

MANUAL OF REGULATIONS FOR BANKS

December 2020

FOREWORD

The Manual of Regulations for Banks (MORB) is designed to be an authoritative codification of regulations governing banks which are all under the supervision of the Bangko Sentral ng Pilipinas.

The MORB methodically and logically organizes the Bangko Sentral rules and policy issuances that implement the broader provisions of Republic Act No. 8791, also known as the General Banking Law of 2000, as well as other pertinent banking laws.

Principally, the MORB fosters adherence to the banking standards that are ultimately aimed at strengthening the stability of the Philippine financial system.

While the MORB provides the rules governing the operations of banks in the country, it also serves as a useful reference for any individual, institution or agency with an active interest in the banking system.

As the Bangko Sentral pursues its strategic financial sector reforms that are aligned with international standards and best practices, it is essential that the regulatory issuances implementing such reforms are reflected in the MORB in a prompt manner. Thus, the Bangko Sentral will continuously enhance the digital MORB with the end view of enhancing user experience.

This edition covers rules and regulations issued as of end-December 2020.

BENJAMIN E. DIOKNO
Governor

PREFACE

Manual of Regulations for Banks

The Manual of Regulations for Banks (MORB) serves as the principal source of banking regulations issued by the Monetary Board of the Bangko Sentral. The 31 December 2020 MORB edition contains the latest updates and amendments on banking regulations. It also covers adoption of international standards and best practices, as well as amendments to existing policies.

The Monetary Board, in its Resolution No. 1203 dated 07 December 1994, directed the creation of a multi-departmental Ad Hoc Review Committee with representatives from the then Supervision and Examination Sector (SES), renamed as the Financial Supervision Sector (FSS) and the Office of the General Counsel and Legal Services (OGCLS). The Manual of Regulations (MOR) Committee was officially constituted under Office Order No. 2 series of 1995, with the latest reconstitution under Office Order No. 0373 dated 05 February 2018. The MOR Committee, among others, has the responsibility to update the MORB and the Manual of Regulations for Non-Bank Financial Institutions (collectively referred herein as the “Manuals”) on a continuing basis, and effect the necessary format corrections to the Manuals to ensure consistency and good order.

Cognizant of the value of digital technology to enhance efficiency, the MOR Committee embarked on a project in 2018 to digitize the Manuals to improve usability as well as the timeliness of incorporating regulatory updates to the Manuals. The Task Force on the Creation of the New Manual of Regulations for Banks and Non-

Bank Financial Institutions (Task Force) was constituted under Office Order No. 0374 dated 05 February 2018 to undertake the said project. Following the recommendation of the Task Force, the New Digital MORB as of 31 December 2017 was approved by the Monetary Board and was issued under Circular No. 1028 dated 19 December 2018.

The Monetary Board, in its Resolution No. 245 dated 13 February 2020 approved, among others, the cessation of the MOR Committee effective upon the issuance of the updated 2019 Manuals. In addition, under its implementing Office Order No. 0788 dated 22 June 2020, the FSS Supervision and Policy Research Department (SPRD), particularly the staff who handles the Secretariat function of the then MOR Committee, was directed to take over the issuance of the 2020 updated Manuals and continue its updating onwards.

The SPRD MOR Team is headed by Ms. Amelia B. Damian, Bank Officer V and Ms. Ma. Cecilia U. Contreras, Bank Officer II. They are assisted by Ms. Jessa Camille D. Ramos and Mr. Eden P. Bansuan, both Supervision and Examination Analyst II, and other SPRD staff on a part time basis.

The Bangko Sentral ng Pilipinas

USER'S GUIDE

The Manual of Regulations for Banks (the “Manual”) is divided into eleven (11) parts covering the following topics:

Part	Topic
I	Organization, Management and Administration
II	Deposits, Borrowings and Other Liabilities
III	Loans, Investments and Special Credits
IV	Trust, Other Fiduciary Business and Investment Management Activities
V	Manual of Regulations on Foreign Exchange Transactions (Please Refer To Separate Manual On Foreign Exchange Transactions)
VI	Treasury and Money Market Operations
VII	Electronic Banking Services and Operations
VIII	Regulations on Payment Systems
IX	Anti-Money Laundering Regulations
X	Financial Consumer Protection
XI	Other Banking Regulations

Each Part is further divided into Sections. For provisions that pertain only to a specific type of bank, a suffix is added to the Section number corresponding to a type of bank, as follows:

Suffix	Type of Bank
A	Universal and commercial banks (U/KBs)
B	Thrift banks (TBs)
C	Rural banks and cooperative banks (RBs/Coop Banks)

In case the provisions are applicable to two (2) types of banks, the applicable letters will be separated by a “/” symbol. The last two digits refer to the Section number, while the first digit/s refers to the Part number of the Manual.

The following examples illustrate the format arrangement per Section:

Example No. 1: Section 101

Example No. 2: Section 101-B

MANUAL OF REGULATIONS FOR BANKS

TABLE OF CONTENTS

POWERS OF THE BANGKO SENTRAL

Section	001	Examination by the Bangko Sentral
Section	002	Supervisory Enforcement Policy
Section	003	Prompt Corrective Action Framework

PART ONE – ORGANIZATION, MANAGEMENT AND ADMINISTRATION

A. CLASSIFICATIONS, POWERS AND OPERATIONS OF BANKS

Section	101	Classifications, Powers and Scope of Authorities of Banks
Section	101-B	Authority of Thrift Banks to Issue Foreign Letters of Credit and Pay/Accept/Negotiate Import/Export Drafts/Bills of Exchange
Section	102	Basic Guidelines in Establishing Domestic Banks
Section	103	Liberalized Entry and Scope of Operations of Foreign Banks
Section	104	Mergers and Acquisitions
Section	105	Establishment/Relocation/Voluntary Closure/Sale of Branches/ Branch-Lite Units
Section	106	Establishment of Sub-Branches of Foreign Bank Branches
Section	107	Mobile Foreign Exchange Booths
Section	108	Banking Days and Hours
Section	109	Bank Premises and Other Fixed Assets

B. SPECIAL AUTHORITIES

Section	111	Licensing
Section	112	Management Contracts and Outsourcing
Section	113	Cross-selling
Section	113-B	Marketing, Sale and Servicing of Microinsurance Products by Thrift Banks
Section	113-C	Marketing, Sale and Servicing of Microinsurance Products by Rural and Cooperative Banks
Section	114	Prohibition on the Sale of Foreign-Based Mutual Funds by Banks

C. CAPITALIZATION AND RISK-BASED CAPITAL

Section	121	Minimum Required Capital
Section	122	Shares of Stock of Banks
Section	122-A	Shares of Stock of Universal/Commercial Banks

Section	122-B	Shares of Stock of Thrift Banks
Section	122-C	Shares of Stock of Rural Banks and Cooperative Banks
Section	123	Deposits for Stock Subscription
Section	124	Dividends
Section	124-C	Limitations/Amount available for dividends declared by rural banks and cooperative banks
Section	125	Basel III Risk Based Capital
Section	126	Capital Instruments Eligible as Risk-Based Capital
Section	127	Risk-Based Capital Adequacy Framework for Stand-Alone Thrift Banks, Rural Banks and Cooperative Banks
Section	128	Domestic Systemically Important Banks (D-SIBs)
Section	129	Basel III Leverage Ratio Framework
Section	130	Internal Capital Adequacy Assessment Process and Supervisory Review Process
		D. CORPORATE GOVERNANCE
Section	131	Policy Statement and Definition of Terms
Section	132	Board of Directors
Section	133	Board-level Committees
Section	134	Officers
Section	135	Remuneration and Other Incentives
Section	136	Related Party Transactions
Section	137	Confirmation of the Election/Appointment of Directors/ Officers; Bio-data of Directors and Officers; Interlocking Directorships and/or Officerships; Rules of Procedures on Administrative Cases involving Directors and Officers of BSFIs
Section	138	Disqualification and Watchlisting of Directors and Officers
Section	139	Shari'ah Governance Framework (SGF) for Islamic Banks (IBs) and Islamic Banking Units (IBUs)
		E. RISK MANAGEMENT
Section	141	Supervision by Risk
Section	142	Risk Governance Framework
Section	143	Credit Risk Management
Section	144	Market Risk Management
Section	145	Liquidity Risk Management
Section	146	Operational Risk Management
Section	147	Bank Protection

Section	148	Information Technology Risk Management
Section	149	Business Continuity Management
Section	150	Social Media Risk Management
Section	151	Guidelines on the Conduct of Stress Testing Exercises
Section	152	Management of Interest Rate Risk in the Banking Book
Section	153	Sustainable Finance Framework

F. COMPLIANCE, INTERNAL CONTROL, AND AUDIT

Section	161	Compliance Framework
Section	162	Internal Control Framework
Section	163	Internal Audit Function
Section	164	Framework on the Selection of External Auditors

G. REPORTING GOVERNANCE

Section	171	Reporting Governance Framework
Section	172	Financial Records
Section	173	Reports
Section	174	Audited Financial Statements
Section	175	Public Disclosures

H. UNSAFE OR UNSOUND BANKING

Section	181	Conducting Business in an Unsafe or Unsound Banking
----------------	------------	---

I. CESSATION OF BANKING BUSINESS

Section	191	Voluntary Surrender of a Banking License
Section	192	Voluntary Dissolution and Liquidation
Section	193	Insolvency or Receivership of Banks

PART TWO – DEPOSITS, BORROWINGS AND OTHER LIABILITIES

A. DEMAND DEPOSITS

Section	201	Authority to Accept or Create Demand Deposits
Section	202	Returned Checks
Section	203	Temporary Overdrawings; Drawings Against Uncollected Deposits
Section	204	Demand Deposits of Bank Officers and Employees

B. SAVING DEPOSITS

Section	211	Saving Deposit Transactions
Section	212	Peso Savings Deposit Accounts of Embassy Officials
Section	213	Basic Deposit Account

	C. TIME DEPOSITS
Section 216	Term of Time Deposits
Section 217	Certificates of Time Deposit
Section 218	Special Time Deposits
	D. NEGOTIABLE ORDER OF WITHDRAWAL ACCOUNTS
Section 221	Authority to Accept Negotiable Order of Withdrawal Accounts
Section 222	Minimum Features of Negotiable Order of Withdrawal Accounts Rules
Section 223	on Servicing Negotiable Order of Withdrawal Accounts
	E. GOVERNMENT DEPOSIT
Section 231	Acceptance of Government Deposits
	F. DEPOSIT SUBSTITUTE OPERATIONS (QUASI-BANKING FUNCTIONS)
Section 241	Scope of Quasi-Banking Functions
Section 242	Deposit Substitute Instruments
Section 243	Minimum Trading Lot and Minimum Term of Deposit Substitute Money
Section 244	Market Placements of Rural Banks
Section 245	Without Recourse Transactions
Section 246	Issuance of Bonds and Commercial Papers
	G. RESERVE AGAINST DEPOSIT AND DEPOSIT SUBSTITUTES LIABILITIES
Section 251	Accounts Subject To Reserves; Amounts Required
Section 252	Composition of Reserve
Section 253	Exemptions from Reserve Requirements
Section 254	Computation of Reserve Position
Section 255	Reserve Deficiencies; Sanctions
Section 256	Report on Compliance
	H. INTEREST AND FEES
Section 261	Interest on Deposits/Deposit Substitutes
Section 262	Disclosure of Effective Rates of Interest
Section 263	Fees on Retail Bank Products/Services
	I. DEPOSIT OPERATIONS
Section 271	Booking of Deposits and Withdrawals
Section 272	Unclaimed Balances
Section 273	Rental Deposits of Lessees
Section 274	Servicing Deposits Outside Bank Premises
Section 275	Cash Pick-up/Cash Delivery Services; Cash Agents

Section	276	Miscellaneous Rules on Deposits
		J. BORROWINGS FROM THE BANGKO SENTRAL
Section	281	Rediscounting Line
Section	282	Rediscounting Availments
Section	283	Repurchase Agreements with the Bangko Sentral
Section	284	Bangko Sentral Liquidity Window
Section	285	Emergency Loans or Advances to Banking Institutions
Section	286	Facility to Committed Credit Line Issuers
Section	287-B/C	Countryside Financial Institutions Enhancement Program (CFIEP) for Thrift, Rural and Cooperative Banks
Section	288	Recording and Reporting of Borrowings
Section	289	Rediscounting Window
Section	290	Enhanced Intraday Liquidity Facility (ILF)
		K. OTHER BORROWINGS OF BANKS
Section	291	Borrowings from the Government
Section	292	Borrowings from Trust Departments or Investment Houses
Section	293	Borrowings from Banks, Quasi-Banks and Other Financial Intermediaries
Section	293-B	Mortgage/CHM Certificates of Thrift Banks
Section	294-C	Borrowings of Rural Banks/Cooperative Banks
		L. OTHER LIABILITIES
Section	295	Collection of Customs Duties/Taxes/Levies and Other Revenues, and Acceptance, Encashment or Negotiation of Checks Drawn in Favor of Commissioner
Section	296	Collection Agents of the Social Security System
Section	297	Collection Agents of PhilHealth
Section	298	Disclosure of Remittance Charges and Other Relevant Information
Section	299	Segregation of Customer Funds and Securities Received by Banks in the Performance of their Securities Brokering Functions
		PART THREE – LOANS, INVESTMENTS AND SPECIAL CREDITS
		A. GENERAL PROVISIONS ON LENDING OPERATIONS
Section	301	Grant of Loans and Other Credit Accommodations
Section	302	Amortization on Loans and Other Credit Accommodations
Section	303	Secured Loans and Other Credit Accommodations
Section	304	Past Due Accounts and Non-Performing Loans

Section	305	Interest and Other Charges
Section	306	“Truth in Lending Act” Disclosure Requirement
		B. TYPES OF LOANS AND CREDITS
Section	311	Salary-Based General-Purpose Consumption Loans
Section	312	Credit Card Operations
Section	313	Agricultural Loans
Section	314	Microfinance Loans
Section	315	Interbank Loans
Section	316	Bank Loans to Government
Section	317	Other Loans and Rediscounting to Thrift/Rural/Cooperative Banks
Section	318	Standby Letters of Credit
Section	319	Committed Credit Line for Commercial Paper Issues
		C. MANDATORY/SPECIALIZED CREDITS
Section	331	Agriculture and Agrarian Reform Credit
Section	332	Mandatory Allocation of Credit Resources to Micro, Small and Medium Enterprises
Section	333	Loans to Barangay Micro Business Enterprises
Section	334	Socialized Credit to Qualified Agrarian Reform Beneficiaries, Small Farmers and Fisherfolk
		D. LOANS AND OTHER CREDIT ACCOMMODATIONS TO DIRECTORS, OFFICERS, STOCKHOLDERS AND THEIR RELATED INTERESTS/SUBSIDIARIES/AFFILIATES
Section	341	Policy Statement
Section	342	Transactions, Covered and Not Covered
Section	343	Direct or Indirect Borrowings
Section	344	Individual Ceilings
Section	345	Aggregate Ceiling
Section	346	Procedural and Reportorial Requirements
Section	347	Waiver of Secrecy of Deposit
Section	348	Supervisory Enforcement Actions
Section	349	Applicability to Branches and Subsidiaries of Foreign Banks
Section	350	Applicability to Government Borrowings in Government-Owned or -Controlled Banks
		E. CREDIT CONCENTRATION AND PRUDENTIAL LIMITS
Section	361	Large exposures and credit risk concentrations

