NBFI)/other entity authorized by the Bangko Sentral to perform custodianship function or an SEC-authorized central securities depository may not be allowed to be custodian/depository of securities issued or sold by said custodian or central securities depository, by entities belonging to the same financial conglomerate or banking group as that of the custodian or depository, or of securities in bearer form.

The delivery shall be effected upon payment and shall be evidenced by a securities delivery receipt duly signed by the authorized officer of the custodian/central securities depository and delivered to the purchaser.

Sanctions. Violation of any provision of this Section on Delivery of securities shall be subject to the following sanctions/penalties:

- (1) Monetary penalties

First offense -Fine of P10,000 a day for each violation reckoned from the date the violation was committed up to the date it was corrected.

Subsequent offenses -Fine of P20,000 a day for each violation reckoned from the date the violation was committed up to the date it was corrected.

- (2) Other sanctions

First offense -Reprimand for the directors/officers responsible for the violation.

Subsequent offense –

- (a) Suspension for ninety (90) days without pay of directors/officers responsible for the violation;

- (b) Suspension or revocation of the accreditation to perform custodianship function;
 - (c) Suspension or revocation of the authority to engage in quasi-banking function; and/or
 - (d) Suspension or revocation of the authority to engage in trust and other fiduciary business.
- b. The guidelines to implement the delivery by the seller of securities to the buyer or to his designated securities custodian or central securities depository are shown in *Appendix Q-37*.

The guidelines on the delivery of government securities to the investor's principal securities account with the RoSS are in *Appendix Q-38*.

Sanctions. Without prejudice to the penal and administrative sanctions provided for under Sections 36 and 37, respectively of R.A. No. 7653 (The New Central Bank Act), violation of any provision of the guidelines in *Appendix Q-37* shall be subject to the following sanctions/penalties depending on the gravity of the offense:

- (a) *First offense* –
 - (1) Fine of up to P10,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
 - (2) Reprimand for the directors/officers responsible for the violation.
- (b) *Second offense* –
 - (1) Fine of up to P20,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
 - (2) Suspension for ninety (90) days without pay of directors/officers responsible for the violation.
- (c) *Subsequent offenses* –
 - (1) Fine of up to P30,000 a day for the institution for each violation from the date the violation was committed up to the date it was corrected; and
 - (2) Suspension for 120 days without pay of the directors/officers responsible for the violation.

Sale, discounting, assignment or negotiation by quasi-banks of their credit rights arising from claims against the Bangko Sentral to clients. Pursuant to the policy of the Bangko Sentral to promote investor protection and transparency in securities transactions as important components of capital markets development, placements in the Term Deposit Facility (TDF), the Overnight Deposit Facility (ODF) and Reverse Repurchase agreements with the Bangko Sentral, shall not be the subject of sale, discounting, assignment or negotiation on a with or without recourse basis.

Any violation of the provisions of this Section on Sale, discounting, assignment or negotiation by quasi-banks of their credit rights arising from claims against the Bangko Sentral to clients shall subject the QB and the director/s and/or officer/s concerned to the sanctions provided under Sec. 002-Q.

Applicability of rules governing universal banks to quasi-banks. In case of conflict between rules applicable to banks with universal banking authority and those applicable to QBs in activities where they perform the same functions, the rules governing banks with universal banking authority shall prevail.

(Circular No. 1061 dated 25 November 2019 and 873 dated 25 March 2015)

102-Q BASIC GUIDELINES IN ESTABLISHING QUASI-BANKS

It is the policy of the Bangko Sentral to promote the development of the domestic financial market so as to foster a sound, efficient and inclusive financial system fully supportive of sustainable economic growth. Towards this end, the grant of authority to engage in quasi-banking functions to IHs and finance companies shall be allowed subject to the following conditions:

- a. That quasi-banking activities shall be undertaken by the institution concerned to pursue its core business, i.e., underwriting of securities of other corporations and of the government or its instrumentalities, participating as soliciting dealer or selling group member in tender offers, block sales, or exchange offering of securities, and dealing in options, rights or warrants relating to securities and such other powers which a dealer may exercise under the Securities Regulation Code (SRC), in the case of IHs, and discounting or factoring commercial papers or accounts receivable, or by buying and selling contracts, leases, chattel mortgages (CHMs), or other evidences of indebtedness, or by leasing of motor vehicles, heavy equipment and industrial machinery, business and office machines and equipment, appliances and other movable property, or granting business and consumer loans, in the case of finance companies;

- b. That the institution concerned shall fully inform investors of the nature of a deposit substitute instrument, e.g., that it is not covered by the Philippine Deposit Insurance Corporation (PDIC), that pre-termination thereof is subject to penalty, where applicable, and such other material risks involved in investing in such instrument; and
- c. That the institution concerned shall conduct effective investor suitability testing procedures.

Preconditions for the exercise of quasi-banking functions. No person or entity shall engage in quasi-banking functions without authority from the Bangko Sentral. Only a duly incorporated IH and finance company may undertake or perform quasi-banking functions as defined in Sec. 101-Q. An institution securing Bangko Sentral authority to engage in quasi-banking functions must meet the following requirements:

- a. It must have complied with the minimum adjusted capital accounts of at least P300.0 million or such amounts as may be required by the Monetary Board in the future;
- b. It has generally complied with applicable laws, rules and regulations, orders or instructions of appropriate authority, including the Monetary Board and/or Bangko Sentral Management where applicable;
- c. Its accounting records, systems and procedures as well as internal control systems are satisfactorily maintained;
- d. It does not have float items outstanding for more than sixty (60) calendar days in the "Due From/To Head Office/Branches/Offices" accounts exceeding one percent (1%) of the total resources as of end of preceding month;
- e. It has no past due obligation with any FI as of date of application;
- f. The officers who will be in-charge of the quasi-banking operations have actual experience of at least two (2) years in a bank or QB as in-charge (or at least as assistant-in-charge). The directors of the institution, officer-in-charge of the quasi-banking operations and the managerial staff must comply with the fit and proper rule prescribed under existing law/rules and regulations;
- g. The institution has elected at least two (2) independent directors and all its directors have attended the required seminar for directors of QBs conducted or accredited by the Bangko Sentral;
- h. It has not conducted business in an unsafe or unsound manner during the past six (6) months immediately preceding the date of application where applicable; and
- i. It must have in place a comprehensive risk management system approved by its board of directors appropriate to its operations characterized by a clear delineation of responsibility for risk management, adequate risk measurement systems, appropriately structured risk limits, effective internal control and complete, timely and efficient risk reporting systems. In this connection, a manual of operations and other related documents embodying the risk management system must be submitted to the appropriate supervising department of the Bangko Sentral at the time of application for authority and within thirty (30) days from updates.

Application for a Certificate of Authority from the Bangko Sentral¹. An institution securing the Bangko Sentral's Certificate of Authority to engage in quasi-banking functions shall file an application with the appropriate supervising department of the Bangko Sentral. The application shall be signed by the president or officer of equivalent rank of the institution and shall be accompanied by the following documents:

- a. Certified true copy of the resolution of the board of directors of the institution authorizing the application;
- b. A certification signed by the president or officer of equivalent rank that:
 - (1) the institution has complied with all conditions/prerequisites for the grant of authority to engage in quasi-banking functions;
 - (2) quasi-banking functions shall be pursued/undertaken by the institution in the furtherance of its core business, e.g., underwriting of and dealing in securities of other corporations and of the government or its instrumentalities, in the case of IHs, and leasing and/or discounting/factoring commercial papers or accounts receivable, or granting business and consumer loans, in the case of finance companies;
 - (3) investors shall be informed that their investments/placements are not insured by the PDIC and that any pre-termination thereof shall be subject to penalty, if applicable, as well as all other material risks; and
 - (4) investors shall be subjected to effective investor suitability testing procedures;

¹ See SEC Circular Nos. 5 dated 17 July 2008, 3 dated 16 February 2006 and 14 dated 24 October 2000.

- c. An information sheet;
- d. Bio-data signed under oath, of the members of the managerial staff who will undertake quasi-banking operations; and
- e. Borrowing-investment program for one (1) year, and annually thereafter on or before November 30, which should include at the minimum:

(1) planned distribution of portfolios as to:

- (a) underwriting;
- (b) commercial papers;
- (c) stocks and bonds;
- (d) government securities (GS);
- (e) receivables financing, discounting and factoring;
- (f) leasing; and
- (g) direct loans;

(2) expected sources of funds to support investment program classified as to:

- (a) maturity: short, medium and long-term;
- (b) interest rates; and
- (c) domestic or foreign sources whether institutional or personal.

Issuance of Bangko Sentral Certificate of Authority. The Bangko Sentral shall issue a Certificate of Authority upon proof that the applicant has complied with the requirements of Sec. 102-Q and of pertinent laws and regulations.

In the case of a merger or consolidation of two (2) or more QBs, the authority shall continue to have full force and effect. For documentation purposes, in the case of a merger, the Certificate of Authority of the absorbing corporation shall be maintained; and with respect to consolidation, a new certificate shall be issued to the new corporation. The Certificate of Authority of the absorbed corporation in a merger and the certificates of the consolidated corporations in a consolidation shall be surrendered to the appropriate supervising department of the Bangko Sentral.

Licensing of an Investment House. Applications for license as an IH referred to the Bangko Sentral by the Securities and Exchange Commission (SEC) pursuant to P.D. No. 129 shall be evaluated in accordance with the Guidelines to Evaluate Investment Houses prescribed in *Appendix Q-1*.

Basic Laws Governing Investment Houses and Financing Companies. The following are the basic laws governing investment houses (IHs) and financing companies:

- a. *IHs.* P.D. No. 129, as amended, known as The Investment Houses Law, governs the establishment, operation and regulation of IHs. To effectively carry out the provisions of this Decree, the SEC, pursuant to the powers vested in it by said Decree, promulgated basic rules and regulations (*Appendix Q-20*) to implement the provisions of the Decree.
- b. *Financing companies.* R.A. No. 8556, known as The Financing Company Act of 1998, regulates the organization and operation of financing companies. To effectively carry out the provisions of this Act, the SEC, pursuant to the powers vested in it under said Act, promulgated basic rules and regulations to implement the provisions of the Act (*Appendix Q-21*).

103-Q MERGERS AND ACQUISITIONS

The merger/consolidation of QBs is encouraged to meet minimum capital requirements and to develop larger and stronger FIs. QBs which are IHs are likewise encouraged to merge with banks to obtain authority to perform expanded commercial banking functions.

For purposes of merger and consolidation of QBs, the following definitions shall apply:

- a. *Merger* is the absorption of one (1) or more corporations by another existing corporation, which retains its identity and takes over the rights, privileges, franchises, and properties, and assumes all the liabilities and obligations of the absorbed corporation(s) in the same manner as if it had itself incurred such liabilities or obligations. The absorbing corporation continues its existence while the life or lives of the other corporation(s) is/are terminated.
- b. *Consolidation* is the union of two (2) or more corporations into a single new corporation, called the consolidated corporation, all the constituent corporations thereby ceasing to exist as separate entities. The consolidated corporation shall thereupon and thereafter possess all the rights, privileges, immunities, franchises and properties, and assume all the liabilities and obligations of each of the constituent corporations in the same manner as if it had itself incurred such liabilities or obligations.

Requirement of Bangko Sentral approval. Mergers and consolidations involving QBs shall comply with the provisions of applicable law and shall be subject to approval by the Bangko Sentral. The guidelines and procedures in the application for merger/consolidation as shown in *Appendix Q-52* shall be observed by QBs.

Merger/consolidation incentives. In pursuance of the policy to promote mergers and consolidations among banks and other financial intermediaries, as well as purchases or acquisitions of majority or all of the outstanding shares of stock of a QB, as a means to develop larger and stronger FIs, constituent/participating entities may avail themselves of incentives or reliefs, subject to prior approval of the Monetary Board.

104-Q ESTABLISHMENT OF BRANCHES AND OTHER OFFICES

Prior Bangko Sentral authority shall be obtained before operating a branch, extension office or agency, including any arrangement whereby another person or entity is authorized to act as an agent for solicitation, issuance or servicing of deposit substitutes for the QB.

Agency arrangements shall refer to all or any type of services to be performed by another party as an agent other than collection agency for loans payable in installments/amortization, and paying agency under a definite and specific period for purposes of redeeming long-term notes and/or bonds.

Evaluation guideposts. The rate at which branches, agencies, extension offices, etc. are to be established shall depend upon the ability of the company to conduct operations from the head office, as well as correspondent/banking arrangements, and subject to the prudential criteria prescribed under Sec. 111-Q.

Additional capital, if required. An applicant QB may be required to put up additional capital in an amount to be determined by the appropriate supervising department of the Bangko Sentral, based on criteria which consider expected growth of risk assets and capital accounts and for this purpose, the methods of computing such additional capital, as shown in *Appendix Q-2*, shall be used.

Documentary requirements. All applications shall be supported by the following documents:

- a. Application letter signed by the president of the entity or officer of equivalent rank including justifications on how the license is aligned with the entity's business model and strategic direction with information on:
 - (1) Services to be offered, as well as any extension offices, etc. to be opened; and
 - (2) Areas to be served.
- b. Corporate secretary's certificate on the approval of the board of directors of the establishment of a branch; and
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer that the applicant entity has complied with all the prudential criteria prescribed under Sec. 111-Q.

Filing of applications. Applications for a certificate of authority to operate a branch, an extension office or an agency shall be filed with the SEC, which office shall refer the same to the appropriate supervising department of the Bangko Sentral for comments and recommendations. A copy of the application filed with the SEC, with the pertinent documents, shall simultaneously be furnished the appropriate supervising department of the Bangko Sentral for advance verification of the QB's compliance with the requirements under the provisions of Sec. 104-Q.

Period within which to submit complete requirements. The applicant QB shall have one (1) month from notice of the receipt of the SEC referral by the appropriate supervising department of the Bangko Sentral within which to submit/complete the requirements under this Section, after which the non-submission of complete documents shall cause the return of the application for the QB's lack of interest to pursue the same.

Prohibition against operating without Securities and Exchange Commission license. No branch, extension office or agency shall start operations unless the appropriate SEC license, which likewise serves as authorization for the branch/extension office/agency to perform quasi-banking functions, has been issued.

(Circular No. 1031 dated 07 February 2019)

105-Q QUASI-BANK PREMISES AND OTHER FIXED ASSETS

The following rules shall govern the premises and other fixed assets of QBs.

Appreciation or increase in book value. QB premises, furniture, fixtures and equipment shall be accounted for using the cost model under Philippine Accounting Standards (PAS) 16 "Property, Plant and Equipment." Outstanding appraisal increment as of 13 October 2005 arising from mergers and consolidation and other cases approved by the Monetary Board, shall be deemed part of the cost of the assets. However, appraisal increment previously allowed to be booked shall be reversed.

Accordingly, the booking of appreciation or increase in the book value of QB premises and other fixed assets in cases where the market value of the property has greatly increased since the original purchase is no longer allowed.

Reclassification of real and other properties acquired to QB premises, furniture, fixture and equipment; Sanctions. QBs may reclassify ROPA to QB premises, furniture, fixture and equipment, subject to the following conditions:

- a. Prior written approval of the majority of the members of the board of directors has been obtained for such reclassification. The approval shall be manifested in a resolution passed by the board of directors during a meeting and shall contain the following information:
 - (1) Date ROPA was acquired;
 - (2) Description of ROPA property;
 - (3) Outstanding balance of ROPA at the time of reclassification;
 - (4) Specific purpose for reclassifying said property to QB premises, furniture, fixture and equipment; and
 - (5) Justification and plan for expansion, in the case of real and other property earmarked for future use.
- Said resolution shall also be made available for inspection by Bangko Sentral examiners, together with the supporting records and documents involving the ROPA account; and
- b. Only such acquired asset, or a portion thereof, that will be (i) immediately used, or (ii) ready and available for use within a two (2)-year period from date of reclassification (in case of ROPA earmarked for future use) may be reclassified to QB premises, furniture, fixture and equipment;
- c. ROPA reclassified to QB Premises, Furniture, Fixture and Equipment shall be recorded at its net carrying amount where the amounts booked as cost, accumulated depreciation and allowances for losses for QB Premises, Furniture, Fixture and Equipment shall correspond to the balance of these accounts under ROPA at the time of reclassification. As such, the reclassification shall not give rise to any gains/(losses) being recognized in the QB books; and
- d. Said reclassification shall not cause the QB to exceed the prescribed ceiling on investment in real estate and improvements thereon, including QB equipment, provided under Sec. 109 (*Ceiling on total Investment*) of the MORB.

Within five (5) business days from date of reclassification, the QB shall submit the Certification on Compliance with Regulations on the Reclassification of ROPA to QB Premises, Furniture, Fixture and Equipment *Appendix 99*, signed by the president of the QB or officer of equivalent rank, to the appropriate supervising department of the Bangko Sentral. Said certification shall be accompanied by the certified true copy of the resolution of the QB's board of directors authorizing the reclassification.

Sanctions. The following sanctions shall be imposed for violations noted:

1. On the QB

a. Monetary fines

A QB which fails to comply with the provisions of this Section shall be subject to the appropriate monetary penalties under Sec. 1102-Q (*Guidelines on the imposition of monetary penalties*).

(1) *For non-submission of the required certification*

A QB which fails to submit the required Certification on Compliance with Regulations on the ROPA to QB Premises, Furniture, Fixture and Equipment or the certified true copy of the resolution of the board of directors authorizing said reclassification within the prescribed deadline shall be subject to the appropriate monetary penalties under Sec. 1102-Q (*Guidelines on the imposition of monetary penalties*) which shall be reckoned on a daily basis from the day following the due date of submission until the required certification on compliance or the certified true copy of the resolution of the board of directors is filed with the Bangko Sentral.

(2) *For false/misleading statements*

A QB which has been found to have willfully made a false or misleading statement in the required Certification on Compliance with Rules and Regulations on the ROPA to QB Premises, Furniture, Fixture and Equipment or in the certified true copy of the resolution of the QB board of directors shall be subject to the the appropriate monetary penalties under Sec. 1102-Q (*Guidelines on the imposition of monetary penalties*) for the willful making of a false or misleading statement which shall be reckoned on a daily basis from the day following the due date of the said certification until such time that an amended or corrected certification on compliance or certified true copy of the resolution of the board of directors has been submitted to the Bangko Sentral.

2. On the concerned directors/officers of the bank

- a. For willful non-compliance Directors/officers of the QB who willfully fail/refuse to comply with the provisions of this Section shall be subject to the appropriate monetary penalties under Sec. 1102-Q (*Guidelines on the imposition of monetary penalties*).
- b. For false/misleading statements Directors/officers of the QB which have been found to have willfully falsely certified or willfully submitted misleading statements in the required Certification on Compliance with the Regulation on the Reclassification of ROPA to QB Premises, Furniture, Fixture and Equipment or in the certified true copy of the resolution of the QB's board of directors shall be subject to the appropriate monetary penalties under Sec. 1102-Q (*Guidelines on the imposition of monetary penalties*), which shall be reckoned on a daily basis from the day following the due date of the said certification until such time that an amended or corrected certification on compliance or certified true copy of the resolution of the board of directors has been submitted to the Bangko Sentral.

The imposition of the above sanctions is without prejudice to the filing of appropriate criminal charges against culpable persons as provided under Section 35 of R.A. No. 7653 for the willful making of a false/misleading statement.

Batas Pambansa Blg. 344 – An Act to Enhance the Mobility of Disabled Persons by Requiring Certain Buildings, Institutions, Establishments and Public Utilities to Install Facilities and Other Devices. In order to promote the realization of the rights of disabled persons to participate fully in the social life and the development of the societies in which they live and the enjoyment of the opportunities available to other citizens, no license or permit for the construction, repair or renovation of public and private buildings for public use, educational institutions, airports, sports and recreation centers and complexes, shopping centers or establishments, public parking places, workplaces, public utilities, shall be granted or issued unless the owner or operator thereof shall install and incorporate in such building, establishment or public utility, such architectural facilities or structural features as shall reasonably enhance the mobility of disabled persons such as sidewalks, ramps, railings and the like. If feasible, all such existing buildings, institutions, establishments, or public utilities may be renovated or altered to enable the disabled persons to have access to them.

Republic Act No. 9994 – An act Granting Additional Benefits and Privileges to Senior Citizens, Further Amending Republic Act No. 7432 of 1992 as Amended by Republic Act No. 9257 of 2003. To be able to give full support to the improvement of the total well-being of the elderly and their full participation in society, and to motivate and encourage them to contribute to nation building, senior citizens shall be provided with express lanes in all quasi-banking establishments, including all their branches and other offices. If the provision of express lanes is logistically impossible in any particular branch or office of any QB, said branch or office shall ensure that senior citizens are accorded priority service. The provision of express lanes and/or priority service shall be made known to the general public through clearly written notice prominently displayed in the transaction counters of all QBs and/or offices.

(Circular Nos. 988 dated 20 December 2017)

B. SPECIAL AUTHORITIES

111-Q LICENSING

Policy statement and objectives. Consistent with the mandate of the Bangko Sentral to promote a safe and sound banking system, the licensing process on permissible activities of BSFI is enhanced to align the process with international standards and best practices such as the "Core Principles for Effective Supervision" issued by the Basel Committee on Banking Supervision. The Bangko Sentral will not restrict the scope of risk-taking activities of BSFIs consequent of the licenses and/or authorities granted: *Provided*, That these licenses and/or authorities are in line with their business model and strategic direction: *Provided, further*, That these BSFIs demonstrate the capacity to implement these strategies and the ability to manage risks.

The enhanced policy guidelines set forth the expectations and criteria of the Bangko Sentral with respect to granting of licenses and authorities as well as its right to reject applications if the criteria set forth are not met by the applicant BSFIs ("applicants") or if the information provided is not adequate. The Bangko Sentral also reserves the right to withdraw or revoke the license and/or authority or enforce appropriate actions when an institution no longer meets the criteria or standards required to be met for the exercise of the license and/or authority.

These criteria are intended to incorporate the licensing process into Bangko Sentral's enforcement regime that is anchored on good governance, sound risk management system and effective control systems. Further, these criteria aim to provide more consistency on how the risk-focused supervision function is applied to the licensing process. This enhanced licensing policy aims to ensure that licenses and authorities are granted only to applicants that comply with the standards set.

It is also the thrust of these enhanced policy guidelines on granting licenses/authorities to establish Bangko Sentral's accountability and promote transparency on the licensing process which are consistent with its commitment to deliver prompt and efficient service.

Scope. Applications for licenses and/or authorities shall be categorized as follows:

- a. *Type "A"* -applications for licenses and/or authorities where compliance with the defined prudential requirements/criteria described in this Section on Prudential Criteria is a pre-condition for applicants to be considered eligible;
- b. *Type "B"* -applications for licenses and/or authorities processed regardless of risk profile; and
- c. *Type "C"* -activities which no longer require submission of applications and processing but shall be subject to submission of reports/certification/notification within stated deadlines. However, compliance with pre-qualification requirements is subject to post verification and any false information and/or misrepresentation may be a basis for the imposition of appropriate enforcement actions described in this Section on *Enforcement actions*. The Bangko Sentral shall use this information to continuously tailor its supervisory strategy for the supervised entities and to maintain and continuously update its institutional database.

Prudential criteria. The prudential criteria set forth in this Section shall be used in determining the eligibility of applicants to the licenses and/or authorities granted by the Bangko Sentral. Accordingly, the following minimum conditions must be met:

- a. Applicant domestic banks must have a CAMELS composite rating of at least "3" and a *"Management"* rating of not lower than "3", branches of foreign banks must have a ROCA rating of at least "3", and BSFIs must have a RAS rating of at least *"Acceptable"*. Whenever applicable, ratings equivalent to cited minimum rating grade requirements under appropriate rating systems (i.e., Information Technology Rating Systems, Trust Rating Systems, among others) shall apply for certain licenses and/or authorities;
- b. Applicants have no major supervisory concerns in governance, risk management systems, and internal controls and compliance system, and characterize/demonstrate the following:

(1) Governance

Applicants must display a culture of good corporate governance appropriate to its size, risk profile and complexity of operations. Board of directors and management, in their respective roles, provide an appropriate level and quality of oversight and support to all of the institution's activities. Sound management practices are observed and demonstrated through (a) active oversight and satisfactory performance by the board of directors and senior management, (b) appropriate policies, processes, and controls relative to the institution's size, complexity and risk profile, (c) maintenance of an independent and effective internal audit and compliance program as well as a sound internal control environment, and (d) effective risk monitoring and management information systems.

Applicants should not be found engaging in an activity which may be considered as conducting business in an unsafe and unsound manner. In cases where weaknesses, violations of law, policy and/or regulation exists, other than those considered as conducting business in an unsafe or unsound banking, these should not be material to the safety and soundness of the institution, can be reasonably managed, and are being adequately addressed.

Quality of corporate governance shall be assessed based on the principles and framework set forth in the Guidelines in Assessing the Quality of Corporate Governance in BSFIs;

(2) Risk management system and internal controls

Applicants shall have a comprehensive risk management system approved by its board of directors (or equivalent management committee in the case of foreign bank branches) to identify, measure, evaluate, report and control or mitigate all material risks on a timely basis and to assess the adequacy of their capital in relation to their risk profile and market and macroeconomic conditions and whose sophistication are commensurate to the risks being monitored and controlled. The risk management system must be characterized by a clear delineation of responsibility for risk management, adequate risk measurement systems, appropriate risk limits structure, effective internal controls and complete, timely and efficient risk reporting systems.

Likewise, applicants shall have an effective and adequate system of internal controls for the conduct of their business taking into account their risk profile. These controls deal with organizational structure, accounting policies and processes, checks and balances, safeguarding of assets and investments and appropriate and effective internal audit and compliance functions. Standards and principles as well as the Bangko Sentral's expectations governing internal controls and audit under existing regulations shall apply in assessing the quality and effectiveness of the internal control systems of an applicant; and

(3) Compliance System

Applicants shall have a compliance system, appropriate to its size, risk profile and complexity of operations, designed to specifically identify and mitigate business risks¹ which may erode the franchise value of the institution. Compliance policies and procedures embodied in a Compliance Policy Manual should be sound and effectively implemented. Likewise, compliance monitoring and testing as well as review process should be robust to ensure BSFI conducts its business/operations in accordance with banking laws, rules and regulations and other laws relevant to banking such as securities laws and regulations. BSFIs should not have been found significantly non-compliant with prudential requirements such as SBL, DOSRI limits, capital adequacy ratio requirements, among others.

Standards and principles set forth in the Compliance Rating System framework shall apply in assessing the quality of BSFI's compliance system; and

- c. Applicants have complied with directives and/or are not subject of specific directives and/or enforcement actions by the Bangko Sentral.

Applicants shall have corrected any findings of conducting business in an unsafe or unsound banking and have addressed any outstanding explicit directives from the Bangko Sentral and/or other relevant regulatory bodies, prohibiting the conduct of activities related to the licenses and/or authorities being applied, as of the date of application. Applicants with specific prohibitions to conduct certain activities shall not be eligible to apply for that particular license and/or authority.

No application shall be accepted until such time that enforcement actions are formally lifted by the Bangko Sentral and/or other relevant regulatory bodies after applicants have demonstrated to the Bangko Sentral that safety and soundness concerns are satisfactorily addressed and/or until such time applicants become eligible.

Applications of BSFIs under rehabilitation and/or enhanced supervision status² shall be dealt with in accordance with the eligibility test described in Section II.1(a) of *Appendix Q-77*.

BSFIs granted with licenses/authorities shall continuously comply with the abovementioned standards and requirements even after the license/authority has been granted; otherwise, any deviation or non-compliance may be a basis for the imposition of appropriate enforcement actions described in this Section.

The specific guidelines and procedures on the Bangko Sentral's licensing framework are shown in *Appendix Q-77*.

Enforcement actions. In line with the thrust of the Bangko Sentral to incorporate the licensing process into its enforcement regime, the Bangko Sentral reserves the right to deploy, as may be warranted, an adequate range of supervisory tools to ensure that grantees of licenses/authorities are and remain qualified to possess the same, bring about timely corrective actions and compliance with Bangko Sentral directives, and provide safety to depositors, creditors, other stakeholders as well as the public in general.

Enforcement actions that may be imposed include, but are not limited to:

- a. Corrective action

Corrective actions are measures intended to primarily require BSFIs with approved licenses/authorities to rectify any deviations from the standards, principles and conditions expected for the exercise of the license and/or authority. Corrective actions may include, but are not limited to, issuance of directives and warnings.

- b. Sanctions

The Monetary Board may impose any of the sanctions enumerated hereunder or a combination thereof.

- (1) Non-monetary

- (a) *Suspension of activities.* The conduct of activities related to the licenses/authorities granted may be suspended if the Bangko Sentral determines that the concerned BSFI no longer meets the criteria or standards set; or

¹ As defined under Sec. 161-Q on Compliance function, business risk refers to conditions which may be detrimental to the institution's business model and its ability to generate returns from operations, which in turn erodes its franchise value. Business risk includes reputation, compliance, market conduct and legal risks.

² Rehabilitation includes BSFIs under the Prompt Corrective Action (PCA), Rehabilitation Program, Letter of Commitment and any other similar cases where BSFIs are expected to comply specific terms and conditions to restore eligibility (safety and sound) status.

- (b) *Revocation of licenses/authorities.* The license/authority granted may be revoked in cases where violation, non-compliance with criteria/standards and/or false information are noted which affects the safety and soundness of BSFIs' operations; and/or
- (c) *Administrative sanctions.* The responsible directors/officers who approve transactions and/or decisions that resulted in violations of laws, rules and regulations, orders, and directives issued by the Monetary Board or the Governor may be subject to reprimand, temporary suspension, and/or disqualification of directors/officers.

The Monetary Board is not precluded to impose non-monetary sanctions other than those identified from Items "(a)" to "(c)"; and/or

(2) Monetary

Monetary penalties may be imposed for any acts, omissions or transactions that are outside the permissible activities of the licenses/authorities granted or are in violation of laws, Bangko Sentral rules and regulations, orders and directives issued by the Bangko Sentral.

Management Contracts. Subject to existing laws, all agreements whereby the affairs or operations of a QB will be carried out by another corporation, person or group of persons, shall be subject to prior approval by the Bangko Sentral.

The agreements referred to in the preceding paragraph shall not be entered into for a period longer than five (5) years. Existing agreements shall be allowed up to the termination date thereof: *Provided, however,* That any renewal or extension upon termination date shall be subject to approval by the Bangko Sentral.

Guidelines on Outsourcing. The guidelines on outsourcing of banking functions as shown under Sec. 112 of the MORBand *Appendix Q-36* shall likewise apply to QBs.

Type of license of permissible activities¹. The type of license attached to permissible activities of Bangko Sentral supervised financial institutions (BSFIs) shall be as follows:

Type of License	Permissible Activity	Related Sections
A	Establishment of Branches and Other Office	Sec. 104-Q <i>Appendix Q-2</i>
	Trust and Other Fiduciary Business	Sec. 411-Q <i>Appendix Q-39</i>
B	Amendment of Articles of Incorporation (AOI) and By-Laws	Sec. 102-Q
C	Outsourcing/Insourcing of Banking Functions	Sec. 111-Q (<i>Guidelines on Outsourcing</i>) Sec. 412-Q (<i>Outsourcing services in trust departments</i>) Sec. 701-Q (<i>Outsourcing of internet and mobile electronic services</i>) <i>Appendix Q-36</i>
	Issuance of Bonds and Commercial Paper	Sec. 205-Q
	Amendment of the Plan Rules of UITF	Sec. 414-Q (<i>Plan rules</i>)

Processing and Licensing Fees. All applications shall be charged with the following processing fees pursuant to Section II.3.i of *Appendix Q-77*:

Type of License/ Authority	Processing Fees for Non-Bank Financial Institutions
A	10,000
B	10,000

¹ Transitory Provisions. Applications filed with the Bangko Sentral prior to 6 March 2019 shall not be charged with processing and licensing fees provided under this Section (*Processing and licensing fees*). Applications for Type C licenses received prior to 6 March 2019 shall be deemed to have complied with the notification/certification requirements if after thirty (30) banking days from 6 March 2019, the appropriate supervising department of the FSS does not advise the BSFI concerned of any deficiency on such application.

Certain Type A licenses shall be charged with the following licensing fees upon approval pursuant to Section II.3.ii of Appendix Q-77:

Type of License/ Authority	Licensing Fees* for Non-Bank Financial Institutions
A	50,000

*Licensing fee shall be net of the processing fee.

The foregoing tables shall not apply to licensing applications with separate fee structure under specific sections of this Manual.

(Circular Nos. 1143 dated 12 April 2022, 1031 dated 07 February 2019, 947 dated 15 February 2017, and 899 dated 18 January 2016)

C. CAPITALIZATION AND RISK-BASED CAPITAL

121-Q MINIMUM REQUIRED CAPITALIZATION

- a. *Definition of capital.* The term *capital* shall be synonymous to *unimpaired capital and surplus, combined capital accounts* and *net worth* and shall refer to the total of the unimpaired paid-in capital, surplus, and undivided profits. For this purpose, the following items shall likewise be added to or deducted from capital:
 - (1) Deposits for stock subscription recognized as equity pursuant to Sec. 122-Q shall be added to capital.
 - (2) The following shall be deducted from capital:
 - (a) Treasury stock;
 - (b) Unbooked allowance for probable losses (which includes allowance for credit losses and impairment losses) and other capital adjustments as may be required by the Bangko Sentral;
 - (c) Total outstanding unsecured credit accommodations, both direct and indirect, to directors, officers, stockholders and their related interests (DOSRI) granted by the QB;
 - (d) Total outstanding unsecured loans, other credit accommodations and guarantees granted to subsidiaries;
 - (e) Total outstanding loans, other credit accommodations and guarantees granted to related parties, as defined in Item "o", Sec. 131-Q, that are not at arm's length terms as determined by the appropriate supervising department of the Bangko Sentral; and
 - (f) Deferred tax assets that rely on future profitability of the QB to be realized, net of any (1) allowance for impairment and (2) associated deferred tax liability, if the conditions cited in PAS 12 on Income Taxes are met: *Provided*, That, if the resulting figure is a net deferred tax liability, such excess cannot be added to net worth.

With respect to Item "(2)(c)" hereof, the provisions of Sec. 321-Q shall apply except that in the definition of *stockholders* in Sec. 321-Q (*Definitions*), the qualification that his stockholdings, individually and/or together with his related interests in the lending QB, amount to ten percent (10%) or more of the total subscribed capital stock of the QB, shall not apply for purposes of this Item.

- b. *Required capital.* A QB shall have a minimum capital of P300.0 million.

Minimum Capital of Investment House. The minimum paid-in capital requirement for an IH shall be P300 million pursuant to R.A. No. 129, as amended by R.A. No. 8366.

Sanctions. Any or all of the following sanctions may be imposed on any QB which fails to maintain at least the applicable minimum capital under Sec. 121-Q:

- a. Suspension of authority to engage in quasi-banking functions;
- b. Suspension of authority to engage in trust/investment management activities (in the case of an IH);
- c. Cease-and-desist order (in the case of an IH);
- d. No new/renewal/extension of credit accommodations to DOSRI;
- e. Prohibition against declaration of cash dividends;
- f. Suspension of the privilege to establish and/or open approved branches, agencies, offices, etc.; and
- g. Other sanctions as may be imposed by the Monetary Board.

(Circular Nos. 1027 dated 28 December 2018 and 914 dated 23 June 2016)

122-Q DEPOSITS FOR STOCK SUBSCRIPTION

Deposits for stock subscription refers to payments made by existing stockholders or new subscribers of the QB on subscription to the increase in the authorized capital, which may be recognized either as a liability or equity.

Deposits for stock subscription shall be recognized as part of equity for prudential reporting purposes when all of the following conditions are met:

- a. The deposit for stock subscription meets the definition of an equity instrument under Philippine Accounting Standards (PAS) 32 Financial Instruments: Presentation such that the deposit for stock subscription shall not be interest-bearing nor withdrawable by the subscriber;
- b. The QB's existing authorized capital is already fully subscribed;
- c. The QB's stockholders and board of directors have approved the proposed increase in authorized capital;
- d. The QB has filed an application for the amendment of its articles of incorporation for the increase in authorized capital with the appropriate supervising department of the Bangko Sentral, duly supported by complete documents as prescribed by the Bangko Sentral: *Provided*, That the approval of the Securities and Exchange Commission (SEC) on the same application shall be obtained within the period prescribed under the SEC Financial Reporting Bulletin on Deposit for Future Subscription.

In case the applications for the amendment of articles of incorporation for the increase in authorized capital have been returned due to insufficiency of supporting documents, the deposit for stock subscription shall not qualify for recognition as an equity instrument; and

- e. The QB must have obtained approval of the Monetary Board on transactions involving significant ownership of voting shares of stock by any person, natural or juridical, or by one group of persons as provided in item "b" of Sec. 122 (*Transactions involving voting shares of stocks*), if applicable.

Deposits for stock subscription, which do not meet the abovementioned conditions shall be classified as a liability.

Deposits for stock subscription, which meet the conditions to be recognized as equity shall form part of a bank's qualifying capital for purposes of computing the risk-based capital adequacy ratio under

(Circular No. 1027 dated 28 December 2018)

123-Q DIVIDENDS

The following rules and regulations shall govern the declaration of dividends on shares of stock, regardless of feature, as well as interest payments on unsecured subordinated debt which meet the qualification requirements of Additional Tier 1 as defined under existing risk-based capital adequacy framework.

Pursuant to Section 57 of R.A. No. 8791, no QB shall declare dividends greater than its accumulated net profits then on hand, deducting therefrom its losses and bad debts. Neither shall the QB declare dividends if, at the time of declaration, it has not complied with the provisions under this section on the Requirements on the declaration of dividends/net amount available for dividends.

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. **Bad debts** shall include any debt on which interest is past due for a period of six (6) months, unless it is well secured and in process of collection.

A loan payable in installment with an automatic acceleration clause shall be considered a bad debt within the contemplation of this Section where installments or amortizations have become past due for a period of six (6) months, unless the loan is well secured and in process of collection. For a loan payable in installments without an acceleration clause, only the installments or amortizations that have become past due for a period of six (6) months and which are not well secured and in the process of collection shall be considered bad debts within the contemplation of this Section.

- b. **Well secured** -A debt shall be considered well secured (or fully secured) if it is covered by collateral in the form of a duly constituted mortgage, pledge, or lien on real or personal properties, including securities. The outstanding debt, accrued interest and other pertinent fees and expenses thereon shall not be in excess of seventy percent (70%) of the appraised value (AV) of real estate, or fifty percent (50%) of the other personal properties offered as lien.

- c. *In process of collection* -A debt due to a QB shall be considered in process of collection when it is the subject of continuing extrajudicial or judicial proceedings aimed towards its full settlement or liquidation, or otherwise to place it in current status.

The extrajudicial proceedings, such as the writing of collection or demand letters, must have been initiated by the QB and/or its lawyers before the interest or installments or amortizations on the debt become past due and unpaid for a period of six (6) months.

The debt shall continue to be considered in process of collection for a period of six (6) months counted from date of the first collection or demand letter and if, within this period, the debtor fails to make a payment of at least twenty percent (20%) of the outstanding balance of the principal on his account, plus all interests which may have accrued thereon, the same shall automatically be classified as bad debt unless judicial proceedings are instituted.

The debt shall continue to be considered in process of collection during the pendency of the judicial proceedings. When judgment against the debtor has been obtained, the QB must be active in enforcing the judgment for the debt to continue to be considered in process of collection.

Requirements on the declaration of dividends/net amount available for dividends.

- a. *Requirements on the declaration of dividends.* At the time of declaration, QBs shall have complied with the following:

- (1) Clearing account with the Bangko Sentral is not overdrawn;
- (2) Minimum capitalization requirement and risk-based capital ratios as provided under applicable and existing capital adequacy framework;
- (3) The combined requirement for capital conservation buffer and the countercyclical capital buffer as defined in *Appendix Q-45*, for QBs that are subsidiaries of U/KBs;
- (4) Higher loss absorbency requirement, phased-in starting 1 January 2017 with full implementation by 01 January 2019, in accordance with D-SIBs Framework as provided under Sec. 126-Q for QBs that are subsidiaries of U/KBs identified as D-SIBs; and
- (5) Has not conducted business in an unsafe or unsound banking as defined under existing regulations and/or major acts or omissions¹ as may be determined by the Bangko Sentral to be ground for suspension of dividend distribution, unless this has been addressed by the QB as confirmed by the Monetary Board or the Deputy Governor of the appropriate supervising sector as may be applicable, upon recommendation of the appropriate supervising department of the Bangko Sentral.

QBs shall ensure compliance with the minimum capital requirement and risk-based capital ratio even after the dividend distribution.

- b. *Amount available.* The net amount available for dividends shall be the amount of unrestricted or free retained earnings and undivided profits reported in the Bangko Sentral prudential reports as of the calendar/fiscal year-end immediately preceding the date of dividend declaration.

The derivation of the amount of dividends from the unrestricted/free retained earnings shall be based on a sound accounting system and loss provisioning processes under existing regulations which takes into account relevant capital adjustments including losses, bad debts and unearned profits or income².

Reporting and verification. Declaration of cash dividend shall be reported by the QB concerned to the appropriate supervising department of the Bangko Sentral within ten (10) business days from date of approval of the declaration in the following manner:

- a. Submission of a duly notarized certification (*Appendix Q-73*) by the President, or an officer of equivalent rank, and the Chief Compliance Officer stating that the QB has complied with the requirements on the declaration of dividends provided under this Section on Requirements on the declaration of dividends/net amount of available for dividends as well as other existing applicable laws; and

¹ Major acts or omissions is defined as QB's individual failure to comply with the requirements of banking laws, rules and regulations as well as Monetary Board directives having material impact on QB's capital, solvency, liquidity or profitability, and/or those violations classified as major offenses under the Report of Examination, except those classified under unsafe or unsound banking.

² Unearned profits or income refers to unrealized items which are considered not available for dividend declaration such as accumulated share/equity in net income of its subsidiaries, associates or joint venture accounted for under the equity method, recognized deferred tax asset, foreign exchange profit arising from revaluation of foreign exchange denominated accounts and others.

- b. Submission of the Report on Dividends Declared listed under *Appendix Q-3*, which shall be considered a *Category A-1* report.

However, QBs with major supervisory concerns such as those initiated under prompt corrective action (PCA) or with specific Monetary Board directive to suspend/refrain/restrict dividend declaration, shall be subject to prior Bangko Sentral verification by the appropriate supervising department of the Bangko Sentral. Pending verification of abovementioned reports, no announcement or communication on the declaration of cash dividends nor shall any payment be made thereon until receipt of Bangko Sentral advice thereof.

Recording of dividends. The liability for cash dividends declared shall be taken up in the QB's books upon its declaration.

However, for dividend declarations that are subject to prior Bangko Sentral verification, the liability for cash dividends declared shall be taken up in the QB's books upon receipt of Bangko Sentral advice thereof. A memorandum entry may be made to record the dividend declaration on the date of approval by the board of directors.

For full disclosure purposes, the cash dividends shall be disclosed in the financial statements as a footnote in the statement of changes in equity or in the notes to the financial statements. For dividends declared that is still subject to prior Bangko Sentral verification, disclosure by means of a footnote should include a statement to the effect that the dividend declaration is subject to review by the Bangko Sentral.

Rules on declaration of stock dividends. The declaration of stock dividends shall be subject to the preceding regulations on declaration of cash dividends. Additional paid-in capital may be included in the amount available for stock dividends.

Supervisory enforcement actions. Consistent with Sec. 002-Q the Bangko Sentral may deploy enforcement actions to promote adherence with the rules and regulations governing dividend declaration and bring about timely corrective actions. The Bangko Sentral may issue directives to suspend/refrain/restrict from performing a particular activity, or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety or soundness of the QB, among others. Sanctions may likewise be imposed on a QB and/or its directors, officers and/or employees.

The imposition of sanctions shall be without prejudice to the imposition of administrative sanctions under Section 37 of R.A. No. 7653 including declaring as unsafe or unsound (as defined under Section 56 of R.A. No. 8791) the inappropriate dividend declarations, and/or to the filing of appropriate criminal charges against culpable persons as provided under Section 35 of R.A. No. 7653 for the willful making of a false/misleading statement.

Further, QBs subsequently found to have violated the provisions on dividend declaration or have falsely certified/submitted misleading statements shall be reverted to the prior Bangko Sentral verification wherein the QB can only make an announcement or communication on the declaration of dividends or payment of dividends thereon¹ upon receipt of Bangko Sentral advice thereof.

(Circular Nos. 1051 dated 27 September 2019, 1024 dated 06 December 2018, and 888 dated 09 October 2015)

124-Q BASEL I RISK-BASED CAPITAL

The risk-based capital ratio of a QB, expressed as a percentage of qualifying capital to risk-weighted assets, shall not be less than ten percent (10%) for both solo basis (head office plus branches) and consolidated basis (parent QB plus subsidiary financial allied undertakings, but excluding insurance companies).

Scope. QBs that are not subsidiaries of UBs or KBs shall continue to be subject to the risk-based capital adequacy framework, as provided in this Section on Qualifying capital, Risk-weighted assets, Definitions, Required reports and Sanctions.

Qualifying capital. The qualifying capital shall be the sum of –

- a. *Tier 1 (core) capital* –
- (1) Paid-up common stock;
 - (2) Deposit for common stock subscription;
 - (3) Paid-up perpetual and non-cumulative preferred stock;
 - (4) Deposit for perpetual and non-cumulative preferred stock subscription;
 - (5) Common stock dividends distributable;

¹ Subject QBs whose shares are listed with any domestic stock exchange may declare dividends and give immediate notice of such declaration to the SEC and the stock exchanges, in compliance with pertinent rules of the SEC: *Provided, That*, no record date is fixed for such dividend pending verification of the report on such declaration by the appropriate supervising department of the Bangko Sentral.

- (6) Perpetual and non-cumulative preferred stocks dividends distributable;
- (7) Surplus;
- (8) Surplus reserves;
- (9) Undivided profits; and
- (10) Minority interest in the equity of subsidiary financial allied undertakings which are less than wholly-owned: *Provided*, That a QB shall not use minority interests in the equity accounts of consolidated subsidiaries as avenue for introducing into its capital structure elements that might not otherwise qualify as Tier 1 capital or that would, in effect, result in an excessive reliance on preferred stock within Tier 1:

Provided, further, That the following items shall be deducted from the total of Tier 1 capital:

- (a) Common stock treasury shares;
- (b) Perpetual and non-cumulative preferred stock treasury shares;
- (c) Net unrealized losses on underwritten listed equity securities purchased (for IH);
- (d) Unbooked valuation reserves and other capital adjustments based on the latest report of examination as approved by the Monetary Board;
- (e) Total outstanding unsecured credit accommodations, both direct and indirect, to DOSRI;
- (f) Total outstanding unsecured loans, other credit accommodations and guarantees granted to subsidiaries;
- (g) Total outstanding loans, other credit accommodations and guarantees granted to related parties that are not at arm's length terms as determined by the appropriate supervising department of the Bangko Sentral;
- (h) Deferred income tax; and
- (i) Goodwill.

b. *Tier 2 (supplementary) capital which shall be the sum of –*

(1) Upper Tier 2 (UT2) capital –

- (a) Paid-up perpetual and cumulative preferred stock;
- (b) Deposit for perpetual and cumulative preferred stock subscription;
- (c) Perpetual and cumulative preferred stock dividends distributable;
- (d) Appraisal increment reserve –QB premises, as authorized by the Monetary Board;
- (e) Net unrealized gains on underwritten listed equity securities purchased: *Provided*, That the amount thereof that may be included in UT2 capital shall be subject to a fifty-five percent (55%) discount (for IH);
- (f) General loan loss provision: *Provided*, That the amount thereof that may be included in UT2 capital shall be limited to a maximum of one and twenty-five hundredths percent (1.25%) of gross risk-weighted assets, and any amount in excess thereof shall be deducted from the total risk-weighted assets in computing the denominator of the risk-based capital ratio; and
- (g) With prior Bangko Sentral approval, unsecured subordinated debt (UnSD) with a minimum original maturity of at least ten (10) years, subject to the following conditions:
 - (i) It must not be secured nor covered by a guarantee of the issuer or related party;
 - (ii) It must be subordinated in the right of payment of principal and interest to all creditors of the QB, except those creditors expressed to rank equally with, or behind holders of the debt. Subordinated creditors must waive their right to set off any amounts they owe the QB against subordinated amounts owed to them by the QB. The issue documentation must clearly state that the debt is subordinated;
 - (iii) It must be fully paid-up. Only the net proceeds actually received from debt issues can be included as capital. If the debt is issued at a premium, the premium cannot be counted as part of capital;
 - (iv) It must not be redeemable at the initiative of the holder;
 - (v) It must not contain any clause which requires acceleration of payment of principal, except in the event of insolvency;

- (vi) It must not be repayable prior to maturity without the prior consent of the Bangko Sentral: *Provided*, That repayment may be allowed in connection with call option only after a minimum of five (5) years from issue date and only if – (1) the QB's capital ratio is at least equal to the required minimum capital ratio; and (2) the debt is simultaneously replaced with issues of new capital which is neither smaller in size nor of lower quality than the original issue;
- (vii) It may allow a moderate step-up in the interest rate in conjunction with a call option, only if the step-up occurs at a minimum of ten (10) years after the issue date and if it results in an increase over the initial rate that is not more than 100 basis points: *Provided*, That only one (1) rate step up shall be allowed over the life of the instrument;
- (viii) It must provide for possible conversion into common shares or preferred shares or possible deferral of payment of principal and interest if the QB's capital ratio becomes less than the required minimum capital ratio;
- (ix) It must provide for the principal and interest on the debt to absorb losses where the QB would not otherwise be solvent;
- (x) It must allow deferment of interest payment on the debt in the event of, and at the same time as, the elimination of dividends on all outstanding common or preferred stock of the issuer. It is acceptable for the deferred interest to bear interest, but the interest rate payable on deferred interest should not exceed market rates;
- (xi) It must be underwritten by a third party not related to the issuer QB nor acting in reciprocity for and in behalf of the issuer QB;
- (xii) It must be issued in minimum denominations of at least P500,000 or its equivalent; and
- (xiii) It must clearly state on its face that it is not a deposit and is not insured by the PDIC:

Provided, That it shall be subject to a cumulative discount factor of twenty percent (20%) per year during the last five (5) years to maturity [i.e., twenty percent (20%) if the remaining life is four (4) years to less than five (5) years, forty percent (40%) if the remaining life is three (3) years to less than four (4) years, etc.]: *Provided, further*, That where it is denominated in a foreign currency, it shall be revalued periodically (at least monthly) in Philippine peso at prevailing exchange rate using the same exchange rate used for revaluation of foreign currency-denominated assets, liabilities and forward contracts under existing regulations: *Provided, furthermore*, That, for purposes of reserve requirement regulation, it shall not be treated as a deposit substitute liability or other forms of borrowings:

Provided, That the following items shall be deducted from the total of UT2 capital:

- (a) Perpetual and cumulative preferred stock treasury shares;
- (1) *Lower Tier 2 (LT2) capital* –
- (a) Paid-up limited life redeemable preferred stock: *Provided*, That these shall be subject to a cumulative discount factor of twenty percent (20%) per year during the last five (5) years to maturity [i.e., twenty percent (20%) if the remaining life is four (4) years to less than five (5) years, forty percent (40%) if the remaining life is three (3) years to less than four (4) years, etc.];
 - (b) Deposit for limited life redeemable preferred stock subscription;
 - (c) Limited life redeemable preferred stock dividends distributable; and
 - (d) With prior Bangko Sentral approval, UnSD with a minimum original maturity of at least five (5) years, subject to the following conditions:
 - (i) It must not be secured nor covered by a guarantee of the issuer or related party;
 - (ii) It must be subordinated in the right of payment of principal and interest to all creditors of the QB, except those creditors expressed to rank equally with, or behind holders of the debt. Subordinated creditors must waive their right to set off any amounts they owe the QB against subordinated amounts owed to them by the QB. The issue documentation must clearly state that the debt is subordinated;
 - (iii) It must be fully paid-up. Only the net proceeds actually received from debt issues can be included as capital. If the debt is issued at a premium, the premium cannot be counted as part of capital;

- (iv) It must not be redeemable at the initiative of the holder;
- (v) It must not contain any clause which requires acceleration of payment of principal, except in the event of insolvency;
- (vi) It must not be repayable prior to maturity without the prior consent of the Bangko Sentral: *Provided*, That repayment may be allowed in connection with call option only after a minimum of five (5) years from issue date and only if – (1) the QB's capital ratio is at least equal to the required minimum capital ratio; and (2) the debt is simultaneously replaced with issues of new capital which is neither smaller in size nor of lower quality than the original issue;
- (vii) It may allow a moderate step-up in the interest rate in conjunction with a call option, only if the step-up occurs at a minimum of five (5) years after the issue date and if it results in an increase over the initial rate that is not more than 100 basis points or fifty percent (50%) of the initial credit spread, at the option of the QB: *Provided*, That only one (1) rate step up shall be allowed over the life of the instrument;
- (viii) It must be underwritten by a third party not related to the issuer QB nor acting in reciprocity for and in behalf of the issuer QB;
- (ix) It must be issued in minimum denominations of at least P500,000 or its equivalent; and
- (x) It must clearly state on its face that it is not a deposit and is not insured by the PDIC:

Provided, That it shall be subject to a cumulative discount factor of twenty percent (20%) per year during the last five (5) years to maturity [i.e., twenty percent (20%) if the remaining life is four (4) years to less than five (5) years, forty percent (40%) if the remaining life is three (3) years to less than four (4) years, etc.]: *Provided, further*, That where it is denominated in a foreign currency, it shall be revalued periodically (at least monthly) in Philippine peso using the same exchange rate used for revaluation of foreign currency denominated assets, liabilities and forward contracts under existing regulations: *Provided, finally*, That, for purposes of reserve requirement regulation, it shall not be treated as equivalent to a deposit substitute liability or other forms of borrowings.

Provided, That the following items shall be deducted from the total of LT2 capital:

- (1) Limited life redeemable preferred stock treasury shares; and
- (2) Sinking fund for redemption of limited life redeemable preferred stock: *Provided*, That the amount to be deducted shall be limited to the balance of redeemable preferred stock after applying the cumulative discount factor:

Provided, further, That the total amount of LT2 capital that may be included in the Tier 2 capital shall be a maximum of fifty percent (50%) of total Tier 1 capital (net of deductions therefrom): *Provided, furthermore*, That the total amount of UT2 and LT2 capital that may be included in the qualifying capital shall be a maximum of 100% of total Tier 1 capital (net of deductions therefrom);

c. Less deductions from the total of Tier 1 and Tier 2 capital, as follows:

- (1) Investments in equity of unconsolidated subsidiary banks and other subsidiary financial allied undertakings, but excluding insurance companies (for solo basis);
- (2) Investments in debt capital instruments of unconsolidated subsidiary banks (for solo basis);
- (3) Investments in equity of subsidiary insurance companies and subsidiary non-financial allied undertakings;
- (4) Reciprocal investments in equity of other banks/enterprises; and
- (5) Reciprocal investments in unsecured subordinated term debt instruments of other banks/QBs in excess of the lower of (i) an aggregate ceiling of five percent (5%) of total Tier 1 capital of the QB; or (ii) ten percent (10%) of the total outstanding unsecured subordinated term debt issuance of the other bank/QB:

Provided, That any asset deducted from the qualifying capital in computing the numerator of the risk-based capital ratio shall not be included in the risk-weighted assets in computing the denominator of the ratio.

Capital instruments issued by QBs starting 01 January 2014 shall be subject to the criteria for inclusion as qualifying capital provided in *Appendices-Q-45 Annexes A to C and Annexes E to F*.

Risk-weighted assets. The risk-weighted assets shall be determined by assigning risk weights to amounts of on-balance sheet assets and to credit equivalent amounts of off-balance sheet items (inclusive of derivative contracts): *Provided*, That the following shall be deducted from the total risk-weighted assets:

- (1) general loan loss provision (in excess of the amount permitted to be included in UT2 capital); and
 - (2) unbooked valuation reserves and other capital adjustments affecting asset accounts based on the latest report of examination as approved by the Monetary Board.
- a. *On-balance sheet assets.* The risk-weighted amount shall be the product of the book value of the asset multiplied by the risk weight associated with that asset, as follows:
- (1) *Zero percent (0%) risk weight*
 - (a) Cash on hand;
 - (i) Claims on or portions of claims guaranteed by or collateralized by securities issued by Philippine national government and Bangko Sentral; and
 - (ii) Central governments and central banks of foreign countries with the highest credit quality as defined in this Section;
 - (b) Loans to the extent covered by hold-out on, or assignment of deposit substitutes maintained with the lending QB;
 - (c) Portions of loans covered by Industrial Guarantee and Loan Fund (IGLF) guarantee;
 - (d) Real estate mortgage (REM) loans to the extent guaranteed by the Home Guaranty Corporation (HGC);
 - (e) Loans to the extent guaranteed by the Trade and Investment Development Corporation of the Philippines (TIDCORP);
 - (f) Residual value of leased equipment to the extent covered by deposits on lease contracts (for FCs);
 - (g) Lease contract receivables to the extent covered by the excess of deposits on lease contracts over residual value of leased equipment (for FCs); and
 - (h) Foreign currency notes and coins on hand acceptable as international reserves;
- (2) *Twenty percent (20%) risk weight*
 - (a) Checks and other cash items (COCIs);
 - (b) Claims on or portions of claims guaranteed by or collateralized by securities issued by non-central government public sector entities of foreign countries with the highest credit quality as defined in this Section;
 - (c) Claims on or portions of claims guaranteed by Philippine incorporated banks/QBs with the highest credit quality as defined in this Section;
 - (d) Claims on or portions of claims guaranteed by foreign incorporated banks with the highest credit quality as defined in this Section;
 - (e) Claims on or portions of claims guaranteed by or collateralized by securities issued by multilateral development banks (MDBs);
 - (f) Loans to exporters to the extent guaranteed by Small Business Guarantee and Finance Corporation (SBGFC); and
 - (g) Foreign currency COCIs denominated in currencies acceptable as international reserves;
- (3) *Fifty percent (50%) risk weight –*
 - (a) Loans for housing purpose, fully secured by first mortgage on residential property that is or will be occupied or leased out by the borrower; and
 - (b) Local government unit (LGU) bonds which are covered by deed of assignment of Internal Revenue Allotment (IRA) of the LGU and guaranteed by the LGU Guarantee Corporation;
- (4) *One hundred percent (100%) risk weight -*

All other assets including, among others, the following:

 - (a) Claims on central governments and central banks of foreign countries other than those with the highest credit quality;
 - (b) Claims on Philippine LGUs;
 - (c) Claims on non-central government public sector entities of foreign countries other than those with the highest credit quality;
 - (d) Claims on government-owned or controlled commercial corporations;
 - (e) Claims on Philippine incorporated banks/QBs other than those with the highest credit quality;
 - (f) Claims on foreign incorporated banks other than those with the highest credit quality;
 - (g) Loans to companies engaged in speculative residential building or property development;

- (h) Claims on the private sector (except those deducted from capital);
- (i) Equity investments (except those deducted from capital);
- (j) Equipment and other real estate for lease (for FCs);
- (k) Real estate for sale/lease;
- (l) QB premises, furniture, fixtures and equipment (net);
- (m) Appraisal increment -QB premises, furniture, fixtures and equipment (net);
- (n) Real and other properties owned or acquired (net);
- (o) Foreign currency notes and coins on hand not acceptable as international reserves; and
- (p) Foreign COCIs not denominated in foreign currencies acceptable as international reserves, except those which are deducted from capital, as follows:

- (i) Total outstanding unsecured credit accommodations, both direct and indirect, to DOSRI;
- (ii) Total outstanding unsecured loans, other credit accommodations and guarantees granted to subsidiaries;
- (iii) Total outstanding loans, other credit accommodations and guarantees granted to related parties that are not at arm's length terms as determined by the appropriate supervising department of the Bangko Sentral;
- (iv) Deferred income tax;
- (v) Goodwill;
- (vi) Sinking fund for redemption of limited life redeemable preferred stock;
- (vii) Equity investments in unconsolidated subsidiary banks and other subsidiary financial allied undertakings, but excluding insurance companies;
- (viii) Investments in debt capital instruments of unconsolidated subsidiary banks;
- (ix) Equity investments in subsidiary insurance companies and subsidiary non-financial allied undertakings;
- (x) Reciprocal investments in equity of other banks/enterprises; and
- (xi) Reciprocal investments in unsecured subordinated term debt instruments of other banks/QBs, in excess of the lower of (i) an aggregate ceiling of five percent (5%) of total Tier 1 capital of the QB; or (ii) ten percent (10%) of the total outstanding unsecured subordinated term debt issuance of the other bank/QB;

- b. *Off-balance sheet items.* The risk-weighted amount shall be calculated using a two (2)-step process.

First, the credit equivalent amount of an off-balance sheet item shall be determined by multiplying its notional principal amount by the appropriate credit conversion factor, as follows:

- (1) *One hundred percent (100%) credit conversion factor -*

This shall apply to direct credit substitutes, e.g., general guarantees of indebtedness and acceptances (including endorsements with the character of acceptances), and shall include –

- (a) Outstanding guarantees issued This shall also apply to sale and repo agreements and asset sales with recourse where the credit risk remains with the QB [to the extent not included in the (BS)], as well as to forward asset purchases, and partly-paid shares and securities, which represent commitments with certain drawdown: *Provided*, That these items shall be weighted according to the type of asset and not according to the type of counterparty with whom the transaction has been entered into.

- (2) *Fifty percent (50%) credit conversion factor -*This shall apply to –

- (a) Note issuance facilities and revolving underwriting facilities (for IHS); and
- (b) Other commitments, e.g., formal standby facilities and credit lines with an original maturity of more than one (1) year. This shall include –
 - (i) Underwritten accounts unsold (for IHS).

(3) Zero percent (0%) credit conversion factor –

This shall apply to commitments with an original maturity of up to one (1) year. This shall also apply to those not involving credit risk, and shall include –

- (a) Items held for safekeeping/custodianship;
- (b) Trust department accounts;
- (c) Items held as collaterals; etc.

Second, the credit equivalent amount shall be treated like any on-balance sheet asset and shall be assigned the appropriate risk weight, i.e., according to the obligor, or if relevant, the qualified guarantor or the nature of collateral.

- c. *Derivative contracts*. The credit equivalent amount shall be the sum of the current credit exposure (or replacement cost) and an estimate of the potential future credit exposure (or add-on): *Provided*, That the following shall not be included in the computation:

- (1) Instruments which are traded on exchange where they are subject to daily receipt and payment of cash variation margin; and
- (2) Exchange rate contracts with original maturity of fourteen (14) calendar days or less.

The current credit exposure shall be the positive mark-to-market value of the contract (or zero if the mark-to-market value is zero or negative). The potential future credit exposure shall be the product of the notional principal amount of the contract multiplied by the appropriate potential future credit conversion factor, as indicated below:

Interest Residual Maturity	Exchange Rate Contract	Rate Contract
One (1) year or less	0.0 %	1.0 %
Over one (1) year to five (5) years	0.5 %	5.0 %
Over five (5) years	1.5 %	7.5 %

Provided, That for contracts with multiple exchanges of principal, the factors are to be multiplied by the number of remaining payments in the contract: *Provided, further*, That for contracts that are structured to settle outstanding exposure following specified payment dates and where the terms are reset such that the market value of the contract is zero on these specified dates, the residual maturity would be set equal to the time until the next reset date, and in the case of interest rate contracts with remaining maturities of more than one (1) year that meet these criteria, the potential future credit conversion factor is subject to a floor of five tenths percent (0.5%): *Provided, furthermore*, That no potential future credit exposure shall be calculated for single currency floating/floating interest rate swaps, i.e., the credit exposure on these contracts would be evaluated solely on the basis of their mark-to-market value.

The credit equivalent amount shall be treated like any on-balance sheet asset, and shall be assigned the appropriate risk weight, i.e., according to the obligor, or if relevant, the qualified guarantor or the nature of collateral: *Provided*, That a fifty percent (50%) risk weight shall be applied in respect of obligors which would otherwise attract a 100% risk weight.

The extent to which a claim is guaranteed/collateralized shall be determined by the amount of guarantee coverage/current market value of securities pledged, in comparison with the book value of the on-balance sheet asset or the notional principal amount of the off-balance sheet exposure, except for derivative contracts for which determination is generally made in relation to credit equivalent amount.

Definitions.

- a. *Amount due from the Bangko Sentral*. This refers to all deposits of the reporting QB with the Bangko Sentral.
- b. *Appraisal increment reserve*. This shall form part of capital only if authorized by the Monetary Board.
- c. *QB premises, furniture, fixtures and equipment net of depreciation*. This refers to the cost of land and improvements used as the QB premises, and furniture, fixtures and equipment owned by the QB.
- d. *Cash on hand*. This refers to total cash held by the QB consisting of both notes and coins in Philippine currency.
- e. *Central government of a foreign country*. This refers to the central government which is regarded as such by a recognized banking supervisory authority in that country.

- f. *Claims*. This refers to loans or debt obligations of the entity on whom the claim is held, and shall include, but shall not be limited to, the following accounts, inclusive of accumulated market gains/(losses) and accumulated bond discount/(premium amortization), and net of specific allowance for probable losses:
- (1) Due from Bangko Sentral;
 - (2) Due from other banks;
 - (3) Interbank loans receivable;
 - (4) Loans and discounts, including lease contract receivables, net of advance leasing income received and receivables financed for Financing Companies (FCs);
 - (5) Restructured loans;
 - (6) Trading account securities -loans;
 - (7) Underwriting accounts -debt securities (for IHS);
 - (8) Underwriting accounts -equity securities (for IHS);
 - (9) Trading account securities -debt securities;
 - (10) Trading account securities -equity securities (for IHS);
 - (11) Available for sale securities;
 - (12) Investments in bonds and other debt instruments (IBODI); and
 - (13) Others, e.g., accounts receivable and accrued interest receivable.

Accruals on a claim shall be classified and risk weighted in the same way as the claim.

- g. *Consolidated basis*. This refers to combined statement of condition (SOC) of parent QB and subsidiary financial allied undertakings, but excluding insurance companies.
- h. *Debt capital instruments*. This refers to unsecured subordinated term debt instruments qualifying as capital of banks.
- i. *Equity investments*. This refers to investments in capital stock of companies, firms or enterprises, made for purposes of control, affiliation or other continuing business advantage.
- j. *Exchange rate contracts*. This includes cross-currency interest rate swaps, forward foreign exchange (FX) contracts, currency futures, currency options purchased and similar instruments.
- k. *Financial allied undertakings*. This refers to enterprises or firms with homogenous or similar activities/business/functions with the financial intermediary and may include but not limited to leasing companies, banks, IHS, FCs, credit card companies, FIs catering to small and medium scale industries (including venture capital corporations), companies engaged in stock brokerage/securities dealership, companies engaged in FX dealership/brokerage, holding companies, and such other similar activities as the Monetary Board may declare as appropriate from time to time, but excluding insurance companies.
- l. *Foreign country/foreign incorporated bank and Philippine incorporated bank/QB with the highest credit quality*. This refers to a foreign country/foreign incorporated bank and Philippine incorporated bank/QB given the highest credit rating of any two (2) of the following internationally accepted rating agencies:

Rating Agency	Highest Rating
(1) Moody's	"Aa3" and above
(2) Standard and Poor's	"AA-" and above
(3) Fitch IBCA	"AA-" and above
(4) Others as may be approved by the Monetary Board	

- m. *Forward asset purchases*. This refers to a commitment to purchase a loan, security or other asset at a specified future date, usually on pre-arranged terms.
- n. *Goodwill*. This refers to an intangible asset that represents the excess of the purchase price over the fair market value of identifiable assets acquired less liabilities assumed in acquisitions accounted for under the purchase method of accounting.
- o. *Interest rate contracts*. This includes single-currency interest rate swaps, basis swaps, forward rate agreements, interest rate futures, interest rate options purchased and similar instruments.
- p. *Loans for housing purpose, fully secured by first mortgage on residential property that is or will be occupied or leased out by the borrower*. This shall not include loans to companies engaged in speculative residential building or property development.

- q. *Loans to the extent covered by hold-out on, or assignment of deposit substitutes maintained in the lending QB.* A loan shall be considered as secured by a hold-out on, or assignment of deposit substitute only if such deposit substitute account is covered by a hold-out agreement or deed of assignment signed by the investor/placer in favor of the QB. This shall not include loans transferred to/carried by the QB's trust department secured by deposit substitute hold-out/assignment.
- r. *MDBs.* This refers to International Bank for Reconstruction and Development (IBRD), Inter-American Development Bank, Asian Development Bank (ADB), African Development Bank (AfDB), European Investment Bank (EIB) and European Bank for Reconstruction and Development.
- s. *Non-central government public sector entity of a foreign country.* This refers to entities which are regarded as such by a recognized banking supervisory authority in the country in which they are incorporated.
- t. *Note issuance facilities and revolving underwriting facilities.* This refers to an arrangement whereby a borrower may draw down funds up to a prescribed limit over an extended period by repeated issues to the market of promissory notes which the QB committed to underwrite.
- u. *Other commitments.* This includes undrawn portion of any binding arrangements which obligate the QB to provide funds at some future date.
- v. *Other commitments with an original maturity of up to one (1) year.* This includes any revolving or undated open-ended commitments, e.g., unused credit lines: *Provided*, That these can be unconditionally cancelled at any time and are subject to credit revision at least annually.
- w. *Partly-paid shares and securities.* This arises where only a part of the issue price or nominal face value of a security purchased has been subscribed and the issuer may call for the outstanding balance (or a further installment), either on a date predetermined at the time of issue, or at an unspecified future date.
- x. *Perpetual preferred stock.* This refers to preferred stock that does not have a maturity date, that cannot be redeemed at the option of the holder of the instrument, and that has no provision that will require future redemption of the issue. Consistent with these provisions, any perpetual preferred stock with a feature permitting redemption at the option of the issuer may qualify as capital only if the redemption is subject to prior approval of the Bangko Sentral.
- y. *Philippine LGUs.* This refers to the Philippine government units below the level of national government, such as city, provincial, and municipal governments.
- z. *Philippine national government.* This shall refer to the Philippine national government and its agencies such as departments, bureaus, offices, and instrumentalities, but excluding government owned and-controlled commercial corporations.
 - (1) *Private sector.* This refers to entities other than banks, QBs and governments. This shall also include commercial companies owned by the public sector, such as government-owned or-controlled commercial corporations.
 - (2) *Redeemable preferred stock.* This refers to preferred stock which may be redeemed at the specific dates or periods fixed for redemption.
 - (3) *Sale and repo agreements and asset sales with recourse.* This refers to arrangements whereby a QB sells a loan, security or fixed asset to a third party with a commitment to repurchase the asset after a certain time, or in the event of a certain contingency.
 - (4) *Solo basis.* This refers to combined SOC of head office and branches.
 - (5) *Subsidiary.* This refers to a corporation or firm more than fifty percent (50%) of the outstanding voting stock of which is directly or indirectly owned, controlled or held with the power to vote by a QB.
 - (6) *Treasury shares.* This refers to the QB's own shares of stock that have been issued and fully paid for, subsequently reacquired through purchase or donations and have not been cancelled or re-issued. This also refers to shares of a parent QB held by a subsidiary financial allied undertaking in a consolidated statement of condition (CSOC).

Required reports. QBs shall submit a report of their risk-based CAR on a solo basis (head office plus branches) and on a consolidated basis (parent QB plus subsidiary financial allied undertakings, but excluding insurance companies) quarterly to the appropriate supervising department of the Bangko Sentral in the prescribed forms within the deadlines, i.e., fifteen (15) business days and thirty (30) business days after the end of reference quarter, respectively. Only QBs with subsidiary financial allied undertakings (excluding insurance companies) which under existing regulations are required to prepare

consolidated statements of condition on a line-by-line basis shall be required to submit report on consolidated basis. The above-mentioned reports shall be classified as *Category A-2* reports.

Sanctions. Whenever the capital accounts of a QB are deficient with respect to the prescribed CAR, the Monetary Board after considering a report of the appropriate supervising department of the Bangko Sentral on the state of solvency of the institution concerned, shall limit or prohibit the distribution of the net profits and shall require that part or all of net profits be used to increase the capital accounts of the QB until the minimum requirement has been met. The Monetary Board may restrict or prohibit the making of new investments of any sort by the QB, with the exception of purchases of readily marketable evidences of indebtedness issued by the Philippine national government and Bangko Sentral included in Item “a(1)(b)i” of this Section on Risk-weighted assets, until the minimum required capital ratio has been restored.

Temporary relief. In case of QB merger or consolidation, or when a QB is under rehabilitation under a program approved by the Bangko Sentral, the Monetary Board may temporarily relieve the surviving QB, consolidated QB, or constituent QB or corporations under rehabilitation from full compliance with the required capital ratio for a maximum period of one (1) year.

(Circular No. 914 dated 23 June 2016)

125-Q BASEL III RISK-BASED CAPITAL

The guidelines implementing the revised risk-based capital adequacy framework for the Philippine banking system to conform to Basel III recommendations are provided in *Appendix Q-45*.

These guidelines apply to all universal banks (UBs) and commercial banks (KBs), as well as their subsidiary banks and QBs. The risk-based capital ratio of a QB, expressed as a percentage of qualifying capital to risk-weighted assets, shall not be less than ten percent (10%) for both solo basis (head office plus branches) and consolidated basis (parent QB plus subsidiary financial allied undertakings, but excluding insurance companies). Other minimum capital ratios include Common Equity Tier 1 ratio and Tier 1 capital ratios of six percent (6.0%) and seven and a half percent (7.5%), respectively. With respect to the CET1 requirement, in addition to the minimum, the following capital buffers shall likewise be imposed:

- a. Capital conservation buffer (CCB) of two and a half percent (2.5%); and
- b. Countercyclical capital buffer (CCyB) of zero percent (0%) subject to upward adjustment to a rate determined by the Monetary Board when systematic conditions warrant but not to exceed two and a half percent (2.5%). Any increase in the CCyB rate shall be effective 12 months after its announcement. Decreases shall be effective immediately.

The prescribed ratios shall be maintained at all times.

Scope. The Basel III guidelines apply to all UBs and KBs as well as their subsidiary banks and QBs.

Required reports. QBs which are subsidiaries of UBs/KBs shall submit a report of their risk-based capital adequacy ratio on a solo basis (head office plus branches) and on a consolidated basis (parent QB plus subsidiary financial allied undertakings, but excluding insurance companies) quarterly to the appropriate supervising department of the Bangko Sentral in the prescribed forms within the deadlines, i.e., fifteen (15) business days and thirty (30) business days after the end of reference quarter, respectively. Only QBs with subsidiary financial allied undertakings (excluding insurance companies) which under existing regulations are required to prepare consolidated statements of condition on a line-by-line basis shall be required to submit a report on a consolidated basis. The abovementioned reports shall be classified as *Category A-1* reports.

All UBs and KBs as well as their subsidiary banks and QBs shall be subject to all other reporting requirements under the Basel III risk-based capital as may be prescribed by the Bangko Sentral.

Late and/or erroneous reporting of all reports in compliance with the Basel III requirements shall be subject to penalties provided under Sec.172-Q. QBs failing to submit the required reports within the prescribed deadline shall be subject to monetary penalties applicable for delayed reporting under existing regulations.

Sanctions.

- a. *For non-reporting of CAR breaches.* It is the responsibility of the QB CEO to cause the immediate reporting of CAR breaches both to its Board and to the Bangko Sentral. It is likewise the CEO’s responsibility to ensure the accuracy of CAR calculations and the integrity of the associated monitoring and reporting system. Any willful violation of the above shall be subject to the appropriate monetary penalty under Sec. 1102-Q that will be imposed on the CEO. In addition, the CEO shall be subject to the following non-monetary sanctions:
 - (1) First offense – warning;
 - (2) Second offense – reprimand;

- (3) Third offense – one (1) month suspension without pay; and
 - (4) Further offense – disqualification.
- b. *For non-compliance with required disclosures.* Willful non-disclosure or erroneous disclosure of any item required to be disclosed under this framework in the Published Statement of Condition above shall be subject to the appropriate monetary penalty under Sec. 1102-Q that will be imposed on the QB. In addition, the CEO and the Board shall be subject to the following non-monetary sanctions:
- (1) First offense – warning on CEO and the Board;
 - (2) Second offense – reprimand on CEO and the Board;
 - (3) Third offense – one (1) month suspension of CEO without pay; and
 - (4) Further offense – possible disqualification of the CEO and/or the Board.

(Circular No. 1024 dated 06 December 2018)

126-Q DOMESTIC SYSTEMICALLY IMPORTANT BANKS

It is the thrust of the Bangko Sentral to ensure that its capital adequacy framework is consistent with the Basel principles. Hence, the Bangko Sentral is adopting policy measures for Domestic Systemically Important Bank (D-SIBs), which are essentially aligned with the documents issued by BCBS on global systemically important banks (G-SIBs) and D-SIBs. The broad aim of the policies is to reduce the probability of failure of D-SIBs by increasing their going-concern loss absorbency and to reduce the extent or impact of failure of D-SIBs on the domestic/real economy.

The guidelines shall apply on a consolidated basis to all UBs and KBs, including branches of foreign banks established under Republic Act (R.A.) No. 7721 (An Act Liberalizing the Entry and Scope of Operations of Foreign Banks in the Philippines and for Other Purposes), as amended by R.A. No. 10641.

The framework for dealing with domestic systemically important banks consists of three parts, as follows:

a. Assessment methodology

The impact of a D-SIB's failure to the domestic economy shall be assessed based on bank-specific factors, to wit: (a) size; (b) interconnectedness; (c) substitutability/financial institution infrastructure; and (d) complexity. Nine (9) indicators related to these categories shall be used to identify D-SIBs. These indicators reflect the factors or criteria which makes a bank significant for the stability of the financial system and the economy.

b. Higher loss absorbency (HLA) and interaction with other elements of Basel III framework

Banks that will be identified as D-SIBs shall be required to have higher loss absorbency. The HLA requirement is aimed at ensuring that D-SIBs have a higher share of their balance sheets funded by instruments which increase their resilience as a going concern, considering that the failure of a D-SIB is expected to have a greater impact on the domestic financial system and economy.

To determine banks' compliance with the additional CET1 requirement for D-SIBs, the minimum ratio should be complied with by the parent bank and its subsidiary banks and quasi-banks on both solo and consolidated bases.

c. Intensive supervisory approach

Banks identified as D-SIBs shall include in their Internal Capital Adequacy Assessment Process (ICAAP) document concrete and reasonable recovery plans which shall be implemented in case the bank breaches the HLA capital requirement. The recovery plans shall include guidelines and action plans to be taken to restore the D-SIB's financial condition to viable level in cases of significant deterioration in certain scenarios. This shall include specific initiatives appropriate to the bank's risk profile such as capital raising activities, streamlining of businesses, restructuring and disposal of assets, to improve capital position.

The framework for dealing with D-SIBs including the guidelines on data requirements and reports, schedule of restriction on distribution of dividends during the phased-in implementation period of the HLA requirement, and recovery plan are shown in *Appendix Q-68*.

(Circular No. 1051 dated 27 September 2019)

127-Q BASEL III LEVERAGE RATIO FRAMEWORK

- a. *Minimum requirement.* The Basel III Leverage Ratio is designed to act as a supplementary measure to the risk-based capital requirements. The leverage ratio intends to restrict the build-up of leverage in the banking sector to avoid destabilizing deleveraging processes which can damage the broader financial system and the economy. Likewise, it reinforces the risk-based requirements with a simple, non-risk based "backstop" measure.

The Basel III leverage ratio is defined as the capital measure (the numerator) divided by the exposure measure (the denominator), with this ratio expressed as percentage:

$$\text{Basel III Leverage Ratio} = \frac{\text{Capital Measure (Tier 1 Capital)}}{\text{Exposure Measure}}$$

The leverage ratio shall not be less than 5.0 percent computed on both solo (head office plus branches) and consolidated bases (including subsidiary financial allied undertakings but excluding insurance companies).

The guidelines implementing the Basel III Leverage Ratio framework are provided in *Appendix Q-71*. The guidelines shall apply to subsidiary QBs of UBs and KBs.

Starting 31 December 2014 and every quarter thereafter until 30 June 2018, QBs concerned shall submit the Basel III Leverage Ratio reporting template, including required disclosure templates, on both solo and consolidated bases for monitoring purposes. The report submission is summarized below:

Report Date	Reference Date	Deadline of Submission
30 September 2017 31 December 2017	31 December 2017	Fifteen (15) banking/business days from end of reference date on solo basis, and
31 March 2018	31 March 2018	Thirty (30) banking/business days from end of reference date on consolidated basis
30 June 2018	30 June 2018	

During the monitoring period, public disclosure of information relative to leverage ratio shall not be required.

The monitoring of the leverage ratio shall be implemented as a Pillar 1 minimum requirement effective on 01 July 2018. Upon migration to a Pillar 1 requirement, the Basel III Leverage Ratio report shall be submitted quarterly along with the Basel III CAR report on both solo and consolidated bases. The mandatory disclosure requirements provided under *Appendix Q-71* shall be published in the quarterly published balance sheet as well as in the annual reports or published financial reports (e.g., audited financial statements).

- b. *Sanctions.* QBs shall not be penalized on any breach on the five percent (5%) minimum leverage ratio during the monitoring period. However, erroneous, delayed, erroneous and delayed, or unsubmitted reports of banks shall be subject to penalties provided under Sec. 171. In the case of QBs, late and/or erroneous reports shall be subject to penalties under Sec. 172-Q. The reports shall be classified as a Category A-1 report.

(Circular Nos. 990 22 January 2018, 988 dated 20 December 2017, 956 dated 17 April 2017, 943 dated 26 January 2017, 881 dated 09 June 2015, M-2015-026 dated 16 July 2015, Circular Nos. 856 dated 29 October 2014, and 842 dated 25 July 2014)

128-Q TREATMENT OF EQUITY INVESTMENT WITH RECIPROCAL STOCKHOLDINGS

For purposes of computing the prescribed ratio of net worth (or combined capital accounts) to risk assets, equity investments of a QB in another QB shall be deducted from its net worth if the investee QB has a reciprocal equity investment in the investing QB, in which case the investment of the QB or the reciprocal investment of the other QB, whichever is lower, shall be deducted from the net worth of the QBs.

129-Q SANCTIONS ON NET WORTH DEFICIENCY

- a. Any QB which is deficient in the capital requirement under Sec. 125-Q shall be liable to the following sanctions:
- (1) In case of capital deficiency for five or more times within a reporting period:
 - (a) For the first offense -a fine of P3,000.
 - (b) For the second consecutive offense -prohibition from extending new loans or making new investments for a period of thirty (30) calendar days.

New loans and new investments shall refer to any loan or investment involving disbursement of funds, except GS.
 - (c) For the third consecutive offense -extension of the penalty under the preceding paragraph for another thirty (30) calendar days.

- (d) For the fourth consecutive offense -suspension of the Certificate of Authority to engage in quasi-banking functions for a period of thirty (30) calendar days. The suspension shall be automatically lifted if in the final reporting period of the period of suspension, the entity maintains the minimum capital required under Secs. 124-Q and 125-Q as may be applicable for every day of such reporting period.
- (2) In case of continuous capital deficiency:
- (a) For two (2) consecutive reporting periods -suspension of the Certificate of Authority to engage in quasi-banking functions for a period of thirty (30) calendar days.
 - (b) For every consecutive reporting period, the suspension shall extend for another thirty (30) calendar days.
 - (c) The suspension shall be automatically lifted if on the final reporting period of the period of suspension, the entity maintains the minimum capital required under Secs. 124-Q and 125-Q as may be applicable for every day of such reporting period.
- (3) In all of the cases abovementioned, establishment of branches, agencies, extension offices, etc., shall be suspended.
- b. For improperly accomplished report, QBs shall pay P600 per day for every day the report is not corrected, counted as of the date the error is brought to its attention until the corrected report is submitted.
 - c. For willfully making false statements in the report or submitting a false report, the Certificate of Authority for quasi-banking functions shall be suspended/revoked.
 - d. The Monetary Board may impose additional sanctions on the entity engaged in quasi-banking functions by:
 - (1) Revoking the Certificate of Authority to engage in quasi-banking functions; and
 - (2) Such other sanctions as the Bangko Sentral may deem necessary.

130-Q INTERNAL CAPITAL ADEQUACY ASSESSMENT PROCESS AND SUPERVISORY REVIEW PROCESS

The guidelines on internal capital adequacy assessment process (ICAAP) and the Bangko Sentral's supervisory review process (SRP) are shown in *Appendices Q-54* and *Q-55* respectively.

The ICAAP guidelines shall apply to all UBs and KBs on a group-wide basis.

All covered UBs and KBs are required to submit the interim ICAAP document on or before 30 April 2010 and the final ICAAP document together with the Corporate Secretary's Certificate attesting to the approval by the bank's board of directors on or before 31 January 2011.

The guidelines shall take effect on 01 January 2011.

D. CORPORATE GOVERNANCE GUIDELINES

131-Q POLICY STATEMENT AND DEFINITION OF TERMS

It is the thrust of the Bangko Sentral to continuously strengthen corporate governance in its supervised financial institutions (BSFIs) cognizant that this is central in sustaining the resiliency and stability of the financial system. In this light, the Bangko Sentral is aligning its existing regulations with the Code of Corporate Governance issued by the SEC as well as with best practices and standards issued by globally recognized standard setting bodies.

Definition of terms. For purposes of these regulations, the following definitions shall apply:

- a. *Affiliate* shall refer to an entity linked directly or indirectly to as BSFI by means of:
 - (1) Ownership, control as defined under Item "c" of this Section, or power to vote of at least twenty percent (20%) of the outstanding voting stock of the entity, or vice-versa;
 - (2) Interlocking directorship or officership, where the concerned director or officer concerned owns, controls, as defined under Item "c" of this Section, or has the power to vote, at least twenty percent (20%) of the outstanding voting stock of the entity;
 - (3) Common ownership, whereby the common stockholders own-at least ten percent (10%) of the outstanding voting stock of the BSFI and at least twenty percent (20%) of the outstanding voting stock of the entity;
 - (4) Management contract or any arrangement granting power to the BSFI to direct or cause the direction of management and policies of the entity;

- (5) Permanent proxy or voting trusts in favor of the BSFI constituting at least twenty percent (20%) of the outstanding voting stock of the entity, or vice versa;
- b. *Close family members* shall refer to persons related to the BSFI's directors, officers and stockholders (DOS) within the second degree of consanguinity or affinity, legitimate or common-law. These shall include the spouse, parent, child, brother, sister, grandparent, grandchild, parent-in-law, son-/daughter-in-law, brother-/sister-in-law, grandparent-in-law, and grandchild-in-law of the BSFI's DOS.
- c. *Control* of an enterprise exists when there is:
 - (1) Power over more than one-half of the voting rights by virtue of an agreement with other stockholders; or
 - (2) Power to govern the financial and operating policies of the enterprise under a statute or an agreement; or
 - (3) Power to appoint or remove the majority of the members of the board; or
 - (4) Power to cast the majority votes at meetings of the board of directors or equivalent governing body; or
 - (5) Any other arrangements similar to any of the above.

Control is presumed to exist if there is ownership or holding, whether direct or indirect, if twenty percent (20%) or more of a class of voting shares of a company.

Should the BSFI choose to disclaim or rebut the presumption, it should provide facts sufficient to show that there is indeed no control. Further, the BSFI shall submit a written commitment that: (a) shares owned or held are exclusively for investment purposes; (b) the BSFI-stockholder will not serve on the board of directors and will not nominate any candidate to serve on the board of directors or otherwise seek board representation; (c) the BSFI-stockholder will only have limited contacts with BSFI management that are customary for interested shareholders; (d) the BSFI-stockholder will engage only in normal and customary transactions with the enterprise; and (e) the BSFI will not pledge the shares acquired to secure a loan with any institution.

- d. *Corresponding person in affiliated companies* shall refer to the DOS of the affiliated companies and their close family members.
- e. *Directors*. Directors shall include:
 - (1) directors who are named as such in the articles of incorporation;
 - (2) directors duly elected in subsequent meetings of the stockholders or those appointed by virtue of the charter of government-owned BSFIs; and
 - (3) those elected to fill vacancies in the board of directors.

- f. *Financial allied undertakings*.

This shall refer to enterprise or firms with homogenous or similar activities/business/function with the financial intermediary and may include, but not limited to, leasing companies, banks, investment houses, financing companies, credit card operations, FIs addressed/catering to small and medium scale industries, and such other similar activities as the Monetary Board may declare as appropriate from time to time.

- g. *Independent directors*. An independent directors shall refer to a person who –
 - (1) is not or was not a director, officer or employee of the BSFI, its subsidiaries, affiliates or related interests during the past three (3) years counted from the date of his election/appointment;
 - (2) is not or was not a director, officer, or employee of the BSFI's substantial stockholders and their related companies during the past three (3) years counted from the date of his election/appointment;
 - (3) is not an owner of more than two percent (2%) of the outstanding shares or a stockholder with shares of stock sufficient to elect one (1) seat in the board of directors of the institution, or in any of its related companies or of its majority corporate shareholders;
 - (4) is not a close family member of any director, officer or stockholder holding shares of stock sufficient to elect one (1) seat in the board of the BSFI or any of its related companies or of any of its substantial stockholders;
 - (5) is not acting as a nominee or representative of any director or substantial shareholder of the BSFI, any of its related companies or any of its substantial shareholders;
 - (6) is not or was not retained as professional adviser, consultant, agent or counsel of the BSFI, any of its related companies or any of its substantial shareholders, either in his personal capacity or through his firm during the past three (3) years counted from the date of his election;

- (7) is independent of management and free from any business or other relationship, has not engaged and does not engage in any transaction with the BSFI or with any of its related companies or with any of its substantial shareholders, whether by himself or with other persons or through a firm of which he is a partner or a company of which he is a director or substantial shareholder, other than transactions which are conducted at arm's length and could not materially interfere with or influence the exercise of his judgment;
 - (8) was not appointed in the BSFI, its subsidiaries, affiliates or related interests as Chairman "Emeritus", "Ex-Officio", Directors/Officers or Members of any Advisory Board, or otherwise appointed in a capacity to assist the board of directors in the performance of its duties and responsibilities during the past three (3) years counted from the date of his appointment;
 - (9) is not affiliated with any non-profit organization that receives significant funding from the BSFI or any of its related companies or substantial shareholders; and
 - (10) is not employed as an executive officer of another company where any of the BSFI's executives serve as directors.
- h. *Majority stockholder or majority shareholder* shall refer to a person, whether natural or juridical, owning more than fifty percent (50%) of the voting stock of a BSFI.
 - i. *Non-executive directors* shall refer to those who are not part of the day to day management of operations and shall include the independent directors. However, not all non-executive directors are considered independent directors.
 - j. *Non-financial allied undertakings.* Non-financial allied undertakings may include, but not limited to, warehousing companies, storage companies, safe deposit box companies, companies engaged in the management of mutual funds but not in the mutual funds themselves, management corporations engaged or to be engaged in activities similar to the management of mutual funds, insurance agencies, companies engaged in home building and home development and companies providing drying and/or including facilities for agricultural crops such as rice and corn, companies engaged in merchant acquiring business and such other similar activities as the Monetary Board may declare as appropriate from time to time.
 - k. Officers shall include the Chief Executive Officer (CEO)¹, executive vice president, senior vice-president, vice president, general manager, treasurer, secretary, trust officer and others mentioned as officers of the BSFI, or those whose duties as such are defined in the by-laws, or are generally known to be the officers of the BSFI (or any of its branches and offices other than the head office) either through announcement, representation, publication or any kind of communication made by the BSFI: *Provided*, That a person holding the position of chairman or vice-chairman of the board of directors or another position in the board of directors shall not be considered as an officer unless the duties of his position in the board of directors include functions of management such as those ordinarily performed by regular officers: *Provided, further*, That members of a group or committee, including sub-groups or sub-committees, whose duties include functions of management such as those ordinarily performed by regular officers, and are not purely recommendatory or advisory, shall likewise be considered as officers.
 - l. *Parent* shall refer to a corporation which has control over another corporation directly or indirectly through one (1) or more intermediaries.
 - m. *Related company* shall refer to another company which is:
 - (1) Its parent or holding company;
 - (2) Its subsidiary or affiliate; or
 - (3) A corporation where a BSFI or its majority stockholder own such number of shares that will allow/enable such person or group to elect at least one (1) member of the board of directors or a partnership where such majority stockholder is a partner.
 - n. *Related interest* shall refer to any of the following:
 - (1) Spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, of a director, officer or stockholder of the BSFI;
 - (2) Partnership of which a director, officer, or stockholder of a BSFI or his spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, is a general partner;

¹ Shall also refer to the President or any other title referring to the top management in the BSFI.

- (3) Co-owner with the director, officer, stockholder or his spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, of the property or interest or right mortgaged, pledged or assigned to secure the loans or other credit accommodations, except when the mortgage, pledge or assignment covers only said co-owner's undivided interest;
- (4) Corporation, association or firm of which any or a group of directors, officers, stockholders of the BSFI and/or their spouses or relatives within the first degree of consanguinity or affinity, or relative by legal adoption, hold or own at least twenty percent (20%) of the subscribed capital of such corporation, or of the equity of such association or firm;
- (5) Corporation, association or firm wholly or majority-owned or controlled by any related entity or a group of related entities mentioned in Items "n(2)" and "n(4)" of this Section;
- (6) Corporation, association or firm which owns or controls directly or indirectly whether singly or as part of a group of related interest at least twenty percent (20%) of the subscribed capital of a substantial stockholder of the BSFI or which controls majority interest of the BSFI pursuant to item "g" of Sec. 362 (*Definition of terms*);
- (7) Corporation, association or firm which has an existing management contract or any similar arrangement with the parent of the BSFI; and
- (8) Non-governmental organizations (NGOs)/foundations that are engaged in retail microfinance operations which are incorporated by any of the stockholders and/or directors and/or officers or related BSFIs.

The general principles and standards that will govern the business relationships between BSFIs and their related NGOs/foundations engaged in retail microfinance are found in *Appendix 23*.

- o. *Related parties* shall cover the BSFI's subsidiaries as well as affiliates and any party (including their subsidiaries, affiliates and special purpose entities) that the BSFI exerts direct/indirect control over or that exerts direct/indirect control over the BSFI; the BSFI's directors, officers, stockholders, and its related interests (DOSRI), and their close family members, as well as corresponding persons in affiliated companies. This shall also include such other person/juridical entity whose interests may pose potential conflict with the interest of the BSFI, hence, is identified as a related party.

The above definition shall also include direct or indirect linkages to a BSFI identified as follows:

- (1) Ownership, control or power to vote, of ten percent (10%) to less than twenty percent (20%) of the outstanding voting stock of the borrowing entity, or vice versa;
 - (2) Interlocking directorship or officership, except in cases involving independent directors as defined under existing regulations or directors holding nominal share in the borrowing corporation;
 - (3) Common stockholders owning at least ten percent (10%) of the outstanding voting stock of the BSFI and ten percent (10%) to less than twenty percent (20%) of the outstanding voting stock of the borrowing entity; or
 - (4) Permanent proxy or voting trusts in favor of the BSFI constituting ten percent (10%) to less than twenty percent (20%) of the outstanding voting stock of the borrowing entity, or vice versa.
- p. *Related party transactions (RPTs)* shall refer to transactions or dealings with related parties of the BSFI, including its trust department regardless of whether or not a price is charged. These shall include, but not limited, to the following:
 - (1) On-and off-balance sheet credit exposures and claims and write-offs;
 - (2) Investments and/or subscriptions for debt/equity issuances;
 - (3) Consulting, professional, agency and other service arrangements/contracts;
 - (4) Purchases and sales of assets, including transfer of technology and intangible items (e.g., research and development, trademarks and license agreements);
 - (5) Construction arrangements/contracts;
 - (6) Lease arrangements/contracts;
 - (7) Trading and derivative transactions;
 - (8) Borrowings, commitments, fund transfers and guarantees;
 - (9) Sale, purchase or supply of any goods or materials; and
 - (10) Establishment of joint venture entities.

RPTs shall be interpreted broadly to include not only transactions that are entered into with related parties but also outstanding transactions that were entered into with an unrelated party that subsequently becomes a related party.

- q. *Risk appetite statement* shall refer to the articulation in written form of the aggregate level and types of risk that a BSFI is willing to accept, or to avoid, in order to achieve its business objectives. It includes qualitative statements as well as quantitative measures expressed relative to earnings, capital, risk measures, liquidity and other relevant measures as appropriate.

- r. *Risk governance framework* shall refer to the framework through which the board of directors and management establish the BSFI's strategy; articulate and monitor adherence to risk appetite and risk limits; and identify, measure, and manage risks.
- s. *Risk limits* shall refer to the allocation of the BSFI's risk appetite statement to: specific risk categories (e.g., credit, market, liquidity, operational); the business unit or platform level (e.g., retail, capital markets); lines of business or product level [e.g., concentration, value-at-risk (VaR), or other limits]; and other levels, as appropriate.
- t. *Stockholder* shall refer to any stockholder of record in the books of the BSFI, acting personally, or through an attorney-in-fact; or any other person duly authorized by him or through a trustee designated pursuant to a proxy or voting trust or other similar contracts, whose stockholdings in the BSFI, individual and/or collectively with the stockholdings of: (1) his spouse and/or relative within the first degree by consanguinity or affinity or legal adoption; (2) a partnership in which the stockholder and/or the spouse and/or any of the aforementioned relatives is a general partner; and (3) corporation, association or firm of which the stockholder and/or his spouse and/or the aforementioned relatives own more than fifty percent (50%) of the total subscribed capital stock of such corporation, association or firm, amount to one percent (1%) or more of the total subscribed capital stock of the BSFI.
- u. *Substantial stockholder* shall refer to a person, or group of persons whether natural or juridical, owning such number of shares that will allow such person or group to elect at least one (1) member of the board of directors of a BSFI or who is directly or indirectly the registered or beneficial owner of more than ten percent (10%) of any class of its equity security.
- v. *Subsidiary* shall refer to a corporation or firm more than fifty percent (50%) of the outstanding voting stock of which is directly or indirectly owned, controlled or held with power to vote by its parent corporation.

(Circular Nos. 970 dated 22 August 2017, 957 dated 17 April 2017, 914 dated 23 June 2016, 896 dated 17 December 2015, 894 dated 07 December 2015, and 862 dated 17 December 2014)

132-Q BOARD OF DIRECTORS

Powers/Corporate powers of the board of directors. The corporate powers of an institution shall be exercised, its business conducted, and all its resources controlled through its board of directors. The powers of the board of directors as conferred by law are original and cannot be revoked by the stockholders. The directors shall hold their office charged with the duty to exercise sound and objective judgment for the best interest of the institution.

Composition of the board of directors.

- a. Pursuant to Sections 15 and 17 of R.A. No. 8791, there shall be at least five (5), and a maximum of fifteen (15) members of the board of directors of a QB/trust entity: *Provided*, That in case of a QB/trust entity merger or consolidation, the number of directors may be increased up to the total number of the members of board of directors of the merging or consolidating QB/trust entity as provided for in their respective articles of incorporation, but in no case to exceed twenty-one (21). The board of directors shall determine the appropriate number of its members to ensure that the number thereof is commensurate to the size and complexity of the BSFI's operations.
- b. To the extent practicable, the members of the board of directors shall be selected from a broad pool of qualified candidates. Non-executive directors, who shall include independent directors, shall comprise at least majority of the board of directors to promote the independent oversight of management by the board of directors.
- c. At least one-third (1/3) but not less than two (2) members of the board of directors shall be independent directors: *Provided*, That any fractional result from applying the required minimum proportion, i.e., one-third (1/3), shall be rounded up to the nearest whole number.
- d. Subject to existing laws, non-Filipino citizens may become members of the board of directors of a BSFI.

Qualifications of a director.

- a. A director shall have the following minimum qualifications:
 - (1) He must be fit and proper for the position of a director. In determining whether a person is fit and proper for the position of a director, the following matters must be considered: integrity/probity, physical/mental fitness; relevant education/financial literacy/training; possession of competencies relevant to the job, such as knowledge and experience, skills, diligence and independence of mind; and sufficiency of time to fully carry out responsibilities.

In assessing a director's integrity/probity, consideration shall be given to the director's market reputation, observed conduct and behavior, as well as his ability to continuously comply with company

policies and applicable laws and regulations, including market conduct rules, and the relevant requirements and standards of any regulatory body, professional body, clearing house or exchange, or government and any of its instrumentalities/agencies.

An elected director has the burden to prove that he possesses all the foregoing minimum qualifications and none of the cases mentioned under Sec. 137-Q (*Persons disqualified to become directors/trustees*).

A director shall submit to the Bangko Sentral the required certifications and other documentary proof of such qualifications using *Appendix Q-58* as guide within twenty (20) banking days from the date of election. Non-submission of complete documentary requirements within the prescribed period shall be construed as his failure to establish his qualifications for the position and results in his removal from the board of directors.

The Bangko Sentral shall also consider its own records in determining the qualification of a director.

The members of the board of directors shall possess the foregoing qualifications in addition to those required or prescribed under R.A. No. 8791 and other applicable laws and regulations.

- (2) He must have attended a seminar on corporate governance for board of directors. A director shall submit to the Bangko Sentral a certification of compliance with the Bangko Sentral-prescribed syllabus on on-boarding/orientation program for first time directors: *Provided*, That the following persons are exempted from complying with the aforementioned requirement:

- (a) Filipino citizens with recognized stature, influence and reputation in the banking community and whose business practices stand as testimonies to good corporate governance;
- (b) Distinguished Filipino and foreign nationals who served as senior officials in central banks and/or financial regulatory agencies, including former Monetary Board members; or
- (c) Former Chief Justices and Associate Justices of the Philippine Supreme Court:

Provided, further, That this exemption shall not apply to the annual training requirements for the members of the board of directors.

b. *Independent and non-executive directors*

In selecting independent and non-executive directors, the number and types of entities where the candidate is likewise elected as such, shall be considered to ensure that he will be able to devote sufficient time to effectively carry out his duties and responsibilities. In this regard, the following shall apply:

- (1) A non-executive director may concurrently serve as director in a maximum of five (5) publicly listed companies. In applying this provision to concurrent directorship in entities within a conglomerate, each entity where the non-executive director is concurrently serving as director shall be separately considered in assessing compliance with this requirement; and
- (2) An independent director of a BSFI may only serve as such for a maximum cumulative term of nine (9) years. After which, the independent director shall be perpetually barred from serving as independent director in the same BSFI, but may continue to serve as regular director. The nine (9) year maximum cumulative term for independent directors shall be reckoned from 2012.

c. Members of the board of directors shall not be appointed as corporate secretary or chief compliance officer.

Chairperson of the board of directors.

- a. *Roles of the chairperson of the board of directors.* The chairperson of the board of directors shall provide leadership in the board of directors. He shall ensure effective functioning of the board of directors, including maintaining a relationship of trust with board members. He shall: (1) ensure that the meeting agenda focuses on strategic matters including discussion on risk appetites, and key governance concerns; (2) ensure a sound decision making process; (3) encourage and promote critical discussion; (4) ensure that dissenting views can be expressed and discussed within the decision-making process; (5) ensure that members of the board of directors receives accurate, timely, and relevant information; (6) ensure the conduct of proper orientation for first time directors and provide training opportunities for all directors; and (7) ensure conduct of performance evaluation of the board of directors at least once a year.
- b. *Qualifications of the chairperson of the board of directors.* To promote checks and balances, the chairperson of the board of directors shall be a non-executive regular director or an independent director, and must not have served as CEO of the BSFI within the past three (3) years. The positions of chairperson and CEO shall not be held by one (1) person. In exceptional cases where the position of chairperson of the board of directors and CEO is allowed to be held by one (1) person as approved by the Monetary Board, a lead independent director shall be appointed.

For this purpose, the board of directors shall define the responsibilities of the lead independent director, which shall be documented in the corporate governance manual. The board of directors shall ensure that the lead independent director functions in an environment that allows him to effectively challenge the CEO as circumstances may warrant. The lead independent director shall perform a more enhanced function over the other independent directors and shall: (1) lead the independent directors at board of directors meetings in raising queries and pursuing matters; and (2) lead meetings of independent directors, without the presence of the executive directors.

Board of directors meetings. BSFIs shall include in their by-laws a provision that meetings of their board of directors shall be held only within the Philippines, except in the case of BSFIs with head office located outside the Philippines, which may be held in their respective places of business.

a. *Full board of directors meetings*

The meetings of the board of directors may be conducted through modern technologies such as, but not limited to, teleconferencing and video conferencing as long as the director who is taking part in said meetings can actively participate in the deliberations on matters taken up therein: *Provided*, That every member of the board of directors shall participate in at least fifty percent (50%) and shall physically attend at least twenty-five percent (25%) of all meetings of the board of directors every year: *Provided, further*, That the absence of a director in more than fifty percent (50%) of all regular and specials meetings of the board of directors during his incumbency is a ground for disqualification in the succeeding election.

b. *Board-level committee meetings*

Board-level committees shall meet as prescribed in their respective charters. Participation of committee members may likewise be in person or through modern technologies: *Provided*, That the attendance and participation of members in committee meetings shall be considered in the assessment of continuing fitness and propriety of each director as member of board-level committees and the board of directors.

Specific duties and responsibilities of the board of directors. The board of directors is primarily responsible for defining the BSFI's vision and mission. The board of directors has the fiduciary responsibility to the BSFI and all its shareholders including minority shareholders. It shall approve and oversee the implementation of strategies to achieve corporate objectives. It shall also approve and oversee the implementation of the risk governance framework and the systems of checks and balances. It shall establish a sound corporate governance framework. The board of directors shall approve the selection of the CEO and key members of senior management and control functions and oversee their performance.

a. *The board of directors shall define the BSFI's corporate culture and values.* It shall establish a code of conduct and ethical standards. In the BSFI and shall institutionalize a system that will allow reporting of concerns or violations to an appropriate body. In this regard, the board of directors shall:

- (1) Approve a code of conduct or code of ethics, which shall articulate acceptable and unacceptable activities, transactions and behaviors that could result or potentially result in conflict of interest, personal gain at the expense of the BSFI as well as the corresponding disciplinary actions and sanctions. The code of conduct shall explicitly provide that directors, officers, and all personnel are expected to conduct themselves ethically and perform their job with skill, due care, and diligence in addition to complying with laws, regulations, and company policies.
- (2) Consistently conduct the affairs of the BSFI with a high degree of integrity and play a lead role in establishing the BSFI's corporate culture and values. The board of directors shall establish, actively promote, and communicate a culture of strong governance in the BSFI, through adopted policies and displayed practices. The board of directors shall ensure that the CEO and executive team champion the desired values and conduct, and that they face material consequences if there are persistent or high profile conduct and value breaches.
- (3) Oversee the integrity, independence, and effectiveness of BSFI's policies and procedures for whistleblowing. It shall allow employees to communicate, with protection from reprisal, legitimate concerns about illegal, unethical or questionable practices directly to the board of directors or to any independent unit. Policies shall likewise be set on how such concerns shall be investigated and addressed, for example, by an internal control function, an objective external party, senior management and/or the board of directors itself. It shall prevent the use of the facilities of the BSFI in the furtherance of criminal and other improper or illegal activities, such as but not limited to financial misreporting, money laundering, fraud, bribery or corruption.

b. *The board of directors shall be responsible for approving BSFI's objectives and strategies and in overseeing management's implementation thereof.* In this regard, the board of directors shall:

- (1) Ensure that the BSFI has beneficial influence on the economy by continuously providing services and facilities which will be supportive of the national economy.

- (2) Approve the BSFI's strategic objectives and business plans. These shall take into account the BSFI's long-term financial interests, its level of risk tolerance, and ability to manage risks effectively. In this respect, the board of directors shall establish a system for measuring performance against plans.
 - (3) Actively engage in the affairs of the BSFI and keep up with material changes in the BSFI's business and regulatory environment as well as act in a timely manner to protect the long term interests of the BSFI.
 - (4) Approve and oversee the implementation of policies governing major areas of the BSFI's operations. The board of directors shall regularly review these policies, as well as evaluate control functions (e.g., internal audit, risk management and compliance) with senior management to determine areas for improvement as well as to promptly identify and address significant risks and issues.
- c. *The board of directors shall be responsible for the appointment/selection of key members of senior management and heads of control functions and for the approval of a sound remuneration and other incentives policy for personnel.* In this regard, the board of directors shall:
- (1) Oversee selection of the CEO and other key personnel, including members of senior management and heads of control functions based on the application of fit and proper standards. Integrity, technical expertise, and experience in the BSFI's business, either current or planned, shall be the key considerations in the selection process. Moreover, since mutual trust and a close working relationship are important, the members of senior management shall uphold the general operating philosophy, vision and core values of the BSFI.
 - (2) Approve and oversee the implementation of performance standards as well as remuneration and other incentives policy. The policy should be consistent with the long-term strategic objectives and financial soundness of the BSFI and should promote good performance, convey acceptable risk-taking behavior, and reinforce the BSFI's operating and risk culture.
 - (3) Oversee the performance of senior management and heads of control functions:
 - (a) The board of directors shall regularly monitor and assess the performance of the management team and heads of control functions based on approved performance standards.
 - (b) The board of directors shall hold members of senior management accountable for their actions and enumerate the possible consequences if those actions are not aligned with the board of directors' performance expectations. These expectations shall include adherence to the BSFI's values, risk appetite and risk culture, under all circumstances.
 - (c) The board of directors shall regularly meet with senior management to engage in discussions, question, and critically review the reports and information provided by the latter.
 - (d) Non-executive board members shall meet regularly, other than in meetings of the audit, risk oversight, corporate governance, and related party transactions committees, in the absence of senior management, with the external auditor and heads of the internal audit, compliance and risk management functions.
 - (4) Engage in succession planning for the CEO and other critical positions, as appropriate. In this respect, the board of directors shall establish an effective succession planning program. The program should include a system for identifying and developing potential successors for the CEO and other critical positions.
 - (5) Ensure that personnel's expertise and knowledge remain relevant. The board of directors shall provide its personnel with regular training opportunities as part of a professional development program to enhance their competencies and stay abreast of developments relevant to their areas of responsibility.
 - (6) Ensure that employee pension funds are fully funded or the corresponding liability appropriately recognized in the books of the BSFI at all times, and that all transactions involving the pension fund are conducted at arm's length terms.
- d. *The board of directors shall be responsible for approving and overseeing implementation of the BSFI's corporate governance framework.* In this regard, the board of directors shall:
- (1) Define appropriate governance structure and practices for its own work, and ensure that such practices are followed and periodically reviewed:

- (a) The board of directors shall structure itself in a way, including in terms of size and frequency of meetings, so as to promote efficiency, critical discussion of issues, and thorough review of matters. The board of directors shall meet regularly to properly discharge its functions, and likewise have discussions on values, conduct, and behaviors.
 - (b) The board of directors shall create committees to increase efficiency and allow deeper focus in specific areas. The number and nature of board-level committees would depend on the size of the BSFI and the board of directors, the BSFI's complexity of operations, as well as the board of directors' long-term strategies and risk tolerance.
 - (c) The board of directors shall regularly review the structure, size and composition of the board of directors and board-level committees with the end in view of having a balanced membership. Towards this end, a system and procedure for evaluation of the structure, size and composition of the board of directors and board-level committees shall be adopted which shall include, but not limited to, benchmark and peer group analysis. The results of assessment shall form part of the ongoing improvement efforts of the board of directors.
 - (d) The board of directors shall adopt policies aimed at ensuring that members of the board of directors are able to commit to effectively discharge their responsibilities, which shall include policy on the number of directorship positions and/or other internal/external professional commitments that a director may have, commensurate with the responsibilities placed on the director, as well as the nature, scale and complexity of the BSFI's operations.
 - (e) The board of directors shall ensure that individual members of the board of directors and the shareholders are accurately and timely informed of a comprehensive and understandable assessment of the BSFI's performance, financial condition and risk exposures. All members of the board of directors shall have reasonable access to any information about the BSFI at all times. The board of directors shall also ensure that adequate and appropriate information flows internally and to the public.
 - (f) The board of directors shall assess at least annually its performance and effectiveness as a body, as well as its various committees, the CEO, the individual directors, and the BSFI itself, which may be facilitated by the corporate governance committee or external facilitators. This exercise shall cover the assessment of the ongoing suitability of each board member taking into account his or her performance in the board of directors and board-level committees.
 - (g) The board of directors shall maintain appropriate records (e.g., meeting minutes or summaries of matters reviewed, recommendations made, decisions taken and dissenting opinions) of its deliberations and decisions. The board of directors shall also ensure that independent views in meetings of the board of directors shall be given full consideration and all such meetings shall be duly minuted.
- (2) Develop a remuneration and other incentives policy for directors that shall be submitted for approval of the stockholders. The board of directors shall ensure that the policy is consistent with the long-term interest of the BSFI, does not encourage excessive risk-taking and is not in conflict with the director's fiduciary responsibilities.
 - (3) Adopt a policy on retirement for directors and officers, as part of the succession plan, to promote dynamism and avoid perpetuation in power.
 - (4) Conduct and maintain the affairs of the BSFI within the scope of its authority as prescribed in its charter and in existing laws, rules and regulations. It shall ensure effective compliance with the latter, which include prudential reporting obligations. Serious weaknesses in adhering to these duties and responsibilities may be considered as unsafe and unsound practice.
 - (5) Maintain, and periodically update, organizational rules, by-laws, or other similar documents setting out its organization, rights, responsibilities and key activities. The board of directors shall ensure that the BSFI's organizational structure facilitates effective decision making and good governance. This includes clear definition and delineation of the lines of responsibility and accountability.
 - (6) Oversee the development, approve, and monitor implementation of corporate governance policies. The board of directors shall ensure that corporate governance policies are followed and periodically reviewed for ongoing improvement.
 - (7) Approve an overarching policy on the handling of RPTs to ensure that there is effective compliance with existing laws, rules and regulations at all times, that these are conducted on an arm's length basis, and that no stakeholder is unduly disadvantaged.

- e. *The board of directors shall be responsible for approving BSFI's risk governance framework and overseeing management's implementation thereof.* In this regard, the board of directors shall:
- (1) Define the BSFI's risk appetite. In setting the risk appetite, the board of directors shall take into account the business environment, regulatory landscape, and the BSFI's long term interests and ability to manage risk.
 - (2) Approve and oversee adherence to the risk appetite statement, risk policy, and risks limits.
 - (3) Oversee the development of, approve, and oversee the implementation of policies and procedures relating to the management of risks throughout the BSFI.
 - (4) Define organizational responsibilities following the three (3) lines of defense framework. The business line functions will represent the first line of defense, the risk management and compliance functions for the second line of defense, and the internal audit function for the third line of defense. In this regard:
 - (a) The board of directors shall ensure that the risk management, compliance and internal audit functions have proper stature in the organization, have adequate staff and resources, and carry out their responsibilities independently, objectively and effectively.
 - (b) The board of directors shall ensure that non-executive board members meet regularly, with the external auditor and heads of the internal audit, compliance and risk management functions other than in meetings of the audit and risk oversight committees, in the absence of senior management.

Specific duties and responsibilities of a director. The position of a director is a position of trust. A director assumes certain responsibilities to different constituencies or stakeholders, i.e., the BSFI itself, its stockholders, its depositors and other creditors, its management and employees, the regulators, deposit insurer and the public at large. These constituencies or stakeholders have the right to expect that the institution is being run in a prudent and sound manner. The members of the board of directors should exercise their "duty of care" and "duty of loyalty" to the institution.

- a. *To remain fit and proper for the position for the duration of his term.* A director is expected to remain fit and proper for the position for the duration of his term. He should possess unquestionable credibility to make decisions objectively and resist undue influence. He shall treat board directorship as a profession and shall have a clear understanding of his duties and responsibilities as well as his role in promoting good governance. Hence, he shall maintain his professional integrity and continuously seek to enhance his skills, knowledge and understanding of the activities that the QB is engaged in or intends to pursue as well as the developments in the banking industry including regulatory changes through continuing education or training.
- b. *To conduct fair business transactions with the BSFI and to ensure that personal interest does not bias board decisions.* Directors should, whenever possible, avoid situations that would give rise to a conflict of interest. If transactions with the institution cannot be avoided, it should be done in the regular course of business and upon terms not less favorable to the institution than those offered to others. The basic principle to be observe is that a director should not use his position to make profit or to acquire benefit or advantage for himself and/or his related interests. He should avoid situations that would compromise his impartiality.
- c. *To act honestly and in good faith, with loyalty and in the best interest of the institution, its stockholders, regardless of the amount of their stockholdings, and other stakeholders such as its depositors, investors, borrowers, other clients and the general public.* A director must always act in good faith, with the care which an ordinarily prudent man would exercise under similar circumstances. While a director should always strive to promote the interest of all stockholders, he should also give due regard to the rights and interests of other stakeholders.
- d. *To devote time and attention necessary to properly discharge their duties and responsibilities.* Directors should devote sufficient time to familiarize themselves with the institution's business. They must be constantly aware of the institution's condition and be knowledgeable enough to contribute meaningfully to the board's work. They must attend and actively participate in board and committee meetings, request and review meeting materials, ask questions, and request explanations. If a person cannot give sufficient time and attention to the affairs of the institution, he should neither accept his nomination nor run for election as member of the board.
- e. *To act judiciously.* Before deciding on any matter brought before the board of directors every director should thoroughly evaluate the issues, ask questions and seek clarifications when necessary.
- f. *To contribute significantly to the decision-making process of the board.* Directors should actively participate and exercise objective independent judgment on corporate affairs requiring the decision or approval of such board.

- g. *To exercise independent judgment.* A director should view each problem/situation objectively. When a disagreement with others occurs, he should carefully evaluate the situation and state his position. He should not be afraid to take a position even though it might be unpopular. Corollarily, he should support plans and ideas that he thinks will be beneficial to the institution.
- h. *To have a working knowledge of the statutory and regulatory requirements affecting the institution, including the content of its articles of incorporation and by-laws, the requirements of the Bangko Sentral and where applicable, the requirements of other regulatory agencies.* A director should also keep himself informed of the industry developments and business trends in order to safeguard the institution's competitiveness.
- i. *To observe confidentiality.* Directors must observe the confidentiality of non-public information acquired by reason of their position as directors. They may not disclose said information to any other person without the authority of the board.

BSFIs shall furnish all of their first-time directors within a BSFI with a copy of the specific duties and responsibilities of the board of directors and as an individual director prescribed under Section upon election. The BSFI must keep on file certification under oath of the directors concerned that they have received copies of such specific duties and responsibilities and that they fully understand and accept the same.

(Circular Nos. 1038 dated 22 April 2019, 970 dated 22 August 2017, 889 dated 02 November 2015, 887 dated 07 October 2015, and 840 dated 02 July 2014)

133-Q BOARD-LEVEL COMMITTEES

The board of directors may delegate some of its functions, but not its responsibilities, to board-level committees. In this regard, the board of directors shall:

- a. Approve, review, and update, at least annually or whenever there are significant changes therein, the respective charters of each committee or other documents that set out its mandate, scope and working procedures. Said documents shall articulate how the committee will report to the full board of directors, what is expected of the committee members, and tenure limits for serving on the committee. The board of directors shall also consider occasional rotation of committee members and chairs to avoid undue concentration of power and promote fresh perspective.
- b. Appoint members of the committees taking into account the optimal mix of skills and experience to allow the board of directors, through the committees, to fully understand and objectively evaluate the relevant issues. In order to promote objectivity, the board of directors shall appoint independent directors and non-executive members of the board of directors to the greatest extent possible. Towards this end, an independent director who is a member of any committee that exercises executive or management functions that can potentially impair such director's independence cannot accept membership in committees that perform independent oversight/control functions such as the audit, risk oversight and corporate governance, related party transactions committees, without prior approval of the Monetary Board.
- c. Ensure that each committee shall maintain appropriate records (e.g., minutes of meetings or summary of matters reviewed and decisions taken) of their deliberations and decisions. Such records shall document the committee's fulfillment of its Responsibilities and facilitate the assessment of the effective performance of its functions.
- d. Constitute, at a minimum, the following committees: (1) audit committee; (2) risk oversight committee, and (3) corporate governance committee: *Provided*, That simple or non-complex BSFIs performing quasi-banking functions shall, at a minimum, constitute only the audit committee unless directed by the Bangko Sentral to create other board-level committees: *Provided, further*, That the board of directors shall discuss risk management and corporate governance matters in the meetings of the board of directors, with the views of the independent directors duly considered and minuted.

For this purpose, a BSFI performing quasi-banking function shall be deemed simple or non-complex, unless declared as complex by the Bangko Sentral and therefore necessitates complete compliance with the aforementioned requirements.

Simple or non-complex BSFIs that shall adopt the reduced minimum requirement under this Section shall submit the following to the appropriate supervising department of the Bangko Sentral :

- (1) A secretary's certificate attesting the approval of the board of directors to create only the audit committee/dissolve other board-level committees if and when approved by the Bangko Sentral; and
- (2) A letter signed by the president/chief executive officer requesting approval for creating/maintaining only the audit committee.

Audit committee.

- a. *Composition and chairperson.* The audit committee shall be composed of at least three (3) members of the board of directors, who shall all be non-executive directors, majority of whom shall be independent directors, including the chairperson: *Provided*, That the chairperson of the audit committee shall not be the chairperson of the board of directors or of any other board-level committees.

The audit committee shall have accounting, auditing, or related financial management expertise or experience commensurate with the size, complexity of operations and risk profile of the BSFI. It shall have access to independent experts to assist them in carrying out its responsibilities.

- b. *Duties and responsibilities of the audit committee.* The audit committee shall:
- (1) *Oversee the financial reporting framework.* The committee shall oversee the financial reporting process, practices, and controls. It shall ensure that the reporting framework enables the generation and preparation of accurate and comprehensive information and reports.
 - (2) *Monitor and evaluate the adequacy and effectiveness of the internal control system.* The committee shall oversee the implementation of internal control policies and activities. It shall also ensure that periodic assessment of the internal control system is conducted to identify the weaknesses and evaluate its robustness considering the BSFI's risk profile and strategic direction.
 - (3) *Oversee the internal audit function.* The committee shall be responsible for the appointment/selection, remuneration, and dismissal of internal auditor. It shall review and approve the audit scope and frequency. The committee shall ensure that the scope covers the review of the effectiveness of the BSFI's internal controls, including financial, operational and compliance controls, and risk management system. The committee shall functionally meet with the head of internal audit and such meetings shall be duly minuted and adequately documented. In this regard, the audit committee shall review and approve the performance and compensation of the head of internal audit, and budget of the internal audit function.
 - (4) *Oversee the external audit function.* The committee shall be responsible for the appointment, fees, and replacement of external auditor. It shall review and approve the engagement contract and ensure that the scope of audit likewise cover areas specifically prescribed by the Bangko Sentral and other regulators.
 - (5) *Oversee the implementation of corrective actions.* The committee shall receive key audit reports, and ensure that senior management is taking necessary corrective actions in a timely manner to address the weaknesses, non-compliance with policies, laws, and regulations and other issues identified by auditors and other control functions.
 - (6) *Investigate significant issues/concerns raised.* The committee shall have explicit authority to investigate any matter within its terms of reference, have full access to and cooperation by management, and have full discretion to invite any director or executive officer to attend its meetings.
 - (7) *Establish whistle blowing mechanism.* The committee shall establish and maintain mechanisms by which officers and staff shall, in confidence, raise concerns about possible improprieties or malpractices in matters of financial reporting, internal control, auditing or other issues to persons or entities that have the power to take corrective action. It shall ensure that arrangements are in place for the independent investigation, appropriate follow-up action, and subsequent resolution of complaints.

Risk oversight committee (ROC).

- a. *Composition and chairperson.* The committee shall be composed of at least three (3) members of the board of directors, majority of whom shall be independent directors, including the chairperson. The ROC's chairperson shall not be the chairperson of the board of directors, or any other board-level committee. The risk oversight committee shall possess a range of expertise and adequate knowledge on risk management issues and practices. It shall have access to independent experts to assist it in discharging its responsibilities.
- b. *Duties and responsibilities of the ROC.* The ROC shall advise the board of directors on the BSFI's overall current and future risk appetite, oversee senior management's adherence to the risk appetite statement, and report on the state of risk culture of the BSFI. The ROC shall:
- (1) *Oversee the risk management framework.* The committee shall oversee the enterprise risk management framework and ensure that there is periodic review of the effectiveness of the risk management systems and recovery plans. It shall ensure that corrective actions are promptly implemented to address risk management concerns.

- (2) *Oversee the adherence to risk appetite.* The committee shall ensure that the current and emerging risk exposures are consistent with the BSFI's strategic direction and overall risk appetite. It shall assess the overall status of adherence to the risk appetite based on the quality of compliance with the limit structure, policies, and procedures relating to risk management and control, and performance of management, among others.
- (3) *Oversee the risk management function.* The committee shall be responsible for the appointment/selection, remuneration, and dismissal of the chief risk officer (CRO). It shall also ensure that the risk management function has adequate resources and effectively oversees the risk taking activities of the BSFI.

Corporate governance committee.

- a. *Composition.* The committee shall be composed of at least three (3) members of the board of directors who shall all be non-executive directors, majority of whom shall be independent directors, including the chairperson.
- b. *Duties and responsibilities of the corporate governance committee.* The corporate governance committee shall assist the board of directors in fulfilling its corporate governance responsibilities. In this regard, the corporate governance committee shall:

- (1) *Oversee the nomination process for members of the board of directors and for positions appointed by the board of directors.* The committee shall review and evaluate the qualifications of all persons nominated to the board of directors as well as those nominated to other positions requiring appointment by the board of directors. The committee shall recommend to the board of directors matters pertaining to the assignment to board committees, as well as succession plan for the members of the board of directors and senior management.
- (2) *Oversee the continuing education program for the board of directors.* The committee shall ensure allocation of sufficient time, budget and other resources for the continuing education of directors, and draw on external expertise as needed. The committee shall establish and ensure effective implementation of policy for on-boarding/orientation program for first time directors and annual continuing education for all directors.

For this purpose, the orientation program for first time directors shall be for at least eight (8) hours, while the annual continuing training shall be at least for four (4) hours. The training programs should cover topics relevant in carrying out their duties and responsibilities as directors.

- (3) *Oversee the performance evaluation process.* The committee shall oversee the periodic evaluation of contribution and performance (e.g., competence, candor, attendance, preparedness and participation) of the board of directors, board-level committees, and senior management. Internal guidelines shall be adopted that address the competing time commitments of directors serving on multiple boards.
- (4) *Oversee the design and operation of the remuneration and other incentives policy.* The committee shall ensure that the remuneration and other incentives policy is aligned with operating and risk culture as well as with the strategic and financial interest of BSFI, promotes good performance and conveys acceptable risk-taking behavior defined under its Code of Ethics, and complies with legal and regulatory requirements. It shall work closely with the BSFI's risk oversight committee in evaluating the incentives created by the remuneration system. In particular, the risk oversight committee shall examine whether incentives provided by the remuneration system take into consideration risk, capital, and the likelihood and timing of earnings. Moreover, it shall monitor and review the remuneration and other incentives policy including plans, processes and outcomes to ensure that it operates and achieves the objectives as intended.

(Circular No. 970 dated 22 August 2017)

134-Q OFFICERS

Qualifications of an officer. An officer must be fit and proper for the position he is being appointed to. In determining whether a person is fit and proper for a particular position, the following matters must be considered: integrity/probity, education/training, and possession of competencies relevant to the function such as knowledge and experience, skills and diligence.

In assessing an officer's integrity/probity, consideration shall be given to the officer's market reputation, observed conduct and behavior, as well as his ability to continuously comply with company policies and applicable laws and regulations, including market conduct rules, and the relevant requirements and standards of any regulatory body, professional body, clearing house or exchange, or government and any of its instrumentalities/agencies.

An appointed officer has the burden to prove that he possesses all the foregoing minimum qualifications and none of the cases mentioned under Sec. 137-Q (*Persons disqualified to become officers*). An officer shall submit to the Bangko Sentral the required certifications and other documentary proof of such qualifications using *Appendix Q-58* as guide within twenty (20) banking days from the date of meeting of the board of directors in which the officer is appointed/promoted. Non-

submission of complete documentary requirements within the prescribed period shall be construed as his/her failure to establish his qualifications for the position and results to his removal therefrom.

The Bangko Sentral shall also consider its own records in determining the qualifications of an officer.

The foregoing qualifications for officers shall be in addition to those required or prescribed under R.A. No. 8791 and other applicable laws and regulations.

Duties and responsibilities of officers.

- a. *To set the tone of good governance from the top.* QB/trust entity officers shall promote the good governance practices within the QB by ensuring that policies on governance as approved by the board of directors are consistently adopted across the QB/trust entity.
- b. *To oversee the day-to-day management of the BSFI.* QB/trust entity officers shall ensure that QB's activities and operations are consistent with the QB's strategic objectives, risk strategy, corporate values and policies as approved by the board of directors. They shall establish a QB-wide management system characterized by strategically aligned and mutually reinforcing performance standards across the organization.
- c. *To ensure that duties are effectively delegated to the staff and to establish a management structure that promotes accountability and transparency.* QB/trust entity officers shall establish measurable standards, initiatives and specific responsibilities and accountabilities for each QB/trust entity personnel. QB/trust entity officers shall oversee the performance of these delegated duties and responsibilities and shall ultimately be responsible to the board of directors for the performance of the QB/trust entity.
- d. *To promote and strengthen check/s and balances systems in the BSFI.* QB/trust entity officers shall promote sound internal controls and avoid activities that shall compromise the effective dispense of their functions. Further, they shall ensure that they give due recognition to the importance of the internal audit, compliance and external audit functions.

Chief executive officer (CEO). The CEO shall be the overall-in-charge for the management of the business and affairs of the BSFI governed by the strategic direction and risk appetite approved by the board of directors. He shall be primarily accountable to the board of directors in championing the desired conduct and behavior, implementing strategies, and in promoting the long-term interest of the BSFI.

(Circular No. 970 dated 22 August 2017)

135-Q REMUNERATION AND OTHER INCENTIVES

The board of directors shall approve a remuneration and other incentives policy that is appropriate and consistent with the BSFI's operating and risk culture, long-term business and risk appetite, performance, and control environment. Said policy shall cover all employees and should be designed to encourage good performance that supports the interest of the BSFI and its stakeholders. It shall be aligned with prudent risk taking and explicitly discourage excessive risk taking as defined by internal policies. The board of directors or a board-level committee (e.g., corporate governance committee) shall monitor and review the remuneration and other incentives policy including plans, processes and outcomes, at least annually, to ensure that it operates and achieves the objectives as intended.

BSFIs shall consider the following in the design of the remuneration and other incentives policy:

- a. The remuneration and incentives package shall take into account the employee's position, role, responsibilities and activities in the BSFI. It shall also consider the risks that the employee takes on behalf of the BSFI. In this regard, it should be sensitive to prospective risks and risk outcomes that have been realized and considers the overall performance of the BSFI.
- b. Remuneration and incentive pay-out schedule should be sensitive to the time-horizon of risk. The policy may include provisions that defer payment until risk outcomes are better known or provisions under which remuneration and incentives may be reduced or reversed if new facts emerge showing that the remuneration and incentives paid was based on erroneous assumptions, such as misreporting, or if it is discovered that the employee has failed to comply with internal policies or legal requirements.
- c. Remuneration of employees in risk control functions (i.e., internal audit, compliance, and risk management functions) shall be based on the achievement of their objectives and shall be independent of the business lines which they oversee.

Profit sharing programs. Profit sharing programs adopted in favor of directors/trustees/officers and employees shall be reflected in the by-laws of BSFIs, subject to the following guidelines:

- a. The base in any profit sharing program shall be the net income for the year of the QB, as shown in its consolidated statement of income and expenses (CSIE) for the year, net of the following:
 - (1) All cumulative dividends accruing to preferred stock to the extent not covered by earned surplus;
 - (2) Accrued interest receivable credited to income but not yet collected, net of reserves already set up for uncollected interest on loans;
 - (3) Unbooked valuation reserves on loans or an amount required to update valuation reserves in accordance with the schedule approved by the Monetary Board, as well as all amortizations due on deferred charges;
 - (4) Provisions for the current year's taxes;
 - (5) Income tax deferred for the year: *Provided, however,* That in case of reversal of deferred income taxes excluded from net income in previous years' profit sharings, the deferred income tax reversed to expense shall be added back to net income to arrive at the basis for profit sharing for the year during which the reversal is made;
 - (6) Accumulated profits not yet received but already recorded by a QB representing its share in profits of its subsidiaries under the equity method of accounting; and
- b. The QB may provide in its by-laws for other priorities in the computation of net profits for purposes of profit sharing: *Provided,* That in no case shall profit sharing take precedence over any of the items in the preceding paragraph.

Loans, advances, and other credit accommodations to officers. BSFI may grant loans, advances, or any other forms of credit accommodations to their officers as part of a board-approved remuneration and incentive program. The board of directors shall ensure that these credit accommodations are granted for legitimate purposes, such as among others, financing the housing, transportation, and personal needs of the officers. In this regard, the board of directors shall identify specific purposes eligible for said credit accommodations to officers to promote good performance and acceptable risk-taking behavior consistent with the BSFI's operating and risk culture, long-term business and risk appetite, performance, and control environment. BSFIs shall submit the board-approved purposes for the grant of loans, advances, or any other forms of credit accommodations to officers for approval of the Bangko Sentral. The guidelines and contractual provisions implementing said defined purposes, and any subsequent changes thereto, shall on the other hand, be approved by the board of directors or a board-level committee.

Transitory provision. Existing financing programs for officers that have been approved by the Bangko Sentral prior to 14 September 2017 need not be resubmitted: *Provided,* That BSFIs that shall change any of the provisions of the earlier approved program shall submit for approval of the Bangko Sentral the board-approved purposes for the grant of loans, advances, or any other forms of credit accommodations to officers.

Compensation and other benefits of directors/trustees and officers. To protect the funds of depositors and creditors, the Monetary Board may regulate/restrict the payment by the QB/trust entity of compensation, allowances, fees, bonuses, stock options, profit sharing, and fringe benefits to its directors and officers in exceptional cases and when the circumstances warrant, such as, but not limited to the following:

- a. When the QB/trust entity is under controllership, conservatorship or when it has outstanding emergency loans and advances and such other forms of credit accommodation from the Bangko Sentral which are intended to provide it with liquidity in times of need;
- b. When the institution is found by the Monetary Board to be conducting business in an unsafe or unsound manner; and
- c. When it is found by the Monetary Board to be in an unsatisfactory financial condition such as, but not limited to, the following cases:
 - (1) Its capital is impaired;
 - (2) It has suffered continuous losses from operations for the past three (3) years;
 - (3) Its composite CAMELS rating in the latest examination is below "3"; and
 - (4) It is under rehabilitation by the Bangko Sentral/PDIC which rehabilitation may include debt-to-equity conversion, etc.

In the presence of any one (1) or more of the circumstances mentioned above, the Monetary Board may impose the following restrictions in the compensation and other benefits of directors and officers:

- d. In the case of profit sharing, the provision under this Section on Profit sharing programs shall be observed except that for purposes of this Section, the total amount of unbooked valuation reserves and deferred charges shall be deducted from the net income.
- e. Except for the financial assistance to meet expenses for the medical, maternity, education and other emergency needs of the directors/trustees or officers or their immediate family, the other forms of financial assistance may be suspended.
- f. When the total compensation package including salaries, allowances, fees and bonuses of directors/trustees and officers are significantly excessive as compared with peer group averages, the Monetary Board may order their reduction to reasonable levels: *Provided*, That even if a QB/trust entity is in financial trouble, it may nevertheless be allowed to grant relatively higher salary packages in order to attract competent officers and quality staff as part of its rehabilitation program.

The foregoing provisions founded on Section 18 of R.A. No. 8791 shall be deemed part of the benefits and compensation programs of QBs/trust entities.

(Circular No. 970 dated 22 August 2017)

136-Q CONFIRMATION OF THE ELECTION/APPOINTMENT OF DIRECTORS AND OFFICERS, BIO-DATA OF DIRECTORS AND OFFICERS, INTERLOCKING DIRECTORSHIPS AND/OR OFFICERSHIPS, RULES OF PROCEDURES ON ADMINISTRATIVE CASES INVOLVING DIRECTORS AND OFFICERS OF BSFIS.

Confirmation of election/appointment of directors/officers. Confirmation of the election/appointment of directors/officers shall be covered by Sec. 137.

Bio-data of directors and officers.

- a. BSFIs with trust authority shall submit to the appropriate supervising department of the Bangko a bio-data with ID picture of their (1) directors and officers who are subject to confirmation under this Section, (2) officers below the rank of Senior Vice President (SVP) requiring a different set of minimum qualifications or, (3) officers whose appointment requires prior Monetary Board approval upon every election/re-election/appointment/promotion, in a prescribed form, and for first-time directors/officers within a particular BSFI with trust authority/group whose election/appointment requires Monetary Board/FSS Committee confirmation, the duly notarized authorization form per *Appendix Q-44*, within twenty (20) business days from the date of election/re-election of the directors/meeting of the board of directors in which the officers are appointed/promoted In accordance with *Appendix Q-3*.

The bio-data shall be updated and submitted in cases of change of name due to change in civil status and change of residential address, within twenty (20) banking days from the date the change occurred, and in cases of requests for prior Monetary Board approval of interlocks.

For other officers below the rank of SVP other than the Treasurer, trust officer, and heads of internal audit, risk management, and compliance functions regardless of rank, the BSFI with trust authority shall not be required to submit their bio-data to the Bangko Sentral.

- b. The QB/NBFI with trust authority shall, however, keep a complete record of the bio-data of all its directors and officers and shall maintain a system of updating said records which shall be made available during on-site examination or when required by the Bangko Sentral for submission for off-site verification.
- c. QBs/NBFIs with trust authority shall also submit to the appropriate supervising department of the Bangko Sentral a duly notarized list of the incumbent members of the board of directors and officers (President or equivalent rank, down the line, *Appendix Q-58*), within twenty (20) business days from the annual election of the board of directors as provided in the by-laws of the QB/NBFI with trust authority, in accordance with *Appendix Q-3*.
- d. If after evaluation, the appropriate supervising department of the Bangko Sentral finds grounds for disqualification, the director/officer so elected/re-elected/appointed/promoted may be recommended for removal from office even if he/she has assumed the position to which he/she was elected/re-elected/appointed/promoted pursuant to Section 16 of R.A. No. 8791.

Interlocking directorships and/or officerships. In order to safeguard against the excessive concentration of economic power, unfair competitive advantage or conflict of interest situations to the detriment of others through the exercise by the same person or group of persons of undue influence over the policy-making and/or management functions of similar FIs while at the same time allowing banks, QBs and NBFIs without quasi-banking functions to benefit from organizational synergy or economies of scale and effective sharing of managerial and technical expertise, the following regulations shall govern interlocking directorships and/or officerships within the financial system consisting of banks, QBs and NBFIs.

For purposes of this Section, QBs shall refer to IHs, finance companies, trust entities and all other NBFIs with quasi-banking functions while NBFIs shall refer to IHs, finance companies, trust entities, insurance companies, securities dealers/brokers, credit card companies, NSSLAs, holding companies, investment companies, government NBFIs, asset management companies, insurance agencies/brokers, venture capital corporations, FX dealers, money changers (MCs), lending investors, pawnshops, fund managers, mutual building and loan associations, remittance agents and all other NBFIs without quasi-banking functions.

a. *Interlocking directorships.*

While concurrent directorship may be the least prejudicial of the various relationships cited in this Section to the interests of the FIs involved, certain measures are still necessary to safeguard against the disadvantages that could result from indiscriminate concurrent directorship.

- (1) Except as may be authorized by the Monetary Board or as otherwise provided hereunder, there shall be no concurrent directorships between QBs or between a QB and a bank; and
- (2) Without the need for prior approval of the Monetary Board, concurrent directorships between entities not involving an IH shall be allowed in the following cases:
 - (a) A QB and a bank without quasi-banking functions; and
 - (b) A bank and one (1) or more of its subsidiary bank/s, QB/s, and NBFIs; and
 - (c) A QB and an NBFIs.

For purposes of the foregoing, a husband and his wife shall be considered as one (1) person.

b. *Interlocking directorships and officerships*

In order to prevent any conflict of interest resulting from the exercise of directorship coupled with the reinforcing influence of an officer's decision-making and implementing powers, the following rules shall be observed.

- (1) Except as may be authorized by the Monetary Board or as otherwise provided hereunder, there shall be no concurrent directorship and officership between QBs, or between a QB and a bank, and between a QB and an NBFIs.
- (2) Without the need for prior approval of the Monetary Board, concurrent directorship and officership shall be allowed in the following cases:
 - (a) Between a QB and one (1) or more of its subsidiary QB/s and NBFIs;
 - (b) Between a QB, other than an investment house and one (1) or more of its subsidiary banks, QBs and NBFIs other than investment house/s; and
 - (c) Between a bank and one (1) or more of its subsidiary bank/s, QB/s, and NBFIs, other than investment house/s.

c. *Interlocking officerships*

A concurrent officership in different FIs may present more serious problems of self-dealing and conflict of interest. Multiple positions may result in poor governance or unfair competitive advantage. Considering the full-time nature of officer positions, the difficulties of serving two (2) offices at the same time, and the need for effective and efficient management, the following rules shall be observed:

As a general rule, there shall be no concurrent officerships between QBs or between a QB and a bank or between a QB and an NBFIs¹.

However, subject to prior approval of the Monetary Board, concurrent officerships, may be allowed in the following cases:

- (1) Between a QB, other than an IH, and not more than two (2) of its subsidiary bank/s, QB/s, and NBFIs other than IH/s; or
- (2) Between two (2) QBs, or between a QB, other than an IH, and a bank, or between a QB and an NBFIs: *Provided*, That at least twenty percent (20%) of the equity of each of the banks, QBs or NBFIs is owned by a holding company or a QB/bank and the interlocking arrangement is necessary for the holding company or the QB/bank to provide technical expertise or managerial assistance to its subsidiaries/affiliates.

¹ Officers, who concurrently held officership position or other positions that caused them to be involved in the daily microfinance operations of related NGOs/foundations, were given up to 30 September 2011 to relinquish such officer position.

- (3) Between a QB and not more than two (2) of its subsidiary QB/s, and NBFIs; or
- (4) Between a bank and not more than two (2) of its subsidiary bank/s, QB/s, and NBFIs, other than IH/s; or
- (5) Between a bank and not more than two (2) of its subsidiary QB/s, and NBFIs.

Aforementioned concurrent officerships may be allowed, subject to the following conditions:

- (a) that the positions do not involve any functional conflict of interests;
 - (b) that any officer holding the positions of president, CEO, chief operating officer or chief financial officer may not be concurrently appointed to any of said positions or their equivalent;
 - (c) that the officer involved, or his spouse or any of his relatives within the first degree of consanguinity or affinity or by legal adoption, or a corporation, association or firm wholly or majority owned or controlled by such officer or his relatives enumerated above, does not own in his/its own capacity more than twenty percent (20%) of the subscribed capital stock of the entities in which the QB has equity investments; and
 - (d) that where any of the positions involved is held on full-time basis, adequate justification shall be submitted to the Monetary Board.
- (6) Concurrent officership positions in the same capacity which do not involve management functions, i.e., internal auditors, corporate secretary, assistant corporate secretary and security officer, between a QB and one (1) or more of its subsidiary QB/s and NBFIs, or between a bank and one (1) or more of its subsidiary QB/s and NBFIs, or between QB/s and/or NBFIs or between bank/s, QB/s and NBFIs, other than investment house/s: *Provided*, That in the last two instances, at least twenty percent (20%) of the equity of each of the banks, QBs and NBFIs is owned by a holding company or by any of the banks/QBs within the group.
 - (7) Concurrent officership positions as corporate secretary or assistant corporate secretary between QB/s and/or NBFIs or between bank/s, QB/s and NBFIs, other than IH/s, outside of those covered by Item “c(6)” above: *Provided*, That proof of disclosure to and consent from all of the involved FIs, on the concurrent officership positions, shall be submitted to the Bangko Sentral.

For purposes of this Section, members of a group or committee, including sub-groups or sub-committees, whose duties include functions of management such as those ordinarily performed by regular officers, shall likewise be considered as officers.

It shall be the responsibility of the Corporate Governance Committee to conduct an annual performance evaluation of the board of directors/trustees and senior management. When a director/trustee or officer has multiple positions, the Committee should determine whether or not said director/trustee or officer is able to and has been adequately carrying out his/her duties and, if necessary, recommend changes to the board based upon said performance/review.

d. *Secondment*

A BSFI may second or transfer its employee to another entity for temporary assignment: *Provided*, That it has a board-approved policy on secondment and that the transfer of the employee is approved by the appropriate authority of the BSFI: *Provided, further*, That the secondee or the transferred employee shall relinquish all his duties, responsibilities, and authorities in the BSFI, and shall receive remuneration and other incentives from the host entity. BSFIs shall submit a notice within ten (10) banking days from the approval of secondments of employees to the appropriate supervising department of the Bangko Sentral.

e. *Representatives of government*

The provisions of this Section shall apply to persons appointed to such positions as representatives of the government or government-owned or -controlled entities holding voting shares of stock of QBs unless otherwise provided under existing laws.

Rules of procedures on administrative cases involving directors and officers of BSFIs. The rules of procedure on administrative cases involving directors and officers of BSFIs are shown in *Appendix Q-34*.

(Circular Nos. 970 dated 22 August 2017, 887 dated 07 October 2015, and 851 dated 30 September 2014)

137-Q DISQUALIFICATION OF DIRECTORS/TRUSTEES AND OFFICERS

The following regulations shall govern the disqualification of QB/trust entity directors/trustees and officers:

Persons disqualified to become directors/trustees. Without prejudice to specific provisions of law prescribing disqualifications for directors/trustees, the following are disqualified from becoming directors/trustees:

a. *Permanently disqualified*

Directors/trustees/officers/employees permanently disqualified by the Monetary Board from holding a director/trustee position:

- (1) Persons who have been convicted by final judgment of a court for offenses involving dishonesty or breach of trust such as but not limited to, estafa, embezzlement, extortion, forgery, malversation, swindling, theft, robbery, falsification, bribery, violation of B.P. Blg. 22, violation of Anti-Graft and Corrupt Practices Act and prohibited acts and transactions under Section 7 of R.A. No. 6713 (Code of Conduct and Ethical Standards for Public Officials and Employees);
- (2) Persons who have been convicted by final judgment of a court sentencing them to serve a maximum term of imprisonment of more than six (6) years;
- (3) Persons who have been convicted by final judgment of the court for violation of banking laws, rules and regulations;
- (4) Persons who have been judicially declared insolvent, spendthrift or incapacitated to contract;
- (5) Directors/trustees, officers or employees of closed QBs who were found to be culpable for such institution's closure as determined by the Monetary Board;
- (6) Directors/trustees and officers of QBs found by the Monetary Board as administratively liable for violation of banking laws, rules and regulations where a penalty of removal from office is imposed, and which finding of the Monetary Board has become final and executory; or
- (7) Directors/trustees and officers of QBs or any person found by the Monetary Board to be unfit for the position of directors trustees or officers because they were found administratively liable by another government agency for violation of banking laws, rules and regulations or any offense/violation involving dishonesty or breach of trust, and which finding of said government agency has become final and executory.

b. *Temporarily disqualified*

Directors/trustees/officers/employees disqualified by the Monetary Board from holding a director/trustee position for a specific/indefinite period of time. Included are:

- (1) Persons who refuse to fully disclose the extent of their business interest or any material information to the appropriate supervising department of the Bangko Sentral when required pursuant to a provision of law or of a circular, memorandum, rule or regulation of the Bangko Sentral. This disqualification shall be in effect as long as the refusal persists;
- (2) Directors/trustees who have been absent or who have not participated for whatever reasons in more than fifty percent (50%) of all meetings, both regular and special, of the board of directors/trustees during their incumbency, and directors/trustees who failed to physically attend for whatever reasons in at least twenty-five percent (25%) of all board meetings in any year, except that when a notarized certification executed by the corporate secretary has been submitted attesting that said directors/trustees were given the agenda materials prior to the meeting and that their comments/decisions thereon were submitted for deliberation/discussion and were taken up in the actual board meeting, said directors/trustees shall be considered present in the board meeting. This disqualification applies only for purposes of the immediately succeeding election;
- (3) Persons who are delinquent in the payment of their obligations as defined hereunder:
 - (a) Delinquency in the payment of obligations means that an obligation of a person with a QB/trust entity where he is a director/trustee or officer, or at least two (2) obligations with other QBs/trust entities/FIs, under different credit lines or loan contracts, are past due pursuant to Secs. 304, 303-Q, 307-S and 303-P;
 - (b) Obligations shall include all borrowings from a QB/trust entity/FI obtained by:
 - (i) A director/trustees or officer for his own account or as the representative or agent of others or where he acts as a guarantor, indorser or surety for loans from such FIs;

- (ii) The spouse or child under parental authority of the director/trustee or officer;
- (iii) Any person whose borrowings or loan proceeds were credited to the account of, or used for the benefit of, a director/trustee or officer;
- (iv) A partnership of which a director/trustee or officer, or his spouse is the managing partner or a general partner owning a controlling interest in the partnership; and
- (v) corporation, association or firm wholly-owned or majority of the capital of which is owned by any or a group of persons mentioned in the foregoing Items “(i)”, “(ii)” and “(iv)”;

This disqualification shall be in effect as long as the delinquency persists.

- (4) Persons who have been convicted by a court for offenses involving dishonesty or breach of trust such as, but not limited to, estafa, embezzlement, extortion, forgery, malversation, swindling, theft, robbery, falsification, bribery, violation of B.P. Blg. 22, violation of Anti-Graft and Corrupt Practices Act and prohibited acts and transactions under Section 7 of R.A. No. 6713 (Code of Conduct and Ethical Standards for Public Officials and Employees), violation of banking laws, rules and regulations or those sentenced to serve a maximum term of imprisonment of more than six (6) years but whose conviction has not yet become final and executory;
- (5) Directors/trustees and officers of closed QBs/trust entities pending their clearance by the Monetary Board;
- (6) Directors/trustees disqualified for failure to observe/discharge their duties and responsibilities prescribed under existing regulations. This disqualification applies until the lapse of the specific period of disqualification or upon approval by the Monetary Board on recommendation by the appropriate supervising department of the Bangko Sentral of such directors’/trustees’ election/re-election;
- (7) Directors/trustees who failed to attend the special seminar for board of directors/trustees required under Item “a(2)” of Sec. 132-Q (*Qualifications of a director*). This disqualification applies until the director/trustee concerned had attended such seminar;
- (8) Persons dismissed from employment for cause. This disqualification shall be in effect until they have cleared themselves of involvement in the alleged irregularity or upon clearance, on their request, from the Monetary Board after showing good and justifiable reasons, or after the lapse of five (5) years from the time they were officially advised by the appropriate supervising department of the Bangko Sentral of their disqualification;
- (9) Those under preventive suspension;
- (10) Persons with derogatory records as certified by, or on the official files of, the judiciary, National Bureau of Investigation (NBI), Philippine National Police (PNP), quasi-judicial bodies, other government agencies, international police, monetary authorities and similar agencies or authorities of foreign countries for irregularities or violations of any law, rules and regulations that would adversely affect the integrity of the director/trustee/officer or the ability to effectively discharge his duties. This disqualification applies until they have cleared themselves of the alleged irregularities/violations or after a lapse of five (5) years from the time the complaint, which was the basis of the derogatory record, was initiated;
- (11) Directors/trustees and officers of QBs found by the Monetary Board as administratively liable for violation of banking laws, rules and regulations where a penalty of removal from office is imposed, and which finding of the Monetary Board is pending appeal before the appellate court, unless execution or enforcement thereof is restrained by the court;
- (12) Directors/trustees and officers of QBs or any person found by the Monetary Board to be unfit for the position of director/trustee or officer because they were found administratively liable by another government agency for violation of banking laws, rules and regulations or any offense/violation involving dishonesty or breach of trust, and which finding of said government agency is pending appeal before the appellate court, unless execution or enforcement thereof is restrained by the court; and
- (13) Directors/trustees and officers of QBs found by the Monetary Board as administratively liable for violation of banking laws, rules and regulations where a penalty of suspension from office or fine is imposed, regardless whether the finding of the Monetary Board is final and executory or pending appeal before the appellate court, unless execution or enforcement thereof is restrained by the court. The disqualification shall be in effect during the period of suspension or so long as the fine is not fully paid.

Persons disqualified to become officers.

- a. The disqualifications for directors/trustees mentioned under this Section shall likewise apply to officers, except those stated in Items “b(2)” and “b(7)”.
- b. The spouses or relatives within the second degree of consanguinity or affinity are prohibited from holding officership positions across the following functional categories within a QB:

- (1) Decision making and senior management function, e.g., chairman, president, chief executive officer (CEO), chief operating officer (COO), general manager, and chief financial officer (CFO) other than the treasurer or controller;
- (2) Treasury function, e.g., Treasurer and Vice President – Treasury;
- (3) Recordkeeping and financial reporting functions, e.g., controller and chief accountant;
- (4) Safekeeping of assets, e.g., chief cashier;
- (5) Risk management function, e.g., chief risk officer;
- (6) Compliance function, e.g., compliance officer; and
- (7) Internal audit function, e.g., internal auditor.

The spouse or a relative within the second degree of consanguinity or affinity of any person holding the position of manager, cashier, or accountant of a branch or extension office of a QB or their respective equivalent positions is disqualified from holding or being appointed to any of said positions in the same branch or extension office.

Effect of non-possession of qualifications or possession of disqualifications. A director/officer elected/appointed who does not possess all the qualifications mentioned under Sec. 132-Q and the second and last paragraphs of Sec. 134-Q on Qualifications of an officer and/or has any of the disqualifications mentioned under Sec. 137-Q shall not be confirmed by the confirming authority under Sec. 136-Q and shall be removed from office even if he/she assumed the position to which he/she was elected/appointed. A confirmed director/officer or officer not requiring confirmation found to possess any of the disqualifications enumerated in the abovementioned sections shall be subject to the disqualification procedures provided under this Section.

Disqualification procedures.

- a. The board of directors/trustees and management of every institution shall be responsible for determining the existence of the ground for disqualification of the institution's director/trustee/officer or employee and for reporting the same to the Bangko Sentral. While the concerned institution may conduct its own investigation and impose appropriate sanction/s as are allowable, this shall be without prejudice to the authority of the Monetary Board to disqualify a director/trustee/officer/employee from being elected/appointed as director/trustee/officer in any FI under the supervision of the Bangko Sentral. Grounds for disqualification made known to the institution, shall be reported to the appropriate supervising department of the Bangko Sentral within seventy-two (72) hours from knowledge thereof.
- b. On the basis of knowledge and evidence on the existence of any of the grounds for disqualification mentioned in Sec. 137-Q the director/trustee or officer concerned shall be notified in writing either by personal service or through registered mail with registry return receipt card at his/her last known address by the appropriate supervising department of the Bangko Sentral of the existence of the ground for his/her disqualification and shall be allowed to submit within fifteen (15) calendar days from receipt of such notice an explanation on why he/she should not be disqualified and included in the watchlisted file, together with the evidence in support of his/her position. The head of said department may allow an extension on meritorious ground.
- c. Upon receipt of the reply/explanation of the director/trustee/officer concerned, the appropriate supervising department of the Bangko Sentral shall proceed to evaluate the case. The director/trustee/officer concerned shall be afforded the opportunity to defend/clear himself/herself.
- d. If no reply has been received from the director/trustee/officer concerned upon the expiration of the period prescribed under Item "b" above, said failure to reply shall be deemed a waiver and the appropriate supervising department of the Bangko Sentral shall proceed to evaluate the case based on available records/evidence.
- e. If the ground for disqualification is delinquency in the payment of obligation, the concerned director/trustee or officer shall be given a period of thirty (30) calendar days within which to settle said obligation or, restore it to its current status or, to explain why he/she should not be disqualified and included in the watchlisted file, before the evaluation on his disqualification and watchlisting is elevated to the Monetary Board.
- f. For directors/trustees/officers of closed banks, the concerned supervising department of the Bangko Sentral shall make appropriate recommendation to the Monetary Board clearing said directors/trustees/officers when there is no pending case/complaint or evidence against them. When there is evidence that a director/trustee/officer has committed irregularity, the appropriate supervising department of the Bangko Sentral shall make recommendation to the Monetary Board that his/her case be referred to the office of special investigation (OSI) for further investigation and that he/she be included in the masterlist of temporarily disqualified persons until the final resolution of his/her case. Directors/trustees/officers with pending cases/complaints shall also be included in said masterlist of temporarily disqualified persons upon approval by the Monetary Board until the final resolution of their cases. If the director/trustee/officer is cleared from involvement in any irregularity, the appropriate supervising department of the Bangko Sentral shall recommend to the Monetary Board his/her delisting. On the other hand, if the director/trustee/officer concerned is found to be responsible for the closure of the institution, the concerned supervising department of the Bangko Sentral shall recommend to the Monetary Board his/her delisting from the masterlist of temporarily disqualified persons and his/her inclusion in the masterlist of permanently disqualified persons.

- g. If the disqualification is based on dismissal from employment for cause, the appropriate supervising department of the Bangko Sentral shall, as much as practicable, endeavor to establish the specific acts or omissions constituting the offense or the ultimate facts which resulted in the dismissal to be able to determine if the disqualification of the director/trustee/officer concerned is warranted or not. The evaluation of the case shall be made for the purpose of determining if disqualification would be appropriate and not for the purpose of passing judgment on the findings and decision of the entity concerned. The appropriate supervising department of the Bangko Sentral may decide to recommend to the Monetary Board a penalty lower than disqualification (e.g., reprimand, suspension, etc.) if, in its judgment the act committed or omitted by the director/trustee/officer concerned does not warrant disqualification.
- h. All other cases of disqualification, whether permanent or temporary shall be elevated to the Monetary Board for approval and shall be subject to the procedures provided in Items "a", "b", "c" and "d" above.
- i. Upon approval by the Monetary Board, the concerned director/trustee/officer shall be informed by the appropriate supervising department of the Bangko Sentral in writing either by personal service or through registered mail with registry return receipt card, at his/her last known address of his/her disqualification from being elected/appointed as director/trustee/officer in any FI under the supervision of Bangko Sentral and/or of his/her inclusion in the masterlist of watchlisted persons so disqualified.
- j. The board of directors/trustees of the concerned institution shall be immediately informed of cases of disqualification approved by the Monetary Board and shall be directed to act thereon not later than the following board meeting. Within seventy-two (72) hours thereafter, the corporate secretary shall report to the Governor of the Bangko Sentral through the appropriate supervising department of the Bangko Sentral the action taken by the board on the director/trustee/officer involved.
- k. Persons who are elected or appointed as director/trustee or officer in any of the Bangko Sentral-supervised institutions for the first time but are subject to any of the grounds for disqualification provided for under Sec. 137-Q, shall be afforded the procedural due process prescribed above.
- l. Whenever a director/trustee/officer is cleared in the process mentioned under Item "c" above or, when the ground for disqualification ceases to exist, he/she would be eligible to become director/trustee or officer of any bank, QB, trust entity or any institution under the supervision of the Bangko Sentral only upon prior approval by the Monetary Board. It shall be the responsibility of the appropriate supervising department of the Bangko Sentral to elevate to the Monetary Board the lifting of the disqualification of the concerned director/trustee/officer and his/her delisting from the masterlist of watchlisted persons.

Watchlisting. To provide the Bangko Sentral with a central information file to be used as reference in passing upon and reviewing the qualifications of persons elected or appointed as director/trustee or officer of a bank, QB or trust entity, the Bangko Sentral shall maintain a watchlist of persons disqualified to be a director/trustee or officer of such entities under its supervision under the following procedures:

- a. *Watchlist categories.* Watchlisting shall be categorized as follows:
 - (1) Disqualification File "A (Permanent)-Directors/trustees/officers/employees permanently disqualified by the Monetary Board from holding a director/trustee/officer position.
 - (2) Disqualification File "B" (Temporary)-Directors/trustees/officers/employees temporarily disqualified by the Monetary Board from holding a director/trustee/officer position.
- b. *Inclusion of directors/trustees/officers/employees in the watchlist.* Directors/trustees/officers/employees disqualified under this Section included in the watchlist disqualification files "A" or "B".
- c. *Confidentiality.* Watchlist files shall be for internal use only of the Bangko Sentral and may not be accessed or queried upon by outside parties including banks, QBs, NBFIs with trust authority and trust corporations except with the authority of the person concerned (without prejudice to the authority of the Governor and the Monetary Board to authorize release of the information) and with the approval of the concerned supervising Department Head or Subsector Head or the Deputy Governor or the Governor or the Monetary Board.

The Bangko Sentral will disclose information on the persons included in its watchlist files only upon submission of a duly notarized authorization from the concerned person and approval of such request by the appropriate supervising Department Head or Subsector Head or the Deputy Governor, or the Governor or the Monetary Board. The prescribed authorization form to be submitted to the appropriate supervising department of the Bangko Sentral is in *Appendix Q-44*.

QBs and NBFIs with trust authority can gain access to said information in the said watchlist for the sole purpose of screening their nominees/applicants for directors/officers and/or confirming their elected directors and appointed officers. QBs and NBFIs with trust authority must obtain the said authorization on an individual basis.

- d. *Delisting.* All delistings shall be approved by the Monetary Board upon recommendation of the supervising departments of Bangko Sentral except in cases of persons known to be dead where delisting shall be automatic upon proof of death and need not be elevated to the Monetary Board. Delisting may be approved by the Monetary Board in the following cases:

(1) Watchlist -Disqualification File “B” (Temporary)

- (a) After the lapse of the specific period of disqualification;
- (b) When the conviction by the court for crimes involving dishonesty, breach of trust and/or violation of banking law becomes final and executory, in which case the director/trustee/officer/employee is relisted to Watchlist -Disqualification File “A” (Permanent); and
- (c) Upon favorable decision or clearance by the appropriate body, i.e., court, NBI, Bangko Sentral, bank, QB, trust entity or such other agency/body where the concerned individual had derogatory record.

Directors/trustees/officers/employees delisted from the Watchlist -Disqualification File “B” other than those upgraded to Watchlist -Disqualification File “A” shall be eligible for re-employment with any bank, QB or trust entity.

Prohibition against foreign officers/employees of financing companies.

(Deleted by Circular 1038 dated 22 April 2019)

(Circular Nos. 1038 dated 22 April 2019 and 970 dated 22 August 2017)

E. RISK MANAGEMENT

141-Q SUPERVISION BY RISK

The guidelines on supervision by risk to provide guidance on how QBs should identify, measure, monitor and control risks are shown in *Appendix Q-41*.

The guidelines set forth the expectations of the Bangko Sentral with respect to the management of risks and are intended to provide more consistency in how the risk-focused supervision function is applied to these risks. The Bangko Sentral will review the risks to ensure that a QB's internal risk management process is integrated and comprehensive. All QBs should follow the guidance in their risk management efforts.

142-Q RISK GOVERNANCE FRAMEWORK

The risk governance framework shall include policies, supported by appropriate processes and control procedures, designed to ensure that the risk identification, aggregation, mitigation and monitoring capabilities are commensurate with the BSFI's size, complexity, risk profile, and systemic importance. The risk governance framework shall consider the entities in the conglomerate and shall be applied on a group-wide scale.

- a. *Risk appetite.* The BSFI's risk appetite shall be clearly conveyed through a risk appetite statement that can be easily understood by all relevant parties, e.g., board of directors itself, senior management, employees, the public, regulators, and other stakeholders. The risk appetite statement shall represent the individual and aggregate level and types of risk that the BSFI is willing to assume in order to achieve its business objectives and considering its capability to manage risk.
- b. *Risk management policy.* Risk management policies shall cover:
 - (1) structure of limits and guidelines to govern risk-taking. These shall include actions that shall be taken when risk limits are breached, including notification and escalation to higher level of Management and corresponding sanctions for excessive risk taking;
 - (2) clearly delineated responsibilities for managing risk based on the three (3) lines of defense;
 - (3) system for measuring risk;
 - (4) checks and balances system; and
 - (5) framework for risk data aggregation and risk reporting.

- c. *Risk management processes and infrastructure.* The degree of sophistication of the risk management and internal control processes and infrastructure shall keep pace with developments in the BSFI such as balance sheet and revenue growth; increasing complexity of the business; risk configuration or operating structure; geographical expansion; mergers and acquisitions; or the introduction of new products or business lines, as well as with the external risk landscape; business environment; and industry practice. This should enable a dynamic, comprehensive, and accurate risk reporting both at the disaggregated (including material risk residing in subsidiaries) and aggregated level to allow for a BSFI-wide or integrated perspective of risk exposures.

In this respect, BSFIs shall ensure that their risk data aggregation capabilities meet the following principles:

- (1) *Accuracy and integrity* -this refers to the capability to generate accurate and reliable risk data to meet normal and stress reporting accuracy requirements.
 - (2) *Completeness* -this refers to the capability to capture and aggregate all material risk data across the banking group. Data should be available by business line, legal entity, asset type, industry, region and other groupings, as relevant for the risk in question, and should permit the identification and reporting of risk exposures, concentrations, and any emerging risks.
 - (3) *Timeliness* -this refers to the capability to generate aggregate and up-to-date risk data in a timely manner while also meeting the principles relating to accuracy and integrity, completeness and adaptability. Timing shall depend upon the nature and potential volatility of the risk being measured as well as its criticality to the overall risk profile of the BSFI. Timing shall also depend on the BSFI-specific frequency requirements for risk management reporting, under both normal and stress/crisis situations, set based on the characteristics and overall risk profile of the BSFI.
 - (4) *Adaptability* -this refers to the capability to generate aggregate risk data to meet a broad range of on-demand, ad hoc risk management reporting requests, including requests during stress/crisis situations, requests due to changing internal needs and requests to meet supervisory queries.
- d. *Risk identification, monitoring and controlling.* BSFIs shall identify and assess all material risks including new and emerging risks, as well as hard to quantify risks, e.g., reputational risk, on a group-wide and entity specific levels. In this respect, BSFIs should use accurate internal and external data and consider the external operating environment in the risk assessment process to inform strategic business decisions and risk management approaches.
- e. *Risk Communication.* BSFI shall promote an open communication about risk issues, including risk strategies across the organization. They shall adopt an effective information sharing and communication system enabling the timely, accurate, concise, and understandable transfer of information. This includes the risk reporting framework, which should accurately communicate risk exposures and results of stress tests and should promote robust discussion of risk exposures.

The risk reporting framework should be governed by the following principles:

- (1) *Accuracy* -Reports should accurately and precisely convey aggregated risk data and reflect risk in an exact manner. In this regard, relevant reports should be reconciled and validated.
- (2) *Comprehensiveness* -Reports should cover all material risk areas within the organization. The depth and scope of these reports should be consistent with the size and complexity of the BSFI's operations and risk profile, as well as the requirements of the users of information.
- (3) *Clarity and usefulness* -Reports should communicate information in a clear and concise manner. Reports should be easy to understand and comprehensive enough to facilitate informed decision-making. Reports should include meaningful information tailored to the needs of the recipients.

Risk management function. The risk management function shall be responsible for overseeing the risk-taking activities across the BSFI, as well as the evaluation on whether these remain consistent with the BSFI's risk appetite and strategic direction. It shall ensure that the risk governance framework remain appropriate relative to the complexity of risk taking activities of the BSFI. The risk management function shall be responsible for identifying, measuring, monitoring and reporting risk on an enterprise-wide basis as part of the second line of defense. It shall directly report to the Risk Oversight Committee (ROC) or the board of directors, as applicable. Personnel in the risk management function should collectively have knowledge and technical skills commensurate with business activities and risk exposures of the BSFI.

BSFIs performing quasi-banking functions declared as complex by the Bangko Sentral shall create a separate risk management function that shall primarily assist management in meeting its responsibility to understand and manage risk exposures and ensure the development and consistent implementation of risk policies, processes, and procedures throughout the bank.

The board of directors of non-complex QBs may, at its own discretion, or as directed by the appropriate supervising department of the Bangko Sentral, create a risk management function, which shall report directly to the ROC or the board of directors, as applicable.

Chief Risk Officer (CRO). BSFIs, may at their own discretion, or as directed by the appropriate supervising department of the Bangko Sentral, appoint a CRO, or any equivalent position to carry out the responsibilities of the position: *Provided*, That the appointment, dismissal and other changes to the CRO or its equivalent position shall have prior approval of the board of directors. In cases, when the CRO will be replaced, the BSFI shall report the same to the appropriate supervising department of the Bangko Sentral within five (5) days from the time it has been approved by the board of directors.

The CRO shall have sufficient stature, authority, and seniority within the BSFI. He shall be independent from executive functions and business line responsibilities, operations and revenue-generating functions, and shall have access to such information as he deems necessary to form his judgment. The CRO shall have direct access to the board of directors and the ROC without any impediment. He shall serve on a full-time basis and shall functionally meet/report to the board of directors or board-level committee: *Provided*, That in cases of branches of foreign banks, the CRO shall report to the regional/group risk function. Meetings with the board of directors or board-level committee shall be duly minuted and adequately documented. In this regard, the board of directors/board-level committee shall review and approve the performance and compensation of the CRO, and budget of the risk management function.

- a. *Qualifications of the CRO.* The CRO should have the knowledge and skills necessary to oversee the BSFI's risk management activities. This will be assessed based on the ability of the CRO to influence decisions that affect the BSFI's exposure to risk. The CRO should have the ability to interpret and articulate risk in a clear and understandable manner and, without compromising his independence, can engage in a constructive dialogue with the board of directors, chief executive officer, and other senior management on key risk issues.
- b. *Duties and responsibilities of the CRO.* The CRO shall be responsible for overseeing the risk management function and shall support the board of directors in the development of the risk appetite and risk appetite statement of the BSFI and for translating the risk appetite into a risk limits structure. The CRO shall likewise propose enhancements to risk management policies, processes, and systems to ensure that the BSFI's risk management capabilities are sufficiently robust and effective to fully support strategic objectives and risk-taking activities.

(Circular Nos. 971 dated 22 August 2017)

143-Q CREDIT RISK MANAGEMENT

Policy statement. It is the policy of the Bangko Sentral to ensure that BSFIs under its supervision have adequate and effective credit risk management systems commensurate with their credit risk-taking activities. Towards this end, the following guidelines on credit risk management set forth the expectations of the Bangko Sentral with respect to the comprehensive management of credit risk. The guidelines further articulate sound principles and practices that shall be embedded in the credit risk management framework of BSFIs and shall cover the following areas: (a) establishing an appropriate credit risk environment; (b) operating under a sound credit granting process; and (c) maintaining appropriate credit administration, measurement, monitoring and control processes over credit risk. While BSFIs may employ different approaches in the management of their credit risk, the Bangko Sentral expects that all these areas are effectively addressed.

For purposes of these guidelines, FIs refer to UBs, KBs, TBs, RB and Coop Banks and their respective credit-granting financial subsidiaries (if any) as well as stand-alone QBs.

Evaluation of credit risk management system. The Bangko Sentral shall evaluate the FI's credit risk management system not only at the level of individual legal entities but also across the subsidiaries within the consolidated banking organization. It will not restrict the scope of the credit risk-taking activities of an FI, so long as the FI is authorized to engage in such activities and:

- a. Understands, measures, monitors and controls the risk assumed;
- b. Adopts risk management practices whose sophistication and effectiveness are commensurate with the risk being taken; and
- c. Maintains capital commensurate with the risk exposure assumed.

If the Bangko Sentral determines that an FI's risk exposures are excessive relative to the FI's capital, or that the risk assumed is not well-managed, the Bangko Sentral will direct the FI to reduce its exposure to an appropriate level and/or to strengthen its risk management systems. In evaluating the above parameters, the Bangko Sentral expects FIs to have sufficient knowledge, skills and appropriate system and technology necessary to understand and effectively manage their credit risk exposures.

The principles set forth in the credit risk management guidelines shall be used in determining the adequacy and effectiveness of an FI's credit risk management process and adequacy of capital relative to exposure. The Bangko Sentral shall consider the following factors:

- a. The FI's business strategies, operating environment, and the competencies of its officers and personnel; and
- b. The major sources of credit risk exposure and the complexity and level of risk posed by the assets, liabilities, and off-balance sheet activities.

I. Establishing an Appropriate Credit Risk Environment

Role of the board and senior management.

- a. *Board of directors.* The board of directors shall be responsible for the approval and regular review of credit risk strategy and credit policy, as well as the oversight of the implementation of a comprehensive and effective credit risk management system appropriate for the size, complexity and scope of operations of an FI. The board shall ensure that the system provides for adequate policies, procedures and processes to identify, measure, monitor and control all credit risks inherent in an FI's products and activities, both at the individual and portfolio levels on a consistent and continuing basis; and that an independent assessment of the system is periodically performed, the results of which shall be reported to it or to a board-level committee for appropriate action.
- b. *Senior management.* Senior management shall be responsible for ensuring that the credit risk-taking activities of an FI are aligned with the credit risk strategy approved by the board of directors. It shall also be responsible for developing and implementing an FI's credit policies and procedures that lay down the conditions and guidelines for an effective credit risk management process, as well as proper channels of communication to ensure that these policies are clearly communicated and adhered to by all levels of the organization.

Credit risk management structure.

- a. Senior management or an appropriate level of management shall implement a board-approved credit risk management structure that clearly delineates lines of authority, establish accountabilities and responsibilities of individuals involved in the different phases of the credit risk management process.
- b. Depending on the size, complexity and scope of credit activities, and in addition to the roles and responsibilities of the board and senior management, an FI's credit risk management organization may be broadly classified into three (3) functional lines of activities: the front, back and middle offices, to properly segregate accountabilities, ensure that no individual is assigned conflicting responsibilities, and effectively monitor and control the risks being taken.
- c. The front office function performs credit originating; recommends internal credit ratings, classifications and allowances for losses including changes thereon, when necessary; and the on-going monitoring of credit exposures of borrowers on a day-today basis.
- d. The back office provides support in the overall credit administration, including, among others: ensuring complete documentation, credit disbursement and recording of payments received; maintenance of credit and collateral files; and compilation of management information reports.
- e. The middle office performs risk management and control functions that are independent from the credit originating and administration functions. The risk management function provides meaningful inputs in policy formulation and limits setting; designs and implements the FI's internal credit risk rating system; and performs periodic exposure and exception monitoring. The risk management function shall report directly to the Risk Management Committee (RMC) or appropriate board level committee or the board.
- f. An independent credit review is a function within the middle office that performs an unbiased assessment of the quality of individual credits and the aggregate credit portfolio, including appropriateness of credit risk rating, classification and adequacy of allowance for loan losses. In the case of simple FIs, such independent credit review function may be concurrently performed by qualified personnel fulfilling other independent control oversight functions (e.g. compliance, internal audit).
- g. The workout or problem loan management is another function within the middle office that is independent from the credit originating function to ensure that problem loans are managed effectively to minimize potential losses. For simple FIs, however, the function may still be performed by the credit originating function and/or unit responsible for monitoring the quality of such credit.
- h. The structure shall likewise provide for independent audits, i.e., internal audit and compliance, to conduct independent credit and compliance audits of the credit risk management system of the FI. The scope of internal audit shall include the evaluation of the independence and overall effectiveness of the credit review function.
- i. Regardless of the organizational structure that an FI adopts, the board shall ensure that the aforementioned key functions are considered and independence and control oversight functions are effective to avoid or address any potential conflict of interest.

- j. Personnel or staff involved in all phases of the credit risk management process shall be qualified, competent and have the necessary training and experience to exercise prudent judgment in assessing, managing and/or controlling credit risk, and a solid understanding of an FI's strategic direction, policies, procedures, risk tolerance and limits. Their qualification standards, roles and responsibilities shall be clearly defined in the credit operating policies and procedures manual of the FI. The board and senior management shall ensure that adequate resources and appropriate level of staffing are allocated to execute all kinds of credit activities.

Credit risk strategy. The credit risk strategy must reflect the FI's profitability and portfolio growth targets, and must be consistent with the credit risk tolerance and overall corporate strategy and business goals of the FI.

- a. In formulating the credit risk strategy, the FI shall articulate the desired market segments and types of credit exposures (e.g., commercial credits, retail credits, real estate, investments, trading products, credit commitments and/or guarantees); specific characteristics of clients, economic sector, geographical location; the portfolio mix that reflects the acceptable level of diversification and concentration; and consider the risk/reward trade-off by factoring in, to the greatest extent possible, price and non-price (e.g. collateral, restrictive covenants, etc.) terms as well as likely downside scenarios and their possible impact on the obligors. The FI shall likewise define acceptable and unacceptable types of credits, clients, activities, transactions and behaviors that could result or potentially result in conflict of interest, personal gain at the expense of the FI, or unethical conduct.
- b. The credit risk strategy shall consider the cyclical aspects of the economy and the varying effects of the economic cycle on the credit portfolio of the FI.

Credit policies, processes and procedures. FIs shall have in place a sound, comprehensive and clearly defined credit policies, processes and procedures consistent with prudent standards, practices, and relevant regulatory requirements adequate for the size, complexity and scope of an FI's operations. The board-approved policies, processes and procedures shall cover all phases of the credit risk management system.

- a. FIs shall establish appropriate processes and procedures to implement the credit policy and strategy. These processes and procedures, as well as the credit policy, shall be documented in sufficient detail, effectively communicated throughout the organization to provide guidance to staff, and periodically reviewed and updated to take into account new activities and products, as well as new lending approaches. Subsequent major changes must be approved by the board.
- b. The credit policy shall likewise provide for the maintenance of an audit trail documenting that the credit risk management process was properly observed and identifying the unit, individual(s) and/or committee(s) providing input into the process.
- c. The credit culture, which reflects the FI's credit values, beliefs and behaviors, shall likewise be articulated in the credit policy and communicated to credit officers and staff at all levels through the strategic plan. The credit practices shall be assessed periodically to ensure that the officers and staff conform to the desired standard and value.