Section	362	Credit Exposure Limits to a Single Borrower
Section	363-A	Limits on Real Estate Exposures of UBs/KBs
Section	363-B	Limits on Real Estate Exposures of TBs
Section	364	Expanded Report on Real Estate Exposure of Banks
F. EQUITY INVESTMENTS		
Section	371	Scope of Authority
Section	372	Financial Allied Undertakings
Section	373	Limits on Investment in the Equities of Financial Allied Undertakings
Section	374	Investments in Venture Capital Corporations
Section	375	Non-Financial Allied Undertakings
Section	376-A	Investments in Non-Allied or Non-Related Undertakings
Section	377	Investments in Subsidiaries and Affiliates Abroad
Section	378	Prudential Limits and Restrictions on Equity Investments
Section	379	Sanctions
G. SUNDRY PROVISIONS		
Section	381	Purchase of Receivables and Other Obligations
Section	382	Acquired Assets in Settlement of Loans
Section	383	Loans-to-Deposits Ratio
Section	384	Credit Policies of Government-Owned Corporations
Section	385	Regulatory Relief for Banks Under Rehabilitation Program Approved by the Bangko Sentral

PART FOUR – TRUST AND OTHER FIDUCIARY BUSINESS AND INVESTMENT MANAGEMENT ACTIVITIES

A. STATEMENT OF PRINCIPLES AND SCOPE

Section	401	Statement of Principles
Section	402	Scope of Regulations
Section	403	Definitions

B. TRUST AND OTHER FIDUCIARY BUSINESS

Section	411	Authority to Perform Trust and Other Fiduciary Business
Section	411-B	Grant of Authority to Engage in Limited Trust Business to Thrift Banks
Section	411-C	Grant of Authority to Engage in Limited Trust Business to Rural Banks
Section	412	Organization and Management
Section	413	Trust and Other Fiduciary Business
Section	414	Unit Investment Trust Funds

Section	415	Investment Management Activities
Section	416	Foreign Currency Deposit Unit/Expanded Foreign Currency Deposit Unit Trust Accounts; Other Fiduciary or Investment Management Accounts
Section	417	Security for the Faithful Performance of Trust and Other Fiduciary Business
Section	418	Reserves Against Trust and Other Fiduciary Accounts (TOFA) - Others
Section	419	Required Retained Earnings Reserved
Section	420	Unsafe or Unsound Manner
C. INVESTMENT MANAGEMENT ACTIVITIES		
Section	421	Authority to Perform Investment Management
Section	422	Organization and Management
Section	423	Conduct of Investment Management Activities
Section	424	Security for the Faithful Performance of Investment Management Activities
Section	425	Required Retained Earnings Reserved
Section	426	Unsound Manner
D. GENERAL PROVISIONS		
Section	431	Securities Custodianship and Securities Registry Operations
Section	432	Custody of Assets
Section	433	Fees and Commissions
Section	434	Taxes
Section	435	Books, Records and Reports Required
Section	436	Audits
Section	437	Authority Resulting from Merger or Consolidation
Section	438	Non-Trust, Non-Fiduciary and/or Non-Investment Management Activities
Section	439	Receivership
Section	440	Surrender of Trust or Investment Management License
E. GENERAL PROVISION ON SANCTIONS		
Section	499	Sanctions

PART FIVE – MANUAL OF REGULATIONS ON FOREIGN EXCHANGE TRANSACTIONS

(Please refer to separate Manual on Foreign Exchange Transactions)

PART SIX – TREASURY AND MONEY MARKET OPERATIONS

A. MONETARY OPERATIONS OF THE BANGKO SENTRAL

- Section 601** Monetary Operations
- Section 602** The Japanese Yen/Philippine Peso (JPY/PHP) Swap Facility under the Cross-Border Liquidity Arrangement (CBLA) between the Bangko Sentral and the Bank of Japan (BOJ)

B. TREASURY OPERATIONS OF BANKS

- Section 611** Treasury Operations
- Section 612** Sales and Marketing Guidelines for Financial Products
- Section 613** Derivatives Activities
- Section 614** Investment Activities of BSP-Supervised Financial Institutions (BSFIs)

C. FINANCIAL INSTRUMENTS

- Section 621** Global Peso Notes
- Section 622** Forward and Swap Transactions
- Section 623-A** Guidelines on the Investments of Universal Banks and Commercial Banks in Credit-Linked Notes (CLNs), Structured Products and Securities Overlying Securitization Structures
- Section 624-A** Credit-linked Notes and Similar Credit Derivatives Products
- Section 625-A** Bank's Exposures to Structured Products
- Section 626-A** Expanded Foreign Currency Deposit Units Investments in Foreign Currency Denominated Structured Products
- Section 627-A** Investments in Securities Overlying Securitization Structures
- Section 628** Asset-Backed Securities
- Section 629** The Currency Rate Risk Protection Program (CRPP) Facility

PART SEVEN – ELECTRONIC PAYMENT AND FINANCIAL SERVICES

- Section 701** Policy Statement
- Section 702** Issuance and Operations of Electronic Money

PART EIGHT – REGULATIONS ON PAYMENT SYSTEMS

- Section 801** Automated Teller Machines
- Section 802** Check Clearing Operations
- Section 803** National Retail Payment System (NRPS)
- Section 804** Settlement of Instant Retail Payments
- Section 805** Participation in Automated Clearing Houses (ACHS)

PART NINE – ANTI-MONEY LAUNDERING AND COMBATTING

THE FINANCING OF TERRORISM REGULATIONS

Section	901	Bangko Sentral Authority to Check Compliance with the Anti-Money Laundering (AMLA) Act, as amended
Section	902	Policy Statement
Section	903	Scope of Regulations
Section	904	Definition of terms
Section	905	Basic Principles and Policies to Combat Money Laundering

A. RISK MANAGEMENT

Section	911	Risk Management
----------------	------------	-----------------

B. PREVENTIVE MEASURES

Section	921	Customer Due Diligence
Section	922	Covered and Suspicious Transaction Reporting
Section	923	Additional Preventive Measures for Specific Customers and Activities
Section	924	Record Keeping

C. TRAINING PROGRAM

Section	931	AML Training Program
----------------	------------	----------------------

D. ENFORCEMENT ACTIONS

Section	941	Sanctions and Penalties
Section	942	Separability Clause

PART TEN – BANGKO SENTRAL REGULATIONS ON FINANCIAL CONSUMER PROTECTION

Section	1001	Financial Consumer Protection Framework (Framework)
Section	1002	Policies and Procedures, Consumer Protection Standards of Conduct
Section	1003	Enforcement Actions

PART ELEVEN – OTHER BANKING REGULATIONS

A. BANKING FEES/CHARGES

Section	1101	Assessment Fees on Banks
Section	1102	Collection of Fines and Other Charges from Banks
Section	1103	Service Fee for Transactions with the Bangko Sentral

B. PHILIPPINE & FOREIGN CURRENCY NOTES & COINS

Section	1111	Philippine and Foreign Currency Notes and Coins
Section	1112	Adoption of Clean Note and Coin Policy

Section	1113	Cash Service Alliance
		C. PERSONAL EQUITY AND RETIREMENT ACCOUNT (PERA)
Section	1121	Personal Equity and Retirement Account (PERA) Market Participants and PERA Investment Products
		D. CREDIT RATING AGENCIES
Section	1131	Recognition and Derecognition of Domestic Credit Rating Agencies for Bank Supervisory Purposes
Section	1132	Internationally Accepted Credit Rating Agencies
Section	1133	Recognition and Derecognition of Microfinance Institution Rating Agencies
		E. PRODUCT OFFERING OF PARENT OF FOREIGN BANK BRANCHES
Section	1141-A	Offering in the Philippines of Products by Parent Bank and Branches Abroad of the Parent Bank
		F. FRAMEWORK ON THE GRANT OF REGULATORY RELIEF TO BANKS
Section	1151	Regulatory Relief Policy

POWERS OF THE BANGKO SENTRAL

001 EXAMINATION BY THE BANGKO SENTRAL

The term “*examination*” shall refer to an investigation of an institution under the supervisory authority of the Bangko Sentral to determine whether the institution is operating on a safe and sound basis, inquire into its solvency and liquidity, and assess the effectiveness of its compliance function to ascertain that it is conducting business in accordance with laws and regulations.

Regular or periodic examination shall be done once a year, with an interval of twelve (12) months from the last date thereof. Special examination may be conducted earlier, or at a shorter interval, when authorized by the Monetary Board (MB) by an affirmative vote of five (5) members.

In the full exercise of the supervisory powers of the Bangko Sentral, examination by the Bangko Sentral of institutions shall be complemented by overseeing thereof. In this regard, the term “*overseeing*” shall refer to a limited investigation of an institution, or any investigation that is limited in scope, conducted to inquire into a particular area/aspect of an institution’s operations, for the purpose of overseeing that laws and regulations are complied with, inquiring into the solvency and liquidity of the institution, enforcing prompt corrective action, or such other matters requiring immediate investigation: *Provided*, That (i) specific authorizations be issued by the Deputy Governor, Supervision and Examination Sector (SES), and (ii) periodic summary reports on overseings conducted be submitted to the Monetary Board.

- a. *Scope of examination.* Consistent with a risk-based approach to supervision, the scope of examination may include, but need not be limited to, the following:
 - (1) Appraisal of the overall quality of corporate governance;
 - (2) Assessment of the risk management system, which shall include the evaluation of the effectiveness of management oversight and self-assessment functions (e.g., internal audit, risk management and compliance); adequacy of policies, procedures, and limits; effectiveness of risk measurement, monitoring and management information system; and robustness of internal controls;
 - (3) Review of the institution’s operations and overall risk profile;
 - (4) Evaluation of financial performance, capital adequacy, asset quality, and liquidity; and
 - (5) Any other activity relevant to the above.
- b. *Conduct of examination.* The conduct of examination shall include, but need not be limited to, the interview of any bank’s directors, officers and personnel; and the verification, review and evaluation of documents and records, including making copies of the records, taking possession thereof and keeping them under the custody of the Bangko Sentral after giving proper receipts thereof.

For this purpose, “*records*” shall refer to information, whether in its original form or otherwise, including documents, signatures, seals, texts, images, sounds, speeches, or data compiled, recorded or stored, as the case may be: (1) in written form on any material; (2) on film, negative, tape or other medium so as to be capable of being reproduced; or (3) by means of any recording device or process, computer or other electronic device or process; and regardless of whether these information are stored and kept by the Bangko Sentral supervised Financial Institution (BSFI) or another entity duly authorized by the BSFI (e.g., technology service provider). Records shall also include audio, photographic, and video evidence of events, acts, or transactions of the BSFI, including all records of communication, oral (e.g., voice recordings) or written (e.g., letters) of officers and employees of the BSFI: *Provided*, That the recording was made in connection with the performance of the official functions of the concerned officers or employees and coursed through BSFI-issued computers, telephones, mobile phones, and similar devices.

(Circular Nos. 957 dated 17 April 2017 and 894 dated 07 December 2015)

Refusal to permit examination. Any act or omission that impedes, delays or obstructs the duly authorized Bangko Sentral examiner from conducting an examination of a BSFI, including the act of refusing to accept or honor the letter of authority to examine presented by the examiner of the Bangko Sentral, shall be considered as a refusal to permit examination.

The refusal of the BSFI to permit examination shall be reported by the Bangko Sentral examiner to the Head of the appropriate department of the SES, who shall forthwith make a written demand upon the BSFI concerned for such examination. If the BSFI continues to refuse the said examination without any satisfactory explanation thereof, a report on such refusal shall be submitted by the Bangko Sentral examiner concerned to the said Department Head.

Sanctions. A bank that wilfully refuses to permit examination shall pay a fine of P30,000 per day from the day of the refusal and for as long as such refusal lasts, without prejudice to the sanctions under Section 34 of R.A. No. 7653.

The fine shall be imposed starting on the day following the receipt by the concerned Head of Department in the SES of the report from the Bangko Sentral examiner that the bank continues to refuse to permit examination notwithstanding the written demand made by the Department Head.

Aside from the fine mentioned above, the bank and/or its concerned directors and/or officers may be subject to non-monetary sanctions provided under Section 37 of R.A. No. 7653 (The New Central Bank Act) and Sec. 002.

(Circular No. 957 dated 17 April 2017)

002 SUPERVISORY ENFORCEMENT POLICY

The Policy sets forth guidance on the Bangko Sentral's supervision-by-risk framework. It also puts together in a holistic manner all the enforcement tools available to the Bangko Sentral as contained in various laws and rules and regulations¹ and communicates the deployment thereof in a consistent manner by the Bangko Sentral in the course of performing its supervisory function. It further sets out the guiding principles and objectives behind the deployment of such enforcement actions.

Nothing in this Section shall be construed as superseding enforcement actions previously imposed against Bangko Sentral-supervised FIs pursuant to existing laws, Bangko Sentral rules and regulations.

a. Statement of policy and rationale

The Bangko Sentral is issuing this Supervisory Enforcement Policy to provide guidance on its supervision-by-risk framework. The Bangko Sentral recognizes that risk-taking is integral to a financial institution's business. The existence of risk is not necessarily a reason for concern so long as Management exhibits the ability to effectively manage that level of risk and operates the financial institution (FI) in a safe and sound manner. Thus, when risk is not properly managed, the Bangko Sentral may deploy a wide range of enforcement actions provided under existing laws, Bangko Sentral rules and regulations, taking into consideration the nature and extent of the supervisory issues and concerns and the level of cooperation provided by Management.

The Bangko Sentral adopts a holistic approach to supervision with the objective of guiding FIs under its supervision to mitigate risk and achieve the desired changes.

Bangko Sentral's risk-based supervision, of which enforcement action is a key part, focuses on the safety and soundness of operations of the FIs. This policy sets forth the expectations of the Bangko Sentral when it deploys enforcement action and the consequences when expected actions are not performed within prescribed timelines.

Thus, this over-arching policy is needed - (1) as a collation of various enforcement actions already present in various laws, rules and regulations; (2) for better guidance of the FIs and the bank supervisors; and (3) as a means to broadcast to the banking/financial industry the consequences of failure to address the Bangko Sentral requirements and supervisory expectations.

b. Objectives of the enforcement policy

The Bangko Sentral's Supervisory Enforcement Policy aims to achieve the following two (2) key objectives:

- (1) Achieving the desired change. Effect a change in the overall condition and governance of Bangko Sentral-supervised FIs consistent with the expectations set under relevant laws and regulations; and
- (2) Mitigating risk. Mitigate risks to the FIs and other stakeholders in order to maintain the stability of the financial system.

c. General principles

The Bangko Sentral, in the deployment of enforcement actions, is guided by the following general principles:

- (1) Root cause diagnosis. The enforcement action addresses the underlying cause of the supervisory issues and concerns.
- (2) Consistently matching the severity of enforcement action to the supervisory issue. The deployment of appropriate enforcement action is commensurate with the severity of the supervisory issues and concerns. The severity of the supervisory issues and concerns is assessed in terms of *prevalence*² and *persistence*.

¹ Section 4 of R.A. No. 8791 (General Banking Law of 2000) defines the scope of Bangko Sentral's supervisory powers, which may be grouped into three categories: (i) issuance of rules; (ii) examination and investigation; and (iii) enforcement of Prompt Corrective Action (PCA)

² Prevalence pertains to the pervasiveness of the supervisory issues, concerns and problems in relation to their impact on the FI's solvency, asset quality, operating performance and liquidity, among others.

- (3) Successive or simultaneous deployment of enforcement actions. Enforcement actions may be deployed successively or simultaneously taking into account the nature and seriousness of the difficulties encountered by the FIs and the ability and willingness of the FI's Management to address the supervisory issues and concerns.
- (4) Monitorability and follow-through. The Bangko Sentral monitors the FI's progress/compliance with the expected actions to address the supervisory issues, concerns and problems.
- (5) Escalation of enforcement actions. Enforcement actions may be escalated if the desired change is not achieved and the root causes of the FI's issues, concerns and problems are not addressed by the FI within prescribed timelines.

d. Categories of enforcement actions

The three (3) main categories of enforcement action are: (1) corrective actions, (2) sanctions and (3) other supervisory actions. These enforcement actions may be imposed singly or in combination with others.

(1) Corrective actions

Corrective actions are enforcement actions intended to require the FI to address the underlying cause of supervisory issues, concerns and problems. These include the following:

(a) Bangko Sentral directives

Directives are basically orders and instructions communicated by the appropriate supervising department in Bangko Sentral requiring the FI to undertake a specific positive action or refrain from performing a particular activity within a prescribed timeline.

(b) Letter of Commitment (LOC)

The LOC is an enforcement action where the FI's Board of Directors (Board) is required, upon approval and/or confirmation by the MB, to make a written commitment to undertake a specific positive action or refrain from performing a particular activity with a given time period.

The LOC is generally used to arrest emerging supervisory concerns before these develop into serious weaknesses or problems, or to address remaining supervisory issues and concerns.

(2) Sanctions

Sanctions that may be imposed on an FI and/or its directors and officers, as provided under existing laws, Bangko Sentral rules and regulations, are subject to the prior approval and/or confirmation by the MB. Such sanctions include the following:

(a) FIs

- (i) Restrictions on activities and privileges
- (ii) Suspension of authorities, privileges and other activities
- (iii) Divestment and/or unwinding
- (iv) Monetary sanction - penalties/fines against the FI

(b) Directors and officers

- (i) Reprimand
- (ii) Restriction on compensation and benefits
- (iii) Divestment
- (iv) Suspension
- (v) Disqualification
- (vi) Removal
- (vii) Monetary penalties/fines

The foregoing sanctions to individuals are without prejudice to the filing of separate civil or criminal actions against them, when appropriate.

(3) Other supervisory actions subject to prior MB approval, the Bangko Sentral, when warranted, may deploy other supervisory actions such as:

- (a) Initiation into the PCA Framework;

- (b) Issuance of a cease and desist order (CDO) against the FI as well as against its directors and officers;
- (c) Conservatorship; and
- (d) Placement under receivership.

e. Due Process

An integral part of the deployment of enforcement actions is the observance of due process in all cases.

The FI and/or its directors and officers are afforded fair and reasonable opportunity to explain their side and to submit evidences in support thereof, which are given due consideration in determining the appropriate enforcement action(s) to be imposed.

(Circular Nos. 903 dated 29 February 2016, 875 dated 15 April 2015, and 894 dated 07 December 2015)

003 PROMPT CORRECTIVE ACTION FRAMEWORK

Prompt Corrective Action Framework. A bank may be subject to PCA whenever any or all of the following conditions obtain:

- (1) When either of the Total CAR or Tier 1 capital ratio as defined under Secs. 125 and 127 or leverage ratio¹ falls below ten percent (10%), seven and a half percent (7.5%)² and five percent (5%), respectively, or such other minimum levels that may be prescribed for the said ratios under relevant regulations, and/or the combined capital account falls below the minimum capital requirement prescribed under Sec. 121;
- (2) CAMELS composite rating is less than three “3” or a Management component rating of less than three “3”; and
- (3) A serious supervisory concern has been identified that places a bank at more-than-normal risk of failure in the opinion of the head of the examination department concerned, which opinion is confirmed by the Monetary Board. Such concerns could include, but are not limited, to any one (1) or a combination of the following:
 - (a) Finding of unsafe and unsound activities that could adversely affect the interest of depositors and/or creditors;
 - (b) A finding of repeat violations of law or regulations continuing failure to comply with Monetary Board directives; and
 - (c) Significant reporting errors that materially misrepresent the bank’s financial condition.

The framework for the enforcement of PCA on banks and other FIs under Bangko Sentral supervision is in *Appendix 68*.

(Circular Nos. 1084 dated 28 April 2020 and 1079 dated 9 March 2020)

¹ For universal and commercial banks and their subsidiary banks and quasi-banks, this refers to the Basel III Leverage Ratio. For stand-alone TBs, RBs and Coop Banks, this is derived as Total Capital/Total Assets.

² This shall take effect on 01 January 2023 for stand-alone thrift banks, rural, and cooperative banks. Pending effectivity of the new risk-based capital adequacy ratio framework for stand-alone thrift banks, rural banks and cooperative banks, the covered banks shall refer to the existing six percent (6%) as the minimum threshold for Tier 1 capital.

PART ONE

ORGANIZATION, MANAGEMENT AND ADMINISTRATION

A. CLASSIFICATIONS, POWERS AND OPERATIONS OF BANKS

101 CLASSIFICATIONS, POWERS AND SCOPE OF AUTHORITIES OF BANKS

The following are the classifications, powers and scope of authorities of banks, as well as the prerequisites for the grant of authorities.

- a. *Classifications of banks.* Banks are classified into the following subject to the power of the Monetary Board to create other classes or kinds of banks:

- (1) Universal banks (UBs);
- (2) Commercial banks (KBs);
- (3) Thrift banks (TBs), as defined in Republic Act (R.A.) No. 7906, which shall be composed of: (a) savings and mortgage banks, (b) stock savings and loan associations, and (c) private development banks;
- (4) Rural banks (RBs), as defined in R.A. No. 7353;
- (5) Cooperative banks (Coop Banks);
- (6) Islamic banks (IBs); and
- (7) Digital banks

- b. *Powers and scope of authorities.* The following are the powers and scope of authorities of banks.

- (1) *UBs.* A UB shall have the authority to exercise, in addition to the powers and services authorized for a KB as enumerated in Item “b(2)” and those provided by other laws, the following:
 - (a) the powers of an investment house (IH) as provided under existing laws;
 - (b) the power to invest in non-allied enterprises;
 - (c) the power to own up to one hundred percent (100%) of the equity in a TB, an RB, a financial allied enterprise, or a non-financial allied enterprise; and
 - (d) in case of publicly-listed UBs, the power to own up to 100% of the voting stock of only one (1) other UB or KB.

A UB may perform the functions of an IH either directly or indirectly through a subsidiary IH; in either case, the underwriting of equity securities and securities dealing shall be subject to pertinent laws and regulations of the Securities and Exchange Commission (SEC): *Provided*, That if the IH functions are performed directly by the UB, such functions shall be undertaken by a separate and distinct department or other similar unit in the UB: *Provided, further*, That a UB cannot perform such functions both directly and indirectly through a subsidiary.

- (2) *KBs.* In addition to the general powers incident to corporations and those provided in other laws, a KB shall have the authority to exercise all such powers as may be necessary to carry on the business of commercial banking, such as accepting drafts and issuing letters of credit; discounting and negotiating promissory notes, drafts, bills of exchange, and other evidences of debt; accepting or creating demand deposits; receiving other types of deposits and deposit substitutes; buying and selling foreign exchange and gold or silver bullion; acquiring marketable bonds and other debt securities; and extending credit, subject to such rules as the Monetary Board may promulgate. These rules may include the determination of bonds and other debt securities eligible for investment, the maturities and aggregate amount of such investment.

It may also exercise or perform any or all of the following:

- (a) invest in the equities of allied enterprises as provided in Sections 31 and 32 of R.A. No. 8791;
 - (b) purchase, hold and convey real estate as specified under Sections 51 and 52 of R.A. No. 8791;
 - (c) receive in custody funds, documents and valuable objects;
 - (d) act as financial agent and buy and sell, by order of and for the account of their customers, shares, evidences of indebtedness and all types of securities;
 - (e) make collections and payments for the account of others and perform such other services for their customers as are not incompatible with banking business;
 - (f) upon prior approval of the Monetary Board, act as managing agent, adviser, consultant or administrator of investment management/advisory/consultancy accounts;
 - (g) rent out safety deposit boxes; and
 - (h) engage in quasi-banking functions.
- (3) *TBs.* In addition to the powers provided in other laws, a TB may perform any or all of the following services:
 - (a) grant loans, whether secured or unsecured;
 - (b) invest in readily marketable bonds and other debt securities, commercial papers and accounts

- receivable, drafts, bills of exchange, acceptances or notes arising out of commercial transactions;
- (c) issue domestic letters of credit;
- (d) extend credit facilities to private and government employees;
- (e) extend credit against the security of jewelry, precious stones and articles of similar nature, subject to such rules and regulations as the Monetary Board may prescribe;
- (f) accept savings and time deposits;
- (g) rediscount paper with the Land Bank of the Philippines (LBP), Development Bank of the Philippines (DBP), and other government-owned or -controlled corporations;
- (h) accept foreign currency deposits as provided under R.A. No. 6426, as amended;
- (i) act as correspondent for other financial institutions (FIs);
- (j) purchase, hold and convey real estate as specified under Sections 51 and 52 of R.A. No. 8791;
- (k) offer other banking services as provided in Section 53 of R.A. No. 8791; and
- (l) buy and sell foreign exchange.

With prior approval of the Monetary Board, and subject to such guidelines as may be established by it, TBs may also perform the following services:

- (m) open current or checking accounts;
- (n) engage in trust, quasi-banking functions and money market operations;
- (o) act as collection agent for government entities, including but not limited to, the Bureau of Internal Revenue (BIR), Social Security System (SSS) and the Bureau of Customs (BOC);
- (p) act as official depository of national agencies and of municipal, city or provincial funds in the municipality, city or province where the TB is located;
- (q) issue mortgage and chattel mortgage certificates, buy and sell them for its own account or for the account of others, or accept and receive them in payment or as amortization of its loan;
- (r) invest in the equity of allied undertakings;
- (s) issue foreign letters of credit; and
- (t) pay/accept/negotiate import/export draft/bills of exchange.

(4) *RBs*. In addition to the powers provided in other laws, an RB may perform any or all of the following services:

- (a) extend loans and advances primarily for the purpose of meeting the normal credit needs of farmers, fishermen or farm families as well as cooperatives, merchants, private and public employees;
- (b) accept savings and time deposits;
- (c) act as correspondent of other FIs;
- (d) rediscount paper with the LBP, DBP or any other bank, including its branches and agencies. Said banks shall specify the nature of paper deemed acceptable for rediscount, as well as the rediscount rate to be charged by any of these banks;
- (e) act as collection agent;
- (f) acquire readily marketable bonds and other debt securities;
- (g) offer other banking services as provided in Section 53 of R.A. No. 8791; and
- (h) buy and sell foreign exchange.

With prior approval of the Monetary Board, an RB may perform any or all of the following services:

- (i) accept current or checking accounts: *Provided*, That such RB has net assets of at least P5.0 million;
- (j) accept negotiable order of withdrawal (NOW) accounts;
- (k) act as trustee over estates or properties of farmers and merchants;
- (l) act as official depository of municipal, city or provincial funds in the municipality, city or province where it is located;
- (m) sell domestic drafts; and
- (n) invest in allied undertakings.

(5) *Coop Banks*. A Coop Bank shall primarily provide financial, banking and credit services to cooperatives and their members, although it may provide the same services to non-members or the general public.

In addition to the powers granted to Coop Banks under existing laws, any Coop Bank may perform any or all of the banking services offered by rural banks under Items “4.a” to “4.h” above. A Coop Bank may likewise perform any or all of the banking services offered by rural banks under Items “4.(i)” to “4.(n)” as well as any or all of the banking services offered by other types of banks, subject to prior approval of the Bangko Sentral.

- (6) *IBs.* In addition to the general powers granted to corporations, IBs shall have such powers as shall be necessary to carry out the business of a bank in accordance with Shari’ah principles. IBs may perform the following services:
- (a) accept or create current accounts;
 - (b) accept savings accounts for safekeeping or custody with no participation in profit and loss except unless otherwise authorized by the account holders to be invested;
 - (c) accept investment accounts;
 - (d) accept foreign currency deposits;
 - (e) act as correspondent of banks and institutions to handle remittances or any fund transfers;
 - (f) accept drafts and issue letters of credit or letters of guarantee, negotiate notes and bills of exchange and other evidence of indebtedness;
 - (g) act as collection agent in so far as the payment orders, bills of exchange or other commercial documents;
 - (h) provide financing contracts and structures;
 - (i) handle storage operations for goods or commodity financing secured by warehouse receipts presented to the Islamic Bank;
 - (j) issue shares for the account of institutions and companies assisted by the Islamic Bank in meeting subscription calls or augmenting their capital and/or fund requirements as may be allowed by law;
 - (k) carry out financing and joint investment operations by way of mudarabah partnership, musharakah joint venture or by decreasing participation, murabahah purchasing on a cost-plus financing arrangement, lease (ijara) arrangements, construction and manufacture (istisna’a) arrangements, and other Shari’ah compliant contracts and structures, and to invest funds directly in various projects or through the use of funds whose owners desire to invest jointly with other resources available to the IB on a joint mudarabah basis in accordance with the foregoing arrangements, contracts and structures;
 - (l) undertake various investments in all transactions allowed by Shari’ah principles;
 - (m) subject to the guidelines as may be prescribed by the Bangko Sentral, IBs may invest in equities of Shari’ah compliant undertakings that directly support the delivery of Islamic banking and financing services;
 - (n) such other banking services as may be authorized by the Monetary Board.
- (7) *Digital banks.* A digital bank may perform any or all of the following services:
- (a) grant loans, whether secured or unsecured;
 - (b) accept savings and time deposits, including basic deposit accounts as defined under Sec. 213;
 - (c) accept foreign currency deposits, as defined under R.A. No. 6426, as amended;
 - (d) invest in readily marketable bonds and other debt securities, commercial papers and accounts receivable, drafts, bills of exchange, acceptances or notes arising out of commercial transactions;
 - (e) act as correspondent for other financial institutions;
 - (f) act as collection agent for non-government entities;
 - (g) issue electronic money products subject to the guidelines provided under Sec. 702;
 - (h) issue credit cards;
 - (i) buy and sell foreign exchange; and
 - (j) present, market, sell and service microinsurance products subject to the guidelines provided under Sec.113-B.