II. Operating Under a Sound Credit Granting Process

Credit approval process. The approval process for new credits as well as the amendment, renewal and refinancing of existing credit exposures shall be aligned with the credit risk management structure and clearly articulated in an FI's written credit policy. The process shall include the different levels of appropriate approving authority and the corresponding approving authority limits, which shall be commensurate with the risks of the credit exposures, as well as expertise of the approving individuals involved. It shall also include an escalation process where approval for restructuring of credits, policy exceptions or excesses in internal limits is escalated to units/officer with higher authorities. Further, there shall be proper coordination of relevant units and individuals and sufficient controls to ensure acceptable credit quality at origination.

Credit granting and loan evaluation/analysis process and underwriting standards. Consistent with safe and sound banking practice, an FI shall grant credits only in amounts and for the periods of time essential for the effective completion of the activity to be financed and after ascertaining that the obligor¹ is capable of fulfilling his commitments to the FI. Towards this end, an FI shall establish well-defined credit-granting criteria and underwriting standards, which shall include a clear indication of the FI's target market and a thorough understanding of the obligor or counterparty, as well as the purpose and structure of the credit and its source of repayment.

- a. FIs shall conduct comprehensive assessments of the creditworthiness of their obligors, and shall not put undue reliance on external credit assessments. Credit shall be granted on the basis of the primary source of loan repayment or cash flow, integrity and reputation of the obligor or counterparty as well as their legal capacity to assume the liability.

¹ Obligor refers to an individual or entity that owes another person or entity a certain debt or duty. For purposes of these guidelines, obligor can also be used interchangeably with borrower or debtor.

- b. Depending on the type of credit exposure and the nature of the credit relationship, the factors to be considered and documented in approving credits shall include, but are not limited to, the following:
 - (1) The purpose of the credit which shall be clearly stated in the credit application and in the contract between the FI and the obligor;
 - (2) The current risk profile (including the nature and aggregate amounts of risks, risk rating or credit score, pricing information) of the borrower, collateral, other credit enhancements and its sensitivity to economic and market developments;
 - (3) The sources of repayment, repayment history and current capacity to repay based on financial analysis from historical financial trends and indicators such as equity, profitability, turnover, leverage, and debt servicing ability via cash flow projections, under various scenarios;
 - (4) For commercial credits, the borrower's business expertise, its credit relationships including its shareholders and company directors, as applicable, and the status of the borrower's economic sector and its track record vis-à-vis industry peers;
 - (5) The proposed terms and conditions of the credit (i.e., type of financing, tenor, repayment structure, acceptable collateral) including covenants designed to limit changes in the future risk profile of the obligor;
 - (6) Use of credit reports; and
 - (7) Where applicable, the adequacy, valuation and enforceability of collateral or guarantees.
- c. In performing the financial analysis, FIs shall use, to the extent available, credible audited financial statements and other relevant documents and sources. FIs may opt to use financial information/data from other sources provided that the process for arriving at such disposition and an evaluation of how much reliance or value was attached into the financial information used is clearly articulated and documented.
- d. When participating in loan syndications, an FI shall not place undue reliance on the credit analysis done by the lead underwriter and shall perform its own analysis and review of syndicate terms. It shall analyze the risk and return on syndicated loans in the same manner as directly sourced loans and ensure that the loan is consistent with its credit risk strategy.
- e. When an FI purchases securities issued by an obligor that is different from the counterparty (e.g. asset swaps), it shall also analyze issuer risk. For treasury and capital market activities, the structure of products and transactions shall be analyzed to determine the source and volatility of credit exposure.
- f. When granting consumer credits, an FI shall conduct its credit assessment in a holistic and prudent manner, taking into account all relevant factors that could influence the prospect for the loan to be repaid according to its terms and conditions. This shall include an appropriate consideration of the potential obligor's other debt obligations and repayment history and an assessment of whether the loan can be expected to be repaid from the potential obligor's own resources without causing undue hardship and over-indebtedness. Adequate verification, including with relevant credit bureaus, shall be made to check the obligor's credit applications and repayment records.
- g. FIs shall factor into their credit granting decisions the likelihood of providing allowance for identified and expected losses and holding adequate capital to absorb unexpected losses for credits with apparent weaknesses.
- h. FIs may utilize physical collateral (like real estate), financial guarantees and other instruments to help mitigate risk in credit exposures. However, these shall not substitute for a comprehensive assessment of the obligor or fully compensate for insufficient information.
- i. FIs shall establish adequate policies in determining the acceptability of various forms of credit mitigants and appropriate collateral value limits; procedures for regularly assessing the value of physical collaterals and availability of financial guarantees; and a process to ensure that these are, and continue to be, enforceable, realizable and marketable. Finally, FIs need to consider that the realizable value of the physical collateral or the quality of financial guarantees and other credit mitigants may be impaired by the same factors that have led to the diminished recoverability of the credit.

In the case of guarantees, the level of coverage being provided in relation to the credit quality, financial and legal capacity of the guarantor shall be evaluated.

For credit exposures secured by deposits, FIs shall likewise require obligors to provide a written waiver of his rights under existing laws to the confidentiality of his deposits, and make this available for inspection and/or examination by the appropriate supervising department of the Bangko Sentral.

- j. Netting arrangements also mitigate risks, especially in interbank and off-balance sheet transactions. In order to actually reduce risk, such agreements need to be sound and legally enforceable in all relevant jurisdictions.
- k. For more complex credit risk exposures, (e.g., asset securitization, credit derivatives, credit-linked notes, credit granted internationally, etc.), a more sophisticated tool shall be used for identifying, measuring, monitoring and controlling credit, country and transfer risks. Each complex credit risk product or activity, especially those that are new to banking, shall be subject to a thorough analysis in addition to the regular assessment that is done with traditional credit-granting activities.
- l. For new products and activities, the credit risk shall be appropriately identified and managed through a formal risk assessment program. FIs shall ensure that they fully understand the risk involved in new products and activities and put in place adequate policies, procedures and controls before being introduced or undertaken.

Renewal or extension of maturity date of credits. FIs shall adopt and adhere to the following explicit standards that control the use of renewals and extensions of maturity date of credits:

- a. Credits and other accommodations shall only be renewed, or its maturity date extended:
 - (1) Upon re-establishment of the creditworthiness of the obligor using the same credit-granting criteria for the evaluation and approval of new loans; and
 - (2) When the corresponding accrued interest receivable has been paid.
- b. A policy on clean-up of principal, either partial or full, shall be established and appropriate controls put in place to prevent continuous renewal or extension over a long period of time without reduction in principal; otherwise, such credits and other accommodations shall be subject to classification and allowance for credit losses.
- c. Specific and reasonable standards shall be provided for renewals or extensions of certain types of credit exposures that take into consideration the following factors:
 - (1) Borrower's normal operating, trade or production cycle, in the case of credit exposures for working capital, trade financing, production, and/or other similar purposes to ensure a realistic repayment schedule;
 - (2) Transaction history such as frequency of renewal or extension, rate of utilization of facilities granted, and business requirements;
 - (3) Status of collateral and other guarantees in the case of secured credit exposures, including requiring the FI to re-appraise the property especially when there is a material change in market conditions or in the physical aspects of the property that threatens the collateral protection; and
 - (4) Age of the account, utilization rate, average balance carried, delinquency status, payment history, and account profitability (if available) in the case of retail credits.

Credit limits, large exposures, and credit risk concentrations. An FI is exposed to various forms of credit risk concentration which if not properly managed, monitored and controlled may cause significant losses that could threaten its financial strength and undermine public confidence in the FI. Concentration risk can arise from excessive exposures to individual obligors, groups of connected counterparties and groups of counterparties with similar characteristics (e.g., counterparties in specific geographical locations, economic or industry sectors) or entities in a foreign country or a group of countries with strongly interrelated economies.

While concentration of credit risks is inherent in banking and cannot be totally eliminated, this can be mitigated by adopting policies and processes that would limit and control credit exposures and employing portfolio diversification strategies. Policies and procedures may include, but are not limited to the following:

- a. Policies and procedures for identifying, reviewing, managing and reporting large exposures and concentration risks of the FI.
- b. Segmenting its portfolio into the following diverse categories or such other segmentations consistent with the FI's credit strategy.
 - (1) Various types of borrowers/counterparties or loan category (e.g., government, banks and other FIs, corporate and individual borrowers, including exchanges, electronic communication networks or ECNs and clearing houses);
 - (2) A group of connected borrowers/counterparties (includes aggregating exposures to groups of accounts exhibiting financial or economic interdependence, including corporate or non-corporate, where they are under common ownership or control or with strong connecting links, e.g. common management, familial ties);

- (3) Individual industry sectors;
 - (4) Geographic regions or countries;
 - (5) Loan structure, collateral, and tenor; and
 - (6) Various types of investments, including other credit instruments in the trading books and off-balance sheet transactions.
- c. Defining limit structure on each of the foregoing categories. Limits shall meaningfully aggregate credit exposures, both in the banking, trading book and on and off the balance sheet and shall be reasonable in relation to the FI's level of risk tolerance, historical loss experience, capital and resources. Such limits can be based in part on the internal risk rating assigned to the obligor or counterparty.
 - d. Procedures shall ensure that limits are not exceeded and are clearly communicated, periodically reviewed and modified, as appropriate. Should exceptions to policy be allowed, the circumstances under which limits may be exceeded and the party authorized to approve such excesses shall be clearly articulated in the credit policy.

Country and transfer risks. Country risk refers to uncertainties arising from economic, social and political conditions of a country which may cause obligors in that country to be unable or unwilling to fulfill their obligations. Transfer risk exists when an obligor is unable to secure foreign exchange to service external obligations due to restrictions imposed by the country on foreign exchange remittance or repayment on foreign-currency denominated assets to a foreign lender. FIs that have cross-border credit risk exposures shall have adequate internal capacity for identifying, measuring, monitoring and controlling country and transfer risks in its international lending and investment activities, and shall not place undue reliance on external ratings. An FI shall consider the following:

- a. Establishing credit-granting criteria taking into consideration country risk factors that shall include the potential for default of foreign private sector obligors arising from country-specific economic, social and political factors, the enforceability of loan agreements, and the timing and ability to realize collateral under the national legal framework. The results of the country risk analysis shall be integrated into the internal credit risk rating of the obligor. These country risk factors shall be regularly monitored. An FI shall also assess an obligor's ability to obtain foreign exchange to service cross-currency debt and honor contracts across jurisdictions.
- b. Country risk limits shall be put in place and regularly reviewed to determine that approved limits still reflect the FI's business strategy in line with the changing market conditions. FIs shall ensure that country exposures are reported and monitored against these limits. Significant country risks shall be assessed and highlighted in credit proposals submitted to management for approval.
- c. Credit policy shall clearly articulate appropriate countermeasures that an FI shall take in the event of an adverse development in a particular country where it has exposures. These measures shall include closer analysis of the obligor's capacity to repay, provisioning and preparation of contingency plans if country risk continues to deteriorate. It shall consider in its monitoring and evaluation of country and transfer risks, the internal and external country risk rating transitions and economic social and political developments of the relevant countries. Any significant changes to the conditions of a country shall also be elevated to the board of directors promptly particularly if the FI has substantial exposure to that country.

Credits granted to related parties. Consistent with sound corporate governance practices, the board and senior management shall articulate and implement clear policies in handling transactions with directors, officers, stockholders, their related interests (DOSRI), the FI's subsidiaries and affiliates, and other related parties, ensuring that there is effective compliance with existing laws, rules, and regulations at all times and that no stakeholder is unduly disadvantaged.

- a. All extensions of credit must be made on an arm's-length basis, in accordance with the FI's credit-granting criteria and in the regular course of business, and upon terms not less favorable to the FI than those offered to non-related borrowers.
- b. FI policies shall cover standards that require directors and/or officers to avoid placing themselves in a position that creates conflict of interest or the appearance of conflict of interest. The board and management shall likewise establish and implement policies that require full disclosure of personal interests that they may have in credit transactions. Directors and officers with personal interest in a transaction shall not participate in any deliberation, approval, or voting on the matter.

III. Maintaining an Appropriate Credit Administration, Measurement, and Monitoring Process

Credit administration. FIs shall have in place a system for the ongoing administration of their various credit portfolios. Credit administration refers to the back office activities that support and control extension and maintenance of credit. FIs shall ensure the efficiency and effectiveness of the following credit administration functions:

- a. *Credit documentation.* Procedures shall be put in place to ensure completeness of documentation in accordance with policy including a file documentation tickler system;
- b. *Disbursement.* Proper approval shall be obtained and complete documentation ensured prior to disbursement. Exceptions, if any, shall be duly approved;
- c. *Billing and repayment.* Payments received shall be properly recorded. Measures shall be in place to ensure that late payments are tracked and collected; and
- d. *Maintenance of credit files.* Credit files shall include sufficient and updated information necessary to ascertain the financial condition of the obligor or counterparty and include documents covering the history of an FI's relationship with the obligor. All loan and collateral documents shall be kept in a secured area under joint custody.

Credit risk measurement, validation and stress testing. FIs shall adopt sound and appropriate risk measurement methodologies which shall provide a framework to control and monitor the quality of credit as well as total loan portfolio.

- a. *Internal credit risk rating system.* FIs shall develop and utilize an internal risk rating system appropriate to the nature, size and complexity of the FI's activities in order to help the board and senior management differentiate risks across the individual credits and groups and to facilitate informed decision making. FIs shall have sophisticated rating systems involving sufficiently granular rating grades. Simple FIs may adopt simpler systems. In all cases, however, FIs shall demonstrate the influence of the internal risk rating system in the following important functions: i) credit approval and underwriting; ii) loan pricing; iii) relationship management and credit administration; iv) allowance for credit losses and capital adequacy; and v) portfolio management and board reporting. Internal risk rating systems shall generally observe the following standards:
 - (1) It must be operationally integrated into the FI's internal credit risk management process. Its output shall accordingly be an integral part of the process of evaluation and review of prospective and existing exposures. Credit underwriting criteria shall become progressively more stringent as credit rating declines;
 - (2) It must be fully documented and shall address topics such as coverage, rating criteria, responsibilities of parties involved in the ratings process, definition of what constitutes a rating exception, parties that have authority to approve exceptions, frequency of rating reviews, and management oversight of the rating process. In addition, FIs must document the rationale for its choice of rating criteria and must be able to provide analyses demonstrating that the rating criteria and procedures are likely to result in ratings that meaningfully differentiate risk;
 - (3) All credit exposures shall be rated for risk. Where individual credit risk ratings are not assigned, e.g., small-denomination performing loans, FIs shall assign the portfolio of such exposures a composite credit risk rating that adequately defines its risk, i.e., repayment capacity and/or loss potential;
 - (4) The board shall receive sufficient information to oversee management's implementation of the process. Migration analysis/transition matrix of ratings shall be regularly reported to show the actual performance of the rating system over time;
 - (5) The risk rating system shall encompass an adequate number of ratings. FIs shall ensure that "pass" credits are sufficiently differentiated and more precisely defined. There shall be a proper process to map the internal rating system to regulatory classification. The FI shall readjust the mapping after every review of its internal risk rating methodology. For FIs whose internal rating systems have several pass grades, special mention loans may pertain to several risk ratings while substandard, doubtful and loss generally correspond to the lowest three risk ratings;
 - (6) Risk ratings must be reasonable, timely and dynamic. Ratings shall be reviewed at least annually and shall be modified whenever the borrower's creditworthiness changes;
 - (7) The rating criteria shall reflect an established blend of qualitative (e.g., the quality of management, willingness to repay, etc.) and quantitative (e.g., cash flow, profitability, and leverage) factors. The criteria for assigning each rating shall be clearly defined;
 - (8) The rating policy shall indicate a time horizon for the risk rating. Generally, the time horizon used for probability of default estimation is one year. However, FIs may use a different time horizon to cover one business cycle;
 - (9) Ratings shall reflect the risks posed by both the borrower's expected performance and the transaction's structure. The ratings output of internal credit risk rating systems must contain both a borrower and a facility dimension. The borrower dimension shall focus on factors that affect the inherent credit quality of each borrower. The facility dimension, on the other hand, shall focus on security/collateral arrangements and other similar risk influencing factors of each transaction;

- (10) The rating assigned to a credit shall be well supported and documented in the credit file; and
- (11) Rating histories on individual accounts shall be maintained, which shall include the ratings of the account, the dates the ratings were assigned, the methodology and key data used to derive the ratings and the analyst who gave the ratings. The identity of borrowers and facilities that default, and the timing and circumstances of such defaults, must be retained. FIs must also retain data on the realized default rates associated with rating grades and ratings migration in order to eventually track the predictive power of the risk rating system.

As used in these standards, a default is considered to have occurred in the following cases:

- (a) If a credit obligation is considered non-performing under existing rules and regulations;
 - (b) If a borrower/obligor has sought or has been placed in bankruptcy, has been found insolvent, or has ceased operations in the case of businesses;
 - (c) If the bank sells a credit obligation at a material credit-related loss, i.e., excluding gains and losses due to interest rate movements. Banks' board approved internal policies that govern the use of their internal rating systems must specifically define when a material credit related loss¹ occurs; and
 - (d) If a credit obligation of a borrower/obligor is considered to be in default, all credit obligations of the borrower/obligor with the same bank shall also be considered to be in default.
- b. *Credit scoring model.* FIs may use a credit scoring model in measuring credit risk for pools of loans that are similar in purpose, risk characteristics and/or general exposure to groups, industries or geographical locations granted in small denomination; *Provided*, That the FI ensures that the credit scoring model sufficiently captures the credit behavior and other characteristics of the targeted borrowers. These loans include retail loans, loans to micro and small enterprises, microfinance loans and unsecured small business loans, and consumer loans (i.e., housing loans, car or auto loans, loans for the purchase of appliance and furniture and fixtures, loans for payment of educational and hospital bills, salary loans and loans for personal consumption, including credit card loans). Risks for these types of portfolio are generally measured at portfolio level.
- c. *Other credit risk measurement/methodologies.* FIs may likewise adopt other appropriate credit risk measurement methodologies/models to estimate expected losses from credit portfolio.
- d. *Validation of internal rating systems.* Validation is a process to assess the performance of risk component measurement systems consistently and meaningfully, to ensure that the realized risk measures are within an expected range. It not only increases the reliability of a model, but also promotes improvements and a clearer understanding of a model's strengths and weaknesses among management and user groups.

FIs shall establish comprehensive policies and procedures on effective validation of the rating system (e.g. review of model design/developmental evidence, backtesting, benchmarking and assessment of the discriminatory power of the ratings) and rating process (e.g. review of data quality, internal reporting, problem handling and how the rating system is used by the credit officers). This shall be adequately documented and results reported to appropriate levels of the FI. The process shall likewise be subject to periodic review by qualified, independent individuals.

Moreover, FIs shall periodically conduct back-testing in evaluating the quality of their credit risk assessment models and establish internal tolerance limits for differences between expected and actual outcomes and processes for updating limits as conditions warrant. The policy shall also include remedial actions to be taken when risk tolerances are exceeded.

- e. *Stress testing.* When appropriate, an FI shall conduct stress testing and scenario analysis of its credit portfolio including off-balance sheet exposures, both at an individual and group levels to assess the impact of market dislocations and changes in economic conditions or key risk factors on its profile and earnings.

- (1) Whether stress tests are performed manually, or through automated modeling techniques, FIs shall ensure that:
- (a) Policies and processes –
 - (i) Are adequate and clearly documented, rational, easily understood and approved by the board and senior management; and

¹ This refers to economic loss, thus shall include discount effects, as well as direct and indirect costs associated with collecting on the credit obligation. The FIs' board-approved internal policies that govern the use of their internal rating systems must include specific policies and procedures that shall be followed in the determination of economic loss.

- (ii) Include methodology for constructing appropriate and plausible single and multi-factor stress tests, and possible events, scenarios, or future changes in economic conditions that could have adverse impact on credit exposures, and assess the FI's ability to withstand such changes;
 - (b) The inputs are reliable and relate directly to the subject portfolios;
 - (c) The process includes frequency of test and procedures for convening periodic meetings to identify the principal risk factors affecting the portfolio, setting loss limits and the authority for setting these limits, and monitoring stress loss limits;
 - (d) Assumptions are well documented and conservative;
 - (e) Models (if any) are subject to a comprehensive validation process;
 - (f) Exceptions to limits and stress testing results are reported to the senior management and board of directors for appropriate remedial actions; and
 - (g) Results are discussed and actions and resolutions are made arising from the discussion.
- (2) The linkages between different categories of risk that are likely to emerge in times of crisis shall be fully identified. In case of adverse circumstances, there may be a substantial correlation of various risks, especially credit, liquidity, and market risk.
- f. FIs shall develop a contingency plan for scenarios and outcomes that involve credit risk in excess of the FI's established risk tolerances. This plan may include increasing monitoring, limiting portfolio growth, and hedging or exit strategies for both significant individual transactions and key portfolio segments.

Credit risk management information and reporting systems. FIs shall render accurate, reliable and timely information and reports. Thus, adequate management information and reporting systems shall be in place to identify and measure credit risk inherent in all on-and off-balance sheet activities and ensure the overall effectiveness of the risk management process. The information generated from such systems shall enable the board and all levels of management to fulfill their respective oversight roles, including determining the level of capital commensurate with the credit risk exposure of the FI.

- a. At a minimum, an effective management information system (MIS) shall enable FIs to:
 - (1) Provide adequate information on the quality and composition of the credit portfolio (including off-balance sheet accounts);
 - (2) Determine accurately the level of credit risk exposures of an FI through its various activities (e.g. renewal and extension of loans, collection process, status of delinquent accounts, write-offs, provisioning, among others);
 - (3) Timely identify and monitor credit risk concentrations, exposures approaching risk limits, exceptions to credit risk limits and overrides to ensure that policy and underwriting deviations as well as breaches and other potential problems are promptly reported to the board and management for appropriate corrective action;
 - (4) Aggregate credit exposures to individual borrowers and counterparties as well as to a group of accounts under common ownership or control;
 - (5) Permit additional analysis of the credit portfolio, including stress testing; and
 - (6) Maintain a database for research and use of analytical techniques, report exposures, track quality and account performances, and maintain limits.
- b. The credit policy shall clearly define the types of information and reports to be generated, frequency of reporting, deadline of submission, and the users/recipients of and personnel responsible for the preparation of such information and reports.
- c. FIs shall provide sufficient controls to ensure integrity of the MIS. Reports shall be periodically reviewed to ensure adequacy of scope and reliability and accuracy of the information generated. Internal audit shall also periodically assess the controls over MIS.

Credit monitoring. FIs shall develop and implement comprehensive processes, procedures and information systems to effectively monitor the condition and quality of individual credits and group of credits across the FIs' various portfolios. These shall include criteria that identify and report problem credits to reasonably assure that they are appropriately monitored as well as administered and provided for.

- a. The system shall be able to, among others, provide measures to ensure that the board and management are kept informed of the current financial condition of the borrower and the various credit portfolios; loan covenants are consistently adhered to; cash flow projections meet repayment requirements; prudential and internal limits are not exceeded; portfolios are stress tested; and potential problem credits and other transactions are identified. Exceptions, breaches and potential problems noted shall be promptly reported to management for corrective action, possible classification and/or provisioning and more frequent monitoring.
- b. Personnel or unit assigned to monitor, on an ongoing basis, credit quality, underlying physical collateral and financial guarantees shall ensure that relevant information is communicated to those personnel or unit assigned to provide internal credit risk ratings.
- c. FIs shall perform post-validation of the actual use of funds to determine that credits were drawn down for their intended purposes. Should funds be diverted for purposes other than what has been applied for and approved, the FI shall immediately re-evaluate its approval or if necessary terminate the credit accommodation and demand immediate repayment of the obligation.
- d. FIs shall monitor individual and aggregate exposures against prudential and internal limits on a regular basis. Large exposures shall be subject to more intensive monitoring.
- e. FIs shall develop a system that allows monitoring of asset quality indicators (e.g. non-performing loans, collateral values, etc.) and trends in loan growth to identify potential weaknesses in the portfolio.

IV. Maintaining an Appropriate Credit Control Process

Credit review process.

- a. FIs shall implement an independent and objective credit review process to determine that credits are granted in accordance with the FI's policies; assess the overall asset quality, including appropriateness of classification and adequacy of loan-loss provisioning; determine trends; and identify problems (e.g., risk concentration, risk migration, deficiencies in credit administration and monitoring processes).
- b. FIs may employ an appropriate sampling methodology to determine the scope of credit review. At a minimum, credit review shall be conducted on all individual obligors with substantial exposures, and on a consolidated group basis to factor in the business connections among related entities in a borrowing group. Credit review for credits that are similar in purpose or risk characteristics may be performed on a portfolio basis. The portfolio sample selected for review shall provide reasonable assurance that all major credit risk issues have been assessed and valid conclusions can be drawn. Moreover, sampling methodology shall be documented and periodically reviewed to ensure its quality and minimize bias.
- c. Credit review shall also evaluate credit administration function and ensure that credit files are complete and updated, and all loan approvals and other necessary documents have been obtained.
- d. Credit reviews shall be performed at least annually, and more frequently for substantial exposures, new accounts and classified accounts. Assessments shall be promptly discussed with the officers responsible for the credit activities and escalated to senior management.
- e. Results of the credit review shall be promptly reported to the board of directors or the appropriate board-level committee for their appropriate action. The board shall mandate and track the implementation of corrective action in instances of unresolved deficiencies and breaches in policies and procedures. Deficiencies shall be addressed in a timely manner and monitored until resolved/corrected.

Credit classification and provisioning.

- a. *Classification of loans and other credit accommodations*¹. FIs shall have in place a reliable credit classification system to promptly identify deteriorating credit exposures and determine appropriate allowance for credit losses. Classification can be done on the basis of internal credit risk rating system, including payment delinquency status. All credit classifications, not only those reflecting severe credit deterioration, shall be considered in determining the appropriate allowance for credit losses.
 - (1) All FIs shall map their classification of loans and other credit accommodations against the regulatory classification criteria provided below. However, FIs are encouraged and not precluded from using additional criteria appropriate to their internal credit risk rating system provided they are consistent with the regulatory classification as follows:

¹ Other credit accommodations include other credits such as accounts receivables, sales contract receivables, accrued interest receivables and advances.

- (a) *Pass*. These are loans and other credit accommodations that do not have a greater-than-normal credit risk. The borrower has the apparent ability and willingness to satisfy his obligations in full and therefore no loss in ultimate collection is anticipated.
- (b) *Especially Mentioned (EM)*. These are loans and other credit accommodations that have potential weaknesses that deserve management's close attention. If left uncorrected, these weaknesses may affect the repayment of the loan. Some degree of structural weakness may be found in virtually any aspect of the loan arrangement or type of loan, and the presence of one (or more) need not be indicative of an overall credit weakness deserving criticism. Instead, the FI must evaluate the relative importance of such factors in the context of the borrower's overall financial strength, the condition of the borrower's industry or market, and the borrower's total relationship with the FI. Basic characteristics include, but are not limited to, any of the following:
 - (i) Deficiencies in underwriting, documentation, structure and/or credit administration that can compromise an FI's ability to control credit relationship if economic or other events adversely affect the borrower;
 - (ii) Continuous renewal/extension without reduction in principal, except when the capacity to pay of the borrower has been clearly re-established;
 - (iii) Adverse economic or market conditions, that in the future may affect the borrower's ability to meet scheduled repayments. Loans and other credit accommodations affected by these characteristics may retain the EM classification in the next examination should the same adverse conditions persist, provided that the loans remain current; or
 - (iv) Intermittent delays or inadequate repayment of principal, interest or periodic amortizations of loans and other credit accommodations granted by the FI or by other FIs, where such information is available.
- (c) *Substandard*. These are loans and other credit accommodations that have well-defined weakness/(es), that may jeopardize repayment/liquidation in full, either in respect of the business, cash flow or financial position, which may include adverse trends or developments that affect willingness or repayment ability of the borrower. Basic characteristics include any of the following:
 - (i) Weak financial condition and results of operation that leads to the borrower's inability to generate sufficient cash flow for debt servicing, except for start-up firms which shall be evaluated on a case-to-case basis;
 - (ii) Past due secured loans and other credit accommodations where properties offered as collateral have been found with defects as to ownership or with other adverse information;
 - (iii) Breach of any key financial covenants/agreements that will adversely affect the capacity to pay of the borrower; or
 - (iv) Classified "Especially Mentioned" as of the last credit review without adequate corrective action.
- (d) *Doubtful*. These are loans and other credit accommodations that exhibit more severe weaknesses than those classified as "Substandard", whose characteristics on the basis of currently known facts, conditions and values make collection or liquidation highly improbable, however the exact amount remains undeterminable as yet. Classification as "Loss" is deferred because of specific pending factors which may strengthen the assets. Some basic characteristics include any of the following:
 - (i) Secured loans and other credit accommodations where properties offered as collateral are either subject to an adverse claim rendering settlement of the loan through foreclosure doubtful or whose values have materially declined without the borrower offering additional collateral for the loan/s to cover the deficiency; or
 - (ii) Loans and other credit accommodations wherein the possibility of loss is extremely high but because of certain important and reasonable pending factors (i.e., merger, acquisition, or liquidation procedures, capital infusion, perfecting liens on additional collateral, and refinancing plans) that may work to the advantage and strengthening of the asset, its classification as an estimated loss is deferred until the next credit review.
- (e) *Loss*. These are loans and other credit accommodations which are considered uncollectible or worthless and of such little value that their continuance as bankable assets is not warranted although the loans may have some recovery or salvage value. This shall be viewed as a transitional category for loans and

other credit accommodations which have been identified as requiring write-off during the current reporting period even though partial recovery may be obtained in the future. Their basic characteristics include any of the following:

- (i) When the borrower's and co-makers'/guarantors' whereabouts are unknown, or they are insolvent, or their earning power is permanently impaired; or
 - (ii) Where the collaterals securing the loans are without recoverable values.
- (2) *Split classification* may apply for nonperforming secured loans and other credit accommodations, depending on the recoverability and liquidity of the collateral. The secured portion may be classified as "Substandard" or "Doubtful", as appropriate, while the unsecured portion shall be classified "Loss" if there is no other source of payment other than the collateral.
- (3) In the case of syndicated loans, each participating FI shall maintain credit information on the borrower, and grade and make provision for its portion of the syndicated loan in accordance with the requirements of these guidelines. The lead FI shall provide participating FIs with the credit information on the borrower upon request by the participating FI and inform the latter if the loan will be classified so as to achieve uniform classification of the syndicated loan.
- (4) FIs may upgrade a classified loan or restore it to a pass rating provided that it does so on the basis of a written policy on the upgrading of classification or rating and the credit review function is reliable and effective. Such policy shall include a comprehensive analysis of the repayment capability/financial strength of the borrower and the corrective actions made on the weaknesses noted to support the upgrade in classification. Upgrading may be supported by the following developments:
- (a) When all arrears or missed payments on principal and interests including penalties have been cleared rendering the account to be fully compliant with the original terms of the loan;
 - (b) Upon establishing that the weaknesses were substantially addressed and that the borrower has exhibited a sustained trend of improvement and willingness and capability to fully pay its loans and advances in a timely manner to justify the upgrade;
 - (c) Offering of new or additional collateral security; or
 - (d) In the case of restructured loans, the classification shall only be upgraded after establishing a satisfactory track record of at least six (6) consecutive payments of the required amortization of principal and interest, or until the borrower has sufficiently exhibited that the loan will be fully repaid (continued collection in accordance with the terms of the loans is expected) and the loan meets the criteria of lower loan classification.

b. *Loan loss estimation methodology, provisioning and allowance for credit losses*

- (1) All FIs shall develop and document a sound loan loss methodology that can reasonably estimate provisions for loans and other credit accommodations and risk assets in a timely manner, using their experience and research and this guidance to ensure that the specific and collective allowance for credit losses¹¹ (ACL) are adequate and approximates the expected losses in their credit portfolio.

An FI's loan loss methodology shall consider the following:

- (a) Written policies and procedures for the credit risk systems and controls inherent in the methodology, including roles and responsibilities of the FI's board of directors and senior management;
- (b) A detailed analysis of the entire loan portfolio, including off-balance sheet facilities, performed on a regular basis;
- (c) A realistic view of its lending activities and adequately consider uncertainty and risks inherent in those activities in preparing accounting information. Loan accounting policies and practices shall be selected and applied in a consistent way that reasonably assures that loan and loan loss provision information is reliable and verifiable;
- (d) Identification of loans to be evaluated individually and segmentation of the remaining portfolio into groups of loans with similar credit risk characteristics for collective assessment.

¹ ACL represents the aggregate amount of individual and collectively assessed probable credit losses.

- (i) *Individually assessed loans.* FIs shall establish a materiality threshold for significant credit exposures that will warrant an individual assessment, which threshold shall be regularly reviewed.

The loan loss estimates shall reflect consideration of the facts and circumstances that affect the repayment of each individual loan as of the evaluation date. The following factors are relevant in estimating loan losses for individually assessed loans:

- (aa) Significant financial difficulty of the borrower;
- (bb) Probable bankruptcy or other financial reorganization of the borrower;
- (cc) Breach of contract, such as a default or delinquency in interest or principal payments; or
- (dd) Concession granted by the FI, for economic or legal reasons relating to the borrower's financial difficulty, which would not otherwise be considered.

The methodology shall include procedures describing the determination and measurement of the amount of any impairment, the impairment measurement techniques available and steps performed to determine which technique is most appropriate in a given situation.

- (ii) *Collectively assessed loans.* FIs may use different methods to group loans for the purpose of assessing credit risk and valuation. More sophisticated credit risk assessment models or methodologies for estimating expected future cash flows, including credit risk grading processes, may combine several of the following characteristics: loan type, product type, market segment, estimated default probabilities or credit risk grading and classification, collateral type, geographical location and past-due status.

Estimated credit losses shall reflect consideration of the FI's historical net charge-off rate¹ of the groups, adjusted for changes in trends, conditions and other relevant factors that affect repayment of the loans in these groups as of the evaluation date, and applied consistently over time;

- (e) Methods used to determine whether and how loans individually evaluated, but not considered to be individually impaired, shall be grouped with other loan (excluding individually assessed loans that are impaired) that share similar credit risk characteristics for collective impairment evaluation;
- (f) The quality and net realizable values of physical collateral and other financial guarantees and credit risk mitigants incorporated in the loan agreement, where applicable;
- (g) Address the methods used to validate models for credit risk assessment;
- (h) The analyses, estimates, reviews and other provisioning methodology functions shall be performed by competent and well-trained personnel and be well documented, with clear explanations of the supporting analyses and rationale; and
- (i) Use experienced credit judgment. Assessment of expected losses shall not be based solely on prescriptive rules or formula but must be enhanced with experienced credit judgment by the appropriate levels of management²² in as much as historical loss experience or observable data may be limited or not fully relevant to current circumstances. However, the scope for actual discretion shall be prudently within the following constraints:
 - (i) Experienced credit judgments shall be subject to established policies and procedures;
 - (ii) With approved and documented analytical framework for assessing loan quality applied consistently over time;
 - (iii) Estimates shall be based on reasonable and verifiable assumptions and supported by adequate documentation; and
 - (iv) Assumptions concerning the impact on borrowers of changes in general economic activity, both favorable and unfavorable, shall be made with sufficient prudence.

The method of determining loan loss provisions shall reasonably assure the timely recognition of loan losses. While historical loss experience and recent economic conditions are a reasonable starting point for the institution's analysis, these factors are not, by themselves, sufficient basis to determine the appropriate level of aggregate loan loss provisions. Management shall also consider any current factors that are likely to cause loan losses to differ from historical loss experience, including changes in the following:

- Lending policies and procedures, including underwriting standards and collection, charge-off, and recovery practices;

¹ The historical net charge-off rate is generally based on the annualized historical gross loan charge-offs, less recoveries, recorded by the FI.

² There may be instances when no adjustments are needed to the data in the recognition and measurement of loan losses because the data are consistent with current conditions.

- International, national and local economic and business conditions and developments, including the condition of various market segments
- Trend, volume and severity of past due loans and loans graded as low quality, as well as trends in the volume of impaired loans, troubled debt restructurings and other loan modifications;
- The experience, ability, and depth of lending management and staff;
- Changes related to new market segments and products;
- Quality of the FI's loan review system and the degree of oversight by senior management and board of directors;
- The existence and effect of any concentrations of credit, and changes in the level of such concentrations; and
- Credit risk profile of the loan portfolio as a whole as well as the effect of external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the FI's current portfolio.

Experienced credit judgment shall also be used to determine an acceptable period that will yield reliable historical loss rates as loss rate periods shall not be restricted to a fixed time period to determine the average historical loss experience for any group of loans with similar credit risk characteristics. An FI shall maintain sufficient historical loss data over a full credit cycle to provide robust and meaningful statistical loan loss estimates for establishing the level of collective impairment losses for each group of loans with similar credit risk characteristics. When applying experienced credit judgment, an FI shall provide a sound rationale for excluding any historical loss data that is deemed not representative of the performance of the portfolio.

- (2) FIs with credit operations that may not economically justify a more sophisticated loan loss estimation methodology or whose practices fell short of expected standards shall, at a minimum, be subject to the regulatory guidelines in setting up allowance for credit losses prescribed in *Appendix Q-14*, provided that the FIs notify the appropriate supervising department of Bangko Sentral, of this preference. Nevertheless, such FIs shall still use experienced credit judgment, subject to the criteria prescribed in this Section (*Credit classification and provisioning*), in determining the ACL.
- (3) FIs shall set up general loan loss provision equivalent to one percent (1%) of the outstanding balance of individually and collectively assessed loans for which no specific provisions are made and/or for which the estimated loan losses are less than one percent (<1%), less loans which are considered non-risk under existing laws, rules and regulations.
- (4) FIs shall ensure the adequacy of the individual and collective ACL for the entire loan portfolio. They shall have a policy for the regular review of the ACL, which shall be conducted at least semi-annually after considering results of the credit review, level of classified loans, delinquency reports, historical losses and market conditions. Failure to make adequate provisions for estimated future losses results in material misrepresentation of an FI's financial condition.

Credit workout and remedial management of problem credits. FIs shall develop and maintain a disciplined and vigorous process for the early identification and intervention for potential or existing problem credits. The process shall ensure that timely and adequate management action is taken to maintain the quality of the credit portfolio, prevent further deterioration, and minimize the likelihood of future losses.

- a. Problem credits refer to credits that display signs of potential problems and/or well-defined weaknesses such as those not performing according to the terms of the contract, or with credit quality impairment, or deficiencies relating to their approval and/or conduct that are not in keeping with sound and prudent credit policies. These shall include past due loans, non-performing loans and restructured loans.
- b. FIs shall adopt appropriate and cost-effective workout, restructuring or remedial management policies, processes and strategies to revive and recover problem credits. The strategies shall take into account the specific condition of the obligor and the FI's interest, and shall be approved by the board of directors or management, in accordance with internal policy.
- c. At a minimum, the policies and strategies shall cover the following areas:
 - (1) authority and responsibilities of officers and staff in managing problem credits;
 - (2) collection strategy to be adopted for different types of loans;

- (3) restructuring and handling of restructured accounts and/or loans for workout;
- (4) supervision and monitoring of loan recovery performance;
- (5) management and disposal of ROPA, including appraisal process;
- (6) management information system to support the reporting, monitoring and decision-making processes;
- (7) defined timelines and provision for regular monitoring; and
- (8) other strategies, such as the use of collection agencies, and criteria for hiring a consultant on problem credits.

d. Restructuring strategies

- (1) Restructuring may be resorted to for the purpose of lessening the financial difficulty of the obligor towards full settlement of his obligation, and restructuring agreements shall always take into account the borrower's capacity to pay his obligation and available credit enhancements such as financial guarantees and physical collateral. Thus, except in special cases which also require approval by the Monetary Board, such as loans funded by foreign currency obligations, FIs shall have full discretion on whether to restructure loans in order to provide flexibility in arranging the repayment of such loans without impairing or endangering the FI's interest.
- (2) Accounts shall not be restructured unless the financial capacity of the obligor to repay has been re-established, the events or crises that triggered the financial stress had been identified, and the nature and extent of protection of the FI's exposure had been determined, to justify the need for restructuring.
- (3) At a minimum, the classification and provisioning of a loan, prior to the execution of the restructuring agreement shall be retained until the borrower has sufficiently exhibited that the loan will be fully repaid.
- (4) A second restructuring of a loan shall be allowed only if there are reasonable justifications: *Provided*, That it shall be considered a non-performing loan and classified, at least, "Substandard". The restoration to a performing loan status and/or upgrading of loan classification, e.g., from "Substandard" to "Especially Mentioned", may be allowed if circumstances warrant an upgrading in accordance with this Section (*Credit workout and remedial management of problem credits*).
- (5) When restructuring of exposures to DOSRI and other related parties is pursued, this shall be upon terms not less favorable to the FI than those offered to others and shall be approved by the board, excluding the concerned director.
- (6) Physical collaterals offered, such as real estate, shall be appraised by an independent appraisal company (not a subsidiary or an affiliate of the FI) acceptable to the Bangko Sentral at the time of restructuring and every year thereafter to ensure that current market values are being used. A credit exposure benchmark of P1.0 million for simple FIs and P5.0 million for all other FIs shall be observed, such that physical collaterals for credit exposures beyond this amount will require an independent appraisal.

- e. Problem credits, including restructured accounts, shall be subjected to more frequent review and monitoring. Regular reports on the status of loan accounts and progress of any remedial plan shall be submitted to senior management to facilitate an informed decision whether escalated remedial actions are called for.

Writing off problem credits. Policies for writing off problem credits must be approved by the board of directors in accordance with defined policies, and shall incorporate, at a minimum, well-defined criteria (i.e., circumstances, conditions and historical write-off experience) under which credit exposures may be written off. Procedures shall explicitly narrate and document the necessary operational steps and processes to execute the policies.

Policies and procedures shall be periodically reviewed and if necessary, revised in a timely manner to address material internal changes (e.g., change in business focus) or external circumstances (e.g., changes in economic conditions).

FIs shall write off problem credits, regardless of amount, against ACL or current operations within a reasonable period as soon as such problem credits are determined to be worthless as defined in the FIs' written policies. However, problem credits to DOSRI shall be written off only upon prior approval of the Monetary Board.

Policies shall define and establish the reasonable period of time within which to write off loans already classified as "Loss". There shall be no undue delay in implementing write-offs. Notice of writeoff of problem credits shall be submitted in the prescribed form to the appropriate supervising department of the Bangko Sentral within thirty (30) business days after every write-off with a sworn statement signed by the president of the FI or officer of equivalent rank that write-off did not include transactions with DOSRI and was undertaken in accordance with board approved internal credit policy.

An effective monitoring and reporting system shall be in place to monitor debts written off and future recoveries. Progress on recovery shall be periodically reported to the board and senior management. A database of loan accounts written off shall be maintained and must be periodically reviewed for updates on individual loan obligor's information.

Enforcement actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to standards and principles set forth in these guidelines, bring about timely corrective actions and compliance with Bangko Sentral directives and ensure that FIs continuously observe the said standards. Persistent non-observance of the provisions of Sec. 143-Q, which may lead to material misstatement of the financial condition or illiquidity of the FI, may be a ground for declaration of conducting business in an unsafe or unsound manner under Section 56 of R.A. No. 8791 and subject the FI to appropriate sanctions.

Enforcement actions shall be based on a holistic assessment to determine if FIs adopt appropriate risk management practices and maintain capital commensurate with the risk assumed based on existing rules and regulations. These may include, but are not limited to, the following:

- a. *Corrective actions.* These are measures intended to primarily require FIs to rectify any deviations from the standards and principles expected in the conduct of its credit risk-taking activities to address the negative impact of such deviation. Corrective actions generally include issuance of specific directives to address supervisory concerns within a reasonable timeframe.
- b. *Sanctions.* The Monetary Board may impose sanctions on an FI and/or its Board, directors and officers, as provided under existing laws, Bangko Sentral rules and regulations proportionate to the gravity/seriousness of offense.
- c. *Other enforcement actions.* Subject to prior Monetary Board approval, the Bangko Sentral, when warranted, may deploy other enforcement actions such as:
 - (1) Initiation into the prompt corrective action (PCA) framework whenever grounds for PCA exist;
 - (2) Issuance of cease and desist order (CDO) in case of persistence in conducting business in an unsafe or unsound manner and/or violation of any banking law or any order, instruction or regulation issued by the Monetary Board or any order, instruction or ruling issued by the Governor;
 - (3) Additional capital infusion in case hazardous lending practices resulted in excessive provisions for credit losses leading to capital deficiency;
 - (4) Requiring the FI to gross up the amount of required allowance for credit losses based on the examination of a representative sample of loans, if in the course of the Bangko Sentral examination, a high incidence of non-reporting/concealment of past due and/or problem loans is noted; or
 - (5) Other appropriate non-monetary enforcement actions that the Monetary Board may impose.

(Circular No. 855 dated 29 October 2014)

144-Q MARKET RISK MANAGEMENT

Policy Statement. The Bangko Sentral recognizes that developments in financial products and markets take place rapidly and that QBs may engage in such products and markets in various roles, such as that of an investor or a market-maker. In this regard, the Bangko Sentral expects QBs to implement a comprehensive approach to risk management that ensures timely and effective identification, measurement, monitoring and control of market risks. Market risk should be reviewed together with other risks to determine a BSFI's overall risk profile.

General Principles

The requirements for sound market risk management under these guidelines apply to the trading book exposures of all QBs. Before transacting in financial markets or instruments or implementing any financial structure or strategy, a QB shall ensure that:

- a. It has the necessary authority to engage in such activities;
- b. The board, management and risk-taking units possess relevant knowledge, expertise and/or experience;
- c. Adequate policies, processes, and systems are in place to effectively identify, measure, monitor, and control the attendant risks under both normal and stressed conditions; and
- d. An appropriate level of capital is held to support these activities.

A QB shall ensure that the market risk management system is integrated into its overall risk management framework.

Market Risk Management Process

A QB's market risk management process should be consistent with its general risk management framework and should be commensurate with the level of risk assumed. Although there is no single market risk management system that works for all QB, a QB's market risk management process should:

- a. *Identify Market Risk.* Identifying current and prospective market risk exposures involves understanding the market risk arising from a QB's existing and new business initiatives. A QB should have procedures in place to identify and address the risk posed by new products and activities prior to initiating the new products or activities.

Identifying market risk also includes identifying QB's desired level of risk exposure based on its ability and willingness to assume market risk. A QB's ability to assume market risk depends on its capital base and the skills/capabilities of its management team. In any case, market risk identification should be a continuing process and should occur at both the transaction and portfolio level.

- b. *Measure Market Risk.* Once the sources and desired level of market risk have been identified, market risk measurement models can be applied to quantify a QB's market risk exposures. However, market risk cannot be managed in isolation. Market risk measurement systems should be integrated into the QB's general risk measurement system and results from models should be interpreted alongside other risk exposures. Further, QBs with more complex financial market activities should have more sophisticated tools to measure market risk exposures arising from such activities.
- c. *Control Market Risk.* Quantifying market risk exposures helps a QB align existing exposures with the identified desired level of exposures. Controlling market risk usually involves establishing market risk limits that are consistent with a QB's market risk measurement methodologies. Limits may be implemented through an outright prohibition on exposures above a pre-set threshold, by restraining activities or deploying strategies that alter the risk-return characteristics of on-and off-balance sheet positions. Appropriate pricing strategies may likewise be used to control market risk exposures.
- d. *Monitor Market Risk.* Ensuring that market risk exposures are adequately controlled requires the timely review of market risk positions and exceptions. Monitoring reports should be frequent, timely and accurate. For large, complex QBs, consolidated monitoring should be employed to ensure that management's decisions are implemented for all geographies, products, and legal entities.

Definition and Sources of Market Risk

Market risk is the risk to earnings or capital arising from adverse movements in factors that affect the market value of instruments, products, and transactions in an institution's trading book portfolio, both on-and off-balance sheet. Market risk arises from market-making, dealing, or position-taking in instruments and structures, or through strategies that are sensitive to movements in interest rates, foreign exchange rates, credit spreads, and equities and commodities prices.

Interest rate risk is the current and prospective risk to earnings or capital arising from movements in interest rates.

Foreign exchange (FX) risk refers to the risk to earnings or capital arising from adverse movements in foreign exchange rates.

Credit spread risk refers to the risk to earnings or capital arising from changes in the credit risk premia of financial instruments.

Equity risk is the risk to earnings or capital arising from movements in the value of an institution's equity-related holdings.

Commodity risk is the risk to earnings or capital due to adverse changes in the value of an institution's commodity-related holdings.

Sound Market Risk Management Practices and Market Risk Management Framework

A sound market risk management system should cover the following basic elements:

- a. Active and appropriate board and senior management oversight;
- b. Adequate risk management policies and procedures;
- c. Appropriate risk measurement methodologies, limits structure, monitoring and management information systems; and
- d. Comprehensive internal controls and independent audits.

The specific manner in which a QB applies these elements in managing its market risk shall depend upon the complexity and nature of its activities, as well as the level of market risk exposure assumed. What constitutes adequate market risk management practices may therefore vary considerably.

Banking groups (banks and their subsidiaries/affiliates) should monitor and manage market risk exposures on a consolidated and comprehensive basis. At the same time, however, QBs should fully recognize any legal distinctions and possible obstacles to risk transfers among affiliates and adjust their risk management practices accordingly. While consolidation may provide a comprehensive measure in respect of market risk, it may also underestimate risk when positions in one affiliate are used to offset positions in another affiliate. This is because a conventional accounting consolidation may allow theoretical offsets between such positions from which a QB may not in practice be able to benefit

because of legal or operational constraints. The potential linkages of the QB's trading positions with other risks such as IRRBB, liquidity risk, credit risk and operational risk must be sufficiently understood. For instance, when engaging in FX trading, QBs may also be exposed to other risks such as liquidity and credit risks related to the settlement of FX contracts. An integrated approach to risk management shall ensure that the interlinkages of risks are adequately managed.

(1) Active and appropriate board and senior management oversight

Effective board and senior management oversight of a QB's market risk activities is critical to a sound market risk management process. It is important that the board and senior management are aware of their responsibilities with regard to market risk management and understand how market risk fits within the organization's overall risk management framework.

Responsibilities of the board of directors

The board of directors has the ultimate responsibility for understanding the nature and the level of market risk taken by the QB. In order to carry out its responsibilities, the board shall:

- (a) Approve business strategies for the trading book and establish the QB's appetite for market risk. There should be a clear pattern of board reviews, discussions and deliberations on the objectives, strategies and policies with respect to market risk management. In addition, there should be documentary evidence of such.
- (b) Identify senior management with the authority and responsibility for managing market risk and ensure that they take the necessary steps to monitor and control market risk, consistent with the approved strategies and policies. The Bangko Sentral should be able to discern a clear hierarchal structure with straightforward assignments of responsibility and authority.
- (c) Monitor the QB's performance and overall market risk profile, ensuring that the level of market risk is maintained within tolerance and at prudent levels, and supported by adequate capital. The board should be regularly informed of the market risk exposure of the QB and any breaches of established limits for their appropriate action. Reports should be timely and clearly presented. In assessing a QB's capital adequacy relative to market risk, the board should consider the QB's current and potential market risk exposure.
- (d) Ensure that the QB implements sound fundamental principles that facilitate the identification, measurement, monitoring and control of market risk. The board of Directors should encourage discussions among its members and senior management, as well as between senior management and others in the QB, regarding the QB's market risk exposures and management process.
- (e) Ensure that adequate technical and human resources, are devoted to market risk management. While not all board members are expected to have detailed technical knowledge of complex financial instruments, legal issues or sophisticated risk management techniques, they have the responsibility to ensure that they understand the risks that the QB is exposed to and that there are personnel who have the necessary technical skills to evaluate and control market risk. This responsibility includes ensuring that personnel responsible for the management of market risk receive continuous training and that the internal audit function has adequate competent technical staff.

Responsibilities of senior management

Senior management is responsible for ensuring that market risk is adequately managed on both a long-term and day-to-day basis. In managing the QB's activities, senior management shall:

- (a) Develop and implement policies, procedures and practices that translate the board's goals, objectives and risk tolerances into operating standards that are well understood by personnel and that are consistent with the board's intent. Senior management should also periodically review the organization's market risk management policies and procedures to ensure that they remain appropriate and sound.
- (b) Ensure adherence to the lines of authority and responsibility that the board has established for measuring, managing, and reporting market risk exposures.
- (c) Maintain an appropriate limits structure, adequate systems for measuring market risk, and standards for measuring performance.
- (d) Oversee the implementation and maintenance of management information and other systems to identify, measure, monitor, and control the QB's market risk.
- (e) Establish effective internal controls over the market risk management process.

- (f) Ensure that adequate resources are available for evaluating and controlling market risk. Senior management of QBs, including branches of foreign banks, should ensure that analysis and market risk management activities are conducted by competent staff with technical knowledge and experience consistent with the nature and scope of the QB's activities. There should be sufficient depth in staff resources to manage these activities and to accommodate the temporary absence of key personnel and the normal succession process.

In evaluating the quality of oversight, the Bangko Sentral shall evaluate how the board and senior management carry out the above functions/responsibilities. Further, sound management oversight is highly related to the quality of other areas/elements of QB's risk management system. Thus, even if board and senior management exhibit active oversight, the QB's policies, procedures, measurement methodologies, limits structure, monitoring and information systems, controls and audit must be considered adequate before the quality of the board and senior management can be considered at least "satisfactory."

Lines of responsibility and authority

QBs should clearly define the individuals and/or committees responsible for managing market risk and should ensure that there is adequate separation of duties in key elements of the risk management process to avoid potential conflicts of interest.

Management should ensure that sufficient safeguards exist to minimize the potential that individuals initiating risk-taking positions may inappropriately influence key control functions of the market risk management process. QBs should therefore have risk measurement, monitoring, and control functions with clearly defined duties that are sufficiently independent from position-taking functions of the QB and which report risk exposures directly to the board of directors.

The nature and scope of safeguards to minimize potential conflicts of interest should be in accordance with the size and structure of a QB. Larger or more complex QBs should have a designated independent unit responsible for the design and administration of the QB's market risk measurement, monitoring and control functions.

(2) Adequate risk management policies and procedures

A QB's market risk policies and procedures should be clearly defined, documented and duly approved by the board of directors. Policies and procedures should be consistent with the nature and complexity of the QB's activities. All market risk policies should be reviewed at least annually and revised as needed. Management should likewise define the specific procedures to be used for identifying, reporting and approving exceptions to policies, limits, and authorizations.

Policies and procedures should delineate lines of responsibility and accountability and should clearly define authorized instruments, hedging strategies, position-taking opportunities, and the market risk models used to quantify market risk. Market risk policies should also identify quantitative parameters that define the acceptable level of market risk for the QB. Where appropriate, limits should be further specified for certain types of instruments, portfolios, activities and business units/desks. QBs are likewise expected to implement sound policies and processes for allocating exposures between the trading and banking books.

It is important that QBs identify market risk, as well as other risks, inherent in new products and activities and ensure these are subject to adequate procedures and controls prior to introduction. Specifically, new products and activities should undergo a careful pre-acquisition review to ensure that the QB understands their market risk characteristics and can incorporate them into its risk management process. Major hedging or risk management initiatives should be approved in advance by the board or its appropriate delegated committee.

Proposals and the subsequent new product/activity review should be formal and written. For purposes of managing market risk inherent in new products/activities, proposals should, at a minimum, contain the following features:

- (a) Description of the relevant product or strategy;
- (b) Use/purpose of the new product/activity;
- (c) Identification of the resources required and unit/s responsible for establishing sound and effective market risk management of the product or activity;
- (d) Analysis of the reasonableness of the proposed products or activities in relation to the QB's overall financial condition and capital levels; and
- (e) Procedures to be used to measure, monitor, and control the risks of the proposed product or activity.

(3) Appropriate risk measurement methodologies, limits structure, monitoring, and management information system

It is essential that QBs have market risk measurement systems that capture all material sources of market risk and assess the effect of changes in market risk factors in ways that are consistent with the scope of their activities.

Depending upon the size, complexity, and nature of activities that give rise to market risk, the ability to capture all material sources of market risk in a timely manner may require a QB's market risk measurement system to be interfaced with other systems, such as the treasury system or loan system. The assumptions underlying the measurement system should be clearly understood by risk managers and senior management.

Market risk measurement systems should:

- (a) Assess all material market risk associated with a QB's assets, liabilities, and off-balance sheet positions;
- (b) Utilize generally accepted financial concepts and risk measurement techniques; and
- (c) Have well-documented assumptions and parameters.

There are a number of methods/techniques for measuring market risks. Complexity ranges from simple marking-to-market or valuation techniques to more advanced static simulations using current holdings to highly sophisticated dynamic modeling techniques that reflect potential future business activities. In designing market risk measurement systems, QBs should ensure that the degree of detail regarding the nature of their positions is commensurate with the complexity and risk inherent in those positions. For example, simple QBs should have the ability to regularly mark-to-market or revalue their investment portfolio while complex banks are expected to use more sophisticated techniques.

Regardless of the measurement system used, the Bangko Sentral will expect the QB to ensure that input data are timely and correct, assumptions are adequately supported and valid, the methodologies used produce reasonable results and the results can be easily understood by senior management and the board.

- (a) Model input. All market risk measurement methodologies require various types of inputs, including hard data, readily observable parameters such as asset prices, and both quantitatively and qualitatively-derived assumptions.

The integrity and timeliness of data is a key component of the market risk measurement process. The Bangko Sentral expects that adequate controls will be established to ensure that all material positions and cash flows from on-and off-balance sheet positions are incorporated into the measurement system on a consistent and timely basis. Inputs should be verified through a process that validates data integrity. Assumptions and inputs should be subject to control and oversight review. Any manual adjustments to underlying data should be documented, and the nature and reasons for the adjustments should also be clearly understood.

- (b) Measurement assumptions. Critical to model accuracy is the validity of underlying assumptions, particularly the parameters used in the model. For instance, the validity of correlation assumptions used to aggregate market risk exposures is important as breakdowns in correlations may significantly affect the validity of model results. Key assumptions should therefore be thoroughly documented and subjected to rigorous review prior to their implementation. Any significant changes should likewise be reviewed and approved in advance by the board of directors.
- (c) Model risk governance. The assessment of model risks related to market risk measurement models should be included in a formal policy that is reviewed and approved by the board. The policy should specify management roles and designate the personnel responsible for the development, implementation, use and oversight of models.

The Bangko Sentral expects QBs to periodically review or reassess their modeling methodologies and assumptions. The frequency of review will depend on the model, but complex models should be reviewed at least once a year, and each time changes are made or a new product or activity is introduced. Model review could also be prompted by changes in the QB or the market that should be reflected in the model. The review should be performed by a unit that is independent from the one that developed or uses the model. Revisions to models should be performed in a controlled environment by authorized personnel and changes should be made or verified by a control function. Written policies should specify when changes to models are acceptable and how those revisions should be accomplished.

There should likewise be internal policies for key processes such as initial and ongoing validation, results evaluation, approval, version control, exception management, escalation, modification and decommissioning. The model validation framework should enable the QB to evaluate the sensitivity of the model to material sources of model risk. It should incorporate the following elements: (i) the evaluation of

methodological soundness, which include tests of internal logic and mathematical accuracy and the development of empirical support for assumptions; (ii) model monitoring, which includes process verification and benchmarking; and (iii) outcome analysis involving the back-testing of key parameters.

Prior to model usage, model inputs, assumptions, methodologies and outputs, including those that were developed by third-party vendors, should be subject to independent validation. The results of the validation exercise should be presented to the board for approval. Subsequently, the model should be subject to periodic review and process verification to ensure the continuing relevance and accuracy of model output.

Backtesting should be conducted by parties independent of those developing or using the model. Policies should address the scope of the back-testing process, frequency of back-testing, documentation requirements, and management responses. Complex models should be back-tested continually while simple models can be back-tested periodically. Significant discrepancies should prompt a model review.

- (d) Stress testing.¹ The underlying statistical models used to measure market risk summarize the exposures that reflect the most probable market conditions. Regardless of size and complexity of activities, FIs are expected to supplement their market risk measurement models with stress tests. Stress tests are simulations that show how a portfolio or balance sheet might perform during extreme events or in highly volatile markets.

Stress testing should be designed to provide information on the kinds of conditions under which the QB's strategies or positions would be most vulnerable. They must therefore be tailored to the risk characteristics of the QB.

In addition, stress scenarios should include conditions under which key business assumptions and parameters break down and should take into account the risk of a significant deterioration in market liquidity. The assumptions used for stress testing illiquid instruments and instruments with uncertain contractual maturities are particularly critical to achieving an understanding of the QB's risk profile. When conducting stress tests, special consideration should be given to instruments or markets where concentrations exist. QBs should consider also "worst case" scenarios in addition to more probable events.

Further, the Bangko Sentral will expect QBs with material market risk exposure, particularly from derivatives and/or structured products, to supplement their stress testing with an analysis of their exposure to "interconnection risk." While stress testing typically considers the movement of a single market factor (e.g., interest rates), interconnection risk considers the linkages across markets (e.g., interest rates and foreign exchange rates) and across the various categories of risk (e.g., credit and liquidity risks). For example, stress from one market may transmit shocks to other markets and give rise to otherwise dormant risks, such as liquidity risk. Evaluating interconnection risk involves assessing the total or aggregate impact of singular events.

Guidelines for performing stress testing should be detailed in the risk management policy statement. Management and the board of directors should periodically review the design, major assumptions, and the results of such stress tests to ensure that appropriate contingency plans are in place.

- (e) Reporting. Reports should be provided to senior management and the board as a basis for making decisions. Report content should be clear and straightforward, indicating the purpose of the model, significant limitations, the quantitative level of risk estimated by the simulation, a comparison to board approved limits, and a qualitative discussion regarding the appropriateness of the QB's current exposures relative to earnings and capital as well as market and macroeconomic conditions. Sophisticated simulations should be used carefully so that they do not become "black boxes" producing numbers that have the appearance of precision but may not be very accurate when their specific assumptions and parameters are revealed.

Market limits structure

The QB's board of directors should set the institution's tolerance for market risk and communicate that tolerance to senior management. Based on these tolerances, senior management should establish appropriate risk limits, duly approved by the board, to maintain the QB's exposure within the set tolerances over a range of possible changes in market risk factors such as interest rates.

Limits represent the QB's actual willingness and ability to accept real losses. In setting risk limits, the board and senior management should consider the nature of the QB's strategies and activities, past performance, and management skills. Most importantly, the board and senior management should consider

¹ The provisions on stress testing should be read in conjunction with Sec. 151 of the MORB on the Guidelines on the Conduct of Stress Testing Exercises.

the level of the QB's earnings and capital and ensure that both are sufficient to absorb losses equal to the proposed limits. Limits should be approved by the board of directors. Furthermore, limits should be flexible to changes in conditions or risk tolerances and should be reviewed periodically.

A QB's limits should be consistent with its overall approach to measuring market risk. Market risk limits may include limits on net and gross positions, volume limits, stop-loss limits, value-at-risk limits and other limits that capture either notional or (un)expected loss exposures.

Depending on the nature of a QB's holdings and its general sophistication, limits can also be identified for individual business units, portfolios, instrument types, or specific instruments. The level of detail of risk limits should reflect the characteristics of the QB's holdings including the various sources of market risk the QB is exposed to.

The Bangko Sentral also expects that the limits system will ensure that positions that exceed predetermined levels receive prompt management attention. Limit exceptions should be communicated to appropriate senior management without delay, and the actions taken to resolve them should be properly documented. Policies should include how senior management will be informed and what action should be taken by management in such cases. Particularly important is whether limits are absolute in the sense that they should never be exceeded or whether, under specific circumstances, breaches of limits can be tolerated for a predetermined short period of time. The circumstances leading to a tolerance of breaches should be clearly described.

Market risk monitoring and reporting

An accurate and timely management information system is essential for managing market risk exposures. Further, an effective information system that aids in the identification, aggregation, monitoring and reporting of risk exposures both helps to inform management and supports compliance with board policy.

Reports detailing the market risk exposure of the QB should be reviewed by the board on a regular basis. While the types of reports prepared for the board and for various levels of management will vary based on the QB's market risk profile, they should be prepared regularly and at a minimum include the following:

- (a) Summaries of the QB's aggregate exposures;
 - (b) Reporting of risk measures, with clear comparisons of current exposure to policy limits and past forecasts or risk estimates with actual results, the latter to identify any modeling shortcomings;
 - (c) Summary of key assumptions;
 - (d) Results of stress tests, including those assessing breakdowns in key assumptions and parameters; and
 - (e) Summaries of the findings of reviews of market risk policies and procedures, and the adequacy of the market risk measurement systems, including any findings of internal and external auditors and/or other equivalent external parties.
- (4) Risk controls and audit¹

Adequate internal controls ensure the integrity of a QB's market risk management process. These internal controls should be an integral part of the institution's overall system of internal control and should promote effective and efficient operations, reliable financial and regulatory reporting, and compliance with relevant laws, regulations, and institutional policies.

Policies and procedures should specify the approval processes, exposure limits, reconciliations, reviews, and other control mechanisms designed to provide a reasonable assurance that the institution's market risk management objectives are achieved. Many attributes of a sound risk management process, including risk measurement, monitoring, and control functions, are actually key aspects of an effective system of internal control. QBs should ensure that all aspects of the internal control system are effective, including those aspects that are not directly part of the risk management process.

An important element of a QB's internal control system is regular evaluation and review. The Bangko Sentral expects that QBs will establish a process to ensure that its personnel are following established policies and procedures, and that its procedures are actually accomplishing their intended objectives. Such reviews and evaluations should also address any significant change that may impact the effectiveness of controls, and that appropriate follow-up action was implemented when limits were breached. Management should ensure

¹ Refer also to Secs. 162-Q and 163-Q for the frameworks on Internal Control Framework and Internal Audit, respectively.

that all such reviews and evaluations are conducted regularly by individuals who are independent of the function they are assigned to review (e.g., the internal or external auditor, or other equivalent external parties) and that the resulting reports are made available to the Bangko Sentral. When revisions or enhancements to internal controls are warranted, there should be a mechanism in place to ensure that these are implemented in a timely manner.

The internal audit function should likewise review the model risk management process as part of its annual risk assessment and audit plans. The audit activity is not intended to duplicate model risk management processes but should review the integrity and effectiveness of the risk management system and the model risk management process.

Supervisory enforcement actions. Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in these guidelines and bring about timely corrective actions. If a QB's risk exposures are not well-managed, the Bangko Sentral may direct the QB to increase its capital, reduce its trading book exposures and/or strengthen its risk management system. The Bangko Sentral may likewise issue directives to limit the level of or suspend any business activity that has adverse effects on the safety and soundness of the QB, among others. Sanctions may likewise be imposed on the QB and/or its directors, officers and/or employees.

(Circular No. 1044 dated 6 August 2019)

145-Q LIQUIDITY RISK MANAGEMENT

Policy statement. The Bangko Sentral is cognizant that the viability of financial institutions, particularly QBs, is heavily influenced by their ability to manage liquidity, including intraday liquidity positions. Opportunities to expand lending activities, continuous innovations in investment and funding products, growth in off-balance sheet activities, and intense competition for retail and wholesale funds affect the way QBs operate. Thus, QBs are expected to fully understand, measure, and control the resulting liquidity risk from their operations.

The guidelines in *Appendix Q-43* shall be used to determine the adequacy and effectiveness of a QB's liquidity risk management process. The sophistication of the liquidity risk management system shall depend on the size, nature and complexity of a QB's activities. However, regardless of its size and complexity, a QB must be able to identify, measure, monitor, and control its exposures to liquidity risk in a timely and comprehensive manner, and maintain a structurally sound funding and liquidity profile. QBs shall likewise hold liquidity in accordance with the minimum prudential requirements set by the Bangko Sentral.

Liquidity Coverage Ratio (LCR). To promote the short-term resilience of the liquidity risk profile of a QB, it shall maintain an adequate stock of unencumbered high-quality liquid assets (HQLAs) that consists of cash or assets that can be converted into cash at little or no loss of value in private markets, to meet its liquidity needs under stressed conditions. The stock of liquid assets should enable the QB to withstand significant liquidity shocks for at least thirty (30) calendar days, which would give time for corrective actions to be taken by the QB management and/or the Bangko Sentral.

The LCR framework shall apply to all UBs/KBs¹ and their subsidiary banks and QBs on both solo (head office plus branches/other offices) and consolidated (parent bank plus subsidiary financial allied undertakings, but excluding insurance companies) bases.

- a. **Minimum requirement** -The LCR is the ratio of HQLAs to total net cash outflows. Under a normal situation, the value of the ratio shall be not lower than 100% on an ongoing basis. While the LCR is expected to be met in a single currency (i.e., in peso equivalent terms of all currencies), QBs are expected to be able to meet their liquidity needs in each currency and maintain HQLA consistent with the distribution of their liquidity needs by currency. The detailed LCR framework is provided in Part I of *Appendix Q-82*.
- b. **Reporting and monitoring requirements** -Covered QBs shall comply with the minimum LCR requirement on a daily basis, and shall have appropriate systems in place to ensure the same. For reporting purposes, covered QBs shall submit a report on their LCR to the Bangko Sentral, through the Supervisory Data Center (SDC), on both solo and consolidated bases, in accordance with the following timelines:

Reporting Details	Solo Basis	Consolidated Basis
Frequency	Monthly	Quarterly
Measurement Date	End-of-month	End-of-quarter
LCR Calculation Period	30 calendar days from measurement date	
Submission Deadlines	15 banking/business days from measurement date	30 banking/business days from measurement date

¹ Including branches of foreign banks

The LCR Reports shall be accompanied by a certification under oath to the effect that the QB has fully complied with the LCR requirement on all calendar days of the reference period in the form provided under *Appendix Q-82 (Attachment 1)*. The solo and consolidated LCR Reports, together with the Sworn Certification shall be classified as *Category A-1* reports.

While there is no minimum threshold for LCRs in each significant currency, covered QBs shall report the significant currency LCR to the Bangko Sentral for monitoring purposes using the same LCR Report template as of the LCR measurement date. The significant currency LCR shall be reported in the original currency. A currency is considered “significant” if the aggregate liabilities denominated in that currency amount to five percent (5%) or more of the banks’ total liabilities as of the measurement date.

The submission of the LCR report shall be subject to the governance process on the quality of bank reporting under Sec. 171. Any non-compliance with the reporting standards, or non-submission or delayed submission of the LCR report and the report on significant currency LCRs shall be subject to the monetary and non-monetary sanctions provided under Sec. 171 fines for delayed reports under Sec. 172-Q.

- c. *Implementation* -The implementation of the minimum LCR shall be phased in to help ensure that the QBs concerned can meet the standard through reasonable measures without disrupting credit extension and financial market activities. In order to facilitate compliance, QBs shall undergo an observation period before the LCR becomes a minimum requirement. Subsidiary QBs of UBs/KBs shall be subject to an LCR floor of seventy percent (70%) during the observation period. The timelines are set out in the table below:

	Observation Period	Minimum LCR	
UBs/KBs	01 July 2016 – 31 December 2017	01 January 2018 and thereafter– 90%	Starting 01 January 2019 – 100%
Subsidiary Banks and QBs of UBs/KBs	23 February 2018 -31 December 2019 Floor of 70% -to be applied in 2019		Starting 01 January 2020 – 100%

Requirements during the observation period. For monitoring purposes, QBs concerned shall submit the LCR Reports quarterly in single currency and per significant currency, on both solo and consolidated bases following the submission deadlines for consolidated reports set out in Item “b”. Any non-submission or delayed submission of the LCR Report during the observation period shall be subject to the monetary and non-monetary sanctions provided under Sec. 171 fines for delayed reports under Sec. 172-Q.

During the observation period, the Bangko Sentral is not precluded from assessing the compliance of the QBs concerned with the LCR requirement. QBs with LCRs that are already at or near the prescribed minimum should not view the transition period as an opportunity to reduce their liquidity coverage. Where a QBs is unable to meet the minimum LCR, as applicable, in single currency on either solo or consolidated basis, as applicable, for two consecutive weeks during the observation period, the QBs shall adopt a board-approved liquidity build-up plan not later than thirty (30) calendar days from the end of the two-week period. The plan should clearly articulate the said QB’s defined strategies and timelines for meeting the required LCR, taking into account compliance with other prescribed liquidity metrics and should also include quarterly estimates of the LCR prior to 6 April 2019. The build-up plan shall be submitted to the appropriate supervising department of the Bangko Sentral, within ten (10) banking/business days from the date of board approval. The supervising department concerned will evaluate and monitor the continuing compliance of the QBs with the said plan.

In light of the extended observation period, subsidiary QBs concerned that have submitted a liquidity build-up plan in 2018 may revise the same, if they deem necessary: *Provided*, That, the revised liquidity plan shall be adopted by the concerned QB’s Board not later than thirty (30) calendar days from 6 April 2019.

In case of non-compliance, the Bangko Sentral may require the QB concerned to undertake a set of actions. The Bangko Sentral may likewise impose enforcement actions as provided under this Section (*Supervisory enforcement actions*).

LCR disclosure requirements. To improve the transparency of the regulatory liquidity requirement, enhance market discipline, and reduce uncertainty in the market, covered QBs shall publicly disclose information related to the LCR in single currency and on solo and consolidated bases as prescribed under *Part II of Appendix Q-82* starting year 2019 for UBs/KBs and year 2020 for subsidiary QBs of UBs/KBs. The mandatory disclosure requirements in single currency should be included in the quarterly published balance sheet, as well as in the annual reports or published financial reports (e.g., the audited financial statements).

Minimum Liquidity Ratio (MLR) for Stand-Alone Thrift Banks, Rural Banks, Cooperative Banks and Quasi-Banks. To promote short-term resilience to liquidity shocks, QBs shall maintain a stock of liquid assets proportionate to their on-and off-balance sheet liabilities. The prudential MLR requirement applies to all thrift banks (TBs), rural/cooperative banks (RBs and Coop Banks), and QBs that are not subsidiaries of universal or commercial banks (UBs/KBs).

- a. *Minimum requirement.* A prudential MLR of twenty percent (20%) shall apply to QBs on an ongoing basis absent a period of financial stress. The liquidity ratio is expressed as a percentage of a QB's eligible stock of liquid assets to its total qualifying liabilities.

(1) The stock of liquid assets shall consist of:

- (a) Cash on hand;
- (b) Reserves in the Bangko Sentral;
- (c) Overnight and term deposits¹ with the Bangko Sentral, including reverse repos where the Bangko Sentral is the counterparty;
- (d) Eligible debt securities representing claims on or guaranteed by–
 - (i) The Philippine national government (NG) and the Bangko Sentral; or
 - (ii) Sovereigns, central banks of foreign countries, or by multilateral organizations that are assigned a zero percent (0%) risk weight under Sec. 124-Q (*Risk-weighted assets*);
- (e) Deposits in other banks; and
- (f) Interbank loans receivable with contractual maturity dates that fall within the next thirty (30) calendar days.

Provided, That the amounts to be included in the stock of liquid assets are immediately liquefiable and free from encumbrances. The stock of liquid assets shall be based on their net carrying amounts.

(2) The qualifying liabilities shall consist of the following:

- (a) Total liabilities, where the following obligations are subject to the conversion factors set out in the table below:²

Liability	Conversion Factor
• Retail current and regular savings deposits ³ with outstanding balance per account of P500,000 and below	50%
• Deposits where the account holder has no contractual or legal discretion to withdraw said deposit or pre-terminate the account within the next thirty (30) calendar days (e.g., negotiable certificates of deposits)	0%
• Borrowings that are non-callable in, or have contractual maturity dates beyond, the next thirty (30) calendar days	0%
• Obligations arising from operational expenses	0%

Liability accounts that are not assigned conversion factors shall be included as qualifying liabilities at their full carrying amounts.

- (b) Irrevocable obligations under off-balance sheet items, such as:

- (i) Guarantees issued;
- (ii) Trade related guarantees;
- (iii) Letters of credit; and
- (iv) Other committed credit lines.

- b. *Reporting and monitoring requirements.* Covered QBs shall comply with the MLR on a daily basis, and shall have the appropriate systems in place to ensure the same. For reporting purposes, covered QBs shall submit a monthly report on their compliance with the MLR to the Bangko Sentral, through the SDC. The report shall be submitted on solo basis in peso-equivalent terms using the prescribed form within fifteen (15) business days after the end of the reference period, effective 01 January 2019.

The reports shall be accompanied by a certification under oath to the effect that the QB has fully complied with the MLR requirement on all calendar days of the reference period (Attachment 4). In cases when the MLR is not met but the same do not warrant the submission of a notification to the Bangko Sentral under Item “b” of this Section on (*Supervisory Framework for the Minimum Prudential Liquidity Requirements*), the specific date of the occurrence of the shortfall/s shall likewise be indicated in the certification. These reports shall be considered as *Category A-1 reports*.

¹ To the extent allowed to be drawn down in times of stress.

² To calculate the amount that shall be included as qualifying liabilities, the carrying amount of the liability account shall be multiplied by the corresponding conversion factor.

³ This refers to current and savings deposits raised by the bank from individual clients, including sole proprietorships and partnerships, and those classified as micro and small enterprises.

In addition, QBs shall use the MLR template to internally measure and monitor their compliance with the prudential requirement for each currency in which they have significant activities. For this purpose, a currency is considered significant if the aggregate liabilities denominated in that currency amount to five percent (5%) or more of the total liabilities as of the MLR measurement date. QBs are expected to be able to meet their liquidity needs in each currency and maintain a stock of eligible liquid assets consistent with the distribution of their liquidity needs by currency to ensure that risks arising from currency mismatch are properly mitigated.

The submission of the MLR report shall be subject to the governance process on the quality of bank reporting under Sec. 171 of the MORB. Any non-compliance with the reporting standards, or non-submission or delayed submission of the MLR report and the report on significant currency MLRs shall be subject to the monetary and non-monetary sanctions provided under Sec. 171 fines for delayed reports under Sec. 172-Q.

- c. **Implementation.** In order to facilitate compliance with the MLR, stand-alone TBs, RBs, Coop Banks, and QBs shall undergo a one-year observation period beginning 01 January 2018 until the MLR takes effect on 01 January 2019.

Requirements during the observation period. During this period, QBs shall submit the MLR report quarterly on a solo basis to the appropriate supervising department of the Bangko Sentral. Each quarterly submission shall consist of the MLR reports for each month-end within a reference quarter. The report shall be submitted within thirty (30) banking/business days after the end of each reference quarter. For example, a QB's submission for the reference period covering 01 January to 31 March 2018 shall consist of the MLR on solo basis as of end-January, end-February and end-March. The report shall be submitted within thirty (30) banking/business days after end-March 2018.

The Bangko Sentral is not precluded from assessing a QB's compliance with the MLR during the observation period. QBs with liquidity ratios that are already at or near the prescribed minimum should not view the transition period as an opportunity to reduce their liquidity coverage. Where a QB is unable to meet the MLR for two consecutive weeks during the observation period, the QB shall immediately adopt a board-approved liquidity build-up plan. The plan should clearly articulate the QB's defined strategies and timelines for meeting the required MLR by 01 January 2019, and should include estimates of the liquidity ratio at every quarter prior to 1 March 2018. The build-up plan shall be submitted to the Bangko Sentral, through the appropriate supervising department of the Bangko Sentral, within ten (10) banking/business days after it is approved by the board. The appropriate supervising department of the Bangko Sentral concerned will evaluate the continuing compliance of the QB with the said plan. In case of non-compliance, the Bangko Sentral may require the covered QB to undertake a set of actions. The Bangko Sentral may likewise impose enforcement actions as provided under this Section.

Disclosure requirements. A QB shall disclose its MLR on a solo basis in its annual report or audited financial statement (AFS), as well as in the quarterly Published Balance Sheet (PBS) starting year 2019.

Net Stable Funding Ratio (NSFR). To promote long-term resilience of a quasi-bank (QB) against liquidity risk, it shall maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. The Net Stable Funding Ratio (NSFR) seeks to meet this objective by limiting overreliance on short-term wholesale funding and promoting enhanced assessment of funding risk across all on-and off-balance sheet accounts. The NSFR complements the Liquidity Coverage Ratio (LCR), which promotes short term resilience of a QB's liquidity profile.

The NSFR framework shall apply to all universal and commercial banks (UBs/KBs) and their subsidiary banks and QBs, hereinafter referred to as "covered QBs", on both solo (head office plus branches) and consolidated (parent bank plus subsidiary financial allied undertakings, but excluding insurance companies) bases.

- a. **Minimum requirement.** The NSFR is the ratio of a covered QB's available stable funding (ASF) to its required stable funding (RSF), as shown below:

$$\begin{array}{rcl} \text{Basel III Net Stable} & & \text{Available stable funding (ASF)} \\ & & = \frac{\text{}}{\text{}} \\ \text{Funding Ratio (\%)} & & \text{Required stable funding (RSF)} \end{array}$$

The covered bank/QB shall maintain an NSFR of at least 100.0 percent (100%) at all times.

The NSFR shall be computed and reported in a single currency, i.e., in peso equivalent terms of all currencies. Notwithstanding this requirement, a covered QB shall internally measure and monitor NSFR per significant currency. A currency is considered *significant* if the aggregate liabilities denominated in that currency amount to five percent (5%) or more of the covered QBs' total liabilities as of NSFR measurement date. The guidelines implementing the NSFR are provided in *Appendix Q-85 (Attachment 1)*.

- b. **Reporting and monitoring requirements.** Covered banks/QBs shall comply with the minimum NSFR on a daily basis, and shall have appropriate systems in place to ensure the same. For reporting purposes, the covered QBs shall submit a report of their NSFR (*Attachment 2*) to the appropriate supervising department of the Bangko Sentral, on both solo and consolidated bases, in accordance with the following timelines:

Reporting Details	Solo Basis	Consolidated Basis
Frequency	Monthly	Quarterly
Measurement Date	End-of-month	End-of-quarter
NSFR Calculation Period	One (1) year from measurement date	
Submission Deadlines	15 banking/business days from measurement date	30 banking/business days from measurement date

The NSFR reports shall be accompanied by a certification under oath to the effect that a covered QB has fully complied with the NSFR requirement on all calendar days of the reference period in the form provided under Appendix Q-86. This requirement shall take effect on 01 January 2019 for UBs/KBs and on 01 January 2020 for subsidiary QBs. The solo and consolidated NSFR reports, together with the Sworn Certification, shall be classified as *Category A-1* reports.

The submission of the NSFR report shall be subject to the governance process on the quality of bank reporting under Sec. 171 of the MORB. Any non-compliance with the reporting standards, or non-submission or delayed submission of the NSFR report shall be subject to the monetary and non-monetary sanctions provided under Sec. 171 of the MORB/fines for delayed reports under Sec. 172-Q.

- c. *Implementation.* The implementation of the minimum NSFR shall be phased in to help ensure that the covered QBs can meet the standard through reasonable measures without disrupting credit extension and financial market activities. In order to facilitate compliance, covered QBs shall undergo an observation period before the NSFR becomes a minimum requirement. Subsidiary QBs of UBs/KBs shall be subject to an NSFR floor of seventy percent (70%) during the observation period. The timelines are set out in the table below:

	Observation Period	Minimum NSFR
UBs/KBs	01 July 2018 – 31 December 2018	Starting 01 January 2019 – 100%
Subsidiary QBs of UBs/KBs	01 July 2018 – 31 December 2019 Floor of 70% to be applied in 2019	Starting 01 January 2020 – 100%

Requirements during the observation period. Consistent with the expectations set out on the governance process for an effective reporting system, the Board and Senior Management shall ensure the generation of complete, accurate, consistent, and reliable reports that are timely submitted to the Bangko Sentral. For monitoring purposes, covered QBs shall submit the solo and consolidated NSFR Reports in accordance with the following timelines:

	Reporting Details
Frequency	Quarterly
Measurement Date	End-of-quarter
Submission Deadlines	30 banking/business days from measurement date

Any non-submission or delayed submission of the NSFR Reports during the observation period shall be subject to monetary and non-monetary sanctions provided under Sec. 171 of the MORB/fines for delayed reports under Sec. 172-Q.

During the observation period, the Bangko Sentral is not precluded from assessing the covered QB's compliance with the NSFR requirement. The covered QBs with NSFRs that are already at or near the prescribed minimum should not view the transition period as an opportunity to reduce their stable funding profile. Where a covered QB is unable to meet the minimum NSFR in single currency on either solo or consolidated basis, as applicable, for two (2) consecutive weeks during the observation period, the covered QB shall adopt a board-approved stable funding build-up plan within thirty (30) calendar days from the end of the two-week period. The plan should clearly articulate the covered QB's defined strategies and timelines for meeting the required NSFR, taking into account compliance with other prescribed liquidity metrics. The plan should also include quarterly estimates of the NSFR prior to 6 April 2019 and shall be submitted to the appropriate supervising department of the Bangko Sentral, within ten (10) banking/business days from the date of board approval. The supervising department concerned will evaluate and monitor the continuing compliance of the QB with the said plan.

In light of the extended observation period, subsidiary QBs concerned that have submitted a stable funding plan in 2018 may revise the same, if they deem necessary: *Provided*, That, the revised stable funding build-up plan shall be adopted by the concerned QB's Board not later than thirty (30) calendar days from 6 April 2019.

In case of non-submission of, or non-compliance with, the said build-up plan, the Bangko Sentral may require the covered QB to undertake a set of actions. The Bangko Sentral may likewise impose enforcement actions as provided under this Section (*Supervisory enforcement actions*).

Supervisory Framework for the Minimum Prudential Liquidity Requirements

a. General Provisions

- (1) While the minimum prudential liquidity requirements establish common parameters for stress testing, they should be viewed as minimum supervisory requirements. Covered QBs are expected to conduct their own stress tests in accordance with Part IX of *Appendix Q-43* as part of their liquidity risk management process in order to identify the risk drivers that may lead to drastic fluctuations in their liquidity positions. Accordingly, QBs should be able to assess the level of liquidity they should hold, which could possibly go beyond the regulatory minimum.

Where the Bangko Sentral is not satisfied with the adequacy of a QB's liquidity management framework or where it has particular concerns about a QB's liquidity exposures, it may require the QB to comply with a higher liquidity requirement.

- (2) It shall be the responsibility of the board of directors and senior management, or the equivalent governing bodies in the case of foreign bank branches, to institute a system that would ensure compliance with the minimum liquidity requirements, the accuracy of their calculations, and the integrity of the related monitoring and reporting system. It is likewise the responsibility of senior management to report shortfalls in the minimum liquidity requirements both to their board of directors immediately and to the Bangko Sentral within the prescribed timelines.
- (3) As the stock of liquid assets is intended to serve as a defense against the potential onset of liquidity stress, QBs are allowed to use their stock of liquid assets as necessary during a period of financial stress in order to meet unforeseen liquidity needs, thereby causing the LCR to temporarily fall below the minimum requirement or the MLR to be breached. This may also alter the stable funding profile of QBs and result in non-compliance with the required NSFR.

Under this condition, the Bangko Sentral will assess the situation to determine the extent to which the reported decline in the LCR or NSFR/non-compliance with the MLR is due to a QB-specific or market-wide shock and will accordingly provide the supervisory response necessary to address the circumstances. The action of the Bangko Sentral shall be proportionate to the drivers, magnitude, duration and frequency of the reported liquidity deficit.

In all cases, the Bangko Sentral will be cognizant of the procyclicality of supervisory actions if applied in circumstances of market-wide stress. Likewise, the Bangko Sentral will consider the potential for contagion to the financial system and the additional restricted flow of credit or reduced market liquidity due to actions to maintain a minimum LCR, NSFR, or the MLR. Overall, the supervisory response will be based on a forward-looking assessment of macroeconomic and financial conditions of the financial system as a whole.

b. Liquidity ratios below the minimum

- (1) In the event that a shortfall in the stock of HQLA/eligible liquid assets/available stable funding occurs on three (3) banking/business days within any two-week rolling calendar period, thereby causing the LCR or NSFR to fall below the minimum threshold/the MLR to be breached on such days, the QB must notify the Bangko Sentral, through the appropriate supervising department, of such non-compliance within the banking/business day immediately following the occurrence of the third liquidity/stable funding shortfall, notwithstanding the restoration of the LCR or NSFR/compliance with the MLR on the day that the shortfall must be reported.

The shortfall notice shall be signed by the QB President or officer of equivalent rank, and by the officer charged with managing the liquidity of the QB. It shall contain the following minimum information:

- (a) The dates the shortfalls occurred;
- (b) The reason/s or factor/s leading to the utilization of the stock of liquid assets and non-compliance with the minimum requirement;
- (c) The action/s the QB has taken and/or will take to achieve full compliance with the minimum requirement;
- (d) The expected duration and possible extent of the shortfall (although this may no longer be applicable if the LCR has been restored/MLR has been met); and
- (e) A commitment to submit its LCR/MLR/NSFR Report weekly until the QB is able to comply with the required LCR/MLR/NSFR.

A shortfall will not necessarily result in supervisory or enforcement action; at a minimum, it will entail heightened supervisory monitoring. The shortfall notice, together with the information gathered from the latest report of examination, regular prudential reports, available market information, and, if available, the internal management reports of the QB, will serve as the basis of the Bangko Sentral in making an assessment of the extent of the liquidity deficit. The Bangko Sentral will also assess whether the non-compliance with the minimum requirement is temporary, part of a regular pattern or practice, or caused by an unusual event.

- (2) The Bangko Sentral will require effective and timely remedial action from the QB to address the deficiency in its liquidity position within a committed timeline under the following circumstances:
- (a) The liquidity requirement is not met for a prolonged period of time or if the Bangko Sentral has determined that the QB is otherwise materially non-compliant with the minimum LCR, NSFR, or MLR; or
 - (b) The reported shortfall is caused by a firm-specific stress situation, i.e., based on operational issues of the QB which are part of an outstanding supervisory concern (such as imprudent management of liquidity consisting of material and/or persistent breaches of liquidity policies and limits, large funding mismatches and/or concentrations, undue reliance on high cost funds).

Subject to the approval of the Monetary Board, QBs may continue to have access to the credit and liquidity facilities of the Bangko Sentral during the period that the liquidity requirement is being restored notwithstanding non-compliance with standard conditions of access to such facilities that pertain to a QB's liquidity position.

Report on Intraday Liquidity¹. In accordance with Section V of the Guidelines on Intraday Liquidity Risk Management in *Appendix Q-43* which expects QBs with large volume of daily payments and settlements to effectively manage their intraday liquidity positions and risks, all UBs/KBs and their subsidiary TBs/QBs shall submit the Report on Intraday Liquidity on solo basis. The report is designed to measure and monitor the different aspects of a QB's intraday liquidity position.

Supervisory enforcement actions. Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence to the requirements set forth in these guidelines and bring about timely corrective actions. If a QB's risk exposures are not well managed, the Bangko Sentral may direct the QB to augment its funds management practices and the level of its liquid assets, reduce its liquidity risk exposures, and/or strengthen its risk management system. The Bangko Sentral may likewise impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety or soundness of the QB, among others. Sanctions may likewise be imposed on a QB and/or its directors, officers and/or employees.

The Bangko Sentral reserves the right, upon authority of the Deputy Governor, FSS, to require the submission of reports and information prescribed under Item "b" of this Section on Liquidity Coverage Ratio (LCR), *Minimum Liquidity Ratio (MLR) for Stand-Alone Thrift Banks, Rural Banks, Cooperative Banks and Quasi-Banks* outside the regular reporting periods, and to conduct on-site inspections outside of regular or special examinations, for the purpose of ascertaining the accuracy of calculations of the minimum liquidity requirement/s as well as the integrity of the related monitoring and reporting systems.

If a QB experiences a shortfall in respect of its minimum prudential liquidity requirement and fails to restore its liquidity position within the committed timeline, the Bangko Sentral may deploy more stringent enforcement actions. In cases where a QB's liquidity problem is deemed to be exceptionally serious from the outset, or when the QB refuses to restore the required liquidity position, the Bangko Sentral may employ more drastic measures based on existing laws, rules and regulations.

(Circular Nos. 1064 dated 03 December 2019, 1035 and 1034 dated 15 March 2019, 1007 dated 6 June 2018, 996 dated 8 February 2018, and 981 dated 3 November 2017)

146-Q OPERATIONAL RISK MANAGEMENT

Policy statement.² It is the thrust of the Bangko Sentral to promote the adoption of effective risk management systems to sustain the safe and sound operations of its QBs. Cognizant that operational risk is inherent in all activities, products and services, and is closely tied in with other types of risks (e.g., credit, liquidity and market risks), the Bangko Sentral is issuing these guidelines to clearly set out its expectations and define the minimum prudential requirements on operational risk management. These guidelines align existing regulations to the extent possible, with international standards³ and best practices. Bangko Sentral expects its QBs to adopt an operational risk management framework, as part of the enterprise-wide risk management system, that is suited to their size, complexity of operations, and risk profile.

¹ Submission of reports shall commence one (1) year and six (6) months from 24 December 2019.

² QBs shall comply with the foregoing standards on operational risk management within a period of two (2) years from 05 February 2016. In this regard, a QB should be able to show its plan of actions with specific timelines, as well as the status of initiatives being undertaken to fully comply with the provisions of Sec. 146-Q.

³ Embodied in the relevant documents issued by the Basel Committee on Banking Supervision.

Definition of operational risk. Operational risk refers to the risk of loss resulting from inadequate or failed internal processes, people and systems; or from external events. This definition includes legal risk, but excludes strategic and reputational risks. Operational risk is inherent in all activities, products and services, and cuts across multiple activities and business lines within the financial institution and across the different entities in a banking group or conglomerate where the financial institution belongs.

Duties and responsibilities.

- a. **Board of directors.** Consistent with the principles embodied under Sec. 132-Q on the duties and responsibilities of the board of directors in relation to the effective management of risk include the establishment of a comprehensive and effective operational risk management framework as part of the enterprise-wide risk management system. In this regard, the board of directors shall:
- (1) Ensure that it is aware of and understands the nature and complexity of the major operational risks in the QB's business and operating environment, including risks arising from transactions or relationships with third parties, vendors, suppliers including outsourced service providers, and clients of services provided. This should include understanding of both the financial and non-financial impact of operational risk to which the QB is exposed to;
 - (2) Approve the operational risk management framework which shall form part of the QB's enterprise-wide risk management system and shall cover all business lines and functions of the QB, including outsourced services and services provided to external parties. The operational risk management framework should include an enterprise-wide definition of operational risk, which should be consistent with the definition under this Section, governance, and reporting structures including the roles and responsibilities of all personnel, feedback mechanism, as well as standards and tools for operational risk management. In this respect, the board shall:
 - (a) Define the operational risk management strategy and ensure that it is aligned with the QB's overall business objectives. Relative to this, the board should set and provide clear guidance on the QB's operational risk appetite (i.e., the level of operational risk the QB is willing to take and able to manage in pursuit of its business objectives as well as the type of risks that are not acceptable to the board and management), which should consider all material risk exposures as well as the QB's financial condition and strategic direction;
 - (b) Approve appropriate thresholds or limits to ensure that the level of operational risk is maintained within tolerance and at prudent levels and supported by adequate capital. Relative to this, the board shall approve policy on resolving limit breaches which should cover escalation procedures for approving or investigating breaches, approving authorities, and requirements in reporting to the appropriate level of management or the board;
 - (c) Ensure that operational risk is appropriately considered in the capital adequacy assessment process;
 - (d) Ensure that it receives adequate information on material developments in the operational risk profile of the QB, including pertinent information on the current and emerging operational risk exposures and vulnerabilities as well as information on the effectiveness of the operational risk management framework. The board must challenge the quality and comprehensiveness of the operational risk information it receives. It should also be satisfied with the reliability of the said information and the monitoring system for operational risk;
 - (e) Ensure that business objectives, risk appetite, the operational risk management framework, and the respective roles and responsibilities of personnel and officers at all levels in terms of implementing the operational risk management framework, are properly disseminated, clearly communicated/discussed, and understood by personnel concerned;
 - (f) Provide senior management with clear guidance and direction regarding the principles underlying the operational risk management framework. The board shall ensure that senior management appropriately implements policies, processes and procedures, and provides feedback on the operational risk management process. In this regard, the board shall establish a feedback and reporting system that will allow employees to raise their concerns without fear of negative consequences; and
 - (g) Ensure that the operational risk management framework is subject to effective and comprehensive independent review, on a periodic basis, by operationally independent, appropriately trained, and competent staff to ensure that it remains commensurate with the QB's risk profile and continues to be adequate and effective in managing operational risk. The review should take into account the changes in business and operating environment, material changes in systems, business activity or volume of transactions, quality of control environment, effectiveness of risk management or mitigation strategies, loss experience, and the frequency, volume or nature of breaches in limits or any policy.

- (3) Provide adequate oversight on all outsourcing activities and ensure effective management of risks arising from these activities. In this regard, the board of directors shall approve a framework governing outsourcing activities, which includes a system to evaluate the risk and materiality of all existing and prospective outsourcing engagements and the policies that apply to such arrangements;
- (4) Ensure observance of expectations and requirements prescribed under relevant laws, rules and regulations, industry set standards, and policies on internal control, internal audit, and disclosure;
- (5) Promote a culture of high standards of ethical behavior. The board shall adopt a code of conduct of ethical behaviors with corresponding disciplinary actions for noncompliance, which should cover, among others, guidance and protocols on conflicts of interest situations, safeguarding of confidential information, and use of sensitive information. The board should likewise institute tools, methodologies, and practices in order to ensure compliance and adherence to the standards by all employees including the senior officers and the board itself. In this regard, employees should be required to acknowledge in writing that they have read, understood, and will observe the code of conduct;
- (6) Ensure that business and risk management activities, including the operational risk management function, are carried out by adequate and qualified staff with the necessary experience, technical capabilities, and competence. Moreover, the board shall ensure that employees and officers in all areas of operations have a high degree of integrity.

For this purpose, the board shall approve appropriate hiring and selection policies and processes, adopt a continuing professional development program, and institutionalize a framework for continuing assessment of fitness and propriety of employees. These policies, processes and programs should reinforce the conduct and values being promoted in the organization.

Further, the board shall oversee the design and implementation of remuneration policies. It shall ensure that the remuneration policies do not encourage excessive risk-taking or provide incentives to people to perform contrary to the desired risk management values. It shall also ensure that remuneration policies are appropriate and aligned with the QB's long-term strategic direction and risk appetite, as well as with relevant legal or regulatory requirements;

- (7) Ensure that all units in the organization have adequate resources, including personnel complement, and are supported by appropriate technological systems. The use of technological systems must be commensurate with the activities being undertaken; and
 - (8) Oversee implementation of a sound business continuity management framework. The board should create and promote an organizational culture that places high priority on business continuity. This shall include providing sufficient financial and human resources associated with the QB's business continuity initiatives.
- b. *Senior management.* Senior management shall be responsible for the implementation and consistent adherence by all personnel to the operational risk management framework approved by the board of directors. In this respect, senior management shall:
- (1) Translate the approved operational risk management framework into specific policies and processes covering all businesses and functions of the QB, including outsourced services and services provided to external parties. Said policies should be clearly documented, approved by the board of directors and communicated to personnel at all levels. Policies should include, among others:
 - (a) Definition of operational risk and operational risk loss. This should be supported by common operational risk taxonomy that includes the operational risk event type and causes of losses to facilitate the consistent identification of operational risks across the QB as well as the management of operational risk in an integrated manner;
 - (b) Appropriate governance and oversight structures, reporting lines, and accountabilities for managing operational risks;
 - (c) Clear description of risk limits and thresholds that correspond to the QB's approved operational risk appetite and tolerance;
 - (d) Risk mitigation strategies and tools for maintaining risks within the thresholds and limits set;
 - (e) Approach to operational risk identification, assessment, monitoring and reporting that utilizes appropriate operational risk management tools. This should include an outline of the reporting framework and types of data/information to be included in the risk management reports; and

- (f) Requirement for the conduct of independent review of the framework as well as its implementation, on a periodic basis, and whenever there are material changes in the QB's operational risk profile.
- (2) Communicate individual roles and responsibilities of personnel. It is important that personnel at all levels understand their respective roles in the operational risk management process. In this regard, senior management should clearly assign authority, responsibility, and reporting relationships to encourage and maintain accountability, and ensure that the necessary resources are available to manage operational risk effectively;
- (3) Establish systems to report, track, escalate, and resolve issues; and set the frequency of operational risk management reporting considering the level and type of risks involved as well as the pace and nature of the operating environment of the QB;
- (4) Assess the appropriateness of the operational risk management process in light of the changing business environment and nature of risks arising from business activities or functions;
- (5) Ensure that sufficient number of personnel, technical support, and other resources are devoted for operational risk management such that the QB's activities are conducted by qualified personnel with the necessary experience and technical capabilities. It shall also ensure that personnel responsible for monitoring and enforcing compliance with the QB's operational risk policy as well as the Compliance and Internal Audit units have authority independent from the units they review and are knowledgeable about the different areas of operations; and
- (6) Establish policies, standards and processes for an effective business continuity management.
- c. *Business units.* Business line management and personnel, as the first line of defense, are responsible on a day-to-day basis for identifying, managing and reporting operational risks inherent in the products, activities, processes and systems for which they are accountable. In this regard, business line management shall ensure that:
 - (1) Internal controls and practices within their business lines are consistent with the enterprise-wide policies and procedures to support the management of operational risk;
 - (2) Business line specific policies, processes, and procedures are adequate and effectively implemented, and personnel are adequate and competent to manage operational risk for all material products, activities, and processes;
 - (3) Operational risk management framework within each business line reflects the scope of that business line and its inherent operational complexity and operational risk profile;
 - (4) Risk mitigation strategies and processes as approved by the board and senior management are established and executed;
 - (5) Internal controls, and operational risk mitigation strategies and processes are periodically reviewed within the business units to effectively manage operational risks within approved risk tolerance, and consistent with enterprise-wide policies and procedures established. There must be clear expectations and processes established to ensure prompt escalation and actions to address any gap or issue identified; and
 - (6) Operational risk-related information (e.g., loss events, incidents, et al.) are adequately and timely communicated/coordinated to Operational Risk Management Function (ORMF) for risk monitoring and reporting, in addition to the usual reporting to senior management and/or board.

Roles and functions.

- a. *Operational risk management function.* QBs are not required to create an ORMF. However, the board of directors is expected to discuss operational risk issues during its board meetings with discussions adequately documented in the minutes of meetings. The board of directors of QBs may, at its own discretion, or as directed by the appropriate supervising department of the Bangko Sentral, create a Risk Management Unit (RMU) or assign specific personnel under said unit to handle operational risk concerns. The specific personnel or RMU shall directly report to the head of the RMU or to the board-level Risk Oversight Committee (ROC), as appropriate. The ROC or the board shall be responsible for assessing the annual performance of the unit taking into account how said unit carried out its duties and responsibilities. The ORMF shall be supported by a board-approved charter that defines its stature, authority, and independence.

The ORMF shall primarily assist management in meeting its responsibility to understand and manage operational risk exposures and ensure the development and consistent implementation of operational risk policies, processes, and procedures throughout the institution. In this regard, the ORMF shall:

- (1) Recommend to the board of directors and senior management appropriate policies and procedures relating to operational risk management and controls;
- (2) Design and implement the operational risk assessment methodology tools and risk reporting system of the institution;
- (3) Coordinate risk management activities across the institution;
- (4) Consolidate all relevant operational risk information/reports to be elevated/presented to the board and senior management;
- (5) Provide operational risk management training and advice to business units on operational risk management issues; and
- (6) Coordinate with compliance function, internal audit, and external audit on operational risk matters.

ORMF personnel should have technical proficiency, appropriate educational background, and exposure to enable them to effectively perform the unit's mandate. QBs shall have in place a training program to keep its personnel up-to-date on different operational risk issues and challenges.

- b. *Compliance function.* The compliance function shall conduct an independent assessment of the compliance with relevant laws, rules and regulations, as well as internal policies of the institution, and determine areas that may potentially result in risk of loss due to inadequate or failed internal processes, systems, and people. The latter includes inappropriate conduct/behavior of personnel, officers, and the board, that may lead to fraud or any form of business disruption. The compliance function shall assess whether the identified operational risk exposure by the business units or by the function itself shall affect the franchise value of the institution. In this regard, it shall advise and assist management in establishing guidance on the appropriate implementation of relevant laws, rules and regulations, and internal policies.
- c. *Internal audit.* Internal audit shall conduct an independent assessment of the operational risk management framework, including the implementation of operational risk management policies and procedures. The board of directors, either directly or indirectly through the board-level Audit Committee shall ensure that the scope and frequency of audit is appropriate to the risk exposures. Any operational risk issue identified and reported in the audit process should be addressed by senior management in a timely and effective manner, or raised to the attention of the board as appropriate.

Operational risk management framework. QBs shall have in place an appropriate operational risk management framework, as part of the enterprise-wide risk management system, that is effective and efficient in identifying, assessing, monitoring and controlling/mitigating operational risk. They shall ensure that their operational risk management framework is commensurate with the complexity of their operations, range of products and services, organizational structure, and risk profile.

- a. *Risk identification and assessment.* Risk identification and assessment are fundamental elements of an effective operational risk management system. Effective risk identification shall consider both internal factors (such as QB structure, nature of activities, the quality of human resources, organizational changes and employee turnover, among others) and external factors (such as changes in the broader environment and the industry, advances in technology, and developments in political, legal, and economic factors, among others). Risk identification and assessment allow the QB to better understand its risk profile and allocate risk management resources and strategies more effectively. Since the business lines are expected to have the best knowledge of their risk exposures and processes, these units should play a major role in the identification and assessment of operational risk.
- (1) QBs shall consider the following loss event-type categories as part of their risk identification and assessment processes:
 - (a) Internal fraud, e.g., intentional misreporting of positions, employee theft, and insider trading on an employee's own account;
 - (b) External fraud, e.g., robbery, forgery, check kiting, and damage from computer hacking;
 - (c) Employment practices and workplace safety, e.g., workers compensation claims, violation of health and safety rules, organized labor activities, discrimination claims, and general liability;
 - (d) Clients, products and business practices, e.g., fiduciary breaches, misuse of confidential customer information, improper trading activities on the QB's account, money laundering, and sale of unauthorized products;
 - (e) Damage to physical assets, e.g., terrorism, vandalism, earthquakes, fires and floods;
 - (f) Business disruption and system failures, e.g., hardware and software failures, telecommunication problems, and utility outages; and

- (g) Execution, delivery, and process management, e.g., data entry errors, collateral management failures, incomplete legal documentation, unapproved access given to client accounts, non-client counterparty misperformance, and vendor disputes.
- (2) QBs shall adopt tools and mechanisms that are appropriate to their size, complexity of operations and risk profile to properly identify and assess operational risk. The tools that may be used for identifying and assessing operational risk may include, but not limited to:
- (a) *Results of internal/external audit and supervisory issues raised in the Bangko Sentral Report of Examination (ROE)* – Internal audit surfaces issues on effectiveness of internal control, risk management, and governance systems and processes of an organization, while external audit focuses on control weaknesses and susceptibility of the QB to material misstatements in the financial statements. On the other hand, the Bangko Sentral ROE highlights deficiencies in the risk management systems and governance processes as well as issues on compliance with relevant laws, rules and regulations, which could have adverse effects on the safety and soundness of the QB;
 - (b) *Internal loss data collection and analysis* – Internal operational loss data provides meaningful information for assessing QB's exposure to operational risk and the effectiveness of internal controls. Analysis of loss events can provide insights into the causes of large losses and information on whether control failures are isolated or pervasive. QBs may consider mapping internal loss data to the following business lines:
 - (i) Corporate finance;
 - (ii) Trading and sales;
 - (iii) Retail banking;
 - (iv) Commercial banking;
 - (v) Payment and settlement;
 - (vi) Agency services;
 - (vii) Asset management; and
 - (viii) Retail brokerage.

Loss events linked to credit and market risks may also relate to operational issues and should be segmented in order to obtain a more comprehensive view of the QB's operational risk exposure;

- (c) *Risk Self Assessments (RSA)/Risk Control Self Assessments (RCSA)* – RSA is a tool to assess processes underlying QBs operations against a library of potential threats and vulnerabilities including their potential impact. A similar approach, RCSA, typically evaluates inherent risk (the risk before controls are considered), the effectiveness of the control environment, and residual risk (the risk exposure after controls are considered). Scorecards on RCSAs may be developed by allocating weights to residual risks to provide a means of translating the RCSA output into metrics that will give a relative ranking of the control environment;
- (d) *Business process mappings* – These helps identify key steps in business processes, activities, and organizational functions as well as the key risk points in the QB's overall business process. Process maps can reveal individual risks, risk interdependencies, and areas of control or risk management weakness. They can also help prioritize subsequent management action;
- (e) *Risk and performance indicators* – Risk and performance indicators, such as Key Risk Indicators (KRIs) and Key Performance Indicators (KPIs), provide an insight into a QB's emerging risk exposure. KRIs are used to monitor the main drivers of exposure associated with key risks that contribute to early detection of heightened risk, ongoing monitoring of their movements, and preemptive reactions as necessary. KPIs, on the other hand, provide insight into the status of operational processes, which may in turn provide insights into operational weaknesses, failures, and potential loss. Risk and performance indicators are often used with escalation triggers to warn when risk levels approach or exceed acceptable ranges and prompt mitigation plans;
- (f) *Scenario analysis* – This refers to the process of obtaining expert opinion of business line and risk managers to identify potential operational risk events and assess the potential outcome. Scenario analysis is an effective tool when considering potential sources of significant operational risk and the need for additional risk management controls or mitigation solutions. Given the subjectivity of the scenario process, a robust governance framework is essential to ensure the integrity and consistency of the process;
- (g) *Model measurement* – Larger QBs may deem it useful to quantify their operational risk exposures by using the output of the risk assessment tools as inputs into a model that estimates operational risk exposure. The results of the model can be used in an economic capital process and can be allocated to business lines to link risk and return; and

- (h) *Comparative analysis* – Comparative analysis consists of comparing the results of the various assessment tools to provide a more comprehensive view of the QB's operational risk profile.

Comparison of external loss data, if available, such as industry experiences, visà-vis QB's internal loss data can also be made to explore possible weaknesses in the QB's control environment and enable it to consider previously unidentified risk exposures.

In choosing among these tools, each QB must carefully consider what is proportionate to its size, risk profile, and complexity of operations. Data/information gathered from these tools should enable QBs to make a thorough causal analysis, identify control gaps, and consequently adopt appropriate corrective actions. QBs are expected to adopt at the minimum, the (i) results of internal/external audit and supervisory issues raised in the Bangko Sentral ROE and (ii) internal loss data collection and analysis.

- (3) QBs shall develop databases to accumulate at least a five (5)-year history of operational risk losses which can be fed back into the operational risk management process. Apart from capturing events that resulted to actual loss, QBs shall also gather potential loss or near-misses¹. Said database of loss events provides basis for analysis which can help direct corrective action to improve the control environment, as well as determine risk mitigating actions. QBs should assess the depth of its data collection which is vital in understanding the risk environment. The loss event database shall at a minimum disclose the following:
- (a) Short description of the event;
 - (b) Loss event type category;
 - (c) Department/Unit/Branch sustaining the loss;
 - (d) Business line classification;
 - (e) Date of occurrence;
 - (f) Date of discovery;
 - (g) Date of booking of actual losses;
 - (h) Actual loss amount or potential loss amount, if a near-miss event;
 - (i) Amount recovered and date of recovery;
 - (j) Causes of the event (e.g., control weaknesses identified)
 - (k) Consequence of the loss event (e.g., market loss, fees paid to a counterparty, a lawsuit or damage to the QB's reputation); and
 - (l) Action(s) taken.

QBs shall define appropriate thresholds for internal loss data collection and must be able to justify the same. Thresholds should be reasonable and should not omit any operational loss event data that is material for operational risk exposure and for effective risk management. QBs shall ensure that the choice of threshold should not adversely impact the credibility and accuracy of operational risk measurement.

- (4) QBs shall determine based on the results of the risk assessment process whether the risks are within the scope of its operational risk management strategy and policies. It shall identify the risk exposures that are unacceptable or are outside its risk appetite and/or risk management capacity, and design and prioritize appropriate risk mitigation and corrective actions with clear accountabilities, roles and responsibilities for implementation within reasonable timelines.
- (5) QBs shall continually assess its operational risk exposures in order to gain broader recognition and understanding of their effects. It shall consider the following factors in the assessment:
- (a) Expected and unexpected changes to the QB's operating environment;
 - (b) Actual operational loss events that could have resulted in substantial losses/damage but were avoided (e.g., near misses) or recovered;
 - (c) Reported external operational losses and incidents which have damaged investor confidence and caused serious reputational harm;
 - (d) Areas of concern or unusual volumes or high number of exceptions; and
 - (e) Results of internal assessment of risks and controls.
- (6) QBs shall ensure that their risk management and control infrastructure keep pace with the growth of or changes in their business activities, i.e., when they engage in any new activity; introduce a new product; enter new or unfamiliar markets; implement new business processes or technology systems; establish subsidiaries/branches that are geographically remote from the head office; and/or embark on an aggressive growth strategy by acquiring problem QBs to rapidly increase branch network during a short period of time. QBs should have relevant policies and procedures that address the process for review and approval of new products, activities, processes and systems. The review and approval process shall consider the following:

¹ *Potential loss* is an initial estimate of the loss that the QB may have sustained at the time of discovery of the event. *Near miss* is an adverse operational risk event which was not prevented by internal controls but did not result in an actual adverse impact (financial or reputational) due to chance, recovery or other external factors.

- (a) Inherent risks in the new product, service, or activity;
 - (b) Changes to the QB's operational risk profile, appetite and tolerance, including the impact on existing products or activities;
 - (c) Necessary controls, risk management processes, and risk mitigation strategies;
 - (d) Any residual risk; and
 - (e) Procedures and metrics to measure, monitor, and manage the risk of the new product or activity.
- b. *Risk monitoring and reporting.* QBs shall implement a process to regularly monitor their operational risk profiles and material exposures to losses on a continuing basis. The process shall take into account both qualitative and quantitative assessment of exposure to all types of operational risk, assess the quality and appropriateness of corrective or mitigating actions, and ensure that adequate controls and systems are in place to identify and address problems before they become major concerns.
- (1) Risk monitoring should be an integral part of a QB's activities, the frequency of which should reflect the risks involved in these activities as well as the frequency and nature of changes in the operating environment. The results of the monitoring activities, findings of compliance, internal audit and risk management functions, management letters issued by external auditors, and reports generated by supervisory authorities, as appropriate, should be included in regular reports to the board and the senior management to ensure that timely and appropriate measures are undertaken to address the issues/findings.
 - (2) Management shall ensure that regular reports on operational risk are received on a timely basis and in a form and format that will aid in the monitoring and control of their business areas. The board should receive sufficient high-level information to enable it to understand the QB's overall operational risk profile and focus on the material and strategic implications for the business.
 - (3) Management reports should contain relevant internal financial, operational, and compliance data, as well as external market information about events and conditions that are relevant to decision making. They should aim to provide information such as:
 - (a) The critical operational risks facing, or potentially facing, the QB (e.g., as shown in KRIs and their trend data, changes in risk and control self-assessments, comments in audit/compliance review reports, etc.);
 - (b) Major risk events/loss experience, issues identified and intended remedial actions;
 - (c) The status and/or effectiveness of actions taken; and
 - (d) Exception reporting (covering among others authorized and unauthorized deviations from the QB's operational risk policy and likely or actual breaches in predefined thresholds for operational exposures and losses).
 - (4) Reports should be analyzed with a view to improving existing management performance as well as developing new risk management policies, procedures and practices. Moreover, to ensure the usefulness and reliability of the reports received, management should regularly verify the timeliness, accuracy, and relevance of reporting systems and internal controls in general.
 - (5) Management should keep track of the information provided in the reports, particularly the loss data, to establish a framework for systematically tracking and recording the frequency, severity and other relevant information on loss events.
- c. *Risk control and mitigation.* Strong control environment is key to effective risk control and mitigation. In this respect, QBs are expected to adhere to the standards set forth under pertinent provisions of Secs. 162-Q, 163-Q, 436-Q on Internal Audit and *Appendix Q-72* on Internal Control and Internal Audit.

QBs shall decide whether to use appropriate procedures to control and/or mitigate the risks, or bear the significant risks that have been identified. In those instances where internal controls do not adequately address risk and accepting the risk is not a reasonable option, QBs may seek to transfer the risk to another party such as through insurance. Relative thereto, the board shall determine the maximum loss exposure the QB is willing to take and has the capacity to assume, and should perform an annual review of the QB's risk and insurance management program.

QBs, however, should not consider risk transfer tools as substitute but as complementary tools to sound controls and risk management system. Management shall also assess the extent to which risk mitigation tools such as insurance reduces risk, transfer the risk to another business sector or area, or create a new risk (e.g., counterparty risk).

Management of human resource-related risk. One of the major sources of operational risk is “people risk”. In this regard, QBs shall embed in their enterprise-wide risk management framework measures to identify, measure, monitor, and control human resource related risks. QBs shall ensure that there are adequate policies and risk management and control measures in the following areas:

- a. *Recruitment and selection.* The board shall establish efficient process that will facilitate timely recruitment and selection of personnel from a broad pool of candidates with appropriate educational background, skills, experience and competencies to fulfill the duties and responsibilities of the function. Management shall also ensure that the QB’s culture, values and expectations on behavior are compatible with those of its employees so that there is unity of direction and purpose.
- b. *Performance management.* The board shall establish effective performance management framework that will ensure that personnel’s performance is at par with the standards set by the board/senior management. Results of performance evaluation should be linked to other human resource activities such as training and development, remuneration, and succession planning. These should likewise form part of the assessment of the continuing fitness and propriety of personnel in carrying out their respective duties and responsibilities.

The assessment of continuing fitness and propriety of personnel should take into account factors that may affect the performance of an individual. For instance, the financial circumstances of an employee who will be responsible for the custody of, or handling cash related transactions, shall be taken into consideration in the evaluation of his continuing qualification.

- c. *Training and development.* The board shall establish training and development programs that will ensure continuing development of employees’ knowledge, competence, and skill. Results of gaps assessment in the performance evaluation/appraisal process can be used in the creation of training and development programs for employees.
- d. *Remuneration and compensation.* The board shall establish sound remuneration and compensation policies that can be used by the institution to attract/recruit and retain highly qualified workforce. Said policies should appropriately motivate personnel and discourage excessive risk taking. This can be achieved through timely assessment of performance and competencies based on set standards. Results of performance assessment/appraisal can be used in the organization’s remuneration decisions.
- e. *Succession planning.* The board shall establish an effective succession planning program. The program should include a system for identifying and developing potential successors for key and or critical positions in an organization, through systematic evaluation process and training. This will require identifying critical skills and competencies; assessing gaps; and designing, developing, and delivering training and development programs to build or improve critical skills and competencies. The program should be adequately documented to facilitate monitoring and assessment of its implementation.
- f. *Adequacy of complement.* The board shall establish effective strategic manpower planning to ensure that there is adequate and right manpower complement to meet the strategic goals and operational plans of the organization.
- g. *Disciplinary actions.* The board, officers and all employees are expected to conform to prescribed ethical culture and guidelines, meet performance standards, and to behave ethically/appropriately in the workplace. Disciplinary or corrective actions may be taken to improve/arrest unacceptable behavior or performance. Disciplinary action must be in accordance with the laws and the applicable rules.
- h. *Separation from service.* The board shall establish policies and procedures governing the separation of employees from service (e.g., termination, dismissal, retrenchment, retirement, or resignation), which should include transfer of accountabilities and/or salient information (e.g., client data, business strategies and formula, other trade secrets, etc.) to the successor, and clearance requirements. Policies may also include “non-compete” clauses, in accordance with existing laws.

The Human Resource Department shall assist the board in fulfilling its oversight responsibilities in the areas of recruitment, manpower planning, personnel development, performance appraisal, remuneration, termination, retrenchment and other key human resource issues.

Management of information technology-related risk. QBs shall refer to Sec. 147-Q for the management of information technology-related risk.

Management of integrity of prudential reports or reports submitted to Bangko Sentral. QBs shall adopt a prudential reporting framework that ensures the integrity of information submitted to the Bangko Sentral. They shall establish a system for ensuring effective compliance with the standards prescribed by the Bangko Sentral on acceptable reporting quality. QBs shall likewise maintain adequate documentation of the processes and procedures covering the prudential reporting framework and conduct a periodic review of their continuing relevance.

Management should be cognizant of relevant guidelines that may be issued by the Bangko Sentral relative to issues on the integrity and accuracy of prudential reports. Persistent concerns on the integrity and accuracy of prudential reports including failure to comply with the directives of the Bangko Sentral, in this respect, may be considered by the Bangko Sentral as conducting business in an unsafe or unsound manner, subject to applicable provision of laws and regulations.

Management of legal risk exposures. QBs shall adopt a system for identifying and assessing legal risks related to business line functions as well as products and services offered. This shall include a process for assessing the QB's rights and obligations in contractual relationships and in ensuring that all agreements/contracts entered into by the QB conform to legal and regulatory requirements and that no party is unduly disadvantaged. This shall also include the assessment of trends of customer complaints to determine potential legal risk exposures.

There should be a system in place to manage outstanding legal cases involving the QB or any of its directors and officers, with respect to suits filed in line with the performance of their duties. Said system should cover a periodic review of the status of cases, an assessment of potential outcome including probable liability or receivable, and regular reporting of the same to the appropriate level of management and the board.

Management of operational risk arising from financial inclusion initiatives. QBs that provide financial services to the unserved and underserved sector generally handle small and voluminous transactions, which have inherently high operational risk. Incremental operational risk also comes from the higher number of personnel or from the use of technology-based platform to effectively and efficiently deliver financial services. QBs are expected to identify and understand the distinct operational risk arising from the products and services they offer or innovative delivery channels they use. They should also be cognizant of potential transformation or transfer or risk exposures. In this regard, QBs shall adopt an operational risk management framework appropriate to the nature and scale of their operations. Said framework shall consider the principles embodied in this Section designed to suit the QB's business model and ensure sustained delivery of financial services to the unserved and underserved sector.

Notification/Reporting to Bangko Sentral. QBs shall notify the appropriate supervising department of the Bangko Sentral, within ten (10) calendar days from the date of discovery, of any operational risk event¹ that may result in any of the following:

- a. Significant operational losses or exposures;
- b. Activation of business continuity plan; or
- c. Any material change in business and operating environment.

Upon receipt of notification, the Bangko Sentral may require, if warranted, the reporting QB to submit a report detailing the causes and impact of such events and an acceptable action plan to address the issue and any other weakness identified.

Supervisory enforcement actions. Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence to the requirements set forth in this Section and bring about timely corrective actions. The Bangko Sentral may issue directives to improve the operational risk management system, or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety or soundness of the QB, among others. Sanctions may likewise be imposed on a QB and/or its directors, officers and/or employees.

(Circular Nos. 970 dated 22 August 2017, 930 dated 18 November 2016, and 900 dated 18 January 2016)

147-Q INFORMATION TECHNOLOGY RISK MANAGEMENT

The enhanced guidelines on Information Technology Risk Management (ITRM) keep abreast with the aggressive and widespread adoption of technology in the financial service industry and consequently strengthen existing Bangko Sentral framework for IT risk supervision. ITRM should be considered a component and integrated with the institutions' risk management program. The guidelines likewise provide practical plans to address risks associated with emerging trends in technology and growing concerns on cyber security.

Policy statement. A growing number of Bangko Sentral supervised financial institutions (BSFIs) employ the advances in technology as leverage to offer innovative products, deliver fast and efficient service at affordable prices, and venture to new markets. Moreover, technology drives the efficiency of operations and financial accounting of these institutions, and improves their decision-making process. As technology becomes an integral part of the business and operations of BSFIs, such technology usage and dependence, if not properly managed, may heighten technology risks. The Bangko Sentral expects BSFIs to have the knowledge and skills necessary to understand and effectively manage technology risks. These institutions are required to have an integrated approach to risk management to identify, measure, monitor and control risks.

Purpose and scope. The enhanced guidelines aim to provide guidance in managing risks associated with use of technology. The guidelines outlined are based on international standards and recognized principles of international practice for ITRM and shall serve as Bangko Sentral's baseline requirement for all BSFIs.

¹ As enumerated under item "a.1" of Sec. 146 on Operational risk management framework.

The guidelines shall apply to BSFIs which include banks, non-banks with quasi-banking function (NBQB), non-bank electronic money issuers and other non-bank institutions which under existing Bangko Sentral rules and regulations and special laws are subject to Bangko Sentral supervision and/or regulation. Moreover, subject guidelines shall also apply to BSFIs with offshore data processing as may be appropriate to their situation. The framework covers different facets of ITRM, some of which are supplemented with detailed guidelines in *Appendices Q-61, Q-62, Q-63, Q-64, Q-65, and Q-66*. The Bangko Sentral shall keep the Appendices updated and, in the future, issue additional regulations on new and emerging products, services, delivery channels, and other significant applications of technology.

Subject guidelines, including the *Appendices Q-61, Q-62, Q-63, Q-64, Q-65, and Q-66* are not “one-size-fits-all” and implementation of these need to be risk-based and commensurate with size, nature and types of products and services and complexity of IT operations of the individual BSFIs. BSFIs shall exercise sound judgment in determining applicable provisions relevant to their risk profile.

Complexity of IT risk profile. The Bangko Sentral shall risk profile all BSFIs and classify them as either “Complex” or “Simple”. The assessment of complexity of IT risk profile is based largely on the degree of adoption of technology and considers size, nature and types of products and services and complexity of IT operations among the risk factors. In assessing IT operations, the nature of IT organization, degree of automation of core processes and applications and extent and reach of online branch network are likewise considered.

A BSFI with “Complex” IT risk profile is highly dependent on technology. IT components are integral to the core business activities that major weaknesses on IT systems, maintenance and support, if not properly addressed, may cause operational inefficiencies, business disruptions and/or financial losses. On the other hand, a BSFI with “Simple” IT risk profile relies or depends less on technology in the operations of its business, thus, is not affected or lowly impacted by IT-related risks.

Non-bank institutions which under existing Bangko Sentral rules and regulations and special laws are subject to Bangko Sentral supervision/regulation shall likewise be notified in writing of their classification immediately after 14 September 2013.

IT rating system. The Bangko Sentral, in the course of its on-site examination activities, shall evaluate BSFIs’ ITRM system and measure the results based on Bangko Sentral’s IT rating system. A composite rating is assigned based on a “1” to “4” numerical scale, as follows:

4	BSFIs with this rating exhibit strong performance in every respect. Noted weaknesses in IT are minor in nature and can be easily corrected during the normal course of business.
3	BSFIs with this rating exhibit satisfactory performance but may demonstrate modest weaknesses in operating performance monitoring, management processes or system development.
2	BSFIs with this rating exhibit less than satisfactory performance and require considerable degree of supervision due to a combination of weaknesses that may range from moderate to severe.
1	BSFIs with this rating exhibit deficient IT environment that may impair the future viability of the entity, thereby requiring immediate remedial action.

Definition of terms.

Terminology	Definitions
Board of Directors	The governing body elected by the stockholders that exercises the corporate powers of a locally incorporated BSFI. In case of a BSFI incorporated or established outside the Philippines, this may refer to the functional oversight equivalent such as the Country Head (for foreign banks) or management committee or body empowered with oversight and supervision responsibilities.
Compromised State	A state wherein someone or something has maliciously broken into networks, systems and computers which raises doubt as to the integrity of information assets, such as, but not limited to, program files, image files, and operating system files.
Cyberfraud	A deliberate act of omission or commission by any person carried out using the Internet and/or other electronic channels, in order to communicate false or fraudulent representations to prospective victims, to conduct fraudulent transactions, or to transmit the proceeds of fraud to BSFIs connected with the perpetrator. Examples of cyberfraud in the financial industry may include, but are not limited to, theft of credit card data, computer hacking, electronic identity theft, phishing scams, ATM skimming and non-delivery of merchandise purchased online, among others.

Data Breach	An incident in which sensitive, protected or confidential data or information has potentially been viewed, stolen, leaked, used, or destroyed by unauthorized persons.
EMV (stands for Europay, Mastercard, and Visa)	It is a global standard for credit, debit and prepaid payment cards based on chip card technology. EMV chip-based payment cards, also known as smart cards, contain an embedded microprocessor, a type of small computer. The microprocessor chip contains the information needed to use the card for payment, and is protected by various security features. Chip cards are a more secure alternative to traditional magnetic stripe payment cards.
Encryption	A data security technique used to protect information from unauthorized inspection or alteration. Information is encoded so that data appears as meaningless string of letters and symbols during delivery or transmission. Upon receipt, the information is decoded using an encryption key.
Enterprise-wide Level	Extending throughout or involving an entire institution rather than a single business department or function. In this document, the words "enterprise-wide" and "organization-wide" are interchangeably used.
Hacking	Unauthorized access into or interference in networks, systems and computers without the knowledge and consent of the system/information owner.
Information Security	The protection of information assets from unauthorized access, use, disclosure, disruption, modification or destruction in order to provide confidentiality, integrity and availability.
Information Security Incident	A single or a series of unwanted or unexpected information security events that have a significant probability of compromising business operations and threatening the confidentiality, integrity or availability of BSFI's information or information systems.
Information Technology (IT)	Automated means of originating, processing, storing and communicating information and covers recording devices, communications network, computer systems (including hardware and software components and data) and other electronic devices.
IT Group/Department	The unit of an organization within a BSFI responsible for the activities of IT operations control, monitoring of IT services, infrastructure support and a combination of technology, people and processes.
IT Operations	Encompasses all processes and services that are provisioned by an IT Unit to internal and external clients.
IT Outsourcing	An arrangement under which another party (either an affiliated entity within a corporate group or an entity external to the corporate group) undertakes to provide to a BSFI all or part of an IT function or service. A BSFI would use IT outsourcing for functions ranging from infrastructure to software development, maintenance and support. The related IT service is integral to the provision by BSFI of a financial service and the BSFI is dependent on the service on an ongoing basis.
IT Risk	Any potential adverse outcome, damage, loss, violation, failure or disruption associated with the use of or reliance on computer hardware, software, devices, systems, applications and networks.
IT Strategic Plan	A long-term plan (i.e., three (3)-to five (5)-year horizon) in which business and IT management cooperatively describe how IT resources will contribute to the institution's strategic objectives.
IT Risk Management System (ITRMS)	Risk management system that enables a BSFI to identify, measure, monitor and control IT-related risks.
Management Information System (MIS)	A general term for the computer systems in an institution that provide information about its business operations.

Network	Two (2) or more computer systems that are grouped together to share information, software and hardware.
Offshore BSFIs	Have their critical system processing and data located outside of the Philippines. These are usually maintained and operated by organizations within the same business group that the BSFIs belong to, such as their head office, subsidiary and/or affiliate. Locally-maintained systems, if any, are limited to noncore supporting applications such as collaboration systems and report processing tools.
Pharming	A form of cyber-attack that redirects a website traffic to another fake website to obtain user credentials and information.
Project Management	Planning, monitoring and controlling an activity.
Reportable Major Cyber-related Incidents	Any cyber-related incidents that meet the criteria for reporting/notification to the Bangko Sentral as laid out in Item “a(2)(a)” of this Section on Reporting and notification standards.
Senior Management/Management	Officers of the institution given the authority by the Board to implement the policies it has laid down in the conduct of the business of the institution.
Service Level Agreement	Establishes mutual expectations and provide a baseline to measure IT performance. An SLA should contain, among others, the specified level of service, support options, enforcement or penalty provisions for services not provided, a guaranteed level of system performance as it relates to downtime or uptime, a specified level of customer support and what software or hardware will be provided and for what fee.
Spearphishing	A more advanced type of phishing attack which is customized to a particular target (e.g., executives, privileged users, etc.).
Threat Actor	A person, group or nation/state/government that carries out or intends to carry out damaging acts against another party. An advanced threat actor shall refer to a person, organized group, or nation/state/government that (a) possesses superior capabilities, resources and skills to launch sophisticated cyber-attacks; or (b) seeks military and/or intelligence information for cyber-espionage purposes.
Triple Data Encryption Standard (3DES)	A mode of the DES encryption algorithm that encrypts data three (3DES) times. Three (3) 64-bit keys are used, instead of one (1), for an overall key length of 192 bits (the first encryption is encrypted with second key, and the resulting cipher text is again encrypted with a third key.

Description of IT-related risks. As BSFIs increase their reliance on IT to deliver products and services, inappropriate usage of IT resources may have significant risk exposures. While IT does not trigger new types of risks, it brings in new dimensions to traditional banking risks (i.e. strategic risk, credit risk, market risk, liquidity risk and operational risk) that require new or enhanced control activities (e.g. a failure of a credit risk measurement application is an IT failure and, therefore, a systems failure in the sense of operational risk). Moreover, IT is an implied part of any system of internal controls, regardless of the type of risk and, consequently, forms an important element in organization-wide risk management. Among the risks associated with the use of IT are the following:

- a. *Operational risk* is the risk to earnings and capital arising from problems with service or product delivery. This risk is a function of internal controls, IT systems, employee integrity and operating processes. Operational risk exists in all products and services;
- b. *Strategic risk* is the risk to earnings and capital arising from adverse business decisions on IT-related investments or improper implementation of those decisions. The risk is a function of the compatibility of an organization’s strategic goals, the business strategies developed to achieve those goals, the resources deployed against these goals and the quality of implementation. The resources needed to carry out business strategies are both tangible and intangible which include communication channels, operating systems, delivery networks and managerial capacities and capabilities;
- c. *Reputational risk* is the risk to earnings and capital arising from negative public opinion. This affects the institution’s ability to establish new relationships or services or continue servicing existing relationships. The risk can expose the institution to litigation, financial loss or damage to its reputation; and

- d. *Compliance risk* is the risk to earnings and capital arising from the violations of, or non-conformance with laws, rules and regulations, prescribed practices or ethical standards. Compliance risk also arises in situations where the laws and rules governing certain products activities of the BSFI's clients may be ambiguous or untested. Compliance risk exposes the institution to monetary penalties, non-monetary sanctions and possibility of contracts being annulled or declared unenforceable.

IT Risk Management System (ITRMS). As BSFIs become more dependent on IT systems and processes, technology risks and information security issues have become progressively more complex and pressing in recent years. Information security is just as important as the new technologies being installed by BSFIs. As progress in technology shifts to higher gear, the trend in cyber-attacks, intrusions, and other form of incidents on computer systems shows that it will not only persist but will continue to increase in frequency and spread in magnitude.

Management of IT risks and information security issues becomes a necessity and an important part of BSFIs' risk management system. BSFIs are therefore required to establish a robust ITRM system covering four (4) key components: 1) IT governance, 2) risk identification and assessment, 3) IT controls implementation, and 4) risk measurement and monitoring.

- a. *IT Governance.* This is an integral part of BSFIs' governance framework and consists of the leadership and organizational structures and processes that ensure the alignment of IT strategic plan with BSFIs' business strategy, optimization of resources management, IT value delivery, performance measurement and the effective and efficient use of IT to achieve business objectives and effective IT risk management implementation. BSFIs must establish an effective IT governance framework covering the following:

- (1) *Oversight and organization of IT functions.* Accountability is a key concern of IT governance and this can be obtained with an organizational structure that has well-defined roles for the responsibility of information, business processes, applications, IT infrastructure, etc.

The board of directors is ultimately responsible for understanding the IT risks confronted by a BSFI and ensuring that they are properly managed, whereas the senior management is accountable for designing and implementing the ITRMS approved by the board. For complex BSFIs, the board may delegate to an IT steering committee (ITSC) or its equivalent IT oversight function to cohesively monitor IT performance and institute appropriate actions to ensure achievement of desired results. The ITSC, at a minimum, should have as members a non-executive director who oversees the institution's IT function, the head of IT group/department, and the highest rank officer who oversees the business user groups. The head of control groups should participate in ITSC meetings in advisory capacity only.

A charter should be ratified by the board to clearly define the roles and responsibilities of the ITSC. Formal minutes of meeting should be maintained to document its discussions and decisions. The ITSC should regularly provide adequate information to the board regarding IT performance, status of major IT projects or other significant issues to enable the board to make well-informed decisions about the BSFIs' IT operations.

BSFIs should develop an IT strategic plan that is aligned with the institution's business strategy. This should be undertaken to manage and direct all IT resources in line with the business strategy and priorities. IT strategic plan should focus on long term goals covering three (3) to five (5) year horizon and should be sufficiently supplemented by tactical IT plans which specify concise objectives, action plans and tasks that are understood and accepted by both business and IT. The IT strategic plan should be formally documented, endorsed by the Board and communicated to all stakeholders. It should be reviewed and updated regularly for new risks or opportunities to maximize the value of IT to the institution.

BSFIs should also create an organization of IT functions that will effectively deliver IT services to business units. For complex BSFIs, a full-time IT head or equivalent rank should be designated to take the lead in key IT initiatives and oversee the effectiveness of the IT organization. In addition to managing the delivery of day-to-day IT services, the IT head should also oversee the IT budget and maintain responsibility for performance management, IT acquisition oversight, professional development and training. The IT head should be a member of executive management with direct involvement in key decisions for the BSFI and usually reports directly to the president or chief executive officer.

A clear description of roles and responsibilities for individual IT functions should be documented and approved by the board. Proper segregation of duties within and among the various IT functions should be implemented to reduce the possibility for an individual to compromise a critical process. A mechanism should be in place to ensure that personnel are performing only the functions relevant to their respective jobs and positions. In the event that an institution finds it difficult to segregate certain IT control responsibilities, it should put in place adequate compensating controls (e.g. peer reviews) to mitigate the associated risks.

- (2) *IT policies, procedures and standards.* IT controls, policies, and procedures are the foundation of IT governance structure. It helps articulate the rules and procedures for making IT decisions, and helps to set, attain, and monitor IT objectives.

BSFIs should adopt and enforce IT-related policies and procedures that are well-defined and frequently communicated to establish and delineate duties and responsibilities of personnel for better coordination, effective and consistent performance of tasks, and quicker training of new employees. Management should ensure that policies, procedures, and systems are current and well-documented. The ITSC should review IT policies, procedures, and standards at least on an annual basis. Any updates and changes should be clearly documented and properly approved. IT policies and procedures should include at least the following areas:

- IT Governance/Management;
- Development and Acquisition;
- IT Operations;
- Communication networks;
- Information security;
- Electronic Banking/Electronic Products and Services; and
- IT Outsourcing/Vendor Management.

For simple BSFIs, some of the above areas (i.e., development, electronic banking, etc.) may not be applicable, thus sound judgment should be employed to ensure that the BSFI's IT policies and procedures have adequately covered all applicable areas.

- (3) *IT audit.* Audit plays a key role in assisting the board in the discharge of its corporate governance responsibilities by performing an independent assessment of technology risk management process and IT controls.

Auditors provide an assurance that important control mechanisms are in place for detecting deficiencies and managing risks in the implementation of IT. They should be qualified to assess the specific risks that arise from specific uses of IT. BSFIs should establish effective audit programs that cover IT risk exposures throughout the organization, risk-focused, promote sound IT controls, ensure the timely resolution of audit deficiencies and periodic reporting to the Board on the effectiveness of institution's IT risk management, internal controls, and IT governance. Regardless of size and complexity, the IT audit program should cover the following:

- Independence of the IT audit function and its reporting relationship to the Board or its Audit Committee;
- Expertise and size of the audit staff relative to the IT environment;
- Identification of the IT audit universe, risk assessment, scope, and frequency of IT audits;
- Processes in place to ensure timely tracking and resolution of reported weaknesses; and
- Documentation of IT audits, including work papers, audit reports, and follow-up.

In case in-house IT audit expertise is not available, such as for a simple BSFI, the IT audit support may be performed by external specialists and auditors of other institutions consistent with existing Bangko Sentral rules and regulations on outsourcing. (Detailed guidelines/standards on IT Audit are shown in *Appendix Q-61*).

- (4) *Staff competence and training.* The rapid development in technology demands appropriate, skilled personnel to remain competent and meet the required level of expertise on an ongoing basis.

BSFIs should have an effective IT human resources management plan that meets the requirements for IT and the business lines it supports. Management should allocate sufficient resources to hire and train employees to ensure that they have the expertise necessary to perform their job and achieve organizational goals and objectives.

Management needs to ensure that staffing levels are sufficient to handle present and expected work demands, and to cater reasonably for staff turnover. Appropriate succession and transition strategies for key officers and personnel should be in place to provide for a smooth transition in the event of turnover in vital IT management or operations functions.

- (5) *Management Information Systems (MIS).* The BSFIs' IT organization often provides an important support role for their MIS. Accurate and timely MIS reports are an essential component of prudent and reasonable business decisions. At the most senior levels, MIS provides the data and information to help the Board and management make strategic decisions. At other levels, MIS allows management to monitor the institution's activities and distribute information to other employees, customers, and members of management.

Advances in technology have increased the volume of information available to management and directors for planning and decision-making. However, if technology is not properly managed, the potential for inaccurate reporting and flawed decision making increases. Because report generation systems can rely on manual data entry or extract data from many different financial and transaction systems, management should establish appropriate control procedures to ensure information is correct, relevant, and adequately protected. Since MIS can originate from multiple equipment platforms and systems, the controls should ensure all information systems have sufficient and appropriate controls to maintain the integrity of the

information and the processing environment. Sound fundamental principles for MIS review include proper internal controls, operating procedures, safeguards, and audit coverage.

- (6) *IT risk management function.* Management of risk is a cornerstone of IT Governance. BSFIs should have a policy requiring the conduct of identification, measurement, monitoring and controlling of IT risks for each business function/service on a periodic basis. BSFIs should define and assign these critical roles to a risk management unit or to a group of persons from different units collectively performing the tasks defined for this function.

The function should have a formal technology risk acknowledgement and acceptance process by the owner of risk to help facilitate the process of reviewing, evaluating and approving any major incidents of non-compliance with IT control policies. The process can be supported by the following:

- a description of risk being considered for acknowledgement by owner of risk and an assessment of the risk that is being accepted;
- identification of mitigating controls;
- formulation of a remedial plan to reduce risk; and
- approval of risk acknowledgement from the owner of the risk and senior management.

ITRM processes should be integrated into the enterprise-wide risk management processes to allow BSFIs to make well-informed decisions involving business plans and strategies, risk responses, risk tolerance levels and capital management, among others.

- b. *Risk identification and assessment.* BSFIs should maintain a risk assessment process that drives response selection and controls implementation. An effective IT assessment process begins with the identification of the current and prospective IT risk exposures arising from the institution's IT environment and related processes. The assessments should identify all information assets, any foreseeable internal and external threats to these assets, the likelihood of the threats, and the adequacy of existing controls to mitigate the identified risks. Management should continually compare its risk exposure to the value of its business activities to determine acceptable risk levels.

Once management understands the institution's IT environment and analyzes the risk, it should rank the risks and prioritize its response. The probability of occurrence and the magnitude of impact provide the foundation for reducing risk exposures or establishing mitigating controls for safe, sound, and efficient IT operations appropriate to the complexity of the organization. Periodic risk assessment process should be done at the enterprise-wide level and an effective monitoring program for the risk mitigation activities should be manifested through mitigation or corrective action plans, assignment of responsibilities and accountability and management reporting.

- c. *IT controls implementation.* Controls comprise of policies, procedures, practices and organizational structures designed to provide reasonable assurance that business objectives will be achieved and undesired events will be mitigated. Management should establish an adequate and effective system of internal controls based on the degree of exposure and the potential risk of loss arising from the use of IT. Controls for IT environment generally should address the overall integrity of the environment and should include clear and measurable performance goals, the allocation of specific responsibilities for key project implementation, and independent mechanisms that will both measure risks and minimize excessive risk-taking. BSFI Management should implement satisfactory control practices that address the following as part of its overall IT risk mitigation strategy: 1) Information security; 2) Project management/development and acquisition and change management; 3) IT operations; 4) IT outsourcing/Vendor management; and 5) Electronic banking, Electronic payments, Electronic money and other Electronic products and services.

- (1) *Information security.* Information is a vital asset of a BSFI that must be adequately protected and managed to preserve its confidentiality, integrity and availability. Considering the crucial role information plays in supporting business goals and objectives, driving core operations and critical decision-making, information security is intrinsically linked to the overall safety and soundness of BSFIs. Thus, the BSFI needs to put in place a robust, resilient and enterprise-wide framework for ISRM supported by effective information security governance and oversight mechanisms. Information security risk exposures must be managed to within acceptable levels through a dynamic interplay of people, policies and processes, and technologies and must be integrated with the enterprise-wide risk management system.

Management should adopt a holistic, integrated and cyclical approach to managing information security risks. An ISRM framework should be in place encompassing key elements and phases with effective governance mechanisms to oversee the entire process. The framework represents a continuing cycle that should evolve over time taking into account changes in the operating and business environment as well as the overall cyber-threat landscape.

Figure 1. Information Security Risk Management Framework

The ISRM framework is based upon the following underlying fundamental principles and concepts:

- (a) *Strong leadership and effective Information Security (IS) governance and oversight.* The BSFI's board and senior management set the overall tone and strategic direction for information security by providing strong leadership, effective information security governance and oversight. They should take the lead in establishing an information security culture that regards security as an intrinsic part of the BSFI's core business and operations. Instilling a strong security culture ensures that security controls, processes, and measures are deeply embedded into the institution's lines of business, products, services and processes, including its employees and external relationships. The board and senior management should adopt the right mindset and understand the crucial role of information security in supporting/achieving business goals and objectives. Towards this end, they should oversee the development of an information security strategic plan (ISSP) to clearly articulate security strategies and objectives aligned with business plans.

The BSFI should maintain a comprehensive, well-designed and effective information security program (ISP) that is commensurate with its operational and IT profile complexity. To ensure its effectiveness and sustainability, the ISP should have strong support from the board and senior management as well as cooperation of all concerned stakeholders. Management should see to it that adequate resources, organizational functions/capabilities, policies, standards, and procedures as well as the supporting infrastructure commensurate with the BSFI's IT risk complexity and appetite are available and optimized to effectively implement the ISSP and ISP. Lastly, the board and senior management should appoint a chief information security officer (CISO), a senior level executive with sufficient authority within the institution, who will be responsible and accountable for the organization-wide ISP.

- (b) *Integrated, holistic and risk-based approach.* The ISRM should form an integral part of the BSFI's ISP and enterprise risk management system. It encompasses the people, policies and processes, and technology elements in the organization that should be harmonized to support information security goals and objectives. Information security is not achieved by merely focusing on technology or one aspect and no one element is superior over the other. Each of these elements must work together to achieve the desired security posture and manage information security risks to acceptable levels. In line with the increasing interconnectivity of BSFIs and other industry players, the ISRM should also consider security controls and requirements over third party service providers, customers, banks, and other third party stakeholders which are linked or have access to the BSFI's network and systems. This is because threat actors may launch their attacks on the BSFI through these third party networks.

Likewise, the ISRM including cyber-risk management programs should be commensurate with the inherent risks involved. This means that the BSFI's information security controls and maturity levels should be commensurate with its operations and complexity of IT profile. In this regard, in determining whether a certain control requirement is applicable to the BSFI, it shall first assess the complexity of its IT profile pursuant to Sec. 148. BSFIs with complex IT profile are expected to implement the more advanced security control measures and be at the higher levels of the information security/cyber-maturity curve. BSFIs may also refer to leading standards and frameworks issued by standard-setting bodies¹ on information security and cybersecurity in designing their ISRM.

¹ US National Institute of Standards and Technology (NIST), ISO/IEC, ISACA and Committee and Payments and Market Infrastructures (CPMI), among others.

(c) *Continuing cycle.* The ISRM involves a continuing cycle consisting of the following six (6) major phases:

- (i) *Identify.* The starting point of the cycle is the identification of the BSFI's information security as well as cyber-related risks. Under this phase, management needs to identify its business processes and functions, information assets classified as to sensitivity and criticality, threats and vulnerabilities, interconnections, and security architecture. Identification of these factors facilitates BSFI's understanding and assessment of its inherent information security and cyber risks which are key inputs in determining, designing, and implementing the appropriate risk treatment options.
 - (ii) *Prevent.* After identifying these key factors and assessing the information security and cyber risks, the prevent phase comes into play where adequate protection mechanisms and controls are designed and implemented. These include measures ranging from baseline to advanced tools and approaches such as defense-in-depth, malware prevention, access controls and cybersecurity awareness programs, among others. These preventive controls are generally categorized into three (3) types, as follows:
 - (aa) *Administrative controls* – refer to the policies, standards, and procedures in place which articulate Management's intent, expectations, and direction on information security. It also includes security trainings and awareness programs and personnel security practices designed to prevent unwarranted employee behavior.
 - (bb) *Physical and environmental controls* – pertain to the security controls and measures implemented to protect physical infrastructure such as data centers, computer facilities, and equipment from damage, unauthorized access or environmental hazards.
 - (cc) *Technical controls* – refer to the logical security controls, security tools, and technologies to ensure that the confidentiality, integrity, and availability objectives for information assets are achieved.
 - (iii) *Detect.* Detection capabilities should also be in place as prevention alone is not sufficient. As demonstrated in recent cyber-attacks, the ability of an institution to quickly detect anomalous activities and evaluate the scope of an attack is an important aspect in significantly reducing negative impacts. Management should design and implement effective detection controls over the BSFI's networks, critical systems and applications, access points, and confidential information.
 - (iv) *Respond.* The response phase is triggered upon confirmation of an occurrence of a cyber-attack or security incident affecting the BSFI and its customers. With the growing incidence of sophisticated cybercrimes and threats, the BSFI should be prepared to respond quickly considering that cyber-attacks are no longer a remote possibility. Therefore, it should develop comprehensive, updated, and tested incident response plans supported by well-trained incident responders, investigators, and forensic data collectors. Through adequate response capabilities, the BSFI should be able to minimize and contain the damage and impact arising from security incidents, immediately restore critical systems and services, and facilitate investigation to determine root causes.
 - (v) *Recover.* This phase encompasses both the resumption of activities at a level which is considered "good enough for a certain period of time" and full recovery, i.e., an eventual return to full service. Management should be able to establish back-up facilities and recovery strategies to ensure the continuity of critical operations. During the recovery phase, it should ensure that information processed using back-up facilities and alternate sites still meet acceptable levels of security. To achieve cyber resilience, the BSFI should consider information security incidents and cyber-related attack scenarios in its business continuity management and recovery processes.
 - (vi) *Test.* The BSFI needs to continually assess and test controls and security measures implemented under the prevent, detect, respond, and recover phases to ensure that these are effective and working as intended. Likewise, a comprehensive, systematic and layered testing and assurance program covering security processes and technologies should be in place. This is to ensure that the ISRM is on track in providing appropriate level of information security commensurate with the BSFI's IT profile complexity. This phase also ensures that both the ISSP and ISP remain effective vis-a-vis the fast-evolving cyber-threat landscape.
- (d) *Cyber threat intelligence and collaboration.* In response to the growing cyber-threat landscape, BSFIs need to step up their information security posture and resilience beyond their respective networks. Likewise, BSFIs need to enhance situational awareness that would provide a keen sense of the threat landscape as it relates to their IT risk and cyber-risk profiles, operating complexities, and business models. Further, BSFIs need to collaborate with each other, including regulators, law enforcement agencies, and other third party stakeholders for a collective, coordinated, and strategic response through information sharing and collaboration. Information sharing allows BSFIs to enhance threat

intelligence that enables quick identification, prevention and response to emerging and persistent threats. (Detailed guidelines/standards on information security are shown in *Appendix 62*).

- (2) *Project management/development and acquisition and change management.* BSFIs should establish a framework for management of IT-related projects. The framework should clearly specify the appropriate project management methodology that will govern the process of developing, implementing and maintaining major IT systems. The methodology, on the other hand, should cover allocation of responsibilities, activity breakdown, budgeting of time and resources, milestones, checkpoints, key dependencies, quality assurance, risk assessment and approvals, among others. In the acquisition and/or development of IT solutions, BSFIs should ensure that business and regulatory requirements are satisfied. (Detailed guidelines/standards on Project Management/Development and Acquisition and Change Management are shown in *Appendix Q-63*).
- (3) *IT operations.* IT has become an integral part of the day-to-day business operation, automating and providing support to nearly all of the business processes and functions within the institution. Therefore, the IT systems should be reliable, secure and available when needed which translates to high levels of service and dependency on IT to operate.

One of the primary responsibilities of IT operations management is to ensure the institution's current and planned infrastructure is sufficient to accomplish its strategic plans. BSFI management should ensure that IT operates in a safe, sound, and efficient manner throughout the institution. Given that most IT systems are interconnected and interdependent, failure to adequately supervise any part of the IT environment can heighten potential risks for all elements of IT operations and the performance of the critical business lines of the BSFIs. Such scenario necessitates the coordination of IT controls throughout the institution's operating environment. (Detailed guidelines/standards on IT Operations are shown in *Appendix Q-64*).

- (4) *IT outsourcing/vendor management program.* IT outsourcing refers to any contractual agreement between a BSFI and a service provider or vendor for the latter to create, maintain, or reengineer the institution's IT architecture, systems and related processes on a continuing basis. A BSFI may outsource IT systems and processes except those functions expressly prohibited by existing regulations. The decision to outsource should fit into the institution's overall strategic plan and corporate objectives and said arrangement should comply with the provisions of existing Bangko Sentral rules and regulations on outsourcing. Although the technology needed to support business objectives is often a critical factor in deciding to outsource, managing such relationships should be viewed as an enterprise-wide corporate management issue, rather than a mere IT issue.

While IT outsourcing transfers operational responsibility to the service provider, the BSFIs retain ultimate responsibility for the outsourced activity. Moreover, the risks associated with the outsourced activity may be realized in a different manner than if the functions were inside the institution resulting in the need for controls designed to monitor such risks.

BSFI management should implement an effective outsourcing oversight program that provides the framework for management to understand, monitor, measure, and control the risks associated with outsourcing. BSFIs outsourcing IT services should have a comprehensive outsourcing risk management process which provides guidance on the following areas: 1) risk assessment; 2) selection of service providers; 3) contract review; and 4) monitoring of service providers. Detailed guidelines/standards on IT Outsourcing/Vendor Management and on the adoption of outsourced cloud computing model are shown in *Appendix Q-65*.

- (5) *Electronic products and services.* The evolution in technology revolutionized the way banking and financial products and services are delivered. Physical barriers were brought down enabling clients to access their accounts, make transactions or gather information on financial products and services anywhere they are, at any time of the day and at their own convenience. As development in technology continues to accelerate, innovative electronic products and services are foreseen to bring more accessibility and efficiency. However, BSFIs may be confronted with challenges relating to capacity, availability and reliability of the electronic services. Likewise, fraudulent activities via electronic channels are also rising in number.

BSFIs should protect customers from fraudulent schemes done electronically. Otherwise, consumer confidence to use electronic channels as safe and reliable method of making transactions will be eroded. To mitigate the impact of cyber fraud, BSFIs should adopt aggressive security posture such as the following:

- (a) The entire ATM system shall be upgraded/converted to allow adoption of end-to-end Triple DES (3DES) encryption standards by 01 January 2015. The 3DES encryption standards shall cover the whole ATM network which consists of the host processors, switches, host security module (HSM), automated teller machines (ATMs), point-of-sale (POS) terminals and all communication links connected to the network;
- (b) ATMs to be installed after 04 September 2014 should be 3DES compliant; and

- (c) ATMs, POS terminals and payment cards are also vulnerable to skimming attacks due to the lack of deployment of globally recognized EMV enabled technology by BSFIs. Magnetic stripe only ATMs, POS Terminals and cards are largely defenseless against modern fraud techniques. Therefore, all concerned BSFIs should shift from magnetic stripe technology to EMV chip-enabled cards, POS Terminals and ATMs. The entire payment card network should be migrated to EMV. This requirement shall cover both issuing and acquiring programs of concerned BSFIs. A written and board-approved EMV migration plan should be submitted to the appropriate supervising department of the Bangko Sentral within six (6) months from 22 August 2013. The guidelines on EMV Implementation are shown in *Appendix Q-80*. The guidelines on EMV Card Fraud Liability Shift Framework (ECFLSF) are in *Appendix Q-81*.¹

Detailed guidelines/standards on Electronic Products and Services are shown in *Appendix Q-66*.

- d. *Risk measurement and monitoring.* BSFI Management should monitor IT risks and the effectiveness of established controls through periodic measurement of IT activities based on internally established standards and industry benchmarks to assess the effectiveness and efficiency of existing operations. Timely, accurate, and complete risk monitoring and assessment reports should be submitted to management to provide assurance that established controls are functioning effectively, resources are operating properly and used efficiently and IT operations are performing within established parameters. Any deviation noted in the process should be evaluated and management should initiate remedial action to address underlying causes. The scope and frequency of these performance measurement activities will depend on the complexity of the BSFI's IT risk profile and should cover, among others, the following:

- (1) *Performance vis-à-vis approved IT strategic plan.* As part of both planning and monitoring mechanisms, BSFI management should periodically assess its uses of IT as part of overall business planning. Such an enterprise-wide and ongoing approach helps to ensure that all major IT projects are consistent with the BSFI's overall strategic goals. Periodic monitoring of IT performance against established plans shall confirm whether IT strategic plans remain in alignment with the business strategy and the IT performance supports the planned strategy.
- (2) *Performance benchmarks/service levels.* BSFIs should establish performance benchmarks or standards for IT functions and monitor them on a regular basis. Such monitoring can identify potential problem areas and provide assurance that IT functions are meeting the objectives. Areas to consider include system and network availability, data center availability, system reruns, out of balance conditions, response time, error rates, data entry volumes, special requests, and problem reports.

Management should properly define services and service level agreements (SLA) that must be monitored and measured in terms understandable to the business units. SLA with business units and IT department should be established to provide a baseline to measure IT performance.

- (3) *Quality assurance/quality control.* BSFI should establish quality assurance (QA) and quality control (QC) procedures for all significant activities, both internal and external, to ensure that IT is delivering value to business in a cost effective manner and promotes continuous improvement through ongoing monitoring. QA activities ensure that product conforms to specification and is fit for use while QC procedures identify weaknesses in work products and to avoid the resource drain and expense of redoing a task. The personnel performing QA and QC reviews should be independent of the product/process being reviewed and use quantifiable indicators to ensure objective assessment of the effectiveness of IT activities in delivering IT capabilities and services.
- (4) *Policy compliance.* BSFIs should develop, implement, and monitor processes to measure IT compliance with their established policies and standards as well as regulatory requirements. In addition to the traditional reliance on internal and third party audit functions, BSFIs should perform self-assessments on a periodic basis to gauge performance which often lead to early identification of emerging or changing risks requiring policy changes and updates.
- (5) *External assessment program.* Complex BSFIs may also seek regular assurance that IT assets are appropriately secured and that their IT security risk management framework is effective. This may be executed through a formal external assessment program that facilitates a systematic assessment of the IT security risk and control environment over time.

Reporting and notification standards. In line with the increased reliance on and adoption of technology by BSFIs, along with growing concerns on cybersecurity, BSFIs should submit regular and event-driven reports covering technology-related information as well as incidence of major cyber-attacks and operational disruptions. This will enable the Bangko Sentral to have an enhanced visibility on the changing IT risk landscape and to proactively ensure that the impact and risks arising from cyber-related incidents and operational disruptions are minimized and contained to avert potential systemic risks to the financial system.

¹ This paragraph shall take effect on 01 January 2017.

- a. Reporting requirement. BSFIs are required to submit to the Bangko Sentral the following reports/information:
 - (1) Periodic reports. BSFIs shall submit an Annual IT Profile, as listed in *Appendix 7*, electronically to the appropriate supervising department of the Bangko Sentral within twenty-five (25) calendar days from the end of reference year.
 - (2) Event-driven reports. BSFIs shall notify the Bangko Sentral upon discovery of any of the following:
 - (a) Reportable Major Cyber-related Incidents. These cover all events which may seriously jeopardize the confidentiality, integrity or availability of critical information, data or systems of BSFIs, including their customers and other stakeholders. Reporting of such incidents to the Bangko Sentral should form part of the incident management plan of BSFIs.

An incident is considered a reportable major cyber-related incident, if after assessing the nature of the incident or attack, the BSFI has determined that the same:

- (i) resulted in an unauthorized access and infiltration into the BSFI's internal network (i.e., hacking, advanced persistent threats, presence of malware);
 - (ii) involved a system-level compromise (i.e., attacks on BSFI's core systems, as opposed to phishing attempts of individual clients);
 - (iii) affected a significant number of customer accounts simultaneously;
 - (iv) involved significant data loss or massive data breach;
 - (v) indicated spearphishing attacks targeting the BSFIs' directors, senior executives, officers, or privileged users;
 - (vi) resulted in the unavailability of critical systems/services (e.g., Distributed Denial of Service (DDoS) attack resulting in service outage);
 - (vii) inflicted material financial losses to the BSFIs, their customers and other stakeholders; or
 - (viii) has been suspected to be perpetrated by an advanced threat actor.
- (b) Disruptions of financial services and operations. These include disruption of critical operations which lasts for more than two (2) hours due to internal and external threats, which may be natural, man-made or technical in origin. Such scenarios usually involve loss of personnel, technology, alternate site, and service providers. Causes of such interruptions include, but are not limited to, fire, earthquakes, flood, typhoon, long-term power outage, technical malfunctions, pandemics and other threats.

Security events/attacks which are normally prevented by security systems/devices need not be reported to the Bangko Sentral, except if the same involve significant financial value and/or multitude of customer accounts beyond BSFI's reasonable threshold levels. For instance, an attempt to fraudulently transfer funds involving large sums of money requires immediate notification to the Bangko Sentral as this can be a signal of impending attacks to other BSFIs.

- b. Procedure for event-driven reporting. The following procedures shall be followed by BSFIs in reporting reportable major cyber-related incidents and/or disruptions of financial services and operations stated in Item "a(2)" of this above:
 - (1) The BSFIs' Compliance Officer and/or BSFI-designated Officer shall notify the appropriate supervising department of the Bangko Sentral within two (2) hours from discovery of the reportable major cyber-related incidents and/or disruptions of financial services and operations stated in Item "a(2)" above, in accordance with *Appendix Q-3*.
 - (2) The BSFIs shall disclose, at the minimum, the nature of the incident and the specific system or business function involved.
 - (3) Within twenty-four (24) hours from the time of the discovery of the reportable major cyber-related incident and/or disruption, a follow-up report should be sent to the appropriate supervising department of the Bangko Sentral through e-mail indicating the following, as applicable:
 - (a) nature of the incident;
 - (b) manner and time of initial detection;
 - (c) impact of the incident based on initial assessment (e.g., length of downtime, number of affected customers/accounts, number of complaints received, value of transactions involved);
 - (d) initial response or actions taken/to be taken (e.g., conduct of root cause analysis) with respect to the incident; and
 - (e) information if the incident resulted in activation of the Business Continuity Plan (BCP) and/or Crisis Management Plan (CMP).

- c. Verification of root cause. Depending on the nature and severity of the reported incident/disruption, the Bangko Sentral may require BSFIs to provide additional information or updates until the matter is satisfactorily resolved. Likewise, the Bangko Sentral may conduct special examination or overseeing inspection, if necessary, to verify root cause of the incident, assess the impact to the BSFI and the financial system as a whole, identify areas for improvement to prevent recurrence of the incident, and promote enterprise and industry-wide operational resilience.
- d. Compliance with reporting of crimes and losses. Compliance with event-driven report requirement shall not excuse BSFIs from complying with the existing rules on the reporting of crimes and losses under Sec. 173 and *Appendix Q-5*. Likewise, any cyber-related incident which does not qualify as a reportable major cyber-related incident and other disruptions arising from crimes and losses must be reported to the Bangko Sentral in accordance with the aforesaid regulations. Operational risk events which are covered under Item “a(2)” on the event-driven reporting and notification requirements shall no longer require separate reporting and notification pursuant to Sec. 146-Q (*Notification/Reporting to Bangko Sentral*).
- e. Information gathering. Should the conduct of in-depth studies and research on certain technology development or key area of concern relating to technology risk and cybersecurity be warranted, the Bangko Sentral, from time to time, may request BSFIs to submit specific data and information thereon through surveys, questionnaires or other means.

Sanctions and penalties. BSFIs should make available all policies and procedures and other documents/requirements related to the foregoing during on-site examination as well as provide copies thereof to the Bangko Sentral when a written request is made to determine their compliance with this Section.

Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence to the requirements set forth in Sec. 147-Q and bring about timely corrective actions. Any violation of the provisions of this Section, its appendices and annexes, shall subject the BSFI and/or its directors, officers, and/or employees to the monetary and non-monetary sanctions, as provided under existing laws, Bangko Sentral rules and regulations. Enforcement actions shall be imposed on the basis of the overall assessment of BSFIs’ ITRMS. Whenever a BSFI’s ITRMS is rated “1” pursuant to Sec. 147 (*IT rating system*), the following additional sanctions may be imposed:

- a. Non-compliance with the requirements in Item “b” of this Section on Reports will be subject to “High” penalty level monetary sanctions pursuant to Sec. 1102-Q. Consistent with Sec. 002-Q the Bangko Sentral may deploy applicable enforcement actions on the BSFI and/or its directors, officers, and/or employees for violations on this requirement.
- b. Annual IT Profile and other periodic reports which have been considered as erroneous, delayed or unsubmitted shall be subject to the penalties for *Category B* reports under Sec. 171.

On the requirement to adopt multi-factor authentication techniques for sensitive communications and/or high risk transactions pursuant to Item “4.1.2” of *Appendix Q-66*, the Bangko Sentral may issue directives to improve authentication and authorization procedures for sensitive communications and/or high risk transactions, or impose sanctions to limit the level of or suspend any electronic products and services that are not compliant with such requirements.

(Circular Nos. 1019 dated 31 October 2018 and 958 dated 25 April 2017)

148-Q BUSINESS CONTINUITY MANAGEMENT

Policy statement¹. BSFIs can be adversely affected by disruption of critical operations due to internal and external threats, which may be natural, man-made or technical in origin. Extreme events may cause major disruptions whose impact are very broad in scope, duration or both and can pose a substantial risk to the continued operation of BSFIs. Because BSFIs play a crucial role in the financial system and economy as a whole, it is important to ensure that their operations can withstand the effects of major disruptions. Thus, BSFIs need to have a comprehensive business continuity management (BCM) process as an integral part of their operational risk management system. A well-designed BCM process enables BSFIs to resume critical operations swiftly and minimize operational, financial, legal, reputational, and other material risks arising from a disruption. This also helps mitigate systemic risks as well as maintain public trust and confidence in the financial system.

Purpose, applicability, and scope. The guidelines aim to promote sound management of business continuity risks. These align existing regulations, to the extent possible, with leading standards and recognized principles on BCM, and shall serve as the Bangko Sentral’s baseline requirement for all BSFIs.

¹ BSFIs shall comply with the foregoing standards on BCM within a period of one (1) year from 11 April 2017. In this regard, a BSFI should be able to show its plan of actions with specific timelines, as well as the status of initiatives being undertaken to fully comply with the provisions of Sec. 148 (*Business continuity management*) starting July 2017, upon request of the Bangko Sentral.

The guidelines shall apply to BSFIs which include banks, non-banks with quasi-banking function (NBQB), non-bank electronic money issuers and other non-bank institutions which under existing Bangko Sentral rules and regulations and special laws are subject to Bangko Sentral supervision and/or regulation. Moreover, subject guidelines shall also apply to BSFIs with offshore data processing as may be appropriate to their situation.

Definition of terms. In these guidelines, terms are used with the following meanings:

- a. *Alternate and business recovery sites* shall refer to standby facilities for use during disruption of critical operations to ensure business continuity. These provide work space and/or the necessary technology environment needed to process business-critical information. Organizations may have more than one (1) alternate site. In some cases, alternate sites may involve facilities that are used for normal day-to-day operations but which are able to accommodate additional business processes when a primary location becomes inoperable. Examples of alternate sites include relocation and disaster recovery sites, whether managed directly or maintained by a third party for a BSFI or for use by multiple organizations.
- b. *Business continuity* shall refer to a state of continued, uninterrupted operation of a business.
- c. *Business continuity management (BCM)* shall refer to an enterprise-wide framework encompassing policies, standards, facilities, personnel and practices that provides for continuous functioning of the institution during disruptions. It is proportionate to the BSFI's internal and external risk exposures and tailored to the nature, scale, and complexity of its business.
- d. *Business continuity plan (BCP)/plan* shall refer to a documented plan detailing the orderly and expeditious process of recovery, resumption, and restoration of business functions in the event of disruptions. It should be able to cover and establish linkages among its multiple components, such as communication plan, crisis management plan, contingency funding plan, and technology recovery plan.
- e. *Business impact analysis (BIA)* shall refer to the process of identifying and measuring (quantitatively and qualitatively) the business impact or loss of business processes in the event of a disruption. It is used to identify recovery priorities, recovery resource requirements, essential staff, and dependencies (internal and external) to be incorporated in the plan.
- f. *Crisis* shall refer to a situation that requires urgent action due to its disruptive impact on the BSFI's core activities or business and operating environment.
- g. *Crisis management plan (CMP)* shall refer to a documented plan detailing the actions to be taken when a crisis strikes a BSFI and designed to maintain order amidst the confusion surrounding such situations. During and immediately after a crisis, the members of the crisis management team will convene and activate the plan to attain control over the crisis and minimize its impact to operations.
- h. *Critical process* shall refer to any activity, function or service, which when lost would materially affect the continued operation of the BSFI.
- i. *Cyber resilience* shall refer to an organization's ability to anticipate, handle, adapt to, and/or recover from evolving cyber threats.
- j. *Events* shall refer to disruption scenarios such as loss of people, technology, alternate site, and service providers.
- k. *Pandemic* shall refer to epidemics or outbreaks in humans of infectious diseases that have the ability to spread rapidly over large areas, possibly worldwide.
- l. *Recovery point objective (RPO)* shall refer to acceptable amount of data loss should a disruption occur without severe impact on the recovery of operations.
- m. *Recovery time objective (RTO)* shall refer to the period of time following an incident within which a product, system or business process must be resumed or resources must be recovered.
- n. *Resilience* shall refer to the ability of an organization to anticipate, handle, adapt to and/or recover from a disruption and resume operations.
- o. *Risk assessment* shall refer to the process involving the identification and assessment of potential threats and vulnerabilities that could severely interrupt a BSFI's business activities and the corresponding likelihood and magnitude of impact on business processes.

- p. *Technology recovery plan (TRP)/disaster recovery plan (DRP)* shall refer to a documented plan detailing the technology strategy and requirements during recovery for business and support functions. The relevant regulations are in Item “3.3.2.13” of Appendix Q-64.

Roles and responsibilities.

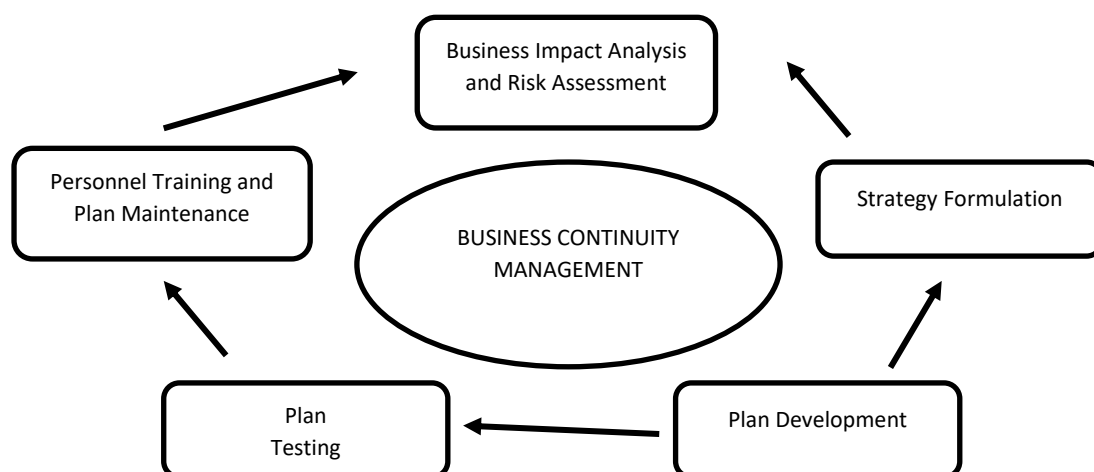

- a. *Board of directors and senior management.* The BSFI’s board and senior management are responsible for overseeing the implementation of a sound BCM process, which involves the creation and promotion of an organizational culture that places high priority on business continuity. This should be reinforced by providing sufficient financial and human resources associated with the BSFI’s business continuity initiatives. Senior management should establish BCM policies, standards, and processes, which must be duly endorsed to and approved by the board.

Awareness training and periodic reporting to board and senior management on matters related to business continuity are equally important to ensure their continuing commitment and support. At a minimum, periodic management reports should include the following: (1) implementation status of the BCP; (2) incident reports; (3) plan test results; (4) changes to the plan; and (5) related action items to strengthen the BSFI’s ability to recover during disruptions.

- b. *BCM coordinator/unit.* Coordination and supervision of all business continuity activities should be assigned to a competent individual and/or unit with technical knowledge and experience consistent with the nature and complexity of the BSFI’s business activities. A complex¹¹ BSFI may need a BCM unit with a team of departmental liaisons throughout the organization. For a simple BSFI, an individual BCM coordinator may suffice. While the BCM coordinator/unit may recommend initiatives or activities to be prioritized, the board of directors and senior management are ultimately responsible for understanding the critical business processes and subsequently establishing plans to meet business process requirements in a safe and sound manner.
- c. *BSFI personnel.* BSFI personnel should understand their roles and responsibilities on the prevention of crisis and recovery of business operations during disruptions. Business and support functions should allocate responsibilities for managing disruptions and provide clear guidance regarding the succession of authority to account for unavailability of key personnel in the event of a disruption.
- d. *Audit.* An independent review of the BSFI’s BCM framework and corresponding plans should be periodically performed with frequency based on a sound risk assessment process. This is to ensure that significant policy revisions resulting from changes in the operating environment, lessons learned from plan tests, and internal and regulatory audit recommendations have been considered. Moreover, plan testing exercises should be independently observed, verified, and evaluated to ensure reasonableness and validity of the testing process and the accuracy of test results.

Business continuity management framework. BSFIs should adopt a cyclical, process-oriented BCM framework, which, at a minimum, should include five (5) phases, namely: BIA and risk assessment, strategy formulation, plan development, plan testing, and personnel training and plan maintenance. This framework represents a continuous cycle that should evolve over time based on changes in business and operating environment, audit recommendations, and test results. This framework should cover each business function and the technology that supports it. Other related policies, standards, and processes should also be integrated in the overall BCM framework.

Figure 1. Business Continuity Management Process

¹ Pursuant to Sec. 147-Q NBFIs are classified as "simple" but maybe re-classified as "complex" depending on extent or degree of reliance of core business function to technology.

- a. *Business impact analysis and risk assessment.* A comprehensive BIA and risk assessment should be undertaken to serve as the foundation in the development of the plan. The BIA entails determining and assessing the potential impact of disruptions to critical business functions, processes, and their interdependencies through work-flow analyses, enterprise-wide interviews, and/or inventory questions. Accordingly, the BSFI should determine the recovery priority, RTO, RPO, and the minimum level of resources required to ensure continuity of its operations consistent with the criticality of business function and technology that supports it. The BSFI should then conduct risk assessment incorporating the results of the BIA and evaluating the probability and severity of a wide-range of plausible threat scenarios in order to come up with recovery strategies that are commensurate with the nature, scale, and complexity of its business functions.

Domestic systemically important banks (D-SIBs). To minimize the extent or impact of a D-SIB's failure in the financial system, BSFIs identified as D-SIBs by the Bangko Sentral, pursuant to Sec. 126-Q, should set the RTO for each of their critical processes to a maximum of four (4) hours from the point of disruption. For non-D-SIB BSFIs, the RTO of critical processes should be primarily driven by their BIA and risk assessment.

- b. *Strategy formulation.* Recovery and resumption strategies to achieve the agreed time-frame and deliver the minimum required services as identified in the BIA should be defined, approved, and tested. The minimum requirements for the provision of essential business and technology service levels during disruptions should be established by concerned business and support functions.
- (1) *Recovery strategy.* As business resumption relies primarily on the recovery of technology resources, adequate provisions should be in place to ensure systems availability and recoverability during disruptions as prescribed under *Appendix Q-64*. Recovery strategies should be able to meet the agreed requirements between business units and support functions for the provision of essential business and technology service levels.
- (2) *Continuity of operations/business resumption strategy.* The business continuity models adopted by the BSFI to handle prolonged disruptions should be based on the risk assessment of its business environment and the characteristics of its operations. The resumption strategies and resource requirements should be approved by the board as recommended by senior management or the relevant board committees to ensure alignment with corporate goals and business objectives.
- c. *Plan development.* Plans are an important, tangible evidence of the BSFI's business continuity initiatives. The objective of the plan is to provide detailed guidelines and procedures on response and management of a crisis, recovery of critical business services and functions and to ultimately resume to normal operations. The plan should be formulated on an enterprise-wide basis, reviewed and approved by the board and senior management at least annually and disseminated to all concerned employees. The plan should include provisions for both short-term and prolonged disruptions.

A well-written plan should describe the various types of events or scenarios that could prompt BCP activation. It should include, at a minimum, the following components:

- (1) Escalation, declaration and notification procedures;
- (2) Responsibilities and procedures to be followed by each continuity or recovery teams and their members. The procedures should enable the BSFI to respond swiftly to a crisis (i.e., a crisis management plan) and to recover and resume the critical processes outlined in the plan within the stipulated time frame during disruptions;
- (3) A list of resources required to recover critical processes in the event of a major disruption. This would include, but not limited to: (a) key recovery personnel; (b) computer hardware and software; (c) communication systems; (d) office equipment; and (e) vital records and data;
- (4) Relevant information about the alternate and recovery sites; and
- (5) Procedures for restoring normal business operations. This should include the orderly entry of all business transactions and records during disruption into the relevant systems up to completion of all verification and reconciliation procedures.

Communication is a critical aspect of a BCP. In this respect, the BSFI should include a communication plan for notifying all relevant internal and external stakeholders (e.g., employees, customers, vendors, regulators, counterparties, and key service providers, media and the public) following a disruption. The BSFI should maintain an up-to-date call tree and contact list of key personnel and service providers, including communication flow and channels for internal and external stakeholders. Clear and effective communication will facilitate escalation for appropriate management action and instruction to all concerned and help manage reputational risks. The BSFI should consider alternate methods of communication and preparation of predetermined messages tailored to a number of plausible disruption scenarios to ensure various stakeholders are timely, consistently, and effectively informed.