With prior Monetary Board approval and subject to such guidelines as may be established by it, digital banks may perform other activities not covered by the foregoing enumeration.

(Circular Nos. 1105 dated 02 December 2020, 1069 dated 27 December 2019, and 960 dated 04 May 2017)

101-B AUTHORITY OF THRIFT BANKS TO ISSUE FOREIGN LETTERS OF CREDIT AND PAY/ACCEPT/NEGOTIATE IMPORT/EXPORT DRAFTS/BILLS OF EXCHANGE

With prior Monetary Board approval, TBs may be authorized to issue foreign letters of credit (LCs) and pay/accept/negotiate import/export drafts/bills of exchange, subject to compliance with the following conditions (at the time of application unless otherwise indicated):

- a. Minimum capital requirement of P1.0 billion;
- b. Ten percent (10%) risk-based capital adequacy ratio (CAR);
- c. CAMELS composite rating not lower than “3”, with Management component score not lower than “3” in the latest examination of the bank;
- d. Risk management system appropriate to its operations, characterized by clear delineation of responsibility for risk management, adequate risk measurement system, appropriately structured risk limits, effective internal control system and complete, timely and efficient risk reporting system;
- e. Articles of incorporation which shall include among its powers or purposes, the issuance of foreign LCs and payment/acceptance/negotiation of import/export drafts/bills of exchange (which may be submitted any time prior to engaging in said activities);
- f. Correspondent banking relationship or arrangement with reputable foreign banks (which should be in place prior to engaging in said activities);
- g. Appointment of the officer with actual experience of at least two (2) years as in-charge or at least as assistant in-charge of import and export financing operations in a UB/KB who will be in-charge of the said operations (prior to engaging in said activities);
- h. Appointment of bank personnel with actual experience and/or specific training in import and export financing operations who will handle the said operations (prior to engaging in said activities);
- i. No net weekly regular and liquidity reserve deficiencies during the twelve (12) week period immediately preceding the date of application;
- j. No deficiency in asset and liquid asset cover for FCDU liabilities for three (3) months immediately preceding the date of application;
- k. No deficiency in liquidity floor requirement for government funds held during the twelve (12)- week period immediately preceding the date of application;
- l. No float items outstanding for more than sixty (60) calendar days in the “Due From/To Head Office/Branches/Offices” and “Due from Bangko Sentral” accounts exceeding one percent (1%) of the total resources as of end of month preceding the date of application;
- m. No unbooked allowance for credit losses;
- n. Compliant with ceilings on loans, other credit accommodations and guarantees to directors, officers, stockholders, and their related interests (DOSRI) for the quarter immediately preceding the date of application;
- o. Compliant with the single borrower’s limit (SBL);
- p. Compliant with the limit on real estate and improvements, including bank equipment;
- q. No uncorrected findings of unsafe or unsound banking;
- r. Generally compliant with banking laws, rules and regulations, orders or instructions of the Monetary Board and/or Bangko Sentral Management; and
- s. No past due obligations with the Bangko Sentral or with any FI.

Application for authority of TB to issue foreign letters of credit and pay/accept/negotiate import/export drafts/bills of exchange. An application for authority to issue foreign LCs and pay/accept/negotiate import/export draft bills of exchange shall be signed by the president of the bank or officer of equivalent rank and shall be accompanied by a certified true copy of the resolution of the bank’s board of directors authorizing the application.

102 BASIC GUIDELINES IN ESTABLISHING DOMESTIC BANKS

A new banking organization must have suitable/fit shareholders, including the ultimate beneficial owners (UBOs)¹ adequate financial strength, a legal structure in line with its operational structure, a board of directors and senior management with sufficient expertise and integrity to operate the bank in a safe and sound manner.

In establishing a new banking organization, the documentary requirements to be submitted to the Bangko Sentral are listed in *Appendix 33*. In the case of foreign bank applicants, the documentary requirements to be submitted during Stage 1 of the application process are enumerated in *Appendix 2*.

The revised rules and regulations governing the organization, membership, establishment, administration, activities, supervision and regulation of cooperative banks are found in *Appendix 34*.

The authority to establish a bank shall be automatically revoked if the bank is not organized and opened for business within one (1) year from receipt by the organizers of the notice of Monetary Board approval of the application.

Such authority may likewise be revoked if the Bangko Sentral has determined that the organizers provided false or misleading information during the processing of the application. Organizers of a bank found to have willfully certified or provided such false or misleading information shall be subject to the applicable administrative sanctions under Section 37 of Republic Act (R.A.) No. 7633, as amended. The imposition of the said administrative sanctions is without prejudice to the filing of appropriate criminal charges as provided under Sections 35 and 36 of R.A. No. 7653, as amended.

Prerequisites for the grant of a universal banking authority

- a. *Compliance with guidelines.* A domestic bank seeking authority to operate as a UB shall submit an application to the appropriate supervising department of the Bangko Sentral. The applicant shall comply with the guidelines for the issuance of a UB authority and shall submit all the documentary requirements enumerated in *Appendix 1*.
- b. *Public offering of bank shares.* A domestic bank applying for a UB authority shall, as a condition to the approval of its application, conduct a public offering of its shares in accordance with the rules of the Securities and Exchange Commission (SEC) on minimum public ownership (MPO) and the listing rules of the Philippine Stock Exchange (PSE).

A bank whose shares of stock are already listed in the PSE at the time of filing of its application for UB authority must submit to the appropriate supervising department of the Bangko Sentral a certification signed by the president or officer of equivalent rank and the chief compliance officer that the bank has complied with the MPO requirement of the SEC.

- c. *Listing of bank shares in the stock exchange.* Domestic banks granted a UB authority must list their shares in the PSE within one (1) year from the date the authority to operate as a UB was granted.

The guidelines on public offering and listing of bank shares are enumerated in *Appendix 1*.

- d. *Supervisory enforcement actions.* Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in these guidelines and bring about timely corrective actions.

Establishment of new domestic banks. There shall be a moratorium on the establishment of new domestic banks, except as follows: (i) graft of new universal/commercial banking license in connection with the upgrading of an existing thrift bank under Phase 1, and (ii) establishment of new banks in cities or municipalities where there are no existing banking offices, both of which shall comply with the required minimum capitalization under Sec. 121 and other qualification requirements prescribed under existing regulations.

The moratorium on the establishment of new domestic banks shall be fully lifted and locational restrictions shall be fully liberalized under Phase 2 starting 01 January 2018.

Establishment of IBs and Islamic banking units

Policy Statement. The Bangko Sentral recognizes the importance of Islamic banking as an alternative business model to promote its financial inclusion agenda. In this respect, the Bangko Sentral aims to promote an Islamic banking system that can operate alongside the conventional banking system, and an open approach where conventional banks operate Islamic banking units.

The following minimum prudential requirements and the guidelines under *Appendix 139* are hereby adopted:

- a. *Organizational Structure.* With prior approval of the Bangko Sentral, the establishment of the following entities or units may be allowed:

¹ For purposes of this Section, a UBO shall refer to beneficial owner as defined under Item "m" of Sec. 904.

- (1) Domestic Islamic banks;
 - (2) Foreign Islamic banks¹; and
 - (3) Islamic banking units (IBU) in the form of a division, department, office, or branch of a conventional bank.
- b. *Stockholding limits.* The stockholdings limits prescribed for the establishment of a UB under Sec. 122 shall apply to an IB.
 - c. *Capitalization.* The minimum capitalization requirements for a UB shall apply to an IB or conventional bank with IBU. IBs may take the necessary steps to have their shares of stock listed in any duly registered stock exchange.
 - d. *Governance.* A Shari’ah governance framework must be in place to ensure that the IB or IBU adheres to Shari’ah principles. The said framework must include a Shari’ah Advisory Council composed of persons who are competent in the field of Shari’ah and banking, finance, law or such other related disciplines.

Establishment of digital banks.

Policy Statement. The Bangko Sentral recognizes the role of digital platforms in driving greater efficiency in the delivery of financial products and services and in expanding reach into the unserved and underserved market segments. In this light, the Bangko Sentral endeavors to promote an enabling regulatory environment that allows responsible innovation to flourish, promotes cyber resilience, and contributes to advancing the digitalization of the financial industry. Towards this end, the Bangko Sentral has developed a framework for “digital banks” as a distinct classification of banks.

The Bangko Sentral is cognizant that the adoption of a digital banking business model should be underpinned by sound digital governance, robust, secure and resilient technology infrastructure, and effective data management strategy and practices. Digital banks are exposed to the same set of risks identified in the Bangko Sentral Risk Management Framework; thus, are expected to have effective governance structures and risk management processes that appropriately identify, measure, monitor and control the risks attendant to its business model, strategies, processes and products. In this respect, digital banks shall be subject to the same standards on corporate governance, risk management, compliance, internal control and audit, and reporting governance, among others, that are applicable to other bank categories.

The following guidelines shall govern the establishment of digital banks:

- a. *Definition.* A digital bank offers financial products and services that are processed end-to-end through a digital platform and/or electronic channels with no physical branch/sub-branch or branch-lite unit offering financial products and services.
- b. *Capitalization.* The minimum capitalization of digital banks shall be P1.0 billion.
- c. *Conduct of business.* A digital bank shall be subject to the prudential requirements set out by the Bangko Sentral including corporate governance and risk management, particularly on information technology and cyber security, outsourcing, consumer protection and anti-money laundering (AML) and combating the financing of terrorism (CFT), as provided under existing regulations.
- d. *Physical touchpoints.* Digital banks shall be required to maintain a principal/head office in the Philippines to serve as the main point of contact for stakeholders, including the Bangko Sentral and other regulators. The registered principal/head office of the digital bank shall house the offices of management and other support operations. It may also serve as the central hub for receiving and resolving customer complaints.
Digital banks may offer financial products and services through cash agents and other qualified service providers subject to the guidelines provided under Secs. 275 and 112, respectively.

The application and documentary requirements for the establishment of digital banks are provided under Appendix 33.

Transitory Provision. Existing banks may apply for conversion to a digital bank. The Bangko Sentral may likewise require banks that already meet the definition of a digital bank under this Section to convert their existing banking license to digital banking license. Said banks shall comply with the applicable requirements for a digital bank and submit an acceptable plan which shall address how the transition to a digital bank shall be managed.

Existing banks converting to digital banks shall be given a period of three (3) years from approval of the Monetary Board within which to meet the minimum capital requirement and implement the transition plan, including divestment or closure of branches or branch lite units. In the case of an existing bank with up to sixty percent (60%) of its voting stock held by a foreign individual or non-bank corporation, such stockholding may be retained or reduced, but once reduced, shall not be increased thereafter beyond forty percent (40%) of the voting stock.

¹ Although this pertains to the establishment of new domestic banks, foreign Islamic banks are mentioned because the establishment thereof is subject to the same requirements as that of domestic Islamic banks.

Upon receipt of notice of approval of conversion, the bank shall no longer engage nor renew transactions under authorities not associated with those allowed for a digital bank. Within six (6) months from date of receipt of notice of approval of its application for conversion, the bank shall (1) phase-out all inherent powers and activities under special authorities not normally associated to a digital bank; and (2) submit the pertinent amended Articles of Incorporation and By-Laws duly registered with the Securities and Exchange Commission (SEC).

The bank shall start operation as a digital bank after approval by the SEC of the bank's amended Articles of Incorporation and By-Laws, compliance with all the conditions of approval of the conversion, and issuance by the Bangko Sentral of a Certificate of Authority to Operate.

Failure to comply with these requirements shall subject the bank to the appropriate enforcement action provided under Section 002.

The Monetary Board may limit the total number of digital banks that may be established taking into account the total number of applications received and the assessment of the overall banking situation.

Establishment of microfinance-oriented banks. A *microfinance-oriented bank* is a bank that provides financial service and caters primarily to the credit need of the basic or disadvantaged sectors such as farmers, peasants, artisanal fisherfolk, workers in the formal sector and migrant workers, workers in the informal sectors, indigenous peoples and cultural communities, women, differently-abled persons, senior citizens, victims of calamities and disasters, youth and students, children, urban poor and low income households for their microenterprises and small businesses so as to enable them to raise their income levels and improve their living standards. Microfinance loans are granted on the basis of the borrower's cash flow and are typically unsecured.

The guidelines on the establishment of a microfinance-oriented bank are as follows:

- a. Microfinance-oriented banks may be established on a very selective basis, preferably in places not fully served by existing RBs or in areas not fully serviced by microfinance-oriented banks, subject to the following additional criteria (in addition to standard licensing requirements):
 - (1) That the microfinance-oriented bank to be established shall either be a TB or an RB;
 - (2) That the capital of the microfinance-oriented banks to be established should be owned by private persons, multilateral entities or a combination thereof;
 - (3) That the minimum paid-in capital of microfinance-oriented banks shall be the applicable capitalization requirement under Sec. 121;
 - (4) That the organizers must have the capacity to engage in microfinancing, which may be indicated by the following:
 - (a) At least twenty percent (20%) of the paid-in capital of the proposed bank must be owned by persons or entities with track record in microfinancing.
 - (b) Majority of the members of the board of directors have experience in microfinancing with at least one (1) member having actual banking experience.
 - (c) The proposed bank must have as a minimum, an adequate loan tracking system that allows daily monitoring of loan releases, collection and arrearages, and any restructuring and refinancing.
 - (5) In addition to the requirements for the establishment of banks in *Appendix 33*, the application for authority to establish a microfinance-oriented bank must be accompanied by the following documents:
 - (a) A vision and mission statement with clear expression of the commitment to reach low-income clients
 - (b) A written manual of operations, which shall include the administrative and credit program systems and procedures.

The Manual must be consistent with the core principles, characteristics and features of microfinance indicated in Sec. 314.

- (6) At least fifty percent (50%) of the bank's gross loan portfolio shall at all times consist of microfinance loans as defined in Sec. 314.
- b. The requirement that the president, chief operating officer or general manager of a TB or RB must have at least two (2) year experience in banking and/or finance may be substituted with microfinance experience in cases of officers of a microfinance organization applying for authority to establish, or convert into a TB or RB: *Provided*, That the officer concerned is a college graduate.
- c. Subject to the standard branching requirements under Sec. 105 and minimum capital requirements under Sec. 121, microfinance-oriented banks may apply for establishment of a branch after one (1) year of profitable operations.
- d. Existing non-bank microfinance organizations applying for authority to establish, or convert into a microfinance-oriented TB or RB may also be allowed to convert their existing branches/offices into branches of the bank

proposed to be established by simultaneously applying for authority for the purpose.

However, the standard requirements for the establishment of branches and the minimum capitalization requirement, have to be complied with. Moreover, there must be a proof that the area is not fully served by any existing RB.

Conditions for the grant of authority to convert into a lower category.

- a. That the bank must have complied with the minimum capital requirement and other laws/regulations applicable to the lower bank category into which it is converting. For this purpose, the term “*capital*” shall be as defined under Sec. 121;
- b. That the bank immediately upon receipt of notice of approval of conversion shall not engage in nor renew transactions under authorities not associated with those allowed for the lower bank category into which it is converting and within six (6) months from date of receipt of notice of approval of its application for conversion, the bank shall phase-out all inherent powers and activities under special authorities not normally associated to the lower bank category into which it is converting: *Provided*, That a TB (previously authorized by the Monetary Board to accept demand deposits) may be allowed to retain such authority when converting into an RB but may clear checks only through a correspondent bank and shall not be allowed to participate directly in the Philippine Clearing House Corporation (PCHC) and the Bangko Sentral check clearing operations: *Provided, further*, That for failure to comply with these requirements, the following monetary and non-monetary penalties shall be imposed reckoned from the set deadline until the bank has fully complied with the said requirements.

(1) Monetary penalties

From UB to KB	P30,000/day
From KB to TB	P15,000/day
From TB to RB	
Within Metro Manila	P5,000/day
Outside Metro Manila	P500/day

(2) Non-monetary penalties

- (a) Suspension of branching privileges;
 - (b) Suspension of declaration of cash dividends;
 - (c) Restriction on lending to affiliates;
 - (d) Denial of access to Bangko Sentral rediscounting facilities;
 - (e) Suspension of authority to accept or handle government deposits;
 - (f) Suspension of authority to engage in derivatives activities (for a UB converting into a KB); and
 - (g) Suspension of authority to invest in allied undertakings.
- c. That a bank which has not corrected as of date of application the major findings/violations noted in its latest examination shall submit upon application a Memorandum of Understanding that it shall correct the same within a period of six (6) months from date of receipt of notice of approval of its application, otherwise, the same monetary and non-monetary penalties mentioned in Item “b” above shall be imposed;
- d. That the bank shall submit the pertinent amended Articles of Incorporation and By-Laws duly registered with the SEC within six (6) months from date of receipt of notice of approval of its application;
- e. That the bank shall fully disclose its new status in its signage, financial statements and stationeries; and
- f. That the bank shall start operation in the lower category into which it is converting after approval by the SEC of the bank’s amended Articles of Incorporation and By-Laws, its compliance with all the conditions of approval of the conversion and the issuance by the Bangko Sentral of a certificate of authority to operate.

Conversion of microfinance-oriented thrift banks/rural banks

- a. Microfinance-oriented TBs and RBs are allowed to convert to regular TBs and RBs: *Provided*, That they have complied with all the requirements for a regular TB/RB license and subject to the submission of the following:
 - (1) Certification signed by the president or officer of equivalent rank stating that the allocation of at least fifty percent (50%) of the gross loan portfolio to microfinance is no longer feasible due to changes in market condition. The certification shall be supported by:
 - (a) a market study citing, among others, changes in demographic, social, and economic factors; and
 - (b) strategic plan and business strategy contemplating the conversion to a regular bank; and

- (2) Certified true copy of the resolution of the bank's stockholders and board of directors authorizing the conversion of the microfinance-oriented bank into a regular bank. The bank must also change its business name to reflect its reclassification to a regular bank.
- b. Microfinance-oriented branches may convert into regular branches subject to the submission of the following:
- (1) Certification signed by the president or officer of equivalent rank that:
 - (a) At least seventy percent (70%) of deposits generated by the branch shall be lent out to microfinance borrowers; and
 - (b) The allocation of at least fifty percent (50%) of the gross loan portfolio are no longer feasible due to changes in market condition in the locality where it is located. The certification shall be supported by a market study citing, among others, changes in demographic, social, and economic factors; and
 - (2) Certified true copy of the resolution of the bank's board of directors authorizing the conversion of the microfinance-oriented branch into a regular branch.

Application and license fees for new domestic banks. Applications for new domestic banking licenses, except for applications to establish a bank with head office located in cities or municipalities where there are no existing banking offices as well as to merge and acquire a distressed bank, shall be subject to both application and license fees below:

Bank Category	Application Fee	License Fee
	(in Million Pesos)	
Universal Banks	0.500	25.000
Commercial Banks	0.400	20.000
Digital Banks	0.250	12.500
Thrift Banks		
-Head Office in National Capital Region (NCR)	0.100	5.000
-Head Office in All Other Areas Outside NCR	0.040	2.000
Rural and Cooperative Banks		
-Head Office in NCR	0.010	0.500
-Head Office in All Other Areas Outside NCR (All Cities up to 3rd class municipalities)	0.004	0.200
-Head Office in All Other Areas Outside NCR (4th class to 6th class municipalities)	0.002	0.100

The application fee shall be non-refundable and shall be paid upon filing of the written application to establish a bank. The license fee, net of the application fee, shall be paid after the Monetary Board has approved said application.

The aforementioned fees shall also apply to existing domestic and foreign banks¹ that are upgrading to the next higher bank category.

Certificate of authority to register². The SEC shall not register the articles of incorporation and by-laws of any bank, or any amendment thereto, unless accompanied by a certificate of authority issued by the Bangko Sentral, under its seal. The certificate shall not be issued unless the Monetary Board is satisfied from the evidence submitted that:

- a. All requirements of existing laws and regulations to engage in the business for which the applicant is proposed to be incorporated have been complied with;
- b. The public interest and economic conditions, both general and local, justify the authorization; and
- c. The amount of capital, the financing, organization, direction and administration, as well as the integrity and responsibility of the organizers and administrators reasonably assure the safety of deposits and the public interest.

Business name³

- a. **UBs/KBs.** Only a bank that is granted universal/commercial banking authority may represent itself to the public as such in connection with its business name.

¹ This excludes foreign banks established after the effectivity of R.A. No. 10641 (An Act Allowing the Full Entry of Foreign Banks in the Philippines, Amending the Purpose of R.A. No. 7721).

² See SEC Circular No. 3 dated 16 February 2006.

³ See SEC Circular Nos. 5 dated 17 July 2008 and 14 October 2000, and DTI Administrative Order No. 1008 effective 10 October 2010.

- b. *TBs.* TBs may be allowed to adopt and use any name: *Provided*, That the words *A Thrift Bank, A Savings Bank, A Private Development Bank or A Stock Savings and Loan Association*, as the case may be, are affixed after its business name.
- c. *RBs/Coop Banks.* RBs/Coop Banks may adopt a corporate name or use a business name/style with the word *Rural* or *Coop*, as the case may be. Said banks may also adopt a name without such words: *Provided*, That the identifying phrase, *A Cooperative Bank* or *A Rural Bank*, as the case may be, is affixed after its business name: *Provided, further*, That where the name of the bank is shown on letterheads, billboards and other advertising materials, the size of the letters of such phrase shall be at least one-half (½) the size of the business name.
- d. *Digital Banks.* Only a bank that is granted a digital banking license may represent itself to the public as such in connection with its business name.

Subject to prior approval of the Bangko Sentral, a TB, RB or Coop Bank may apply to be exempted from the general requirements under Items “b” and “c” above: *Provided*, That the applicant TB, RB or Coop Bank shows compliance with the following conditions:

- (1) The new business name of the bank must reasonably describe the business activities that the bank is engaged in.
- (2) The business name should not mislead, misrepresent or give a false impression to the public with respect to the banking category of a bank, the location/s and clientele it serves, as well as the products and services that the applicant bank is authorized to offer to the public.
- (3) The applicant bank shall not use a business name that is identical, deceptive or confusingly similar with existing corporate names, in accordance with existing applicable laws, rules and regulations governing the use of corporate names pursuant to the provisions of the Corporation Code of the Philippines.
- (4) The applicant bank must meet the minimum capitalization requirements applicable at the time of filing of its application to change its business name.
- (5) The applicant bank must not have any major supervisory concern/s that threaten its solvency or liquidity, as determined by the appropriate supervising department/s of the Bangko Sentral.
- (6) Other conditions which the Bangko Sentral may deem necessary or as may be warranted by the attendant circumstances in order to protect the public interest.

The application of a TB, RB or Coop Bank for exemption from the general requirements on the use of name under Items “b” and “c” above shall be supported by the following:

- (1) Application letter signed by the president or officer of equivalent rank indicating the justification for the request;
- (2) Notarized secretary’s certificate on the resolution of the bank’s board of directors authorizing the request for exemption;
- (3) Certification signed by the president or the officer of equivalent rank that the bank has complied with all the conditions for the said application; and
- (4) Such other documents as may be required by the Bangko Sentral.

Bank advertisements. The following rules and regulations shall govern bank advertisements.

- a. No bank shall publish, issue or distribute in any form, any advertisement that shall degrade, deprecate or otherwise prejudice other banking and financial institutions.
- b. No bank shall publish, issue or distribute in any form of advertisement (in newspapers, magazines, television, radio, billboards, brochures, prospectuses, or any other medium) or allow itself to be used/mentioned in any form of advertisement unless such advertisement is in pursuance of its business or investment.
- c. No bank shall place or cause to be placed any advertisement tending to mislead a depositor into believing that he will get more in benefits than what the bank is legally authorized to give. No bank advertisement shall contain any false claim or exaggerated representation as to its liquidity, solvency, resources, deposits and banking services.
- d. No bank advertisement shall give the impression that the bank is engaged in a business other than banking.
- e. Banks shall inform their depositors and other clients by advertisement or publication of the termination of benefits previously advertised or publicized.
- f. Banks shall discontinue any advertisement whenever the same is deemed unethical/unwarranted or violative of the provisions of these regulations. The client banks and/or their advertising agencies shall incorporate in their contract/agreement for time and space with media the condition that such contract/agreement for time and space can be cancelled/terminated immediately whenever the client bank is directed by the Bangko Sentral to desist or

- discontinue a particular advertisement in question.
- g. Responsibility for compliance with the above rules and regulations rests with the bank officers and/or directors who caused the approval or placement of such advertisement.

(Circular Nos. 1105 dated 02 December 2020, 1069 dated 27 December 2019, 1060 dated 15 November 2019, 932 dated 16 December 2016, 929 dated 28 October 2016, 902 dated 15 February 2016, and 872 dated 13 March 2015)

103 LIBERALIZED ENTRY AND SCOPE OF OPERATIONS OF FOREIGN BANKS

The following rules shall govern the liberalized entry and scope of operation of foreign banks.

Modes of entry of foreign banks. With prior approval of the Monetary Board, foreign banks may operate in the Philippines through any one (1) of the following modes:

- a. By acquiring, purchasing or owning up to 100% of the voting stock of an existing domestic bank (including banks under receivership or liquidation, provided no final court liquidation order has been issued);
- b. By investing in up to 100% of the voting stock of a new banking subsidiary incorporated under the laws of the Philippines; or
- c. By establishing a branch and sub-branches with full banking authority.

Interested foreign banks shall file with the Bangko Sentral their application for authority to operate in the Philippines through any of the modes of entry mentioned above. The application requirements are listed in *Appendix 2*.

Qualification requirements. A foreign bank seeking to operate in the Philippines through any of the modes of entry provided under Items “a” to “c” under this Section on Modes of entry of foreign banks must, in addition to satisfying the criteria prescribed under this Section on Guidelines for selection, be –

- a. Widely-owned and publicly-listed in the country of origin, unless the foreign bank applicant is owned and controlled by the government of its country of origin; and
- b. Established, reputable and financially sound.

The determination of whether a foreign bank applicant is widely-owned and publicly listed, established, reputable, and financially sound shall be based on the information derived from submitted documents as required under *Appendix 2*. Further, if the foreign bank is owned/controlled by a holding company, this requirement may apply to the holding company.

Guidelines for selection. The following factors shall be considered in selecting the foreign banks which will be allowed to enter the Philippine banking system through R.A. No. 7721, as amended by R.A. No. 10641:

- a. *Geographic representation and complementation.* Representation from the different parts of the world and/or the international financial centers shall be ensured.
- b. *Strategic trade and investment relationships between the Philippines and the home country of the foreign bank.* Consideration shall be given to the countries of origin of applicant foreign banks –
 - (1) With substantial financial assistance to, and loans and investments, past and present, in the Philippines; and
 - (2) With which the Philippines has significant volume of trade especially to those with which the country has substantial net exports.
- c. *Relationship between the applicant bank and the Philippines.* Consideration shall be given to the capability of the foreign bank to promote trade with, and to bring foreign investments into, the Philippines. Long standing financial and commercial relationship with, and assistance extended to, the Philippines, shall likewise be taken into account.
- d. *Demonstrated capacity, global reputation for financial innovations and stability in a competitive environment of the applicant bank.*
- e. *Reciprocity rights enjoyed by Philippine banks in the applicant’s country.* Subject to the host country’s rules and regulations of general application, Philippine banks should have the opportunity to establish operations in the foreign bank applicant’s home country.
- f. *Willingness to fully share banking technology.*

Capital requirements of foreign banks.

- a. *For locally incorporated subsidiaries.* A foreign bank subsidiary shall comply with the minimum capital and prudential capital ratios applicable to domestic banks of the same category as prescribed under prevailing regulations.
- b. *For foreign bank branches*

- (1) A foreign bank branch shall comply with the minimum capital and prudential capital ratios applicable to domestic banks of the same category as prescribed under prevailing regulations.
- (2) For purposes of compliance with minimum capital regulations, the term “*capital of a foreign bank branch*” shall refer to the sum of: (a) permanently assigned capital, (b) undivided profits, and (c) accumulated net earnings, which is composed of unremitted profits not yet cleared by the Bangko Sentral for outward remittance and losses in operations, net of applicable capital adjustments enumerated in Sec. 121.
- (3) Permanently assigned capital shall be inwardly remitted and converted into Philippine currency at the exchange rate prevailing at the time of remittance.
- (4) Any *Net due from* head office, branches and subsidiaries outside the Philippines, excluding accumulated net earnings, shall be deducted from capital.

For designated clearing and settlement banks, such Net Due from head office, branches and subsidiaries account shall also exclude deposits placed in the Head Office up to the extent of the deposits maintained by other resident banks in the designated clearing and settlement bank relative to its function as clearing and settlement bank (as defined under Item “f” of Sec. 342 on *Transactions not covered*): *Provided*, That the designated clearing and settlement bank shall adopt appropriate control measures to ensure that such deposits placed in the Head Office are appropriately accounted for and segregated from the other items in the Due From Head Office/Branches/Agencies account.

- (5) For purposes of compliance with the SBL, the capital of a foreign bank branch, subject to prescribed adjustments, shall be synonymous to its “net worth”.

Transitory provision.

a. *Minimum capital of foreign banks.*

Minimum capital of foreign banks established in the Philippines prior to R.A. No. 10641 shall comply with the applicable minimum capital level requirement as prescribed under Sec. 121. Existing foreign banks that do not meet the minimum capital requirements shall submit an acceptable capital build-up program as required under Sec. 121.

b. *SBL*

- (1) Loans and credit commitments of foreign bank branches as of 07 August 2014 may be maintained, but once repaid or expired, shall no longer be increased in excess of the ceiling allowed under the succeeding paragraph.
- (2) Existing foreign bank branches shall be given until 31 December 2020 to use twice the level of capital as defined in this Section as net worth, as reference point for purposes of determining the appropriate SBL.