A crisis management plan should be included in the BCP to assist senior management in dealing with and containing an emergency and avoid spillover effects to the business. Senior management should identify potential crisis scenarios and develop corresponding crisis management procedures. This includes identifying a mix of individuals from various departments who are authorized to make instantaneous decisions during crisis situations. This team shall be responsible for the actual declaration of an event, activation of the plan, and internal and external communication process.

When outsourcing plan development, management should ensure that the chosen service provider has the expertise required to analyze the business needs of the BSFI and that the arrangement conforms to legal and regulatory requirements. The service provider should be able to design executable strategies relevant to the BSFI's risk environment and design education and training programs necessary to achieve successful BCP deployment.

d. *Plan Testing*

- (1) *Types of testing methods.* Plan testing is a vital element of the BCM. It ensures that the plan remains accurate, relevant, and operable. Tests should be conducted periodically, with the nature, scope, and frequency determined by the criticality of the applications, business processes, and support functions. In some cases, plan tests may be warranted due to changes in BSFI's business, responsibilities, systems, software, hardware, personnel, facilities, or the external environment.

Testing methods can vary from simple to complex each bearing its own characteristics, objectives, and benefits. Types of testing methods in order of increasing complexity include:

- (a) *Tabletop exercise/structured walk-through test* – the primary objective is to ensure that critical personnel from all areas are familiar with the plan and that it accurately reflects the BSFI's ability to recover from a disruption.
 - (b) *Walk-through drill/simulation test* – similar to a tabletop exercise but with a more focused application. During this test, participants choose a specific scenario to which relevant plan provisions shall be applied.
 - (c) *Communication/call tree test* – an exercise that validates the capability of crisis management teams to respond to specific events and the effectiveness of the call tree notification process in disseminating information to employees, vendors, and key clients.
 - (d) *Alternate site test/exercise* – tests the capability of staff, systems, and facilities, located at alternate sites to effectively support production processing and workloads.
 - (e) *Component test/exercise* – A testing activity designed to validate the continuity of individual systems, processes, or functions, in isolation.
 - (f) *Functional drill/parallel test* – test to determine capability of alternate site and BSFI employees to support strategy as defined in the plan, which involves actual mobilization of personnel, establishing communications, and recovery processing.
 - (g) *Enterprise-wide full-interruption/full-scale test* – the most comprehensive type of test encompassing the entire organization and requires activation of all the components of the plan at the same time to simulate a real-life emergency and processing data and transactions using back-up media at the recovery site.
- (2) *Test policy/plan.* Testing should be viewed as a continuously evolving cycle. The BSFI should incorporate the results of BIA and risk assessment and work towards a testing strategy that increases in scope and complexity to address a variety of threat scenarios. Test scenarios should vary from isolated system failures to wide-scale disruptions and promote testing its primary and alternate facilities, as well as with key counterparties and third-party service providers.

A testing policy should define roles and responsibilities for the implementation and evaluation of the testing program. Test plans with pre-determined goals and test criteria should be developed for each testing activity. It should clearly define the objectives of testing, identify the functions, systems, or processes to be tested and the criteria for assessing what constitutes a successful test. Formal testing documentation (i.e., test plans, test scenarios, test procedures, test results) should be prepared to ensure thoroughness and effectiveness of testing and properly maintained for audit and review purposes.

- (3) *Annual enterprise-wide business continuity testing.* The BSFI must conduct an enterprise-wide business continuity test at least annually, or more frequently depending on changes in the operating environment, to ensure its plan's relevance, effectiveness, and operational viability. The scope of testing should be comprehensive to cover the major components of the plan as well as coordination and interfaces among important parties.

- (4) *Analysis and report of test result.* Plan tests, including successes, failures, and lessons learned, should be thoroughly analyzed to promote continuous BCM improvement. Exceptions noted should be documented and corrective actions should be closely monitored to ensure that they are implemented in a timely manner by concerned parties, including the board of directors and senior management, business line management, risk management, IT management, and other internal stakeholders.
- e. *Personnel training and plan maintenance.*
- (1) *Training program.* A business continuity training program should be provided to all concerned employees to promote awareness, familiarity, and understanding of their roles and responsibilities in the event of a disruption. The training program should be offered on a continuing basis for existing and new employees and should be updated to address changes to the plan.
 - (2) *Plan maintenance.* Plans and results of BIA and risk assessment should be reviewed and updated on an ongoing basis (at least annually or when necessary) so that they remain consistent with the BSFI's current operations and business strategies. BCM-related documents (i.e., BCP, test program, policy guidelines, and program requirements) should be subject to change management process to ensure these are updated with proper approval and documentation with respect to any significant changes in the business environment or as a result of audit findings.

Other policies, standards and processes. The following policies, standards and processes should be integrated into the BCM process:

- a. *Pandemic planning.* Similar to natural disasters or technical disruptions, pandemics may also interrupt a BSFI's business activities. However, the difficulty in determining a pandemic's scope and duration present additional challenges in ensuring resilience and continuity of a BSFI's operations.

Generally, pandemic plans are integrated in the BSFI's BCP and follow the same BCM process with additional considerations, such as:

- (1) *Business impact analysis and risk assessment.* The BCM process should consider pandemics as early as the BIA and risk assessment phase. The BIA and risk assessment should be updated to incorporate complexities that may arise from pandemics, such as (a) increasing level of absenteeism based on a pandemic's severity; and (b) the need for another layer of contingency plans as regular disaster or emergency response methods are no longer feasible.
- (2) *Strategy formulation.* To complement strategies for natural and technical disruptions, the following should be given due consideration when planning for pandemics:
 - (a) *Trigger events* – Trigger events and strategies should be defined depending on the nature of a pandemic. Pandemic planning should have the flexibility to accommodate varying degrees of epidemic or outbreak as pandemics normally occur in waves or phases and of varying severity.
 - (b) *Remote access capability* – In the event of a pandemic, enabling remote access may be one of the primary strategies available to a BSFI. To support a telecommuting strategy, the BSFI should ensure adequate capacity, bandwidth and authentication mechanisms in its technological infrastructure against expected network traffic or volume of transactions.
 - (c) *External parties* – With pandemics not limited to the BSFI, establishing working relationships with external parties is an essential component. In addition to the communication plan for all relevant internal and external stakeholders, the BSFI should establish open relationships and communication channels with local public health and emergency response teams or other government authorities. The BSFI should inform concerned parties of any potential outbreaks and, at the same time, be aware of any developments in the expected scope and duration of a pandemic.
 - (d) *Employee awareness* – As information becomes available from reputable sources or local agencies, the BSFI should ensure that steps to limit or reduce the risk of being affected by the pandemic are cascaded to its employees.
- (3) *Plan development.* Pandemic plans should be commensurate with the nature, size and complexity of a BSFI's business activities and have sufficient flexibility to address the various scenarios that may arise. At a minimum, the pandemic plan should include:
 - (a) Strategy that is scalable dependent on the extent and depth of the outbreak;
 - (b) Preventive measures, including monitoring of current environment and hygiene tools available to employees;

- (c) Communication plan with internal and external stakeholders, including concerned local public health teams and government agencies; and
 - (d) Tools, systems and procedures available to ensure continuity of its critical operations even with the unavailability of BSFI's staff for prolonged periods.
- (4) *Plan testing.* Test policy/plan should include strategies to assess capability to continue critical operations, systems and applications even in the event of a severe pandemic. When regular tests are unable to cover pandemic scenarios, separate pandemic plan tests should be carried out.
- (5) *Personnel training and plan maintenance.* The plan should be updated as developments and information become available. As needed, employee training programs should cover pandemic risks, including the roles and responsibilities of each employee during pandemic situations.
- b. *Cyber resilience.* Cyber-threats and attacks against the financial services industry have become increasingly widespread, sophisticated and coordinated. Recent cyber-attacks worldwide highlight, not only the degree of disruption to a BSFI's operations, but also the extent of reputational damage which could undermine public trust and confidence. As such, the BSFI should consider the potential impact of these cyber events into its BCM process and institute adequate cyber resilience capabilities.

Given the unique characteristics of cyber-threats and attacks, traditional back-up and recovery arrangements adopted by the BSFI may no longer be sufficient and even increase the damage to the BSFI's network, operations and critical information assets. In worst case scenarios, back-up systems and alternate recovery sites are likewise affected rendering both sites inoperable. To ensure cyber resilience, the BSFI should take into consideration a wide-range of cyber-threat scenarios perpetrated from diverse threat sources (e.g., skilled hackers, insiders, state-sponsored groups) which seek to compromise the confidentiality, availability and integrity of its information assets and networks. Defensive strategies and innovative recovery arrangements should be explored that are commensurate with the BSFI's cyber-security risk exposures and aligned with its information security program in accordance with *Appendix Q-62*.

- c. *Information security.* Mitigation strategies should consider security controls to manage risks that may arise once an event triggers plan activation. Security during disasters and disruptions is an important consideration to manage risks arising from the change in working environment. The relevant guidelines/standards on information security that may be considered in strategy formulation and/or in choosing alternate sites are in *Appendix Q-62*.
- d. *Interdependencies.* An effective plan coordinates across its many internal and external components, identifies potential process or system dependencies, and mitigates risks from interdependencies. The BSFI may have very complex operating and recovery environment wherein interdependencies need to be duly considered, such as telecommunications, third party service providers, and recovery site. Given the critical resources and services that are being shared with the BSFI or other entities, additional mitigating controls and recovery strategies need to be integrated in the plan.
- e. *Liquidity risk management.* Sound liquidity risk management practices enable a BSFI to maintain availability of funds even in times of financial stress or adverse changes in market conditions. In the event of a business disruption, sound liquidity risk management practices should similarly apply. The BSFI should ensure it has sufficient liquidity to support its recovery strategies and continue supporting the delivery of basic banking services to the clients pending full business resumption. Guidelines on liquidity risk management are in *Appendix Q-43*.
- f. *Project management.* Senior management should ensure that availability and business continuity requirements are considered at the planning and development stages of new business products and services and other critical technology processes, such as systems development and acquisition, and change management.
- g. *Event/problem management.* Operations personnel should be properly trained to recognize events that could trigger implementation of the plan. Although an event may not initially activate the plan, it may become necessary as conditions and circumstances change. Management should train and test BSFI personnel to implement and perform appropriate business continuity procedures within the timeframes of the plan.
- h. *Outsourcing.* When a BSFI enters into an outsourcing arrangement, it should put due consideration on the business continuity and disaster recovery arrangements of the service provider to ensure continuity of operations. Detailed guidelines/standards on business continuity considerations for outsourcing arrangements are in *Appendix Q-65*.
- i. *Insurance.* Insurance is an option available to a BSFI for recovery of losses that cannot be completely prevented and the expenses related to recovering from a disruption. The BSFI should regularly review the adequacy and coverage of its insurance policies in reducing any foreseeable risks caused by disruptive events, such as loss of offices, critical facilities and equipment, and casualty. Insurance policies may also need to address the BSFI's legal responsibilities for failing to deliver services to its customers and counterparties. To facilitate the claims process, the BSFI should create and retain a comprehensive hardware and software inventory list in a secure off-site location and detailed expenses should be documented to support insurance claims.

Supervisory enforcement actions. BSFIs should make available all policies and procedures and other documents/information related to the foregoing during on-site examination as well as provide copies thereof to the regulator when a written request is made to determine compliance.

Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence to the requirements set forth in this Section and bring about timely corrective actions. The Bangko Sentral may issue directives to improve the BCM process, or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety and soundness of the BSFI, among others. Monetary and non-monetary sanctions, as provided under existing laws, Bangko Sentral rules and regulations, may likewise be imposed on a BSFI and/or its directors, officers and/or employees for violation of this Section.

(Circular Nos. 1051 dated 27 September 2019 and 951 dated 20 March 2017)

149-Q SOCIAL MEDIA RISK MANAGEMENT

Policy statement. BSFIs shall comply with the foregoing standards on social media risk management within a period of six (6) months from 04 April 2017. In this regard, a BSFI should be able to show, upon request of the Bangko Sentral, its plan of actions with specific timelines, as well as the status of initiatives being undertaken to fully comply with the provisions of this Section.

Social media, a low-cost solution capable of disseminating real-time information via the internet, presents vast opportunities for growth, customer engagement and business benefits as usage, customer reach and adoption scale up and become widespread and ubiquitous. Considering these potential benefits alongside exponential growth in the number of social media users and its massive reach, BSFIs have started to leverage on social media platform/s to promote their business and improve customer interaction experience to help drive business objectives/strategies.

Similar to any new technology, however, social media introduces a new attack vector which may expose BSFIs to compliance, legal, reputational, strategic, and operational risks. Risks in social media include susceptibility to account take-over, malware distribution, brand bashing, inadvertent disclosure of sensitive information and privacy violation, among other possible threats. As such, BSFIs should adopt an appropriate risk management system, commensurate with the extent and degree of their social media usage, to effectively identify, measure, manage and monitor risks arising from the use of social media platforms. This should form an integral part of their operational risk management system.

Applicability and scope. The guidelines underscore the importance of having a well-defined social media risk management strategy in supporting BSFI's overall business goals and objectives. These guidelines align existing regulations, to the extent possible, with leading standards and recognized principles. They outline the minimum standards/basic principles that shall govern the BSFI's framework to aid in the sound management of risks associated with the use of social media for official purpose or employees' personal use, within and outside the organization.

It is not intended to provide procedural specifics or a "one-size-fits-all" solution for carrying out compliance and risk management responsibilities. Each BSFI is therefore expected to establish its own risk management strategy; suitable to its size, risk tolerance level, and the nature and scope of social media activities engaged in.

The guidelines shall apply to all BSFIs which include banks, NBQB, non-bank electronic money issuers, and other non-bank institutions which under existing Bangko Sentral rules and regulations and special laws are subject to Bangko Sentral supervision and/or regulation.

Definition of terms. In these guidelines, terms are used with the following meanings:

- a. *Attack vector* shall refer to the path or means by which an attacker can gain access to a computer system in order to deliver a malicious code (e.g., virus, worms, trojans).
- b. *Non-technical controls* shall refer to management, administration, and operational controls employed that are manual and procedural in nature (e.g., security-related policies and procedures; operational procedures; personnel, physical, and environmental security controls; performance management and measurement).
- c. *Risk assessment* shall refer to the process involving the identification and assessment of potential threats and vulnerabilities related to the use of social media and determination of the likelihood that the threat will occur as well as the corresponding impact to the business should the threat occur.
- d. *Social media* shall refer to online communication channels dedicated to community-based content generation and sharing, interaction, and collaboration.
- e. *Social media platform* shall refer to any form of interactive communication medium wherein users can generate and disseminate content (e.g., text, images, audio, video) through social networks using the internet. Examples of popular social media platform categories include the following:

- (1) Social networking (e.g., Facebook, LinkedIn)
 - (2) Micro-blogging (e.g., Twitter, Tumblr)
 - (3) Blogging (e.g., Wordpress, Blogger)
 - (4) Photo Sharing (e.g., Flickr, Instagram, Pinterest)
 - (5) Video Sharing (e.g., Youtube, Vimeo, Vine)
 - (6) Crowdsourcing (e.g., Ushahidi, Inc.)
- f. *Technical controls* shall refer to the controls incorporated into the computer hardware, software, or firmware to aid in the effective implementation of policies and standards (e.g., access control, authentication, web scanner/crawler).

Social media risk management system. BSFIs should establish an appropriate framework that will result in sound social media governance and risk management. At a minimum, the framework shall include the following elements:

- a. Clearly defined governance structure indicating the roles and responsibilities of the board of directors and senior management in setting the direction on the BSFI's use of social media, including its alignment to the BSFI's strategic goals/plans; establishing adequate standards, policies, procedures, and controls; and implementing ongoing risk assessment of social media-related activities.

The board of directors shall be primarily responsible for defining the BSFI's risk tolerance level, understanding the nature and degree of risks the BSFI will be exposed to, and ensuring that these risks are properly addressed. Moreover, the board of directors, as part of its duties, shall approve and oversee the design and implementation of the social media strategy; related standards, policies and procedures; and means to ensure compliance with said standards and/or policies as well as applicable laws and regulations. Senior management, on the other hand, shall be responsible for the implementation of the social media risk management system approved by the board of directors.

The governance process should also include reporting mechanisms to the board of directors and/or senior management to enable periodic evaluation of the effectiveness of the BSFI's social media strategy/program, in terms of achieving its stated objectives, and measures put in place to manage the risks related to its use.

- b. Policies and procedures governing the following, among others:
 - (1) Scope and definition of social media;
 - (2) Social media regulatory landscape reflecting applicable laws, rules and regulations for compliance;
 - (3) Individuals and/or composition of the team/s who will be responsible for the creation, maintenance, and monitoring of the BSFI's proprietary social media sites/pages. Their corresponding roles and accountabilities should also be clearly defined;
 - (4) Content management and approval process;
 - (5) Ongoing assessment, management, and monitoring of risks associated with social media-related activities;
 - (6) Acceptable use as well as prohibitions/restrictions on the business/official use of social media platforms. These guidelines shall likewise apply to the employees'¹¹ personal use of social media, insofar as it may impact the BSFI's operations, reputation and/or compliance with applicable laws and regulations. These should cover matters such as, but not limited to, expectations, ethical behavior, types/nature and extent of BSFI and/or customer-related information that can be posted, statements that can or cannot be made about or in behalf of the institution, comments that should not be made about a competitor, and corresponding sanctions/penalties for inappropriate use of social media and committing non-permissible activities;
 - (7) Use and monitoring of the BSFI's proprietary social media sites/pages to ensure compliance with applicable laws, regulations and internal policies;
 - (8) Monitoring and recording of suspicious transactions and customer activities on the BSFI's proprietary social media sites/pages;
 - (9) Adoption of technical and non-technical controls to address risks associated with the use of social media platform/s including methodologies to manage risks from online postings, edits, replies and retention;
 - (10) Due diligence process for selecting, managing and continuous monitoring of third-party service providers (TSP) that administer the BSFI's social media site(s)/page(s). In addition, the specific roles and responsibilities of the TSP, including liabilities and accountabilities for errors, omissions, fraud, and other instances, resulting from the TSP's actions, which may adversely affect the BSFI, should also be defined;

¹¹ Include the BSFI's employees, contractual employees and/or project hires, and third-party service providers.

- (11) Social media crisis management plan and escalation procedures;
 - (12) Enterprise-wide employee training and awareness programs covering relevant topics such as the BSFI's social media use policies, employee roles and responsibilities and non-permissible activities;
 - (13) Records retention of social media data; and
 - (14) Communication of the BSFI's official social media sites/pages to its customers to avoid confusion and being misled to unofficial sites.
- c. Specific roles and responsibilities of the risk management, consumer protection, audit and compliance functions to ensure that social media risks are adequately managed and integrated in the BSFI's enterprise-wide risk management systems.

BSFIs that do not utilize social media should nevertheless have clear policies and measures in place to address the potential reputational risks that may arise within the various social media platforms and provide guidance on employee use of social media.

Compliance with relevant regulations. BSFIs, in formulating and implementing their social media policies, should ensure compliance with the applicable requirements of Bangko Sentral rules and regulations on financial consumer protection, especially those relating to disclosures and transparency in advertising and promotional materials, protection of client information, effective recourse, and financial education and awareness. They should likewise conform to the relevant provisions of Bangko Sentral outsourcing framework should they decide to outsource the conduct of social media-related activities to a service provider.

The use of social media platforms, including information gathered therein, for the conduct of account origination activities should comply with applicable rules and regulations, especially on the provisions relating to customer identification procedures under the existing anti-money laundering rules and regulations. In the event that BSFIs opt to use social media for processing financial transactions, the applicable Bangko Sentral rules and regulations on electronic payment and financial services and technology risk management should likewise be observed to ensure security, reliability and authenticity of such transactions.

The regulations mentioned herein are not exhaustive. It is the BSFI's responsibility to ensure that all applicable laws and regulations relevant to the activities it will choose to engage in using social media will be adequately complied with. Moreover, the BSFI is expected to stay abreast of and continuously adapt to changes in the regulatory requirements.

Supervisory enforcement actions. BSFIs should make available all policies and procedures and other documents/information related to the foregoing during the on-site examination as well as provide copies thereof when a written request is made to determine compliance.

Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence to the requirements set forth in this Section and bring about timely corrective actions. The Bangko Sentral may issue directives to improve the social media risk management system or impose monetary and non-monetary sanctions on a BSFI and/or its directors, officers and/or employees.

(Circular Nos. 1033 dated 22 February 2019 and 949 dated 15 March 2017)

150-Q MANAGEMENT OF INTEREST RATE RISK IN THE BANKING BOOK¹

Policy Statement. The Bangko Sentral recognizes that changes in the structure of QBs' balance sheets and movements in interest rates pose risks to earnings and economic value. In particular, excessive interest rate risk in the banking book (IRRBB) may result in a reduction in earnings or of capital. In this regard, the Bangko Sentral expects QBs to implement a comprehensive approach to risk management that ensures timely and effective identification, measurement, monitoring and control of IRRBB. QBs shall be guided by the standards on IRRBB management set out below.

General Principles

The guidelines on managing IRRBB set forth in this Section shall apply to all QBs. All QBs must adequately identify their IRRBB exposures and take appropriate steps to measure, monitor and control the risk. In managing IRRBB, QBs shall duly consider the overall impact of the QB's interest rate-sensitive assets, liabilities and off-balance sheet exposures over short-, medium-and long-term time horizons on their earnings and economic value. QBs shall ensure that the IRRBB management system is integrated into the overall risk management framework and strategic business planning process.

¹ Banks shall complete a gap analysis of the requirements of Sec. 150-Q vis-à-vis their existing risk management systems within six (6) months from 27 August 2019. The results of the gap analysis shall be documented and made available for review by the Bangko Sentral. QBs are expected to develop or make appropriate changes to their policies and procedures on the management of interest rate risk in the banking book by 1 January 2021.

The Bangko Sentral shall evaluate the adequacy and effectiveness of a QB's IRRBB management framework taking into account the size, complexity and nature of the QB's business activities.

Definitions

- a. *Interest rate risk in the banking book (IRRBB)* is the current and prospective risk to earnings and capital arising from adverse movements in interest rates that affect a QB's banking book positions. For purposes of these guidelines, three sub-types of IRRBB are identified: gap risk, basis risk, and option risk.
- b. *Gap risk* arises from the term structure of banking book instruments, and refers to the risk arising from the timing of instruments' rate changes. The extent of gap risk depends on whether changes to the term structure of interest rates occur consistently across the yield curve (parallel risk) or differentially by period (non-parallel risk).
- c. *Basis risk* refers to the impact of relative changes in interest rates for financial instruments that have similar tenors but are priced using different interest rate indices.
- d. *Option risk* arises from optional elements embedded in a QB's assets, liabilities and/or off-balance sheet items or option derivative positions, where the QB or its customer can alter the level and timing of their cash flows automatically or behaviorally.

Interest Rate Risk in the Banking Book Management Process

The management of IRRBB shall form part of the overall risk management framework. At a minimum, the process should:

- a. Identify IRRBB. Identifying current and prospective risk involves understanding the IRRBB arising from a QB's existing and new business activities, as well as the impact of hedges or risk management initiatives on exposures.
- b. Measure IRRBB. The measurement of IRRBB should enable QBs to quantify IRRBB and determine its impact on earnings and economic value. QBs should have the appropriate systems and tools to enable the timely and comprehensive measurement of risk.
- c. Control IRRBB. The control of IRRBB necessitates the establishment of internal policies on the extent of IRRBB that is acceptable to the Board on both solo and consolidated bases. The lines of authority and accountability should be clearly defined to ensure that IRRBB exposures remain reasonable and within the risk appetite statement of the board.
- d. Monitor IRRBB. Monitoring IRRBB requires timely reviews of interest rate risk positions. Monitoring reports should be comprehensive, timely and accurate in order to provide sufficient basis for sound business decisions.

Interest Rate Risk in the Banking Book Management Framework

A sound management system for IRRBB shall cover the following basic elements:

- a. Active board and senior management oversight;
- b. Adequate risk management policies and procedures;
- c. Appropriate limits structure, risk measurement methodologies, and monitoring and management information systems; and
- d. Comprehensive internal controls and independent audits.

QBs with simple operations may generally employ fundamental risk management practices while complex institutions are expected to adopt more sophisticated risk management frameworks. Banking groups shall take a comprehensive perspective in measuring and controlling risk by understanding how financial subsidiaries can magnify or reduce their consolidated IRRBBs.

- (1) Board and Senior Management Oversight¹

Responsibilities of the Board of Directors

The board of directors is ultimately responsible for the IRRBB assumed by the QB and the processes used to manage it. In this regard, the board shall:

¹ This section refers to a management structure composed of a board of directors and senior management. The Bangko Sentral is aware that there may be differences in some financial institutions as regards the organizational framework and functions of the board of directors and senior management. For instance, branches of foreign banks have boards of directors located outside of the Philippines that oversee multiple branches in various countries. In this case, "board-equivalent" committees are appointed. Owing to these differences, the notions of the board of directors and the senior management are used in these guidelines not to identify legal constructs but rather to label two decision-making functions within a financial institution.

- (a) Obtain an understanding of the nature and the level of the QB's IRRBB, and its potential linkages with other major risks of the QB (e.g., market, liquidity, credit and operational risks). The board should include members who have sufficient technical knowledge on financial instruments and risk management techniques. Collectively, the board should have the ability to question and challenge strategies and information on risk disclosed in management reports.
- (b) Establish the risk appetite for IRRBB and approve broad business strategies and policies relative to IRRBB. The risk appetite should be clearly articulated in terms of earnings, economic value, or both. The board should ensure that there is clear guidance regarding the acceptable level of IRRBB, given the bank's business strategies.
- (c) Identify and designate senior management personnel or expert individuals responsible for establishing and managing IRRBB positions with clear lines of authority. In the case of large institutions, such functions are usually delegated to the Asset and Liability Committee (ALCO). A simple QB¹ may not have an ALCO. In this case, the board should identify committees or units within the organization that shall be responsible for effectively performing asset and liability management. The board should also encourage discussions between its members and the senior management personnel, and between senior management personnel and other personnel of the QB (e.g., between risk management and the strategic planning units) on the IRRBB management process to facilitate the evaluation of risks arising from future business.
- (d) Ensure that the organizational structure of the QB facilitates effective decision-making and good governance. Responsibilities in key elements of the risk management process should be adequately segregated to avoid conflicts of interest. The IRRBB management functions should have clearly defined responsibilities that are sufficiently independent from risk-taking functions of the bank and should report IRRBB exposures directly to the board.
- (e) Approve significant strategies to hedge or manage IRRBB, including the instruments that are used to carry out the strategies.
- (f) Institute adequate systems and standards for measuring IRRBB, including the internal controls surrounding the development and updating of relevant key assumptions and stress scenarios.
- (g) Allocate adequate resources for the management of IRRBB. This includes ensuring that senior management and the relevant management committee have the technical capability and skills to understand and effectively manage IRRBB, and that management information systems that facilitate timely and comprehensive IRRBB reporting are continuously maintained.
- (h) Monitor the QB's performance and IRRBB profile and ensure that the level of IRRBB is maintained within the intended risk appetite and supported by adequate capital. The board shall review, at least quarterly, timely and sufficiently detailed reports to allow it to understand and assess the performance of senior management in monitoring and controlling IRRBB.

Responsibilities of Senior Management

Senior management is responsible for effectively executing business strategies within the IRRBB risk appetite approved by the board and for implementing the IRRBB risk management system. In this regard, senior management shall:

- (a) Implement a board-approved limits structure for IRRBB that incorporates appropriate processes on the resolution of limit breaches;
- (b) Develop and implement IRRBB policies and procedures that translate the board's goals, objectives and strategies into operating standards, and ensure that these are transmitted to and well-understood by all concerned business units and personnel;
- (c) Identify appropriate systems and standards for the measurement of IRRBB;
- (d) Develop asset-liability management strategies that judiciously take into account potential yield curve shifts that can impact the QB's earnings and economic value;
- (e) Meet regularly, in the case of a committee designated to manage IRRBB exposures;
- (f) Adhere to the lines of authority and responsibility that the board has established for managing IRRBB exposures;

¹ The classification of a QB as complex or non-complex/simple shall be in accordance with the criteria set out in Item "(d)" of Sec. 133-Q.

- (g) Inform the board of any new and emerging IRRBB concerns in a timely manner, based on the monitoring of trends and market developments that pose significant risk implications on the QB's business model and risk profile.

More detailed expectations on the areas under the responsibility of senior management are discussed in the succeeding sections of the guidelines.

(2) Risk Management Policies and Procedures and Limits Structure

A QB's policies and procedures for IRRBB management shall be comprehensive, clearly defined, documented and duly approved by the board. Policies should clearly define the process for achieving targeted structural repricing gaps vis-a-vis the expected movement in interest rates, hedging strategies, and the models to be used to quantify IRRBB. IRRBB policies should be reviewed at least annually and revised as needed.

Limits shall be consistent with the risk appetite set by the board and the QB's overall approach for measuring IRRBB. The limits shall likewise be appropriate to the nature, size, complexity and capital strength of the QB, as well as its ability to measure and manage these risks. Depending on the nature of a QB's activities and business model, sub-limits may also be identified for gap risks in individual currencies and booking units. The level of detail of risk limits should reflect the characteristics of the QB's IRRBB exposures. QBs with significant exposures to basis and option risk should consider establishing risk tolerances appropriate for these risks.

Aggregate risk limits should be applied on a consolidated basis and, as appropriate, at the level of individual financial subsidiaries. Limits should be developed with due regard to scenarios involving changes in interest rates and/or term structures. The interest rate movements used in developing these limits should represent meaningful and forward-looking shock and stress situations, taking into account the time required by management to mitigate those risk exposures.

There should be systems in place to ensure that positions that exceed, or are likely to exceed limits, receive prompt management attention and are escalated to appropriate authorities without delay. Policies should clearly address details on who shall be informed, how the communication should take place and what actions should be taken in response to an exception. Limits can be designated as absolute in the sense that they should never be exceeded. Policies may also establish when, under specific circumstances, breaches of limits can be tolerated for a predetermined short period of time. Moreover, the actions taken to resolve actual or potential limit breaches should be properly documented.

As part of its new product policy, management should require new products and activities that have a material impact on its IRRBB to undergo a careful review to ensure that the risk management system is capable of handling the IRRBB associated with those new businesses. Proposals to use new instrument types or new strategies (including hedging) should also be assessed to ensure that the resulting risks are still aligned with the QB's overall risk appetite.

(3) Risk Measurement Methodologies, Monitoring and Management Information System (MIS)

A QB's internal measurement systems (IMS) should capture all material sources of IRRBB and assess the effect of interest rate changes on earnings and/or economic value. The measurement of IRRBB should be based on outcomes arising from an appropriate range of interest rate shocks and stress scenarios. Measurement systems and models used for IRRBB should cover each currency in which a QB has material exposures. Currencies in which a QB has material exposure are those that account for at least five percent of either its total banking book assets or total banking book liabilities.

(a) Earnings-and Economic Value-Based Measures

There are two complementary measures of the potential impact of IRRBB: (a) changes in expected earnings (earnings-based measures); and (b) changes in economic value (EV, or EVE when measuring the change in value relative to equity).

(i) *Earnings-Based Measures*

Earnings-based measures focus on the impact of changes in interest rates on future accrued or reported earnings. These are better suited for measuring the short-and medium-term vulnerabilities, i.e., those occurring within the next three years.

In order to calculate changes in expected earnings under different interest rate shocks and stress scenarios, a QB should be able to project future earnings under both the expected economic scenario that informs its corporate plan and the interest rate shock and stress scenarios.

Depending on the complexity of its operations, a QB will need to develop assumptions on client/market behavior and the QB's own management response to the evolving economic climate, such as:

- (aa) The volume and type of new/replacement assets and liabilities expected to be originated over the evaluation period;
- (bb) The volume and type of asset and liability redemptions/reductions over that period;
- (cc) The interest rate basis and margin associated with the new assets and liabilities, and with those redeemed/withdrawn; and
- (dd) The impact of any fees collected/paid for exercise of options.

QBs may likewise model earnings under the following assumptions:

- (aa) Run-off balance sheet: existing assets and liabilities are not replaced as they mature, except to the extent necessary to fund the remaining balance sheet;
- (bb) Constant balance sheet: total balance sheet size and shape is maintained by assuming like-for-like replacement of assets and liabilities as they run off; and
- (cc) Dynamic balance sheet: incorporates future business expectations, adjusted for the relevant scenario in a consistent manner.

QBs are expected to use assumptions that are appropriate to the complexity, size and nature of its IRRBB exposures. For instance, a QB that has material exposures to complex products or option risk shall measure IRRBB under a dynamic balance sheet approach.

(ii) *Economic Value-Based Measures*

An EV-based measure of IRRBB represents an assessment of the present value of expected net cash flows, discounted to reflect market rates. As fluctuations in interest rates will affect a QB's earnings, they will also affect its net worth. Changes in economic value can be measured using a variety of techniques which differ in terms of complexity and ability to capture different types of interest rate sensitivity (i.e., gap risk, basis risk and option risk).

In coming up with present values, the relevant risk-free rate shall be used to formulate discount factors. The resulting weighted net positions across tenors are aggregated to determine the EVE in each currency under different shock scenarios.

(b) **Key Behavioral and Modeling Assumptions**

Behavioral assumptions and parameters are vital to both earnings-based and economic value-based measures, such as those relating to:

- (i) Treatment of balances and interest flows arising from non-maturity deposits (NMDs), term deposits that are redeemable ahead of their maturities, and fixed rate loans with pre-payment options for the borrower;
- (ii) Expectations for the exercise of interest rate options (explicit and embedded) by both the QB and its customers under specific interest rate shock and stress scenarios;
- (iii) Treatment of own equity in economic value measures;¹ and
- (iv) The implications of accounting standards that apply to banking book positions.

Thus, senior management is expected to exercise sound judgment in coming up with assumptions. Expectations on the treatment of certain products are set out below:

- (aa) NMDs – Banks should determine appropriate assumptions for NMDs. This entails a qualitative and/or quantitative analysis of the depositor base in order to measure the proportion of core deposits (i.e., NMDs which are unlikely to reprice even when there are significant changes in interest rate environment) and non-core deposits. Assumptions should vary according to depositor characteristics (i.e., retail/wholesale) and account characteristics (i.e., transactional/non-transactional, fixed rate/variable rate). Banks should distinguish between the stable and the non-stable parts of each NMD category using observed volume changes over a sufficient period of time, i.e., the past ten (10) years.

¹ Equity usually has a cost in the form of a dividend, and QBs seek to stabilize the earnings that can be made on assets funded by equity. Since equity capital has no contractual price reset date, QBs may determine their own strategies for managing the earnings volatility that arises from it using techniques similar to those for NMDs.

(bb) Term deposits subject to early redemption risk – Banks may attract deposits with a contractual maturity term or with step-up clauses that enable the depositor in different time periods to modify the speed of redemption. The classification scheme for identifying these products, possible instances when redemption is subject to penalties, as well as other contractual features preserving the cash flows profile of the instrument, should be supported by adequate documentation.

(cc) Fixed rate loans subject to prepayment risk – QBs should understand the nature of prepayment risk for their portfolios and make reasonable and prudent estimates of the expected prepayments. The assumptions underlying the estimates and possible cases where prepayment penalties or other contractual features affect the embedded optionality should be documented. Specifically, management must be capable of using those assumptions to assess the expected average prepayment speed under each identified scenario.

(c) Interest Rate Shock and Stress Scenarios

QBs should determine, by each material currency, a range of potential interest rate movements against which they will measure their IRRBB exposures. In choosing the appropriate scenarios, the board and senior management should consider the nature and sources of their IRRBB exposures and select the scenarios that provide meaningful estimates of risk. The scenarios should include a range of shocks that is sufficiently wide, possibly incorporating stress elements, to allow board and senior management to understand the risk inherent in the QB's balance sheet structure. The QB should likewise consider the shape and level of the term structure and volatility of interest rates that are relevant to its business model, the time needed to take action to reduce or unwind unfavorable IRRBB exposures, and its ability to withstand losses in order to reposition the risk profile.

In devising the appropriate shocks and stress scenarios for IRRBB, QBs should take the following into account:

- (i) Scenarios that identify parallel and non-parallel gap risk, basis risk and option risk. In many cases, static interest rate shocks may be insufficient to assess IRRBB exposure adequately. QBs should ensure that the scenarios are both severe and plausible, in light of the existing level of interest rates and the interest rate cycle;
- (ii) Instruments or markets where concentrations exist, because those positions may be more difficult to liquidate or offset in a stressful market environment;
- (iii) Possible interaction of IRRBB with related and other risks (e.g., credit risk, liquidity risk);
- (iv) Effect on net interest income of adverse changes in the spreads of new assets/liabilities replacing those assets/liabilities maturing over the horizon of the forecast;
- (v) Where a QB has significant option risk, scenarios that capture the exercise of such options. Given that the market value of options also fluctuates with changes in the volatility of interest rates, QBs should develop interest rate assumptions to measure their IRRBB exposures to changes in interest rate volatilities;
- (vi) The term structure of interest rates that will be incorporated and the basis relationship between yield curves and rate indices. QBs should also estimate how interest rates that are administered or managed by management (e.g., prime rates or retail deposit rates, as opposed to those that are purely market-driven) might change, and management should document how these assumptions are derived; and
- (vii) Forward-looking scenarios that incorporate changes in portfolio composition due to factors under the control of the QB (e.g., the QB's acquisition and production plans) as well as external factors (e.g., changing competitive, legal or tax environments), new products for which only limited historical data are available, and new market information and emerging risks that are not necessarily covered by historical stress episodes.

QBs shall likewise develop and implement an effective stress testing framework for IRRBB as part of their broader risk management and governance processes.¹ Stress tests for IRRBB should be commensurate to the nature, size, complexity, business model and overall risk profile of the QB. The framework should include clearly defined objectives together with scenarios tailored to the QB's risk profile and must be supported by sound methodologies and well-documented assumptions. Stress test

¹ The provisions on stress testing in these guidelines should be read in conjunction with Sec. 151 of the MORB on the Guidelines on the Conduct of Stress Testing Exercises.

results should feed into the strategic decision-making and limit setting processes undertaken by the board and senior management.

Stand-alone thrift, rural and cooperative banks should, at the minimum, measure and assess the impact of a 100-, 200-and 300-basis point movement in interest rates to their net interest income for the succeeding 12-month period. Further, these banks should develop bank-specific stress scenarios, such as an increasing competition, that may result in changes in the interest rates that they offer on their loans and deposits.

(d) Model Risk Governance

The validation of IRRBB measurement methods and assessment of corresponding model risks should be governed by a policy on model risk. Guidelines should specify management roles and designate the personnel responsible for the development, implementation and use of models. These should also specify model oversight responsibilities as well as internal policies for key processes such as initial and ongoing validation procedures, results evaluation, approval, version control, exception management, escalation, modification and decommissioning.

The model validation framework should incorporate: (i) evaluation of methodological soundness; (ii) model monitoring which includes process verification and benchmarking; and (c) outcome analysis that involves back-testing of key parameters. Prior to model usage, model inputs, assumptions, methodologies and outputs including those that were developed by third-party vendors should be subject to independent validation. The results of this validation should be presented to the board for approval. Subsequently, the model should be subject to periodic review and process verification to ensure its continuing relevance and the accuracy of model output.

(e) Risk Monitoring

Measurement outcomes of IRRBB and hedging strategies should be reported to the board on a regular basis, at relevant levels of aggregation, whether on a consolidated basis for a banking group or on a per currency basis for QBs having material positions on different currencies.

Reports submitted to the board should clearly compare current exposure with policy limits and should also disclose the results of the periodic model reviews and back-testing. While the types of reports prepared for the board will vary based on the QB's business model, these should, at a minimum include the following:

- (i) Summaries of aggregate IRRBB exposures highlighting the assets, liabilities, cash flows, and strategies that are driving the level and direction of risks;
- (ii) Reports on the results of the QB's risk metrics assessed in relation to the set limits and earnings or capital;
- (iii) Key modeling assumptions reflecting management's judgments (e.g., NMD characteristics, prepayments on fixed rate loans and currency aggregation) to disclose the limitations of the model;
- (iv) Results of stress tests, including assessment of sensitivity to key assumptions and parameters; and
- (v) Summaries of the reviews of IRRBB policies, procedures and adequacy of the measurement systems, including any findings of internal and external auditors and/or other equivalent external parties (such as consultants).

(f) Management Information Systems

A QB's MIS should allow it to retrieve accurate IRRBB information in a timely manner. The MIS should capture interest rate risk data on all the QB's material IRRBB exposures. There should be sufficient documentation of the major data sources used in the QB's risk measurement process. Data inputs should be automated to the extent possible to reduce administrative errors. Data mapping should be periodically reviewed and tested against an approved model version. A QB should monitor the type of data extracts and set appropriate controls.

Where cash flows are slotted into different time buckets (e.g., for gap analyses), the slotting criteria should be stable over time to allow for a meaningful comparison of risk figures over different periods.

(4) Internal Controls and Audit¹

A QB shall have adequate internal controls in place to protect the integrity of its IRRBB risk management processes. Approval processes, exposure limits, independent reviews and other mechanisms should be designed and implemented to provide the board and senior management with reasonable assurance that risk management objectives are being achieved.

Independent reviews should address significant changes that may affect the effectiveness of controls (including changes in market conditions, personnel, technology and structures of compliance with exposure limits), and verify that there are appropriate escalation procedures in place to resolve limit exceptions. When revisions or enhancements to internal controls are warranted, there should be an internal review mechanism in place to ensure that these are implemented in a timely manner.

Supervisory Framework. The Bangko Sentral shall employ a risk-based approach in assessing the level and trend of a QB's IRRBB and the adequacy and effectiveness of its IRRBB management process. This shall be done through a combination of on-site examinations and off-site reviews. This aims to ensure that a QB's earnings and capital are adequate relative to the size of its exposures.

The Bangko Sentral shall consider the following:

- a. The complexity of IRRBB risk management systems relative to the risk posed by assets, liabilities and off-balance sheet activities;
- b. The level of IRRBB in relation to earnings and capital;
- c. The effectiveness of hedging strategies used by management to manage IRRBB; and
- d. The adequacy and effectiveness of risk governance.

Universal and commercial banks are expected to demonstrate that their internal capital is commensurate with the level of IRRBB, taking into account the impact on internal capital of potential changes in the institution's economic value and/or future earnings resulting from changes in interest rates.

A significant change in NII relative to a QB's earnings and capital will not necessarily result in supervisory or enforcement action. It shall be subject to further evaluation by the Bangko Sentral, with particular consideration given to the factors driving the significant IRRBB. The Bangko Sentral may issue directives, as necessary, taking into consideration the business model of the QB, its strategic plans and market conditions.

Supervisory enforcement actions. Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in these guidelines and bring about timely corrective actions. If a QB's risk exposures are not well-managed, the Bangko Sentral may direct the QB to increase its capital, reduce its IRRBB exposures and/or strengthen its risk management system. The Bangko Sentral may likewise issue directives to limit the level of or suspend any business activity that has adverse effects on the safety and soundness of the QB, among others. Sanctions may likewise be imposed on the QB and/or its directors, officers and/or employees.

(Circular Nos. 1143 dated 12 April 2022 and 1044 dated 6 August 2019)

F. COMPLIANCE, INTERNAL CONTROL, AND AUDIT

161-Q COMPLIANCE FRAMEWORK

BSFIs shall establish a dynamic and responsive compliance risk management system. The compliance risk management system shall be designed to specifically identify and mitigate risks that may erode the franchise value of the BSFI such as risks of legal or regulatory sanctions, material financial loss, or loss to reputation, a BSFI may suffer as a result of its failure to comply with laws, rules, related self-regulatory organization standards, and codes of conduct applicable to its activities. Said risk may also arise from failure to manage conflict of interest, treat customers fairly, or effectively manage risks arising from money laundering and terrorist financing activities. Compliance risk management should be an integral part of the culture and risk governance framework of the BSFI. In this respect, it shall be the responsibility and shared accountability of all personnel, officers, and the board of directors.

Compliance function. The compliance function shall have a formal status within the organization. It shall be established by a charter or other formal document approved by the board of directors that defines the compliance function's standing, authority and independence. It shall have the right to obtain access to information necessary to carry out its responsibilities, conduct investigations of possible breaches of the compliance policy, and shall directly report to and have direct access to the board of directors or appropriate board-level committee.

¹ Refer also to Secs. 162-Q and 163-Q for the frameworks on Internal Control System and Internal Audit, respectively.

The compliance function shall facilitate effective management of compliance risk by:

- a. Advising the board of directors and senior management on relevant laws, rules and standards, including keeping them informed on developments in the area;
- b. Apprising BSFI personnel on compliance issues, and acting as a contact point within the BSFI for compliance queries from BSFI personnel;
- c. Establishing written guidance to staff on the appropriate implementation of laws, rules and standards through policies and procedures and other documents such as compliance manuals, internal codes of conduct and practice guidelines;
- d. Identifying, documenting and assessing the compliance risks associated with the BSFI's business activities, including new products and business units;
- e. Assessing the appropriateness of the BSFI's compliance procedures and guidelines, promptly following up any identified deficiencies, and where necessary, formulating proposals for amendments;
- f. Monitoring and testing compliance by performing sufficient and representative compliance testing; and
- g. Maintaining a constructive working relationship with the Bangko Sentral and other regulators.

Compliance program. The compliance program shall set out the planned activities of the compliance function, such as the review and implementation of specific policies and procedures; compliance risk assessment; compliance testing; educating staff on compliance matters; monitoring compliance risk exposures; and reporting to the board of directors or board-level committee. The program shall espouse a risk-based approach and shall have appropriate coverage across businesses and units. For this purpose, the compliance program shall be updated on a regular basis or at least annually.

Chief Compliance Officer (CCO). The CCO should have the necessary qualifications, experience, and professional background and should have a sound understanding of relevant laws and regulations and their potential impact on the BSFI's operations. The CCO should be up-to-date with the developments in laws, rules and standards maintained through continuous training. BSFIs shall appoint a CCO who shall serve on a full-time basis and shall functionally report to the board of directors or board-level committee. BSFIs operating on a business model deemed simple by the Bangko Sentral, by virtue of their scale and complexity of activities, may designate its Internal Auditor to serve as the CCO in concurrent capacity.

An appointed CCO has the burden to prove that he possesses all the minimum qualifications and none of the disqualifications by submitting to the Bangko Sentral proof of such qualifications¹. Non-submission of complete documentary requirements within the prescribed period shall be construed as his failure to establish his qualifications for the positions and results in his removal as CCO. The Bangko Sentral shall also consider its own records in determining the qualifications of a CCO.

The CCO shall oversee the identification and management of the BSFI's compliance risk and shall supervise the compliance function staff. He is expected to liaise with the Bangko Sentral on compliance related issues and shall also be responsible for ensuring the integrity and accuracy of all documentary submissions to the Bangko Sentral. He shall functionally meet/report to the board of directors or board-level committee and such meetings shall be duly minuted and adequately documented. In this regard, the board of directors/board-level committee shall review and approve the performance and compensation of the CCO as well as the budget of the compliance function.

Responsibilities of the board of directors and senior management. Aside from the duties and responsibilities of the board of directors mentioned under Sec. 132-Q, the board of directors shall ensure that a compliance program is defined for the BSFI and that compliance issues are resolved expeditiously. For this purpose, a board-level committee, chaired by a non-executive director, shall oversee the compliance program.

The board of directors shall ensure that BSFI personnel and affiliated parties adhere to the pre-defined compliance standards of the BSFIs rests collectively with senior management, of which the CCO is the lead operating officer on compliance. Senior management, through the CCO, should periodically report to the board of directors or its designated committee matters that affect the design and implementation of the compliance program.

Any changes, updates and amendments to the compliance program must be approved by the board of directors. However, any material breaches of the compliance program shall be reported to and promptly addressed by the CCO within the mechanisms defined by the compliance manual. A compliance system found to be materially inadequate shall be construed as conducting business in an unsafe or unsound manner.

Cross-border compliance issues. The compliance function for institutions that conduct business in other jurisdictions should be structured to ensure that local compliance concerns are satisfactorily addressed within the framework of the compliance policy for the organization as a whole. As there are significant differences in legislative and regulatory frameworks across countries or from jurisdiction to jurisdiction, compliance issues specific to each jurisdiction should be coordinated within the structure of the institution's group-wide compliance policy. The organization and structure of the compliance function and its responsibilities should be in accordance with local legal and regulatory requirements.

¹ Using the list in *Appendix Q-58* as a guide.

Outsourcing of compliance risk assessment and testing. The review, assessment and testing of the compliance program may be outsourced to qualified third parties. The handling and management of this outsourcing arrangement shall be governed by Sec. 111-Q.

(Circular Nos. 972 dated 22 August 2017 and 893 dated 16 November 2015)

162-Q INTERNAL CONTROL FRAMEWORK

Internal control is a process designed and effected by the board of directors, senior management, and all levels of personnel to provide reasonable assurance on the achievement of objectives through efficient and effective operations; reliable, complete and timely financial and management information; and compliance with applicable laws, regulations, supervisory requirements, and the organization's policies and procedures.

QBs shall have in place adequate and effective internal control framework for the conduct of their business taking into account their size, risk profile and complexity of operations. The internal control framework shall embody management oversight and control culture; risk recognition and assessment; control activities; information and communication; and monitoring activities and correcting deficiencies.

Management oversight and control culture. Consistent with the principles provided under Secs. 132-Q and 134-Q, the board of directors and senior management shall be responsible for promoting high ethical and integrity standards; establishing the appropriate culture that emphasizes, demonstrates and promotes the importance of internal control; and designing and implementing processes for the prevention and detection of fraud.

- a. The board of directors shall be ultimately responsible for ensuring that senior management establishes and maintain an adequate, effective and efficient internal control framework commensurate with the size, risk profile and complexity of operations of the QB. The board of directors shall also ensure that the internal audit function has an appropriate stature and authority within the QB and is provided with adequate resources to enable it to effectively carry-out its assignments with objectivity.

Further, the board of directors shall, on a periodic basis:

- (1) conduct discussions with management on the effectiveness of the internal control system;
 - (2) review evaluations made by the audit committee on the assessment of effectiveness of internal control made by management, internal auditors and external auditors;
 - (3) ensure that management has promptly followed up on recommendations and concerns expressed by auditors and supervisory authorities on internal control weaknesses; and
 - (4) review and approve the remuneration of the head and personnel of the internal audit function. Said remuneration shall be in accordance with the QB's remuneration policies and practices and shall be structured in such a way that these do not create conflicts of interest or compromise independence and objectivity.
- b. The audit committee shall be responsible for overseeing senior management in establishing and maintaining an adequate, effective and efficient internal control framework. It shall ensure that systems and processes are designed to provide assurance in areas including reporting, monitoring compliance with laws, regulations and internal policies, efficiency and effectiveness of operations and safeguarding of assets.

The audit committee shall oversee the internal audit function and shall be responsible for:

- (1) monitoring and reviewing the effectiveness of the internal audit function;
- (2) approving the internal audit plan, scope and budget;
- (3) reviewing the internal audit reports and the corresponding recommendations to address the weaknesses noted, discussing the same with the head of the internal audit function and reporting significant matters to the board of directors;
- (4) ensuring that the internal audit function maintains an open communication with senior management, the audit committee, external auditors, and the supervisory authority;
- (5) reviewing discoveries of fraud and violations of laws and regulations as raised by the internal audit function;
- (6) reporting to the board of directors the annual performance appraisal of the head of the internal audit function;

- (7) recommending for approval of the board of directors the annual remuneration of the head of the internal audit function and key internal auditors;
- (8) appointing, reappointing or removing the head of the internal audit function and key internal auditors; and
- (9) selecting and overseeing the performance of the internal audit service providers.

In particular, the audit committee shall be responsible for:

- (1) ensuring the independence of the internal audit service provider;
 - (2) reporting to the board of directors on the status of accomplishments of the outsourced internal audit activities, including significant findings noted during the conduct of the internal audit;
 - (3) ensuring that the internal audit service provider comply with sound internal auditing standards such as the Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing and other supplemental standards issued by regulatory authorities/government agencies, as well as with relevant code of ethics;
 - (4) ensuring that the audit plan is aligned with the overall plan strategy and budget of the bank and is based on robust risk assessment; and
 - (5) ensuring that the internal audit service provider has adequate human resources with sufficient qualifications and skills necessary to accomplish the internal audit activities.
- c. Senior management shall be responsible for maintaining, monitoring and evaluating the adequacy and effectiveness of the internal control system on an ongoing basis, and for reporting on the effectiveness of internal controls on a periodic basis. Management shall develop a process that identifies, measures, monitors and controls risks that are inherent to the operations of the QB; maintain an organizational structure that clearly assigns responsibility, authority and reporting relationships; ensure that delegated responsibilities are effectively carried out; implement internal control policies and ensure that activities are conducted by qualified personnel with the necessary experience and competence. Management shall ensure that QB personnel undertake continuing professional development and that there is an appropriate balance in the skills and resources of the front office, back office, and control functions. Moreover, Management shall promptly inform the internal audit function of the significant changes in the QB's risk management systems, policies and processes.
- d. All personnel need to understand their roles and responsibilities in the internal control process. They should be fully accountable in carrying out their responsibilities effectively and they should communicate to the appropriate level of management any problem in operations, action or behavior that is inconsistent with documented internal control processes and code of ethics.

Risk recognition and assessment. An effective internal control system shall identify, evaluate and continually assess all material risks that could affect the achievement of the QB's performance, information and compliance objectives. The potential for fraud shall be considered in assessing the risks to the achievement of said objectives. Further, the risk assessment shall cover all risks facing the QB, which include, among others, credit; country and transfer; market; interest rate; liquidity; operational; compliance; legal; and reputational risks.

Effective risk assessment identifies and considers both internal (e.g., complexity of the organization's structure, nature of the QB's activities and personnel profile) and external (e.g., economic conditions, technological developments and changes in the industry) factors that could affect the internal control framework. The risk assessment shall be conducted at the level of individual business units and across all QB activities/groups/units and subsidiaries, in the case of a parent bank. Internal controls shall be revised to address any new or previously uncontrolled or unidentified risks.

Control activities. Control activities shall form part of the daily activities of the bank and all levels of personnel in the QB. Control activities are designed and implemented to address the risks identified in the risk assessment process. These involve the establishment of control policies and procedures, and verification that these are being complied with.

QBs shall have in place control activities defined at every business level, which shall include a system that provides for top and functional level reviews; checking compliance with exposure limits and follow-up on non-compliance; a system of approvals and authorizations, which shall include the approval process for new products and services; and a system of verification and reconciliation.

Control activities complement existing policies, procedures and other control systems in place such as, among others, having clearly defined organizational structure and reporting lines, and arrangements for delegating authority; adequate accounting policies, records and processes; robust physical and environmental controls for tangible assets and access controls to information assets; and appropriate segregation of conflicting functions.

- a. *Clear arrangements for delegating authority.* The functions and scope of authority and responsibility of each personnel should be adequately defined, documented and clearly communicated. The extent to which authorities may be delegated and the corresponding accountabilities of the personnel involved shall be approved by the appropriate level of management or the board of directors.
- b. *Adequate accounting policies, records and processes.* QBs shall maintain adequate financial policies, records and processes. These records shall be kept up-to-date and contain sufficient detail to establish an audit trail. Further, QBs shall conduct independent balancing and reconciliation of records and reports to ensure the integrity of the reported data and balances. QBs shall also put in place a reliable information system that covers all of its significant activities which shall allow the board of directors and management access to data and information relevant to decision making such as, among others, financial, operations, risk management, compliance and market information. Moreover, these systems shall be secured, monitored independently and supported by adequate contingency arrangements.
- c. *Robust physical and environmental controls to tangible assets and access controls to information assets.* QBs shall adopt policies and practices to safeguard their tangible and information assets. These shall include, but shall not be limited to:
 - (1) identifying officers with authorities to sign for and on behalf of the QB. Signing authorities shall be approved by the board of directors and the extent of authority at each level shall be clearly defined;
 - (2) implementing joint custody on certain assets. Joint custody shall mean the processing of transactions in the presence, and under the direct observation of a second person. Both persons shall be equally accountable for the physical protection of the items and records involved: *Provided*, That persons who are related to each other within the third degree of consanguinity or affinity shall not be made joint custodians;
 - (3) adopting dual control wherein the work of one (1) person is to be verified by a second person to ensure that the transaction is properly authorized, recorded and settled;
 - (4) incorporating sequence number control in the accounting system which shall also be used in promissory notes, checks and other similar instruments. Management shall also put in place appropriate controls to monitor the usage, safekeeping and recording of accountable forms;
 - (5) restricting access to information assets by classifying information as to degree of sensitivity and criticality and identifying information owners or personnel with authorities to access particular classifications based on job responsibilities and the necessity to fulfill one's duties; and
 - (6) implementing authentication and access controls prior to granting access to information such as, among others, implementing password rules. This shall be supplemented by appropriate monitoring mechanisms that will allow audit of use of information assets.
- d. *Segregation of conflicting functions.* QBs shall ensure that areas of potential conflicts of interest shall be identified, minimized and subjected to independent monitoring. Further, appropriate segregation of functions shall be observed in identified areas that may pose potential conflict of interest. Moreover, periodic reviews of responsibilities and functions shall be conducted to ensure that personnel are not in a position to conceal inappropriate actions.

Examples of internal control measures are in *Appendix Q-72*.

Information and communication. An effective internal control system requires that there are adequate and comprehensive internal financial, operational and compliance data, as well as external information about events and conditions that are relevant to decision making. Information shall be reliable, timely, accessible, and provided in a consistent format. QBs shall have in place a reliable management information system that covers significant activities of the QB and has the capability to generate relevant and quality information to support the functioning of internal control.

QBs shall also establish effective channels of communication to ensure that all personnel fully understand and adhere to policies and procedures and control measures relevant to their duties and responsibilities and that relevant information is reaching the appropriate personnel. Management shall also ensure that all personnel are cognizant of their duty to promptly report any deficiency to appropriate levels of management or to the board of directors, where required. These shall enable them to quickly respond to changing conditions and avoid unnecessary costs.

Monitoring activities and correcting deficiencies. The overall effectiveness of the internal controls shall be monitored on an ongoing basis. Monitoring functions and activities shall be adequately defined by management, integrated in the operating environment and should produce regular reports for review. In this regard, all levels of review shall be adequately documented and results thereof reported on a timely basis to the appropriate level of management.

Evaluations of the effectiveness of the internal control system and the corresponding monitoring activities may be done by personnel from the same operational area in the form of self-assessment or from other areas such as internal audit: *Provided, That*, self-assessment done by business units shall be subject to independent validation.

Evaluations done shall be adequately documented and internal control deficiencies and weaknesses identified shall be reported on a timely basis to the appropriate level of management or the board of directors, where necessary, and addressed promptly.

(Circulars Nos. 970 dated 22 August 2017 and 871 dated 05 March 2015)

163-Q INTERNAL AUDIT FUNCTION

Internal audit is an independent, objective assurance and consulting function established to examine, evaluate and improve the effectiveness of internal control, risk management and governance systems and processes of an organization, which helps management and the board of directors in protecting the QB and its reputation. The internal audit function shall both assess and complement operational management, risk management, compliance and other control functions. In this respect, internal audit shall be conducted in frequencies commensurate with the assessed levels of risk in specific areas.

- a. *Permanency of the internal audit function.* Each QB shall have a permanent internal audit function. In the case of group structures involving a parent bank and subsidiary or affiliate Bangko Sentral supervised financial institutions (BSFIs), the internal audit function shall either be established in each of the BSFI or centrally by the parent bank.
- b. *Internal audit function in group structures.* In case each BSFI belonging to group structures has its own internal audit function, said internal audit function shall be accountable to the financial institution's own board of directors and shall likewise report to the head of the internal audit function of the parent bank within a reasonable period and frequency prescribed by the board of directors of the parent bank.

On the other hand, in case the parent bank's internal audit function shall cover the internal audit activities in the subsidiary or affiliate BSFI, the board of directors of the parent bank shall ensure that the scope of internal audit activities is adequate considering the size, risk profile and complexity of operations of the subsidiary or affiliate concerned.

The establishment of internal audit function centrally by the parent bank in group structures shall not fall under the outsourcing framework as provided under Sec. 111-Q. In this respect, the head of the internal audit function of the parent bank shall define the internal audit strategies, methodology, scope and quality assurance measures for the entire group: *Provided, That* this shall be done in consultation and coordination with the respective board of directors and of the subsidiary or affiliate BSFI: *Provided, further, That* the board of directors of the subsidiary or affiliate BSFI, shall remain ultimately responsible for the performance of the internal audit activities.

- c. *Outsourcing of internal audit activities.* QBs that are not part of group structures may outsource, in accordance with existing Bangko Sentral regulations on outsourcing, internal audit activities covering all areas of its operations: *Provided, That* the board of directors of the QB shall remain ultimately responsible for the conduct of effective internal audit *Provided, further, That* the internal audit activities shall not be outsourced to the QB's own external auditor/audit firm nor to internal audit service provider that was previously engaged by the QB in the same area intended to be covered by the internal audit activity that will be outsourced, without a one-year "cooling off" period.

Qualifications of the head of the internal audit function. The head of the internal audit function must have an unassailable integrity, relevant education/experience/training, and has an understanding of the risk exposures of the QB, as well as competence to audit all areas of its operations. He must also possess the following qualifications:

- a. The head of the internal audit function of a UB or a KB must be a Certified Public Accountant (CPA) or a Certified Internal Auditor (CIA) and must have at least five (5) years experience in the regular audit (internal or external) of a UB or KB as auditor-in-charge, senior auditor or audit manager. He must possess the knowledge, skills, and other competencies to examine all areas in which the institution operates. Professional competence as well as continuing training and education shall be required to face up to the increasing complexity and diversity of the institution's operations.
- b. The head of the internal audit function of a complex TB, RB and Coop Bank; QB and; trust entity must be a graduate of any accounting, business, finance or economics course with technical proficiency on the conduct of internal audit and must have at least five (5) years experience in the regular audit (internal or external) of a TB, national Coop Bank, QB or trust entity or, at least three (3) years experience in the regular audit (internal or external) of a UB or KB.
- c. The head of the internal audit function of a simple or non-complex TB, RB and Coop Bank; and NSSLA must be a graduate of any accounting, business, finance or economics course with technical proficiency on the conduct of internal audit and must have at least two (2) years experience in the regular audit (internal or external) of a UB, KB, TB, RB, Coop Bank, QB or NSSLA.

A qualified head of the internal audit function of a UB or a KB shall be qualified to audit TBs, RB, Coop Banks, QBs, trust entities, NSSLAs, subsidiaries and affiliates engaged in allied activities, and other financial institutions under Bangko Sentral supervision. A qualified internal auditor of a complex TB, RB, and Coop Bank; QB and; trust entity shall likewise be qualified to audit non-complex TB, RB and Coop Bank and NSSLAs.

The head of the internal audit function shall be appointed/reappointed or replaced with prior approval of the audit committee. In cases when the head of the internal audit function will be replaced, the QB shall report the same and the corresponding reason for replacement, to the appropriate supervising department of the Bangko Sentral within five (5) days from the time it has been approved by the board of directors.

Duties and responsibilities of the head of the internal audit function or the chief audit executive.

- a. To demonstrate appropriate leadership and have the necessary skills to fulfill his responsibilities for maintaining the unit's independence and objectivity;
- b. To be accountable to the board of directors or audit committee on all matters related to the performance of its mandate as provided in the internal audit charter. The head of the internal audit function shall submit a report to the audit committee or board of directors on the status of accomplishments of the internal audit unit, including findings noted during the conduct of the internal audit as well as status of compliance of departments/units concerned.
- c. To ensure that the internal audit function complies with sound internal auditing standards such as the Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing and other supplemental standards issued by regulatory authorities/government agencies, as well as with relevant code of ethics;
- d. To develop an audit plan based on robust risk assessment, including inputs from the board of directors, audit committee and senior management and ensure that such plan is comprehensive and adequately covers regulatory matters. The head of the internal audit function shall also ensure that the audit plan, including any revisions thereto, shall be approved by the audit committee;
- e. To ensure that the internal audit function has adequate human resources with sufficient qualifications and skills necessary to accomplish its mandate. In this regard, the head of the internal audit function shall periodically assess and monitor the skill-set of the internal audit function and ensure that there is an adequate development program for the internal audit staff that shall enable them to meet the growing technical complexity of banking operations.

Professional competence and ethics of the internal audit function. The internal audit function shall be comprised of professional and competent individuals who collectively have the knowledge and experience necessary in the conduct of an effective internal audit on all areas of QB's operations. The skill set of the internal audit staff shall be complemented with appropriate audit methodologies and tools as well as sufficient knowledge of auditing techniques in the conduct of audit activities.

All internal audit personnel shall act with integrity in carrying-out their duties and responsibilities. They should respect the confidentiality of information acquired in the course of the performance of their duties and should not use it for personal gain or malicious actions. Moreover, internal audit personnel shall avoid conflicts of interest. Internally-recruited internal auditors shall not engage in auditing activities for which they have had previous responsibility before a one-year "cooling off" period has elapsed. The internal audit personnel shall adhere at all times to the QB's Code of Ethics as well as to an established code of ethics for internal auditors such as that of the Institute of Internal Auditors.

Independence and objectivity of the internal audit function. The internal audit function must be independent of the activities audited and from day-to-day internal control process. It must be free to report audit results, findings, opinions, appraisals and other information through clear reporting line to the board of directors or audit committee. It shall have authority to directly access and communicate with any officer or employee, to examine any QB, as well as to access any records, files or data whenever relevant to the exercise of its assignment.

If independence or objectivity of internal audit function is impaired, in fact or appearance, the details of the impairment must be disclosed to the audit committee. Impairment to organizational independence and individual objectivity may include, but is not limited to, personal conflict of interest, scope limitations, restrictions on access to records, personnel, and properties, and resource limitations, such as funding.

The internal audit function shall inform senior management of the results of its audits and assessment. Senior management may consult the internal auditor on matters related to risks and internal controls without tainting the latter's independence: *Provided*, That the internal auditor shall not be involved in the development or implementation of policies and procedures, preparation of reports or execution of activities that fall within the scope of his review.

Staff of the internal audit function shall be periodically rotated, whenever practicable, and without jeopardizing competence and expertise to avoid unwarranted effects of continuously performing similar tasks or routine jobs that may affect the internal auditor's judgment and objectivity.

Internal audit charter. QBs shall have an internal audit charter approved by the board of directors. The internal audit charter shall be periodically reviewed by the head of the internal audit function and any changes thereto shall be approved by the board of directors.

The internal audit charter shall establish, among others, the following:

- a. Purpose, stature and authority, and responsibilities of the internal audit function as well as its relations with other control functions in the QB. The charter shall recognize the authority of the internal audit function, to initiate direct communication with any QB personnel; to examine any activity or entity; and to access any records, files, data and physical properties of the QB, in performing its duties and responsibilities;
- b. Standards of independence, objectivity, professional competence and due professional care, and professional ethics;
- c. Guidelines or criteria for outsourcing internal audit activities to external experts;
- d. Guidelines for consulting or advisory services that may be provided by the internal audit function;
- e. Responsibilities and accountabilities of the head of the internal audit function;
- f. Requirement to comply with sound internal auditing standards such as the Institute of Internal Auditor's International Standards for the Professional Practice of Internal Auditing and other supplemental standards issued by regulatory authorities/government agencies, as well as with relevant code of ethics; and
- g. Guidelines for coordination with the external auditor and supervisory authority.

Scope. All processes, systems, units, and activities, including outsourced services, shall fall within the overall scope of the internal audit function. The scope of internal audit shall cover, among others, the following:

- a. Evaluation of the adequacy, efficiency and effectiveness of internal control, risk management and governance systems in the context of current and potential future risks;
- b. Review of the reliability, effectiveness and integrity of management and financial information systems, including the electronic information system and electronic banking services;
- c. Review of the systems and procedures of safeguarding the QB's physical and information assets;
- d. Review of compliance of trading activities with relevant laws, rules and regulations;
- e. Review of the compliance system and the implementation of established policies and procedures; and
- f. Review of areas of interest to regulators such as, among others monitoring of compliance with relevant laws, rules and regulations, including but not limited to the assessment of the adequacy of capital and provisions; liquidity level; regulatory and internal reporting.

(Circular No. 871 dated 05 March 2015)

164-Q FRAMEWORK ON THE SELECTION OF EXTERNAL AUDITORS

Policy Statement. The Bangko Sentral considers the external auditing profession as a partner in promoting the integrity of financial reports and transparency in the financial system. In this light, the Bangko Sentral is issuing this framework on the selection of external auditors (individual practitioners and audit firms) for Bangko Sentral Supervised Financial Institutions (BSFIs) in line with its cooperative arrangements with the Securities and Exchange Commission (SEC), Insurance Commission (IC), and Philippine Deposit Insurance Corporation (PDIC), under the auspices of the Financial Sector Forum (FSF).

Appointment of External Auditors of BSFIs

- a. BSFIs shall engage the services of an external auditor included in the List of Selected External Auditors for BSFIs. In this respect, a BSFI shall only appoint an external auditor belonging to the same category or from categories higher than the category of the BSFI concerned as provided in this section: *Provided*, That the Monetary Board may require the BSFI to appoint an external auditor from higher categories as part of the Bangko Sentral's supervisory action on the BSFI. The external auditor appointed by the BSFI shall likewise audit the BSFI's trust department as well as its subsidiaries and affiliates engaged in allied activities, as applicable.
- b. External Auditors shall be classified into three categories and shall extend their services to BSFIs belonging to the same category or from categories lower than the category of the external auditor, as follows:

- (1) Group A
 - (a) UBs/KBs
 - (b) Foreign banks and branches or subsidiaries of foreign banks
 - (c) Banks, trust departments and trust corporations with additional derivatives authority, pursuant to Sec. 613.
- (2) Group B
 - (a) TBs
 - (b) NBFIs with quasi-banking license
 - (c) Trust departments and trust corporations
- (3) Group C
 - (a) RBs and Coop Banks
 - (b) Non-stock Savings and Loan Associations
 - (c) Pawnshops
 - (d) Remittance and Transfer Companies (RTCs)/Money Changers/Foreign Exchange Dealers (MCs/FXDs), including Virtual Currency Exchanges and Electronic Money Issuers
 - (e) Credit Card Issuers/Acquirers

The above categories shall include their subsidiaries and affiliates engaged in allied activities and other financial institutions subject to Bangko Sentral's consolidated supervision.

- c. External auditors applying for first time inclusion or renewal of inclusion in the List of Selected External Auditors for BSFIs shall submit their application to the SEC. The application shall be subject to the requirements set out by the SEC as agreed upon by the Bangko Sentral, SEC, IC and PDIC.
- d. The inclusion in the List of Selected External Auditors for BSFIs shall be valid for five (5) years or for a shorter period prescribed by the financial sector supervisors.
- e. The Bangko Sentral shall periodically evaluate the performance of the external auditor through an assessment of the quality of the BSFI's audited financial statements and its compliance with the requirements provided under this Section. The results of assessment shall serve as basis for the continuing inclusion of external auditors in the List of Selected External Auditors for BSFIs.
- f. The external auditor, including the engagement and quality control partners of the audit firm, of the BSFI shall be rotated in accordance with the relevant provisions of the Code of Ethics for Professional Accountants in the Philippines as adopted by the Philippine Board of Accountancy.

Audit Engagement and Reportorial Requirements

- a. The BSFI's Audit Committee/board of directors/board of trustees shall ensure that the scope of external audit work appropriately covers areas relevant to BSFI's operations and risk exposures. These include the following:
 - (1) Review of the adoption of applicable reporting framework as well as the assessment of the accuracy, adequacy, and reliability of accounting records and financial reports;
 - (2) Assessment of the propriety and adequacy of disclosures in the financial statements;
 - (3) Assessment of the adequacy and effectiveness of internal controls and risk management systems;
 - (4) Assessment of the quality of capital in relation to risk exposures; and
 - (5) Evaluation of the quality of corporate governance.
- b. The engagement contract of BSFIs with the external auditor shall include, at a minimum, the following provisions:
 - (1) That disclosure of information, such as those enumerated under Item "c" of this Section (Audit engagement and reportorial requirements), by the external auditor to the Bangko Sentral and/or other financial sector supervisors shall not constitute a breach of confidentiality on the part of the external auditor nor shall it be a ground for civil, criminal, or disciplinary proceedings against the external auditor;
 - (2) That the external auditor shall be allowed read-only access to the Bangko Sentral's Report of Examination on the BSFI and that the external auditor shall appropriately consider the contents thereof and maintain its confidentiality; and
 - (3) That the BSFI concerned and external auditor shall comply with all the requirements under this Section.

The engagement contract shall be made available by the BSFI to the Bangko Sentral upon request.

- c. The external auditor shall report to the appropriate supervising department of the Bangko Sentral within fifteen (15) calendar days upon discovery of any matter adversely affecting the condition or soundness of the BSFI, such as, but not limited to the following cases:
 - (1) Any material finding involving fraud or error;
 - (2) Actual or potential losses, the aggregate of which amounts to at least ten percent (10%) of the consolidated total assets of the BSFI;
 - (3) Significant doubt as to the ability of the BSFI to continue as a going concern;
 - (4) Material breach of laws or Bangko Sentral rules and regulations such as but not limited to prescribed capital and liquidity ratios, significant deficiency in allowance for credit losses, material weaknesses in fair value measurement methodology, and significant vulnerabilities to money laundering and combating the financing of terrorism;
 - (5) Material internal control weaknesses which may lead to financial reporting problems; and
 - (6) Findings on matters of corporate governance that may require urgent action by the Bangko Sentral.

Where a thorough investigation or evaluation of facts is necessary on the noted case, an initial report shall be submitted within the prescribed timeline: *Provided*, That a complete report is submitted not later than fifteen (15) calendar days from completion of investigation or evaluation.

In case there are no matters to report, the external auditor shall submit to the appropriate supervising department of the Bangko Sentral, not later than 120 calendar days after the close of the calendar year or the fiscal year adopted by the BSFI, a certification that there is none to report.

- d. The board of directors and management of the BSFI shall be primarily responsible for the financial statements submitted to the Bangko Sentral. External auditors are expected to conduct the audit of financial statements in accordance with the provisions of the Philippine Standards on Auditing.
- e. The external auditor shall directly inform the appropriate supervising department of the Bangko Sentral of the pre-termination of the engagement contract or his/her resignation/replacements as external auditor as well as the reasons thereto, within fifteen (15) calendar days of the pre-termination of the contract or his/her resignation/replacement.

Supervisory Enforcement Action

The Bangko Sentral reserves the right to deploy its range of supervisory enforcement actions to promote adherence with the requirements set forth in this Section and bring about timely corrective actions. For this purpose, the Bangko Sentral may issue directives or impose sanctions on BSFIs and/or its directors/trustees who approved the appointment of the external auditor, who/which are not in the List of Selected External Auditors for BSFIs, and/or for non-compliance with the provisions of this Section. The Bangko Sentral may likewise shorten the period of validity of inclusion of an external auditor in the List of Selected External Auditors for BSFIs, suspend, or delist external auditors from its List of Selected External Auditors for BSFIs based on the results of assessment of the quality of audited financial statements (AFS) as well as non-compliance with the provisions of this Section.

Transitory provisions

- a. External auditors whose inclusion in the List of Selected External Auditors for BSFIs is valid to cover the audit of 2018 financial statements are hereby given one (1) year extension on their inclusion in the List of Selected External Auditors for BSFIs allowing them to engage in the audit of the 2019 financial statements.
- b. All applications (new and renewal) for inclusion in the List of Selected External Auditors for BSFIs to cover in the audit of 2020 financial statements and thereafter shall be filed with the SEC starting June 2019.

(Circular No. 1040 dated 20 May 2019)

G. REPORTING GOVERNANCE

171-Q RECORDS

QBs shall have a true and accurate account, record or statement of their daily transactions. For this purpose, the definition of records under Sec. 001-Q shall apply. The making of any false entry or the willful omission of entries relevant to any transaction is a ground for the imposition of administrative sanctions under Section 37 of R.A. No. 7653, without

prejudice to the criminal liability of the director or officer responsible therefor under Sections 35 and 36 of R.A. No. 7653 and/or the applicable provisions of the Revised Penal Code. Records shall be up-to-date and shall contain sufficient detail so that an audit trail is established.

Records shall be retained for a period of at least five (5) years, unless they are otherwise required by law or other regulations, or as directed by the Bangko Sentral to be retained for a longer period. However, records which are the subject of, or are pertinent to, an issue that has been raised during a Bangko Sentral examination shall be preserved until such time that the issue has been fully resolved with finality by the Bangko Sentral.

Uniform system of accounts. QBs shall strictly adopt/implement the Uniform System of Accounts prescribed for QBs in the recording of daily transactions including reportorial and publication requirements.

Philippine Financial Reporting Standards/Philippine Accounting Standards.

Policy statement. It is the thrust of the Bangko Sentral to align its financial reporting requirements with standards and practices that are widely accepted internationally to promote fairness, transparency, and accountability in the financial industry. In this light, the Bangko Sentral is issuing guidelines governing the adoption of the PFRS, aimed at ensuring consistency of application and comparability of financial reports across the industry.

- a. **Adoption of PFRS.** Bangko Sentral Supervised Financial Institutions (BSFIs) shall adopt PFRS in recording transactions and in the preparation of financial statements and reports to the Bangko Sentral. However, in cases where there are differences between Bangko Sentral regulations and PFRS as when more than one (1) option are allowed or certain maximum or minimum limits are prescribed by PFRS, the option or limit prescribed by the Bangko Sentral shall be adopted by BSFIs. These include the accounting treatment of "Government Grants".

Government grants extended in the form of loans bearing nil or below-market rate of interest shall be measured upon initial recognition at its fair value (i.e. the present value of the future cash flows of the financial instrument discounted using the market interest rate). The difference between the fair value and the net proceeds of the loan shall be recorded under "Unearned Income-Others", and shall be recognized as income on a systematic basis over the period of the loan necessary to match with the related cost for which the grants are intended to compensate.

- b. **Preparation of prudential reports.** For prudential reporting, BSFIs shall adopt in all respect the PFRS except in the following cases:
 - (1) In preparing consolidated financial statements, only investments in financial allied subsidiaries except insurance subsidiaries shall be consolidated with the financial statements of the parent bank on a line-by-line basis; while insurance and non-financial allied subsidiaries shall be accounted for using the equity method. Investments in financial/non-financial allied/non-allied associates and joint ventures shall be accounted for using the equity method in accordance with the provisions of Philippine Accounting Standards (PAS) 28 "Investments in Associates and Joint Ventures"

In preparing solo/separate financial statements, investments in financial/non-financial allied/non-allied subsidiaries/associates, including insurance subsidiaries/associates, shall be accounted for using the equity method as described in PAS 28.

The rules on the preparation of solo financial statements as provided in *Appendix 81* shall apply to banks.

- (2) BSFIs shall recognize adequate and timely allowance for credit losses at all times. In this respect, BSFIs shall adopt the principles provided under the Enhanced Standards on Credit Risk Management under Sec. 143-Q as well as the provisions of *Appendix 100/Q-57/N-16* in measuring credit losses.
- c. **Preparation of Audited Financial Statements (AFS).** AFS shall in all respect be PFRS compliant and shall be submitted to the Bangko Sentral in accordance with the provisions of Sec. 173-Q.

BSFIs shall submit to the Bangko Sentral adjusting entries reconciling the balances in the financial statements for prudential reporting with those in the AFS.

- d. **Guidelines on the adoption of PFRS 9 Financial Instruments.** BSFIs shall adopt, as part of the PFRS framework, PFRS 9: Financial Instruments upon its mandatory effectivity date of 01 January 2018.

For this purpose, BSFIs shall be governed by the following:

- (1) Consistent with the duties and responsibilities of the board of directors provided under Sec. 132-Q, the board of directors or any equivalent governing body in the case of branches of foreign banks, shall ensure that the BSFI appropriately and consistently adopts PFRS 9 as part of its reporting governance process. In this respect,

the board shall assess the impact of PFRS 9 on business strategies and risk management systems and ensure availability of sufficient resources, including capacity building initiatives, in adopting the standard.

The board shall approve policies and guidelines relative to the adoption of PFRS 9, which shall cover responsibilities of the different units in the BSFI (e.g., Treasury, Risk Management, Financial Controllershship) as well as the extent of participation or involvement of third parties in the adoption process. The board shall likewise ensure that adequate control measures are in place to ensure the integrity of reports.

- (2) Management shall implement the policies set by the board related to the adoption of PFRS 9 and ensure that sound professional judgment is exercised in implementing the provisions of the standard. Management shall provide feedback to the board on the effectiveness of implementation of PFRS 9.
 - (3) BSFIs shall be guided by the provisions of *Appendix Q-22* on “Guidelines on the Adoption of Philippine Financial Reporting Standards 9 (PFRS 9) – Classification and Measurement” and *Appendix 97/Appendix Q-56/Appendix N-16* on “Impairment” in implementing the provisions of PFRS 9.
- e. **Enforcement Actions.** Consistent with Sec. 002-Q, the Bangko Sentral reserves the right to deploy its range of supervisory tools and enforcement actions to promote adherence with the requirements set out in this Section (*Policy statement*) and bring about timely corrective actions to ensure appropriate and consistent adoption of PFRS. In this respect, the Bangko Sentral may issue directives or impose sanctions on the BSFI and/or its directors, officers and/or employees concerned for noted supervisory issues on the adoption of PFRS 9.

Prudential reports affected by non-adherence to the provisions of this Section (*Policy statement*) shall be subject to penalties/sanctions provided under Sec. 172-Q.

f. **Transitory Provisions.** BSFIs shall observe the following transition rules:

- (1) BSFIs shall apply PFRS 9, retrospectively, in accordance with the transition requirements and guidance provided under PFRS 9 and PAS 8 “*Changes in Accounting Policies, Changes in Accounting Estimates and Errors*”. BSFIs shall be guided by the provisions of PAS 8 if the retrospective application is impracticable.
- (2) A BSFI that applied the earlier versions of PFRS 9 (2009), PFRS 9 (2010) or PFRS 9 (2013) shall be allowed to reclassify its financial assets provided that the reclassification requirements under the standard are met.
- (3) A BSFI is expected to comply with the reportorial and disclosure requirements of the Securities and Exchange Commission on the adoption of PFRS 9.

QBs/FIs shall adopt the PFRS and PAS which are in accordance with generally accepted accounting principles in recording transactions and in the preparation of financial statements and reports to Bangko Sentral. However, in cases where there are differences between Bangko Sentral regulations and PFRS/PAS as when more than one (1) option are allowed or certain maximum or minimum limits are prescribed by the PFRS/PAS, the option or limit prescribed by Bangko Sentral regulations shall be adopted by FIs.

For purposes hereof, the PFRS/PAS shall refer to issuances of the FRSC and approved by the PRC.

Accounting treatment for prudential reporting. For prudential reporting, FIs shall adopt in all respect the PFRS and PAS except as follows:

- a. In preparing consolidated financial statements, only investments in financial allied subsidiaries except insurance subsidiaries shall be consolidated on a line-by-line basis; while insurance and non-financial allied subsidiaries shall be accounted for using the equity method. Financial/non-financial allied/non-allied associates shall be accounted for using the equity method in accordance with the provisions of PAS 28 “Investments in Associates”; and
- b. FIs shall be required to meet the Bangko Sentral recommended valuation reserves.

Government grants extended in the form of loans bearing nil or low interest rates shall be measured upon initial recognition at its fair value (i.e., the present value of the future cash flows of the financial instrument discounted using the market interest rate). The difference between the fair value and the net proceeds of the loan shall be recorded under “Unearned Income-Others”, which shall be amortized over the term of the loan using the effective interest method.

The provisions on government grants shall be applied retroactively to all outstanding government grants received. FIs that adopted an accounting treatment other than the foregoing shall consider the adjustment as a change in accounting policy, which shall be accounted for in accordance with PAS 8.

Notwithstanding the exceptions in Items “a” and “b”, the audited financial statements required to be submitted to the Bangko Sentral in accordance with the provisions of Sec. 173-Q shall in all respect be PFRS/PAS compliant: *Provided, That*

FIs shall submit to the Bangko Sentral adjusting entries reconciling the balances in the financial statements for prudential reporting with that in the audited financial statements.

Guidelines on the preparation of solo/separate financial statements. For purposes of preparing solo/separate financial statements, financial allied, non-financial allied and non-allied subsidiaries/associates/joint ventures, including insurance subsidiaries/associates, shall be accounted for using the equity method, in accordance with PAS 27, as amended.

Guidelines on the adoption of PFRS 9 Financial Instruments. QBs, including their trust entities, shall adopt the full provisions of PFRS 9 Financial Instruments only upon its mandatory effectivity date of 01 January 2018. Prior to said mandatory effectivity date, financial instruments of QBs, including their trust entities, shall continue to be accounted for in accordance with the provisions of PAS 39 under *Appendix Q-22*.

As an exception, QBs, including their trust entities, which have early-adopted PFRS 9 (2009 and 2010) as of 31 December 2015, shall continue to account for their financial instruments in accordance with the provisions of *Appendix Q-57* until 31 December 2017.

Penalties and sanctions. The following penalties and sanctions shall be imposed on FIs and concerned officers found to violate the provisions of these regulations:

- a. Fines of P2,000/day to be imposed on QBs for each violation, reckoned from the date the violation was committed up to the date it was corrected; and
- b. Sanctions to be imposed on concerned officers:
 - (1) First offense – reprimand the officers responsible for the violation; and
 - (2) Subsequent offenses – suspension of ninety (90) days without pay for officers responsible for the violation.

(Circular Nos. 1011 dated 14 August 2018, 957 dated 17 April 2017, 915 dated 05 July 2016, and 912 dated 27 May 2016)

172-Q REPORTS

QBs shall submit to the appropriate supervising department of the Bangko Sentral the reports listed in *Appendix Q-3* in the forms as may be prescribed by the Deputy Governor of the appropriate sector of the Bangko Sentral.

Any change in, or amendment to, the articles of incorporation, by-laws or material documents required to be submitted to the Bangko Sentral shall be reported by submitting copies of the amended articles of incorporation, by laws, or material documents to the appropriate supervising department of the Bangko Sentral within fifteen (15) days following such change.

In the case of the independent directors, the bio-data shall be accompanied by a certification under oath from the director concerned that he/she is an independent director as defined under Sec. 131-Q that all the information thereby supplied are true and correct, and that he/she:

- a. Is not or has not been an officer or employee of the QB/trust entity, its subsidiaries or affiliates or related interests during the past three (3) years counted from the date of his/her election;
- b. Is not a director or officer of the related companies of the institution's majority stockholder;
- c. Is not a majority stockholder of the institution, any of its related companies, or of its majority shareholders;
- d. Is not a relative, legitimate or common-law of any director, officer or stockholder holding shares of stock sufficient to elect one (1) seat in the board of the QB/trust entity or any of its related companies. For this purpose, relatives refer to the spouse, parent, child, brother, sister, parent-in-law, son-/daughter-in-law, and brother-/sister-in-law;
- e. Is not acting as a nominee or representative of any director or substantial shareholder of the QB/trust entity, any of its related companies or any of its substantial shareholders;
- f. Is not retained as professional adviser, consultant, agent or counsel of the institution, any of its related companies or any of its substantial shareholders, either in his/her personal capacity or through his/her firm; is independent of management and free from any business or other relationship, has not engaged and does not engage in any transaction with the institution or with any of its related companies or with any of its substantial shareholders, whether by himself/herself or with other persons or through a firm of which he/she is a partner or a company of which he/she is a director or substantial shareholder, other than transactions which are conducted at arm's length and could not materially interfere with or influence the exercise of his/her judgment; and
- g. Complies with all the qualifications required of an independent director and does not possess any of the disqualifications therefor and has not withheld nor suppressed any information material to his/her qualification or disqualification as an independent director.

The submission of the reports shall be effected by filing them personally with the appropriate supervising department of the Bangko Sentral or with the Bangko Sentral Regional Offices/Units, or by sending them by registered mail or special delivery through private couriers unless otherwise specified in the circular or memorandum of the Bangko Sentral.

Where the reports are prescribed by the Bangko Sentral to be submitted through electronic mail, the original notarized affidavit/last page of each report, hard copy of the covering control prooflist, or any other related documents required to be submitted shall be filed in the manner prescribed in the preceding paragraph.

In line with the policy direction of R.A. No. 8792 (E-Commerce Act), the Bangko Sentral is strongly encouraging QBs to submit their regular reports to the Bangko Sentral in electronic form.

However, the Bangko Sentral cannot presently guarantee the security/confidentiality of data in the course of transmitting electronic reports to Bangko Sentral. Bangko Sentral recommends that sensitive or confidential information be provided by ordinary post or courier. The Bangko Sentral will accept no responsibility for electronic messages/reports/information that may be hacked or cracked, intercepted, copied or disclosed outside Bangko Sentral's information system.

Categories and signatories of reports. Reports required to be submitted to the Bangko Sentral are classified into Categories A-1, A-2, A-3 and B reports as indicated in the list of reports required to be submitted to the Bangko Sentral in *Appendix Q-3*.

Appendix Q-8 prescribes the signatories for each report category and the requirements on signatory authorization.

Reports submitted by QBs in computer media shall be subject to the same requirements.

A report submitted to the Bangko Sentral under the signature of an officer who is not authorized in accordance with the requirements in this Section (*Categories and signatories of reports*) shall be considered as not having been submitted.

Sanctions in case of willful delay in the submission of reports/refusal to permit examination.

- a. ***Definition of terms.*** For purposes of this Section (*Sanctions in case of willful delay in the submission of reports/refusal to permit examination*), the following definitions shall apply:
- (1) *Report* shall refer to any report or statement required of a QB to be submitted to the Bangko Sentral periodically or within a specified period.
 - (2) *Willful delay in the submission of reports* shall refer to the failure of a QB to submit a report on time. Failure to submit a report on time due to fortuitous events, such as fire and other natural calamities and public disorders, including strike or lockout affecting a QB as defined in the Labor Code or national emergency affecting operations of QBs, shall not be considered as willful delay¹.
- b. ***Fines for willful delay in submission of reports.*** QBs incurring willful delay in the submission of required reports shall pay a fine in accordance with the following schedule:

I.	For Categories A-1, A-2 and A-3 reports	
	Per day of default until the report is filed	P600
II.	For Category B reports	
	Per day of default until the report is filed	P120

Delay or default shall start to run on the day following the last day required for the submission of reports. However, should the last day of filing fall on a non-working day in the locality where the reporting FI is situated, delay or default shall start to run on the day following the next working day. The due date/deadline for submission of reports to Bangko Sentral as prescribed under Sec. 172-Q governing the frequency and deadlines indicated in *Appendix Q-3* shall be automatically moved to the next business day whenever a half-day suspension of business operations in government offices is declared due to an emergency such as typhoon, floods, etc.

For purposes of establishing delay or default, the date of acknowledgment by the appropriate supervising department of the Bangko Sentral or the Bangko Sentral Regional Offices/Units appearing on the copies of such reports filed or submitted, the date of mailing postmarked on the envelope/the date of registry/special delivery receipt, as the case may be, or the date of the acknowledgment receipt issued by the appropriate office of the Bangko Sentral if the reports were submitted through electronic mail, shall be considered as the date of filing by the QB.

¹ See *Appendix Q-72* on Regulatory Relief for QBs Affected by Calamities.

Delayed schedules/attachments and amendments shall be considered late reporting subject to the above penalties.

- a. *Manner of payment or collection of fines* -The regulations embodied in Sec. 102-Q shall be observed in the collection of the fines from QBs.
- b. *Other penalties* -The imposition of the foregoing penalties shall be without prejudice to the imposition of the other administrative sanctions and to the filing of a criminal case as provided for in other provisions of law.
- c. *Appeal to the Monetary Board* -Any aggrieved QB may appeal to the Monetary Board a ruling of the appropriate supervising department of the Bangko Sentral imposing a fine.

Publication requirements. The quarterly CSOC of a QB/trust entity and its subsidiaries and associates shall be published side-by-side with the SOC of its head office and its branches/other offices as of such dates as the Bangko Sentral may require, within twenty (20) working days from receipt of call letter, in any newspaper of general circulation in the country in the prescribed format.

The CSOC of a QB/trust entity and its subsidiaries and associates shall conform with the guidelines of PAS 27 "Consolidated and Separate Financial Statements", except that for purposes of consolidated financial statements, only investments in financial allied subsidiaries except insurance subsidiaries shall be consolidated on a line-by-line basis; while insurance and nonfinancial allied subsidiaries shall be accounted for using the equity method. Financial/non-financial allied/non-allied associates shall be accounted for using the equity method in accordance with the provisions of PAS 28 "Investments in Associates". For purposes of separate financial statements, investments in financial/non-financial allied/non-allied subsidiaries/associates, including insurance subsidiaries/associates, shall be accounted for using the equity method.

- a. The following information shall be disclosed in the Statements of Condition:

- (1) Non-performing loans (NPLs) and ratio to total loan portfolio;
- (2) Classified loans and other risk assets;
- (3) General loan loss reserve;
- (4) Specific loan loss reserve;
- (5) Return on equity (ROE);
- (6) DOSRI loans/advances and ratio to total loan portfolio; and
- (7) Past due DOSRI loans/advances and ratio to total loan portfolio.

For uniform calculation of the additional information required, the guidelines in Annex Q-3-f-of *Appendix Q-7* shall be observed.

- b. The names and positions/designations of:

- (1) members of the board of directors; and
- (2) president and executive vice-presidents (senior vice-presidents, if there are no executive vice-president) or equivalent positions shall be presented in the right side column of the published SOC as of June of every year.

Report on Repurchase Agreements. The Report on Repurchase Agreements is designed to capture timely and comprehensive transactional level data on repos of QBs to strengthen financial surveillance, particularly in monitoring market trends and vulnerabilities in the repo market, and to enable the Bangko Sentral to formulate effective policy responses to ensure continued stability of the financial system.

All QBs shall submit the Report on Repurchase Agreements on a solo basis in accordance with the Guidelines on the completion of the Report in *Appendix Q-76*.

This report shall be considered a Category B report. Late and/or erroneous reporting of the said report shall be subject to penalties prescribed under Sec. 172-Q for Category B reports.

(Circular Nos. 970 dated 22 August 2017, 957 dated 17 April 2017, 923 dated 31 August 2016, M-2015-035 dated 07 October 2015, 880 dated 22 May 2015, M-2015-009 dated 28 January 2015, M-2015-005 dated 20 January 2015, and M-2014-039 dated 01 October 2014)

173-Q AUDITED FINANCIAL STATEMENTS

The following rules shall govern the utilization and submission of audited financial statements (AFS) of QBs.

For purposes of this Section, AFS shall include the balance sheets, income statements (IS), statements of changes in equity, statements of cash flows and notes to financial statements which shall include among other information, disclosure of the volume of past due loans as well as loan loss provisions. On the other hand, financial audit report (FAR) shall refer to the AFS and the opinion of the auditor. The AFS of QBs with subsidiaries shall be presented side by side on a solo basis (parent) and on a consolidated basis (parent and subsidiaries).

QBs shall cause an annual financial audit by an external auditor acceptable to the Bangko Sentral not later than thirty (30) calendar days after the close of the calendar year or the fiscal year adopted by the QB. Report of such audit shall be submitted to the board of directors and the appropriate supervising department of the Bangko Sentral not later than 120 calendar days after the close of the calendar year or the fiscal year adopted by the QB. The report to the Bangko Sentral shall be accompanied by the: (1) certification by the external auditor on the: (a) dates of start and termination of audit; (b) date of submission of the FAR and certification under oath stating that no material weakness or breach in the internal control and risk management systems was noted in the course of the audit of the QB to the board of directors; and (c) the absence of any direct or indirect financial interest and other circumstances that may impair the independence of the external auditor; (2) reconciliation statement between the AFS and the balance sheet and IS for the QB and trust department submitted to the Bangko Sentral including copies of adjusting entries on the reconciling items; and (3) other information that may be required by the Bangko Sentral.

In addition, the external auditor shall be required by the QB to submit to the board of directors, a Letter of Comment (LOC) indicating any material weakness or breach in the institution's internal control and risk management systems within thirty (30) calendar days after submission of the FAR. If no material weakness or breach is noted to warrant the issuance of an LOC, a certification under oath stating that no material weakness or breach in the internal control and risk management systems was noted in the course of the audit of the QB shall be submitted in its stead, together with the FAR.

Material weakness shall be defined as a significant control deficiency, or combination of deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be detected or prevented by the institution's internal control. A material weakness does not mean that a material misstatement has occurred or will occur, but that it could occur. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the institution's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles. The term *more than remote likelihood* shall mean that future events are likely to occur or are reasonably possible to occur.

The board of directors, in a regular or special meeting, shall consider and act on the FAR and the certification under oath submitted in lieu of the LOC and shall submit, within thirty (30) banking days after receipt of the reports, a copy of its resolution to the appropriate supervising department of the Bangko Sentral. The resolution shall show, among other things, the action(s) taken on the reports and the names of the directors present and absent.

The board shall likewise consider and act on the LOC and shall submit, within thirty (30) banking days after receipt thereof, a copy of its resolution together with said LOC to the appropriate supervising department of the Bangko Sentral. The resolution shall show the action(s) taken on the findings and recommendations and the names of the directors present and absent, among other things.

The LOC shall be accompanied by the certification of the external auditor of the date of its submission to the board of directors.

Government-owned or -controlled QBs, including their subsidiaries and affiliates under Bangko Sentral supervision, which are under the concurrent jurisdiction of the Commission on Audit (COA) shall be exempt from the aforementioned annual financial audit by an acceptable external auditor: *Provided, That* when warranted by supervisory concern such as material weakness/breach in internal control and/or risk management systems, the Monetary Board may, upon recommendation of the appropriate supervising department of the Bangko Sentral, require the financial audit to be conducted by an external auditor acceptable to the Bangko Sentral, at the expense of the QB: *Provided, further, That* when circumstances such as, but not limited to loans from multilateral FIs, privatization, or public listing warrant, the financial audit of the QB concerned by an acceptable external auditor may also be allowed.

QBs under the concurrent jurisdiction of the Bangko Sentral and COA shall, however, submit a copy of the annual audit report (AAR) of the COA to the appropriate supervising department of the Bangko Sentral within forty (40) calendar days after receipt of the AAR by the board of directors. The AAR shall be accompanied by the: (1) certification by the institution concerned on the date of receipt of the AAR by the board of directors; (2) reconciliation statement between the AFS in the AAR and the balance sheet and IS of the QB and trust department submitted to the Bangko Sentral, including copies of adjusting entries on the reconciling items; and (3) other information that may be required by the Bangko Sentral.

The board of directors of said institutions, in a regular or special meeting, shall consider and act on the AAR, as well as on the comments and observations and shall submit, within thirty (30) banking days after receipt of the report, a copy of its resolution to the appropriate supervising department of the Bangko Sentral. The resolution shall show the action(s) taken on the report, including the comments and observations and the names of the directors present and absent, among other things.

The AFS required to be submitted shall in all respect be PFRS/PAS compliant: *Provided, That* QBs shall submit to the Bangko Sentral adjusting entries reconciling the balances in the financial statements for prudential reporting with that in the audited annual financial statements.

QBs as well as external auditors shall strictly observe the requirements in the submission of the FAR and reports required to be submitted under *Appendix Q-32*.

The reports and certifications of QBs, schedules and attachments required under this Section shall be considered Category B reports, delayed submission of which shall be subject to the penalties under Sec. 172-Q.

Posting of audited financial statements. QBs shall post in conspicuous places in their head offices, all their branches and other offices, as well as in their respective web-sites, their latest FAR.

Disclosure requirement in the notes to the audited financial statements. QBs shall require their external auditors to include the following additional information in the notes to financial statements:

- a. Basic quantitative indicators of financial performance such as return on average equity, return on average assets and net interest margin;
- b. Capital-to-risk assets ratio under Sec. 125-Q;
- c. Concentration of credit as to industry/economic sector where concentration is said to exist when total loan exposures to a particular industry/economic sector exceeds thirty percent (30%) of total loan portfolio (TLP);
- d. Breakdown of total loans as to secured and unsecured and breakdown of secured loans as to type of security;
- e. Total outstanding loans to QB's DOSRI, percent of DOSRI loans to total loan portfolio, percent of unsecured DOSRI loans to total DOSRI loans, percent of past due DOSRI loans to total DOSRI loans and percent of non-performing DOSRI loans to total DOSRI loans;
- f. Nature and amount of contingencies and commitments arising from off-balance sheet items [include direct credit substitutes (e.g., export Letter of Credit (LCs) confirmed, underwritten accounts unsold), transaction-related contingencies (e.g., performance bonds, bid bonds, standby LCs), short-term self-liquidating trade related contingencies arising from the movement of goods (e.g., sight/usance domestic LCs, sight/usance import LCs), sale and repo agreements not recognized in the balance sheet; interest and FX rate related items; and other commitments];
- g. Provisions and allowances for losses and how these are determined;
- h. Aggregate amount of secured liabilities and assets pledged as security; and
- i. Accounting policies which shall include, but shall not be limited to, general accounting principles, changes in accounting policies/practices, principles of consolidation, policies and methods for determining when assets are impaired, recognizing income on impaired assets and losses on non-performing credits, income recognition, valuation policies and accounting policies on securitizations, foreign currency translations, loan fees, premiums and discounts, repo agreements, premises/fixed assets, income taxes, derivatives, etc.

For purposes of computing the indicators in Item "a" above, the following formulas shall be used:

(1)	Return on Average Equity (%)	=	$\frac{\text{Net Income (or Loss) after Income Tax} \times 100}{\text{Average Total Capital Accounts}}$
	Where: Average Total Capital Accounts	=	$\frac{\text{Sum of Total Capital Accounts as of the 12-month ends in the calendar/fiscal year adopted by the bank}}{12}$
(2)	Return on Average Assets (%)	=	$\frac{\text{Net Income (or Loss) after Income Tax} \times 100}{\text{Average Total Assets}}$
	Where: Average Total Assets	=	$\frac{\text{Sum of Total Assets as of the 12-month ends in the calendar/fiscal year adopted by the bank}}{12}$
(3)	Net Interest Margin (%)	=	$\frac{\text{Net Interest Income} \times 100}{\text{Average Interest Earning Assets}}$
	Where: Net Interest Income	=	Total Interest Income – Total Interest Expense
	Where: Average Interest Earning Assets	=	$\frac{\text{Sum of Total Interest Earning Assets as of the 12-month ends in the calendar/fiscal year adopted by the bank}}{12}$

(Circular Nos. 1040 dated 20 May 2019 and 911 dated 02 May 2016)

174-Q PUBLIC DISCLOSURES

Disclosure requirements in the annual report. It is the thrust of the Bangko Sentral to promote greater disclosure and transparency to the public. In line with this, the Bangko Sentral recognizes the importance of the annual report in providing financial information on the QB, which will be useful to the public in making financial decisions. This is consistent with financial consumer protection and aligned with international best practices. Accordingly, the Bangko Sentral revised the minimum disclosure requirements in the annual report of QBs to ensure that proper disclosure is made on all significant matters regarding the QB, including its financial condition, performance, ownership and governance.

Consistent with the principles embodied under Sec. 132-Q, the board of directors shall have the overall responsibility in ensuring that the annual report of the QB fully discloses the minimum disclosure requirements. The board of directors may delegate its oversight function to a board level committee which shall have oversight over the preparation of the annual report.

All QBs shall prepare an annual report which shall include, in addition to the AFS and other usual information contained therein, a discussion and/or analysis of the following information:

- a. Corporate policy;
- b. Financial summary/Financial highlights;
- c. Financial condition and results of operations;
- d. Financial results of business segments, as may be applicable;
- e. Risk management framework, including practices to mitigate and/or prevent money laundering and terrorist financing risks;
- f. Corporate governance;
- g. Corporate information; and
- h. Audited financial statements (AFS).

For QBs with subsidiaries, the AFS should be presented side by side on a solo basis (parent) and on a consolidated basis (parent and subsidiaries) as provided under this Section.

The guidelines for the preparation of disclosure requirements in the annual report are provided in *Appendix Q-78*.

In addition to the foregoing, QBs which are subsidiaries of UBs/KBs shall also prepare disclosure requirements found under Part IX of *Appendix Q-45*.

The revised disclosures shall commence with annual reports for financial year 2017.

Posting and submission of annual report. A copy of the latest annual report shall be posted/displayed by the QB in a conspicuous place in its head office, all its branches and other offices. The annual report should also be published in the QB's website.

Covered QBs shall submit the Annual Report Assessment Checklist (ARAC) together with the annual report. The ARAC identifies the pages and sections of the annual report corresponding to the disclosures.

The deadline for the submission of the annual report and ARAC to the appropriate supervising department of the Bangko Sentral is 180 calendar days after the close of the calendar or fiscal year adopted by the QB.

QBs under the concurrent jurisdiction of the Bangko Sentral and COA, however, shall submit the annual report and ARAC to the appropriate supervising department of the Bangko Sentral within 100 calendar days after receipt of the AAR by the board of directors.

The annual report shall be submitted in soft copy to the appropriate supervising department of the Bangko Sentral and shall be in portable document format (PDF) as provided in *Appendix Q-3*. Transmittal of the soft copy of the report shall be covered by a letter to the appropriate supervising department of the Bangko Sentral. On the other hand, QBs shall continue to submit the ARAC in hard copy.

Sanctions for non-disclosure of certain information and/or delayed submission of annual report.

- a. ***Non-disclosure of certain information.*** Willful non-disclosure or erroneous disclosure of any item required to be disclosed under this Section on disclosure requirements in the annual report shall be subject to the appropriate monetary penalties under Sec. 1102-Q that will be imposed on the QB.

The Bangko Sentral shall also determine if the non-disclosure or erroneous disclosure involves material information that may mislead the public, which warrants stiffer sanctions as provided under Sec. 002-Q.

Material information refers to information which if omitted or misstated, could change or influence the assessment or decisions of a person relying on the disclosure, such as depositors, creditors, investors, and professional analysts, for the purpose of making deposits and investments, among others.

- b. Delayed submission of annual report. Sanctions in case of willful delay in the submission of annual report and the ARAC shall be in accordance with the provision under Sec. 172-Q

(Circular Nos. 988 dated 20 December 2017, 956 dated 17 April 2017, and 911 dated 02 May 2016)

H. CONDUCTING BUSINESS IN AN UNSAFE OR UNSOUND MANNER

181-Q CONDUCTING BUSINESS IN AN UNSAFE OR UNSOUND MANNER

Whether a particular activity may be considered as conducting business in an unsafe or unsound manner, all relevant facts must be considered. An analysis of the impact thereof on the QB's/trust entity's operations and financial conditions must be undertaken, including evaluation of capital position, asset condition, management, earnings posture and liquidity position.

In determining whether a particular act or omission, which is not otherwise prohibited by any law, rule or regulation affecting QBs/trust entities, may be deemed as conducting business in an unsafe or unsound manner, the Monetary Board, upon report of the head of the supervising or examining department based on findings in an examination or a complaint, shall consider any of the following circumstances:

- a. The act or omission has resulted or may result in material loss or damage, or abnormal risk or danger to the safety, stability, liquidity or solvency of the institution;
- b. The act or omission has resulted or may result in material loss or damage or abnormal risk to the institutions, creditors, investors, stockholders, or to the Bangko Sentral, or to the public in general;
- c. The act or omission has caused any undue injury, or has given unwarranted benefits, advantage or preference to the QB/trust entity or any party in the discharge by the director or officer of his duties and responsibilities through manifest partiality, evident bad faith or gross inexcusable negligence; or
- d. The act or omission involves entering into any contract or transaction manifestly and grossly disadvantageous to the QB/trust entity, whether or not the director or officer profited or will profit thereby.

The list of activities which may be considered unsafe and unsound is shown in *Appendix Q-28*.

PART TWO

DEPOSIT SUBSTITUTES, BORROWINGS AND OTHER LIABILITIES

A. DEPOSIT SUBSTITUTE OPERATIONS

201-Q DEPOSIT SUBSTITUTE INSTRUMENTS

Only the following types of instruments may be issued by Quasi-Banks (QBs) as evidence of deposit substitute liabilities:

- a. Promissory notes;
- b. Repurchase agreements (Repos); and
- c. Certificates of assignment participation with recourse.

Prohibition against use of certain instruments as deposit substitutes. Acceptances, bills of exchange and trust certificates shall not be used as evidence of deposit substitute liabilities. This prohibition shall not apply to the acceptance or negotiation of bills of exchange in connection with trade transactions, or to the issuance of trust certificates creating trust relationship.

Negotiations of promissory notes. Negotiable promissory notes acquired by QBs shall not be negotiated by mere indorsement and/or delivery, if they do not conform with the minimum features provided under items “a” to “k” under this Section (*Minimum features*). If these notes do not contain the features in said items, their negotiation shall be covered by any of the appropriate deposit substitute instruments mentioned in the first paragraph of this Section.

Minimum features. Deposit substitute instruments issued by QBs shall have the following minimum features.

- a. The present value and maturity value and/or the principal amount and interest rate and such other information as may be necessary to enable the parties to determine the cost or yield of the borrowing or placement shall be specified.
- b. The date of issuance shall be indicated at the upper right corner of the instrument, and directly below which shall be the maturity period or the word “demand”, if it is a demand instrument.
- c. The payee may be identified by his trust account/deposit account number in both negotiable and non-negotiable instruments.
- d. Securities which are the subject of a repo or a certificate of assignment participation with recourse, shall be particularly described on the face of said instruments or on a separate instrument attached and specifically referred to therein and made an integral part thereof as to the maker, value, maturity, serial number, and such other particulars as shall clearly identify the securities.
- e. The instrument shall provide for the payment of liquidated damages, in addition to stipulated interest, in case of default by the maker/issuer, as well as attorney’s fees and cost of collection in case of suit.
- f. A conspicuous notice at the lower center margin of the face of the instrument that the transaction is not insured by the Philippine Deposit Insurance Corporation (PDIC).
- g. The corporate name of the issuer shall be printed at the upper center margin of the instrument and directly below which shall be a designation of the instrument, such as, “Promissory Note” or “Repo”.
- h. The words “duly authorized officer” shall be placed directly below the signature of the person signing for the maker/issuer.
- i. Each instrument shall be serially pre-numbered.
- j. The copy delivered to the payee shall bear the word “Original” and the copies retained by the issuer shall be identified as “Duplicate,” “File Copy” or words of similar import.
- k. Only security paper with adequate safeguards against alteration or falsification shall be used.

Deposit substitute instruments shall conform to the language prescribed by the Bangko Sentral.

Any substantial deviation therefrom or any additional stipulation therein shall be referred to the Bangko Sentral for prior approval. The size and appearance of these instruments shall not be similar to the size and appearance of checks. Formats of standardized instruments in *Appendix Q-13* shall be followed.

Rubber stamping, typewriting and handwriting some provision shall not be considered compliance with said regulations.

Delivery of securities.

- a. Securities, warehouse receipts, quedans and other documents of title which are the subject of quasi-banking functions, such as repurchase agreements, shall be delivered to a Bangko Sentral accredited securities custodian or to a Securities and Exchange Commission (SEC) authorized central securities depository in accordance with the guidelines set forth in *Appendix Q-37*. The securities custodian shall hold the securities in the name of the borrower/seller, but shall keep said securities segregated from the proprietary securities account of the borrower/seller if the borrower/seller has an existing securities account with the custodian: *Provided*, That a QB/non-bank financial institution (NBFI) authorized by the Bangko Sentral to perform custodianship function may not be allowed to be custodian of securities issued or owned by said QB/NBFI, its subsidiaries or affiliates, or of securities in bearer form.

The delivery shall be effected upon payment and shall be evidenced by a securities delivery receipt duly signed by authorized officers of the custodian and delivered to both the lender/purchaser and seller/borrower.

Sanctions. Violation of any provision of Item “a” shall be subject to the following sanctions/penalties:

(1) *Monetary penalties*

First Offense – Fine of P10,000 a day for each violation reckoned from the date the violation was committed up to the date it was corrected.

Subsequent offenses – Fine of P20,000 a day for each violation reckoned from the date the violation was committed up to the date it was corrected.

(2) *Other sanctions*

First offense – Reprimand for the directors/officers responsible for the violation.

Subsequent offense –

- (a) Suspension for ninety (90) days without pay of directors/officers responsible for the violation;
- (b) Suspension or revocation of the accreditation to perform custodianship function;
- (c) Suspension or revocation of the authority to engage in quasi-banking function; and/or
- (d) Suspension or revocation of the authority to engage in trust and other fiduciary business.

- b. The guidelines to implement the delivery by the seller of securities to the buyer or to his designated securities custodian or central securities depository are shown in *Appendix Q-37*.

The guidelines on the delivery of government securities to the investor’s principal securities account with the Registry of Scripless Securities (RoSS) are in *Appendix Q-38*.

Sanctions. Without prejudice to the penal and administrative sanctions provided for under Sections 36 and 37, respectively of the Republic Act (R.A.) No. 7653 (The New Central Bank Act), violation of any provision of the guidelines in *Appendix Q-37* shall be subject to the following sanctions/penalties depending on the gravity of the offense:

(1) *First offense* –

- (a) Fine of up to P10,000 a day or the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
- (b) Reprimand for the directors/officers responsible for the violation.

(2) *Second offense* –

- (a) Fine of up to P20,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
- (b) Suspension for ninety (90) days without pay of directors/officers responsible for the violation.

(3) *Subsequent offenses* –

- (a) Fine of up to P30,000 a day for the institution for each violation from the date the violation was committed up to the date it was corrected;
- (b) Suspension or revocation of the authority to act as securities custodian and or registry; and
- (c) Suspension for 120 days without pay of the directors/officers responsible for the violation.

Other rules and regulations governing the issuance and treatment of deposit substitute instruments

- a. If there is any stipulation that payment of the deposit substitute shall be chargeable against a particular deposit account of the maker or issuer that is maintained with another bank, it shall further provide that the liability of the maker or issuer of the instrument shall not be limited to the outstanding balance of said deposit account.
- b. Any agreement allowing the issuer or maker to substitute the underlying securities shall further provide that the actual substitution shall be with the prior written consent of the payee.
- c. Automatic renewal upon maturity of the instrument may be effected only under terms and conditions previously stipulated by the parties.
- d. Stipulations between the maker or issuer and the payee which are embodied in separate instruments shall be specifically referred to in the deposit substitute instruments and made an integral part thereof.
- e. In the case of repurchase agreements and certificates of assignment/participation with recourse, the stipulation shall clearly state either (a) that the underlying securities are being delivered to the buyer or assignee as collaterals or (b) that the ownership thereof is being transferred to the buyer or assignee.

Repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments. The following regulations shall govern repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments of QBs with counterparties that meet the definition of lenders under Sec. 101-Q as well as sale on a without recourse basis of said securities by QBs.

- a. ***Proper recording and documentation of repos.*** QBs shall have a true and accurate account, record or statement of their daily transactions. As such, repos covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments must be properly recorded and documented in accordance with existing Bangko Sentral regulations.

The absence of proper documentation for repos is tantamount to willful omission of entries relevant to any transaction, which shall be a ground for the imposition of administrative sanctions and the disqualification from office of any director or officer responsible therefor under existing laws and regulations.

- b. ***Responsibilities of the chief executive officer (CEO) or officer of equivalent rank.*** It shall be the responsibility of the CEO or the officer of equivalent rank in a QB to:
 - (1) Institute policies and procedures to prevent undocumented or improperly documented repos covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments;
 - (2) Submit a notarized certification at the end of every semester that the QB did not enter into any repo covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations and that the QB has strictly complied with the pertinent rules of the SEC and the Bangko Sentral on the proper sale of securities to the public and performed the necessary representations and disclosures on the securities particularly the following:
 - (a) Informed the clients that such securities are not deposits and as such, do not benefit from any insurance otherwise applicable to deposits such as, but not limited to, R.A. No. 3591, as amended, otherwise known as the PDIC law.
 - (b) Informed and explained to the client all the basic features of the security being sold on a without recourse basis, such as but not limited to:
 - (i) issuer and its financial condition;
 - (ii) term and maturity date;
 - (iii) applicable interest rate and its computation;
 - (iv) tax features (whether taxable, tax paid or tax-exempt);
 - (v) risk factors and investment considerations;
 - (vi) liquidity feature of the instrument:
 - (aa) procedures for selling the security in the secondary market (e.g., OTC or exchange);
 - (bb) authorized selling agents; and
 - (cc) minimum selling lots;
 - (vii) disposition of the security:

- (aa) registry (address and contact numbers);
 - (bb) functions of the registry; and
 - (cc) pertinent registry rules and procedures;
 - (viii) collecting and paying agent of the interest and principal; and
 - (ix) other pertinent terms and conditions of the security and if possible, a copy of the prospectus or information sheet of the security.
- (c) Informed the client that pursuant to Secs. 201-Q and 101-Q on Delivery of securities:
- (i) Securities sold under repurchase agreements shall be delivered in accordance with the guidelines set forth in *Appendix Q-38*.
 - (ii) Securities sold on a without recourse basis are required to be delivered in accordance with the guidelines set forth in *Appendix Q-38*.
- (d) Clearly stated to the client that:
- (i) The QB does not guarantee the payment of the security sold on a “without recourse basis” and in the event of default by the issuer, the sole credit risk shall be borne by the client; and
 - (ii) The QB is not performing any advisory or fiduciary function.
- (3) Report to the appropriate supervising department of the Bangko Sentral any undocumented repo within seventy-two (72) hours from knowledge of such transactions.
- c. *Treatment as deposit substitutes.* All sales of government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations shall be deemed to be deposit substitutes subject to regular reserves.
- d. *Certification.* The required certification from the CEO/officer of equivalent rank of the QB shall be submitted within five (5) banking days from end of reference semester using the format in *Appendix Q-37*.
- e. *Sanctions.* The Monetary Board may, at its evaluation and discretion, impose any or all of the following sanctions to a QB or the director/s or officer/s found to be responsible for repos covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations:
- (1) Fine of up to P30,000 a day to the concerned entity for each violation from the date the violation was committed up to the date it was corrected;
 - (2) Suspension of interbank clearing privileges/immediate exclusion from clearing;
 - (3) Suspension of access to Bangko Sentral rediscounting facilities;
 - (4) Suspension of lending or foreign exchange operations or authority to accept new deposits or make new investments;
 - (5) Revocation of quasi-banking license;
 - (6) Revocation of authority to perform trust operations; and
 - (7) Suspension for 120 days without pay of the directors/officers responsible for the violation.

Borrowings from trust departments or managed funds of banks or investment houses. Funds borrowed by QBs from trust departments or managed funds of banks or IHS are not considered as interbank borrowings and, therefore, are subject to the:

- a. reserve requirement on deposit substitutes; and
- b. minimum trading lot rule.

(Circular Nos. 1061 dated 25 November 2019 and 873 dated 25 March 2015)

202-Q MINIMUM TRADING LOT

The minimum size of any single deposit substitute transaction shall be P50,000.

In connection with the minimum trading lot rule above stated, no QB shall issue deposit substitute instruments in the name of two (2) or more persons or accounts except those falling under the following relationships in which cases, commingling may be allowed: (a) husband and wife; (b) persons related to each other within the second degree of consanguinity; and (c) in trust for (ITF) arrangements.

203-Q MONEY MARKET PLACEMENTS OF RURAL BANKS

QBs shall not accept money market placements from any RB unless the latter presents a certification under oath stating: (a) that it has no overdue special time deposits; (b) that it has no past due obligations with the Bangko Sentral or other government FIs; (c) the amount of its current obligations, if any, with said government FIs; and (d) the amount of its total outstanding money market placements. However, in no case shall such QBs sell receivables to RBs without recourse.

Definition of terms. As used in this Section, the following terms shall have the following meanings:

Money market placements shall include investments in debt instruments, including purchases of receivables with recourse to the lending institution, except purchases of government securities on an outright basis.

Government securities shall include evidences of indebtedness of the Republic of the Philippines and the Bangko Sentral and other evidences of indebtedness or obligations of government entities, the servicing and repayment of which are fully guaranteed by the Republic of the Philippines.

Conditions required on accepted placements. Placements accepted must comply with the following conditions:

- a. That the total money market placements of an RB, as stated in the certification, including the placement being accepted by the entity concerned, shall not exceed the RB's combined capital accounts or net worth less current obligations with the Bangko Sentral or other government FIs;
- b. The maturity of the money market placement shall not exceed sixty (60) days; and
- c. That placements shall be evidenced in all cases by promissory notes of accepting entities/REPOs and or certificates of participation assignment with recourse and that underlying instruments shall be government securities the servicing and repayment of which are guaranteed by the Republic of the Philippines.

Sanctions. Violations of the provisions of this Section shall be subject to the following sanctions/penalties:

- a. *Fines*

First offense – Fines of P3,000 a day, reckoned from the date placement started up to the date when said placement was withdrawn, for each violation shall be assessed on the bank.

Subsequent offenses – Fines of P5,000 a day, reckoned from the date placement started up to the date placement was withdrawn, for each violation shall be assessed on the bank.

- b. *Other sanctions*

First offense – Reprimand for the directors/officers who approved the acceptance/placement with a warning that subsequent violations will be subject to more severe sanctions.

Subsequent offenses –

- (1) Suspension for ninety (90) days without pay for directors/officers who approved the placement.
- (2) Suspension or revocation of the authority to engage in quasi-banking functions.

204-Q WITHOUT RECOURSE TRANSACTIONS

No QB shall sell, discount, assign, negotiate, in whole or in part such as thru syndications, participations and other similar arrangements, any note, receivable, loan, debt instrument and any type of financial asset or claim, except government securities, on a without recourse basis, or be a party in any capacity in any such transactions on a without recourse basis, unless such receivable, note, loan, debt instrument and financial asset or claim is registered with the SEC. This prohibition includes transactions between an investment house and its trust department.

205-Q ISSUANCE OF BONDS AND COMMERCIAL PAPERS

All quasi-banks (QBs) issuing bonds or commercial papers to counterparties that meet the definition of lenders under Sec. 101-Q shall comply with R.A. No. 8799 or the Securities Regulation Code (SRC) and its Implementing Rules and Regulation, and other applicable rules and regulations issued by the Securities and Exchange Commission (SEC). A QB may issue bonds and/or commercial papers without prior Bangko Sentral approval: *Provided*, That it meets the following prudential criteria as described in Sec. 111-Q (*Prudential criteria*):

- a. The bank must have a CAMELS composite rating of at least "3" and a "Management" rating of not lower than "3", and QB must have a RAS rating of at least "Acceptable";

- b. The QB has no major supervisory concerns in governance, risk management systems, and internal controls and compliance system; and
- c. The QB has complied with directives and/or is not subject of specific directives and/or enforcement actions by the Bangko Sentral.

Provided, further, That bonds issued are enrolled and/or traded in a market which is organized in accordance with the SEC rules and regulations.

Notice to Bangko Sentral ng Pilipinas. Within five (5) banking days from approval by the QB's board of directors of the bond/commercial paper issuance, the QB shall submit the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Notification letter signed by the president or officer of equivalent rank, indicating the amount and the terms of the bond/commercial paper issuance. The letter shall also include the funding plan of the QB in the next three (3) years considering its strategic direction and business model. The funding plan, at the minimum, shall contain how the planned issuance factors into the funding plan;
- b. Secretary's certificate on the approval of the board of directors on the bond/commercial paper issuance;
- c. Certification signed by the QB's president or officer of equivalent rank and chief compliance officer, that the QB has complied with the prudential criteria as provided in this Section, and the relevant requirements of the SRC and other pertinent rules and regulations of the SEC; and
- d. Written Undertaking to enroll and/or trade the bonds in a market which is organized in accordance with SEC rules and regulations.

Other Guidelines. A UB/KB or IH that is a related party of the issuing QB, may serve as the underwriter/arranger of the issuance, subject to the following conditions:

- a. That there are other third party underwriters/arrangers that are not related in any manner to the issuing QB;
- b. That the objective conduct of the due diligence review is not undermined; and
- c. That the appropriate safeguards and controls as provided under Sec. 136 of the MORB on related party transactions shall be instituted to prevent conflict of interest on the said arrangement.

Prohibition on issuing QBs and their related entities. The issuing QB, including its related parties as defined in Sec. 131-Q, except for its trust department or related trust entities, are prohibited from holding or acting as market makers of the QB's listed/traded bonds or commercial papers (CP). The underwriter/arranger that is a related party of the issuing QB may be a holder of the bonds or CPs: *Provided,* That it is part of the underwriting agreement. The registry bank shall likewise be a third party with no subsidiary/affiliate relationship with the issuing QB, and which is not related to the issuing QB in any manner that would undermine its independence.

Reserve requirement.

(Deleted by Circular 1061 dated 25 November 2019)

Inapplicability of certain regulations. Secs. 201-Q and 202-Q shall not apply to bonds issued under these guidelines.

Enforcement action. Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote compliance with the requirements set forth in this Section and ensure timely implementation of preventive or corrective measures as needed. As part of its enforcement actions, the Bangko Sentral may issue directives or impose sanctions which limit the level of or suspend any business activity that adversely affects the safety and soundness of a QB.

(Circular Nos. 1144 dated 12 April 2022, 1062 dated 26 November 2019, 1061 dated 25 November 2019, 1010 dated 9 August 2018, and 975 dated 22 September 2017)

B. RESERVES

211-Q RESERVES AGAINST DEPOSIT SUBSTITUTES

NBQBs shall maintain required reserves equivalent to fourteen percent (14%) of deposit substitute liabilities as defined in Section 95 of R.A. No. 7653, as amended by R.A. No. 11211, regardless of maturities except:

- a. borrowings from the Bangko Sentral through the sale of government securities under repo agreements made in connection with the provisions of Sec. 601-Q;
- b. deposit substitutes arising from special financing programs of the Government and/or international FIs; and

- c. bonds under Sec. 205-Q for which the reserve requirement shall be three percent (3%).

effective reserve week starting 6 December 2019.

(Circular Nos. 1063 dated 3 December 2019, 1061 dated 25 November 2019, 1053 dated 07 October 2019, 1041 dated 29 May 2019, 1004 dated 24 May 2018, 997 dated 15 February 2018, 983 dated 23 November 2017, and 890 dated 02 November 2015)

212-Q COMPOSITION OF RESERVES

Composition of required reserves. The required reserves shall be kept in the form of deposits placed in QBs' DDAs with the Bangko Sentral.

Transitory provisions. Government securities which are used as compliance with the regular and/or liquidity reserve requirement as of 06 April 2012, shall continue to be eligible as compliance with the reserve requirement until they mature.

For purposes of this Section, government securities *which may form part of the reserves against deposit substitute liabilities of QBs* shall refer to bonds or other evidences of indebtedness representing direct obligations of the Government of the Republic of the Philippines having the following minimum features conditions:

- a. The securities must bear an interest rate of not more than four percent (4%) per annum, must be non-negotiable and shall carry Bangko Sentral support;
- b. The instrument must expressly state on its face the amount, maturity date and interest rate of the obligation; and
- c. The government securities may not be hypothecated or encumbered in any way or earmarked for any other purpose.

The government securities held as reserves shall be valued at cost of acquisition and the QB may freely alter its composition: *Provided*, That any substitution or acquisition satisfies the eligibility requirements prescribed above: *Provided, further*, That the QB notifies the Bangko Sentral of any such change in the prescribed forms not later than the reporting day following the change.

Only the buying/lending QB in a resale agreement covering eligible government securities may use such securities as reserves against deposit substitutes liabilities. Conversely, the selling borrowing QB in a repo agreement covering eligible government securities may not use such securities as reserves against deposits substitutes.

The reserve eligibility of government securities used as collateral in the reverse repo operations of the Bangko Sentral shall be suspended during the term of the reverse repo agreement.

The phrase *non-reserve eligible* shall be stamped on the face of the custodian receipt being issued by the Bangko Sentral to buyer FIs.

Matured and unclaimed deposit substitutes. Matured and unclaimed deposit substitutes shall continue to be subject to reserves.

Interest on reserve deposit with Bangko Sentral. Deposits maintained by QBs with the Bangko Sentral in compliance with the reserve requirement shall no longer be paid interest effective 06 April 2012.

Book entry method for reserve securities. Transactions concerning reserve-eligible securities shall be entered in the respective securities account of each QB with the Bangko Sentral and shall be evidenced by securities account debit or credit advices to be promptly furnished the institution/s concerned. No certificates shall be issued for any purpose. Transactions with third parties other than the Bangko Sentral shall not be recognized.

213-Q EXEMPTIONS FROM RESERVE REQUIREMENTS

Certificates of assignment issued with recourse by QBs under the IGLF Program are not covered by the reserve requirements.

214-Q COMPUTATION OF RESERVE POSITION

The reserve position of any QB and the penalty on reserve deficiency shall be computed based on a 7-day week, starting Friday and ending Thursday, including Saturdays, Sundays, public special/legal holidays, non-business days, unexpected declared non-business days or declared half-day holidays and days when there is no clearing: *Provided*, That with reference to public special/legal holidays, non-business unexpected declared non-business days, declared half day holidays and days when there is no clearing, the reserve position as calculated at the close of the business day immediately preceding such public special legal holidays, non-business days and unexpected declared non-business day/s and declared half day holidays and days when there is no clearing, shall apply thereon. For this purpose, the principal office in the Philippines and all other offices located therein shall be treated as a single unit.

The guidelines on the computation of a bank's reserve position during Philippine holidays are shown in *Appendix Q-51*.

The required reserves in the current period (reference reserve week) shall be computed based on the corresponding levels of deposit substitute liabilities of the prior week.

(Circular No. 1043 dated 02 August 2019)

215-Q RESERVE DEFICIENCIES; SANCTIONS

- a. Whenever the reserve position of any QB computed in the manner specified in Sec. 214-Q is below the required minimum, the QB concerned shall pay the Bangko Sentral one-tenth of one percent (1/10 of 1%) per day on the amount of the deficiency or the prevailing 91-day T-Bill rate plus three percentage (3%) points, whichever is higher: *Provided, however*, That the QB shall be permitted to offset any reserve deficiency occurring one (1) or more days of the week covered by the report against excess reserves which it may hold on other days of the same week, and shall be required to pay the penalty only on the average daily net deficiency during the week¹.

In case of abuse, the QB shall automatically lose the privilege of offsetting reserve deficiency in the aforesaid manner until such time that it maintains its daily reserve position at the required minimum for at least two (2) consecutive weeks.

As used in this Section, abuse in the privilege of offsetting reserve deficiencies against excess reserves shall mean having reserve deficiencies occurring four (4) or more times during any given week for two (2) consecutive weeks, whether or not resulting in net weekly deficiencies.

- b. In cases where the QB has chronic reserve deficiency on deposit substitute liabilities, the Monetary Board may (1) limit or prohibit the making of new loans or investments by the QB concerned; (2) prohibit the declaration of cash dividends; and/or (3) impose such other sanctions, as it may deem necessary. The board of directors of such QB shall be notified of such chronic reserve deficiency and the penalties therefor, and shall be required to immediately correct the reserve position of the QB.

As used in this Section, the following terms shall have the following meanings:

Chronic reserve deficiency shall mean having net reserve deficiency for two (2) consecutive weeks.

New loan and new investment shall refer to any loan and any investment involving disbursement of funds.

- c. Fines on legal reserve deficiencies on deposit substitute liabilities shall be paid by the QB in accordance with Sec. 111-Q: *Provided*, That where the credit balance of the QB's demand deposit account (DDA) with the Bangko Sentral is insufficient and it fails to settle the assessment within fifteen (15) days from receipt, the Monetary Board may limit or prohibit the making of new loans or investments by the QB.

(M-2015-035 dated 07 October 2015, M-2015-009 dated 28 January 2015, M-2015-005 dated 20 January 2015, and M-2014-039 dated 01 October 2014)

C. INTEREST

221-Q YIELD/INTEREST RATES

- a. Deposit substitutes of QBs shall not be subject to yield or interest rate ceilings.
- b. A matured and an unclaimed deposit substitute shall be payable on demand and shall earn interest or yield from maturity to actual withdrawal or renewal at a rate applicable to a deposit substitute with a maturity of fifteen (15) days.

D. BORROWINGS FROM THE BANGKO SENTRAL

231-Q REPURCHASE AGREEMENTS WITH THE BANGKO SENTRAL

Repo agreements with the Bangko Sentral under its open market operations (OMOs) shall be governed by the provisions of Sec. 601-Q.

¹ See Appendix Q-75

232-Q ENHANCED INTRADAY LIQUIDITY FACILITY

The ILF is a smoothening mechanism which is available to eligible participant QBs in the PhilPaSS to support their liquidity requirements and avoid payment gridlocks in PhilPaSS. The revised features of the enhanced intraday liquidity facility are shown in *Appendix Q-17*.

E. OTHER BORROWINGS

241-Q BORROWINGS FROM THE GOVERNMENT

QBs shall not borrow any fund or money from the Government and government entities, through the issuance or sale of its acceptances, notes or other evidence of debt, except as may be authorized by existing statutes.

Definition of terms. For purposes of this Section, the following terms shall have the meaning indicated unless the context clearly indicates otherwise:

- a. *Fund or money from the Government and government entities* includes public moneys of every sort, whether pertaining to the National Government, province, city, municipality, or other branch or agency of the Government, including government-owned or controlled corporations (GOCCs) as defined herein, and shall comprise "*revenue funds*", "*trust funds*", and "*depository funds*" as these terms are defined in the Revised Administrative Code of 1987, and deposits of, borrowings from, and all other liabilities to, the Government and government entities.
- b. *GOCCs* shall refer to GOCCs which are created by special laws. It shall exclude government FIs such as the Development Bank of the Philippines (DBP), Land Bank of the Philippines (LBP) and Al-Amanah Islamic Investment Bank of the Philippines, corporations which are organized as subsidiaries of GOCCs under the provisions of the Corporation Law (Act No. 1459, as amended) or the Corporation Code (BP Blg. 68) and private corporations which are taken over by GOCCs.

242-Q BORROWINGS FROM BANKS, QUASI-BANKS AND OTHER FINANCIAL INTERMEDIARIES

The following borrowings from banks, quasi-banks and other financial intermediaries as defined under Sec. 101-Q (*Financial intermediaries*) shall not be considered as deposit substitutes:

- a. *Borrowings from banks, quasi-banks (QBs) and other financial intermediaries.* Borrowings of QBs from banks, other QBs and financial intermediaries shall be subject to appropriate documentation.

Borrowings of QBs from banks and other QBs shall also be subject to the regulations on interbank loan transactions under Sec. 312-Q.

- b. *Repurchase agreements.* Repurchase agreements with banks, QBs or other financial intermediaries shall likewise be governed by the following regulations:

- (1) *Proper recording and documentation of repurchase agreements.* QBs shall have a true and accurate account, record or statement of their daily transactions. As such, repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments must be properly recorded and documented.

The absence of proper documentation for repurchase agreements is tantamount to willful omission of entries relevant to any transaction, which shall be a ground for the imposition of administrative sanctions and the disqualification from office of any director or officer responsible therefor under existing laws and regulations.

- (2) *Responsibilities of the chief executive officer (CEO) or officer of equivalent rank.* It shall be the responsibility of the CEO or the officer of equivalent rank in a QB to:

- (a) Institute policies and procedures to prevent undocumented or improperly documented repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments;
- (b) Submit a notarized certification at the end of every semester that the QB did not enter into any repurchase agreement covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations and that the QB has strictly complied with the pertinent rules of the SEC and the Bangko Sentral on the proper sale of securities to the public and performed the necessary representations and disclosures on the securities;

- (c) Inform the client of all relevant disclosures pertaining to repurchase agreements under Sec. 201-Q (*Repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments.*), as applicable; and
- (d) Report to the appropriate supervising department of the Bangko Sentral any undocumented repurchase agreement within seventy-two (72) hours from knowledge of such transactions.

Sanctions. The Monetary Board may, at its evaluation and discretion, impose any or all of the following sanctions to a QB or the director/s or officer/s found to be responsible for repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations:

- (a) Fine of up to ₱30,000 a day to the entity concerned for each violation from the date the violation was committed up to the date it was corrected;
 - (b) Suspension of interbank clearing privileges/immediate exclusion from clearing;
 - (c) Suspension of access to Bangko Sentral rediscounting facilities;
 - (d) Suspension of lending or foreign exchange operations or authority to accept new deposits or make new investments;
 - (e) Revocation of quasi-banking license;
 - (f) Revocation of authority to perform trust operations; and
 - (g) Suspension for 120 days without pay of the directors/officers responsible for the violation.
- c. **Bonds.** Bonds that are issued to banks, quasi-banks and other financial intermediaries as defined under Sec. 101-Q (*Financial intermediaries*) shall comply with the regulations prescribed under Sec. 205-Q on the issuance of bonds and commercial papers.

Delivery of securities

The guidelines on the delivery of securities, warehouse receipts, quedans and other documents of title which are the subject of quasi-banking functions, such as repurchase agreements, under Sec. 205-Q (*Financial intermediaries*) shall, likewise, apply to borrowings with banks, quasi-banks and other financial intermediaries.

(Circular No. 1061 dated 25 November 2019)

F. OTHER LIABILITIES

251-Q DISCLOSURE OF REMITTANCE CHARGES AND OTHER RELEVANT INFORMATION

It is the policy of the Bangko Sentral to promote the efficient delivery of competitively-priced remittance services by banks and other remittance service providers by promoting competition and the use of innovative payment systems, strengthening the financial infrastructure, enhancing access to formal remittance channels in the source and destination countries, deepening the financial literacy of consumers, and improving transparency in remittance transactions, consistent with sound practices.

Towards this end, NBFIs under Bangko Sentral supervision, including FXDs/MCs and RAs, providing overseas remittance services shall disclose to the remittance sender and to the recipient/beneficiary, the following minimum items of information regarding remittance transactions, as defined herein:

- a. *Transfer/remittance fee* - charge for processing/sending the remittance from the country of origin to the country of destination and/or charge for receiving the remittance at the country of destination;
- b. *Exchange rate* - rate of conversion from foreign currency to local currency, e.g., peso-dollar rate;
- c. *Exchange rate differential/spread* - foreign exchange mark-up or the difference between the prevailing Bangko Sentral reference/guiding rate and the exchange/conversion rate;
- d. *Other currency conversion charges* commissions or service fees, if any;
- e. *Other related charges* - e.g., surcharges, postage, text message or telegram;
- f. *Amount/currency paid out in the recipient country* - exact amount of money the recipient should receive in local currency or foreign currency; and
- g. *Delivery time to recipients/beneficiaries* - delivery period of remittance to beneficiary stated in number of days, hours or minutes.

Non-bank remittance service providers shall likewise post said information in their respective websites and display them prominently in conspicuous places within their premises and/or remittance/service centers.

In case of domestic remittance transactions, all fees to the transactions shall be charged upfront by all NBFIs under Bangko Sentral supervision from the sender/remitter's end, with appropriate disclosure to the sender/remitter of the components of the fees being charged. This does not preclude the Bangko Sentral-supervised NBFIs and/or other participants to the domestic remittance transaction from charging service fees. *Domestic remittance transaction*, for this purpose, is a transfer of funds between a sender/remitter and a beneficiary who are both within the Philippines, or between two (2) accounts within the Philippines.

(Circular No. 952 dated 22 March 2017)

PART THREE

LOANS, INVESTMENTS AND SPECIAL CREDITS

A. GENERAL PROVISIONS ON LENDING OPERATIONS

301-Q GRANT OF LOANS AND OTHER CREDIT ACCOMMODATIONS

In addition to the principles and standards provided under Sec. 143-Q, the following regulations shall be observed in the grant of loans and other credit accommodations.

Additional requirements. FIs shall require submission and maintain on file updated ITRs of the borrower, and his co-maker, if applicable, duly stamped as received by the BIR together with supporting financial statements, as applicable. FIs shall likewise require borrowers to execute a waiver of confidentiality of client information and/or an authority of the FI to conduct random verification with the BIR in order to establish authenticity of these documents.

Should the document(s) submitted prove to be incorrect in any material detail, the FI may terminate any loan or other credit accommodation granted on the basis of said document(s) and shall have the right to demand immediate repayment or liquidation of the obligation.

The required submission of such documents shall not cover the following credit exposures:

- a. Microfinance loans as defined under Sec. 314 of the MORB (*Definition*, item “a”);
- b. Loans to registered BMBEs;
- c. Interbank loans;
- d. Loans secured by hold-outs on or assignment of deposits or other assets considered non-risk by the Monetary Board;
- e. Loans to individuals who are not required to file ITRs under BIR regulations, as follows:
 - (1) Individuals whose gross compensation income does not exceed their total personal and additional exemptions, or whose compensation income derived from one (1) employer does not exceed P60,000 and the income tax on which has been correctly withheld;
 - (2) Those whose income has been subjected to final withholding tax;
 - (3) Senior citizens not required to file a return pursuant to R.A. No. 7432, as amended by R.A. No. 9257, in relation to the provisions of the National Internal Revenue Code (NIRC) or the Tax Reform Act of 1997; and
 - (4) An individual who is exempt from income tax pursuant to the provisions of the NIRC and other laws, general or special;
- f. Loans to borrowers, whose only source of income is compensation and the corresponding taxes on which has been withheld at source: *Provided*, That the borrowers submitted, in lieu of the ITR, a copy of their Employer’s Certificate of Compensation Payment/Tax Withheld (BIR Form 2316) or their payslips for at least three (3) months immediately preceding the date of loan application;
- g. Loans and other credit accommodations not exceeding P3.0 million; or
- h. Loans to start up enterprise borrowers during the first three (3) years of their operations or banking relationship.

Prohibited use of loan proceeds. QBs are prohibited from requiring their borrowers to acquire shares of stock of the lending QB out of the loan or other credit accommodation proceeds from the same QB.

Signatories. QBs shall require that loans and other credit accommodations be made under the signature of the principal borrower and, in the case of unsecured loans and other credit accommodations to an individual borrower, at least one (1) co-maker, except that a co-maker is not required when the principal borrower has the financial capacity and a good track record of paying his obligations.

Minimum required disclosure. QBs shall provide a table of the applicable fees, penalties and interest rates on loan transactions, including the period covered by and the manner of and reason for the imposition of such penalties, fees and interests; fees and applicable conversion reference rates for third currency transactions, in plain sight and language, on materials for marketing loans, such as brochures, flyers, primers and advertising materials, on loan application forms, and

on billing statements: *Provided*, That these disclosures are in addition to the full disclosure of the fees, charges and interest rates in the terms and conditions of the loan agreement found elsewhere on the application form and billing statement: *Provided further*, That such table of fees, penalties and interest rates shall be printed in plain language and in bold black letters against a light or white background, and using the minimum Arial 12 theme font and size, or its equivalent in readability, and on the first page, if the applicable document has more than one (1) page.

Unfair collection practices. QBs, collection agencies, counsels and other agents may resort to all reasonable and legally permissible means to collect amounts due them under the loan agreement: *Provided*, That in the exercise of their rights and performance of duties, they must observe good faith and reasonable conduct and refrain from engaging in unscrupulous or untoward acts. Without limiting the general application of the foregoing, the following conduct is a violation of this Section:

- a. the use or threat of violence or other criminal means to harm the physical person, reputation, or property of any person;
- b. the use of obscenities, insults, or profane language which amount to a criminal act or offense under applicable laws;
- c. disclosure of the names of borrowers who allegedly refuse to pay debts, except as allowed under Confidentiality of information in this Section;
- d. threat to take any action that cannot legally be taken;
- e. communicating or threatening to communicate to any person credit information which is known to be false, including failure to communicate that a debt is being disputed;
- f. any false representation or deceptive means to collect or attempt to collect any debt or to obtain information concerning a borrower; and
- g. making contact at unreasonable/inconvenient times or hours which shall be defined as contact before 6:00 A.M. or after 10:00 P.M., unless the account is past due for more than sixty (60) days or the borrower has given express permission or said times are the only reasonable or convenient opportunities for contact.

QBs shall inform their borrowers in writing of the endorsement of the collection of their account to a collection agency/agent, or the endorsement of their account from one collection agency/agent to another, at least seven (7) days prior to the actual endorsement. The notification shall include the full name of the collection agency and its contact details: *Provided*, That the required notification in writing shall be included in the terms and conditions of the loan agreement. QBs shall adopt policies and procedures to ensure that personnel handling the collection of accounts, whether these are in-house collectors, or third party collection agents, shall disclose his/her full name/true identity to the borrower.

Confidentiality of information. QBs shall keep strictly confidential the data on the borrower or consumer, except under the following circumstances:

- a. disclosure of information is with the consent of the borrower or consumer;
- b. release, submission or exchange of customer information with other financial institutions, credit information bureaus, lenders, their subsidiaries and affiliates;
- c. upon orders of court of competent jurisdiction or any government office or agency authorized by law, or under such conditions as may be prescribed by the Monetary Board;
- d. disclosure to collection agencies, counsels and other agents of the QB to enforce its rights against the borrower;
- e. disclosure to third party service providers solely for the purpose of assisting or rendering services to the QB in the administration of its lending business; and
- f. disclosure to third parties such as insurance companies, solely for the purpose of insuring the QB from borrower default or other credit loss, and the borrower from fraud or unauthorized charges.

Sanctions. Violations of the provisions of this Section on Minimum required disclosure, Unfair collection practices, and Confidentiality of information shall be subject to any or all of the following sanctions depending upon their severity:

- a. *First offense.* Reprimand for the directors/officers responsible for the violation;
- b. *Second offense.* Disqualification of the QBs concerned from the credit facilities of the Bangko Sentral except as may be allowed under Section 84 of R. A. No. 7653;
- c. *Subsequent offense/s:*
 - (1) Prohibition on the QB concerned from the extension of additional credit accommodation against personal security; and
 - (2) Penalties and sanctions provided under Sections 36 and 37 of R. A. No. 7653.

(Circular No. 855 dated 29 October 2014)

302-Q SECURED LOANS AND OTHER CREDIT ACCOMMODATIONS

A loan may be considered secured by collateral to the extent the estimated value of net proceeds at disposition of such collateral can be used without legal impediment to settle the principal and accrued interest of such loan: *Provided*, That such collateral must have an established market and the valuation methodology used is sound, and: *Provided, further*, That in the case of real estate collateral, the maximum collateral value shall be sixty percent (60%) of its value as appraised by an appraiser acceptable to the Bangko Sentral.

A loan may also be considered as secured to the extent covered by a third party financial guarantee or surety arrangement where the credit enhancement provider is itself considered to be of high credit quality (credit rating of at least AA or equivalent) or is recognized by the Bangko Sentral as eligible guarantor under existing regulations.

Finally, a loan may be secured by a combination of acceptable collateral and guarantee arrangements as defined above, provided such arrangements are independent of one another for credit enhancement purposes.

(Circular Nos. 914 dated 23 June 2016 and 855 dated 29 October 2014)

303-Q PAST DUE ACCOUNTS AND NON-PERFORMING LOANS¹

The following regulations shall guide BSFIs in determining their past due accounts and non-performing loans.

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Restructured loans* shall refer to loans and other credit accommodations the original contractual terms and conditions of which have been modified in accordance with a formal restructuring agreement that sets forth a revised schedule of payments for the purpose of lessening the financial difficulty of the borrower and maximizing collection and realizable economic value on an obligation within a reasonable period of time. The modification may include, but is not limited to, change in principal due, maturity, interest rate and other charges, collateral, or other terms and conditions.
- b. *Items in litigation* shall refer to loans or other credit accommodations for which cases, such as collection or foreclosure, have been filed in court or sheriff's office, as the case may be. The loan or other credit accommodation shall remain in this account during the pendency of the proceedings, until full payment, restructuring of the obligation, foreclosure of the collateral, or such other disposition is made as would cause such proceedings to cease.

Accounts considered past due. As a general rule, loans, investments, receivables, or any financial asset, including restructured loans, shall be considered past due when any principal and/or interest or installment due, or portions thereof, are not paid at their contractual due date, in which case, the total outstanding balance thereof shall be considered as past due. However, BSFIs may provide a cure period on a credit product-specific basis, not to exceed thirty (30) days within which to allow obligors or borrowers to catch up on their late payment without being considered as past due: *Provided*, That any cure period policy shall be based on verifiable collection experience and reasonable judgment that support tolerance of occasional payment delays: *Provided, further*, That the observance of a cure period policy shall not preclude the timely adverse classification of an account that has developed material credit weakness/es, and that BSFIs shall regularly review the reasonableness of its cure period policy. For microfinance and other small loans that feature high frequency payments, the cure period allowable by policy shall not exceed ten (10) days.

Non-performing loans. Loans, investments, receivables, or any financial asset shall be considered non-performing, even without any missed contractual payments, when it is considered impaired under existing accounting standards², classified as doubtful or loss, in litigation, and/or there is evidence that full repayment of principal and interest is unlikely without foreclosure of collateral, if any. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than ninety (90) days from contractual due date, or accrued interests for more than ninety (90) days have been capitalized, refinanced, or delayed by agreement.

Microfinance and other small loans with similar credit characteristics shall be considered non-performing after contractual due date or after it has become past due.

Restructured loans shall be considered non-performing. However, if prior to restructuring, the loans were categorized as performing, such classification shall be retained.

¹ Effective from 10 February 2017 up to 31 December 2017, BSFIs shall make the necessary revisions in their management information and reporting systems relating to past due and non-performing loans. Effective 01 January 2018, past due and NPLs shall be mandatorily reported in accordance with the requirements of this Section.

² Applicable accounting standard is PAS 39 until 31 December 2017 and International Financial Reporting Standards (IFRS) 9 starting 01 January 2018. A financial asset or a group of financial assets is impaired when there is objective evidence that its recoverable value is less than its carrying amount, as a result of one or more loss events that occurred after the initial recognition of the asset and that the loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. It may not be possible to identify a single, discrete event that caused the impairment. Rather, the combined effect of several events may have caused the impairment.

Non-performing loans, investments, receivables, or any financial asset (and/or any replacement loan) shall remain classified as such until (a) there is sufficient evidence to support that full collection of principal and interests is probable and payments of interest and/or principal are received for at least six (6) months; or (b) written-off.

Reporting requirement. QBs shall report the following data at the end of each month as additional information in the monthly Consolidated Statement of Condition starting with their report as of 31 May 1999.

Total non-performing loans	xxx
Non -performing regular loans	xxx
Non -performing restructured loan	xxx

Updating of information provided to credit information bureaus. QBs which have provided adverse information, such as the past due or litigation status of loan accounts, to credit information bureaus, or any organization performing similar functions, shall submit monthly reports to these bureaus or organizations on the full payment or settlement of the previously reported accounts within five (5) business days from the end of the month when such full payment was received. For this purpose, it shall be the responsibility of the reporting QBs to ensure that their disclosure of any information about their borrowers/clients is with the consent of borrowers/clients concerned.

(Circular Nos. 941 dated 20 January 2017, and 890 dated 02 November 2015, M-2015-035 dated 07 October 2015, Circular No. 882 dated 30 June 2015, M-2015-009 dated 28 January 2015, and 855 dated 29 October 2014)

304-Q INTEREST AND OTHER CHARGES

The following rules shall govern the rates of interest on loans by QBs.

Rate of interest in the absence of stipulation. The rate of interest for the loan or forbearance of any money, goods or credit and the rate allowed in judgments, in the absence of express contract as to such rate of interest, shall be six percent (6%) per annum.

Escalation clause; when allowable. Parties to an agreement pertaining to a loan or forbearance of money, goods or credits may stipulate that the rate of interest agreed upon may be increased in the event that the applicable maximum rate of interest is increased by law or by the Monetary Board: *Provided*, That such stipulation shall be valid only if there is also a stipulation in the agreement that the rate of interest agreed upon shall be reduced in the event that the applicable maximum rate of interest is reduced by law or by the Monetary Board: *Provided, further*, That the adjustment in the rate of interest agreed upon shall take effect on or after the effectivity of the increase or decrease in the maximum rate of interest.

Floating rates of interest. The rate of interest on a floating rate loan during each interest period shall be stated based on the Manila Reference Rate (MRR), Treasury Bill Rate (TBR) or other market-based reference rates, plus a margin as may be agreed upon by the parties.

The MRRs for various interest periods shall be determined and announced by the Bangko Sentral every week and shall be based on the weighted average of the interest rates paid during the immediately preceding week by the ten (10) commercial banks with the highest combined levels of outstanding deposit substitutes and time deposits, in promissory notes issued and time deposits received by such banks, of P100,000 and over per transaction account, with maturities corresponding to the interest periods for which such MRRs are being determined. Such rates and the composition of the sample commercial banks shall be reviewed and determined at the beginning of every calendar semester on the basis of the banks' combined levels of outstanding deposit substitutes and time deposits as of May 31 or November 30, as the case may be.

The rate of interest on floating rate loans existing and outstanding as of 23 December 1995 shall continue to be determined on the basis of the MRRs obtained in accordance with the provisions of the rules existing as of 01 January 1989: *Provided, however*, That the parties to such existing floating rate loan agreement are not precluded from amending or modifying their loan agreements by adopting a floating rate of interest determined on the basis of TBR or other market-based reference rates.

Where the loan agreement provides for a floating interest rate, the interest period which shall be such period of time for which the rate of interest is fixed, shall be such period as may be agreed upon by the parties.

Accrual of interest earned on loans and other credit accommodations. Accrual of interest earned on non-performing loans and other credit accommodations shall not be allowed.

Accrued interest receivable shall be classified in accordance with their respective loan accounts and provided with *Allowance for Uncollected Interest on Loans*.

Rate ceilings. The rate of interest, including commissions, premiums, fees and other charges on loan transactions, regardless of maturity and whether secured or unsecured, shall not be subject to any ceiling.

Effect of prepayment. If there is no agreement on the rebate of interest in the event of prepayment of the loan, the QB is not under any legal obligation to return the interest corresponding to the period from date of prepayment to the stipulated maturity date of the loan. Any prepayment made by the debtor should not, therefore, affect computation of the effective rate stipulated in the loan contract.

Loan prepayment. The borrower of a QB shall not be prohibited from prepaying a loan. A stipulation requiring the consent of the lending QB to such prepayment shall be contrary to this provision. In case of prepayment in the loan contract, such prepayment shall not be subject to penalty in the absence of any stipulation as to penalty. However, the parties may stipulate that prepayment shall be subject to penalty: *Provided*, That the penalty is not excessive or unconscionable.

Method of computing interest. QBs shall only charge interest based on the outstanding balance of a loan at the beginning of an interest period.

For a loan where the principal is payable in installments, interest per installment period shall be calculated based on the outstanding balance of the loan at the beginning of each installment period.

Toward this end, all loan-related documents shall show repayment schedules in a manner consistent with this provision. Marketing materials and presentations shall likewise be consistent with this provision.

(Circular Nos. 1011 dated 14 August 2018 and 855 dated 29 October 2014)

305-Q “TRUTH IN LENDING ACT” DISCLOSURE REQUIREMENT

QBs are required to strictly adhere to the provisions of R.A. No. 3765, otherwise known as the “Truth in Lending Act”, and shall make the true and effective cost of borrowing an integral part of every credit transaction contract.

The following regulations shall apply to all QBs engaged in the following types of credit transactions:

- a. Any loan, mortgage, deed of trust, advance and discount;
- b. Any conditional sales contract, any contract to sell, or sale or contract of sale of property or services, either for present or future delivery, under which part or all of the price is payable subsequent to the making of such sale or contract;
- c. Any rental-purchase contract;
- d. Any contract or arrangement for the hire, bailment, or leasing of property;
- e. Any option, demand, lien, pledge, or other claim against, or for delivery of property or money;
- f. Any purchase, or other acquisition of, or any credit upon the security of, any obligation or claim arising out of any of the foregoing; and
- g. Any transaction or series of transactions having a similar purpose or effect.
- h. The following categories of credit transactions are outside the scope of these regulations:
 - (1) Credit transactions which do not involve the payment of any finance charge by the debtor; and
 - (2) Credit transactions in which the debtor is the one specifying a definite and fixed set of credit terms such as bank deposits, insurance contracts, sale of bonds, etc.

Definition of terms.

- a. *Person* means any individual, partnership, corporation, association, or other organized group of persons, or the legal successor or representative of the foregoing, and includes the Philippine Government or any agency thereof, or any other government, or any of its political subdivisions, or any agency of the foregoing.
- b. *Cash price or delivered price*, in case of trade transactions, is the amount of money which would constitute full payment upon delivery of the property (except money) or service purchased at the QB’s place of business. In the case of financial transactions, cash price represents the amount of money received by the debtor upon consummation of the credit transaction, net of finance charges collected at the time the credit is extended, if any.
- c. *Down payment* represents the amount paid by the debtor at the time of the transaction in partial payment for the property or service purchased.
- d. *Tra-in* represents the value of an asset agreed upon by the QB and debtor, given at the time of the transaction as partial payment for the property or service purchased.
- e. *Non-finance charges* correspond to the amounts advanced by the QB for items normally associated with the ownership of the property or the availing of the service purchased which are not incidental to the extension of credit. For example, in the case of the purchase of an automobile on credit, the QB may advance the insurance premium as well as the registration fee for the account of the debtor.

- f. *Amount to be financed* consists of the cash price plus non-finance charges less the amount of the down payment and value of the trade-in.
- g. *Finance charge* includes interest, fees, service charges, discounts, and such other charges incident to the extension of credit.
- h. *Simple annual rate* is the uniform percentage which represents the ratio between the finance charge and the amount to be financed under the assumption that the loan is payable in one (1) year with single payment upon maturity and there are no up-front deductions to principal.

For loans with terms different from the above assumptions, the annual effective interest rate shall be calculated and disclosed to the borrower as the relevant true cost of the loan comparable to the concept of simple annual rate.

For loans with contractual interest rates stated on monthly basis, the effective interest rate may be expressed as a monthly rate.

In accordance with the Philippine Accounting Standards (PAS) definition, *effective interest rate* is the rate that exactly discounts estimated future cash flows through the life of the loan to the net amount of loan proceeds. For consistency, methodology and standards for discounted cash flow models shall be prescribed to be used for the purpose.

It is understood that an EIR calculation model founded on established principles of discounted cash flow analysis should be based on the actual loans features. An NBFIs shall be solely responsible for the proprietary and accuracy of its EIR calculation model, however, Bangko Sentral's determination of the reasonableness and accuracy of an EIR calculation model prevails. (Sample computation shown in *Appendix Q-15*).

Information to be disclosed. The following are the minimum information required to be disclosed to QB borrowers (sample form in *Appendix Q-15*):

- a. The total amount to be financed;
- b. The finance charges expressed in terms of pesos and centavos;
- c. The net proceeds of the loan; and
- d. The percentage that the finance charge bears to the total amount to be financed expressed as a simple annual rate or an annual effective interest rate as described in Item "h" of Definition of terms in this Section may also be quoted as a monthly rate in parallel with the quotation of the contractual rate.

QBs are required to furnish each borrower a copy of the disclosure statement, prior to the consummation of the transaction.

Inspection of contracts covering credit transactions. QBs shall keep in their office or place of business copies of contracts which involve the extension of credit and the payment of finance charges therefore. Such copies shall be available for inspection or examination by the appropriate supervising department of the Bangko Sentral.

Dissemination of Relevant Information. QBs shall ensure that all persons to whom credit is extended are well informed of the salient provisions of Republic Act No. 3765, otherwise known as the "Truth in Lending Act" as contained in the revised format of disclosure statement in *Appendix Q-15* through any acceptable medium of communication such as, but not limited to, posters, brochures, pamphlets, leaflets, educational videos, corporate websites, infographics and social media platforms. Said information must be conspicuously displayed and made available at all times, in physical or electronic format, to all persons to whom credit is extended by QBs subject to the consumer protection standards and social media risk management guidelines. Such medium of communication shall include an explicit notification that the disclosure statement in writing is a required attachment to the credit transaction contract which QBs shall provide all persons to whom credit is extended with a copy of said disclosure statement prior to the consummation of the credit transaction.

Sanctions and penal provisions. Non-compliance with any of the provisions of this Section shall be subject to the appropriate monetary penalties under Sec. 1102-Q (*Guidelines on the imposition of monetary penalties*), depending on the severity of non-disclosure, number of loans and amount involved in the violation. In addition to sanctions under R.A. No. 3765, the following sanctions may be imposed:

- a. *First offense.* Reprimand on the erring officer/s;
- b. *Second offense.* Reprimand on the entire board of directors; and
- c. *Subsequent offense/s:*
 - (1) Suspension of the erring officer/s and/or entire board of directors; and
 - (2) Restriction on lending activities.

This is without prejudice to other penalties and sanctions provided under Sections 36 and 37 of R.A. No. 7653.

(Circular Nos. 1052 dated 2 October 2019 and 988 dated 20 December 2017)

B. TYPES OF LOANS AND CREDITS

311-Q AGRICULTURAL LOANS

The Bangko Sentral supports the promotion of agricultural value chain financing as an effective and organized approach to channel financing to the agriculture and fisheries sectors and promote financial inclusion. By encouraging the linking of various actors/players in an agricultural value chain, credit risk of participating smallholder farmers/fisherfolks can be reduced. As a result, this type of financing would facilitate and allow small farmers/fisherfolks to have, if not more, access to credit. This is expected to further improve productivity in the agriculture and fisheries sectors and at the same time uplift the lives of these marginalized farmers/fisherfolks.

The provisions covering the agricultural value chain financing framework shall be implemented in consonance with Sec. 143-Q.

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Value chain* - refers to a set of actors/players, e.g., producers (farmers/fisherfolks), traders, suppliers, processors, aggregators, who conduct linked sequence of value- adding activities involved in bringing a product from its raw material stage to the final consumers;
- b. *Value chain finance* - refers to the financial flows to those actors/players from both within the value chain and financial flows to those actors/players from the outside as a result of their being linked within a value chain;
- c. *Agricultural value chain analysis* - refers to the assessment of actors/players, e.g., from input suppliers to producers to processors and to traders, their interests and the factors influencing the performance of a particular value chain, e.g., palay, corn, livestock, marine products, as a whole, as opposed to only examining targeted sections of the chain; it also includes understanding the nature of the chain, identifying the weakest and strongest links along the chain and the business models as shown in *Appendix Q-75*; and
- d. *Value chain aggregator* - refers to any value chain actor/player or any entity outside the value chain which initiates the formalization and/or organization of a value chain and/or which offers services that aim to strengthen existing value chains.

Features of agricultural value chain financing program. Consistent with existing provisions on sound credit risk management practices, the Bangko Sentral hereby recognizes agricultural value chain financing programs that have the following features:

- a. *Agricultural value chain policy and procedures.* The BSFI shall put in place adequate policies and procedures which cover the identification of value chains, comprehensive value chain analysis, and the design of appropriate financial products and services, among others;
- b. *Types of credit products.* BSFIs can design and/or offer appropriate financial products either to a specific actor/player or to various actors/players of the value chain model simultaneously. In addition to the traditional loans and discounts that BSFIs are currently offering, the following products and financial services may also be made available to agricultural value chain actors/players:
 - (1) *Trade-receivables finance* - a BSFI advances working capital to agribusiness (supplier, processor, marketing and export) companies against accounts receivable or confirmed orders to producers. Receivables financing takes into account the strength of the buyer's purchases and repayment history;
 - (2) *Factoring* - a financial transaction whereby a business sell its accounts receivable or contracts of sales of goods at a discount to an appropriate BSFI, called a factor, who pays the business minus a factor discount and collects the receivables when due; and
 - (3) *Warehouse receipts* - farmers and other value chain enterprises receive a receipt from a certified warehouse that can be used as collateral to access a loan from an appropriate BSFI against the security of goods in an independently controlled warehouse.
- c. *Loan disbursement.* Loan releases may take the following forms depending on the role that the borrower takes in the value chain and the risks to be addressed by the BSFI:

- (1) *Cash disbursements* - the most common practice which may be completed in one transaction or in installments;
 - (2) *Loan proceeds transfer to suppliers* - under this scheme the BSFI prefers to deal with the supplier directly to control loan utilization and, therefore, prefer to transfer the loan proceeds straight to the supplier upon full acceptance of the buyer (borrower). In case the supplier is a related party, the BSFI shall ensure that the term and conditions of the loan are not less favorable to the borrower than those offered by other lenders; and
 - (3) *Anchor firm (institutional buyer) triggered loan release* - loan release to the borrower will be endorsed by the anchor firm to ensure the adoption of the technology protocol required by the buyer (anchor firm). This would optimize productivity by the farmer-borrower and the technology adopted conforms with the requirements of the buyer; thus, reduce rejects on the deliveries of the produce.
- d. *Disaster contingency mechanism.* In light of the vulnerability of the agriculture and fisheries sectors which could result to significant credit losses to financial institutions, if not managed well, the BSFI may put in place a disaster contingency mechanism that anticipates such events and provides response mechanisms to mitigate the impact of such inherent risks. The disaster contingency mechanism can provide timely relief to a borrower to facilitate recovery. This mechanism shall be adequately documented with clear policies and guidelines.
- Provided such built-in contingency mechanism is prudently designed, its activation shall not automatically trigger adverse loan classification and past due loan recognition so as to manage credit losses to the BSFI and minimize burden on the client. Any new financing granted under such schemes will also not be adversely classified. However, such credit should be closely monitored and appropriate corrective measure should be taken once it becomes clear that recoverability is impaired.
- e. *Other features.* The following activities may also be allowed:
- (1) Director/s, officer/s and/or stockholder/s of BSFIs engaged in agricultural value chain financing may own and/or control: (i) private entities that would act as aggregators to facilitate the formation of value chains, and (ii) economically-linked entities that are also actors/players in the value chain: *Provided*, That all transactions with such entities shall be in the ordinary course of business and not undertaken on more favorable economic terms to such related parties than similar transactions with non-related parties under similar circumstances. These transactions shall comply and adhere to existing regulations pertaining to DOSRI loans and/or related- party transactions; and
 - (2) The BSFI, if necessary, may initiate the formulation of formal agreement(s) with qualified value chain actors/players to protect the interests of all parties involved.

Regulatory incentives. To encourage BSFIs to engage in agricultural value chain financing, the following incentives shall apply; provided, this Section on Features of Agricultural Value Chain Financing Program are complied with:

- a. Loans granted to agricultural value chain actor(s)/player(s), who are qualified borrowers under Sec. 331 of the MORB, shall be considered as either direct or allowable alternative compliance to the mandatory agriculture and agrarian reform credit allocation; and
- b. Increase in SBL for an additional twenty-five percent (25%) for loans, other credit accommodations and guarantees granted to entities, which act as value chain aggregators of the lending banks' clients, and/or economically-linked entities that are also actors/players in the value chain: *Provided*, That the additional twenty-five percent (25%) will apply only to non- director/s, officer/s, stockholder/s, and related interest/s (DOSRI)/related party transaction (RPT) loans: *Provided, further*, That such increase in the SBL for an additional twenty-five percent (25%) shall only be for a period of three (3) years starting 02 April 2016¹, subject to review after said period.

(Circular No. 908 dated 14 March 2016)

312-Q INTERBANK LOANS

Interbank loan transactions shall include the following transactions with banks and other quasi-banks, (a) call or demand loan transactions; (b) term loan transactions; (c) borrowings evidenced by debt instruments which may include, but need not be limited to, bankers acceptances, promissory notes, participations, certificates of assignment and similar instruments with recourse, and repurchase agreements; and (d) purchases of receivables with recourse: *Provided*, That funds borrowed by QBs from trust departments of banks/investment houses shall be excluded from the herein definition of interbank loan transactions.

Systems and procedures for interbank call loan transactions. IBCL transactions of QBs shall be governed by the Agreement for the PhilPaSS executed between the Bangko Sentral and the Investment Houses Association of the Philippines (IHAP) on 12 December 2002 and any subsequent amendments thereto.

¹ effectivity date (13 April 2016) of Circular No. 908 dated 14 March 2016.

Accounting procedures.

- a. Both lending and borrowing QBs shall immediately pass the corresponding entries in their books.
- b. IBCL transactions shall be recorded by the lending QB as *Interbank Call Loans Receivable* and by the borrowing QB as *Bills Payable -Interbank Call Loans Payable*.
- c. QBs shall reconcile their DDAs with the Bangko Sentral against monthly statements of account to be furnished by the Bangko Sentral Financial Accounting Department Comptrollership Sub-Sector.

Settlement procedures. Interbank loan transactions (call and term) among QBs shall be settled in accordance with the provisions of the Agreement for the PhilPaSS executed between the Bangko Sentral and the IHAP on 12 December 2002 and any subsequent amendments thereto.

Transfer of excess funds. The prescribed "Authority to Debit Slip" shall be used by QBs in the transfer of their excess funds which are not otherwise lent out in the interbank loan market from their Bangko Sentral reserve accounts to their operating accounts with their depository banks.

The "Authority to Debit Slip" shall have a standard size of 4 3/4" x 8 1/2" and shall be orange in color. It shall contain the minimum data or information as required and shall be accomplished and submitted to the Bangko Sentral Comptrollership Department in duplicate after having been duly signed and/or authenticated by authorized officers of the QB.

(Circular No. 1061 dated 25 November 2019)

C. LOANS AND OTHER CREDIT ACCOMMODATIONS TO DIRECTORS, OFFICERS, STOCKHOLDERS AND THEIR RELATED INTERESTS/SUBSIDIARIES/AFFILIATES

321-Q POLICY STATEMENT

The Bangko Sentral recognizes that transactions of its supervised financial institutions (BSFIs) with related parties, which include dealings with directors, officers, stockholders, and their related interests (DOSRI), subsidiaries, and affiliates, may be both productive and prudent. The Bangko Sentral also recognizes the need to provide BSFIs with flexibility with respect to lending to DOSRI, subsidiaries, and affiliates premised on the overarching principle that the transactions shall at all times be kept above board and conducted on an arm's length basis, and that BSFIs have adopted robust internal policies and procedures in handling related party transactions that are compliant with the minimum requirements of law and regulations.

Definitions. For purposes of these regulations, the following definitions shall apply.

- a. *Directors* shall refer to QB directors as defined in item "e" of Sec. 131-Q (*Definition of terms*).
- b. *Officers* shall refer to QB officers as defined in item "k" of Sec. 131-Q (*Definition of terms*).
- c. *Stockholder* shall refer to any stockholder of record in the books of the QB/trust entity, acting personally, or through an attorney-in-fact; or any other person duly authorized by him or through a trustee designated pursuant to a proxy or voting trust or other similar contracts, whose stockholdings in the lending QB/trust entity, individual and/or collectively with the stockholdings of: (i) his spouse and/or relative within the first degree by consanguinity or affinity or legal adoption; (ii) a partnership in which the stockholder and/or the spouse and/or any of the aforementioned relatives is a general partner; and (iii) corporation, association or firm of which the stockholder and/or his spouse and/or the aforementioned relatives own more than fifty percent (50%) of the total subscribed capital stock of such corporation, association or firm, amount to one percent (1%) or more of the total subscribed capital stock of the QB/trust entity.
- d. *Outstanding loans to and placements with the QB* shall refer to loans to and deposit substitutes of the QB which are not subject of an assignment or hold-out agreement.
- e. *Book value of the paid-in capital contribution* shall mean the proportional amount of the QB's total capital accounts (net of such unbooked allowance for credit losses and other capital adjustments as may be required by the Bangko Sentral) as the corresponding paid-in capital contribution of each director, officer or stockholder concerned bears to the total paid-in capital of the QB: *Provided*, That as a basis for determining the individual ceiling referred to in Sec. 325-Q, corresponding book value of the shares of stock of such director, officer or stockholder which are the subject of pledge, assignment or any other encumbrance shall be deducted therefrom.
- f. *Secured loan, borrowing, or credit accommodation* shall refer to any loan, discount, credit or advance, or portion thereof referred to in Sec. 322-Q (*Transactions Covered*) which is secured by physical collateral, financial guarantee, or other instruments, that are enforceable, realizable, and marketable and meets the standards prescribed under Secs. 143-Q (*Credit granting and loan evaluation/analysis process and underwriting standards*) and 302-Q.

- g. *Unsecured loan, borrowing or credit accommodation* shall refer to any loan, discount, credit or advance, or portion thereof referred to in Sec. 322-Q (*Transactions Covered*) which is not secured in accordance with Item “f” above.

(Circular Nos. 970 dated 22 August 2017 and 914 dated 23 June 2016)

322-Q TRANSACTIONS, COVERED AND NOT COVERED

Transactions Covered. The terms *loan, borrow, money borrowed* and *credit accommodations* as used herein shall refer to transactions which involve the grant, renewal, extension or increase of any loan, discount, credit or advance in any form whatsoever, and shall include:

- a. Outstanding availments under an established credit line;
- b. Drawings against an existing letter of credit;
- c. The acquisition by discount, purchase, exchange or otherwise of any note, draft, bill of exchange or other evidence of indebtedness upon which a director, officer or stockholder may be liable as a maker, drawer, acceptor, endorser, guarantor, or surety;
- d. Any advance of unearned salary or unearned compensation for periods in excess of thirty (30) days;
- e. Loans or other credit accommodations granted by another FI to such director, officer or stockholder from funds of the QB invested in the other institution’s trust or other department when there is a clear relationship between the transactions;
- f. The increase of an existing indebtedness, as well as additional availments under a credit line or additional drawings against a letter of credit;
- g. The sale of assets, such as shares of stock, on credit;
- h. Leasing transactions under R.A. No. 5980, as amended; and
- i. Any other transaction as a result of which a director, officer or stockholder becomes obligated or may become obligated to the lending QB, directly or indirectly, by any means whatsoever to pay money or its equivalent.

No QB shall grant, renew or extend any credit accommodation to its DOSRI whenever its combined capital accounts is deficient relative to risk assets held under Secs. 125-Q and 124-Q, or whenever its paid-in capital is deficient relative to the required minimum capitalization. Neither shall it grant, renew or extend any credit accommodation to any of its DOSRI who has past due credit accommodations with the QB.

Transactions Not Covered. The terms *loan, borrow, money borrowed or credit accommodation* as used herein shall not refer to the following transactions:

- a. Advances against accrued compensation, or for the purpose of providing payment of authorized travel, legitimate expenses or other transactions for the account of the QB or for utilization of maternity and other leave credits;
- b. The increase in the amount of outstanding credit accommodation as a result of additional charges or advances made by the QB to protect its interests such as taxes, insurance, etc.;
- c. The discount of bills of exchange drawn in good faith against actually existing values, and the discount of commercial or business paper actually owned by the person negotiating the same, including, but not limited to, the acquisition of export bills from any of its DOSRI which are drawn in accordance with the terms and conditions of the covering letters of credit: *Provided*, That the transaction shall automatically be subject to the ceiling as herein provided once the DOSRI who is a party to the transaction becomes directly liable to the QB;
- d. Transactions with a foreign bank or other FI which has stockholding in the QB where the foreign bank or other FI acts as guarantor through the issuance of letters of credit, guarantee letters or assignment of a deposit in a currency eligible as part of the international reserves and held in a bank in the Philippines to secure credit accommodations granted to another person or entity: *Provided*, That the foreign bank stockholder shall automatically be subject to the ceilings as herein provided in the event that its contingent liability as guarantor becomes a real liability; and
- e. Deposits of a QB with a bank, whether domestic or foreign, which has stockholdings in the QB.

Applicability to credit card operations. The credit card operations of QBs shall not be subject to these regulations where the credit cardholder is a director, officer or stockholder of the QB or their related interests (DOSRI): *Provided*, That (a) the privilege of becoming a credit cardholder is open to all qualified persons on the basis of selective criteria which are applied by the QB to all applicants thereof; and (b) the director, officer or stockholder/related interest concerned reimburses/pays the QB for the billed amount in full on or before the payment due date in the billing or statement of account, as set by the QB for all other qualified credit cardholders on availments made for the same period on their credit cards. However, the transaction shall be subject to applicable DOSRI regulations if the director, officer, or stockholder/related interest concerned:

- a. fails to reimburse/pay the QB within the period mentioned herein; or
- b. on the outset, opts for deferred payment scheme, and the availment is booked by the QB.

323-Q LOANS, OTHER CREDIT ACCOMMODATIONS AND GUARANTEES GRANTED TO SUBSIDIARIES AND/OR AFFILIATES

- a. *Ceilings.* The total outstanding loans, other credit accommodations and guarantees to each of the QB's subsidiaries and affiliates shall not exceed ten percent (10%) of the net worth of the lending QB: *Provided*, That the unsecured loans, other credit accommodations and guarantees to each of said subsidiaries and affiliates shall not exceed five percent (5%) of such net worth: *Provided, further*, That the total outstanding loans, other credit accommodations and guarantees to all subsidiaries and affiliates shall not exceed twenty percent (20%) of the net worth of the lending QB: *Provided, finally*, That these subsidiaries and affiliates are not related interest of any of the director, officer, and/or stockholder of the lending institution.