Risk-based capital for foreign bank branch

- a. Foreign bank branches shall comply with the same risk-based capital adequacy ratios applicable to domestic banks of the same category.
- b. In computing the risk-based capital adequacy ratios, Common Equity Tier 1 (CET1) capital shall include permanently assigned capital, undivided profits, accumulated net earnings and other capital components.
- c. Any *Net due from* head office, branches and subsidiaries outside the Philippines, excluding accumulated net earnings shall be deducted from CET1 capital.

For designated clearing and settlement banks, such Net Due from head office, branches and subsidiaries account shall also exclude deposits placed in the Head Office up to the extent of the deposits maintained by other resident banks in the designated clearing and settlement bank relative to its function as clearing and settlement bank: *Provided*, That the designated clearing and settlement bank shall adopt appropriate control measures to ensure that such deposits placed in the Head Office are appropriately accounted for and segregated from the other items in the Due From Head Office/Branches/Agencies account.

- d. The guidelines for computing the risk- based capital adequacy ratios are provided in *Appendix 67*.

Head Office guarantee. The head office of foreign bank branches shall guarantee prompt payment of all liabilities of its Philippine branches, as well as the observance of the constitutional rights of the employees of such branches.

Scope of authority for locally incorporated subsidiaries of foreign banks as well as branches with full banking authority. Subsidiaries and branches of foreign banks established under this Section on Modes of entry of foreign banks shall be allowed to perform the same functions and enjoy the same privileges of, and be subject to the same limitations imposed upon, a Philippine bank of the same category.

Privileges shall include the eligibility to operate under a universal banking authority subject to compliance with existing rules and regulations and the guidelines enumerated in *Appendix 3*.

Control of the resources of the banking system. The Monetary Board shall adopt such measures as may be necessary to ensure that at all times the control of sixty percent (60%) of the resources or assets of the entire banking system is held by domestic banks, which are majority-owned by Filipinos. Said measures may include –

- a. Suspension of entry of additional foreign bank subsidiaries and branches; and
- b. Suspension of license upgrade or conversion to subsidiary of existing foreign bank branches.

Other measures may also be considered: *Provided*, That such measures so adopted shall be consistent with R.A. No. 7721, as amended by R.A. No. 10641, and shall consider vested rights and the non-impairment of contracts.

Change from one mode of entry to another. Foreign banks which are operating in the Philippines may apply for conversion of their mode of entry.

The bank shall comply with all applicable requirements and submit an acceptable transition plan which shall address how the foreign bank shall implement the change in mode of entry.

Equal treatment. Any right, privilege or incentive granted to foreign banks or their subsidiaries or affiliates under R.A. No. 7721, as amended by R.A. No. 10641 shall be equally enjoyed by, and extended under the same conditions, to domestic banks.

(Circular Nos. 1107 Dated 23 December 2020, 1073 dated 10 February 2020, 1027 and dated 28 December 2018)

104 MERGERS AND ACQUISITIONS

The merger or consolidation of banks and other financial intermediary(ies) to meet minimum capital requirements shall be allowed subject to the following regulations.

For purposes of merger and consolidation, the following definitions shall apply:

- a. **Merger** - is the absorption of one (1) or more corporations by another existing corporation, which retains its identity and takes over the rights, privileges, franchises, and properties, and assumes all the liabilities and obligations of the absorbed corporation(s) in the same manner as if it had itself incurred such liabilities or obligations. The absorbing corporation continues its existence while the life or lives of the other corporation(s) is/are terminated.
- b. **Consolidation** - is the union of two (2) or more corporations into a single new corporation, called the consolidated corporation, all the constituent corporations thereby ceasing to exist as separate entities. The consolidated corporation shall thereupon and thereafter possess all the rights, privileges, immunities, franchises and properties, and assume all the liabilities and obligations of each of the constituent corporations in the same manner as if it had itself incurred such liabilities or obligations.

Requirement of Bangko Sentral approval. Mergers and consolidations including the terms and conditions thereof shall comply with the provisions of applicable law and are subject to approval by the Bangko Sentral.

The guidelines and procedures in the application for merger/consolidation as shown in *Appendix 90* shall be observed by banks.

Rules on exchange of shares. As a general rule, the ratio of exchange of shares between or among the participants in a bank merger or consolidation shall be based on mutual agreement of the parties concerned.

Merger or consolidation incentives. In pursuance of the policy to promote mergers and consolidations among banks and other financial intermediaries, as well as purchases or acquisitions of majority or all of the outstanding shares of stock of a bank/quasi-bank, as a means to develop larger and stronger FIs, constituent/participating entities may avail themselves of incentives or reliefs, subject to prior approval of the Monetary Board.

Consolidation Program for Rural Banks (CPRB). The CPRB aims to strengthen the rural banking industry, in recognition of the major role that RBs play in financial inclusion. It intends to promote mergers and consolidations among RBs to bring about a less fragmented banking system by enabling them to improve financial strength, enhance viability, strengthen management and governance and expand market reach, among others.

The CPRB shall be available for a period of two (2) years from the signing of the Memorandum of Agreement among the Bangko Sentral, the PDIC and the LBP. The eligibility of the merging or consolidating RBs to qualify under the CPRB as well as the incentives thereunder shall be governed by the CPRB Framework and its implementing guidelines as provided under *Appendix 118* and *Appendix 119*, respectively.

For proponent banks that wish to avail of the equity investment facility from the LBP under the program, their eligibility shall be subject to the guidelines on the LBP equity investment facility in *Annex A of Appendix 119*.

(Circular Nos. 1065 dated 03 December 2019, 917 dated 08 July 2016, 903 dated 29 February 2016, M-2015-043 dated 11 December 2015, CL-2015-067 dated 05 November 2015, Circular No. 890 dated 02 November 2015, CL-2015-050 dated 18 August 2015, CL-2015-029 dated 06 May 2015, and M-2015-008 dated 28 January 2015)

105 ESTABLISHMENT/RELOCATION/VOLUNTARY CLOSURE/SALE OF BRANCHES/BRANCH-LITE UNITS

The Bangko Sentral aims to promote greater access to efficient and competitive banking services through the adoption of proportionate regulatory framework that provides banks with flexibility to execute their strategies and enables them to innovate in line with their business model. This is premised on the expectation that banks have effective governance and risk management systems as well as adequate capital to support the implementation of their strategies.

Toward this end, the following guidelines shall govern the establishment, relocation, voluntary closure and sale of local branches/branch-lite units of domestic banks, including locally incorporated subsidiaries of foreign banks. The establishment of branches of foreign banks in the Philippines, on the other hand, shall continue to be governed by the provisions of Sec. 103 on liberalized entry and scope of operations of foreign banks and Sec. 106 on establishment of sub-branches of foreign bank branches.

For purposes of this Section, the following definitions shall apply:

A *branch* shall refer to any permanent office or place of business in the Philippines other than the head office where a bank may perform activities and provide products and services that are within the scope of its authority and relevant licenses. In this respect, a complete set of books and records shall be maintained in each branch.

A *branch-lite unit* shall refer to any permanent office or place of business of a bank, other than its head office or a branch. A branch-lite unit performs limited banking activities and records its transactions in the books of the head office or the branch to which it is annexed.

Allowable activities of a branch-lite unit. A branch-lite unit may perform activities and provide any of the products and services that a branch may perform or provide except those suited only to sophisticated clients with aggressive risk tolerance¹: *Provided*, That:

- a. The board of directors shall approve the defined range of activities and services that shall be carried out in a branch-lite unit consistent with the bank's business model in providing financial services to a specifically defined market or sector;
- b. The board of directors shall ensure that the branch-lite unit has adequate personnel, internal control measures, physical facilities, security arrangements and information systems commensurate with the extent of banking activities undertaken and services offered by the branch-lite unit;
- c. Management shall ensure that branch-lite units are considered in the bank's capital adequacy assessment and planning exercises considering the potentially high operational risk exposures of said units;
- d. Management shall ensure the timely accounting and reporting of activities and transactions of the branch-lite unit to the head office/branch to which it is annexed; and
- e. The bank's risk management system, compliance and internal audit programs shall cover the branch-lite unit.

Pre-requisites for the grant of authority to establish a branch/branch-lite unit. Banks may establish a branch or a branch-lite unit subject to the prudential criteria provided in Sec. 111. Any approved but unopened branch/es at the time of application shall be taken into account in determining compliance with the minimum capitalization requirement. No bank operating in the Philippines shall establish a branch or a branch-lite unit or transact business outside the premises of its duly authorized principal office or head office without prior approval of the Bangko Sentral.

Application for authority to establish a branch/branch-lite unit. Banks seeking to establish branch or branch-lite unit shall submit the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Application letter signed by the president or officer of equivalent rank of the bank which shall indicate the number of branch/es or branch-lite unit/s to be established and their proposed location/s. In this respect, application for the establishment of branch-lite unit/s shall include the range of activities that will be performed and services that will be offered by the branch-lite unit to a specifically defined market or sector;
- b. Secretary's Certificate which indicates the approval of the bank's board of directors of the establishment of branch/es or branch-lite units; and

¹ As described under Sec. 612 (*Client suitability guidelines*)

- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer that the bank is compliant with the pre-requisites for the grant of authority to establish branch/es or branch-lite units provided under this Section (*Pre-requisites for the grant of authority to establish a branch/ branch-lite unit*).

The foregoing regulations shall also apply to bank's application to convert a branch-lite unit into a branch.

Location of branches/branch-lite units. As a general rule, banks shall be allowed to establish branch/es or branch-lite units anywhere in the Philippines, including in cities previously considered as restricted areas¹: *Provided*, That, if TBs/RBs will establish branches in cities/municipalities of a higher classification than their head office, the applicable minimum required capital under Sec. 121 shall be increased to that of the city/municipality of the higher classification, regardless of where the head office is located.

In addition, the following guidelines shall apply to Coop Banks:

- a. The Coop Bank of the province may set up branches/branch-lite units anywhere within the province subject to compliance with the applicable branching rules and regulations as provided in Sec. 105.
- b. Coop Banks from other provinces may set up branches/branch-lite units in cities or municipalities of another province where there are no other Coop Bank head office/branch/branch-lite units.

Processing fee

Upon filing of an application for establishment of branches/branch-lite unit/s, the bank shall pay the total processing fee computed for all branches/branch-lite units applied for in accordance with the following:

Banking Unit and Bank Category	Processing Fee Per Branch/Branch-lite Unit	
	Metro Manila, cities of Cebu and Davao, All Other Cities, 1st to 2nd Class Municipalities	3 rd to 6 th Class Municipalities
a. Branch		
(1) UBs/KBs/Affiliated TBs	P200,000	P100,000
(2) Non-affiliated TBs	100,000	50,000
(3) RBs/Coop Banks	25,000	12,500
b. Branch-lite unit	10,000	5,000

Provided, That branches/branch-lite units to be established in unbanked cities and municipalities shall be exempted from the processing fee.

The above processing fees shall also apply in cases of:

- a. Relocation to cities/municipalities of a higher classification of (i) approved but unopened branches/branch-lite units under this Section on Opening of branches/branch-lite units; (ii) existing branches/branch-lite units under this Section on Relocation of branches/branch-lite units; and (iii) head office under this Section on Relocation of Head Offices.
- b. Acquisition of existing branches/branch-lite units into branches; and
- c. Conversion of branch-lite into branches; and
- d. Establishment of sub-branches of foreign bank branches under Sec. 106.

Opening of branches/branch-lite units. Approved branches/branch-lite units shall be opened, as follows:

Approved branches/branch-lite units shall be opened, within one (1) year from the date of approval thereof, subject to extension on a case by case basis: *Provided*, That the entire period from date of approval of the establishment of the branch/branch-lite unit up to the requested extension shall not exceed three (3) years².

The opening of approved branches/branch-lite units may, however, be suspended or revoked by the appropriate supervising department of the Bangko Sentral upon approval of the Deputy Governor, should any of the following conditions be found to exist:

- a. The bank's capital as required under Sec. 121 is no longer sufficient to support the remaining unopened branches;

¹ Refer to the cities of Makati, Mandaluyong, Manila, Paranaque, Pasay, Quezon, and San Juan. The branching restriction in these areas was fully lifted effective on 1 July 2014.

² Branch applications that have been approved prior to 7 January 2017 shall be allowed to open the corresponding branches within three (3) years from date of approval.

- b. The bank or any of its subsidiary bank is initiated under PCA or is under condition/s subject to PCA or if already under PCA, continuously fails to comply with the MOU/PCA plan (PCAP), except, if such branches/branch-lite units are critical elements of the MOU/PCAP or shall support the fulfillment of the MOU/PCAP;
- c. The bank has major supervisory concerns outstanding on safety and soundness.

Relocation of approved but not yet opened branches/branch-lite units may be allowed subject to notification to the Bangko Sentral and continuing compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*). For this purpose, banks shall submit the following documents, within 10 banking days from the approval of the board of directors of the relocation, to the appropriate supervising department of the Bangko Sentral:

- a. Notification letter signed by the president or officer of equivalent rank indicating the rationale for relocation;
- b. Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) to relocate approved but unopened branches/branch-lite units;
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer of the bank's continuing compliance with all the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) and other pertinent banking laws, rules and regulations; and
- d. Authorization to debit their demand deposit accounts for the applicable processing fee under Sec. 105 (*Processing and special licensing fee*) in case of relocation to cities/municipalities of a higher classification.

The opening of the relocated branch/branch-lite unit shall be made within the prescribed period mentioned above from date of approval of its establishment.

As an incentive to merger/consolidation of banks or purchase/acquisition of majority or all of the outstanding shares of stock of a distressed bank for the purpose of rehabilitating the same, opening or relocation of approved but not yet opened branches/branch-lite units may be allowed within two (2) years from date of merger/consolidation or purchase/acquisition of majority or all of the outstanding shares of stock of a distressed bank for the purpose of rehabilitating the same.

Requirements for opening a branch/branch-lite unit. Not later than five (5) banking days from the date of opening, the bank, through its chief compliance officer and the head of the branch banking operations, shall:

- a. Notify in writing the appropriate supervising department of the Bangko Sentral of the actual date of opening of the branch/branch-lite unit;
- b. Submit a certification on compliance with the following, as applicable:
 - (1) Adequacy of personnel, internal control measures, physical facilities, information systems and security arrangements, including the installation of security devices and accessibility to persons with disability as required under Sec. 147 (*Minimum security measures*) and 109 (*Batas Pambansa Blg. 344 – An Act to Enhance the Mobility of Disabled Persons by Requiring Certain Buildings, Institutions, Establishments, and Public Utilities to Install Facilities and Other Devices*), respectively;
 - (2) Posting in conspicuous places in the premises of the branch/branch-lite unit of the required notices, schedules and other relevant information pertaining to lending and deposit operations activities;
 - (3) Availability of efficient means of accounting and reporting as well as communication facilities (to be specified) between the head office, branches, and branch-lite units; and
 - (4) The requirements enumerated under this Section on Pre-requisites for the grant of authority to establish a branch/branch-lite unit as of the time of actual opening.