Loans, other credit accommodations and guarantees granted by a QB to an entity (often a special purpose entity or SPE) that is a subsidiary or affiliate of that QB for the purpose of project finance as defined under Sec. 325-Q (*Exclusion from the thirty percent (30%) unsecured individual ceiling for project finance*) shall be subject to a separate individual limit of twenty-five percent (25%) of the net worth of the lending QB, subject to the following conditions:

- (1) That the unsecured portion thereof shall not exceed twelve and one-half percent (12.5%) of such net worth when the project is already operational;
 - (2) That such project finance loans are for the purpose of undertaking initiatives that are in line with the priority programs and projects of the government;
 - (3) That the QB shall ensure that the standard prudential controls in project finance loans designed to safeguard creditors' interests are in place, which may include pledge of a borrower's shares, assignment of the borrower's assets, assignment of all revenues and cash waterfall accounts, and assignment of project documents;
 - (4) That the QB shall consider its total project finance exposures in complying with Secs. 341-Q (*Large exposures and credit risk concentrations*) and 143-Q (*Credit limits, large exposures, and credit risk concentrations*) on the guidelines in managing large exposures and credit risk concentrations; and
 - (5) That the subsidiary or affiliate is not a related interest of any of the director, officer, and/or stockholder of the lending QB.
- b. *Exclusions from the ceilings.* Loans, other credit accommodations and guarantees secured by assets considered as non-risk under existing Bangko Sentral regulations as well as interbank call loans shall be excluded in determining compliance with the ceilings prescribed under Item "a" above.
 - c. *Procedural requirements.* The following provisions shall apply if a QB grants a loan, other credit accommodation or guarantee to any of its subsidiaries and affiliates.
 - (1) *Approval of the board, when to obtain.* Except with prior written approval of the majority of all the members of the board of directors, no loan, other credit accommodation and guarantee shall be granted to a subsidiary or affiliate.
 - (2) *Approval by the board, how manifested.* The approval shall be manifested in a resolution passed by the board of directors during a meeting and made of record.
 - (3) *Determination of majority of all the members of the board of directors.* The determination of the majority of all the members of the board of directors shall be based on the total number of directors of the QB as provided in its articles of incorporation and by-laws.
 - (4) *Contents of the resolution.* The resolution of the board of directors shall contain the following information:
 - (a) Name of the subsidiary or affiliate;

- (b) Nature of the loan or other credit accommodation or guarantee, purpose, amount, credit basis for such loan or other credit accommodation or guarantee, security and appraisal thereof, maturity, interest rate, schedule of repayment and other terms;
 - (c) Date of resolution;
 - (d) Names of the directors who participated in the deliberation of the meeting; and
 - (e) Names in print and signatures of the directors approving the resolution: *Provided*, That in instances where a director who participated in the board meeting and who approved such resolution failed to sign, the corporate secretary may issue a certification to this effect indicating the reason for the failure of the said director to sign the resolution.
- (5) *Transmittal of copy of board approval; contents thereof.* A copy of the written approval of the board of directors, as herein required, shall be submitted to the appropriate supervising department of the Bangko Sentral within twenty (20) business days from the date of approval. The copy may be a duplicate of the original, or a reproduction copy showing clearly the signatures of the approving directors: *Provided*, That if a reproduction copy is to be submitted, it shall be duly certified by the corporate secretary that it is a reproduction of the original written approval.

(Circular Nos. 1001 dated 30 April 2018, 945 dated 06 February 2017, and 914 dated 23 June 2016)

324-Q DIRECT OR INDIRECT BORROWINGS

For purposes of this Section, a credit accommodation shall be considered a direct or indirect borrowing in accordance with the following criteria.

- a. *Direct borrowing* - If the director, officer or stockholder of the lending QB is a party to any of the transactions enumerated in Sec. 322-Q (*Transactions Covered*) for himself or as a representative or agent of others, or if he acts as a guarantor, endorser or surety for loans from the QB, or if the loan or credit accommodation to another party is secured by a property interest or right of the director, officer or stockholder.
- b. *Indirect borrowing* - If in any of the transactions in Sec. 322-Q (*Transactions Covered*) the borrower, guarantor, endorser, or surety is a:
 - (1) Spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption of a director, officer or stockholder of the QB;
 - (2) Partnership of which a director, officer, or stockholder or his spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, is a general partner;
 - (3) Co-owner with the director, officer, stockholder or his spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, of the property or interest or right mortgaged, pledged or assigned to secure the loans or credit accommodations, except when the mortgage, pledge or assignment covers only said co-owner's undivided interest;
 - (4) Corporation, association, or firm of which a director or officer of the QB, or his spouse is also a director or officer of such corporation, association or firm, except (i) where the securities of such corporation, association or firm are listed and traded in the domestic stock exchange and less than fifty percent (50%) of the voting stock thereof is owned by any one (1) person or by persons related to each other within the third degree of consanguinity or affinity; or (ii) where the director, officer or stockholder of the lending QB sits as a representative of the QB in the board of directors of such corporation: *Provided*, That the QB representative shall not have any equity interest in the borrower corporation except for the minimum shares required by law, rules and regulations, or by the by-laws of the corporation, to qualify a person as director of the corporation: *Provided, further*, That the borrowing corporation under (i) or (ii) is not among those mentioned in Items "b(5)" and "b(6)" of this Section;
 - (5) Corporation, association or firm of which any or a group of directors, officers, stockholders of the lending QB and/or their spouses or relatives within the first degree of consanguinity or affinity or relative by legal adoption, hold/own more than twenty percent (20%) of the subscribed capital of such corporation, or of the equity of such association or firm; or
 - (6) Corporation, association or firm wholly or majority-owned or controlled by any or a group of related entities mentioned in Items "b(2)", "b(4)" and "b(5)" of this Section.

Other cases of direct/indirect borrowing shall be resolved on a case-to-case basis.

It shall be the responsibility of the QB concerned to ascertain whether the borrower, guarantor, representative, endorser or surety is related to persons mentioned in Item “b(1)” of this Section or connected with any of the directors, officers or stockholders of the QB in any of the capacities mentioned in Items “b(2)”, “b(3)”, “b(4)”, “b(5)” and “b(6)” of this Section.

In determining indirect borrowings as enumerated above, only those cases involving living relatives shall be considered.

325-Q INDIVIDUAL CEILING

The total outstanding direct credit accommodations to each of the QB’s directors, officers or stockholders, excluding those granted under officers’ fringe benefit plans, shall not exceed, at any time, an amount equivalent to the unencumbered portion of his loans to, and placements with, the QB and the book value of his paid-in capital contribution in the lending QB: *Provided*, That unsecured credit accommodations to each of the QB’s directors, officers or stockholders shall not exceed thirty percent (30%) of his total credit accommodations.

Notwithstanding the provisions of this Section, credit accommodations of a QB to any one of its directors, officers, stockholders or their related interests shall not exceed the SBL prescribed for QBs.

Exclusions from the thirty percent (30%) unsecured individual ceiling for project finance. Loans, other credit accommodations, and guarantees granted by a QB to its DOSRI for the purpose of project finance, shall be exempted from the thirty percent (30%) unsecured individual ceiling during the project gestation phase¹: *Provided*, That the QB shall ensure that standard prudential controls in project finance loans designed to safeguard creditors’ interests are in place, which may include pledge of the borrower’s shares, assignment of the borrower’s assets, assignment of all revenues and cash waterfall accounts, and assignment of project documents.

For this purpose, “*project finance*” is defined as a method of funding in which the lender looks primarily to the revenues generated by a single project, both as a source of repayment and as security for the exposure. It possesses all the following characteristics either in legal form or economic substance:

- a. The exposure is typically to an entity (often a special purpose entity or SPE) which was created specifically to finance and/or operate physical assets;
- b. The borrowing entity has little or no other material assets or activities, and therefore little or no independent capacity to repay the obligation, apart from the income that it receives from the asset(s) being financed;
- c. The terms of the obligation give the lender a substantial degree of control over the asset(s) and the income that it generates; and
- d. As a result of the preceding factors, the primary source of repayment of the obligation is the income generated by the asset(s) being financed, rather than the independent capacity of a broader commercial enterprise.

(Circular No. 914 dated 23 June 2016)

326-Q AGGREGATE CEILING

Except with prior approval of the Monetary Board, the total outstanding borrowings of directors, officers, or stockholders, whether direct or indirect, shall not exceed 100% of combined capital accounts, net of deferred income tax as defined in Item “i” of Sec. 124-Q (*Qualifying capital*) and such unbooked allowance for credit losses and other capital adjustments as may be required by the Bangko Sentral: *Provided*, That in no case shall the total unsecured direct and indirect borrowings of directors, officers, and stockholders exceed thirty percent (30%) of the aggregate ceiling or the outstanding direct/indirect loans thereto, whichever is lower. For the purpose of determining compliance with the ceiling on unsecured loans, QBs shall be allowed to average their ceiling on unsecured loans and their outstanding unsecured loans every week.

In evaluating requests for extension of loans in excess of the aggregate ceiling, the Bangko Sentral shall consider the credit standing of the borrower, viability of the projects financed by such loans in relation to national objectives, collateral or security and other pertinent considerations.

Exclusions From Aggregate Ceiling. The following credit accommodations shall be excluded in determining compliance with the aggregate ceiling:

- a. Credit accommodations to the extent covered by a hold-out on, or assignment of, deposit substitutes in the lending QB, or covered by cash margin deposits or secured by evidences of indebtedness of the Republic of the Philippines or of the Bangko Sentral, or by other evidences of indebtedness or obligations, the servicing and repayment of which are fully guaranteed by the Republic of the Philippines;
- b. Credit accommodations to a corporate stockholder which meets all the following conditions:
 - (1) The corporation is a non-financial institution;

¹ This refers to the pre-operational phase of the project that does not yet generate cash flows.

- (2) Its shares are listed and traded in the domestic stock exchanges;
 - (3) Its stockholdings in the lending QB do not exceed thirty percent (30%) of the voting stock of the QB; and
 - (4) No person or group of persons related within the first degree of consanguinity or affinity holds/owns more than twenty percent (20%) of the subscribed capital of the corporation; and
- c. Credit accommodations granted under officers' fringe benefit plans.

327-Q CREDIT ACCOMMODATIONS UNDER OFFICERS' FRINGE BENEFIT PLANS

The aggregate outstanding liabilities to a QB of its officers, extended under officers' fringe benefit plans for the purpose of house, car, and appliance financing, and meeting educational, medical, hospital, and other similar expenses, shall not exceed thirty percent (30%) of the combined capital accounts of the lending entity: *Provided*, That QBs shall submit, for record purposes, copies of their officers' fringe benefit plans to the appropriate department of the Bangko Sentral.

328-Q PROCEDURAL AND REPORTORIAL REQUIREMENTS

The following provisions shall apply if a director or officer is a party, directly or indirectly, to, or acts as the representative or agent of, others in any of the transactions under Sec. 322-Q (*Transactions Covered*).

- a. *Approval of the board of directors; when to obtain.* Except with the prior written approval of the majority of the directors, excluding the director concerned, no loan or other credit accommodation shall be granted nor any of the transactions under Sec. 322-Q (*Transactions Covered*) be entered into.
- b. *Approval by the board; how manifested.* The approval shall be manifested in a resolution passed by the board of directors duly assembled during a regular or special meeting for the purpose and made of record.
- c. *Majority of the directors; computation of.* The computation of the majority of the directors, excluding the director concerned, shall be based on the total number of directors of the QB, as provided in its articles of incorporation and by-laws.
- d. *Contents of the resolution.* The resolution of the board of directors shall contain the following information:
 - (1) Name of the director or officer concerned and his relationship as regards the credit accommodation, such as principal, endorser, spouse of borrower, etc.;
 - (2) Nature of the loan or other credit accommodation, purpose, amount, credit basis for such loan or credit accommodation, security and appraisal thereof, maturity, interest rate, schedule of repayment, and other terms of the loan or credit accommodation;
 - (3) Date of the resolution;
 - (4) Names of the directors who were present and who participated in the deliberations of the meeting;
 - (5) Names in print and signatures of the directors approving the resolution: *Provided*, That the corporate secretary may sign, under a power-of-attorney, in behalf of a director who was present in the board meeting and who approved such resolution, in instances where such signature is necessary, to indicate that such resolution was approved by a majority of the directors; and
 - (6) Such other information as may be required by the appropriate supervising department of the Bangko Sentral.
- e. *Transmittal of copy of board of directors' approval; contents thereof.* A copy of the written approval of the board of directors, as herein required, shall be submitted to the appropriate supervising department of the Bangko Sentral within twenty (20) business days from the date of approval. The copy may be a duplicate of the original, or a reproduction copy showing clearly the signatures of the approving directors: *Provided*, That if a reproduction copy is to be submitted, it shall contain, on its face or reverse side, a signed certification by the secretary that it is a reproduction of the original written approval.

329-Q SUPERVISORY ENFORCEMENT ACTIONS

The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in the foregoing rules and bring about timely corrective actions and compliance with Bangko Sentral directives. The Bangko Sentral considers abuses in credit to related parties (including credit to DOSRI, subsidiaries, and affiliates) as serious offenses and shall be dealt with severely. In this regard, abuse shall be interpreted to include extending credit to related parties without adopting appropriate internal policies.

For this purpose, the Bangko Sentral may among others, issue directives or sanctions on the Bank and responsible persons, which may include restrictions or prohibitions of lending to related parties or from certain authorities/activities, restrictions or prohibitions on dividend declarations; and warning reprimand, suspension, removal and disqualification of concerned bank directors, officers, and/or employees. In addition, the Bangko Sentral may apply the borrowing director/officer/stockholder's share in the QB's profit sharing program against the excess of credit extended over any of the prescribed DOSRI ceilings.

In case of imposition of monetary sanction for violations of the foregoing provisions, the penalty shall be computed as follows:

a. Loans to DOSRI

For the duration of each violation, imposition of a fine of one-tenth of one percent (1/10 of 1%) of the excess over the ceilings per day but not to exceed P30,000 a day on (1) the lending QB and the director, officer, or stockholder whose borrowing exceeds his individual ceiling and (2) each of the directors voting for the approval of the loan or credit accommodation in excess of any of the ceilings prescribed in Secs. 325-Q and 326-Q.

The penalty for exceeding the individual ceiling, aggregate ceiling and ceiling on unsecured loans shall be computed on the average amount of loans in excess of said ceilings during the same week.

b. Loans to subsidiaries and affiliates

For the duration of each violation, imposition of a fine of one tenth (1/10) of one percent (1%) of the excess over the ceilings per day but not to exceed P30,000 a day on the following:

- (1) The lending QB; and
- (2) Each of the directors voting for the approval of the loan, other credit accommodation or guarantee in excess of any of the ceilings prescribed in Sec. 323-Q.

(Circular No. 914 dated 23 June 2016)

330-Q APPLICABILITY TO GOVERNMENT BORROWINGS IN GOVERNMENT- OWNED OR - CONTROLLED QUASI-BANKS

The provisions of Secs. 341 to 349 of the MORB, to the extent applicable, shall also apply to loans, other credit accommodations, and guarantees granted to the National Government or Republic of the Philippines, its political subdivisions and instrumentalities as well as GOCCs, subject to the following clarifications:

- a. Loans, other credit accommodations, and guarantees to the Republic of the Philippines and/or its agencies/departments/bureaus shall be considered: (1) non-risk; and (2) not subject to any ceiling;
- b. Loans, other credit accommodations, and/or guarantees to: (1) GOCCs; and (2) corporations where the Republic of the Philippines, its agencies/departments/bureaus, and/or GOCCs own at least twenty percent (20%) of the subscribed capital stock shall be considered indirect borrowings of the Republic of the Philippines and shall form part of the individual ceiling as well as the aggregate ceiling: *Provided*, That the following loans, other credit accommodations, and/or guarantees to GOCCs and corporations where the Republic of the Philippines, its agencies/departments/bureaus, and/or GOCCs own at least twenty percent (20%) of the subscribed capital stock, shall be excluded from the thirty percent (30%) ceiling on unsecured loans under Secs. 344 and 345 of the MORB:
 - (1) Loans, other credit accommodations, and/or guarantees for the purpose of undertaking infrastructure and other priority programs and projects consistent with the Philippine Development Plan/public Investment Program of the National Government, duly certified as such by the Secretary of Socio-Economic Planning;
 - (2) Loans, other credit accommodations, and/or guarantees granted to participating financial institutions (PFIs) in the lending programs of the government wherein the funds borrowed are intended for relending to other PFIs or end-user borrowers; and
 - (3) Loans, other credit accommodations, and/or guarantees granted for the purpose of providing (i) wholesale and retail loans to the agricultural sector, and micro, small and medium enterprises (MSMEs); and/or (ii) rediscounting and guarantee facilities for loans granted to the said sector or enterprises.
- c. Loans, other credit accommodations, and/or guarantees granted to state universities and colleges (SUCs) shall be excluded from the thirty percent (30%) ceiling on unsecured loans under Secs. 344 and 345 of the MORB.
- d. In view of the fiscal autonomy granted under R.A. No. 7653 and the independence prescribed under the Constitution, the Bangko Sentral shall be considered an independent entity, hence, not a related interest of the Republic of the Philippines and/or its agencies/departments/bureaus. Loans, other credit accommodations and guarantees of the Bangko Sentral shall be considered: (1) non-risk; and (2) not subject to any ceiling;

- e. LGUs shall be considered separate from the Republic of the Philippines, other government entities, and from one another due to the full autonomy in the exercise of their proprietary functions and in the management of their economic enterprises granted to them under the Local Government Code of the Philippines, subject to certain limitations provided by law, hence, not a related interest of the Republic of the Philippines and/or its agencies/departments/bureaus;
- f. Local Water Districts (LWDs), although GOCCs, shall be considered separate from the Republic of the Philippines, other government entities, and from one another due to their fiscal independence from the national government, hence, not related interests of the Republic of the Philippines and/or its agencies/department/bureaus, for purposes of these regulations;
- g. A director who acts as a government representative in the lending institution shall not be excluded in the deliberation as well as in the determination of majority of the directors in cases of loans, other credit accommodations, and guarantees to the Republic of the Philippines and/or its agencies/departments/bureaus; and
- h. A director of the lending institution shall be excluded in the deliberation as well as in the determination of majority of the directors in cases of loans, other credit accommodations, and guarantees to the borrowing government entity other than the Republic of the Philippines, its agencies, departments or bureaus where said director is also a director, officer or stockholder under existing DOSRI regulations.

(Circular No. 914 dated 23 June 2016)

D. CREDIT CONCENTRATION AND PRUDENTIAL LIMITS

341-Q LARGE EXPOSURES AND CREDIT RISK CONCENTRATIONS

a. *Definition.*

“Large exposures” shall refer to exposures to counterparty or a group of connected counterparties equal or greater than five percent (5%) of the FI’s qualifying capital as defined under Sec. 125-Q.

“Connected counterparties” refer to a group of counterparties that are connected through (a) direct or indirect control of one of the counterparties over the other(s) or (b) economic interdependencies, and must be treated as a single counterparty. Control shall be determined in accordance with item “c” of Sec. 131-Q (*Definition of terms*).

“Economic interdependence” refers to a situation where counterparties are reliant on each other, such that if one of the counterparties experiences financial problems in repaying its obligations, the creditworthiness of the other(s) would also likely deteriorate. FIs shall define in their credit policy criteria in determining connectedness based on economic interdependence, which shall consider, among others, significant dealings or transactions of one or more counterpart(y/ies) that impact the financial capacity or ability to repay the obligations of the other counterpart(y/ies).

In cases where the criteria do not automatically imply an economic dependence that results in two or more counterparties being connected, the FI shall provide evidence to Bangko Sentral that a counterparty which is economically connected to another, still can pay its liabilities even if the latter’s financial condition weakens.

- b. *Scope of Application.* Large exposures of FIs and their subsidiaries and affiliates to third parties across the relevant regulatory consolidation group shall be aggregated and compared with the group’s qualifying capital.
- c. *Exclusions.* Loans, other credit accommodations and guarantees that are excluded from the single borrower’s limit (SBL) under Sec. 342-Q as well as intraday and end-of-day interbank exposures arising from interbank payment and settlement processes shall be excluded from large exposures.
- d. *Notification requirements.* An FI must immediately inform the Bangko Sentral when it has concerns that its large exposures or credit risk concentrations have the potential to impact materially upon its capital adequacy, along with proposed measures to address these concerns.
- e. *Reporting.* FI’s records on monitoring of large exposures shall be made available to the Bangko Sentral examiners for verification at any given time. When warranted, the Bangko Sentral may impose additional reporting requirements on the FI in relation to its large exposures and credit risk concentrations.
- f. *Sanction.* Any failure or delay in complying with the requirements under Items “d” and “e” of this Section shall be subject to penalty applicable to those involving major reports.

(Circular Nos. 970 dated 22 August 2017 and 855 dated 29 October 2014)

342-Q CREDIT EXPOSURE LIMIT TO A SINGLE BORROWER

The total liabilities of any person, company, corporation or firm, to a QB for money borrowed shall at no time exceed twenty-five percent (25%) of the combined capital accounts as defined in Sec. 121-Q.

The total liabilities of any borrower may amount to a further fifteen percent (15%) of the combined capital accounts of such QB: *Provided*, That the additional liabilities are adequately secured by real estate mortgage, assignment or pledge of readily marketable bonds and other high grade debt securities, except those issued by the lending entity.

The total amount of loans, credit accommodations and guarantees prescribed in the first paragraph may be increased by an additional twenty-five percent (25%) of the net worth of such QB: *Provided*, That the additional loans, credit accommodations and guarantees are for the purpose of undertaking infrastructure and/or development projects under the Public- Private Partnership (PPP) Program of the government duly certified by the Secretary of Socio-Economic Planning: *Provided, further*, That the total exposures of the QB to any borrower pertaining to such infrastructure and/or development projects under the PPP Program shall not exceed twenty-five percent (25%) of the net worth of such QB: *Provided, furthermore*, That the additional twenty-five percent (25%) shall only be allowed for a period of six (6) years from 28 December 2010: *Provided, finally*, That the credit risk concentration arising from total exposures to all borrowers pertaining to such infrastructure and/or development projects under the PPP Program shall be considered by the QB in its internal assessment of capital adequacy relative to its overall risk profile and operating environment. Said loans, credit accommodations and guarantees based on the contracted amount as of the end of the six (6)-year period shall not be increased but may be reduced and once reduced, said exposures shall not be increased thereafter.

The total amount of loans, credit accommodations and guarantees prescribed in the first paragraph may be further increased by an additional fifteen percent (15%) of the net worth of such QB: *Provided*, That the additional loans, credit accommodations and guarantees are granted to finance oil importation of oil companies which are not affiliates of the lending QB engaged in energy and power generation: *Provided, further*, That the oil companies qualify under the credit underwriting standards of the lending QB and the lending QB shall comply with Sec. 341-Q on the guidelines in managing large exposures and credit risk concentrations: *Provided, furthermore*, That the credit risk concentration arising from total exposures to all oil companies shall be considered by the QB in its internal assessment of capital adequacy relative to its overall risk profile and operating environment and shall be incorporated in the ICAAP document required to be submitted under Sec. 130-Q: *Provided, finally*, That the additional fifteen percent (15%) shall only be allowed for a period of three (3) years from 03 March 2011, or until 03 March 2014. Said additional loans, credit accommodations and guarantees outstanding as of the end of the three (3)- year period and in excess of twenty five percent (25%) of the lending QB's net worth shall not be increased but shall be reduced and once reduced, said exposures shall not be increased thereafter.

For purposes of this Section, the term *liabilities* shall mean the direct liability of the maker or acceptor of paper discounted with or sold to such QB and the liability of the endorser, drawer or guarantor who obtains a loan from or discounts paper with or sells papers under his guaranty to such QB and shall include in the case of liabilities of a co-partnership or association, the liabilities of the several members thereof and shall include, in the case of liabilities of a corporation, all liabilities of its subsidiaries: *Provided*, That even in cases where the parent corporation, co-partnership or association has no liability to the QB, the liabilities of subsidiary corporations or members of the co-partnership or association shall be combined for purposes of the single borrower's limit (SBL).

The total liabilities of an entity (often a special purpose entity or SPE) for the purpose of project finance as defined under Sec. 325-Q (*Exclusion from the thirty percent (30%) unsecured individual ceiling for project finance*) shall be subject to a separate individual limit of twenty-five percent (25%) of the combined capital accounts of a QB: *Provided*, That such project finance loans are for the purpose of undertaking initiatives that are in line with the priority programs and projects of the government: *Provided, further*, That the QB shall ensure that the standard prudential controls in project finance loans designed to safeguard creditors' interests are in place, which may include pledge of a borrower's shares, assignment of the borrower's assets, assignment of all revenues and cash waterfall accounts, and assignment of project documents: *Provided, finally*, That the QB shall consider its total project finance exposures in complying with Secs. 341-Q and 143-Q (*Credit limits, large exposures, and credit risk concentrations*) on the guidelines in managing large exposures and credit risk concentrations.

Loans, credit accommodations and guarantees to any person, partnership, association, corporation or other entity or group of companies in excess of the applicable SBL arising from acquisition, merger or consolidation of borrower-corporations, which loans, credit accommodations and guarantees were granted prior to and are outstanding as of date of acquisition, merger or consolidation of borrower-corporations shall not be increased, but shall be reduced and once reduced, shall not be increased beyond the applicable SBL.

It is expected that FIs would generally observe a lower internal single borrower's limit than the prescribed limit of twenty-five percent (25%) as a matter of sound practice.

Exclusions from loan limit. The following shall be excluded in determining compliance with the SBL:

- a. Credit exposures considered as non-risk:

- (1) Loans and other credit accommodations secured by obligations of the Bangko Sentral or of the Philippine Government;
 - (2) Loans fully guaranteed by the government as to the payment of principal and interest;
 - (3) Loans fully secured by U.S. Treasury Notes and other securities issued by central governments and central banks of foreign countries with the highest credit quality given by any two (2) internationally accepted rating agencies;
 - (4) Loans to the extent covered by the hold-out on or assignment of, deposits maintained in the lending bank and held in the Philippines;
 - (5) Loans and acceptances under letters of credit to the extent covered by margin deposits;
 - (6) Other loans or credits which the Monetary Board may from time to time specify as non-risk items.
- b. The total liabilities of a commercial paper issuer for commercial papers held by a QB acting as a firm underwriter of said commercial paper shall not be counted in determining compliance with the SBL within a period of ninety (90) calendar days from the issuance of the commercial paper¹: *Provided*, That in no case shall such liabilities exceed five percent (5%) of the net worth of the QB beyond the normal applicable SBL;
- c. Loans and other credit accommodations as a result of an underwriting or sub-underwriting agreement of debt securities outstanding for a period not exceeding thirty (30) calendar days. Said other credit accommodations shall include, among others, inventories of debt securities such as, but not limited to bonds and notes purchased by the QB out of its underwriting commitments¹;
- d. Short-term exposures of QBs to settlement banks arising from payment transactions pertaining to fund transfer services, check clearing, foreign exchange trades, security trades, security custody services, and other short-term payment transactions: *Provided*, That for the purpose of Exclusions from loan limit in this Section, an exposure is considered short-term if it does not extend longer than five (5) banking days after the placement of funds into the clearing and settlement account: *Provided, further*, That the following conditions are met:
- (1) The payment transactions giving rise to short-term exposures are carried out through a clearing and settlement account maintained with a designated local settlement bank, or a foreign settlement bank. A designated settlement bank is a bank that is recognized or assigned by a consortium of banks and/or other financial institutions or by an appropriate body to accept funds from members of the consortium particularly for settlement of transactions among members.
 - (2) QBs shall enter into a formal agreement with the settlement bank, stipulating among other terms and conditions that the account is opened and maintained exclusively for short-term payment transactions as described in this Section, and said account is not subject to a minimum balance requirement.
 - (3) The clearing and settlement bank shall keep the funds received from client QBs separate from its own funds. The client QBs shall also segregate their clearing and settlement accounts from any of their other bank accounts.
 - (4) The settlement bank and its client QBs shall adopt an internal control mechanism appropriate to the said payment transactions.
- b. In case a stand-alone trust corporation is a subsidiary or affiliate of a QB, the asset under management of the trust corporation shall not form part of the relevant exposures of the parent QB for purposes of calculating the SBL and the ceilings for accommodation to DOSRI of the said parent QB.

The purchase by the trust corporation, in behalf of its clients, of securities or instruments issued by its parent QB shall not form part of the relevant exposure of the trust corporation for purposes of calculating the SBL and DOSRI ceilings of the said trust corporation.

Contingent liabilities included in loan limit. Outstanding foreign and domestic standby and deferred letters of credit less margin deposits, and outstanding guarantees, the nature of which requires the guarantor to assume the liabilities/obligations of third parties in case of their inability to pay, shall be included in determining the SBL except those fully secured by cash, hold-out on deposit substitutes, or government securities.

Sanctions. Violations of the provisions of the foregoing rules shall be subject to the following sanctions/penalties:

- a. *Fines.* Fines of one-tenth of one percent (1/10 of 1%) of the excess but not to exceed P30,000 a day for each violation, reckoned from the date the excess started up to the date when such excess was eliminated, shall be assessed on the QB.
- b. *Other sanctions*

¹ This shall cover all new underwritten debt and equity securities issued from 15 February 2013.

First Offense

Reprimand for the directors/officers who approved the credit line or availment which resulted in the excess with a warning that subsequent violations will be subject to more severe sanctions.

Subsequent offenses

- (1) For the duration of each violation, imposition of a fine of P500 a day for each of the directors/officers who approved the credit line or availment which resulted in an excess.
- (2) Suspension of the QB from branching privileges until the excess is eliminated.

(Circular Nos. 1001 dated 30 April 2018, 965 dated 05 July 2017, 855 dated 29 October 2014, and 849 dated 08 September 2014)

E. EQUITY INVESTMENTS

351-Q INVESTMENT IN NON-ALLIED UNDERTAKINGS

In order to avoid undue concentration of economic power, the total equity investments in any single non-allied enterprise or industry of QBs, UBs and their subsidiaries, whether or not the parent financial intermediaries have equity investments in the enterprise, shall, in any case, remain a minority in that enterprise, except as may be otherwise approved by the President of the Philippines. Non-allied enterprises are those allowed for UBs in the MORB.

Equity investments as of 01 April 1980, which exceed the limitation under this Section, may be retained but shall not be increased percentage-wise, and whenever reduced, shall not thereafter be increased beyond the prescribed limitation.

Underwriting Exempted. The limitations on equity investments in this Section shall not apply to inventories of equity securities arising out of firm underwriting commitments of investment houses: *Provided*, That such equity holding shall be disposed of within ninety (90) calendar days from issuance¹.

352-Q INVESTMENTS ABROAD

Except as may be authorized by the Monetary Board, the total equity investments in and/or loans to any single enterprise abroad by any QB shall not at any time exceed fifteen percent (15%) of the net worth of the investing QB.

F. SUNDRY PROVISIONS

361-Q PURCHASE OF RECEIVABLES AND OTHER OBLIGATIONS

The following rules shall govern the purchase of receivables and other obligations.

Yield on purchase of receivables. The rate of yield, including commissions, premiums, fees and other charges from the purchase of receivables and other obligations, regardless of maturity, that may be charged or received by QBs shall not be subject to any regulatory ceiling.

Receivables and other obligations shall include claims collectible in money of any amount and maturity from domestic and foreign sources. The Monetary Board shall determine in doubtful cases whether a particular claim is included within said phrase.

Purchase of commercial paper. Before purchasing registered commercial paper, QBs shall:

- a. Require the issuing entity to submit a duly certified true copy of its Certificate of Registration and Authority to Issue Commercial Paper; and
- b. Ascertain that the registration number and expiry date indicated in the commercial paper are the same as those in the Certificate of Registration submitted.

No QB shall sell, discount, assign, negotiate, in whole or in part such as thru syndications, participations and other similar arrangements, any note, receivable, loan, debt instrument and any type of financial asset or claim, except government securities, on a without recourse basis, or be a party in any capacity in any such transactions on a without recourse basis, unless such receivable, note, loan, debt instrument and financial asset or claim is registered with the SEC. This prohibition includes transactions between an investment house and its trust department.

¹ This shall cover all new underwritten debt and equity securities issued from 15 February 2013.

Unregistered commercial papers may be sold, discounted, assigned or negotiated by QBs to other financial intermediaries with quasi-banking functions.

Any violation of the above rules and regulations shall be subject to any or all of the following sanctions:

- a. Suspension of quasi-banking authority for a period of six (6) months; and
- b. Monetary penalty of P500 per day per transaction for each and every officer of the QB involved in any capacity in any transaction violative of these regulations.

Reverse Repurchase Agreements with the Bangko Sentral. Reverse repo agreements may be effected with the Bangko Sentral under its open market operations, subject to the terms and conditions in Sec. 601-Q (*Reverse repurchase agreements with Bangko Sentral*).

Marking to market of financial instruments. Financial instruments that are required to be classified and measured at fair value, within the scope of Philippine Financial Reporting Standards (PFRS) 9 under *Appendix Q-22*, shall be marked-to-market in accordance with the provisions of PFRS 13 on Fair Value Measurement and the related rules and regulations issued by the Securities and Exchange Commission. The marked-to-market guidelines for debt and equity securities are set out in *Appendix Q-23*.

BSFIs and the concerned officers found to have violated the provisions of these regulations shall be subject to the enforcement actions under Sec. 171-Q (*Philippine Financial Reporting Standards/Philippine Accounting Standards*).

Penalties and sanctions. The following penalties and sanctions shall be imposed on FIs and concerned officers found to violate the provisions of these regulations:

- a. Fines of P2,000/day to be imposed on NBFIs for each violation, reckoned from the date the violation was committed up to the date it was corrected; and
- b. Sanctions to be imposed on concerned officers:
 - (1) First offense - reprimand the officers responsible for the violation; and
 - (2) Subsequent offenses - suspension of ninety (90) days without pay for officers responsible for the violation.

(Circular No. 1021 dated 15 November 2018)

362-Q ACQUIRED ASSETS IN SETTLEMENT OF LOANS

The following rules shall govern assets acquired in settlement of loans.

Booking.

- a. ROPA in settlement of loans through foreclosure or dation in payment shall be booked under the ROPA account as follows:
 - (1) Upon entry of judgment in case of judicial foreclosure;
 - (2) Upon execution of the Sheriff's Certificate of Sale in case of extrajudicial foreclosure; and
 - (3) Upon notarization of the Deed of Dacion in case of dation in payment (*dacion en pago*). ROPA shall be booked initially at the carrying amount of the loan (i.e., outstanding loan balance adjusted for any unamortized premium or discount less allowance for credit losses computed based on PFRS 9 provisioning requirements, which take into account the fair value of the collateral) plus booked accrued interest less allowance for credit losses (computed based on PFRS 9 provisioning requirements) plus transaction costs incurred upon acquisition (such as non-refundable capital gains tax and documentary stamp tax paid in connection with the foreclosure/purchase of the acquired real estate property): *Provided*, That if the carrying amount of ROPA exceeds P5.0 million, the appraisal of the foreclosed/purchased asset shall be conducted by an independent appraiser acceptable to the Bangko Sentral.
- b. The carrying amount of ROPA shall be allocated to land, building, other non- financial assets and financial assets (e.g., receivables from third party or equity interest in an entity) based on their fair values, which allocated carrying amounts shall become their initial costs.
- c. The non-financial assets portion of ROPA shall remain in ROPA and shall be accounted for as follows:
 - (1) Land and buildings shall be accounted for using the cost model under PAS 40 "Investment Property";
 - (2) Other non-financial assets shall be accounted for using the cost model under PAS 16 "Property Plant and Equipment";

- (3) Buildings and other non-financial assets shall be depreciated over the remaining useful life of the assets, which shall not exceed ten (10) years and three (3) years from the date of acquisition, respectively; and
 - (4) Land, buildings and other non-financial assets shall be subject to the impairment provisions of PAS 36 "Impairment".
- d. Financial assets, shall be reclassified and booked in accordance with *Appendix Q-22*, except interests in subsidiaries, associates and joint ventures, which shall be booked under Equity Investments in Subsidiaries, Associates and Joint Ventures and accounted for in accordance with Item "(b)i)" of Sec. 171-Q (*Philippine Financial Reporting Standards/Philippine Accounting Standards*).
 - e. ROPAs that comply with the provisions of PFRS 5 "Non-Current Assets Held for Sale" shall be reclassified and accounted for as such.
 - f. Claims arising from deficiency judgments rendered in connection with the foreclosure of mortgaged properties shall be lodged under the real account "Deficiency Judgment Receivable"; while probable claims against the borrower arising from the foreclosure of mortgaged properties shall be lodged under the contingent account "Deficiency Claims Receivable".
 - g. *Appraisal of properties.* Before foreclosing or acquiring any property in settlement of loans, it must be properly appraised to determine its true economic value. If the amount of ROPA to be booked exceeds P5.0 million, the appraisal must be conducted by an independent appraiser acceptable to the Bangko Sentral. An in-house appraisal of all ROPAs shall be made at least every other year: *Provided*, That immediate re-appraisal shall be conducted on ROPAs which materially decline in value.
 - h. *Non-cash payment for interest.* FIs that accept non-cash payments for interest on their borrowers' loans shall book the acquired assets as ROPA. The amount to be booked as ROPA shall be the booked accrued interest less allowance for credit losses (computed based on PFRS 9 provisioning requirements): *Provided*, That if the carrying amount of ROPA exceeds P5.0 million, the appraisal of the foreclosed/purchased asset shall be conducted by an independent appraiser acceptable to the Bangko Sentral. The carrying amount of ROPA shall be allocated in accordance with Item "b" and shall be subsequently accounted for in accordance with Item "c" above.

The provisions of Booking in this Section shall be applied retroactively to all outstanding ROPAs and sales contract receivables: *Provided*, That for properties acquired before 01 January 2005, the carrying amount of the acquired properties when initially booked under ROPA shall be the cost subject to depreciation and impairment testing, which shall be reckoned from the time of acquisition.

Sales contract receivable

- a. Sales Contract Receivable (SCR) shall be recorded based on the present value of the installment receivables discounted at the imputed rate of interest. Discount shall be accreted over the life of the SCR by crediting interest income using the effective interest method. Any difference between the present value of the SCR and the derecognized assets shall be recognized in profit or loss at the date of sale in accordance with the provisions of PAS 18 "Revenue": *Provided, furthermore*, That SCR shall be subject to impairment provision of PFRS 9.

The provisions of this Section shall be applied retroactively to all outstanding ROPAs and SCRs: *Provided*, That for properties acquired before 01 January 2005, the carrying amount of the acquired properties when initially booked under ROPA shall be the cost subject to depreciation and impairment testing, which shall be reckoned from the time of acquisition.

- b. SCRs which meet all the requirements/conditions enumerated below are hereby considered performing assets and therefore, not subject to classification:
 - (1) That there has been a down- payment of at least twenty percent (20%) of the agreed selling price or in the absence thereof, the installment payments on the principal had already amounted to at least twenty percent (20%) of the agreed selling price;
 - (2) That payment of the principal must be in equal installments or in diminishing amounts and with maximum intervals of one (1) year;
 - (3) That any grace period in the payment of principal shall not be more than two (2) years; and
 - (4) That there is no installment payment in arrear either on principal or interest: *Provided*, That a "Sales Contract Receivable" account shall be automatically classified "Substandard" and considered non-performing in case of non-payment of any amortization due: *Provided, further*, That a "Sales Contract Receivable" which has been classified "Substandard" and considered non-performing due to non-payment of any amortization due may only be upgraded/restored to unclassified and/or performing status after a satisfactory track record of at least three (3) consecutive payments of the required amortization of principal and/or interest has been established.

Joint venture of quasi-banks with real estate development companies.

- a. *Policy statement.* It is the policy of the Bangko Sentral to encourage QBs to dispose of their ROPA in settlement of loans and other advances either through foreclosure or *dacion en pago* as well as other properties acquired as a consequence of a merger/consolidation which are no longer necessary for their quasi-banking operations. Towards this end, QBs are hereby authorized to enter into Joint Venture Agreements (JVA) with real estate development companies for the development of said properties, subject to the requirements prescribed herein.
- b. For purposes of this Section, *joint venture* shall refer to a contractual arrangement/undertaking between a QB and a duly registered real estate development company (developer) for the purpose of developing the above-mentioned properties of the QB. The QB contributes said properties to the undertaking while the developer contributes all the development funds, resources, technical expertise, equipment, personnel and all other requirements desired or needed for the implementation and completion of the undertaking including marketing, where applicable. The QB and the developer shall be bound by the contract that establishes joint control of the undertaking. Although the developer may be designated as operator or manager of the undertaking, it does not, however, absolutely control the undertaking but only acts in accordance with the authorities granted to him under the JVA.
- c. *Forms of a joint venture.* A QB and a developer may undertake a joint venture under the following forms:
 - (1) A jointly-controlled operation/undertaking, which does not involve the establishment of a corporation, partnership or other entity, or a financial structure that is separate from the QB and the developer themselves. Under this form of joint venture, the rights and obligations of the QB and the developer shall be governed primarily by their contract that must clearly specify the following:
 - (a) authority of the developer to develop/subdivide the property and subsequently, to sell the individual lots under a special power of attorney;
 - (b) sharing in the sales proceeds of the developed ROPAs or in the developed lots;
 - (c) sharing in taxes;
 - (d) sharing in the assets of the joint venture particularly in the developed/subdivided lots should there still be unsold lots at the time of termination of the joint venture; and
 - (e) name under which the subdivided lots shall be registered pending their sale.
 - (2) A jointly-controlled entity, which involves the establishment of a new juridical entity, preferably a corporation that is separate and distinct from the QB and the developer. A jointly controlled corporation may be established either for the purpose of developing properties of QBs for immediate sale or converting them into earning assets such as hotels and shopping malls.
- d. *Requirements and limitations in a joint venture.* A QB desiring to enter into a JVA with a developer for the purpose of developing its ROPAs and/or other properties acquired as a consequence of merger/consolidation shall comply with the following:
 - (1) The JVA shall be approved by the board of directors of the QB.
 - (2) The QB's contribution to the joint venture, in whatever form undertaken, shall be limited to ROPAs and properties acquired as a consequence of the QB's merger/consolidation with another QB/FI.
 - (3) The QB shall not recognize income out of its contribution to the joint venture, regardless of the agreed valuation of said properties.
 - (4) The QB shall not provide funds to the joint venture either as a loan or capital contribution.
 - (5) The JVA or contractual arrangement shall clearly stipulate the rights and obligations of the QB and the developer.
 - (6) The QB shall secure prior Monetary Board approval of the JVA.
- e. *Application for authority to enter into JVA.* A QB desiring to enter into a JVA with a developer for the purpose of developing its ROPAs and other properties acquired as a consequence of its merger/consolidation with another QB/FI shall secure prior Monetary Board approval of said agreement. For that purpose, the concerned QB shall submit an application for Monetary Board approval to the appropriate supervising department of the Bangko Sentral. The application shall be signed by the QB's president or officer of equivalent rank and shall be accompanied by the following documents/information:
 - (1) The name of the developer;
 - (2) Name of the principal stockholders and officers as well as members of the board of directors of said company;
 - (3) Relationship of the QB with the developer, if any;
 - (4) List and brief description of the properties to be contributed by the QB including their market values, book values and the valuation agreed upon under the proposed JVA;

- (5) Certification by the QB's president or officer of equivalent rank that the JVA is strictly in compliance or will strictly comply with the requirements of Joint venture of quasi- banks with real estate development companies in this Section; and
 - (6) Such other documents/information that the appropriate supervising department of the Bangko Sentral may require.
- f. *Non-financial allied undertaking* All types of QBs are hereby authorized to invest in the equities of companies engaged in real estate development as a non-financial allied undertaking, subject to the following conditions:
- (1) Investments shall be limited to ROPAs and other properties acquired as a consequence of a QB's merger/consolidation with another QB/FI;
 - (2) Investments shall be subject to existing Bangko Sentral requirements applicable to investments in non-financial allied undertakings; and
 - (3) If there is already an existing subsidiary or affiliate relationship between the QB and the investee corporation prior to the investment, the QB shall not recognize income out of its invested properties. The excess of the value of the capital stock received by the QB over the book value of its invested properties shall be booked as "Deferred Credits".
- g. *Accounting treatment.* Accounting treatment of the properties contributed by a QB to a joint venture or invested in the equities of developers.
- (1) In a joint venture in the form of a jointly controlled operations/undertaking, which does not involve the establishment of a corporation or other entity, the QB shall continue to recognize in its books the properties contributed to the undertaking. However, the regular provisioning against probable losses required under existing regulations may be discontinued upon execution and implementation of the JVA.
 - (2) In a joint venture in which a corporation is created, the QB shall book the properties contributed to the undertaking as investment pursuant to the provisions of PAS 31. It shall also recognize its interest in the corporation using the proportionate consolidation method or the equity method as long as it continues to have joint control over the corporation: *Provided*, That the QB shall not recognize income out of its contribution to the joint venture. The excess of the value of the capital stock received by the QB over the book value of the contributed properties shall be credited to the account "Deferred Credits".
 - (3) Properties invested in equities of developers shall be booked in accordance with the PAS: *Provided*, That the QB shall not recognize income out of the properties invested if there is already an existing subsidiary or affiliate relationship between the QB and the investee corporation prior to the investment, regardless of the agreed valuation of said properties. The excess of the agreed valuation of said properties over their book value shall be booked as "Deferred Credits".
- h. *Coverage.* The provisions of Joint venture of quasi- banks with real estate development companies in this Section shall apply to ROPAs existing, as well as those which may be acquired by QBs in settlement of non-performing or past due loans and advances outstanding, as of 09 March 2006 and to properties acquired as a consequence of merger or consolidation which are outstanding in the books of QBs as of said date.
- i. *Sanctions.* Any violation of the provisions of Joint venture of quasi- banks with real estate development companies in this Section and/or any misrepresentation in the certification and information required to be submitted to the Bangko Sentral under this Section shall subject the QB and the officer or officers responsible therefore, to the penalties provided under Sections 35, 36 and 37 of R. A. No. 7653.

(Circular No. 1011 dated 14 August 2018)

PART FOUR

TRUST, OTHER FIDUCIARY BUSINESS AND INVESTMENT MANAGEMENT ACTIVITIES

A. STATEMENT OF PRINCIPLES AND SCOPE

401-Q STATEMENT OF PRINCIPLES

The cardinal principle common to all trust and other fiduciary relationships is fidelity. Policies predicated upon this principle shall be directed towards observance of the following:

- a. *Prudent Administration.* The trust, investment management and other fiduciary accounts shall be administered in conformity with the intention and purpose of the client as manifested in the terms of the agreement, and with the skill, care, prudence and diligence necessary under the circumstance then prevailing that a prudent man acting in like capacity and familiar with such matters would exercise in the conduct of an enterprise of like character and with similar aims.
- b. *Undivided loyalty and utmost care.* In the discharge of fiduciary responsibility, the interests of clients shall be placed above those of the trust entity other than stand-alone trust corporation. Clear policies and procedures shall be developed in dealing with conflict of interest situations. The fiduciary assets shall be objectively and fairly administered, invested and distributed giving due regard to the beneficiaries' respective interests.
- c. *Non-delegation of responsibilities.* The administration of the trust, investment management, or fiduciary responsibilities or the performance of acts that should be personally performed shall not be delegated as the client's confidence is reposed on the trust entity (TE).
- d. *Preserving and protecting property.* Reasonable care and diligence shall be observed to preserve and protect the property entrusted. Fiduciary assets shall be kept legally separate and distinct from proprietary assets and from one (1) fiduciary/trust/investment management account (IMA) to another.
- e. *Keeping and rendering accounts.* A true and accurate account or record of transactions entered into shall be kept. Reports on the trust, investment management and other fiduciary accounts shall be rendered to the trustor, principal, beneficiary, or other party in interest, or the court concerned, or any party duly designated by a court order, as the case may be, in accordance with Sec. 435-Q. Likewise, all material facts within the knowledge or reasonably discoverable by the TE, particularly information that would enable clients to make well-informed decisions, shall be promptly transmitted/relayed to clients for them to protect their interests.

Furthermore, practices shall be carried out in accordance with the basic standards (*Appendix Q-49*) and Risk Management Guidelines (*Appendix Q-50*) for trust, other fiduciary and investment management accounts.

An institution incorporated or authorized to engage in trust and fiduciary business is under no obligation, either legal or moral, to accept any such business being offered nor has it the right to accept if the same is contrary to law, rules, regulations, public order and public policy. It shall advertise its services in a dignified manner and enter such business only when demand for such service is evident, when specially equipped to render such service and upon full appreciation of the responsibilities involved. It shall be ready and willing to give full disclosure of the services being offered and shall conduct its dealing with transparency. Harmonious relationship shall likewise be pursued with other professions to achieve the common goal of mutual service to the public and protection of its interest.

402-Q SCOPE OF REGULATIONS

These regulations shall govern the grant of authority to and the management, administration and conduct of *trust, other fiduciary business and investment management activities* (as these terms are defined in Sec. 403-Q) (e.g., investment houses (IHs) and trust corporations) allowed by law to perform such operations.

The regulations are divided into three (3) Sub-Parts where:

- a. *Trust and Other Fiduciary Business* shall apply to institutions authorized to engage in trust and other fiduciary business including investment management activities;
- b. *Investment Management Activities* shall apply to institutions without trust authority but engaged in investment management activities; and
- c. *General Provisions* shall apply to both.

403-Q DEFINITIONS

For purposes of regulating the operations of trust and other fiduciary business and investment management activities, unless the context clearly connotes otherwise, the following shall have the meaning indicated.

- a. *Trust entity (TE)* shall refer to a: (1) QB/NBFI through its specifically designated business unit to perform trust functions; or (2) trust corporation, authorized by the Bangko Sentral to engage in trust and other fiduciary business under Section 79 of R.A. No. 8791 (The General Banking Law of 2000) or to perform investment management services under Section 53 of R.A. No. 8791.
- b. *Trust business* shall refer to any activity resulting from a trustor-trustee relationship (trusteeship) involving the appointment of a trustee by a trustor for the administration, holding, management of funds and/or properties of the trustor by the trustee for the use, benefit or advantage of the trustor or of others called beneficiaries.
- c. *Other fiduciary business* shall refer to any activity of trust-licensed institutions resulting from a contract or agreement whereby the institution binds itself to render services or to act in a representative capacity such as in an agency, guardianship, administratorship of wills, properties and estates, executorship, receivership and other similar services which do not create or result in a trusteeship. It shall exclude collecting or paying agency arrangements and similar fiduciary services which are inherent in the use of the facilities of the other operating departments of such institution. Investment management activities, which are considered as among other fiduciary business, shall be separately defined in the succeeding item to highlight its being a major source of fiduciary business.
- d. *Investment management* activity shall refer to any activity resulting from a contract or agreement primarily for financial return whereby the institution (the investment manager) binds itself to handle or manage investible funds or any investment portfolio in a representative capacity as financial or managing agent, adviser, consultant or administrator of financial or investment management, advisory, consultancy or any similar arrangement which does not create or result in a trusteeship.
- e. *Trust* is a relationship or an arrangement whereby a person called a trustee is appointed by a person called a trustor to administer, hold and manage funds and/or property of the trustor for the benefit of a beneficiary.
- f. *Trust agreement* is an instrument in writing covering the terms and conditions of the trust.
- g. *Trustee* is any person who holds legal title to the funds and/or property of a trust.
- h. *Trustor* is any person who creates a trust.
- i. *Beneficiary* is any person for whose benefit a trust is created.
- j. *Fiduciary* shall refer to any person or entity engaged in any of the other fiduciary business as herein defined where no trustor-trustee relation exists.
- k. *Agency* shall refer to a contract whereby a person binds himself to render some service or to do something in representation or on behalf of another, with the consent or authority of the latter.
- l. *Principal* shall refer to the person who grants authority to another person called an agent, under a contract to enter into transactions in his behalf.
- m. *Agent* shall refer to a person who acts in representation or on behalf of another person with the latter's authority.
- n. *Trust Department* shall refer to the department, office, unit, group, division or any aggrupation which carries out the trust and other fiduciary business of an institution.
- o. *Trust Officer* shall refer to the designated head or officer-in-charge of the trust department.
- p. *Trust account* shall refer to an account where transactions arising from a trusteeship are kept and recorded.
- q. *Fiduciary account* shall refer to an account where transactions arising from any of the other fiduciary businesses are kept and recorded.
- r. *Investment Manager* shall refer to any person or entity engaged in investment management activities as herein defined.
- s. *Investment Management Department* shall refer to the department, unit, group, division or any aggrupation which carries out the investment management activities of an institution that does not have an authority to engage in trust and other fiduciary business.

- t. *Investment Management Officer* shall refer to the designated head or officer-in-charge of the investment management department of an institution which does not have the authority to engage in trust and other fiduciary business.
- u. *Investment management account* shall refer to an account where transactions arising from investment management activities are kept and recorded.
- v. *Personal Management Trust* shall refer to a living trust¹ created by an agreement whereby the trustor conveys property or a sum of money to be managed by the trustee, as the agreement dictates, generally for the preservation of the assets or property for future use of the beneficiaries and/or to answer for their current needs. The trustor may or may not nominate third-party beneficiary/ies. The trust agreement must specify the name/s of the beneficiary/ies.
- w. *Unit Investment Trust Funds (UITFs)* shall refer to an open-ended pooled trust funds denominated in pesos or any acceptable currency, which are operated and administered by a trust entity and made available by participation. As an open-ended fund, participation or redemption is allowed as often as stated in its plan rules.

UITFs shall not include long term funds designed for the primary purpose of availing the tax incentives/exemption under Section 24(B)(1) of R.A. No. 8424 (The Tax Reform Act of 1997).

- x. *Board of directors*, for UITFs purpose, shall include a trust entity's duly constituted board of directors or its functional oversight equivalent which shall include the country head in the case of foreign institutions.
- y. *Collective investment scheme* shall refer to an investment vehicle where funds are solicited from investors for collective investment and which are managed for the account of such investors.
- z. *Feeder fund* shall refer to a UITF structure that mandates the fund to invest at least ninety percent (90%) of its assets in a single collective investment scheme.
- aa. *Fund-of-funds* shall refer to a UITF structure that mandates the fund to invest at least ninety percent (90%) of its assets in more than one (1) collective investment scheme.
- bb. *Target fund* shall refer to a local or foreign collective investment scheme in which the UITF invests all or a portion of its assets.
- cc. *Investor fund* shall refer to a UITF created to take the form of a feeder fund or a fund-of-funds and is approved by the Bangko Sentral under existing Bangko Sentral regulations.
- dd. *Multi-class fund* shall refer to a UITF structure which has more than one (1) class of units in the fund and is invested in the same pool of securities and the same portfolio, investment objectives and policies.
- ee. *Related party/company*, for UITFs purpose, shall refer to another entity which is the trust entity's (1) parent or holding company or (2) subsidiary or affiliate, and wholly or majority-owned or controlled-entities of such subsidiaries.

(Circular No. 853 dated 21 October 2014)

B. TRUST AND OTHER FIDUCIARY BUSINESS

411-Q AUTHORITY TO PERFORM TRUST AND OTHER FIDUCIARY BUSINESS

With prior approval of the Monetary Board, trust corporations and IHS may engage in trust and other fiduciary business under Chapter IX of R.A. No. 8791, as amended and Section 7 of P.D. No. 129, as amended.

Entities whose articles of incorporation² or any amendments thereto, include the purpose or power to engage in trust and other fiduciary business, shall secure the prior favorable recommendation of the Monetary Board pursuant to Section 17 of the Corporation Code.

If an entity is found to be engaged in unauthorized trust and other fiduciary business and/or investment management activities, whether as its primary, secondary or incidental business, the Monetary Board may impose administrative sanctions against such entity or its principal officers and/or majority stockholders or proceed against them in accordance with law.

¹ Being a living trust, PMT becomes operational during the lifetime of the trustor as soon as the agreement is accomplished.

² SEC Memorandum Circular No. 14 dated 8 December 2017, as amended by Circular No. 9 dated 18 July 2018.

The Monetary Board may take such action as it may deem proper such as, but may not be limited to, requiring the transfer or turnover of any trust and other fiduciary and/or IMA to duly incorporated and licensed entities of the choice of the trustor, beneficiary or client, as the case may be.

No entity shall advertise or represent itself as being engaged in trust and other fiduciary business or in investment management activities or represent itself as trustee or investment manager or use words of similar import and/or use in connection with its business title, the words *trust*, *trust corporation*, *trust company*, *trust plan* or words of similar import, without having obtained the required authority to do so.

Starting year 2001, IHs authorized to engage in trust and other fiduciary business shall renew their existing licenses yearly, subject to the implementing guidelines to be issued thereon.

Application for Authority to Perform Trust and Other Fiduciary Business. An institution may engage in trust and other fiduciary business subject to approval of the Monetary Board and compliance with the applicable prudential criteria provided under Sec. 111-Q. Entities applying for authority to engage in trust and other fiduciary business shall submit the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Application letter signed by the president or officer of equivalent rank with justifications on how the license is aligned with the institution's business model and strategic direction;
- b. Corporate secretary's certificate on the approval of the board of directors to engage in trust and other fiduciary business; and
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer certifying that the institution has complied with the: (i) applicable prudential criteria prescribed under Sec. 111-Q (*Prudential criteria*); and (ii) other pertinent laws, rules and regulations on trust and other fiduciary business.

Licensing fees. Applicable licensing fee provided under Sec. 111-Q (*Processing and licensing fees*) shall be immediately charged upon approval of the institution's application for the authority to perform trust and other fiduciary business.

Prerequisites for engaging in trust and other fiduciary business. An institution, applying for authority to engage in trust and other fiduciary business, shall submit the following requirements to the appropriate supervising department of the Bangko Sentral:

- a. The applicant has combined capital accounts of not less than P300 million or such amount as may be required by the Monetary Board or other regulatory agency. For this purpose, *combined capital accounts* shall have the same meaning as in Sec. 121-Q;
- b. The applicant has been duly licensed or incorporated as an FI by the appropriate government agency or created by special law or charter;
- c. The articles of incorporation or charter of the institution shall include among its powers or purposes, acting as trustee or administering any trust or holding property in trust or on deposit for the use, or in behalf of others;
- d. The by-laws of the institution shall include, among other things, provisions on the following:
 - (1) The organization plan or structure of the department, office, or unit which shall conduct the trust and other fiduciary business;
 - (2) The creation of a trust committee, the appointment of a trust officer and subordinate officers of the trust department; and
 - (3) A clear definition of the duties and responsibilities as well as the line and staff functional relationships of the various units, officers and staff within the organization.
- e. Where the applicant is not authorized to engage in quasi-banking functions, it shall meet the following additional requirements:
 - (1) The adoption of a formula or criteria for QBs in the determination of compliance with the capital-to-risk assets ratio and ceilings on loans to DOSRI; and
 - (2) The substitution of the reserve requirements with the cash ratio, as follows:
 - (a) Primary reserves to Bills Payable; and
 - (b) Primary and secondary reserves to Bills Payable; where primary reserves consist of cash on hand, cash in vault, COCIs, due from the Bangko Sentral and due from banks; and where secondary reserves consist of Bangko Sentral supported government securities, T-Bills and other government securities.

Pre-operating requirements. An institution authorized to engage in trust and other fiduciary business shall comply with the following, before engaging in actual operations:

- a. Deposit with the Bangko Sentral eligible government securities amounting to P500,000 as minimum basic security deposit for the faithful performance of trust and other fiduciary duties required under Sec. 416-Q (*Basic security deposit*); and
- b. Completion of the following activities and retention of corresponding supporting documents:
 - (1) Establishment of the trust department, development of policies and procedures related to the trust business, risk management system and internal controls, and delineation of duties and responsibilities of the different units in the trust department; and
 - (2) Establishment of personnel and management positions for trust operations and defining the corresponding qualification requirements and duties and responsibilities. Records of profiles of individuals holding the positions shall be maintained.

The guidelines on the issuance of the Certificate of Authority to register with the SEC and to operate trust and other fiduciary business are provided under Sec. 102-Q (*Issuance of Bangko Sentral Certificate of Authority*).

(Circular Nos. 1143 dated 12 April 2022 and 1031 dated 07 February 2019)

412-Q ORGANIZATION AND MANAGEMENT

Organization. An institution authorized to engage in trust and other fiduciary business shall, pursuant to Sec. 411-Q, include in its by-laws, provisions on the organization plan or structure of the department, office or unit which shall conduct such business. The by-laws shall also include provisions on the creation of a trust committee, the appointment of a trust officer and other subordinate officers and a clear definition of their duties and responsibilities as well as their line and staff functional relationships within the organization which shall be in accordance with the following guidelines:

- a. Trust and other fiduciary business of an institution shall be carried out through a trust department which shall be organizationally, operationally, administratively and functionally separate and distinct from the other departments and/or businesses of the institution.

An institution which is also engaged in investment management activities shall conduct the same only through its trust department and the responsibilities of the board of directors, trust committee and trust officer shall be construed to include the proper administration and management of investment management activities.

No institution shall undertake any of the trust and other fiduciary business and, whenever applicable, investment management activities outside the direct control, authority and management of the trust department or through any department or office which is involved in the other businesses of the institution, such as the Treasury, Funds Management or any similar department; otherwise, any such business shall be considered part of the institution's real liabilities.

The institution proper and the trust department may share the following activities: (1) electronic data processing; (2) credit investigation; (3) collateral appraisal; and (4) messengerial, janitorial and security services.

- b. The trust department, trust officer and other subordinate officers of the trust department shall only be directly responsible to the institution's trust committee which shall, in turn, be only directly responsible to the institution's board of directors.

No director, officer or employee taking part in the management of trust and other fiduciary accounts shall perform duties in other departments or the audit committee of the institution and vice versa. However, branch managers duly authorized by the board of directors may, for or on behalf of the trust officer, sign pre-drawn trust instruments such as UITFs.

- c. The organization structure and definition of duties and responsibilities of the trust committee, officers and employees of the trust department shall reflect adherence to the minimum internal control standards prescribed by the Bangko Sentral.
- d. Provisions shall be made by the institution to have legal assistance readily available in the review of proposed and/or existing trust and fiduciary agreements and documents and in the handling of legal and tax matters related thereto.

Composition of trust committee. The Trust Committee (TC) shall be composed of at least five (5) members including the (1) president or any senior officer of the NBF and (2) the trust officer. The remaining committee members, including the chairperson, may be any of the following: (1) non-executive directors¹ or independent directors² who are both not part of the audit committee; or (2) those considered as qualified “independent professionals”: *Provided*, That the Philippine branch of a foreign bank may appoint its resident manager or chief executive officer in lieu of the president while the positions allotted for members of the board may be filled up by the area manager and/or officers/representatives from the Head Office, or affiliates or subsidiaries of the head office who are not involved in audit-related activities: *Provided, further*, That in case of more than five (5) trust committee membership, majority shall be composed of qualified non-executive members.

A qualified “independent professional” shall refer to a person who –

- a. is not a director/officer/employee of the NBF during the last twelve (12) months counted from the date of committee membership;
- b. is not a relative within the fourth degree of consanguinity or affinity, legitimate or common-law of any executive director or those involved in the day to day management of institution’s operations or officer of the NBF; and
- c. is not engaged or does not engage in any transactions with the NBF whether by himself or with other persons or through a firm of which he is a partner, other than transactions which are conducted at arm’s length and could not materially interfere with or influence the exercise of his judgment.

An independent professional may be appointed as a TC member of other NBFs that belong to the same financial conglomerate.

For purposes of this Section (*Composition of trust committee*), the definition of officer under Item “k” of Sec. 131-Q (*Definition of Terms*) shall apply.

Qualifications of committee members, officers and staff. The trust entity shall be staffed by persons of competence, integrity and honesty. Directors, committee members and officers charged with the administration of trust and other fiduciary activities shall, in addition to meeting the qualification standards prescribed for directors and officers of NBFs or for qualified “independent professionals”, possess the necessary technical expertise and relevant experience in such business which may be indicated by any of the following:

- a. at least one (1) year of actual experience in trust, other fiduciary business, or investment management activities;
- b. at least three (3) years of professional experience in relevant field such as banking, finance, economics, law, and risk management;
- c. completion of at least ninety (90) training hours on trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
- d. completion of a relevant global or local professional certification program.

A TC member should be familiar with Philippine laws, rules and regulations on trust business, as well as uphold at all times ethical and good governance standards.

The trust officer who shall be appointed shall possess any of the following:

- a. at least five (5) years of actual experience in trust operations;
- b. at least three (3) years of actual experience in trust operations and must have:
 - (1) completed at least ninety (90) training hours in trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
 - (2) completed a relevant global or local professional certification program; or
- c. at least five (5) years of actual experience as an officer of a NBF and must have:
 - (1) completed at least ninety (90) training hours in trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
 - (2) completed a relevant global or local professional certification program.

For the purpose of this Section (*Qualifications of committee members, officers and staff*), *actual experience* refers to exposures in trust operations either as officer of a trust entity or member of trust committee.

¹ As defined under item “(i)” of Sec. 131-Q

² As defined under item “(g)” of Sec. 131-Q

Responsibilities of administration.

a. Board of directors

The responsibilities of the board of directors in relation to trust activities of NBFIs shall be those set forth under Sec. 132-Q (*Specific duties and responsibilities of the board of directors*). The Board of Directors shall ensure an appropriate degree of independence between the activities of the NBFIs proper and its trust department.

b. Trust Committee (TC)

The TC is a special committee which reports directly to the board of directors and is primarily responsible for overseeing the fiduciary activities of the NBFIs. In discharging its function, it shall:

- (1) ensure that fiduciary activities are conducted in accordance with applicable laws, rules and regulations, and prudent practices;
- (2) ensure that policies and procedures that translate the board's objectives and risk tolerance into prudent operating standards are in place and continue to be relevant, comprehensive and effective;
- (3) oversee the implementation of the risk management framework and ensure that internal controls are in place relative to the fiduciary activities;
- (4) adopt an appropriate organizational structure/staffing pattern and operating budgets that shall enable the trust department to effectively carry out its functions;
- (5) oversee and evaluate performance of the trust officer;
- (6) conduct regular meetings at least once every quarter, or more frequently as necessary, depending on the size and complexity of the fiduciary business; and
- (7) report regularly to the board of directors on matters arising from fiduciary activities.

c. Trust Officer

The management of day-to-day fiduciary activities shall be vested in the trust officer. In this regard, the trust officer shall:

- (1) ensure adherence to the basic standards in the administration of trust, other fiduciary and investment management accounts pursuant to *Appendix Q-49*;
- (2) develop and implement relevant policies and procedures on fiduciary activities;
- (3) observe sound risk management practices and maintain necessary controls to protect assets under custody and held in trust or other fiduciary capacity;
- (4) carry out investment and other fiduciary activities in accordance with agreements with clients and parameters set by the TC as approved by the board of directors;
- (5) report regularly to the TC on business performance and other matters requiring its attention;
- (6) maintain adequate books, records and files for each trust or other fiduciary account and provide timely and regular disclosure to clients on the status of their accounts; and
- (7) submit periodic reports to regulatory agencies on the conduct of the trust operations.

Outsourcing services in trust departments. The rules on outsourcing of banking functions as shown in Sec. 112 (*Statement of Principle on Outsourcing*) of the MORB and *Appendix Q-36* shall be adopted insofar as they are applicable to trust departments of QBs performing trust and other fiduciary business and investment management activities.

Confirmation of the appointment/designation of trust officer and independent professional. An independent professional and trust officer must be fit and proper to discharge their respective functions. In determining whether a person is fit and proper for the position, regard shall be given to the following: Integrity/probity, physical/mental fitness, competence, relevant education/financial literacy/training, diligence and knowledge/experience.

The appointment or designation of independent professional and trust officer shall be subject to confirmation by the Monetary Board. The bio-data of the proposed independent professional and trust officer shall be submitted to the Bangko Sentral, in a prescribed form indicated in *Appendix Q-3*, within seven (7) banking days from approval of the board of directors. Moreover, the independent professional shall certify that he/she possesses the qualifications as herein prescribed and that all the information thereby supplied are true and correct.

If after evaluation, the Monetary Board shall find grounds for disqualification, the concerned NBFIs shall be informed thereof and the independent professional and trust officer so appointed or delegated shall be removed from office even if he/she has assumed the position to which he/she was appointed or delegated.

(Circular Nos. 1031 dated 07 February 2019 and 970 dated 22 August 2017)

413-Q TRUST AND OTHER FIDUCIARY BUSINESS

The conduct of trust and other fiduciary business shall be subject to the following regulations.

Minimum documentary requirements. Each trust or fiduciary account shall be covered by a written document establishing such account, as follows:

- a. In the case of accounts created by an order of the court or other competent authority, the written order of said court or authority.
- b. In the case of accounts created by corporations, business firms, organizations or institutions, the voluntary written agreement or indenture entered into by the parties, accompanied by a copy of the board resolution or other evidence authorizing the establishment of, and designating the signatories to, the trust or other fiduciary account.
- c. In the case of accounts created by individuals, the voluntary written agreement or indenture entered into by the parties.

The voluntary written agreement or indenture shall include the following minimum provisions:

- (1) Title or nature of contractual agreement in noticeable print;
- (2) Legal capacities, in noticeable print, of parties sought to be covered;
- (3) Purposes and objectives;
- (4) Funds and/or properties subject of the arrangement;
- (5) Distribution of the funds and/or properties;
- (6) Duties and powers of trustee or fiduciary;
- (7) Liabilities of the trustee or fiduciary;
- (8) Reports to the client;
- (9) Termination of contractual arrangement and, in appropriate cases, provision for successor-trustee or fiduciary;
- (10) The amount or rate of the compensation of trustee or fiduciary;
- (11) A statement in noticeable print to the effect that trust and other fiduciary business are not covered by the PDIC and that losses, if any, shall be for the account of the client; and
- (12) Disclosure requirements for transactions requiring prior authority and/or specific written investment directive from the client, court of competent jurisdiction or other competent authority.

Lending and investment disposition. Assets received in trust or in other fiduciary capacity shall be administered in accordance with the terms of the instrument creating the trust or other fiduciary relationship.

When a trustee or fiduciary is granted discretionary powers in the investment disposition of trust or other fiduciary funds and unless otherwise specifically enumerated in the agreement or indenture and directed in writing by the client, court of competent jurisdiction or other competent authority, loans and investments of the fund shall be limited to:

- a. Traditional deposit products of UBs and KBs in the Philippines with long-term credit rating of at least AA-or its equivalent by a third party credit assessment agency recognized by the Bangko Sentral;
- b. Evidences of indebtedness of the Republic of the Philippines and of the Bangko Sentral, and any other evidences of indebtedness or obligations where the servicing and repayment of which are fully guaranteed by the Republic of the Philippines or loans against such government securities;
- c. Loans fully guaranteed by the Republic of the Philippines as to the payment of principal and interest;
- d. Tradable securities issued by the government of a foreign country or any supranational entity with long-term credit rating of at least AA-or its equivalent by a third party credit assessment agency recognized by the Bangko Sentral;
- e. Loans fully secured by a hold-out on, assignment or pledge of deposits maintained either with the bank proper or other banks, or of deposit substitutes of the institution, or of mortgage and chattel mortgage bonds issued by the trustee or fiduciary;
- f. Loans fully secured by real estate or chattels in accordance with Secs. 302-Q, 143-Q (*Credit granting and loan evaluation/analysis process and underwriting standards*) and 301-Q (*Additional requirements*);

The specific directives required under this Section (*Lending and investment disposition*) shall consist of the following information:

- (1) The transaction to be entered into;
- (2) Name of the issuer or borrower;
- (3) Amount involved; and
- (4) Terms of the security, including collateral, if any.

Trust Entities with composite rating of at least "3" under the Revised Trust Rating System in the latest Bangko Sentral examination will not be subject to the investment limitations provided under this Section (*Lending and investment disposition*).

Transactions requiring prior authority. A trustee or fiduciary shall not undertake any of the following transactions for the account of a client, unless prior to its execution, such transaction has been fully disclosed and specifically authorized in writing by the client, beneficiary, other party-in-interest, court of competent jurisdiction or other competent authority:

- a. Lend, sell, transfer or assign money or property to any of the departments, directors, officers, stockholders or employees of the trustee or fiduciary, or relatives within the first degree of consanguinity or affinity, or the related interests of such directors, officers and stockholders; or to any corporation where the trustee or fiduciary owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity;
- b. Purchase or acquire property or debt instruments from any of the departments, directors, officers, stockholders, or employees of the trustee or fiduciary, or relatives within the first degree of consanguinity or affinity, or the related interest of such directors, officers and stockholders; or from any corporation where the trustee or fiduciary owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity;
- c. Invest in equities of, or in securities underwritten by, the trustee or fiduciary or a corporation in which the trustee or fiduciary owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity; and
- d. Sell, transfer, assign, or lend money or property from one trust or fiduciary account to another trust or fiduciary account except where the investment is in any of those enumerated in Items "a" to "d" of this Section (*Lending and investment disposition*).

Directors, officers, stockholders, and their related interest covered by this Section shall be those considered as such under existing regulations on loans to DOSRI in Part III-E of this Manual. The procedural and reportorial requirements in said regulations shall also apply.

The disclosure required under this Section shall consist of the following minimum information:

- a. The transactions to be entered into;
- b. Identities of the parties involved in the transactions and their relationships (shall not apply to Item "d" of this Section (*Transactions requiring prior authority*));
- c. Amount involved; and
- d. Collateral security(ies), if any.

The above information shall be made known to clients in a separate instrument or in the very instrument creating the trust or fiduciary relationship.

Ceilings on loans. Loans funded by trust accounts shall be subject to the single borrower's loan limit and DOSRI ceilings imposed on QBs under Part III -D and -C of this Manual. For purposes of determining compliance with said ceilings, the total amount of said loans granted by the institution and its trust department to the same person, firm or corporation shall be combined.

Funds awaiting investment or distribution. Funds held by the trustee or fiduciary awaiting investment or distribution shall not be held uninvested or undistributed any longer than is reasonable for the proper management of the account.

Other applicable regulations on loans and investments -trust and other fiduciary accounts. The loans and investments of trust and other fiduciary accounts shall be subject to pertinent laws, rules and regulations for QBs that shall include, but need not be limited to, the following:

- a. Requirements of Sections 39 and 40 of R.A. No. 8791 (The General Banking Law of 2000);
- b. Criteria for past due accounts;
- c. Qualitative appraisal of loans, investments and other assets that may require provisions for probable losses which shall be booked in accordance with the Financial Reporting Package for Trust Institutions (FRPTI);
- d. Requirements of Sections 3 and 8 of the Securities and Regulation Code (SRC); and

- e. Provisions of Section 44 – Investments by Philippine residents – of the Bangko Sentral Manual of Regulations on Foreign Exchange Transactions (FX Manual), such that the cross-currency investments of peso trust and other fiduciary accounts, including peso unit UITFs, shall be subject to the following conditions:
 - (1) All cash flows of the trustee or fiduciary shall only be in pesos. In case the foreign exchange acquired or received by the trustee or fiduciary as dividends/earnings or divestment proceeds on such investment are intended for reinvestment abroad, the same proceeds are not required to be inwardly remitted and sold for pesos through authorized agent banks: *Provided*, That such proceeds are reinvested abroad within two (2) banking days from receipt of the funds abroad;
 - (2) The trustee or fiduciary shall purchase, invest, reinvest, sell, transfer or dispose foreign currency-denominated financial instruments, including securities as defined in Section 3 of the SRC, through a distributor or underwriter duly authorized or licensed by the government of the issuer of such instruments, or a counterparty FI (seller or buyer) accredited by the trustee or fiduciary: *Provided*, That, the conduct, documentation, and settlement of any of these transactions shall be outside Philippine jurisdiction;
 - (3) The trustee or fiduciary shall record cross-currency investment transactions in the peso regular books at their foreign currency amounts and their local currency equivalent using the Philippine Dealing System peso/US dollar closing rate and the New York US dollar/third currencies closing rate; and
 - (4) The trustee or fiduciary shall comply with the reportorial requirements that may be prescribed by the Bangko Sentral, which shall include as a minimum, the foreign currency amount and the local currency equivalent of the total cross currency investments with details on: (a) type of investments; and (b) amount of cash flow converted.

For purposes of this Section (*Other applicable regulations on loans and investments – trust and other fiduciary accounts*), “resident”, as defined under Section 1 of the FX Manual, shall refer to the (a) trustee or fiduciary that administers the assets received in trust or in other fiduciary capacity; or (b) principal that engages the services of the investment manager under an investment management agreement.

Operating and accounting methodology. Trust and other fiduciary accounts shall be operated and accounted for in accordance with the following:

- a. The trustee or fiduciary shall administer, hold or manage the fund or property in accordance with the instrument creating the trust or other fiduciary relationship; and
- b. Funds or property of each client shall be accounted separately and distinctly from those of other clients herein referred to as *individual account accounting*.

Tax-exempt individual trust accounts. The following shall be the features/requirements of individual trust accounts which may be exempted from the twenty percent (20%) final tax under Section 24(B)(1) of R.A. No. 8424 (The Tax Reform Act of 1997):

- a. The trust indenture/agreement shall only be between individuals who are Filipino citizens or resident aliens and QBs acting as trustee. The trust indenture/agreement shall be non-negotiable and non-transferable;
- b. The trust indenture/agreement shall indicate that pursuant to Section 24(B)(1) of R.A. No. 8424, interest income of the trust fund derived from investments in interest-bearing instruments (e.g., time deposits, government securities, loans and other debt instruments) which are otherwise subject to the twenty percent (20%) final tax shall be exempt from said final tax provided the fund was held by the trustee-QB for at least five (5) years. If said fund was held for a period less than five (5) years interest income shall be subject to a final tax based on the following schedule –

<u>Holding Period</u>	<u>Rate of Tax</u>
Four (4) years to less than five (5) years	5%
Three (3) years to less than four (4) years	12%
Less than three (3) years	20%

Necessarily, the trust indenture/agreement shall clearly indicate the date when the trustee-bank actually received the trust funds which shall serve as basis for determining the holding period of the funds.

- c. A trustee may accept additional funds for inclusion in trust accounts which have been established as tax-exempt under R.A. No. 8424. However, the receipt of additional funds shall be properly documented by indicating that they are part of existing tax-exempt trust accounts and that the interest income of the additional funds derived from investments in interest-bearing instruments shall be exempt from the twenty percent (20%) final tax under the same conditions mentioned in the preceding item. The document shall also indicate the date when the funds were received by the trustee-bank to serve as basis for determining the minimum five (5) -year holding period for tax exemption purposes of the additional funds; and

- d. Tax-exempt individual trust accounts established under this Section (*Tax-exempt individual trust accounts*) shall be subject to the provisions of this Section under Item c of *Minimum documentary requirements and Lending and investment disposition up to Operating and accounting methodology*.

Personal management trust. The guidelines on personal management trust (PMT) accounts are as follows:

- a. *Minimum criteria.* A PMT account shall meet the following criteria:

- (1) Minimum entry amount and maintaining balance shall be equivalent to at least P100,000; *Provided*, That PMT with balances of up to P500,000 shall only be invested in deposits and government securities;
- (2) The agreement shall clearly state the specific purpose(s) for which the account was established which shall be consistent with the general objectives of the PMT which is the preservation of the assets or property for the future use of the beneficiaries and/or to answer for their current needs;

The distribution clause shall clearly and specifically define the manner and conditions under which the assets (including income thereof) will be distributed. Any distribution/withdrawal of assets (including income thereof) shall be consistent with the purpose of the PMT, strictly in accordance with the distribution clause, and made only to the designated beneficiary/ies. Consequently, the trustee is expected to obtain adequate documentation to ensure the propriety of distribution/withdrawal of assets (including income thereof).

Pre-printed PMT agreements may be allowed for expediency: *Provided*, That the section for the trust purpose and the distribution clause shall not be pre-printed and shall be filled up only upon signing thereof by the trustor;

- (3) The length of PMT's existence should be consistent with the purpose of the trustor. Any termination for causes that are inconsistent with the purpose/distribution clause shall render the trustor ineligible from opening a new PMT within a period of one (1) year from termination date; and
- (4) Management of the trust assets shall be aligned with the investment objective/s and risk parameters set forth by the trustor.

PMT accounts that do not meet any of the above criteria shall be considered as other fiduciary accounts subject to applicable reserves.

- b. *Marketing.* Officers and personnel of the Bank proper, including Branch Managers, shall not be allowed to market PMT products and sign pre-printed PMT agreements. However, Branch Managers/Officers may refer clients to the Trust Department and give a short introduction on the PMT product to prospective clients.

- c. *Reserve Requirement.* The PMT shall be subject to zero-percent (0%) reserve requirement.

Qualification and accreditation of quasi-banks acting as trustee on any mortgage or bond issuance by any municipality, government-owned or controlled corporation, or any body politic.

- a. *Applicability.* QBs duly accredited by the Bangko Sentral may act as trustee on any mortgage or bond issued by any municipality, GOCC, or any body politic.
- b. *Application for accreditation.* A QB desiring to act as trustee on any mortgage or bond issued by any municipality, GOCC, or any body politic shall file an application for accreditation with the appropriate supervising department of the Bangko Sentral. The application shall be signed by the president or officer of equivalent rank of the QB and shall be accompanied by the following documents:
 - (1) certified true copy of the resolution of the institution's board of directors authorizing the application; and
 - (2) a certification signed by the president or officer of equivalent rank that the institution has complied with all the qualification requirements for accreditation.
- c. *Qualification requirements.* A QB applying for accreditation to act as trustee on any mortgage or bond issued by any municipality, GOCC, or any body politic must comply with the requirements in *Appendix Q-31*.
- d. *Independence of the trustee.* A QB is prohibited from acting as trustee of a mortgage or bond issuance if any elective or appointive official of the LGU, GOCC, or body politic which issued said mortgage or bond and/or his related interests own such number of shares of the QB that will allow him or his related interests to elect at least one (1) member of the board of directors of such QB or is directly or indirectly the registered or beneficial owner of more than ten percent (10%) of any class of its equity security.

- e. *Investment and management of the funds.* A domestic QB designated as trustee of a mortgage or bond issuance may hold and manage, in accordance with the provisions of the trust indenture or agreement, the proceeds of the mortgage or bond issuance and such assets and funds of the issuing municipality, corporation, or body politic as may be required to be delivered to the trustee under the Trust indenture/agreement, subject to the following conditions/restrictions:
 - (1) Pending the utilization of such funds pursuant to the provisions of the trust indenture/agreement, the same shall only be (i) deposited in a bank authorized to accept deposits from the Government or government entities: *Provided*, That the depository bank is not a subsidiary or affiliate of the trustee QB, or (ii) invested in peso-denominated treasury bills acquired/purchased from any securities dealer/entity, other than the trustee or any of its unit/department, its subsidiary or affiliate.
 - (2) Investments of funds constituting or forming part of the sinking fund created as the primary source for the payment of the principal and interests due the mortgage or bonds shall also be limited to deposits in any bank authorized to accept deposits from the Government or government entities and investments in government securities that are consistent with such purpose which must be acquired/purchased from any securities dealer/entity, other than the trustee or any of its unit/department, its subsidiary or affiliate.
- f. *Waiver of confidentiality.* A QB designated as trustee of any mortgage or bond issued by any municipality, GOCC, or any body politic shall submit to the appropriate supervising department of the Bangko Sentral a waiver of the confidentiality of information under Sections 2 and 3 of R.A. No. 1405, as amended, duly executed by the issuer of the mortgage or bond in favor of the Bangko Sentral.
- g. *Reportorial requirements.* A QB authorized by the Bangko Sentral to act as trustee of the proceeds of mortgage or bond issuance of a municipality, GOCC, or body politic shall comply with reportorial requirements that may be prescribed by the Bangko Sentral.
- h. *Applicability of the rules and regulations on Trust, Other Fiduciary Business and Investment Management Activities.* The provisions of the Rules and Regulations on Trust, Other Fiduciary Business and Investment Management Activities not inconsistent with the provisions of this Section (*Qualification and accreditation of quasi-banks acting as trustee on any mortgage or bond issuance by any municipality, government-owned or controlled corporation, or any body politic*) shall form part of these rules.
- i. *Sanctions.* Without prejudice to the penal and administrative sanctions provided for under Sections 36 and 37, respectively, of the R.A. No. 7653, as amended, violation of any provision of this Section (*Qualification and accreditation of quasi-banks acting as trustee on any mortgage or bond issuance by any municipality, government-owned or controlled corporation, or any body politic*) shall be subject to the following sanctions/penalties depending on the gravity of the offense:
 - (1) *First offense* –
 - (a) Fine of up to P10,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
 - (b) Reprimand for the directors/officers responsible for the violation.
 - (2) *Second offense* –
 - (a) Fine of up to P20,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected;
 - (b) Suspension for ninety (90) days without pay for directors/officers responsible for the violation; and
 - (c) Revocation of the authority to act as trustees on any mortgage or bond issuance by any municipality, GOCCs, or body politic.
 - (3) *Subsequent offense* –
 - (a) Fine of up to P30,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected;
 - (b) Suspension or revocation of the trust license; and
 - (c) Suspension for 120 days without pay of the directors/officers responsible for the violation

Trust fund of pre-need companies. The following rules and regulations shall govern the acceptance, management and administration of the trust funds of pre-need companies by entities authorized to perform trust and other fiduciary functions.

- a. *Administration of trust fund.* In line with the policy of providing greater protection to pre-need planholders, prudential measures are hereby laid out in the administration of trust funds of pre-need companies. The trust fund, inclusive of earnings, shall be administered and managed by the trustee with the skill, care, prudence and diligence necessary under the circumstances then prevailing that a prudent man, acting in the same capacity and familiar with such matters, would exercise in the conduct of an enterprise of a like character and similar aims.

The trustee shall have exclusive management and control over the trust fund and the right at any time to sell, convert, invest, change, transfer or otherwise dispose of the assets comprising the funds.

- b. *Trustee.* No trust entity shall act as a trustee or administer or hold a trust fund established by a pre-need company, which is a subsidiary or affiliate, as defined under existing Bangko Sentral regulations, of such trust entity.

Trust entities currently holding or administering trust funds of an affiliate pre-need company may continue to act as trustee of such funds after the transition period provided under Item “g” only upon prior approval of the Monetary Board on the basis of a clear showing that no potential conflict of interest will arise. An absence of any exception or finding on conflicts of interest during an examination of the trust entity shall be deemed as prima facie evidence that no potential conflict of interest will arise.

- c. *Investment of the trust fund.* Unless otherwise allowed under existing laws or regulations issued by the agency having jurisdiction and supervision over pre-need companies, or with prior written approval by said agency, loans and investments of the trust funds shall be limited to:

- (1) Evidences of indebtedness of the Republic of the Philippines and of the Bangko Sentral, and any other evidences of indebtedness or obligations wherein the servicing and repayment of which are fully guaranteed by the Republic of the Philippines or loans against such government securities;
- (2) Commercial papers duly registered with the SEC with a credit rating of one (1) for short term and “AAA” for long-term or their equivalent;
- (3) Loans fully guaranteed by the Republic of the Philippines, as to the payment of principal and interest;
- (4) Loans fully secured by a hold-out on, assignment or pledge of deposits maintained with banks, and/or of deposit substitutes or of mortgage and chattel mortgage bonds issued by the trustee/fiduciary or by banks;
- (5) Loans fully secured by real estate in accordance with Section 37 and subject to the requirements of Sections 39 and 40 of R.A. No. 8791 and their implementing regulations; and
- (6) Loans fully secured by unconditional payment guarantees (such as standby letters of credit and letter of indemnity) issued by banks/multilateral FIs.

- d. *Transactions with DOSRI.* The trustee shall not, for the account of the trustor or the beneficiary of the trust, purchase or acquire property from, or sell, transfer, assign or lend money or property to, or purchase debt instruments of, any of the departments, directors, officers, stockholders, employees, subsidiaries and affiliates of the trustee and/or the trustor, and relatives within the first degree of consanguinity or affinity, or the related interests, of such directors, officers and stockholders, without prejudice to any rule that may be issued by the agency having jurisdiction and supervision over such pre-need company allowing such transaction with the prior written approval of such agency. Such written approval shall clearly specify the amount of the loan and/or investment including the name of the concerned director, officer, stockholder and their related interests.

- e. *Applicability of the Rules and Regulations on Trust, Other Fiduciary Business and Investment Management Activities (Trust Rules).* The provisions of the Trust Rules consistent with the provisions of this Section (*Trust fund of pre-need companies*) shall supplementarily apply to trust funds of pre-need companies.

- f. *Penalties and sanctions.* Any violation of the provisions of this Section (*Trust fund of pre-need companies*) shall be a ground for prohibiting the concerned entity from accepting, managing and administering trust funds of pre-need companies without prejudice to the imposition of the applicable sanctions prescribed or allowed under the Trust Rules.

(Circular Nos. 966 dated 11 July 2017, 961 dated 02 June 2017, 920 dated 18 August 2016, M-2016-016 dated 18 November 2016, Circular Nos. 913 dated 02 June 2016, and 890 dated 02 November 2015)

414-Q UNIT INVESTMENT TRUST FUNDS

The following rules and regulations shall govern the creation, administration and investment/s of Unit Investment Trust Funds (UITFs).

Establishment of a UITF. Any trust entity authorized to perform trust functions may establish, administer and maintain one (1) or more UITFs subject to applicable provisions under this Section. A UITF may be allowed to operate as a 1) feeder fund, 2) fund-of-funds and/or 3) multi-class fund: *Provided*, That the plan rules and related documents shall state that the UITF is a feeder fund or a fund-of-funds, and/or multi-class fund, and provide an explanation or illustration of such structures. A UITF may also be allowed to have a unit-paying feature where the income of the fund is distributed in the form of units called unit income.

Administration of a UITF. The trustee shall have exclusive management and control of each UITF under its administration, and the sole right at any time to sell, convert, reinvest, exchange, transfer or otherwise change or dispose of the assets comprising the fund: *Provided*, That no participant in a UITF shall have or be deemed to have any ownership or interest in any particular account or investment in the UITF but shall have only its proportionate beneficial interest in the fund as a whole.

Relationship of trustee with UITF. A trustee administering a UITF shall not have any other relationship with such fund other than its capacity as trustee of the UITF: *Provided*, however, That a trustee which simultaneously administers other trust, fiduciary or investment management funds may invest such funds in the trustee's UITF, if allowed under a policy approved by the board of directors.

Operating and accounting methodology. A UITF shall be operated and accounted for in accordance with the following:

- a. The total assets and accountabilities of each fund shall be accounted for as a single account referred to as *pooled-fund accounting method*. The investments of a multi-class fund shall remain as one (1) pool and are not separately allocated to classes.
- b. Contributions to each fund by clients shall always be through participation in units of the fund and each unit shall have uniform rights and privileges, as any other unit; in the case of multi-class fund, units shall be issued as units in a class of a fund.
- c. All such participations shall be pooled and invested as one (1) account (referred to as collective investments).
- d. The beneficial interest of each participation unit shall be determined under a unitized net asset value per unit (NAVPU) valuation methodology defined in the written plan of the UITF, and no participation shall be admitted to, or redeemed from, the fund or class of a fund, except on the basis of such valuation. To arrive at a fund's NAVPU, the fund's total Net Assets is divided by the total outstanding units. *Total Net Assets* is a summation of the market value of each investment less fees, taxes, and other qualified expenses, as defined under the plan rules.

When there is a different fee structure for each class, the NAVPU of each class shall be computed by dividing total net assets of a class by the total outstanding units of such class; where, the net assets of each class shall represent its proportionate share on the net assets of the multi-class fund less the trustee fee and expenses attributable to that class. *The net assets of the multi-class fund* is the summation of the market value of each investment less fees, taxes, and other qualified expenses, but gross of trustee fees and expenses attributable to a particular class, as defined under the plan rules.

- e. For a UITF with unit-paying feature, the trustee may distribute the income of the Fund subject to the minimum conditions enumerated hereunder:
 - (1) Distribution of income shall be made only from cash received from interest income earned and cash dividends;
 - (2) Distribution of income shall be made after the trust entity has taken into consideration the following:
 - (a) income for the period; and
 - (b) the investment objective and distribution policy of the fund;
 - (3) Distribution of income to participants shall be after deduction of taxes and expenses (net distribution);
 - (4) Distribution of income shall be effected through conversion of the income for distribution into its equivalent units based on the NAVPU as at the first business day when units in the fund are quoted ex-distribution¹. Participants shall be entitled to his/her pro-rata share if said units which, on distribution date, shall be automatically considered redeemed;

¹ Cum-distribution and ex-distribution refer to the date before and after distribution, respectively

- (5) The Plan rules shall state the distribution policy, including the sources of income to be distributed and the intended frequency of distribution;
- (6) For monitoring purposes, the trustee shall separately account for the fund's income due for distribution; and
- (7) Where a distribution is made, a notice to each participant on his/her unit income shall be made available containing information on the total amount of income for distribution by the trustee, NAVPu ex-distribution and its basis, total number of units for distribution, and unit income. *Unit income* refers to the number of units for every unit held by the participant entitled for distribution.

Plan rules. Each UITF shall be established, administered and maintained in accordance with a written trust agreement drawn by the trustee, referred to as the "Plan" which shall be approved by the board of directors of the trustee and a copy of which shall be submitted to the Bangko Sentral for processing and approval prior to its implementation. Each new UITF Plan filed for approval shall be charged a processing fee of P10,000.00.

The Plan shall contain the following minimum elements:

- a. *Title of the Plan.* This shall correspond to the product/brand name by which the UITF is proposed to be known and made available to its clients. The Plan rules shall state the classification of the UITF (e.g., money market fund, bond fund, balanced fund and equity fund).
- b. *Manner by which the fund is to be operated.* A statement of the fund's investment objectives, policies and limitations, and if applicable, income distribution policies, the distinctive features of the different classes of units such as the level of trustee fees and expenses for each class and other peculiarities which the Bangko Sentral may allow.
- c. *Risk disclosure.* The Plan rules shall state both the general risks and risks specific to the type of fund.
- d. *Investment powers of the trustee with respect to the fund, including the character and kind of investments, which may be purchased, by the fund.* There must be an unequivocal statement of the full discretionary powers of the trustee as far as the fund's investments are concerned. These powers shall be limited only by the duly stated investment objective and policies of the fund.
- e. The unitized NAVPu valuation methodology as prescribed under Item "d" of this Section (*Operating and accounting methodology*) shall be employed. The plan rules shall also provide the method of determining the proportionate share of the classes of units to the value of the assets of the fund.
- f. *Terms and conditions governing the admission or redemption of units of participation in the fund.* The Plan rules shall state that the trustee, prior to admission of a client's initial participation in the UITF, shall conduct a client suitability assessment to profile the risk-return orientation and suitability of the client to the specific type of fund. If the frequency of admission or redemption is other than daily; that is, any business day, the same should be explicitly stated in the Plan rules: *Provided*, That the admission and redemption prices shall be based on the end of day NAVPu of the fund or of the class of a fund, if applicable, computed after the cut-off time for fund participation and redemption for that reference day, in accordance with existing Bangko Sentral regulations on mark to market valuation of investment securities.
- g. Aside from the regular audit requirement applicable to all trust accounts, an external audit of each UITF shall be conducted annually by an independent auditor acceptable to the Bangko Sentral and the results thereof made available to participants. The external audit shall be conducted by the same external auditor engaged for the audit of the trust entity.
- h. *Basis upon which the fund may be terminated.* The Plan rules shall state the rights of participants in case of termination of the fund. Termination of the fund shall be duly approved by the trustee's board of directors and a copy of the resolution submitted to the appropriate department of the Bangko Sentral.
- i. *Liability clause of the trustee.* There must be a clear and prominent statement adjacent to where a client is required to sign the participating trust agreement that (1) the UITF is a trust product and not a deposit account or an obligation of, or guaranteed, or insured by the trust entity or its affiliates or subsidiaries; (2) the UITF is not insured or governed by the PDIC; (3) due to the nature of the investment, yields and potential yields cannot be guaranteed; (4) any loss/income arising from market fluctuations and price volatility of the securities held by the UITF, even if invested in government securities, is for the account of the client/participant; (5) as such, the units of participation of the investor in the UITF, when redeemed, may be worth more or be worth less than his/her initial investment contributions; (6) historical performance, when presented, is purely for reference purposes and is not a guarantee of similar future result; and (7) the trustee is not liable for losses unless upon willful default, bad faith or gross negligence.

- j. *Amount of fees/commission and other charges to be deducted from the fund.* The amount of fees that shall be charged to a fund shall cover the fund's fair and equitable share of the routine administrative expenses of the trustee such as salaries and wages, stationery and supplies, credit investigation, collateral appraisal, security, messengerial and janitorial services, EDP expenses, Bangko Sentral supervision fees and internal audit fees. However, the trustee may charge a UITF for special expenses in case such expenses are (1) necessary to preserve or enhance the value of the fund, (2) payable to a third party covered by a separate contract, and (3) disclosed to participants. The trustee shall secure prior Bangko Sentral approval for outsourcing services provided under existing regulations. No other fees shall be charged to the fund.

Sales, distribution, marketing, and/or other promotional related expenses shall be for the account of the trustee and shall be presumed covered by the trust fee.

In the case of a multi-class fund that have different level of trustee fees and expenses, there shall be a policy on the equitable allocation of any costs, charges, and expenses payable out of the multi-class fund, which are not attributable to any particular class.

- k. Such other matters as may be necessary or proper to define clearly the rights of participants in the UITF. The provisions of the Plan shall govern participation in the fund including the rights and benefits of persons having interest in such participation, as beneficiaries or otherwise. The Plan may be amended by a resolution of the board of directors of the trustee: *Provided, however,* That participants in the fund shall be immediately notified of such amendments and shall be allowed to withdraw their participations within a reasonable time but in no case less than thirty (30) calendar days after the amendments are approved by the board, if they are not in conformity with the amendments made thereto: *Provided, further,* That amendments to the Plan may be allowed subject to notification to the Bangko Sentral and continuing compliance of the trustee with the prudential criteria prescribed under Sec. 111-Q (*Prudential criteria*). For this purpose, the trustee shall submit the following documents to the appropriate supervising department of the Bangko Sentral within ten (10) banking days from the approval of the board of directors of the amendments:

- (a) Notification letter signed by the president or officer of equivalent rank indicating the amendments in the UITF;
- (b) Corporate secretary's certificate on the approval of the board of directors of the amendments;
- (c) Certification signed by the president or officer of equivalent rank and the chief compliance officer, that the trustee has complied with all the prudential criteria prescribed under Sec. 111-Q (*Prudential criteria*) and other pertinent laws, rules and regulations; and
- (d) Amended Plan Rules and Appendices.

Provided, finally, That amendments to the Plan that involve change in the investment objective and/or strategy, and risk profile shall be subject to the approval of the Bangko Sentral. For purposes of imposing monetary penalties provided under Sec. 172-Q (*Sanctions in case of willful delay in the submission of reports/refusal to permit examination*) for Delayed/Unsubmitted reports, the notification on the amendments to the Plan shall be considered as "Category A-3" report.

A copy of the Plan shall be available at the principal office of the trustee during regular office hours, for inspection by any person having an interest in the fund or by his authorized representative. Upon request, a copy of the Plan shall be furnished such interested person.

Minimum disclosure requirements.

- a. *Key Information and Investment Disclosure Statement (KIIDS).* This document shall contain the key features and the prospective and outstanding investments of a UITF. It shall use plain language presented in a concise manner, and shall comply substantially with the format prescribed in *Appendix Q-33*. This document shall be updated and made available to participants at least every calendar quarter thereof.

For investments of feeder funds/fund-of-funds, the trustee shall likewise make available to all UITF clients all relevant information on the target fund/s.

For a UITF with unit-paying feature, the KIIDS shall include the intended frequency of income distribution and the last five (5) distribution dates, with information on the unit income and the distribution yield: *Provided,* That the KIIDS shall disclose that distributions are not guaranteed and are determined by the trustee in accordance with the plan rules; and that income distribution may result in an immediate decrease in NAVPu by the amount of the distribution.

- b. *Distribution of investment units.* The trustee may issue such conditions or rules, as may affect the distribution of investment units subject to the minimum conditions enumerated hereunder:
- (1) *Marketing materials.* All marketing materials related to the sale of a UITF shall clearly state:
- (a) The designated name and classification of the fund, the fund's trustee, and the classes of a UITF, if any.
 - (b) Minimum information regarding:
 - (i) The general investment policy and applicable risk profile. There shall be a clear description/explanation of the general risks attendant with investing in a UITF, including risk specific to a type of fund. Technical terms should likewise be defined in laymen's terms¹.
 - (ii) Particulars including administrative and marketing details, such as but not limited to, pricing, cut-off time for participation and redemption, early redemption penalty/ies, and any special features of the UITF, as applicable. For a UITF with unit-paying feature, the marketing materials shall provide relevant information on this feature including, but not limited to, disclosures that distributions are not guaranteed and shall be determined by the trustee in accordance with the plan rules; and that income distribution may result in an immediate decrease in NAVPu by the amount of distribution.
 - (iii) All charges made/to be made against the Fund or class of a UITF, including trust fees and other related charges.
 - (iv) The availability of the Plan Rules governing the Fund, upon the client's request and the contact details of the trustee.
 - (v) Client and Product Suitability Standards. Prior to admission, the trustee shall perform a client profiling process for all UITF participants under the general principles on client suitability assessment to guide the client in choosing investment outlets that are best suited to his objectives, risk tolerance, preferences and experience. The profiling process shall, at the minimum, require the trustee to obtain client information through the Client Suitability Assessment (CSA) form, classify the client according to his financial sophistication and communicate the CSA results to the subject client. The general principles on CSA shall also require the trustee to adopt a notice mechanism whereby clients are advised and/or reminded of the explicit requirement to notify the trustee or its UITF marketing personnel of any change in their characteristics, preferences or circumstances to enable the trustee to update client's profile at least every three (3) years.
 - (c) The participation is not a "deposit account" but a trust product; and that any loss/income is for the account of the participant; that the trustee is not liable for losses unless upon willful default, bad faith or gross negligence.
 - (d) A balanced assessment of the possible gains and losses of the UITF and that the participation does not carry any guaranteed rate of return, and is not insured by the PDIC.
 - (e) An advisory that the investor must read the complete details of the fund in the Plan Rules, make his/her own risk assessment, and when necessary, he/she must seek independent/professional opinion, before making an investment.
- (2) *Evidence of participation.* Every UITF participant shall be given –
- (a) A participating trust agreement. Such agreement shall clearly indicate that (1) the UITF is a trust product and not a deposit account or an obligation of, or guaranteed, or insured by the trust entity or its affiliates or subsidiaries; (2) the UITF is not insured or governed by the PDIC; (3) due to the nature of the investment, yields and potential yields cannot be guaranteed; (4) any loss/income arising from market fluctuations and price volatility of the securities held by the UITF, even if invested in government securities, is for the account of the client/participant; (5) as such, the units of participation of the investor in the UITF, when redeemed, may be worth more or be worth less than his/her initial investment/contributions; (6) historical performance, when presented, is purely for reference purposes and is not a guarantee of similar future result; and (7) the trustee is not liable for losses unless upon willful default, bad faith or gross negligence.

¹ Example: "Fixed income securities" does not really mean a guarantee of fixed earnings on the investor's participation; "Risk-free" government securities which may be sovereign risk-free but not interest rate risk-free

In addition to the agreement, every UITF participant shall be provided with –

- (i) CSA form to be accomplished during the profiling process required under the general principles on CSA. This is designed to ensure that based on relevant information about the client, his investment profile is matched against the investment parameters of the UITF. At the minimum, client information shall include personal or institutional data, investment objective, investment horizon, investment experience, and risk tolerance; and
- (ii) Risk disclosure statement, which in reference to Item "c" of this Section (*Plan rules*), shall describe the attendant general and specific risks that may arise from investing in the UITF. This statement shall be accomplished by the client every time he participates in a different fund and shall be substantially in the form as shown in *Annex A of Appendix Q-34*.

Both documents shall be signed by the client/participant and the UIT marketing personnel who assessed and explained to the concerned client his/her ability to bear the risks and potential losses.

- (b) A confirmation of participation and redemption made to/from the fund that shall contain the following information:
 - (i) NAVPu of the fund on day of purchase/redemption;
 - (ii) Number of units purchased/redeemed; and
 - (iii) Absolute peso or foreign currency value.

No indicative rates of return shall be provided in the trust participating agreement. Marketing materials may present relevant historical performance purely for reference and with clear indication that past results do not guarantee similar future results.

- (3) A participating trust agreement or confirmation of contribution/redemption need not be manually signed by the trustee or his authorized representative if the same is in the form of an electronic document that conforms with the implementing rules and regulations of R.A. No. 8792, otherwise known as the E-Commerce Act.
- c. *Regular computation and availability of NAVPu and other information.* The trustee managing a UITF shall:
- (1) Compute the NAVPu daily;
 - (2) Publish at least weekly the NAVPu in one (1) or more newspapers of national circulation: *Provided*, That a pooled weekly publication of such NAVPu shall be considered as substantial compliance with this requirement. The said publication, at a minimum, shall clearly state the name of the fund, its general classification, the fund's NAVPu and the moving return on investment (ROI) of the fund on a year-to-date (YTD) and year-on-year (YOY) basis; and
 - (3) Make available the historical net asset value per unit, declaration of trust or its equivalent document, disclosure documents, and other pertinent information about a UITF via its website or the Trust Officers Association of the Philippines (TOAP)-administered website. For a UITF with unit-paying feature, it shall also disclose when there is an income declaration, the total amount of income for distribution, NAVPu ex-distribution and its basis, total number of units for distribution, unit income and historical distributions, if any.

Exposure limits. The combined exposure of the UITF to any entity and its related parties shall not exceed fifteen percent (15%) of the market value of the UITF: *Provided*, That, a UITF invested, partially or substantially, in exchange traded equity securities shall be subject to the fifteen percent (15%) exposure limit to a single entity/issuer: *Provided, further*, That, in the case of an exchange traded equity security which is included in an index and tracked by the UITF, the exposure of the UITF to a single entity shall be the actual benchmark weighting of the issuer or fifteen percent (15%), whichever is higher.

This limitation shall not apply to non-risk assets as defined by the Bangko Sentral.

In the case of feeder fund/fund-of-funds, the exposure limit shall be applied on the target fund's underlying investments. Notwithstanding said limit, if the target fund is allowed by its respective regulatory authority to invest in units/shares of other open-ended CIS, the exposure limit prescribed by said regulatory authority shall instead apply. Furthermore, the investments in any one target fund shall not exceed ten percent (10%) of the total net asset value of the target fund.

In case the limits prescribed above are breached due to the marking-to-market of certain investment/s or any extraordinary circumstances, e.g., abnormal redemptions which are beyond the control of the trustee, the trustee shall be given thirty (30) days from the time the limit is breached, or in case of investor funds thirty (30) days from date of receipt of report indicating the net asset value of the fund, to correct the same.

Allowable investments and valuation. UITF investments shall be limited to bank deposits and the following financial instruments:

- a. Securities issued by or guaranteed by the Philippine government, or the Bangko Sentral;
- b. Tradable securities issued by the government of a foreign country, any political subdivision of a foreign country or any supranational entity;
- c. Exchange-listed securities;
- d. Marketable instruments that are traded in an organized exchange;
- e. Loans traded in an organized market;
- f. Loans arising from repo agreements which are transacted through an exchange recognized by the SEC, subject to the condition that the repo contracts may be pre-terminated lawfully by the trust entity administering the UITF and acting as lender, with due notice to its counterparty and the market operator;
- g. Units/shares in collective investment schemes (CIS), i.e., target fund, shall include exchange traded fund (ETF) and other CIS, subject to the following:
 - (1) The investment objectives of the target fund are aligned with that of the investor fund;
 - (2) The underlying investments of target funds are limited to the allowable investment outlets set forth in this Section (*Allowable investments and valuation*);
 - (3) The target fund is neither structured nor similarly structured as a feeder fund or fund-of-funds; and
 - (4) The target fund is supervised by a regulatory authority, as follows:
 - (a) A local target fund shall either be approved by the Bangko Sentral or registered with the SEC.
 - (b) A target fund constituted in another jurisdiction shall be registered/authorized/approved, as the case may be, and is recognized as a collective investment scheme in its home jurisdiction by a regulatory authority that is a member of the International Organization of Securities Commissions (IOSCO); or any regulatory authority acceptable to the Bangko Sentral to supervise the CIS.
- h. Such other tradable investments outlets/categories as the Bangko Sentral may allow:

Provided, That the investment of the peso UITF in tradable foreign currency denominated financial instruments shall be subject to Items “e” and “f” of Sec. 413-Q (*Other applicable regulations on loans and investments -trust and other fiduciary accounts*).

Provided, further, That a financial instrument is regarded as tradable if quoted two-way prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm’s length basis: *Provided, finally*, That the financial instrument is easy to realize upon sale at any time.

The UITF may avail itself of financial derivatives instruments solely for the purpose of hedging risk exposures of the existing investments of the Fund, provided these are accounted for in accordance with existing Bangko Sentral hedging guidelines as well as the trust entity’s risk management and hedging policies duly approved by the Trust Committee and disclosed to participants.

The use of hedging instruments shall also be disclosed in the “Plan” as provided in Item “c” of this Section (*Plan rules*) and specified in the KIIDS as provided in Item “a” of this Section (*Minimum disclosure requirements*).

In the case of Feeder Fund or Fund-of-Funds, offshore/global funds which use financial derivatives for efficient portfolio management (EPM) may be allowed as target fund: *Provided*, That financial derivatives shall not be extensively or primarily used as an investment strategy of the target fund and that the risk level of the target fund remain consistent with the objective and risk profile of the investor fund. For this purpose, the use of financial derivatives is deemed to be for EPM if:

- a. it is economically appropriate in that it is realized in a cost effective manner;
- b. the exposure is fully covered to meet any obligation to pay or deliver;
- c. it has at least one of the following aims:
 - (1) reduction of risk;
 - (2) reduction of cost with no increase or a minimal increase in risk; or
 - (3) generation of additional capital or income for the scheme with no increase or a minimal increase in risk.

Alternatively, the target fund should comply with the relevant regulatory requirements of its home jurisdiction as regards the use of financial derivatives for EPM.

Other related guidelines on valuation of allowable investments

- a. In marking to market debt securities, the provisions of *Appendix Q-23* shall apply.
- b. In case outstanding UITF investments may deteriorate in quality, i.e., no longer tradable as defined under this Section (*Allowable investments and valuation*), the trustee shall immediately provision to reflect fair value in accordance with generally accepted accounting principles or as may be prescribed by the Bangko Sentral. If no fair value is available, the instrument shall be assumed to be of no market value.

Unit investment trust fund administration support

- a. *Backroom operations.* Administrative rules on backroom under Sec. 435-Q shall be applicable to UITF. Adequate systems to support the daily marking-to-market of the fund's financial instruments shall be in place at all times. In this respect, a daily reconciliation of the fund's resultant marked-to-market value with the unrealized market losses and gains (respective contra asset balance) versus the book value of the fund for investments in financial instruments shall be done and all differences resolved within the day.
- b. *Custody of securities.* Investments in securities of a UITF shall be held for safekeeping by Bangko Sentral accredited third party custodians which shall perform independent marking-to-market of such securities.

Investments in target funds of a UITF structured as an investor fund shall be held for safekeeping by an institution registered/authorized/approved by a relevant regulatory authority in its home jurisdiction to act as third party custodian.

Counterparties

- a. *Dealings with related interests/trust entity other than stand-alone trust corporation proper/holding company/subsidiaries/affiliates and related companies.* A trustee of a UITF shall be transparent at all times and maintain an audit trail for all transactions with related parties or entities. The trustee shall observe the principle of best execution and no purchase/sale shall be made with related counterparties without considering at least two (2) competitive quotes from other sources.

Consistent with the provisions of this Section (*Relationship of trustee with UITF*), a trustee may invest the funds of a UITF structured as an investor fund in a target fund that is administered by the trustee or its related party/company: *Provided, That:*

- (1) there shall be no cross-holding between the investor fund and the target fund, where cross-holding refers to the holding of shares/units of participation in one another by two (2) or more funds;
 - (2) all initial charges on the target fund are waived; and
 - (3) the trust/management fee shall be charged only once, either at the level of the investor fund or at level of the target fund
- b. *Accreditation of counterparties.* The Fund shall only invest with approved counterparties qualified in accordance with the policy duly approved by the TC. Counterparties shall be subject to appropriate limits in accordance with sound risk management principles.

Foreign currency denominated UITFs. UITF denominated in any acceptable foreign currency provided under existing Bangko Sentral rules and regulations may be established. Such fund may only be invested in allowable investments denominated in pesos or any acceptable foreign currency as expressly allowed under the fund's Plan rules and properly disclosed to fund participants.

Exemptions from statutory and liquidity reserves, single borrowers limit, directors, officers, stockholders and their related interest. The provisions on reserves, single borrower's limit and DOSRI ceilings under Secs. 325-Q and 326-Q, respectively, applicable to trust funds in general shall not be made applicable to UITF.

UITF Marketing personnel¹. The trustee shall ensure that there are board-approved policies and procedures covering the following:

- a. Duties and responsibilities of all UIT Marketing personnel;
- b. Conduct of due diligence check on the fitness and propriety of all UIT marketing personnel which includes monitoring and reviewing on an ongoing basis their performance; and
- c. Conduct of continuing training and education especially on updates relative to the fund products.

For purposes of this Section (*UITF marketing personnel and Minimum disclosure requirements*), a UITF may be sold by a bank employee belonging to the same financial conglomerate as the trustee, subject to the provision of the cross-selling framework.

To ensure the competence and integrity of all duly designated UITF Marketing Personnel, all personnel involved in the sales of UITF must be certified as a UITF Marketing Personnel through a UITF Certification Program (UCP) administered by a reputable financial services industry association/organization acceptable to the Bangko Sentral. The Certification Program, at a minimum, should have a qualifying examination, a requirement for continuing education, and a requirement for registration of the Certified UITF Marketing Personnel. The Guidelines for the Administration of the UCP are provided in *Appendix Q-87*.

It shall be the responsibility of the Trust Entity (TE) to ensure that its UITF Marketing Personnel continuously comply with the qualification requirements prescribed by the Bangko Sentral, and that they conduct themselves with integrity, honesty and with proper representation to the clients of the TE.

(Circular Nos. 1031 dated 07 February 2019, 1021 dated 15 November 2018, 1018 dated 26 October 2018, 999 dated 14 March 2018, 907 dated 10 March 2016, 876 dated 20 April 2015, and 853 and 852 both dated 21 October 2014)

415-Q INVESTMENT MANAGEMENT ACTIVITIES

The conduct of investment management activities shall be subject to the following regulations.

Minimum documentary requirements. An investment management account (IMA) shall be covered by a written document establishing such account, as follows:

- a. In the case of accounts created by corporations, business firms, organizations or institutions, the voluntary written agreement or indenture entered into by the parties, accompanied by a copy of the board resolution or other evidence authorizing the establishment of, and designating the signatories, to the investment management account.
- b. In the case of accounts created by individuals, the voluntary written agreement or indenture entered into by the parties.

The voluntary written agreement or contract shall include the following minimum provisions:

- (1) Pre-numbered contractual agreement form;
- (2) Title or nature of contractual agreement in noticeable print;
- (3) Legal capacities, in noticeable print, of parties sought to be covered;
- (4) Purposes and objectives;
- (5) The initial amount of funds and/or value of securities subject of the arrangement delivered to the investment manager;
- (6) Statement in underlined noticeable print that:
 - (a) The agreement is an agency and not a trust agreement. As such, the client shall at all times retain legal title to funds and properties subject of the arrangement;
 - (b) The arrangement does not guaranty a yield, return or income by the investment manager. As such, past performance of the account is not a guaranty of future performance and the income of investments can fall as well as rise depending on prevailing market conditions; and
 - (c) The investment management agreement is not covered by the PDIC and that losses, if any, shall be for the account of the client
- (7) Duties and powers of the investment manager;
- (8) Liabilities of the investment manager;
- (9) Reports to the client;

¹ During the transitory period, UITF Marketing Personnel authorized to sell UITFs under the existing requirements, who shall undergo and fail to pass the UCP, will forfeit their existing qualification and will not be allowed to sell UITF until such time that they obtain the required certification. The Certification requirement shall be fully implemented beginning year 2022.

- (10) The amount or rate of the compensation of the investment manager;
- (11) Terms and conditions governing withdrawals from the account;
- (12) Termination of contractual arrangement; and
- (13) Disclosure requirements for transactions requiring prior authority and/or specific written investment directives from the client.

A sample investment management agreement which conforms to the foregoing requirements is shown as *Appendix Q-18*.

Minimum size of each investment management account. No IMA shall be accepted or maintained for an amount less than P1.0 million. An IMA reduced to less than P1.0 million due to investment losses shall be exempt from this requirement.

Commingling of funds. Two (2) or more individual IMAs shall not be commingled except for the purpose of investing in government securities or in duly registered commercial papers: *Provided*, That the participation of each of the aforementioned accounts in the commingled account shall not be less than P1 million: *Provided, further*, That such commingling has been fully disclosed and specifically agreed in writing by the clients.

Lending and investment disposition. Assets received in investment management capacity shall be administered in accordance with the terms of the instrument creating the investment management relationship.

When an investment manager is granted discretionary powers in the investment disposition of investment management funds and unless otherwise specifically enumerated in the agreement or indenture and directed in writing by the client, loans and investments of the fund shall be limited to:

- a. Traditional deposit products of UBs and KBs in the Philippines with long-term credit rating of at least AA-or its equivalent by a third party credit assessment agency recognized by the Bangko Sentral;
- b. Evidences of indebtedness of the Republic of the Philippines and of the Bangko Sentral, and any other evidences of indebtedness or obligations where the servicing and repayment of which are fully guaranteed by the Republic of the Philippines or loans against such government securities;
- c. Loans fully guaranteed by the Republic of the Philippines as to the payment of principal and interest;
- d. Tradable securities issued by the government of a foreign country or any supranational entity with long-term credit rating of at least AA-or its equivalent by a third party credit assessment agency recognized by the Bangko Sentral;
- e. Loans fully secured by a hold-out on, assignment or pledge of deposit maintained either with the bank proper or other banks, or of deposit substitutes of the bank/institution, or of mortgage and chattel mortgage bonds issued by the investment manager; and
- f. Loan fully secured by real estate or chattels in accordance with Secs. 302-Q, 143-Q and 301-Q (*Additional requirements*).

The specific directives required under this Section (*Lending and investment disposition*) shall consist of the following information:

- a. The transaction to be entered into;
- b. Name of the issuer or borrower;
- c. Amount involved; and
- d. Terms of the security, including collateral, if any.

Trust entities with composite rating of at least "3" under the Revised Trust Rating System in the latest Bangko Sentral examination will not be subject to the investment limitations provided under this Section (*Lending and investment disposition*).

Transactions requiring prior authority. An investment manager shall not undertake any of the following transactions for the account of a client, unless prior to its execution, such transaction has been fully disclosed and specifically authorized in writing by the client:

- a. Lend, sell, transfer or assign money or property to any of the departments, directors, officers, stockholders, or employees of the investment manager, or relatives within the first degree of consanguinity or affinity, or the related interests of such directors, officers and stockholders; or to any corporation where the investment manager owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity;

- b. Purchase or acquire property or debt instruments from any of the departments, directors, officers, stockholders, or employees of the investment manager, or relatives within the first degree of consanguinity or affinity, or the related interests of such directors, officers and stockholders; or from any corporation where the investment manager owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity;
- c. Invest in equities of or in securities underwritten by the investment manager or a corporation in which the investment manager owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee, nor in a representative capacity; and
- d. Sell, transfer, assign or lend money or property from one trust fiduciary or IMA to another trust, fiduciary or IMA except where the investment is in any of those enumerated in Items “a” to “d” of this Section (*Lending and investment disposition*).

Directors, officers, stockholders and their related interest covered by this Section shall be those considered as such under existing regulations on loans to DOSRI under Part III -C of this Manual. The procedural and reportorial requirements in said regulations shall also apply.

The disclosure required under this Section (*Transactions requiring prior authority*) shall consist of the following minimum information:

- a. The transactions to be entered into;
- b. Identities of the parties involved in the transaction and their relationships (shall not apply to Item “d” of this Section on *Transactions requiring prior authority*);
- c. Amount involved; and
- d. Collateral security(ies), if any.

The above information shall be made known to clients in a separate instrument or in the very instrument creating the investment management relationship.

Title to securities and other properties. Securities such as promissory notes, shares of stocks, bonds and other properties of the portfolio shall be issued or registered in the name of the principal or of the investment manager: *Provided*, That in case of the latter, the instrument shall indicate that the investment manager is acting in a representative capacity and that the principal’s name is disclosed thereat.

Ceilings on loans. Loans funded by IMAs shall be subject to the DOSRI ceilings imposed on QBs in Part III -C of this Manual. For purposes of determining compliance with said ceilings, the total amount of said loans granted by the institution and its trust department to the same person, firm or corporation shall be combined.

Other applicable regulations on loans and investments -investment management account. The loans and investments of IMAs shall be subject to pertinent laws, rules and regulations for QBs that shall include, but need not be limited to, the following:

- a. Requirements of Sections 39 and 40 of R.A. No. 8791 (The General Banking Law of 2000);
- b. Criteria for past due accounts;
- c. Qualitative appraisal of loans, investments and other assets that may require provision for probable losses which shall be booked in accordance with the FRPTIs;
- d. Requirements of Sections 3 and 8 of the SRC; and
- e. Provisions of Section 44 – Investments by Philippine Residents – of the FX Manual, such that the cross-currency investments of peso IMAs, shall be subject to the following conditions:
 - (1) All cash flows of the investment manager shall only be in pesos. In case the foreign exchange acquired or received by the principal as dividends/earnings or divestment proceeds on such investment are intended for reinvestment abroad, the same proceeds are not required to be inwardly remitted and sold for pesos through authorized agent banks: *Provided*, That such proceeds are reinvested abroad within two banking days from receipt of the funds abroad.
 - (2) The investment manager shall purchase, invest, reinvest, sell, transfer or dispose foreign currency-denominated financial instruments, including securities as defined in Section 3 of the SRC, through a distributor or underwriter duly authorized or licensed by the government of the issuer of such instruments, or a counterparty FI (seller or buyer) authorized in writing by the principal and/or accredited by the investment manager: *Provided*, That, the conduct, documentation, and settlement of any of these transactions shall be outside Philippine jurisdiction;
 - (3) The investment manager shall record cross-currency investment transactions in the peso regular books at their foreign currency amounts and their local currency equivalent using the Philippine Dealing System peso/US dollar closing rate and the New York US dollar/third currencies closing rate; and

- (4) The investment manager shall comply with the reportorial requirements that may be prescribed by the Bangko Sentral, which shall include as a minimum, the foreign currency amount and the local currency equivalent of the total cross currency investments with details on: (a) type of investments; and (b) amount of cash flow converted.

For purposes of this Section (*Other applicable regulations on loans and investments -investment management account*), “resident”, as defined under Section 1 of the FX Manual, shall refer to the principal that engages the services of the investment manager under an investment management agreement.

Operating and accounting methodology. IMAs shall be operated and accounted for in accordance with the following:

- a. The investment manager shall administer, hold or manage the fund or property in accordance with the instrument creating the investment management relationship; and
- b. Funds or property of each client shall be accounted separately and distinctly from those of other clients herein referred to as *individual account* accounting.

Tax-exempt individual investment management accounts. The following shall be the features/requirements of IMAs of individuals which may be exempted from the twenty percent (20%) final tax under Section 24(B)(1) of R.A. No. 8424 (The Tax Reform Act of 1997):

- a. The investment management agreement shall only be between individuals who are Filipino citizens or resident aliens and investment manager banks. The agreement shall be non-negotiable and non-transferable;
- b. The minimum amount of investment for an IMA shall be P1.0 million;
- c. The investment management agreement shall indicate that pursuant to Section 24(B)(1) of R.A. No. 8424, interest income of the investment management funds derived from investments in interest-bearing instruments (e.g., time deposits, government securities, loans and other debt instruments) which are otherwise subject to the twenty percent (20%) final tax, shall be exempt from said final tax provided the funds are held under investment management by the investment manager for at least five (5) years. If said funds are held by the investment manager for a period less than five (5) years, interest income shall be subject to a final tax which shall be deducted and withheld from the proceeds of the IMA based on the following schedule—

<u>Holding Period</u>	<u>Rate of Tax</u>
Four (4) years to less than five (5) years	5%
Three (3) years to less than four (4) years	12%
Less than three (3) years	20%

Necessarily, the investment management agreement shall clearly indicate the date when the investment manager actually received the funds which shall serve as basis for determining the holding period of the funds;

- d. The investment manager may accept additional funds for inclusion in IMAs which have been established as tax-exempt under R.A. No. 8424. However, the receipt of additional funds shall be properly documented by indicating that they are part of existing tax-exempt IMAs and that the interest income of the additional funds derived from investments in interest bearing instruments shall be exempt from the twenty percent (20%) final tax under the same conditions mentioned in the preceding item. The document shall also indicate the date when the additional funds were received by the investment manager bank to serve as basis for determining the minimum five (5)-year holding period for tax exemption purposes of the additional funds; and
- e. Tax-exempt individual IMAs established under this Section shall be subject to the provisions of this Section (*Item b of Minimum documentary requirements and Minimum size of each investment management account to Other applicable regulations on loans and investments – IMA*).

(Circular No. 966 dated 11 July 2017)

416-Q SECURITY FOR THE FAITHFUL PERFORMANCE OF TRUST AND OTHER FIDUCIARY BUSINESS

Basic security deposit. Bangko Sentral-supervised financial institutions (BSFIs) authorized to engage in trust and other fiduciary business shall deposit with the Bangko Sentral eligible government securities, pursuant to Sec. 416-Q (*Eligible securities*), as security for the faithful performance of its trust and other fiduciary duties equivalent to at least one percent (1%) of the book value of the total volume of trust, other fiduciary and investment management assets: *Provided*, That at no time shall such deposit be less than P500,000.

Scripless securities under the Registry of Scripless Securities (RoSS) System of the Bureau of Treasury (BTr) may be used as basic security deposit for trust and other fiduciary duties using the Guidelines enumerated in *Appendix Q-24* of this Manual.

The security for the faithful performance of PERA Administrator shall be separately accounted for and calculated as prescribed under Sec. 1121-Q and *Appendix Q-25* of this Manual.

Eligible securities. Government securities which shall be deposited in compliance with the above basic security deposit shall consist of evidences of indebtedness of the Republic of the Philippines or of the Bangko Sentral or any other evidences of indebtedness or obligations the servicing and repayment of which are fully guaranteed by the Republic of the Philippines; or such other kinds of securities which may be declared eligible by the Monetary Board: *Provided*, That such securities shall be free, unencumbered, and not utilized for any other purpose: *Provided, further*, That such government securities shall have remaining maturity of not more than three (3) years from the date of deposit with the Bangko Sentral.

The requirement for the abovementioned government securities to have remaining maturity of not more than three (3) years from the date of deposit with the Bangko Sentral shall no longer apply starting 31 March 2018.

Valuation of securities and basis of computation of the basic security deposit requirement. For purposes of determining compliance with the basic security deposit under this Section hereof:

a. Prior to 31 March 2018:

- (1) The amount of securities so deposited shall be based on their book value, that is, cost as increased or decreased by the corresponding discount or premium amortization.
- (2) The base amount for the basic security deposit shall be the average of the month-end balances of total trust, investment management and other fiduciary assets of the immediately preceding calendar quarter.

Effective 31 March 2018, the provisions under items “a.(1)” and “a.(2)” shall no longer apply.

b. The following provisions on the valuation of eligible assets and computations of the basic security deposit requirement shall be adopted starting 31 March 2018:

- (1) Government securities deposited with the Bangko Sentral shall be measured at fair value according to the marking-to-market guidelines for government securities prescribed under *Appendix Q-22*, subject to applicable haircuts.

The haircuts that shall be applied to the government securities shall be, as follows:

Residual Maturity of Government Security	Minimum Haircut (in Percent) for Basic Security Deposit
3 years and below	0.0
>3 years up to 5 years	2.0
>5 years	4.0

- (2) The base amount for the basic security deposit shall be the total trust, investment management and other fiduciary assets reported as of the end of the calendar quarter.

Compliance with the basic security deposit requirement.

a. Compliance¹. The trustee or fiduciary shall ensure compliance with the required basic security deposit at all times. Any deficiency arising from a withdrawal, replacement or redemption transaction must be corrected through the immediate posting of additional securities. In case a deficiency is calculated at the end of the calendar quarter, the trustee or fiduciary shall have a grace period of thirty (30) calendar days reckoned from the end of the reference calendar quarter within which to deposit with the Bangko Sentral the securities required under this Section.

- (1) *Quarterly compliance.* The trustee or fiduciary shall comply with the basic security deposit requirement on a quarterly basis. In determining quarterly compliance, the fair value of government securities used as compliance with the basic security deposit requirement shall be reckoned as of the end of the calendar quarter and the base amount for the basic security requirement provided under Sec. 416-Q (*Valuation of securities and basis of computation of the basic security deposit requirement*) shall be applied.

Haircuts for government securities prescribed under this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*) shall be determined based on the remaining maturity of the security from the end of the reference quarter, and applied on the fair value of the government securities used as compliance with the basic security deposit.

¹ The provisions on quarterly compliance and compliance upon deposit, withdrawal, replacement or redemption became effective on 31 March 2018.

The trustee or fiduciary shall have a thirty (30)-calendar day grace period after the end of every quarter within which to deposit with the Bangko Sentral, government securities pursuant to existing regulations to comply with the basic security deposit requirement as of the preceding quarter-end.

- (2) *Compliance upon deposit withdrawal, replacement or redemption.* The trustee or fiduciary shall ensure compliance with the basic security deposit requirement after every deposit, withdrawal, replacement or redemption of government securities. The basic security deposit requirement shall be the amount computed as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption pursuant to this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*). The fair value of the remaining government securities, adjusted for relevant haircuts, shall be based on amounts reported as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption, pursuant to this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*). The haircuts shall be determined based on the remaining maturity of the security from the quarter-end preceding the date of the securities transfer transaction.

Securities used as compliance with the basic security deposit requirement that are issued within the calendar quarter shall be valued at their purchase price, adjusted for relevant haircuts that are determined based on their remaining maturity as of the purchase date.

- b. *Required Reports.* Trustees or fiduciary shall submit the following reports in accordance with *Appendix Q-3*.

- (1) Quarterly Report on Compliance with the Basic Security Deposit Requirement (BSD-Form-1); and
- (2) Report on Basic Security Deposit Transactions (BSD-Form-2).

Trustees or fiduciary shall maintain adequate documentation (e.g., screenshots of fair values) to support the computation of their compliance with the basic security deposit requirement, which shall be made available to the Bangko Sentral upon request.

- c. *Other Procedural Requirements.*

- (1) Opening of a securities account. The guidelines on the opening of an account with the BTr Registry are provided in *Appendix Q-24*.
- (2) Deposit, withdrawal or replacement. The trustee or fiduciary/investment manager shall input the details of securities transfer transactions that are properly supported by notification reports in the BTr Registry to effect the deposit, withdrawal or replacement of securities on the intended date of transfer in the BTr Registry. The input of details of transactions shall be made on or before 12:00 noon for withdrawal or replacement transactions, and on or before 3:30 pm for deposit transactions, on the intended date of transfer as provided in the BSD-Form-2.

Withdrawal or replacement transactions entered after the cut-off time shall be processed on the next banking day: *Provided*, That the trustee or fiduciary/investment manager re-enters the details of the withdrawal or replacement transaction on or before 12:00 noon of the next banking day: *Provided further*, That deficiency in the basic security deposit arising from failure of the trustee or fiduciary to input details of withdrawal or replacement transactions in the BTr Registry on the intended date of transfer shall cause the imposition of sanctions/penalties under this Section (*Compliance with the basic security deposit requirement*). Failure to enter or re-enter the transaction details on the next banking day will result in the cancellation of the previously submitted BSD-Form-2. To effect withdrawal or replacement transactions, the trustee or fiduciary shall re-submit the BSD-Form-2 in accordance with the prescribed timelines.

- (3) Administration of Proceeds from Deposited Securities. Coupon or interest payments and the redemption value of matured securities that are deposited with the Bangko Sentral shall be credited to the DDA of the trustee or fiduciary or the DDA of the trustee or fiduciary settlement bank.

Trustees or fiduciary shall develop and maintain systems to ensure compliance with the required basic security deposit as prescribed in this Section (*Compliance with the basic security deposit requirement*).

- d. *Sanctions.*

- (1) The following sanctions shall be imposed for any deficiency in the basic security deposit for the faithful performance of trust, investment management and other fiduciary duties:
 - (a) On the QB:

- (i) Monetary penalty/ies:

Penalty per Calendar Day	Offense/Trust Asset Size		First	Second	Third and
	QBs with Full Trust Authority and with Trust Assets of	Up to P500 million	P600.00	P700.00	P800.00
		Above P500 million but not exceeding P1 billion	P1,000.00	P1,250.00	P1,500.00
		Above P1 billion but not exceeding P10 billion	P2,000.00	P3,000.00	P4,000.00
		Above P10 billion but not exceeding P50 billion	P5,000.00	P6,000.00	P7,000.00
		Above P50 billion	P8,000.00	P9,000.00	P10,000.00

A quasi-bank/trust entity which incurs a deficiency with the basic security deposit within the quarter, or reports a deficiency with the basic security deposit as of the end of the quarter and fails to deposit government securities to comply with the said requirement within the thirty (30)-calendar day grace period, shall be considered deficient with the basic security deposit requirement from the date the deficiency is incurred up to date the deficiency is corrected or the succeeding quarter-end, whichever comes earlier.

- (ii) Non-monetary penalty beginning with the third offense (all QBs) -Prohibition against the acceptance of new trust and other fiduciary accounts, and from renewing expiring trust and other fiduciary contracts up to the time the violation is corrected.

- (b) On the trust officer and/or other officer(s) responsible for the deficiency/non-compliance:

- (i) *First offense* -warning that subsequent violations shall be dealt with more severely;
- (ii) *Second offense* -written reprimand with a stern warning that subsequent violations shall be subject to suspension;
- (iii) *Third offense* -thirty (30) calendar day-suspension without pay; and
- (iv) *Subsequent offense(s)* -sixty (60) calendar day-suspension without pay.

- (2) Notwithstanding the execution of a basic security deposit, withdrawal, or replacement transaction, the Bangko Sentral is not precluded from imposing sanctions against the trustee or fiduciary for non-compliance with the regulations on the basic security deposit, if warranted.

(Circular Nos. 1032 dated 15 February 2019, 998 dated 1 March 2018, and 878 dated 22 May 2015)

417-Q RESERVES AGAINST TRUST AND OTHER FIDUCIARY ACCOUNTS (TOFA)-OTHERS

In addition to the basic security deposit, institutions authorized to engage in trust and other fiduciary business shall maintain reserves on TOFA-Others, except accounts held under (1) Administratorship; (2) Trust Under Indenture; (3) Custodianship and Safekeeping; (4) Depository and Reorganization; (5) Employee Benefit Plans Under Trust; (6) Escrow; (7) Personal Trust (testamentary and living trust); (8) Executorship; (9) Guardianship; (10) Life Insurance Trust; (11) Pre-need Plans (institutional/individual); (12) Personal Equity and Retirement Account (PERA); and (13) Legislated and Quasi-Judicial Trust.

The reserves to be maintained shall be seventeen percent (17%).

Composition of reserves. The provisions of Sec. 212-Q shall govern the composition of reserves against TOFA-Others of institutions authorized to engage in trust and other fiduciary business.

For purposes of this Section hereof, a separate deposit account shall be maintained by the institutions with the Bangko Sentral exclusively for trust reserves which deposits in compliance with the reserve requirement shall not earned interest.

Computation of reserve position. An institution authorized to engage in trust and other fiduciary business shall calculate daily the required and available reserves on the value per books of its TOFA-Others, based on the seven-day week, starting Friday and ending Thursday including Saturdays, Sundays, holidays, non-business days and days when there is no clearing: *Provided*, That with reference to holidays, non-business days and days where there is no clearing, the reserve position at the close of business day immediately preceding such holidays, non-business days and days where there is no clearing, shall apply thereon. For the purpose of computing reserve position, the principal office in the Philippines and all branches and agencies located therein shall be treated as a single unit.

The required reserves in the current period (reference reserve week) shall be computed based on the corresponding levels of TOFA-Others of the prior week.

For purposes of computing the required and available statutory and liquidity reserves for TOFA-Others, the term value per books shall refer to the total volume of TOFA-Others less booked "Allowance for Probable Losses".

Reserve deficiencies; sanctions. The provisions of Sec. 215-Q shall govern the computation of reserve deficiencies for TOFA-Others of institutions authorized to engage in trust and other fiduciary business, including the sanctions provided in said Section.

Report of compliance. Every institution shall make a weekly report to the Bangko Sentral of its daily required and available reserves on TOFA-Others, to be submitted not later than the close of the third business day following the reference week.

(Circular Nos. 1025 dated 13 December 2018, 1004 dated 24 May 2018, 997 dated 15 February 2018, 906 dated 10 March 2016, 890 dated 02 November 2015, 878 dated 22 May 2015, 832 dated 27 May 2014, and 830 dated 03 April 2014)

418-Q REQUIRED RETAINED EARNINGS APPROPRIATION

An institution authorized to engage in trust and other fiduciary business shall, before the declaration of dividends, carry to retained earnings appropriated for trust business at least ten percent (10%) of its net profits realized out of its trust, investment management and other fiduciary business since the last preceding dividend declaration until the retained earnings shall amount to twenty percent (20%) of its authorized capital stock and no part of such retained earnings shall at any time be paid out in dividends but losses accruing in the course of its business may be charged against retained earnings.

419-Q UNSAFE OR UNSOUND MANNER

Whether a particular activity may be considered as conducting business in an unsafe or unsound manner, all relevant facts must be considered. An analysis of the impact thereof on the QB's/trust entity's operations and financial conditions must be undertaken, including evaluation of capital position, asset condition, management, earnings posture and liquidity position.

In determining whether a particular act or omission, which is not otherwise prohibited by any law, rule or regulation affecting QBs/trust entities may be deemed as conducting business in an unsafe or unsound manner, the Monetary Board, upon report of the head of the supervising sector of the Bangko Sentral based on findings in an examination or a complaint, shall consider any of the following circumstances:

- a. The act or omission has resulted or may result in material loss or damage, or abnormal risk or danger to the safety, stability, liquidity or solvency of the institution;
- b. The act or omission has resulted or may result in material loss or damage or abnormal risk to the institution's depositors, creditors, investors, stockholders, or to the Bangko Sentral, or to the public in general;
- c. The act or omission has caused any undue injury, or has given unwarranted benefits, advantage or preference to the QB/trust entity or any party in the discharge by the director or officer of his duties and responsibilities through manifest partiality, evident bad faith or gross inexcusable negligence; or
- d. The act or omission involves entering into any contract or transaction manifestly and grossly disadvantageous to the QB/trust entity whether or not the director or officer profited or will profit thereby.

The list of activities which may be considered unsafe and unsound is shown in *Appendix Q-28*.

In line with the statement of principles governing trust and other fiduciary business under Sec. 401-Q, the trustee, fiduciary or investment manager shall desist from the following unsound manner:

- a. Entering in an arrangement whereby the client is at the same time the borrower of his own fund placement, or whereby the trustor or principal is a borrower of other trust, fiduciary or investment management funds belonging to the same family or business group of such trustor or principal;
- b. Granting loans or accommodations to any trust committee member, officer and employee of the trust department except where such loans are obtained by said persons as members of an employee benefit fund of the trustee's own institution;
- c. Borrowing from, or selling trust, other fiduciary and/or investment management assets to, the trust corporation or IH proper to cover portfolio losses and/or to guarantee the return of principal or income;
- d. Granting new loans to any borrower who has a past due and/or classified loan account with the institution itself or its trust department; and
- e. Requiring clients to sign documents in blank.

Sanctions. The Monetary Board may, at its discretion and based on the seriousness and materiality of the acts or omissions, impose any or all of the following sanctions provided under Section 37 of R.A. No. 7653 and Section 56 of R.A. No. 8791, whenever a QB/trust entity conducts business in an unsafe and unsound manner:

- a. Issue an order requiring the QB/trust entity to cease and desist from conducting business in an unsafe or unsound manner and may further order that immediate action be taken to correct the conditions resulting from such unsafe or unsound manner;
- b. Fines in amounts as may be determined by the Monetary Board to be appropriate, but in no case to exceed P30,000 a day on a per transaction basis taking into consideration the attendant circumstances, such as the gravity of the act or omission and the size of the QB/trust entity to be imposed on the QB/trust entity, their directors and/or responsible officers;
- c. Suspension of lending or foreign exchange operations or authority to accept new deposit substitutes and/or new trust accounts or to make new investments;
- d. Suspension of responsible directors and/or officers;
- e. Revocation of quasi-banking license and/or trust authority; and/or
- f. Receivership and liquidation under Section 30 of R.A. No. 7653.

All other provisions of Sections 30 and 37 of R.A. No. 7653, whenever appropriate, shall also be applicable on the conduct of business in an unsafe or unsound manner.

The imposition of the above sanctions is without prejudice to the filing of appropriate criminal charges against culpable persons as provided in Sections 34, 35 and 36 of R.A. No. 7653.

C. INVESTMENT MANAGEMENT ACTIVITIES

421-Q AUTHORITY TO PERFORM INVESTMENT MANAGEMENT

An IH may act as financial consultant, investment adviser or portfolio manager under Section 7 of P.D. No. 129, as amended. However, this shall not be construed as authority to engage in trust and other fiduciary business. Entities whose articles of incorporation¹ or any amendments thereto, include the purpose or power to act as financial consultant, investment adviser or portfolio manager shall secure the prior favorable recommendation of the Monetary Board before the filing of said articles of incorporation or amendments thereto with the SEC.

If an entity is found to be engaged in unauthorized investment management activities, whether as its primary, secondary or incidental business, the Monetary Board may impose administrative sanctions against such entity or its principal officers and/or majority stockholders or proceed against them in accordance with law.

The Monetary Board may take such action as it may deem proper such as, but may not be limited to, requiring the transfer or turnover of any IMA to duly incorporated and licensed entities of the choice of the client.

An entity not authorized to engage in investment management activities shall not advertise or represent itself as being engaged in investment management activities or represent itself as investment manager or use words of similar import.

Starting year 2001, IHs authorized to engage in investment management activities shall renew their existing licenses yearly, subject to the implementing guidelines to be issued thereon.

Prerequisites for engaging in investment management activities. An entity before it may engage in investment management activities shall comply with the same pre-requisites for engaging in trust and other fiduciary business set forth in Sec. 411-Q however, the following terminologies shall then be used:

- a. *Authority to engage in investment management activities* in lieu of acting as trustee or administering any trust or holding property in trust or on deposit for the use, or in behalf of others;
- b. *Investment management activities* in lieu of trust and other fiduciary business;
- c. *Investment Management Committee* In lieu of Trust Committee;
- d. *Investment Management Officer* In lieu of Trust Officer; and
- e. *Investment Management Department* In lieu of Trust Department.

¹ SEC Memorandum Circular No. 14 dated 8 December 2017, as amended by Circular No. 9 dated 18 July 2018

Compliance with the foregoing, as well as with other requirements under existing regulations, shall be maintained up to the time the investment management authority is granted. An applicant that fails in this respect shall be required to show compliance for another test period of the same duration.

Pre-operating requirements. An institution authorized to engage in investment management activities shall, before engaging in actual operations, submit to the Bangko Sentral the following:

- a. Government securities acceptable to the Bangko Sentral amounting to P500,000 as minimum basic security deposit for the faithful performance of investment management duties required under Sec. 424-Q (*Basic security deposit*);
- b. Organization chart of the investment management department which shall carry out the investment management activities of the institution; and
- c. Names and positions of individuals designated as chairman and members of the investment management committee, investment management officer and other subordinate officers of the investment management department.

422-Q ORGANIZATION AND MANAGEMENT

The provisions under Sec. 412-Q (except on *Confirmation of the appointment/designation of trust officer and independent professional*) shall govern the organization and management of institutions without trust license which are engaged in investment management activities only. The following terms shall, however, be used:

- a. *Investment management activities* in lieu of trust and other fiduciary business;
- b. *IMAs* in lieu of trust and other fiduciary accounts;
- c. *Investment management committee* in lieu of trust committee;
- d. *Investment management officer* in lieu of trust officer; and
- e. *Investment management department* in lieu of trust department

423-Q CONDUCT OF INVESTMENT MANAGEMENT ACTIVITIES

The provisions of Sec. 415-Q shall govern the conduct of investment management activities of an institution without trust license that is engaged in investment management activities.

424-Q SECURITY FOR THE FAITHFUL PERFORMANCE OF INVESTMENT MANAGEMENT ACTIVITIES

Basic security deposit. Bangko Sentral-supervised financial institutions (BSFIs) authorized to engage in investment management activities shall deposit with the Bangko Sentral eligible government securities, pursuant to Sec. 416-Q (*Eligible securities*), as security for the faithful performance of its investment management activities equivalent to at least one percent (1%) of the book value of the total volume of investment management assets: *Provided*, That at no time shall such deposit be less than P500,000.

Scripless securities under the RoSS system of the BTr may be used as basic security deposit for the faithful performance of investment management activities using the guidelines in *Appendix Q-24*.

Eligible securities. The provisions of Sec. 416-Q (*Eligible securities*) shall govern the basic security deposit requirement for faithful performance of investment management activities.

Valuation of securities and basis of computation of the basic security deposit requirement. For purposes of determining compliance with the basic security deposit under this Section:

- a. Prior to 31 March 2018:
 - (1) The amount of securities so deposited shall be based on their book value, that is, cost as increased or decreased by the corresponding discount or premium amortization.
 - (2) The base amount for the basic security deposit shall be the average of the month-end balances of the total assets of investment management funds of the immediately preceding calendar quarter.

Effective 31 March 2018, the provisions under Items “a.(1)” and “a.(2)” shall no longer apply.

- b. The following provisions on the valuation of eligible assets and computation of the basic security deposit requirement shall be adopted starting 31 March 2018:
 - (1) Government securities deposited with the Bangko Sentral shall be measured at fair value according to the marking-to-market guidelines for government securities under *Appendix Q-20*, subject to applicable haircuts.

The haircuts that shall be applied to the government securities shall be as follows:

Residual Maturity of Government Security	Minimum Haircut (In Percent) for Basic Security Deposit
3 years and below	0.0
> 3 years up to 5 years	2.0
> 5years	4.0

- (2) The base amount for the basic security deposit shall be the total investment management assets reported as of the end of the calendar quarter.

Compliance with the basic security deposit requirement.

- a. Compliance¹. The investment manager shall ensure compliance with the required basic security deposit at all times. Any deficiency arising from a withdrawal, replacement or redemption transaction must be corrected through the immediate posting of additional securities. In case a deficiency is calculated at the end of the calendar quarter, the trustee or fiduciary shall have a grace period of thirty (30) calendar days reckoned from the end of the reference calendar quarter within which to deposit with the Bangko Sentral the securities required under this Section.

- (1) *Quarterly compliance.* The investment manager shall comply with the basic security deposit requirement on a quarterly basis. In determining quarterly compliance, the fair value of government securities used as compliance with the basic security deposit requirement shall be reckoned as of the end of the calendar quarter and the base amount for the basic security deposit requirement provided under this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*) shall be applied.

Haircuts for government securities prescribed under this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*) shall be determined based on the remaining maturity of the security from the end of the reference quarter, and applied on the fair value of the government securities used as compliance with the basic security deposit.

The investment manager shall have a thirty (30)-calendar day grace period after the end of every quarter within which to deposit with the Bangko Sentral, securities pursuant to existing regulations to comply with the basic security deposit requirement as of the preceding quarter-end.

- (2) *Compliance upon deposit, withdrawal, replacement or redemption.* The investment manager shall ensure compliance with the basic security deposit requirement after every deposit, withdrawal, replacement or redemption of government securities. The basic security deposit requirement shall be the amount computed as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption pursuant to this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*). The fair value of the remaining government securities, adjusted for relevant haircuts, shall also be based on amounts reported as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption, pursuant to this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*). The haircuts shall be determined based on the remaining maturity of the security from the quarter-end preceding the date of the securities transfer transaction.

Securities used as compliance with the basic security deposit requirement that are issued within the calendar quarter shall be valued at their purchase price, adjusted for relevant haircuts that are determined based on their remaining maturity as of the purchase date.

- b. Required Reports. Trustees or fiduciary/investment managers shall submit the following reports in accordance with *Appendix Q-3*:

- (1) Quarterly Report on Compliance with the Basic Security Deposit Requirement (BSD-Form-1); and
(2) Report on Basic Security Deposit Transactions (BSD-Form-2).

Investment managers shall maintain adequate documentation (e.g., screenshots of fair values) to support the computation of their compliance with the basic security deposit requirement, which shall be made available to the Bangko Sentral upon request.

- c. Other Procedural Requirements.

- (1) Opening of a Securities Account. The guidelines on the opening of an account with the BTr Registry are provided in *Appendix 29*.

¹ The provisions on quarterly compliance and compliance upon deposit, withdrawal, replacement or redemption became effective on 31 March 2018.

- (2) Deposit, Withdrawal or Replacement. The investment manager shall input the details of securities transfer transactions that are properly supported by notification reports in the BTr Registry to effect the deposit, withdrawal or replacement of securities on the intended date of transfer in the BTr Registry. The input of details of transactions shall be made on or before 12:00 noon for withdrawal or replacement transactions, and on or before 3:30 pm for deposit transactions, on the intended date of transfer as provided in the BSD-Form-2.

Withdrawal or replacement transactions entered after the cut-off time shall be processed on the next banking day: *Provided*, That the investment manager re-enters the details of the withdrawal or replacement transaction on or before 12:00 noon of the next banking day: *Provided further*, That deficiency in the basic security deposit arising from failure of the investment manager to input details of withdrawal or replacement transactions in the BTr Registry on the intended date of transfer shall cause the imposition of sanctions/penalties under this Section (*Compliance with the basic security deposit requirement*). Failure to enter or re-enter the transaction details on the next banking day will result in the cancellation of the previously submitted BSD-Form-2. To effect withdrawal or replacement transactions, the investment manager shall re-submit the BSD-Form-2 in accordance with the prescribed timelines.

- (3) Administration of Proceeds from Deposited Securities. Coupon or interest payments and the redemption value of matured securities that are deposited with the Bangko Sentral shall be credited to the DDA of the investment manager or the DDA of the investment manager's settlement bank.

Investment managers shall develop and maintain systems to ensure compliance with the required basic security deposit as prescribed in this Section (*Compliance with the basic security deposit*).

d. *Sanctions*

- (1) The following sanctions shall be imposed for any deficiency in the basic security deposit for the faithful performance of investment management activity:

(a) On the QB:

(i) Monetary penalty/ies:

Penalty per Calendar Day	Trust Asset Size/Offense		First	Second	Third and subsequent offense(s)
	QBs with Full Trust Authority and with Trust Assets of	Up to P500 million	P600.00	P700.00	P800.00
		Above P500 million but not exceeding P1 billion	P1,000.00	P1,250.00	P1,500.00
		Above P1 billion but not exceeding P10 billion	P2,000.00	P3,000.00	P4,000.00
		Above P10 billion but not exceeding P50 billion	P5,000.00	P6,000.00	P7,000.00
		Above P50 billion	P8,000.00	P9,000.00	P10,000.00

An investment manager which incurs a deficiency with the basic security deposit within the quarter, or reports a deficiency with the basic security deposit as of the end of the quarter and fails to deposit securities to comply with the said requirement within the thirty (30)-calendar day grace period, shall be considered deficient with the basic security deposit requirement from the date the deficiency is incurred up to the date the deficiency is corrected or the succeeding quarter-end, whichever comes earlier.

- (ii) Non-monetary penalty beginning with the third offense (all QBs) -Prohibition against the acceptance of new IMAs, and from renewing expiring investment management contracts up to the time the violation is corrected.
- (b) On the Head of the Investment Management Department and/or other officer(s) responsible for the deficiency/non-compliance:
- (i) First offense -warning that subsequent violations shall be dealt with more severely;
- (ii) Second offense -written reprimand with a stern warning that subsequent violations shall be subject to suspension;

- (iii) Third offense -thirty (30) calendar day-suspension without pay; and
 - (iv) Subsequent offense(s) -sixty (60) calendar day-suspension without pay.
- (2) Notwithstanding the execution of a basic security deposit, withdrawal, or replacement transaction, the Bangko Sentral is not precluded from imposing sanctions against the investment manager for non-compliance with the regulations on the basic security deposit, if warranted.

(Circular Nos. 1032 dated 15 February 2019 and 998 dated 1 March 2018)

425-Q REQUIRED RETAINED EARNINGS APPROPRIATION

An institution authorized to engage in investment management activities shall, before the declaration of dividends, carry to retained earnings appropriated for trust business at least ten percent (10%) of its net profits realized out of its investment management activities since the last preceding dividend declaration until the retained earnings shall amount to twenty percent (20%) of its authorized capital stock and no part of such retained earnings shall at any time be paid out in dividends, but losses accruing in the course of its business may be charged against retained earnings.

426-Q UNSOUND MANNER

The provisions of Sec. 419-Q shall govern the unsound manner for IMAs.

D. GENERAL PROVISIONS

431-Q SECURITIES CUSTODIANSHIP AND SECURITIES REGISTRY OPERATIONS

The following rules and regulations shall govern securities custodianship and securities registry operations QBs/NBFIs under Bangko Sentral regulations.

The guidelines to implement the delivery of securities are provided in *Appendix Q-37*.

Violation of any provision of the guidelines in *Appendix Q-37* shall be subject to the sanctions/penalties under Sec. 431-Q.

Statement of policy. It is the policy of the Bangko Sentral to promote the protection of investors in order to gain their confidence and encourage their participation in the development of the domestic capital market. Therefore, the following rules and regulations are promulgated to enhance transparency of securities transactions with the end in view of protecting investors.

Applicability of this regulation. This regulation shall govern securities custodianship and securities registry operations of banks and NBFIs under Bangko Sentral supervision. It shall cover all their transactions in securities as defined in Section 3 of the SRC, whether exempt or required to be registered with the SEC, that are sold, borrowed, purchased, traded, held under custody or otherwise transacted in the Philippines where at least one (1) of the parties is a bank or an NBF under Bangko Sentral supervision. However, this regulation shall not cover the operations of stock and transfer agents duly registered with the SEC pursuant to the provisions of SRC Rule 36-4.1 and whose only function is maintain the stock and transfer book for shares of stock.

Prior Bangko Sentral approval. QBs/trust entities may act as securities custodian and/or registry only upon prior Monetary Board approval.

Application for authority. A QB/trust entity desiring to act as securities custodian and/or registry shall file an application with the appropriate supervising department of the Bangko Sentral. The application shall be signed by the highest ranking officer of the institution and shall be accompanied by a certified true copy of the resolution of its board of directors authorizing the institution to engage in securities custodianship and/or registry.

Pre-qualification requirements for a securities custodian/registry

- a. The securities custodian must be a QB under Bangko Sentral supervision that is authorized to engage in investment management (for IHs with QB authority only) or trust business. The securities registry must be a QB under Bangko Sentral supervision whether or not authorized to engage in investment management (for IHs with QB authority) or trust business;
- b. It must have complied with the minimum capital accounts required under existing regulations not lower than an adjusted capital of P300 million or such amounts as may be required by the Monetary Board in the future;
- c. It must have a CAMELS composite rating of at least "4" (as rounded off) in the last regular examination;

- d. It must have in place a comprehensive risk management system approved by its board of directors appropriate to its operations characterized by a clear delineation of responsibility for risk management, adequate risk measurement systems, appropriately structured risk limits, effective internal control and complete, timely and efficient risk reporting systems. In this connection, a manual of operations (which includes custody and/or registry operations) and other related documents embodying the risk management system must be submitted to the appropriate supervising department of the Bangko Sentral at the time of application for authority and within thirty (30) days from updates therefrom;
- e. It must have adequate technological capabilities and the necessary technical expertise to ensure the protection, safety and integrity of client assets, such as:
 - (1) It can maintain an electronic registry dedicated to recording of accountabilities to its clients; and
 - (2) It has an updated and comprehensive computer security system, covering system network and telecommunication facilities that will:
 - (a) limit access only to authorized users;
 - (b) preserve data integrity; and
 - (c) provide for audit trail of transactions.
- f. It has complied, during the period immediately preceding the date of application, with the following:
 - (1) ceilings on credit accommodation to DOSRI; and
 - (2) single borrower's limit.
- g. It has no reserve deficiencies during the eight (8) weeks immediately preceding the date of application;
- h. It has set up the prescribed allowances for probable losses, both general and specific, as of date of application;
- i. It has not been found engaging in unsafe or unsound manner during the last six (6) months preceding the date of application;
- j. It has generally complied with laws, rules and regulations, orders or instructions of the Monetary Board and/or Bangko Sentral Management;
- k. It has submitted additional documents/information which may be requested by the appropriate supervising department of the Bangko Sentral, such as, but not limited to:
 - (1) Standard custody/registry agreement and other standard documents;
 - (2) Organizational structure of the custody/registry business;
 - (3) Transaction flow; and
 - (4) For those already in the custody or registry business, a historical background for the past three (3) years;
- l. It shall be conducted in a separate unit headed by a qualified person with at least two (2) years experience in custody/registry operations;
- m. It can interface with the clearing and settlement system of any recognized exchange in the country capable of achieving a real time gross settlement of trades; and
- n. A securities custodian which provides the value-added service of securities lending involving securities that are sold, offered for sale or distributed within the Philippines must be a duly licensed lending agent registered with the SEC.

Functions and responsibilities of a securities custodian. A securities custodian shall have the following basic functions and responsibilities:

- a. Safekeeps the securities of the client;
- b. Holds title to the securities in a nominee capacity;
- c. Executes purchase, sale and other instructions;
- d. Performs at least a monthly reconciliation to ensure that all positions are properly recorded and accounted for;
- e. Confirms tax withheld;
- f. Represents clients in corporate actions in accordance with the direction provided by the securities owner;

- g. Conducts mark-to-market valuation and statement rendition;
- h. Does earmarking of encumbrances or liens such as, but not limited to, Deeds of Assignment and court orders; and
- i. Acts as a collecting and paying agent in respect of dividends, interest earnings or proceeds from the sale/redemption/maturity of securities held under custodianship: *Provided*, That the custodian shall immediately make known to the securities owner all collections received and payments made with respect to the securities under custody.
- j. In addition to the above basic functions, it may perform the value-added service of securities lending as agent: *Provided*, That it complies with the prequalification requirements under Item “n” of this Section (*Pre-qualification requirements for a securities custodian/registry*): *Provided, further*, That the securities lending service shall be covered by a Securities Lending Authorization Agreement (SLAA) which shall be attached to the custody contract.

A securities custodian which renders the value-added service of securities lending involving securities that are sold, offered and distributed within the Philippines shall comply with the pertinent rules and regulations of the SEC on securities lending and borrowing operations.

Functions and responsibilities of a securities registry

- a. Maintains an electronic registry book;
- b. Delivers confirmation of transactions and other documents within agreed trading periods;
- c. Issues registry confirmations for transfers of ownership as it occurs;
- d. Prepares regular statement of securities balances at such frequency as may be required by the owner on record but not less frequent than every quarter; and
- e. Follows appropriate legal documentation to govern its relationship with the Issuer.

Protection of securities of the customer. A custodian must incorporate the following procedures in the discharge of its functions in order to protect the securities of the customer:

- a. *Administration of securities custodianship accounts.* Securities custodianship accounts must be administered in the entity’s Trust Unit.
- b. *Accounting and recording for securities.* Custodians must employ accounting and safekeeping procedures that fully protect customer securities. It is essential that custodians segregate customer securities from one another and from its proprietary holdings to protect the same from the claims of its general creditors. Securities held under custodianship shall be recorded in the books of the custodian at the face value of said securities in the other fiduciary sub-account “Custodianship”.
- c. *Documentation.* The appropriate documentation for custodianship shall be made and it shall clearly define, among others, the authority, role, responsibilities, fees and provision for succession in the event the custodian can no longer discharge its functions. It shall be accepted in writing by the counterparties.

The governing custodianship agreement shall be pre-numbered and this number shall be referred to in all amendments and supplements thereto.

- d. *Confirmation of custody.* The custodian shall issue a custody confirmation to the purchaser or borrower of securities to evidence receipt or transfer of securities as they occur. It shall contain, as a minimum, the following information on the securities under custody:
 - (1) Owner of securities;
 - (2) Issuer;
 - (3) Securities type;
 - (4) Identification or serial numbers;
 - (5) Quantity;
 - (6) Face value; and
 - (7) Other information, which may be requested by the parties
- e. *Periodic reporting.* The custodian shall prepare at least quarterly (or as frequent as the owner of securities will require) securities statements delivered to the registered owner’s address on record. Said statement shall present detailed information such as, but not limited to, inventory of securities, outstanding balances, and market values.

Independence of the registry and securities custodian. A Bangko Sentral-accredited securities registry must be a third party that does not belong to the same financial conglomerate or banking group as that of the issuer of securities. A Bangko Sentral-accredited custodian must be a third party that does not belong to the same financial conglomerate or banking group as that of the issuer or seller of securities held under custody. A QB trust entity accredited by Bangko Sentral as securities custodian may, however, continue holding securities it sold under the following cases:

- a. where the purchaser is a related entity acting in its own behalf and not as agent or representative of another;
- b. where the purchaser is a non-resident with existing global custody agreement governed by foreign laws and conventions wherein the institution is designated as custodian or sub-custodian; and
- c. upon approval by the Bangko Sentral, where the purchaser is an insurance company whose custody arrangement is either governed by a global custody agreement where the QB/trust entity is designated as custodian or sub-custodian or by a direct custody agreement with features at par with the standards set under this Section (*Independence of the registry and securities custodian*) drawn or prepared by the parent company owning more than fifty percent (50%) of the capital stock of the purchaser and executed by the purchaser itself and its custodian.

Purchases by non-residents and insurance companies that are exempted from the independence requirement of this Section shall, however, be subject to all other provisions of this Section (*Independence of the registry and securities custodian*).

Registry of Scripless Securities of the Bureau of the Treasury. The Registry of Scripless Securities (RoSS), operated by the Bureau of the Treasury, which is acting as a registry for government securities is deemed to be automatically accredited for purposes of this Section and is likewise exempted from the independence requirement under this Section (*Independence of the registry and securities custodian*). Securities registered under the RoSS shall be delivered in accordance with the guidelines set forth in *Appendices Q-37 and Q-38*.

Confidentiality. A Bangko Sentral-accredited securities custodian/registry shall not disclose to any unauthorized person any information relative to the securities under its custodianship/registry. The management shall likewise ensure the confidentiality of client accounts of the custody or registry unit from other units within the same organization.

Compliance with anti-money laundering laws/regulations. For purposes of compliance with the requirements of R.A. No. 9160, otherwise known as the “Anti-Money Laundering Act of 2001,” as amended, particularly the provisions regarding customer identification, record keeping and reporting of suspicious transactions, a Bangko Sentral-accredited custodian may rely on referral by the seller/issuer of securities: *Provided*, That it maintains a record of such referral together with the minimum identification, information/documents required under the law and its implementing rules and regulations.

A Bangko Sentral-accredited custodian must maintain accounts only in the true and full name of the owners of the security. However, said securities owners may be identified by number or code in reports and correspondences to keep his identity confidential.

Securities subject of pledge and/or deed of assignment as of 14 October 2004 (date of Circular 457), may be held by a lending QB up to original maturity of the loan of full payment thereof, whichever comes earlier.

Basic security deposit. Securities held under custodianship whether booked in the Trust Department or carried in the regular books of the quasi-bank/trust entity/NBFI shall be subject to a security deposit for faithful performance of duties at the rate of 1/25 of one percent (1%) of the total face value or 500,000 whichever is higher.

However, securities held under custodianship where the custodian also performs securities lending as agent shall be subject to a higher basic security deposit of one percent (1%) of the total face value of securities held under custodianship.

Compliance shall be in the form of government securities deposited with the Bangko Sentral, pursuant to existing regulations governing security for the faithful performance of trust and other fiduciary business under Sec. 416-Q (*Eligible securities*).

Required Reports. An accredited securities custodian shall comply with the reportorial requirements, prescribed under Item “b” of Sec. 416-Q (*Compliance with the basic security deposit requirement*).

Sanctions. Without prejudice to the penal and administrative sanctions provided for under Sections 36 and 37, respectively, of the R.A. No. 7653, violation of any provision of this Section shall be subject to the following sanctions/penalties:

- a. First offense –
 - (a) Fine of up to P10,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
 - (b) Reprimand for the directors/officers responsible for the violation.

- b. Second offense
 - (1) Fine of up to P20,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
 - (2) Suspension for ninety (90) days without pay of directors/officers responsible for the violation.
- c. Subsequent offenses –
 - (1) Fine of up to P30,000 a day for the institution for each violation from the date the violation was committed up to the date it was corrected;
 - (2) Suspension or revocation of the authority to act as securities custodian and/or registry; and
 - (3) Suspension for 120 days without pay of the directors/officers responsible for the violation

(Circular Nos. 1032 dated 15 February 2019, 998 dated 1 March 2018, and 873 dated 25 March 2015)

432-Q CUSTODY OF ASSETS

All monies, properties or securities received by an institution in its capacity as trustee, fiduciary, or investment manager shall be kept physically separate and distinct from the assets of its other businesses and shall be under the joint custody of at least two (2) persons, one of whom shall be an officer of the trust or investment management department, designated for that purpose by the board of directors.

The investment of each trust, other fiduciary or IMA shall be kept physically separated from those of other trust, other fiduciary or IMAs, and adequately identified as the assets or property of the relevant account.

433-Q FEES AND COMMISSIONS

An institution acting as trustee, fiduciary or investment manager shall be entitled to reasonable fees and commissions which shall be determined on the basis of the cost of services rendered and the responsibilities assumed: *Provided*, That where the trustee, fiduciary or investment manager is acting as such under appointment by a court, the compensation shall be that allowed or approved by the court: *Provided, further*, That in the case of UITFs, the fee which a trustee may charge each participant shall be fully disclosed by the trustee in the UITF plan, prospectus, flyers, posters and all forms of advertising materials to market the fund and in the documents given to clients as proof of participation in the fund. In no case shall such fees and commissions be based on the excess of the income of the trust, other fiduciary or investment management funds over a certain amount or percentage.

No trustee, fiduciary or investment manager shall solicit or receive rebates on commissions, fees and other payments for the services rendered to the trust, other fiduciary or IMA or beneficiaries of the trust, other fiduciary or IMA by stockbrokers, real estate brokers, insurance agents and similar persons or entities unless the rebates, fees and other payments shall accrue to the benefit of the trust, other fiduciary or IMA or the beneficiaries thereof.

Officers and employees of the trust department or investment management department of institutions, while serving as such, shall be prohibited from retaining any compensation for acting as co-trustee or fiduciary in the administration of a trust, other fiduciary or IMA.

No institution shall collect, for its own account, referral and/or arrangement fees, or any other fees that take the nature of payment to the institution from whatever source, in connection with loans sourced from trust funds managed by its trust department: *Provided*, That if such fees are collected, the same shall be properly disclosed to the trustor, and shall accrue to the benefit of the trust, in accordance with the provisions of Secs. 401-Q and 438-Q.

434-Q TAXES

The terms and conditions of trust, other fiduciary or IMAs, including UITF plans, shall contain provisions regarding the applicability of regulations governing taxation on the income of trust, other fiduciary or investment management accounts. For this purpose, the trustee, fiduciary or investment manager shall maintain adequate records and shall include information such as the amount of final income tax withheld at source and the amount withheld by the trustee, fiduciary or investment manager in the periodic reports submitted to trustors, beneficiaries, principals and other parties in interest.

With respect to tax-exempt UITFs, individual trust and IMAs established under Section 24(B)(1) of R.A. No. 8424, the bank's trust department or investment management department shall be responsible for obtaining the tax-exemption certifications which may be required by the BIR for the interest-bearing instruments where the UITFs, individual trust funds and investment management funds will be invested. Likewise, the banks shall ensure that the correct amount of final tax on the interest income on the interest-bearing instruments is withheld/deducted from the proceeds from the UITF participation, trust or IMA and remitted to the BIR in the event said tax becomes due such as when funds are withdrawn before the required five (5)-year holding period or when corporations happen to invest in the tax-exempt trust instruments created within the purview of No. 8424.

435-Q BOOKS, RECORDS AND REPORTS REQUIRED

Books and Records. The institution's trust department or investment management department shall keep books and records on trust, other fiduciary and IMAs separate and distinct from the books and records of its other businesses and shall follow the FRPTI prescribed by the Bangko Sentral.

Each trust, other fiduciary or IMA shall have a record separate from all other accounts except only in the case of UITF where the trustee can maintain common records utilizing pooled fund accounting method for each fund: *Provided*, That the trustee shall clearly indicate in the records the trustors owning participation in the UITF and the extent of the interest of such trustors.

Books and records shall contain full information relative to each trust, other fiduciary or IMA and shall be supported by duplicate signed copies of related documents. Said records and duplicate signed copies or related documents shall be compiled and kept as to allow inspection by Bangko Sentral examiners and submission of information or reports as may be required by competent authorities.

The QB's trust department or investment management department shall maintain separate general ledger accounts and other relevant sub-accounts for tax-exempt individual trust accounts, UITFs and individual management accounts established under Section 24(B)(1) of R.A. No. 8424 and Secs. 413-Q (*Tax-exempt individual trust accounts*) and 415-Q (*Operating and accounting methodology*). The bank's trust department or investment management department shall also adopt appropriate systems, internal control procedures and audit trail mechanisms to ensure that the correct amount of final tax is withheld or exempted from such accounts.

Reports required to trustor, beneficiary, principal. An entity acting as trustee, fiduciary or investment manager shall render reports on the trust, other fiduciary or IMAs to the trustor, beneficiary, principal or other party in interest or the court concerned or any party duly designated by the court order, as the case may be. The reports shall be in such forms as to apprise the party concerned of the significant developments in the administration of the account and shall comply with the following guidelines:

- a. All clients shall be provided with a schedule of earning assets which contains the following information:
 - (1) Borrower's or issuer's name
 - (2) Type of instrument;
 - (3) Collateral, if any;
 - (4) Principal amount or Acquisition cost;
 - (5) Market value
 - (6) Marking-to-market gains or losses;
 - (7) Earning rate or yield;
 - (8) Amount of earnings/Accrued interest;
 - (9) Transaction date; and
 - (10) Maturity date, if any
- b. Additional reports shall be required depending on the investment discretion as follows:
 - (1) For Discretionary accounts, the reports shall also consist of balance sheet, income statement; investment activity report; and Return on Investment report.
 - (2) For Non-Discretionary accounts, a confirmation of transaction shall be required covering every purchase and sale instructions. It shall contain the following information:
 - (a) Transaction entered into;
 - (b) Borrower's or issuer's name;
 - (c) Amount involved;
 - (d) Terms of the security, including collateral, if any;
 - (e) Settlement price;
 - (f) Value date and settlement date; and
 - (g) Fees and charges related to the transaction
- c. The reports, except for Item "b.(2)", shall be prepared in such frequency as required under the agreement but shall not in any case be longer than once every quarter; and
- d. The reports shall be made available to clients not later than twenty (20) calendar days from the end of the reference date/period in Item "c" above.

Reports required to the Bangko Sentral. An institution acting as trustee, fiduciary or investment manager shall submit periodic reports prescribed by the appropriate supervising department of the Bangko Sentral on the institution's trust and other fiduciary business and investment management activities within the deadline indicated in *Appendix Q-3*.

Audited financial statements. The trust/investment management department of an institution shall adopt the provisions of the Philippine Financial Reporting Standards (PFRS)/Philippine Accounting Standards (PAS) in all respect, for purposes of preparing the AFS of its trust and other fiduciary and investment management activities. The following guidelines shall likewise be observed in the preparation of the AFS:

- a. The provisions of PFRS/PAS shall be adopted effective the annual financial statements beginning 01 January 2008;
- b. A complete set of financial statements shall comprise of the following:
 - (1) Balance sheet as of the end of the period;
 - (2) Income statement for the period;
 - (3) Statement of changes in accountabilities, which shall show a reconciliation of the net carrying amount at the beginning and end of the period of the following accounts:
 - (a) principal;
 - (b) accumulated income; and
 - (c) net unrealized gains/(losses) on available for sale financial assets, separately disclosing the changes in each of the foregoing accounts;
 - (4) Notes, which shall comprise of a summary of significant accounting policies and other disclosure requirements provided under PFRS/PAS: *Provided*, That for purposes of complying with the disclosure of the nature and extent of risks arising from financial instruments as required under PFRS 7, disclosure statements may be made based on the general categories of contractual relationships (i.e., UITF-trust, institutional-trust, and individual-trust; other fiduciary; institutional-agency, and individual-agency; and special purpose trust) of the trust/investment management department of a bank with its clients; and
 - (5) Balance sheet as at the beginning of the earliest comparative period when a trust/investment management department applies an accounting policy retrospectively or when it makes a retrospective restatement of items in the financial statements, or when it reclassifies items in the financial statements.
- c. The balance sheet, income statement and statement of changes in accountabilities shall be presented for each of the general categories of contractual relationships (i.e., UITF-trust, institutional-trust, and individual-trust; other fiduciary; institutional-agency, and individual-agency; and special purpose trust) of the trust/investment management department of an institution with its clients;
- d. Comparative information for periods before 01 January 2008 need not be presented in the AFS for the financial reporting period beginning 01 January 2008: *Provided*, That disclosure statements on the end-2007 balances of total assets of the general categories of contractual relationships of the trust/investment management department of an institution with its clients prepared based on the Generally Accepted Accounting Principles (GAAP) previously applied, shall be presented in the notes to financial statements: *Provided, further*, That comparative periods shall be presented in the AFS for the financial reporting period beginning 01 January 2009 and thereafter.
- e. The following transitory rules and regulations shall govern the accounting treatment of specific items for purposes of preparing the AFS for the financial reporting period beginning 01 January 2008:
 - (1) The provisions of PFRS/PAS shall only be applied to accounts outstanding as of end-December 2008;
 - (2) Reclassification of previously recognized financial instruments shall no longer be allowed except as allowed under existing regulations; and
 - (3) The fair value of ROPA and Investment Properties as of the date of transition to PFRS/PAS may be used as the deemed cost of said properties as of that date: *Provided*, That said ROPA and Investment Properties shall be subsequently accounted for in accordance with the provisions of the FRPTI.

(Circular Nos. 966 dated 11 July 2017 and 880 dated 22 May 2015)

436-Q AUDITS

Internal audit. The QB's internal auditor shall include among his functions, the conduct of annual audit of the trust department or investment management department. However, should the board of directors, in a resolution entered in its minutes, require the internal auditor to adopt a suitable continuous audit system to supplement and/or to replace the performance of the annual audit, the audit may be conducted in intervals commensurate with the assessed levels of risk in trust and investment management operations: *Provided*, That such intervals shall be supported and reassessed regularly to ensure appropriateness given the current risk and volume of the trust and investment management operations. In any case, the audit shall ascertain whether the institution's trust and other fiduciary business and investment management activities have been administered in accordance with laws, Bangko Sentral rules and regulations, and sound trust or fiduciary principles.

External audit. The trust and other fiduciary business and investment management activities of an institution shall be included in the annual financial audit by independent external auditors required under Sec. 173-Q.

The audit of the assets and accountabilities of the trust department/investment management department of an NBFIs authorized to engage in trust and other fiduciary business/investment management activities, which shall cover at the minimum a review of the trust/investment management operations, practices and policies, including audit and internal control system, shall be subject to auditing standards to the extent necessary to express an opinion on the financial statements.

The audit of the trust/investment management department of an institution authorized to engage in trust and other fiduciary business/investment management activities shall be covered by a separate supplemental audit report to be submitted to the institution's board of directors and to the Bangko Sentral within the prescribed period containing, among other things, the complete set of financial statements of the trust/investment management department of an institution prepared in accordance with the provisions of Sec. 436-Q together with the other information required by the Bangko Sentral to be submitted under Sec. 173-Q: *Provided*, That a reconciliation statement of the balance sheet in the AFS and the FRPTI shall be prepared for each of the general categories of contractual relationships (i.e., UITF-trust, institutional-trust, and individual trust; other fiduciary; institutional-agency, and individual-agency; and special purpose trust) of the trust/investment management department of an institution with its clients following the format in *Appendix Q-52*.

Board action. A report of the foregoing audits, together with the actions thereon, shall be noted in the minutes of the board of directors of the institution.

(Circular No. 871 dated 05 March 2015)

437-Q AUTHORITY RESULTING FROM MERGER OR CONSOLIDATION

In merger of FIs, the authority to engage in trust and other fiduciary business and in investment management activities shall continue to be in effect if the surviving institution has such authority and the same has not been withdrawn by the Bangko Sentral. In case the surviving institution does not have previous authority but desires to engage in trust and other fiduciary business and in investment management activities, it shall secure the prior approval of the Monetary Board to engage in such business as part of its application for merger to enable it to incorporate such among its powers or purpose clause in its articles of incorporation, articles of merger, by-laws and such other pertinent documents. In the consolidation of FIs where the resulting entity is an entirely new one, it shall secure from the Monetary Board an authority to engage in trust and other fiduciary business or in investment management activities before it may engage in such business.

438-Q NON-TRUST, NON-FIDUCIARY AND/OR NON-INVESTMENT MANAGEMENT ACTIVITIES

The basic characteristic of trust, other fiduciary and investment management relationship is the absolute non-existence of a debtor-creditor relationship, thus, there is no obligation on the part of the trustee, fiduciary or investment manager to guarantee returns on the funds or properties regardless of the results of the investment. The trustee, fiduciary or investment manager is entitled to fees/commissions which shall be stipulated and fixed in the contract or indenture and the trustor or principal is entitled to all the funds or properties and earnings less fees/commissions, losses and other charges. Any agreement/arrangement that does not conform to these shall not be considered as trust, other fiduciary or investment management relationship.

The following shall not constitute a trust, other fiduciary and/or investment management relationship:

- a. When there is preponderance of purpose or of intent that the arrangement creates or establishes a relationship other than a trust, fiduciary and/or investment management;
- b. When the agreement or contract is itself used as a certificate of indebtedness in exchange for money placement from clients and/or as the medium for confirming placements and investment thereof;
- c. When the agreement or contract of an account is accepted under the signature(s) of those other than the trust officer or subordinate officer of the trust department or those authorized by the board of directors to represent the trust officer;
- d. Where there is a fixed rate or guaranty of interest, income or return in favor of its client or beneficiary: *Provided, however*, That where funds are placed in fixed income-generating investments, a quotation of income expectation or like terms, shall neither be considered as arrangements with a fixed rate nor a guaranty of interest, income or return when the agreement or indenture categorically states in bold letters that the quoted income expectation or like terms is neither assured nor guaranteed by the trustee or fiduciary and it does not, therefore, entitle the client to a fixed interest or return on his investments: *Provided, further*, That any of the following practices or practices similar and/or tantamount thereto shall be construed as fixing or guaranteeing the rate of interest, income or return:

- (1) Issuance of certificates, side agreements, letters of undertaking, or other similar documents providing for fixed rates or guaranteeing interest, income or return;
 - (2) Paying trust earnings based on indicated or expected yield regardless of the actual investment results;
 - (3) Increasing or reducing fees in order to meet a quoted or expected yield; and
 - (4) Entering into any arrangement, scheme or practice which results in the payment of fixed rates or yield on trust investments or in the payment of the indicated or expected yield regardless of the actual investment results; and
- e. Where the risk or responsibility is exclusively with the trustee, fiduciary or investment manager in case of loss in the investment of trust, fiduciary or investment management funds, when such loss is not due to the failure of the trustee or fiduciary to exercise the skill, care, prudence and diligence required by law.

Trust, other fiduciary and investment management activities involving any of the foregoing which are accepted, renewed or extended after 16 October 1990 shall be reported as deposit substitutes and shall be subject to the reserve requirement for deposit substitutes from the time of inception, without prejudice to the imposition of the applicable sanctions provided for in Sections 36 and 37 of R.A. No. 7653, and Sections 12 and 16 of P.D. No. 129, as amended.

439-Q RECEIVERSHIP

Whenever a receiver is appointed by the Monetary Board for an institution that is authorized to engage in trust and other fiduciary business or in investment management activities, the receiver shall, pursuant to the instructions of the Monetary Board, proceed to close the trust, other fiduciary and IMAs promptly and/or transfer all other accounts to substitute trustees, fiduciaries or investment managers acceptable to the trustors, beneficiaries, principals or other parties in interest: *Provided*, That where the trustee, fiduciary or investment manager is acting as such under appointment by a court, the receiver shall proceed pursuant to the instructions of said court.

The guidelines on Receivership and liquidation proceedings of NBQBs are provided in *Appendix Q-60*.

440-Q SURRENDER OF TRUST OR INVESTMENT MANAGEMENT LICENSE

Any NBFI which has been authorized to engage in trust and other fiduciary business or in investment management activities and which intends to surrender said authority shall file with the Bangko Sentral a certified copy of the resolution of its board of directors manifesting such intention. The appropriate supervising department of the Bangko Sentral shall then conduct an examination of the institution's trust, other fiduciary business and investment management activities. If the institution is found to have satisfactorily discharged its duties and responsibilities as trustee, fiduciary or investment manager, and has provided for the orderly closure or transfer of its trust, fiduciary or IMAs, the Monetary Board, on the basis of the recommendation of the examining department, shall order the withdrawal of the institution's authority to engage in trust and other fiduciary management activities.

E. GENERAL PROVISION ON SANCTIONS

499-Q SANCTIONS

Any violation of the provisions of this Part shall be subject to Sections 36 and 37 of R.A. No. 7653, without prejudice to the imposition of other sanctions as the Monetary Board may consider warranted under the circumstances that may include the suspension or revocation of an institution's authority to engage in trust and other fiduciary business or in investment management activities, and such other sanctions as may be provided by law.

In the case of non-compliance with the requirements of Secs. 401-Q and 412-Q (*Composition of trust committee to Responsibilities of administration and Confirmation of the appointment/designation of trust officer and independent professional*) additional sanction may be imposed, which may include but not limited to curtailment of fiduciary activities and/or introduction of new business.

The guidelines for the imposition of monetary penalty for violations/offenses with sanctions falling under Section 37 of R. A. No. 7653, as amended, on QBs, their directors and/or officers are shown under Sec. 1102-Q (*Guidelines on the imposition of monetary penalties*).

(Circular No. 988 dated 20 December 2017)

PART FIVE

FOREIGN EXCHANGE OPERATIONS

501-Q AUTHORITY; COVERAGE

With prior approval of the Monetary Board, and subject to the provisions of Article III, Chapter IV of R.A. No. 7653 and Section 7(13) of P.D. No. 129, as amended, an IH may engage in foreign exchange operations which shall be limited to the servicing of project or program requirements of the following enterprises:

- a. BSP-certified export-oriented firms;
- b. Board of Investment-registered export-oriented firms; and
- c. Construction or service firms with overseas contracts approved by the Department of Labor and Employment.

502-Q SPECIFIC FOREIGN EXCHANGE ACTIVITIES

The specific foreign exchange operations which IHs may undertake in connection with the preceding Section are:

- a. Arranging or contracting of foreign loans for the account of the client firm, or contracting of foreign loans for the account of the IH for relending to the client firm, subject to pertinent Bangko Sentral rules and regulations;
- b. Providing import- and export- related services to said firms such as letters of credit and other acceptable modes of payment, and the discounting of export drafts: Provided, That the total amount of foreign exchange transactions IHs may deal in shall not exceed the amount of the financing arranged or provided by the IH which involves the importation and exportation of related goods and services: Provided, further, That the amount of letters of credit outstanding of an IH shall not exceed, at any given time, twice its net worth, except as may otherwise be specifically authorized by the Monetary Board;
- c. Holding foreign currency balances with foreign correspondents in connection with export-related services but in no case for speculative purposes;
- d. Entering into forward foreign exchange contracts with the Bangko Sentral in connection with the foregoing activities; and/or
- e. Such other related foreign exchange activities as may be approved by the Monetary Board.

503-Q SEPARATE DEPARTMENT

Any IH that may be authorized to engage in foreign exchange operations shall set up a separate department/unit to handle such operations.

504-Q APPLICABILITY OF PERTINENT BANGKO SENTRAL RULES

The foreign exchange operations of an IH are subject to all applicable Bangko Sentral rules and regulations on foreign exchange operations, including modifications thereof, considering the special nature of IH operations, and the sanctions in connection therewith.

Circular No. 988 dated 20 December 2017

PART SIX

TREASURY AND MONEY MARKET OPERATIONS

A. MONETARY OPERATIONS OF THE BANGKO SENTRAL

601-Q MONETARY OPERATIONS

Monetary operations refer to the buying/selling of government securities, lending/borrowing against underlying assets as collateral, acceptance of fixed-term deposits, foreign exchange swaps, and other monetary instruments of the Bangko Sentral aimed at influencing the underlying demand and supply conditions for money.

The following rules and regulations shall govern the buying and selling of government securities in the open market pursuant to Section 91 of R.A. No. 7653:

- a. The Bangko Sentral may buy and sell in the open market for its own account:
 - (1) Evidences of indebtedness issued directly by the Government of the Philippines or by its political subdivisions; and
 - (2) Evidences of indebtedness issued by government instrumentalities and fully guaranteed by the Government.

The above evidences of indebtedness must be freely negotiable and regularly serviced and must be available to the general public through banks, QBs and accredited government securities dealers.
- b. Outright purchases and sales of government securities shall be effected on the basis of the lowest price offered or the highest price bid.
- c. Repo agreements shall be open to banks (except RBs), QBs and accredited government securities dealers and shall be made under the terms provided for under this Section on Repurchase agreements with the Bangko Sentral and the following:
 - (1) The repo agreement may be paid at any time before maturity at the option of the issuer of the repo agreement;
 - (2) In the event the securities covered by the repo agreement are not repurchased by the issuer of such agreement, they may be sold in the open market or transferred to the Bangko Sentral Portfolio; and
 - (3) Should an issuer of a repo agreement become no longer qualified as such, its outstanding repo agreement shall immediately become due and payable. If settlement of the amount due is not made within three (3) days from the date of its disqualification, the Bangko Sentral shall proceed to collect said amount in accordance with the preceding paragraph.
- d. Reverse repo agreements covering the sale of portion of the security holdings of the Bangko Sentral portfolio may be made under the terms provided for under this Section on Reverse repurchase agreements with the Bangko Sentral.

Repurchase agreements with the Bangko Sentral.

- a. Repo agreements may be entered into with the Bangko Sentral subject to the following terms and conditions:
 - (1) *Rate.* The rates on repurchase transactions shall be determined by auction, based on guidelines as prescribed by the Bangko Sentral.
 - (2) *Term.* The tenor of the repurchase agreement shall be set by the Bangko Sentral.
 - (3) *Security.* Only direct obligations of the National Government and its instrumentalities and political subdivisions, which are fully guaranteed by the Government, with a remaining maturity of at least six (6) days and longer than the tenor of the Repo Agreement and which are freely negotiable, unencumbered and regularly serviced, shall be eligible as underlying instruments for repurchase agreements, subject to the collateral requirement prescribed by the Bangko Sentral.
 - (4) *Delivery.* Delivery of the underlying instruments shall be made to the Bangko Sentral at the prescribed time based on guidelines as prescribed by the Bangko Sentral.
 - (5) At the maturity of the repo agreement, the Bangko Sentral Treasury Department shall return the underlying instruments to the issuer of such agreement.

- b. US dollar (USD) denominated repo agreement facility may likewise be entered into with the Bangko Sentral, subject to the following terms and conditions, and as may be provided under the repo agreement facility:
 - (1) *Eligible borrowers.* The USD denominated repo facility shall only be available to banks with legitimate foreign currency denominated funding needs as may be provided under the repurchase facility: *Provided*, That the borrowing shall be for the account of the applicant bank and shall not be used to fund liquidity requirements of foreign branches, affiliates, or subsidiaries.
 - (2) *Security.* Only USD denominated obligations of the National Government of the Republic of the Philippines shall be eligible as collateral.
 - (3) The guidelines on the availment of USD repurchase agreement with the Bangko Sentral are shown in *Appendix 89* of the MORB.

Reverse repurchase agreements with the Bangko Sentral. Reverse Repurchase Agreement (RRP) refers to the Bangko Sentral's monetary instrument where the Bangko Sentral sells government securities with a commitment to buy them back at a later date. RRP's shall be open to banks (UBs/KBs and TBs) and NBQBs. These counterparties may enter into RRP transactions with the Bangko Sentral by participating in the RRP auction operation and said transactions with the Bangko Sentral shall be subject to the following terms and conditions:

- a. *Rate.* The interest rate on the RRP facility shall be set by the Bangko Sentral in accordance with its monetary policy decision making.
- b. *Term.* Tenors shall be set at a minimum of one (1) day (overnight) and a maximum of 364 days, or as determined by the Bangko Sentral.
- c. *Auction Schedule.* RRP auctions will be held regularly based on a schedule prescribed by the Bangko Sentral.
- d. *Volume.* The auction size will be determined by the Bangko Sentral based on its assessment of liquidity conditions.
- e. *Eligible Security.* The underlying securities shall consist of securities representing obligations of the National Government. Such securities shall be valued at 100%. The Bangko Sentral shall prescribe the rules for the constructive delivery of securities.
- f. Access to the RRP facility shall be governed by guidelines issued by the Bangko Sentral.

RRPs entered into by the Bangko Sentral with any authorized agent bank (AAB) are included in the definition of the term "*deposit substitutes*" under Sec. 22 (y) Chapter 1 of the National Internal Revenue Code of 1997.

The Bangko Sentral shall withhold twenty percent (20%) Final Withholding Tax (FWT) and five percent (5%) Gross Receipts Tax (GRT) on its RRP's, under the following guidelines:

- (1) All overnight RRP's with the Bangko Sentral shall be subject to the twenty percent (20%) FWT and five percent (5%) GRT in the same manner as term RRP's, which tax is deducted on each maturity date and remitted to the BIR. These taxes shall be automatically withheld; and
- (2) Concerned QBs shall issue the corresponding debit authority to the Bangko Sentral to cover the twenty percent (20%) FWT on their RRP's with the Bangko Sentral.

Settlement procedures on the purchase and sale of government securities under the repurchase agreements with the Bangko Sentral. Purchase and sale of government securities under repo agreements (GS/repo agreements) between and among banks and QBs and Bangko Sentral in connection with the latter's open market operations shall be settled in accordance with the provisions of the agreement for the PhilPaSS executed on 12 December 2002 between the Bangko Sentral and IHAP and any subsequent amendments thereto.

Overnight deposits with the Bangko Sentral.¹ The Overnight Deposit Facility (ODF) is a Bangko Sentral standing facility which allows banks (UBs/KBs and TBs), and NBQBs to place overnight deposits with the Bangko Sentral, subject to the following terms and conditions:

- a. *Rate.* The interest rate on the ODF shall be set by the Bangko Sentral in relation to the policy interest rate.
- b. *Term.* Tenor shall be one (1) day only.
- c. *Volume.* No limit.

¹ The Monetary Board, in its Resolution No. 1945 dated 27 October 2016 approved the discontinuance of access of trust entities to the Bangko Sentral deposit facilities. Trust entities shall no longer have outstanding placement in the ODF and TDF by 30 June 2017.

- d. *Operating hours.* The ODF is available on demand to eligible counterparties during trading hours as prescribed by the Bangko Sentral.
- e. Access to the ODF shall be governed by guidelines issued by the Bangko Sentral.

The Bangko Sentral shall withhold the twenty percent (20%) FWT and the five percent (5%) GRT on its overnight deposit transactions, under the following guidelines:

- (1) All overnight deposit transactions with the Bangko Sentral shall be subject to the twenty percent (20%) FWT and the five percent (5%) GRT which tax is deducted on each maturity date and remitted to the BIR; and
- (2) The Bangko Sentral Treasury Department shall automatically withhold the twenty percent (20%) FWT and the five percent (5%) GRT on the overnight deposit of eligible counterparties with the Bangko Sentral.

The Bangko Sentral Term Deposit Facility (TDF).¹ The TDF is a key liquidity absorption facility of the Bangko Sentral used to withdraw liquidity from the system in bulk.² Term deposit transactions shall be open to banks (UBs/KBs and TBs), and NBQBs, and may be effected with the Bangko Sentral subject to the following terms and conditions:

- a. *Rate.* The interest rates shall be determined by auction, based on guidelines as prescribed by the Bangko Sentral.
- b. *Term.* The tenor of term deposits shall be set by the Bangko Sentral.
- c. *Auction Schedule.* TDF auctions will be held on a weekly basis or as determined by the Bangko Sentral.
- d. *Volume.* The auction size will be determined by the Bangko Sentral and announced with an appropriate lead time ahead of the auction date.
- e. Placements in the TDF shall be governed by guidelines issued by the Treasury Department of the Bangko Sentral.

The Bangko Sentral shall withhold the twenty percent (20%) FWT and the five percent (5%) GRT on its term deposit transactions, under the following guidelines:

- (1) All term deposit transactions with the Bangko Sentral shall be subject to the twenty percent (20%) FWT and the five percent (5%) GRT which tax is deducted on each maturity date and remitted to the BIR; and
- (2) The Bangko Sentral Treasury Department shall automatically withhold the twenty percent (20%) FWT and the five percent (5%) GRT on the term deposit of eligible counterparties with the Bangko Sentral.

Bangko Sentral trading windows and services during Philippine holidays. The guidelines on Bangko Sentral's trading windows and services during Philippine holidays are shown in *Appendix Q-51*.

Prohibition against funds from non-residents being accepted in the TDF and ODF. The TDF and ODF are monetary instruments deployed by the Bangko Sentral for the purpose of managing domestic liquidity in the financial system. These facilities should not be made available for opportunistic investment activities funded from non-resident sources. Further, placements in the TDF and the ODF are contractual in nature and thus shall be governed by the intent of the contracting parties. In keeping with the nature of these facilities, counterparties of the Bangko Sentral, shall comply with the Guidelines on the Prohibition Against the Use of Funds from Non-Resident Sources for Placements in the Bangko Sentral's TDF and the ODF shown in *Appendix Q-48*.

(Circular Nos. 1043 dated 02 August 2019, 961 dated 02 June 2017, M-2016-016 dated 18 November 2016, Circular Nos. 921 dated 22 August 2016, and 913 dated 02 June 2016)

B. TREASURY OPERATIONS

611-Q TREASURY OPERATIONS

Policy statement. The Bangko Sentral is cognizant that treasury activities may expose BSFIs to significant risks along with profitable opportunities. These regulations are being issued to set out minimum expectations on BSFIs' treasury activities pursuant to Section 4 of R.A. No. 8791 or the General Banking Law of 2000, which recognizes the authority of the Bangko Sentral to issue rules of conduct and establish standards of operation for its supervised financial institutions. These regulations, which cover the governance and operation of the trading function, among others, are aligned with the thrust of the Bangko Sentral to ensure that the activities of BSFIs are undertaken with prudence and integrity, and that these are supported by commensurate risk management systems and internal controls.

¹ The Monetary Board, in its Resolution No. 1945 dated 27 October 2016 approved the discontinuance of access of trust entities to the Bangko Sentral deposit facilities. Trust entities shall no longer have outstanding placement in the ODF and TDF by 30 June 2017.

² The TDF also refers to the Term Deposit Facility in Participation Agreements and Rules and Regulation pertaining to the Bangko Sentral facilities under the Monetary Operations System.

Treasury operations.¹ A BSFI's treasury activities may be a significant source of operational risk,² apart from giving rise to market, liquidity and credit risks.³ Losses to the institution may arise from the failure to meet professional obligations to clients, faulty product design, unethical business practices, and the failure to execute transactional processes. The institution must likewise be cognizant of the increased exposure to reputational risk in the presence of such factors.

In this regard, the operational risk management framework for treasury activities shall include the following elements: a strong governance structure that safeguards the integrity of the Treasury unit, especially the trading function; comprehensive policies and procedures; effective internal controls; a reliable management information system that facilitates the comprehensive monitoring and timely reporting of exposures; and a robust process for dealing with clients.

The BSFI shall:

- a. Conduct its treasury activities with a high degree of integrity. Consistent with the principles embodied in Sec. 132-Q (*Specific duties and responsibilities of the board of directors*), the board of directors shall be primarily responsible for establishing the tone of good governance from the top and setting standards of appropriate and ethical behavior for itself, senior management, and other employees. The board shall ensure compliance with market conduct rules, and the relevant requirements and standards of any regulatory body, professional body, clearing house or exchange, or government and any of its instrumentalities/agencies.

In accordance with the board's duty to articulate acceptable and unacceptable activities, transactions and behaviors, it must adopt a code of conduct and standards of practice that are binding on the Treasury unit, especially personnel involved in risk-taking. The code and standards should highlight and provide specific guidance on upholding market integrity and professionalism. Practices which undermine market integrity include engaging in trading transactions which have the effect, or are likely to have the effect, of creating a false or misleading appearance of active trading in any security, currency or commodity, or with respect to the market for, or the price of, any security, currency or commodity. The code and standards should likewise include safeguards to prevent conflict of interest or self-dealing in any form when allowing personnel to deal for their own account.

The code and standards should highlight and provide specific guidance on upholding market integrity and professionalism. Practices which undermine market integrity include engaging in trading transactions which have the effect, or are likely to have the effect, of creating a false or misleading appearance of active trading in any security, currency or commodity, or with respect to the market for, or the price of, any security, currency or commodity. The code and standards should likewise include safeguards to prevent conflict of interest or self-dealing in any form when allowing personnel to deal for their own account.

The code and standards shall be complementary to any codes adopted by the entire institution, as well as those promulgated by the industry. It is likewise the responsibility of the board to institute mechanisms to ensure compliance with the provisions of the code of conduct and the standards of practice, as well as to mete out appropriate sanctions for violations thereof.

- b. Conduct Treasury activities within a board-approved structure that is designed to meet the BSFI's objectives while enabling the strict enforcement of controls. The structure shall clearly distinguish between different functions (e.g., between asset liability management trading/dealership, underwriting, and brokering) and recognize the need for effective separation between operational units. The scope of authority and responsibility of each personnel shall be adequately defined, documented, and clearly communicated.
- c. Appoint personnel who possess a high degree of integrity and sufficient expertise to understand the financial instruments dealt and transactions entered into by the Treasury unit. These qualifications shall not only apply to personnel who originate and process the transactions but also to those who are responsible for reviewing the transactions' conformity to the BSFI's accepted trading practices. There shall likewise be manpower adept at operating and maintaining the MIS.
- d. Segregate the duties of the front, risk control and back office functions. The dealers in the front office are primarily responsible for transacting and managing positions. In this regard, the settlement and confirmation of transactions, the recording of contracts in the accounting system, the revaluation of positions, the reconciliations and procedures required to avoid errors, and other related processes in the back office shall be performed outside the dealing room to ensure objectivity and to prevent manipulation or fraud. There should be comprehensive and well-documented policies and procedures that describe the activities performed by each function.

¹ This Section should be read in conjunction with existing regulations on Operational Risk Management.

² Operational risk refers to the risk of loss resulting from inadequate or failed internal processes, people and systems; or from external events. This definition includes legal and compliance risks.

³ BSFIs should refer to Sec. 144-Q for the Guidelines on Market Risk Management, Sec. 145-Q for the Guidelines on Liquidity Risk Management and Sec. 143-Q for the Guidelines on Sound Credit Risk Management Practices.

- e. Provide for the prompt evaluation and escalation of suspicious trading trends and patterns, and unusual gains or losses. While the primary responsibility for ensuring that transactions are undertaken with integrity lies with front office personnel, there should be units tasked to perform reviews of treasury activities. The unit responsible for executing such reviews shall be independent from the risk-taking function and accorded sufficient resources and stature in the institution. In this way, it shall be empowered to quickly escalate any activity that seems unusual or inconsistent with compliance, financial and operational controls to the appropriate authorities. *“Appropriate authorities”* shall refer to persons, units, or committees that are independent of the Treasury function and its management but possess equivalent or higher stature, such as the chief executive officer, chief operating officer, the chief risk officer, the chief compliance officer, or a Board-level committee. Personnel tasked to perform reviews shall have, among others, sufficient understanding of the strategies engaged in by trading desks to allow them to evaluate whether trading activities are aligned with the risk appetite of the financial institution.
- f. Regularly and actively engage the control functions namely, risk management, internal audit and compliance, in the oversight of treasury activities. Owing to their inherent responsibilities and stature within the BSFI, the control functions are well placed to perform reviews and render assessments of the Treasury unit and its activities. The operational risk management framework shall include tools and mechanisms to identify, measure, monitor and control risks in all aspects of treasury operations. As an example, risk and performance indicators may consist of those that identify errors in deal entry, track the cancellation of deals, analyze unusual trading activity, and flag limit exceptions, among others. Meanwhile, the compliance function/system referred to in Sec. 161-Q and Sec. 161-Q (*Compliance function*) is responsible for the regular conduct of reviews to ensure that the BSFI’s activities conform to applicable laws, rules, and regulations, including securities laws, as well as its obligations as a market participant. Lastly, internal audit shall be tasked with evaluating the Treasury unit’s compliance with the BSFI’s own policies and procedures, especially in the conduct of trading activities, in accordance with Sec. 163-Q (*Duties and responsibilities of the internal audit function or the chief audit executive*). The scope of internal audit shall likewise include the review of the performance of risk management and compliance duties in respect of treasury activities.
- g. Employ treasury systems that are able to support the volume and complexity of the treasury transactions in the areas of deal entry, confirmation, settlement and accounting. Institutions that engage in heavy trading should endeavor to move to the use of straight-through processing to minimize input errors. On the other hand, institutions whose processes involve manual intervention should ensure that the integrity of data is preserved through proper controls.
- h. Ensure that the MIS is able to serve the needs of its users. The MIS should enable the accumulation and production of accurate and timely financial, regulatory, and management reports. At a minimum, management reports should highlight trading positions, profits/losses, and limit utilization. If the institution uses more than one (1) system for its information needs, it should establish controls and perform reconciliations to minimize the likelihood of producing corrupted consolidated data.
- i. Subject new products to a rigorous approval process. The handling of new products shall be embodied in an internal policy that, among others, defines the circumstances under which a product shall be considered “new”. The policy shall likewise contain guidelines for the review of the product, including the conduct of an analysis of its risks, costs and benefits to the institution; the identification of product features, uses, and target markets, as applicable; potential risks and mitigants to such risks; and the procedures involved in operationalizing the product. The policy shall identify the stages within the product development process at which approvals shall be obtained and from whom. All relevant units should sign off on the product program as part of the new product approval process.
- j. Act with honesty, fairness, and professionalism, and pursue the best interests of its clients. Due to the increasingly sophisticated products being introduced in the market, a BSFI acting as a dealer or broker shall have a clearly articulated strategy for the sale and marketing of financial products. The BSFI is expected to manage the risks arising from such activities and protect the interest of its clients. In this regard, a BSFI shall have appropriate policies, procedures and controls in place to ensure the suitability of products being offered to its clients. It shall ensure that (1) the client understands the nature of the transaction and the risks involved and (2) the transaction meets the client’s financial objectives and is aligned with his/its risk tolerance. It shall also provide sufficient, accurate and comprehensible information about the products, including inherent risks, in a clear and balanced manner to enable its clients to make informed financial decisions. The BSFI shall likewise use reasonable diligence to ascertain the best market for the products offered to customers and buy and sell in such market so that the result to the customer is as favorable as possible under prevailing market conditions.

Management should refer to the existing Consumer Protection Framework and Sales and Marketing Guidelines under Sec. 612-Q.

- k. Uphold the accountability in its treasury activities by retaining reliable, accurate, and complete records of transactions. In accordance with Sec. 001-Q, deals or transactions that are consummated orally or in written form should be coured through official recorded media. It shall be the responsibility of the BSFI to ensure that other parties to the transaction are aware that a record of the same is being made and shall be deemed part of the formal documentation of the BSFI's transactions. Moreover, it shall also be the responsibility of the BSFI to inform

its counterparties that the records of such transactions may be disclosed to regulators. To ensure effective compliance with these requirements, the official telephone lines used by the BSFI to consummate deals or transactions should have an automatic voice-prompted announcement at the start of the conversation/transaction between the BSFI and its counterparties stating that: (1) said conversation/transaction will be recorded; and (2) the recording and/or contents thereof may be disclosed to regulators. The recordings of the conversations and any other records of the exchanges pertaining to the said deals or transactions should be placed under custody of an independent unit and stored in a manner that is practicable to retrieve.

The failure of an institution covered by these guidelines to consistently observe the same may be considered by the Bangko Sentral as conducting business in an unsafe or unsound manner, subject to applicable provisions of laws and regulations.

Supervisory enforcement actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in these guidelines and bring about timely corrective actions and compliance with Bangko Sentral directives. In this regard, the Bangko Sentral may, among others, issue directives to refrain from engaging in treasury activities with serious supervisory issues. Sanctions may likewise be imposed on the BSFI and responsible persons, which may include restrictions or prohibitions from certain authorities/activities; and warning, reprimand, suspension, removal and disqualification of concerned directors, officers and employees.

(Circular Nos. 972 dated 22 August 2017, 970 dated 22 August 2017, 957 dated 17 April 2017, and 889 dated 02 November 2015)

612-Q SALES AND MARKETING GUIDELINES FOR FINANCIAL PRODUCTS¹

General principles. A BSFI shall always act with honesty, fairness, and professionalism, and pursue the best interests of its clients. Due to the increasingly sophisticated products being introduced in the market, a BSFI acting as a dealer or broker shall have a clearly articulated strategy for the sale and marketing of financial products. The BSFI is expected to manage the risks arising from such activities and protect the interest of its clients. In this regard, a BSFI shall have appropriate policies, procedures and controls in place to ensure the suitability of the products being offered to its clients. It shall ensure that (1) the client understands the nature of the transaction and the risks involved and (2) the transaction meets the client's financial objectives and is aligned with the client's risk tolerance. It shall also provide sufficient, accurate and comprehensible information about the products, including inherent risks, in a clear and balanced manner to enable its clients to make informed financial decisions.

The BSFI shall be guided by the principle of proportionality in setting policies and procedures for its sales and marketing activities. It shall differentiate between less and more sophisticated clients, and tailor the manner by which they are engaged in accordance with such sophistication. Controls shall be in place to ensure that the BSFI complies with its internal policies and procedures, as well as relevant rules and regulations. At the minimum, BSFIs must satisfy the expectations set out in these guidelines.

The BSFI's sales and marketing policies, procedures and controls shall form part of its consumer protection risk management system, consistent with the regulations on financial consumer protection set forth under Part Ten.

Scope of application. These guidelines prescribe the minimum standards for sales and marketing activities of BSFIs acting as dealers or brokers of financial products.

These shall apply to all banks and non-bank financial institutions performing quasi-banking functions. Trust departments shall not be covered by these regulations; they shall continue to be governed by the provisions of Part IV as applicable. Likewise, cross-selling activities shall not be covered by these guidelines; they shall be governed by the provisions of Sec. 113.

Definition of terms. For purposes of this section, the following terms shall have the meanings set forth below:

- a. **Financial products** – refer to debt and equity securities, hybrid securities, derivatives as defined under Sec. 612-Q, securitization structures, and similar products with substantial investment characteristics.
- b. **Broker** - a person engaged in the business of buying and selling securities for the account of others.
- c. **Dealer** - a person who buys and sells securities for own account in the ordinary course of business.
- d. **Complex products** – refer to financial products whose terms, features and risks are not reasonably likely to be understood by a non-sophisticated client because of their complex structure, and which are also difficult to value, particularly when there is a very limited or no secondary market.

¹ BSFIs shall be given three (3) months from 28 November 2015 to make appropriate changes in their sales and marketing policies, processes and materials in order to comply with the requirements of Sec. 612-Q as well as Sec. 612-Q (Scope of application) to Sec. 612-Q (Enforcement actions).

Client suitability guidelines. A BSFI shall ensure that the financial products it recommends to a client are appropriate for that client through a client suitability process, which involves obtaining client information, classifying a client according to financial sophistication and risk tolerance, and conducting a suitability review.

a. *Client Information*

The BSFI shall obtain necessary and sufficient information about the client that will serve as bases for its suitability assessment. At a minimum, the following information shall be obtained in addition to the basic account information:

- (1) Investment amount/investible funds or amount of exposure to be hedged;
- (2) Financial situation - the client's financial standing, which includes information on assets, net worth, financial commitments, regular income, and capacity to withstand losses arising from financial transactions;
- (3) Knowledge of financial products - the client's knowledge and understanding of the financial markets and products and the risks involved therein;
- (4) Investment/hedging experience - the nature of investments and/or derivatives transactions undertaken by the client, including the length of time, frequency of dealings, and the extent to which he/it has relied on the advice of a bank or a financial advisor, if any;
- (5) Financial objectives - the client's goal or purpose for entering into a transaction, whether it be for regular income, capital appreciation, capital preservation, maintenance of purchasing power, hedging as against investment, and/or long-term buy and hold as opposed to short-term active trading;
- (6) Risk appetite – the level of risk a client is willing to take;
- (7) Holding period or investment horizon – the length of time over which the position or exposure to be hedged will be held by the client;
- (8) Regulatory and legal constraints – prohibitions or limitations imposed on the activity of the client by existing laws, rules, and regulations, and;
- (9) Liquidity needs – the client's need to convert positions into cash and the timing of such requirement.

To foster cooperation from the client, the BSFI shall explain the reason for assessing suitability. If the BSFI is unable to obtain sufficient information, it shall refrain from offering or recommending any financial product.

A BSFI may design and use its own system for obtaining client information, which may include questionnaires and interviews. However, pre-formatted questions and responses shall be fit for the purpose and presented in a clear and understandable manner. Likewise, technical or unfamiliar terms shall be explained as needed, in order to prevent different interpretations and/or erroneous responses.

While the client is responsible for providing accurate and updated information, BSFI personnel shall exercise diligence in reviewing the consistency of the responses and reliability of the information provided based on available documents, such as publicly disclosed information and those obtained from the client's existing contractual relationships with the BSFI. It is highly recommended that the BSFI requests for documents to support the client's representations, particularly where the client wishes to transact in complex products. Subsequent changes to client information, if any, shall be adequately documented and concurred with by the client along with the discussions and/or clarifications made.

For a legal entity or a group of two or more natural persons, the BSFI shall obtain evidence that: (1) the client is specifically authorized to enter into all or specific kinds of financial transactions, and (2) the client's representative/s is/are authorized to carry out transactions on behalf of the entity/other parties, in accordance with the applicable legal framework.

When gathering information from a representative, the BSFI should be able to demonstrate that it has taken steps to ascertain that the information obtained is reflective of the entity or group's situation. In addition, it shall determine if the client has competent/qualified personnel to handle the proposed activities.

If a corporate client seeks to participate in complex products, the BSFI shall require the client to incorporate in the document authorizing the latter's activities that it likewise has appropriate risk management systems sufficient to manage and monitor the risks it will take.

At a minimum, client information, including client classification, shall be reviewed and updated prior to transacting in a product that is new to the client, or earlier in case of material changes in the client's financial situation or goals. Adequate controls shall be implemented to ensure the confidentiality and security of client information.

b. *Client Classification*

Based on the information obtained from a client, a BSFI should be able to classify a client into one of the following categories according to financial sophistication:

- (1) *Market counterparty* - refers to any financial institution, only with respect to the instruments in which it is authorized to engage as a broker dealer;
- (2) *Sophisticated institutional client* - refers to an institution that is not a market counterparty but has the level of net worth, knowledge, expertise, and experience to deal with financial products;
- (3) *Sophisticated individual client* - refers to an individual who has demonstrated to the BSFI that he has the level of net worth, knowledge and experience to deal with financial products; or
- (4) *Other clients* – refer to all other institutional or individual clients not categorized as market counterparty, sophisticated institutional client or sophisticated individual client.

BSFIs are encouraged to adopt a more granular categorization according to financial sophistication, provided that the categories can be mapped into the broad classifications above and the differences between categories are clearly set out.

In addition, a BSFI shall classify a client according to risk tolerance. This entails assessing the client's preferences, willingness to take on the risks associated with a product, and ability or capacity to absorb the losses that may arise from such product, as well as whether such losses will have a detrimental impact on the client's financial condition. At a minimum, a BSFI's classification of a client according to risk tolerance shall include, but need not be limited to, the following categories:

- (1) *Conservative* - Client prefers an investment and/or hedging strategy where the primary goal is to prevent the loss of principal;
- (2) *Moderate* - Client is willing and able to expose funds to a moderate level of risk in consideration for higher returns or to meet certain objectives; and
- (3) *Aggressive* - Client is willing and able to accept higher risks involving volatility of returns and even possible loss of investment in return for potentially higher long-term results.

Whenever a scoring system is used for client profiling, the BSFI shall ensure that the system is robust, fit for the purpose, and adequately tested. Any limitation in the system shall be mitigated through client discussions and the suitability review process. The system shall be calibrated as necessary to reflect appropriate results.

The BSFI shall make a record of the classification under which each client is categorized, including sufficient information to support the categorization. The classifications of the client according to sophistication and risk tolerance shall serve as bases for the BSFI's product offerings and the level of disclosures required.

c. *Suitability Review*

Before proposing or recommending a particular product to a client, a BSFI shall determine that the product is:

- (1) Suitable to the client's needs, financial situation, and objectives;
- (2) Consistent with the client's mandate, risk tolerance, and constraints; and
- (3) Aligned with the client's knowledge and experience, such that he/it understands the nature of and risks associated with the product.

Likewise, the BSFI shall inform its client of alternative products that are suitable to his/its circumstances.

A BSFI shall maintain a record of the assessment as well as all information used as bases of its suitability review. This includes written documentation to the extent that such was created to evidence interviews and analyses made in the performance of its due diligence process. The BSFI is expected to conduct a more in-depth assessment before offering complex products. It is highly recommended that a BSFI requires a client to sign his/its conformity to the suitability assessment (including the information on which it is based) in order to avoid disputes with the client.

A client who is classified as conservative may only transact in plain vanilla financial products as follows: (i) peso-denominated Government Securities representing direct obligations of the Government of the Republic of the Philippines; (ii) foreign currency-denominated Government Securities representing direct obligations of the Government of the Republic of the Philippines; (iii) highly liquid sovereign bonds, corporate bonds, and commercial papers issued off-shore rated at least "AA-" or its equivalent by a reputable international credit rating agency; (iv)

highly liquid domestic corporate bonds and commercial papers rated at least “AAA” or its equivalent by a reputable credit rating agency; and/or (v) foreign exchange derivatives solely for hedging, subject to the results of the suitability review.¹

In cases where the client is classified as a market counterparty, the BSFI does not need to comply with the required suitability review, considering the client’s recognized sophistication. However, a BSFI should be able to provide sufficient support for its classification.

Appropriate controls shall be in place to deter unauthorized overriding of the results of the suitability assessment. A BSFI shall only offer the range of products that is viewed as suitable for the client. Nevertheless, it is recognized that, in certain instances, a client may insist on transacting in a particular product that has previously been assessed as unsuitable for his/its profile. In such cases, the BSFI shall obtain the client’s confirmation in writing that:

- (1) The BSFI has informed the client of the protections he/it may lose and conversely, of the risks that he/it is exposed to,
- (2) The client still wishes to proceed with the transaction despite the BSFI’s assessment, and
- (3) The client fully understands and is willing to take the risks attendant to the product to be availed of.

However, in no case shall the BSFI offer to its clients the option to automatically and comprehensively waive the outcome of the client classification process and the resulting protections offered by the rules on client suitability.

Disclosures. A BSFI shall always be mindful of its statements regarding its products/services, whether the statements pertain to promotion, marketing or sale thereof or in the course of making the required disclosures. It shall institute measures to ensure that its clients understand the nature of and risks in a financial transaction. Although a BSFI can tailor-fit information, marketing and sales presentations/materials depending upon the sophistication of its client, it shall institute measures to ensure that its clients understand the nature of the financial transaction. The BSFI shall also take further steps to adequately disclose the attendant risks of the financial transactions when dealing with an unsophisticated client, either generally or with respect to a particular product being offered. A BSFI shall adopt standards for its publications/materials/disclosure statements and regularly review the aforementioned documents to ensure that they meet the standards.

A BSFI shall not misrepresent or give a false impression of the financial products it offers in any of its advertisements, electronic communications, written materials (whether publicly disseminated or not) or oral representations. A misrepresentation is any statement that deviates from the truth or omits a material fact or even tends to mislead the recipients.

a. *Financial promotion (marketing and sales)*

A BSFI embarking on a financial promotion, whether through a direct offer or information/sales publications, shall ensure that it gives sufficient information on the entire transaction, including the underlying financial instruments, if any, to enable a client to make an informed decision. A BSFI shall prominently indicate its name in all its promotional materials and specify its role or capacity in the transaction (e.g., issuer, dealer, broker).

A financial promotion is considered clear, fair and not misleading if all of the following requisites are present:

- (1) The information provided does not only emphasize the potential benefits of the product but also presents a fair and prominent description of the relevant risks and assumptions;
- (2) It draws the customer’s attention to the warnings, exclusions and disclaimers in all documents relating to the financial product;
- (3) The design, content or format of the presentation does not disguise, obscure or diminish the significance of any statement, warning or other matters that the customer should be aware of;
- (4) A client, by himself, can discern from the presentation whether a statement is a fact, promise or forecast;
- (5) The accuracy of all material statements of fact can be substantiated;
- (6) Any comparison or contrast of a product offered is made with another product that is intended to meet the same needs or to serve the same purpose. The comparison or contrast shall include all relevant factors. The facts presented shall be verifiable; alternatively, the relevant assumptions shall be disclosed;

¹ The BSFI is expected to have an internal policy for the identification of reputable credit rating agencies and prudent use of external credit assessment.

- (7) No reference to an approval by a regulatory body or its officials is made, unless a written approval was actually obtained;
- (8) A recommendation to consult/refer to a financial advisor is made; and
- (9) It does not omit any information, the omission of which causes a material fact to be misleading, unclear, or unfair.

A BSFI shall consider the client's knowledge of the transaction to which the given information relates. However, it shall not assume that clients/recipients necessarily have an understanding of the product being promoted. It shall also assess its usage of terms, especially those which are technical in nature. If promotional or marketing materials are specially designed for a targeted client base that is reasonably believed to have particular knowledge of the investment, this fact shall be made clear in the materials.

b. *Product disclosures*

A BSFI shall endeavor to explain the financial products it offers to its clients to enable the latter to make an informed decision. Product disclosures shall present an adequate description of (a) the nature and features of the financial product, including any underlying instrument(s), (b) the amount of outlay required, (c) the costs involved, and (d) the risks related to the product. In general, disclosures shall always be presented in a balanced manner whereby the potential benefits of a product are tempered by a fair indication of the risks involved.

Disclosure statements shall be presented in a clear, concise and effective manner to promote the client's understanding of the product. The use of industry and legal jargon shall be minimized to the extent possible. If such cannot be avoided, these terms shall be clearly defined and explained to the client. A greater level of disclosure shall be provided if a product is not generally understood by clients, for instance, in the case of new or complex products.

Should the BSFI make use of materials provided by the issuer of a particular instrument, the client shall be made aware that the issuer is responsible for the representations contained therein. However, the BSFI is responsible for communicating the relevance of said materials to the client.

A product disclosure that includes an illustration of past or future performance shall comply with the following:

- (1) When the product's past performance is used to illustrate possible future returns, the disclosure shall state that past performance is not necessarily indicative of future performance. This shall be presented in the main text of the presentation material. Past performance shall be culled from a reasonable time frame to provide a fair and balanced indication of a product's performance;
- (2) When using any forecast on the economy or financial markets, the disclosure shall state that such forecast is not necessarily indicative of the future performance of the product; and
- (3) Illustrations of returns shall include worst-case scenarios (i.e., not just the likely or best scenarios). Benefits shown in headline rates (pro-forma returns highlighted) should be realistic and achievable, and not based on unreasonably optimistic views of events.

Disclosures for products with some form of guarantee or protection should highlight which benefits are guaranteed/protected and those which are not. In instances where the guarantee or protection involves a cost to the client, the BSFI shall disclose the fees or charges for the same. A BSFI shall also disclose to the client the counterparty (e.g., issuer/guarantor) risk involved so that he/it is not misled about the product's capital security/principal protection. When applicable, a BSFI shall state if the guaranteed or protected amount is payable only at the end of the term.

Product disclosures for leveraged transactions¹ should emphasize that while these types of products/strategies amplify the potential gain from an investment, they also increase the potential loss thereof. A client who intends to engage in margin buying, a means of applying leverage in investing, shall be cautioned on possible loss exceeding the margin or initial cash outlay.

c. *Minimum required disclosures*

The minimum required disclosures shall always be in writing. A BSFI shall require its client to sign or initial the disclosure statement as affirmation of the client's receipt and understanding of the disclosure statement, unless the client is a market counterparty. A BSFI may opt to draft an individual or separate disclosure statement for its client or incorporate the same in the main transaction agreement/contract.

¹ Leverage or gearing can be employed in a structured product in order to offer higher yields.

Product-specific minimum disclosures shall include:

- (1) The nature of the financial product, including the underlying financial instruments, and how these products work;
- (2) Investment horizon or tenor of the financial product;
- (3) Fees and charges, if any;
- (4) Details on the issuing entity in case the dealing BSFI is not the issuing institution (i.e., the BSFI acts as a broker/dealer or market maker);
- (5) Returns or benefits likely to be derived from the instrument, the amount and timing thereof and whether the benefits are guaranteed or not;
- (6) All risk factors that may result in the client receiving returns less than the illustrated returns and factors affecting the recoverable amount by the client;
- (7) Details of conflicts of interest, if any;
- (8) Information on the handling of complaints related to the product;
- (9) All termination clauses, when appropriate, including charges and restrictions;
- (10) Any warning, exclusion or disclaimer in relation to the risk and rewards of the product, including, but not limited, to the following:
 - (a) The product carries higher risks than those associated with ordinary bank savings or time deposits;
 - (b) The product is risky and may not be appropriate if the client is not willing and able to accept the risk of adverse movements in the underlying securities or reference rates;
 - (c) Past performance of the product is not a guarantee of its future performance;
- (11) Other disclosures that may be required by existing laws, rules and regulations.

Where applicable, a BSFI shall draw the attention of the client to the following:

- (1) The effect of early redemption of a product on the return (e.g., penalties and/or a poor returns);
- (2) The availability of maximum benefit advertised after a specified period; and
- (3) The required conditions for the advertised growth rate of income to materialize.

Complex products should carry a standard warning that they are not suitable for all clients, and are intended for experienced and sophisticated clients. They should likewise carry appropriate warnings on the high economic risks of the transaction, such as:

- (1) Loss of all or a substantial portion of the investment due to leveraging or other sophisticated practices;
- (2) Mismatch between the change in the price of a hedge versus the change in the price of the exposure it hedges;
- (3) Volatility of returns;
- (4) Lack of liquidity considering that there may be no secondary market for the instrument;
- (5) Restrictions on transferring interests; and
- (6) Absence of information regarding valuation and pricing.

Sales and marketing personnel. Any informational or promotional presentation regarding financial products shall be undertaken only by personnel who are knowledgeable on the products involved. In assessing the knowledge of its personnel, a BSFI may consider their educational background; relevant training; certification; and professional experience in rendering investment advice, making presentations regarding financial products and/or assessing the propriety of financial products for a client. The personnel involved in the transactions shall likewise be familiar with all relevant laws and applicable rules and regulations and shall ensure compliance therewith.

At a minimum, a BSFI shall establish qualification standards for personnel involved in sales and marketing activities and require compliance with the registration requirements prescribed by existing securities laws, rules and regulations. In addition, a BSFI shall implement, and maintain a reasonably comprehensive system of training geared at enhancing the technical knowledge of its personnel to enable them to understand, and explain the nature and risks of a BSFI's financial products, and ensure client suitability.

Management shall regularly review the BSFI's compensation and incentive programs and ensure that such remuneration schemes do not place the interests of the sales and marketing personnel in conflict with those of their clients.

The BSFI's board of directors and senior management shall be liable for the acts performed and representations made by sales and marketing personnel in their official capacity. Notwithstanding the foregoing, a BSFI's board of directors and senior management are not precluded from filing the necessary action against the erring sales and marketing personnel.

Role of control functions. The control functions shall periodically monitor and evaluate the continuing effectiveness and adequacy of the sales and marketing policies and procedures. They shall regularly provide senior management or the Board, as appropriate, with written reports on the results of their review.

A BSFI's operational risk management framework shall take into account sales and marketing activities in the identification and assessment, monitoring and reporting, and control and mitigation of risks¹. The compliance function referred to in Sec. 161-Q and Sec. 161-Q (*Compliance function*) shall be responsible for monitoring and assessing the BSFI's compliance with applicable laws, rules and regulations in the conduct of sales and marketing activities. The internal audit function shall include in its scope the review and evaluation of the BSFI's compliance with internal policies and procedures for the sales and marketing of financial products, issuance of recommendations based on the results of the audits conducted, and the verification of compliance with those recommendations, in accordance with Sec.161-Q (*Compliance program*).

Record retention. Documents evidencing compliance with this Section shall be retained for a period of not less than five (5) years unless an investigation is being conducted, or a criminal, civil, or administrative case has been filed in a competent judicial or administrative body where a client is involved or impleaded as a party to the case or investigation. In such cases, the above documents shall be preserved beyond the five (5)-year period until such time that a final judgment has been reached by the judicial or administrative body.

Enforcement actions. The Bangko Sentral may deploy its range of supervisory tools to promote adherence to the requirements set forth in these guidelines and bring about timely corrective actions and compliance with Bangko Sentral directives. Sanctions may likewise be imposed on the BSFI and responsible persons, which may include restrictions or prohibitions from certain authorities/activities; and warning, reprimand, suspension, removal and disqualification of concerned directors, officers and employees.

(Circular Nos. 972 dated 22 August 2017, 917 dated 08 July 2016, and 891 dated 09 November 2015)

613-Q DERIVATIVES ACTIVITIES

A QB may engage in authorized derivatives activities: *Provided*, That a QB:

- a. Understands, measures, monitors and controls the risks assumed from its derivatives activities;
- b. Adopts effective risks management practices whose sophistication are commensurate to the risks being monitored and controlled; and
- c. Maintains capital commensurate with the risk exposures assumed.

Further, a QB may engage in financial derivatives activities in accordance with these guidelines. The transacting QB shall have the responsibility to comply with the guidelines set out in this Section, including the relevant appendices, and other applicable laws, rules and regulations governing derivatives transactions. In case of derivatives instruments involving foreign currencies and/or other foreign currency-denominated assets, the transacting QB shall observe the pertinent FX rules and regulations. For purposes of these guidelines, a QB that transacts (i.e., transacting bank), whether as end-user, broker or dealer, in derivatives instruments is considered to be engaging in a derivatives activity.

Derivative is broadly defined as a financial instrument that primarily derives its value from the performance of an underlying variable. For purposes of these guidelines, a *financial derivative* is any financial instrument or contract with all of the following characteristics:

- a. Its value changes in response to a change in a specified interest rate, financial instrument price, commodity price, FX rate, index of prices or rates, credit spread, credit rating or credit index or other variables not prohibited under existing laws, rules and regulations ("the underlying");
- b. It requires either no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors; and
- c. It is settled at a future date.

Financial derivatives activities shall also include transactions in cash instruments with embedded derivatives that reshape the risk-return profile of the host instrument, such as credit-linked notes ("CLNs") and their structured products ("SPs").

A market participant may take any of the following roles in a derivatives transaction:

- a. An *end-user* is defined as a financial market participant that enters, for its own account, in a derivatives transaction for legitimate economic purposes. These purposes may include, but are not limited to, the following: hedging proprietary trading, managing capital or funding costs, obtaining indirect exposures to desired market factors, investment, yield-enhancement, and/or altering the risk-reward profile of a particular item or an entire balance sheet.

¹ BSFIs should refer to existing Guidelines on Operational Risk Management.

An end-user may be classified according to its financial sophistication:

- (1) *Market counterparty* - refers to FI, only with respect to the instruments for which it is authorized to engage in as a dealer;
 - (2) *Institutional counterparty* - refers to an institution which is not a market counterparty and has the level of net worth, knowledge, expertise, and experience to deal with financial derivatives;
 - (3) *Sophisticated individual end-user* - refers to an individual who has demonstrated to the FI as having the level of net worth, knowledge and experience in dealing with financial products, including financial derivatives. An individual may register as a sophisticated individual end-user with the appropriate supervising department of the Bangko Sentral.
 - (4) *Other end-user* - this refers to all other institutional or individual clients not categorized as market counterparty, institutional counterparty or sophisticated individual end-user.
- b. A *broker* is a financial market participant that facilitates a derivatives transaction between a dealer and its client, for a fee or commission. The counterparties to the derivatives contract are the client and an authorized dealer.
- c. A *dealer* is defined as a financial market participant that engages in a derivatives activity as an originator of derivatives products or as market-maker in derivatives products. A dealer can distribute its own derivatives products, including those of others. A dealer can also act as broker and/or end-user of derivatives instruments.

Definition of terms

- a. *Customers* shall refer to:
- (1) resident banks (other than KBs and UBs) and non-bank Bangko Sentral-supervised entities (NBBSEs) not authorized to engage in FX forwards and swaps as dealers;
 - (2) resident non-bank entities; and
 - (3) non-residents, both banks and non-banks.
- b. *Foreign exchange obligation* shall refer to an actual commitment to repatriate or pay to a non-resident or any AAB a specific amount of foreign currency on a pre-agreed date.
- c. *Foreign exchange exposure* shall refer to an FX risk arising from an existing commitment which will lead to an actual payment of FX to, or receipt of FX assets from, non-residents or any AAB based on verifiable documents on deal date. FX risks arising from Bangko Sentral-registered foreign investments without specific repatriation dates are considered FX exposures.
- d. *Resident* shall refer to –
- (1) An individual citizen of the Philippines residing therein; or
 - (2) An individual who is not a citizen of the Philippines but is permanently residing therein; or
 - (3) A corporation or other juridical person organized under the laws of the Philippines; or
 - (4) A branch, subsidiary, affiliate, extension office or any other unit of corporations or juridical persons which are organized under the laws of any country and operating in the Philippines, except offshore banking units (OBUs).
- e. *Non-resident* shall refer to an individual, a corporation or other juridical person not included in the definition of resident.
- f. *Foreign exchange swap* shall refer to a transaction involving the actual exchange of two (2) currencies (principal amount only) on a specific date at a rate agreed on deal date (the first leg), and a reverse exchange of the same two (2) currencies at a date further in the future (the second leg) at a rate (different from the rate applied to the first leg) agreed on deal date.
- g. *Foreign exchange forward* shall refer to a contract to purchase/sell a specified amount of currency against another at a specified exchange rate for delivery at a specified future date three (3) or more business days after deal date.
- h. *Non-deliverable forward (NDF)* shall refer to an FX forward contract where only the net difference between the contracted forward rate and the market rate at maturity (i.e., the fixing rate) shall be settled on the forward date.

Generally authorized derivatives activities. A QB may enter in any financial derivatives transaction with Bangko Sentral-authorized dealers and brokers without need of prior Bangko Sentral approval solely for hedging purposes: *Provided*, That it observes all the requirements for hedging transactions under Philippines Accounting Standards ("PAS"): *Provided, further*, That it observes the provisions of *Appendix Q-19*.

A trust department of a QB may enter, as an institutional counterparty, into any financial derivatives with the Bangko Sentral-approved authorized dealers and brokers, on behalf of its trustor/principal/s as may be authorized by such trustor/principals/s without need of prior Bangko Sentral approval, solely for hedging purposes: *Provided*, That the trust department observes all the requirements for hedging transactions under PAS: *Provided, further*, That it observes the provisions of *Appendix Q-19*.

Activities requiring additional derivatives authority. QB may apply for prior Bangko Sentral approval of additional derivatives authority to engage in all other financial derivatives activities not expressly allowed in Sec. 613-Q (*Generally authorized derivatives activities*). A QB may apply for two (2) or more additional authorities. A QB applying for additional derivatives authority/ies must have and maintain a risk management system commensurate to the additional authority/ies being applied for, in accordance with the provisions of *Appendix Q-19* and meet other conditions specified under this Section.

a. *Classification of additional derivatives authority*

(1) Type 2 - Limited Dealer Authority

A QB that is also an investment house may apply for a Type 2 Authority. A QB with Type 2 Authority may operate as a dealer in specific types of derivatives products with specific underlying reference, as applied for by the QB: *Provided*, That a QB with Type 2 Authority shall comply with the sales and marketing guidelines prescribed in Sec. 612-Q. The Type 2 Authority also carries authority to transact as broker and end-user of the said specific derivatives instruments.

(2) Type 3 - Limited User Authority

A QB or a trust department of a QB, may apply for a Type 3 Authority. A QB or a trust department of a QB with Type 3 Authority may transact, as an end-user, in specific types of derivatives product, with specific underlying reference, as applied for by the QB, outside of those instruments that meet the conditions under Sec. 613-Q (*Generally authorized derivatives activities*). A Type 3 Authority will enable said QB or trust department to transact as end-user of derivatives instruments as may be applied for by the QB or trust department.

(3) Type 4 - Special Broker Authority

A QB that is also an investment house may likewise apply for a Type 4 Authority. A QB with Type 4 Authority may facilitate a derivatives transaction between a Bangko Sentral-authorized dealer and end-user clients: *Provided*, That the QB, acting as broker, ensures that its client fully understands its limited responsibility as a broker and observes the provisions of *Appendix Q-1*.

A QB with additional Type 2 or 4 Authorities shall be responsible for complying with pertinent securities laws, rules and regulations.

For purposes of this Section, the types of derivatives are classified as follows: forwards, swaps and options. *Underlying reference* pertains to the following: interest, foreign currencies/foreign exchange, equity, credit and commodity.

b. *Qualification requirements.* A QB applying for additional authority to engage in additional derivatives activities shall:

(1) Demonstrate adequate competence in its general operations as evidenced by:

- (a) CAMELS composite rating of at least “3” with a similar rating for Management, as applicable;
- (b) No unresolved major safety and soundness issues that threaten liquidity or solvency; and
- (c) Substantial compliance with regulations on anti-money laundering, corporate governance and risk management.

(2) Hold capital commensurate to the risks assumed or to be assumed from the derivatives activities. A QB applying for or holding a Type 2 Limited Dealer Authority or Type 3 Limited User Authority automatically agrees to be covered by all regulations prescribing capital for market risk, notwithstanding any provision to the contrary. In addition, the Bangko Sentral expects a QB applying for or holding additional derivatives authority to have adequate capital to accommodate existing and future risks from additional and generally authorized derivatives activities as well as risks arising from the QB’s other business activities. For this purpose, the Bangko Sentral may require capital higher than the minimum required under prudential regulations.

(3) Have and maintain a risk management system that conforms to the principles and complies with the minimum standards prescribed in *Appendix Q-19*.

- (4) Demonstrate the relevance of proposed derivatives activities to the QB's main purpose as an institution. The Bangko Sentral reserves the right to deny applications whose proposed derivatives activities do not reasonably fit the nature of their business operations.
- c. *Applicability to trust department of QBs.* Trust departments of QBs may apply for Type 3 Authority, provided they comply with the requirements prescribed and observe the provisions of *Appendix Q-19 and Sec. 612-Q*.
- d. *Application procedures.* The applicant shall submit to the appropriate supervising department of the Bangko Sentral a written application for additional derivatives authority/ies accompanied by:
- (1) A copy of the board resolution approving the application for a specific type of derivatives authority;
 - (2) A notarized certification signed jointly by the president, treasurer, or equivalent trust officer and compliance officer of the applicant QB stating that the QB complies with all the requirements for the authority being applied for specified in Sec. 613-Q (*Activities requiring derivatives authority*); and
 - (3) A list of the types of derivatives and underlying reference the QB intends to engage in, including the following information for each derivatives class or type:
 - (a) Target customers for such derivatives;
 - (b) The capacity in which the QB intends to engage in such derivatives;
 - (c) Description of each type of derivatives and underlying reference with which it will deal;
 - (d) Analysis of the risks involved in transacting in each type of derivatives;
 - (e) Procedures/methodologies that the QB will implement to measure, monitor (including risk management reports) and control the risks inherent in the type of derivatives;
 - (f) Relevant accounting guidelines, including pro-forma accounting entries;
 - (g) Analysis of any actual or potential legal/regulatory restrictions; and
 - (h) Process flow chart, from deal initiation to risk reporting, indicating the departments and personnel involved in identified processes.
 - (4) The Bangko Sentral will not accept applications lacking any of the above-stated requirements. The Bangko Sentral however, may require additional documents to aid its evaluation of the application. By virtue of the application, the applicant automatically authorizes the Bangko Sentral to conduct an on-site evaluation of the applicant's risk management capabilities, if this is deemed necessary.
 - (5) Payment of the following non-refundable processing fee shall be made upon approval or denial of the QB's application:

	Amount
Type 2 Authority	P 50,000.00
Type 3 Authority	25,000.00
Type 4 Authority	25,000.00

- (6) A QB whose application for additional derivatives authority/ies or an upgrade thereof (e.g., from Type 3 to Type 2 Authority) has been denied cannot submit a new application for additional derivatives authorities until after six (6) months from receipt of denial. The same rule applies for a QB whose authorities have been limited or downgraded.
- (7) A QB that holds an additional derivatives authority may apply for additional derivatives authorities (e.g., currently holding Type 3 Authority who wish to apply for Type 4 Authority) or an upgrade thereof only after the lapse of six (6) months from the grant of the previous additional derivatives authority.

Intra-group transactions. All derivatives transactions between a QB and any of its subsidiaries and affiliates shall comply with minimum risk management standards for related-party transactions outlined in *Appendix Q-19* as part of the QB's internal control procedures. The Bangko Sentral expects QBs to establish internal reporting and monitoring system for derivatives activities for related-party transactions. Failure to comply with minimum standards shall be a ground for citing non-compliance with provisions under Sec. 613-Q (*Generally authorized derivatives activities*) and Sec. 613-Q (*Activities requiring additional derivatives authority*) without prejudice to other Bangko Sentral rules and regulations such as those related to corporate governance and unsafe and unsound banking practices.

Accounting guidelines. A QB that engages in derivatives activities must strictly account for such transactions in accordance with relevant PAS.

Reporting requirements. A QB engaged in any derivatives transactions shall submit a monthly report on derivatives transactions/derivatives within fifteen (15) banking days from end of the reference month. The reports shall be certified by the treasurer.

Sanctions

a. Unauthorized transactions

Sanctions prescribed under Sections 36 and 37 of R.A. No. 7653 shall be imposed on any QB (including its directors and officers) found to have engaged in an unauthorized derivatives activity.

A QB undertaking unauthorized derivatives activities may be considered as conducting its business in an unsafe and unsound manner under Section 56 of R.A. No. 8791.

b. Delayed/Erroneous/Inaccurate reporting

QBs failing to submit the reports required under Sec. 613-Q (*Reporting requirements*) within the prescribed deadline shall be subject to monetary penalties applicable for delayed reporting under existing regulations. Moreover, submission of incomplete, uncertified or improperly certified or otherwise erroneous reports shall be considered non-reporting, subject to applicable penalties for amended/delayed reports. For purposes of imposing monetary penalties, the reports shall be classified as a *Category A-1* report. Habitual delayed or erroneous reporting may be a ground for further sanction, including limitation of generally authorized activities and/or additional authorities and/or suspension of authority to engage in such derivatives activities.

c. Non-compliance with the provisions of this Section and Appendices Q-19

Any QB found violating any of the provision of Sec. 121-Q and and/or *Appendices Q-19* shall be sanctioned with the penalties prescribed under Sections 36 and 37 of R.A. No. 7653 in accordance with the gravity/seriousness of the offense taking into consideration the number of times the offense was committed, possible consequent losses on the clients, effect on the financial markets and other relevant factors.

d. Curtailment of derivatives authority

The Bangko Sentral reserves the right to suspend, modify, downgrade, limit or revoke any QB's derivatives authority (including any or all of those generally authorized activities) for prudential reasons as may be evidenced by any or all of the following:

- (1) The QB is assigned a CAMELS composite rating or component Management rating of lower than that prescribed under Sec. 613-Q (*Activities requiring additional derivatives authority*) in the most recent regular examination.
- (2) The QB has not maintained adequate risk management systems given the level and type of derivatives activities it has engaged in as may be determined by the Bangko Sentral in any on-site evaluation and confirmed by the Monetary Board.
- (3) The Monetary Board has confirmed a finding of the appropriate supervising department of the Bangko Sentral that the QB has conducted business in an unsafe and unsound manner.

An erring QB may apply for reinstatement of its derivatives authority only after six (6) months from lapse of the implementation of the sanction, provided the QB has satisfactorily addressed all the Bangko Sentral concerns.

(Circular No. 917 dated 08 July 2016)

614-Q INVESTMENT ACTIVITIES OF BANGKO SENTRAL-SUPERVISED FINANCIAL INSTITUTIONS (BSFIs)¹

Policy Statement. The Bangko Sentral recognizes that the effective management of risks associated with a BSFI's investment activities is essential in ensuring its continued safety and soundness. These guidelines are being issued to set expectations on the prudent conduct of investment activities and the minimum practices that a BSFI should establish for the management and control of risks associated with investments. These guidelines neither limit nor expand the activities that BSFIs may undertake under existing regulations.

Scope of Application. These guidelines cover all of a BSFI's investments in the trading and banking books. These guidelines do not apply to a BSFI's (a) investments that grant control over an enterprise and are accounted for using the equity method, (b) transactions in derivatives involving stand-alone contracts, and (c) receivables arising from repurchase agreements.

Risk Management Framework. A BSFI shall have systems to manage the risks arising from its investment activities. While risk management system will differ among BSFIs, the following elements are fundamental in ensuring that risks are effectively identified, measured, monitored and controlled:

¹ QBs shall be given a period of six (6) months from 16 August 2019 to develop or make appropriate changes to their policies and procedures on the risk management system for investment activities.

a. Board and senior management oversight

As investment activities comprise a major area of a BSFI's operations, the board of directors shall perform the following, in accordance with Sec. 132-Q (*Specific duties and responsibilities of the board of directors*):

- (1) Approve portfolio objectives, overall investment strategies, general investment policies, and limits that are consistent with the BSFI's financial condition and risk tolerance. Board-approved objectives, strategies, policies and procedures, and limits shall be documented and clearly communicated to all the personnel involved in their implementation. Changes in strategies and the manner by which investments are managed shall be made under the control of the BSFI's appropriate board-level committees.
- (2) Actively monitor the performance and risk profile of its investments against established objectives, strategies, and policies. Consistent with Sec. 132-Q (*Specific duties and responsibilities of the board of directors*), the members of the board shall act judiciously on matters pertaining to investments. They shall ensure that investment transactions or proposals undergo a thorough evaluation process.
- (3) Ensure that there is an effective management structure for conducting the BSFI's investment activities that enables the achievement of the objectives, the strict enforcement of controls, and the independence between different functions (e.g., trading and asset/liability management), in accordance with Item "b" of Sec. 611-Q (*Treasury Operations*).

As senior management is responsible for implementing board-approved strategic objectives, it shall therefore:

- (1) Develop portfolio objectives that set out the acceptable instruments, expected business returns, desired asset allocation and diversification parameters, and other elements of sound investment management. Portfolios managed for the purpose of generating short term profits must be distinct from those utilized to maintain ample balance sheet liquidity, generate accrual income or modify and manage risk profiles.
- (2) Set clear lines of authority and responsibility for investing and managing the risks attendant thereto. Personnel conducting investment activities shall have the requisite technical knowledge and experience.

b. Policies, Procedures, and Limits

A BSFI shall institute policies, procedures, and limits that provide a framework for managing investment activities. The framework shall be consistent with the organization's broader business strategies, capital adequacy, technical expertise, and risk tolerance. In setting policies, procedures and limits, a BSFI shall be guided by the following:

- (1) Policies and procedures should clearly articulate guidelines for the acquisition and recording of investments. A BSFI should be able to designate at the onset a specific investment objective (e.g., trading or short-term profit taking, or generating accrual income) for a particular security/portfolio and identify the desks/personnel responsible for managing such positions.
- (2) Policies should promote the development of a comprehensive understanding of the risks associated with investments prior to acquisition and on an ongoing basis. In particular, these should require the following:
 - (a) an appropriate level of due diligence to be conducted prior to taking a position in any investment. The depth of the due diligence should depend on an instrument's quality, the complexity of its structure, and the size of the investment. Structured products, in particular, should be subject to more thorough analyses than those applied to traditional products;
 - (b) the investment analysis to be founded on an analytical review of investment opportunities, and be sufficient to support a conclusion that a financial instrument is a sound investment;
 - (c) the due diligence review to cover:
 - (i) an analysis of the risks and cash flow characteristic of the specific investments, especially for products that have unusual, leveraged, or highly variable cash flows;
 - (ii) an assessment of the valuation and accounting policies to be adopted by the BSFI and the extent of its compliance with accounting rules;
 - (iii) an analysis of assumed and actual investment exit strategies, particularly for securities that are illiquid or not readily marketable, and the resulting effect on earnings; and

- (iv) the identification of appropriate methodologies for the allocation of capital based on the risk inherent in the BSFI's investment activities, and the identification of all material risks and their potential impact on the safety and soundness of the institution;
- (d) periodic and timely reviews of the investment strategy and performance to be conducted at the individual and portfolio levels;
- (e) the due diligence and ongoing reviews to be performed by qualified personnel or a unit independent from the risk-taking function. Any third-party analysis independent of the seller or counterparty (e.g., reports prepared by investment managers or credit rating agencies) may only be used to complement a BSFI's own evaluation. Irrespective of any responsibility, legal or otherwise, assumed by a dealer, counterparty, or financial advisor regarding any transaction, the investing BSFI is ultimately responsible for understanding and managing the risks of the transaction; and
- (f) the adequate documentation of the due diligence reviews and the formal approval of results thereof.

The conduct of due diligence reviews for new plain vanilla instruments to be entered into by a BSFI for the purpose of trading or short-term profit taking (i.e., to be held in the trading book) may be made at the option of the BSFI: *Provided*, That the incremental positions arising from the investments do not require higher country, market, and other applicable risk limits.

- (3) The limits for investment activities shall be consistent with the BSFI's institution-wide risk limits. The limits structure may apply at the institutional, portfolio, sub-portfolio, or individual instrument levels, or a combination thereof. The BSFI's determination of the appropriate limits structure shall be guided by the diversity, complexity and purpose of its portfolios (e.g., A BSFI with substantial holdings of non-resident issued instruments should establish country risk limits.)
 - (4) The limits structure should reflect the amount of exposure that the BSFI is willing to accept, taking into consideration the impact of such exposure to earnings and capital in both normal and stressed conditions. Limits and triggers should be customized to address the nature of the products and any unique risk characteristics thereof (e.g., instruments bearing optionality features or credit event triggers).
- c. Risk Measurement, Monitoring and Management Information Systems (MIS)

Given the impact of investments on the risk profile of an institution, BSFIs shall ensure that they possess the capability to measure and monitor the risks associated with their investments prior to acquisition and periodically thereafter. In doing so, a BSFI shall be guided by the following:

- (1) A BSFI shall have the capability to value its positions and measure exposures to each type of risk arising from such positions under both normal and stressed market conditions. Moreover, the risk measurement system should be able to generate timely information about the market value of investments carried at cost and any significant decline from the carrying value. For this purpose, the BSFI shall use reliable data and appropriate tools and metrics that have been properly and independently vetted and approved prior to use (see also Item "d(3) Internal Controls and Audit"). A BSFI with investments in complex instruments shall use a more sophisticated tool for identifying, measuring and controlling risks. On the other hand, BSFIs whose investments are limited to plain vanilla instruments in the banking book should, at a minimum, have the capability to periodically mark the positions to market/obtain the market values of their positions.
- (2) A BSFI shall adopt a proper framework for valuing all positions, including those that are concentrated, less liquid and stale, and make appropriate valuation adjustments for uncertainties in determining the fair value of its investments. It shall likewise establish triggers that would determine whether a presumptive case for challenging the valuation model exists.
- (3) The valuation methodologies shall be adequately documented. The documentation shall set out the BSFI's practices for the initial pricing and marking-to-market/model of its positions. The documentation should also cover model inputs and assumptions, the detail of which would depend on the nature of the financial instruments held by BSFI and its sources of independent prices.
- (4) The Management of a BSFI with significant holdings of complex financial products such as structured products, asset-backed and mortgage-backed securities, or those measured using either inputs other than quoted market prices or unobservable inputs, shall be responsible for reviewing and understanding the assumptions used to price such instruments. The reviews should be sufficiently documented. Further, a BSFI that employs internal models shall have adequate procedures to validate the models and to periodically review all elements of the modeling process, including the assumptions.

- (5) When an incremental change in the value of an investment position is likely to have a significant effect on the risk profile of the BSFI, the BSFI is expected to analyze the impact of such change on its overall financial condition.
- (6) Reports to the board and senior management shall summarize the risks related to the BSFI's investment activities and the performance of portfolios vis-à-vis the established investment objectives and constraints, as well as any exceptions to established policies, procedures, and limits. Reporting should be frequent enough to provide timely and adequate information and enable the execution of appropriate adjustments to address the changing nature of the BSFI's risk profile. The BSFI is expected to adjust the frequency of reporting when there are developments that warrant closer monitoring of its positions (e.g., periods of excessive market volatility) and when actions are taken to adjust the level of its exposures.

d. Internal Controls and Audit

In addition to complying with the supervisory expectations set out in Secs. 162-Q and 163-Q, a BSFI shall:

- (1) Adopt internal controls that shall ensure the robustness of the approval process for new investment products/activities. Consistent with the requirements under Item "I" of Sec. 611-Q (*Treasury Operations*), a BSFI shall ensure that the risks involved in new products/activities are fully understood through the implementation of a formal risk assessment program, and that adequate policies, procedures and controls are in place prior to roll out;
- (2) Adopt appropriate accounting policies and processes, and maintain adequate records pertaining to investments. In this respect, a BSFI shall strictly comply with relevant accounting standards and at the same time ensure the consistency of its accounting policies and practices with portfolio objectives and strategies;
- (3) Ensure the integrity of investment valuations, risk measurement methodologies, and controls that address model risk. The valuation process shall be undertaken independently from the risk-taking units. New valuation and risk measurement models shall be validated by an independent, suitably qualified individual/group prior to use. The models, including any material changes made thereon, shall likewise be periodically reviewed to ensure that they remain fit for their intended use. Model validation processes of a BSFI shall meet the minimum expectations set forth under *Appendix Q-42 (Guidelines on market risk management)* and Sec. 143-Q (*Credit Risk Measurement, Validation and Stress Testing*);
- (4) Conduct independent reviews of the risk management system on a periodic basis, but by no means to exceed three years, to ensure its integrity and reasonableness. These may be in the form of internal or external audits that cover, at a minimum:
 - (a) compliance with and the appropriateness of investment policies, procedures and limits;
 - (b) propriety of fair valuations and the related processes and controls; and
 - (c) a determination of whether the BSFI's risk measurement and monitoring systems are commensurate to the nature and complexity of its activities.

Risks of Investment Activities. The management of risks arising from a BSFI's investment activities shall be integrated into the BSFI's overall risk management system, as required under Secs. 141-Q (*Supervision by Risk*); 143-Q (*Credit Risk Management*); 144-Q (*Market Risk Management*); and 146-Q (*Operational Risk Management*).

The guidelines below set out the supervisory expectations on the management of the major risks that are inherent to investment activities. It is incumbent upon a BSFI to identify and manage other risk areas based on a thorough assessment of its activities.

a. Market Risk

The management of exposures to market risk arising from investment activities requires the BSFI to clearly designate positions belonging to either the trading book or the banking book. In accordance with the provisions of Sec. 125 (*Market Risk Capital Requirement*) and its appendices, the trading book consists of proprietary positions in financial instruments which are taken on with the intention of short-term resale or benefiting in the short-term from actual or expected differences between the buying and selling prices or from other price or interest rate variations; positions which arise from the execution of trade orders from customers and market making; and positions taken in order to hedge other elements of the trading book. All other instruments held by a BSFI shall be categorized as banking book positions.

Trading book

- (1) A BSFI that actively engages in the trading of securities is primarily exposed to the risk of adverse movements in the price of their holdings before such holdings can be liquidated or offset. It shall have the capability to measure such exposures on a timely basis, and control the effect of changing rates and prices on its earnings and capital.

- (2) A BSFI shall conduct a price sensitivity analysis for individual or a class of instruments, under both normal and stress scenarios, as part of the due diligence requirement prior to acquiring a position in any investment and on a continuing basis. Where appropriate, such analysis shall encompass a wider range of scenarios, including non-parallel changes in the yield curve and other relevant factors, such as changes in interest rate volatility and in credit spreads. It is recognized, however, that the substance and form of such analyses will vary according to the complexity of an instrument.
- (3) Market risk from trading portfolios shall be calculated at least daily. While this is commonly measured using value-at-risk (VaR),¹ a BSFI may use other risk models. In any case, the board and senior management shall ensure that the measure used is reasonably accurate and rigorous; appropriate to the sophistication and complexity of the BSFI's products, activities and lines of business; and adequately incorporated into the BSFI's risk management process.

Banking Book

- (4) A BSFI with banking book portfolios that are subjected to regular mark-to-market valuation shall monitor the price sensitivity of relevant securities over different interest rate/yield curve scenarios. Price sensitivity limits or triggers at portfolio levels or on individual securities should also be established.

b. Interest Rate Risk in the Banking Book

Investments under the banking book usually represent a significant component of a BSFI's overall interest rate risk profile. Exposures from investments shall feed into the BSFI's institution-wide measurement and monitoring of interest rate risk through earnings- and/or economic value-based methodologies.

c. Credit Risk

- (1) A BSFI's investment policies and objectives shall be consistent with its overall credit risk strategy, as set out under Sec. 143-Q (*Role of the Board and Senior Management and Credit Risk Strategy*).
- (2) In accordance with Sec. 143-Q (*Credit granting and loan evaluation/analysis process and underwriting standards*), which requires the conduct of a comprehensive assessment of the creditworthiness of obligors, a BSFI shall not acquire an investment without conducting an independent assessment of the creditworthiness of the issuer. The latter shall form part of the due diligence review to be conducted in accordance with Item "b(2)" (*Policies, Procedures and Limits*) of this Section.
- (3) In addition to the guidelines on the factors to be considered in approving credits under Item "b" of Sec. 143-Q (*Credit granting and loan evaluation/analysis process and underwriting standards*), a BSFI shall consider a variety of factors relevant to a particular security when determining whether it is a permissible and sound investment. The range and type of specific factors a BSFI should consider will vary depending on the particular type and nature of a security. An individual security may require more or less analysis depending on its risk characteristics. The following are examples of factors that a BSFI may consider as part of its credit risk due diligence review:
 - (a) Credit spread to a benchmark security and risk of default compared to bonds of similar credit quality;
 - (b) Issuer's capacity to pay, and operating and financial performance levels and trends through internal credit analysis and/or other third-party analytics, as appropriate for the particular security;
 - (c) The value of an instrument with a prepayment option compared to a plain vanilla security of similar credit quality;
 - (d) Potential impact to an instrument's value of specific product features such as credit-related triggers; and
 - (e) For an investment in a securitization structure, the class or tranche, loss allocation rules, specific definition of default, support provided by credit and/or liquidity enhancements, and the impact of collateral deterioration and potential credit losses under adverse economic conditions.
- (4) Complex financial instruments, such as those enumerated in Item "k" of Sec. 143-Q (*Credit granting and loan evaluation/analysis process and underwriting standards*), shall be subject to a greater degree of credit-related due diligence, even when the credit quality is perceived to be very high.
- (5) A BSFI shall conduct a thorough analysis of country and transfer risks in accordance with the guidelines under Sec. 143-Q (*Country and transfer risks*), as appropriate. Moreover, BSFIs should monitor exposures on a broader (e.g., regional) basis as a country's economic, social and political conditions may be adversely

¹ VaR is the probable maximum loss over a target horizon at a given confidence level.

affected through the contagion of problems in other countries. When a BSFI's country and transfer risks are significant, such risk shall also be considered in its Internal Capital Adequacy Assessment Process (refer to *Appendix Q-54*).

- (6) A BSFI's policies shall incorporate credit risk diversification and concentration limits and prudently define what constitutes concentration to a single or related issuer/s, consistent with the provisions under Sec. 143-Q (*Credit limits, large exposures and credit risk concentrations*).
- (7) A BSFI's investments shall be subjected to periodic impairment testing in accordance with existing accounting rules and prudential standards. A BSFI shall have processes in place to determine on a timely and holistic basis whether credit risk on an individual financial instrument has increased significantly since its initial recognition, and accordingly provide accounting adjustments when necessary. The analysis shall take into account not only the credit risk of the individual issuer but also the relevant country and transfer risks.
- (8) Engaging in investment activities also exposes a BSFI to counterparty credit risk. Counterparty credit risk arises when a counterparty to a transaction who has received a payment or delivery of assets defaults before delivery of the asset or payment, or when technical difficulties interrupt delivery or settlement despite the counterparty's ability or willingness to perform.

Transactions with a counterparty shall not commence until a credit line has been approved. Credit limits shall consider both settlement and pre-settlement exposures for all counterparties with whom the bank trades. While the structure of the credit approval process may differ across institutions, the process should reflect the organizational and geographic structure of the institution and the specific needs of its treasury activities.

d. Market Liquidity Risk

- (1) The BSFI's process of specifying permissible instruments shall clearly articulate the desired market liquidity¹ characteristics of investments under both trading and banking books. For instance, a BSFI may limit its investments to or in certain securities in view of a perceived lack of market liquidity. Such characteristics shall be aligned with the investment objectives set by the Board.
- (2) The due diligence review required under Item "b(2)" of this Section (*Risk Management Framework*) shall take into account the market liquidity of proposed investments and relate the effect that such characteristics have on achieving the BSFI's investment objectives. A BSFI shall ensure that it considers the effects that market risk can have on the liquidity of different types of instruments under various scenarios.
- (3) A BSFI shall ensure that valuation and risk measurement models are able to capture the illiquidity of investments. Complex and illiquid instruments can often involve greater risk than those that are actively traded. For instance, securities with embedded options may make them highly illiquid during periods of market volatility and stress, despite their high credit rating. If market prices or rates do not move as expected, the demand for such instruments can evaporate, decreasing the market value of the instrument. Such risk is particularly acute for instruments that are highly leveraged.

e. Operational Risk

- (1) A BSFI shall be mindful that effective internal controls at the business units serve as the first line of defense in the management of operational risk in investment activities. Consistent with the operational support for other activities within a BSFI, personnel handling back office functions shall be as independent as practicable from business units. A BSFI shall institute internal controls that ensure the separation of duties and supervision of persons executing transactions from those responsible for processing contracts, confirming transactions, controlling various clearing accounts, preparing or posting the accounting entries, approving the accounting methodology or entries, and performing revaluations.²
- (2) Adequate resources shall be devoted to supporting processes, such that systems and capacity are commensurate with the size and complexity of investment activities. Effective risk management should include, at least, the following:
 - (a) Personnel. Due to the increasingly complex nature of instruments available in the marketplace, BSFIs shall ensure that personnel responsible for managing operational risks have strong technical skills. This enables a better understanding of the complex financial structures of certain investment instruments.

¹ Market liquidity risk is defined under *Appendix Q-43*.

² See also Item "d" of Sec. 611-Q (*Treasury Operations*).

- (b) Documentation. A BSFI shall set policies on the required documentation for specific financial instruments, especially complex instruments, as well as for saving and safeguarding important documents, and maintaining possession and control of instruments.
 - (c) Conflict of interest. In accordance with Item “a” of Sec. 611-Q (*Treasury Operations*), a BSFI shall develop policies and guidelines governing conflicts of interest between traders and other market counterparties. Policies should likewise be developed to ensure that all directors, officers, and employees act in the best interest of the BSFI. Such policies may contain restrictions and prohibitions on engaging in personal transactions, and on the receipt of gifts and gratuities from approved dealer firms and their representatives.
- (3) A BSFI shall comprehensively evaluate the enforceability of any agreements related to its investment activities before individual transactions are consummated. Institutions shall also ensure that the counterparty is authorized to enter into the transaction and that the terms of the agreement are legally enforceable. A BSFI should have knowledge of laws and interpretations governing the use of these instruments and arrangements.

Application of the guidelines.

- a. General Rule. These guidelines shall apply to all banks and non-bank financial institutions performing quasi-banking functions (QBs) and their financial subsidiaries.
- b. Group Structures. The parent QB shall be responsible for ensuring that the risks in the investment activities of its financial subsidiaries are managed in accordance with the guidelines in this Section.
- c. Branches of Foreign Banks. A foreign bank branch may adopt the risk management approach of its parent/regional office/group in respect of its investment activities: *Provided*, That the applicable provisions under this Section are met.
- d. Minimum Requirements for Stand-alone Thrift, Rural and Cooperative Banks and Quasi-Banks with Investments that are Limited to Peso Denominated Government Securities.
 - (1) The board shall approve investment objectives consistent with the BSFI's financial condition, profile and risk tolerance. Senior management shall set clear lines of authority and responsibility for investing and monitoring the risks attendant to the BSFI's investments. These functions shall be conducted by personnel with adequate technical knowledge and experience;
 - (2) A BSFI shall institute policies and procedures for formally approving investments in government securities. The BSFI shall ensure that it conducts an analysis of its investments prior to acquisition and on an ongoing basis. The periodic analysis should incorporate a review of the key risks, including market, market liquidity, liquidity and operational risks, and their impact to earnings and capital, as well as the BSFI's mechanisms for divesting of the investments, if so warranted;
 - (3) The Board shall institute limits that reflect its tolerance for risks related to investment activities (e.g., maximum amount of government securities that may be invested in by the BSFI at any point in time, maximum acceptable amount of mark-to-market losses for investments designated at fair value through other comprehensive income or profit and loss). An independent unit/officer shall be assigned to monitor the exposures against the limits and report breaches, as well as the resolution of the breaches, to senior management and the board in timely manner;
 - (4) The BSFI shall properly value its investments and measure its exposures under both normal and stressed market conditions (e.g., circumstances that result in sudden decline in value of investments affecting the BSFI's other comprehensive income). The result of stress tests should aid the board and senior management of the BSFI in determining whether the risks and rewards associated with its investments are consistent with its investment objective and business strategy; and
 - (5) The BSFI shall set out a process for the effective and timely monitoring and reporting to the Board and senior management of information pertaining to its investments (e.g., coupon vs. prevailing interest rates, market values, gains/losses arising from derecognition).

Supervisory enforcement actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in these guidelines and bring about timely corrective actions and compliance with Bangko Sentral directives. The Bangko Sentral may, among others, cite a BSFI for conducting business in an unsafe or unsound manner should its investment activities result in abnormal risk to the institution. A BSFI may likewise be directed to refrain from engaging in specific investment activities with serious supervisory issues. Lastly, sanctions may be imposed on the BSFI and responsible persons, which may include restrictions or prohibitions from certain authorities/activities; and reprimand, suspension, removal and disqualification of concerned directors, officers and employees.

(Circular Nos. 1143 dated 12 April 2022 and 1042 dated 25 July 2019)

C. FINANCIAL INSTRUMENTS

621-Q FORWARD AND SWAP TRANSACTIONS

The following guidelines, as well as minimum documentary requirements, shall cover FX forward and swap transactions involving the Philippine peso between authorized dealer QBs and their customers.

Non-deliverable forward contracts with non-residents. Only banks with expanded derivatives license may enter into NDF contracts to sell FX to non-residents.

622-Q ASSET-BACKED SECURITIES

The following regulations shall govern the origination, issuance, sale, servicing and administration of asset-backed securities (ABS) by any QB including its subsidiaries and affiliates engaged in allied activities, which are domiciled in the Philippines.

Definition of terms

- a. *Assets* shall mean loans or receivables existing in the books of the originator prior to securitization. Such assets are generated in the ordinary course of business of the originator and may include mortgage loans, consumption loans, trade receivables, lease receivables, credit card receivables and other similar financial assets.
- b. *Asset-backed securities* shall refer to the certificates issued by a special purpose trust (SPT) representing undivided ownership interest in the asset pool.
- c. *Asset pool* shall mean a group of identified, self-amortizing assets that is conveyed to the SPT issuing the ABS and such other assets acquired as a consequence of the securitization.
- d. *Clean-up call* shall refer to an option granted to the seller to purchase the remaining assets in the asset pool.
- e. *Credit enhancement* shall refer to any legally enforceable scheme that is intended to enhance the marketability of the ABS and increase the probability that investors receive payment of amounts due them.
- f. *Guarantor* shall refer to an entity that guarantees the repayment of principal and interests on loans or receivables included in the asset pool in the event of default by the borrower.
- g. *Investible funds* shall refer to the proceeds of collection of loans or receivables included in the asset pool which are not yet due for distribution to investors.
- h. *Issuer* shall refer to the SPT that issues the ABS.
- i. *Originator* shall refer to a QB and/or its subsidiary or affiliate engaged in allied activities that grants or purchases loans or receivables and assembles them into a pool for securitization.
- j. *Residual certificates* shall refer to certificates issued representing claims on the remaining value of the asset pool after all ABS holders are paid.
- k. *Seller* shall refer to the entity which conveys to the SPT the assets that constitute the asset pool.
- l. *Servicer* shall refer to the entity designated by the issuer primarily to collect and record payments received on the assets, to remit such collections to the issuer and perform such other services as may be specifically required by the issuer excluding asset management or administration.
- m. *Special purpose trust* shall refer to a trust administered by a trustee and created solely for the purpose of issuing and administering an ABS.
- n. *Trustee* shall refer to the entity designated to administer the SPT.
- o. *Underwriter* shall refer to the entity engaged in the act or process of distributing and selling of the ABS either on guaranteed or best-efforts basis.

Authority. Any QB including its subsidiaries and affiliates engaged in allied activities, may securitize its assets upon prior approval of the Bangko Sentral.

Management oversight. The originator/seller shall have the securitization program approved by its board of directors. The originator/seller shall integrate such securitization program into its corporate strategic plan. The board of directors shall ensure that the securitization of assets is consistent with such program.

Minimum documents required. The application to securitize must be accompanied by the following documents as a minimum requirement:

- a. *Trust indenture* evidencing the conveyance of the assets from the seller to the issuer or SPT, the features of which shall include the following:
 - (1) Title or nature of the contract in noticeable print;
 - (2) The parties involved, indicating in noticeable print, their respective legal capacities, responsibilities and functions;
 - (3) Features and amount of ABS;
 - (4) Purposes and objectives;
 - (5) Description and amount of assets comprising the asset pool;
 - (6) Representation and warranties;
 - (7) Credit enhancements;
 - (8) Distribution of funds;
 - (9) Authorized investment of investible funds;
 - (10) Rights of the investor;
 - (11) Reports to investors; and
 - (12) Termination and final settlement.

The trust indenture shall include as annexes the servicing agreement between the trustee and the servicer and the underwriting agreement between the seller and the underwriter.

- b. *Prospectus.* As a minimum requirement, it shall contain the following:
 - (1) Summary of the contents of the prospectus;
 - (2) Description of each class of certificates, including such matters as probable yields, payment dates and priority of payments;
 - (3) Description of the assets comprising the asset pool as well as the representations and warranties set forth by the originator and/or seller;
 - (4) Assumptions underlying the cash flow projections for each class of certificate;
 - (5) Description of any credit enhancement;
 - (6) Identity of the servicer; and
 - (7) Disclosure statements as required under Sec. 622-Q (*Disclosures*).
- c. Specimen of application to purchase ABS. It shall include the terms and conditions of the purchase and the disclosures required under Sec. 622-Q (*Disclosures*).
- d. Specimen of certificate. It shall indicate the features of the ABS and the disclosures required under Sec. 622-Q (*Disclosures*).

Minimum features of asset-backed securities. The ABS shall be pre-numbered and printed on security paper. The ABS shall be signed and authenticated by the trustee. They are transferable by endorsement of the certificate. The transfer shall be recorded in the books of the trustee, indicating the names of the parties to the transaction, the date of the transfer and the number of the certificate transferred.

The minimum denomination of any ABS shall be P10,000.

Disclosures. The following disclosures must be provided in a conspicuous manner in any document inviting investment, application to purchase ABS and in the certificate itself:

- a. The ABS do not represent deposit substitutes or liabilities of the originator, servicer or trustee and that they are not insured with PDIC;
- b. The investor has investment risks;
- c. The trustee does not guarantee the capital value of the ABS or the collectibility of the asset pool; and
- d. The rights of an investor.

The investors shall be required to sign an acknowledgment indicating that they have read and understood the disclosures.

Conveyance of assets

- a. The conveyance of the assets comprising the asset pool shall be done within the context of a true sale and, for this purpose, the seller may not retain in its books the ABS, except the residual certificate, if any.

- b. The seller shall have no obligation to repurchase or substitute an asset or any part of the asset pool at any time, except in cases of a breach of representation or warranty, or under a revolving structure, to replace performing assets which have been paid out in part or in full.
- c. The seller shall be under no obligation to provide additional assets to the SPT to maintain a coverage ratio of collateral to outstanding ABS. A breach of this requirement will be considered a credit enhancement and should be charged against capital. However, this will not apply to an asset pool conveyed under a revolving structure such as the securitization of credit card receivables.
- d. Securitized assets shall be considered the subject of a true sale between the seller and the SPT. Sold assets shall be taken off the books of the seller and shall be transferred to the books of the SPT.

For accounting purposes, the transfer shall only be considered a true sale if the following three (3) conditions have been satisfied:

- (1) the transferred assets have been isolated and put beyond the reach of the seller and its creditor;
 - (2) the SPT has the right to pledge or exchange its interest in the assets; and
 - (3) the seller does not effectively maintain control over the transferred assets by any concurrent agreement.
- e. All expenses incidental to underwriting, conveyance of the asset pool including expenses for credit enhancement may be paid by the originator/seller:

Provided, That no further expenses shall be borne by the originator/seller after the asset pool has been conveyed to the SPT.

Representations and warranties

- a. *Standard representations and warranties* refer to an existing state of facts that the originator, seller or servicer can either control or verify with reasonable due diligence at the time the assets are sold. Any breach of representation or warranty may give rise to legal recourse.
- b. The representations or warranties shall be clear and explicit and, in particular, shall not relate to the future creditworthiness of the assets in the asset pool or the performance of the SPT or the securities issued.
- c. Any agreement to pay damages as a result of breach of warranties and representations shall hold only where:
 - (1) there is a well-documented negotiation of the agreement in good faith;
 - (2) the burden of proof for a breach of representation or warranty rests with the other party;
 - (3) damages are limited to the loss incurred as a result of the breach; and
 - (4) there is a written notice of claim specifying the basis for the claim.

The Bangko Sentral shall be notified of any instance where a QB or its subsidiaries/affiliates has agreed to pay damages arising out of any breach of representation or warranty.

Third party review. A due diligence review by an independent entity mutually agreed upon by the seller and the issuer shall be done before the assets are sold.

Originator and seller

- a. The seller may itself be the originator, and may likewise be designated as the servicer.
- b. The seller or originator shall deliver to the trustee all original documents or instruments with respect to each asset sold.

Trustee and issuer

- a. The trustee shall be the trust department of a bank licensed to do business in the Philippines.
- b. The trustee shall have the right to manage or administer the asset pool. The trustee shall see to it that necessary measures are taken to protect the asset pool.
- c. The trustee shall undertake a performance review of the asset pool at least quarterly and shall prepare a report to investors indicating, among others, collections, fees and other expenses as well as defaults, which report shall be made available to the investors at anytime after thirty (30) days from end of the reference quarter.
- d. The trustee shall initiate all civil actions including foreclosure of mortgaged properties to effect collection of receivables in the asset pool. The servicer or any other party may be designated by the trustee to perform such function on a case-by-case basis.

- e. The trustee may invest the investible funds only in obligations issued and/or fully guaranteed by the government of the Republic of the Philippines or by the Bangko Sentral and such other high-grade readily marketable debt securities as the Bangko Sentral may approve.
- f. The trustee shall designate a replacement of the servicer if the latter fails to satisfactorily perform its duties and responsibilities according to the terms and conditions of the servicing agreement.

Servicer

- a. The servicer shall perform its duties according to the terms and conditions of the servicing agreement and such other written instructions as the trustee may issue on a case-by-case basis. Collections made by the servicer shall be remitted promptly to the trustee or as may be agreed upon by the parties in the servicing agreement, but in no case shall the remittance period be longer than one (1) month.
- b. The servicer shall prepare periodic reports as may be required by the trustee.
- c. The servicer shall report to the trustee within thirty (30) days any borrower which fails to pay its debt at maturity date or any adverse development that may affect the collectibility of any loan account or receivable comprising the asset pool.
- d. The servicer shall have no authority to waive penalties and charges except with a written authority from the trustee.

Underwriter

- a. A UB or IH shall have written policies and procedures on underwriting of ABS.
- b. The underwriter shall perform its functions according to the terms and conditions of the underwriting agreement.
- c. An underwriter may deal in ABS, except those administered by its trust department, the trust departments of its subsidiaries/affiliates, the trust department of its parent bank or the trust department of its parent bank's subsidiaries/affiliates.
- d. A UB/IH may act as underwriter, on a firm basis, of ABS except those administered by its trust department, the trust departments of its subsidiaries/affiliates, the trust department of its parent bank or the trust department of its parent bank's subsidiaries/affiliates.
- e. The underwriter may not extend credit for the purpose of purchasing the ABS which such UB/IH underwrites or that which is underwritten by its subsidiaries/affiliates, its parent bank or its parent bank's subsidiaries/affiliates.

Guarantor

- a. Only an entity the regular business of which includes the issuance of guarantees or similar undertaking may act as guarantor.
- b. The guarantor must have the financial capacity to perform its responsibilities in accordance with the terms and conditions of the guarantee agreement. It shall submit to the trustee at least once in every six (6) months such financial reports as the trustee may require.
- c. The originator or seller may not issue a counter-guarantee in favor of the guarantor.

Credit enhancement. Credit enhancement may be provided in any of the following manner:

- a. Standby letter of credit issued by an UB/KB other than the originator's/seller's subsidiary/affiliate, parent bank or the parent bank's subsidiary/affiliate, and trustee or its subsidiary/affiliate.
- b. Surety bond issued by any insurance company other than the originator's/seller's subsidiary or affiliate, the subsidiary or affiliate of the originator's seller's parent bank and the trustee or its subsidiary/affiliate.
- c. Guarantee issued by any entity other than the originator/seller or its subsidiary/affiliate, its parent bank or the parent bank's subsidiary/affiliate, and trustee or its subsidiary/affiliate.
- d. Overcollateralization provided by the originator/seller wherein the assets conveyed to the SPT exceed the amount of securities to be issued.

Losses arising from overcollateralization shall be recognized by the originator/seller upfront. Such losses shall be treated as capital charges.

- e. Spread account wherein the income from the underlying pool of receivables is made available to cover any shortfall in the repayment of ABS. The spread account shall be handled by the trustee which shall account for it separately. If not needed, this “spread” generally reverts to the holder of the residual certificate.
- f. Subordinated securities that are lower ranking, or junior to other obligations and are paid after claims to holders of senior securities are satisfied.
- g. Other credit enhancements as may be approved by the Monetary Board.

To be consistent with the concept of a true sale, subordinated securities shall be sold to third party investors other than the originator’s/seller’s parent company or its subsidiary/affiliate and the trustee or its subsidiary/affiliate or, if held by the seller, capital charges should be booked upfront. Otherwise, the subordinated securities shall be treated as deposit substitute subject to legal reserves.

Clean-up call. A *clean-up call* may be exercised by the seller once the outstanding principal balance of the receivable component of the asset pool falls to ten percent (10%) or less of the original principal balance of the asset pool. Where the asset pool includes foreclosed and other assets, such assets shall be included in the clean-up call and the consideration thereof shall be at current market value. Such a *clean-up call* shall not be considered recourse or in violation of Sec. 622-Q on conveyance of assets.

Prohibited activities.

- a. The seller may not, under any circumstance, designate its trust department, the trust department of its subsidiaries/affiliates, the trust department of its parent bank or the trust department of its parent bank’s subsidiaries/affiliates as trustee.
- b. Any director, officer or employee of the originator, seller or servicer may not serve as a member of the board of directors or trust committee of the trustee or vice versa for the duration of the securitization.
- c. The trust indenture shall not contain any stipulation whereby the seller, its subsidiaries/affiliates, its parent bank or the parent bank’s subsidiaries/affiliates shall commit to extend any credit facility to the issuer and/or trustee.
- d. The ABS shall not be eligible as collateral for a loan extended by a QB which originated/sold the underlying assets of such ABS.
- e. The trust department of a bank that has discretion in the management of any trust or investment management account may not purchase for said trust/investment management account ABS administered by the trust department of the same bank, the trust department of such trustee’s subsidiaries/affiliates, the trust department of such trustee’s parent bank and the trust department of the parent bank’s subsidiaries/affiliates.
- f. The trustee may not designate its subsidiary/affiliate, its parent or the parent’s subsidiaries/affiliates as servicer or vice versa.

Amendment. Any amendment to the trust indenture shall require the prior approval of the Bangko Sentral.

Miscellaneous provision. Without prior approval of the Bangko Sentral, any entity supervised by the Bangko Sentral authorized to engage in trust and fiduciary business may act as trustee or servicer in a securitization scheme originated by an entity not supervised by the Bangko Sentral: *Provided*, That the assets which are the subject of such securitization are existing in the books of the entity prior to securitization: *Provided, further*, That such entity acting as trustee or servicer is not a subsidiary/affiliate of the originator/seller, its parent bank or the parent bank’s subsidiaries/affiliates or vice versa: *Provided, finally*, That such entity acting as trustee may not designate its subsidiaries/affiliates, its parent or the parent’s subsidiaries/affiliates as servicer or vice versa.

Report to Bangko Sentral. The trustee shall submit a report of every securitization scheme in formats to be prescribed by the Bangko Sentral. The report shall be submitted to the appropriate department of the appropriate supervising department of the Bangko Sentral, within fifteen (15) business days after the end of every reference quarter. Such report shall be considered a *Category A* report for purposes of implementing fines in the submission of required reports pursuant to existing regulations.

PART SEVEN

ELECTRONIC PAYMENT AND FINANCIAL SERVICES

701-Q POLICY STATEMENT

The Bangko Sentral recognizes that electronic payment and financial services contribute to economic growth by facilitating the transfer of funds which are necessary for all productive activities. Thus, the Bangko Sentral promotes a safe, efficient, reliable, affordable, and inclusive national payment system to support the delivery of said services.

Definition of terms. In addition to the definitions under Sec. 801-Q (*Definition of terms*), the definitions of the following terms shall apply for the purpose of this Section:

- a. Electronic Payment and Financial Services (EPFS) – products or services offered by BSP-supervised Financial Institutions (BSFIs) to enable customers to receive payments or initiate financial transactions and other related services through an electronic device such as a computer, mobile phone, Automated Telling Machine (ATM), and other devices. In particular, EPFS allow customers to electronically access information on their transaction accounts, move or receive funds from one account to another, or avail of credit, investment, trust, or other banking products and/or services (e.g., online or mobile loan application, electronic placement of funds in certain investment outlets, etc.).
- b. Transaction account – an account (e.g., deposit account, e-money, electronic wallet, etc.) held or maintained with a BSFI, which could be a bank or a non-bank.

Classification of EPFS. For the purpose of authorizing BSFIs to render EPFS, such services shall be classified as follows:

- a. Basic EPFS – These are limited to services allowing only receipt of funds or access to information (e.g., account balance, statement of account, etc.).
- b. Advanced EPFS – In addition to basic services, advanced EPFS enable customers to send funds and initiate other financial transactions.

Requirements for the grant of authority to offer EPFS¹. Pursuant to Sec. 111-Q on the Bangko Sentral Policy and Regulations on Licensing, BSFIs that intend to offer EPFS shall obtain the appropriate authority/license, as follows:

Classification	Category of License/Authority
Advanced EPFS	Type A ² /B ³
Basic EPFS	Type C

BSFIs shall observe the “Guidelines on Licensing of Electronic Payment and Financial Services” shown in *Appendix Q-89*.

Compliance with relevant regulations. A BSFI that has been granted an advanced EPFS authority shall at all times comply with the following relevant regulations:

- a. Oversee its EPFS through an appropriate top-level committee to ensure that concerns on these services are timely and properly addressed;
- b. Make its EPFS with funds transfer functionality interoperable by participating in an Automated Clearing House pursuant to the guidelines provided under Part 8 of the Q-regulations on Payment Systems;
- c. Integrate EPFS in its overall strategic plan to ensure that these services do not put undue strain on its systems, financial performance, and risk management capability;
- d. Promote EPFS by implementing appropriate marketing strategies;
- e. Ensure that it satisfies the legal and regulatory requirements for Anti-Money Laundering/Combating Financing of Terrorism; and

¹ **Transitory Provision.** The BSFIs shall re-register their EPFS by accomplishing the attached re-registration form with covering certification (*Annex B of Appendix Q-89*). The re-registration form shall be electronically submitted with the subject ““EPFS Re-registration -<name of BSFI> -<date-YYYYMMDD>” to epfs-licensing@bsp.gov.ph not later than 31 March 2019 while the covering certification shall be sent to the Financial Technology Sub-sector of the Bangko Sentral. Failure to submit the re-registration form by 31 March 2019 shall result in the revocation of the issued license/s.

² This applies to BSFIs that *can* be assessed against the prudential criteria provided in the Policy and Regulations on Licensing. These applicants must have been examined by the Bangko Sentral.

³ This applies to proponents that *cannot* be assessed against the prudential criteria provided in the Policy and Regulations on Licensing. These include newly-established BSFIs and new applicants for an authority to operate as “Electronic Money Issuer-Others”.

- f. Comply with the relevant regulations on payments, Information Technology (IT) Risk Management Standards, Guidelines on Electronic Products and Services, Business Continuity Management regulations, and Consumer Protection Standards of Conduct for BSFIs.

Enhancements and other changes in EPFS. BSFIs shall seek prior Bangko Sentral approval for the following enhancements and changes in their licensed EPFS:

- a. Replacement of platform;
- b. Upgrade in EPFS from purely informational to transactional services; and
- c. Change in system architecture, altering the risk score or assessment on the system or the other systems related to it.

Reportorial requirements. BSFIs shall provide the BSP with the required data and updates on their EPFS.

- a. **Required Reports.** The following reports shall be submitted to the appropriate supervising department of the Bangko Sentral in the manner prescribed under *Appendix Q-3*:

- (1) EPFS Transactions and Indicators; and
- (2) Changes and Enhancements in EPFS.

- b. **Sanctions.** Failure to comply with the reportorial requirements shall subject the concerned BSFI to applicable sanctions for “Erroneous/Delayed/Erroneous and Delayed/Unsubmitted reports” as prescribed under Sec. 172-Q (*Sanctions in case of willful delay in the submission of reports/refusal to permit examination*).

Enforcement action. Failure to comply with the provisions of this Section shall cause the concerned BSFI to be subject to enforcement action in accordance with Sec. 002-Q and/or Sec. 111-Q (*Enforcement actions*).

Outsourcing of internet and mobile electronic services. The rules on outsourcing of banking functions as shown in Sec. 112 (*Statement of principle on outsourcing*) of the MORB and *Appendix Q-36* shall be adopted insofar as they are applicable to QBs’ outsourcing of internet and mobile electronic services.

(Circular Nos. 1033 dated 22 February 2019 and 1031 dated 07 February 2019)

702-Q ISSUANCE AND OPERATIONS OF ELECTRONIC MONEY

The following guidelines shall govern the issuance of electronic money (e-money) and the operations of electronic money issuers (EMIs).

Declaration of policy. It is the policy of the Bangko Sentral to foster the development of efficient and convenient retail payment and fund transfer mechanism in the Philippines. The availability and acceptance of e-money as a retail payment medium will be promoted by providing the necessary safeguards and controls to mitigate the risks associated in an e-money business.

Definitions

E-money shall mean monetary value as represented by a claim on its issuer, that is –

- a. electronically stored in an instrument or device;
- b. issued against receipt of funds of an amount not lesser in value than the monetary value issued;
- c. accepted as a means of payment by persons or entities other than the issuer;
- d. withdrawable in cash or cash equivalent; and
- e. issued in accordance with this Section.

Electronic money issuer (EMI) shall be classified as follows:

- a. Banks (hereinafter called EMI-Bank);
- b. NBFIs supervised by the Bangko Sentral (hereinafter called EMI-NBFI); and
- c. Non-bank institutions registered with the Bangko Sentral as a money transfer agent under Sec. 901-N (hereinafter called EMI-Others).

For purposes of this Section:

- a. *Electronic instruments or devices* shall mean cash cards, e-wallets accessible via mobile phones or other access device, stored value cards, and other similar products.
- b. E-money issued by QBs shall not be considered as deposits.

Prior Bangko Sentral approval. QBs planning to be an EMI-NBFI shall comply with the requirements of Sec. 701-Q and Sec. 111-Q (*Guidelines on outsourcing*), when applicable.

Common provisions. In addition to the provisions under Sec. 701-Q (*Compliance with relevant regulations*), EMIs shall comply with the following requirements:

- a. E-money instrument issued shall be subject to aggregate monthly load limit of P100,000 unless a higher amount has been approved by Bangko Sentral. In case an EMI issues several e-money instruments to a person (e-money holder), the total amount loaded in all the e-money instruments shall be consolidated in determining compliance with the aggregate monthly load limit;
- b. EMIs shall put in place a system to maintain accurate and complete record of e-money instruments issued, the identity of e-money holders, and the individual and consolidated balances thereof. The system must have the capability to monitor the movement of e-money transactions and link e-money instruments issued to common e-money holders. The susceptibility of a system to intentional or unintentional misreporting of transactions and balances shall be sufficient ground for imposition by the Bangko Sentral of sanctions, as may be applicable.
- c. E-money may only be redeemed at face value. It shall not earn interest nor rewards and other similar incentives convertible to cash, nor be purchased at a discount. E-money is not considered a deposit, hence, it is not insured with the PDIC.
- d. EMIs shall ensure that e-money instruments clearly identify the issuer who is ultimately responsible to the e-money holders. This shall be communicated to the client who shall acknowledge the same in writing.
- e. It is the responsibility of EMIs to ensure that their distributors/e-money agents comply with all applicable requirements of the Anti-Money Laundering laws, rules and regulations.
- f. EMIs shall provide an acceptable redress mechanism to address the complaints of its customers.
- g. EMIs shall disclose in writing and its customers shall signify agreement to the information embodied in Item “c” above upon their participation in the e-money system. In addition, it shall provide clear guidance in English and Filipino on consumers’ right of redemption, including conditions and fees for redemption, if any. Information on available redress procedures for complaints together with the address and contact information of the issuer shall also be provided.
- h. Prior to the issuance of e-money, EMIs should ensure that the following minimum systems and controls are in place:
 - (1) Sound and prudent management, administrative and accounting procedures and adequate internal control mechanisms;
 - (2) Properly-designed computer systems which are thoroughly tested prior to implementation;
 - (3) Appropriate security policies and measures intended to safeguard the integrity, authenticity and confidentiality of data and operating processes;
 - (4) Adequate business continuity and disaster recovery plan; and
 - (5) Effective audit function to provide periodic review of the security control environment and critical systems.
- i. EMIs shall provide the SDC quarterly statements containing, among others, information on investments, volume of transactions, total outstanding e-money balances, and liquid assets in such forms as may be prescribed later on.
- j. EMIs shall notify Bangko Sentral in writing of any change or enhancement in the e-money facility thirty (30) days prior to implementation. If said change or enhancement requires prior Bangko Sentral approval, the same shall be evaluated accordingly. Any change or enhancement that shall expand the scope or change the nature of the e-money instrument shall be subject to prior approval of the Deputy Governor of the supervising sector of the Bangko Sentral. These changes or enhancements may include the following:
 - (1) Additional capabilities of the e-money instrument/s, like access to new channels (e.g. inclusion of internet channel in addition to merchant Point of Sale terminals);
 - (2) Change in technology service providers and other major partners in the e-money business (excluding partner merchants), if any; and
 - (3) Other changes or enhancements.

Quasi-bank license requirement. EMI-NBFIs and EMI-Others that engage in lending activities must secure a quasi-banking license from the Bangko Sentral.

Sanctions. Monetary penalties and other sanctions for the following violations committed by EMI-NBFIs shall be imposed:

Nature of Violation/Exception	Sanction/Penalties
1. Issuing e-money without prior to Bangko Sentral approval	Applicable penalties under Sections 36 & 37 of R.A. No. 7653; Watchlisting of owners/partners/principal officers

2. Violation of any of the provisions of R.A. No. 9160 (Anti-Money Laundering Law of 2001 as amended by R.A. No. 9194) and its implementing rules and regulations	Applicable penalties prescribed under the Act
3. Violation/s of this Section	Penalties and sanctions under the abovementioned laws and other applicable laws, rules and regulations

In addition, the susceptibility of a system to intentional or unintentional misreporting of transactions and balances shall be sufficient ground for appropriate Bangko Sentral action or imposition of sanctions, whenever applicable.

Outsourcing of services by Electronic Money Issuers (EMIs) to Electronic Money Network Service Providers (EMNSP).
The guidelines on outsourcing of services by Electronic Money Issuers (EMIs) to Electronic Money Network Service Providers (EMNSP) are shown in *Appendix Q-56*.

Sanctions. Violations committed by EMIs pertaining to outsourcing activities to EMNSP shall be subject to appropriate monetary penalties under Sec. 1102-Q (*Guidelines on the imposition of monetary penalty*) and/or other non-monetary sanctions under Section 37 of RA No. 7653.

(Circular Nos. 1033 dated 22 February 2019 and 988 dated 20 December 2017)

PART EIGHT

NATIONAL RETAIL PAYMENT SYSTEMS

801-Q NATIONAL RETAIL PAYMENT SYSTEM (NRPS) FRAMEWORK

Adoption of NRPS Framework. It is the policy of the Bangko Sentral to promote the establishment of a safe, efficient, and reliable retail payment system in the Philippines. Towards this end, the Bangko Sentral adopts the NRPS consistent with Bangko Sentral regulations on risk management in light of the complex interplay of different types of risk arising from the rapid evolution of retail payment activities of BSFIs. The NRPS vision will help achieve higher economic growth and enhance the overall competitiveness of our economy.

In carrying out retail payment-related activities, BSFIs shall adhere to the NRPS Framework as set forth in this Section and *Appendix 78*. This framework requires BSFIs to ensure that the retail payment systems they participate in demonstrate sound risk management, and effective and efficient interoperability. BSFIs shall comply with Bangko Sentral rules and regulations, particularly on information technology, consumer protection, and anti-money laundering/combating the financing of terrorism (AML/CFT).

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Automated Clearing House (ACH)* - a multilateral agreement among ACH participants governing the clearing and settlement of payment orders for a specific payment stream.
- b. *ACH Participant*- a financial institution duly licensed by the Bangko Sentral that is a Payment System Management Body (PSMB) member, and undertakes clearing in and is a signatory to at least one (1) ACH.
- c. *ACH Participant Group (ACH-PG)* - a group organized by ACH participants for a payment stream or a group of similar payment streams for the purpose of approving and implementing the clearing rules and agreements applicable to a specific payment stream. It also liaises and consults with other parties in relation to clearing.
- d. *Channel* - the means by which an electronic financial product or service is delivered. e.g., internet, phone, ATM.
- e. *Clearing* - the process of transmitting, reconciling and, in some cases, confirming payment orders prior to settlement, and the establishment of the final obligations for settlement.
- f. *Clearing Switch Operator (CSO)* - provides clearing switch services.
- g. *Direct clearing participant*- a financial institution that is: (a) duly licensed by the Bangko Sentral and is authorized to provide electronic financial and payment services; (b) engaged in holding of funds of customers in the form of accounts (bank account or electronic money account); (c) clears transactions through an ACH and is the participant ultimately responsible for obligations generated from cleared transactions; and (d) has a demand deposit account with the Bangko Sentral and a PhilPaSS member, or is sponsored into settlement by a qualified sponsor which is a member of PhilPaSS and maintains a DDA with the Bangko Sentral, to settle its clearing obligations.
- h. *Electronic payment*- synonymous to electronic fund transfer (EFT); refers to transfers of funds between two transaction accounts in the same or different BSFIs which are initiated and received using electronic devices and channels to transmit payment instructions. This excludes domestic remittance transaction under existing Bangko Sentral regulations.
- i. *Fund*- any unit of value that forms the consideration or object of transactions.
- j. *Interoperability* - enables financial products and services belonging to a particular scheme or business model to be used or interoperated between other schemes or business models usually of another institution. While interoperability often times require technical compatibility between systems, it can only take effect once commercial/business interconnectivity agreements have been completed.
- k. *NRPS* - a policy and regulatory framework that aims to establish a safe, efficient, and reliable retail payment system in the Philippines.
- l. *Payment instrument* - any instrument, whether tangible or intangible, that enables a person to transfer funds.
- m. *Payment order* - an order or message requesting the transfer of funds to the order of the payee.
- n. *Payment system* - the set of payment instruments, processes, procedures and participants that ensures the circulation of money or movement/transfer of funds.

- o. *PSMB* - a private industry-led self-governing body that is duly recognized by the Bangko Sentral to develop and enforce rules and agreements pertaining to members' clearing and settlement activities in accordance with the NRPS Framework and applicable Bangko Sentral regulations. The body shall be comprised of retail payment industry participants which are direct clearing participants. This body shall be a juridical entity that is not-for-profit and with the power to set and implement rules pertaining to members' clearing activities.
- p. *Point of Interaction (POI)* - a hardware and/or software whereby a customer or user is able to query or initiate a transaction from his account. Examples of POI include kiosk, smart device, etc.
- q. *Retail payments* - payments that meet at least one of the following characteristics: (i) the payment is not directly related to a financial market transaction; (ii) the settlement is not time-critical; (iii) the payer, the payee, or both are individuals or non-financial organizations; and (iv) either the payer, the payee, or both are not direct participants in the payment system that is processing the payment. This definition of retail payment includes person-to-person, person-to-business, business-to-person, business-to-business, person/business-to-government, and government-to-person/business payments.¹
- r. *Settlement* - an act that discharges obligations in respect of fund transfers between two (2) or more parties.
- s. *Sponsored into Settlement Member* - PSMB members who undertake settlement in at least one (1) ACH by engaging the settlement services of an ACH participant that can directly settle transactions through PhilPaSS.
- t. *Settlement sponsor bank or Sponsoring bank* - PSMB members who undertake settlement directly through PhilPaSS.
- u. *Working Group*- In the context of an ACH, it is a group organized for a specific payment stream under an ACH Participant Group. The ACH Working Group is responsible for drawing up, reviewing or revising the rules and agreements applicable to a specific ACH.

Purpose and scope. The NRPS Framework shall apply to all BSFIs which meet regulatory requirements and the criteria set on a per ACH basis under the NRPS framework.

The NRPS framework covers all retail payment-related activities, mechanisms, institutions and users. It applies to all domestic payments which are denominated in Philippine Peso (Php), and which may be for payments of goods and services, domestic remittances or fund transfers.

Retail payments under the NRPS Framework are payments that meet at least one of the following characteristics:

- a. the payment is not directly related to a financial market transaction;
- b. the settlement is not time-critical;
- c. the payer, the payee, or both are individuals or non-financial organizations; and
- d. either the payer, the payee, or both are not direct participants in the payment system that is processing the payment.

NRPS key principles. Under the NRPS framework, sound governance shall be performed by a PSMB, an industry-led self-governing body that is duly recognized and overseen by the Bangko Sentral. In the absence of a PSMB which conforms to the NRPS principles in *Appendix Q-126*, the functions of providing sound governance to the retail payment system participated in by BSFIs shall be discharged by the Bangko Sentral. The CSOs shall not participate in the governance of the payment system.

All clearing shall be done within the NRPS governance structure, wherein exclusive bilateral clearing arrangements are not allowed.

Non-discriminatory participation shall be espoused in the retail payment system. Hence, all BSFIs are highly encouraged to join the NRPS governance structure provided they meet the qualification criteria.

A reasonable market-based and transparent pricing mechanism shall be adopted by all BSFIs participating in the NRPS governance structure.

Further details on the key principles are embodied in the NRPS Framework shown in *Appendix 78*.

Specific rules applicable to transactions performed under the NRPS framework. The following rules shall apply to retail payment transactions which are cleared and settled in accordance with the NRPS Framework:

- a. Minimum requirements to offer Electronic Payment and Financial Services (EPFS). EPFS shall require notification to or approval by the Bangko Sentral in accordance with Sec. 701-Q. To offer EPFS, BSFIs shall conform to the following requirements:

¹ Developing a comprehensive National Retail Payments Strategy, Financial Infrastructure Service line Payment Systems Policy and Research, World Bank, October 2012, available at http://siteresources.worldbank.org/FINANCIALSECTOR/Resources/Developing_a_comprehensive_national_retail_payments_strategy_for_GPW_10_20%28v%29.pdf.

- (1) BSFIs shall make electronic payments available in all its delivery channels whenever applicable;
 - (2) BSFIs shall enable its clients to move/receive funds to/from accounts with other BSFIs, or, at a minimum, receive funds. Movement of funds between BSFIs shall be carried out through participation in an ACH;
 - (3) BSFIs shall immediately credit the account of its clients after receipt of clearing advice; and
 - (4) BSFIs shall conform to Sec. 701-Q, the IT Risk Management Standards and Guidelines on electronic banking, electronic payment, electronic money and other electronic products and services provided in *Appendix 66*.
- b. *Fees on transactions.* The BSFI's board of directors shall adopt a policy on the imposition of any fee on electronic payment transactions. The policy shall include the basis and quantitative support for the setting of fees and rationalization of the fee structure or amount. Imposition of fees for transactions performed by BSFIs that meet the requirements in Item "a" of this Section (*Specific Rules Applicable to Transactions Performed under the NRPS Framework*) shall be consistent with the following:
- (1) On consumer pricing-
 - (a) BSFIs shall adopt reasonable and fair market-based pricing models, which do not arise from agreements with other BSFIs to fix the price of product or service delivery.
 - (b) The service fees for electronic payments are expected to be lower than the fees collected from transactions made manually or over-the-counter (OTC) as electronic payments are considered to provide more efficient and cost-effective means of delivering service.
 - (c) The recipient shall not pay for electronic crediting to recipient's account and the recipient shall receive the amount in full. Such account to account fund transfers shall not be considered as domestic remittance transactions under Sec. 251-Q.
 - (2) The BSFI shall disclose to the Bangko Sentral the details of all fees that will be charged to the client. This will be posted in an electronic bulletin board of fees for transactions performed under the NRPS framework. The bulletin board shall be maintained by the Bangko Sentral in its website for enhanced transparency and competitiveness.
- c. *Anti-Money Laundering Requirements.* All BSFIs shall observe applicable AML/CFT requirements under Part Nine for all transactions performed under the NRPS framework. As part of on-going monitoring of customers and their transactions, the following rules shall apply to transactions performed under the NRPS framework by BSFIs that meet the requirements in Item "a" of this Section (*specific rules applicable to transactions performed under the NRPS Framework*):
- (1) The *originating institution (OI)* shall be responsible for monitoring, including appropriate watchlist screening or monitoring, its own client's transactions. It is the responsibility of the OI to ensure that the account name of the source account and the amount are consistent with the Sender Name and the amount indicated in the Payment Instruction sent by the OI.
 - (2) The *receiving institution (RI)* shall be responsible for monitoring, including appropriate watchlist screening or monitoring, its own client's transactions. It is the responsibility of the RI to ensure that the actual account number credited and the amount are consistent with the Beneficiary Account Number and the amount indicated in the Payment Instruction received by the RI.
 - (3) On the basis of the above, account number matching will suffice for domestic account-to-account electronic payments. OJs and RIs shall ensure that customers are informed that account number matching will suffice to implement a transaction, and OJs and RIs shall be held free and harmless from liability for their reliance on account number matching.
- d. BSFIs participating in the NRPS governance structure are required to comply with existing regulations of the Bangko Sentral.

Reports. BSFIs participating in the NRPS governance structure shall comply with requirements, which will be covered by a separate issuance.

Examination of BSFIs. BSFIs shall make available all policies, procedures and other documents/information related to this Section during the on-site examination, as well as provide copies thereof when a written request is made by the Bangko Sentral.

Sanctions. Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence to the requirements set forth in this Section and bring about timely corrective actions. The Bangko Sentral may issue directives to enforce compliance with the NRPS Framework or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety and soundness of the BSFI, among others.

Any violation of this Section shall subject the BSFI and/or its directors, officers and/or employees to the monetary and non-monetary sanctions under Section 37 of R.A. No. 7653, including but not limited to the following depending on the gravity of the violation committed and the circumstances attendant thereto:

- a. Suspension of offering new electronic financial products and services;
- b. Suspension/revocation of authority to provide electronic financial products and services; and
- c. Suspension/revocation of authority to settle through the Philippine Payments and Settlements System.

(Circular Nos. 1033 dated 22 February 2019, 1022 dated 26 November 2018, and 980 dated 06 November 2017)

802-Q SETTLEMENT OF INSTANT RETAIL PAYMENTS

Policy Statement. It is the thrust of the Bangko Sentral to ensure efficiency of payment systems in the country. In line with this thrust, the Bangko Sentral requires BSFIs participating in an ACH for instant retail payments to ensure that this ACH provides for certainty of settlement of the multilateral clearing obligations of the clearing participants. The settlement scheme agreed upon by the clearing participants shall form an integral part of the comprehensive credit risk management for instant retail payment services.

For the purpose of this Section, an instant retail payment, otherwise known as fast payment, is defined as an electronic payment in which the transmission of the payment message and the availability of “final” funds to the payee occur in real time or near-real time on as near to a 24-hour and seven-day (24/7) basis as possible¹. Moreover, as used in this Section, clearing participants shall refer to direct clearing participants.

Minimum requirements for the operation of a settlement mechanism for instant retail payments. The settlement mechanism for instant payments shall meet the following minimum requirements:

- a. A clearing participant or its settlement sponsor shall maintain with the Bangko Sentral a demand deposit account (DDA) which shall be used specifically for the settlement of the clearing participant’s net clearing obligations arising from instant retail payments;
- b. The clearing participant or its settlement sponsor shall prefund the settlement of its net clearing obligation through the DDA stated above, ensuring that such account can sufficiently cover said obligation at any point during a settlement cycle. When prefunding, the clearing participant/settlement sponsor shall consider increasing the fund in its account for longer settlement cycles such as during weekends and holidays;
- c. The clearing participants shall agree on thresholds which shall be the bases of the Clearing Switch Operator (CSO) to execute a notification process that enables the clearing participants to efficiently monitor movements in their instant retail payment positions, and at the same time alerts them to place additional funds in their DDAs particularly when the ultimate threshold is breached;
- d. The service contract between the clearing participants and the CSO shall include, at a minimum, the following provisions:
 - (1) The CSO shall record the clearing participants’ DDA balances obtained from the Bangko Sentral at the start of every settlement cycle and monitor the clearing participants’ net clearing obligations against their respective account balances;
 - (2) Should the instant retail payments position (Funds in the DDA minus net clearing obligation/withdrawal from the DDA) of any of the clearing participants breach their agreed-upon thresholds, the CSO shall immediately send an electronic notification to the concerned clearing participant; and
 - (3) Any instant retail payment which is not fully covered by the corresponding DDA or which will result in a negative instant retail payments position shall be rejected by the CSO. A clearing participant with an instant retail payments position of zero shall be suspended from carrying out further outgoing instant payment transactions until said participant registers a positive position on account of its incoming payment transactions and/or subsequent deposits into its DDA;
- e. Should the clearing participants determine that the funds in their DDAs for instant retail payments are excessive after taking into account their highest potential clearing obligations, the clearing participants shall be allowed to withdraw from their DDAs to enable them to make optimal use of their funds; and
- f. The Bangko Sentral shall not be precluded from deploying applicable regulatory enforcement actions to concerned clearing participants notwithstanding the inclusion of sanctions in the ACH for non-compliance with the clearing participants’ agreed-upon settlement mechanism.

¹ Based on the paper “Fast payments – Enhancing the speed and availability of retail payments” of the Committee on Payments and Market Infrastructures, Bank for International Settlements

Risk management. In view of the risks involved in the prescribed settlement mechanism for instant retail payments, including the possibility that a rejected payment transaction of a client due to prefunding issues may give rise to serious reputational damages to the concerned clearing participant, the BSFIs participating in the instant retail payment ACH shall ensure that they have the necessary operational and liquidity risk management measures in place. Such measures shall be designed in accordance with the guidelines provided under Sec. 146-Q on Operational Risk Management and Sec. 145-Q on Liquidity Risk Management.

Demand deposits for instant payments as eligible reserves. The DDAs maintained with the Bangko Sentral for the settlement of net clearing obligations arising from instant retail payment transactions shall form part of the QB' reserves against deposit and deposit substitute liabilities pursuant to Sec. 212-Q.

Supervisory enforcement action. Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote compliance with the requirements set forth in this Section and ensure timely implementation of preventive or corrective measures as needed. As part of its enforcement actions, the Bangko Sentral may issue directives or impose sanctions which limit the level of or suspend any business activity that adversely affects the safety and soundness of a BSFI.

(Circular No. 1000 dated 23 April 2018)

803-Q PARTICIPATION IN AUTOMATED CLEARING HOUSES (ACHS)

BSFIs that have been licensed to offer funds transfer services shall make these services interoperable by participating in an ACH. Prior to its participation, a BSFI shall observe the following guidelines:

- a. Secure a Confirmation of Eligibility (COE) by submitting to the Bangko Sentral through the appropriate supervising department of the Bangko Sentral a letter of intent to participate in an identified ACH. This letter shall be accompanied by a certification (*Annex A of Appendix Q-89*) signed by the president (or any officer of equivalent rank and function) and chief compliance officer (CCO).

If the BSFI is not yet a member of the Payment System Management Body (PSMB), it shall also indicate in its letter that it intends to become a member of this body;

- b. Submit the following minimum documentary requirements to the PSMB duly recognized by the Bangko Sentral.
 - (1) Valid COE. A COE shall be valid for a period of six (6) months from date of issuance;
 - (2) Corporate Secretary's Certificate (or equivalent document in the case of foreign bank branches) on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the participation of the BSFI in the ACH; and
 - (3) Copy of the agreement with the bank sponsoring the BSFI into settlement, if applicable; and
- c. Comply with any other requirements set by the PSMB or provided in the ACH.

(Circular No. 1033 dated 22 February 2019)

PART NINE

ANTI-MONEY LAUNDERING (AMLA) AND COMBATTING THE FINANCING OF TERRORISM REGULATIONS

901 - Q BANGKO SENTRAL AUTHORITY TO CHECK COMPLIANCE WITH THE AMLA, AS AMENDED

In the course of a periodic or special examination, the Bangko Sentral may inquire into or examine bank accounts or investments, including customer identification, account opening, and transaction documents, for the purpose of checking compliance by covered persons under its supervision or regulation with the requirements of these rules, the AMLA, as amended and the Terrorism Financing Prevention and Suppression Act (TFPSA), their respective RIRR, and other Anti-Money Laundering Council (AMLC) and Bangko Sentral issuances.

The Bangko Sentral may likewise conduct annual testing solely limited to the determination of the existence and true identity of the owners of numbered and similar accounts.

In the course of the periodic and special examination for purposes of complying with the provisions of the AMLA, as amended, its RIRR, and this Part, the covered person, their officers and employees, and the Bangko Sentral, shall not be deemed to have violated the provisions of R. A. No. 1405, as amended, R.A. No. 6426, as amended, R.A. No. 8791 and other similar laws, and Sec. 922-Q (*Confidentiality provision*) when disclosing information to Bangko Sentral relative to covered and suspicious transaction reports filed with the AMLC.

(Circular No. 1022 dated 26 November 2018, 950 dated 15 March 2017)

902 - Q POLICY STATEMENT

The Bangko Sentral adopts the policies of the State to (a) protect and preserve the integrity of the Philippine financial system, including the confidentiality of bank accounts; (b) ensure that the Philippines, in general, and the covered persons, in particular, shall not be used, as money laundering sites and conduit for the proceeds of unlawful activities as herein defined; (c) protect life, liberty and property from acts of terrorism and to condemn terrorism and those who support and finance it and reinforce the fight against terrorism by criminalizing the financing of terrorism and related offenses; (d) recognize terrorism and terrorist financing as inimical and dangerous to national security and the welfare of the people; and make the financing of terrorism a crime against the Filipino people, against humanity and against the law of nations; and (e) adhere to international commitments to combat financing of terrorism, specifically the International Convention for the Suppression of the Financing of Terrorism, as well as other binding terrorism related resolutions of the United Nations Security Council, pursuant to Chapter 7 of the United Nations Charter.

(Circular Nos. 1022 dated 26 November 2018, 950 dated 15 March 2017)

903 - Q SCOPE OF REGULATIONS

These regulations shall apply to all covered persons supervised and regulated by the Bangko Sentral. The term “*covered persons*” shall refer to banks, non-banks, QBs, trust entities, non-stock savings and loan associations, pawnshops, foreign exchange dealers, money changers, remittance and transfer companies, electronic money issuers and other financial institutions which under special laws are subject to Bangko Sentral and/or regulation, including their subsidiaries and affiliates, which are also covered persons, wherever they may be located. For this purpose, subsidiary and affiliate shall be defined as:

- a. A *subsidiary* means an entity more than fifty percent (50%) of the outstanding voting stock of which is owned by a covered person.
- b. An *affiliate* means an entity the voting stock of which, at least twenty percent (20%) to not more than fifty percent (50%), is owned by a covered person.

Pursuant to Section 20 of the General Banking Law of 2000, a bank authorized by Bangko Sentral to establish branches or other offices within or outside the Philippines shall be responsible for all business conducted in such branches and offices to the same extent and in the same manner as though such business had all been conducted in the head office. A bank and its branches and offices shall be treated as one (1) unit.

If the host country does not permit the proper implementation of this Part or any of the provisions of the AMLA, as amended, the TFPSA, or their Implementing Rules and Regulation (IRR), and other Anti-Money Laundering Council (AMLC) and Bangko Sentral issuances by reason of local laws, regulations or a supervisory directive, the covered person shall (1) formally notify the Bangko Sentral of this situation and furnish a copy of the applicable laws and/or regulations or the supervising authority's directive, as the case may be; and (2) apply appropriate additional measures or mitigating controls to manage the money laundering (ML) and terrorist financing (TF) risks.

In cases where the minimum AML/CFT requirements of the host country are less strict, covered persons, including their foreign branches and majority-owned subsidiaries abroad, shall apply AML/CFT measures consistent with the AMLA and the TFPsA and their respective RIRR, and other AMLC and Bangko Sentral issuances, to the extent that the laws and regulations of the host country permit.

(Circular Nos. 1022 dated 26 November 2018, 950 dated 15 March 2017)

904 - Q DEFINITION OF TERMS

Except as otherwise defined herein, all terms used shall have the same meaning as those terms that are defined in the AMLA, as amended, and its RIRR.

- a. *Money laundering* is committed by any person who, knowing that any monetary instrument or property represents, involves, or relates to the proceeds of any unlawful activity:
- (1) transacts said monetary instrument or property;
 - (2) converts, transfers, disposes of, moves, acquires, possesses or uses said monetary instrument or property;
 - (3) conceals or disguises the true nature, source, location, disposition, movement or ownership of or rights with respect to said monetary instrument or property;
 - (4) attempts or conspires to commit money laundering offenses referred to in Items “(1)”, “(2)” or “(3)” above;
 - (5) aids, abets, assists in or counsels the commission of the money laundering offenses referred to in Items “(1)”, “(2)” or “(3)” above; and
 - (6) performs or fails to perform any act as a result of which he facilitates the offense of money laundering referred to in Items “(1)”, “(2)” or “(3)” above.

Money laundering is also committed by any covered person who, knowing that a covered or suspicious transaction is required to be reported to the Anti-Money Laundering Council (AMLC) under any of the provisions of the AMLA, as amended, its RIRR, or this Part, fails to do so.

- b. *Financing of terrorism* is a crime committed by a person who, directly or indirectly, willfully and without lawful excuse, possesses, provides, collects or uses property or funds or makes available property, funds or financial service or other related services, by any means, with the unlawful and willful intention that they should be used or with the knowledge that they are to be used, in full or in part: (1) to carry out or facilitate the commission of any terrorist act; (2) by a terrorist organization, association or group; or (3) by an individual terrorist.
- c. *Covered transaction* (CT) refers to a transaction in cash or other equivalent monetary instrument exceeding five hundred thousand pesos (P500,000).
- d. *Suspicious transaction* (ST) refers to a transaction with a covered person, regardless of the amount involved, where any of the following circumstances exists:
- (1) There is no underlying legal or trade obligation, purpose or economic justification;
 - (2) The client is not properly identified;
 - (3) The amount involved is not commensurate with the business or financial capacity of the client;
 - (4) Taking into account all known circumstances, it may be perceived that the client’s transaction is structured in order to avoid being the subject of reporting requirements under the AMLA, as amended;
 - (5) Any circumstance relating to the transaction which is observed to deviate from the profile of the client and/or the client’s past transactions with the covered person;
 - (6) The transaction is in any way related to an unlawful activity or any money laundering activity or offense, that is about to be committed, is being or has been committed; or
 - (7) Any transaction that is similar, analogous or identical to any of the foregoing.

Any unsuccessful attempt to transact with a covered person, the denial of which is based on any of the foregoing circumstances, shall likewise be considered as ST.

- e. *Monetary instrument* shall include, but is not limited to the following:
- (1) Coins or currency of legal tender of the Philippines, or of any other country;
 - (2) Credit instruments, including bank deposits, financial interest, royalties, commissions and other intangible property;
 - (3) Drafts, checks, and notes;
 - (4) Stocks or shares, participation or interest in a corporation or in a commercial enterprise or profit-making venture and evidenced by a certificate, contract, instrument, whether written or electronic in character including those enumerated in Section 3 of the Securities Regulation Code;
 - (5) A participation or interest in any non-stock, non-profit corporation;
 - (6) Securities or negotiable instruments, bonds, commercial papers, deposit certificates, trust certificates, custodial receipts or deposit substitute instruments, trading orders, transaction tickets and confirmations of sale or investments and money market instruments;
 - (7) Contracts or policies of insurance, life or non-life, contracts of suretyship, pre-need plans and member certificates issued by mutual benefit association; and
 - (8) Other similar instruments where title thereto passes to another by endorsement, assignment or delivery.
- f. *Unlawful activity* refers to any act or omission or series or combination thereof involving or having direct relation to the following:
- (1) Kidnapping for ransom under Article 267 of Act No. 3815, otherwise known as the Revised Penal Code (RPC), as amended;
 - (2) Sections 4, 5, 6, 8, 9, 10, 11, 12, 13, 14, 15 and 16 of R.A. No. 9165, otherwise known as the Comprehensive Dangerous Drugs Act of 2002;
 - (3) Section 3 paragraphs "B", "C", "E", "G", "H" and "I" of R.A. No. 3019, as amended, otherwise known as the Anti-Graft and Corrupt Practices Act;
 - (4) Plunder under R.A. No. 7080, as amended;
 - (5) Robbery and extortion under Articles 294, 295, 296, 299, 300, 301 and 302 of the RPC, as amended;
 - (6) Jueteng and Masiao punished as illegal gambling under P.D. No. 1602;
 - (7) Piracy on the high seas under the RPC, as amended, and P.D. No. 532;
 - (8) Qualified theft under Article 310 of the RPC, as amended;
 - (9) Swindling under Article 315 and "Other Forms of Swindling" under Article 316 of the RPC, as amended;
 - (10) Smuggling under R.A. Nos. 455 and 1937, as amended, otherwise known as the Tariff and Customs Code of the Philippines;
 - (11) Violations under R.A. No. 8792, otherwise known as the Electronic Commerce Act of 2000;
 - (12) Hijacking and other violations under R.A. No. 6235, otherwise known as the "Anti-Hijacking Law"; "Destructive Arson"; and "Murder", as defined under the RPC, as amended;
 - (13) Terrorism and conspiracy to commit terrorism as defined and penalized under Sections 3 and 4 of R.A. 9372;
 - (14) Financing of terrorism under Section 4 and offenses punishable under Sections 5, 6, 7 and 8 of R.A. No. 10168, otherwise known as the Terrorism Financing Prevention and Suppression Act of 2012;
 - (15) Bribery under Articles 210, 211 and 211-a of the RPC, as amended, and Corruption of Public Officers under Article 212 of the RPC, as amended;
 - (16) Frauds and illegal exactions and transactions under Articles 213, 214, 215 and 216 of the RPC, as amended;
 - (17) Malversation of public funds and property under Articles 217 and 222 of the RPC, as amended;
 - (18) Forgeries and counterfeiting under Articles 163, 166, 167, 168, 169 and 176 of the RPC, as amended;
 - (19) Violations of Sections 4 to 6 of R.A. No. 9208, otherwise known as the Anti-trafficking in Persons Act of 2003, as amended;
 - (20) Violations of Sections 78 to 79 of Chapter IV, of Presidential Decree No. 705, otherwise known as the Revised Forestry Code of the Philippines, as amended;
 - (21) Violations of Sections 86 to 106 of Chapter IV, of R.A. No. 8550, otherwise known as the Philippine Fisheries Code of 1998;
 - (22) Violations of Sections 101 to 107, and 110 of R.A. No. 7942, otherwise known as the Philippine Mining Act of 1995;
 - (23) Violations of Section 27(C), (E), (F), (G) and (I), of R.A. No. 9147, otherwise known as the Wildlife Resources Conservation and Protection Act;
 - (24) Violation of Section 7(B) of R.A. No. 9072, otherwise known as the National Caves and Cave Resources Management Protection Act;

- (25) Violation of R.A. No. 6539, otherwise known as the Anti-Carnapping Act of 2002, as amended;
- (26) Violations of Sections 1, 3 and 5 of P.D. No. 1866, as amended, otherwise known as the Decree Codifying the Laws on Illegal/Unlawful Possession, Manufacture, Dealing in, Acquisition or Disposition of Firearms, Ammunition or Explosives;
- (27) Violation of P.D. No. 1612, otherwise known as the Anti-Fencing Law;
- (28) Violation of Section 6 of R.A. No. 8042, otherwise known as the Migrant Workers and Overseas Filipinos Act of 1995, as amended by R.A. No. 10022;
- (29) Violation of R.A. No. 8293, otherwise known as the Intellectual Property Code of the Philippines, as amended;
- (30) Violation of Section 4 of R.A. No. 9995, otherwise known as the Anti-photo and Video Voyeurism Act of 2009;
- (31) Violation of Section 4 of R.A. No. 9775, otherwise known as the Anti-child Pornography Act of 2009;
- (32) Violations of Sections 5, 7, 8, 9, 10 (C), (D) and (E), 11, 12 and 14 of R.A. No. 7610, otherwise known as the Special Protection of Children against Abuse, Exploitation and Discrimination;
- (33) Fraudulent practices and other violations under R.A. No. 8799, otherwise known as the Securities Regulation Code of 2000; and
- (34) Felonies or offenses of a nature similar to the aforementioned unlawful activities that are punishable under the penal laws of other countries.

In determining whether or not a felony or offense punishable under the penal laws of other countries is “of similar nature”, as to constitute an unlawful activity under the AMLA, the nomenclature of said felony or offense need not be identical to any of the unlawful activities listed above.

- g. *Transaction* refers to any act establishing any right or obligation or giving rise to any contractual or legal relationship between the parties thereto. It also includes any movement of funds by any means with a covered person.
- h. *Proceed* refers to an amount derived or realized from any unlawful activity.
- i. *Monetary instrument or property related to an unlawful activity* refers to:
 - (1) All proceeds of an unlawful activity;
 - (2) All monetary, financial or economic means, devices, accounts, documents, papers, items or things used in or having any relation to any unlawful activity;
 - (3) All moneys, expenditures, payments, disbursements, costs, outlays, charges, accounts, refunds and other similar items for the financing, operations, and maintenance of any unlawful activity; and
 - (4) For purposes of freeze order and bank inquiry: related and materially-linked accounts.
 - (a) “*Related accounts*” refer to those accounts, the funds and sources of which originated from and/or are materially-linked to the monetary instruments or properties subject of the freeze order or an order of inquiry.
 - (b) “*Materially-linked accounts*” shall include the following:
 - (i) All accounts or monetary instruments under the name of the person whose accounts, monetary instruments, or properties are the subject of the freeze order or an order of inquiry;
 - (ii) All accounts or monetary instruments held, owned, or controlled by the owner or holder of the accounts, monetary instruments, or properties subject of the freeze order or order of inquiry, whether such accounts are held, owned or controlled singly or jointly with another person;
 - (iii) All “In Trust For” accounts where either the trustee or the trustor pertains to a person whose accounts, monetary instruments, or properties are the subject of the freeze order or order of inquiry;
 - (iv) All accounts held for the benefit or in the interest of the person whose accounts, monetary instruments, or properties are the subject of the freeze order or order of inquiry; and
 - (v) All other accounts, shares, units, or monetary instruments that are similar, analogous, or identical to any of the foregoing.
- j. *Client/Customer* refers to any person or entity who keeps an account, or otherwise transacts business with a covered person. It includes the following: (1) any person or entity on whose behalf an account is maintained or a transaction is conducted, as well as the beneficiary of said transactions; (2) beneficiary of a trust, an investment fund or a pension fund; (3) a company or person whose assets are managed by an asset manager; (4) a grantor of a trust; and (5) any insurance policy holder, whether actual or prospective.

- k. *Shell company* refers to a legal entity which has no business substance in its own right but through which financial transactions may be conducted.
- l. *Shell bank* refers to a shell company incorporated as a bank or made to appear to be incorporated as a bank but has no physical presence and no affiliation with a regulated financial group. It can also be a bank that (a) does not conduct business at a fixed address in a jurisdiction in which the shell bank is authorized to engage; (b) does not employ one (1) or more individuals on a full time basis at this fixed address; (c) does not maintain operating records at this address, and (d) is not subject to inspection by the authority that licensed it to conduct banking activities.
- m. *Beneficial owner* refers to any natural person(s) who ultimately owns or controls a customer and/or on whose behalf a transaction is being conducted; or those who has ultimate effective control over a juridical person or legal arrangement.

Ultimate effective control refers to situation in which ownership/control is exercised through actual or a chain of ownership or by means other than direct control.

Beneficial owner shall be:

- (1) The natural persons, if any, who ultimately have controlling ownership interest in a juridical person.

A shareholding or ownership interest of at least twenty percent (20%) in the customer held by a natural person shall be an indication of direct ownership. A shareholding or ownership interest of at least twenty percent (20%) in the customer held by a corporate entity, which is under the control of a natural person(s), or by multiple corporate entities, which are under the control of the same natural person(s), shall be an indication of indirect ownership.

- (2) The natural persons, if any, exercising control over the juridical person through other means, to the extent that there is a doubt under Item "(1)" above, as to whether the persons with the controlling ownership interest are the beneficial owners or where no natural person exerts control through ownership interests.

Control through other means, includes control exerted by means of trusts, agreements, arrangements, understandings, or practices, or when an individual can exercise control through making decisions about financial and operating policies. In addition, control also includes: (a) power to govern the financial and operating policies of the enterprise under statute or an agreement; (b) power to appoint or remove the majority of the members of the board of directors or equivalent governing body; (c) power to cast the majority votes at a meeting of the board of directors or equivalent governing body; or (d) any other arrangement similar to any of the above.

- (3) The natural person(s) who hold the position of senior managing official(s) or equivalent ranks, where no person under Items "(1)" and "(2)" is identified, or if there is any doubt that the person(s) identified are the beneficial owner(s).

- n. *Politically exposed person or PEP* refers to an individual who is or has been entrusted with prominent public position in (1) the Philippines with substantial authority over policy, operations or the use or allocation of government-owned resources; (2) a foreign state, or (3) an international organization.

The term *PEP* shall include immediate family members, and close relationships and associates that are reputedly known to have:

- (1) Joint beneficial ownership of a legal entity or legal arrangement with the main/ principal PEP; or
- (2) Sole beneficial ownership of a legal entity or legal arrangement that is known to exist for the benefit of the main/ principal PEP.

Immediate family members of PEPs refer to individuals who are related to a PEP within the second degree of affinity or consanguinity

Close associates of PEPs refer to persons who are widely and publicly known to maintain a particularly close relationship with the PEP, and include persons who are in a position to conduct substantial domestic and international financial transactions on behalf of the PEP.

- o. *Correspondent banking* refers to the provision of banking services by one (1) bank (the "correspondent bank") to another bank (the "respondent bank").

- p. *Payable-through account* refers to a correspondent account that is used directly by third parties to transact business on their own behalf.
- q. *Fund/wire transfer* refers to any transaction carried out on behalf of an originator (both natural and juridical) through an FI (originating institution) by electronic means with a view to making an amount of money available to a beneficiary at another FI (beneficiary institution). The originator person and the beneficiary person may be the same person.
- r. *Cross border transfer* refers to any wire transfer where the originating and beneficiary institutions are located in different countries. It shall also refer to any chain of wire transfer that has at least one (1) cross border element.
- s. *Domestic transfer* refers to any wire transfer where the originating and beneficiary institutions are located in the same country. It shall refer to any chain of wire transfers that takes place entirely within the borders of a single country, even though the system used to effect the fund/wire transfer may be located in another country.
- t. *Originating financial institution* refers to the financial institution which initiates the wire transfer and transfers the funds upon receiving the request for a wire transfer on behalf of the originator.
- u. *Beneficiary financial institution* refers to the financial institution which receives the wire transfer from the originating financial institution, directly or through an intermediary financial institution, and makes the funds available to the beneficiary.
- v. *Intermediary financial institution* refers to a financial institution in a serial or cover payment chain that receives and transmits a wire transfer on behalf of the originating financial institution and the beneficiary financial institution, or another intermediary financial institution.
- w. *Official document* refers to any of the following identification documents:
 - (1) For Filipino citizens: Those issued by any of the following official authorities:
 - (a) Government of the Republic of the Philippines, including its political subdivisions, agencies, and instrumentalities;
 - (b) Government-Owned or -Controlled Corporations (GOCCs); or
 - (c) Covered persons registered with and supervised or regulated by the Bangko Sentral, SEC or IC;
 - (d) Philippine Statistics Authority (PSA) under the Philippine Identification System (PhilSys)
 - (2) For foreign nationals: Passport or Alien Certificate of Registration;
 - (3) For Filipino students: School ID signed by the school principal or head of the educational institution; and
 - (4) For low risk customers: Any document or information reduced in writing which the covered person deems sufficient to establish the client's identity.
 - (5) Other identification document that can be verified using reliable, independent source documents, data or information.
- x. *Juridical person* refers to an entity other than a natural person as defined under Chapter 3 of the Civil Code of the Philippines, that can establish a permanent customer relationship with any financial institution or otherwise own property.
- y. *Money or Value Transfer Service (MVTs) or Money Service Business (MSB)* refers to financial services that involve the acceptance of cash, checks, other monetary instruments or other stores of value, and the payment of a corresponding sum in cash or other form to a beneficiary by means of a communication, message, transfer, or through a clearing network to which the service provider belongs.
- z. *Originator* refers to the account holder who allows the wire transfer from an account, or where there is no account, the person that places an order with the originating financial institution to perform a wire transfer.
- aa. *Philippine Identification Card (PhilID)* refers to the non-transferrable identification card issued by the PSA to all citizens and resident aliens registered under the PhilSys, which serves as the official government-issued identification document of cardholders in dealing with all government agencies, local government units, government and controlled corporations, government financial institutions, and all private sector entities.
- bb. *Cover payment* refers to a wire transfer that combines a payment message sent directly by the originating financial institution to the beneficiary financial institution with the routing of the funding instruction (the cover), from the originating financial institution to the beneficiary financial institution through one or more intermediary financial institutions.

- cc. *Serial Payment* refers to a direct sequential chain of payment where the wire transfer and accompanying payment message travel together from the originating financial institution to the beneficiary financial institution, directly or through one (1) or more intermediary financial institutions.
- dd. *Settlor/Grantor/Trustor* refers to a person who transfers ownership of his assets to trustees by means of a trust deed or similar arrangement.
- ee. *Source of Fund* refers to the origin of the funds or other monetary instrument that is the subject of the transaction or business or professional relationship between a covered person and its customer, such as cash on hand, safety deposit box with a covered person, and a particular bank or investment account.
- ff. *Source of Wealth* refers to the resource from which the customer's wealth, including all monetary instruments and properties, came, comes, or will come from, such as employment, business, investments, foreign remittance, inheritance and donation.
- gg. *Straight-through Processing* refers to payment transactions that are conducted electronically without the need for manual intervention.

(Circular Nos. 1022 dated 26 November 2018, 950 dated 15 March 2017)

905 - Q BASIC PRINCIPLES AND POLICIES TO COMBAT MONEY LAUNDERING

In line with the declaration of policy, covered persons shall apply the following principles:

- a. Conduct business in conformity with high ethical standards in order to protect its safety and soundness as well as the integrity of the national banking and financial system;
- b. Know sufficiently your customer at all times and ensure that the financially or socially disadvantaged are not denied access to financial services while at the same time prevent suspicious individuals or entities from opening or maintaining an account or transacting with the covered person by himself or otherwise;
- c. Adopt and effectively implement a sound AML and terrorist financing risk management system that identifies, assesses, monitors and controls risks associated with money laundering and terrorist financing;
- d. Comply fully with this Part and existing laws aimed at combating money laundering and terrorist financing by making sure that officers and employees are aware of their respective responsibilities and carry them out in accordance with superior and principled culture of compliance; and
- e. Fully cooperate with AMLC for the effective implementation and enforcement of the AMLA, as amended, and its RIRR.

(Circular No. 950 dated 15 March 2017)

A. RISK MANAGEMENT

911 - Q RISK MANAGEMENT

All covered persons shall develop sound risk management policies and practices to ensure that risks associated with ML/TF such as reputational, operational, and compliance risks are identified, assessed, monitored, mitigated and controlled, as well as to ensure effective implementation of this Part, to the end that covered persons shall not be used as a vehicle to legitimize proceeds of unlawful activity or to facilitate or finance terrorism.

The four (4) areas of sound risk management practices are adequate and active board and senior management oversight, acceptable policies and procedures embodied in a money laundering and terrorist financing prevention compliance program, appropriate monitoring and Management Information System and comprehensive internal controls and audit.

Board and senior management oversight. Notwithstanding the provisions specifying the duties and responsibilities of the compliance office and internal audit, it shall be the ultimate responsibility of the board of directors to fully comply with the provisions of this Part, these rules, the AMLA, as amended, the TFPsA and their RIRR. It shall ensure that ML/TF risks are effectively managed and that this forms part of the covered person's enterprise risk management system.

Senior management shall oversee the day-to-day management of the covered person, ensure effective implementation of AML/CFT policies approved by the board and alignment of activities with the strategic objectives, risk profile and corporate values set by the board. Senior management shall establish a management structure that promotes accountability and transparency and upholds checks and balances.

- a. *Compliance Office.* Management of the implementation of the covered person's Money Laundering and Terrorist Financing Prevention Program (MLPP) shall be a primary task of the compliance office. To ensure the independence of the office, it shall have a direct reporting line to the board of directors or any board-level or approved committee on all matters related to AML and TF compliance and their risk management. It shall be principally responsible for the following functions among other functions that may be delegated by senior management and the board, to wit:
 - (1) Ensure compliance by all responsible officers and employees with this Part, the AMLA, as amended, the RIRR and its own MLPP. It shall conduct periodic compliance checking which covers, among others, evaluation of existing processes, policies and procedures including on-going monitoring of performance by staff and officers involved in ML and TF prevention, reporting channels, effectiveness of the electronic money laundering transaction monitoring system and record retention system through sample testing and review of audit or examination reports. It shall also report compliance findings to the board or any board-level committee;
 - (2) Ensure that infractions, discovered either by internally initiated audits, or by special or regular examination conducted by the Bangko Sentral, or other applicable regulators, are immediately corrected;
 - (3) Inform all responsible officers and employees of all resolutions, circulars and other issuances by the Bangko Sentral and the AMLC in relation to matters aimed at preventing ML and TF;
 - (4) Alert senior management, the board of directors, or the board-level or approved committee if it believes that the covered person is failing to appropriately address AML/CFT issues; and
 - (5) Organize the timing and content of AML training of officers and employees including regular refresher trainings as stated in Sec. 931-Q.
- b. *Group-wide Money Laundering and Terrorist Financing Prevention Program (MTPP).* Financial groups shall implement group-wide MTPP, which shall be applied to their branches and majority-owned subsidiaries as provided in Sec. 903-Q. The group-wide MTPP shall include the measures set out in Sec. 911-Q (*Monitoring and reporting tools*).

The group-wide compliance officer or in its absence, the compliance officer of the parent entity, shall oversee the AML/CFT compliance of the entire group with reasonable authority over the compliance officers of said branches, subsidiaries or offices.

Money Laundering and Terrorist Financing Prevention Program (MTPP). All covered persons shall adopt a comprehensive and risk-based MTPP geared toward the promotion of high ethical and professional standards and prevention of the covered person from being used, intentionally or unintentionally, for ML/TF activities. The MTPP shall include policies, controls and procedures to enable the covered persons to manage and mitigate the risks that have been identified in their risk assessment, including taking enhanced measures for those classified as posing higher risks. The MTPP shall also be consistent with the AMLA, as amended, the TFP SA, their respective RIRR and the provisions set out in this Part. It shall be in writing, approved by the board of directors or by the country/regional head or its equivalent for local branches of foreign banks, and well disseminated to all officers and staff who are obligated by law and by their program to implement the same. Where a covered person has branches, subsidiaries, affiliates or offices located within and/or outside the Philippines, there shall be a consolidated ML/TF risk management system to ensure the coordination and implementation of policies and procedures on a group-wide basis, taking into account local business considerations and the requirements of the host jurisdiction and the level of country risk.

The MTPP shall also be readily available in user-friendly form, whether in hard or soft copy. The covered person must put up a procedure to ensure an audit trail evidencing dissemination process for new and amended policies and procedures. The program shall embody the following at a minimum:

- a. Detailed procedures of the covered person's compliance and implementation of the following major requirements of the AMLA, as amended, its RIRR, and this Part, to wit:
 - (1) Customer identification process including acceptance policies and on-going monitoring processes;
 - (2) Record keeping and retention;
 - (3) Covered transaction reporting; and
 - (4) ST reporting including the adoption of a system, electronic or manual, of flagging, monitoring and reporting of transactions that qualify as suspicious transactions, regardless of amount or that will raise a "*red flag*" for purposes of conducting further verification or investigation, or transactions involving amounts below the threshold to facilitate the process of aggregating them for purposes of future reporting of such transactions to the AMLC when their aggregated amounts breach the threshold. The ST reporting shall include a reporting chain under which a ST will be processed and the designation of a board-level or approved committee who will ultimately decide whether or not the covered person should file a report to the AMLC. If the resources of the covered person do not permit the designation of a committee, it may designate the compliance officer to perform this function instead: *Provided*, That the board of directors is informed of his decision.
- b. An effective and continuous AML/CFT training program for all directors, and responsible officers and employees, to enable them to fully comply with their obligations and responsibilities under this Part, the AMLA, as amended, its RIRR and their internal policies and procedures as embodied in the MLPP. The training program shall also include refresher trainings to remind these individuals of their obligations and responsibilities as well as update them of any changes in AML laws, rules and internal policies and procedures.
- c. An adequate screening and recruitment process to ensure that only qualified personnel who have no criminal record/s are employed to assume sensitive banking functions;
- d. An internal audit system in accordance with Sec. 911-Q (*Internal audit*);
- e. An independent audit program with written scope of audit that will ensure the completeness and accuracy of the information and identification documents obtained from clients, the covered and suspicious transactions reports submitted to the AMLC, and the records retained in compliance with this Part as well as adequacy and effectiveness of the training program on the prevention of money laundering and terrorism financing;
- f. A mechanism that ensures all deficiencies noted during the audit and/or Bangko Sentral regular or special examination or other applicable regulator's examination are immediately corrected and acted upon;
- g. Cooperation with AMLC and Bangko Sentral; and
- h. Designation of an AML compliance officer, who shall at least be at senior officer level, as the lead implementor of the program within an adequately staffed compliance office. The AML compliance officer may also be the liaison between the covered person, the Bangko Sentral and the AMLC in matters relating to the covered person's AML/CFT compliance. Where resources of the covered person do not permit the hiring of an AML compliance officer, the compliance officer shall also assume the responsibility of the former.
- i. Policies and procedures for sharing information required for the purposes of customer due diligence (CDD) and risk management;
- j. A provision that the group-level compliance, audit, and/or AML/CFT functions should be provided with customer, account, and transaction information from branches and subsidiaries when necessary for AML/CFT purposes. This should include information on analysis of transactions or activities which appear unusual, if such analysis was done. Similarly, branches and subsidiaries should receive such information from these group-level functions when relevant and appropriate to risk management. The MTPP may require a potential and/or existing customer to sign a waiver on the disclosure of information within the group;
- k. Adequate safeguards on the confidentiality and use of information exchanged, including safeguards to prevent tipping-off;

- l. A mechanism to comply with freeze, bank inquiry and asset preservation orders, and all directives of the AMLC; and
- m. A mechanism to comply with the prohibitions from conducting transactions with designated persons and entities, as set out in the relevant United Nations Security Council Resolutions (UNSCRs) relating to the prevention and suppression of terrorism and terrorist financing and financing of proliferation of weapons of mass destruction.

Submission of the revised and updated MLPP. Approval by the board of directors or country head. Within six (6) months from 05 April 2017, all covered persons shall prepare and have available for inspection an updated MLPP, approved by the board of directors, embodying the principles and provisions stated in this Part.

Henceforth, each MLPP shall be regularly updated at least once every two (2) years to incorporate changes in AML policies and procedures, latest trends in ML and TF typologies, and latest pertinent Bangko Sentral issuances. Any revision or update in the MLPP shall likewise be approved by board of directors or the country/ regional head or its equivalent for local branches of foreign banks.

Monitoring and reporting tools. All covered persons shall adopt an AML/CFT monitoring system that is appropriate for their risk profile and business complexity and in accordance with this Part. The system should be capable of generating timely, accurate and complete reports to lessen the likelihood of any reputational and compliance risks, and to regularly apprise the board of directors and senior management on AML/CFT compliance.

- a. *Electronic monitoring and reporting systems for AML/CFT.* UBs and KBs and such covered persons that are considered complex pursuant to Sec. 133-Q shall adopt an electronic AML system capable of monitoring risks associated with ML/TF as well as generating timely reports for the guidance and information of its board of directors and senior management, in addition to the functionalities mentioned in Sec. 922-Q (*Electronic monitoring system for money laundering*).
- b. *Manual monitoring.* Covered persons not required to adopt an AML/CFT electronic system must ensure that they have the means of complying with Sec. 911-Q (*Monitoring and reporting tools*).

Internal audit. The internal audit function associated with money laundering and terrorist financing should be conducted by qualified personnel who are independent of the office being audited. It must have the support of the board of directors and senior management and have a direct reporting line to the board or a board-level audit committee.

The internal audit shall, in addition to those specified by this Part, be responsible for the periodic and independent evaluation of the risk management, degree of adherence to internal control mechanisms related to the customer identification process, such as the determination of the existence of customers and the completeness of the minimum information and/or documents establishing the true and full identity of, and the extent and standard of due diligence applied to, customers, CT and ST reporting and record keeping and retention, as well as the adequacy and effectiveness of other existing internal controls associated with money laundering and terrorist financing.

For covered persons with electronic AML/CFT transaction monitoring system, in addition to the above, the internal audit shall include determination of the efficiency of the system's functionalities as required by Sec. 911-Q (*Monitoring and reporting tools*) and Sec. 922-Q (*Electronic monitoring system for money laundering*).

The results of the internal audit shall be timely communicated to the board of directors and shall be open for scrutiny by Bangko Sentral examiners in the course of the regular or special examination without prejudice to the conduct of its own evaluation whenever necessary. Results of the audit shall likewise be promptly communicated to the Compliance Office for appropriate monitoring of corrective actions taken by the different business units concerned. The Compliance Office shall regularly submit reports to the board to inform them of management's action to address deficiencies noted in the audit.

Risk assessment. Consistent with risk-based approach, covered persons are required to identify, understand and assess their ML/TF risks, arising from customers, countries or geographic areas of operations and customers, products, services, transactions or delivery channels. The assessment methodology shall be appropriate to the nature of operations and complexity of the business of the covered person. The institutional risk assessment shall (a) consider all relevant risk factors; (b) adequately document results and findings; and (c) be updated periodically or as necessary. The institutional risk assessment shall be conducted, at least once every two (2) years, or as often as the Board or senior management may direct, depending on the level of risks identified in the previous risk assessment, or other relevant AML/CFT developments that may have an impact on the covered person's operations.

Based on the risk assessment, the covered person shall take appropriate measures to manage and mitigate ML/TF risks and take enhanced measures on identified high risks area, which should be incorporated in its MTPP. The risk assessment shall be made available to the Bangko Sentral during examination or in other circumstances deemed necessary as part of continuous supervision.

New products and business practices risk assessment. Covered persons are also required to identify and assess the ML/TF risks that may arise in relation to the development of new products and new business practices, including new delivery mechanisms, and the use of new or developing technologies for both new and pre-existing products. Such risk assessment should be an integral part of product or service development process and should take place prior to the launch of the new products, business practices or the use of new or developing technologies. Covered persons should take appropriate measures to manage and mitigate the identified risks.

(Circular No. 1022 dated 26 November 2018, 950 dated 15 March 2017)

B. PREVENTIVE MEASURES

921 - Q CUSTOMER DUE DILIGENCE

- a. In conducting customer due diligence, a risk-based approach shall be undertaken depending on the type of customer, business relationship or nature of the product, transaction or activity. In this regard, a covered person shall maintain a system that will ensure the conduct of customer due diligence which shall include:

- (1) Identifying the customer and verifying the true identity of the customer based on official documents or other reliable, independent source documents, data or information. In case of corporate and juridical entities, verifying their legal existence and organizational structure, as well as the authority and identification of all persons purporting to act on their behalf;
- (2) Identifying the beneficial owner and taking reasonable measures to verify the identity of the beneficial owner based on official documents, or using relevant information or data obtained from reliable sources, such that the covered person is satisfied that it knows who is the beneficial owner. The covered person should have a system to understand the nature of the customer's business and its ownership and control structure, in case of juridical persons or legal arrangements.

Where the customer, or the owner of the controlling interest is a company listed in a stock exchange and subject to disclosure requirements (either by stock exchange rules or through law or enforceable means) to ensure adequate transparency of beneficial ownership, or is a majority-owned subsidiary of such a company, the covered person is not required to verify the identity of any shareholder or beneficial owner of such companies. The relevant identification data may be obtained from a public register, from the customer or from other reliable sources.

The covered person shall keep records of the actions taken in order to identify the beneficial owner.

- (3) Understanding and, as appropriate, obtaining information on the purpose and intended nature of the business relationship; and
- (4) Conducting ongoing due diligence on the business relationship and scrutiny of transactions undertaken throughout the course of the relationship to ensure that the transactions being conducted are consistent with the covered person's knowledge of the customer, their business and risk profile, including, where necessary, the source of funds.

Where a covered person is unable to comply with the relevant CDD measures, it shall (a) refuse to open an account, commence business relations or terminate the business relationship or perform the transaction; and (b) consider filing a suspicious transaction report (STR) in relation to the customer.

In cases where a covered person forms a suspicion of ML/TF and associated unlawful activities, and reasonably believes that performing the CDD process will tip-off the customer, the covered person need not pursue the CDD process, but should file an STR, closely monitor the account, and review the business relationship.

- b. A covered person shall be required to undertake customer due diligence when:

- (1) It establishes business relations with any customer;
- (2) It undertakes any occasional but relevant business transaction for any customer who has not otherwise established relations with the covered person;
- (3) There is a suspicion of ML or TF; or
- (4) There is doubt about the veracity or adequacy of previously obtained customer identification data.

- c. *“Business relations”* means the opening or maintenance of an account or the provision of financial advice by the covered person to a customer.
- d. *“Relevant business transaction”* shall refer to:
- (1) A transaction with a value exceeding P100,000, except money changing or remittance transactions;
 - (2) Two (2) or more transactions believed to be linked and with an aggregate value exceeding P100,000; or
 - (3) In relation to remittance and money changing transactions, any transaction or two (2) or more transactions believed to be linked, with an aggregate value exceeding P5,000.00.

For this purpose, covered persons should have appropriate system to identify and determine occasional customer or transaction.

- e. *For existing customers.* Covered persons shall apply CDD requirements to existing customers on the basis of materiality and risk, and conduct due diligence on existing relationships at appropriate times, taking into account CDD measures previously undertaken as well as the adequacy of information and documents obtained.

Customer acceptance and identification policy. Every covered person shall develop clear, written and graduated customer acceptance and identification policies and procedures, which shall include sanctions screening. Covered persons shall ensure that the financially or socially disadvantaged are not denied access to financial services while at the same time prevent suspicious individuals or entities from opening an account or establishing a relationship. A covered person shall formulate a risk-based and tiered customer acceptance, identification and retention policy that involves reduced CDD for potentially low risk clients and enhanced CDD for higher risk accounts.

- a. *Criteria for type of customers: low, normal and high risk; Standards for applying reduced, average and enhanced due diligence.* Covered persons shall specify the criteria and description of the types of customers that are likely to pose low, normal or high ML/TF risk to their operations, as well as the standards in applying reduced, average and enhanced due diligence, including a set of conditions for the denial of account opening or services.

Enhanced due diligence shall be applied to customers that are assessed by the covered person or under this Part as high risk for ML/TF. For customers assessed to be of low risk such as small account balance and transactions, a covered person may apply reduced due diligence. Some entities may likewise be considered as low risk clients, e.g., banking institutions, trust entities and QBs authorized by the Bangko Sentral to operate as such and publicly listed companies subject to regulatory disclosure requirements.

In designing a customer acceptance and risk profiling policy, the following criteria relating to the product or service, the customer, and geographical location, at a minimum, shall be taken into account:

- (1) The nature of the service or product to be availed of by the customers and the purpose of the account or transaction;
- (2) Source of funds, source of wealth/nature of business, employment;
- (3) Public or high profile position of the customer or its directors/trustees, stockholders, officers and/or authorized signatory;
- (4) Country of origin and residence of operations or the fact that a customer came from a high risk jurisdiction;
- (5) The existence of ST indicators;
- (6) Watchlist of individuals and entities engaged in illegal activities or terrorist related activities as circularized by the Bangko Sentral, AMLC, and other international entities or organizations, such as the Office of Foreign Assets Control (OFAC) of the U.S. Department of the Treasury and United Nations Security Council; and
- (7) Such other factors, e.g., the amount of funds to be deposited by a customer or the size of transactions, and regularity or duration of the transaction, as the covered person may deem reasonable or necessary to consider in assessing the risk of a customer to ML/TF.

In assessing the risk profile of customers which are juridical entities, the covered person should also consider the financial profile and other relevant information of the active authorized signatories.

The covered person shall document the risk profiling results as well as how a specific customer was profiled and what standard of CDD (reduced average or enhanced) was applied.

- b. *Enhanced due diligence (EDD)*. Whenever EDD is applied as required by this Part, or by the covered person's customer acceptance policy, or where the risk of ML/TF are higher, the covered person shall do all of the following, in addition to profiling of customers and monitoring of their transactions:

- (1) Gather additional customer information and/or identification documents, other than the minimum information and/or documents required for the conduct of average due diligence as enumerated under Sec. 921-Q (*Customer identification*).

- (a) In case of individual customers:

- (i) supporting information on the intended nature of the business relationship/source of funds/source of wealth (such as financial profile, ITR, Loan Application, Deed of Donation, Deed of Sale, etc.);
- (ii) reasons for intended or performed transactions;
- (iii) list of companies where he is a stockholder, director, officer, or authorized signatory;
- (iv) other relevant information available through public databases or internet; and (v) a list of banks where the individual has maintained or is maintaining an account.

- (b) In case of entities:

- (i) prior or existing bank references;
- (ii) the name, present address, nationality, date of birth, nature of work, contact number and source of funds of each of the primary officers (e.g., President, Treasurer);
- (iii) volume of assets, other information available through public databases or internet and supporting information on the intended nature of the business relationship, source of funds or source of wealth of the customer (ITR, Audited Financial Statement, Loan Application, Deed of Donation, Deed of Sale, etc.); and
- (iv) reasons for intended or performed transactions.

- (2) Conduct validation procedures in accordance with Item "(c)" of Sec. 921-Q (*Customer acceptance and identification policy*) on any or all of the information provided;
- (3) Secure senior management approval to commence or continue business relationship/transacting with the customer;
- (4) Conduct enhanced ongoing monitoring of the business relationship, by, among others, increasing the number and timing of controls applied, and selecting patterns of transactions that need further examination;
- (5) Require the first payment to be carried out through an account in the customer's name with a bank subject to similar CDD standards, where applicable; and
- (6) Perform such other measures as the covered person may deem reasonable or necessary.

Where additional information cannot be obtained, or any information or document provided is false or falsified, or result of the validation process is unsatisfactory, the covered person shall deny banking relationship with the customer without prejudice to the reporting of a suspicious transaction to the AMLC when circumstances warrant.

- c. *Minimum validation procedures for EDD*. The procedures performed must enable the covered person to achieve a reasonable confidence and assurance that the information obtained are true and reliable.

Validation procedures for individual customers shall include, but are not limited to, the following:

- (1) Confirming the date of birth from a duly authenticated official document;
- (2) Verifying the address through evaluation of utility bills, bank or credit card statement, sending thank you letters, or other documents showing address or through on-site visitation;
- (3) Contacting the customer by phone or e-mail;
- (4) Determining the authenticity of the identification documents through validation of its issuance by requesting a certification from the issuing authority or by any other effective and reliable means; or
- (5) Determining the veracity of the declared source of funds.

For corporate or juridical entities, verification procedures shall include, but are not limited to, the following:

- (1) Validating source of funds or source of wealth from reliable documents such as audited financial statements, ITR, bank references, etc.;
 - (2) Inquiring from the supervising authority the status of the entity;
 - (3) Verifying the address through on-site visitation of the company, sending thank you letters, or other documents showing address; or
 - (4) Contacting the entity by phone or e-mail.
- d. *Reduced due diligence.* Where lower risks of ML/TF have been identified, through an adequate analysis of risk by the covered person and based on the results of the institutional risk assessment, reduced due diligence procedures may be applied commensurate with the lower risk factors. The reduced due diligence procedures shall not be applied in cases of suspicion of higher ML/TF risk scenarios.

Whenever reduced due diligence is applied as provided in this Part or in the covered person's customer acceptance policy, the following rules shall apply:

- (1) For individual customers, a covered person may open an account/establish relationship under the true and full name of the account owner/s or customers upon presentation of an acceptable identification card (ID) or official document as defined in this Part or other reliable, independent source documents, data or information: *Provided*, That, for accounts used purely for digital or electronic payments, the covered person may define appropriate reduced due diligence procedures provided that ML/TF risks are effectively managed.
- (2) For corporate, partnership, and sole proprietorship entities, a covered person may open an account under the official name of these entities by presenting a Board Resolution duly certified by the Corporate Secretary, or equivalent document, authorizing the signatory to sign on behalf of the entity, obtained at the time of account opening.

Verification of the identity of the customer, beneficial owner or authorized signatory can be made after the establishment of the business relationship.

- e. *Restricted account.* To promote financial inclusion and to ensure that the micro-business owners and the low-income households are able to manage their finances through the financial system, customers who may not be able to provide any of the required information under Sec. 921-Q (*Customer identification*) for valid reasons or any valid identification document under Item "(c)" of Sec. 921 (*Customer identification*) may be allowed to open a restricted account with a covered person, provided:

- (1) the aggregate credits in a year shall not exceed P100,000; and
- (2) the account shall not be allowed to receive/send foreign remittances.

In lieu of a valid ID, the covered person shall obtain the customer's complete name, birth date, address and nationality and ensure that it has in its records a clear photograph and signature or biometric of the customer.

The account opening shall be subject to the condition that the customer shall obtain a valid ID within twelve (12) months; otherwise the account shall be closed and the remaining balance therein shall be returned to the customer. An extension of another twelve (12) months may be allowed: *Provided*, That the customer is able to show to the covered person a proof of application for a valid ID.

The covered person shall ensure that the above conditions are not breached; otherwise complete information and valid ID shall immediately be required or the account shall be closed accordingly.

Customer identification. Covered persons shall establish and verify the true identity of their customers based on official document as defined in this Part or other reliable, independent source documents, data or information

- a. Minimum information/documents required:

- (1) *New individual customers.* Covered persons shall develop a systematic procedure for establishing the true and full identity of new individual customers, and shall open and maintain the account/relationship only in the true and full name of the account/relationship owner/s.

Unless otherwise stated in this Part, average CDD requires that the covered person obtain from individual customers, at the time of account opening/ establishing the relationship, the following minimum information and confirming these information with the official or valid identification documents:

- (a) name of customer and/or PhilSys Number (when available);
 - (b) date and place of birth;
 - (c) address;
 - (d) contact number or information;
 - (e) citizenship or nationality;
 - (f) specimen signature or biometric of the customer; and
 - (g) name, address, date and place of birth, contact number or information and citizenship or nationality of beneficiary or beneficial owner, whenever applicable;
- (2) *New juridical persons.* A covered person shall develop a systematic procedure for identifying corporate, partnership and sole proprietorship entities, as well as their stockholders/ partners/owners, directors, officers and authorized signatories. It shall open and maintain accounts only in the true and full name of the entity and shall have primary responsibility to ensure that the entity has not been, or is not in the process of being dissolved, struck-off, wound-up, terminated, or otherwise placed under receivership or liquidation.

Unless otherwise stated in this Part, average due diligence requires that the covered person obtain the following minimum information and/or documents before establishing business relationships:

- (a) Customer Information
 - (i) Name of juridical person;
 - (ii) Name, address, and citizenship or nationality of beneficial owner, if applicable, and authorized signatories;
 - (iii) Official address;
 - (iv) Contact numbers or information;
 - (v) Nature of business; and
 - (vi) Specimen signatures or biometrics of the authorized signatory.
 - (b) Identification Documents
 - (i) Certificates of Registration issued by the Department of Trade and Industry (DTI) for single proprietors, or by the Securities and Exchange Commission (SEC) for corporations and partnerships, and by the Bangko Sentral for money changers/foreign exchange dealers and remittance agents and transfer companies;
 - (ii) Secondary license or certificate of authority issued by the supervising authority or other government agency;
 - (iii) Articles of Incorporation/Partnership
 - (iv) Latest General Information Sheet which lists the names of directors/trustees/partners, principal stockholders owning at least twenty percent (20%) of the outstanding capital stock and primary officers such as the President and Treasurer;
 - (v) Board or Partners' resolution duly certified by the Corporate/Partners' Secretary, or other equivalent document, authorizing the signatory to sign on behalf of the entity; and
 - (vi) For entities registered outside of the Philippines, similar documents and/or information shall be obtained, duly authenticated by a senior officer or the designated officer of the covered person assigned in the country of registration; in the absence of said officer, the documents should be authenticated by the Philippine Consulate, company register or notary public, where said entities are registered.
- (3) For legal arrangement (e.g., Trust), the following must be obtained:
- (a) Name of legal arrangement and proof of existence;
 - (b) Address and country of establishment;
 - (c) Nature, purpose and objects of the legal arrangement;

- (d) The names of the settlor, the trustee, the trustor, the protector, if any, the beneficiary and any other natural person exercising ultimate effective control over the legal arrangement;
- (e) Description of the purpose/activities of the legal arrangement;
- (f) Expected use of the account; and
- (g) Amount, number, type, purpose and frequency of the transaction expected.

In addition, the following rules shall apply for trustees:

- (a) *trustees of any express trust* shall obtain and hold adequate, accurate, and current information on the identity of the trustor/settlor/grantor, the trustee, the beneficiary or class of beneficiaries, and any other natural person exercising ultimate effective control over the trust.

Covered persons shall likewise obtain sufficient information, such as the full name, place and date of birth or date of registration of the beneficiary/ies of these trusts, or of similar legal arrangements. This is to ensure that covered persons will be able to identify and verify the identity of the beneficiary at the time of the payout or at the time of the exercise by the beneficiary of its vested rights.

- (b) *trustees of any trust* shall hold basic information on other regulated agents of, and service providers to, the trust, including investment advisors or managers, accountants, and tax advisors;
 - (c) trustees shall disclose their status when forming a business or professional relationship, or in carrying out an occasional transaction above the threshold under Item “d” of Sec. 921-Q; and
 - (d) trustees shall make available to competent authorities, to the extent allowed by law, information on the beneficial ownership and the assets of the trust to be held or managed under the terms of the business or professional relationship.
- (4) *Identification and Verification of Agents and Authorized Representatives.* Covered persons shall verify that any person purporting to act on behalf of a customer is so authorized and shall identify and verify the identity of that person.

For this purpose, the covered person shall obtain the name, address and citizenship or nationality of agents and authorized representatives.