A bank that fails to comply with any of the requirements under this Section on the pre-requisites for the grant of authority to establish a branch/branch-lite unit as of the date of the intended opening of the branch/branch-lite unit shall refrain from opening the branch/branch-lite unit on such date until it has complied with all the requirements under this Section on Pre-requisites for the grant of authority to establish a branch/branch-lite unit: *Provided*, That the provisions under this Section on Opening of branches/branch-lite units on the date of opening of branch/branch-lite unit shall be observed; and

- c. In the case of microfinance-oriented branch, certify that the branch has:
 - (1) a manual of operations on microfinancing duly approved by the bank's board of directors;
 - (2) an adequate loan tracking system that allows daily monitoring of loan releases, collections and arrearages, and any restructuring and refinancing arrangements;

- (3) is managed by a person with adequate experience in microfinancing activities; and
- (4) at least seventy percent (70%) of deposits lent out to qualified microfinance, including Barangay Micro Business Enterprises (BMBE) borrowers, and the microfinance/BMBE loans of said branch shall at all times be at least fifty percent (50%) of its gross loan portfolio.

Relocation of branches/branch-lite units.¹ Relocation of existing branches/branch-lite units, whether to be opened at the new site on the next banking day or within one (1) year from the date of closure of the branch/branch-lite unit, may be allowed subject to continuing compliance with the prudential criteria prescribed under Sec. 111 (*Prudential criteria*), and in accordance with the following procedures:

- a. A notice of relocation of branch/branch-lite unit signed by the president or officer of equivalent rank, together with a corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the said relocation, certification signed by the president or officer of equivalent rank and the chief compliance officer of the bank's continuing compliance with all the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) and other pertinent banking laws, rules and regulations, and an undertaking that the bank shall comply with the notification requirement under Item "b" below, shall be submitted by the bank to the appropriate supervising department of the Bangko Sentral within 10 banking days from the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the relocation. The notice shall include information as to the new relocation site, the timetable for said relocation, and the branch/branch-lite unit that will handle the transactions of the branch/branch-lite unit to be relocated, as may be applicable.
- b. Notice of relocation shall be sent by the bank to the depositors' and other creditors' last known addresses by registered mail service of the Philippine Postal Corporation (Philpost) or delivery service of other mail couriers or electronic mail, and posters shall also be displayed in conspicuous places in the premises of the branch/branch-lite unit to be relocated at least forty-five (45) calendar days prior to the closure of the branch/branch-lite unit to be relocated. Information as to the new relocation site, the date of the opening at the new site, and the address of the branch/branch-lite unit that will handle the transactions of the branch/branch-lite unit to be relocated, as may be applicable, shall be indicated in the said notice/posters. Proofs of receipt of notice by the depositors and the creditors shall be kept on file and made available upon request of the Bangko Sentral;
- c. Within five (5) banking days from the date of closure of the branch/branch-lite unit to be relocated, a notice of such closure signed by the Chief Compliance Officer (CCO) and the head of the branches department with the rank of a vice president or equivalent rank or by a higher ranking officer, together with a certification that the notification requirement in Item "b" above has been complied with and, for branches/branch-lite units that will be opened at the new site beyond the next banking day, an undertaking that the branch/branch-lite unit shall be opened at the new site within one (1) year from the date of such closure shall be submitted to the appropriate supervising department of the Bangko Sentral;
- d. Within five (5) banking days from the date of opening of the relocated branch/branch-lite unit, a notice of such opening, together with a certification signed by the CCO and the head of the branches department with the rank of a vice president or its equivalent rank or by a higher ranking officer that the bank has complied with Items "b" and "c" under this Section on Requirements for opening a branch/branch-lite unit shall be submitted to the appropriate supervising department of the Bangko Sentral. Information as to the site of the branch/branch-lite unit that was closed and the date of such closure, as well as the site of the branch/branch-lite unit that was opened and the date of such opening shall be indicated in the said notice;
- e. Branches/branch-lite units may be relocated anywhere subject to applicable processing fee under Sec. 105 (*Processing and special licensing fee*). In this respect, in addition to item "a" above, banks shall submit an authorization to debit their demand deposit accounts for the processing fee; and
- f. Relocation of branch/branch-lite unit beyond one (1) year from the date of closure shall be deemed as permanent closure and surrender of license of the branch/branch-lite unit at the old site, and the opening of a branch/branch-lite unit at the new site shall be deemed as an establishment of a new branch/branch-lite unit subject to the provisions of this Section on Pre-requisites for the grant of authority to establish a branch/branch-lite unit.

Temporary closure², permanent closure and surrender of branch/branch-lite unit license, and sale/acquisition of branches/branch-lite units.

- a. *Temporary closure of existing branches/branch-lite units.*

Temporary closure of existing branches/branch-lite units for the purpose of undertaking renovations/major

¹ With additional special regulatory relief in areas affected by Tropical Depression "Yolanda" as provided under Appendix 93 (Circular No. 820 dated 06 December 2013).

² With additional special regulatory relief in areas affected by Tropical Depression "Yolanda" as provided under Appendix 93 (Circular No. 820 dated 06 December 2013)

repairs of office premises/facilities and for other valid reasons may be allowed: *Provided*, That the branch/branch-lite unit shall be reopened within a period of one (1) year from the date of temporary closure in accordance with the following procedures:

- (1) A notice of temporary closure signed by the president or officer of equivalent rank, together with a corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the temporary closure and stating the justifications/reasons therefor; and an undertaking that the bank shall comply with the notification requirement under Item "2" below, shall be submitted to the appropriate supervising department of the Bangko Sentral within ten (10) banking days from the approval of the board of directors of the temporary closure. The notice shall include information as to the timetable for the said temporary closure and the branch/branch-lite unit that will handle the transactions of the branch/branch-lite unit to be temporarily closed;
- (2) Notice of temporary closure shall be sent by the bank to the depositors' and other creditors' last known addresses by registered mail service of the PhilPost or delivery service of other mail couriers or electronic mail, and posters shall also be displayed in conspicuous places in the premises of the branch/branch-lite unit at least forty-five(45) calendar days prior to the temporary closure. Information as to the date of the reopening and the address of the branch/branch-lite unit that will handle the transactions of the branch/branch-lite unit to be temporarily closed shall be indicated in the said notice/posters. Proofs of receipts of notice by the depositors and other creditors shall be kept on file and made available upon request of the Bangko Sentral;
- (3) Within five (5) banking days from the date of temporary closure of the branch/branch-lite unit, a notice of such closure, signed by the CCO and the head of the branches department with the rank of a vice president or equivalent rank or by a higher ranking officer, together with a certification that the notification requirement in Item "(2)" above has been complied with and an undertaking that the branch/branch-lite unit shall be reopened within one (1) year from the date of such closure shall be submitted to the appropriate supervising department of the Bangko Sentral; and
- (4) Within five (5) banking days from the date of reopening of the branch/branch-lite unit, a notice of such reopening together with a certification signed by the CCO and the head of the branch banking operations with the rank of vice president or its equivalent or by a higher ranking officer that the bank has complied with Items "b" and "c" under this Section on the requirements for opening a branch/branch-lite unit shall be submitted to the appropriate supervising department of the Bangko Sentral .

Temporary closure of branches/branch-lite unit beyond one (1) year shall be deemed as permanent closure and surrender of license of the branch/branch-lite unit, and re-opening thereof shall be deemed as an establishment of a new branch/branch-lite unit, subject to the provisions under this Section on Pre-requisites for the grant of authority to establish a branch/branch-lite unit.

b. *Permanent closure and surrender of branch/branch-lite unit license.*

Permanent closure and surrender of branch/branch-lite unit license may be allowed subject to the following requirements:

- (1) Submission of a notice of permanent closure and surrender of branch/branch-lite unit/s license signed by the president or officer of equivalent rank, together with a corporate secretary's certificate on the approval of the board of directors(or equivalent management committee in the case of foreign bank branches) of the permanent closure and surrender of branch/branch-lite unit/s license and an undertaking that the bank shall comply with the notification requirement under Item "2" below. Said documents shall be submitted to the appropriate supervising department of the Bangko Sentral within 10 banking days from the approval of the board of directors of the permanent closure.
- (2) Notice of closure shall be sent by the bank to the depositors' and other creditors' last known addresses by registered mail service of the PhilPost or delivery service of other mail couriers or electronic mail, and posters shall also be displayed in conspicuous places in the premises of the branch/branch-lite unit/s to be closed. Proofs of receipt of notice by the depositors and other creditors shall be kept on file and made available upon request of the Bangko Sentral;
- (3) Within five (5) banking days from the date of closure of the branch/branch-lite unit, a notice of such closure signed by the CCO and the head of the branches department with the rank of a vice president or equivalent rank, or by a higher ranking officer, together with a certification that the notification requirement in Item "2" above has been complied with, shall be submitted to the appropriate supervising department of the Bangko Sentral;

c. *Sale/acquisition of branches/branch-lite unit.*

Banks intending to sell/acquire existing/operating branches/branch-lite units secure prior approval of the Bangko Sentral. *Provided* That: banks acquiring branches/branch-lite units, including those in Metro Manila, shall

comply with the applicable minimum capital requirement under Sec. 121 (*Minimum capitalization*). For this purpose, the prudential criteria provided under Sec. 111 (*Prudential Criteria*) shall be applied to the acquiring bank. The following documents shall be submitted to the appropriate supervising department of the Bangko Sentral:

- (1) Written consent of the PDIC on the transfer of assets and assumption of liabilities as provided under Section 26 of the PDIC Charter (R.A. No. 3591), as amended by R.A. No. 9302 and re-numbered under R.A. No. 10846. The said consent shall be obtained by both the selling bank and acquiring bank;
- (2) For the Selling Bank:
 - (a) Application letter signed by the president or officer of equivalent rank indicating the rationale for the closure and sale of the branches/branch-lite units; and
 - (b) Corporate secretary's certificate on the approval of the stockholders, when required under the Corporation Code, and the board of directors (or equivalent management committee in the case of foreign bank branches) of the closure and sale of the branches/branch-lite units;
- (3) For the Acquiring Bank:
 - (a) Application letter signed by the president or officer of equivalent rank indicating the rationale for the acquisition of the branches/branch-lite units;
 - (b) Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the acquisition of branches/branch-lite units; and
 - (c) signed by the president or officer of equivalent rank and the chief compliance officer that the bank has complied with: (i) all the prudential criteria provided under Sec. 111 (*Prudential Criteria*); (ii) the minimum capital requirement under Sec. 121 (*Minimum capitalization*); and (iii) other pertinent banking laws, rules and regulations.

An approved application to sell/acquire branches/branch-lite units shall be subject to the following conditions:

- (a) For the Selling Bank –
 - (i) Upon receipt of notice of approval, but at least forty-five (45) calendar days prior to the closure, a notice of closure shall be sent to the depositors' and other creditors' last known addresses by registered mail, or delivery service of other mail courier, or electronic mail, and posters on the closure of branches/branch-lite units shall also be displayed in conspicuous places in the premises of the branch/branch-lite units to be sold. Proofs of receipt of notice by the depositors and other creditors shall be kept on file and made available upon request of the Bangko Sentral; and
 - (ii) Within five (5) banking days from the date of closure of the branch/branch-lite unit, a notice of such closure signed by the chief compliance officer and the head of the branches department, together with a certification that the notification requirement under Item "i" above has been complied with, shall be submitted to the appropriate supervising department of the Bangko Sentral.
- (b) For the Acquiring Bank –

The acquiring bank shall comply with Sec. 150 on the requirements for opening a branch/branch-lite unit.
- (4) Within five (5) banking days from the date of closure of the branch/branch-lite unit, a notice of such closure signed by the CCO and the head of the branches department with the rank of a vice president or equivalent rank or by a higher ranking officer, together with a certification that the notification requirement under Item "3" above has been complied with, shall be submitted to the appropriate supervising department of the Bangko Sentral;
- (5) Request for Monetary Board approval to acquire the branch/branch-lite unit signed by the president of the bank or officer of equivalent rank, together with a certified true copy of the resolution of the bank's board of directors authorizing the acquisition shall be submitted by the acquiring bank to the appropriate supervising department of the Bangko Sentral. The acquiring bank shall likewise comply with the pre-requisites on the grant of authority to establish a branch/branch-lite unit under this Section and the ceiling on total investments of a bank in real estate and improvements thereon, including bank equipment under Sec. 109.

A bank may purchase/acquire branches/branch-lite units anywhere, including in Metro Manila subject to compliance with the applicable minimum capital requirement under Sec. 121.

- (6) The acquiring bank shall pay a licensing fee per branch/branch-lite unit acquired, as follows:

Type of Acquiring Bank	Location of Branch/Branch-lite unit to be Acquired	
	Within Metro Manila	Outside Metro Manila
UBs and KBs	P 1.0 million	P 0.5 million
TBs	P 0.5 million	P 0.25 million

and

- (7) Within five (5) banking days from the date of opening of the acquired branch/branch-lite unit, a notice of such opening, together with a certification signed by the CCO and the head of branch banking operations with the rank of a vice president or its equivalent or by a higher ranking officer that the bank has complied with Items “b” and “c” under this Section on the requirements for opening a branch/branch-lite unit shall be submitted by the acquiring bank to the appropriate supervising department of the Bangko Sentral.

Relocation/Transfer of branch/branch-lite unit licenses of closed banks. Buyers of closed banks shall be allowed to relocate/transfer acquired branch/branch-lite unit subject to the conditions stated under Items “d” and “e” of the first paragraph of Sec. 105 on relocation of branches/branch-lite units.

Supervisory Enforcement. The Bangko Sentral reserves the right to deploy any of its supervisory tools to promote adherence to the requirements set forth in the foregoing rules and bring about timely corrective actions and compliance with the Bangko Sentral directives.

For this purpose, the Bangko Sentral may among others, limit the banking activities and services offered by a branch/branch-lite unit or revoke the franchise and close any branch/branch-lite unit. If any part of the certification submitted by the bank as required in this Section is found to be false, the Bangko Sentral may also, among others, suspend the privilege to establish and/or open approved branches/branch-lite units and/or relocate branches/branch-lite units and impose sanctions on the certifying officers concerned.

Relocation of head offices. Relocation of a bank’s head office shall require prior approval of the Monetary Board in accordance with the following procedures:

- a. Request for Monetary Board approval of the relocation of the bank’s head office signed by the president of the bank or officer of equivalent rank shall be submitted to the appropriate supervising department of the Bangko Sentral together with the following documentary requirements:
 - (1) A certified true copy of the resolution of the bank’s board of directors authorizing the proposed relocation/transfer of the head office, and stating the justification/reasons therefor;
 - (2) A certified true copy of stockholders’ resolution authorizing the amendment of the articles of incorporation of the bank;
 - (3) Description of the building and/or place of relocation, manner of occupancy, i.e., whether lease or purchase, estimate of the total costs to be incurred in connection with the transfer, and the proposed timetable for such relocation; and
 - (4) Plan for the disposition of the original site.
- b. Upon receipt of the notice of Monetary Board approval but at least three (3) months prior to the relocation, notice of relocation shall be sent to depositors and other creditors by registered mail or POD service of the Philpost or other mail couriers, and poster shall be displayed in conspicuous places in the premises of the head office to be relocated: *Provided*, That said notification period may be reduced to forty-five (45) calendar days under any of the following circumstances:
 - (1) As an incentive to merger or consolidation of banks;
 - (2) As an incentive to the purchase or acquisition of majority or all of the outstanding shares of stock of a distressed bank for the purpose of rehabilitating the same; or
 - (3) The proposed relocation site is within the same municipality/city of the head office to be relocated.
- c. Within five (5) banking days from the date of relocation, a notice of relocation, together with a certification signed by the president of the bank or officer of equivalent rank that the notification requirement under Item “b” above and the installation of the required security devices under Item “b” of Sec. 147 on minimum security measures have been complied with, shall be submitted to the appropriate supervising department of the Bangko Sentral.

A bank’s head office may be relocated anywhere it is allowed to establish branches as provided under this Section on on location of branches/branch-lite units.

The executive offices of the bank shall not be separated from the head office, i.e., these shall be located where the bank's head office is located.

Relocation of any other department/unit of the bank not performing front-office operation, i.e., not dealing with the banking public, shall not require prior Monetary Board approval: *Provided, however,* That within five (5) banking days from date of relocation, a notice of relocation signed by a vice president or officer of equivalent rank or by a higher ranking officer, together with a certified true copy of the resolution of the bank's board of directors authorizing the relocation, shall be submitted to the appropriate supervising department of the Bangko Sentral.

Sanctions. If any part of the certification submitted by the bank as required in this Section is found to be false, the sanctions under Sec. 105 (*Supervisory enforcement*) shall be imposed.

Establishment of offices abroad. The following rules shall govern the establishment by domestic banks of branches and other offices abroad.

For purposes of this Section, the term *offices* shall include branches, agencies, representative offices, remittance centers, remittance desk offices and other offices.

Application for authority to establish an office abroad. An application for authority to establish an office abroad shall be signed by the president of the bank and shall be accompanied by the following information/documents:

- a. Certified true copy of the resolution of the bank's board of directors authorizing the establishment of that office indicating its proposed site;
- b. Economic justification for such establishment, indicating among other things, the services to be offered, the minimum outlay such as capital requirement of the host country, outlay for furniture, fixture and equipment, rental and other expenses;
- c. Organizational set up of the proposed office showing the proposed positions and the names, qualifications and experience of the proposed manager and other officers;
- d. Certification signed by the president or the executive vice president that the bank has complied with the standard pre-qualification requirements for the grant of banking authorities enumerated in *Appendix 5*; and
- e. Certification from the host country that the duly authorized personnel/examiners of the Bangko Sentral will be authorized to examine the proposed office.

Requirements for establishing an office abroad. In addition to the standard prequalification requirements of *Appendix 5*, the applicant bank shall comply with the following:

- a. The citizenship requirements, ownership ceilings and other limitations on voting stockholdings in banks under existing law and regulations;
- b. Experience and expertise in international banking operations as shown by:
 - (1) Its international banking operations for at least three (3) years prior to the date of application;
 - (2) Substantial income derived from international banking operations; and
 - (3) Established correspondent relationship with reputable banks.

Conditions attached to the approved application. An approved application to establish a banking office abroad shall be subject to the following conditions:

- a. Without prejudice to the qualification requirements in the country where the office is to be established, the proposed officer(s), at the time of appointment must be at least:
 - (1) Twenty-five (25) years of age;
 - (2) A college graduate, preferably with training and experience abroad;
 - (3) With three (3) year experience in international banking operations; and
 - (4) Must not possess any of the disqualification of an officer as provided for under existing regulations;
- b. The applicant bank shall comply with the licensing requirements of the host country and the necessary license to operate shall be secured from the appropriate government agency of the host country;
- c. The outward investment representing initial capital outlay and other outlays shall be subject to existing regulations;
- d. The proposed office shall submit periodic reports on its financial condition and profitability and such other reports that may be required by the Bangko Sentral;
- e. An office not authorized to perform banking business (e.g., representative and liaison offices) shall not carry any of the business of a bank as contemplated within the context of the Philippine banking system; and
- f. The applicant shall defray the necessary cost and expenses to be incurred by the appropriate supervising

department of the Bangko Sentral.

Date of opening. The opening of any office abroad shall be subject to the provisions under this Section on Opening of branches/branch-lite units.

Requirements for opening an office abroad. After a bank's application to establish a branch has been approved, it may open the same subject to the following conditions:

- a. Submission by the applicant bank of a written notice at least thirty (30) days prior to the intended date of opening, accompanied by the following:
 - (1) Proof or evidence of outward remittance needed to meet the capital requirements prescribed by the host country;
 - (2) List of principal and junior officers of the proposed branch/es and their respective designations and salaries; and
 - (3) Personal information sheet (Bio-data) for each of the officers to enable the Bangko Sentral to evaluate their qualifications as officers; and
- b. A certification signed by the bank's president or executive vice president that the standard pre-qualification requirements enumerated in *Appendix 5* have been complied with up to the date of the aforementioned written notice.

A bank that fails to continuously comply with the requirements shall be given an extension of time to open such office after it has shown compliance for another test period of the same duration required of each requirement: *Provided*, That the provisions under this Section on Opening of branches/branch-lite units shall be observed if the branch cannot open within six (6) months from the date of approval thereof: *Provided, further*, That before such branch opens for business, the bank shall submit to the Bangko Sentral the requirements under this Section on Requirements for opening an office abroad together with a certification stating that the bank has complied with the standard pre-qualification requirements in *Appendix 5* up to the date of the written notice within the period prescribed therein.

Sanctions. If any part of the certification submitted by the bank as required in this Section is found to be false, the sanctions under this Section on Supervisory enforcement shall be imposed.

Establishment of a foreign subsidiary by a bank subsidiary. The establishment of a foreign subsidiary by a bank subsidiary are subject to the guidelines in Sec. 377 (*Investment of a bank subsidiary in a foreign subsidiary*).

(Circular Nos 1031 dated 7 February 2019, 987 dated 28 December 2017, 932 dated 16 December 2016, 930 and dated 18 November 2016)

106 ESTABLISHMENT OF SUB-BRANCHES OF FOREIGN BANK BRANCHES

Authority to establish sub-branches of foreign banks may be granted subject to Monetary Board approval. The following guidelines shall govern the establishment of sub-branches of foreign banks in the Philippines pursuant to R.A. No. 7721, as amended by R.A. No. 10641.

Application for authority to establish sub-branches. An application for authority to establish sub-branches shall be signed by the country manager or the highest ranking officer in the Philippines of the applicant foreign bank, and shall be accompanied by the following information/documents:

- a. Certified true copy of the resolution of the foreign bank's board of directors authorizing the foreign bank's country manager or highest ranking officer in the Philippines to apply for authority to establish sub-branch/es and represent the bank in connection therewith; and
- b. Proposed business plan for the sub-branch/es.

Requirements for establishment of sub-branches of foreign bank branches. In addition to the pre-requisites for the grant of authority to establish a branch/branch-lite unit under Sec. 105, the applicant foreign bank branch in the Philippines shall be subject to the processing fee provided in Sec. 105 (*Processing and special licensing fees*).

Date of opening. The opening of approved sub-branches shall be subject to the provisions of Sec. 105 (*Opening of branches/branch-lite units*).

Requirements for opening a sub-branch of foreign bank branches. Not later than five (5) banking days from the date of opening of a sub-branch, the foreign bank branch, through its country manager or the highest ranking officer in the Philippines shall submit the following documents:

- a. Written notice to the appropriate supervising department of the Bangko Sentral of the actual date of opening of the sub-branch;
- b. Proof or evidence of inward remittance needed to meet the additional capital requirements under Sec. 121 (*Minimum capitalization*), as applicable; and

- c. Certification on compliance with Item "b" of Sec. 105 on the requirements for opening a branch/branch-lite unit.

Limitations on establishment of sub-branches of foreign bank branches. A foreign bank authorized to establish branches in the Philippines pursuant to the provisions of R.A. No. 7721, as amended by R.A. No. 10641, may open up to five (5) sub-branches as may be approved by the Monetary Board. A foreign bank shall also be allowed to establish branch-lite unit subject to the provisions of Sec. 105. In this regard, a branch-lite unit shall be considered as a sub-branch for purposes of complying with the numerical limit set forth under R.A. No. 7721, as amended by R.A. No. 10641.

Supervisory Enforcement. The Bangko Sentral reserves the right to deploy any of its supervisory tools to promote adherence to the requirements set forth in Sec. 106. Non-compliance therein shall subject the foreign bank to supervisory enforcement action, including those mentioned under Sec. 105 (*Supervisory enforcement*).

(Circular Nos. 1031 dated 07 February 2019, 987 dated 28 December 2017, 932 and dated 16 December 2016)

107 MOBILE FOREIGN EXCHANGE BOOTHS

The operation of mobile foreign currency booths shall be governed by this Section.

Mobile foreign exchange booths. Without prior authority from the Bangko Sentral, banks may operate mobile foreign currency booths, subject to the following guidelines:

- a. The bank shall advise the Bangko Sentral of the number of mobile foreign currency booths it will operate, the date it will start operations, the areas of operation and the branch where the foreign exchange acquisition will be turned over and booked;
- b. The services of the mobile foreign currency booths shall be solely for changing foreign exchange currency into peso notes and coins, and not pesos to other foreign currency;
- c. The mobile foreign currency booths shall not accept deposit or perform other banking functions other than purchase of foreign currencies;
- d. The internal control system of the proposed mobile foreign currency booths shall be submitted to the appropriate supervising department of the Bangko Sentral, as well as other security measures adopted therein; and
- e. The mobile foreign currency booths shall be covered by insurance to protect adequately the bank against losses of whatever nature arising from its operations.

108 BANKING DAYS AND HOURS

Banks and/or their branches or branch-lite units, doing business in the Philippines, shall observe for the conduct of their business a regular banking week of five (5) days, except when such days are non-working holidays, including local holidays, declared by Presidential Proclamations. The regular banking week should fall on Mondays to Fridays unless otherwise authorized by the Bangko Sentral in the interest of the banking public. On these days, said institution shall transact business for at least six (6) hours each day.

Subject to compliance with other relevant laws, banks, and/or their branches or branch-lite units, may opt to observe a banking week in excess of the five (5) days after reporting to the Bangko Sentral the additional days during which such banks or their branches or offices shall transact business for at least three (3) hours each day.

Banks and/or their branches or branch-lite units are allowed to close on certain days in celebration of important historical and/or religious events in the locality where these banks operate, even in the absence of a Presidential Proclamation approving the local holiday: *Provided*, That said closure has the prior approval of the bankers association in the locality or region and in the case of bank branches, their respective head offices: *Provided, further*, That said closure will only be allowed in the municipality or city where the festivities are centered: *Provided, finally*, That banks and/or their branches or branch-lite units shall submit, either individually or through their head offices, to the appropriate supervising department of the Bangko Sentral, a prior notice of their intended closure on account of a specific local festivity not covered by a Presidential Proclamation at least two (2) working days before the intended date of closure.

The required notice under the previous paragraph shall be supported by a certification jointly signed by the president of the bank or officer of equivalent position and the head of the branches department, if any, that:

- a. On the date of the temporary closure, the bank and/or their branches or branch-lite units which are microfinance-oriented/micro-banking office will maintain a skeletal force to handle "out-of-town" clearing items in line with the provisions of Sec. 802;
- b. The notice of the bank's closure and the reason thereof shall be posted conspicuously in the bank's premises; and
- c. For branches of banks, the closure has the prior approval of their respective head offices.

The copy of the resolution of the local bankers association and in the case of bank branches, their respective head offices, approving said closure shall be filed in the premises of the banking unit concerned, which resolution shall be made available during on-site examination or when required by the Bangko Sentral for submission for off- site verification.

In cases of closure of the bank and/or their branches/branch-lite units due to approved local holidays covered by a Presidential Proclamation, no notice of temporary closure to the Bangko Sentral shall be required.

Banking hours beyond the minimum; banking services during holidays. Banks may, at their discretion, remain open beyond the minimum six (6) hours and for as long as they find it necessary, even before 8:00 AM or after 8:00 PM, subject to the submission of prior written notice required under this Section on report of, and changes in, banking days and hours, and compliance with the provisions of this Section on posting of schedule of banking days and hours, and Sec. 147 on minimum security measures.

Banks and/or their branch/es and/or branch-lite units may opt to remain open during any or all of their regular banking days that were covered by holidays for the purpose of servicing deposits and withdrawals: *Provided*, That a bank opting to open its head office and/or branch/es and/or branch-lite units, shall submit to the appropriate supervising department of the Bangko Sentral at least two (2) working days before the intended date of opening of the bank's head office and/or branches and/or branch-lite units, a notice signed by its president or officer of equivalent rank, of its intention to open during the holidays, together with a copy of the board resolution approving the same: *Provided, further*, That the notice shall specify which office (head office and/or branch/es and/or branch-lite units) will open on what dates and their schedule of banking hours.

Subject to submission of a notice signed by the bank president or officer of equivalent rank, authorized agent banks of the BIR (BIR-AABs), and/or its branch/es and/or branch-lite units, are allowed to open for two (2) Saturdays prior to April 15 of every year, and daily from April 1 to income tax payment deadline, to extend banking hours from 3:00 PM to 5:00 PM to receive internal revenue tax payments. The notice, which shall specify which office (head office and/or branch/es and/or branch-lite units) will open or extend banking hours on what dates, shall be submitted to the appropriate supervising department of the Bangko Sentral on or before the last banking day of March of every year.

Report of, and changes in, banking days and hours. The banking days and hours selected for each of the offices of banks shall be reported in writing to the appropriate supervising department of the Bangko Sentral. Banks may change the banking days and hours previously reported to the Bangko Sentral by giving prior written notice: *Provided*, That changes in banking days or hours shall not be made oftener than once every thirty (30) days, except during emergencies. *Emergency* shall mean (a) condition of an area or locality proclaimed by the President of the Philippines as in a state of emergency; or (b) an event or occasion or a combination of circumstances equivalent to a public calamity resulting from fire, flood, or like disaster, or through some unusual occurrence or pressing necessity not reasonably subject to anticipation calling for immediate action or remedy.

The prior written notice to the Bangko Sentral on changes in banking days and hours shall be given through the fastest means of communication, at least seven (7) banking days before the intended effectivity of the change in banking hours or days. In case a bank, due to an emergency, has to open outside, or close during, the banking hours or days reported to the Bangko Sentral, a written report submitted within twenty- four (24) hours from opening or closing, as the case may be, will suffice. The report shall state the specific nature of the emergency and the period the bank opened or closed or shall