- b. Customer verification process. Covered persons shall verify the identity of the customer before or during the course of establishing a business relationship, or conducting transactions for occasional customers. They may complete the verification process after the establishment of the business relationship: *Provided, That:*
 - (1) this occurs as soon as reasonably practicable;
 - (2) this is essential not to interrupt the normal conduct of business; and
 - (3) the ML/TF risks are effectively managed, taking into consideration risk and materiality.
- c. Valid identification documents.
 - (1) Customers and the authorized signatory/ies of a corporate or juridical entity who engage in a financial transaction with covered person for the first time shall be required to present official identification document which shall include any of the official documents as defined in this Part or other identification information which can be verified from reliable, independent source, documents, data or information, such as third-party verified customer information database.
 - (2) A covered person may classify identification documents based on its reliability and ability to validate the information indicated in the identification document with that provided by the customer. Whenever it deems necessary, a covered person may accept other IDs not provided herein: *Provided, That* it shall not be the sole means of identification.

In case the identification document presented does not bear any photo of the customer or authorized signatory, or the photo-bearing ID or a copy thereof does not clearly show the face of the customer or authorized signatory, a covered person may utilize its own technology to take the photo of the customer or authorized signatory.

Relief in case of calamity. In case of a disastrous calamity and subject to a declaration by the Bangko Sentral on the applicability of this relief, any requirement for the presentation of valid ID shall be relaxed, subject to the following conditions:

- (3) The amount of transactions shall not exceed P50,000.00 per day;
- (4) The customer is either a permanent or temporary resident or who conducts business in a severely affected area which has been declared to be under a state of calamity by a competent authority;
- (5) The customer shall submit a written certification, which need not be notarized, that he/she is a victim of the subject disastrous calamity and has lost his/her valid IDs; and
- (6) The customer's account activities shall be subject to strict monitoring by the covered person to identify potential abuse of the relaxed requirement and any STs shall be reported to the AMLC within the prescribed period.

In customer identification process, covered persons shall implement appropriate systems of data collection and recording, such as: (1) photocopying/scanning of identification document presented; (2) using Information and Communication Technology (ICT) to capture and record the biometric and other personal information of customers; and/or (3) manual recording of identification information.

- d. *Face-to-face contact.* Covered persons shall conduct face-to-face contact and/or personal interview at the commencement of the relationship. Face-to-face contact may likewise be conducted as soon as reasonably practicable so as not to interrupt the normal conduct of business, taking into account the nature of the product, type of business and the risks involved: *Provided*, That there are policies and procedures to address any specific risk associated with the same including a clear definition of instances when it will be allowed.

The use of ICT in the conduct of face-to-face contact and/or interview may be allowed: *Provided*, That the covered person has measures in place to mitigate the ML/TF risks and the entire procedure is documented.

- e. *Outsourcing of the customer identification and verification procedures.* Subject to existing rules on outsourcing of specified banking activities, a covered person may, without prior Monetary Board approval, outsource to a counterparty, which may or may not be a covered person as herein defined, the customer identification and verification procedures under Items "a", "b" and "d" above: *Provided*, That the ultimate responsibility for knowing the customer, keeping the identification documents, and managing attendant risks shall rest with the covered person and the following conditions are complied with:

For covered person counterparty:

- (1) There is a written service level agreement approved by the board of directors or senior management of the covered persons and its counterparty;
- (2) The counterparty has a reliable and acceptable customer identification system and training program in place.

For non-covered person counterparty:

- (1) All conditions required for covered person counterparty;
- (2) The covered person outsourcing the activity shall ensure that the employees or representatives of the counterparty gathering the required information/documents of, and/ or conducting face-to-face contact with, the customer undergo equivalent training program as that of the covered person's own employees undertaking a similar activity; and
- (3) The covered person shall monitor and conduct annual review of the performance of the counterparty to determine whether or not to continue with the arrangement.

All identification information and/or documents shall be turned over within a period not exceeding ninety (90) calendar days to the covered person, which shall carefully review the documents or information and conduct the necessary risk assessment of the customer. The covered person may, however, include in the coverage of the outsourcing agreement the safekeeping of the documents gathered subject to the condition that customer identification documents shall be made available to the covered person or to the competent authorities within three (3) banking days from the date of request.

f. *Third party reliance.* A covered person may rely on third parties to perform the CDD procedures under Item “(a) 1 to 3” of Sec. 921-Q subject to the following rules:

- (1) *Where the third party is a covered person specifically defined by this Part and as generally defined by AMLA, as amended, and its RIRR* - The covered person shall obtain from the third party a written sworn certification containing the following:
 - (a) The third party has conducted the prescribed customer identification procedures in accordance with this Part and its own MLPP, including the face-to-face contact requirement, to establish the existence of the ultimate customer and has in its custody all the minimum information and/or documents required to be obtained from the customer; and
 - (b) The relying covered person shall have the ability to obtain identification documents from the third party upon request without delay.
- (2) *Where the third party is a financial institution operating outside the Philippines that is other than covered persons referred to in Item “1” above but conducts business operations and activities similar to them.* All the contents required in the sworn certification mentioned in Item “1” above shall apply, with the additional requirement that the laws of the country where the third party is operating has equal or more stringent customer identification process requirement and that it has not been cited in violation thereof. It shall, in addition to performing normal due diligence measures, do the following:

When determining in which countries the third party that meets the requirements above can be based, covered persons should consider available information on the level of country risk.

- (3) For both Items “(1)” and “(2)” above, it shall, in addition to performing normal due diligence measures, do the following:
 - (a) Gather sufficient information about the third party and the group to which it belongs to understand fully the nature of its business and determine from publicly available information the reputation of the institution and the quality of supervision, including whether or not it has been subject to ML or TF investigation or regulatory action. Satisfy itself that the third party is regulated, and supervised or monitored for, and has measures in place for compliance with CDD and record-keeping requirements;
 - (b) Document the respective responsibilities of each institution; and
 - (c) Obtain approval from senior management at inception of relationship before relying on the third party.
- (4) Covered persons may rely on a third party that is part of the same financial group under the following circumstances:
 - (a) the group applies CDD, record-keeping and MTPP requirements;
 - (b) the implementation of CDD and record-keeping requirements, and the MTPP is supervised at a group level by a competent authority, such as a Group Compliance Officer; and
 - (c) any higher country risk is adequately mitigated by the group’s AML/CFT policies.

A Bangko Sentral-accredited custodian may likewise rely, in accordance with this Part, on the face-to-face contact and gathering of minimum information performed by the seller or issuer of securities or by the global custodian to establish the existence and full identity of the customer: *Provided*, That the said third party has an equivalent customer identification requirement.

Notwithstanding the foregoing, the ultimate responsibility for identifying the customer still lies with the covered person relying on the third party.

In cases where the customer is assessed as high risk by the third party, the covered person shall conduct its separate enhanced due diligence procedure.

- g. *Trustee, nominee, agent or intermediary account.* Where (1) an account is opened by; (2) relationship is established through; or (3) any transaction is conducted by, a trustee, nominee, agent or intermediary, either as an individual or through a fiduciary relationship or similar arrangements, the covered person shall establish and record the true and full identity and existence of both the (1) trustee, nominee, agent or intermediary; and (2) trustor, principal, beneficial owner or person on whose behalf the account/ relationship/transaction is being opened/established/conducted. The covered person shall determine the true nature of the parties' capacities and duties by obtaining a copy of the written document evidencing their relationship and apply the same standards for assessing the risk profile and determining the standard of due diligence to be applied to both.

In case of several trustors, principals, beneficial owners, or persons on whose behalf the account is being opened/ relationship is being established, where the trustee, nominee, agent or intermediary opens a single account but keeps therein sub-accounts that may be attributable to each trustor, principal, or beneficial owner, the covered person shall, at the minimum, obtain the true and full name, place and date of birth or date of registration, as the case may be, present address, nature of work or business and source of funds as if the account was opened by them separately. Where the covered person is required to report a CT or circumstances warrant the filing of an ST, it shall obtain such information on every trustor, principal, beneficial owner, or person on whose behalf the account is being opened in order that a complete and accurate report may be filed with the AMLC.

In case a covered person entertains doubts as to whether the trustee, nominee, agent, or intermediary is being used as a dummy in circumvention of existing laws, it shall apply enhanced due diligence in accordance with this Section on *Customer acceptance and identification policy* and file an ST report, if warranted.

- h. *Prohibited accounts.* A covered person shall maintain accounts only in the true and full name of the account owner. The provisions of existing law to the contrary notwithstanding, anonymous accounts, accounts under fictitious names, numbered checking accounts and all other similar accounts shall be absolutely prohibited.

On-going monitoring of customers, accounts and transactions.

- a. Covered persons shall, on the basis of materiality and risk, ensure that pertinent identification information and documents collected under the CDD process are kept up-to-date and relevant, by undertaking reviews of existing records, particularly for higher risk categories of customers. The covered person shall document the actions taken in connection with updating of customer's records/information, and accordingly update customer's risk profile.

Covered persons shall establish a system that will enable them to understand the normal and reasonable account or business activity of customers to ensure that the customers' accounts and transactions are consistent with their knowledge of the customers, and the latter's commercial activities, risk profile, and source of funds and detect unusual or suspicious patterns of account activity. Thus, a risk-and-materiality-based on-going monitoring of customer's accounts and transactions, including periodic sanction screening, should be part of a covered person's customer due diligence.

- b. Enhanced due diligence. Covered persons shall examine the background and purpose of all complex, unusually large transactions, all unusual patterns of transactions, which have no apparent economic or lawful purpose, and other transactions that may be considered suspicious. Covered persons shall apply enhanced due diligence on the customer in accordance with Item "(b)" of Sec. 921-Q (*Customer acceptance and identification policy*) if they acquire information in the course of customer account or transaction monitoring that:

- (1) Raises doubt as to the accuracy of any information or document provided or the ownership of the entity;
- (2) Justifies reclassification of the customer from low or normal risk to high risk pursuant to this Part or by their own criteria; or
- (3) Indicates that any of the circumstances for the filing of an ST report exists such as but not limited to the following:
 - (a) Transacting without any underlying legal or trade obligation, purpose or economic justification;
 - (b) Transacting an amount that is not commensurate with the business or financial capacity of the customer or deviates from his profile;
 - (c) Structuring of transactions in order to avoid being the subject of covered transaction reporting; or
 - (d) Knowing that a customer was or is engaged in any unlawful activity as herein defined.

If the covered person:

- (1) fails to satisfactorily complete the enhanced due diligence procedures; or
- (2) reasonably believes that performing the enhanced due diligence process will tip-off the customer,

it shall file a ST report, and closely monitor the account and review the business relationship.

Non-discrimination against certain types of customers. The provisions of this Part shall not be construed or implemented in a manner that will discriminate against certain customer types, such as PEPs, as well as their relatives, or against a certain religion, race or ethnic origin, or such other attributes or profiles when used as the only basis to deny these persons access to the covered person's services. In this regard, covered persons shall have appropriate policies and procedures to ensure non-discrimination against certain customer types when implementing AML/CFT regulations. Covered persons who will commit said discriminatory act shall be subject to appropriate sanctions provided under existing laws and regulations.

(Circular Nos 1022 dated 26 November 2018 and .950 dated 15 March 2017)

922 - Q COVERED AND SUSPICIOUS TRANSACTION REPORTING

Covered persons shall report to the AMLC all covered and STs within five (5) working days, unless the AMLC prescribes a different period not exceeding fifteen (15) working days, from the occurrence thereof.

For STs, "occurrence" refers to the date of determination of the suspicious nature of the transaction, which determination should be made not exceeding ten (10) calendar days from the date of transaction. However, if the transaction is in any way related to, or the person transacting is involved in or connected to, an unlawful activity or money laundering offense, the ten (10)-day period for determination shall be reckoned from the date the covered person knew or should have known the suspicious transaction indicator.

Should a transaction be determined to be both a covered and suspicious transaction, the covered person shall be required to report the same as an ST.

Covered persons shall ensure the accuracy and completeness of covered and ST report, which shall be filed in the forms prescribed by the AMLC and submitted in a secured manner to the AMLC in electronic form.

Deferred reporting of certain covered transactions. Covered persons shall refer to the issuances of the AMLC from time to time on transactions that are considered as "non-cash, no/low risk covered transactions", hence subject to deferred reporting.

The Bangko Sentral may consider other transactions as "no/low risk covered transactions" and propose to the AMLC that they be likewise subject to deferred reporting by covered persons.

Electronic monitoring systems for AML/CFT. Covered persons required under Item "(a)" of Sec. 911-Q (*Monitoring and reporting tools*) to have an electronic monitoring system for AML/CFT should ensure that the system, at a minimum, shall detect and raise to the covered person's attention, transaction and/or accounts that qualify either as CT or ST as herein defined. The covered person shall endeavor to interface the electronic monitoring system with the systems of its branches, subsidiaries and affiliates, if any, for group-wide AML/CFT monitoring.

The system must have at least the following automated functionalities:

- a. Covered and suspicious transaction monitoring – performs statistical analysis, profiling and able to detect unusual patterns of account activity;
- b. Watch list monitoring – checks transfer parties (originator, beneficiary, and narrative fields) and the existing customer database for any listed undesirable individual or corporation;
- c. Investigation – checks for given names throughout the history of payment stored in the system;
- d. Can generate all the CTRs of the covered person accurately and completely with all the mandatory field properly filled up;
- e. Must provide a complete audit trail;
- f. Capable of aggregating activities of a customer with multiple accounts on a consolidated basis for monitoring and reporting purposes; and
- g. Has the capability to record all STs and support the investigation of alerts generated by the system and brought to the attention of senior management whether or not a report was filed with the AMLC.

Covered persons with existing electronic system of flagging and monitoring transactions already in place shall ensure that their existing system is updated to be fully compliant with functionalities as those required herein.

Manual monitoring. Covered persons which are not required, under this Part, to have an electronic system of flagging and monitoring transactions shall ensure that they have the means of flagging and monitoring the transactions mentioned in Sec. 922-Q (*Electronic monitoring system for money laundering*). They shall maintain a register of all STs that have been brought to the attention of senior management whether or not the same was reported to the AMLC.

Electronic submission of reports. The CTR and STR shall be submitted to the AMLC in a secured manner, in electronic form and in accordance with the reporting procedures prescribed by the AMLC. The covered persons shall provide complete and accurate information of all the mandatory fields required in the report. In order to provide accurate information, the covered person shall regularly update customer identification information at least once every three (3) years.

For the purpose of reporting in a secured manner, all covered persons shall register with the AMLC within ninety (90) days from 27 January 2011 by directly coordinating with that office for the proper assignment of their institution code and facilitation of the reporting process. All covered institutions that have previously registered need not re-register.

Only their respective compliance officers shall electronically sign their CTRs and STRs.

Electronic copies of CTRs and STRs shall be preserved and safely stored for at least five (5) years from the dates the same were reported to the AMLC.

Exemption from bank secrecy laws. When reporting covered or suspicious transactions to the AMLC, covered persons and their officers and employees shall not be deemed to have violated R.A. No. 1405, as amended, R.A. No. 6426, as amended, R.A. No. 8791 and other similar laws, but are prohibited from communicating, directly or indirectly, in any manner or by any means, to any person, the fact that a covered or suspicious transaction report was made, the contents thereof, or any other information in relation thereto. In case of violation thereof, the concerned officer and employee of the covered person shall be criminally liable in accordance with the provision of the AMLA, as amended.

Confidentiality provision. When reporting CTs and STs to the AMLC, covered persons, their directors, officers and employees, are prohibited from communicating, directly or indirectly, in any manner or by any means, to any person or entity, or the media, the fact that a covered or suspicious transaction report was made, the contents thereof, or any other information in relation thereto. Any information about such reporting shall not be published or aired, in any manner or form, by the mass media, or through electronic mail, or other similar devices. In case of violation thereof, the concerned director, officer and employee of the covered person shall be criminally liable.

Safe harbor provision. No administrative, criminal or civil proceedings shall lie against any person for having made a CTR or an STR in the regular performance of his duties in good faith, whether or not such reporting results in any criminal prosecution under the AMLA, as amended, its RIRR or any other law.

(Circular No. 950 dated 15 March 2017)

923 - Q ADDITIONAL PREVENTIVE MEASURES FOR SPECIFIC CUSTOMERS AND ACTIVITIES

Private banking/wealth management operations. These services, which by their nature involve high measure of client confidentiality, are more open to the elements of reputational risk especially if the customer identification process is not diligently followed. Covered persons shall therefore establish and record the true and full identify and take reasonable measures to establish the source of wealth and source of funds, of the customer and beneficial owners, if any, and establish a policy on what standard of due diligence will apply to them. They shall also require approval by a senior officer other than the private banking/wealth management/similar activity relationship officer or the like for acceptance of customers of private banking, wealth management and similar activities.

PEP. Covered persons shall establish and record the true and full identity of PEPs, as well as their immediate family members and entities related to them.

- a. In case of domestic PEPs or persons who have been entrusted with a prominent function by an international organization, or their immediate family members or close associates, in addition to performing the applicable due diligence measures, covered persons shall:
 - (1) Take reasonable measures to determine whether a customer or the beneficial owner is a PEP; and
 - (2) In cases when there is a higher risk business relationship, adopt measures under paragraphs “(2)(b)” to “(2)(d)” below.
- b. In relation to foreign PEPs or their immediate family members or close associates, in addition to performing the applicable customer due diligence measures, covered persons shall:
 - (1) Put in place risk management systems to determine whether a customer or the beneficial owner is a PEP;
 - (2) Obtain senior management approval before establishing (or continuing, for existing customers) such business relationship;
 - (3) Take reasonable measures to establish the source of wealth and the source of funds of customers and beneficial owners identified as PEPs; and
 - (4) Conduct enhanced ongoing monitoring on that relationship.

Correspondent banking. Covered persons shall adopt policies and procedures to prevent correspondent banking activities from being utilized for ML/TF activities, and designate an officer responsible in ensuring compliance with these regulations and the covered person’s policies and procedures.

A covered person may rely on the customer identification process undertaken by the respondent bank and apply the rules on third party reliance under Item “(f)” of Sec. 921-Q (*Customer identification*), treating the respondent bank as the third party. The correspondent bank shall:

- a. In relation to cross border correspondent banking and other similar relationship:
 - (1) Gather sufficient information about the respondent institution to understand fully the nature of the respondent’s business, and to determine from publicly available information the reputation of the institution and the quality of supervision, including whether it has been subject to ML/TF investigation or regulatory action;
 - (2) Assess the respondent institution’s AML/CFT controls;
 - (3) Obtain approval from senior management before establishing new correspondent relationships; and
 - (4) Clearly understand and document the respective AML/CFT responsibilities of each institution.
- b. With respect to “payable-through accounts,” satisfy themselves that the respondent bank:
 - (1) Has performed customer due diligence obligations on its customers that have direct access to the accounts of the correspondent bank; and
 - (2) Is able to provide relevant customer due diligence information upon request to the correspondent bank.

Covered persons are prohibited from entering into, or continuing, correspondent banking relationships with shell banks and should have measures to satisfy themselves that respondent financial institutions do not permit their accounts to be used by shell banks.

Fund/Wire transfer. Because of the risk associated with dealing with fund/ wire transfers, where a covered person may unknowingly transmit proceeds of unlawful activities or funds intended to finance terrorist activities, it shall establish policies and procedures designed to prevent it from being utilized for that purpose which shall include, but not limited to, the following:

- a. Originating financial institution:
 - (1) Shall not accept instructions to fund/wire transfer from a non-customer originator, for occasional transactions exceeding the set threshold as defined in this Part, unless it has conducted the necessary CDD to establish the true and full identity and existence of said originator;

- (2) Shall ensure that all wire transfers are always accompanied by the required information such that:
- (a) Cross border and domestic fund/wire transfers and related message not exceeding P50,000.00 or its equivalent in foreign currency, shall include accurate and meaningful originator and beneficiary information. The following information shall remain with the transfer or related message through the payment chain:
 - (i) Name of the originator;
 - (ii) Name of the beneficiary; and
 - (iii) Account number of the originator and beneficiary, or in its absence, a unique reference number.
 - (b) For cross border and domestic fund/wire transfers and related message amounting to P50,000.00 or more, or its equivalent in foreign currency, the following information shall be obtained and accompany the wire transfer:
 - (i) Name of the originator;
 - (ii) Originator account number where such an account is used to process the transaction or a unique transaction reference number which permits traceability of the transaction;
 - (iii) Originator's address, or national identity number, or customer identification number, or date and place of birth;
 - (iv) Name of the beneficiary; and
 - (v) Beneficiary account number where such an account is used to process the transaction, or unique transaction reference number which permits traceability of the transaction.
- For domestic wire transfers, the originating institution should ensure that the required information accompanies the wire transfers, unless this information can be made available to the beneficiary institution and relevant authorities by other effective means. In the latter case, the originating institution shall include only the account number or a unique identifier within the message or payment form which will allow the transaction to be traced back to the originator or beneficiary. Originating institutions are required to provide the information within three (3) working days from receiving the request either from the beneficiary institution or from relevant authorities or agencies.
- (3) May be exempted from the requirements of Item “(b)” above in respect of originator information, where several individual cross-border wire transfers from a single originator are bundled in a batch file for transmission to beneficiaries: *Provided*, That it includes the originator's account number or unique transaction reference number and that the batch file contains the required and accurate originator information, and full beneficiary information, that is fully traceable within the beneficiary country;
 - (4) Need not verify for accuracy the information mentioned in Item “b(i)” hereof. However, the originating financial institution shall verify the information pertaining to its customer where there is a suspicion of ML/TF;
 - (5) Shall ensure that, for domestic wire transfers, the information accompanying the wire transfer includes originator information as indicated for cross-border wire transfers, unless this information can be made available to the beneficiary financial institution and relevant authorities by other effective means.
 - (6) Shall only include the account number or a unique transaction reference number, where the information accompanying the domestic wire transfer can be made available to the beneficiary financial institution and appropriate authorities by other effective means: *Provided*, That this number or identifier will permit the transaction to be traced back to the originator or the beneficiary. The information shall be made available within three (3) working days from receipt of the request either from the beneficiary financial institution or from appropriate authorities;
 - (7) Shall maintain all originator and beneficiary information collected, in accordance with Sec. 924-Q; and
 - (8) Should not execute the wire transfer if the requirements under Item “a”, as applicable, are not complied with.

b. Intermediary financial Institution shall:

- (1) Ensure that, for cross-border wire transfers, all originator and beneficiary information that accompany a wire transfer are retained in the payment message.

Where technical limitations prevent the required originator or beneficiary information accompanying a cross-border wire transfer from remaining with a related domestic wire transfer, intermediary financial institution should keep a record of all the information received from the originating financial institution or another intermediary financial institution for at least five (5) years;

- (2) Take reasonable measures, which are consistent with straight-through processing, to identify cross-border wire transfers that lack required originator information or required beneficiary information;
- (3) Conduct transactional sanction screening on the payment parties, both for the originator and beneficiary;
- (4) Adopt risk-based policies and procedures for determining: (i) when to execute, reject, or suspend a wire transfer lacking required originator or required beneficiary information; and (ii) the appropriate follow-up action.

c. Beneficiary financial institution shall:

- (1) Verify the identity of the beneficiary, if the identity has not been previously verified and maintain this information in accordance with Sec. 924-Q. Should the originator and beneficiary be the same person, the beneficiary institution may rely on the customer due diligence conducted by the originating institution provided the rules on third party reliance under Item “(f)” of Sec. 921-Q (*Customer identification*) are met, treating the originating institution as third party as herein defined;
- (2) Take reasonable measures, which may include post-event monitoring or real-time monitoring where feasible, to identify cross-border wire transfers that lack required originator or beneficiary information, as applicable; and
- (3) Adopt risk-based policies and procedures for determining: (i) when to execute, reject, or suspend a wire transfer lacking required originator or beneficiary information, as applicable; and (ii) the appropriate follow-up action.

d. In case a Money or Value Transfer Service (MVTs) provider controls both the originating and the beneficiary side of a wire transfer, it shall:

- (1) consider all the information from both the originating and beneficiary sides in order to determine whether an STR has to be filed; and
- (2) file an STR in any country affected by the suspicious wire transfer, and make relevant transaction information available to the AMLC.

Buyers of cashier’s, manager’s or certified checks. A covered person may sell cashier’s, manager’s or certified checks only to its existing customers and shall maintain a register of said checks indicating the following information:

- a. True and full name of the buyer or the applicant if buying on behalf of an entity;
- b. Account number;
- c. Date of issuance and the number of the check;
- d. Name of the payee;
- e. Amount; and
- f. Purpose of such transaction.

Buyers of cashier’s, manager’s or certified checks other than its existing customer. Where an individual or an entity other than an existing customer applies for the issuance of cashier’s, manager’s or certified checks, the covered person shall, in addition to the information required in Sec. 921 (*Customer identification*), obtain all the identification documents and minimum information required under this Part to establish the true and full identity and existence of the applicant. In no case shall reduced due diligence be applied to the applicant and, where circumstances warrant, enhanced due diligence should be applied.

Buyers of cashier's, manager's or certified checks in blank or payable to cash, bearer or numbered account. A covered person may issue cashier's, manager's or certified checks or other similar instruments in blank or payable to cash, bearer or numbered account subject to the following conditions:

- a. The amount of each check shall not exceed P10,000;
- b. The buyer of the check is properly identified in accordance with its customer acceptance and identification policies and as required under Sec. 921;
- c. A register of said checks indicating all the information required under Sec. 921;
- d. A covered person which issues as well as those which accepts as deposits, said cashier's, manager's or certified checks or other similar instruments issued in blank or payable to cash, bearer or numbered account shall take such measure(s) as may be necessary to ensure that said instruments are not being used/resorted to by the buyer or depositor in furtherance of an ML activity;
- e. The deposit of said instruments shall be subject to the same requirements of scrutiny applicable to cash deposits; and
- f. Transactions involving said instruments should be accordingly reported to the AMLC if there is reasonable ground to suspect that said transactions are being used to launder funds of illegitimate origin.

Second-endorsed checks. A covered person shall enforce stricter guidelines in the acceptance of second-endorsed checks including the application of enhanced due diligence to ensure that they are not being used as instruments for money laundering or other illegal activities.

For this purpose, a covered person shall limit the acceptance of second-endorsed checks from properly identified customers and only after establishing that the nature of the business of said customer justifies, or at least makes practical, the deposit of second-endorsed check. In case of isolated transactions involving deposits of second-endorsed checks by customer who are not engaged in trade or business, the true and full identity of the first endorser shall be established and the record of the identification shall also be kept for five (5) years.

Foreign exchange dealers/money changers/remittance and transfer companies. A covered person shall require its customers who are remittance and transfer companies, foreign exchange dealers and money changers to submit proof of registration with the Bangko Sentral as part of their customer identification document, and shall only deal with these entities if they are duly registered as such. Also, these customers shall be required to use company accounts for their remitting, foreign exchange dealing and money changing business.

Remittance and transfer companies, foreign exchange dealers and money changers presenting greater risk shall be subject to enhanced due diligence, which includes, among others, requiring proof of registration with the AMLC, reviewing and assessing their AML/CFT program to have reasonable assurance on their AML compliance, obtaining additional information and securing senior management approval for establishing business relationship.

Other high risk customer, jurisdiction or geographic location. A customer from a foreign jurisdiction that is recognized as having inadequate internationally accepted AML standards, or presents greater risk for ML/TF or its associated unlawful activities, shall be subject to enhanced customer due diligence. Information relative to these are available from publicly available information such as the websites of FATF, FATF Style Regional Bodies (FSRB) like the Asia Pacific Group on Money Laundering and the Egmont Group, national authorities like the OFAC of the U.S. Department of the Treasury, or other reliable third parties such as regulators or exchanges, which shall be a component of a covered person's customer identification process.

Covered persons shall apply countermeasures (such as conduct of enhanced due diligence, limit business relationship or financial transactions with the identified country or persons in that country) proportionate to the risks when called upon to do so by the FATF, or independently of any call by the FATF to do so, when warranted.

Shell company/shell bank/bearer share entities. A covered person shall undertake banking relationship with a shell company with extreme caution and always apply enhanced due diligence on both the entity and its beneficial owner/s.

No shell bank shall be allowed to operate or be established in the Philippines. Covered persons shall refuse to deal, enter into, or continue, correspondent banking relationship with shell banks. They shall likewise guard against establishing relations with foreign financial institutions that permit their accounts to be used by shell banks.

Bearer share entities refer to those juridical entities where the ownership is accorded to those who possess the bearer share certificate. A covered person dealing with bearer share entities shall conduct enhanced due diligence on said entities and their existing stockholders and/or beneficial owners at the time of opening of the account. These entities shall be subject to ongoing monitoring at all times and the list of stockholders and/or beneficial owners shall be updated within thirty (30) days after every transfer of ownership and the appropriate enhanced due diligence shall be applied to the new stockholders and/or beneficial owners.

Numbered accounts. No peso and foreign currency non-checking numbered accounts shall be allowed without establishing the true and full identity and existence of customers and applying enhanced due diligence in accordance with Item “(b)” of Sec. 921-Q (*Customer acceptance and identification policy*).

Peso and foreign currency non-checking numbered accounts existing prior to 17 October 2001 shall continue to exist but the covered person shall establish the true and full identity and existence of the beneficial owners of such accounts and apply enhanced due diligence in accordance with Item “(b)” of Sec. 921-Q (*Customer acceptance and identification policy*).

Compliance with United Nations Security Council Resolutions (UNSCR). As part of CDD process, covered persons shall adopt appropriate policies and procedures:

- a. To implement targeted financial sanctions without delay to comply with UNSCR, adopted under Chapter VII of the Charter of the United Nations, relating to the prevention, suppression and disruption of proliferation of weapons of mass destruction and its financing;
- b. To ensure that individuals/entities be prohibited from making any types of transactions or services for the benefit of designated persons and entities owned or controlled, directly or indirectly, by designated persons or entities; and persons and entities acting on behalf of, or at the direction of, designated persons or entities pursuant to relevant UNSCR such as 1267 (1999) and its successor resolutions, and 1373 (2001); and

To report to AMLC the actions taken in compliance with the prohibition requirements of the relevant UNSCRs, including attempted transactions.

(Circular Nos. 1022 dated 26 November 2018 and 950 dated 15 March 2017)

924 - Q RECORD KEEPING

All customer identification records of covered persons shall be maintained and safely stored as long as the account exists. All transaction records and documents of covered persons shall be maintained and safely stored for five (5) years from the date of transaction.

Said records and files shall contain the full and true identity of the owners or holders of the accounts involved in the transactions such as the ID card and photo of individual customers and the documents mentioned in Item “(b)” of Sec. 921-Q (*Customer identification*) for entities, customer information file, signature card of authorized signatory/ies, and all other pertinent customer identification documents as well as all factual circumstances and records involved in the transaction. Covered persons shall undertake the necessary adequate security measures to ensure the confidentiality of such file, including all information shared by the group-wide compliance. Covered persons shall prepare and maintain documentation, in accordance with the aforementioned client identification requirements, on their customer accounts relationships and transactions such that any account, relationship or transaction can be reconstructed as to enable the AMLC, and/or the courts to establish an audit trail for money laundering.

Closed accounts and terminated relationships. Covered persons shall maintain and safely store all records of customer identification, and transactions documents, including the results of any analysis undertaken, for at least five (5) years following the closure of the account, termination of the business relationship or after the date of the occasional transaction.

Retention of records where the account or customer is the subject of a case. If a money laundering case has been filed in court involving the account or customer, records must be retained and safely kept beyond the five (5)-year retention period, until it is officially confirmed by the AMLC Secretariat that the case has been resolved, decided or terminated with finality.

Safekeeping of records and documents. The covered person shall designate at least two (2) officers who will be jointly responsible and accountable in the safekeeping of all records and documents required to be retained by the AMLA, as amended, its RIRR and this Part. They shall have the obligation to make these documents and records readily available without delay during Bangko Sentral regular or special examinations.

Form of records. Covered persons shall retain all records as originals or in such forms as are admissible in court pursuant to existing laws, such as the E-Commerce Act and its implementing rules and regulations, and the applicable rules promulgated by the Supreme Court.

Covered persons shall, likewise, keep the electronic copies of all CTRs and STRs for at least five (5) years from the dates of submission to the AMLC.

For low risk customers, it is sufficient that covered persons shall maintain and store, in any form, a record of customer information and transactions, but should be sufficient to permit reconstruction of individual transactions so as to provide, if necessary, evidence for prosecution of criminal activity.

C. TRAINING PROGRAM

931 - Q AML TRAINING PROGRAM

Covered persons shall formulate an annual AML training program aimed at providing all their responsible officers and personnel with efficient, adequate and continuous education program to enable them to fully and consistently comply with all their obligations under this Part, the AMLA, as amended, and its RIRR.

Trainings of officers and employees shall include awareness of their respective duties and responsibilities under the MLPP particularly in relation to the customer identification process, record keeping requirements and CT and ST reporting and ample understanding of the internal processes including the chain of command for the reporting and investigation of suspicious and money laundering activities.

The program shall be designed in a manner that will comprise of various focuses for new staff, front-line staff, compliance office staff, internal audit staff, officers, senior management, directors and stockholders. Regular refresher trainings shall likewise be provided in order to guarantee that officers and staff are informed of new developments and issuances related to the prevention of money laundering and terrorism financing as well as reminded of their respective responsibilities vis-à-vis the covered person's processes, policies and procedures.

Covered person's annual AML training program and records of all AML seminars and trainings conducted by the covered institution and/or attended by its personnel (internal or external), including copies of AML seminar/training materials, shall be appropriately kept by the compliance office/unit/department, and should be made available during periodic or special Bangko Sentral examination.

(Circular No. 950 dated 15 March 2017)

D. ENFORCEMENT ACTIONS

941 - Q SANCTIONS AND PENALTIES

In line with the objective of ensuring that covered persons maintain high AML/CFT standards in order to protect its safety and soundness as well as protecting the integrity of the national banking and financial system, violation of this Part shall constitute a major violation subject to the following enforcement actions against the board of directors, senior management and line officers, not necessarily according to priority and whenever applicable:

- a. Written reprimand;
- b. Restriction on certain licenses/ product, as appropriate;
- c. Suspension or removal from the office they are currently holding; and/or
- d. Disqualification from holding any position in any covered institution.

In addition to the non-monetary sanctions stated above, the Bangko Sentral may also impose monetary penalties computed in accordance with existing regulations and in coordination with the AMLC.

Enforcement action shall be imposed on the basis of the overall assessment of the covered person's AML risk management system. Whenever a covered person's AML compliance system is found to be grossly inadequate, this may be considered as unsafe and unsound banking practice that may warrant initiation of prompt corrective action.

To implement the enforcement action provision of this Part along with the AML Risk Rating System (ARRS), the following rules shall apply:

- a. An AML Composite rating of 4 and 3 will require no enforcement action.
- b. An AML Composite rating of 2 or 1 will require submission by the covered person to the appropriate supervising department of the Bangko Sentral, of a written action plan duly approved by the BOD aimed at correcting the noted inefficiency in BOD and SM oversight, inadequacy in AML and TF policies and procedures, weakness in internal controls and audit, and/or ineffective implementation within a reasonable period of time.

The appropriate supervising department of the Bangko Sentral shall assess the viability of the plan and shall monitor the covered person's performance.

In the event of non-submission of an acceptable plan within the deadline or failure to implement its action plan, the appropriate supervising department of the Bangko Sentral shall recommend appropriate enforcement action on the covered person and its responsible officers including monetary penalties to be computed on a daily basis until improvements are satisfactorily implemented.

- c. An AML rating of 1 shall also be considered as an unsafe and unsound banking practice. For this reason, prompt corrective action shall be initiated on the covered person.

Escalation of enforcement action. In cases of heightened AML/CFT supervisory concern as reflected in the overall AML risk rating over a certain period of time, the Bangko Sentral shall impose escalated enforcement action which shall include corrective action, sanction and/or additional supervisory enforcement action, consistent with Sec. 002-Q on supervisory enforcement policy.

Monetary penalty guidelines. These guidelines are divided into three (3) parts.

Part I – *Monetary penalty matrices.* The monetary penalty matrices, where monetary penalties are categorized based on the (1) Composite rating and (2) Asset size of the Bangko Sentral covered institution.

Part II – *Guiding principles.*

- a. The first step is to determine the over-all risk rating of the Bangko Sentral covered institution for purposes of identifying which penalty matrix will be used. If the Composite rating is “1” or “2”, penalty matrix A or B, respectively shall be used. If the over-all rating is “3” and “4”, no monetary penalty shall be imposed.
- b. Second step is to establish the asset size of the Bangko Sentral covered institution as of the cut-off period of examination;
- c. Third step is to identify the aggravating and mitigating factors. If the aggravating factors are more than the mitigating factors, then the maximum range shall be used. On the other hand, if the mitigating factors are more than the aggravating factors, then the minimum range shall be applied. In case there are no aggravating and mitigating factors or there is a tie, the medium range shall be used.
- d. For Composite ratings of 1 and 2 where the covered institution concerned was required to submit within a reasonable period of time an acceptance plan, non-submission of the plan within the deadline or failure to implement the action plan shall be a basis for imposition of monetary penalties computed on a daily and continuing basis from the time the covered institutions is notified until corrective measures are satisfactorily effected. The penalty may be imposed on the covered institution itself or directly on the Board of Directors as a body, or the individual directors who have direct oversight, or the line officers involved in the management of money laundering and terrorist financing prevention.

Part III – *Aggravating and mitigating factors.*

a. *Aggravating factors*

- (1) *Frequency of the commissions or omissions of specific violation* – Majority of the following violations were noted:
 - (a) Deficient Know Your Customer process
 - (b) Unsatisfactory Covered Transaction reporting system
 - (c) Non-reporting of and Improper Suspicious Transaction reporting
 - (d) Non-compliance with the Record keeping requirement
 - (e) Inadequate AML Training Program
 - (f) Deficient AML Electronic system
- (2) *Duration of violations prior to notification* – This pertains to the length of time prior to the latest notification on the violation. Violations that have been existing for a long time before it was revealed/discovered in the examination or are under the evaluation for a long time due to pending requests or correspondences from covered institutions on whether a violation has actually occurred shall be dealt with through this criterion. Violations outstanding for more than one (1) year prior to notification, at the minimum, will qualify as violations outstanding for a long time.
- (3) *Continuation of offense or omission after notification* – This pertains to the persistence of an act or omission after the latest notification on the existence of the violation, either from the appropriate Bangko Sentral Group, Department or from the Monetary Board and/or Deputy Governor, in cases where the violation has been elevated accordingly. This covers the period after the final notification of the existence of the violation until such time that the violation has been corrected and/or remedied. The corrective action shall be reckoned with from the date of notification.
- (4) *Concealment* – This factor pertains to the cover up of a violation. In evaluating this factor, one shall consider the intention of the party/ies involved and whether pecuniary benefit may accrue accordingly. The act of concealing an act or omission constituting the violation carries with it the intention to defraud regulators. Moreover, the amount of pecuniary benefit, which may or may not accrue from the offense or omission, shall also be considered under this factor.

Concealment may be apparent when a covered institution's personnel purposely complicate the transaction to make it difficult to uncover or refuse to provide information and/or document that would support the violation/offense committed.
- (5) *Loss or risk of loss to bank* – In asserting this factor, "potential loss" refers to any time at which the covered institution was in danger of sustaining a loss.

b. *Mitigating factors*

- (1) *Good faith* – is the absence of intention to violate on the part of the erring individual/entity.
- (2) *Full cooperation* – covered person's personnel or the covered institution immediately took action to correct the violation after it is brought to its attention either verbally or in writing.
- (3) *With positive measures* – covered person's personnel or the covered institution commits to undertake concrete action to correct the violation but is being restrained by valid reasons to take immediate action.
- (4) *Voluntary disclosure of offense* – covered person's personnel or the covered person disclosed the violation before it is discovered in the course of a regular or special examination or off-site monitoring.

(Circular No. 950 dated 15 March 2017)

942 - Q SEPARABILITY CLAUSE

If any provision, sections of this Part, or its application to any person or circumstance is held invalid, the other provisions or sections of this Part, and the application of such provision or section to other persons or circumstance shall not be affected thereby.

(Circular No. 950 dated 15 March 2017)

PART TEN

BANGKO SENTRAL REGULATIONS ON FINANCIAL CONSUMER PROTECTION

1001-Q FINANCIAL CONSUMER PROTECTION FRAMEWORK¹

Policy Statement. The Framework is in line with the responsibility of the Bangko Sentral under Section 3 of R.A. No. 7653, as amended by Republic Act No. 11211, to promote broad and convenient access to high quality financial services and consider the interest of the general public. Bangko Sentral aims to ensure that financial service providers conduct ethical business practices and do not engage in practices that may cause harm to the consumer as well as consider consumer outcomes in the conduct of their business. Practices that harm consumers introduce risks not only at the level of the financial institution but also to the overall health of the financial sector particularly through decreased public trust and confidence. A well-informed and protected consumer can better benefit from the financial services received and be a more responsible client.

The Framework establishes the guidelines and expectations from Bangko Sentral supervised financial institutions (BSFIs) to institutionalize consumer protection as an integral component of corporate governance and culture as well as risk management. The objective of the Framework is for BSFIs to manage the risks of financial loss that are detrimental to the financial consumers or consumer protection risks inherent to the BSFIs' operations that, if not properly managed, would affect other relevant risks, such as compliance, reputational, legal, operational and credit risks.

Scope and Applicability. The Framework applies to all BSFIs in the conduct of their business. The BSFIs' adoption of the Framework shall be proportionate to their asset size, structure, nature of products and services, and complexity of operations.

Consumer protection risk management system (CPRMS). A BSFI should have a CPRMS that is integrated into the BSFI's enterprise-wide risk management processes and risk governance framework. The CPRMS includes the governance structure, policies, processes, measurement and control procedures to ensure that consumer protection risks are identified, measured, monitored, and mitigated. A carefully devised, implemented, and monitored CPRMS provides the foundation for ensuring the BSFI's adherence to consumer protection standards of conduct and compliance with consumer protection laws, rules and regulations, thereby, ensuring that identified risks to the BSFI and associated risk of financial harm or loss to consumers are properly managed.

Consumer Protection Oversight.

- a. **Responsibilities of the Board of Directors.** The Board shall be primarily responsible for approving and overseeing the implementation of the BSFI's CPRMS. The Board's responsibilities shall include the following:
 - (1) Approve the CPRMS and consumer assistance mechanism (CAM) that takes into consideration the BSFI's business model, market, product lines, and relationships with third parties that may give rise to consumer protection risks;
 - (2) Promote a culture of ethical behavior and adherence to the highest standards of fair and responsible dealing with consumers;
 - (3) Ensure that adequate information and actions taken are reported on a regular basis in terms of the measurement of consumer protection related risks, reports from the CAM as well as other material consumer related developments that will impact the BSFI;
 - (4) Ensure the adequate provision of resources and effective implementation of personnel training and competency requirements;
 - (5) Approve remuneration and compensation packages structured to encourage responsible business conduct, fair treatment and avoidance/mitigation of conflicts of interest; and
 - (6) Review periodically the implementation and effectiveness of the CPRMS including how findings are reported and whether the audit mechanisms are in place to enable adequate oversight, and put in place a regular mechanism to review the relevance of the CPRMS in case of changes in the BSFI business model and/or operating environment.

¹ BSFIs shall be given six (6) months from 26 September 2019 to: (1) perform a gap analysis of their current consumer protection practices vis-i-vis this Section and (2) propose an action plan duly approved by the Board of Directors to achieve full compliance within a reasonable period of time but in no case longer than one (1) year from 26 September 2019.

- b. *Responsibilities of Senior Management.* The Senior Management shall be responsible for ensuring that the practices of the BSFIs are aligned with the approved consumer protection policies and risk management system and consistently displayed throughout the BSFI's place of business particularly across all business units that deal directly with consumers. In this regard, the Senior Management shall:
- (1) Ensure that approved CPRMS and CAM policies and procedures are clearly documented, properly understood and appropriately implemented across all levels and business units.
 - (2) Establish an effective monitoring and management information system to regularly measure, aggregate, and analyze consumer related issues to determine the level of consumer protection risk. An appropriate and clear reporting and escalation mechanism should also be integrated in the risk governance framework. The management information system shall be able to:
 - (a) Provide adequate information on the performance and quality of the BSFI's CAM that allows for identification of emerging consumer issues and root cause analysis;
 - (b) Determine the level of consumer protection risk exposure through assessment of its implementation of the Consumer Protection Standards of Conduct (i.e. transparency and disclosure, protection of client information, fair treatment, effective recourse and financial learning and awareness);
 - (c) Identify and monitor, in a timely manner, consumer protection risk exposures approaching risks of loss to financial consumers, legal and reputational risk as well as other related risks; and
 - (d) Identify and assess emerging or increasing consumer risks that affect the BSFI such as through social media monitoring and market monitoring.
 - (3) Ensure that adequate systems and controls are in place to promptly identify issues that affect the consumer across all phases of the relationship with the consumer;
 - (4) Ascertain that weaknesses in the consumer protection practices or consumer protection emerging risks are addressed and corrective actions are taken in a timely manner; and
 - (5) Ensure observance of expectations and requirements prescribed under relevant regulations on compliance and internal audit.

(Circular Nos. 1048 dated 6 September 2019, 972 dated 22 August 2017, 890 dated 02 November 2015, and 857 dated 21 November 2014)

1002-Q POLICIES AND PROCEDURES, CONSUMER PROTECTION STANDARDS OF CONDUCT

The CPRMS and CAM should ensure systematic application of policies and procedures, including the Consumer Protection Standards of Conduct (Standards). The Standards should reflect the core principles, which BSFIs must observe at all times in their dealings with financial consumers: *Provided, further,* That these Standards should be embedded into the corporate culture of the BSFI, enhancing further its defined governance framework while addressing conflicts that are inimical to the interests of the financial consumer.

Disclosure and transparency.¹ BSFIs must ensure that their consumers have a reasonable holistic understanding of the products and services, which they may be acquiring or availing. In this context, full disclosure and utmost transparency, to the extent allowed under applicable laws and regulations, are the critical elements that empower the consumer to make comparisons and informed financial decisions. This is made possible by providing the consumer with ready access to information that accurately represents the nature and structure of the product or service, its terms and conditions, as well as its fundamental benefits and risks.

The BSFI demonstrates adherence to appropriate and adequate disclosure and transparency when:

- a. The manner of disclosure, whether in advertising materials, terms and conditions, and other forms of communication, are clear, concise, accurate, understandable and not misleading.
- b. Information are disclosed before, during and after a sale of a financial product or service and during key stages of the relationship with the consumer; especially if there are any changes in the terms and conditions.

¹ This Section should be read in conjunction with existing regulations related to disclosure and transparency of key information on loan and investment products and services, regulations on the conduct of treasury and trust activities of BSFIs and regulations governing fees on retail bank product/services and dormant deposit accounts.

- c. Terms and Conditions contain all significant provisions of the financial product or service giving prominence to key features/facts. It includes the following with specific details relating to the type of product or service being offered:
 - (1) Information on risks, return, possible warnings, any waiver of rights and limitations of liabilities, consumer's rights and responsibilities, consequences of failure to meet obligations, rights and responsibilities of the BSFI, involvement of authorized agents, any conflict of interest by BSFI staff, cancellation and product portability, among others;
 - (2) The full price or cost to the consumer including all interest, fees, charges, and penalties. The terms and conditions must clearly state whether interest, fees, charges, and penalties can change over time. The method for computing said interest, fees, charges, and penalties shall be disclosed consistent with existing regulations; and
 - (3) For more complex products, such as investment products, the key features as well as costs and risks shall be highlighted in a key facts statement or Product Highlight Sheet (PHS). The PHS shall enable comparison with other products and shall be provided at no additional cost. Before the consumer signs any contract, the BSFI should ensure that the consumer has freely signed a statement to the effect that the consumer has duly received, read, and understood the PHS.
- d. Advertising materials are not false, misleading, or contain deceptive statements or omit key information that may materially and/or adversely affect the decision of the consumer to avail of a service or acquire a product. BSFIs are responsible for all the statements made in said advertising materials.
- e. The terms and conditions, advertising materials and other communications contain the following:
 - (1) Contact and information of the BSFI's internal complaints handling unit; and
 - (2) Statement that the BSFI is a regulated entity and contact information of the regulator.
- f. Communication of the BSFI staff is conducted in such a manner that clients can understand the terms of the contract and their rights and obligations, taking into consideration client segments that may have financial literacy limitations.
- g. Adequate time is given to consumers to review, ask questions and receive information to fully understand the terms and conditions prior to signing the contract or executing the transaction. BSFI should ensure that documents signed by the consumer are completely filled out and have no blank terms. The consumer should be given a copy of each of the documents he/she signed (including, but not limited to the contract) with all terms and conditions. The consumer should also be provided with proof of the transaction, whether printed or in electronic copy at the option of the consumer, immediately after the transaction has been completed.
- h. Statements of Account or Billing Statements are provided regularly in a convenient manner to the consumer, or through the channel through which the product was sold, commensurate to the type of product and terms.
- i. Notifications in writing (or electronic form) and through other channels are provided to the consumer with regard to any of the key features and terms of the product, the nature and extent of the change and its potential impact on the consumer. This notification requirement also apply to similar changes to any condition/s specified in the contract. Nonetheless, this does not cover financial products that have been identified at the inception to be subject to floating interest rate all throughout their life cycle as long as basis has not changed.

The principles of the above standards for disclosure and transparency shall be applicable even to products and services offered electronically as well as to products catering to different market segments with particular consideration for segments that may have limited financial literacy.

Protection of client Information.¹ Financial consumers have the right to expect that their financial transactions, as well as relevant personal information disclosed in the course of a transaction, are kept confidential and are secured. Towards this end, BSFIs must ensure that they have well-articulated information security guidelines, well-defined protocols, a secure database, and periodically re-validated procedures in handling the personal information of their financial consumers. This should be an end-to-end process that should cover, among others, the array of information that will be pre-identified and collected, the purpose and manner of gathering each information, the Information Technology (IT)-security infrastructure of the BSFI, and the protocols for disclosure, both within the BSFI and especially to third parties.

The BSFI demonstrates the ability to protect client information if it is able to:

- a. Have a written privacy policy to safeguard its customers' personal information. This policy should govern the gathering, processing, use, distribution, storage, and eventual disposal of client information and the identification of levels of permissible access to consumer's data for employees. The BSFI should ensure that privacy policies and sanctions for violations are implemented and strictly enforced.

¹ This Section should be read in conjunction with existing regulations on IT Risk Management System and laws and regulations on data privacy.

- b. Ensure that privacy policies are regularly communicated throughout the organization.
- c. Have appropriate systems in place to protect the confidentiality and security of the personal data of its consumers against any threat or hazard to the security or integrity of the information and against unauthorized access. This includes a written information security plan that describes its program to protect customer personal information. The plan must be appropriate to its size and complexity, nature and scope of its activities, and the sensitivity of customer information it handles.
- d. Have a strong IT System in place to protect the confidentiality, security, accuracy, and integrity of customer's personal information. This includes network and software design, as well as information processing, database storage, transmission, retrieval, and disposal. Security must be maintained throughout the life-cycle of consumer information, from data entry to disposal, and provide clear policies and procedures on data breaches including mechanisms to compensate consumers.
- e. Subject to the provisions of existing laws and regulations on data privacy, send written communication to its consumers informing and explaining how it will use and share the consumer's personal information.
- f. Obtain the consumers' written consent, unless in situations allowed as an exception by law or Bangko Sentral-issued regulations on confidentiality of consumer's information, before sharing consumers' personal information with third parties such as credit bureau, collection agencies, marketing and promotional partners, financial technologies that use a varied range of consumer data and other relevant external parties.
- g. Provide access to consumers to the information shared and allow consumers to challenge the accuracy and completeness of the information and have these amended as appropriate.

Fair treatment. This principle ensures that financial consumers are treated fairly, honestly, and professionally at all stages of its relationship with the BSFI. BSFIs shall adopt mechanisms to safeguard the interest of their consumers which shall include rules regarding ethical staff behavior, acceptable selling practices, fair and equitable terms and conditions, provision of products and services appropriate to the capacity and risk appetite of the consumers, among others, and incorporate the same in their policies and procedures, control functions and agreements with outsourced third parties.

The BSFI demonstrates the principle of fair treatment towards financial consumers if the policies and practices observe the following:

- a. Terms and conditions are not unfair in that there is significant imbalance in the parties' rights and obligations arising under the contract, to the detriment of the consumer.
- b. Product and services are offered with skill, due care and diligence and shall consider the consumers' financial situation, needs, capabilities and overall risk profile. Adequate product suitability and affordability mechanisms shall be in place subject to existing rules and regulations. If the requested products are of higher risk rating than a consumer's risk tolerance assessment results, the BSFI should draw the consumer's attention to the risk mismatch and provide a written disclosure of consequences which is accepted by the client. Product bundling should also take into consideration the product suitability and should not unduly limit consumer choice.
- c. Adequate product approval are in place to ensure that products and services are fit for the targeted consumer. Product development, review, distribution and after sales process shall take into consideration the risks to consumers.
- d. BSFIs do not unduly limit a consumer's ability to cancel or transfer the product to another provider as disclosed in the terms and conditions. As may be appropriate, BSFIs shall provide the consumer who is a natural person with a cooling off period subject to the following conditions:
 - (1) The "cooling-off" period shall be for a reasonable number of days, of at least two (2) banking days, immediately following the submission of any agreement or contract, particularly for financial instruments with a remaining term of at least one (1) year: *Provided*, That consumers with aggregate investment size of P500 thousand and above are excluded from invoking the cooling off period: *Provided, further*, That securities "traded" or "to be traded" are exempt from the coverage of the cooling-off period.
 - (2) Consumers may be permitted to cancel the agreement without penalty of any kind upon his or her written notice to the BSFI during the cooling-off period. The BSFI may however collect or recover reasonable amount of processing fees. Conditions and fees for products with automatic right to cooling off must be appropriately determined, discussed and explained to consumers.

- e. BSFI staff treats consumers with professional competence and in a manner that is fair and responsible. The BSFI shall:
- (1) Incorporate in its Code of Conduct (Code) the values and standards that uphold protection of consumers and embed the Consumer Protection Standards of Conduct; and have process in place to detect, respond to and enforce sanctions on violations thereof.
 - (2) Align its recruitment and training policies around professional, fair and responsible treatment of clients, for instance:
 - (a) BSFI staff receives adequate training suitable for the complexity of the products or services they sell and are able to explain the key features of the product, including statutory and regulatory requirements.
 - (b) BSFI staff does not use deceptive or high pressure/aggressive sales techniques and should not force clients to sign contracts or rush into a financial deal without the benefit of shopping around.
 - (c) BSFI staff involved in collections, as well as agents contracted for the purpose, receives training in acceptable debt collection practices and loan recovery procedures consistent with existing relevant regulations.
 - (d) BSFI staff does not employ practices that discriminate or take advantage of difficulties faced by, vulnerable groups such as the low-income earners, and persons with disability.
 - (e) Establish policies and procedures that aim to protect consumers' deposits and other assets against internal or external fraud or misuse and have mechanisms in place to manage and resolve actual conflicts of interest with respect to compensation policies that arise in the interaction between their staff and agents and their consumers and potential consumers.
 - (3) Include ethical behavior, professional conduct, and quality of interaction with consumers as part of staff performance evaluations.
 - (4) Ensure that the remuneration structure for staff of BSFI and authorized agent is in a manner that encourages responsible business conduct, fair treatment and avoidance/mitigation of conflicts of interest.
 - (5) Perform appropriate due diligence before selecting the authorized agents/outsourced parties taking into account the agents' integrity, professionalism, financial soundness, operational capability and capacity, and compatibility with the FI's corporate culture and implement controls to monitor the agents' performance on a continuous basis.

Effective recourse. Financial consumers should be provided with accessible, affordable, independent, fair, accountable, timely, and efficient means for resolving complaints with their financial transactions. BSFIs should have in place mechanisms for complaint handling and redress, and may employ various modalities or technological innovations.

The BSFI demonstrates the ability to provide effective recourse if it is able to:

- a. Establish an effective Consumer Assistance Management System (CAMS) designed to receive, record, evaluate, resolve, monitor and report consumer complaints, concerns, inquiries or requests to be implemented by a designated officer, unit, group or department commensurate to the size, structure, nature of products and services, and complexity of operations, ensuring that there is no conflict of interest.
- b. Establish, maintain and implement internal policies and practices for a reasonable and prompt handling of consumer concern.
- c. Make available a wide range of channels in which consumers can conveniently lodge their complaints, inquiries and requests; and put in place a dedicated helpdesk or hotline for the said purpose.
- d. Maintain a management information system for the complaints from consumers that allows for consolidation, comparison and analysis on a regular basis including investigating whether complaints indicate an isolated issue or a more widespread issue for consumers. This analysis and reports of consumer complaints must have clear reporting and escalation structure within the BSFI's risk governance framework. The complaints reports shall be submitted in accordance with the existing regulations.
- e. Establish clear policies on investigation, resolution and restitution of complaints and making the process clear to the consumer.

- f. Ensure that information on the consumer assistance channels and applicable timelines for handling concerns are published in the following:
- (1) Terms and Conditions of a BSFI's product or service;
 - (2) Various channels of service delivery; and
 - (3) Conspicuous places within the premises of BSFI's and their branches/other offices.
- g. Provide for adequate resources to handle financial consumer complaints efficiently and effectively. Staff handling complaints should have appropriate experience, knowledge, and expertise. Depending on the BSFI's size and complexity of operation, a Senior staff member should be appointed to be in charge of the complaint handling process.

Financial education and awareness. Financial education initiatives give consumers the knowledge, skills, and confidence to understand and evaluate the information they receive and empower them to make informed financial decisions.

Because BSFI's deal directly with financial consumers, they have the reach, expertise, and established relationships ideal to deliver financial education, distinct and separate from information about their products. BSFI's should provide basic information on consumers' and the BSFI's rights and responsibilities.

BSFI's should demonstrate efforts at financial education, which may include digital literacy for products offered electronically, with the presence of programs whether as specific initiatives or as aspects embedded in their regular interface with consumers.

(Circular Nos. 1048 dated 06 September 2019, 1003 dated 16 May 2018, 930 dated 18 November 2016, 898 dated 14 January 2016, 890 dated 02 November 2015, and 857 dated 21 November 2014)

1003-Q ENFORCEMENT ACTIONS

Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence to the Bangko Sentral Regulations on Financial Consumer Protection.

(Circular Nos. 1048 dated 06 September 2019, 890 dated 02 November 2015, and 857 dated 21 November 2014)

PART ELEVEN

OTHER NON-BANKING REGULATIONS

A. FEES/CHARGES

1101-Q ASSESSMENT FEES ON QUASI-BANKS

Annual fees on quasi-banks. QBs shall contribute to the Bangko Sentral an annual fee to help defray the cost of maintaining the appropriate supervision department of the Bangko Sentral.

For purposes of computing the annual fees chargeable against QBs, the term *Total Assessable Assets* shall be the amount referred to as the total assets under Section 28 of R.A. No. 7653 (end-of-quarter total assets per balance sheet, after deducting cash on hand and amounts due from banks, including the Bangko Sentral and banks abroad) plus Trust Department accounts and personal equity and retirement accounts (PERA) administered by the quasi-bank.

Average Assessable Assets shall be the summation of end-of-quarter total assessable assets divided by the number of quarters in operation during a particular assessment period.

The annual fees for QBs for the current year shall be one twenty-eighth (1/28) of one percent (1%) multiplied by the Average Assessable Assets of the preceding year.

Securities held under custodianship shall be exempt from annual fees.

Annual fees to be collected from QBs shall be debited from their respective deposit accounts with the Bangko Sentral by the Comptrollership Department upon receipt of the notice of the assessment from the appropriate supervision department of the Bangko Sentral.

Where the deposit account is insufficient to cover the assessment fee, the Bangko Sentral shall bill the QB for the full amount of the annual fee or for the balance thereof not covered by its deposit account, as the case may be.

Within thirty (30) calendar days from receipt of the bill, the QB shall make the corresponding remittance to the Bangko Sentral. Failure to pay the bill within the prescribed period shall subject the QB to administrative sanctions.

The guidelines in the collection of the annual supervisory fees are provided in *Appendix Q-53*.

(M-2019-009 dated 8 April 2019, Circular No. 903 dated 29 February 2016, M-2016-001 dated 24 February 2016, Circular Nos. 890 dated 02 November 2015, 878 dated 22 May 2015, and M-2015-022 dated 06 May 2015)

1102-Q PAYMENT OF MONETARY PENALTIES AND OTHER CHARGES

The following regulations shall govern the payment of monetary penalties and other charges by QBs, and/or their directors and/or officers.

Guidelines on the imposition of monetary penalties.

a. Statement of Policy

The Bangko Sentral recognizes the need to impose monetary penalties as one of the possible sanctions to hold QBs, and/or their directors and/or officers accountable for their conduct and to deter the future commission of violations.

This regulation sets forth the guidelines in the imposition of monetary penalties as may be warranted under the circumstances based on the following general principles laid down in the Bangko Sentral Supervisory Enforcement Policy provided under Sec. 002-Q taking into consideration their impact on the QB's financial condition:

- (1) Root cause diagnosis;
- (2) Consistently matching the severity of enforcement action to the supervisory issue;
- (3) Successive or simultaneous deployment of enforcement actions;
- (4) Monitorability and follow-through; and
- (5) Escalation of enforcement actions.

Accordingly, the Bangko Sentral may impose monetary penalties, singly or together with non-monetary sanctions, if appropriate, even at the outset or as an escalated sanction.

- b. The following are the guidelines on the imposition of monetary penalties on QBs, and/or their directors and/or officers and the payment of such monetary penalties and other charges:

- (1) QBs, and/or their directors and/or officers shall be imposed the monetary penalties prescribed under applicable laws or other Bangko Sentral rules and regulations.

In the absence of provision on monetary penalty for the violation/offense, QBs and/or their directors and/or officers may be imposed a maximum monetary penalty of P30,000.00 per calendar day for each violation/offense in accordance with the following schedule:

<u>Penalty Level¹</u>	<u>Asset Size</u>	<u>High</u>	<u>Low</u>
Up to P200 million		5,000	2,500
Above P200 million but not exceeding P500 million		10,000	5,000
Above P500 million but not exceeding P1 billion		15,000	7,500
Above P1 billion but not exceeding P10 billion		20,000	10,000
Above 10 billion but not exceeding P50 billion		25,000	12,500
Above P50 billion		30,000	15,000

The Bangko Sentral may use a penalty rate prescribed under the next higher range of asset size after considering the following attendant circumstances: (a) the harm caused or potential harm caused to the QB and/or its stakeholders; (b) the seriousness of the violation or irregularity; and (c) the intentionality and frequency: *Provided*, That the resulting penalty will have no adverse impact on the BSFI's operations, liquidity and/or capitalization.

If the monetary penalty is less than the gain derived or loss avoided by the QB and/or director and/or officer in committing the violation/s, the Bangko Sentral may assess total monetary penalties equivalent to the gain derived or loss avoided.

The appropriate supervising department shall notify the QB/director or officer concerned of the violation and the corresponding amount of monetary penalty, together with a directive for the QB/director or officer concerned to explain within fifteen (15) business days from receipt of the letter why the assessed monetary penalty should not be imposed against it/him/her. The recommendation to impose monetary penalties shall be approved by the Governor or the Monetary Board, as the case may be. The decision of the Governor/Monetary Board shall be communicated to the QB/director or officer concerned.

However, the Bangko Sentral is not precluded from imposing non-monetary sanctions along with monetary penalties if circumstances so warrant.

- (2) *Basis for the computation of the period or duration of penalty.* The computation of the period or duration of all penalties shall be based on calendar days. For this purpose the terms “*per banking day*”, “*per business day*”, “*per day*” and/or “*a day*” as used in this Manual, and other Bangko Sentral rules and regulations shall mean “*per calendar day*” and/or “*calendar day*” as the case may be.
- (3) *Request for Reconsideration or Appeal.* A request for reconsideration on the monetary penalty approved by the Governor/Monetary Board is allowed. The QB/director or officer concerned shall be notified of the decision of the Governor/Monetary Board thereon. An appeal from the decision of the Governor on the request for reconsideration may be made to the Monetary Board.

A request for reconsideration or appeal shall be filed within fifteen (15) calendar days from receipt of the notice of the decision of the Governor/Monetary Board.

- (4) *Payment of Monetary Penalties.* QBs, and/or their directors and/or officers shall pay the monetary penalties within fifteen (15) calendar days from receipt of the notice of the decision of the Governor/Monetary Board pay the fines for reserve deficiency, reportorial delay/deficiency, refusal to permit examination, or failure to comply with, or violation of, any law or any order, instruction or regulation issued by the Monetary Board, or any order, instruction or ruling by the governor.

In the case of QBs, penalties which remain unpaid after due date shall be automatically debited against their corresponding demand deposit account (DDA) with the Bangko Sentral.

¹ "High" penalty level is generally imposed on serious offenses/violations such as unsafe or unsound practices; fraudulent acts; and major acts or omissions defined as the bank's/individual's failure to comply with the requirements of banking laws, rules and regulations, as well as Monetary Board directives/instructions which have/may have a material adverse impact on bank's solvency, liquidity or profitability. This penalty level may also be imposed as an escalated monetary penalty to violations previously meted with "low" penalty level.

"Low" penalty level is imposed on all other acts or omissions that cannot be classified under serious offenses/violations as described above.

In the case of directors and/or officers, their employer QB shall advance the payment of the penalty to the Bangko Sentral in their behalf on or before due date through automatic debit of its DDA with the Bangko Sentral. In case the director and/or officer is no longer connected with the QB, payment thereof shall be for the account of the director and/or officer who shall pay directly to the Bangko Sentral in the form of cash or check or such other acceptable means of payment and in accordance with the provisions of Sec. 1102-Q (*Check/demand draft payments to the Bangko Sentral*).

For uniform implementation of the above regulations, the procedural guidelines embodied in *Appendix Q-26*, shall be observed.

- (5) *Additional Charge for Late Payment of Monetary Penalty.* Late payment or monetary penalty shall be subject to an additional charge of six percent (6%) per annum to be computed from the time said penalty becomes due and payable up to the time of actual payment.

Check/demand draft payments to the Bangko Sentral. QBs shall make all check and demand draft payments for transactions other than those required to be paid through the QBs' DDA either to the Bangko Sentral Cash Department or to the Bangko Sentral Regional Offices and Branches. Such payments shall be accompanied by the appropriate form as shown in *Appendix Q-27*. Payments not accompanied by the required payment forms shall be presumed to be additions to reserves and shall be credited to the DDA of the paying QB.

Check payments shall be value-dated when the check is cleared.

(Circular No. 988 dated 20 December 2017)

B. PHILIPPINE & FOREIGN CURRENCY NOTES AND COINS

1111-Q PHILIPPINE AND FOREIGN CURRENCY NOTES AND COINS

The following rules and regulations shall govern the treatment and disposition of counterfeit Philippine and foreign currency notes and coins, the reproduction and/or use of facsimiles of legal tender Philippine currency notes and coins, the replacement and redemption of legal tender Philippine currency notes and coins considered mutilated or unfit for circulation, and the treatment and disposition of Philippine currency notes and coins called in for replacement.

Definition of terms.

For purposes of this Section, the following terms are defined:

- a. *Legal tender Philippine currency* - Notes and coins issued and circulating in accordance with R.A. No. 265, as amended, and/or R.A. No. 7653, which when offered for the payment of public or private debt must be accepted.
- b. *Counterfeit note* - An imitation of a legal and genuine note intended to deceive or to be taken for that which is original, legal and genuine.
- c. *Counterfeit coin* - An imitation or forged design of a genuine and legal coin regardless of its intrinsic value or metallic composition, intended to deceive or pass for the genuine coin.
- d. *Unauthorized reproduction of legal tender Philippine note* – A reproduction of a facsimile or any illustration or object bearing the likeness or similitude of legal tender Philippine currency note or any part thereof, without prior authority from the Governor of Bangko Sentral or his duly authorized representative.
- e. *Unauthorized reproduction of legal tender Philippine coin* – A reproduction of a facsimile or any object in metal form bearing the likeness or similitude of legal tender Philippine currency coin or any part thereof, without prior authority from the Governor of Bangko Sentral or his duly authorized representative.

Treatment and disposition of counterfeit Philippine and foreign currency notes and coins. Any person or entity, public or private, who receives or takes hold of a note or coin which is counterfeit or whose genuineness is questionable, whether Philippine or foreign currency, shall issue a temporary receipt to its owner/holder and must indicate therein his name, address and community tax certificate number or a reference number sourced from any Philippine government issued ID or passport number, or in case of a foreigner, the date of receipt, the denomination, serial number of the note or the coin series as the case may be. The owner/holder shall be required to countersign the receipt and in case of refusal, the reason shall be stated in the receipt.

Any person or entity, public or private, who receives, takes hold or has in his possession a note or a coin which is counterfeit or whose genuineness is questionable, whether Philippine or foreign currency, shall forward the same within five (5) working days from date of receipt/possession thereof, together with a copy of the temporary receipt required herein for examination to:

THE CURRENCY ISSUE AND INTEGRITY OFFICE

Security Plant Complex Bangko Sentral ng Pilipinas East Avenue,
Diliman 1101 Quezon City

In cases where personal delivery to the Currency Issue and Integrity Office (CIIO), Bangko Sentral ng Pilipinas, Quezon City, is not feasible, delivery of the aforesaid notes or coins may be made through any of the following agencies:

- (1) The Bangko Sentral Regional Offices/Branches; or
- (2) Any banking institution under the supervision of the Bangko Sentral.

Any law enforcement agency which conducted any seizure of notes and coins, whether Philippine or foreign, which are counterfeits or suspected to be counterfeit currency shall, within five (5) working days from date of seizure, advise in writing the CIIO, Bangko Sentral ng Pilipinas, Quezon City, of said seizure enclosing therewith a copy of the receipt and inventory taken on the seized items. All seized notes or coins which are not or no longer needed as evidence in any investigation/legal proceedings shall be immediately turned over to the CIIO, Bangko Sentral, for proper disposition.

The CIIO, Bangko Sentral, after examining all notes and coins, whether Philippine or foreign, submitted to it for examination and/or determination as to its genuineness, shall:

- (a) Issue a corresponding certification for the currency examined, if needed;
- (b) Stamp the word "COUNTERFEIT" on both the front and the back of each note found to be counterfeit; and
- (c) Return to the owner/holder and/or sender the Philippine or foreign currency notes or coins found to be genuine in accordance with existing accounting and auditing regulations.

All notes and coins, whether Philippine or foreign, determined by the CIIO, Bangko Sentral, to be counterfeit currency, shall not be returned to the owner/holder, but shall be retained and later disposed of in accordance with such guidelines as may be adopted by the Bangko Sentral, except those which will be used as evidence in an investigation or legal proceedings, in which case, the same shall be retained and preserved by the Bangko Sentral for evidentiary purposes.

The Bangko Sentral shall extend assistance as may be requested of it in the investigation, apprehension and/or prosecution of person/s responsible for counterfeiting of notes and coins, both Philippine and foreign.

Reproduction and/or use of facsimiles of legal tender Philippine currency notes. No person or entity, public or private, shall design, engrave, print, make or execute in any other manner, or utter, issue, distribute, circulate or use any handbill, advertisement, placard, circular, card, or any other object whatsoever bearing the facsimile, likeness or similitude of any legal tender Philippine currency note, or any part thereof, whether in black and white or any color or combination of colors, without prior authority therefor having been secured from the Governor, Bangko Sentral, or his duly authorized representative.

The reproduction and/or use of facsimiles or any illustration bearing the likeness or similitude of legal tender Philippine currency notes referred to above may be authorized by the Governor, Bangko Sentral, or his duly authorized representative, for printed illustrations in articles, books, journals, newspapers, or other similar materials and strictly for numismatic, educational, historical, newsworthy or other purposes which will maintain, promote or enhance the integrity and dignity of said note: *Provided, however,* That any such facsimile or illustration shall be of a size less than three-fifths (3/5) or more than one and one-half (1-1/2) times in size of the currency note being illustrated and that there will be no deviation from the purpose for which the notes will be used.

Reproduction and/or use of facsimiles of legal tender Philippine currency coins. No person or entity, public or private, shall design, engrave, make or execute in any other manner, or use, issue, distribute any object whatsoever bearing the likeness or similitude as to design, color or the inscription thereon of any legal tender Philippine currency coin or any part thereof, in metal form, irrespective of size and metallic composition, without prior authority from the Governor, Bangko Sentral, or his duly authorized representative.

The reproduction and/or use of facsimiles or of any object bearing the likeness or similitude of legal tender Philippine currency coins referred to in the foregoing paragraph may be authorized by the Governor, Bangko Sentral, or his duly authorized representative, strictly for numismatic, educational, historical and other purposes which will maintain, promote or enhance the integrity and dignity of said coins.

Replacement and redemption of legal tender Philippine currency notes and coins considered mutilated or unfit for circulation.

- a. *Unfit currency note.* A currency note shall be considered unfit for circulation when:
 - (1) It contains heavy creases which break the fiber of the paper and indicate that disintegration has begun; or
 - (2) It is badly soiled/contaminated and/or with writings even if it has proper life or sizing; or
 - (3) It presents a limp or rag-like appearance and/or it cannot sustain its upright position when held at the mid portion of one of the shorter borders.
- b. *Mutilated currency note.* A currency note shall be considered mutilated when:
 - (1) Torn parts of the banknote are joined together with adhesive tape aimed at preserving as nearly as possible the original design and size of the note; or
 - (2) The original size of the note has been reduced/lost through wear and tear or has been otherwise torn, damaged, defaced or perforated through action of insects, chemicals or other causes; or
 - (3) It is scorched or burned to such an extent that although recognizable as such, it has become frail and brittle as to render further handling thereof impossible without disintegration or breaking; or
 - (4) It is split edgewise; or
 - (5) It has lost all the signatures inscribed thereon; or
 - (6) The Embedded Security Thread or Windowed Security Thread placed on the banknote is lost.
- c. *Unfit currency coin.* A currency coin shall be considered unfit for circulation when:
 - (1) It is bent or twisted out of shape or defaced or show signs of corrosion, but its genuineness and/or denomination can still be readily and clearly determined/identified; or
 - (2) It has been considerably reduced in weight by natural abrasion/wear and tear.
- d. *Mutilated currency coin.* A currency coin shall be considered mutilated when:
 - (1) It shows signs of filing, clipping or perforation; or
 - (2) It shows signs of having been burned, or has been so defaced, that its genuineness and/or denomination cannot be readily and clearly identified.
- e. Currency notes and coins considered unfit for circulation shall not be re-circulated, but may be presented for exchange to or deposited with any bank.
- f. Banks shall accept from the public mutilated notes and coins for referral/transmittal to CIO, Bangko Sentral – Quezon City or any of the Bangko Sentral Regional Offices/Branches for determination of redemption value. Banks may charge reasonable handling fees from clients and/or the general public relative to the handling/transporting to Bangko Sentral of mutilated notes and coins.
- g. The Bangko Sentral shall replace or redeem notes and coins considered unfit for circulation or mutilated except under the following conditions:
 - (1) Identification of notes and coins is impossible; or
 - (2) Coins that show signs of filing, clipping or perforations; or
 - (3) Notes which have lost more than two-fifths (2/5) of their surface or all of the signatures inscribed thereon; or
 - (4) Notes which are split edgewise resulting in loss of the whole of or part of, either the face or back portion of the banknote paper; or
 - (5) Notes where the Embedded Security Thread or Windowed Security Thread placed thereon is completely lost except when the damage appears to be caused by wear and tear, accidental burning, action of water or chemical or bites of rodents/insects and the likes.

Notes and coins falling under any of the classifications mentioned under Item “g” above shall be withdrawn from circulation and demonetized without compensation to the owner/bearer.

Treatment and disposition of Philippine currency notes and coins called in for replacement. Any person or entity, public or private, who receives, takes, holds or has in his possession Philippine currency notes and coins called in for replacement shall forward the same during the redemption period to:

- a. Any authorized agent banks of the Bangko Sentral when the notes are still considered legal tender, within one (1) year from the date of call; or
- b. The CD or Regional Offices/Branches of the Bangko Sentral, within the redemption period as may be determined by the Monetary Board.

The CD or Regional Offices/Branches of the Bangko Sentral shall exchange the notes/coins called in for replacement if presented to the Bangko Sentral within the redemption period as determined by the Monetary Board and subsequently dispose the same in accordance with Bangko Sentral procedures for disposal.

Penalties. Any violation of the provisions of Sec. 1111-Q (*Reproduction and/or use of facsimiles of legal tender Philippine currency notes and Reproduction and/or use of facsimiles of legal tender Philippine currency coins*), shall subject the offender to imprisonment of not less than five (5) years, but not more than ten (10) years. In case the Revised Penal Code provides for a greater penalty, then that penalty shall be imposed.

(Circular Nos. 890 dated 02 November 2015 and 829 dated 13 March 2014)

C. PERSONAL EQUITY AND RETIREMENT ACCOUNT (PERA)

1121-Q PERA MARKET PARTICIPANTS AND PERA INVESTMENT PRODUCTS

The following are the guidelines on the qualification/accreditation of PERA Market Participants and PERA Investment Products which are issued pursuant to R.A. No. 9505 also known as the PERA Act of 2008 (PERA Act), and its implementing Rules and Regulations (the PERA Rules).

The operational guidelines on the administration of the PERA are found in *Appendix Q-69*.

Applicability. These guidelines apply to banks, trust entities¹ and other entities determined by the Bangko Sentral as eligible that seek to be qualified/accredited and are qualified/accredited as PERA Market Participants, and to PERA Investment Products that are considered eligible by the Bangko Sentral for PERA purposes.

Eligibility criteria.

- a. **PERA investment products.** The following PERA investment products are considered to be Bangko Sentral-eligible PERA investment products: *Provided*, That, with respect to Items "(1)" and "(2)" below, they are issued by Bangko Sentral-supervised entities with CAMELS rating of not lower than "3" or its equivalent, to wit:

- (1) Unit Investment Trust Fund (UITF);
- (2) Debt-instruments such as, but not limited to, long term negotiable certificate of deposits and unsecured subordinated debt;
- (3) Deposits; and
- (4) Government-issued securities.

In the case of UITF, the existing approval process shall be observed. The Bangko Sentral may allow other category of investment products or outlets for PERA purposes: *Provided*, that the product is non-speculative, readily marketable, and with a track record of regular income payments to investors.

- b. **PERA market participants**

PERA Participants	Market Eligible Entities
Administrator	Banks, trust entities and other entities as may determine by the Bangko Sentral as eligible to act as PERA Administrator
Investment Manager	Trust entities and other entities as may be determined by the Bangko Sentral as having the qualifications to be accredited as PERA Investment
Cash Custodian	Banks
Securities Custodian	Banks and trust entities
Investment Product Provider	Any Bangko Sentral - supervised entity that wishes to offer PERA Investment Product to Contributors

¹ Trust entity shall refer to a (a) bank or non-bank financial institution, through its specifically designated business unit to perform trust functions, or (b) trust corporation, authorized by the Bangko Sentral to engage in trust and other fiduciary business under Section 79 of R.A. No. 8791 (General Banking Law of 2000) or to perform investment management services under Section 53 of R.A. No. 8791.

Qualification/Accreditation requirements.

- a. *As an administrator.* The Bangko Sentral shall issue a qualification certificate as administrator to an entity upon compliance with the following requirements:

- (1) The applicant maintains a net worth of at least P100 million at all times.

Net worth shall refer to the combined capital accounts of the Administrator which shall mean the total of the unimpaired paid-in capital, surplus and undivided profits, less:

- (a) The one percent (1%) of the book value of the total volume of PERA assets administered and other capital adjustments as may be required by the Bangko Sentral;
- (b) Total outstanding unsecured credit accommodations, both direct and indirect, extended by the administrator to DOSRI; and
- (c) Appraisal surplus or appreciation credit as a result of appreciation or an increase in the book value of the assets of the administrator.

DOSRI cited in Item "1(b)" above shall refer to that provided in Sec. 321-Q (*Definition*): *Provided*, That for purposes of this provision, references to a QB as an entity shall be understood to include references to any other type of entity acting as Administrator.

- (2) It has adopted a Manual of Corporate Governance approved by the Bangko Sentral, and is in full compliance therewith.
- (3) It has a clear and sufficient organization plan or structure of its personnel who will perform the PERA administration functions, stating the definition of the duties and responsibilities as well as the line and staff functional relationships.
- (4) It possesses adequate systems and technological capabilities, and the necessary technical expertise and personnel to administer all types of PERA Investment Products, ensure the proper recording and tracking of a contributor's PERA, and perform the other required functions of an Administrator.
- (5) It has sufficient personnel who have undergone the requisite training prescribed by the Bangko Sentral to educate the contributor on:
 - (a) The nature of a PERA;
 - (b) Privileges, conditions and requirements of a PERA;
 - (c) The risks and benefits of each type of PERA investment products; and
 - (d) Respective roles of the Administrator, Investment Manager and Custodian.
- (6) It has adopted the following forms that the Administrator shall use in dealing with the Contributor and his PERA:
 - (a) Pre-Acceptance Disclosure Policy described in PERA Rule 6.A.2.a;
 - (b) Client Suitability Assessment Questionnaire referred to in PERA Rule 6.A.2.b(i);
 - (c) Risk Disclosure Statement, which shall include the standard minimum information referred to in PERA Rule 6.A.2.d; and
 - (d) Contract between the Contributor and the administrator referred to in PERA Rule 6.A.2.c.
- (7) It has a board-approved policy on fees and charges to be imposed for its services as administrator which shall be subject to Bangko Sentral approval.

Failure to satisfy any of the above requirements shall be a ground for the denial of the application, without prejudice to the re-filing of an application.

An administrator who has been issued with a "Qualification Certificate" shall then file an application for accreditation with the PERA Processing Office of the BIR to complete its application process to become a PERA administrator.

- b. *As an investment manager.* The Bangko Sentral shall accredit an entity as an investment manager upon submission of a written application certified by the chief executive officer (CEO) together with the following documentary requirements:

- (1) Written supervision and control procedures for the conduct of the investment management functions;
- (2) Proof of at least five (5) years of experience in professional investment management;
- (3) Certified true copy of educational, professional/technical or other academic qualifications of its principal officers;

- (4) Copy of its form contract to be utilized. The agreement between the contributor and the investment manager shall contain the following minimum contents:
 - (a) Overall investment philosophy, standards and practices of the investment manager; and
 - (b) Validation of contributor's Client Suitability Assessment and Investment Policy Statement made by contributor's administrator referred to in PERA Rule 6.A.2.b (i) and (ii); and
- (5) A schedule of commission charges and/or other fees it will charge for its services.

c. *As a custodian*

Cash custodian. In addition to the standard pre-qualification requirements for the grant of banking authorities enumerated in *Appendix 5*, banks applying for authority to act as cash custodian for PERA shall also comply with the following conditions:

- (1) The applicant bank must have complied with the minimum capital required under Sec. 121 (*Minimum capitalization*); and
- (2) The Bank's CAMELS composite rating in its latest examination is not lower than "3" with Management component score of not lower than "3".

Securities custodian. Only banks and other entities with trust license which have complied with the requirements under Sec. 431-Q (*Pre-qualification requirements for a securities custodian/registry*) may be accredited as securities custodian.

For purposes of this Section, the Bangko Sentral may provide for such other requirements or qualifications as it may deem necessary for the qualification/accreditation of a supervised entity as a PERA Market Participant.

Application for qualification/accreditation. An eligible supervised entity seeking qualification/accreditation as PERA Market Participant (Administrator, Investment Manager, Cash Custodian or Securities Custodian) shall file an application for qualification/accreditation with the appropriate supervision department of the Bangko Sentral. The application shall be signed by the CEO and shall be accompanied by the following documents:

- a. Certified true copy of the resolution of the entity's board of directors authorizing the application;
- b. Certification signed by the CEO that the entity has complied with all the relevant qualification/accreditation requirements enumerated under Sec. 1121-Q (*Qualifications/accreditation requirements*) and an undertaking to comply with the aforementioned requirements while it acts as an administrator, investment manager, cash custodian and/or securities custodian; and
- c. Relevant PERA forms, Board-approved policy on fees and charges, and proof of compliance with Item "a.(5)" of Sec. 1121-Q (*Qualifications/accreditation requirements*) insofar as the application of the Administrator is concerned.

The qualification/accreditation of PERA Market Participants and accreditation of PERA Investment Products granted by the Bangko Sentral shall be valid until revoked.

Security for the faithful performance of administrators. As a security for the faithful performance of its duties under the PERA Act, an administrator shall hold eligible government securities, equivalent to at least one percent (1%) of the book value of the total volume of PERA assets administered, earmarked in favor of the Bangko Sentral: *Provided*, That the administrator shall issue an authorization in favor of the Bangko Sentral to withdraw, dispose and disburse the proceeds thereof to settle any claims arising from the breach of its duties as evidenced by a final and executory court order: *Provided, further*, That the administrator shall not withdraw, transfer or replace such earmarked securities without prior written instruction from the Bangko Sentral. The security for the faithful performance of the administrator's duties shall be in addition to and shall be treated separately from the capital, surplus, and undivided profits of the administrator.

For this purpose, eligible government securities shall consist of evidences of indebtedness of the Republic of the Philippines or of the Bangko Sentral or any other evidences of indebtedness or obligations the servicing and repayment of which are fully guaranteed by the Republic of the Philippines or such other kinds of securities which may be declared eligible by the Monetary Board: *Provided*, That, such securities shall be free, unencumbered, and not utilized for any other purpose: *Provided further*, That such government securities shall have remaining maturities of not more than three (3) years from the date the securities have been earmarked in favor of the Bangko Sentral.

The requirement for the above-mentioned government securities to have remaining maturity of not more than three (3) years from the date of deposit with the Bangko Sentral shall no longer apply starting 31 March 2018.

a. *Valuation of securities and basis of computation of the basic security deposit requirement.*

Prior to 31 March 2018:

- (1) For purposes of determining compliance with the security for the faithful performance of administrators under the PERA Act, the amount of securities so earmarked shall be based on their book value, that is, cost as increased or decreased by the corresponding discount or premium amortization.
- (2) The base amount for the basic security shall be the average of the month-end balances of administered assets for the immediately preceding calendar quarter.

Effective 31 March 2018, the provisions under Item “a(1)” above shall no longer apply. The following provisions on the valuation of government securities shall be adopted starting 31 March 2018:

Government securities deposited with the Bangko Sentral shall be measured at fair value according to the marking-to-market guidelines for government securities under *Appendix Q-23*, subject to applicable haircuts.

The haircuts that shall be applied to the government securities shall be as follow:

Residual Maturity	Minimum Haircut (In Percent) for Basic Security Deposit
3 years and below	0.0
> 3 years up to 5 years	2.0
> 5 years	4.0

b. *Compliance with the basic security deposit requirement.*

- (1) *Compliance.*¹ The administrator shall ensure compliance with the required basic security deposit at all times. Any deficiency arising from a withdrawal, replacement or redemption transaction must be corrected through the immediate posting of additional securities. In case a deficiency is calculated at the end of the calendar quarter, the Administrator shall have a grace period of one (1) week reckoned from the end of the reference calendar quarter within which to deposit with the Bangko Sentral the securities required under this Section.

- (a) *Quarterly compliance.* The administrator shall comply with the basic security deposit requirement on a quarterly basis. In determining quarterly compliance, the fair value of government securities used as compliance with the basic security deposit requirement shall be reckoned as of the end of the calendar quarter and the base amount for the basic security deposit requirement provided under Item “a” of this Section shall be applied.

Haircuts for government securities as prescribed under Item “a” of this Section (*Security for the faithful performance of administrators*) shall be determined based on the remaining maturity of the security from the end of the reference quarter, and applied on the fair value of the government securities used as compliance with the basic security deposit.

- (b) *Compliance upon deposit, withdrawal, replacement or redemption.* The Administrator shall ensure compliance with the basic security deposit requirement after every deposit, withdrawal, replacement or redemption of government securities. The basic security deposit requirement shall be the amount computed as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption pursuant to Item “a” of this Section (*Security for the faithful performance of administrators*). The fair value of the remaining government securities, adjusted for the relevant haircuts, shall also be based on amounts reported as of the quarter-end preceding the date of withdrawal, replacement or redemption pursuant to Item “a” of this Section (*Security for the faithful performance of administrators*). The haircuts shall be determined based on the remaining maturity of the security from the quarter-end preceding the date of the securities transfer transaction.

Securities used as compliance with the basic security deposit requirement that are issued within the calendar quarter shall be valued at their purchase price, adjusted for relevant haircuts that are determined based on their remaining maturity as of the purchase date.

- (2) *Required Reports.* The Administrator shall submit the following reports in accordance with *Appendix Q-3*.

- (a) Quarterly Report on Compliance with the Basic Security Deposit Requirement (BSD-PERA-Form-1); and
 - (b) Report on Basic Security Deposit Transactions (BSD-PERA-Form-2).

¹ The provisions on quarterly compliance and compliance upon deposit, withdrawal, replacement or redemption became effective on 31 March 2018.

Administrators shall maintain adequate documentation (e.g., screenshots of fair values) to support the computation of their compliance with the basic security deposit requirement, which shall be made available to the Bangko Sentral upon request.

(3) Other Procedural Requirements.

- (a) Opening of a securities account. The guidelines on the opening of an account with the BTr Registry are provided in *Appendix Q-25*.
- (b) Deposit, withdrawal or replacement. The Administrator shall input the details of securities transfer transactions that are properly supported by notification reports in the BTr Registry to effect the deposit, withdrawal or replacement of securities on the intended date of transfer in the BTr Registry. The input of details of transactions shall be made on or before 12:00 noon for withdrawal or replacement transactions, and on or before 3:30 pm for deposit transactions, on the intended date of transfer as provided in the BSD-PERA-Form-2.

Withdrawal or replacement transactions entered after the cut-off time shall be processed on the next banking day: *Provided*, That the Administrator re-enters the details of the withdrawal or replacement transaction on or before 12:00 noon of the next banking day: *Provided further*, That deficiency in the basic security deposit arising from failure of the Administrator to input details of withdrawal or replacement transactions in the BTr Registry on the intended date of transfer shall cause the imposition of sanctions/penalties under this Section (*Security for the faithful performance of administrators*). Failure to enter or re-enter the transaction details on the next banking day will result in the cancellation of the previously submitted BSD-PERA-Form-2. To effect withdrawal or replacement transactions, the Administrator shall re-submit the BSD-PERA-Form-2 in accordance with the prescribed timelines.

- (c) Administration of proceeds from deposited securities. Coupon or interest payments and the redemption value of matured securities that are deposited with the Bangko Sentral shall be credited to the DDA of the Administrator or the DDA of the Administrator's settlement bank.

Administrators shall develop and maintain systems to ensure compliance with the required basic security deposit as prescribed in this Section.

- (a) An administrator which incurs a deficiency with the basic security deposit within the quarter, or reports a deficiency with the basic security deposit as of the end of the quarter and fails to deposit securities to comply with the said requirement within the one (1)-week grace period, shall be considered deficient with the basic security deposit requirement from the date the deficiency is incurred up to the date the deficiency is corrected or the succeeding quarter-end, whichever comes earlier.

Any non-compliance with the security requirements shall be subject to Sections 36 and 37 of R.A. No. 7653 also known as the New Central Bank Act without prejudice to the imposition of other sanctions as the Monetary Board may consider warranted under the circumstances that may include the suspension or revocation of the entity's authority to engage in PERA administration, and such other sanctions as may be provided by law.

- (b) Notwithstanding the execution of a basic security deposit, withdrawal, or replacement transaction, the Bangko Sentral is not precluded from imposing sanctions against the Administrator for non-compliance with the regulations on the basic security deposit, if warranted.

Grounds for suspension or revocation of qualification/accreditation of administrator, investment manager or custodian. The qualification of an administrator, and the accreditation of an investment manager and custodian may be refused, restricted, suspended or revoked by the Bangko Sentral if, after due notice and hearing, the Bangko Sentral determines that the applicant or licensee has:

- a. Willfully violated any provision of the PERA Act, the PERA Rules or any regulations and issuances by the Bangko Sentral made pursuant thereto, or any other law administered by the Bangko Sentral relevant to its function as a PERA Market Participant, or providing prudential standards for asset management or has aided, abetted, counseled, commanded, induced or procured such violation;
- b. Failed to supervise, with a view to preventing such violation, a person associated to the applicant or licensee by virtue of an agreement or other types of arrangement and who commits such violation;
- c. Willfully made or caused to be made a materially false or misleading statement in the application for qualification/accreditation or report filed with the Bangko Sentral, or has wilfully omitted to state any material fact that is required to be stated therein or necessary to make the statement therein not misleading;

- d. Failed to maintain the qualifications or requirements for accreditation prescribed under the PERA Rules, these guidelines or has failed to maintain compliance with any of them;
- e. Failed to carry on and manage its PERA-related business and activities in a proper, diligent and efficient manner to the prejudice of the Contributor;
- f. Been subject to regulatory sanctions for (a) violations, which the Bangko Sentral determines to affect its operating conditions and ability as a PERA Market Participant, such as but not limited to violations affecting required capitalization and/or solvency, or (b) any act or behavior prejudicial to the PERA Contributors;
- g. Been enjoined or restrained by a competent body from engaging in securities, banking or insurance activities;
- h. Failed to enforce or monitor PERA contribution limits entitled to tax incentives; or
- i. Failed to manage or adequately address conflicts of interest in the performance of its functions, which may be identified by the Bangko Sentral as prejudicial to the interests of the PERA Contributor.

For purposes of this section, the term “*competent body*” shall include a foreign court of competent jurisdiction and a foreign financial regulator.

Penalty. A fine of not less than Php50 Thousand nor more than P200 Thousand or imprisonment of not less than six (6) years and one (1) day to not more than twelve (12) years or both such fine and imprisonment, at the discretion of the court, shall be imposed upon any person, association, partnership or corporation, its officer, employee or agent, who, acting alone or in connivance with others, shall:

- a. Act as administrator, custodian or investment manager without being properly qualified or without being granted prior accreditation by the Bangko Sentral;
- b. Invest the contribution without written or electronically authenticated authority from the contributor, or invest the contribution in contravention of the instructions of the contributor;
- c. Knowingly and willfully make any statement in any application, report, or document required to be filed under the PERA Act, which statement is false or misleading with respect to any material fact;
- d. Misappropriate or convert, to the prejudice of the contributor, contributions to and investments or income from the PERA;
- e. By gross negligence, cause any loss, conversion, or misappropriation of the contributions to, or investments from the PERA; or
- f. Violate any provision of the PERA Act or rules and regulations issued pursuant to the PERA Act.

Notwithstanding the foregoing, any willful violation by the accredited administrator, custodian or investment manager of any of the provisions of the PERA Act, the PERA Rules, relevant rules and regulations issued by the Bangko Sentral or other terms and conditions of the authority to act as administrator, custodian or investment manager may be subject to the administrative sanctions provided for in applicable laws such as those set forth in Section 37 of R.A. No. 7653.

The above penalties shall be without prejudice to whatever civil and criminal liability provided for under applicable laws for the same act or omission such as those set forth in Sections 35 and 36 of R.A. No. 7653.

Reportorial requirements. An entity qualified/accredited by the Bangko Sentral to be a PERA Market Participant shall comply with the reportorial requirements that may be prescribed by the Bangko Sentral.

(M-2019-015 dated 15 May 2019, Circular Nos. 1032 dated 15 February 2019, 998 dated 1 March 2018, 890 dated 02 November 2015, M-2014-045 dated 02 December 2014, and Circular No. 860 dated 28 November 2014)

D. CREDIT RATING AGENCIES

1131-Q RECOGNITION AND DERECOGNITION OF DOMESTIC CREDIT RATING AGENCIES FOR QUASI-BANK SUPERVISORY PURPOSES

The following regulations shall govern the recognition and derecognition of domestic credit rating agencies (CRAs) for QB supervisory purposes.

Statement of policy. The introduction in the financial market of new and innovative products create increasing demand for and reliance on CRAs by the industry players and regulators as well. As a matter of policy, the Bangko Sentral wants to ensure that the reliance on credit ratings is not misplaced. The following rules and regulations that shall govern the recognition/derecognition of domestic CRAs for QB supervisory purposes.

Minimum eligibility criteria. Only ratings issued by CRAs recognized by the Bangko Sentral shall be considered for Bangko Sentral QB supervisory purposes. The Bangko Sentral, through the Monetary Board, may officially recognize a credit rating agency upon satisfaction of the following requirements:

a. *Organizational structure*

- (1) A domestic CRA must be a duly registered company under the SEC; and
- (2) A domestic CRA must have at least five (5) years track record in the issuance of reliable and credible ratings. In the case of new entrants, a probationary status may be granted: *Provided*, That the CRA employs professional analytical staff with experience in the credit rating business.

b. *Resources*

(1) *Human Resources*

- (a) The size and quality of the CRA's professional analytical staff must have the capability to thoroughly and competently evaluate the assessed/rated entity's creditworthiness;
- (b) The size of the CRA's professional analytical staff must be sufficient to allow substantial on-going contact with senior management and operational levels of assessed/rated entities as a routine component of the surveillance process;
- (c) The CRA shall establish a Rating Committee composed of adequately qualified and knowledgeable individuals in the rating business, majority of whom must have at least five (5) years experience in credit rating business;
- (d) The directors of the CRA must possess a high degree of competency equipped with the appropriate education and relevant experience in the rating business;
- (e) The directors, officers, members of the rating committee and professional analytical staff of the CRA have not at any time been convicted of any offense involving moral turpitude or violation of the SRC; and
- (f) The directors, officers, members of the rating committee and professional analytical staff of the CRA are not currently involved as a defendant in any litigation connected with violations of the SRC nor included in the Bangko Sentral watchlist.

(2) *Financial Resources*

- (a) The CRA must have the financial capability to invest in the necessary technological infrastructure to ensure speedy acquisition and processing of data/information and timely release of reliable and credible ratings; and
- (b) The CRA must have financial independence that will allow it to operate free from economic and political pressures.

c. *Objectivity*

- (1) The CRA must use a rigorous and systematic assessment methodology that has been established for at least one (1) year; however, a three-year period is preferable;
- (2) The assessment methodology of the CRA must be based both on qualitative and quantitative approaches; and
- (3) The CRA must use an assessment methodology that is subject to on-going review and is responsive to changes in the operations of assessed/rated entities.

d. *Independence*

- (1) The CRA must be free from control of and undue influence by the entities it assesses/rates;
- (2) The assessment process must be free from ownership pressures to allow management to exercise independent professional judgement;
- (3) Persons directly involved in the assessment process of the CRA are free from conflicts of interest with assessed/rated entities, and
- (4) The CRA does not assess/rate an associate entity.

e. *Transparency*

- (1) A general statement of the assessment methodology used by the CRA should be publicly available;
- (2) The CRA shall disseminate to the public thru a well-circularized publication, all assigned ratings disclosing whether the rating issued is solicited or unsolicited;
- (3) The rationale of ratings issued and risk factors considered in the assessment should be made available to the public;
- (4) The ratings issued by the CRA should be available both to domestic and foreign institutions with legitimate interest; and
- (5) Publication of changes in ratings together with the basis for the change should be done on a timely basis.

f. *Disclosure requirements*

(1) Qualitative disclosures

- (a) Definition of ratings along with corresponding symbols;
- (b) Definition of what constitutes a default, time horizon within which a default is considered and measure of loss given a default;
- (c) Material changes within the CRA (i.e., changes in management or organizational structure, rating personnel, modifications of rating practices, financial deterioration) that may affect its ability to provide reliable and credible ratings.

(2) Quantitative disclosures

- (a) Actual default rates experienced in each rating category; and
- (b) Rating transitions of assessed/rated entities over time (i.e., likelihood of an AAA credit rating transiting to AA etc. over time).

g. *Credibility*

- (1) The CRA must have a general reputation of high standards of integrity and fairness in dealing with its clients and conducts its business in an ethical manner;
- (2) The CRA is generally accepted by predominant users in the market (i.e., issuers, investors, bankers, FIs, securities traders); and
- (3) The CRA must carry out its rating activities with due diligence to ensure ratings are fair and appropriate.

For purposes of this Section, a *subsidiary* refers to a corporation, more than fifty percent (50%) of the voting stock of which is owned or controlled directly or indirectly by the CRA while an *affiliate* refers to a corporation, not more than fifty percent (50%) but not less than ten percent (10%) of the voting stock of which is owned or controlled directly or indirectly by the CRA.

Control exists when the parent owns directly or indirectly through subsidiaries more than one-half ($\frac{1}{2}$) of the voting power of an enterprise unless, in exceptional circumstance, it can be clearly demonstrated that such ownership does not constitute control. Control may also exist even when ownership is one-half ($\frac{1}{2}$) or less of the voting power of an enterprise when there is:

- (a) power over more than one-half ($\frac{1}{2}$) of the voting rights by virtue of an agreement with other stockholders;
- (b) power to govern the financial and operating policies of the enterprise under a statute or an agreement;
- (c) power to appoint or remove the majority of the members of the board of directors or equivalent governing body;
- (d) power to cast the majority votes at meetings of the board of directors or equivalent governing body; or
- (e) any other arrangement similar to any of the above.

h. *Internal compliance procedures*

- (1) The CRA must have the necessary internal procedures to prevent misuse or unauthorized disclosure of confidential/non-public information; and
- (2) The CRA must have rules and regulations that prevent insider trading and other conflict of interest situations.

Prequalification requirements. The application of a domestic CRA for Bangko Sentral recognition shall be submitted to the appropriate supervision department of the Bangko Sentral together with the following information/documents:

a. *An undertaking*

- (1) That the CRA shall comply with regulations, directives and instructions which the Bangko Sentral or other regulatory agency/body may issue from time to time; and
- (2) That the CRA shall notify the Bangko Sentral in writing of any material changes within the organization (i.e., changes in management or organizational structure, rating personnel, modifications of its rating practices, financial deterioration) that may affect its ability to provide reliable and credible ratings.

b. *Other documents/information:*

- (1) Brief history of the CRA, major rating activities handled including information on the name of the client, type of instruments rated, size and year of issue;
- (2) Audited financial statements for the past three (3) years and such other information as the Monetary Board may consider necessary for selection purposes;
- (3) For new entrants, employment of professional analytical staff with experience in the credit rating business;
- (4) List of major stockholders/partners [owning at least ten percent (10%) of the voting stocks of the CRA directly or along with relatives within the 1st degree of consanguinity or affinity];
- (5) List of directors, officers, members of the rating committee and professional analytical staff of the CRA; including their qualifications, experience related to rating activities, directorship and shareholdings in the CRA and in other companies, if any;
- (6) List of subsidiaries and affiliates including their line of business and the nature of interest of the CRA in these companies;
- (7) Details of the denial of a previous request for recognition, if any (i.e., application date, date of denial, reason for denial, etc.); and
- (8) Details of all settled and pending litigations connected with the securities market against the CRA, its directors, officers, stockholders, members of the rating committee and professional analytical staff, if any.

Inclusion in Bangko Sentral list. The Bangko Sentral will regularly circularize to all banks and NBFIs an updated list of recognized CRAs. The Bangko Sentral, however, shall not be liable for any damage or loss that may arise from its recognition of CRAs to be engaged by users.

Derecognition of credit rating agencies.

a. *Grounds for derecognition.* CRAs may be derecognized from the list of Bangko Sentral recognized CRAs under the following circumstances:

- (1) Failure to maintain compliance with the requirements under Sec. 1131-Q (*Minimum eligibility criteria*) or any willful misrepresentation in the information/documents required under Sec. 1131-Q (*Pre-qualification requirements*);
- (2) Involvement in illegal activities such as ratings blackmail; creation of a false market or insider trading; divulging any confidential information about a client without prior consent to a third party without legitimate interest; indulging in unfair competition (i.e., luring clients of another rating agency by assuring higher ratings, etc.); and
- (3) Any violation of applicable laws, rules and regulations.

b. *Procedure for derecognition.* A CRA shall only be derecognized upon prior notice and after being given the opportunity to defend itself.

Recognition of PhilRatings as domestic credit rating agency for bank supervisory purposes. Credit ratings assigned by Philippine Rating Services Corporation (PhilRatings) may be used, among others, for determining appropriate risk weights in ascertaining compliance with existing rules and regulations on risk-based capital requirements.

1132-Q INTERNATIONALLY ACCEPTED CREDIT RATING AGENCIES

Internationally accepted CRAs are recognized for bank supervisory purposes to undertake local and national ratings: *Provided*, That said CRAs shall have at least a representative office in the Philippines. Accordingly, credit ratings assigned by said CRAs may be used, among others, as basis for determining appropriate risk weights in ascertaining compliance with existing rules and regulations on risk-based capital requirements.

Recognition of Fitch Singapore Pte Ltd. as International credit rating agency for bank supervisory purposes. The national or domestic credit ratings of Fitch Singapore Pte Ltd., a BSP-recognized international CRA with representative office in the Philippines, is hereby recognized by the Bangko Sentral for bank supervisory purposes. Accordingly, national or domestic credit ratings assigned by Fitch Singapore Pte Ltd. may be used, among others, as basis for determining appropriate risk weights in ascertaining compliance with existing rules and regulations on risk-based capital requirements.

E. OTHERS

1141-Q UNDERWRITING BY INVESTMENT HOUSES

Underwriting commitments and fees of IHS shall be subject to the rules issued by the SEC to implement the provisions of P.D. No. 129, as amended (*Appendix Q-20*).

1142-Q REGULATORY RELIEF POLICY

The Policy sets forth the guidelines on the grant of regulatory relief measures to QBs affected by calamities. The Bangko Sentral recognizes that the Philippines is vulnerable to calamities, whether caused by natural or human-induced hazards, that may adversely affect certain areas/localities, and result in declaration thereof under state of calamity. The damages brought about by calamities to people's resources and livelihood may affect the paying capacity and risk profile of the borrowers/clients of QBs. This may translate to higher past due ratios and inability to meet the legal reserve requirements.

Nothing in this Section shall be construed as superseding the previously granted temporary regulatory relief to banks/QBs under *Appendix Q-73*.

a. Objectives

The Bangko Sentral's regulatory relief policy aims to achieve the following:

- (1) Set a uniform and systematic approach in granting regulatory relief to QBs affected by calamities; and
- (2) Provide an adequate support to the recovery efforts of QBs.

b. Definition of terms¹

- (1) *Hazard* - a dangerous phenomenon, substance, human activity or condition that may cause loss of life, injury or other health impacts, property damage, loss of livelihood and services, social and economic disruption, or environmental damage.
- (2) *Local Disaster Risk Reduction and Management Council (LDRRMC)* – is a working group responsible for ensuring the integration of disaster risk reduction and climate change adaptation into local development plans, programs and budgets as a strategy in sustainable development and poverty reduction.
- (3) *National Disaster Risk Reduction and Management Council (NDRRMC)* – also known as the National Council, is composed of various government agencies, non-government, civil sector and private sector organizations in the Philippines, which is responsible for advising the President on the status of disaster preparedness, prevention, mitigation, response, and rehabilitation operations being undertaken by the government, civil society organizations, private sector, and volunteers; recommending to the President the declaration of a state of calamity in areas extensively damaged; and submitting proposals to restore normalcy in the affected areas, to include calamity fund allocation.
- (4) *Regional Disaster Risk Reduction and Management Council (RDRRMC)* – is a working group responsible in ensuring disaster sensitive regional development plans, and in case of emergencies shall convene the different regional line agencies and concerned institutions and authorities.
- (5) *State of Calamity* - a condition involving mass casualty and/or major damages to property, disruption of means of livelihoods, roads and normal way of life of people in the affected areas as a result of the occurrence of natural or human-induced hazard.

¹ Sources: Republic Act (R.A.) No. 10121 or the Philippine Disaster Risk Reduction and Management Act of 2010 and its Implementing Rules and Regulations

c. *Declaration of State of Calamity*

Section 16 of R.A. No. 10121 or the Philippine Disaster Risk Reduction and Management Act of 2010, states that the NDRRMC shall recommend to the President of the Philippines the declaration of a cluster of barangays, municipalities, cities, provinces, and regions under a state of calamity, and the lifting thereof, based on the criteria set by the NDRRMC. It further provides that the declaration and lifting of the state of calamity may also be issued by the local sanggunian, upon the recommendation of the R/LDRRMC, based on the results of the damage assessment and needs analysis.

d. *Regulatory relief package*

For a period of one (1) year from the date of declaration of state of calamity, QBs may avail of the following:

For All Banks/QBs

- (1) Allowing banks/QBs to provide financial assistance under Sec. 135-Q (*Loans, advances, and other credit accommodations to officers*) to officers who are affected by the calamity even in the absence of Bangko Sentral-approved purposes or even if not within the scope of the existing Bangko Sentral-approved purposes, for the grant of loans, advances, or any other forms of credit accommodations to officers, subject to subsequent submission of request for approval of the purpose for the grant of loans, advances, or any other forms of credit accommodations to officers affected by calamities, within thirty (30) calendar days from the approval thereof of the QB's Board of Directors, to the appropriate supervising department of the Bangko Sentral for regularization.

For Thrift Banks (TBs)/Rural Banks (RBs)/Cooperative Banks (Coop Banks)/QBs

- (1) Upon grant by TBs/RBs/Coop Banks/QBs of a temporary grace period for payment or upon approval of the restructuring, but subject to reporting to Bangko Sentral, exclusion from the computation of past due ratio of the loans of borrowers in affected areas which should have been reclassified as past due under Sec. 303-Q beginning on the date of declaration of state of calamity, including those loans becoming past due six (6) months thereafter: *Provided*, That the exclusion shall be for a period of one (1) year from declaration date of state of calamity. For this purpose, Bangko Sentral documentary requirements for restructuring of loans may be waived: *Provided*, That the bank/QB will adopt appropriate and prudent operational control measures.
- (2) Non-imposition of monetary penalties for delays incurred in the submission of all supervisory reports due to be submitted from date of declaration of state of calamity up to six (6) months thereafter.
- (3) Subject to prior approval of the Bangko Sentral, staggered booking of allowance for credit losses computed under Sec. 143-Q (*Credit classification and provisioning*), over a maximum period of five (5) years for all types of credits extended to individuals and businesses directly affected by calamities as of the date of declaration of state of calamity.
- (4) Moratorium, without penalty, on monthly payments due to the Bangko Sentral, for a period of six (6) months from the date of declaration of state of calamity, for banks/QBs with ongoing rehabilitation upon filing of application for extension/rescheduling with the Department of Loans and Credit.
- (5) Subject to prior approval of the Bangko Sentral, non-imposition of penalties on legal reserve deficiencies computed under Sec. 215-Q, starting from reserve week following the date of declaration of state of calamity up to six (6) months thereafter.

For All Rediscounting Banks¹

- (1) Upon application, grant of a 60-day grace period to settle the outstanding rediscounting obligations with the Bangko Sentral as of the date of declaration of state of calamity of all rediscounting banks except those with serious violations or findings as may be determined by the Bangko Sentral; *Provided*, interest shall be charged, but no penalty shall be imposed for the 60-day grace period.
- (2) In addition to the above, allowing the rediscounting banks to restructure with the Bangko Sentral, on a case-to-case basis, the outstanding rediscounted loans as of date of declaration of state of calamity of their end-user borrowers affected by the calamity, subject to the terms and conditions stated in the implementing guidelines (*Appendix Q-74*).

¹ As governed by Sec. 282

- (3) Allowing the relaxation of eligibility requirements by excluding the criteria on reserve requirement for the renewal of rediscounting line and for the availment of rediscounting loans from the date of declaration of state of calamity up to six months thereafter.

e. *Eligibility*

All banks/QBs with head offices and/or branches/branch-lite units or with end-user borrowers located in areas under state of calamity as declared by the President or the local sanggunian, upon the recommendation of the NDRRMC or R/LDRRMC, may avail of the relief package specified in Item “d”: *Provided*, That the banks/QBs shall notify the Bangko Sentral, through the appropriate supervising department of the Bangko Sentral, of their intention to avail said regulatory relief package within a period of one (1) year from the date of declaration of state of calamity.

For Banks/QBs with head office and/or branches/branch-lite units or with end-user borrowers located in areas declared as under state of calamity beginning year 2018 for which no regulatory relief packages were approved yet, the relief package under this policy may be availed of within a period of one (1) year reckoned from the date of declaration of state of calamity.

f. *Reportorial requirements*

Banks/QBs which opt to avail of the regulatory relief shall submit the following:

- (1) Letter-notification stating the bank's/QB's intention to avail of the relief package, signed by the President of the bank/QB or officer of equivalent rank, provided that the notice shall specify, at a minimum, the specific relief measures to be availed and the affected branches/branch-lite units located in areas declared as under a state of calamity;
- (2) Resolution of the Board of Directors authorizing the bank/QB to avail of the relief package; and
- (3) Memorandum Order/Proclamation/Resolution approving the declaration of state of calamity of the area where the affected head office/branches/branch-lite units of bank/QB are located.

- g. *Supervisory Enforcement Action.* Consistent with Sec. 002-Q, the Bangko Sentral may deploy enforcement actions to promote adherence to the requirements set forth in this Section and bring about timely corrective actions. As part of its enforcement actions, the Bangko Sentral may issue directives or impose sanctions on any misrepresentation in the document and information required to be submitted to the Bangko Sentral in relation to the availment of regulatory relief measures.

(Circular Nos. 1144 dated 12 April 2022 and 1017 dated 10 October 2018)

GUIDELINES TO EVALUATE INVESTMENT HOUSES
(Appendix to Sec. 102-Q)

- a. *Capital* - The requirement is a minimum paid-in capital of P200.0 million for an investment house to be established in Metro Manila and P100.0 million for all others. Foreign equity, if any, shall be registered with and approved by the Board of Investments and the Bangko Sentral.
- b. *Citizenship* – Majority fifty-one percent (51%) of the voting stock shall be owned by Filipinos.
- c. *Directorship/Officership* - Majority of the board members shall be Filipinos. Resident foreign directors and technicians shall register with the Bureau of Immigration and Deportation. Compliance with the prohibition on interlocking directorship/officership between banks and investment houses and between QBs shall be observed.
- d. *Promotion of Public Interest and Economic Growth* –
 - (1) Submission of a one (1)-year investment program indicating:
 - (a) *Underwriting and distribution activities*. These shall show in details the various stages leading to the completion of an agreement. Target dates for each stage in the underwriting process shall be indicated which should serve as reference points in the event that an investment house is unable to bring the program and its components to fruition. Target volume of underwriting would be set initially at twenty-five percent (25%) of paid-in capital.
 - (b) *Fund mobilization*. Emphasis shall be on maturities beyond one (1) year. Domestic and foreign sources shall be indicated and the latter shall be evaluated in terms of pertinent Bangko Sentral regulations.
 - (c) *Fund usage*. Support of priority investment areas of the Government and other projects which may be determined by the Bangko Sentral shall be emphasized. Funds placed on maturities beyond one (1) year shall be preferred.
 - (d) *Planned distribution of portfolio*. Activities indicating money-market services and investment in subsidiaries and affiliates, while necessary to sustain the investment house, shall be subordinated to the preferred activities above-indicated. Other activities as financial management, counseling, distribution of equity and debentures for "public" ownership, etc., shall be considered.
 - (2) The one (1)-year investment program of the investment house shall be related to the government development plan by indicating the portion of the investment and savings targets in the plan which would be supported by the investment house industry.
 - (3) A one (1)-year projected income statement showing major sources of income and expense items.
 - (4) Operational agreement with other FIs.
 - (5) A statement justifying the operation of the investment house as not in conflict with public interest and economic growth, taking into account the existing number of investment houses, indicating:
 - (a) record of underwriting;
 - (b) evidence of medium and long-term loans;
 - (c) evidence of obtaining funds with maturity beyond one (1) year; and
 - (d) equity investments which were subsequently distributed to the public.
- e. *Organization, Direction and Administration* - The organizational/functional chart should match the organization framework with operational objectives. The management of the company, board of directors and the managerial staff, must be firmly designated before it can be granted a license to operate as an investment house.

f. *Integrity, Experience and Expertise of Board and Management Staff*

- (1) Formal training, academic or others;
- (2) Experience along financial management, securities dealing, fund management, project evaluation and feasibility studies;
- (3) Absence of administrative or criminal conviction; and
- (4) Affiliation with professional organizations.

g. *Branching* - The rate at which branch offices are to be established shall depend upon the ability of the company to conduct operations from headquarters/head offices as well as on correspondent (banking) arrangements.

Other factors to be considered are the following:

- (1) Reserve and liquidity position; and
- (2) Profitability and capacity to absorb losses.

DETERMINATION OF AMOUNT OF ADDITIONAL CAPITAL THE ENTITY MUST PUT UP
(PROJECTION BASE - LATEST AVAILABLE REPORT)
(in thousand pesos)
[Appendix to Sec. 104-Q (Additional capital, if required)]

(Name of Entity)

A. 1. Estimated Amount of Risk Assets of Present Office for the Next 12 Months

a.	Actual Risk Assets		P xxx
b.	Add: xx% of (a)		<u>xxx</u>
	Risk Assets – (Base Period)	P xxx	
	Risk Assets – (Previous Year)	<u>xxx</u>	
	Increase	<u>P xxx</u>	
	Rate of Increase = $\frac{\text{increase}}{\text{actual risk assets}} = \text{xx}\%$		
c.	Total of (a) and (b)		<u>P xxx</u>

2. Maximum Possible Level of Risk Assets Based on the Base Period Figures:

a.	Net worth Less 30% of Paid-in Capital (P xxx – xxx)	<u>P xxx</u>	
b.	100% of Borrowings (Bills Payable)	<u>xxx</u>	
c.	80% of Unutilized Acceptances or Credit Line with Foreign Bank(s)	<u>xxx</u>	<u>P xxx</u>

B. Estimated Risk Assets for the First 12 Months of Operation:

1.	Branch Approved but not yet Opened:	<u>P xxx</u>
2.	Branch Being Applied for:	<u>xxx</u>
	Add: Lower of A.1 or A.2	<u>xxx</u>

C. Total Estimated Risk Assets for 12 Months P xxx

D. 10% of C (Minimum Paid-in Capital Required) P xxx

E. Less:

	Present Combined Capital Accounts (Base Period Figures)	P xxx	
	Add: xx% of above	<u>xxx</u>	<u>xxx</u>
	Capital Accounts – (Base Period)	P xxx	
	Capital Accounts – (Previous Year)	<u>xxx</u>	
	Increase		
	*Rate of Increase = $\frac{\text{Increase}}{\text{Capital Accounts of Previous Year}} = \text{xx}\%$		

F. Estimated Excess of Capital over Minimum Capital Required or Additional of Capital Applicant Must Put Up, as the case may be P xxx

* The computation to arrive at the "rate of increase" in capital accounts shall only be considered if there is sufficient indication or evidence that the NBQB will continue to follow the same amount of increase in capital accounts for the succeeding year. If no evidence is found that the NBQB will continue to increase its capital accounts for the same amount for the succeeding year, then computations should consider only the amount of net profits (after dividends) plowed into the business for the year immediately preceding the date of application plus the amount of capital that the NBQB promised to put up per its schedule or program submitted to the Bangko Sentral. If no such schedule or program was submitted, then only the amount of net profits (after dividends) for the year immediately preceding the date of application should be considered.

**INFORMATION ON ONE-YEAR BORROWING-INVESTMENT PROGRAM
TO BE SUBMITTED BY QUASI BANKS
(Annex to Appendix Q-3)**

1. Investment areas indicating industry direction of the corporation engaged in quasi-banking, indicating as a minimum, the following:

- (a) money market operations;
- (b) investments in stocks and bonds;
- (c) investments in government securities;
- (d) receivables financing;
- (e) leasing activities; and
- (f) direct loaning operations.

Likewise to be disclosed are the other preferred areas of investment, e.g., real estate, condominium, and those related to the government programs and other projects which may be determined by the Bangko Sentral.

For investment houses with quasi-banking functions, the proposed underwriting program, as well as the previous year's activities, shall also be submitted identifying debt and equity issues.

2. Borrowing operations to support the investment program indicating among others:

- (a) Maturity
 - Short-term: less than a year
 - Medium-term: one (1) year to five (5) years
 - Long-term: more than five (5) years

- (b) Interest rate per annum for the above three types of borrowings (more indicative than fixed).

Individual or institutional source of funds; whether domestic or foreign, governmental or private, financial or non-financial.

3. Preference shall be given to fund usage and mobilization at terms beyond one (1) year.

REPORTING GUIDELINES ON CRIMES/LOSSES
(Annex to Appendix Q-3)

1. QBs shall report on the following matters through the appropriate supervising department of the Bangko Sentral:
 - a. Crimes whether consummated, frustrated or attempted against property/ facilities (such as robbery, theft, swindling or estafa, forgery and other deceits) and other crimes involving loss/destruction of property of the QBs when the amount involved in each crime is P20,000 or more.

Crimes involving QB personnel, regardless of whether or not such crimes involve the loss/destruction of property of the QB, even if the amount involved is less than those above specified, shall likewise be reported to the Bangko Sentral.
 - b. Incidents involving material loss, destruction or damage to the institution's properties/facilities, other than arising from a crime, when the amount involved per incident is P100,000 or more.
2. The following guidelines shall be observed in the preparation and submission of the report.
 - a. The report shall be prepared in two (2) copies and shall be submitted within five (5) business days from knowledge of the crime or incident, the original to the appropriate supervising department of the Bangko Sentral and the duplicate to the Bangko Sentral Security Coordinator, thru the Director, Security Services Department.
 - b. Where a thorough investigation and evaluation of facts is necessary to complete the report, an initial report submitted within the five (5)-business day deadline may be accepted: *Provided*, That a complete report is submitted not later than fifteen (15) business days from termination of investigation.

DOCUMENTS/INFORMATION ON ORGANIZATIONAL STRUCTURE AND OPERATIONAL POLICIES
(Annex to Appendix Q-3)

I. Documents on organizational structure and operational policies

1. Chart of the firm's organizational structure or any substitute therefor;
2. Name of departments/units/offices with their respective duties and responsibilities;
3. Designations of positions in each department/unit/office with the respective duties and responsibilities;
4. Manual of Instructions or the like embodying the operating policies/ procedures of each department/unit/office, covering such areas as:
 - (a) Signing/delegated authority;
 - (b) Procedure/flow of paper work; and
 - (c) Other matters.
5. Memoranda-Circulars or the like issued covering organizational and operational and operation policies;
6. Sample copies of each of the forms/reports used by each office/unit/department other than those submitted to the Bangko Sentral; and
7. Such other documents/information which may be required from time to time.

II. Other Data

1. Name of Institution
2. Address
3. P.O. Box number
4. Board of Directors including Corporate Secretary:
 - (a) Names of Chairman, Vice-Chairman and Directors
 - (b) Number of directors per By-Laws
 - (c) Number of vacancies in the Board
 - (d) Names of corporations where they serve as Chairman of the Board or as President and names of other business enterprises of which they are proprietors or partners
 - (e) For the Corporate Secretary, indicate if he is also a Director
 - (f) Date of annual election of directors per By-Laws
5. Executive officers including Auditor:
 - (a) Names and titles
 - (b) Telephone number of each officer (office)
 - (c) For the Executive Vice-President, state the names of corporations where he serves as Chairman of the Board and names of other business enterprises where he is proprietor or partner
 - (d) For Vice-Presidents and other officers with non-descriptive titles, indicate area of responsibility, e.g., Vice-President for Operations or Vice-President, International Department
 - (e) Include officers from President to Vice-President
6. Branches, agencies and extension offices:
 - (a) Name of branch, agency or extension office, e.g., Quiapo Branch or Makati Agency
 - (b) Address
 - (c) Names and telephone number of:
 - (1) Manager
 - (2) Cashier
 - (3) Accountant
 - (d) For agencies and extension offices, indicate name of mother branch.

**GUIDELINES ON CALCULATING ADDITIONAL INFORMATION REQUIRED IN
PUBLISHED STATEMENT OF CONDITION
(Annex to Appendix Q-3)**

In calculating the additional information required to be disclosed in the Statement of Condition for publication, the following guidelines shall be observed:

1. All amounts and ratios to be reported shall be as of the same call date. However, the basis for computing the Return on Average Equity shall be the latest quarter immediately preceding the call date.
2. Return on Average Equity shall be computed as follows:

$$\text{Return on Average Equity (\%)} = \frac{\text{Net } \frac{\text{Income}}{\text{(Loss)}} \text{ After Income Tax}}{\text{Average Total Capital Accounts}} * 100$$

Where Net Income After Tax and Average Total Capital Accounts shall be:

	Net Income After Tax	Average Total Capital Accounts
March	Quarter End Net Income After Tax Multiplied by 4	Sum of end-month Capital Accounts (December-March) divided by 4.
June	Semester End Net Income After Tax Multiplied by 2	Sum of end-month Capital Accounts (December - June) divided by 7.
September	Nine (9) months Ended Net Income After Tax multiplied by 1.333333	Sum of end-month Capital Accounts (December - September) divided by 10.
December	Year Ended Net Income After Tax	Sum of end-month Capital Accounts (December - December) divided by 13.

GUIDELINES ON PRESCRIBED REPORTS SIGNATORIES AND SIGNATORY AUTHORIZATION
[Appendix to Sec. 172-Q [[Sanctions in case of willful delay in the submission of reports/refusal to permit examination]]

Category A-1 reports shall be signed by the chief executive officer, or in his absence, by the executive vice president, and by the comptroller, or in his absence, by the chief accountant, or by officers holding equivalent positions. The designated signatories in this category, including their specimen signatures, shall be contained in a resolution approved by the board of directors in the format prescribed in *Appendix Q-9*.

Category A-2 reports of head offices shall be signed by the president, executive vice-presidents, vice-presidents or officers holding equivalent positions. Such reports of other offices/units (such as branches) shall be signed by their respective managers/officers in-charge. Likewise, the signing authority in this category shall be contained in a resolution approved by the board of directors in the format prescribed in *Appendix Q-10*.

Categories A-3 and B reports shall be signed by officers or their alternates, who shall be duly designated in a resolution approved by the board of directors in the format as prescribed in *Appendix Q-11*.

Copies of the board resolutions on the report signatory designations shall be submitted to the appropriate supervising department of the Bangko Sentral within three (3) days from the date of resolution.

FORMAT OF RESOLUTION FOR SIGNATORIES OF CATEGORY A-1 REPORTS

Resolution No. _____

Whereas, it is required under Sec. 172-Q (*Categories and signatories of reports*) that Category A-1 reports be signed by the Chief Executive Officer, or in his absence, by the Executive Vice-President, and by the comptroller, or in his absence, by the Chief Accountant, or by officers holding equivalent positions.

Whereas, it is also required that aforesaid officers of the institution be authorized under a resolution duly approved by the institution's Board of Directors;

Whereas, we, the members of the Board of Directors of _____ (Name of Institution), are conscious that, in designating the officials who would sign said Category A-1 reports, we are actually empowering and authorizing said officers to represent and act for or in behalf of the Board of Directors in particular and _____ (Name of Institution) in general; Whereas, this Board has full faith and confidence in the institution's Chief Executive Officer, Executive Vice-President, Comptroller and Chief Accountant, as the case may be, and, therefore, assumes responsibility for all the acts which may be performed by aforesaid officers under their delegated authority;

Now, therefore, we, the members of the Board of Directors, resolve, as it is hereby resolved that:

1. Mr. _____	President or	_____ Specimen Signature
2. Mr. _____	Executive Vice-President	_____ Specimen Signature
3. Mr. _____	and Comptroller	_____ Specimen Signature
4. Mr. _____	or Chief Accountant	_____ Specimen Signature

and hereby authorized to sign Category A-1 reports of _____ (Name of Institution).

MINIMUM INTERNAL CONTROL STANDARDS FOR QUASI-BANKS
(Appendix to Sec. 162-Q)

I. Proper Accounting Records

1. QBs should maintain proper and adequate accounting records.
2. These records should be kept currently posted and should contain sufficient detail so that an audit trail is established.
3. All entries should bear official approval and should be initialed by the person originating and another person checking them.

II. Independent Balancing

1. Independent balancing shall mean that records posted by a person or cash held by a cashier shall be balanced or counted by another person.
2. The minimum independent balancing procedures which should be adopted are the following:
 - a. Monthly reconciliation of general ledger balances against their respective subsidiary and supporting records and documentations by someone other than the bookkeeper, the person handling the records, or the person directly connected with processing the transactions.
 - b. Irregular and unannounced count of cashier's cash and checks and other cash items at least twice a month by the auditor/ control officer or by an officer not connected with the treasurer's/cashier's office or its equivalent.
 - c. Monthly reconciliation of cash in banks accounts (domestic and foreign) and due from/to head office/branches by someone other than the check custodian, the person posting the general ledger entries or the authorized signatory of the bank account.
 - d. Periodic verification of securities and collaterals by someone other than their custodians. Verification should include both the physical inventory of securities and the record checking.
 - e. Periodic verification of the accuracy of the interest credits and payments to deposit substitute liabilities accounts.
3. All exceptions in the reconciliation/ verification should be followed up immediately until satisfactorily corrected.

III. Divisions of Duties and Responsibilities

1. The duties of all the officers and employees should be segregated, clearly defined, understood, documented and manualized if possible. No individual shall have complete authority and responsibility for handling all phases of any transaction from beginning to end.
2. The physical handling of a transaction should be separated from its recording and supervision as follows:
 - a. A person handling cash should not be permitted to post the ledger records nor should posting of the general ledger be performed by an employee who posts the investor's/creditor's subsidiary ledgers;
 - b. A loaning officer should never be allowed to disburse proceeds of notes, accept note payment nor process loan ledgers;
 - c. The functions of issuing, recording and signing of checks should be separated;
 - d. The receipt of statements from depository banks should be assigned to an employee other than the one connected with the preparation, recording and signing of checks;
 - e. Custodians of securities should not be allowed to handle security transactions;
 - f. Collateral appraisals should be done by an employee/officer other than the ones approving the loans;
 - g. Incoming checks and other cash items should be recorded chronologically in a register by an employee other than the bookkeeper;

- h. Credit reports should be obtained by someone other than lending officers;
 - i. Mailing of client's statements and delinquent notices should be done by an employee other than the one who granted the loan or the one handling the records; and
 - j. Paid checks/drafts should be controlled and maintained by an officer/ employee other than the authorized signatory or the cashier.
3. Extensive background checking of persons intended to be assigned to handle cash and securities should be conducted. Frequent follow-up checking after their employment should also be made.

IV. Joint Custody

- 1. Joint custody shall mean the processing of transactions in the presence of and under the direct observation of a second person. Both persons shall be equally accountable for the physical protection of the items and records involved.
- 2. Physical protection should be deemed established through the use of two (2) locks or combinations on a file chest or vault compartment.
- 3. Two (2) or more persons should be assigned to each half of the control so that operating efficiency is not impaired if one person is not immediately available.
- 4. Persons who are related to each other within the third degree of consanguinity or affinity should not be made joint custodians.
- 5. The following should be under joint custody:
 - a. Cash on hand or in vault
 - b. All accountable forms
 - c. Collaterals
 - d. Securities
 - e. Documents of title and/or ownership of properties or fixed assets
 - f. Safekeeping items
 - g. Vault doors and safe combinations.

V. Signing Authority

Signing authorities for the different levels of officers to sign for and in behalf of the institutions should be approved by the board of directors and the extent of each level of authority should be clearly defined. These signing authorities should include but need not be limited to the following:

- a. Lending;
- b. Borrowing;
- c. Investments;
- d. Approval of expenses;
- e. Various supervisory reports; and
- f. Checks.

VI. Dual Control

- 1. Dual control shall mean the work of one (1) person is to be verified by a second person to determine (a) that proper authority has been given to handle the transaction, (b) that the transaction is properly recorded, and (c) that proper settlement of the transaction is made.
- 2. The routine of each transaction should be designed so that at least two (2) or more individuals are involved in the completion of every transaction.
- 3. The following accounts/transactions should be under dual control:

- a. Checks - The signature of at least two (2) officers should be required in the issuance of checks.
- b. Borrowing - The signature of at least two (2) authorized officers should be required.
- c. All transactions giving rise to "due to" or "due from" account and all instruments of remittances evidencing these transactions particularly those involving substantial amounts, should be approved by two (2) authorized officers.

VII. Number Control

- 1. Sequence number controls should be incorporated in the accounting systems and should be used in registering notes, in issuing official checks and in other similar situations. Number control should be policed by a person designated by senior management who should be detached from the particular operations involved.
- 2. The following are the forms, instruments and accounts that should be number-controlled:
 - a. Checks;
 - b. Promissory notes and other commercial papers;
 - c. Official and provisional receipts;
 - d. Certificate of stocks;
 - e. Loan accounts; and
 - f. Expense vouchers.

VIII. Rotation of Duties

- 1. The duties of personnel handling cash, securities and bookkeeping records should be rotated.
- 2. Rotation assignment should be irregular, unannounced and long enough to permit disclosure of irregularities or manipulations.

IX. Independence of the Internal Auditor

- 1. The position of internal auditor should be provided for in the by-laws together with the duties and responsibilities, scope and objectives of internal auditing.
- 2. The internal auditor should report directly to the Audit Committee.
- 3. The internal auditor should not install nor develop procedures, prepare records or engage in other activities which he normally reviews or appraises.

X. Direct Verification

- 1. Direct verification shall mean the confirmation of account or records by direct correspondence/visits with the institution's customers.
- 2. The following accounts, among others, should be subject to direct verification by the internal auditing staff at least once a year:
 - a. Balances of loans and credit accommodations of borrowers;
 - b. Outstanding balances of borrowings and other liabilities;
 - c. Outstanding balances of receivables/ payables; and
 - d. Collaterals securing said accounts.

XI. Other Internal Control Standards

1. Investments

- a. Investment limits and a list of accredited companies as approved by the Board of Directors or by its Credit Committee should be established as a guide for investing in any FI engaged in money market trading.
- b. Investments should be secured by assets approved by the Board of Directors or by its Credit Committee.
- c. Checks representing placements of investments should be released only upon receipt of either the deposit substitute instrument or the underlying securities or documents of title.

2. Miscellaneous

- a. Loan applications and related documents should be spot-checked to insure their authenticity, including verification of name, residence, employment and current reputation of the borrowers.
- b. No employee should be permitted to process transaction affecting his own account.
- c. Cashiers and other employees having contact with customers should be prohibited from preparing deposit substitute tickets or other records for the customers.
- d. QBs should have a sound recruitment policy since internal control begins from point of hiring.
- e. QBs should secure adequate insurance coverage, fidelity and other indemnity protection, viz:
 - (1) Insurance coverage - for losses arising from calamities and theft/ robberies.
 - (2) Fidelity bonds - for losses arising from dishonest, fraudulent and criminal acts of accountable officers/employees.

BASIC GUIDELINES IN SETTING UP OF ALLOWANCE FOR CREDIT LOSSES

[Appendix to Sec. 143-Q (Credit classification and provisioning)]

BSFIs with credit operations that may not economically justify a more sophisticated loan loss estimation methodology or where practices fall short of expected standards shall, at a minimum, be subject to the following guidelines:

As a general rule, Especially Mentioned and Substandard – Underperforming [e.g., substandard accounts that are unpaid or with missed payment of less than ninety (90) days] shall be considered as Stage 2 accounts, while Substandard Non-performing, Doubtful, and Loss accounts shall be considered as Stage 3 accounts.

I. Individually Assessed Credit Exposures¹

- Loans and other credit exposures with unpaid principal and/or interest shall be classified and provided with allowance for credit losses (ACL) based on the number of days of missed payments as follows:

For unsecured loans and other credit exposures:

No. of Days Unpaid/ with Missed Payment	Classification	Minimum ACL	Stage
31 – 90 days	Substandard (underperforming)	10%	2
91 – 120 days	Substandard (non-performing)	25%	3
121 – 180 days	Doubtful	50%	3
181 days and over	Loss	100%	3

For secured loans and other credit exposures:

No. of Days Unpaid/with Missed Payment	Classification	Minimum ACL	Stage
31 – 90 days*	Substandard (underperforming)	10%	2
91 – 180 days*	Substandard (non-performing)	10%	3
181 – 365 days	Substandard (non-performing)	25%	3
Over a year – 5 years	Doubtful	50%	3
Over 5 years	Loss	100%	3
* When there is imminent possibility of foreclosure and expectation of loss, ACL shall be increased to 25%.			

Provided, That where the quality of physical collaterals or financial guarantees securing the loans and advances are determined to be insufficient, weak or without recoverable values, such loans and advances shall be treated as if these are unsecured.

- Loans and other credit exposures that exhibit the characteristics for classified accounts described under Sec. 143-Q (Credit classification and provisioning) shall be provided with ACL as follows:

Classification	Minimum ACL	Stage
Especially Mentioned	5%	2
Substandard – Secured	10%	2 or 3 ²
Substandard – Unsecured	25%	2 or 3 ²
Doubtful	50%	3
Loss	100%	3

¹ Other credit exposures include exposures under the scope of PFRS 9, such as investments in debt securities measured at fair value through other comprehensive income and amortized cost, loan commitments, sales contract receivables, accounts receivables, accrued interest receivables, and advances.

² The stage depends on whether the accounts are classified as non-performing (Stage 3) or underperforming (Stage 2).

3. Unsecured loans and other credit accommodations classified as “Substandard” in the last two (2) internal credit reviews which have been continuously renewed/extended without reduction in principal and is not in process of collection, shall be downgraded to “Doubtful” classification and provided with a fifty percent (50%) ACL.
4. Loans and other credit accommodations under litigation which have been classified as “Pass” prior to the litigation process shall be classified as “Substandard” and provided with twenty five percent (25%) ACL.
5. Loans and other credit accommodations that were previously classified as “Pass” but were subsequently restructured shall have a minimum classification of EM and provided with a five percent (5%) ACL, except for loans which are considered non-risk under existing laws, rules and regulations.
6. Classified loans and other credit accommodations that were subsequently restructured shall retain their classification and provisioning until the borrower has sufficiently exhibited that the loan will be fully repaid.

II. Collectively Assessed Loans³ and Other Credit Exposures

1. Current “Pass” loans and other credit accommodations should be provided with a reasonable level of collective allowance, using historical loss experience adjusted for current conditions.
2. Loans and other credit exposures with unpaid principal and/or interest shall be classified and provided with ACL based on the number of days of missed payments as follows:

For unsecured loans and other credit exposures:

No. of Days Unpaid/ with Missed Payment*	Classification	Minimum ACL	Stage
1 – 30 days	Especially Mentioned	2%	2
31 – 60 days / 1 st restructuring	Substandard	25%	2 or 3 ⁴
61 – 90 days	Doubtful	50%	3 ⁵
91 days and over / 2 nd restructuring	Loss	100%	3

* Par for microfinance loans

For secured and other credit exposures:

No. of Days Unpaid/with Missed Payment	Classification	ACL %		Stage
		Other types of collateral	Secured by real estate	
31 – 90 days	Substandard (underperforming)	10	10	2
91 – 120 days	Substandard (non-performing)	25	15	3
121 – 360 days	Doubtful	50	25	3
361 days – 5 years	Loss	100	50	3
Over 5 years	Loss	100	100	3

(Circular no. 1011 dated 14 August 2018)

³ This includes microfinance loans, micro enterprises and small business loans and consumer loans such as salary loans, credit card receivables, auto loans, housing loans and other consumption loans, and other loan types which fall below the FI's materiality threshold for individual assessment.

⁴ The stage depends on whether the accounts are classified as non-performing (Stage 3) or underperforming (Stage 2).

⁵ Sec. 303-Q (Non-performing loans) provides that doubtful accounts are considered as non-performing hence, shall be classified under Stage 3 notwithstanding the number of missed amortizations.

ABSTRACT OF "TRUTH IN LENDING ACT" (Republic Act No. 3765)
(Appendix to Sec. 305-Q)

Section 1. This Act shall be known as the "Truth in Lending Act."

Sec. 2. Declaration of Policy. It is hereby declared to be the policy of the State to protect its citizens from a lack of awareness of the true cost of credit to the user by assuring a full disclosure of such cost with a view of preventing the uninformed use of credit to the detriment of the national economy.

XXXX XXXX XXXX

Sec. 3. As used in this Act, the term –

XXXX XXXX XXXX

(3) "Finance charge" includes interest, fees, service charges, discounts, and such other charges incident to the extension of credit as the Board may by regulation prescribe.

XXXX XXXX XXXX

Sec. 4. Any creditor shall furnish to each person to whom credit is extended, prior to the consummation of the transaction, a clear statement in writing setting forth, to the extent applicable and in accordance with rules and regulations prescribed by the Board, the following information:

- a. the cash price or delivered price of the property or service to be acquired;
- b. the amounts, if any, to be credited as down payment and/or trade-in;
- c. the difference between the amounts set forth under clauses (1) and (2);
- d. the charges, individually itemized, which are paid or to be paid by such person in connection with the transaction but which are not incident to the extension of credit;
- e. the total amount to be financed;
- f. the finance charge expressed in terms of pesos and centavos; and
- g. the percentage that the finance charge bears to the total amount to be financed expressed as a simple annual rate on the outstanding unpaid balance of the obligation.

XXXX XXXX XXXX

Sec. 6. (a) Any creditor who in connection with any credit transaction fails to disclose to any person any information in violation of this Act or any regulation issued thereunder shall be liable to such person in the amount of ₱100 or in an amount equal to twice the finance charge required by such creditor in connection with such transaction, whichever is the greater, except that such liability shall not exceed ₱2,000 on any credit transaction.

XXXX XXXX XXXX

(c) Any person who willfully violates any provision of this Act or any regulation issued thereunder shall be fined by not less than ₱1,000 nor more than ₱5,000 or imprisonment for not less than 6 months nor more than one year or both.

XXXX XXXX XXXX

(d) Any final judgment hereafter rendered in any criminal proceeding under this Act to the effect that a defendant has willfully violated this Act shall be prima facie evidence against such defendant in an action or proceeding brought by any other party against such defendant under this Act as to all matters respecting which said judgment would be an estoppel as between the parties thereto.

Sec. 7. This Act shall become effective upon approval.

Approved, 22 June 1963.

ENHANCED INTRADAY LIQUIDITY FACILITY
(Appendix to Secs. 312-Q and 601-Q)

Given the increasing volume of PhilPaSS transactions as well as concerns of having temporary gridlocks in the PhilPaSS, the current features of the ILF had been enhanced, specifically on the following areas:

- a. Flexibility in changing the securities that will be used for the ILF;
- b. Availment of the facility on a “as the need arises” basis; and
- c. Removal of commitment fees

The revised features of the ILF are described below.

A. Access to ILF

Government securities (GS) held by an Eligible Participant bank in its Regular Principal Securities Account that will be used for ILF purposes shall be delivered to a sub-account under the BSP-ILF Securities Account with the Bureau of the Treasury’s (BTr) Registry of Scripless Securities (RoSS). The delivered GS to be used for ILF purposes shall be recorded by RoSS in a sub-account (the “Client Securities Account (CSA)”-ILF) under the BSP-ILF Securities Account in the name of the Eligible Participant/banks.

Banks without RoSS securities accounts who intend/desire to avail of the ILF shall be required to open/maintain a Securities Account with the RoSS. The documentation requirements for RoSS membership shall be prescribed by the BTr.

Banks desiring to avail of the ILF shall be further required to open a sub-account under the BSP-ILF Securities Account with the BTr’s RoSS by accomplishing an application letter addressed to the Treasurer of the Philippines, Attn: The Director, Liability Management Service and the Chief, Scripless Securities Registration Division. The application letter shall be in the form of ANNEX 1 hereto.

B. Timeline

From 9:00AM to 9:30AM of each banking day, an Eligible Participant bank shall electronically instruct the BTr to move/transfer from its Principal Securities Account with the BTr’s ROSS to the CSA-ILF under the name of the Eligible Participant bank, the pool of peso-denominated GS to be set aside for the ILF purpose. The Eligible Participant bank hereby confirms to the BTr that pursuant to an ILF availment, it has authorized the transfer without consideration unto the CSA- ILF the pool of GS to be used for ILF purposes.

From 9:30 AM to 10:00 AM, the BTr RoSS shall electronically submit a consolidated report to Bangko Sentral showing the details of the GS that were transferred to the BSP-ILF Securities Account.

From 10:00 AM to 4:00PM, Eligible Participant banks with insufficient balances in its Demand Deposit Account No.2 (PhilPaSS Account) may avail of the ILF.

Eligible Participant banks may avail of the ILF as necessary to fund pending payment instructions. Thus, when the ILF system detects queued transactions in the PhilPaSS-Central Accounting System, the Eligible Participant bank with insufficient balance in its PhilPaSS Account will automatically sell to the BSP-Treasury the GS in the CSA-ILF pool corresponding to the amount which may be needed to cover any pending payment instruction, and the proceeds of the sale of securities shall be immediately credited to the bank’s PhilPaSS Account. There may be more than one availment during the day. Until a sale to the Bangko Sentral or an Overnight Repurchase (O/N-RP) transaction with the Bangko Sentral is executed, the beneficial ownership of the GS that have been transferred to the CSA- ILF still belongs to the banks.

At 5:00PM, the Bangko Sentral shall sell back to the Eligible Participant bank the GS at the same price as the original Bangko Sentral purchase. Partial repayment of a particular availment will not be allowed.

In case the PhilPaSS Account balance of the participating bank is not sufficient to cover the afternoon repayment transaction, the Bangko Sentral and the participating bank may agree on the following:

- a. Bangko Sentral shall extend to the Eligible participant bank an O/N-RP at 600 basis points over the Bangko Sentral’s regular overnight lending rate for the day. The O/N-RP shall be paid not later than 11:00AM on maturity date. Unpaid O/N-RP shall be automatically converted into an absolute sale to the Bangko Sentral of the subject GS earlier delivered/transferred to the CSA-ILF, pursuant to an ILF availment by the Eligible Participant bank, in which case, Bangko Sentral shall issue an instruction to BTr to deliver/transfer the subject GS from the BSP-ILF Securities Account to the Bangko Sentral regular Principal Securities Account. The sale shall be evidenced by the issue of Confirmation of Sale by the Eligible Participant bank (Annex 2) and the Confirmation of Purchase by the Bangko Sentral Treasury Department (Annex 3), or,
- b. Only in extreme cases, the Bangko Sentral shall sell back to the participating bank GS up to the extent of the PhilPaSS Account balance. The Bangko Sentral shall issue an instruction to the BTr to transfer the remaining GS amounting to the unpaid ILF availment from the BSP-ILF Securities Account to the Bangko Sentral’s Regular Principal Securities Account.

At the end of the day and after Bangko Sentral's sell-back of the GS to ILF participants, normally by 5:45PM, the Bangko Sentral Treasury Department shall electronically instruct RoSS, using the ILF RoSS system developed for herein purpose, to return/ deliver from the CSA-ILF of the participating banks to their respective Regular Principal Securities Accounts with the RoSS all unused/unencumbered GS. GS used for O/N-RP shall remain in the CSA-ILF until repayment of subject O/N- RP or conversion to outright sale the following day.

Upon receipt of Bangko Sentral's electronic instruction for the return of GS back to the participating banks' regular Principal Securities Accounts, the BTr shall update their database after which participating banks may request/download statements of securities accounts for their verification.

C. Eligible Securities

Peso-denominated scripless securities of the National Government that are free and unencumbered and with remaining maturity of eleven (11) days to ten (10) years shall be eligible for the ILF. GS that will be used for ILF purposes would be reclassified with due consideration to the original booking of the security, as follows:

<u>Original Booking of GS</u>	<u>To be reclassified to</u>
a. Held for Trading	Held for Trading – ILF
b. Designated Fair Value Through Profit or Loss	Designated Fair Value Through Profit or Loss - ILF
c. Available for Sale	Available for Sale – ILF
d. Held to Maturity	Held to Maturity – ILF

D. Valuation of Securities

The GS subject of an ILF transaction shall be valued based on the 11:16AM fixing rates of the previous business day, from the applicable Reuters PDEX pages or any other valuation benchmark as may be prescribed by the Bangko Sentral.

E. Margins

Margins shall be applied based on prevailing policies of the Bangko Sentral Treasury Department.

F. Transaction Fee

The BTr shall collect a monthly maintenance fee of One Thousand Pesos (P1,000.00) from each Eligible Participant bank for the use of the CSA-ILF Securities Account. The maintenance fees herein required to be paid by each Eligible Participant bank shall be separate from and exclusive of any other fees being assessed and collected by BTr for membership in the RoSS. For this purpose, the Eligible Participant bank shall issue to the BTr an autodebit instruction to authorize the BTr to debit its DDA with Bangko Sentral for the above- mentioned monthly maintenance fee. The BTr will inform the Eligible Participant banks of any change in fee at least fifteen (15) days prior to implementation.

G. DDA Statements/Transaction Details

Eligible Participating banks will be able to verify the status of their accounts by initiating the SWIFT/PPS-Front-end System inquiry request.

AVAILABILITY OF SERVICE

The ILF is covered by a Memorandum of Agreement (MOA) dated 25 March 2008 by and among the Bangko Sentral, the BTr, the Bankers Association of the Philippines (for BAP members) and the Money Market Association of the Philippines (for non-BAP members). Participating banks shall sign individual participation agreements. The services outlined in the MOA shall be available at the Bangko Sentral and the BTr at a fixed hour on all banking days. Banking days refer to the days banking institutions are open for business Mondays thru Fridays as authorized by the Bangko Sentral.

Gentlemen:

Please be advised that we agree to participate in the Agreement for the Establishment of Intraday Liquidity Facility to support the Philippine Payment and Settlement System (the "System") which is covered by the Memorandum of Agreement dated _____ (the "Agreement") among yourselves and its subsequent amendments of revisions as may be agreed upon by the parties thereto from time to time.

We agree to be bound by all the terms and conditions of the Agreement and adopt it as an integral part of this Participation Agreement, including the authority of the Bangko Sentral to execute payment instructions and the authority of the Bureau of the Treasury (BTr) to execute our instructions on transfer to/from, credit and debit to/against our Securities Account. Further, we agree to comply with all our obligations as participating bank/financial institution as provided in the Agreement. Lastly, we agree to keep yourselves free and harmless from any claim or liability arising from, or in connection with, our transactions transmitted through the System in accordance with the provisions of the Agreement.

This participation will become effective upon your conformity hereto and your notification of the same to us, the Bangko Sentral and the BTr.

Very truly yours,

Participating Bank/Financial Institutions

SAMPLE INVESTMENT MANAGEMENT AGREEMENT
[Appendix to Sec. 415-Q (Minimum documentary requirements)]

IMA No. (Prenumbered)

INVESTMENT MANAGEMENT AGREEMENT

KNOW ALL MEN BY THESE PRESENTS

This AGREEMENT, made and executed this _____ day of _____ at _____, Philippines by and between:

(Hereinafter referred to as the "PRINCIPAL")

and

_____, an institution authorized to perform trust functions, organized and existing under and by virtue of the laws of the Philippines, with principal office and place of business at _____, Philippines. (Hereinafter referred to as the "INVESTMENT MANAGER")

WITNESSETH: THAT –

WHEREAS, the Principal desires to avail of the services of the Investment Manager relative to the management and investment of Principal's investible funds.

WHEREAS, the Investment Manager is willing to render the services required by the Principal relative to the management and investment of Principal's investible funds, subject to the terms and conditions hereinafter stipulated;

NOW, THEREFORE, for and in consideration of the foregoing and of the mutual conditions stipulated hereunder, the parties hereto hereby agree and bind themselves to the following terms and conditions:

INVESTMENT PORTFOLIO

1. Delivery of the Fund - Upon execution of this Agreement, the Principal shall deliver to the Investment Manager the amount of PHILIPPINE PESOS:
_____. (P _____).
2. Composition - The cash which the Principal has delivered to the Investment Manager as well as such securities in which said sums are invested, the proceeds, interest, dividends and income or profits realized from the management, investment and reinvestment thereof, shall constitute the managed funds and shall hereafter be designated and referred to as the Portfolio. For purposes of this Agreement, the term securities shall be deemed to include commercial papers, shares of stock and other financial instruments.
3. Delivery of Additional Funds - At any time hereafter and from time to time at the discretion of the Principal, the latter may deliver additional funds to the Investment Manager which shall form part of the Portfolio and shall be subject to the same terms and conditions of this Agreement. No formalities other than a letter from the Principal and physical delivery to the Investment Manager of cash will be required for any addition to the Portfolio.
4. Nature of Agreement - THIS AGREEMENT IS AN AGENCY AND NOT A TRUST AGREEMENT. AS SUCH, THE CLIENT SHALL AT ALL TIMES RETAIN LEGAL TITLE TO FUNDS AND PROPERTIES SUBJECT OF THIS ARRANGEMENT.

THIS AGREEMENT IS FOR FINANCIAL RETURN AND FOR THE APPRECIATION OF ASSETS OF THE ACCOUNT. THIS AGREEMENT DOES NOT GUARANTEE A YIELD, RETURN OR INCOME BY THE INVESTMENT MANAGER. AS SUCH, PAST PERFORMANCE OF THE ACCOUNT IS NOT A GUARANTY OF FUTURE PERFORMANCE AND THE INCOME OF INVESTMENTS CAN FALL AS WELL AS RISE DEPENDING ON PREVAILING MARKET CONDITIONS.

IT IS UNDERSTOOD THAT THIS INVESTMENT MANAGEMENT AGREEMENT IS NOT COVERED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC) AND THAT LOSSES, IF ANY, SHALL BE FOR THE ACCOUNT OF THE PRINCIPAL.

POWERS

5. Powers of the Investment Manager - The Investment Manager is hereby conferred the following powers:
- To invest or reinvest the Portfolio in (1) Evidences of indebtedness of the Republic of the Philippines and of the Bangko Sentral ng Pilipinas, and any other evidences of indebtedness or obligations the servicing and repayment of which are fully guaranteed by the Republic of the Philippines or loans against such government securities; (2) Loans fully guaranteed by the government as to the payment of principal and interest; (3) Loans fully secured by hold-out on, assignment or pledge of, deposits or of deposit substitutes, or mortgage and chattel mortgage bonds; (4) Loans fully secured by real estate and chattels in accordance with Sec. 78 of R.A. No. 337, as amended, and subject to the requirements of Secs. 75, 76 and 77 of R.A. No. 337, as amended; and (5) Such other investments or loans as may be directed or authorized by the Principal in a separate written instrument which shall form part of this Agreement: *Provided*, That said written instrument shall contain the following minimum information: (a) The transaction to be entered into; (b) The amount involved; and (c) The name of the issuer, in case of securities and/or the name of the borrower and nature of security, in the case of loans;
 - To endorse, sign or execute any and all securities, documents or contracts necessary for or connected with the exercise of the powers hereby conferred or the performance of the acts hereby authorized;
 - To cause any property of the Portfolio to be issued, held, or registered in the name of the Principal or of the Investment Manager: *Provided*, That in case of the latter, the instrument shall indicate that the Investment Manager is acting in a representative capacity and that the Principal's name is disclosed thereat;
 - To open and maintain savings and/or checking accounts as may be considered necessary from time to time in the performance of the agency and the authority herein conferred upon the Investment Manager;
 - To collect and receive matured securities, dividends, profits, interest and all other sums accruing to or due to the Portfolio;
 - To pay such taxes as may be due in respect of or on account of the Portfolio or in respect of any profit, income or gains derived from the sale or disposition of securities or other properties constituting part of the Portfolio;
 - To pay out of the Portfolio all costs, charges and expenses incurred in connection with the investments or the administration and management of the Portfolio including the compensation of the Investment Manager for its services relative to the Portfolio; and
 - To perform such other acts or make, execute and deliver all instruments necessary or proper for the exercise of any of the powers conferred herein, or to accomplish any of the purposes hereof.

LIABILITY OF INVESTMENT MANAGER

- Exemption from Liability - In the absence of fraud, bad faith, or gross or willful negligence on the part of the Investment Manager or any person acting in its behalf, the Investment Manager shall not be liable for any loss or damage to the Portfolio arising out of or in connection with any act done or performed or caused to be done or performed by the Investment Manager pursuant to the terms and conditions herein agreed, to carry out the powers, duties and purposes for which this Agreement is executed.
- Advice of Counsel - The Investment Manager may seek the advice of lawyers. Any action taken or suffered in good faith by the Investment Manager as a consequence of the opinion of the said lawyers shall be conclusive and binding upon the Principal, and the Investment Manager shall be fully protected from any liability suffered or caused to be suffered by the Principal by virtue hereof.

ACCOUNTING AND REPORTING

- The Investment Manager shall keep and maintain books of accounts and other accounting records as required by law. The Principal or the authorized representative of the Principal shall have access to and may inspect such books of accounts and all other records related to the Portfolio, including the securities held in custody by the Investment Manager for the Portfolio.
- Reporting Requirements - The Investment Manager shall prepare and submit to the Principal the following reports within _____: (a) Balance Sheet; (b) Income Statement; (c) Schedule of Earning Assets; (d) Investment Activity Report; and (e) (such other reports as may be required by the Principal).

INVESTMENT MANAGER'S FEE

10. Investment Fee - The Investment Manager, in addition to the reimbursement of its expenses and disbursements in the administration and management of the Portfolio including counsel fees, shall be entitled to receive as compensation for its services a management fee of ____ (Specify amount or rate) ____.

WITHDRAWALS FROM THE PORTFOLIO

11. Withdrawal of Income/Principal - Subject to availability of funds and the non- diminution of the Portfolio below P1 million, the Principal may withdraw the income/ principal of the Portfolio or portion thereof upon written instruction or order given to the Investment Manager. The Investment Manager shall not be required to see as to the application of the income/principal so withdrawn from the Portfolio. Any income of the Portfolio not withdrawn shall be accumulated and added to the principal of the Portfolio for further investment and reinvestment.
12. Non-alienation of Encumbrance of the Portfolio or Income - During the effectivity of this Agreement, the Principal shall not assign or encumber the Portfolio or its income or any portion thereof in any manner whatsoever to any person without the prior written consent of the Investment Manager.

EFFECTIVITY AND TERMINATION

13. Term - This Agreement shall take effect from the date of signing hereof and shall be in full force and effect until terminated by either party by giving written notice thereof to the other at least _____ () days prior to the termination date.
14. Powers upon Liquidation - The powers, duties and discretion conferred upon the Investment Manager by virtue of this Agreement shall continue for the purpose of liquidation and return of the Portfolio, after the notice of termination of this Agreement has been served in writing, until final delivery of the Portfolio to the Principal.
15. Accounting of Transaction - Within _____ () days after the termination of this Agreement, the Investment Manager shall submit to the Principal an accounting of all transactions effected by it since the last report up to the date of termination. Upon the expiration of the () days from the date of submission, the Investment Manager shall forever be released and discharged from all liability and accountability to anyone with respect to the Portfolio or to the propriety of its acts and transactions shown in such accounting, except with respect to those objected to in writing by the Principal within the _____ () day period.
16. Remittance of Net Assets of the Portfolio - Upon termination of the Agreement, the Investment Manager shall turn over all assets of the Portfolio which may or may not be in cash to the Principal less the payment of the fees provided in this Agreement in carrying out its functions or in the exercise of its powers and authorities.

This Agreement or any specific amendments hereto constitute the entire agreement between the parties, and the Investment Manager shall not be bound by any representation, agreement, stipulations or promise, written or otherwise, not contained in this Agreement or incorporated herein by reference, except pertinent laws, circulars or regulations approved by the Government or its agencies. No amendment, novation, modification or supplement of this Agreement shall be valid or binding unless in writing and signed by the parties hereto.

IN WITNESS WHEREOF, the parties have hereunto set their hands on the date and at the place first above set forth.

RISK MANAGEMENT GUIDELINES FOR DERIVATIVES
(Appendix to Sec. 613-Q)

I. Introduction

This appendix, together with the Guidelines on Supervision by Risk (*Appendix Q-41*) and other Bangko Sentral issuances on management of the different risks attendant to FI activities, provides a framework on which an FI can establish its risk management activities. Accordingly, this set of risk management guidelines for derivatives should be read and used in conjunction with all related Bangko Sentral issuances on risk management.

An FI, in using these guidelines to evaluate the propriety and adequacy of its risk management, must consider the following principles:

- a. No single risk management system for derivatives is expected to work for all FIs considering that the structure and level of derivatives activities will vary from one FI to another. Each FI should apply the principles set in these guidelines in a manner appropriate to its needs and circumstances. The Bangko Sentral shall evaluate the quality of an FI's risk management system based on the principles and minimum requirements of these guidelines, scaled to the derivatives activities being undertaken.
- b. The requirements prescribed in these guidelines are merely minimum standards and therefore, should not be taken as the "be-all" for all FI's risk management. The Board of Directors ("BOD") has the responsibility of ensuring that an FI's risk management system appropriately captures its risk exposures and affords proper management of these.

II. Risks associated with derivatives

While derivatives primarily help manage existing and anticipated risks, derivatives themselves are exposed to the risks they are designed to manage. Moreover, simple derivatives, when combined with other financial instruments, may result in a structure that exposes an FI to complicated risks. Thus, derivatives can aggravate the risks of FIs and of counterparties if derivatives are not clearly understood and properly managed.

A single derivatives product may expose an FI to multiple risks as enumerated under Section III of *Appendix Q-41*. These categories are not mutually exclusive of each other. Hence, derivatives activities must be managed with consideration of all of these risks.

III. Risk management process for derivatives

The management of derivatives activities should be integrated into an FI's overall risk management system using a conceptual framework common to the FI's other businesses. For example, price risk exposure arising from derivatives transactions should be assessed in a manner comparable to and aggregated with all other price risk exposures. Risk consolidation is particularly important because the various risks contained in derivatives and other market activities can be interconnected and may transcend specific markets.

At a minimum, the risk management process for derivatives should be able to:

- a. **Identify** the risks arising from its derivatives activities in whatever capacity it deals with the same. An FI must likewise identify the impact of its derivatives activities on its overall risk profile. To properly identify risks, an FI must understand the derivatives products with which it is transacting and the factors that affect them.

Considering that changes in the value of derivatives are highly influenced by changes in market factors, risk identification should be a continuing process and should occur at both a transaction and portfolio level.

- b. **Measure** the risks arising from its derivatives activities. An FI must have measurement models or tools to quantify the risks identified. These measurement tools should be suitable to the nature and volume of an FI's derivatives activities. As the complexity and volume of the derivatives activity increases, the measurement tools should correspondingly be more sophisticated. The primary criteria for the propriety of the measurement tools are accuracy, timeliness, efficiency and comprehensiveness with which these tools can capture the risks involved and their contribution to the decision-making process of FI management.

- c. **Monitor** the risks arising from its derivatives activities. Derivatives products are very sensitive to market factors, which continually change. Thus, an FI should have a mechanism to monitor the responsiveness of derivatives to market factors to enable it to review and assess its risk positions. In order to effectively monitor the risks, reports must be timely generated in order to aid management in determining whether there is need to adjust the FI's derivatives positions.

- d. **Control** the risks arising from its derivatives activities. An FI must establish limits to its derivatives exposure. These limits should be comprehensive and aligned with an FI's overall risk tolerance. An FI's policies and procedures on control should provide for contingencies when limits are breached. An FI must allot lead time and have a mechanism that enables management to act

in time to control unacceptable or undesired exposures. An FI must also establish a system that separates functions susceptible to conflicts of interest.

IV. Sound risk management practices for derivatives

Consistent with the criteria for sound risk management practices in Section V of *Appendices Q-42 and Q-43*, the Bangko Sentral shall assess the propriety and adequacy of an FI's risk management system for its derivatives activities in accordance with the following basic principles.

a. Active and appropriate board and senior management oversight

An FI's BOD must set the general policy or the policy direction relating to the management of an FI's risks, including those arising from its derivatives activities. This policy should be consistent with the FI's business strategies, capital strength, management expertise and risk profile. Accordingly, the BOD must understand the nature and purpose of the FI's derivatives activities and the role derivatives play in the FI's overall business strategy. Passive BOD approval is not acceptable. There must be verifiable evidence of the BOD approval processes and that senior management exerted effort to explain the nature and purpose of the derivatives activities to the BOD (e.g. minutes of BOD meetings documenting presentations and reports to the BOD and the approval processes).

The BOD must review and pre-approve new derivatives products as well as significant related policies and procedures. Central to the approval of new products is defining when a product or activity is new in order to ensure that variations on existing products receive the proper review and authorization. Policies should also detail authorized activities (e.g., at what stages approvals should be obtained, from whom approvals should be obtained), those that require on-time approval and those that are considered inappropriate.

The BOD must be apprised of the FI's derivatives exposures on a timely basis in order to enable the BOD to act on such exposures accordingly. Consequently, there should be an established reporting methodology to ensure that the BOD receives, on a continuing basis, detailed information regarding the FI's risk exposures from derivatives, including the impact to the FI's overall risk profile, earnings and capital. These reports should include both normal and stress scenarios.

Pursuant to the general policy or policy direction on risk management set by the BOD, senior management must adopt adequate policies and procedures for conducting the FI's derivatives activities on both a long-range and day-to-day basis. Policies should clearly delineate responsibility for managing risk, and provide effective internal controls and a comprehensive risk-reporting process. Policies must also keep pace with the changing nature of derivatives products and markets and therefore must be reviewed on an on-going basis. Senior management should ensure that the various components of an FI's risk management process are regularly reviewed and evaluated. Internal evaluations may be supplemented by external auditors or other qualified outside parties.

The quality of oversight provided by the BOD and senior management to an FI's derivatives activities will be reflected in the overall risk management process, the adequacy of resources (financial, technical expertise, and systems technology) devoted to handle derivatives activities and its use of the monitoring reports. The BOD and senior management shall be responsible for ensuring that FI personnel comply with prescribed risk management standards and sales and marketing guidelines.

b. Adequate risk management policies and procedures

An FI must establish policies and procedures to guide its personnel in conducting derivatives activities. These risk management policies must be reflective of an FI's current strategy and practice.

An FI should not issue policies and procedures for derivatives in isolation. All aspects of the risk management process for derivatives activities should be integrated into the FI's over-all risk management system to the fullest extent possible using a conceptual framework common to the FI's other activities. Risk management policies should be comprehensive, covering all activities of the FI. The Bangko Sentral will evaluate the degree to which controls covering derivatives activities have been integrated in other issuances of the FI covering aggregate risk-taking activities.

For FIs that conduct derivatives transactions with subsidiaries and affiliates, there should be policies and procedures that describe the nature, pricing, monitoring, and reporting of acceptable related-party transactions.

All risk management policies and procedures must be written, well-communicated to all personnel involved in the derivatives activities and readily available in user-friendly form, whether the same is a hard or soft copy thereof. An FI must also put up systems and procedures to ensure an audit trail evidencing the dissemination process for new and amended policies and procedures.

At a minimum, an FI is expected to have:

- (1) Comprehensive, updated and relevant risk policy manual(s);

(2) Operations manual(s) or similar documents that describe the flow of transactions among and between the relevant units and personnel in an FI's treasury (front office, back office and accounting) and risk management unit;

(3) Approved product manual(s) that includes product definition, benefits and risks, pricing mechanisms, risk management processes, capital allocation guidelines, tax implications and other operating procedures and controls for the FI's derivatives activities.

c. Appropriate risk measurement methodologies, limits structure, monitoring and management information system

The process of measuring, monitoring and controlling risk should be carried out independently from individuals conducting derivatives activities. An independent system of reporting exposures to both senior level management and to the BOD is critical to the effectiveness of the process.

(1) Measurement methodologies

An FI must be able not only to accurately quantify the multiple risk exposures arising from its derivatives activities but also aggregate similar risks across the different activities of the FI to the fullest extent possible. An FI must develop a risk measurement model appropriate to its portfolio. Accordingly, an FI must evaluate the assumptions used, computational requirements, procedures for computing the risk metric, sourcing of inputs used in the measurement process, including the theoretical reasons for a particular input choice, and how these concepts apply to the FI's portfolio.

The risk measurement system should be structured to enable management to initiate prompt remedial action, facilitate stress- testing, and assess the potential impact of various changes in market factors on earnings and capital. A risk measurement system is considered sound if it is capable of comprehensively capturing risks from: (a) the FI's on and off-balance sheet exposure; (b) all relevant market factors; and (c) normal circumstances and stress events. Sound risk measurement practice includes identifying possible events or changes in market behavior that could have unfavorable effects on the FI and assessing the ability of the FI to withstand these events or changes. The stress testing should include not only quantitative exercises that compute potential gains or losses but also qualitative analyses of actions that management might take under particular scenarios.

An FI's risk measurement system should provide appropriate pricing and valuation procedures to ensure best execution for both proprietary trading and those undertaken for clients and a mark-to- market/model (MTM) methodology for derivatives instruments that follows established MTM regulations and Philippine Financial Reporting Standard (PFRS 9).

New measurement models, whether developed internally or purchased from vendors, should be subject to an initial validation before it is used. Internally developed models require more intensive evaluation where they have not been market-tested by external parties. The validation process should consist of a review of the logic, mathematical or statistical theories, assumptions, internal processes and overall reliability of an FI's measurement models, including the compatibility of the measurement model with the FI's technology and systems. The validation must be undertaken by a technical expert independent from the unit that developed the model. For example, pricing systems developed by a trader is required to be independently validated by a corresponding technical expert from the FI's risk management unit. If no such personnel from the risk management unit exists, an independent validation may be performed by internal audit provided that internal audit has the necessary expertise. An FI may also avail of the services of an independent outside expert. Thereafter, the frequency and extent to which models are validated depends on changes that affect pricing, risk presentation or the existing control environment. Changes in market conditions that affect pricing and risk conventions, which model performance, should trigger additional validation review.

Risk management policies should clearly address the scope of the validation process, the frequency of validations, documentation requirements, and management responses. At a minimum, policies should require the evaluation of significant underlying algorithms and assumptions before the model is put in regular use, and as market conditions warrant thereafter. Such internal evaluation should be conducted by parties who, where practicable, are independent of the business sector using or developing the model. The evaluation may, if necessary, be conducted or supplemented with reviews by qualified outside parties, such as experts in highly technical models and risk management techniques.

(2) Limits structure

An FI must specify individual limits for all types of risks involved in an FI's derivatives activities. An FI should use a variety of limits to adequately capture the range of risks or to address risks that the measurement system does not capture. These limits should be integrated into the FI-wide limit structure to ensure consistency with the BOD-approved risk appetite and business strategy.

The limit structure should be realistic taking into consideration the target budget, level of earnings and capital. Limits must be documented and promptly communicated to all relevant personnel. Limits must be reviewed at least annually or more frequently, if circumstances warrant, in order to ensure that limits reflect the FI's past performance and current position.

Limits should be continually analyzed as regards its impact on target income, earnings and capital. These analyses should be submitted/reported to the BOD. Any excess over the limit must be approved only by authorized personnel and immediately reported to senior management and depending on the seriousness, also to the BOD. The seriousness of limit exceptions depends upon management's approach towards setting limits and on the actual size of individual and organizational limits relative to the FI's capacity to take risks. An FI with relatively conservative limits may encounter more exceptions to those limits than that with less restrictive limits. There must also be mechanisms for the correction of breach of these limits.

An FI's limit structure should address the following:

- (a) Definition of a credit exposure;
- (b) Maximum credit exposure to an individual counterparty;
- (c) Credit concentrations;
- (d) Maximum nominal exposure:
 - (i) Per trader and per transaction; and
 - (ii) Position limits
- (e) Approved credit risk mitigation techniques; and
- (f) Appropriate loss exposure triggers:
 - (i) Loss alert;
 - (ii) Stop loss;
 - (iii) Value-at-risk; and
 - (iv) Earnings-at-risk
- (3) Monitoring

Monitoring of risk exposures, market conditions, and trading positions should be done at least daily. Derivatives instruments are highly influenced by movements in market factors. Thus, an FI must have a mechanism that can track and analyze the effect of market movements on its derivatives exposures. To ensure proper monitoring of risks, an FI is expected to have technology and systems that can (a) track movements in reference variables (underlying) and other market factors affecting the value of the derivatives instruments, such as trigger events; and (b) incorporate observed market movements into the pricing and valuation of derivatives instruments.

While monitoring is undertaken independently from the personnel conducting derivatives activities, FI traders are expected to actively monitor their positions to ensure that they do not breach their limits. FI traders should not wait until a limit is breached to alert senior management and risk control units. Instead, traders should promptly report unanticipated changes and progressively deteriorating positions, as well as other significant issues arising from their positions, to the risk control function and responsible management.

(4) Management information system

An FI must institute an information system that generates accurate and incisive reports to ensure that management and the BOD are timely and regularly apprised of the FI's derivatives exposures. An FI is expected to have policies and procedures pertaining to the derivatives reporting specifying, among others, the types of derivatives reports to be generated, the purpose and contents thereof, responsible units that will generate the reports, frequency and deadlines of reports, recipients/users of reports, and the type of action expected from the users of the report. At a minimum, management reports should contain the following: outstanding derivatives positions, compliance with or status of positions as against limits, analysis of derivatives positions, along with other FI exposures, in relation to the impact to earnings and capital, monitoring of trigger events, and deviations from established policies and procedures and justifications thereof.

The management information system must be able to translate the measured risks from derivatives activities from a technical and quantitative format to one that can easily be read and understood by senior managers and directors, who may not have specialized and technical knowledge of derivatives products. Such a system enables management and the BOD to judge the changing nature of the FI's risk exposures. The electronic data processing capability must be commensurate to the volume and complexity of the FI's derivatives activities to facilitate the generation of needed reports.

The frequency and content of BOD and management reporting will ultimately depend upon the nature and significance of derivatives activities. Where applicable, BOD and management reports should consolidate information across functions and divisions. BOD and management reporting should be tailored to the intended audience, providing summary information to senior management and the BOD and more detailed information to FI traders.

Management reports should be generated by control departments independent of the risk-takers. When risk-takers provide information (e.g., valuations or volatilities on thinly traded derivatives contracts) for management reports, senior management should be informed of possible weaknesses in the data, and these positions should be audited frequently.

d. Comprehensive internal controls and independent audits.

A sound system of internal controls promotes effective and efficient operations, reliable financial and regulatory reporting, and compliance with relevant laws, regulations and policies of the FI. In determining whether an FI's internal controls meet these objectives, the Bangko Sentral will consider the overall control environment of the FI, particularly, the process of identifying, measuring, analyzing and managing risk, the adequacy of management information systems, and degree of adherence to control activities such as approvals, confirmations and reconciliations. Control of the reconciliation process is particularly important where there are differences in the valuation methodologies or systems used by the front and back offices.

(1) Risk Control

An FI should have an independent risk control unit responsible for the design and implementation of the FI's risk management system. A strong risk control function is a key element in fulfilling the oversight responsibilities of BOD members and senior managers. This unit must be independent from business trading units and should report directly to the BOD. The role and structure of risk control function should be commensurate to the nature, complexity and extent of an FI's derivatives activities.

A risk control unit should regularly evaluate risk-taking activities by assessing risk levels and the adequacy of risk management processes. It should also monitor the development and implementation of control policies and risk measurement systems. It should analyze daily reports produced by the FI's risk measurement model, including an evaluation of the relationship between measures of risk exposure and trading limits. Risk control personnel staff should periodically communicate their observations to senior management and the BOD.

An FI's control structure shall be considered sound if all the following elements are present:

(a) Formal approval process for new products

An FI should have an effective process to evaluate and review risks involved in products that are either new to the FI or new to the market and of potential interest to the FI. An FI that desires to engage in new products and transactions must first subject these products and transactions to a rigorous review and approval process. This will ensure that all FI personnel involved in the activity have sufficient knowledge of the product or transaction, and that the ensuing risk exposures can be identified, measured and analyzed. The process must be contained in a BOD-approved policy that is fully documented and must be implemented consistently and with integrity.

Before initiating a new derivatives activity, all relevant personnel should understand the product. Risks arising from the new product should be integrated into the FI's risk measurement and control systems. The new product approval process should include a sign-off by all relevant areas such as risk control, operations, accounting, legal, audit, and senior management and trading operations.

Defining a product or activity as "new" is central to ensuring that variations on existing products receive the proper review and authorization. Factors that should be considered in classifying a product/activity as "new" include: capacity changes (e.g., end-user to dealer), structure variations (e.g., non-amortizing swap versus amortizing interest rate swap), products which require a new pricing methodology, legal or regulatory considerations, or market characteristics (e.g., foreign exchange forwards in major currencies as opposed to emerging market currencies).

An FI should introduce new products in a manner that adequately limits potential losses and permits the testing of internal systems.

(b) Segregation of functions/units subject to conflict of interest

An FI must separate the business unit conducting the derivatives activities from the unit/s tasked with the checking, accounting, reporting and control functions of its derivatives activities.

An FI should have policies and procedures addressing conflicts of interest, particularly among the following functions: proprietary trading, sales or marketing desks/units, personal trading, and asset management.

An FI that conducts derivatives activities with its subsidiaries and/or affiliates must establish policies and procedures to avoid actual, or even the appearance of a conflict of interest. Off-market rates between related parties should generally be forbidden.

An FI should avoid dealing in transactions conducted at off-market rates. An FI should have internal policies defining what constitutes "market rates" and identify the range of deviation from the benchmark rates which could still be considered as

“market rates”. The FI’s monitoring system should be able to alert management of any breaches in the rate tolerance levels and the appropriate action that should be taken. An FI must be able to justify any off-market transaction.

(c) Competent and adequate personnel who are properly supervised

The increased complexity of derivatives activities requires highly skilled staff particularly in the risk-taking, risk control, and operational functions. Management should regularly review the knowledge, skills and number of people needed to engage in the FI’s derivatives activities. The staff must be appropriately balanced among the different areas involved in derivatives activities such that no area is understaffed in terms of number or skill.

Staff turnover can create serious problems, especially if knowledge is concentrated in a few individuals. The impact of staff turnover can be particularly acute in specialized trading markets where FI traders are in high demand and are often recruited in teams.

To mitigate business continuity and succession risk arising from a high staff turnover, an FI should devise a system of building technical expertise across involved personnel through continuous technical training, periodic rotation and cross-training of staff members performing key functions and developing understudies.

The BOD should ensure that the power and control delegated to these expert personnel are not abused. Therefore, the BOD must establish appropriate controls over their activities.

(d) Independent control functions or units

The risk control and audit units should possess the authority, independence, and corporate stature to enable them to identify and report their findings, unimpeded by FI traders. It is equally important to employ individuals with sufficient experience and technical expertise to be credible to the business line they monitor and senior executives to whom they report.

(2) Audit

Audit should be conducted by qualified professionals who are independent of the business line being audited. Audits should supplement, and not be substitute for risk control function.

The scope of audit coverage should be commensurate with the level of risk and volume of derivatives activity. The audit should include an appraisal of the effectiveness and independence of the FI’s risk management process; the adequacy of operations, compliance, accounting and reporting systems; propriety of risk measurement models; and the effectiveness of internal controls. Auditors should test compliance with the FI’s policies, including limits.

The level of auditor expertise should be consistent with the level and complexity of activities and degree of risk assumed. An FI may choose to outsource audit coverage to ensure that the professionals performing the work possess sufficient knowledge and experience.

Procedures should be in place to ensure that auditors are informed of significant changes in product lines, risk management methods, risk limits, operating systems, and internal controls so that the auditors can update their scope and procedures accordingly. Auditors should periodically review and analyze performance and risk management reports to ensure that areas showing significant changes are given appropriate attention.

The audit function must have the support of management and the BOD in order to be effective. Management should respond promptly to audit findings by investigating identified system and internal control weaknesses and implementing corrective action. Thereafter, management should periodically monitor newly implemented systems and controls to ensure they are working appropriately. The BOD, or designated committee, should receive reports tracking management’s actions to address identified deficiencies.

(Circular No. 1011 dated 14 August 2018)

**SECURITIES AND EXCHANGE COMMISSION BASIC RULES AND REGULATIONS TO IMPLEMENT THE PROVISIONS OF
PRESIDENTIAL DECREE NO. 129, OTHERWISE KNOWN AS "THE INVESTMENT HOUSES LAW"
(Appendix to Sections 1141-Q and 102-Q)**

To effectively carry out the provisions of Presidential Decree (P.D.) No. 129, otherwise known as "The Investment Houses Law", the Commission, pursuant to the powers vested in it by said Decree, and by R.A. Nos. 1143 and 5050, hereby promulgates the following rules and regulations for the information and guidance of the public:

Section 1. Scope of Applicability.

These rules and regulations shall apply to any enterprise which engages or purports to engage in the underwriting of securities.

Section 2. Definitions.

The following terms as used in P.D. No. 129 and these rules shall be understood to mean as follows:

- a) *Investment House (IH)* is any enterprise which engages or purports to engage, whether regularly or on an isolated basis, in the underwriting of securities of another person or enterprise, including securities of the Government and its instrumentalities.
- b) *Underwriting of securities* is the act or process of guaranteeing the distribution and sale within the Philippines of securities issued by another person or enterprise, including securities of the Government or its instrumentalities. The distribution and sale may be on a public or private placement basis.
- c) *Securities* are written evidences of ownership, interest or participation, in any enterprise, or written evidences of indebtedness of a person or enterprise. It includes, but is not limited to, the instruments enumerated in Section 2 of the Securities Act.
- d) *Guarantee* is any commitment and/or undertaking made by a person, firm or entity to an issuer or holder of securities to raise funds for said issuer or holder, by the distribution of such securities for sale, resale, or subscription, either through an outright purchase or through a corresponding commitment to purchase the balance not subscribed or sold.
- e) *Private placement* refers to the underwritten sale of securities to less than 20 persons or enterprises.
- f) *Public distribution* refers to the underwritten sale of securities to at least 20 persons or enterprises.
- g) *Voting stock* is that portion of the authorized capital stock of an IH, as are subscribed and entitled to vote.
- h) *Paid-in capital* are all payments on subscriptions to the authorized capital of an IH, including premiums paid in excess of par.
- i) *Officer* shall be understood to mean a senior officer of an IH or bank, which includes the president, executive vice-president, general manager, vice-president, assistant vice-president, corporate secretary, head of an operating department and branch manager and such other officers as the Commission, in consultation with the Bangko Sentral, shall determine.
- j) *Organizers* are persons who undertake to form an IH, among themselves and others, and who are indicated in the articles of incorporation as the incorporators and the incorporating directors.
- k) *Managerial staff* are the officers of an IH. Where an IH is under a management contract the terms shall be understood to include the officers of the management firm.
- l) *Unimpaired capital and surplus* means the total of the unimpaired paid-in capital, surplus, and undivided profits net of such valuation reserves as may be required by the Commission provided that the Commission may include such other items as it may deem appropriate.
- m) *Quasi-banking functions* shall refer to the functions defined as such by law and appropriate implementing rules and regulations.
- n) *Commission* shall mean the Securities and Exchange Commission.

Section 3. Organization and Registration.

- A. *Investment Houses* shall be organized in the form of stock corporations in accordance with the provisions of the Corporation Law, subject to the following requirements:
- 1) At least a majority of the voting stock of the corporation shall be owned by citizens of the Philippines. In determining the percentage of foreign-owned voting stocks in an IH, the basis of the computation shall be the citizenship of each stockholder, and, with respect to corporate owners of voting stock, the citizenship of the individual owners of voting stock in the corporation holding shares in the IH;
 - 2) The majority of the members of the Board shall be citizens of the Philippines;
 - 3) Foreign equity participation shall be registered or reported with the Board of Investment in accordance with the rules and regulations of that Office, prior to or simultaneous with the registration with the Commission;
 - 4) The corporation shall have a minimum initial paid-in capital of P20.0 million at the time of incorporation;
 - 5) Resident foreign directors or technicians of an IH, if any, shall register with the Bureau of Immigration and Deportation;
 - 6) In no event shall an officer of an IH be at the same time an officer of a bank, as defined in Section 3 of R.A. No. 337, as amended;
 - 7) No director or officer of an IH shall at the same time be a director of a bank, and no director of an IH shall at the same time be an officer of a bank, except as may be authorized as an exception by the Monetary Board of the Bangko Sentral.
- B. *Procedure* - The organizers shall file with the Commission, a sworn application for registration in accordance with the prescribed form, together with the following documents:
- (1) All documents required for registration as a stock corporation;
 - (2) An information sheet of the registrant corporation; [SEC Form 129-2]
 - (3) A statement under oath by the organizers and the proposed managerial staff, of their educational background and work experience, as well as information on any position currently held by them in banking and other FIs, if any (SEC Form 129-3);
 - (4) A one (1)-year projected statement of assets and liabilities of the proposed IH;
 - (5) A tentative program of operation for one year, including its investment direction and volume, its expected sources and intended uses of funds and its quasi-banking functions, if any.
- C. *Hearing on Application* – The Commission shall conduct a hearing to determine whether the establishment of the proposed IH will promote public interest and economic growth. The Bangko Sentral shall be officially notified. The SEC Commissioner shall not register any articles of incorporation unless his Office shall have consulted the Bangko Sentral and is satisfied on the basis of the evidence submitted that:
- (1) All the requirements of P.D. No. 129 and of existing laws relative to the organization of an IH have been complied with;
 - (2) Public interest and economic growth are promoted;
 - (3) The amount of capital, the proposed organization, direction and administration, as well as the integrity, experience and expertise of the organizers and the proposed managerial staff, provide reasonable assurance that the enterprise will be conducted with financial prudence.

- D. *Issuance of Certificate of Incorporation* - Upon compliance with all the requirements of law and implementing rules, and the Commission is satisfied that the formation of the IH will promote public interest and economic growth, a Certificate of Incorporation will be issued to it. A license to operate shall also be granted after it shall have adopted its by-laws, elected its directors and appointed its officers.
- E. *Annual Fees* - On or before the fifteenth day of January of each year, and for as long as its license to operate remains in effect, each IH shall pay a fee of P200. At the time of payment, the Commission may require the licensee to appear and inform the Commission of the results of its operations.
- F. *Branch Operations* - No IH shall open, maintain or operate a branch or agency without first securing from the Commission a license to operate a branch in a particular locality. All applications for a license to operate a branch shall be acted upon by the Commission within ninety (90) days after submission of such documents as may be required by the Commission in support of such application.
- G. *Use of the Term "Investment House"* - No person, association, partnership or corporation other than those duly licensed as an IH in accordance with these rules and regulations, shall advertise or hold itself out as being engaged in the business of an IH.

Sec. 4. Underwriting Requirements.

Underwriting agreements entered into by an IH, with respect to public distribution of securities, including the fees to be charged in connection therewith, shall be subject to the approval of the Commission, it being understood that no public distribution of securities shall be made without such approval. The Commission may impose such terms and conditions as may be necessary in the public interest and for the protection of investors; and it may require the submission of such documents as may be necessary to ascertain compliance with such standards of operation as it may establish. Transactions which constitute quasi-banking functions shall be subject to Bangko Sentral regulation.

As a gesture of faith in the issue, an IH may take for its own account a portion of the securities it underwrites but shall sell such securities to the public.

Section 5. Management of Funds.

The Commission, by circular, shall provide limitations on investments of discretionary accounts under the management of an IH.

Should the IH engage in the management of funds, it must at all times adhere to the prudent man's rule. The IH shall ensure that the interest of the funds managed is promoted and that the operation of the funds is undertaken on an arms' length basis.

The Commission may require such documents and reports as may be necessary, in order to determine if prudence and safety of the principal have been paramount in the decision of the IH.

Section 6. Underwriting Fees.

Except in highly meritorious cases, as approved by the Commission, an IH shall not collect underwriting fees in excess of five percent (5%) of the amount generated by the underwriter for the issuer.

Section 7. Contingency Reserves.

An IH shall provide annually a reserve for contingencies in such reasonable amount as may be required by the Commission.

Section 8. Prohibitions

- (1) No IH shall undertake underwriting commitments for its own account in an aggregate outstanding amount exceeding twenty (20) times its unimpaired capital and surplus.
- (2) An IH shall not at any time allow its unimpaired capital and surplus to fall below P20.0 million; otherwise, it shall be prohibited from underwriting securities for so long as such deficiency remains.

- (3) Whenever an IH is engaged in the management of funds, its officers and other personnel directly involved in the management of funds are prohibited from simultaneously or concurrently buying or selling the shares of stock of the same firm that the funds are buying or selling.
- (4) No advance to directors, officers and stockholders owning at least ten percent (10%) of the outstanding capital of an IH shall be allowed, unless sufficiently collateralized.

Section 9. Reporting Requirements.

Every registered IH shall file with the Commission the following periodic reports in triplicate:

- A. *Progress Reports* - a quarterly report of the results of its underwriting operations and activities of funds managed on all commitments entered into in such form as may be provided for the purpose, within fifteen (15) days from the end of each quarter.
- B. *Semi-Annual Financial Statement* signed under oath by its chief accountant and verified by the president, within a period of sixty (60) days after the end of each semester containing such data, and in such form as the Commission shall require. A copy shall be filed with the Bangko Sentral.
- C. *Annual Report* concerning its operational activities for the year just ended, signed by its president (SEC Form 129-1) within the month of March of each year. A copy shall be filed with the Bangko Sentral.
- D. A *Report* on the composition of the board of directors or any resignation, dismissal, suspension, or filling of vacancies therein, or of any officers or managerial staff, signed under oath by the secretary, within fifteen (15) days after occurrence of the event.

Every registered IH shall maintain and preserve such records and documents as the Commission may prescribe by way of circulars. Such circulars shall provide for a reasonable degree of uniformity in accounting policies and principles to be followed by IHs in maintaining their accounting records and in preparing statements as required by these rules.

Section 10. Transitory Provisions

- A. All existing enterprises which have been operating as Investment Houses, prior to 15 February 1973, shall:
 - (1) Within six (6) months from 15 February 1973 file an information sheet with the Commission in such form and containing such data as may be required, pay the required fee under Sec. 3-E of these rules, and the Commission in consultation with the Monetary Board, after determining compliance with the requirements of P.D. No. 129 and of these Rules, shall issue a License to Operate an IH.
 - (2) Within one (1) Year from 15 February 1973 comply with the requirement of a minimum paid-in capital of P20.0 million, citizenship requirements, and the prohibition on interlocking directorate or officership.

Section 11. Stockbrokerage or Dealership Functions.

If an IH engages in the business of a stockbroker or dealer pursuant to P.D. No. 129, it shall comply with the provisions of C.A. No. 83, otherwise known as the Securities Act, and the rules and regulations of the Commission promulgated pursuant thereto: *Provided, however*, that an IH need not obtain a separate license under Section 14 of the Securities Act.

Section 12. Bangko Sentral Rules.

IHs shall also be subject to the rules and regulations promulgated by the Bangko Sentral for non-bank financial intermediaries as provided by law.

Section 13. Visitorial Power.

The Commission may, at its discretion, make such investigations as it deems necessary to determine whether or not an IH is complying with any of the provisions of P.D. No. 129 or of any applicable laws, rules and regulations. It shall determine all the

facts and circumstances concerning the matter to be investigated for the imposition of sanctions/penalties or remedial or preventive measures.

Section 14. General Exemption Power.

The Commission may, upon proper petition and payment of a fee of P100, grant an exemption from compliance with any requirements of these rules as may be consistent with public interest and the protection of investors.

Section 15. Penalties.

Any violation of P.D. No. 129 or of these rules and regulations, shall be penalized by suspension or revocation of the License to Operate, after proper notice and hearing. In appropriate cases, a fine not exceeding P200 per day for every day during which such violation continues, shall be imposed upon the IH and the officer or director who ordered or authorized the violation, without prejudice to the criminal liabilities provided in the second paragraph of Section 16 of P. D. No. 129.

In the exercise of its regulatory powers under Section 12 of P.D. No. 129, the Monetary Board may issue a cease-and desist order upon an IH which is not complying with Bangko Sentral rules and regulations pertaining to non-bank financial intermediaries or, in appropriate cases, rules governing quasi-banking functions of IHs. Failure to comply with the cease-and desist order shall subject an IH to a fine to be imposed by the Monetary Board.

Section 16. Effectivity.

These rules shall take effect immediately. They shall be published in a newspaper of general circulation in the Philippines and in the Official Gazette.

Manila, Philippines, 09 July 1973.

(SGD.) ARCADIO E. YABYABIN
Securities and Exchange Commissioner

APPROVED:

(SGD.) TROADIO T. QUIAZON, JR.
Acting Secretary of Trade

**NEW RULES AND REGULATIONS TO IMPLEMENT THE PROVISIONS OF
REPUBLIC ACT (R.A.) NO. 5980 (THE FINANCING COMPANY ACT), AS AMENDED
(Appendix to Sec. 102-Q)**

To effectively carry out the provisions of R.A. No. 5980 (The Financing Company Act), as amended, the Securities and Exchange Commission, pursuant to the powers vested in it under said Act, R.A. No. 1143 and Presidential Decree No. 902-A, as amended, hereby promulgates the following rules and regulations:

Section 1. Definition of Terms. The following definition of terms shall apply for purposes of these Rules:

- a. **FINANCING COMPANIES** are corporations or partnerships, except those supervised by the Central Bank of the Philippines, Office of the Insurance Commissioner and the Bureau of Cooperatives Development, which are primarily organized for the purpose of extending credit facilities to consumers and to industrial, commercial, or agricultural enterprises: by discounting or factoring commercial papers or accounts receivable; by buying and selling contracts, leases, chattel mortgages, or other evidences of indebtedness; or by leasing of motor vehicles, heavy equipment and industrial machinery, business and office machines and equipment, appliances and other movable property.
- b. **PRIMARILY ORGANIZED** shall mean organized for the primary purpose of operating as a financing company and that more than 50% of its funds shall be used or invested in financing company activities, *Provided, That* in the computation thereof direct loans and temporary investments in government securities shall be taken into account.
- c. **FUNDS** as used herein shall mean total assets inclusive of allowance for doubtful accounts and deferred income less investment in real estate, shares of stock in a real estate development corporation and real estate based projects which shall not exceed 25% of networth of the investing company, leasehold rights and improvements, fixed assets inclusive of appraisal surplus, foreclosed properties and prepayments.
- d. **COMMISSION** shall mean the Securities and Exchange Commission.
- e. **CREDIT** shall mean any loan, mortgage, deed of trust, advance or discount, any conditional sales contract, any contract to sell, or sale or contract of sale of property or service, either for present or future delivery, under which, part or all of the price is payable subsequent to the making of such sale or contract, any rental-purchase contract, any option, demand, lien, pledge, or other claim against, or for the delivery of, property or money, any purchase, or other acquisition of or any credit upon the security of any obligation or claim arising out of the foregoing; and any transactions having a similar purpose or effect.
- f. **PURCHASE DISCOUNT** is the difference between the value of the receivables purchased or credit assigned, and the net amount paid by the finance company for such purchase or assignment, exclusive of fees, service charges, interest and other charges incident to the extension of credit.
- g. **RECEIVABLES FINANCING** is a mode of extending credit through the purchase by, or assignment to, a financing company of evidences of indebtedness or open accounts by the discounting or factoring.
- h. **DISCOUNTING** is a type of receivables financing whereby evidences of indebtedness of a third party, such as installments contracts, promissory notes, and similar instruments, are purchased by, or assigned to, a financing company in an amount or for a consideration less than their face value.
- i. **FACTORING** is a type of receivables financing whereby open accounts, not evidenced by a written promise to pay supported by documents such as but not limited to invoices of manufacturers and suppliers, delivery receipts and similar documents, are purchased by, or assigned to, a financing company in an amount or for a consideration less than the outstanding balance of the open accounts.

- j. LEASING shall refer to the financial leasing which is a mode of extending credit through a non-cancellable contract under which the lessor purchases or acquires at the instance of the lessee heavy equipment, motor vehicles, industrial machinery, appliances, business and office machines, and other movable property in consideration of the periodic payment by the lessee of a fixed amount of money sufficient to amortize at least 70% of the purchase price or acquisition cost, including any incidental expenses and a margin of profit, over the lease period. The contract shall extend over an obligatory period during which the lessee has the right to hold and use the leased property and shall bear the cost of repairs, maintenance, insurance and preservation thereof, but with no obligation or option to the part of the lessee to purchase the leased property at the end of the lease contract.
- k. PAID-UP CAPITAL refers to the amount paid for the subscription of stock in a corporation including the amount paid in excess of par value, while CAPITAL CONTRIBUTION refers to the total contributions of the partners in a partnership.
- l. NETWORTH is the excess of assets over liabilities, net of appraisal surplus, and booked valuation reserves, capital adjustments, overstatement of assets and unrecorded liabilities.

Sec. 2. Form of Organization. Financing companies shall be organized in the form of: stock corporations in accordance with the provisions of the Corporation Code of the Philippines (Batas Pambansa Blg. 68) or general partnerships pursuant to the provisions of the New Civil Code of the Philippines and subject to the following:

- a. At least sixty percentum (60%) of the outstanding capital stock of the corporation, and in case of a partnership, at least sixty percentum (60%) of the total capital contributions of the partners, shall be owned by citizens of the Philippines.
- b. A minimum paid-up capital, in case of corporations, and capital contribution in case of partnerships, that shall maintain their principal offices in the areas hereunder specified, shall be made in cash or in property of at least:
 - 1. P10,000,000 – Metro Manila Area
 - 2. 5,000,000 – First Class Cities Outside Metro Manila
 - 3. 2,500,000 – Second Class Cities and First Class Municipalities
 - 4. 1,000,000 – Third Class Cities and Second Class Municipalities
 - 5. 500,000 – Fourth Class Cities, Third Class Municipalities and below

In case the area where the principal office of a financing company is located has been upgraded, the corresponding increase in capitalization requirement shall be undertaken within such period as the Commission shall fix.

Unless otherwise authorized by the Commission, all financing companies with a paid-up capital or capital contribution less than that mentioned above shall be given five (5) years within which to build up their capital requirement according to the following schedule:

	Metro Manila Area	1 st Class Cities Outside Metro Manila	2 nd Class Cities & 1 st Class Municipalities	3 rd Class Cities & 2 nd Class Municipalities
6-30-92	2,000,000	1,000,000	500,000	500,000
6-30-93	4,000,000	2,000,000	1,000,000	625,000
6-30-94	6,000,000	3,000,000	1,500,000	750,000
6-30-95	8,000,000	4,000,000	2,000,000	875,000
6-30-96	10,000,000	5,000,000	2,500,000	1,000,000

Any existing and/or new branch, agency, extension office or unit may operate subject to the provision of Section 5 thereof.

- c. At least two-thirds of all the members of the board of directors in the case of a corporation and all the managing partners in case of a partnership shall be citizens and residents of the Philippines.

Any change in the membership in, or composition of, the board of directors, officers from the rank of VP and up or their equivalent, branch manager, cashier and administrative officer, or in the managing partners, as the case may be, shall be reported to the Commission within seven (7) working days thereafter, and the requirement prescribed under Section 3.a.4 and 7 and Section 5.a.3. and 4 hereof, shall be submitted within thirty (30) working days from date of the aforesaid change.

- d. The corporate/partnership name of financing companies shall contain the term "financing company", "finance company", or "finance and investment company" or other title or word(s) descriptive of its operations and activities as a financing company.

Sec. 3. Requirements for Registration

- a. *Registration papers to be submitted to the Commission* - Any corporation or partnership may be registered as a financing company by filing with the Commission in five (5) copies an application to operate as a financing company under R.A. No. 5980, as amended, signed under oath by its President/Managing Partner, together with the following documents in the prescribed forms:
 - 1. All documents required for registration as a corporation or partnership;
 - 2. By-laws;
 - 3. Information Sheet of registrant company;
 - 4. Personal Information Sheet of each of the directors, officers with the rank of Vice-President and up or their equivalent or managing partners;
 - 5. Answers to the questionnaire of the Commission;
 - 6. Projected balance sheet, income statement and cash flow statement for three (3) years, together with a schedule of discounting, factoring, leasing and other financing activities and all related income therefrom.
 - 7. Documents required of each director, officer to be appointed from the rank of Vice-President and up or their equivalent, or managing partner such as the following:
 - a) Police clearance from local police of the city or municipality of which he is a resident;
 - b) NBI clearance;
 - c) Certificate of good moral character to be executed under oath by at least two (2) reputable and disinterested persons in the community;
 - d) Bank credit information to be issued by his depository or creditor bank(s), if any; and
 - e) Such other documents as may be required by the Commission whenever it deems necessary.
- b. *Publication and Posting of Notice and Order for Registration* - Upon receipt of the above registration papers of a proposed financing company, the Commission shall cause the notice and order to be published by the applicant company at its expense in a newspaper of general circulation in the Philippines once a week for two (2) consecutive weeks, and the notice shall simultaneously be posted in a public and conspicuous place where the principal office of the company will be located and in the Office of the Commission for the same period.

The notice shall state, among others, the name of the proposed financing company, the capital structure in case of a corporation or the total capital contribution in case of a partnership, and the names and residences of its directors or managing partners.

- c. *Opposition to Registration, if any* - Any interested party may oppose the registration of a financing company in writing, personally or through counsel, within fifteen (15) days after the last date of the publication of the notice. If after the hearing, the Commission finds that the requirements of R. A. No. 5980, as amended, its implementing rules and regulations and other pertinent laws have been complied with and that no valid reason exists for the disapproval of the application, the Commission shall take appropriate action on said application.

Sec. 4. Issuance of Certificate of Filing of Articles of Incorporation and By-Laws; Certificate of Authority; Conditions for Commencement of Operations

- a. The Commission, in consultation with the Central Bank, shall register the articles of incorporation and by-laws or articles of partnership of, and issue the Certificate of Authority to Operate to, any proposed financing company if

it is satisfied that the establishment of such company will promote public interest and convenience, and on the basis of the documents and/or evidences submitted, that;

- 1) All the requirements of R. A. No. 5980, as amended, other existing laws, and applicable rules and regulations to engage in the business for which the applicant is proposed to be incorporated, or organized, have been complied with;
 - 2) The organization, direction and administration of the applicant, as well as the integrity and responsibility of the organizers and administrators, presumably assure the protection of the interest of the general public; and
 - 3) Proof of the publication and posting of the notice and order for registration is in accordance with Sec. 3.b. hereof.
- b. A corporation or partnership which has been duly registered, and granted a Certificate of Authority to Operate as a financing company in accordance with the law and these Rules, shall commence operations within ninety (90) days from date of grant of such certificate. Failure to operate within the prescribed ninety (90) days period shall subject the financing company to a fine of not less than One Thousand (P1,000.00) Pesos unless its non- operation is reasonably justified, as determined by the Commission.
- c. The financing company may be granted a grace period of another ninety (90) days from the expiry date of the first ninety (90) days within which to commence operations notwithstanding its failure to operate as aforesated. Failure to operate within the extended period shall empower the Commission, after notice and hearing, to revoke its Certificate of Authority.

Sec. 5. Branches, Agencies, Extension Offices or Units

- a. *Certificate of Authority* - No financing company shall establish or operate a branch, agency, extension office or unit without a prior certificate of authority to be issued by the Commission. The application for authority filed under this section shall be accompanied by the following documents:
- 1) Information Sheet of the proposed branch;
 - 2) Answer to SEC questionnaire;
 - 3) Police clearance of the manager, cashier, and administrative officer of the proposed branch;
 - 4) NBI clearance of the branch manager, cashier and administrative officer of the proposed branch;
 - 5) Copy of the proposed personnel chart; and
 - 6) Such other documents as may be required by the Commission whenever it deems necessary.
- The above application shall be published in accordance with the provisions of Sec. 3.b. of these Rules. However, the Notice and Order shall be posted in a public and conspicuous place where the aforesaid branch, agency, extension office or unit shall be established.
- b. *Evaluation Guideposts* - The number of branches, agencies, extension offices or units to be established shall depend upon the capacity of the company to conduct expanded operations and/or upon the capacity of the area wherein the proposed branch, extension office, agency or unit will be established, to absorb new entities engaged in financing, as may be determined by the Commission.
- c. *Additional Capital Requirement* - A financing company may be required to put up additional capital for branches, agencies, extension offices or units in an amount to be determined by the Commission.
- d. *Prescribed Period to Operate* - Such branch, agency, extension office or unit shall operate within ninety (90) days from the issuance of the certificate of authority and failure to operate within such period shall subject said branch, agency, extension office or unit to a fine of not less than One Thousand (P1,000) Pesos or revocation of the certificate of authority, after due hearing at the discretion of the Commission, unless its non-operation is reasonably justified as determined by the Commission.

- e. *Term of Authority to Operate* - The certificate of authority to operate a branch, agency, extension office or unit shall be co- terminus with that of the head office.

Sec. 6. Applicability of Central Bank Regulations - Financing companies duly licensed to operate as such, their branches, agencies, extension offices or units shall also be subject to applicable Central Bank regulations.

Sec. 7. Licensing Fees - A fee of 1/10 of 1% of the minimum paid-up capital or capital contribution required under Section 2.b. shall be charged for the issuance of the Certificate of Authority to Operate as a financing company.

A fee of one-tenth of one percent (1/10 of 1%) of the additional required capital under Sec. 5.c., but in no case less than P250.00 shall be charged likewise for the issuance of original Certificate of Authority of each branch, agency, extension office or unit of such financing company.

Sec. 8. Loans and Investments

- a. Financing companies may engage in direct lending if authorized by the secondary purposes in its articles of incorporation and in accordance with Section 42 of the Corporation Code of the Philippines (B.P. 68).
- b. Unless otherwise authorized by the Commission, the total investment in real estate and in shares of stock in a real estate development corporation and other real estate based projects shall not at any time exceed twenty-five (25%) per cent of the net worth of the investing financing company.

Sec. 9. Conveyance of Evidences of Indebtedness and Financed Receivables

- a. The negotiation, sale or assignment by financing companies of evidences of indebtedness shall be in accordance with the rules of the Commission on registration of commercial papers.
- b. Accounts which have been factored or discounted by, the lease receivables of, and other evidences of indebtedness (not covered in Item a. above) issued or negotiated to, a financing company shall not be sold, assigned or transferred in any manner except to banks including their trust accounts, trust companies, QBs, investment houses including their trust accounts, financing companies, investment companies, NSSLAs, insurance companies, government FIs, pension and retirement funds approved by the Bureau of Internal Revenue, educational assistance funds established by the National Government; *Provided*, That the negotiation of evidence of indebtedness to pension funds or educational assistance funds shall be on a recourse basis.

Sec. 10. Other Activities

- a. Financing companies not duly authorized to perform quasi-banking functions shall not act as dealers in commercial papers but may act as dealers in other securities provided they are duly licensed by the Commission as such.
- b. Financing companies shall not act as dealers of certificates of time deposit.
- c. Except in cases of issuances to primary institutional lenders, financing companies without quasi-banking license shall not issue instruments other than promissory notes, to cover placements with, or borrowing by, them.

Sec. 11. Purchase Discount/Fees/Service and Other Charges - The purchase discounts, fees, service and other charges of financing companies on assignments of credit, purchases of installment papers, accounts receivable or other evidences of indebtedness, factoring of accounts receivable or other evidences of indebtedness, or leasing transactions shall be in accordance with the rules prescribed by the Monetary Board, in consultation with the Commission, pursuant to the provisions of Section 5 of R.A. No. 5980, as amended by P.D. No. 1454.

Sec. 12. Networth for Operating Financing Companies - The company's networth shall be maintained at an amount not less than that required under Sections 2.b. and 5.c. hereof.

Sec 13. Prohibitions

- a. No corporation shall be allowed to include financing activities as herein defined as one of its secondary purposes.
- b. No person, association, partnership or corporation shall do or hold itself out as doing business as a financing company or finance and investment company or under any other title or name tending to give the public the impression that it is a financing company unless so authorized under R. A. No. 5980, as amended.

Sec. 14. Periodic Reports - Every financing company shall file with the Commission the following quarterly reports: a) Statement of Condition and Statement of Income and Expenses, together with the schedule of aging of receivables (indicating the maturity pattern of the aforesaid receivables under due within 1 year, due over 1 year to be applicable to long term receivables only, past due accounts to subdivided further to past due accounts within 1 year, over 1 year and litigation items), payable (indicating likewise the same maturing pattern of within 1 year and over 1 year) and off-balance sheet items; *Provided*, however, That respective collateral/s (if any) for past due accounts over 1 year and litigation items shall be adequately disclosed in the aforementioned Schedules and b) list of officers, directors, and stockholders. These reports shall be signed under oath by the company's principal executive officer and principal financial officer and shall be submitted within thirty (30) calendar days after the end of each quarter. They shall, likewise, file four (4) copies of their audited financial statements within 120 days after the end of their fiscal years and such other reports as may be required by the Commission.

Sec. 15. Administrative Sanctions - If the Commission finds that there is a violation of these Rules and Regulations and their implementing circulars or any of the terms and conditions of the Certificate of Authority to operate as a financing company, or any Commission order, decision or ruling, or refuses to have its books of accounts audited, or continuously fail to comply with SEC requirements, the Commission shall, in its discretion, impose any or all of the following sanctions:

- a. Suspension or revocation of the certificate of authority to operate as a financing company after proper notice and hearing;
- b. A fine in accordance with the guidelines that the Commission shall issue from time to time;
- c. Other sanctions within the power of the Commission and the Central Bank under existing laws.

The imposition of the foregoing administrative sanctions shall not preclude the institution of appropriate action against the officers and directors of the financing company or any person who might have participated therein, directly or indirectly, in violation of R. A. No. 5980, as amended, and these Rules and Regulations.

Sec. 16. Cease and Desist Order - The Commission may, on its own motion or upon verified complaint of any aggrieved party, issue a Cease and Desist Order ex-parte, if the violation(s) mentioned in the preceding sections may cause grave or irreparable injury to the public or may amount to culpable fraud or violation of these Rules and Regulations, implementing circulars, certificates of authority issued by the Commission, or of any order, decision or ruling thereof.

The issuance of such Cease and Desist Order automatically suspends the authority to operate as a financing company.

Immediately upon the issuance of an ex-parte Cease and Desist Order, the Commission shall notify the parties involved and schedule a hearing on whether to lift such order or to impose administrative sanctions provided for in Section 16 not later than fifteen (15) days after service of notice.

Sec. 17. Transitory Provision - Any corporation/partnership at the time of the effectivity of these Rules has been registered and licensed by the Commission to operate as a financing company, shall be considered as registered and licensed under the provisions of these Rules, subject to the terms and conditions of the license, and shall be governed by the provisions hereof; *Provided*, however, That financing companies with existing certificate of authority shall surrender the same to the Commission upon payment of the annual fee pursuant to Section 7 hereof to be replaced by new certificate of authority and, *Provided*, That where such corporation/ partnership is affected by the new provisions hereof, said corporation/ partnership shall, unless otherwise herein provided, be given a period of not more than one (1) year from the effectivity of these Rules within which to comply with the same.

Sec. 18. Effectivity - These Rules and Regulations shall take effect fifteen (15) days after publication in two (2) newspapers of general circulation in the Philippines.

Mandaluyong, Metro Manila, Philippines 16 October 1991.

(SGD.) ROSARIO N. LOPEZ
Chairman
Securities and Exchange Commission

Guidelines on the Adoption of Philippine Financial Reporting Standards (PFRS 9) – Classification and Measurement
(Appendix to Sec. 171-Q)

Section 1. Classification and Measurement of Financial Assets and Financial Liabilities

BSFIs shall classify and measure financial assets and financial liabilities, including those which are designated as hedged items, in accordance with the provisions of PFRS 9. In this respect, BSFIs shall observe the following:

- A. **Classification of Financial Assets** - Financial assets shall be classified based on their contractual cash flow characteristics and the business model for holding the instruments.

- (1) *Financial assets that are debt instruments.* Financial assets that are debt instruments shall be classified under any of the following categories:

- a. **Financial assets measured at fair value through profit or loss (FVPL).** A financial asset shall be measured at fair value through profit or loss, except in the following cases:

- The financial asset is part of a hedging relationship, in which case, the provisions of PFRS 9 on hedge accounting shall apply;
- The financial asset is measured at fair value through other comprehensive income (FVOCI); or
- The financial asset that is a debt instrument is measured at amortized cost.

Financial assets measured at fair value through profit or loss shall consist of the following:

- i. Financial assets held for trading (HFT), which include stand-alone and/or embedded derivatives, except a derivative that is a financial guarantee contract or designated and effective hedging instruments, as defined in PFRS 9;
- ii. Financial assets designated at fair value through profit or loss (DFVPL) as defined in PFRS 9.

BSFIs may, at initial recognition, irrevocably designate financial assets that are debt instruments as measured at fair value through profit or loss in accordance with the condition mentioned under PFRS 9, subject to the following requirements:

- BSFIs shall have in place appropriate risk management systems including related risk management policies, procedures, and controls; and
 - BSFIs shall apply the fair value option only to instruments for which fair values can be reliably estimated.
- iii. Other financial assets which are mandatorily measured at fair value through profit or loss (MMFVPL) refers to financial assets that are required to be measured at fair value through profit or loss under PFRS 9, other than those that are HFT and DFVPL.

- b. **Financial Assets at Fair Value through Other Comprehensive Income (FVOCI).** A financial asset measured at FVOCI shall meet both of the following conditions:

- The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

- c. **Financial assets measured at amortized cost.** A financial asset that is a debt instrument, other than those that are designated at fair value through profit or loss, which meet both of the following conditions:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- (2) *Financial assets that are equity instruments.* Financial assets that are equity instruments shall be classified under any of the following categories:
- a. Financial assets measured at fair value through profit or loss which shall include financial assets HFT;
 - b. Financial Assets at Fair Value through Other Comprehensive Income (FVOCI) which shall consist of:
 - i. Financial asset designated at fair value through other comprehensive income (DFVOCI). BSFIs may, at initial recognition, irrevocably designate financial assets that are equity instruments that are neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which PFRS 3 applies, as measured at fair value through other comprehensive income.
 - ii. Financial assets mandatorily measured at fair value. This includes investment in an equity instrument, previously accounted at cost per PAS 39, which does not have a quoted price in an active market for an identical instrument.
- B. **Classification of Financial Liabilities** - Financial liabilities shall be classified and subsequently measured at amortized cost using the effective interest method, except for:
- (1) Financial liabilities measured at fair value through profit or loss. This shall consist of the following:
 - a. Financial liabilities HFT, including derivative liabilities that are not accounted for as hedging instruments; and
 - b. Financial liabilities DFVPL. A BSFI may, at initial recognition, irrevocably designate financial liabilities as measured at fair value through profit or loss subject to the conditions mentioned under PFRS 9 and the regulatory requirements for financial assets DFVPL under Item "A (1) a ii" above.
 - (2) Financial liabilities which shall be subsequently measured in accordance with the provisions of PFRS 9, as follows:
 - a. Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies;
 - b. Financial guarantee contracts, as defined under PFRS 9;
 - c. Commitments to provide a loan at a below-market interest rate; and
 - d. Contingent consideration recognized by an acquirer in a business combination.
- C. **Classification of hybrid contracts and derivatives** - Investments in hybrid securities, securities overlying securitization structures, other structured products and credit-linked notes (CLNs) and similar structured products with embedded credit derivatives, as defined under Sec. 624-A shall be classified and measured in accordance with PFRS 9 based on the following guidelines:
- (1) An entire hybrid contract, which contains a host that is an asset within the scope of PFRS 9, shall be classified in accordance with the requirements on the classification of financial assets.
 - (2) A hybrid contract, which contains a host that is not an asset within the scope of PFRS 9 shall require the separation of an embedded derivative from the host and the same shall be accounted for as a derivative based on the requirements and conditions provided under the standard. If an embedded derivative is separated, the host contract and the derivative, individually, shall be accounted for in accordance with appropriate standards.
 - (3) If a contract contains one or more embedded derivatives and the host is not an asset within the scope of this Standard, a BSFI may designate the entire hybrid contract as at fair value through profit or loss unless:
 - the embedded derivative(s) do(es) not significantly modify the cash flows that otherwise would be required by the contract; or
 - it is clear with little or no analysis when a similar hybrid instrument is first considered that the separation of the embedded derivative(s) is prohibited, such as a prepayment option embedded in a loan that permits the holder to prepay the loan for approximately its amortized cost.
 - (4) If a BSFI is unable to measure the embedded derivative separately either at acquisition or at the end of a subsequent financial reporting period, it shall designate the entire hybrid contract as at fair value through profit or loss.

Section 2. Business Model in Managing Financial Assets

Business model pertains to the manner by which a portfolio of financial assets will be managed to generate cash flows such as by collecting contractual cash flows or by both collecting contractual cash flows and selling the financial assets, among others. BSFIs shall determine the business model for a portfolio of financial assets based on scenarios that are reasonably expected to occur, taking into consideration the expected changes to asset allocations or to balance sheet structure as a result of business strategies. In this respect, these scenarios do not include “worst case” or “stress case” scenarios.

- a) The criteria that will be used in determining the business model for managing financial assets shall be applied to a portfolio of financial assets and not on an instrument-by-instrument basis.
- b) Business models for managing financial assets shall be observed through specific activities being undertaken by the BSFI to achieve their stated objectives. A BSFI shall exercise sound judgment and shall use all relevant evidences available at the date of assessment in determining the business model for managing portfolios of financial assets. Such relevant evidences include but are not limited to:
 - Risks affecting the performance of financial assets and the business model and how these risks will be managed;
 - Frequency, volume, timing and nature of sales in prior periods, the reasons for such sales, and expectations about future sales activity;
 - The manner by which business model and the financial assets held within it are evaluated (e.g., based on trading income) and reported to the BSFI’s board of directors or any equivalent position in the case of branches of foreign banks and senior management; and
 - The basis for compensation of concerned personnel and/officers (e.g., whether the compensation is based on the fair value of the assets managed or the contractual cash flows collected).
- c) Business models for managing financial assets shall be approved by the board of directors and shall be adequately documented. The documentation for each business model shall include, among others, detailed description of specific business objectives (whether to hold in order to collect contractual cashflows, to sell or both); cases of sales and/or derecognition of financial assets and conditions for changes in business model that are considered consistent with the provisions of PFRS 9; and appropriate level of authority designated to approve determination of business model of specific portfolios of financial assets as well as the sales, derecognition, and changes in business model of financial assets.
- d) Changes in business model are expected to be rare and shall be determined as a result of external or internal changes which are significant to the BSFI’s operations and evident to external parties. Change in intention related to the management of particular financial assets does not constitute a change in business model. The change in business model shall be approved by the appropriate level of authority based on sound justifications and in accordance with accounting standards. The qualitative and quantitative impact of the change in business model shall be adequately documented and appropriately disclosed in the audited financial statements in line with the disclosure of risk management policies on the relevant risk exposure.
- e) All affected financial assets shall be reclassified when, and only when, a BSFI changes its business model for managing financial assets in accordance with the provisions of Item (“d). *Financial liabilities*” are not allowed to be reclassified.

If cash flows are realized in a way that is different from the expectations at the date at which the BSFI assessed the business model, it does not constitute a change in the classification of the remaining financial assets as long as the BSFI considered all relevant and objective information available when it initially made the business model assessment.

In cases where a BSFI changes a business model, the financial assets within the said model shall not be reclassified within the reporting period that the change in business model was made. The reclassification in this case shall only take effect in the next financial reporting month. In this respect, any previously recognized gains, losses or interest shall not be restated.

Section 3. Contractual Cash Flow Characteristics

- a) In order for a financial asset to be classified and measured at amortized cost or FVOCI, the contractual terms of the financial asset must give rise on specific dates to cash flows that are SPPI on the principal amount outstanding. A financial asset that does not meet the SPPI criterion shall be measured at FVPL, unless it is an equity instrument which shall be classified and measured at FVOCI.
- b) The cashflows that are considered SPPI are consistent with basic lending arrangement where the principal is the fair value of the financial asset at initial recognition and the interest represents consideration for the time value of money, credit risk, profit margin and other basic lending risks and costs associated with holding the financial asset for a particular period of time.
- c) A BSFI shall determine if the contractual cashflows are SPPI in accordance with the provisions of PFRS 9. In this respect, a BSFI shall assess the contractual terms of a financial instrument before investing in the same and determine if such instrument introduces exposure to risks or volatility that is unrelated to a basic lending arrangement.
- d) Policies and procedures shall include guidelines in performing the SPPI assessment, and shall identify the units responsible for conducting and reviewing the propriety of the assessment as well as the documentation supporting the classification of financial assets.

Section 4. Supervisory Expectations on Classification and Measurement of Financial Assets and Financial Liabilities

- a) The business model for managing financial assets shall be assessed in line with the BSFI's internal risk management policies such as credit, market and liquidity risk management. For instance, the financial assets classified and measured at FVPL are commonly associated with the management of market risks since the business model objective is to actively trade the securities. On the other hand, financial assets which were classified and measured at amortized cost mostly relate to the management of credit risk and/or interest rate risk in the banking book since there is no intent to sell the financial asset prior to maturity.
- b) The business model for managing financial assets shall be assessed based on the objective information on the activities undertaken for the portfolios of financial assets. This shall include the comparison of frequency of sales activities across portfolios of financial assets. Portfolios of financial assets that are held for trading are expected to exhibit more frequent and higher turnover as compared with financial assets managed under a hold to collect cash flow and sell business model.
- c) The manner by which the performance of financial assets is measured given a specific business model shall be assessed. Key performance indicators should be consistent with the specific business models for portfolios of financial assets. For instance, the performance of financial assets accounted at fair value through profit or loss may be gauged through actual trading/capital gains since the objective is to optimize earnings from interest rate volatilities/price movements. Performance of financial assets classified at amortized cost may be measured through (net) interest income since the objective is to generate accrual income from long-term investments. The results of the impairment testing and credit review of accounts may likewise be considered.
- d) Bases for incentives or compensation granted to personnel involved in managing specific portfolios of financial assets shall be evaluated in line with the expected activities under a specific business model.
- e) The roles and responsibilities of units involved in the management, monitoring, and reporting of performance of financial assets for specific business models shall be clearly defined. Pursuant to Section 146 (*Duties and Responsibilities*) the Bangko Sentral shall assess the effective implementation of the three lines of defense, which shall include the evaluation of the propriety of segregation of functions.

For instance, part of the first line of defense is the trading desk which is expected to manage financial assets that are measured at FVPL as these assets are usually acquired for short term profit taking. On the other hand, the asset/liability management desk is expected to manage financial assets classified as FVOCI since the financial assets booked under said classification are being used to manage the BSFI's liquidity position or to maintain a particular interest yield profile or duration.

The delineation of the roles and responsibilities of the second and third lines of defense shall be evaluated as well as the effectiveness of the scope and frequency of their review. These lines of defense are expected to evaluate consistency of internal policies and practices with the provisions of PFRS 9 and adherence of the BSFI with established policies.

- f) The review of the second and third lines of defense shall cover, among others, the assessment of the following:
 - i. Comprehensiveness of reports submitted to the board or senior management. These should include the risks that may affect the performance of the business model; consistency of the performance of the financial assets held within the business model against strategic and financial objectives; and results of internal and external validation on management and monitoring of business model.
 - ii. Propriety of sales or derecognition of financial assets based on the business model for managing the same. For instance, the BSFI decides to sell a portion of a portfolio of financial assets held and measured at amortized cost, a review should be conducted to ascertain whether the business models has not changed as a result of such sale. In case of change in business model, the self-assessment functions shall look into the circumstances that triggered the decisions to change, consistency of said decision with internal policies and principles of the standard, propriety of the governance process, and adequacy of documentation.

Section 5. Financial Instruments Under Management of Trust Entities

Consistent with the expectations from BSFIs on the adoption of PFRS 9, as provided under Item “d” of Sec. 171-Q (*Philippine Financial Reporting Standards/Philippine Accounting Standards*), the board of directors of a trust entity (TE) shall ensure that the TE appropriately and consistently adopts PFRS 9 as part of its reporting governance process.

In this respect, the board of directors shall approve policies and guidelines relative to the classification and measurement of financial assets under management of the TE.

The TE shall adhere to the provisions of Sections 1 to 4 of these guidelines on the classification and measurement of financial assets, to the extent applicable to trust operations. In addition, considering that the management of financial assets under the administration of the TE shall vary for each client, the TE shall be governed by the following:

- a) The board of directors shall approve the business models that will be adopted by the TE for managing the financial assets of clients under its administration. Such business models shall be in accordance with pre-defined investment objectives. For this purpose, the TE may use as guide the industry convention on the mapping of investment objectives to the corresponding business models.
- b) The TE shall use only the board-approved business models in determining the business model/s for each client’s financial assets. The assignment of the applicable business model/s, which shall be consistent with the client’s investment objectives, liquidity requirement, and investment horizon, shall no longer require a separate approval. The classification of financial assets for each client shall be aligned with the business model/s determined by the TE.
- c) For existing accounts, the TE shall assess the impact of the new classification of financial assets on the performance indicator/s set for the client.
 - i. If the new classification will have a significant unfavorable impact on the performance indicator/s set for the client, a consent or conforme shall be obtained from the client or the authorized signatory/ies of the client, as applicable. The consent or conforme shall document in plain and clearly understandable language: (a) the business model/s determined by the TE in the management of the client’s financial assets; (b) a brief description of the new classification; and (c) the corresponding impact on the performance indicator/s set for the client.

A negative consent or conforme may be allowed, subject to the following conditions:

- (a) the TE has an adequate monitoring process to ensure actual receipt of the notification by the client;
- (b) the client shall be given a reasonable time to respond to the negative consent or conforme or to raise concern/query, if any; and
- (c) the client is allowed to amend the business model determined by the TE in the management of the client’s portfolio within a reasonable period.
- ii. If the new classification will not have a significant unfavorable impact on the performance indicator/s set for the client, the TE shall provide appropriate disclosure in the financial reports provided or made available to the client. The disclosure shall document in plain and clearly understandable language: (a) the business model/s determined by the TE in the management of the client’s financial assets; and (b) a statement allowing the client to discuss with the TE any concern/query on the change in the classification of the financial assets of the client.

- d) For new accounts opened after the effectivity of these guidelines, the business model/s determined by the TE in the management of the client's financial assets shall be documented in plain and clearly understandable language in the investment policy statement or letter of instruction, whichever is applicable.
- e) Reclassification of assets may be allowed if there is a change in the business model/s determined in the management of the client's financial assets.

Any change in the business model/s determined by the TE in the management of the client's financial assets shall be supported by a change in the client's investment objective. In order to strengthen controls and prevent potential abuse, the TE shall have adequate policies and procedures, duly approved by the board of directors, covering, among others, the review process, minimum required documentation, and monitoring mechanism for the change in the business model/s determined by the TE in the management of each client's financial asset/s.

Section 6. Reporting guidelines.

Prudential reports shall be prepared using the existing templates of the Financial Reporting Package (FRP)/FRP for Trust Institutions (FRPTI). The mapping of PFRS 9 based accounts to the existing FRP/Consolidated Statement of Condition (CSOC) and Consolidated Statement of Income and Expenses (CSIE) and FRPTI template is provided in Annex A of *this guidelines*.

(Circular No. 1023 dated 04 December 2018 and 1011 dated 14 August 2018)

Mapping of Philippine Financial Reporting Standards 9 (PFRS 9) Accounts in the Consolidated Statement of Condition (CSOC), Consolidated Statement of Income and Expenses (CSIE), Financial Reporting Package (FRP) and FRP for Trust Institutions (FRPTI)

Quasi-banks (QBs), non-bank financial institutions (NBFIs), stand-alone Trust Corporations and trust departments of NBFIs shall report financial assets and financial liabilities using the existing account titles of the CSOC/CSIE/FRP/FRPTI based on the mapping of accounts provided below:

1. Quasi-banks (QBs) and non-bank financial Institutions (NBFIs)

MARKING TO MARKET GUIDELINES FOR INVESTMENTS IN DEBT AND EQUITY SECURITIES
[Appendix to Sec. 361-Q (Marking to market of financial instrument)]

Bases/References

Bangko Sentral Supervised Financial Institutions (BSFIs) shall have adequate governance structures and control processes to ensure that valuations are prudent and reliable for risk management and financial reporting purposes. These processes shall be consistently applied across the institution and integrated within the overall governance framework and risk management systems.

In this respect, BSFIs shall mark-to-market (MTM) debt and equity securities in accordance with the provisions of Philippine Financial Reporting Standards 13 (PFRS 13) on Fair Value Measurement and shall observe the following bases/references:

Type of Security		Market Price Basis
A. Equity Securities Listed in the Stock Exchange		
1. Traded in the Philippines		Same day closing price as quoted at the Philippine Stock Exchange. In case of halt trading/suspension or holidays, use the last available closing price.
2. Traded Abroad		Latest available closing price from the exchange where the securities are traded.
B. Foreign Currency-Denominated Debt Securities Quoted in Major Information Systems (e.g., Bloomberg, Reuters)		Latest available price for the day, Manila time.
C. Foreign Currency Denominated Debt Securities Traded in a Local Registered Exchange or Market		The latest available closing price provided by the exchange where the said security is traded and/or enrolled.
D. Peso-Denominated Government Securities		The market prices provided by either a third party pricing service or calculating agent: <i>Provided</i> , That the pricing service or the calculation agent and its valuation methodology are recognized by the Securities and Exchange Commission (SEC) – licensed benchmark administrator.
E. Peso-Denominated Private Debt Securities		The basis for MTM peso-denominated debt securities traded in an organized market shall be the same as those used in Section C above.

Other Valuation Guidelines

In the absence of market price described above, the fair value which is the price that would be received in selling the financial instrument in an orderly transaction in the principal (or most advantageous) market under current market condition, shall be used as basis for the MTM. BSFIs shall ensure that such an observed price or the price estimated using another valuation technique, including inputs to valuation technique, are consistent with the provisions of PFRS 13.

(Circular No. 1021 dated 15 November 2018)

**GUIDELINES ON THE OPENING OF A SECURITIES ACCOUNT WITH THE
BUREAU OF THE TREASURY REGISTRY
(Appendix to Secs. 416-Q and 424-Q)**

A. Definition of Terms and Acronyms

Scripless securities - refers to uncertificated securities issued by the Bureau of Treasury (BTr) that are under the BTr's Registry

Trust Entity (TE) – defined under Sec. 403

BTr - Bureau of Treasury

BTr Registry – Registry of scripless securities maintained by the BTr or any registry system of scripless securities recognized as such by the BTr.

DDA – refers to the regular demand deposit account of a bank/quasi-bank with Bangko Sentral

B. Basic Requirements on the Opening of a Securities Account with the BTr Registry

1. The sector of the Bangko Sentral which is responsible for supervising banks/quasi-banks/trust entities shall file with the BTr an application to open a Registry Account where scripless securities of trust entities used as security deposit for trust duties shall be held.
2. The trust entity shall request for the opening of a Client Securities Account with the BTr. The relevant fees for the maintenance of the Client Securities Accounts with the BTr shall be subject to the terms and conditions of the BTr.
3. A trust entity with a DDA shall act as its own settlement bank.

A trust entity without a DDA shall designate a settlement bank which will act as consult for transferring securities for trust duties to the Bangko Sentral Registry account and for paying interest, interest coupons and redemption proceeds. The trust entity shall inform the appropriate supervising department of the Bangko Sentral of the designation of a settlement bank.

4. Each trust entity shall accomplish an *Autodebit/Autocredit Authorization* for its client securities account under the supervising sector's Registry account. The document shall authorize the BTr and the Bangko Sentral to credit the DDA of the trust entity or the designated settlement bank for coupons/interest payments and maturity proceeds of securities and to debit the same DDA for the monthly fees payable to the BTr for the maintenance of the trust entity's client securities accounts with the Bangko Sentral. It will also authorize the BTR and Bangko Sentral to credit the deposit account of the trust entity or the designated settlement bank for the redemption proceeds of securities that mature while in the Bangko Sentral – FSS Registry account.

A trust entity with a DDA with Bangko Sentral shall use *Annex A.1* while a trust entity with a settlement arrangement shall use *Annex A.2*.

(Circular No. 1032 dated 15 February 2019)

To be used by a Trust Entity with own demand deposit account with Bangko Sentral

Letterhead of Trust Entity

AUTODEBIT/AUTOCREDIT AUTHORIZATION

The (name of Trust Entity) hereby authorizes the Bureau of the Treasury (BTr) and the Bangko Sentral to credit our demand deposit account (DDA) with Bangko Sentral for coupons/interest payment including the redemption proceeds of our securities deposited with the Bangko Sentral under the BTr Registry and to debit our DDA to settle the payment of monthly maintenance fees of the BTr for maintaining our client securities account with the Bangko Sentral.

This authorization will take effect on (indicate date).

(Authorized Signatories)

To be used by a trust entity with settlement arrangement with a bank

Letterhead of Trust Entity

AUTODEBIT/AUTOCREDIT AUTHORIZATION

The (Name of settlement bank) for the account of (Name of trust entity) hereby authorizes the Bureau of the Treasury (BTr) and the Bangko Sentral to credit our demand deposit account (DDA) with Bangko Sentral for coupons/interest payment including the redemption proceeds of securities of (Name of Trust Entity) deposited with the appropriate supervising department of the Bangko Sentral under the BTr Registry and to debit our DDA to settle the payment of monthly maintenance fees of the BTr for maintaining the client securities account of (Name of Trust Entity) with the appropriate supervising department of the Bangko Sentral.

**GUIDELINES ON THE OPENING OF A SECURITIES ACCOUNT WITH THE BUREAU OF THE
TREASURY REGISTRY FOR PERA ADMINISTRATOR**
[Appendix to Sec. 1121-Q (Security for the faithful performance of Administrators)]

A. Definition of Terms and Acronyms

BTr – Bureau of the Treasury

DDA - refers to the regular demand deposit account of a QBs with Bangko Sentral

Financial Institution (FI) - refers to a bank, non-bank financial institution, or trust entity supervised by the Bangko Sentral that is accredited as a PERA Administrator

BTr Registry – Registry of scripless securities maintained by the BTr or any registry system of scripless securities recognized as such by the BTr.

Scripless Securities - refers to uncertificated securities issued by the BTr

B. Basic Requirements on the Opening of a Securities Account with the BTr Registry

1. The sector of the Bangko Sentral which is responsible for supervising quasi-banks/trust entities shall file with the BTr an application to open a BSP-PERA registry account where the securities for the faithful performance of PERA Administrator shall be held.
2. The FI shall request for the opening of a Client Securities Account with the BTr. The relevant fees for the maintenance of the Client Securities Account with the BTr shall be subject to the terms and conditions of the BTr.
3. An FI without a DDA shall designate a settlement bank and shall inform the appropriate supervising department of its designated settlement bank.
4. Each FI shall accomplish an autodebit/autocredit authorization for its PERA Administrator securities account under the BSP-PERA Registry account. The document shall authorize the BTr and the Bangko Sentral to credit the DDA of the FI or the designated settlement bank for coupons/interest payments and maturity proceeds of securities and to debit the same DDA for the monthly fees payable to the BTr for maintenance of the PERA Administrator securities account.

An FI with a DDA with Bangko Sentral shall use Annex 1 while an FI with a designated settlement bank shall use Annex 2.

(Circular Nos. 1032 dated 15 February 2019 and 879 dated 22 May 2015)

To be used by an FI with own demand deposit account with Bangko Sentral

Letterhead of PERA Administrator

AUTODEBIT/AUTOCREDIT AUTHORIZATION

The (Name of PERA Administrator) hereby authorizes the Bureau of the Treasury (BTr) and the Bangko Sentral to credit our demand deposit account (DDA) with the Bangko Sentral for coupons/interest payment including the redemption proceeds of our securities deposited with the Bangko Sentral-PERA under the BTr Registry and to debit our DDA to settle the payment of monthly maintenance fees of the BTr for maintaining our client securities with Bangko Sentral-PERA.

This authorization will take effect on _____ (indicate date) _____.

(Authorized Signatories)

To be used by an FI with settlement arrangement with a bank

Letterhead of Trust Entity

AUTO DEBIT/AUTOCREDIT AUTHORIZATION

The (Name of Settlement Bank) for the account of (Name of PERA Administrator) hereby authorizes the Bureau of the Treasury (BTr) and the Bangko Sentral to credit our demand deposit account (DDA) with Bangko Sentral for coupons/interest payment and redemption proceeds of securities of (Name of Financial Institution/trust entity) deposited with Bangko Sentral under the BTr Registry and to debit our DDA to settle the payment of monthly maintenance fees of the BTr of maintaining the client securities of (Name of financial institution/trust entity) with Bangko Sentral-PERA.

This authorization will take effect on _____ (indicate date) _____.

(Authorized Signatories of Settlement
Bank)

(Authorized Signatories of
PERA Administrator)

**PROCEDURES ON COLLECTION OF FINES/PENALTIES FROM QUASI-BANKS AND/OR
DIRECTORS/OFFICERS OF QUASI-BANKS
(Appendix to Sec. 1102-Q)**

For uniform implementation of the regulations on collection of fines/penalties from QBs and/or directors/officers of QBs, the following procedures shall be observed:

1. Upon approval of the fines/penalties by the Governor/Monetary Board, the Department/Office concerned shall send the Statement of Account (SOA)/billing letter to the QB with an advice that the penalty should be paid in full within fifteen (15) calendar days from receipt of SOA/billing letter. For entities which maintain demand deposit account (DDA) with Bangko Sentral, the amount of the penalty/ies shall be automatically debited from the QB's DDA with the Bangko Sentral after the lapse of the fifteen (15)-calendar day period. The QB shall likewise be advised that penalty or portion thereof which remained unpaid after the lapse of said fifteen (15)-day period shall be subject to additional charge of six percent (6%) per annum reckoned from the business day immediately following the end of the fifteen (15)-day period up to the day of actual payment.
2. On the business day immediately following the end of said fifteen (15)-day period, unpaid penalties shall be automatically debited, without additional charge, against the QB's DDA with the Bangko Sentral by the Comptrollership Sub-sector (CoSS) based on the amount booked by the Department/Office concerned after first confirming with the CoSS the sufficiency of the QB's DDA balance to cover the amount of the penalty.
3. If, based on its confirmation with the CoSS, the Department/Office concerned received information that the QB's DDA balance is insufficient to cover the amount of the penalty, it shall accordingly advise and request the bank to immediately fund its DDA.
4. As soon as it is funded, the QB's DDA shall be debited by the CoSS for the amount of the penalty, plus the six percent (6%) additional charge for late payment of the penalty reckoned from the business day immediately following the end of the fifteen (15)-day period up to the day of actual payment, based on the amount booked by the Department/Office concerned.
5. Payment by QBs of penalty, plus the additional charge if any by check or demand draft shall be made directly to the Bangko Sentral Cash Department or to Bangko Sentral Regional Cash Units in accordance with the provisions of Sec. 1102-Q.
6. In the case of penalty/ies imposed on QB directors/officers, said directors/officers shall be advised by the Department/Office concerned to pay within fifteen (15) calendar days from receipt of the SOA/billing letter directly to the Bangko Sentral in the form of cash or check and in accordance with the provisions of Sec. 1102-Q. Penalty or portion thereof which remained unpaid after the lapse of said fifteen (15)-day period shall also be subject to additional charge of six percent (6%) per annum reckoned from the banking day immediately following the end of the fifteen (15)-day period up to the day of actual payment.

ACTIVITIES WHICH MAY BE CONSIDERED UNSAFE AND UNSOUND BANKING
[Appendix to Secs.181-Q, 419-Q and 341-Q (Large exposures and credit risk concentrations)]

The following activities are considered only as guidelines and are not irrebutably presumed to be unsafe or unsound. Conversely, not all practices which might under the circumstances be termed unsafe or unsound are mentioned here. The Monetary Board may now and then consider other acts/omissions as unsafe or unsound transactions.

- a. Operating with management whose policies and practices are detrimental to the QB/trust entity and jeopardize the safety of its deposit substitutes/trust accounts.
- b. Operating with total adjusted capital and reserves that are inadequate in relation to the kind and quality of the assets of the QB/trust entity.
- c. Operating in a way that produces a deficit in net operating income without adequate measures to ensure a surplus in net operating income in the future.
- d. Operating with a serious lack of liquidity, especially in view of the asset and deposit substitute/liability structure of the QB/trust entity.
- e. Engaging in speculative and hazardous investment policies.
- f. Paying excessive cash dividends in relation to the capital position, earnings capacity and asset quality of the QB/trust entity.
- g. Excessive reliance on large, high- cost or volatile borrowings to fund aggressive growth that may be unsustainable.

For this purpose, a QB is considered offering high-cost borrowings if the effective interest rate paid on said borrowings and/ or non-cash incentives is fifty percent (50%) over the prevailing comparable market median rate for similar QB categories, maturities and currency denomination.

- h. Excessive reliance on letters of credit either issued by the QB/trust entity or accepted as collateral to loans advanced.
- i. Excessive amounts of loan participations sold.
- j. Paying interest on participations without advising participating institution that the source of interest was not from the borrower.
- k. Selling participations without disclosing to the purchasers of those participations material, non-public information known to the QB/trust entity.
- l. Failure to limit, control and document contingent liabilities.
- m. Engaging in hazardous lending and lax collection policies and practices, as evidenced by any of the following circumstances:
 - (1) An excessive volume of loans subject to adverse classification;
 - (2) An excessive volume of loans without adequate documentation, include credit information;
 - (3) Excessive net loan losses;
 - (4) An excessive volume of loans in relation to the total assets and deposit substitutes/trust liabilities of the QB/trust entity;
 - (5) An excessive volume of weak and self-serving loans to persons connected with the QB/trust entity, especially if a significant portion of these loans are adversely classified;
 - (6) Excessive concentrations of credit, especially if a substantial portion of this credit is adversely classified;
 - (7) Indiscriminate participation in weak and undocumented loans originated by other institutions;

- (8) Failing to adopt written loan policies;
 - (9) An excessive volume of past due or NPLs;
 - (10) Failure to diversify the loan portfolio/asset mix of the institution;
 - (11) Failure to make provision for an adequate reserve for possible loan losses;
 - (12) High incidence of spurious and fraudulent loans due to patently inadequate risk management systems and procedures resulting in significant impairment of capital;
 - (13) QB's niche mostly consists of borrowers who have impaired or limited credit history, or majority of the loans are either clean/unsecured or backed with minimum collateral values except those underwritten using microfinance technology consistent with Sec. 314 and other acceptable cash flow-based lending systems; and the QB does not have a robust risk management system in place leaving the QB vulnerable to losses;
 - (14) Loan rates are excessively higher than market rates to compensate the added or higher risks involved. Excessively higher rates are those characterized by effective interest rates that are fifty percent (50%) over the prevailing comparable market median rate for similar loan types, maturities and collaterals; and
 - (15) Assignment of loans on without recourse basis with real estate properties as payment, resulting in total investment in real estate in excess of the prescribed ceiling.
- n. Permitting officers to engage in lending practices beyond the scope of their positions.
 - o. Operating the QB/trust entity with inadequate internal controls.
 - p. Failure to keep accurate and updated books and records.
 - q. Operating the institution with excessive volume of out-of-territory loans.
 - r. Excessive volume of non-earning assets.
 - s. Failure to heed warnings and admonitions of the supervisory and regulatory authorities.
 - t. Continued and flagrant violation of any law, rule, regulation or written agreement between the institution and the Bangko Sentral.
 - u. Any other action likely to cause insolvency or substantial dissipation of assets or earnings of the institution or likely to seriously weaken its condition or otherwise seriously prejudice the interest of its investors/clients.
 - v. Non-observance of the principles and the requirements for managing and monitoring large exposures and credit risk concentrations under Items "a" and "b" of Sec. 341-Q (*Large exposures and credit risk concentrations*).
 - w. Improper or non-documentation of repurchase agreements covering government securities and commercial papers and other negotiable and non- negotiable securities or instruments.

GUIDELINES AND MINIMUM DOCUMENTARY REQUIREMENTS FOR FOREIGN EXCHANGE FORWARD AND SWAP TRANSACTIONS

The following is a list of minimum documentary requirements for FX forward and swap transactions. Unless otherwise indicated, original documents¹ shall be presented on or before deal date to QBs.

A. FORWARD SALE OF FX TO COVER OBLIGATIONS – DELIVERABLE AND NON-DELIVERABLE

1. FORWARD SALE OF FX – TRADE

1.1. Trade Transactions

1.1.1. Under LC

- a. Copy of LC opened; and
- b. Accepted draft, or commercial invoice/Bill of Lading

1.1.2. Under DA/OA arrangements

- a. Certification of reporting QB on the details of DA/OA under Schedule 10 (Import Letters of Credits Opened and DA/OA Import Availments and Extensions) of FX Form 1 (Consolidated Report on Foreign Exchange Assets and Liabilities); and
- b. Copy of commercial invoice;

In addition to the above requirements, the QB shall require the customer to submit a Letter of undertaking that:

- (i) Before or at maturity date of the forward contract, it (the importer) shall comply with the documentation requirements on sale of FX for trade transactions under existing regulations; and
- (ii) No double hedging has been obtained by the customer for the covered transactions.

1.1.3. Direct Remittance

Original shipping documents indicated in Item "II.a" of Circular Letter dated 24 January 2002.

2. NON-TRADE TRANSACTIONS

Only non-trade transactions with specific due dates shall be eligible for forward contracts, and shall be subject to the same documentation requirements under Circular No. 388 dated 26 May 2003 with the following additional guidelines for foreign currency loans and investments.

2.1. Foreign Currency Loans owed to non-residents or AABs

2.1.1. Deliverable Forwards

The maturing portion of the outstanding eligible obligation, i.e., those that are registered with the Bangko Sentral registration letter, may be covered by a deliverable forward subject to the documentary requirements under Circular No. 388. A copy of the creditor's billing statement may be submitted only on or before the maturity date of the contract.

2.1.2. NDF's

The outstanding eligible obligation, i.e., those that are registered with the Bangko Sentral, including interests and fees thereon as indicated in the Bangko Sentral registration letter may be covered by a NDF, subject to the documentary requirements under Circular No. 388, except for the creditor's billing statement which need not be submitted.

The amount of the forward contract shall not exceed the outstanding amount of the underlying obligation during the term of the contract.

¹ If copy is indicated, it shall mean photocopy, electronic copy or facsimile of original.

2.2. Inward Foreign Investments

The unremitted amount of sales/maturity proceeds due for repatriation to non-resident investors pertaining to BSP -registered investments in the following instruments issued by a Philippine resident:

- a. shares of stock listed in the PSE;
- b. GS;
- c. money market instruments; and
- d. peso time deposits with a minimum tenor of ninety (90) days may be covered by FX forward contracts subject to the presentation of the original BSRD on or before deal date. However, for Item "2.2.a" above, original BSRD or BSRD Letter-Advice, together with the broker's sales invoice, shall be presented on or before maturity date of the FX forward contract, which date coincides with the settlement date of the PSE transaction.

Sales proceeds of BSP-registered investments in shares of stock that are not listed in the PSE may be covered by a deliverable FX forward contract only if determined to be outstanding as of the deal date for the contract and payable on a specific future date as may be indicated in the Contract To Sell/Deed of Absolute Sale and subject to the same documentary requirements under Circular No. 388.

B. FORWARD SALE OF FX TO COVER EXPOSURES– DELIVERABLE AND NON-DELIVERABLE

1. TRADE (DELIVERABLE AND NON-DELIVERABLE)

1.1. Under LC

- a. Copy of LC opened; and
- b. Proforma Invoice, or Sales Contract/Purchase Order

1.2. Under DA/OA, Documents Against Payment (DP) or Direct Remittance (DR)

Any of the following where delivery or shipment shall be made not later than one (1) year from deal date:

- a. Sales Contract
- b. Confirmed Purchase Order
- c. Accepted Proforma Invoice
- d. Shipment/Import Advice of the Supplier

In addition to the above requirements, the QB shall require the customer to submit a Letter of undertaking that:

- (i) At maturity of the forward contract, it shall comply with the documentation requirements on the sale of FX for trade transactions under Circular-Letter dated 24 January 2002, as amended; and
- (ii) No double hedging has been obtained by the customer for the covered transactions.

2. NON-TRADE (NON-DELIVERABLE)

The outstanding balance of BSP-registered foreign investments without specific repatriation date, appearing in the covering BSRD may only be covered by an NDF contract, based on its market/book value on deal date, subject to prior Bangko Sentral approval and if already with BSRD presentation of the covering BSRD and the proof that the investment still exists (e.g., stock certificate, or broker's buy invoice, or confirmation of sale, or certificate of investment in money market instruments, or certificate of peso time deposits). Hedging for permanently assigned capital of Philippine branches of foreign banks/firms is not allowed.

C. FORWARD PURCHASE OF FX

Such FX forward contracts shall be subject to the QB's "Know Your Customer" policy and existing regulations on anti-money laundering. In addition, counterparties must be limited to those that are manifestly eligible to engage in FX forwards as part of the normal course of their operations and which satisfy the QB's suitability and eligibility rules for such transactions.

D. FX SWAP TRANSACTIONS

1. FX SALE (first leg)/FORWARD FX PURCHASE (second leg)

The same minimum documentary requirements for sale of FX under Bangko Sentral Circular No. 388 for non-trade transactions, and Circular-Letter dated 24 January 2002, as amended, for trade transactions, shall be presented on or before deal date.

2. *FX PURCHASE (first leg)/FORWARD FX SALE (second leg)*

The first leg of the swap will be subject to the QB's "Know Your Customer" policy and existing regulations on anti-money laundering. The second leg of the swap transaction will be subject to the swap contract between the counterparties.

Swap contracts of this type intended to fund peso loans to be extended by non-residents in favor of residents shall require prior Bangko Sentral approval.

GUIDELINES ON THE SUSPENSION/DELISTING OF EXTERNAL AUDITOR IN THE LIST OF SELECTED EXTERNAL AUDITORS FOR BANGKO SENTRAL SUPERVISED FINANCIAL INSTITUTIONS (BSFIs)
(Appendix to Sec. 164-Q on Framework on the Selection of External Auditors)

Section 1. Grounds for Suspension/Delisting of External Auditors

An external auditor included in the List of Selected External Auditors for BSFIs shall be suspended or delisted by the Bangko Sentral, without prejudice to the imposition of other sanctions by the Securities and Exchange Commission (SEC)¹, under any of the following grounds:

- a. Gross negligence in the conduct of the audit or failure to comply with the Philippine Standards on Auditing and such other issuances of the Auditing and Assurance Standards Council;
- b. Issuance of an unqualified opinion which is not supported by full compliance by the auditee with the applicable financial reporting framework due to material deficiencies or misstatements in the financial statements;
- c. Conduct of an audit despite the lack or eventual loss of independence as provided for under the Code of Ethics for Professional Accountants in the Philippines;
- d. Conduct of any non-audit services for his statutory audit clients, if he has not undertaken the safeguards to reduce the threat to his independence;
- e. Any material misrepresentation in the reports submitted to the Bangko Sentral;
- f. Failure to comply with the provisions set forth under Sec. 164-Q;
- g. Refusal for no valid reason, upon lawful order of the Bangko Sentral, to submit requested documents in connection with an ongoing investigation. The external auditor shall, however, be made aware of such investigation; and
- h. Failure to obtain from the Securities and Exchange Commission an accreditation appropriate to the client's category provided under Sec. 164-Q on the appointment of external auditor.

Section 2. Procedures and Effects of Delisting/Suspension

- a. On the basis of the results of the assessment of the quality of audited financial statements and evidence on the existence of the grounds for suspension or delisting under Section 1 above, the external auditor shall be notified in writing by the appropriate supervising department of the Bangko Sentral of the existence of the ground for his/her suspension or delisting in the List of Selected External Auditors for BSFIs and shall be allowed to submit within fifteen (15) calendar days from receipt of such notice an explanation on why he/she should not be suspended/delisted, together with the evidence in support of his/her position.

An external auditor shall only be suspended or delisted after due notice and opportunity to defend/clear himself/herself.

- b. Failure of the external auditor concerned to reply within the period prescribed under Item "a" above, shall be considered as a waiver on his/her part of the opportunity to defend/clear himself/herself. In this respect, the appropriate supervising department of the Bangko Sentral shall proceed with the evaluation of the case based on available records/evidence.
- c. Upon approval by the Monetary Board, the external auditor concerned shall be informed in writing by the appropriate supervising department of the Bangko Sentral of his/her suspension or delisting in the List of Selected External Auditors for BSFIs.
- d. A suspended or delisted external auditor shall be automatically included in the Bangko Sentral's Watchlist Disqualification File "B" (temporary).
- e. The Securities and Exchange Commission shall be immediately informed of the suspension or delisting of the external auditor.
- f. Suspended external auditors may re-apply for inclusion in the List of the Selected External Auditors for BSFIs after the lapse of five (5) years from the date of effectivity of the suspension.

(Circular No. 1040 dated 20 May 2019)

¹ Accrediting Agency duly designated by the member-agency of the Financial Sector Forum, comprising of the Bangko Sentral ng Pilipinas, Securities and Exchange Commission, Insurance Commission, and Philippine Deposit Insurance Corporation.

QUALIFICATION REQUIREMENTS FOR A BANK/NON-BANK FINANCIAL INSTITUTION APPLYING FOR ACCREDITATION TO ACT AS TRUSTEE ON ANY MORTGAGE OR BOND ISSUED BY ANY MUNICIPALITY, GOVERNMENT- OWNED OR CONTROLLED CORPORATION, OR ANY BODY POLITIC

[Appendix to Sec. 413-Q (Qualification and accreditation of quasi-banks acting as trustee on any mortgage or bond issuance by any municipality, government owned or controlled corporation, or any body politic)]

A bank/NBFI applying for accreditation to act as trustee on any mortgage or bond issued by any municipality, government- owned or controlled corporation, or any body politic must comply with the following requirements:

- a. It must be a bank or NBFI under Bangko Sentral supervision;
- b. It must have a license to engage in trust and other fiduciary business;
- c. It must have complied with the minimum capital accounts required under existing regulations, as follows:

UBs and KBs	The amount required under existing regulations or such amount as may be required by the Monetary Board in the future
Branches of Foreign Banks	The amount required under existing regulations
Thrift Banks	P650 million or such amounts as may be required by the Monetary Board in the future
NBFIs	Adjusted capital of least P300 million or such amounts as may be required by the Monetary Board in the future.

- d. Its risk-based capital adequacy ratio is not lower than twelve percent (12%) at the time of filing the application;
- e. The articles of incorporation or governing charter of the institution shall include among its powers or purposes, acting as trustee or administering any trust or holding property in trust or on deposit for the use, or in behalf of others;
- f. The by-laws of the institution shall include among others, provisions on the following:
 - (1) The organization plan or structure of the department, office or unit which shall conduct the trust and other fiduciary business of the institution;
 - (2) The creation of a trust committee, the appointment of a trust officer and subordinate officers of the trust department; and
 - (3) A clear definition of the duties and responsibilities as well as the line and staff functional relationships of the various units, officers and staff within the organization.
- g. The bank's operation during the preceding calendar year and for the period immediately preceding the date of application has been profitable;
- h. It has not incurred net weekly reserve deficiencies during the eight (8) weeks period immediately preceding the date of application;
- i. It has generally complied with banking laws, rules and regulations, orders or instructions of the Monetary Board and/ or Bangko Sentral Management in the last two preceding examinations prior to the date of application, particularly on the following:
 - (1) election of at least two (2) independent directors;
 - (2) attendance by every member of the board of directors in a special seminar for board of directors conducted or accredited by the Bangko Sentral;
 - (3) the ceilings on credit accommodations to DOSRI;
 - (4) liquidity floor requirements for government deposits;
 - (5) single borrower's loan limit; and
 - (6) investment in bank premises and other fixed assets.
- j. It maintains adequate provisions for probable losses commensurate to the quality of its assets portfolio but not lower than the required valuation reserves as determined by the Bangko Sentral;

- k. It does not have float items outstanding for more than sixty (60) calendar days in the "Due From/To Head Office/Branches/Other Offices" accounts and the "Due from Bangko Sentral" account exceeding one percent (1%) of the total resources as of date of application;
- l. It has established a risk management system appropriate to its operations characterized by clear delineation of responsibility for risk management, adequate risk measurement systems, appropriately structured risk limits, effective internal controls and complete, timely and efficient risk reporting system;
- m. It has a CAMELS Composite Rating of at least "3" in the last regular examination with management rating of not lower than "3"; and
- n. It is a member of the PDIC in good standing (for banks only).

Compliance with the foregoing as well as with other requirements under existing regulations shall be maintained up to the time the trust license is granted. A bank that fails in this respect shall be required to show compliance for another test period of the same duration.

**CHECKLIST OF BANGKO SENTRAL REQUIREMENTS IN THE SUBMISSION OF FINANCIAL AUDIT REPORT, ANNUAL AUDIT
REPORT AND REPORTS REQUIRED UNDER APPENDIX Q-30
[Appendix to Secs. 190-Q, 172-S and 172-N]**

The external auditor (Included in the List of Bangko Sentral Selected External Auditors) shall start the audit not later than thirty (30) calendar days after the close of the calendar/fiscal year adopted by the FI. AFS of FIs with subsidiaries shall be presented side by side on a solo basis and on a consolidated basis (FIs and subsidiaries). The FAR shall be submitted by the FI to the appropriate supervising department of the Bangko Sentral not later than 120 calendar days after the close of the calendar year or fiscal year adopted by the FI, together with the following:

Information/ Data Required	Deadline for Submission
<p>A. FAR</p> <p>1. Certification by the external auditor on the following:</p> <ul style="list-style-type: none"> a. The dates of commencement and termination of audit. b. The date when the FAR and certification under oath stating that no material weakness or breach in the internal control and risk management systems was noted in the course of the audit of the bank/QB were submitted to the board of directors or country head, in the case of foreign bank branches; and c. That the external auditor, partners, associates, auditor-in-charge of the engagement and the members of their immediate family do not have any direct or indirect financial interest with the bank/QB, its subsidiaries and affiliates and that their independence is not considered impaired under the circumstances specified in the Code of Professional Ethics for CPAs. <p>2. Reconciliation statement for the differences in amounts between the audited and the submitted BS and IS for bank proper (regular and FCDU) and trust department, including copies of adjusting entries on the reconciling items.</p> <p>Note: Please see pro-forma comparative analysis (<i>Appendix Q-34</i>).</p> <p>3. LOC indicating the external auditor's findings and comments on the material weakness noted in the internal control and risk management systems and other aspects of operations.</p> <p>In case no material weakness is noted to warrant the issuance of an LOC, a certification under oath stating that no material weakness or breach in the internal control and risk management systems was noted in the course of the audit of the bank shall be submitted by the external auditor.</p> <p>4. Copies of the board resolutions showing the:</p> <ul style="list-style-type: none"> a. Action taken on the FAR and, where applicable, on the certification under oath including the names of the directors, present and absent, 	<p>For submission together with the FAR not later than 120 calendar days after the close of the calendar year or fiscal year adopted by the bank</p> <p>For submission together with the FAR not later than 120 calendar days after the close of the calendar year or fiscal year adopted by the bank.</p> <p>Within thirty (30) calendar days after submission of the FAR.</p> <p>For submission together with the FAR not later than 120 calendar days after the close of the calendar year or fiscal year adopted by the bank.</p> <p>Within thirty (30) banking days after the receipt of the FAR and certification under oath by the board of directors.</p>

among other things; and	
b. Action taken on the findings and recommendations in the LOC, and the names of the directors present and absent, among other things.	Within thirty (30) banking days after the receipt of the FAR and certification under oath by the board of directors.
5. In case of foreign banks with branches in the Philippines, in lieu of the board resolution:	
a. A report by the country head on the action taken by management (head office, regional or country) on the FAR and, where applicable, on the applicable, on certification under oath stating that no material weakness or breach in the internal control and risk management systems was noted in the course of the audit of the bank.	Within thirty (30) banking days after the receipt of the FAR and certification under oath by the country head.
b. A report by the country head on the action taken by management (head office, regional or country) on the LOC.	reason therefore;
6. Certification of the external auditor on the date when the LOC was submitted to the board of directors or country head.	(1) Discovery of a material breach of laws or Bangko Sentral rules and regulations such as, but not limited to:
7. All the required disclosures in the AFS provided under Sec. 173-Q (<i>Disclosure requirements in the notes to the audited financial statements</i>)	Within thirty (30) banking days after the receipt of the LOC by the country head.
8. Reports required to be submitted by the external auditor under <i>Appendix Q-30</i> .	Within thirty (30) banking days after the receipt of the LOC by the board of directors or country head.
a. To enable the Bangko Sentral to take timely and appropriate remedial action, the external auditor must report to the Bangko Sentral, the following cases:	For submission together with the FAR not later than one hundred twenty calendar days after the close of the calendar year or fiscal year adopted by the bank.
(1) Any material finding involving fraud or dishonesty (including cases that were resolved during the period of audit); and	Within thirty (30) calendar days after discovery.
(2) Any potential losses the aggregate of which amounts to at least one percent (1%) of the capital.	Within fifteen (15) calendar days after the occurrence/discovery.
b. The external auditor shall report directly to the Bangko Sentral the following:	
(1) Termination or resignation as external auditor and starting the	
(a) CAR; and	
(b) Loans and other risk assets review and classification.	Within fifteen (15) calendar days after the closing of the audit engagement.
(2) Findings on matters of corporate governance that may require urgent action by the Bangko Sentral.	
a. In case there are no matters to report (e.g., fraud, dishonesty, breach of laws, etc.) a notarized certification that	

**GUIDE IN PREPARING THE KEY INFORMATION AND INVESTMENT DISCLOSURE STATEMENT
FOR UNIT INVESTMENT TRUST FUNDS
[Appendix to Sec. 414-Q (Minimum disclosure requirements)]**

1. The Key Information and Investment Disclosure Statement (KIIDS) is a document intended to provide unit investment trust fund (UITF) participants with key information and disclosures to facilitate better understanding and comparison of UITFs offered by trust entities (TEs).
2. The KIIDS is, preferably a one- sheet document with back-to-back information. The text shall be written in Arial style with font size 10 or its equivalent while the disclosures enumerated below shall be in capital letter and in bold font:
 - **THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).**
 - **RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPu IS FOR ILLUSTRATION OF NAVPu MOVEMENTS/FLUCTUATIONS ONLY.**
 - **WHEN REDEEMIN G, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES SHALL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.**
 - **THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.**
3. The attached format serves as a standard template in preparing the KIIDS. The headings, lay-outs and disclosures inside the boxes shall be strictly followed; nonetheless, the trustee may opt to add sub- headings provided that these additions shall result to clearer disclosure of key information.
4. The trustee shall use clear and plain language to ensure that the participants can easily understand the disclosures contained therein.
5. The use of diagrams such as graphs, charts, flowcharts, tables or numerical explanations is highly encouraged.
6. The trustee is advised to be judicious in deciding the information to be disclosed. The KIIDS shall give a fair and balanced view of the investments and shall ensure that no material information is omitted if such omission would make the KIIDS to be misleading. Examples are presented for illustration purposes only and are not meant to be prescribed or exhaustive.
7. The trustee shall include a web address for online access of other disclosure documents, educational resources or explanatory materials. However, key information shall be clearly disclosed in the KIIDS and not merely referred to other sources.

(As amended by Circular Nos. 876 dated 20 April 2015, 852 dated 21 October 2014)

(Name of Bank)

(Name of UIT Fund)

KEY INFORMATION AND INVESTMENT DISCLOSURE STATEMENT

(Reporting Period)

FUND FACTS:

Classification:	Net Asset value per unit (NAVPu):
Launch Date:	Total Fund NAV:
Minimum Investment:	Dealing Day:
Additional Investment:	Redemption Settlement:
Minimum Holding Period:	Early Redemption Charge:

FEES* (Indicate trustee fees and special reimbursable expenses, as necessary)

Trustee Fees: _____% (Name of Trustee)	Custodianship Fees: _____% (Name of Custodian)	External Auditor Fees: _____% (Name of External Auditor)	Other Fees: _____% (Please specify)
--	--	--	--

* As a percentage of average daily NAV for the quarter valued at _____.

INVESTMENT OBJECTIVE AND STRATEGY [Indicate the investment objective of the fund and the strategies on how to attain the said objective]

Example:

The Fund intends to achieve for its participants long-term capital growth by investing into the extent possible, equity securities issued by Philippine domiciled companies which have a value style bias. The Fund aims to provide returns in excess of the return of the Philippine Stock Exchange Index (PSEI).

CLIENT SUITABILITY

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- The (Name of the Fund) is suitable only for investors who:
 - o [Indicate the risk profile of the target investors/participants]
 - o [Indicate if the principal will be at risk]
 - o [Indicate the recommended investment horizon of a participant]
 - o [Indicate other key characteristics of the fund which can help investors determine if it is suitable for them]

Example:

- The Equity Fund is suitable only for investors who:
 - o Have aggressive risk appetite
 - o Are comfortable with the greater volatility and risks of an equity fund
- Participants are recommended to stay invested in an equity fund for three (3) years

KEY RISKS AND RISK MANAGEMENT (Disclose the key risks of the Fund and provide short illustrations/explanations which are stated in plain and simple language, and the risk management process employed in managing the Fund, as necessary)

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Example:

- Market risks. You have greater exposure to market risks as this is an equity fund since equities usually have greater volatility than bonds and other fixed income securities.
- The Fund employs a risk management policy based on duration. Duration measures the sensitivity of NAVPu to interest rate movements. As interest rates rise, bond prices fall.

The higher the duration, the more NAVPu will fluctuate in relation to changes in interest rates.

- **THE UIT FUND IS NOT A DEPOSIT AND IS NOT INSURED BY THE PHILIPPINE**
- **DEPOSIT INSURANCE CORPORATION (PDIC).**
- **RETURNS CANNOT BE GUARANTEED AND HISTORICAL NAVPu IS FOR ILLUSTRATION OF NAVPu MOVEMENTS/FLUCTUATIONS ONLY.**
- **WHEN REDEEMING, THE PROCEEDS MAY BE WORTH LESS THAN THE ORIGINAL INVESTMENT AND ANY LOSSES WILL BE SOLELY FOR THE ACCOUNT OF THE CLIENT.**
- **THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.**

(Indicate contact details of the trustee which investors can use if they have queries, include a website address, e-mail address and telephone number)

FUND PERFORMANCE AND STATISTICS AS OF JUNE 30, 2014

(Purely for reference purposes and is not a guarantee of future results)

NAVPU Graph [Include graph showing the NAVPU trend vis-à-vis the benchmark]

Example:

Cumulative Performance (%)

Period	1 mo	3 mos	6 mos	1 yr	3 yrs
Fund	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Information Ratio ***	xx

*Volatility measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time.

**Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

*** Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

OTHER DISCLOSURES [Indicate RELATED PARTY TRANSACTIONS, prospective investments and other disclosures deemed necessary or relevant] [This heading may be changed as appropriate]

Example:

RELATED PARTY TRANSACTIONS

The Fund has deposits with the Bank Proper and investments in ABC Co., a wholly-owned subsidiary of the Bank, amounting to Pxxx and Pxxx, respectively, which were approved by the Board of Directors. Likewise, all related party transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

The Fund took advantage of the pockets of rallies supported by the substantial liquidity in the system. It took profit on its bond holdings across the curve in anticipation of increased volatility in the months ahead. Market corrections are likewise seen as opportunities to reposition in the more liquid and tradable bonds. Nonetheless, amidst prospects of further SDA rate hikes, we maintain our overall defensive stance. The Fund's prospective investments include xxx.

(NAME OF TRUST ENTITY) - (TRUST BANKING GROUP/TRUST DEPARTMENT)
Unit Investment Trust Funds
RISK DISCLOSURE STATEMENT

Prior to making an investment in any of the (Name of Trust Entity) Unit Investment Trust Funds (UITFs), (Name of Trust Entity) is hereby informing you of the nature of the UITFs and the risks involved in investing therein. As investments in UITFs carry different degrees of risk, it is necessary that before you participate/invest in these funds, you should have: 1. Fully understood the nature of the investment in UITFs and the extent of your exposure to risks; 2. Read this Risk disclosure Statement completely; and 3. Independently determined that the investment in the UITFs is appropriate for you.

There are risks involved in investing in the UITFs because the value of your investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. The NAVpu is computed by dividing the Net Asset Value (NAV) of the Fund by the number of outstanding units. The NAV is derived from the summation of the market value of the underlying securities of the Fund plus accrued interest income less liabilities and qualified expenses.

Investment in the UITF does not provide guaranteed returns even if invested in government securities and high-grade prime investment outlets. Your principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is lower than the NAVpu at the time of participation. Gains from investment is realized when the NAVpu at the time of redemption is higher than the NAVpu at the time of participation.

Your investment in any of the (Name of Trust Entity) UITFs exposes you to the various types of risks enumerated and defined hereunder:

Interest Rate Risk. This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.

The UITF portfolio, being market-to-market, is affected by changes in interest rates thereby affecting the value of fixed income investments such as bonds. Interest rate changes may affect the prices of fixed income securities inversely, i.e., as interest rates rise, bond prices fall and when interest rates decline, bond prices rise. As the prices of bonds in a Fund adjust to a rise in interest rates, the Fund's unit price may decline.

Market/Price Risk. This is the possibility for an investor to experience losses due to changes in market prices of securities (e.g., bonds and equities). It is the exposure to the uncertain market value of a portfolio due to price fluctuations.

It is the risk of the UITF to lose value due to a decline in securities prices, which may sometimes happen rapidly or unpredictably. The value of investments fluctuates over a given time period because of general market conditions, economic changes or other events that impact large portions of the market such as political events, natural calamities, etc. As a result, the NAVpu may increase to make profit or decrease to incur loss.

Liquidity Risk. This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss. These may be caused by different reasons such as trading in securities with small or few outstanding issues, absence of buyers, limited buy/sell activity or underdeveloped capital market.

Liquidity risk occurs when certain securities in the UITF portfolio may be difficult or impossible to sell at a particular time which may prevent the redemption of investment in UITF until its assets can be converted to cash. Even government securities which are the most liquid of fixed income securities may be subjected to liquidity risk particularly if a sizeable volume is involved.

Credit Risk/Default Risk. This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans, or other forms of security which the borrower issued. This inability of the borrower to make good on its financial obligations may have resulted from adverse changes in its financial condition thus, lowering credit quality of the security, and consequently lowering the price (market/price risk) which contributes to the difficulty in selling such security. It also includes risk on a counterparty (a party the UITF Manager trades with) defaulting on a contract to deliver its obligation either in cash or securities.

This is the risk of losing value in the UITF portfolio in the event the borrower defaults on his obligation or in the case of a counterparty, when it fails to deliver on the agreed trade. This decline in the value of the UITF happens because the

default/failure would make the price of the security go down and may make the security difficult to sell. As these happen, the UITFs NAVpu will be affected by a decline in value.

Reinvestment Risks. This is the risk associated with the possibility of having lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.

Investors in the UITF who redeem and realize their gains run the risk of reinvesting their funds in an alternative investment outlet with lower yields. Similarly, the UITF manager is faced with the risk of not being able to find good or better alternative investment outlets as some of the securities in the fund matures.

In case of a foreign-currency denominated UITF or a peso denominated UITF allowed to invest in securities denominated in currencies other than its base currency, the UITF is also exposed to the following risks:

Foreign Exchange Risk. This is the possibility for an investor to experience losses due to fluctuations in foreign exchange rates. The exchange rates depend upon a variety of global and local factors, e.g., interest rates, economic performance, and political developments.

It is the risk of the UITF to currency fluctuations when the value of investments in securities denominated in currencies other than the base currency of the UITF depreciates. Conversely, it is the risk of the UITF to lose value when the base currency of the UITF appreciates. The NAVpu of a peso-denominated UITF invested in foreign currency- denominated securities may decrease to incur loss when the peso appreciates.

Country Risk. This is the possibility for an investor to experience losses arising from investments in securities issued by/in foreign countries due to the political, economic and social structures of such countries. There are risks in foreign investments due to the possible internal and external conflicts, currency devaluations, foreign ownership limitations and tax increases of the foreign country involved which are difficult to predict but must be taken into account in making such investments.

Likewise, brokerage commissions and other fees may be higher in foreign securities. Government supervision and regulation of foreign stock exchanges, currency markets, trading systems and brokers may be less than those in the Philippines. The procedures and rules governing foreign transactions and custody of securities may also involve delays in payment, delivery or recovery of investments.

Other Risks. Your participation in the UITFs may be further exposed to the risk of any actual or potential conflicts of interest in the handling of in-house or related party transactions by (Name of Trust Entity). These transactions may include own-bank deposits; purchase of own-institution or affiliate obligations (stock, mortgages); purchase of assets from or sales to own institution, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts.

I/we have completely read and fully understood this risk disclosure statement and the same was clearly explained to me/us by a (Name of Trust Entity) UIT marketing personnel before I/we affixed my/our signature/s herein. I/we hereby voluntarily and willingly agree to comply with any and all laws, regulations, the plan rules, terms and conditions governing my/our investment in the (Name of Trust Entity) UITFs.

**BANGKO SENTRAL RULES OF PROCEDURE ON ADMINISTRATIVE CASES
INVOLVING DIRECTORS AND OFFICERS OF QUASI-BANKS AND TRUST ENTITIES
(Appendix to Sec. 137-Q)**

RULE I – GENERAL PROVISIONS

Sec. 1. Title. – These Rules shall be known as the Bangko Sentral Rules of Procedure on Administrative Cases Involving Directors and Officers of Quasi-Banks and Trust Entities.

Sec. 2. Applicability. – These Rules shall apply to administrative cases filed with or referred to the Office of Special Investigation (OSI), Bangko Sentral, involving directors and officers of quasi-banks and trust entities pursuant to Section 37 of R.A. No. 7653 (The New Central Bank Act) and Sections 16 and 66 of R.A. No. 8791 (The General Banking Law of 2000).

The disqualification of directors and officers under Section 16 of R.A. No. 8791 shall continue to be covered by existing Bangko Sentral rules and regulations.

Sec. 3. Nature of Proceedings. – The proceedings under these Rules shall be summary in nature and shall be conducted without necessarily adhering to the technical rules of procedure and evidence applicable to judicial trials. Proceedings under these Rules shall be confidential and shall not be subject to disclosure to third parties, except as may be provided under existing laws.

RULE II – COMPLAINT

Sec. 1. Complaint. - The complaint shall be in writing and subscribed and sworn to by the complainant. However, in cases initiated by the appropriate supervising department of the Bangko Sentral, the complaint need not be under oath. No anonymous complaint shall be entertained.

Sec. 2. Where to file. – The complaint shall be filed with or referred to the OSI.

Sec. 3. Contents of the Complaint - The complaint shall contain the ultimate facts of the case and shall include:

- a. full name and address of the complainant;
- b. full name and address of the person complained of;
- c. specification of the charges;
- d. statement of the material facts;
- e. statement as to whether or not a similar complaint has been filed with the Bangko Sentral or any other public office.

The complaint shall include copies of documents and affidavits of witnesses, if any, in support of the complaint.

RULE III – DETERMINATION OF PRIMA FACIE CASE AND PROSECUTION OF THE CASE

Sec. 1. Action on Complaint.- Upon determination that the complaint is sufficient in form and substance, the OSI shall furnish the respondent with a copy thereof and require respondent to file within ten (10) days from receipt thereof, a sworn answer, together with copies of documents and affidavits of witnesses, if any, copy furnished the complainant. Failure of the respondent to file an answer within the prescribed period shall be considered a waiver and the case shall be deemed submitted for resolution.

Sec. 2. Preliminary Investigation. – Upon receipt of the sworn answer of the respondent, the OSI shall determine whether there is a *prima facie* case against the respondent. If a *prima facie* is established during the preliminary investigation, the OSI shall file the formal charge with the Supervised Banks Complaints Evaluation Group (SBCEG), Bangko Sentral. However, in the absence of a *prima facie* case, the OSI shall dismiss the complaint without prejudice or take appropriate action as may be warranted.

Sec. 3. Formal Charge. – The formal charge shall contain the name of the respondent, a brief statement of material or relevant facts, the specific charge, and the pertinent provisions of banking laws, rules or regulations violated.

Sec. 4. Prosecution. – The OSI shall prosecute the case. The complainant may be assisted or represented by counsel, who may be deputized for such purpose, under the direction and control of the OSI.

RULE IV – PROCEEDING BEFORE THE HEARING PANEL OR HEARING OFFICER

Sec. 1. Filing of the Formal Charge.– The OSI shall file the formal charge before the SBCEG. It shall also furnish the SBCEG with supporting documents relevant to the formal charge.

Sec. 2. Hearing Officer and Composition of the Hearing Panel. – The case shall be heard either by a Hearing Officer or a Hearing Panel, which shall be composed of a Chairman and two (2) members, all of whom shall be designated by the SBCEG. The SBCEG shall determine whether the case shall be heard either by a Hearing Panel or a Hearing Officer.

Sec. 3. Answer. – The Hearing Panel or Hearing Officer shall furnish the respondent with a copy of the formal charge, with supporting documents relevant thereto, and shall require him to submit, within ten (10) days from receipt thereof, a sworn answer, copy of which shall be furnished the prosecution.

The respondent, in his answer, shall specifically admit or deny all the charges specified in the formal charge, including the attachments. Failure of the respondent to comment, under oath, on the documents attached thereto shall be deemed an admission of the genuineness and due execution of said documents.

Sec. 4. Waiver. – In the event that the respondent, despite due notice, fails to submit an answer within the prescribed period, he shall be deemed to have waived his right to present evidence. The Hearing Panel or Hearing Officer shall issue an Order to that effect and direct the prosecution to present evidence *ex parte*. Thereafter, the Hearing Panel or Hearing Officer shall submit a report on the basis of available evidence.

Sec. 5. Preliminary Conference.– Upon receipt of the answer of respondent, the Hearing Panel or Hearing Officer shall set the case for preliminary conference for the parties to consider and agree on the admission or stipulation of facts and of documents, simplification of issues, identification and marking of evidence and such other matters as may aid in the prompt and just resolution of the case. Any evidence not presented and identified during the preliminary conference shall not be admitted in subsequent proceedings.

Sec. 6. Submission of Position Papers.– After the preliminary conference, the Hearing Panel or Hearing Officer shall issue an Order stating therein the matters taken up, admissions made by the parties and issues for resolution. The Order shall also direct the parties to simultaneously submit, within ten (10) days from the receipt of said Order, their respective position papers which shall be limited to a discussion of the issues as defined in the Order.

Sec. 7. Hearing. – After the submission by the parties of their position papers, the Hearing Panel or Hearing Officer shall determine whether or not there is a need for a hearing for the purpose of cross-examination of the affiant(s). If the Hearing Panel or Hearing Officer finds no necessity for conducting a hearing, he shall issue an Order to the effect.

In cases where the Hearing Panel or Hearing Officer deems it necessary to allow the parties to conduct cross- examination, the case shall be set for hearing. The affidavits of the parties and their witnesses shall take the place of their direct testimony.

RULE V – PROHIBITED MOTIONS

Sec. 1. Prohibited Motions. – No motion to dismiss or quash, motion for bill of particulars and such other dilatory motions shall be allowed in the cases covered by these Rules.

RULE VI – RESOLUTION OF THE CASE

Sec. 1. Contents and Period for Submission of Report. – Within sixty (60) days after the Hearing Panel or Hearing Officer has issued an Order declaring that the case is submitted for resolution, a report shall be submitted to the Monetary Board. The report of the Hearing Panel or Hearing Officer shall contain clearly and distinctly the findings of facts and conclusions of law on which it is based.

Sec. 2. Rendition and Notice of Resolution. – After consideration of the report, the Monetary Board shall act thereon and cause true copies of its Resolution to be served upon the parties.

Sec. 3. Finality of the Resolution.– The Resolution of the Monetary Board shall become final after the expiration of fifteen (15) days from receipt thereof by the parties, unless a motion for reconsideration shall have been timely filed.

Sec. 4. Motion for Reconsideration.– A motion for reconsideration may only be entertained if filed within fifteen (15) days from receipt of the Resolution by the parties. No second motion for reconsideration shall be allowed.

RULE VII – APPEAL

Sec. 1. Appeal. – An appeal from the Resolution of the Monetary Board may be taken to the Court of Appeals within the period and in the manner provided under Rule 43 of the Revised Rules of Court.

RULE VIII – EXECUTION OF RESOLUTION

Sec. 1. Resolution Becoming Executory. – The Resolution of the Monetary Board shall become executory upon the lapse of fifteen (15) days from receipt thereof by the parties or from the receipt of the denial of the motion for reconsideration.

Sec. 2. Effect of Appeal. – The appeal shall not stay the Resolution sought to be reviewed unless the Court of Appeals shall direct otherwise upon such terms as it may deem just.

Sec. 3. Enforcement of Resolution.– When the Resolution orders the imposition of fines, suspension or removal from office of respondent, the enforcement thereof shall be referred to the appropriate department of the Bangko Sentral.

RULE IX – MISCELLANEOUS PROVISIONS

Section 1. Repeal. – All existing rules, regulations, orders or circulars or any part thereof inconsistent with these Rules are hereby repealed, amended or modified accordingly.

Section 2. Separability Clause. – If any part of these Rules is declared unconstitutional or illegal, the other parts or provisions shall remain valid.

**DOCUMENTS REQUIRED UNDER THE
REVISED OUTSOURCING FRAMEWORK FOR NON-BANKS**
*[Appendix to Secs. 111-Q, 701-Q (Outsourcing of internet and mobile electronic services),
113-S, 162-P, and 102-N]*

1. A comprehensive policy on outsourcing duly approved by the board of directors of the QB/NBFI.
2. Service level agreement of contract between the bank and the service provider, which shall, at a minimum, include all of the following:
 - a. Complete description of the work to be performed or services to be provided;
 - b. Fee structure;
 - c. Provisions governing amendment and pretermination of contract;
 - d. Responsibility, fines, penalties and accountability of the service provider for errors, omissions and frauds;
 - e. Confidentiality clause covering all data and information; solidarity liability of service provider and bank for any violation of R.A. No. 1405, (the Bank Deposits Secrecy Law) actions that the QB/NBFI may take against the service provider for breach of confidentiality or any form of disclosure of confidential information; and the applicable penalties;
 - f. Segregation of the data of the QB/NBFI from that of the service provider and its other clients;
 - g. Disaster recovery/business continuity contingency plans and procedures;
 - h. Guarantee that the service provider will provide necessary levels of transition assistance if the QB/NBFI decides to convert to other service providers or other arrangements;
 - i. Access to the financial information of the service provider;
 - j. Access of internal and external auditors to information regarding the outsourced activities/services which they need to fulfill their respective responsibilities;
 - k. Access of Bangko Sentral to the operations of the service provider in order to review the same in relation to the outsourced activities/services;
 - l. Provision which requires the service provider to immediately take the necessary corrective measures to satisfy the findings and recommendations of Bangko Sentral examiners and those of the internal and/or external auditors of the QB/NBFI and/or the service provider;
 - m. Remedies for the QB/NBFI in the event of change of ownership, assignment, attachment of assets, insolvency, or receivership of the service provider; and
 - n. Provision allowing the QB/NBFI to cancel the contract by contractual notice of dismissal or extraordinary notice of cancellation if so required by the Bangko Sentral.

Additional Requirements for IT outsourcing:

- o. Provisions regarding on-line communication availability, transmission line security, and transaction authentication;
- p. Responsibilities regarding hardware, software and infrastructure upgrades;
- q. Mandatory notification by the service provider of all systems changes that will affect the bank;
- r. Details of all security procedures and standards;
- s. Adequate insurance for fidelity and fire liability; and
- t. Ownership/maintenance of the computer hardware, software (program source code), user and system documentation, master and transaction data files.

3. Secretary's certificate on the minutes of meeting of the board of directors of the QB/NBFI, explicitly approving the activity to be outsourced, the determination of whether an outsourcing arrangement is considered material or non-material and the specific service provider with which the QB/NBFI is entering into an outsourcing contract;
4. Profile of the selected service provider; and
5. A central record of all outsourcing arrangements which shall be periodically updated and shall form part of the corporate governance reviews undertaken by the QB/NBFI.

**IMPLEMENTATION OF THE DELIVERY BY THE SELLER OF SECURITIES DIRECTLY TO THE BUYER OR TO HIS DESIGNATED
SECURITIES CUSTODIAN/CENTRAL SECURITY DEPOSITORY**

[Appendix to Secs. 101-Q (Delivery of securities) 201-Q/N (Delivery of securities, repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments), 431-Q/1002-N (Securities Custodianship and Securities Registry Operations and Registry of scripless securities of the Bureau of Treasury)]

Section 1. Statement of Policy. Pursuant to the policy of the Bangko Sentral to promote the protection of investors in order to gain their confidence in the securities market, the following rules/guidelines shall be observed by banks and NBFIs under Bangko Sentral supervision in their dealings in securities whether they are acting as seller, buyer, agent, or custodian.

The guidelines on the delivery of government securities by the selling banks to an investor's Principal Securities Account with the RoSS through the Client Interface System facility are in *Appendix Q-38*.

Sec. 2. Distinction between a Securities Custodian, Registry and Central Securities Depository. For purposes of these Rules, a securities custodian, registry and central securities depository are defined as follows: A securities custodian is a Bangko Sentral-accredited financial institution under Bangko Sentral supervision that is authorized to engage in investment management (for banks/investment houses with quasi-banking authority only) or trust business and is designated by the investor to perform the functions of safekeeping, holding title to the securities in a nominee capacity, reports rendition, mark-to-market valuation, collection and payment of dividends, interest earnings or proceeds from the sale/redemption/maturity of securities held under custodianship and representation of clients in corporate actions.

It may also perform the value-added service of securities lending as agent, subject to the conditions specified under Sec. 431-Q/1002-N (*Functions and responsibilities of a securities custodian*).

A security registry, is a duly authorized financial institution designated or appointed by the issuer to maintain the securities registry book either in electronic or in printed form. It records the initial issuance of the securities and subsequent transfer of ownership and issues registry confirmation to the buyers/holders. The registry must be a third party that does not belong to the same financial conglomerate or banking group as that of the issuer of securities.

A central securities depository is an SEC- authorized entity that provides securities accounts, central safekeeping services, and asset services, which may include the administration of corporate actions and redemptions, and plays an important role in helping to ensure the integrity of securities issues¹

The securities custodian and the central securities depository must at all times maintain their independence and should not belong to the same financial conglomerate or banking group as that of the issuer or seller of securities held under custody or deposit.

It shall be the responsibility of the securities custodian and central securities depository to ensure that appropriate systems capacity, procedures or measures such as proper recording, accounting, reporting, preserving, and segregation of securities are in place in¹ order to protect the interest of the client.

Sec. 3. Registry of Scripless Securities (RoSS) of the Bureau of the Treasury. The Bureau of the Treasury, as operator of the RoSS, which serves as the official registry for government securities, is not subject to Bangko Sentral accreditation and is exempted from the independence requirement under the existing Bangko Sentral regulations.

Sec. 4. Delivery of Securities. Pursuant to existing Bangko Sentral regulations, securities which are the subject of quasi-banking activities, repurchase agreements and securities sold on a without recourse basis shall be delivered by the seller directly to the purchaser or to the purchaser's designated Bangko Sentral-accredited securities custodian or SEC-authorized central securities depository.

¹ BIS-IOSCO, "Principles for Financial Market Infrastructure", p.8 (April 2012)

Sec. 5. Modes of Delivery.

- a. If the securities sold are certificated, delivery shall be effected physically to the purchaser, or to the purchaser's designated Bangko Sentral-accredited custodian. The certificate must be transferred to and registered under the name of the purchaser and properly recorded in the registry book.
- b. Delivery of immobilized or dematerialized securities shall be effected by means of book entry transfer to the appropriate securities account of the following: (1) the purchaser in a registry of said securities; (2) purchaser in an SEC- authorized central securities depository; or (3) the purchaser's designated Bangko Sentral-accredited securities custodian. Book-entry transfer to a sub-account for clients under the primary account of the dealer will not be deemed compliant with this requirement.

Sec. 6. Client Information. Selling or dealing banks shall inform their clients of the requirements under Sections 3 and 4 above, together with the complete list of all Bangko Sentral-accredited securities custodians or SEC-authorized central securities depositories. The selling or dealing bank or NBFIs must inform their clients that the choice of securities custodian or central securities depository is the sole prerogative of the securities purchaser. The seller or dealer may, however, indicate to their clients their *preferred securities custodians or central securities depositories*.

Sec. 7. Custodianship/ Securities Deposit Agreement. The securities owner/purchaser shall enter into a custodianship agreement with a Bangko Sentral-accredited securities custodian or a securities deposit agreement with an SEC-authorized central securities depository of his choice. The Agreement shall contain the following minimum stipulations:

- a. Rights and obligations of the parties;
- b. Fees for the services offered by the custodian/depository; and
- c. Scope and term/period of the Agreement.

The securities purchasers/owners may designate/appoint a representative or agent for the purpose of opening of the custodianship/securities deposit account and execution of trade transactions (i.e., buying and selling instructions including relaying of instructions to the custodian/central securities depository to receive or deliver securities in order to consummate the buy/sell transactions).

Sec. 8. Compliance with the Anti-Money Laundering (AML) Act of 2001, as amended. Compliance with AML Act of 2001, as amended, by Bangko Sentral- accredited securities custodians/registries or SEC-authorized central securities depositories shall be governed by AML rules and regulations issued by their supervising authorities, such as the Bangko Sentral or the SEC. For purposes of complying with the customer identification requirement, a Bangko Sentral-accredited securities custodian/registry or SEC-authorized central securities depository may rely on the customer identification process undertaken by a third party pursuant to existing AML rules and regulations.

Notwithstanding the above, the custodian, registry or central securities depository is not precluded from conducting its own Know-Your-Customer (KYC) activities and maintaining direct holding of the KYC information/documents of its clients.

(Circular Nos. 903 dated 29 February 2016, 873 dated 25 March 2015)

TEMPLATE OF LETTER TO INVESTOR

Dear Investor:

We wish to inform you that the Bangko Sentral ng Pilipinas (BSP), in July of 2003 issued **Circular No. 392, Series of 2003**, which requires all securities sold by banks on a **“without recourse basis”** (i.e. the bank has no liability to the buyer of securities in paying the obligation due on the security) to be delivered to the buyer/purchaser of securities through any of the following means:

- a. If the security is evidenced by a certificate of indebtedness, the certificate must be transferred in the name of the purchaser/buyer and physically delivered to the purchaser/buyer or to his designated Bangko Sentral-accredited third party custodian.
- b. If the security is immobilized or dematerialized (i.e., that the security is not evidenced by a certificate of indebtedness and instead security account is created in the electronic books of the registry in the name of the purchaser/ buyer or his designated custodian):
 - i. The security must be delivered by book-entry transfer to the appropriate securities account of the buyer in the registry of said securities which must be evidenced by a confirmation in writing by the registrar to the buyer. The confirmation of sale or document of conveyance shall be physically delivered by the seller or dealer to the buyer, or
 - ii. The security must be delivered by book-entry transfer to the appropriate securities account of the Bangko Sentral-accredited third party custodian designated by the buyer/purchaser in the registry of said securities which must be evidenced by a confirmation in writing by the registrar to the said Bangko Sentral- accredited third party custodian, who shall in turn issue to the securities owner a delivery receipt acknowledging receipt of the securities

Circular No. 392 is part of a package of reforms to support the development of the domestic capital market through enhanced investor protection and greater market transparency. It provides for a more defined role and responsibilities for the custodians and registrars and a stricter supervision and regulation thereof by the Bangko Sentral. It aims to provide the client with the following benefits:

- a. Full control and possession of the securities purchased;
- b. Independent validation of the existence of securities purchased;
- c. Regular reporting of securities holdings; and
- d. Capability to choose most competitive counter-parties in case of sale, pledge, transfer, and lending of securities.

Moreover, Circular No. 392, which amends CBP Circular 437-74, seeks to address the changes in the legal framework brought by the developments in the market, i.e., where purchase of securities may be evidenced not only by transfer of certificates but also by electronic book-entry transfer of ownership in the books of the registrar for said security.

As an investor, therefore, of securities which is dematerialized or scripless, you have the option to require your dealer/broker to deliver the securities to you by requiring them to have the securities registered directly in your name in the registry of said securities or by requiring them to have the securities registered in the name of the Bangko Sentral accredited third party custodian of your choice who in turn will credit your securities account with them.

The registry is a Bangko Sentral-accredited bank or non-bank financial institution (NBFI) designated or appointed by the Issuer to (1) maintain the securities registry book; (2) record the (a) issuance of the securities and (b) subsequent transfers of ownership thereof; and (3) issue registry confirmation to the buyers/holders of security.

The custodian, on the other hand, is a Bangko Sentral-accredited bank or NBFI designated by the investor to safekeep the security by allowing it to hold title to the security, either in a nominee or trustee capacity, to enable it to perform the following administrative functions/ services related to investing in a security or various securities: i) Mark to market valuation of security that will enable the client to know the value of his investment at any period in time; ii) compute and collect the interest due on the security; iii) render statements on outstanding securities under safekeeping; iv) represents the client (per its instruction) in the events of default or breach of contract of the issuer; and v) lend the security of the clients as “agent” that will enable the client to earn additional income on the security.

The registrars and custodians underwent a rigorous evaluation process by the Bangko Sentral to determine whether they have the following: i) adequate capital to cover for potential operating risks related to performing its custody functions; ii) competent management team to manage the company with responsibility and proper corporate ethics; iii) robust technology system to operate the custody business efficiently; and iv) favorable track record or significant experience in the custody business or related business. They will also undergo regular audit by the BSP to ensure that they comply with BSP rules and regulations and will be subject to penalties and administrative sanctions for any violation thereof.

As of date, Bangko Sentral has accredited the following registrars and custodians: Bank of the Philippine Islands, CITIBANK N.A., Deutsche Bank, Hongkong and Shanghai Banking Corporation, Philippine Depository and Trust Corporation, and Standard Chartered Bank.

The Registry of Scripless Securities (RoSS) operated by the Bureau of Treasury (BTR) which is acting as a registry for government securities, is automatically accredited as securities registry. However, the BTR, as registry, cannot act as custodian of government securities pursuant to the opinion of the Secretary of Justice rendered on 17 January 2005 due to irreconcilable conflict of loyalties that is anathema to agency if the same institution were to act as registrar and custodian at the same time.

The custodian shall render periodic reports on your account balances on a quarterly basis, or at such interval as you may require. Moreover, the custodian shall issue to you a confirmation of any transfer of ownership as it occurs, in either electronic or printed forms. Said reports shall be delivered/mailed directly at your address unless you give a written instruction directly to the custodian to deliver the said reports to your designated person/ entity. You are, however, required to acknowledge in the written instruction that you are designating another person/entity to receive the periodic reports from the custodian, notwithstanding contrary advice of the Bangko Sentral.

Please note that the abovementioned arrangements may change once the Bangko Sentral issues more detailed implementing rules and guidelines to the abovementioned circulars. We will update you if and when these developments occur.

Please fill up and sign the required documentation of your chosen custodian and we will forward the same to them so that your securities account can be opened as soon as possible. You may, however, designate/appoint an agent for this purpose. In either case, the custody arrangement may or may not entail additional fees.

If you have any further questions, please call us so that we can refer the matter to the appropriate custodian/registrar.

Very truly yours,

**DELIVERY OF GOVERNMENT SECURITIES TO THE INVESTOR'S PRINCIPAL SECURITIES
ACCOUNT WITH THE REGISTRY OF SCRIPLESS SECURITIES
(Appendix to Secs. 101-Q/201-Q/N (Delivery of securities), 431-Q and 1002-N)**

The following are the guidelines on the delivery of government securities by the selling bank and/or NBFI under the supervision of the Bangko Sentral to an investor's Principal Securities Account with the Registry of Scripless Securities (RoSS) through the Client Interface System (CIS) facility as compliance with the requirement of effective delivery under Secs. 101-Q, and 201-Q/N (*Delivery of securities*), 201-Q (*Repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments*), 431-Q and 1002-N:

- (a) Banks/NBFIs, acting either as accredited government securities eligible dealers (GSEDs) or licensed government securities dealers, shall execute the attached Memorandum of Agreement (MOA) with the BTr regarding the creation of the Principal Securities Account with the RoSS on or before 31 January 2007. The MOA between the BTr and the GSED is attached as Annex A.
- (b) The dealing bank shall provide BTr with the following documents:
 - (1) Agency document issued by investor/client if the dealing bank is designated as the agent; and
 - (2) Investor's undertaking (attached as Annex B)
- (c) No new Investors Principal Securities Account shall be created unless the foregoing documents are submitted to the BTr. Otherwise, the dealing bank will be subject to the appropriate penalties prescribed under Secs. 101-Q and 201-Q/N (*Delivery of securities*), 431-Q and 1002-N.

(Circular 873 dated 25 March 2015)

MEMORANDUM OF AGREEMENT

KNOW ALL MEN BY THESE PRESENTS:

This agreement made and entered into this _____ at _____, Philippines by and between:

The **BUREAU OF THE TREASURY**, a duly constituted government bureau under the Department of Finance, Republic of the Philippines, with principal office at Palacio del Gobernador Building, Gen. Luna corner A. Soriano Avenue, Intramuros, Manila, represented herein by the Treasurer of the Philippines, _____, and hereinafter referred to as **"BTr"**;

-and-

_____, a domestic/ international banking/financial institution organized and existing pursuant to the laws of the Republic of the Philippines/(country of incorporation), duly licensed by the Securities and Exchange Commission (SEC) to deal in securities, represented herein by _____ in her/his capacity as

_____, and hereinafter referred to as the **"Dealer"**;

(the "BTr" and the "Dealer" may be referred to as a "Party" in the singular tense, as "Parties" in the plural/collective tense)

WITNESSETH: THAT

WHEREAS, the Registry of Scripless Securities ("RoSS") is the official registry of government securities issued by the National Government through the Bureau of the Treasury;

WHEREAS, the RoSS is an electronic registry of recording ownership of or interest in and transfers of government securities;

WHEREAS, the delivery of government securities sold by the Dealer, on a without recourse basis, to the investor's Principal Securities Account with the RoSS through the Client Interface System ("CIS") Facility shall be sufficient compliance with the delivery requirement under Sec. 245 (*Delivery of securities*), of the Bangko Sentral ng Pilipinas ("BSP") Manual of Regulations for Banks (MORB) and Circular No. 524 dated 31 March 2006.

WHEREAS, the Dealer is a government securities eligible dealer, accredited by the BTr to participate in the primary auction of government securities pursuant to Finance Department Order No. 141-95, as amended, and/or a bank/financial institution licensed by the SEC to deal in government securities in the secondary market;

WHEREAS, investors of government securities purchase/trade the same in the secondary market through any of the dealers;

WHEREAS, recording of ownership of, or interest in government securities requires the creation/opening of a Principal Securities Account with the RoSS through the CIS Facility;

WHEREAS, to promote transparency, investor confidence and deepening of the government bond market, investors must be given adequate assistance in the opening/ creation of his/its Principal Securities Account with the RoSS ("Name-on- Registry");

NOW, THEREFORE, in view of the foregoing premises and the mutual covenants hereinafter provided, the parties hereby agree as follows:

Section 1. Obligations of BTr.

1. Receive instruction from the Dealer as authorized by the investor, through the RoSS-CIS for the creation/opening of the Principal Securities Account;
2. Create/open in the RoSS a Principal Securities Account for the requesting investor of scripless government securities through which all transactions affecting said securities will be recorded;

3. Provide and forward to the investor an electronic confirmation of his/its RoSS Principal Securities Account Number and notices and statements of account under any of the modes indicated in the Investor's Oath of Undertaking submitted to the BTr;
4. On relevant coupon/maturity payment dates and for payments made through the BSP, instruct the BSP to credit the regular demand deposit account (DDA) of the investor's settlement bank: Provided, That if the coupon/maturity payment date falls on a Saturday, Sunday, or Holiday or on a day during which business operations of the BTr is suspended, payment/s shall be made by the BTr on the next business day, without adjustment in the amount of interest to be paid.
5. Ensure that all government securities bought by investors from the Dealer are accurately recorded under the investor's Principal Securities Account or to the Securities Custody Account of the investor's designated third-party custodian, or to the Securities Deposit Account of the investor's designated depository.
6. Furnish the investor with Statement(s) of Securities Account, at least quarterly and whenever there is a movement in the investor's Principal Securities Account, through the investor's preferred mode of receipt of notice and/or statement;
7. Consistent with BTr Memoranda dated 28 December 2005, 12 January 2006 and 31 January 2006 and applicable Bangko Sentral regulations, disallow any increase in the holdings of beneficial owners of securities recorded in the sub-account of the Dealer, if any, existing as of 02 February 2006, for beneficial owners of securities who have either (a) declined in writing the delivery of his/its securities to a direct registry account under his or its name or a third-party custodian or (b) not responded to the Dealer's letter to the investor as regards the disposition of his/its securities. Any withdrawal or sale of the securities, either partial or total, under the sub-account of the Dealer for the beneficial owners may only be allowed if the Dealer is authorized in writing by the client/Investor. Such written authority shall be furnished by the Dealer to the BTr prior to the execution of the transaction.

Sec. 2. Obligations of the Dealer

The Dealer shall:

1. Assist the investor to open his/its individual Principal Securities Account (Name- On-Registry) with the RoSS through the CIS facility;
2. Conduct the Know your Client ("KYC") screening of its investors/clients referred to the BTr for the creation of the Principal Securities Account (Name-On-Registry) with the RoSS. In this connection it shall: (a) issue a certification to the BTr that it has conducted the necessary "KYC" screening; (b) maintain client identification records; (c) report any suspicious transaction in accordance with the provisions of R.A. No. 9160, otherwise known as the "Anti-Money Laundering Act of 2001", as amended, and its implementing rules and regulations; and whenever necessary, (d) afford BTr unchallenged access to said KYC records/documents. The same KYC or customer identification documents shall likewise be made available to regulators for verification upon request.
3. Transmit the investor's instructions to the RoSS for the creation/opening of a Principal Securities Account. For this purpose, the Dealer shall submit and/or inform the investor to submit to the BTr his/her settlement account maintained in a settlement bank of his/her choice, through which all relevant payments on the securities will be made by the BTr;
4. Upon the creation of the investor's Principal Securities Account with the BTr's RoSS to which the securities subject of a sale will be credited, immediately furnish the investor with the BTr's electronic confirmation of its creation. The Dealer shall also provide to the investor the BTr electronic confirmation that includes a statement on the credited amount of securities;
5. Ensure that all the necessary documents executed by the client investor are complete and submitted to BTr upon request;

6. Ensure that all government securities sold to investors are delivered to their appropriate Principal Securities Account with the RoSS, or to the account of the investor's designated custodian or securities depository;
7. Undertake not to misuse the investor's RoSS Account No., which may come into its possession upon the creation of a Principal Securities Account for the investor or on previous transactions with the investor;
8. Acquaint/apprise investors on the rules and procedure prescribed by the BTr in connection with investment and trading of scripless government securities, including but not limited to coupon payment, redemption value/proceeds of the investor's securities, legal encumbrances, and other relevant information relative to investor's security holdings. As a minimum, investors must be apprised of the Revised RoSS Procedure on Buy and Sell of Securities and recording of transfers through the RoSS-CIS facility found in the BTr website, with particular emphasis on the feature of non-tagging of securities to GSEDs, or non-exclusivity of the selling GSEDs for subsequent transactions;
9. Whenever designated as authorized agent and/or settlement bank, ensure confidentiality and prompt delivery of all notices and statements of securities account/ s to investors;
10. Ensure that all instructions transmitted to BTr concerning the securities account of clients-investors are legal, valid and duly authorized pursuant to an agreement, a special power of attorney, or any written authority executed by the client-investor in favor of the dealer; and

- A. Hereby agree to execute, the necessary written authority in favor of either the dealing Government Securities Eligible Dealer¹ (GSED) or Securities Dealer² for the creation of a Principal Securities Account with the RoSS or for the execution of trade transactions (i.e. buying and selling instructions, including relaying of instructions to "the CUSTODIAN" or "Central Securities Depository" to receive or deliver securities in order to consummate the buy/sell transactions) and to be bound by the provisions of a written authority or any relevant agreement I/we have entered into concerning my/ our government security holdings, thereby confirming my/our authority for BTr-RoSS to carry out and execute the acts or instructions referred to in the aforesaid documents;
- B. It is understood that the RoSS administered by the BTr is the official registry of ownership of or interest in government securities; that all government securities floated/originated by NG under its scripless policy are recorded in the RoSS as well as subsequent transfer of the same; and that I/we will abide by the rules and regulations of BTr-RoSS concerning government securities.

And further undertake as follows:

1. To create/open through the Client Interface System a Principal Securities Account with the RoSS to ensure that title of said scripless securities is officially recorded in my/our name and under my/our control.
2. That as a condition for the creation/opening of my/our Principal Securities Account with the RoSS, I/we have opened a bank account with (_____ as Settlement Bank) to which coupon and maturity proceeds and any other payments to be made on my/our government securities holdings will be credited; undertake to furnish the RoSS of said bank account number; and give notice at least three (3) business days prior to any coupon and/or maturity payment of any change in the Settlement Bank and/or bank account number.
3. That no transfer of securities shall be made (i) during the period of two (2) business days ending on (and including) the due date of any redemption payment of principal and (ii) during the period of two (2) business days ending on (and including) the due date of any coupon payment date (the "Closed Period"). I/We further acknowledge that the BTr shall prevent any transfer of the securities to be recorded in the RoSS during any Closed Period.
4. That in the case of outright sale transactions of government securities, including that of RTBs, I/we undertake to sell the same to any of the GSEDs or Securities Dealers, save those provided for under existing rules and regulations on government securities applicable to tax-exempt institutions, government-owned or controlled corporations and local government units. Otherwise, I/we shall have the said securities delivered to my/our agent/custodian for trading or any other transactions pursuant to a relevant written instruction/authority.

5. To receive notices and/or statements of account on a quarterly basis or whenever there is a movement in my Principal Securities Account from the RoSS through any of the following modes:

(Please indicate choice)

- ☐ Pick-up at the RoSS
☐ Registered Mail to Home/Office Address _____
☐ Deliver electronically to Agent
☐ Deliver electronically to Settlement Bank (for pick up)
☐ Email - email address _____

In the absence of an indicated choice, I/we understand that the BTr shall electronically deliver all Notices and Statements to my/our designated settlement bank.

Note: In addition to the indicated manner of receiving notice(s) and statement(s), Investor can directly secure from the BTr written copy of any notice, statement of account, or confirmation report, subject to prior notice to and in accordance with the procedures of the BTr.

I/We hereby agree to abide with the Schedule of Fees and the manner of collection, as may be prescribed by the BTr from time to time.

6. That I/we expressly agree and acknowledge that the crediting to the regular DDA of my/our settlement bank of coupons and/or redemption value due my/our scripless securities, shall constitute actual receipt of payment by me/us.
7. To hold the BTr, its officers, employees and agents free and harmless against all suits, actions, damages or claims arising from failure of my/our Settlement Bank to credit my/our bank account for coupons and maturity values on due date.
8. That all instructions affecting my/our scripless securities which are transmitted to or received in good faith the RoSS from myself/ourselves or my/our designated agent/ custodian are covered by relevant documentation indicating my/our express consent and authority.
9. That I/we expressly warrant and authorize the delivery of copies of all evidence of authority granted to my/our designated agent/custodian to transact on my/our scripless securities upon reasonable demand by BTr.
10. That I/we undertake to immediately notify the RoSS of any unauthorized ¹trade of my/ our scripless securities, and until receipt of such notice, transactions effected by BTr in good faith are deemed valid.
11. To render free and harmless the BTr, its officers, employees and agents for any claim or damages with respect to trade instructions carried out in good faith.
12. That while it is understood that BTr shall maintain the strict confidentiality of records in the RoSS, I/we hereby expressly waive and authorize BTr, to the extent allowed by law, to disclose relevant information in compliance with Anti-Money Laundering laws, rules and regulations.
13. To submit to the BTr the relevant authorizations issued to my/our agent, upon demand of BTr.

**THE GUIDELINES FOR THE IMPOSITION OF MONETARY PENALTY FOR VIOLATIONS/OFFENSES WITH SANCTIONS FALLING
UNDER SECTION 37 OF R. A. NO. 7653 ON QUASI-BANKS, DIRECTORS AND/OR OFFICERS
(Appendix to Sec. 001-Q, Sec. 002-Q, Sec. 499-Q, Sec. 1003-N (Sanctions), and
Circular No. 645 dated 13 February 2009)**

(Deleted by Circular No. 988 dated 20 December 2017)

PROMPT CORRECTIVE ACTION FRAMEWORK
(Appendix to Secs. 003-Q/S and 002-N)

In carrying out its primary objective of maintaining price stability conducive to a balanced and sustainable growth of the economy¹, the Bangko Sentral must necessarily maintain stability of the financial system through preservation of confidence therein. While preservation of confidence in the financial system may call for closure of mismanaged banks and/or financial entities under its jurisdiction, such closure is not the only option available to the Bangko Sentral. When a bank's closure, for instance, is adjudged by the Monetary Board to have adverse systemic consequences, the State may act in accordance with law to avert potential financial system instability or economic disruption.²

It is recognized that the closure of a bank or its intervention can be a costly and painful exercise. For this reason, the Bangko Sentral, as supervisor, can enforce PCA³ as soon as a bank's condition indicates higher-than normal risk of failure.

PCA essentially involves the Bangko Sentral directing the board of directors of a bank, prior to an open outbreak of crisis, to institute strong measures to restore the entity to normal operating condition within a reasonable period, ideally within one (1) year. These measures may include any or all of the following components:

- (1) Implementation of a capital restoration plan;
- (2) Implementation of a business improvement plan; and
- (3) Implementation of corporate governance reforms.

Capital restoration plan – this component contains the schedule for building up a bank's capital base (primarily through an increase in Tier 1 capital) to a level commensurate to the underlying risk exposure and in full compliance with minimum capital adequacy requirement. In conjunction with this plan, the Bangko Sentral may also require any one (1), or a combination of the following:

1. Limit or curtail dividend payments to common stockholders;
2. Limit or curtail dividend payments to preferred stockholders; and
3. Limit or curtail fees and/or other payments to related parties.

Business improvement plan – this component contains the set of actions to be taken immediately to bring about an improvement in the entity's operating condition, including but not limited to any one (1), or a combination of the following:

1. Reduce risk exposures to manageable levels;
2. Strengthen risk management;
3. Curtail or limit the bank's scope of operations including those of its subsidiaries or affiliates where it exercises control;
4. Change or replace management officials;
5. Reduce expenses; and
6. Other measures to improve the quality of earnings.

Corporate governance reforms – this component contains the actions to be immediately taken to improve the composition and/or independence of the board of directors and to enhance the quality of its oversight over the management and operation of the entity. This also includes measures to minimize potential shareholder conflicts of interest detrimental to its creditors, particularly, depositors in a bank. This likewise lays down measures to provide an acceptable level of financial transparency to all stakeholders. Such actions could include, but are not limited to, any one (1), or a combination of the following:

1. A change in the composition of the board of directors or any of the mandatory committees (under the MORNBFII);
2. An enhancement to the frequency and/or depth of reporting to the board of directors;
3. A reduction in exposures to and/or a termination or reduction of business relationships with affiliates that pose excessive risk or are inherently disadvantageous to the supervised FI; and
4. A change of external auditor.

A bank may be subject to PCA whenever any or all of the following conditions obtain:

- (1) When either of the Total Risk-Based Ratio⁴, Tier 1 Risk-Based Ratio, or Leverage Ratio⁵ falls below ten percent

¹ Section 3 of Republic Act No. 7653

² Section 17 and 18 of Republic Act No. 3591, as amended

³ Section 4.6 of Republic Act No. 8791

⁴ Otherwise known as CAR

(10%), six percent (6%) and five percent (5%), respectively, or such other minimum levels that may be prescribed for the said ratios under relevant regulations, and/or the combined capital account falls below the minimum capital requirement prescribed under Sec. 121-Q;

- (2) CAMELS composite rating is less than “3” or a Management component rating of less than “3”;
- (3) A serious supervisory concern has been identified that places a bank at more- than-normal risk of failure in the opinion of the director of the Examination Department concerned, which opinion is confirmed by the Monetary Board. Such concerns could include, but are not limited, to any one (1) or a combination of the following:
 - a. Finding of unsafe and unsound activities that could adversely affect the interest of depositors and/or creditors;
 - b. A finding of repeat violations of law or the continuing failure to comply with Monetary Board directives; and
 - c. Significant reporting errors that materially misrepresent the bank’s financial condition.

The initiation of PCA shall be recommended by the Deputy Governor of the supervision sector of the Bangko Sentral to the Monetary Board for approval. Any initiation of PCA shall be reported to the PDIC for notation. Upon PCA initiation, the Bangko Sentral shall require the bank to enter into a MOU committing to the PCA plan. The MOU shall be subject to approval by the Monetary Board.

In order to monitor compliance with the PCA, quarterly progress reports shall be made. The Bangko Sentral reserves the right to conduct periodic on-site visits outside of regular examination to validate compliance with the PCA plan.

Subject to Monetary Board approval, sanctions may be imposed on any bank subject to PCA whenever there is unreasonable delay in entering into a PCA plan or when PCA is not being complied with. These may include any or all of the following:

- (1) monetary penalty on or curtailment or suspension of privileges enjoyed by the board of directors or responsible officers;
- (2) restriction on existing activities that the supervised FI may undertake;
- (3) denial of application for branching and other special authorities;
- (4) denial or restriction of access to Bangko Sentral credit facilities; and
- (5) restriction on declaration of dividends.

On the other hand, if the bank subject to PCA promptly implements a PCA plan and substantially complies with its conditions, it may continue to have access to Bangko Sentral credit facilities notwithstanding non-compliance with standard conditions of access to such facilities. The Deputy Governor, appropriate supervising department of the Bangko Sentral shall recommend such exemption to the Monetary Board for approval.

In cases where a bank’s problems are deemed to be exceptionally serious from the outset, or when a bank is unwilling to submit to the PCA or unable to substantially comply with an agreed PCA plan, the Deputy Governor of the supervising sector of the Bangko Sentral may immediately recommend to the Monetary Board more drastic actions as prescribed under Sec. 29 (*conservatorship*) and Sec. 30 (*receivership*) of R.A. No. 7653.

Subject to Monetary Board approval, the PCA status of a bank may be lifted: *Provided*, That the bank fully complies with the terms and conditions of its MOU and: *Provided, further*, That the Deputy Governor of the supervision sector of the Bangko Sentral has determined that the financial and operating condition of the bank no longer presents a risk to itself or the financial system. Such improved assessment shall be immediately reported to the PDIC.

⁵ Total Capital / Total Assets

GUIDELINES ON SUPERVISION BY RISK **(Appendix to Secs. 121-N and 141-Q/S)**

I. Background

It must be recognized that banking is a business of taking risks in order to earn profits. While banking risks historically have been concentrated in traditional banking activities, the financial services industry has evolved in response to market-driven, technological, and legislative changes. These changes have allowed FIs to expand product offerings, geographic diversity, and delivery systems. They have also increased the complexity of the FI's consolidated risk exposure. Because of this complexity, FIs must evaluate, control, and manage risk according to its significance. The FI's evaluation of risk must take into account how non-bank activities within a banking organization affect the FI. Consolidated risk assessments should be a fundamental part of managing the FI. Large FIs assume varied and complex risks that warrant a risk-oriented supervisory approach.

II. Statement of policy

The existence of risk is not necessarily a reason for concern. Likewise, the existence of high risk in any area is not necessarily a concern, so long as management exhibits the ability to effectively manage that level of risk. Under this approach, the Bangko Sentral will not necessarily attempt to restrict risk-taking but rather ensure that FIs identify, understand, and control the risks they assume. As an organization grows more diverse and complex, the FI's risk management processes must keep pace. When risk is not properly managed, Bangko Sentral will direct FI management to take corrective action such as reducing exposures, increasing capital, strengthening risk management processes or a combination of these actions. In all cases, the primary concern of the Bangko Sentral is that the FI operates in a safe and sound manner and maintains capital commensurate with its risks. Further guidance on risk management issues will be addressed in subsequent issuances that are part of the overall risk assessment program.

III. Guidelines for risk management

For purposes of the discussion of risk, the Bangko Sentral will evaluate banking risk relative to its impact on capital and earnings. From a supervisory perspective, risk is the potential that events, expected or unanticipated, may have an adverse impact on the FI's capital or earnings.

The appropriate supervising department of the Bangko Sentral has defined eight (8) categories of risk for FI supervision purposes. These risks are: credit, market, interest rate, liquidity, operational, compliance, strategic, and reputation. These categories are not mutually exclusive; any product or service may expose the FI to multiple risks. In addition, they can be interdependent. Increased risk in one (1) category can increase risk in other categories.

Types and definition of risk

1. *Credit risk* arises from counterparty's failure to meet the terms of any contract with the FI or otherwise perform as agreed. Credit risk is found in all activities where success depends on counterparty, issuer, or borrower performance. It arises any time FI funds are extended, committed, invested, or otherwise exposed through actual or implied contractual agreements, whether reflected on or off the balance sheet. Credit risk is not limited to the loan portfolio.
2. *Market risk* is the risk to earnings or capital arising from adverse movements in factors that affect the market value of both on and off-balance sheet instruments, products, and transactions in an institution's overall portfolio. Market risk arises from market-making, dealing, or position-taking in instruments, structure or strategies the income from which are sensitive to movements in interest rates, foreign exchange rates, credit spreads and equities and commodities prices.
3. Interest rate risk in the banking book (IRRBB) is the current and prospective risk to earnings and capital arising from adverse movements in interest rates that affect banking book positions. IRRBB has three sub-types that relate to the level and structural characteristics of interest rates: (a) *gap risk* which arises from the term structure of banking book instruments, and describes the risk arising from the differences in timing of instruments' rate changes; (b) *basis risk* that describes the impact of relative changes in interest rates for financial instruments that have similar re-pricing tenors but are priced using different interest rate indices; and (c) *option risk* which arises from option positions or from options embedded in a QB's assets, liabilities and/or off-balance sheet items that alter the level and timing of their cash flows.
4. *Liquidity risk* is generally defined as the current and prospective risk to earnings or capital arising from an FI's inability to meet its obligations when they become due without incurring unacceptable losses or costs. Liquidity risk includes the inability to manage unplanned decreases or changes in funding sources.

5. *Operational risk* is the current and prospective risk to earnings or capital arising from fraud, error, and the inability to deliver products or services, maintain a competitive position, and manage information. Risk is inherent in efforts to gain strategic advantage, and in the failure to keep pace with changes in the financial services marketplace. Operational risk is evident in each product and service offered. Operational risk encompasses: product development and delivery, operational processing, systems development, computing systems, complexity of products and services, and the internal control environment.
6. *Compliance risk* is the current and prospective risk to earnings or capital arising from violations of, or non-conformance with, laws, rules, regulations, prescribed practices, internal policies and procedures, or ethical standards. Compliance risk also arises in situations where the laws or rules governing certain FI products or activities of the FI's clients may be ambiguous or untested. This risk exposes the FI to fines, payment of damages, and the voiding of contracts. Compliance risk can lead to diminished reputation, reduced franchise value, limited business opportunities, reduced expansion potential, and lack of contract enforceability.
7. *Strategic risk* is the current and prospective impact on earnings or capital arising from adverse business decisions, improper implementation of decisions, or lack of responsiveness to industry changes. This risk is a function of the compatibility of an organization's strategic goals, the business strategies developed to achieve those goals, the resources deployed against these goals, and the quality of implementation. The resources needed to carry out business strategies are both tangible and intangible. They include communication channels, operating systems, delivery networks, and managerial capacities and capabilities. The organization's internal characteristics must be evaluated against the impact of economic, technological, competitive, regulatory, and other environmental changes.
8. *Reputation risk* is the current and prospective impact on earnings or capital arising from negative public opinion. This affects the FI's ability to establish new relationships or services or continue servicing existing relationships. This risk may expose the FI to litigation, financial loss, or a decline in its customer base. In extreme cases, FIs that lose their reputation may suffer a run on deposits. Reputation risk exposure is present throughout the organization and requires the responsibility to exercise an abundance of caution in dealing with customers and the community.

IV. FI management of risk

Because market conditions and company structures vary, there is no single risk management system that works for all FIs. Each FI should tailor its risk management program to its needs and circumstances. Sound risk management systems, however, have several things in common; for example, they are independent of risk-taking activities. Regardless of the risk management program's design, each program should:

1. *Identify risk:* To properly identify risks, an FI must recognize and understand existing risks or risks that may arise from new business initiatives, including risks that originate in non-bank subsidiaries and affiliates. Risk identification should be a continuing process, and should occur at both the transaction and portfolio level.
2. *Measure risk:* Accurate and timely measurement of risk is essential to effective risk management systems. An FI that does not have a risk measurement system has limited ability to control or monitor risk levels. Further, the more complex the risk, the more sophisticated should be the tools that measure it. An FI should periodically conduct tests to make sure that the measurement tools it uses are accurate. Good risk measurement systems assess the risks of both individual transactions and portfolios. During the transition process in FI mergers and consolidations, the effectiveness of risk measurement tools is often impaired because of the technological incompatibility of the merging systems or other problems of integration. Therefore, the resulting FI must make a strong effort to ensure that risks are appropriately measured across the consolidated entity. Larger, more complex FIs must assess the impact of increased transaction volume across all risk categories.
3. *Monitor risk:* FIs should monitor risk levels to ensure timely review of risk positions and exceptions. Monitoring reports should be frequent, timely, accurate, and informative and should be distributed to appropriate individuals to ensure action, when needed. For large, complex FIs, monitoring is essential to ensure that management's decisions are implemented for all geographies, products, and legal entities.
4. *Control risk:* The FI should establish and communicate risk limits through policies, standards, and procedures that define responsibility and authority. These control limits should be valid tools that management should be able to adjust when conditions or risk tolerances change. The FI should have a process to authorize exceptions or changes to risk limits when warranted. In merging or consolidating FIs, the transition should be tightly controlled; business plans, lines of authority, and accountability should be clear. Large, diversified FIs should have strong risk controls covering all geographies, products, and legal entities.

The Board must establish the FI's strategic direction and risk tolerances. In carrying out these responsibilities, the Board should approve policies that set operational standards and risk limits. Well-designed monitoring systems will allow the Board to hold management accountable for operating within established tolerances. Capable management and appropriate staffing are also essential to effective risk management. FI management is responsible for the implementation, integrity, and maintenance of risk management systems. Management also must keep the directors adequately informed. Management must:

- a. Implement the FI's strategy;
- b. Develop policies that define the FI's risk tolerance and ensure that they are compatible with strategic goals;
- c. Ensure that strategic direction and risk tolerances are effectively communicated and adhered to throughout the organization;
- d. Oversee the development and maintenance of management information systems to ensure that information is timely, accurate, and pertinent.

V. Assessment of risk management

When assessing risk management systems, the Bangko Sentral will consider the FI's policies, processes, personnel, and control systems. Significant deficiencies in any one of these areas will cause the Bangko Sentral to expect the FI to compensate for these deficiencies in their overall risk management process.

Policies are statements of the FI's commitment to pursue certain results. Policies often set standards (on risk tolerances, for example) and recommend courses of action. Policies should express an FI's underlying mission, values, and principles. A policy review should always be triggered when an FI's activities or risk tolerances change.

Processes are the procedures, programs, and practices that impose order on the FI's pursuit of its objectives. Processes define how daily activities are carried out. Effective processes are consistent with the underlying policies, are efficient, and are governed by checks and balances.

Personnel are the staff and managers that execute or oversee processes. Good staff and managers perform as expected, are qualified, and competent. They understand the FI's mission, values, policies, and processes. Compensation programs should be designed to attract, develop, and retain qualified personnel. In addition, compensation should be structured to reward contributions to effective risk management.

Control systems include the tools and information systems (e.g., internal/ external audit programs) that FI managers use to measure performance, make decisions about risk, and assess the effectiveness of processes. Feedback should be timely, accurate, and pertinent.

VI. Supervision by Risk

Using the core assessment standards of the Bangko Sentral as guide, an examiner will obtain both a current and prospective view of an FI's risk profile. When appropriate, this profile will incorporate potential material risks to the FI from non-bank affiliates' activities conducted by the FI. Subsidiaries and branches of foreign FIs should maintain sufficient documentation onsite to support the analysis of their risk management. This risk assessment drives supervisory strategies and activities. It also facilitates discussions with FI management and directors and helps to ensure more efficient examinations. The core assessment complements the risk assessment system (RAS). Examiners document their conclusions regarding the quantity of risk, the quality of risk management, the level of supervisory concern (measured as aggregate risk), and the direction of risk using the RAS. Together, the core assessment and RAS give the appropriate supervising department of the Bangko Sentral the means to assess existing and emerging risks in FIs, regardless of size or complexity.

Specifically, supervision by risk allocates greater resources to areas with higher risks. The appropriate supervising department of the Bangko Sentral will accomplish this by:

1. Identifying risks using common definitions. The categories of risk, as they are defined, are the foundation for supervisory activities.
2. Measuring risks using common methods of evaluation. Risk cannot always be quantified in pesos. For example, numerous internal control deficiencies may indicate excessive operational risk.
3. Evaluating risk management to determine whether FI systems and processes permit management to manage and control existing and prospective levels of risk.

The appropriate supervising department of the Bangko Sentral will discuss preliminary conclusions regarding risks with FI management. Following these discussions, it will adjust conclusions when appropriate. Once the risks have been clearly identified and communicated, it can then focus supervisory efforts on the areas of greater risk within the FI, the consolidated banking organization, and the banking system.

To fully implement supervision by risk, the appropriate supervising department of the Bangko Sentral will also assign CAMELS ratings to the lead FI and all affiliated FIs. It may determine that risks in individual FIs are increased, reduced, or mitigated in light of the consolidated risk profile of the FI as a whole. To perform a consolidated analysis, it obtain pertinent information from FIs and affiliates, and verify transactions flowing between FIs and affiliates.

(Circular No. 1044 dated 6 August 2019)

GUIDELINES ON MARKET RISK MANAGEMENT

(Appendix to Secs. 123-N, 143-S/P and 144-Q)

I. Background

The globalization of financial markets, increased transaction volume and volatility, and the introduction of complex products and trading strategies have made market risk management take on a more important role in risk management. FIs now use a wide range of financial products and strategies, ranging from the most liquid fixed income securities to complex derivative instruments and structured products. The risk dimensions of these products and strategies must be fully understood, monitored, and controlled by a FI.

II. Statement of policy

For purposes of these guidelines, FIs refer to banks and NBFIs supervised by the Bangko Sentral and their respective financial subsidiaries. The level of market risk assumed by an FI is not necessarily a concern, so long as the FI has the ability to effectively manage the risk. Therefore, the Bangko Sentral will not restrict the level of risk assumed by an FI, or the scope of its financial market activities, so long as the FI is authorized to engage in such activities and:

- Understands, measures, monitors and controls the risk assumed,
- Adopts risk management practices whose sophistication and effectiveness are commensurate to the risk being monitored and controlled, and
- Maintains capital commensurate with the risk exposure assumed.

If the Bangko Sentral determines that an FI's risk exposures are excessive relative to the FI's capital, or that the risk assumed is not well managed, the Bangko Sentral will direct the FI to reduce its exposure to an appropriate level and/or strengthen its risk management systems. In evaluating the above parameters, the Bangko Sentral expects FIs to have sufficient knowledge, skills and appropriate system and technology necessary to understand and effectively manage their market risk exposures. The principles set forth in these guidelines shall be used in determining the adequacy and effectiveness of an FI's market risk management process, the level and trend of market risk exposure and adequacy of capital relative to exposure. The Bangko Sentral shall consider the following factors:

1. The major sources of market risk exposure and the complexity and level of risk posed by the assets, liabilities, and off-balance-sheet activities of the FI;
2. The FI's actual and prospective level of market risk in relation to its earnings, capital, and risk management systems;
3. The adequacy and effectiveness of the FI's risk management practices and strategies as evidenced by:
 - The adequacy and effectiveness of board and senior management oversight;
 - Management's knowledge and ability to identify and manage sources of market risk as measured by past and projected financial performance;
 - The adequacy of internal measurement, monitoring, and management information systems;
 - The adequacy and effectiveness of risk limits and controls that set tolerances on income and capital losses;
 - The adequacy and frequency of the FI's internal review and audit of its market risk management process.

Further, an FI's market risk management system shall be assessed under the FI's general risk management framework, consistent with the guidelines on supervision by risk as set forth under Appendix Q-41.

III. Market risk management process

An FI's market risk management process should be consistent with its general risk management framework and should be commensurate with the level of risk assumed. Although there is no single market risk management system that works for all FIs, an FI's market risk management process should:

1. *Identify market risk.* Identifying current and prospective market risk exposures involves understanding the sources of market risk arising from an FI's existing or new business initiatives. An FI should have procedures in place to identify and address the risk posed by new products and activities prior to initiating the new products or activities.

Identifying market risk also includes identifying an FI's desired level of risk exposure based on its ability and willingness to assume market risk. An FI's ability to assume market risk depends on its capital base and the skills/capabilities of its management team. In any case, market risk identification should be a continuing process and should occur at both the transaction and portfolio level.

2. *Measure market risk.* Once the sources and desired level of market risk have been identified, market risk measurement models can be applied to quantify an FI's market risk exposures. However, market risk cannot be managed in isolation. Market risk measurement systems should be integrated into an FI's general risk measurement system and results from models should be interpreted in coordination with other risk exposures. Further, the more complex an FI's financial market activities are, the more sophisticated the tools that measure market risk exposures arising from such complex activities should be.
3. *Control market risk.* Quantifying market risk exposures help an FI align existing exposures with the identified desired level of exposures. Controlling market risk usually involves establishing market risk limits that are consistent with an FI's market risk measurement methodologies. Limits may be applied through an outright prohibition on exposures above a pre-set threshold, by restraining activities or deploying strategies that alter the risk-return characteristics of on-and off-balance sheet positions. Appropriate pricing strategies may likewise be used to control market risk exposures.
4. *Monitor market risk.* Ensuring that market risk exposures are adequately controlled requires the timely review of market risk positions and exceptions. Monitoring reports should be frequent, timely and accurate. For large, complex FIs, consolidated monitoring should be employed to ensure that management's decisions are implemented for all geographies, products, and legal entities.

IV. Definition and sources of market risk

Market risk is the risk to earnings or capital arising from adverse movements in factors that affect the market value of instruments, products, and transactions in an institution's overall portfolio, both on or off-balance sheet. Market risk arises from market-making, dealing, and position-taking in interest rate, foreign exchange, equity and commodities markets.

Interest rate risk is the current and prospective risk to earnings or capital arising from movements in interest rates.

FX risk refers to the risk to earnings or capital arising from adverse movements in FX rates.

Equity risk is the risk to earnings or capital arising from movements in the value of an institution's equity-related holdings.

Commodity risk is the risk to earnings or capital due to adverse changes in the value of an institution's commodity-related holdings.

While there are generally four sources of market risk, as defined herein, the focus of this Appendix is interest rate risk and FX risk. Nevertheless, the principles set forth in the market risk management process and sound risk management practices are generally applicable to all sources of market risk.

a. Interest rate risk

Interest rate risk is the risk that changes in market interest rates will reduce current or future earnings and/or the economic value of a FI. Accepting interest rate risk is a normal part of financial intermediation and is a major source of profitability and shareholder value. Excessive or inadequately understood and controlled interest rate risk, however, can pose a significant threat to an FI's earnings and capital. Thus, an effective risk management process that maintains interest rate risk within prudent levels is essential to the safety and soundness of FIs.

1. Sources of interest rate risk

a. Re-pricing risk

This is the most common type of interest rate risk and arises from differences in the maturity (for fixed-rate instruments) and re-pricing (for floating-rate instruments) of an FI's assets, liabilities and off-balance sheet positions. While such re-pricing mismatches are fundamental to the business of financial intermediation, they also expose an FI's earnings and underlying economic value to changes based on fluctuations in market interest rates.

b. Basis risk

Basis risk arises from imperfect correlations among the various interest rates earned and paid on financial instruments with otherwise similar re-pricing characteristics. A shift in the relationship between these rates or interest rates in different markets can give rise to unexpected changes in the cash flows and earnings spread between assets, liabilities and off-balance sheet instruments of similar maturities or re-pricing frequencies.

c. Yield curve risk

Yield curve risk is the risk that rates of different maturities may change by a different magnitude. It arises from variations in the movement of interest rates across the maturity spectrum of the same index or market. Yield curves can steepen, flatten or even invert. Unanticipated shifts of the yield curve may have adverse effects on an FI's earnings or underlying economic value.

d. Option risk

Option risk is the risk that the payment patterns of assets and liabilities will change when interest rates change. Formally, an option gives the option holder the right, but not the obligation to buy, sell, or in some manner alter the cash flow of an instrument or financial contract. Options may be stand-alone instruments or may be embedded within otherwise standard instruments. Examples of instruments with embedded options include various types of bonds, notes, loans or even deposits which give a counter-party the right to prepay or even extend the maturity of an instrument or to change the rate paid. In some cases, the holder of an option can force a counter-party to pay additional notional, or to forfeit notional already paid.

The option holder's ability to choose to alter cash flows creates an asymmetric performance pattern. If not adequately managed, the asymmetrical pay-off characteristics of instruments with optionality can pose significant risk particularly to those who sell the options, since the options held, both explicit and embedded, are generally exercised to the advantage of the holder and the disadvantage of the seller.

2. Measuring the effects of interest rate risk

Changes in interest rates affect both earnings and the economic value of an FI. This has given rise to two separate, but complementary, perspectives for evaluating an FI's exposure to interest rate risk.

Exposure to earnings typically receives the most attention. Many FIs use a modified interest rate gap or earnings simulation model to forecast earnings over a running next twelve (12) month time horizon under a variety of interest rate scenarios. Given that a large portion of a typical FI's liabilities and even assets re-price in less than one (1) year, there is value in such a system. For example, earnings are a key measure in determining if the board of directors is creating value for the shareholders.

However, earnings over the next twelve (12) months do not present a complete picture of an FI's exposure to interest rate risk. Many FIs hold assets such as bonds and fixed rate loans with extended terms. The full effect of changes in interest rates on the value of these assets cannot be fully captured by a short-term earnings model. Thus, it is also important to consider a more comprehensive picture of the FI's exposure to interest rate risk through an assessment of the FI's economic value.

The Bangko Sentral will not consider market risk to be "well managed" unless the FI has fully implemented an effective risk measurement system whose sophistication is commensurate with the nature and complexity of the risk assumed. Smaller FIs with non-complex single currency balance sheets may be able to use a single non-complex measurement methodology, such as re-pricing gap analysis to manage their interest rate risk. However, large commercial or universal banks with complex, multi-currency balance sheets, or FIs that accept large exposures of interest rate risk relative to capital will be expected to measure interest rate risk through a combination of earnings simulation and economic value. Trading activities should continue to be managed through the use of an effective, and independently validated Value-at-Risk (VaR) methodology.

a. *Earnings perspective*

An FI should consider how changes in interest rates may affect future earnings. The focus of analysis under the earnings perspective is the impact of changes in interest rates on accrual or reported earnings. Volatility in earnings should be monitored and controlled because reduced earnings or outright losses can threaten the financial stability of an FI by undermining its capital adequacy. Further, unexpected volatility in earnings can undermine an FI's reputation and result in an erosion of public confidence.

Fluctuations in interest rates generally have the greatest impact on reported earnings through changes in net interest income (i.e., the difference between total interest income and total interest expense). Thus, the Bangko Sentral will expect FIs to adopt systems that are capable of estimating changes to net interest income under a variety of interest rate scenarios. For example, non-complex FIs with traditional business lines and balance sheets could potentially limit their simulations to a single ± 100 basis point parallel rate shock. However, FIs that hold significant levels of derivatives and structured products relative to capital should incorporate more severe rate movements (e.g., ± 100 , 200 and 300 basis points) to determine what happens if strike prices are breached or "events" are triggered. Further, the Bangko Sentral will expect an FI to employ alternative scenarios such as changes to the shape of the yield curve if the FI is exposed to significant levels of yield curve or basis risk.

Changes in market interest rates may also affect the volume of activities that generate fee income and other non-interest income. Thus, FIs should incorporate a broader focus on overall net income – incorporating both interest and non-interest income and expenses – if the FI reports significant levels of interest rate sensitive non-interest income.

b. *Economic value perspective*

The economic value of an FI can be viewed as the present value of an FI's expected net cash flows, defined as the expected cash flows from assets minus the expected cash flows from liabilities plus the expected net cash flows on off-balance sheet positions. As such, it provides a more comprehensive view of the potential long-term effects of changes in interest rates than is offered by the earnings perspective.

While a variety of models are available, the Bangko Sentral expects that economic value models will incorporate all significant classes of assets, liabilities and off-balance sheet. As with earnings at risk, the FI should incorporate a variety of interest rate scenarios to ensure that any strike prices, caps, limits, or "events" are breached in the simulation. Also, FIs with significant levels of basis or yield curve risk are expected to add scenarios such as alternative correlations between interest rates and/or a flatter or steeper yield curve.

c. *Managing earnings and economic exposures*

Management must make certain trade-offs when immunizing earnings and economic value from interest rate risk. When earnings are immunized, economic value becomes more vulnerable, and vice versa. The economic value of equity, like that of other financial instruments, is a function of the discounted net cash flows it is expected to earn in the future. If an FI has immunized earnings, such that expected earnings remain constant for any change in interest rates, the discounted value of those earnings will be lower if interest rates rise. Hence, its economic value will fluctuate with rate changes. Conversely, if an FI fully immunizes its economic value, its periodic earnings must increase when rates rise and decline when interest rates fall.

d. *FX risk*

FX risk is the risk to earnings or capital arising from changes in FX rates. In contracting to meet clients' foreign currency needs or simply buying and selling FX for its own account, a FI undertakes a risk that exchange rates might change subsequent to the time the contract is consummated. FX risk may also arise from maintaining an open FX position. Thus, managing FX risk includes monitoring an FI's net FX position.

An FI has a net position in a foreign currency when its assets, including spot and future contracts to purchase, and its liabilities, including spot and future contracts to sell, in that currency are not equal. An excess of assets over liabilities is called a net "long" position and liabilities in excess of assets, a net "short" position.

It should be noted that when engaging in FX activities, FIs are also exposed to other risks including liquidity and credit risks, particularly related to the settlement of FX contracts. FIs should have an integrated approach to risk management in relation to its FX activities: FX risk should be reviewed together with other risks to determine the FI's overall risk profile. Liquidity and settlement risks related to FX activities are outside the scope of these guidelines. Nevertheless, future guidelines may be issued on these risk areas.

V. Sound market risk management practices

When assessing an FI's market risk management system, the Bangko Sentral expects an FI to address the four (4) basic elements of a sound risk management system:

1. Active and appropriate Board and senior management oversight;
2. Adequate risk management policies and procedures;
3. Appropriate risk measurement methodologies, limits structure, monitoring and management information systems; and
4. Comprehensive internal controls and independent audits.

The specific manner in which an FI applies these elements in managing its market risk will depend upon the complexity and nature of its activities, as well as the level of market risk exposure assumed. What constitutes adequate market risk management practices can therefore vary considerably. Regardless of the systems used, the Bangko Sentral will not consider market risk to be well managed unless all four of the above elements are deemed to be at least "satisfactory".

As with other risk factor categories, banking groups (banks and subsidiaries/affiliates) should monitor and manage market risk exposures of the group on a consolidated and comprehensive basis. At the same time, however, FIs should fully recognize any legal distinctions and possible obstacles to cash flow movements among affiliates and

adjust their risk management practices accordingly. While consolidation may provide a comprehensive measure in respect of market risk, it may also underestimate risk when positions in one affiliate are used to offset positions in another affiliate. This is because a conventional accounting consolidation may allow theoretical offsets between such positions from which an FI may not in practice be able to benefit because of legal or operational constraints.

A. Active and appropriate board and senior management oversight¹

Effective board and senior management oversight of an FI's market risk activities is critical to a sound market risk management process. It is important that these individuals are aware of their responsibilities with regard to market risk management and how market risk fits within the organization's overall risk management framework.

Responsibilities of the board of directors

The board of directors has the ultimate responsibility for understanding the nature and the level of market risk taken by the FI. In order to carry out its responsibilities, the Board should:

1. Establish and guide the FI's strategic direction and tolerance for market risk. While it is not possible to provide a comprehensive list of documents to consider, the Bangko Sentral should see a clear and documented pattern whereby the Board reviews, discusses and approves strategies and policies with respect to market risk management. In addition, there should be evidence that the Board periodically reviews and discusses the overall objectives of the FI with respect to the level of market risk acceptable to the FI.
2. Identify senior management who has the authority and responsibility for managing market risk and ensure that senior management takes the necessary steps to monitor and control market risk consistent with the approved strategies and policies. The Bangko Sentral should be able to discern a clear hierarchical structure with a clear assignment of responsibility and authority.
3. Monitor the FI's performance and overall market risk profile, ensuring that the level of market risk is maintained within tolerance and at prudent levels supported by adequate capital. The Board should be regularly informed of the market risk exposure of the FI and any breaches to established limits for appropriate action. Reporting should be timely and clearly.
4. Ensure that the FI implements sound fundamental principles that facilitate the identification, measurement, monitoring and control of market risk. The board of directors should encourage discussions among its members and senior management – as well as between senior management and others in the FI – regarding the FI's market risk exposures and management process.
5. Ensure that adequate resources, both technical and human resources, are devoted to market risk management. While board members need not have detailed technical knowledge of complex financial instruments, legal issues or sophisticated risk management techniques, they have the responsibility to ensure that the FI has personnel available who have the necessary technical skills to evaluate and control market risk. This responsibility includes ensuring that there is continuous training of personnel on market risk management and providing competent technical staff for the internal audit function.

Responsibilities of senior management

Senior management is responsible for ensuring that market risk is adequately managed for both long-term and day-to-day basis. In managing the FI's activities, senior management should:

1. Develop and implement policies, procedures and practices that translate the board's goals, objectives and risk tolerances into operating standards that are well understood by personnel and that are consistent with the board's intent. Senior management should also periodically review the organization's market risk management policies and procedures to ensure that they remain appropriate and sound.
2. Ensure adherence to the lines of authority and responsibility that the board has established for measuring, managing, and reporting market risk exposures.
3. Maintain appropriate limits structure, adequate systems for measuring market risk, and standards for measuring performance.

¹ This section refers to a management structure composed of a board of directors and senior management. The Bangko Sentral is aware that there may be differences in some FIs as regards the organizational framework and functions of the board of directors and senior management. For instance, branches of foreign banks have board of directors located outside of the Philippines and are overseeing multiple branches in various countries. In this case, "board-equivalent" committees are appointed. Owing to these differences, the notions of the board of directors and the senior management are used in these guidelines not to identify legal constructs but rather to label two decision-making functions within a FI.

4. Oversee the implementation and maintenance of management information and other systems to identify, measure, monitor, and control the FI's market risk.
5. Establish effective internal controls over the market risk management process.
6. Ensure that adequate resources are available for evaluating and controlling market risk. Senior management of FIs, including branches of foreign banks, should ensure that analysis and market risk management activities are conducted by competent staff with technical knowledge and experience consistent with the nature and scope of the FI's activities. There should be sufficient depth in staff resources to manage these activities and to accommodate the temporary absence of key personnel and normal succession.

In evaluating the quality of oversight, the Bangko Sentral shall evaluate how the board and senior management carry out the above functions/responsibilities. Further, sound management oversight is highly related to the quality of other areas/elements of an FI's risk management system. Thus, even if board and senior management exhibit active oversight, the FI's policies, procedures, measurement methodologies, limits structure, monitoring and information systems, controls and audit must be considered adequate before quality of board and senior management can be considered at least "satisfactory".

Lines of responsibility and authority

FIs should clearly define the individuals and/or committees responsible for managing market risk and should ensure that there is adequate separation of duties in key elements of the risk management process to avoid potential conflicts of interest. Management should ensure that sufficient safeguards exist to minimize the potential that individuals initiating risk-taking positions may inappropriately influence key control functions of the market risk management process. FIs should therefore have risk measurement, monitoring, and control functions with clearly defined duties that are sufficiently independent from position-taking functions of the FI and which report risk exposures directly to the board of directors.

The nature and scope of safeguards to minimize potential conflicts of interest should be in accordance with the size and structure of an FI. Larger or more complex FIs should have a designated independent unit responsible for the design and administration of the FI's market risk measurement, monitoring and control functions.

B. Adequate risk management policies and procedures

An FI's market risk policies and procedures should be clearly defined, documented and duly approved by the board of directors. Policies and procedures should be consistent with the nature and complexity of the FI's activities. When reviewing banking groups, the Bangko Sentral will assess whether adequate and effective policies and procedures have been adopted and implemented across all levels of the organization.

Policies and procedures should delineate lines of responsibility and accountability and should clearly define authorized instruments, hedging strategies, position-taking opportunities, and the market risk models used to quantify market risk. Market risk policies should also identify quantitative parameters that define the acceptable level of market risk for the FI. Where appropriate, limits should be further specified for certain types of instruments, portfolios, and activities. All market risk policies should be reviewed periodically and revised as needed. Management should define the specific procedures to be used for identifying, reporting and approving exceptions to policies, limits, and authorizations.

It is important that FIs identify market risk, as well as other risks, inherent in new products and activities and ensure these are subject to adequate procedures and controls before the new products and activities are introduced or undertaken. Specifically, new products and activities should undergo a careful pre-acquisition review to ensure that the FI understands their market risk characteristics and can incorporate them into its risk management process. Major hedging or risk management initiatives should be approved in advance by the board or its appropriate delegated committee.

Proposals and the subsequent new product/activity review should be formal and written. For purposes of managing market risk inherent in new products, proposals should, at a minimum, contain the following features:

1. Description of the relevant product or strategy;
2. Use/purpose of the new product/activity;
3. Identification of the resources required and unit/s responsible for establishing sound and effective market risk management of the product or activity;
4. Analysis of the reasonableness of the proposed activities in relation to the FI's overall financial condition and capital levels; and
5. Procedures to be used to measure, monitor, and control the risks of the proposed product or activity.

- C. Appropriate risk measurement methodologies, limits structure, monitoring, and management information system

Market risk measurement models/methodologies

It is essential that FIs have market risk measurement systems that capture all material sources of market risk and that assess the effect of changes in market risk factors in ways that are consistent with the scope of their activities. Depending upon the size, complexity, and nature of activities that give rise to market risk, the ability to capture all material sources of market risk in a timely manner may require an FI's market risk measurement system to be interfaced with other systems, such as the treasury system or loan system. The assumptions underlying the measurement system should be clearly understood by risk managers and senior management.

Market risk measurement systems should:

1. Assess all material market risk associated with an FI's assets, liabilities, and off-balance sheet positions;
2. Utilize generally accepted financial concepts and risk measurement techniques; and
3. Have well-documented assumptions and parameters.

There are a number of methods/techniques for measuring market risks. Complexity ranges from simple marking-to-market or valuation techniques to more advanced static simulations using current holdings to highly sophisticated dynamic modeling techniques that reflect potential future business activities. In designing market risk measurement systems, FIs should ensure that the degree of detail regarding the nature of their positions is commensurate with the complexity and risk inherent in those positions.

At a minimum, smaller non-complex FIs should have the ability to mark-to-market or revalue their investment portfolio and construct a simple re-pricing gap. When using gap analysis, the precision of interest rate risk measurement depends in part on the number of time bands into which positions are aggregated. Clearly, aggregation of positions/cash flows into broad time bands implies some loss of precision. In addition, the use of reasonable and valid assumptions is important for a measurement system to be precise. In practice, the FI must assess the significance of the potential loss of precision in determining the extent of aggregation and simplification to be built into the measurement approach. Assumptions and limitations of the measurement approach, such as the loss of precision, should be documented.

On the other hand, banks holding an expanded derivatives license and FIs engaging in options or structured products with embedded options cannot capture all material sources of market risk by using static models such as the re-pricing gap. These FIs should have interest rate risk measurement systems that assess the effects of rate changes on both earnings and economic value. These systems should provide meaningful measures of an FI's current levels of interest rate risk exposure, and should be capable of identifying any excessive exposures that might arise. Pricing models and simulation techniques will probably be required.

There is also a question on the extent to which market risk should be viewed on a whole institution basis or whether the trading book, which is marked to market, and the accrual book, which is often not, should be treated separately. As a general rule, it is desirable for any measurement system to incorporate market risk exposures arising from the full scope of an FI's activities, including both trading and non-trading sources. A single measurement system can facilitate analysis of market risk exposure. However, this does not preclude different measurement systems and risk management approaches being used for similar or different activities. For example, a bank with expanded derivatives license will use pricing models as basic tools in valuing position from its derivatives activities and structured products. In addition, the bank should use simulation models to assess the potential effects of changes in market risk factors by simulating the future path of market risk factors and their impact on cash flows from these activities.

Different methodologies may also be applied to the trading and accrual books. Regardless of the number of models or measurement systems used, management should have an integrated view of market risk across products and business lines.

Regardless of the measurement system used, the Bangko Sentral will expect the FI to ensure that input data are timely and correct, assumptions can be supported and are valid, the methodologies used produce accurate results, and the results can be easily understood by senior management and the board.

- (1) Model input. All market risk measurement methodologies require various types of inputs, including hard data, readily observable parameters such as asset prices, and both quantitatively and qualitatively-derived assumptions. This applies equally to simple gap as well as complex simulation models.

The integrity and timeliness of data is a key component of the market risk measurement process. The Bangko Sentral expects that adequate controls will be established to ensure that all material positions and cash flows from on-and off-balance sheet positions are incorporated into the measurement system on a

consistent and timely basis. Inputs should be verified through a process that validates data integrity. Assumptions and inputs should be subject to control and oversight review. Any manual adjustments to underlying data should be documented, and the nature and reasons for the adjustments should also be clearly understood.

Critical to model accuracy is the validity of underlying assumptions. Assumptions regarding maturity of deposits, for example, are critical in measuring interest rate risk. The treatment of positions where behavioral maturity is different from contractual maturity requires the use of assumptions and may complicate the measurement of interest rate risk exposure, particularly when using the economic value approach. The validity of correlation assumptions to aggregate market risk exposures is likewise important as breakdowns in correlations may significantly affect the validity of model results. Key assumptions should therefore be subject to rigorous documentation and review. Any significant changes should be approved in advance by the board of directors.

- (2) Model risk. While accuracy is key to an effective market risk measurement system, methodologies cannot be expected to flawlessly predict potential losses arising from market risk. The use of models introduces the potential for model risk. Thus, model risk is the risk of loss arising from inaccurate or incorrect quantification of market risk exposures due to weaknesses in market risk methodologies. It may arise from relying on assumptions that are inconsistent with market realities, from employing input parameters that are unreliable, or from calibrating, applying and implementing models incorrectly. Model risk is more likely to arise for instruments that have non-standard or option-like features. The use of proprietary models that employ unconventional techniques that are not widely agreed upon by market participants is likewise more sensitive to model risk. Even the use of standard models may lead to errors if the financial tools are not appropriate for a given instrument.

The Bangko Sentral expects FIs to implement effective policies and procedures to manage model risk. The scope of policies and procedures will depend upon the type and complexity of models developed or purchased. However, FIs holding an expanded license or significant levels of complex investments including structured products, should at a minimum implement the following controls:

- a. Model development/acquisition, implementation and revisions. The Bangko Sentral expects larger, complex FIs to adopt policies governing development/acquisition, implementation and revision of market risk models. These policies should clearly define the responsibilities of staff involved in the development/acquisition process. FIs should ensure that modeling techniques and assumptions are consistent with widely accepted financial theories and market practices. Policies and procedures should be duly approved by the board of directors and properly documented. An inventory of the models in use should be maintained along with documentation explaining how they operate.

The Bangko Sentral also expects that revisions to models will be performed in a controlled environment by authorized personnel and changes should be made or verified by a control function. Written policies should specify when changes to models are acceptable and how those revisions should be accomplished.

- b. Model validation. Before models are authorized for use, they should be validated by individuals who are neither directly involved in the development process nor responsible for providing inputs to the model. Independent model validation is a key control in the model development process and should be specifically addressed in an FI's policies. Further, the Bangko Sentral expects that the staff validating the models will have the necessary technical expertise.

A sound validation process should rigorously and comprehensively evaluate the sensitivity of the model to material sources of model risk and includes the following:

1. Tests of internal logic and mathematical accuracy;
2. Development of empirical support for the model's assumptions;
3. Back-testing. The Bangko Sentral expects FIs to conduct backtesting of model results. Back-testing is a method of periodically evaluating the accuracy and predictive capability of an FI's market risk measurement system by monitoring and comparing actual movements in market prices or market risk factors with projections produced by the model. To be more effective, back-testing should be conducted by parties independent of those developing or using the model. Policies should address the scope of the back-testing process, frequency of back-testing, documentation requirements, and management responses. Complex models should be back-tested continually while simple models can be back-tested periodically. Significant discrepancies should prompt a model review.

4. Periodic review of methodologies and assumptions. The Bangko Sentral expects that FIs will periodically review or reassess their modeling methodologies and assumptions. Again, the frequency of review will depend on the model but complex models should be reviewed at least once a year, when changes are made, or when a new product or activity is introduced. Model review could also be prompted when there is a need for the model to be updated to reflect changes in the FI or market. The review process should be performed by an independent group as it is considered to be part of the risk control and audit function.

The use of vendor models can present special challenges, as vendors often claim proprietary privilege to avoid disclosing information about their models. Thus, FIs may be constrained from performing validation procedures related to internal logic, mathematical accuracy and model assumptions. However, vendors should provide adequate information on how the models were constructed and validated so that FIs have reasonable assurances that the model works as intended.

c. Stress testing

The underlying statistical models used to measure market risk summarize the exposures that reflect the most probable market conditions. Regardless of size and complexity of activities, the Bangko Sentral expects FIs to supplement their market risk measurement models with stress tests. Stress testing are simulations that show how a portfolio or balance sheet might perform during extreme events or highly volatile markets.

Stress testing should be designed to provide information on the kinds of conditions under which the FI's strategies or positions would be most vulnerable. Thus stress tests must be tailored to the risk characteristics of the FI. Possible stress scenarios might include abrupt changes in the general level of interest rates, changes in the relationships among key market rates (i.e., basis risk), changes in the slope and the shape of the yield curve (i.e., yield curve risk), changes in the liquidity of key financial markets, or changes in the volatility of market rates.

In addition, stress scenarios should include conditions under which key business assumptions and parameters break down. The stress testing of assumptions used for illiquid instruments and instruments with uncertain contractual maturities are particularly critical to achieving an understanding of the FI's risk profile. When conducting stress tests, special consideration should be given to instruments or markets where concentrations exist. FIs should consider also "worst case" scenarios in addition to more probable events.

Further, the Bangko Sentral will expect FIs with material market risk exposure, particularly from derivatives and/or structured products to supplement their stress testing with an analysis of their exposure to "interconnection risk." While stress testing typically considers the movement of a single market factor (e.g., interest rates), interconnection risk considers the linkages across markets (e.g., interest rates and foreign exchange rates) and across the various categories of risk (e.g., credit, and liquidity risk). For example, stress from one market may transmit shocks to other markets and give rise to otherwise dormant risks, such as liquidity risk. Evaluating interconnected risk involves assessing the total or aggregate impact of singular events.

Guidelines for performing stress testing should be detailed in the risk management policy statement. Management and the board of directors should periodically review the design, major assumptions, and the results of such stress tests to ensure that appropriate contingency plans are in place.

- (3) Model output. Reports should be provided to senior management and the Board as a basis for making decisions. Report content should be clear and straightforward, indicating the purpose of the model, significant limitations, the quantitative level of risk estimated by the simulation, a comparison to Board approved limits and a qualitative discussion regarding the appropriateness of the FI's current exposures. Sophisticated simulations should be used carefully so that they do not become "black boxes" producing numbers that have the appearance of precision but may not be very accurate when their specific assumptions and parameters are revealed.

Market limits structure

The FI's board of directors should set the institution's tolerance for market risk and communicate that tolerance to senior management. Based on these tolerances, senior management should establish appropriate risk limits, duly approved by the Board, to maintain the FI's exposure within the set tolerances over a range of possible changes in market risk factors such as interest rates.

Limits represent the FI's actual willingness and ability to accept real losses. In setting risk limits, the board and senior management should consider the nature of the FI's strategies and activities, past performance, and management skills. Most importantly, the board and senior management should consider the level of the FI's earnings and capital and ensure that both are sufficient to absorb losses equal to the proposed limits. Limits should be approved by the board of directors. Furthermore, limits should be flexible to changes in conditions or risk tolerances and should be reviewed periodically.

An FI's limits should be consistent with its overall approach to measuring market risk. At a minimum, FIs using simple gap should establish limits on mismatches in each time bucket on a stand-alone and cumulative basis. In addition, limits should be adopted to control potential losses in the investment portfolio to a pre-set percentage of capital.

Larger, more complex FIs should establish limits on the potential impact of changes in market risk factors on reported earnings and/or the FI's economic value of equity. Market risk limits may include limits on net and gross positions, volume limits, stop-loss limits, value-at-risk limits, re-pricing gap limits, earnings-at-risk limits and other limits that capture either notional or (un)expected loss exposures. In assigning interest rate risk limits under the earnings perspective, FIs should explore limits on the variability of net income as well as net interest income in order to fully assess the contribution of non-interest income to the interest rate risk exposure of the FI. Such limits usually specify acceptable levels of earnings volatility under specified interest rate scenarios.

For example, interest rate risk limits may be keyed to specific scenarios of movements in market interest rates such as an increase or decrease of a particular magnitude. The rate movements used in developing these limits should represent meaningful stress situations taking into account historic rate volatility and the time required for management to address exposures. Limits may also be based on measures derived from the underlying statistical distribution of interest rates, such as earnings at risk or economic value-at-risk techniques. Moreover, specified scenarios should take account of the full range of possible sources of interest rate risk to the FI including re-pricing, yield curve, basis, and option risks. Simple scenarios using parallel shifts in interest rates may be insufficient to identify such risks. This is particularly important for FIs with significant exposures to these sources of market risk.

The form of limits for addressing the effect of rates on an FI's economic value of equity should be appropriate for the size and complexity of its underlying positions. For FIs engaged in traditional banking activities, relatively simple limits may suffice. However, for FIs with significant holdings of long-term instruments, options, instruments with embedded options, or other structured instruments, more detailed limit systems may be required.

Depending on the nature of an FI's holdings and its general sophistication, limits can also be identified for individual business units, portfolios, instrument types, or specific instruments. The level of detail of risk limits should reflect the characteristics of the FI's holdings including the various sources of market risk the FI is exposed to.

The Bangko Sentral also expects that the limits system will ensure that positions that exceed predetermined levels receive prompt management attention. Limit exceptions should be communicated to appropriate senior management without delay. Policies should include how senior management will be informed and what action should be taken by management in such cases. Particularly important is whether limits are absolute in the sense that they should never be exceeded or whether, under specific circumstances, breaches of limits can be tolerated for a short period of time. The circumstances leading to a tolerance of breaches should be clearly described.

Market risk monitoring and reporting

An accurate, informative, and timely management information system is essential for managing market risk exposures both to inform management and to support compliance with board policy. Reporting of risk measures should be done regularly and should clearly compare current exposure to policy limits. In addition, past forecasts or risk estimates should be compared with actual results to identify any modeling shortcomings.

Reports detailing the market risk exposure of the FI should be reviewed by the board on a regular basis. While the types of reports prepared for the board and for various levels of management will vary based on the FI's market risk profile, they should at a minimum include the following:

1. Summaries of the FI's aggregate exposures;
2. Reports demonstrating the FI's compliance with policies and limits;
3. Summary of key assumptions, for example, non-maturity deposit behavior, prepayment information, and correlation assumptions;
4. Results of stress tests, including those assessing breakdowns in key assumptions and parameters; and
5. Summaries of the findings of reviews of market risk policies, procedures, and the adequacy of the market risk measurement systems, including any findings of internal and external auditors and retained consultants.

D. Risk controls and audit

Adequate internal controls ensure the integrity of an FI's market risk management process. These internal controls should be an integral part of the institution's overall system of internal control and should promote effective and efficient operations, reliable financial and regulatory reporting, and compliance with relevant laws, regulations, and institutional policies. An effective system of internal control for market risk includes:

1. A strong control environment;
2. An adequate process for identifying and evaluating risk;
3. The establishment of control activities such as policies, procedures, and methodologies;
4. Adequate information systems;
5. Continual review of adherence to established policies and procedures; and
6. An effective internal audit and independent validation process.

Policies and procedures should specify the approval processes, exposure limits, reconciliations, reviews, and other control mechanisms designed to provide a reasonable assurance that the institution's market risk management objectives are achieved. Many attributes of a sound risk management process, including risk measurement, monitoring, and control functions, are actually key aspects of an effective system of internal control. FIs should ensure that all aspects of the internal control system are effective, including those aspects that are not directly part of the risk management process.

An important element of an FI's internal control system is regular evaluation and review. The Bangko Sentral expects that FIs will establish a process to ensure that its personnel are following established policies and procedures, and that its procedures are actually accomplishing their intended objectives. Such reviews and evaluations should also address any significant change that may impact the effectiveness of controls, and that appropriate follow-up action was implemented when limits were breached. Management should ensure that all such reviews and evaluations are conducted regularly by individuals who are independent of the function they are assigned to review. When revisions or enhancements to internal controls are warranted, there should be a mechanism in place to ensure that these are implemented in a timely manner.

Independent reviews of the market risk measurement system should also include assessments of the assumptions, parameters, and methodologies used. Such reviews should seek to understand, test, and document the current measurement process, evaluate the system's accuracy, and recommend solutions to any identified weaknesses. If the measurement system incorporates one or more subsidiary systems or processes, the review should include testing aimed at ensuring that the subsidiary systems are well-integrated and consistent with each other in all critical respects. The results of this review, along with any recommendations for improvement, should be reported to senior management and/or the board.

The Bangko Sentral expects that FIs with complex risk exposures should have their measurement, monitoring, and control functions reviewed on a regular basis by an independent party (such as an internal or external auditor). In such cases, reports written by external auditors or other outside parties should be available to the Bangko Sentral. It is essential that any independent reviewer ensures that the FI's risk measurement system is sufficient to capture all material elements of market risk, whether arising from on-or off-balance-sheet activities. Among the items that an audit should review and validate are:

1. The appropriateness of the FI's risk measurement system(s) given the nature, scope, and complexity of its activities.
2. The accuracy and completeness of the data inputs—This includes verifying that balances and contractual terms are correctly specified and that all major instruments, portfolios, and business units are captured in the model. The review should also investigate whether data extracts and model inputs have been reconciled with transactions and general ledger systems.¹
3. The reasonableness and validity of scenarios and assumptions – This includes a review of the appropriateness of the interest rate scenarios as well as customer behaviors and pricing/volume relationships to ensure that these assumptions are reasonable and internally consistent.²

¹ It is acceptable for parts of the reconciliation to be automated; e.g., routines may be programmed to investigate whether the balances being extracted from various transaction systems match the balances recorded on the FI's general ledger. Similarly, the model itself often contains various audit checks to ensure, for example, that maturing balances do not exceed original balances.

² Key areas of review include the statistical methods that were used to generate scenarios and assumptions (if applicable), and whether senior management reviewed and approved key assumptions. The review should also compare actual pricing spreads and balance sheet behavior to model assumptions. For some instruments, estimates of value changes can be compared with market value changes. Unfavorable results may lead the FI to revise model relationships.

4. The validity of the risk measurement calculations-The scope and formality of the measurement validation will depend on the size and complexity of the FI. At large FIs, internal and external auditors may have their own models against which the FI's model is tested. FIs with more complex risk profiles and measurement systems should have the model or calculations audited or validated by an independent source. At smaller and less complex FIs, periodic comparisons of actual performance with forecasts may be sufficient.¹

The frequency and extent to which an FI should re-evaluate its risk measurement methodologies and models depend, in part, on the particular market risk exposures created by holdings and activities, the pace and nature of market rate changes, and the pace and complexity of innovation with respect to measuring and managing market risk.

VI. Capital adequacy

In addition to adequate risk management systems and controls, capital has an important role to play in mitigating and supporting market risk. FIs must hold capital commensurate with the level of market risk they undertake. As part of sound market risk management, FIs must translate the level of market risk they undertake whether as part of their trading or non-trading activities, into their overall evaluation of capital adequacy. Where market risk is undertaken as part of an FI's trading activities, existing capital adequacy ratio requirements shall prevail.

The Bangko Sentral will periodically evaluate the market risk measurement system for the accrual book to determine if the FI's capital is adequate to support its exposure to market risk and whether the internal measurement systems of the FI are adequate. In performing this assessment, the Bangko Sentral may require information regarding the market risk exposure of the FI, including re-pricing gaps, earnings and economic value simulation estimates, and the results of stress tests. This information will typically be found in internal management reports.

If an FI's internal measurement system does not adequately capture the level of market risk, the Bangko Sentral may require an FI to improve its system. In cases where an FI accepts significant market risk in its accrual book, the Bangko Sentral expects that a portion of capital will be allocated to cover this risk.

When performing these evaluations, the Bangko Sentral will determine if:

- (a) All material market risk associated with an institution's assets, liabilities, and off-balance sheet positions in the accrual book are captured by the risk management systems;
- (b) Generally accepted financial concepts and risk measurement techniques are utilized. For larger, complex FIs, internal systems must be capable of measuring risk using both an earnings and economic value approach.
- (c) Data inputs are adequately specified (commensurate with the nature and complexity of an FI's holdings) with regard to rates, maturities, re-pricing, embedded options, and other details;
- (d) The system's assumptions (used to transform positions into cash flows) are reasonable, properly documented, and stable over time;²
- (e) Market risk measurement systems are integrated into the institution's daily risk management practices. The output of the systems should be used in characterizing the level of market risk to senior management and board of directors.

¹ The validity of the model calculations is often tested by comparing actual with forecasted results. When doing so, FIs can compare projected net income results with actual earnings. Reconciling the results of economic valuation systems can be more difficult because market prices for all instruments are not always readily available, and the FI does not routinely mark all of its balance sheet to market. For instruments or portfolios with market prices, these prices are often used to benchmark or check model assumptions.

² This is especially important for assets and liabilities whose behavior differs markedly from contractual maturity or re-pricing, and for new products. Material changes to assumptions should be documented, justified, and approved by management.

GUIDELINES ON LIQUIDITY RISK MANAGEMENT

(Appendix to Secs. 124-N, 144-S, and 145-Q)

I. GENERAL PRINCIPLES

Liquidity risk management practices should ensure that a QB is able to maintain a level of liquidity sufficient to readily meet both expected and unexpected cash flows and collateral needs without adversely affecting daily operations and the financial condition of the institution. The management of cash flows should duly consider a QB's funding capacity for both short- and long-term time horizons, including intraday, and the currencies in which it has significant activities or exposures. Systems and controls should be in place to oversee and manage liquidity positions on an intragroup basis, including those arising from cross-border transactions, taking into consideration the differing liquidity risk profiles of each entity and the transferability of funds within the group, among other relevant factors. Funds management practices shall ensure that liquidity is not consistently maintained at a high cost, from concentrated sources, or through undue reliance on funding sources that may not be available in times of financial stress or adverse changes in market conditions. Lastly, a bank should ensure that it is able to withstand a series of stress events with varying severities under different time horizons.

The requirements for sound liquidity risk management that are set forth in these guidelines shall apply to all QBs. In addition, all QBs are expected to comply with the minimum prudential liquidity requirements set out under existing regulations.

II. DEFINITIONS

1. *Liquidity risk* is generally defined as the current and prospective risk to earnings or capital arising from a QB's inability to meet its obligations when they come due without incurring unacceptable losses or costs. Liquidity risk includes the inability to manage unplanned decreases or changes in funding sources.
2. *Funding liquidity risk* is the risk that a QB will not be able to meet efficiently both expected and unexpected current and future cash flow and collateral needs without affecting either daily operations or the financial condition of the bank. It also refers to the inability to meet investment and funding requirements arising from cash flow mismatches without incurring unacceptable losses or costs. This is synonymous to the general definition of liquidity risk.
3. *Market liquidity risk* is the risk that a bank cannot easily offset or eliminate a position at the market price because of inadequate market depth or market disruption. The size of the bid/ask spread of instruments in a market provides a general indication of its depth, hence its liquidity, under normal circumstances. Market liquidity risk is also associated with the probability that large transactions may have a significant effect on market prices in markets that lack sufficient depth.
4. *Intraday liquidity* refers to funds which can be accessed during the business day, usually to enable QBs to make payments in real time.
5. *Intraday liquidity risk* is the risk that a bank fails to manage its intraday liquidity effectively, which could leave it unable to meet a payment obligation at the time expected, thereby affecting its own liquidity position and that of other parties.

Intragroup transactions/activities are transactions between the QB and its parent, subsidiaries, affiliates, and related parties¹ that involve or could cause movement or transfer of funds.

III. LIQUIDITY RISK MANAGEMENT PROCESS

The management of liquidity risk shall form part of the overall risk management framework. At a minimum, the process should:

1. *Identify liquidity risk.* Proper identification of liquidity risk requires that management understands both existing and prospective risks from products and activities. It involves determining the volume and trend of liquidity needs and the sources of liquidity available to meet these needs. Liquidity risk identification should be a continuing process and should occur at the transaction, portfolio, entity and group levels.
2. *Measure liquidity risk.* Adequate measurement systems enable QBs to quantify liquidity risk exposures on a per entity basis and across the consolidated organization. A relatively large organization with an extensive scope of operations would generally require more robust risk measurement tools and management information system to properly measure risk in a timely and comprehensive manner.

¹ Related parties are defined in item "(n)" of Sec. 131 of the MORB.

3. *Control liquidity risk.* The control of liquidity risk necessitates the establishment of policies and standards on acceptable product types, activities, and counterparties, and set risk limits on a transactional, portfolio and aggregate/consolidated basis. Lines of authority and accountability should be clearly defined to ensure that liquidity risk exposures remain reasonable and within the risk tolerance expressed by the board.
4. *Monitor liquidity risk.* Monitoring liquidity risk requires timely reviews of liquidity risk positions, including intraday positions. Monitoring reports should be comprehensive, timely, and accurate in order to provide sufficient basis for sound business decisions.

IV. LIQUIDITY RISK MANAGEMENT FRAMEWORK

A sound liquidity risk management system should cover the following basic elements:

- Active board and senior management oversight;
- Adequate risk management policies and procedures;
- Appropriate risk measurement methodologies, limits structure, monitoring, and management information system; and
- Comprehensive internal controls and independent audits.

Following the proportionality principle, QBs with simple operations may generally employ basic practices while larger and/or complex institutions are expected to adopt more sophisticated risk management frameworks. Large organizations shall take a comprehensive perspective to measuring and controlling risk by understanding how subsidiaries and affiliates can magnify or reduce the consolidated liquidity risk profile.

A. Board and Senior Management Oversight¹

The board and senior management should have an adequate understanding of how the liquidity risk profile is affected by other risks such as credit, market, operational and reputational risks.

Responsibilities of the Board of Directors

The board is ultimately responsible for the liquidity risk assumed by the QB and the processes used to manage it. The board of directors shall:

1. Establish the QB's tolerance for liquidity risk in a way that:
 - a. Defines clearly the level of unmitigated liquidity risk that the bank is willing to assume under normal and stressed conditions in varying time periods, including intraday, given its business model, financial condition, and funding capacity. The risk tolerance level should also be appropriate for the bank's role in the financial system. Banks that carry out important market functions or an activity that covers a key segment of the financial system are generally expected to factor in an additional measure of prudence in setting their risk tolerance level;
 - b. Can be easily communicated and understood by personnel involved in the liquidity risk management process; and
 - c. Reflects the bank's evaluation of the sources of liquidity risks and the trade-off between risks and profits.

The risk tolerance level should be adequately documented, preferably with a combination of qualitative provisions in the form of a policy statement, and quantitative expressions (e.g., the specification of a minimum survival period under a range of severe but plausible stress scenarios, or the setting of limits on liquidity metrics used by the QB for controlling different aspects of liquidity risk). Lastly, the risk tolerance should be regularly reviewed in light of any significant changes in market conditions or the validity of assumptions used.

2. Approve the QB's funding strategy.
3. Ensure coherence of the measures used to contain liquidity risk within the stated tolerance level. QBs should note that the mere setting of metrics and limits for managing different aspects of liquidity risk alone does not in itself constitute a sufficient articulation of the overall liquidity risk tolerance.

¹ This section refers to a management structure composed of a board of directors and senior management. The Bangko Sentral is aware that there may be differences in some financial institutions as regards the organizational framework and functions of the board of directors and senior management. For instance, branches of foreign QBs have board of directors located outside of the Philippines and are overseeing multiple branches in various countries. In this case, "board-equivalent" committees are appointed. Owing to these differences, the notions of the board of directors and the senior management are used in these guidelines not to identify legal constructs but rather to label two decision-making functions within a financial institution.

4. Maintain an appropriate structure for day-to-day funds management and the management of liquidity risk of the QB and its subsidiaries, whenever applicable. The structure should enable the availability of liquidity and the monitoring of liquidity risks across the banking group and at each entity on an on-going basis.

The management of liquidity risk generally requires collaboration among the various business areas that impact the QB's liquidity risk profile. These business units are usually represented in a senior management-level committee, commonly known as the Asset and Liability Committee (or ALCO), whose authority over asset and liability management (ALM) emanates from the board. Meanwhile, day-to-day funds management is executed by the ALM desk which is typically under a QB's treasury department.¹

A simple QB's² organizational structure may differ from that described above. Nonetheless, the board should identify committees/units within the organization that are responsible for effectively performing the ALM and daily funds management functions.

To ensure the proper management of liquidity risk, the board shall designate an independent unit responsible for measuring, monitoring and controlling liquidity risk. Said unit should directly report to the board of directors or a committee thereof.

5. Ensure that the QB has competent senior personnel and appropriate resources in terms of expertise and systems to enable the identification, measurement, monitoring and control of liquidity risk.
6. Monitor the QB's performance and overall liquidity risk profile in a timely manner by requiring regular reports. These reports should, at a minimum, contain the liquidity position of the QB along with information related to compliance with established risk limits, and on new or emerging liquidity risks.
7. Mandate and track the resolution of breaches in risk limits and actions taken on deviations from policies and procedures.

Responsibilities of Senior Management

Senior management is responsible for effectively executing liquidity strategies and for operating within the liquidity risk tolerance level set by the board. Thus, the senior management shall:

1. Develop and implement a set of liquidity risk policies and procedures that translates the board's goals and objectives into operating standards, and ensure that this is transmitted to and well understood by personnel.
2. Develop a funding strategy that provides for the effective diversification of assets, funding sources and maturities, taking into account market conditions and the bank's ability to access funds from different sources. A bank should diversify available funding sources in the short-, medium- and long-term. Diversification targets should be part of the medium- to long-term funding plans and aligned with the budgeting and business planning process. The funding strategy should be formally documented and regularly reviewed in light of any changes in the market environment or key assumptions. The factors that complex banks may consider in designing the strategy are set out in Annex A (Factors to Consider in Developing a Funding Strategy).
3. Appropriately incorporate liquidity costs, benefits and risks in the internal pricing, performance measurement and new product approval processes for all significant activities (both on- and off-balance sheet), thereby aligning the risk-taking incentives of individual business lines with the liquidity risk tolerance set by the board.
4. Ensure that all business units conducting activities that have an impact on the liquidity profile are fully aware of the QB's funding strategies, and operate in accordance with approved policies, procedures, limits and controls.
5. Adhere to the lines of authority and responsibility that the board has established for managing overall liquidity risk, and ensure that the units responsible for managing liquidity risk have sufficient authority and independence from risk taking units to enable them to discharge their functions effectively.
6. Oversee the implementation and maintenance of management information and other systems that are used to identify, measure, monitor, and control the QB's liquidity risk.
7. Closely monitor current trends and potential market developments that may present significant challenges for managing liquidity risk. These developments and trends shall include emerging issues, such as increasing funding costs or concentrations, the growing size of the funding gap, the drying up of alternative liquidity

¹ With this structure, the ALM desk would be the unit responsible for ensuring the capability of the bank to monetize any high-quality liquidity asset (HQLA) in accordance with Part III Item "(9) (b)" of the Liquidity Coverage Ratio Framework (LCR) in Appendix 72 of the MORB.

² The classification of QBs as simple or complex is set out in item "(c)" of Section 133-Q of the MORNBF.

sources, material and/or persistent breaches of limits, a significant decline in the internal liquidity buffer, or changes in external market conditions that signal difficulties in the future.

8. Inform the board of any new and emerging liquidity concerns in a timely manner.

B. Risk Management Policies and Procedures

A QB's liquidity risk policies and procedures shall be comprehensive, clearly defined, documented and duly approved by the board of directors. Policies and procedures covering the QB's liquidity risk management system shall provide appropriate guidance to relevant personnel. These policies should be applied on a consolidated basis and, as appropriate, at the level of individual financial subsidiaries, recognizing legal distinctions and possible obstacles to cash movements within the banking group.

The details of the policies and procedures shall take into account the QB's liquidity needs under normal and stressed conditions. These should cover, at a minimum, the following key aspects:

1. The liquidity risk tolerance, as determined by the board;
2. The general approach to funds management, and the liquidity risk management policies on particular aspects, such as:
 - a. The composition and maturity of assets and liabilities;
 - b. The diversity and stability of funding sources;
 - c. The approach to managing liquidity in different currencies and across business lines;
 - d. The approach to intraday liquidity management; and
 - e. The assumptions on the liquidity and marketability of assets.¹
3. Lines of authority, roles and responsibilities, and the reporting structure for liquidity risk management;
4. Tools for measuring, monitoring, controlling, and reporting liquidity risk, including:
 - a. The setting of various liquidity limits and ratios;
 - b. The framework for conducting cash-flow analysis under normal and stress scenarios, including the techniques and behavioural assumptions used; and
 - c. The management reporting system for liquidity risk.
5. The contingency funding plan, which describes the approach and strategies for dealing with various types of liquidity crises.

The policies should be periodically reviewed to ensure that these remain consistent with the level and complexity of the QB's operations as well as current circumstances. The policies should be regularly updated to incorporate the effects of new products/activities,² or changes in funding strategies or corporate structure.

C. Risk Measurement Methodologies, Limits Structure, Monitoring, and Management Information System (MIS)

Liquidity Metrics or Measurement Tools

Liquidity management entails the on-going measurement of intraday to long-term liquidity positions. QBs shall be guided by the following:

1. QBs shall employ a range of customized metrics or tools, against which internal limits may be set for measuring, monitoring and controlling liquidity risk.
2. Measurement tools should be comprehensive and forward-looking. A comprehensive risk measurement process entails an analysis of cash flows and liquidity implications arising from all material assets, liabilities, off-balance sheet positions and other activities. This also includes the monitoring of liquidity positions in currencies in which QBs have significant activity. A currency is considered significant if the aggregate liabilities denominated in that currency amount to five percent (5%) or more of total liabilities. On the other hand, a forward-looking process requires the identification of potential funding gaps, apart from current liquidity shortfalls.
3. The QB's set of metrics or tools shall be commensurate with its size, complexity, and liquidity risk profile. This set of tools should be able to measure the day-to-day liquidity position, structural liquidity mismatches, as well as vulnerabilities under stressed conditions. Some of the liquidity metrics that a QB may use are as follows:

¹ A related discussion on asset and market liquidity characteristics may be found in Part III Item "5" of the LCR Framework in Appendix 74a of the MORB.

² Item "(i)" of Section 611 of the MORB sets out the expectations on the risk management for new products.

- a. Cash flow projections from assets, liabilities and off-balance sheet items over an appropriate set of time horizons. Cash flow projections can be used for monitoring intraday liquidity requirements, day-to-day liquidity needs and funding capacity over short to medium term horizons, longer term liquidity needs, and vulnerabilities to events, activities or strategies that can put a significant strain on the QB's capacity to generate liquidity;
 - b. Liquidity/Funding gap or maturity mismatch analyses based on contractual maturities as well as behavioral assumptions of cash inflows and outflows. These can be used to identify potential structural funding gaps that may need to be bridged;
 - c. Information on the composition and quality of funding sources (e.g., ratio of core deposits to total deposits, level of concentration of funding sources). Such metrics provide information on the degree of stability of funding sources; and
 - d. Other ratios (e.g., loans to deposits, liquid assets to liabilities, assets funded by swaps, etc.) as may be applicable to the QB.
4. A QB can use either a static or a dynamic approach to manage its liquidity position, and identify and address potential funding shortfalls in a timely manner.
 5. QBs with large deposit bases should be able to conduct statistical or behavioral analyses of the stickiness or volatility of deposits. The related supervisory expectations are in Annex B (Factors to Consider in Developing Cash Flow Projections).
 6. On the use of cash flow projections:
 - a. Universal and commercial QBs (UBs/KBs) and other institutions with active treasury operations are expected to adopt more robust approaches (e.g., dynamic cash flow projection). The related guidelines are set out in Annex B (Factors to Consider in Developing Cash Flow Projections).
 - b. Simple QBs may generally use a static approach to liquidity risk measurement, which is based on positions at a given point in time. This may consist of a simple cash flow projection in a spreadsheet where the QB's sources and uses of cash in a contractual or maturity liquidity gap over different time horizons may be analyzed.
 - c. Developing a realistic cash flow projection is highly dependent upon the underlying assumptions. As such, QBs shall ensure that:
 - Controls are in place such that no major assumptions or parameters are used or changed unless the approval by an appropriate independent board-level committee is sought; and
 - Key assumptions, including those that are used in behavioural analysis, are kept valid considering changes in market conditions, the competitive environment, and business strategies; thus, the assumptions must be evaluated and tested at least annually.
 - d. At a minimum, the cash flow projection shall be prepared on a consolidated basis and for each significant currency (refer to Section VI – Foreign Currency Liquidity Management), at the quasi-banking group level and for each material financial subsidiary. In determining whether a financial subsidiary is material, consideration may be given to the subsidiary's balance sheet size, volume of funding requirements, level of activities, and degree of funding reliance on the parent QB.
 7. Apart from liquidity metrics, QBs shall design a set of indicators which may be derived from either internal or market data, to help identify at an early stage emerging risks or potential funding needs. These indicators can be qualitative or quantitative in nature and may include, but are not limited to, the following:
 - a. Rapid asset growth, especially when funded by volatile liabilities;
 - b. Growing concentrations on certain assets and liabilities, or on payment/settlement obligations to a single or group of related counterparties;
 - c. Increasing currency mismatches or widening negative liquidity gaps especially in short-term time bands;
 - d. Unusual or sudden increase in intraday payment obligations;
 - e. Growing size of the projected intraday liquidity shortfall;
 - f. Increasing level of past due loans or non-performing assets;
 - g. Increasing overall funding costs;
 - h. Continuing operating losses;
 - i. Rapid decline of share prices, for listed QBs;
 - j. Negative publicity; and
 - k. Difficulty in accessing short-term or longer term funds, such as from interbank and repo facilities.

Limits Structure

QBs shall establish limits consistent with the liquidity risk tolerance set by the board and the nature and amount of liquidity risk they are willing and capable to assume. A set of quantitative and qualitative factors should be considered in limits setting. These include, at a minimum, the nature of the QB's strategies and activities, market conditions and costs of access to money markets and other alternative sources of funding.

Limits can take various forms. QBs should address limits on types of funding sources and uses of funds, including off-balance sheet positions. These limits, tolerances, and guidelines may include the following:

- a. Limits on projected net cash flow positions over specified time horizons;
- b. Limits on the maximum amount of projected intraday liquidity shortfall;
- c. Limits on periodic and/or cumulative funding mismatches or gaps over specified short- and long-term time horizons;
- d. Target amounts of highly liquid assets expressed as aggregate amounts or as ratios calculated in relation to, for example, coverage of net cash outflows, or expected liquidity needs under stress scenarios;
- e. Limits or triggers on the structure of short-term and longer-term funding of the asset base, under both normal and stressed conditions;
- f. Limits or triggers on funding concentrations or guidelines that promote funding diversification such as limits on large liability and borrowed funds dependency, single funds providers, exposure to market segment funds providers, and other wholesale funding;
- g. Limits or triggers on contingent liabilities such as unfunded loan commitments and top-up provisions or margin calls from outstanding contracts; and
- h. Guidance on the acceptable tenors of different categories of assets and liabilities (e.g., term of deposits or notes to be issued, or duration of securities holdings).

Before setting limits that allow negative funding gaps, the board and senior management shall consider the QB's ability to fund these negative gaps. Factors include, but are not limited to: the availability of on-balance sheet liquidity, the amount of firm credit lines available from commercial sources that can be drawn to fund the shortfall, and the amount of unencumbered on-balance sheet assets that can be sold without excessive loss and in a reasonable timeframe. Further, liquidity positions and limits should be influenced by the outcome of stress tests.

QBs shall ensure compliance with the established limits, establish policies on accountabilities for non-compliance, and define the procedures for reporting exceptions or breaches. Finally, QBs should regularly review the suitability and effectiveness of their limits structure.

Liquidity Risk Monitoring and Reporting

Banks shall have an adequate and reliable MIS that is able to provide the board, senior management and other concerned personnel with timely information on the QB's liquidity position. The MIS should encompass all significant sources of liquidity risk, including new activities and contingent risks and the related triggers. The MIS should be able to calculate risk measures to monitor liquidity positions:

- In all currencies, both individually and on an aggregate basis;
- In each financial subsidiary and at the consolidated level;
- Under normal business conditions and during stress events, with the ability to deliver more granular, frequent, and time-sensitive information during the latter; and
- For different time horizons (e.g., on an intraday basis, on a day-to-day basis, and over a series of more distant time periods thereafter).

A QB's MIS should likewise be able to capture risks in the following areas:

- The deposit base particularly signs that it is becoming more volatile, as may be indicated by statistical and behavioural analyses;
- Secured borrowing and lending, including information on maturity mismatches and asset liquidity;
- Derivative transactions, including collateral outflows resulting from rating changes and asset price movements; and
- Off-balance sheet funding vehicles and non-contractual obligations, providing greater transparency into contingent funding risks.

To facilitate liquidity risk monitoring, there should be reporting standards that specify the scope and granularity of information that should be provided to specific committees or authorities within the QB, as well as the manner and frequency of reporting.

The contents of the MIS reports should adequately support the functioning of the liquidity risk management tools for measuring liquidity needs and controlling different aspects of liquidity risk. At a minimum, the reporting should compare current liquidity exposures to established limits. Breaches in liquidity risk limits should be reported to the appropriate level of management.

Other than monitoring of compliance with limits, the MIS reports should be capable of supporting the board and senior management in identifying emerging concerns on liquidity, as well as in managing events during liquidity crises.

D. Internal Controls and Audit¹

A QB shall have adequate internal controls in place to protect the integrity of its liquidity risk management process. An effective internal control system promotes operational efficiency, complete and reliable financial and regulatory reporting, and compliance with applicable policies, laws and regulations.

As with other risks, an effective system of internal controls for liquidity risk includes:

- A strong internal control environment;
- An adequate process for identifying, measuring, monitoring and controlling liquidity risk;
- Adequate information systems; and
- Continuous review of adherence to established policies and procedures.

A key element of the internal control system is the conduct of independent internal audit reviews at reasonable audit cycles. QBs should ensure that the internal audit scope, program and procedures cover all aspects of the liquidity risk management process, including the determination of the appropriateness of the risk management system, particularly its risk measurement tools and stress testing methodology, risk reporting processes, and compliance with policies.

V. INTRADAY LIQUIDITY RISK MANAGEMENT

QBs whose business activities inherently entail a large volume of daily payments and settlements should effectively manage their intraday liquidity positions and risks in order to meet obligations on a timely basis under both normal and stressed conditions, and contribute to the smooth functioning of payment and settlement systems.

A QB may be exposed to intraday liquidity risk through its direct participation in payment and settlement systems, the provision of correspondent and custodian banking services, or reliance on correspondent or custodian QBs for the payment and settlement of its own transactions. In the latter case, operational or financial disruptions at the QB's correspondent or custodian QB will also affect its own liquidity position.

The objective of intraday liquidity risk management is to identify, prioritize, and meet critical obligations when they become due, and to settle other less critical obligations as soon as possible. In accomplishing this objective, QBs may face a number of challenges due to the uncertainty of the level and timing of gross cash inflows and outflows. It is, therefore, essential that all QBs:

1. Understand the rules of all payment and settlement systems in which they participate;
2. Identify key counterparties and their correspondents or custodians that act as the source of incoming or outgoing gross liquidity flows;
3. Identify key times, days, and circumstances where liquidity flows and possible intraday credit needs might be particularly high; and,
4. Understand the business needs underlying the timing of liquidity flows and intraday credit needs of internal business lines and key customers.

For this purpose, it may be useful for banks to maintain lines of communication with key customers, including customer QBs, to obtain a forecast of their own payment traffic.

QBs should have policies, procedures and systems to support operational objectives in all of the financial markets and currencies in which they have significant payment and settlement activities. These should enable them to:

¹ Refer to Secs. 162 and 163 of the MORB for the frameworks on Internal Control System and Internal Audit, respectively.

1. Measure expected daily gross liquidity inflows and outflows, including throughput,¹ anticipate the intraday timing of these flows where possible, and forecast the range of potential net funding shortfalls that might arise at different points during the day;
2. Identify, measure, and monitor payments in large value payment systems (LVPS) that are time-specific in nature. For this purpose, a QB should be able to define the types of transactions that are time-specific relative to its liquidity requirements and participation in an LVPS. Time-specific obligations refer to payments, such as but not limited to: a) with a time-specific intraday deadline; b) required to settle positions in other payment and settlement systems, as well as ancillary systems such as check clearing, PESONet, InstaPay, ATM network; c) related to market activities such as delivery or return of money market transactions or margin payments; and d) critical to the QB's business, reputation, or continued compliance with agreements or regulations, failure of which may lead to penalties or other sanctions. These obligations include amounts drawn from overnight lending facilities or intraday liquidity facilities that must be settled at the end of the day.
3. Identify and properly document accounts that are opened and maintained with correspondent banks to facilitate payment services pertaining to fund transfer, check clearing, cash management services, trade finance, foreign exchange trades, security trades, security custody services, and other short-term payment transactions.
4. Monitor and keep track payments made on behalf of correspondent banking customers as well as manage risks related to the provision of intraday credit line facilities. A QB should maintain appropriate documentation on these intraday credit facilities as well as monitor the extent of drawdown and peak usage² of the intraday credit lines so as to ensure adherence to established credit limits and to facilitate liquidity risk management. As intraday credit lines are normally drawn down and repaid within the same day, QBs should keep track of their customers' drawings and repayments on such credit lines on an intraday basis to ensure compliance with approved credit limits and funds flow management. A QB should form its own view, from a risk management perspective, of the extent or frequency of monitoring consistent with its business model and the scale and usage pattern of its customers.
5. Monitor intraday liquidity positions in LVPS and correspondent banks against expected activities and available resources. Such monitoring should be frequent enough to enable a QB to:
 - (a) determine when to acquire additional intraday liquidity or restrict liquidity outflows to meet critical payments;
 - (b) allocate intraday liquidity efficiently between itself and its customers; and
 - (c) react quickly to unexpected payment flows and adjust overnight funding positions easily when needed.
6. Secure sufficient funding and manage the timing of liquidity outflows in accordance with intraday objectives, as well as requirements from the market;
7. Manage and mobilize collaterals as necessary to obtain intraday funds. A QB should have sufficient collaterals available to acquire the level of intraday liquidity needed to meet its intraday objectives. It should have operational arrangements in place to pledge or deliver this collateral either to the central QB, correspondents, custodians or other counterparties when needed. A QB should also understand the timeframes required to mobilize different forms of collaterals, including collaterals held on a cross-border basis;
8. Attribute intraday liquidity costs to the QB's income generating units, as warranted;
9. Set intraday liquidity risk limits that take into account possible obstacles to intraday cash flow movement across various payment systems, and across borders in the case of foreign banks and other global financial market utilities (FMUs)³ which may be operating in more than one jurisdiction; and
10. Deal with unexpected disruptions to intraday liquidity flows, as supported by stress tests and the contingency funding plan. Scenarios designed based on intraday funding disruptions should be included in the QB's stress testing exercise. Stress scenarios for a QB that uses correspondent banking services may include events where: (i) intraday credit lines are being withdrawn by the correspondent QB; or (ii) a QB is required to either prefund its payments and/or to collateralize its intraday credit lines. Contingency funding plans must also be adopted to manage liquidity needs under the different scenarios. (Refer to Sections IX and X of this Appendix for the related guidelines on stress testing and contingency funding plans.)

The tools and resources applied by a QB in managing its intraday liquidity risks should be tailored to its business model, role in the financial system, and the manner by which it conducts its activities for a particular market. That is, whether it directly participates in a payment and settlement system, or it provides correspondent or custodian services

¹ Throughput refers to the percentage of outgoing payments relative to total payments within the day.

² Peak usage refers to the maximum aggregate amount of concurrently outstanding intraday credit drawn against intraday credit lines granted.

³ A Financial Market Utility (FMU) refers to a multilateral system that provides the infrastructure for transferring, clearing, payment settlements and other financial transactions among financial institutions in the system. A bank can be designated as a settlement entity for foreign exchange transactions, securities related transactions, large value payment systems (such as the Philippine Payments and Settlements System or PhilPaSS), a clearing house, transfer systems and any other FMU.

and intraday credit facilities to other QBs. In particular, a bank classified as a settlement QB for transactions executed through an FMU is expected to have a robust MIS that can tag and segregate, as well as monitor, in real time the inflows/outflows of their own transactions from their payment and settlement obligations.

Stand-alone QBs shall be expected to maintain an adequate and reliable management information system (MIS) that is able to monitor and report (a) gross payments sent and received in the LVPS and/or, where appropriate, across all accounts held with correspondent banks on a daily basis and (b) available intraday liquidity at the start of the banking/business day. For this purpose, available intraday liquidity at the start of the business day shall be defined as follows:

For QBs that are subject to the MLR, it shall include the eligible liquid assets under Section 145 of the MORB, total credit lines available from the central bank, and total credit lines available from correspondent banks.

Stand-alone QBs shall make the abovementioned information available any time upon request of the Bangko Sentral.¹

QBs should ensure that there is a clear assignment of tasks and responsibilities to personnel involved in the intraday liquidity management process. There should also be sufficient coordination among the front, middle, and back offices, as intraday liquidity management requires close monitoring of expected payments and direct contacts with customers, where necessary, to quickly verify the reasons for delayed payments.

VI. FOREIGN CURRENCY LIQUIDITY MANAGEMENT

The principles described in these guidelines also apply to the management of any foreign currency in either the Regular Banking Unit (RBU) or Foreign Currency Deposit Unit (FCDU) to which the QB maintains a significant exposure. The systems or processes for measuring, monitoring, and controlling foreign currency liquidity positions shall be integrated into various aspects of a QB's overall liquidity risk management framework, such as managing net funding requirements, stress-testing, and contingency funding planning, as appropriate.

QBs should formulate liquidity strategies and policies for the major currencies in which they have significant activity or exposure.² As a general principle, QBs should manage and control their funding needs to avoid over-reliance on foreign exchange or currency swap markets in respect of those currencies in which they have significant exposure, as there is a risk that their ability to swap currencies may erode rapidly under stressed conditions.

QBs should assess their aggregate foreign currency liquidity needs under both normal and stressed conditions, and control currency mismatches within acceptable levels.³ Management needs to set and regularly review limits on the size of its funding gaps for each significant individual currency and in aggregate over particular time bands (e.g., "next day", "7 days" and "1 month") for each major foreign currency in which they operate.

Currency mismatch may arise where, for example, a QB relies on local currency liabilities and short-term borrowings to fund a portion of its assets denominated in foreign currency, or vice versa via foreign exchange or currency swap markets. In these cases, QBs should demonstrate the capacity to assess and monitor the risk of sudden, adverse exchange rate movements that could sharply widen existing funding gaps and alter the effectiveness of foreign exchange hedges and hedging strategies. QBs should also assess the likely convertibility of foreign currencies and access to foreign exchange markets for switching funding from one currency to another.

The size of the limits should take into account the following factors, among others:

- a. The amount of foreign currency liabilities that can be swapped through the foreign exchange market to fund local currency assets, or vice versa;
- b. The convertibility and price volatility of individual foreign currencies, the timing of access to funds in those currencies, as well as the potential for impairment or complete closure of foreign exchange swap markets for particular currency pairs in the case of market disruptions;
- c. The conditions of foreign exchange markets, including the depth and liquidity of the markets and the level of interest rates;
- d. The ability to raise funds in foreign exchange markets and to transfer surplus liquidity from one currency to another, across jurisdictions and legal entities;
- e. Differences in the behavior of foreign currency depositors and lenders vis-à-vis those of customers and counterparties in transactions involving the domestic currency, and the stickiness of deposits in foreign currencies under stressed conditions;

¹ Stand-alone TBs/QBs and all RBs/Coop Banks shall be given one (1) year and six (6) months from the date of effectivity of this Circular to achieve full compliance with the provisions of this section.

² The term "significant" as defined in Item "C.2" applies.

³ Banks with FCDU operations are subject to statutory requirements, such as the asset cover.

- f. The availability of foreign currency backup facilities in cases where normal access to funding in individual currencies is disrupted; and
- g. The ability of borrowers to repay their foreign currency liabilities under stressed conditions (e.g., interest rate hikes and exchange rate fluctuations).

VII. INTRAGROUP LIQUIDITY RISK MANAGEMENT

QBs belonging to a financial group shall have adequate policies and systems that enable active monitoring and control of liquidity risk exposures and funding needs within and across business lines and legal entities in their groups, including those arising from cross-border transactions. Further, the parent QB of a group should establish processes that facilitate data aggregation across multiple systems to enable group-wide management of liquidity risk. For cross-border intragroup activities and other intragroup transactions involving foreign currencies, QBs shall also apply the provisions of Part VI, Foreign Currency Liquidity Management.

QBs shall clearly document any liquidity support arrangements with group entities. Further, they should specify in their liquidity risk management policies the treatment of intragroup transactions and the assumptions on intragroup dependencies for the purposes of making cash-flow projections for both normal and stressed conditions.

Intragroup transactions may be treated in the same way as other third party transactions for the purpose of cash flow projections under normal business conditions, provided that there is no doubt about the financial position of the group as a whole. Under stressed situations, QBs should analyze how the liquidity positions of group entities may affect their own liquidity. They should be able to account for any funding or liquidity commitment provided to group entities and prepare for any withdrawal of funding provided by these entities. Where there is reliance on funding support from group entities, QBs should take into account any limitation on their access to liquidity from those entities.

QBs should identify and understand the constraints on the movement of liquidity within their groups and specify assumptions regarding the transferability of funds and collateral in liquidity risk management policies. These assumptions should fully consider regulatory, legal, accounting, credit, tax, and internal constraints on the effective movement of liquidity and collateral as well as the time required to complete the transfers. There should also be processes in place for the allocation of liquidity and collateral resources.

A QB should assess the possibility of a reputation contagion that occurs when a liquidity problem in an entity within its group leads to a liquidity strain across the entire group due to the assumption of market counterparties that a problem at one entity is a problem for the group as a whole. The inherent vulnerability of a QB that is part of a group to reputation contagion must be addressed in the QB's intragroup liquidity risk management system.

To mitigate the potential for reputation contagion, QB should consider establishing internal limits on liquidity risk within and across business lines and group entities. It is also vital that QB engage in effective communication with major counterparties and other stakeholders when liquidity problems in their group entities arise. Scenarios based on reputation contagion should be considered in the QB's stress testing exercise and must be complemented with a robust group-wide contingency funding plan. QBs should ensure that they have sufficient liquidity cushions and a well-diversified funding structure to mitigate the effects of reputation contagion.

VIII. COLLATERAL MANAGEMENT

The availability of eligible assets that a QB can use as collateral to obtain funding in the market gives it the ability to raise cash quickly to meet liquidity needs. On the other hand, entering into contracts with margin requirements (such as derivatives) exposes a QB to liquidity risk. Hence, the allocation of sufficient resources to the management of collateral positions is needed in order to achieve the overall liquidity risk management strategy of the QB. In this regard, QBs that regularly and/or have plans to enter into collateralized transactions shall institute policies, procedures, and systems that would enable them to:

1. Assess the eligibility and acceptability of each major asset class for pledging as collateral to major counterparties, the Bangko Sentral, and other fund providers in secured funding markets for intraday, overnight, and term credit. QB should also ensure that there is proper legal documentation for each asset class to be effectively pledged for liquidity;
2. Monitor the level of available collateral by legal entity, jurisdiction, and currency exposure;
3. Track the legal entity and the physical location, i.e., the custodian QB or securities settlement system, with which each of the available collaterals are held;
4. Meet expected, and accommodate unexpected, borrowing needs as well as potential increases in margin requirements. Banks should also be able to monitor the shifts of collateral usage between intraday, overnight, and term borrowing requirements;

5. Optimize the allocation of collateral available for different operational needs, products, business units, locations, and currencies, as applicable;
6. Diversify the sources of collateral to avoid excessive concentration on any particular funding provider or market taking into consideration capacity constraints, sensitivity of prices, haircuts and collateral requirements (e.g., concentration of available collaterals in the form of long-dated ROP bonds that have a higher price sensitivity may pose constraints in generating liquidity especially during stressed conditions);
7. Account for all collateral positions, including both currently pledged and unencumbered eligible assets;
8. Prudently measure the value of available and pledged collaterals, together with estimates of its liquidated value in adverse market conditions;
9. Capture the implications of hedging activities and obligations embedded in the contractual terms of transactions involving derivatives, securitizations, structured products, and other market instruments to their ability to utilize collaterals to obtain liquidity and outstanding collateral positions; and
10. Integrate collateral positions in the liquidity risk measurement tools. QBs should incorporate assumptions for available and pledged collaterals in both business as usual and stressed-based liquidity risk measurement tools.

IX. LIQUIDITY STRESS TESTING

Stress tests should enable a QB to assess its ability to generate sufficient liquidity from the asset side, liability side, and contingent items of the balance sheet to meet funding needs under adverse conditions and to ensure that exposures remain in accordance with the QB's liquidity risk tolerance. In this regard, the following guidelines shall apply:

1. Stress tests shall be conducted on a regular basis for a variety of short-term and protracted stress scenarios to identify sources of potential liquidity strain. This applies to all QB, including those that are covered by the regulations on the LCR, to take into account the varying liquidity risk profiles and vulnerabilities of individual institutions.
2. The design and frequency of stress tests shall be commensurate with the size and complexity of a QB, its liquidity risk exposures, as well as the importance of the QB within the financial system.
3. It is important for QBs to construct plausible stress scenarios under varying levels of severities and examine the resultant cash flow needs. They shall, at a minimum, include the following types of scenarios in their stress testing exercise: (a) an institution-specific crisis scenario; (b) a market-wide crisis scenario; and (c) a combination of both.¹
4. In designing stress scenarios, QBs shall take into account specific risks associated with their business models and vulnerabilities arising from a concentration of assets or funding sources.
5. Retail banks, including rural and cooperative QBs, may develop scenarios that include: (i) an acute deposit run with significant daily run-off rates for deposits; and (ii) increasing requests from customers to redeem their time deposits prior to maturity.
6. Banksthat actively utilize interbank facilities or collateralized borrowings, shall:
 - a. Analyze the impact of stressed market conditions on the value of assets used as collaterals; and
 - b. Account for systemic as well as second-round effects, i.e., tests should assume that the QB's actions may have an impact on the market and that there are other institutions seeking to undertake similar actions.
7. The ability of a QB to honor its immediate commitments at least for the initial period when the stress is likely to be most acute is crucial for its later survival. As such, the QB is expected to have sufficient funds to cover its liquidity needs. It shall ensure that it is able to continue its businesses for a certain minimum stress period under each of the crisis scenarios.

The minimum stress period for an institution-specific crisis scenario shall last for no less than five (5) business days, while a market wide crisis scenario and a combined scenario shall last for no less than one month. QBs may adopt longer minimum stress periods if their liquidity risk profile so warrants.

8. Stress tests shall be performed for all currencies in aggregate and separately for positions in the local currency and individual foreign currencies in which banks have significant positions. Refer to Section VI for the related guidelines on foreign currency liquidity management.

¹ An institution-specific stress scenario may refer to situations that could arise from a bank experiencing problems which affect public confidence in either the QB or its group-wide operations. On the other hand, a market-wide stress scenario may refer to situations where liquidity at a large number of financial institutions in one or more markets is affected. This may be characterized by a market-wide liquidity squeeze, substantial discounts needed to sell or repo assets, or severe operational or settlement disruptions affecting one of more payment or settlement systems.

9. A bank that exercises control over subsidiary/ies should be able to analyze the impact of stress scenarios on its consolidated liquidity position as well as that of individual financial subsidiaries within the group in order to understand where risks could arise. Branches of foreign QBs are expected to apply these guidelines to their Philippine operations only. Refer to Section VII for the related guidelines on intragroup stress testing.
10. QBs belonging to a banking group/conglomerate should, in particular, assess the effects of a group-wide crisis scenario on their liquidity positions. This scenario assumes that an institution-specific stress event is affecting the global operations of the banking group (i.e., with problems spilling over the entire banking group).
11. Results of the stress tests should be linked to the overall ALM and liquidity risk management processes of the QB. To this end, the board and senior management should:
 - a. Integrate the stress test results into the QB's strategic business planning process, liquidity risk management strategies and practices, setting of internal liquidity risk limits, and the assessment of potential funding shortfalls in the contingency funding plan; and
 - b. Thoroughly discuss the stress testing results to consider the need for remedial or mitigating actions, such as, but not limited to, expanding the liquidity buffer, obtaining more long-term funding or adjusting the composition of assets.
12. A QB's stress scenarios and related assumptions must be well documented. The scenario design and underlying scenarios used should be subject to regular review and approval by the board and senior management to ensure that the nature and severity of the tested scenarios remain appropriate and relevant to market conditions, changes in business model and activities, and actual experiences in stressed situations.

X. CONTINGENCY FUNDING PLAN

QBs shall have a formal contingency funding plan (CFP) that clearly sets out strategies for addressing emergency situations. These include, in particular, liquidity shortfalls estimated from stress tests performed by the QB under institution-specific, market-wide and combined stress scenarios mentioned in Sections V and IX. The following shall be observed:

1. The CFP should address liquidity issues over a range of different time horizons, including intraday.
2. The CFP should clearly define a set of triggering events that will activate the plan as well as the mechanisms for identification, monitoring and reporting of such events at an early stage. QBs may adopt internal and market indicators for defining and monitoring triggering events.
3. The CFP should provide a QBs management with a diversified set of viable, readily deployable potential contingency funding measures for preserving liquidity and addressing liquidity shortfalls. All potential sources of funding should be identified, along with the estimated amount of funds that can be derived from these sources, their expected degree of reliability, the conditions under which these sources should be used (such as scenarios when a QB incurs a sudden material intraday liquidity shortfall), and the lead time needed to tap additional funds from each of the sources.

In this regard, QBs must maintain adequate records in support of their assumed funding sources during stress conditions, such as test results of counterparty lines, analysis of saturation points for certain securities markets, or statements of support from related parties.

4. The CFP should reflect the relevance of the central QB lending facility as a secondary source of liquidity. It should specify the type of facility to be availed, the corresponding collateral requirements, and operational procedures for accessing the same.
5. To enable a QB to make timely and well-informed decisions and execute contingency measures proficiently, the roles and responsibilities and internal procedures for crisis management should be clearly delineated. These should cover the following:
 - a. The authority to invoke the CFP, and the establishment of a formal liquidity crisis team to facilitate internal coordination and communication across different business lines and locations and decision-making by senior management during a liquidity crisis;
 - b. Clear escalation and prioritization procedures detailing what actions to take, who can take them, and when and how each of the actions can and should be activated;
 - c. Names and contact details of members of the team responsible for implementing the CFP and the locations of team members; and

- d. The designation of alternates for key roles.
- 6. In a time of stress, to support general confidence in the QB, it should develop a communication plan to deliver on a timely basis clear and consistent communication to internal and external parties. Internal communication should cover employees in different business lines and locations. External parties should include the Bangko Sentral, clients, and creditors. The CFP should, in particular, address communication with shareholders, market participants, and major counterparties to whom assurance about the QB is extremely important, as their actions could significantly affect the reputation of the QB and its liquidity position.

Strategies should also be appropriately formulated for managing media relationships and making public announcements to help reduce uncertainty or speculation about the QB in the market.

- 7. The CFP should be subject to regular testing to ensure its effectiveness and operational feasibility, particularly in respect of the availability of the contingency sources of funding listed in it. This is highly warranted in respect of intraday liquidity stress events considering the need to address funding shortfalls in a limited period of time. The testing of the CFP should cover the following major aspects:
 - a. Verifying key assumptions, such as the ability to sell or repo a certain volume of assets or periodically draw down from credit lines;
 - b. Ensuring that roles and responsibilities are appropriate and understood;
 - c. Confirming that contact information is up-to-date, with reporting lines clearly stated and synchronized with the latest organization chart; and
 - d. Reviewing that the necessary legal and operational documentation is in place to execute the plan at short notice.
- 8. The CFP should be consistent with a QB's business continuity plans and should be operational under situations where business continuity arrangements have been invoked. As such, the QB should ensure effective coordination between teams managing issues surrounding liquidity crises and business continuity.
- 9. Banks should review and update their plan at least annually for the board's approval, or more often as changing business or market circumstances require.

(Circular Nos. 1143 dated 12 April 2022 and 1064 dated 03 December 2019)

FACTORS TO CONSIDER IN DEVELOPING A FUNDING STRATEGY

1. Concentration on particular funding markets and sources

QBs should manage any potential concentration in their reliance on particular funding markets and sources. What would constitute a funding concentration cannot be expressed in definite sizes or amounts, as this depends on the nature and complexity of QB's business activities. The following factors should be taken into account in assessing the degree of funding concentration:

- Maturity profile and credit-sensitivity of the liabilities;
- Mix of secured funding and unsecured funding;
- Extent of reliance on the following:
 - a. A single fund provider or a group of related fund providers;
 - b. Certain instruments or products, e.g., interbank borrowing, retail versus wholesale deposits, and repurchase agreements and swaps;
 - c. Particular markets, including a limited number of counterparty lines for financial instruments that are regularly used for funds management; and
 - d. Intragroup funding;
- Geographical location, industry, or economic sector of fund providers; and
- Currency of funding sources.

2. Availability of stable funding sources

QBs should build up a sufficient level of stable funding to support their assets and activities. They should analyze their funding structure and identify which funding sources are likely to stay with them, and which may leave, under adverse circumstances. QBs with a large deposit base should, in particular, conduct a granular analysis to evaluate the behavioural characteristics of different types of deposits with a view of determining the attributes of deposits that are more stable in nature. The trends and levels of stable deposits should be regularly monitored.

3. Impact of available funding sources on liquidity position

QBs should recognize that certain funding sources, e.g., interbank borrowing and wholesale funding, are more volatile than traditional retail funding. QBs that are heavily reliant on such funding sources should seek more diversification of these sources and maintain a higher proportion of high-quality liquid assets to withstand the potential impact of liquidity or market disruptions.

In the case of standby credit facilities, QBs should likewise recognize the likelihood that their right to draw on these facilities may be denied in a crisis. QBs should therefore avoid excessive reliance on standby facilities. Where standby facilities constitute a major source of a QB's backup liquidity, it should be able to prove the certainty of these arrangements.

4. Access to alternative sources of funding

QBs should identify alternative sources of funding that may be used to generate liquidity in case of need. These may include intragroup fund transfers, new debt issues, asset sales, and access to Bangko Sentral credit facilities, among others. QBs should review the effectiveness of using such sources in different situations. They should be aware that not all fund-raising options are available in all circumstances and some may be available only with a substantial time delay.

FACTORS TO CONSIDER IN DEVELOPING CASH FLOW PROJECTIONS

1. While certain cash flows can be based simply on contractual maturities, there are those which can only be estimated based on assumptions. Banks should make realistic assumptions to enable prudent cash-flow projections that reflect the complexity of their underlying businesses, products and markets. These assumptions may include –
 - a. Future growth in the balance sheet;
 - b. The proportion of maturing assets and liabilities that QBs expect to roll over or renew;
 - c. The quality and proportion of liquid assets or other marketable securities that can be used as collateral to obtain secured funding;
 - d. The behavior of assets and liabilities with no clearly specified maturity dates, such as repayment of overdrafts and demand deposits;
 - e. Potential cash flows arising from off-balance sheet activities, e.g., drawdown under loan commitments and contingent liabilities (including all potential draws from contractual or non-contractual commitments);
 - f. Convertibility of foreign currencies;
 - g. The lead time required for the liquidation of marketable debt securities, taking into account the settlement time and the impact of time differences if the clearing or custodian agents are located outside the Philippines; and
 - h. Access to wholesale markets, standby facilities, and intragroup funding.
2. In projecting cash flows, QBs should also consider general economic and market trends (e.g., an interest rate hike) that could affect their ability to access funds readily and at reasonable terms. QBs should document in their liquidity risk management policy statement the underlying assumptions used for estimating cash flow projections and the rationale behind them. The assumptions and their justifications should be approved, and be subjected to regular review, by senior management to take account of available statistical evidence and the changing business environment.
3. Techniques employed by QBs for designing assumptions should be commensurate with the nature and complexity of their business activities. These may range from historical experience and static simulations based on current holdings to sophisticated modelling (for more complex banks), taking into account ongoing market developments.
4. In deriving behavioural cash flow assumptions, QBs may analyze historical observations on cash flow patterns. While there is no standard methodology for making such assumptions, it is important that the use of consistent and reasonable assumptions should be supported by sufficient historical or empirical evidence.
5. The minimum criteria for using behavioural assumptions are as follows:
 - a. The assumptions should be consistent and reasonable for each scenario. For example, the proportion of marketable debt securities which could be liquidated in case of need and their liquidation value should properly reflect the quality and market liquidity of the securities under different scenarios.
 - b. The assumptions should be verified and supported by sufficient evidence, experience and performance rather than arbitrarily selected. Typical information sources that could be used to help formulate the assumptions include –
 - Historical observations or statistical analyses of cash-flow patterns/behavioural maturity under different scenarios. For instance, the past behaviour of different types of customer deposits, coupled with an analysis of their characteristics and factors affecting their stability, may provide relevant information for estimating the amount of deposits that will likely be withdrawn under normal or stressed situations;
 - Models developed or used by banks for conducting cash-flow analysis;
 - Input from managerial and business units about business and pricing strategies, as planned changes to business or repricing strategies could affect the behaviour of future cash flows of positions with uncertain maturities; and
 - General economic and market trends as well as other relevant information that could affect QBs' ability to access funds readily and at reasonable terms.
 - c. The length of the underlying historical observation period used for the analyses and models should be at least ten years, consistent with international standards.
6. Banks should document the behavioural assumptions in their liquidity management policy statement. The type of analysis performed under each assumption should also be documented to facilitate periodic review. The details of that documentation should be consistent with the significance of the risk and the complexity of the analysis.

**AUTHORIZATION FORM FOR QUERYING THE BANGKO SENTRAL
WATCHLIST FILES FOR SCREENING APPLICANTS AND CONFIRMING
APPOINTMENTS OF DIRECTORS AND OFFICIALS
[Appendix to Secs. 113-N, 132-P, 135-S and 137-Q (Watchlisting)]**

RISK-BASED CAPITAL ADEQUACY FRAMEWORK FOR THE PHILIPPINE BANKING SYSTEM

(Appendix to Sec. 125-Q)

Introduction

This Appendix outlines the Bangko Sentral implementing guidelines of the revised International Convergence of Capital Measurement and Capital Standards, popularly known as Basel II, and the reforms introduced in Basel III: A global regulatory framework for more resilient banks and banking systems. Basel II and Basel III comprise the international capital standards set by the Basel Committee on Banking Supervision (BCBS)¹.

The guidelines revise the risk-based capital adequacy framework for UBs and KBs, as well as their subsidiary banks and QBs. TBs and RBs as well as QBs that are not subsidiaries of UBs and KBs shall be subject to a different set of guidelines except the criteria for eligibility as qualifying capital.

The guidelines shall take effect on 01 January 2014.

Part I. Risk-based capital adequacy ratio (CAR)

1. UBs and KBs and their subsidiary banks and QBs shall be subject to the following risk-based CARs:
 - a. Common Equity Tier (CET1) must be at least six percent (6%) of risk-weighted assets at all times;
 - b. Tier 1 capital must be at least seven and a half percent (7.5%) of risk-weighted assets at all times; and
 - c. Qualifying capital (Tier 1 plus Tier 2 capital) must be at least ten percent (10%) of risk-weighted assets at all times.
2. CET1 capital, Tier 1 capital and qualifying capital are computed in accordance with the provisions of Part II. Risk-weighted assets is the sum of (1) credit-risk weighted assets (Parts IV, V and VI), (2) market risk-weighted assets (Parts V and VII), and (3) operational risk weighted assets (Part VIII).
3. The CAR requirement will be applied to all UBs and KBs and their subsidiary banks, and QBs on both solo² and consolidated³ bases. The application of the requirement on a consolidated basis is the best means to preserve the integrity of capital in banks with subsidiaries by eliminating double gearing. However, as one of the principal objectives of supervision is the protection of depositors, it is essential to ensure that capital recognized in capital adequacy measures is readily available for those depositors. Accordingly, individual banks should likewise be adequately capitalized on a stand-alone basis.
4. To the greatest extent possible, all banking and other relevant financial activities (both regulated and unregulated) conducted by a bank and its subsidiaries will be captured through consolidation. Thus, majority-owned or -controlled financial allied undertakings should be fully consolidated on a line by line basis. Exemptions from consolidation shall only be made in cases where such holdings are acquired through debt previously contracted and held on a temporary basis, are subject to different regulation⁴, or where non-consolidation for regulatory capital purposes is otherwise required by law. All cases of exemption from consolidation must be made with prior clearance from the Bangko Sentral.
5. Banks shall comply with the minimum CARs at all times notwithstanding that supervisory reporting shall only be on quarterly basis. Any breach, even if only temporary, shall be reported to the bank's Board of Directors and to Bangko Sentral, supervision sector within three (3) banking days. For this purpose, banks shall develop an appropriate system to properly monitor their compliance.
6. The Bangko Sentral reserves the right, upon authority of the Deputy Governor of the supervision sector of the Bangko Sentral, to conduct on-site inspection outside of regular or special examination, for the purpose of ascertaining the accuracy of CAR calculations as well as the integrity of CAR monitoring and reporting systems.

¹ The Basel Committee on Banking Supervision is a committee of banking supervisory authorities that was established by the central bank governors of the Group of Ten countries in 1975. It consists of senior representatives of bank supervisory authorities and central banks from Argentina, Australia, Belgium, Canada, China, France, Germany, Hong Kong SAR, India, Indonesia, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, Russia, Saudi Arabia, Singapore, South Africa, Spain, Sweden, Switzerland, Turkey, the United Kingdom, and the United States. It usually meets at the Bank for International Settlements in Basel, Switzerland where its permanent Secretariat is located

² Pertains to the reporting entity's head office and branches

³ Pertains to the reporting entity and its financial allied subsidiaries except insurance companies that are required to be consolidated on a line-by-line basis for the purpose of preparing consolidated financial statements

⁴ These currently pertain to insurance companies and securities brokers/dealers.

Part II. Qualifying capital

1. Qualifying capital consists of the sum of the following elements, net of required deductions:
 - a. Tier 1 capital (going concern capital) is composed of:
 - i. CET1; and
 - ii. Additional Tier 1 (AT1) capital; and
 - b. Tier 2 (gone-concern) capital.
2. A bank/QB must ensure that any component of capital included in qualifying capital complies with all the eligibility criteria for the particular category of capital in which it is included.

Section A. Domestic banks

CET1 capital

3. CET1 capital consists of:
 - ii. Paid up common stock issued by the bank that meet the eligibility criteria in “App. Q-45 Annex A”;
 - iii. Common stock dividends distributable;
 - iv. Additional paid-in capital resulting from the issuance of common stock included in CET1 capital;
 - v. Deposit for common stock subscription;
 - vi. Retained earnings;
 - vii. Undivided profits;¹
 - viii. Other comprehensive income;
 - (1) Net unrealized gains or losses on AFS securities²;
 - (2) Cumulative foreign currency translation;
 - (3) Remeasurement of Net Defined Benefit Liability/(Asset);
 - (4) Gains/(Losses) on Fair Value Adjustments of Hedging Instruments:
 - (a) Cash Flow Hedge; and
 - (b) Hedge of a Net Investment in Foreign Operations; and
 - (5) Others (indicate the nature and amount of the accounts lodged)
 - ix. Minority interest in subsidiary banks which are less than wholly-owned:³ Provided, That the minority interest arises from issuances of common stock which, if issued by the bank itself, would meet all of the criteria for classification as CET1 capital: Provided, further, That the amount to be included as minority interest shall be reduced by the surplus CET1 of the subsidiary attributable to minority shareholders: Provided, furthermore, That the surplus CET capital of the subsidiary attributable to minority shareholders is computed as the available CET1 capital minus the lower of: (1) the minimum CET capital requirement of the subsidiary and (2) the portion of the consolidated minimum CET requirement that is attributable to the subsidiary, multiplied by the percentage of CET held by minority shareholders.

Illustrative computation is in *App. Q-45 Annex D*.

(Circular No. 934 dated 23 December 2016)

¹ For early adopters of PFRS 9, this account should include the net unrealized gains/losses on available-for sale (AFS) debt securities;

² For early adopters of PFRS 9, this account shall refer only to “Net Unrealized gains(losses) on AFS equity securities; For AFS debt securities, refer to Footnote No.5. In view of the continuing evaluation by the Basel Committee on the appropriate treatment of unrealized gains/losses with respect to the evolution of the accounting framework, the Bangko Sentral will revise its relevant regulation once the treatment of fair value adjustments in the calculation of CET1 has been determined.

³ Minority interest in a subsidiary that is a bank is strictly excluded from the parent bank’s common equity if the parent bank or affiliate has entered into any arrangements to fund directly or indirectly minority investment in the subsidiary whether through an SPV or through another vehicle or arrangement. The treatment of minority interest set out above is strictly available where all minority investments in the bank subsidiary solely represent genuine third party common equity contributions to the subsidiary.

Regulatory adjustment to CET1 capital

4. The following must be deducted from/(added to) CET1 capital:

- a. Common stock treasury shares¹, including shares that the bank could be contractually obliged to purchase;
- b. Gains (Losses) resulting from designating financial liabilities at fair value through profit or loss that are due to changes in its own credit worthiness;²
- c. Unbooked valuation reserves and other capital adjustments based on the latest report of examination as approved by the Monetary Board;
- d. Total outstanding unsecured credit accommodations, both direct and indirect, to DOSRI;
- e. Total outstanding unsecured loans, other credit accommodations and guarantees granted to subsidiaries;
- f. Total outstanding loans, other credit accommodations and guarantees granted to related parties that are not at arm's length terms as determined by the appropriate supervising department of the Banko Sentral;
- g. Deferred tax assets that rely on future profitability of the bank to be realized, net of any (1) allowance for impairment and (2) associated deferred tax liability, if and only if the conditions cited in PAS 12 are met: Provided, That, if the resulting figure is a net deferred tax liability, such excess cannot be added to Tier 1 capital;
- h. Goodwill, net of any allowance for impairment and any associated deferred tax liability which would be extinguished upon impairment or derecognition, including that relating to unconsolidated subsidiary banks, financial allied undertakings (excluding subsidiary securities dealers/brokers and insurance companies) (on solo basis) and unconsolidated subsidiary securities dealers/brokers, insurance companies and non-financial allied undertakings (on solo and consolidated bases);
- i. Other intangible assets, net of any allowance for impairment and any associated deferred tax liability which would be extinguished upon impairment or derecognition;
- j. Gain on sale resulting from a securitization transaction;
- k. Defined benefit pension fund assets (liabilities);³
- l. Investments in equity of unconsolidated subsidiary banks and QBs, and other financial allied undertakings (excluding subsidiary securities dealers/brokers and insurance companies), after deducting related goodwill, if any (for solo basis);
- m. Investments in equity of unconsolidated subsidiary securities dealers/brokers and insurance companies after deducting related goodwill, if any (for both solo and consolidated bases);
- n. Significant minority investments (10%-50% of voting stock) in banks and QBs, and other financial allied undertakings (for both solo and consolidated bases);
- o. Significant minority investments (10%-50% of voting stock) in securities dealers/brokers and insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases);
- p. Minority investments (below 10% of voting stock) in banks and QBs, and other financial allied undertakings (excluding subsidiary securities dealers/brokers and insurance companies), after deducting related goodwill, if any (for both solo and consolidated bases);
- q. Minority investments (below 10% of voting stock) in securities dealers/brokers and
- r. insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases);

For equity investments in financial entities (Items "k" to "p"), total investments include:

- i. common equity exposures in both the banking and trading book; and
- ii. underwriting positions in equity and other capital instruments held for more than five (5) days:

¹ Treasury shares are: (1) shares of the parent bank held by a subsidiary financial allied undertaking in a consolidated statement of condition, or (2) the reacquired shares of a subsidiary bank/quasi-bank that is required to compute its capital adequacy ratio in accordance with this framework.

² This adjustment shall only apply to banks/QBs which would not early adopt the provisions of PFRS 9 and recognize the gains/losses (relative to changes in own credit worthiness) in undivided profits.

³ The adjustment pertains to the defined benefit asset or liability that is recognized in the balance sheet. Such that CET1 cannot be increased by derecognizing the liabilities, in the same manner, any asset recognized in the balance sheet should be deducted from CET1 capital;

Provided, That should the instrument of the entity in which the bank has invested does not meet the criteria for CET1 capital of the bank, the capital is to be considered common shares and thus deducted from CET1.

- s. Other equity investments in non-financial allied undertakings and non-allied undertakings;
- t. Capital shortfalls of unconsolidated subsidiary securities dealers/brokers and insurance companies (for both solo and consolidated bases);
- u. Reciprocal investments in common stock of other banks/QBs and financial allied undertakings including securities dealers/brokers and insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases);
- v. Materiality thresholds in credit derivative contracts purchased;
- w. Credit-linked notes and other similar products in the banking book with issue ratings below investment grade;
- x. Securitization tranches and structured products which are rated below investment grade or are unrated; and
- y. Credit enhancing interest only strips in relation to a securitization structure, net of the amount of “gain-on-sale” that must be deducted from CET1 capital.

(Circular No. 914 dated 23 June 2016)

Additional Tier 1 (AT1) capital

5. AT1 capital consists of the following:

- a. Instruments issued by the bank that are not included in CET1 capital that meet the following:
 - i. criteria for inclusion in AT1 capital as set out in “App. Q-45 Annex B”;
 - ii. required loss absorbency features for instruments classified as liabilities for accounting purposes. The loss absorbency requirements are provided in “App. Q-45 Annex E”; and
 - iii. required loss absorbency feature at point of non-viability as set out in “App. Q-45 Annex F”.
- b. Additional paid-in capital resulting from the issuance of instruments included in AT1 capital;
- c. Deposit for subscription of AT1 capital instruments;
- d. Minority interest in subsidiary banks which are less than wholly-owned¹: *Provided*, That the minority interest arises from issuances of Tier 1 instruments, if issued by the bank itself, would meet all of the criteria for classification as Tier 1 capital: *Provided*, further, That the amount to be included as minority interest shall be reduced by the surplus Tier 1 capital of the subsidiary attributable to minority shareholders: *Provided*, furthermore, That the surplus Tier 1 capital of the subsidiary attributable to minority shareholders is computed as the available Tier 1 capital minus the lower of: (1) the minimum Tier 1 capital requirement of the subsidiary and (2) the portion of the consolidated minimum Tier 1 requirement that is attributable to the subsidiary, multiplied by the percentage of Tier 1 held by minority shareholders: *Provided, finally*, That the amount of Tier 1 capital to be recognized in AT1 capital will exclude amounts recognized in CET1 capital.

Illustrative computation is in App. Q-45 Annex D.

Regulatory adjustments to AT1 capital

6. The following are the adjustments to AT1 capital:

- a. AT1 instruments treasury shares², including shares that the bank could be contractually obliged to purchase;
- b. Investments in equity of unconsolidated subsidiary banks and QBs, and other financial allied undertakings (excluding subsidiary securities dealers/brokers and insurance companies), after deducting related goodwill, if any (for solo basis);
- c. Investments in equity of unconsolidated subsidiary securities dealers/brokers and insurance companies after deducting related goodwill, if any (for both solo and consolidated bases);
- d. Significant minority investments (10%-50% of voting stock) in banks and QBs, and other financial allied undertakings (for both solo and consolidated bases);

¹ Please refer to Footnote in Part II, Item “3a”

² Please refer to Footnote in Part II, item “4a”

- e. Significant minority investments (10%-50% of voting stock) in securities dealers/brokers and insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases);
- f. Minority investments (below 10% of voting stock) in banks and QBs, and other financial allied undertakings (for both solo and consolidated bases);
- g. Minority investments (below 10% of voting stock) in securities dealers/brokers and insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases).

For equity investments in financial entities (Items “b” to “g”), total investments include:

- i. other capital instruments in both the banking and trading book; and
- ii. underwriting positions in equity and other capital instruments held for more than five (5) days: *Provided*, That should the instrument of the entity in which the bank has invested does not meet the criteria for AT1 capital of the bank, the capital is to be considered common shares and thus deducted from CET1 capital.
- h. Reciprocal investments in AT1 capital instruments of other banks/QBs and financial allied undertakings including securities dealers/brokers and insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases);

Tier 2 capital

7. Tier 2 capital is composed of the following:

- a. Instruments issued by the bank (and are not included in AT1 capital) that meet the following:
 - i. criteria for inclusion in Tier 2 capital as set out in “*App. Q-45 Annex C*”; and
 - ii. Required loss absorbency feature at point of non-viability as set out in “*App. Q-45 Annex F*”.
- b. Deposit for subscription of T2 capital;
- c. Appraisal increment reserve – bank premises, as authorized by the Monetary Board;
- d. General loan loss provision, limited to a maximum of one percent (1.00%) of credit risk-weighted assets, and any amount in excess thereof shall be deducted from the credit risk-weighted assets in computing the denominator of the risk-based capital ratio;
- e. Minority interest in subsidiary banks which are less than wholly-owned:¹ *Provided*, That the minority interest arises from issuances of capital instruments, if issued by the bank itself, would meet all of the criteria for classification as Tier 1 or Tier 2 capital: *Provided*, further, That the amount to be included as minority interest shall be reduced by the surplus total capital of the subsidiary attributable to minority shareholders: *Provided*, furthermore, That the surplus total capital of the subsidiary attributable to minority shareholders is computed as the available total capital minus the lower of: (1) the minimum total capital requirement of the subsidiary and (2) the portion of the consolidated minimum total capital requirement that is attributable to the subsidiary, multiplied by the percentage of total capital held by minority shareholders. *Provided*, finally, That the total capital that will be recognized in Tier 2 will exclude amounts recognized in CET1 and AT1 capital.

Illustrative computation in *App. Q-45 Annex D*.

Regulatory adjustments to Tier 2 capital

8. The following adjustments shall be charged against Tier 2 capital:

- a. Tier 2 instruments treasury shares², including shares that the bank could be contractually obliged to purchase;
- b. Investments in equity of unconsolidated subsidiary banks and QBs, and other financial allied undertakings (excluding subsidiary securities dealers/brokers and insurance companies), after deducting related goodwill, if any (for solo basis);
- c. Investments in equity of unconsolidated subsidiary securities dealers/brokers and insurance companies after deducting related goodwill, if any (for both solo and consolidated bases);

¹ Please refer to Footnote in Part II, Item “3a”

² Please refer to Footnote in Part II, Item “4a”

- d. Significant minority investments (10%-50% of voting stock) in banks and QBs, and other financial allied undertakings (for both solo and consolidated bases);
- e. Significant minority investments (10%-50% of voting stock) in securities dealers/brokers and insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases);
- f. Minority investments (below 10% of voting stock) in banks and QBs, and other financial allied undertakings (for both solo and consolidated bases);
- g. Minority investments (below 10% of voting stock) in securities dealers/brokers and insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases);

For equity investments in financial entities (Items "b" to "g"), total investments include:

- i. other capital instruments in both the banking and trading book; and
- ii. underwriting positions in equity and other capital instruments held for more than five (5) days:

Provided, That should the instrument of the entity in which the bank has invested does not meet the criteria for T2 capital of the bank, the capital is to be considered common shares and thus deducted from CET1 capital.

- h. Sinking fund for the redemption of T2 capital instruments; and
 - i. Reciprocal investments in T2 capital instruments of other banks/QBs and financial allied undertakings including securities dealers/brokers and insurance companies, after deducting related goodwill, if any (for both solo and consolidated bases).
9. Any asset deducted from qualifying capital in computing the numerator of the risk-based capital ratio shall not be included in the risk-weighted assets in computing the denominator of the ratio.

Section B. Branches of Foreign Banks

CET1 capital

10. CET1 Capital shall be comprised of:

- a. Permanently assigned capital¹;
- b. Undivided profits;
- c. Retained earnings;
- d. Accumulated net earnings²;
- e. Other comprehensive income
 - (1) Net unrealized gains or losses on AFS securities³;
 - (2) Cumulative foreign currency translation;
 - (3) Remeasurement of Net Defined Benefit Liability/(Asset);
 - (4) Gains/(Losses) on Fair Value Adjustments of Hedging Instruments:
 - (a) Cash Flow Hedge; and
 - (b) Hedge of a Net Investment in Foreign Operations; and
 - (5) Others (indicate the nature and amount of the accounts lodged)

(Circular No. 934 dated 23 December 2016)

Regulatory adjustments to CET1 capital

11. The regulatory adjustments to CET1 capital are provided in paragraph 4, as applicable.

In addition, the *Net due from* head office, branches and subsidiaries outside the Philippines, excluding accumulated net earnings shall be deducted from CET1 capital.

¹ Shall include unremitted earnings elected by the branch to be part of assigned capital

² Pertains to the sum of undivided profits, unremitted profits not yet approved by the Bangko Sentral, net of losses in operation of Philippine branch of foreign banks.

³ For early adopters of PFRS 9, this account shall refer only to Net Unrealized gains (losses) on AFS equity securities. For AFS debt securities, refer to Footnote in Part II, Item 3f. In view of the continuing evaluation by the Basel Committee on the appropriate treatment of unrealized gains/losses with respect to the evolution of the accounting framework, the Bangko Sentral will revise its relevant regulation once the treatment of fair value adjustments in the calculation of CET1 has been determined.

Additional Tier 1 (AT1) capital Tier 2 Capital

12. Tier 2 capital shall consist of general loan loss provision, limited to a maximum of one percent (1%) of credit risk-weighted assets, and any amount in excess thereof shall be deducted from the credit risk-weighted assets in computing the denominator of the risk-based capital ratio.

Regulatory adjustments to Tier 2 capital

13. The regulatory adjustments to T2 capital for branches of foreign banks are provided in paragraph 8, as applicable.
14. Any asset deducted from qualifying capital in computing the numerator of the risk-based capital ratio shall not be included in the risk-weighted assets in computing the denominator of the ratio.

Part III. Capital conservation buffer

1. A capital conservation buffer of two and a half percent (2.5%) of risk-weighted assets, comprised of CET1 capital, shall be required of UKBs (both domestic and branches of foreign banks) and their subsidiary banks and QBs.
2. This buffer is meant to promote the conservation of capital and buildup of adequate cushion that can be drawn down by banks to absorb losses during periods of financial and economic stress.
3. Where a bank does not have positive earnings, has CET1 of not more than eight and a half percent (8.5%) (CET1 ratio of six percent (6%) plus conservation buffer of two and a half percent (2.5%) and has not complied with the ten percent (10%) minimum CAR, it would be restricted from making positive distributions, as illustrated below:

Level of CET1 capital	Restriction on Distributions
<6.0%	No distribution
6.0%-7.25%	No distribution until more than 7.25% CET1 capital is met
>7.25%-8.5%	50% of earnings may be distributed
>8.5%	No restriction on Distribution

4. Elements subject to the restriction on distributions include dividends, profit remittance, in the case of foreign bank branches, share buybacks, discretionary payments on other Tier 1 capital instruments, and discretionary bonus payments to staff.
5. Payments which do not result in the depletion of CET1 are not considered distributions.
6. Earnings refer to distributable profits calculated prior to the deduction of elements subject to the restriction on distributions. The earnings is computed after the tax which would have been reported had none of the distributable items been paid.
7. The framework shall be applied on both solo and consolidated basis. The distribution constraints when applied to solo basis (individual bank level) would allow conservation of resources in specific parts of the group.
8. Drawdowns on the capital conservation buffers are generally allowed, subject to certain restrictions on distributions. However, UBs/KBs and their subsidiary banks and QBs shall be subject to a capital restoration plan within the timeframe determined by the Bangko Sentral. This restoration plan shall likewise be required for banks under the PCA framework.
9. While banks are not prohibited from raising capital from private sector in case they wish to distribute in excess of the constraints, this matter should be discussed with the Bangko Sentral and included in the capital planning process.

Part IV. Countercyclical Capital Buffer

1. A Countercyclical Capital Buffer (CCyB) set as percent of risk-weighted assets shall be required of UBs/KBs and their subsidiary banks and quasi-banks. It shall be comprised of CET1 capital.
2. The buffer is meant to ensure that banking sector capital requirements take account of the macrofinancial environment in which banks operate. The primary aim of the countercyclical capital buffer regime is to use a buffer of capital to achieve the broader macroprudential goal of protecting the banking sector from the build-up of systemic vulnerabilities. Protecting the banking sector in this context is not simply ensuring that individual banks remain solvent through a period of stress, as the minimum capital requirement and capital conservation buffer are together designed to fulfill this objective. Rather, the aim is to ensure that the banking sector in aggregate has the capital on hand to help maintain the flow of credit in the economy without its solvency being questioned, when the broader financial system experience stress.

3. The countercyclical buffer requirement will extend the size of the capital conservation buffer. The ban shall not be subject to any restriction on distribution if the following conditions are met:
 - i. Has positive retained earnings as of the preceding quarter and has complied with the requirements on the declaration of dividends as provided in the MORB.
 - ii. Has CET1 of more than the total required (minimum CET1 ratio of six percent (6%) plus CCB of two and a half percent (2.5%) plus CCyB at the rate determined by the Monetary Board) before the distribution; and
 - iii. Has complied with the minimum capital ratios (CET1 ratio to six percent (6%) Tier 1 ratio of seven and a half percent (7.5%) and ten percent (10%) (CAR) after the distribution.

Otherwise, the policy framework of the capital conservation buffer on the restriction on distributions shall apply, except for drawdowns. Thresholds on the restriction on distribution shall consider the CCyB requirement as an extension of the capital conservation buffer.

4. Drawdowns on the CCyB are not allowed unless the Bangko Sentral announces a decision to lower the buffer rate. The capital surplus created when the CCyB is lowered should be unfettered, i.e., there are no restrictions on distributions when the buffer is released.
5. The uniformly applicable rate of the countercyclical buffer shall initially be set at zero percent (0%), subject to recalibration as determined by the Monetary Board. CCyB decisions shall be based on a set of indicators including, but not limited to, the credit-to-GDP gap as well as the growth and quality of credit, among others.
6. Any increase in the countercyclical buffer shall have a preannouncement period of twelve (12) months in consideration of the capital planning process of banks while reductions in the buffer would take effect immediately to help reduce the risk of the supply of credit being constrained by regulatory capital requirement.

Part V. Credit risk-weighted assets

A. Risk-weighting

1. Banking book exposures shall be risk-weighted based on third party credit assessment of the individual exposure given by eligible external credit assessment institutions listed in Part IV.C.

The table below sets out the mapping of external credit assessments with the corresponding risk weights for banking book exposures. Exposures related to credit derivatives and securitizations are dealt with in Parts V and VI, respectively. Exposures should be risk-weighted net of specific provisions.

STANDARDIZED CREDIT RISK WEIGHTS								
Credit Assessment ¹	AAA Below	AA+ to AA-	A+ to A-	BBB+to BBB-	BB+ to BB-	B+ to B-	Below B-	Unrated
Sovereigns	0%	0%	20%	50%	100%	100%	150%	100%
MDBs	0%	20%	50%	50%	100%	100%	150%	100%

Sovereign Exposures

2. These include all exposures to central governments and central banks. All Philippine peso (Php) denominated exposures to the Philippine National Government (NG) and the Bangko Sentral shall be risk-weighted at zero percent (0%). Foreign currency denominated exposures to the NG and the Bangko Sentral, however, shall be risk-weighted according to the table above: Provided, That only one-third (1/3) of the applicable risk weight shall be applied from 01 July 2007, two-

¹ The notations follow the rating symbols used by Standard & Poor's. The mapping of ratings of all recognized external rating agencies is in Part III.C

² Or risk weight applicable to sovereign of incorporation, whichever is higher

thirds (2/3) from 01 January 2008, and the full risk weight from 01 January 2009¹. Exposures to the Bank for International Settlements (BIS), the International Monetary Fund (IMF), and the European Central Bank (ECB) and the European Community (EC) shall also receive zero percent (0%) risk weight.

MDB Exposures

3. These include all exposures to multilateral development banks. Exposures to the World Bank Group comprised of the IBRD and the IFC, the ADB, the AfDB, the EBRD, the IADB, the EIB, the European Investment Fund (EIF), the NIB, the CDB, the Islamic Development Bank (IDB), and the CEDB currently receive zero percent (0%) risk weight. However, it is the responsibility of the bank to monitor the external credit assessments of multilateral development banks to which they have an exposure to reflect in the risk weights any change therein.

Bank Exposures

4. These include all exposures to Philippine-incorporated banks/QBs, as well as foreign-incorporated banks.

Interbank Call Loans

5. *Interbank call* loans refer to interbank loans that pass through the Interbank Call Loan Funds Transfer System of the Bangko Sentral, the BAP, and the PCHC.

Exposures to Local Government Units

6. These include all exposures to non-central government public sector entities. Bonds issued by the Philippine local government units (LGU Bonds), which are Covered by Deed of Assignment of Internal Revenue Allotment of the LGU and guaranteed by the LGU Guarantee Corporation shall be risk-weighted at the lower of fifty percent (50%) or the appropriate risk weight indicated in the table above.

Exposures to Government Corporations

7. These include all exposures to commercial undertakings owned by central or local governments. Exposures to Philippine GOCCs that are not explicitly guaranteed by the Philippine NG are also included in this category.

Corporate Exposures

8. These include all exposures to business entities, which are not considered as micro, small, or medium enterprises (MSME), whether in the form of a corporation, partnership, or sole proprietorship. These also include all exposures to FIs, including securities dealers/brokers and insurance companies, not falling under the definition of Bank in paragraph 4.

Housing Loans

9. These include all current loans to individuals for housing purpose, fully secured by first mortgage on residential property that is or will be occupied by the borrower².

Micro, Small, and Medium Enterprises (MSME)

10. An exposure must meet the following criteria to be considered as an MSME exposure:
 - a) The exposure must be to an MSME as defined under existing Bangko Sentral regulations; and
 - b) The exposure must be in the form of direct loans, or unavailed portion of committed credit lines and other business facilities such as outstanding guarantees issued and unused letters of credit: *Provided*, That the credit equivalent amounts thereof shall be determined in accordance with the methodology for off-balance sheet items.

Qualified portfolio

11. For a bank's portfolio of MSME exposures to be considered as qualified, it must be a highly diversified portfolio, i.e., it has at least 500 borrowers that are distributed over a number of industries. In addition, all MSME exposures in the qualified portfolio must be current exposures. All non-current MSME exposures are excluded from count and are to be treated as ordinary non-performing loans. Current MSME exposures not qualifying under highly diversified MSME portfolio will be risk weighted based on external rating and shall be risk-weighted in the same manner as corporate exposures.

¹ The capital treatment of banks holdings of ROP Global Bonds paired with Warrants under the Bangko Sentral's revised risk-based capital adequacy framework is contained in *Appendix Q-46*.

² Includes housing microfinance loans under Sec.314 (*Housing microfinance loan*)

Defaulted Exposures

12. A default is considered to have occurred in the following cases:

- a) If a credit obligation is considered non-performing under existing rules and regulations.

For non-performing debt securities, they shall be defined as follows:

- i. For zero-coupon debt securities, and debt securities with quarterly, semi-annual, or annual coupon payments, they shall be considered non-performing when principal and/or coupon payment, as may be applicable, is unpaid for thirty (30) days or more after due date; and
 - ii. For debt securities with monthly coupon payments, they shall be considered non-performing when three (3) or more coupon payments are in arrears: *Provided, however,* That when the total amount of arrearages reaches twenty percent (20%) of the total outstanding balance of the debt security, the total outstanding balance of the debt security shall be considered as non-performing.
- b) If a borrower/obligor has sought or has been placed in bankruptcy, has been found insolvent, or has ceased operations in the case of businesses;
 - c) If the bank sells a credit obligation at a material credit-related loss, i.e., excluding gains and losses due to interest rate movements. Banks' board-approved internal policies must specifically define when a material credit-related loss occurs; and
 - d) If a credit obligation of a borrower/obligor is considered to be in default, all credit obligations of the borrower/obligor with the same bank shall also be considered to be in default.

Housing loans

13. These include all loans to individuals for housing purpose, fully secured by first mortgage on residential property that is or will be occupied by the borrower, which are considered to be in default in accordance with paragraph 12.

Others

14. These include the total amounts or portions of all other defaulted exposures, which are not secured by eligible collateral or guarantee as defined in Part IV.B.

ROPA

15. All real and other properties acquired and classified as such under existing regulations.

Other Assets

16. The standard risk weight for all other assets, including bank premises, furniture, fixtures and equipment, will be 100%, except in the following cases:

- a) Cash on hand and gold, which shall be risk-weighted at zero percent (0%); and
- b) Checks and other cash items, which shall be risk-weighted at twenty percent (20%).

Accruals on a claim shall be classified and risk-weighted in the same way as the claim. Bills purchased shall be classified and risk-weighted as claims on the drawee bank. The treatments of credit derivatives and securitization exposures are presented separately in Parts V and VI, respectively. Investments in equity or other regulatory capital instruments issued by banks or other financial/non-financial allied/non-allied undertakings will be risk-weighted at 100%, unless deductible from the capital base as required in Part II.

Off-balance sheet items

17. For off-balance sheet items, the risk-weighted amount shall be calculated using a two-step process. First, the credit equivalent amount of an off-balance sheet item shall be determined by multiplying its notional principal amount by the appropriate credit conversion factor, as follows:

- a) 100% credit conversion factor -this shall apply to direct credit substitutes, e.g., general guarantees of indebtedness (including standby letters of credit serving as financial guarantees for loans and securities) and acceptances (including endorsements with the character of acceptances), and shall include:
 - i. Guarantees issued other than shipside bonds/airway bills;

ii. Financial standby letters of credit

- b) Fifty percent (50%) credit conversion factor – this shall apply to certain transaction-related contingent items, e.g., performance bonds, bid bonds, warranties and standby letters of credit related to particular transactions, and shall include:

- i. Performance standby letters of credit (net of margin deposit), established as a guarantee that a business transaction will be performed;

This shall also apply to –

- i. Note issuance facilities and revolving underwriting facilities; and
ii. Other commitments, e.g., formal standby facilities and credit lines with an original maturity of more than one (1) year, and this shall also include Underwritten Accounts Unsold.

- c) Twenty percent (20%) credit conversion factor – this shall apply to short term, self-liquidating trade-related contingencies arising from movement of goods, e.g., documentary credits collateralized by the underlying shipments, and shall include:

- i. Trade-related guarantees:

- Shipment bonds/airway bills
- Letters of credit – confirmed

- ii. Sight letters of credit outstanding (net of margin deposit);
iii. Usance letters of credit outstanding (net of margin deposit);
iv. Deferred letters of credit (net of margin deposit); and
v. Revolving letters of credit (net of margin deposit) arising from movement of goods and/or services;

This shall also apply to commitments with an original maturity of up to one (1) year, and shall include Committed Credit Line for Commercial Paper Issued.

- d) Zero percent (0%) credit conversion factor – this shall apply to commitments which can be unconditionally cancelled at any time by the bank without prior notice, and shall include Credit Card Lines.

This shall also apply to those not involving credit risk, and shall include:

- i. Late deposits/payments received;
ii. Inward bills for collection;
iii. Outward bills for collection;
iv. Travelers' checks unsold;
v. Trust department accounts;
vi. Items held for safekeeping/custodianship;
vii. Items held as collaterals;
viii. Deficiency claims receivable; and
ix. Others.

18. For derivative contracts, the credit equivalent amount shall be the sum of the current credit exposure (or replacement cost) and an estimate of the potential future credit exposure (or add-on). However, the following shall not be included in the computation:

- a) Instruments which are traded in an exchange where they are subject to daily receipt and payment of cash variation margin; and
b) Exchange rate contract with original maturity of fourteen (14) calendar days or less.

19. The current credit exposure shall be the positive mark-to-market value of the contract (or zero if the mark-to-market value is zero or negative). The potential future credit exposure shall be the product of the notional principal amount of the contract multiplied by the appropriate potential future credit conversion factor, as indicated below:

Interest Exchange			
Residual Maturity	Rate Contract	Rate Contract	Equity Contract
One (1) year or less	0.0%	1.0%	6.0%
Over One (1) year to five (5) years	0.5%	5.0%	8.0%
Over five (5) years	1.5%	7.5%	10%

Provided, That:

- a) For contracts with multiple exchanges of principal, the factors are to be multiplied by the number of remaining payments in the contract;
 - b) For contracts that are structured to settle outstanding exposure following specified payment dates and where the terms are reset such that the market value of the contract is zero on these specified dates, the residual maturity would be set equal to the time until the next reset date, and in the case of interest rate contracts with remaining maturities of more than one (1) year that meet these criteria, the potential future credit conversion factor is subject to a floor of one-half percent (1/2%); and
 - c) No potential future credit exposure shall be calculated for single currency floating/floating interest rate swaps, i.e., the credit exposure on these contracts would be evaluated solely on the basis of their mark-to-market value.
20. The credit equivalent amount shall be treated like any on-balance sheet asset, and shall be assigned the appropriate risk weight, i.e., according to the third party credit assessment of the counterparty exposure.

B. Credit risk mitigation (CRM)

21. Banks use a number of techniques to mitigate the credit risks to which they are exposed. For example, exposures may be collateralized by first priority claims, in whole or in part with cash or securities, or a loan exposure may be guaranteed by a third party. Physical collateral, such as real estate, buildings, machineries, and inventories are not recognized at this time for credit risk mitigation purposes in line with Basel II recommendations.
22. In order for banks to obtain capital relief for any use of CRM techniques, all documentation used in collateralized transactions and for documenting guarantees must be binding on all parties and legally enforceable in all relevant jurisdictions. Banks must have conducted sufficient legal review to verify this and have a well-founded legal basis to reach this conclusion, and undertake such further review as necessary to ensure continuing enforceability.
23. The effects of CRM will not be double counted. Therefore, no additional supervisory recognition of CRM for regulatory capital purposes will be granted on claims for which an issue-specific rating is used that already reflects that CRM. Principal-only ratings will not be allowed within the framework of CRM.
24. While the use of CRM techniques reduces or transfers credit risk, it simultaneously may increase other risks (residual risks). Residual risks include legal, operational, liquidity and market risks. Therefore, it is imperative that banks employ robust procedures and processes to control these risks, including strategy; consideration of the underlying credit; valuation; policies and procedures; systems; control of roll-off risks; and management of concentration risk arising from the bank's use of CRM techniques and its interaction with the bank's overall credit risk profile.
25. The disclosure requirements under Part IX of this document must also be observed for banks to obtain capital relief (i.e., adjustments in the risk weights of collateralized or guaranteed exposures) in respect of any CRM techniques.

Collateralized transactions

26. A collateralized transaction is one in which:
- a) banks have a credit exposure or potential credit exposure; and
 - b) that credit exposure or potential credit exposure is hedged in whole or in part by collateral posted by a counterparty¹ or by a third party in behalf of the counterparty.
27. In addition to the general requirement for legal certainty set out in paragraph 22, the legal mechanism by which collateral is pledged or transferred must ensure that the bank has the right to liquidate or take legal possession of it, in a timely manner, in the event of default, insolvency or bankruptcy (or one or more otherwise defined credit events set out in the transaction documentation) of the counterparty (and, where applicable, of the custodian holding the collateral). Furthermore, banks must take all steps necessary to fulfill those requirements under the law applicable to the bank's interest in the collateral for obtaining and maintaining an enforceable security interest, e.g., by registering it with a registrar, or for exercising a right to net or set off in relation to title transfer collateral.
28. In order for collateral to provide protection, the credit quality of the counterparty and the value of the collateral must not have a material positive correlation. For example, securities issued by the counterparty – or by any related group entity-would provide little protection and so would be ineligible.

¹ Counterparty refers to a party to whom a bank has an on- or off-balance sheet credit exposure or a potential credit exposure.

29. Banks must have clear and robust procedures for the timely liquidation of collateral to ensure that any legal conditions required for declaring the default of the counterparty and liquidating the collateral are observed, and that collateral can be liquidated promptly.
30. Where the collateral is required to be held by a custodian, the Bangko Sentral will only recognize the collateral for regulatory capital purposes if it is held by Bangko Sentral-authorized third party custodians.
31. A capital requirement will be applied to a bank on either side of the collateralized transaction: for example, both repos and reverse repos will be subject to capital requirements. Likewise, both sides of a securities lending and borrowing transaction will be subject to explicit capital charges, as will the posting of securities in connection with a derivative exposure or other borrowing.

Banking book

32. Where banks take eligible collateral, as listed in paragraph 34, and satisfies the requirements under paragraphs 27 to 31, they are allowed to apply the risk weight of the collateral to the collateralized portion of the credit exposure (equivalent to the fair market value of recognized collateral), subject to a floor of twenty percent (20%). The twenty percent (20%) floor shall not apply and a zero percent (0%) risk weight can be applied when the exposure and the collateral are denominated in the same currency, and either:
 - a) The collateral is cash as defined in paragraph 34.a; or
 - b) The collateral is a sovereign debt security eligible for zero percent (0%) risk weight, or a Php-denominated debt obligation issued by the Philippine NG or the Bangko Sentral, which fair market value has been discounted by twenty percent (20%).
33. For collateral to be recognized, however, the collateral must be pledged for at least the life of the exposure and it must be marked to market and revalued with a minimum frequency of every six (6) months.
34. The following are the eligible collateral instruments:
 - a) Cash (as well as certificates of deposit or comparable instruments issued by the lending bank) on deposit with the bank which is incurring the counterparty exposure;
 - b) Gold;
 - c) Debt obligations issued by the Philippine NG or the Bangko Sentral;
 - d) Debt securities issued by central governments and central banks (and PSEs treated as sovereigns) of foreign countries as well as MDBs with at least investment grade external credit ratings;
 - e) Other debt securities with external credit ratings of at least BBB-or its equivalent;
 - f) Unrated senior debt securities issued by banks with an issuer rating of at least BBB-or its equivalent, or with other debt issues of the same seniority with a rating of at least BBB-or its equivalent;
 - g) Equities included in the main index of an organized exchange; and
 - h) Investments in Unit Investment Trust Funds (UITF) and the Asian Bond Fund 2 (ABF2) duly approved by the Bangko Sentral.

Trading book

35. A credit risk capital requirement should also be applied to banks' counterparty exposures in the trading book (e.g., repo-style transactions, OTC derivatives contracts). Where banks take eligible collateral for these trading book transactions, as listed in paragraph 34, and satisfies the requirements under paragraphs 27 to 31, they are to compute for the credit risk capital requirement according to the following paragraphs: *Provided*, That, for repo-style transactions in the trading book, all instruments which are included in the trading book may be used as eligible collateral.
36. For collateralized transactions in the trading book, the exposure amount after risk mitigation is calculated as follows:

$$E^* = \max \{0, [E \times (1 + H_e) - C \times (1 - H_c - H_{fx})]\}$$

Where:

E^* = the exposure value after risk mitigation

E = the current value of the exposure

H_e = haircut appropriate to the exposure

C = the current value of the collateral received

H_c = haircut appropriate to the collateral

H_{fx} = haircut appropriate for currency mismatch between the collateral and exposure set at 8% (based on a 10-business day holding period and daily marking to market)

37. The treatment of transactions where there is a maturity mismatch between the maturity of the counterparty exposure and the collateral is given in paragraphs 50 to 54.
38. These are the haircuts to be used (based on a 10-business day holding period, daily marking to market and daily remaining), expressed as percentages:

Issue rating for debt securities ¹	Residual maturity	Haircut	
		Sovereign (and PSEs treated as sovereign) and MDB (with 0% risk weight) issuers	Other Issuers
Php – denominated securities issued by the Philippine NG and Bangko Sentral	<1 year	0.5	
	>1 yr. to < 5 yrs.	2	
	> 5 years	4	
AAA to AA-	<1 year	0.5	1
	>1 yr. to < 5 yrs.	2	4
	> 5 years	4	8
A+ to BBB-/Unrated bank debt securities as defined in paragraph 34.f	<1 year	1	2
	>1 yr. to < 5 yrs.	3	6
	> 5 years	6	12
Equities included in the main index and gold		15	
UITF and ABF2		Highest haircut applicable to any security in which the fund can invest	
Cash per paragraph 34.a in the same currency		0	
Other financial instruments in the trading book (applies to repo style transactions in the trading book only)		25	

39. Where the collateral is a basket of assets, the haircut on the basket will be $H = \sum a_i H_i$, where a_i is the weight of the asset in the basket and H_i is the haircut applicable to that asset.
40. For collateralized OTC derivatives transactions in the trading book, the credit equivalent amount will be computed according to paragraphs 18 to 19, but adjusted by deducting the volatility adjusted collateral amount as computed according to paragraphs 36 to 39.
41. The exposure amount after risk mitigation will be multiplied by the risk weight of the counterparty to obtain the risk weighted asset amount for the collateralized transaction.

Guarantees

42. Where guarantees are direct, explicit, irrevocable and unconditional, banks may be allowed to take account of such credit protection in calculating capital requirements.
43. A guarantee must represent a direct claim on the protection provider and must be explicitly referenced to specific exposures or a pool of exposures, so that the extent of the cover is clearly defined and incontrovertible. Other than non-payment by a protection purchaser of money due in respect of the credit protection contract, the guarantee must be irrevocable; there must be no clause in the contract that would allow the protection provider unilaterally to cancel the credit cover or that would increase the effective cost of cover as a result of deteriorating credit quality in the hedged exposure. It must also be unconditional; there should be no clause in the protection contract outside the direct control of the bank that could prevent the protection provider from being obliged to pay out in a timely manner in the event that the original counterparty fails to make the payment(s) due.
44. In addition to the legal certainty requirement in paragraph 22, in order for a guarantee to be recognized, the following conditions must be satisfied:
- On the qualifying default/non-payment of the counterparty, the bank may in a timely manner pursue the guarantor for any monies outstanding under the documentation governing the transaction. The guarantor may make one lump sum payment of all monies under such documentation to the bank, or the guarantor may assume the future payment obligations of the counterparty covered by the guarantee. The bank must have the right to receive any such payments from the guarantor without first having to take legal actions in order to pursue the counterparty for payment;

¹ The notations follow the rating symbols used by Standard & Poor's. The mapping of ratings of all recognized external rating agencies is in Part III.C

- b) The guarantee is an explicitly documented obligation assumed by the guarantor; and
 - c) The guarantee must cover all types of payments the underlying obligor is expected to make under the documentation governing the transaction, for example, notional amount, margin payments, etc. Where a guarantee covers payment of principal only, interests and other uncovered payments should be treated as an unsecured amount.
45. Where the bank's exposure is guaranteed by an eligible guarantor, as listed in paragraph 47, and satisfies the requirements under paragraphs 42 to 44, the bank is allowed to apply the risk weight of the guarantor to the guaranteed portion of the credit exposure.
46. The treatment of transactions where there is a mismatch between the maturity of the counterparty exposure and the guarantee is given in paragraphs 50 to 54.
47. The following are the eligible guarantors:
- a) Philippine NG and the Bangko Sentral;
 - b) Central governments and central banks and PSEs of foreign countries as well as MDBs with a lower risk weight than the counterparty;
 - c) Banks with a lower risk weight than the counterparty;
 - d) Other entities with external credit assessment of at least A-or its equivalent; and
48. Where a bank provides a credit protection to another bank in the form of a guarantee that a third party will perform on its obligations, the risk to the guarantor bank is the same as if the bank had entered into the transaction as a principal. In such circumstances, the guarantor bank will be required to calculate capital requirement on the guaranteed amount according to the risk weight corresponding to the third party exposure. In this instance, and provided the credit protection is deemed to be legally effective, the credit risk is considered transferred to the bank providing credit protection. However, the bank receiving credit protection on its exposure to a third party shall recognize a corresponding risk-weighted credit exposure to the bank providing credit protection.
49. An exposure that is covered by a guarantee that is counter-guaranteed by the Philippine NG or Bangko Sentral, may be considered as covered by the guarantee of the Philippine NG or Bangko Sentral: Provided, That:
- a) the counter-guarantee covers all credit risk element of the exposure;
 - b) both the original guarantee and the counter-guarantee meet all operational requirements for guarantees, except that the counter guarantee need not be direct and explicit to the original exposure; and
 - c) the cover is robust and that no historical evidence suggests that the coverage of the counter-guarantee is less than effectively equivalent to that of a direct guarantee of the Philippine NG and Bangko Sentral.

Currently, Php-denominated exposures to the extent guaranteed by Industrial Guarantee and Loan Fund (IGLF), Home Guaranty Corporation (HGC), and Trade and Investment Development Corporation of the Philippines (TIDCORP), which guarantees are counter-guaranteed by the Philippine NG receive zero percent (0%) risk weight.

Maturity mismatch

50. For collateralized transactions in the trading book and guaranteed transactions, the credit risk mitigating effects of such transactions will still be recognized even if a maturity mismatch occurs between the hedge and the underlying exposure, subject to appropriate adjustments.
51. For purposes of calculating risk-weighted assets, a maturity mismatch occurs when the residual maturity of a hedge is less than that of the underlying exposure.
52. The maturity of the hedge and the maturity of the underlying exposure should both be defined conservatively. For the hedge, embedded options which may reduce the term of the hedge should be taken into account so that the shortest possible effective maturity is used. Where a call is at the discretion of the guarantor/protection seller, the maturity will always be at the first call date. If the call is at the discretion of the protection buying bank but the terms of the arrangement at origination of the hedge contain a positive incentive for the bank to call the transaction before contractual maturity, the remaining time to the first call date will be deemed to be the effective maturity. For example, where there is a step-up in cost in conjunction with a call feature or where the effective cost of cover increases over time even if credit quality remains the same or increases, the effective maturity will be the remaining time to the first call. The effective maturity of the underlying, on the other hand, should be gauged as the longest remaining time before the counterparty is scheduled to fulfill its obligation, taking into account any applicable grace period.
53. Hedges with maturity mismatches are only recognized when their original maturities are greater than or equal to one year. As a result, the maturity of hedges for exposures with original maturities of less than one (1) year must be matched to be recognized. In all cases, hedges will no longer be recognized when they have a residual maturity of three months or less.

54. When there is a maturity mismatch with recognized credit risk mitigants, the following adjustment will be applied.

$$Pa = P \times (t - 0.25) / (T - 0.25)$$

Where:

Pa = value of the credit protection adjusted for maturity mismatch

P = credit protection (e.g., collateral amount, guarantee amount) adjusted for any haircuts

T = min (T, residual maturity of the credit protection arrangement) expressed in years

T = min (5, residual maturity of the exposure) expressed in years

C. Use of third party credit assessments

55. The following third party credit assessment agencies are recognized by the Bangko Sentral for regulatory capital purposes:

International credit assessment agencies:

- Standard & Poor's;
- Moody's;
- Fitch Ratings; and
- Such other rating agencies as may be approved by the Monetary Board.

Domestic credit assessment agencies:

- PhilRatings; and
- Such other rating agencies as may be approved by the Monetary Board.

56. The tables below set out the mapping of ratings given by the recognized credit assessment agencies for purposes of determining the appropriate risk weights.

Agency	INTERNATIONAL RATINGS						
S&P	AAA	AA+	AA	AA-	A+	A	A1
Moody's	Aaa	Aa1	Aa2	Aa3	A1	A2	A3
Fitch	AAA	AA+	AA	AA-	A+	A	A-

Agency	DOMESTIC RATINGS						
PhilRatings	AAA	Aa+	Aa	Aa-	A+	A	A-

Agency	INTERNATIONAL RATINGS						
S&P	BBB+	BBB	BBB-	BB+	BB	BB-	B+
Moody's	Baa1	Baa2	Baa3	Ba1	Ba2	Ba3	B1
Fitch	BBB+	BBB	BBB-	BB+	BB	BB-	B+

Agency	DOMESTIC RATINGS						
PhilRatings	Baa+	Baa	Baa-	Ba+	Ba	Ba-	B+

Agency	INTERNATIONAL RATINGS						
S&P	B	B-					
Moody's	B2	B3					
Fitch	B	B-					

Agency	DOMESTIC RATINGS						
PhilRatings	B	B-					

57. The Bangko Sentral will issue the mapping of ratings of other rating agencies as soon as it is recognized by the Bangko Sentral for regulatory capital purposes.

National rating systems

58. With prior Bangko Sentral approval, international credit rating agencies may have national rating systems developed exclusively for use in the Philippines using the Philippines using the Philippine sovereign as reference highest credit quality anchor.

Multiple assessments

59. If an exposure has only one rating by any of the Bangko Sentral recognized credit assessment agencies, that rating shall be used to determine the risk weight of the exposure; in cases where there are two or more ratings which map into different risk weights, the higher of the two lowest risk weights should be used.

Issuer versus issue assessments

60. Any reference to credit rating shall refer to issue-specific rating; the issuer rating may be used only if the exposure being risk-weighted is:
- a) an unsecured senior obligation of the issuer and is of the same denomination applicable to the issuer rating (e.g., local currency issuer rating may be used for risk weighting local currency denominated senior claims);
 - b) short-term; and
 - c) in cases of guarantees.
61. For loans, risk weighting shall depend on either the rating of the borrower or the rating of the unsecured senior obligation of the borrower: *Provided*, That in case of the latter, the loan is of the same currency denomination as the unsecured senior obligation.

Domestic versus international debt issuances

62. Domestic debt issuances may be rated by Bangko Sentral-recognized domestic credit assessment agencies or by international credit assessment agencies which have developed a national rating system acceptable to the Bangko Sentral. Internationally-issued debt obligations shall be rated by Bangko Sentral-recognized international credit assessment agencies only.

Level of application of the assessment

63. External credit assessments for one entity within a corporate group cannot be used to proxy for the credit assessment of other entities within the same group. Such other entities should secure their own ratings.

Part VI. Credit Derivatives

1. This Part sets out the capital treatment for credit derivatives. Banks may use credit derivatives to mitigate its credit risks or to acquire credit risks. For credit derivatives that are used as credit risk mitigants (CRM), the general requirements for the use of CRM techniques in paragraphs 21 to 25, Part IV.B, have to be satisfied, in addition to the specific operational requirements for credit derivatives in paragraphs 8 to 14.
2. The contents of this Part are just the general rules to be followed in computing capital requirements for credit derivatives. A bank, therefore, is expected to consult the appropriate supervising department of the Bangko Sentral when there is uncertainty about the computation of capital requirements, or even about whether a given transaction should be treated under the credit derivatives framework.

A. Definitions and general terminology

3. *Credit derivative* – a contract wherein one party called the protection buyer or credit risk seller transfers the credit risk of a reference asset or assets issued by a reference entity or entities, which it may or may not own, to another party called the protection seller or credit risk buyer. In return, the protection buyer pays a premium or interest-related payments to the protection seller reflecting the underlying credit risk of the reference asset/s. Credit derivatives may refer to credit default swaps (CDS), total return swaps (TRS), and credit-linked notes (CLN) and similar products.
4. *Credit default swap* – a credit derivative wherein the protection buyer may exchange the reference asset or any deliverable obligation of the reference entity for cash equal to a specified amount, or get compensated to the extent of the difference between the par value and market value of the asset upon the occurrence of a defined credit event.
5. *Total return swap* – a credit derivative wherein the protection buyer exchanges the actual collections and variations in the prices of the reference asset with the protection seller in return for a fixed premium.
6. *CLn* – a pre-funded credit derivative wherein the note holder acts as a protection seller while the note issuer is the protection buyer. As such, the repayment of the principal to the note holder is contingent upon the non-occurrence of a defined credit event. All references to CLNs shall be taken to generically include similar instruments, such as credit-linked deposits (CLDs).

7. *Special purpose vehicle* – refers to an entity specifically established to issue CLNs of a single, homogeneous risk class that are fully collateralized as to principal by eligible collateral instruments listed in paragraph 34, Part IV.B, and which are purchased out of the proceeds of the note issuance.

B. Operational requirements for credit derivatives

8. A credit derivative must represent a direct claim on the protection seller and must be explicitly referenced to specific exposures or a pool of exposures, so that the extent of the cover is clearly defined and incontrovertible. Other than non-payment by a protection buyer of money due in respect of the credit derivative contract, it must be irrevocable; there must be no clause in the contract that would allow the protection seller unilaterally to cancel the credit cover or that would increase the effective cost of cover as a result of deteriorating credit quality in the hedged exposure. It must also be unconditional; there should be no clause in the credit derivative contract outside the direct control of the protection buyer that could prevent the protection seller from being obliged to pay out in a timely manner in the event of a defined credit event.
9. The credit events specified by the contracting parties must at a minimum cover:
- a) failure to pay the amounts due under terms of the underlying obligation that are in effect at the time of such failure (with a grace period that is closely in line with the grace period in the underlying obligation);
 - b) bankruptcy, insolvency or inability of the obligor to pay its debts, or its failure or admission in writing of its inability generally to pay its debts as they become due, and analogous events; and
 - c) restructuring of the underlying obligation involving forgiveness or postponement of principal, interest or fees that results in a credit loss event (i.e., charge-off, specific provision or other similar debit to the profit and loss account).
10. The credit derivative shall not terminate prior to expiration of any grace period required for a default on the underlying obligation to occur as a result of a failure to pay, subject to the provisions of paragraph 52 of Part IV.B.
11. Credit derivatives allowing for cash settlement are recognized for capital purposes insofar as a robust valuation process is in place in order to estimate loss reliably. There must be a clearly specified period for obtaining post-credit event valuations of the underlying obligation.
12. If the protection buyer's right or ability to transfer the underlying obligation to the protection seller is required for settlement, the terms of the underlying obligation must provide that any required consent to such transfer may not be unreasonably withheld.
13. The identity of the parties responsible for determining whether a credit event has occurred must be clearly defined. This determination must not be the sole responsibility of the protection seller. The bank as protection buyer must have the right/ability to inform the protection seller of the occurrence of a credit event.
14. Asset mismatches (underlying obligation is different from the obligation used for purposes of determining cash settlement or the deliverable obligation, or from the obligation used for purposes of determining whether a credit event has occurred) are permissible if:
- a) the obligation used for purposes of determining cash settlement or the deliverable obligation, or the obligation used for purposes of determining whether a credit event has occurred ranks *pari passu* with or is junior to the underlying obligation; and
 - b) both obligations share the same obligor (i.e., the same legal entity) and legally enforceable cross-default or cross-acceleration clauses are in place.

C. Capital treatment for protection buyers

15. A bank that enters into a credit derivative transaction as a protection buyer in order to hedge an existing exposure in the banking book may only get capital relief if all the general requirements for the use of CRM techniques in paragraphs 21 to 25, Part IV.B and the conditions in paragraphs 8 to 14 are satisfied. In addition, only the eligible guarantors listed in paragraph 47, Part IV.B are considered as eligible protection sellers.
16. If all of the conditions in paragraph 15 are satisfied, banks that are protection buyers may apply the risk weight of the protection seller to the protected portion of the exposure being hedged. The risk weight of the protection seller should therefore be lower than the risk weight of the exposure being hedged for capital relief to be recognized. Exposures that are protected through the issuance of CLNs will be treated as transactions collateralized by cash and a zero percent (0%) risk weight is applied to the protected portion. The uncovered portion shall retain the risk weight of the bank's underlying counterparty.

17. The protected portion of an exposure is measured as follows:
- The fixed amount, if such is to be paid upon the occurrence of a credit event; or
 - The notional value of the contract if either (1) par is to be paid in exchange for physical delivery of the reference asset, or (2) par less market value of the asset is to be paid upon the occurrence of a credit event.
18. A bank may obtain credit protection for a basket of reference entities where the contract terminates and pays out on the first entity to default. In this case, the bank may substitute the risk weight of the protection seller for the risk weight of the asset within the basket with the lowest risk-weighted amount, but only if the notional amount is less than or equal to the notional amount of the credit derivative.
19. Where the contract terminates and pays out on the n^{th} (other than the first) entity to default, the bank will only be able to recognize any reductions in the risk weight of the underlying asset if (n-1)th default-protection has also been obtained or when (n-1)th of the assets within the basket has already defaulted.
20. Where the contract is referenced to entities in the basket proportionately, reductions in the risk weight will only apply to the extent of the underlying asset's share of protection in the contract.
21. When a bank conducts an internal hedge using a credit derivative (i.e., hedging the credit risk of an exposure in the banking book with a credit derivative booked in the trading book), in order for the bank to receive any reduction in the capital requirement for the exposure in the banking book, the credit risk in the trading book must be transferred to an outside third party (i.e., an eligible protection seller).
22. Where a bank buys credit protection through a TRS and records the net payments received on the swap as net income, but does not record offsetting deterioration in the value of the asset that is protected (either through reductions in fair value or by an addition to reserves), the credit protection will not be recognized.
23. Materiality thresholds on payments below which no payment is made in the event of loss are equivalent to retained first loss positions and must be deducted in full from the capital of the bank buying the credit protection.
24. Where the credit protection is denominated in a currency different from that in which the exposure is denominated –i.e., there is a currency mismatch – the protected portion of the exposure will be reduced by the application of a haircut, as follows:
- $$Ga = G \times (1 - Hfx)$$
- Where:
- Ga = adjusted protected portion of the exposure
 G = protected portion of the exposure prior to haircut
 Hfx = haircut appropriate for currency mismatch between the credit protection and underlying obligation set at eight percent (8%) (based on a 10-business day holding period and daily marking to market)
25. Where a maturity mismatch occurs between the credit protection and the underlying exposure, the protected portion of the exposure adjusted for maturity mismatch will be computed according to paragraph 50 to 54, Part IV.B.

D. Capital treatment for protection sellers

26. Where a bank is a protection seller in a CDS or TRS transaction, it must calculate a capital requirement on the reference asset as if it were a direct investor in the reference asset. The risk weight of the reference asset is multiplied by the nominal amount of the protection provided by the credit derivative to obtain the risk-weighted exposure.
27. For a bank holding a CLN, credit exposure is acquired on two fronts. As such, the on-balance sheet exposure arising from the note should be weighted by adding the risk weights of the reference entity and the risk weight of the note issuer. The amount of exposure is the carrying amount of the note. If the CLN principal is fully collateralized by an eligible collateral listed in paragraph 34, Part IV.B, and which satisfies the requirements in paragraphs 27 to 31, Part IV.B, the risk weight of the note issuer is substituted with the risk weight associated with the relevant collateral.
28. When the credit derivative is referenced to a basket of reference entities and the contract terminates and pays out on the first entity to default in the basket, capital should be held to consider the cumulative risk of all the reference entities in the basket. This means that the risk weights of all the reference entities are added up and multiplied by the amount of the protection provided by the credit derivative to obtain the risk-weighted exposure to the basket. However, the risk-weighted exposure is capped at ten (10) times the protection provided under the contract. Accordingly, the maximum capital charge is 100% of the protection provided under the contract. The multiplier ten (10) is the reciprocal of the Bangko Sentral-required minimum CAR of ten percent (10%). For CLNs, the risk weight of the issuer is likewise included in the summing of the risk weights.

29. When the contract terminates and pays out on the n^{th} (other than the first) entity to default, the treatment above shall apply except that in aggregating the risk weights of the reference entities, the risk weight/s of the $n-1$ lowest risk-weighted entity/ies is/are excluded from the computation. For CLNs, the risk weight of the issuer is likewise included in the summing of the risk weights.
30. When a first or an n^{th} -to-default credit derivative has an external credit rating acceptable to the Bangko Sentral, the risk weight in paragraph 21, Part VI.F will be applied.
31. A contract that is referenced to entities in the basket proportionately should be risk-weighted according to each reference entity's share of protection under the contract.

E. Credit derivatives in the trading book

32. The following describes the positions to be reported for credit derivative transactions for purposes of calculating specific risk and general market risk charges under the standardized approach.
33. A CDS creates a notional position in the specific risk of the reference obligation. A TRS creates notional positions on the specific and general market risks of the reference obligation, and an opposite notional position on a zero coupon government security representing the fixed payments or premium under the TRS. A CLN creates a notional position in the specific risk of the reference obligation, a position on the specific risk associated with the issuer, and a position on the general market risk of the note.

Specific risk

34. The specific risk position/s on the reference obligation/s created by credit derivatives are reported as short positions by protection buyers and long positions by protection sellers. In addition, holders of CLNs should report a long position on the specific risk of the note issuer.
35. The protection buyer in a first-to-default transaction should report a short position in the reference obligation with the lowest specific risk charge. A protection buyer in an n^{th} (other than the first)-to-default transaction shall only be allowed to report a short position in a reference obligation only if $n-1$ obligations in the reference basket has/have already defaulted.
36. When a credit derivative is referenced to multiple entities and the contract terminates and pays out on the first obligation to default in the basket, the transaction should be reported by the protection seller as long positions in each of the reference obligations in the basket. A CLN should likewise be reported as a long position on the note issuer. The total capital charge is capped at the notional amount of the derivative or, in the case of a CLN, the carrying amount of the note.
37. When the contract terminates and pays out on the n^{th} (other than the first) entity to default in the basket, the treatment above shall apply except that the protection seller may exclude the long position/s on $n-1$ reference obligations with the lowest risk-weighted exposures in its report. A CLN should likewise be reported as a long position on the note issuer. The total capital charge is capped at the notional amount of the derivative or, in the case of a CLN, the carrying amount of the note.
38. When an n^{th} -to-default credit derivative has an external credit rating acceptable to the Bangko Sentral, the specific risk weights in Part VII.B will be applied.
39. When the contract is referenced to multiple obligations under a proportionate structure, positions in the reference obligations should be reported according to their respective proportions in the contract.

General market risk

40. A protection buyer/seller in a TRS should report a short/long notional position on the reference obligation and a long/short notional position on a zero coupon government security representing the fixed payment under the contract.
41. A protection buyer/seller in a CLN should report a short/long position on the note.

Counterparty credit risk

42. CDS and TRS transactions in the trading book attract counterparty credit risk charges. A five percent (5%) add-on factor for the computation of the potential future credit exposure shall be used by both protection buyers and protection sellers if the reference obligation has an external credit rating of at least BBB-or its equivalent. A ten percent (10%) add-on factor applies to all other reference obligations. However, a protection seller in a CDS shall only be subject to the add-on factor if it is subject to closeout upon the insolvency of the protection buyer while the underlying is still solvent. The add-on in this case should be capped to the amount of unpaid premiums.

43. Where the credit derivative is a first to default transaction, the add-on will be determined by the lowest credit quality underlying in the basket, i.e., if there are any non-investment grade or unrated items in the basket, the ten percent (10%) add-on should be used. For second and subsequent to default transactions, underlying assets should continue to be allocated according to the credit quality, i.e., the second lowest credit quality will determine the add-on for a second to default transaction, etc.
44. Where the credit derivative is referenced proportionately to multiple obligations, the add-on factor will follow the add-on factor applicable for the obligation with the biggest share. If the protection is equally proportioned, the highest add-on factor should be used.

Part VII. Securitization

1. Banks must apply the securitization framework for determining regulatory capital requirements on their securitization exposures. Securitization exposures can include but are not restricted to the following: asset-backed securities, mortgage-backed securities, credit enhancements, liquidity facilities, interest rate or currency swaps, and credit derivatives. Underlying instruments in the pool being securitized may include but are not restricted to the following: loans, commitments, asset-backed and mortgage-backed securities, corporate bonds, equity securities, and private equity investments.
2. Since securitizations may be structured in many different ways, the capital treatment of a securitization exposure must be determined on the basis of its economic substance rather than its legal form. The contents of this Part are just the general rules to be followed in computing capital requirements for securitization exposures. A bank should therefore consult the appropriate supervising department of the Bangko Sentral when there is uncertainty about the computation of capital requirements, or even about whether a given transaction should be considered a securitization.

A. Definitions and general terminology

3. *Traditional securitization* – a structure where the cash flow from an underlying pool of exposures is used to service at least two (2) different stratified risk positions or tranches reflecting different degrees of credit risk. Payments to the investors depend upon the performance of the specified underlying exposures, as opposed to being derived from an obligation of the entity originating those exposures. The stratified/tranched structures that characterize securitizations differ from ordinary senior/subordinated debt instruments in that junior securitization tranches can absorb losses without interrupting contractual payments to more senior tranches, whereas subordination in a senior/subordinated debt structure is a matter of priority of rights to the proceeds of liquidation.
4. *Synthetic securitization* – a structure with at least two (2) different stratified risk positions or tranches that reflect different degrees of credit risk where credit risk of an underlying pool of exposures is transferred, in whole or in part, through the use of funded (e.g., credit-linked notes) or unfunded (e.g., credit default swaps) credit derivatives or guarantees that serve to hedge the credit risk of the portfolio. Accordingly, the investors' potential risk is dependent upon the performance of the underlying pool.
5. *Originating bank* – a bank that originates directly or indirectly underlying exposures included in the securitization.
6. *Clean-up call* – an option that permits the securitization exposures to be called before all of the underlying exposures or securitization exposures have been repaid. In the case of traditional securitizations, this is generally accomplished by repurchasing the remaining securitization exposures once the pool balance or outstanding securities have fallen below some specified level. In the case of a synthetic transaction, the cleanup call may take the form of a clause that extinguishes the credit protection.
7. *Credit enhancement* – a contractual arrangement in which the bank retains or assumes a securitization exposure and, in substance, provides some degree of added protection to other parties to the transaction.
8. *Early amortization provisions* – mechanisms that, once triggered, allow investors to be paid out prior to the originally stated maturity of the securities issued. For risk-based capital purposes, an early amortization provision will be considered either controlled or non-controlled.

A controlled early amortization provision must meet all of the following conditions:

- a) The bank must have an appropriate capital/liquidity plan in place to ensure that it has sufficient capital and liquidity available in the event of an early amortization;
- b) Throughout the duration of the transaction, including the amortization period, there is the same pro rata sharing of interest, principal, expenses, losses and recoveries based on the bank's and investors' relative shares of the receivables outstanding at the beginning of each month;

- c) The bank must set a period for amortization that would be sufficient for at least ninety percent (90%) of the total debt outstanding at the beginning of the early amortization period to have been repaid or recognized as in default; and
- d) The pace of repayment should not be any more rapid than would be allowed by straight-line amortization over the period set out in criterion (c).

An early amortization provision that does not satisfy the conditions for a controlled early amortization provision will be treated as non-controlled early amortization provision.

9. *Eligible liquidity facilities* – an off-balance sheet securitization exposure shall be treated as an eligible liquidity facility if the following minimum requirements are satisfied:
 - a) The facility documentation must clearly identify and limit the circumstances under which it may be drawn. Draws under the facility must be limited to the amount that is likely to be repaid fully from the liquidation of the underlying exposures and any seller-provided credit enhancements. In addition, the facility must not cover any losses incurred in the underlying pool of exposures prior to a draw, or be structured such that draw-down is certain (as indicated by regular or continuous draws);
 - b) The facility must be subject to an asset quality test that precludes it from being drawn to cover credit risk exposures that are considered non-performing under existing Bangko Sentral regulations. In addition, liquidity facilities should only fund exposures that are externally rated investment grade at the time of funding;
 - c) The facility cannot be drawn after all applicable (e.g., transaction-specific and program-wide) credit enhancements from which the liquidity would benefit have been exhausted; and
 - d) Repayment of draws on the facility (i.e., assets acquired under a purchase agreement or loans made under a lending agreement) must not be subordinated to any interests of any note holder in the program or subject to deferral or waiver.
10. *Eligible servicer cash advance facilities* – cash advance that may be provided by servicers to ensure an uninterrupted flow of payments to investors. The servicer should be entitled to full reimbursement and this right is senior to other claims on cash flows from the underlying pool of exposures.
11. *Excess spread* – generally defined as gross finance charge collections and other income received by the trust or special purpose entity (SPE, specified in paragraph 13)minus certificate interest, servicing fees, charge-offs, and other senior trust or SPE expenses.
12. *Implicit support* – arises when a bank provides support to a securitization in excess of its predetermined contractual obligation.
13. *Special purpose entity* – a corporation, trust, or other entity organized for a specific purpose, the activities of which are limited to those appropriate to accomplish the purpose of the SPE, and the structure of which is intended to isolate the SPE from the credit risk of an originator or seller of exposures. SPEs are commonly used as financing vehicles in which exposures are sold to a trust or similar entity in exchange for cash or other assets funded by debt issued by the trust.

B. Operational requirements for the recognition of risk transference in traditional securitizations

14. An originating bank may exclude securitized exposures from the calculation of risk-weighted assets only if all of the following conditions have been met. Banks meeting these conditions, however, must still hold regulatory capital against any securitization exposures they retain.
 - a) Significant credit risk associated with the securitized exposures has been transferred to third parties.
 - b) The transferor does not maintain effective or indirect control over the transferred exposures. The assets are legally isolated from the transferor in such a way (e.g., through the sale of assets or through subparticipation) that the exposures are put beyond the reach of the transferor and its creditors, even in bankruptcy or receivership. These conditions must be supported by an opinion provided by a qualified legal counsel.

The transferor is deemed to have maintained effective control over the transferred credit risk exposures if it:

- i. is able to repurchase from the transferee the previously transferred exposures in order to realize their benefits; or
- ii. is obligated to retain the risk of the transferred exposures.

The transferor's retention of servicing rights to the exposures will not necessarily constitute indirect control of the exposures.

- c) The securities issued are not obligations of the transferor. Thus, investors who purchase the securities only have claim to the underlying pool of exposures.
- d) The transferee is an SPE and the holders of the beneficial interests in that entity have the right to pledge or exchange them without restriction.
- e) Clean-up calls must satisfy the conditions set out in paragraph 17.
- f) The securitization does not contain clauses that (i) require the originating bank to alter systematically the underlying exposures such that the pool's weighted average credit quality is improved unless this is achieved by selling assets to independent and unaffiliated third parties at market prices; (ii) allow for increases in a retained first loss position or credit enhancement provided by the originating bank after the transaction's inception; or (iii) increase the yield payable to parties other than the originating bank, such as investors and third-party providers of credit enhancements, in response to a deterioration in the credit quality of the underlying pool.

C. Operational requirements for the recognition of risk transference in synthetic securitizations

15. For synthetic securitizations, the use of CRM techniques (i.e., collateral, guarantees and credit derivatives) for hedging the underlying exposure may be recognized for risk-based capital purposes only if the conditions outlined below are satisfied:
 - a) Credit risk mitigants must comply with the requirements as set out in Part IV.B and Part V of this Framework.
 - b) Eligible collateral is limited to that specified in paragraph 34, Part IV.B. Eligible collateral pledged by SPEs may be recognized.
 - c) Eligible guarantors are defined in paragraph 47, Part IV.B. SPEs are not recognized as eligible guarantors in the securitization framework.
 - d) Banks must transfer significant credit risk associated with the underlying exposure to third parties.
 - e) The instruments used to transfer credit risk must not contain terms or conditions that limit the amount of credit risk transferred, such as those provided below:
 - i. Clauses that materially limit the credit protection or credit risk transference (e.g., significant materiality thresholds below which credit protection is deemed not to be triggered even if a credit event occurs or those that allow for the termination of the protection due to deterioration in the credit quality of the underlying exposures);
 - ii. Clauses that require the originating bank to alter the underlying exposures to improve the pool's weighted average credit quality;
 - iii. Clauses that increase the banks' cost of credit protection in response to deterioration in the pool's quality;
 - iv. Clauses that increase the yield payable to parties other than the originating bank, such as investors and third-party providers of credit enhancements, in response to a deterioration in the credit quality of the reference pool; and
 - v. Clauses that provide for increases in a retained first loss position or credit enhancement provided by the originating bank after the transaction's inception.
 - f) An opinion must be obtained from a qualified legal counsel that confirms the enforceability of the contracts in all relevant jurisdictions.
 - g) Clean-up calls must satisfy the conditions set out in paragraph 17.
16. For synthetic securitizations, the effect of applying CRM techniques for hedging the underlying exposure are treated according to Part IV.B and Part V of this Framework. In case there is a maturity mismatch, the capital requirement will be determined in accordance with paragraphs 50 to 54, Part IV.B. When the exposures in the underlying pool have different maturities, the longest maturity must be taken as the maturity of the pool. Maturity mismatches may arise in the context of synthetic securitizations when, for example, a bank uses credit derivatives to transfer part or all of the credit risk of a specific pool of assets to third parties. When the credit derivatives unwind, the transaction will terminate. This implies that the effective maturity of the tranches of the synthetic securitization may differ from that of the underlying exposures. Originating banks of synthetic securitizations with such maturity mismatches must deduct all retained positions that are unrated or rated below investment grade. Accordingly, when deduction is required, maturity mismatches are not taken into account. For all other securitization exposures, the bank must apply the maturity mismatch treatment set forth in paragraphs 50 to 54, Part IV.B.

D. Operational requirements and treatment of clean-up calls

17. For securitization transactions that include a clean-up call, no capital will be required due to the presence of a clean-up call if the following conditions are met: (i) the exercise of the clean-up call must not be mandatory, in form or in substance, but rather must be at the discretion of the originating bank; (ii) the clean-up call must not be structured to avoid allocating losses to credit enhancements or positions held by investors or otherwise structured to provide credit enhancement; and (iii) the clean-up call must only be exercisable when ten percent (10%) or less of the original underlying portfolio, or securities issued remain, or, for synthetic securitizations, when ten percent (10%) or less of the original reference portfolio value remains.
18. Securitization transactions that include a clean-up call that does not meet all of the criteria stated in paragraph 17 result in a capital requirement for the originating bank. For a traditional securitization, the underlying exposures must be treated as if they were not securitized. Additionally, banks must not recognize in regulatory capital any gain-on-sale, as defined in paragraph 23. For synthetic securitization, the bank purchasing protection must hold capital against the entire amount of the securitized exposures as if they did not benefit from any credit protection. Same treatment applies for synthetic securitization that incorporates a call, other than a cleanup call, that effectively terminates the transaction and the purchased credit protection on a specified date.
19. If a clean-up call, when exercised, is found to serve as a credit enhancement, the exercise of the clean-up call must be considered a form of implicit support provided by the bank and must be treated in accordance with paragraph 26.

E. Operational requirements for use of external credit assessments

20. The following operational criteria concerning the use of external credit assessments apply in the securitization framework:
- a) To be eligible for risk-weighting purposes, the external credit assessment must take into account and reflect the entire amount of credit risk exposure the bank has with regard to all payments owed to it. For example, if a bank is owed both principal and interest, the assessment must fully take into account and reflect the credit risk associated with timely repayment of both principal and interest.
 - b) The external credit assessments must be from an eligible External Credit Assessment Institution (ECAI) as recognized by the bank's national supervisor in accordance with Part IV.C. An eligible credit assessment must be publicly available. In other words, a rating must be published in an accessible form and included in the ECAI's transition matrix. Consequently, ratings that are made available only to the parties to a transaction do not satisfy this requirement.
 - c) Eligible ECAIs must have a demonstrated expertise in assessing securitizations, which may be evidenced by strong market acceptance.
 - d) A bank must apply external credit assessments from eligible ECAIs consistently across a given type of securitization exposure. Furthermore, a bank cannot use the credit assessments issued by one ECAI for one or more tranches and those of another ECAI for other positions (whether retained or purchased) within the same securitization structure that may or may not be rated by the first ECAI. Where two or more eligible ECAIs can be used and these assess the credit risk of the same securitization exposure differently, paragraph 59 of Part IV.C will apply.
 - e) Where CRM is provided directly to an SPE by an eligible guarantor defined in paragraph 47 of Part IV.B and is reflected in the external credit assessment assigned to a securitization exposure(s), the risk weight associated with that external credit assessment should be used. In order to avoid any double counting, no additional capital recognition is permitted. If the CRM provider is not an eligible guarantor, the covered securitization exposures should be treated as unrated.
 - f) In the situation where a credit risk mitigant is not obtained by the SPE but rather applied to a specific securitization exposure within a given structure (e.g., ABS tranche), the bank must treat the exposure as if it is unrated and then use the CRM treatment outlined in Part IV.B to recognize the hedge.

F. Risk-weighting

21. The risk-weighted asset amount of a securitization exposure is computed by multiplying the amount of the position by the appropriate risk weight determined in accordance with the following table. For off-balance sheet exposures, banks must apply a credit conversion factor (CCF) and then risk weight the resultant credit equivalent amount.

Credit assessment ¹	AAA to AA-	A+ to A-	BBB+ to BBB-	Below BBB and unrated
Risk weight	20%	50%	100%	Deduction from Tier 1 capital

¹ The notations follow the rating symbols used by Standard & Poor's. The mapping of ratings of all recognized external rating agencies is in Part III.C

22. The capital treatment of implicit support, liquidity facilities, securitizations of revolving exposures, and credit risk mitigants are identified separately.
23. Banks must deduct from CET1 capital any increase in equity capital resulting from a securitization transaction, such as that associated with expected future margin income resulting in a gain-on-sale that is recognized in regulatory capital. Such an increase in capital is referred to as a “gain-on-sale” for the purposes of the securitization framework.
24. Credit enhancing (interest only), net of the amount that must be deducted from CET1 as in paragraph 23.
25. Deductions from capital may be calculated net of any specific provisions taken against the relevant securitization exposures.
26. When a bank provides implicit support to a securitization, it must, at a minimum, hold capital against all of the exposures associated with the securitization transaction as if they had not been securitized. Additionally, banks would not be permitted to recognize in regulatory capital any gain-on-sale, as defined in paragraph 23. Furthermore, the bank is required to disclose publicly that (a) it has provided non-contractual support and (b) the capital impact of doing so.
27. As a general rule, off-balance sheet securitization exposures will receive a CCF of 100%, except in the cases below.
28. A CCF of twenty percent (20%) and fifty percent (50%) will be applied to eligible liquidity facilities as defined in paragraph 9 above with original maturity of one year or less and more than one year, respectively. However, if an external rating of the facility itself is used for risk weighting the facility, a 100% CCF must be applied. A zero percent (0%) CCF may be applied to eligible liquidity facilities that are only available in the event of a general market disruption (i.e., whereupon more than one SPE across different transactions are unable to roll over maturing commercial paper, and that inability is not the result of an impairment in the SPE’s credit quality or in the credit quality of the underlying exposures). To qualify for this treatment, the conditions provided in paragraph 9 must be satisfied. Additionally, the funds advanced by the bank to pay holders of the capital market instruments (e.g., commercial paper) when there is a general market disruption must be secured by the underlying assets, and must rank at least *pari passu* with the claims of holders of the capital market instruments.
29. A CCF of zero percent (0%) will be applied to undrawn amount of eligible servicer cash advance facilities, as defined in paragraph 10 above, that are unconditionally cancellable without prior notice.
30. An originating bank is required to hold capital against the investors’ interest (i.e., against both the drawn and undrawn balances related to the securitized exposures) when:
 - a) It sells exposures into a structure that contains an early amortization feature; and
 - b) The exposures sold are of a revolving nature. These involve exposures where the borrower is permitted to vary the drawn amount and repayments within an agreed limit under a line of credit (e.g., credit card receivables and corporate loan commitments).
31. Originating banks, though, are not required to calculate a capital requirement for early amortizations in the following situations:
 - a) Replenishment structures where the underlying exposures do not revolve and the early amortization ends the ability of the bank to add new exposures;
 - b) Transactions of revolving assets containing early amortization features that mimic term structures (i.e., where the risk of the underlying facilities does not return to the originating bank);
 - c) Structures where a bank securitizes one or more credit line(s) and where investors remain fully exposed to future draws by borrowers even after an early amortization event has occurred; and
 - d) The early amortization clause is solely triggered by events not related to the performance of the securitized assets or the selling bank, such as material changes in tax laws or regulations.
32. As described below, the CCFs depend upon whether the early amortization repays investors through a controlled or non-controlled mechanism. They also differ according to whether the securitized exposures are uncommitted retail credit lines (e.g., credit card receivables) or other credit lines (e.g., revolving corporate facilities). A line is considered uncommitted if it is unconditionally cancellable without prior notice.
33. For uncommitted retail credit lines (e.g., credit card receivables) that have either controlled or non-controlled early amortization features, banks must compare the three-month average excess spread defined in paragraph 11 to the point at which the bank is required to trap excess spread as economically required by the structure (i.e., excess spread trapping point). In cases where such a transaction does not require excess spread to be trapped, the trapping point is deemed to be 4.5 percentage points.

34. The bank must divide the excess spread level by the transaction's excess spread trapping point to determine the appropriate segments and apply the corresponding conversion factors, as outlined in the following tables:

	Controlled		Non-controlled	
	3-month average excess spread-credit conversion factor (CCF)	Credit conversion factor (CCF)	3-month average excess spread-credit conversion factor (CCF)	Credit conversion factor (CCF)
	Uncommitted	Committed	Uncommitted	Committed
Retail credit lines	133.33% of trapping point or more – 0% CCF less than 133.33% to 100% of trapping point – 1% CCF less than 100% to 75% of trapping point – 2% CCF less than 75% to 50% of trapping point – 10% CCF less than 50% to 25% of trapping point – 20% CCF less than 25% of trapping point – 40%	90% CCF	133.33% of trapping point or more – 0% CCF less than 133.33% to 100% of trapping point – 5% CCF less than 100% to 75% of trapping point – 15% CCF less than 75% to 50% of trapping point – 50% CCF less than 50% of trapping point – 100% CCF	100% CCF
Non-retail credit lines	90% CCF	90% CCF	100% CCF	100% CCF

35. All other securitized revolving exposures with controlled and non-controlled early amortization features will be subject to CCFs of ninety percent (90%) and 100%, respectively, against the off-balance sheet exposures.
36. The CCF will be applied to the amount of the investors' interest. The resultant credit equivalent amount shall then be applied a risk weight applicable to the underlying exposure type, as if the exposures had not been securitized.
37. For a bank subject to the early amortization treatment, the total capital charge for all of its positions will be subject to a maximum capital requirement (i.e., a 'cap') equal to the greater of (i) that required for retained securitization exposures, or (ii) the capital requirement that would apply had the exposures not been securitized. In addition, banks must deduct the entire amount of any gain-on-sale and credit enhancing IOs arising from the securitization transaction in accordance with paragraphs 23 and 25.

G. Credit risk mitigation

38. The treatment below applies to a bank that has obtained or given a credit risk mitigant on a securitization exposure. Credit risk mitigants include collateral, guarantees, and credit derivatives. Collateral in this context refers to that used to hedge the credit risk of a securitization exposure rather than the underlying exposures of the securitization transaction.

Collateral

39. Eligible collateral is limited to that recognized in paragraph 34, Part IV.B. Collateral pledged by SPEs may be recognized.

Guarantees and credit derivatives

40. Credit protection provided by the entities listed in paragraph 47, Part IV.B may be recognized. SPEs cannot be recognized as eligible guarantors.
41. Where guarantees or credit derivatives fulfill the minimum operational requirements as specified in Part IV.B and Part V, respectively, banks can take account of such credit protection in calculating capital requirements for securitization exposures.
42. Capital requirements for the collateralized or guaranteed/protected portion will be calculated according to Part IV.B and Part V.
43. A bank other than the originator providing credit protection to a securitization exposure must calculate a capital requirement on the covered exposure as if it were an investor in that securitization. A bank providing protection to an unrated credit enhancement must treat the credit protection provided as if it were directly holding the unrated credit enhancement.

Maturity mismatches

44. For the purpose of setting regulatory capital against a maturity mismatch, the capital requirement will be determined in accordance with paragraphs 50 to 54, Part IV.B, except for synthetic securitizations which will be determined in accordance with paragraph 16.

Part VIII. Market Risk-weighted Assets

1. Market risk is defined as the risk of losses in on-and off-balance sheet positions arising from movements in market prices. The risks addressed in these guidelines are:
 - a) The risks pertaining to interest rate-related instruments and equities in the trading book; and
 - b) Foreign exchange risk throughout the bank.

A. Definition of the trading book

2. A trading book consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. To be eligible for trading book capital treatment, financial instruments must either be free of any restrictive covenants on their tradability or able to be hedged completely. In addition, positions should be frequently and accurately valued, and the portfolio should be actively managed.
3. A financial instrument is any contract that gives rise to both a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments include both primary financial instruments (or cash instruments) and derivative financial instruments. A financial asset is any asset that is cash, the right to receive cash or another financial asset; or the contractual right to exchange financial assets on potentially favorable terms, or an equity instrument. A financial liability is the contractual obligation to deliver cash or another financial asset or to exchange financial liabilities under conditions that are potentially unfavorable.
4. Positions held with trading intent are those held intentionally for short-term resale and/or with the intent of benefiting from actual or expected short-term price movements or to lock in arbitrage profits, and may include for example proprietary positions, positions arising from client servicing (e.g. matched principal brokering) and market making.
5. The following will be the basic requirements for positions eligible to receive trading book capital treatment:
 - a) Clearly documented trading strategy for the position/instrument or portfolios, approved by senior management (which would include expected holding horizon);
 - b) Clearly defined policies and procedures for the active management of the position, which must include:
 - i. positions are managed on a trading desk;
 - ii. position limits are set and monitored for appropriateness;
 - iii. dealers have the autonomy to enter into/manage the position within agreed limits and according to the agreed strategy;
 - iv. positions are marked to market at least daily, and when marking to model the parameters must be assessed on a daily basis;
 - v. positions are reported to senior management as an integral part of the institution's risk management process; and
 - vi. positions are actively monitored with reference to market information sources (assessment should be made of the market liquidity or the ability to hedge positions or the portfolio risk profiles). This would include assessing the quality and availability of market inputs to the valuation process, level of market turnover, sizes of positions traded in the market, etc.
 - c) Clearly defined policy and procedures to monitor the positions against the bank's trading strategy including the monitoring of turnover and stale positions in the bank's trading book.
6. The documentations of the basic requirements of Part V, Item "5" should be submitted to the Bangko Sentral.
7. In addition to the above documentation requirements, the bank should also submit to the Bangko Sentral a documentation of its systems and controls for the prudent valuation of positions in the trading book including the valuation methodologies.

B. Measurement of capital charge

8. The market risk capital charge shall be computed according to the methodology set under Sec. 125 (*Market risk capital requirement*) of the MORB, subject to certain modifications as outlined in the succeeding paragraphs.

9. The specific risk weights for trading book positions in debt securities and debt derivatives shall depend on the third party credit assessment of the issue or the type of issuer, as may be appropriate, as follows:

Credit ratings of debt securities/derivatives issued by sovereigns ¹	Credit ratings of debt securities/derivatives issued by MDBs	Credit ratings of debt securities/derivatives issued by other entities	Unadjusted specific risk weight
Php-denominated debt securities/derivatives issued by the Philippine NG and Bangko Sentral			0.00%
LGU Bonds covered by Deed of Assignment of Internal Revenue Allotment and guaranteed by LGU Guarantee Corporation			4.00%
AAA to AA-	AAA		0.00%
A+ to BBB-	AA+ to BBB-	AAA to BBB-	
Residual maturity ≤ 6 months	Residual maturity ≤ 6 months	Residual maturity ≤ 6 months	0.25%
Residual maturity > 6 months, ≤ 24 months	Residual maturity > 6 months, ≤ 24 months	Residual maturity > 6 months, ≤ 24 months	1.0%
Residual maturity > 24 months	Residual maturity > 24 months	Residual maturity > 24 months	1.60%
		All other debt securities/derivatives	8.00%

10. Foreign currency denominated debt securities/derivatives issued by the Philippine NG and Bangko Sentral² shall be risk-weighted according to the table above: *Provided*, That only one-third (1/3) of the applicable risk weight shall be applied from 01 July 2007, two-thirds (2/3) from 01 January 2008, and the full risk weight from 01 January 2009.
11. A security, which is the subject of a repo-style transaction, shall be treated as if it were still owned by the seller/lender of the security, i.e., to be reported by the seller/lender.
12. In addition to capital charge for specific and general market risk, a credit risk capital charge should be applied to banks' counterparty exposures in repo-style transactions and OTC derivatives contracts. The computation of the credit risk capital charge for counterparty exposures arising from trading book positions are discussed in paragraphs 35 to 41 of Part IV.B.

C. Measurement of risk-weighted assets

13. Market risk-weighted assets are determined by multiplying the market risk capital charge by ten (10) [i.e., the reciprocal of the minimum capital ratio of ten percent (10%)].

Part IX. Operational Risk-weighted Assets

A. Definition of operational risk

- Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk, but excludes strategic and reputational risk.
- Banks should be guided by the Basel Committee on Banking Supervision's recommendations on *Sound Practices for the Management and Supervision of Operational Risk* (February 2003). The same may be downloaded from the BIS website (www.bis.org).

B. Measurement of capital charge

- In computing for the operational risk capital charge, banks may use either the basic indicator approach or the standardized approach.
- Under the basic indicator approach, banks must hold capital for operational risk equal to fifteen percent (15%) of the average gross income over the previous three (3) years of positive annual gross income. Figures for any year in which annual gross income is negative or zero should be excluded from both the numerator and denominator when calculating the average.

¹ The notations follow the rating symbols used by Standard & Poor's. The mapping of ratings of all recognized external rating agencies is in Part III.C. For purposes of this framework, debt securities/derivatives issued by sovereigns include foreign currency denominated debt securities/derivatives issued by the Philippine NG.

² Warrants paired with ROP Global Bonds shall be exempted from capital charge for market risk only to the extent of bank's holdings of bonds paired with warrants equivalent to not more than fifty percent (50%) of total qualifying capital, as defined under Part II of this Appendix.

5. Banks that have the capability to map their income accounts into the various business lines given in paragraph 7 may use the standardized approach subject to prior Bangko Sentral approval¹. In order to qualify for use of the standardized approach, a bank must satisfy Bangko Sentral that, at a minimum:
 - a) Its board of directors and senior management are actively involved in the oversight of the operational risk management framework;
 - b) It has an operational risk management system that is conceptually sound and is implemented with integrity; and
 - c) It has sufficient resources in the use of the approach in the major business lines as well as the control and audit areas.
7. Operational risk capital charge is calculated as the three (3)-year average of the simple summation of the regulatory capital charges across each of the business lines in each year. In any given year, negative capital charges (resulting from negative gross income) in any business line may offset positive capital charges in other business lines without limit. However, where the aggregate capital charge across all business lines within a given year is negative, then figures for that year shall be excluded from both the numerator and denominator.
8. The business lines and their corresponding beta factors are listed below:

Business lines		Activity Groups	Beta Factors
Level 1	Level 2		
Corporate Finance	Corporate finance	Mergers and acquisitions, underwriting, privatization, securitization, research, debt (government, high yield), equity, syndications, IPO, secondary private placements	18%
	Municipal/Government Finance		
	Advisory Services		
Trading and Sales	Sales	Fixed income, equity, foreign exchanges, commodities, credit, funding, own position securities, lending and repos, brokerage, debt, prime brokerage	18%
	Market Making		
	Proprietary Positions		
	Treasury		
Retail Banking	Retail Banking	Retail lending and deposits, banking services, trust and estates	12%
	Private Banking	Private lending and deposits, banking services, trust and estates, investment advice	
	Card Services	Merchant/commercial/corporate cards, private labels and retail	
Commercial Banking	Commercial Banking	Project finance, real estate, export finance, trade finance, factoring, leasing, lending, guarantees, bills of exchange	15%
Payment and Settlement	External Clients	Payments and collections, funds transfer, clearing and settlement	18%
Agency Services	Custody	Escrow, depository receipts, securities lending (customers) corporate actions	15%
	Corporate Agency	Issuer and paying agents	
	Corporate Trust		
Asset Management	Discretionary Fund Management	Discretionary and non-discretionary fund management, whether pooled, segregated, retail, institutional, closed, open, private equity	12%
	Non-Discretionary Fund Management		
Retail Brokerage	Retail brokerage	Execution and full service	12%

8. Gross income, for the purpose of computing for operational risk capital charge, is defined as net interest income plus non-interest income. This measure should:
 - a) be gross of any provisions for losses on accrued interest income from financial assets;
 - b) be gross of operating expenses, including fees paid to outsourcing service providers;
 - c) include fees and commissions;
 - d) exclude gains/(losses) from the sale/redemption/derecognition of non-trading financial assets and liabilities;
 - e) exclude gains/(losses) from sale/derecognition of non-financial assets; and
 - f) include other income (i.e., rental income, miscellaneous income, etc.)

C. Measurement of risk-weighted assets

9. The resultant operational risk capital charge is to be multiplied by 125% before multiplying by ten (10) [i.e., the reciprocal of the minimum capital ratio of ten percent (10%)].

¹ Refer to Appendix Q-47 for the Guidelines on the Use of the Standardized Approach in Computing the Capital Charge for Operational Risk

Part X. Disclosures in the Annual Reports and Published Financial Statements

1. The following information with regard to banks' capital structure and capital adequacy shall be disclosed in banks' Annual Reports, except Item "j" below which should also be disclosed in banks' quarterly published Balance Sheet:
2. Full compliance of these disclosure requirements is a prerequisite before banks can obtain any capital relief (i.e., adjustments in the risk weights of collateralized or guaranteed exposures) in respect of any credit risk mitigation techniques.

A. Capital structure and capital adequacy

3. The following information with regard to banks' capital structure and capital adequacy shall be disclosed in banks' Annual Reports, except Item "j" below which should also be disclosed in banks' quarterly published Balance Sheet:
 - a) CET1 capital and a breakdown of its components;
 - b) Tier 1 capital and a breakdown of its components;
 - c) Tier 2 capital and a breakdown of its components;
 - d) Total qualifying capital;
 - e) Capital conservation buffer;
 - f) Countercyclical capital buffer;
 - g) Capital requirements for credit risk (including securitization exposures);
 - h) Capital requirements for market risk;
 - i) Capital requirements for operational risk; and
 - j) Total CAR, Tier 1 and CET1 ratios on both solo and consolidated bases.
4. In addition to the above disclosure requirements, the following shall likewise be disclosed to improve transparency of regulatory capital and enhance market discipline:
 - a) Full reconciliation of all regulatory capital elements back to the balance sheet in the audited financial statements;
 - b) All regulatory adjustments/deductions, as applicable;
 - c) Description of the main features of capital instruments issued; and
 - d) Comprehensive explanations of how ratios involving components of regulatory capital are calculated.
5. On top of the above disclosure requirements, banks/QBs shall be required to make available on their websites the full terms and conditions of all instruments included in regulatory capital.

B. Risk exposures and assessments

6. For each separate risk area (credit, market, operational, interest rate risk in the banking book), banks must describe their risk management objectives and policies, including:
 - a) Strategies and processes;
 - b) The structure and organization of the relevant risk management function;
 - c) The scope and nature of risk reporting and/or measurement systems; and
 - d) Policies for hedging and/or mitigating risk, and strategies and processes for monitoring the continuing effectiveness of hedges/mitigants.

Credit risk

7. Aside from the general disclosure requirements stated in paragraph 4, the following information with regard to credit risk have to be disclosed in banks' Annual Reports:
 - a) Total credit risk exposures (i.e., principal amount for on-balance sheet and credit equivalent amount for off-balance sheet, net of specific provision) broken down by type of exposures as defined in Part IV;
 - b) Total credit risk exposure after risk mitigation, broken down by:
 - i. type of exposures as defined in Part IV; and
 - ii. risk buckets, as well as those that are deducted from capital;
 - c) Total credit risk-weighted assets broken down by type of exposures as defined in Part IV;
 - d) Names of external credit assessment institutions used, and the types of exposures for which they were used;
 - e) Types of eligible credit risk mitigants used including credit derivatives;

- f) For banks with exposures to securitization structures, aside from the general disclosure requirements stated in paragraph 4, the following minimum information have to be disclosed:
 - i. Accounting policies for these activities;
 - ii. Total outstanding exposures securitized by the bank; and
 - iii. Total amount of securitization exposures retained or purchased broken down by exposure type;
- g) For banks that provide credit protection through credit derivatives, aside from the general disclosure requirements stated in paragraph 4, total outstanding amount of credit protection given by the bank broken down by type of reference exposures should also be disclosed; and
- h) For banks with investments in other types of structured products, aside from the general disclosure requirements stated in paragraph 4, total outstanding amount of other types of structured products issued or purchased by the bank broken down by type should also be disclosed.

Market risk

- 8. Aside from the general disclosure requirements stated in paragraph 4, the following information with regard to market risk have to be disclosed in banks' Annual Reports:
 - a) Total market risk-weighted assets broken down by type of exposures (interest rate, equity, foreign exchange, and options); and
 - b) For banks using the internal models approach, the following information have to be disclosed:
 - i. The characteristics of the models used;
 - ii. A description of stress testing applied to the portfolio;
 - iii. A description of the approach used for backtesting/validating the accuracy and consistency of the internal models and modeling processes;
 - iv. The scope of acceptance by the Bangko Sentral; and
 - v. A comparison of VaR estimates with actual gains/losses experienced by the bank, with analysis of important outliers in backtest results.

Operational risk

- 9. Aside from the general disclosure requirements stated in paragraph 4, banks have to disclose their operational risk-weighted assets in their Annual Reports.

Interest rate risk in the banking book

- 10. Aside from the general disclosure requirements stated in paragraph 4, the following information with regard to interest rate risk in the banking book have to be disclosed in banks' Annual Reports:
 - a) Internal measurement of interest rate risk in the banking book, including assumptions regarding loan prepayments and behavior of nonmaturity deposits, and frequency of measurement; and
 - b) The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to internal measurement of interest rate risk in the banking book.

Part XI. Enforcement

(Transferred to Sec. 125-Q (Sanctions))

(Circular Nos. 1027 dated 28 December 2018, 1024 dated 06 December 2018, 934 dated 23 December 2016, 914 dated 23 June 2016, 890 dated 02 November 2015, 858 dated 21 December 2014, and 826 dated 14 February 2014)

COMMON SHARES**Criteria for classification as common shares for regulatory capital purposes**

1. It represents the most subordinated claim in liquidation.
2. It is entitled to a claim on the residual assets that is proportional with its share of issued capital, after all senior claims have been repaid in liquidation (i.e., has an unlimited and variable claim, not a fixed or capped claim).
3. Its principal is perpetual and never repaid outside of liquidation (setting aside discretionary repurchases or other means of effectively reducing capital in a discretionary manner that is allowable under relevant law).
4. The bank does nothing to create an expectation at issuance that the instrument will be bought back, redeemed or cancelled nor do the statutory or contractual terms provide any feature which might give rise to such an expectation.
5. The distributions are paid out of distributable items (retained earnings included). The level of distributions is not in any way tied or linked to the amount paid in at issuance and is not subject to a contractual cap (except to the extent that a bank is unable to pay distributions that exceed the level of distributable items).
6. There are no circumstances under which the distributions are obligatory. Non payment is therefore not an event of default.
7. The distributions are paid only after all legal and contractual obligations have been met and payments on more senior capital instruments have been made. This means that there are no preferential distributions, including in respect of other elements classified as the highest quality issued capital.
8. It is the issued capital that takes the first and proportionately greatest share of any losses as they occur¹. Within the highest quality capital, each instrument absorbs losses on a going concern basis proportionately and pari passu with all the others.
9. The paid in amount is recognized as equity capital (i.e., not recognized as a liability) for determining balance sheet insolvency.
10. The paid in amount is classified as equity under the relevant accounting standards.
11. It is directly issued and paid-in and the bank cannot directly or indirectly have funded the purchase of the instrument.
12. It must be underwritten by a third party not related to the issuer bank/QB nor acting in reciprocity for and in behalf of the issuer bank/QB.
13. The paid in amount is neither secured nor covered by a guarantee of the issuer or related entity² or subject to any other arrangement that legally or economically enhances the seniority of the claim.
14. It is only issued with the approval of the owners of the issuing bank, either given directly by the owners or, if permitted by applicable law, given by the board of directors or by other persons duly authorized by the owners.
15. It is clearly and separately disclosed in the bank's balance sheet.

¹ In cases where capital instruments have a permanent write-down feature, this criterion is still deemed to be met by common shares.

² A related entity includes a parent company, a sister company, a subsidiary or any affiliate. A holding company is a related entity irrespective of whether it forms part of the consolidated banking group.

ADDITIONAL TIER 1 CAPITAL**Criteria for inclusion in Additional Tier 1 capital**

1. It must be issued and paid-in.
2. It must be subordinated to depositors, general creditors and subordinated debt of the bank/QB.
3. It is neither secured nor covered by a guarantee of the issuer or related entity or other arrangement that legally or economically enhances the seniority of the claim vis-à-vis bank/QB creditors.
4. It is perpetual, ie., there is no maturity date and there are no step-ups or other incentives to redeem.
5. It may be callable at the initiative of the issuer only after a minimum of five (5) years, subject to the following conditions:
 - a. To exercise a call option a bank/QB must receive prior supervisory approval;
 - b. A bank/QB must not do anything which creates an expectation that the call will be exercised; and
 - c. Banks/QBs must not exercise a call unless:
 - i. They replace the called instrument with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of the bank/QB¹; or
 - ii. The bank/QB demonstrates that its capital position is well above the minimum capital requirements after the call option is exercised;
6. Any repayment of principal (e.g. through repurchase or redemption) must be with prior supervisory approval and banks should not assume or create market expectations that supervisory approval will be given.
7. With regard to dividend/coupon discretion:
 - a. The bank/QB must have full discretion at all times to cancel distributions/payments²;
 - b. Cancellation of discretionary payments must not be an event of default;
 - c. Banks/QB must have full access to cancelled payments to meet obligations as they fall due;
 - d. Cancellation of distributions/payments must not impose restrictions on the bank except in relation to distributions to common stockholders.
8. Dividends/coupons must be paid out of distributable items.
9. The instrument cannot have a credit sensitive dividend feature, that is a dividend/coupon that is reset periodically based in whole or in part on the bank's/QB credit standing.
10. The instrument cannot contribute to liabilities exceeding assets if such a balance sheet test forms part of national insolvency law.
11. Instruments classified as liabilities for accounting purposes must have principal loss absorption through either (i) conversion to common shares or (ii) a write-down mechanism which allocates losses to the instrument at a pre-specified trigger point. The trigger point is set at CET1 ratio of 7.25% or below or as determined by the Bangko Sentral. The bank must submit an expert's opinion on the accounting treatment/classification of the instruments.

The guidelines on loss absorbency features of AT1 capital as provided in *Appendix Q-45 Annex E* shall likewise be observed.

12. It must have a provision that requires the instrument to either be written off or converted into common equity upon the occurrence of a trigger event.

The trigger event occurs when a bank/QB is considered non-viable as determined by the Bangko Sentral. Non-viability is defined as a deviation from a certain level of CET1 Ratio, inability of the bank/QB to continue business (CLOSURE), or any other event as may be determined by the Bangko Sentral, whichever comes earlier.

The issuance of any new shares as a result of the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted.

¹ Replacement issues can be concurrent with but not after the instrument is called.

² A consequence of full discretion at all times to cancel distributions/payments is that "dividend pushers" are prohibited. An instrument with a dividend pusher obliges the issuing bank to make a dividend/coupon payment on the instrument if it has made a payment on another (typically more junior) capital instrument or share. This obligation is inconsistent with the requirement for full discretion at all times. Furthermore, the term "cancel distributions/payments" means extinguish these payments. It does not permit features that require the bank to make distributions/payments in kind.

The guidelines on loss absorbency features of AT1 capital at point of non-viability as provided in *Appendix Q-45 Annex F* shall likewise be observed.

13. The write-down will have the following effects:
 - a. Reduce the claim of the instrument in liquidation;
 - b. Reduce the amount re-paid when a call is exercised; and
 - c. Partially or fully reduce coupon/dividend payments on the instrument.
14. Neither the bank/QB nor a related party over which the bank exercises control nor significant influence can have purchased the instrument, nor can the bank directly or indirectly have funded the purchase of the instrument.
15. The instrument cannot have any features that hinder recapitalization, such as provisions that require the issuer to compensate investors if a new instrument is issued at a lower price during a specified time frame.
16. It must be underwritten by a third party not related to the issuer bank/QB nor acting in reciprocity for and in behalf of the issuer bank/QB;
17. It must clearly state on its face that it is not a deposit and is not insured by the Philippine Deposit Insurance Corporation (PDIC).
18. The bank/QB must submit a written external legal opinion that the above-mentioned requirements, including the subordination and loss absorption features have been met.
19. If the instrument is not issued out of an operating entity or the holding company in the consolidated group (e.g. a special purpose vehicle – “SPV”), proceeds must be immediately available without limitation to an operating entity or the holding company in the consolidated group in a form which meets or exceeds all of the other criteria for inclusion in Additional Tier 1 capital.¹

¹ Capital issued to third parties out of an SPV cannot be included in CET1. Instruments meeting the criteria for eligibility as AT1 capital will be treated as if the bank itself has issued the capital directly to 3rd parties. In cases where the capital has been issued to 3rd parties through an SPV via a fully consolidated subsidiary of the bank, such capital subject to the requirements for eligibility as AT1 capital, be treated as if the subsidiary itself had issued it directly to the 3rd parties and may be included in the bank's consolidated AT 1 capital based on the treatment of minority interest.

TIER 2 CAPITAL**Criteria for inclusion in Tier 2 Capital**

1. It must be issued and paid-in.
2. It must be subordinated to depositors and general creditors of the bank/QB.
3. It is neither secured nor covered by a guarantee of the issuer or related entity or other arrangement that legally or economically enhances the seniority of the claim vis-à-vis depositors and general creditors of the bank/QB.
4. With regard to maturity:
 - a. It must have a minimum original maturity of at least five (5) years;
 - b. Its recognition in regulatory capital in the remaining five (5) years before maturity will be amortized on a straight line basis as shown in the table below; and

Remaining maturity	Discount factor
5 years & above	0%
4 years to <5 years	20%
3 years to <4 years	40%
2 years to <3 years	60%
1 year to <2 years	80%
< 1 year	100%

- c. There are no step-ups or other incentives to redeem.
5. It may be callable at the initiative of the issuer only after a minimum of five (5) years:
 - a. To exercise a call option, a bank/QB must receive prior supervisory approval; and
 - b. A QB must not do anything which creates an expectation that the call will be exercised¹; and
 - c. A Bank/QB must not exercise a call unless:
 - i. They replace the called instrument with capital of the same or better quality and the replacement of this capital is done at conditions which are sustainable for the income capacity of the bank/QB;² or
 - ii. The bank/QB demonstrates that its capital position is well above the minimum capital requirements after the call option is exercised.
6. The investor must have no rights to accelerate the repayment of future scheduled payments (coupon or principal), except in bankruptcy and liquidation.
7. The instrument cannot have a credit sensitive dividend feature, that is a dividend/coupon that is reset periodically based in whole or in part on the bank's/QBs credit standing.
8. Neither the bank nor a related party over which the bank/QB exercises control or significant influence can have purchased the instrument, nor can the bank directly or indirectly have funded the purchase of the instrument.
9. It must be underwritten by a third party not related to the issuer bank/QB nor acting in reciprocity for and in behalf of the issuer bank/QB.
10. It must have a provision that requires the instrument to either be written off or converted into common equity upon the occurrence of a trigger event.

The trigger event occurs when a bank/QB is considered non-viable as determined by the Bangko Sentral. Non-viability is defined as a deviation from a certain level of Common Equity Tier 1 (CET1) Ratio, inability of the bank to continue business (CLOSURE) or any other event as determined by the Bangko Sentral, whichever comes earlier.

The issuance of any new shares as a result of the trigger event must occur prior to any public sector injection of capital so that the capital provided by the public sector is not diluted.

¹ An option to call the instrument after five (5) years) but prior to the start of the amortization period will not be viewed as an incentive to redeem as long as the bank does not do anything that creates an expectation that the call will be exercised at this point.

² Replacement issues can be concurrent with but not after the instrument is called.

The guidelines on loss absorbency features of Tier 2 capital at point of non viability as provided in *Appendix Q-45 Annex F* shall likewise be observed.

11. The write-down will have the following effects:
 - a. Reduce the claim of the instrument in liquidation;
 - b. Reduce the amount re-paid when a call is exercised; and
 - c. Partially or fully reduce coupon/dividend payments on the instrument
12. The bank/QB must submit a written external legal opinion that the above-mentioned requirements, including the subordination and loss absorption features have been met.
13. It must clearly state on its face that it is not a deposit and is not insured by the Philippine Deposit Insurance Corporation (PDIC).
14. If the instrument is not issued out of an operating entity or the holding company in the consolidated group (e.g., a special purpose vehicle – “SPV”), proceeds must be immediately available without limitation to an operating entity or the holding company in the consolidated group in a form which meets or exceeds all of the other.¹

¹ Capital issued to third parties out of an SPV cannot be included in CET1. Instruments meeting the criteria for eligibility as Tier 2 capital will be treated as if the bank itself has issued the capital directly to 3rd parties. In cases where the capital has been issued to 3rd parties through an SPV via a fully consolidated subsidiary of the bank, such capital subject to the requirements for eligibility as Tier 2 capital, be treated as if the subsidiary itself had issued it directly to 3rd parties through an SPV via a fully consolidated subsidiary of the bank, such capital subject to the requirements for eligibility as AT1 capital, be treated as if the subsidiary itself had issued it directly to the 3rd parties and may be included in the banks consolidated AT1 capital based on the treatment of minority interest.

Illustrative Sample

Computation of eligible minority interests to be included in parent bank's capital base

The case:

A banking group consists of two (2) legal entities that are both banks – Bank P is the parent and Bank S is the subsidiary. Their individual balance sheets are set out below:

Bank P-Balance Sheet		Bank S-Balance Sheet	
Assets		Assets	
Loans	90	Loans	160
CET1 investment in Bank S	30		
AT1 investment in Bank B	9		
Tier 2 investment in Bank S	4		
Liabilities and Equity		Liabilities and Equity	
Deposits	70	Deposits	90
Tier 2 capital instruments	20	Tier 2 capital instruments	16
AT1 capital instruments	12	AT1 capital instruments	11
CET1 capital instruments	31	CET1 capital instruments	43

The consolidated balance sheet of the banking group is set out below:

Consolidated Balance Sheet	
Assets	
Loans	250
Liabilities and Equity	
Deposits	160
Tier 2 issued by subsidiary to third parties	12
Tier 2 issued by parent	20
AT1 issued by subsidiary to third parties	2
AT1 issued by parent	12
Common Equity issued by subsidiary to third parties (i.e., minority interest)	13
Common Equity issued by parent	31

The balance sheet of Bank P shows that in addition to its loans to customers, it has investments in Bank S as follows:

1. 70% of common shares;
2. 82% of Additional Tier 1 capital; and
3. 25% of Tier 2 capital.

	Amount issued to Bank P		Amount issued to third parties		Total
CET1	30	70%	13	30%	43
AT1	9	82%	2	18%	11
Tier 1	39		15		54
Tier 2	4	25%	12	75%	16
Total Capital	43		27		70

(A) Computation of minority interests arising from ordinary shares issued by a consolidated bank subsidiary

Step 1 –

Calculate the surplus CET1 of Bank S in excess of its 8.5% minimum CET1 plus conservation buffer requirement (i.e., 6.0% + 2.5%). Bank S is assumed to have risk weighted assets of 100.

Minimum Capital Surplus of Bank S		
	Minimum plus capital conservation buffer	Surplus capital
CET1	8.5 (= 8.5% * 100)	34.5 (= 43 - 8.5)

Step 2 –

Calculate the eligible portion of minority interest (MI) arising from CET1 issued by Bank S that is allowed to be included in the consolidated capital of Bank P [i.e., item (e)].

Bank S: amount of capital issued to third parties included in consolidated capital					
	Total amount issued (a)	Amount issued to third parties (b)	Surplus capital (c)	Surplus attributable to third parties (i.e., amount excluded from consolidated capital) (d) = (c) * (b)/(a)	Amount included in consolidated capital (e) = (b) -(d)
CET1	43	13	34.5	10.4	2.6

Step 3 –

The eligible amount of MI to be included in the consolidated CET1 Capital of Bank P is 2.6.

	Total amount issued by Bank P (all of which is to be included in consolidated capital)	Amount issued by Bank S to third parties to be included in consolidated capital of Bank P	Total amount issued by Bank P and Bank S to be included in consolidated capital of Bank P
CET1	31	2.6	33.6

(B) Minority interests arising from ordinary shares and Additional Tier 1 capital instruments issued by a consolidated bank subsidiary

Step 1 –

Calculate the surplus Tier 1 Capital of Bank S in excess of its 10% minimum Tier 1 capital plus capital conservation buffer requirement (i.e., 7.5% + 2.5%). Bank S is assumed to have risk weighted assets of 100.

Minimum and surplus capital of Bank S		
	Minimum plus capital conservation buffer	Surplus capital
Tier 1	10 (= 10% * 100)	44 (= (43+11) – 10)

Step 2 –

Calculate the eligible portion of MI arising from Tier 1 Capital issued by Bank S that is allowed to be included in the consolidated capital of Bank P [i.e., item (e)]

Bank S : amount of capital issued to third parties included in consolidated capital					
	Total amount issued (a)	Amount issued to third parties (b)	Surplus capital (c)	Surplus attributable to third parties (i.e., amount excluded from consolidated capital) (d) = (c) * (b)/(a)	Amount included in consolidated capital (e) = (b) -(d)
CET1	43	13	34.5	10.4	2.6
Tier 1	54	15	44	12.2	2.8

Step 3 –

The eligible amount for inclusion in Bank P's consolidated AT1 Capital is 0.2, arrived at by excluding from the eligible amount for inclusion as Tier 1 Capital (i.e., 2.8) the amount that has already been recognized in CET1 (i.e., 2.6).

	Total amount issued by Bank P (all of which is to be included in consolidated capital)	Amount issued by Bank S to third parties to be included in consolidated capital of Bank P	Total amount issued by Bank P and Bank S to be included in consolidated capital of Bank P
CET1	31	2.6	33.6
AT1	12	.2	12.2
Tier 1	43	2.8	45.8

(C) Minority interests arising from Tier 1 capital instruments and Tier 2 capital instruments issued by a consolidated bank subsidiary

Step 1 –

Calculate the surplus total capital of Bank S in excess of 12.5% minimum total capital plus conservation buffer requirement (i.e., 10% + 2.5%). Bank S is assumed to have risk weighted assets of 100.

Minimum and surplus capital of Bank S		
	Minimum plus capital conservation buffer	Surplus capital
Tier 1	12.5 (= 12.5% * 100)	57.5 (= (43+11+16) -12.5)

Step 2 –

Calculate the eligible portion of MI arising from total capital by Bank S that is allowed to be included in the consolidated capital of Bank P (i.e., item (e)).

Bank S : amount of capital issued to third parties included in consolidated capital					
	Total amount issued (a)	Amount issued to third parties (b)	Surplus capital (c)	Surplus attributable to third parties (i.e., amount excluded from consolidated capital) (d) = (c) * (b)/(a)	Amount included in consolidated capital (e) = (b) -(d)
CET1	43	13	34.5	10.4	2.6
Tier 1	54	15	44	12.2	2.8
Total Capital	70	27	57.5	22.2	4.8

Step 3 –

The eligible amount for inclusion in Bank P's consolidated capital is 2.0, arrived at by excluding from the eligible amount for inclusion as total capital (i.e., 4.8) the amount that has already been recognized in Tier 1 Capital (i.e., 2.8).

	Total amount issued by Bank P (all of which is to be included in consolidated capital)	Amount issued by Bank S to third parties to be included in consolidated capital of Bank P	Total amount issued by Bank P and Bank S to be included in consolidated capital of Bank P
CET1	31	2.6	33.6
AT1	12	.2	12.2
Tier 1	43	2.8	45.8
Tier 2	20	2.0	22.0
Total Capital	63	4.8	67.8

LOSS ABSORBENCY REQUIREMENTS FOR ADDITIONAL TIER 1 CAPITAL

1. Capital instruments classified as liabilities for accounting purposes must have principal loss absorption when the pre-specified trigger point is breached, through either:
 - a. conversion to common shares; or
 - b. write-off mechanism which allocates losses to the instrument.
2. The trigger point for conversion or write-off is set at 7.25% Common Equity Tier 1 (CET1) or below or as determined by the Bangko Sentral.
3. The write-off or conversion to common equity must generate CET1 under the relevant accounting standards. The instrument will only receive recognition in Tier 1 (CET1) up to the amount of CET1 generated by a full write-off of the instrument.
4. The aggregate amount to be written off or converted for all such instruments on breaching the trigger point must be at least the amount needed to immediately return the bank's CET1 ratio at more than 7.25%, or if this is not possible, the full principal value of the instrument.
5. The bank/QB has the option to choose its main loss absorption mechanism for its AT1 instruments which must be explicitly provided in the terms and condition of the issuance of the instruments.

In case the conversion mechanism was chosen as an option, the terms and condition of the issuance shall likewise provide that in case said conversion cannot be implemented due to certain legal constraints, the write-off mechanism shall take effect.

6. Banks/QBs opting to use the conversion mechanism must address all legal impediments and obtain all prior authorization to ensure immediate recapitalization through conversion when the trigger point is breached. Failure to satisfy these requirements would render the instruments ineligible for inclusion in AT1 capital.
7. Banks/QB must make the necessary adjustments to their Articles of Incorporation to accommodate the conversion of capital instruments to common shares for loss absorbency. Moreover, banks/QBs must ensure that it has an appropriate buffer of authorized capital stock.
8. Where AT1 capital instruments provide for conversion into common shares when the trigger point is breached, the issue documentation must include among others:
 - a. the specific number of common shares to be received upon conversion, or specify the conversion formula for determining the number of common shares received; and
 - b. number of shares to be received based on the specified formula:

Provided, That the capital instruments converting into ordinary shares shall have a maximum conversion rate of fifty percent (50%) of the ordinary share price at the time of issue.

9. In issuing AT1 capital, the bank may:
 - a. differentiate between/among instruments as to whether the instrument is required to be converted or written off upon breaching the trigger point; and
 - b. provide for a hierarchy as to which AT1 instruments will be converted or written off.
10. Where the issue documentation provides for a ranking of the conversion or write-off, the terms attached to such hierarchy must not impede the ability of the capital instrument to be immediately converted or written off, as required.
11. Written commitment to undertake the necessary actions to effect the conversion must be accomplished by the bank. Otherwise, the write-off mechanism will take effect as the main loss absorbency mechanism.
12. Where, following the breach of the trigger point, the conversion cannot be undertaken, the write-off mechanism shall likewise take effect.
13. The write-off mechanism shall have the following effects:
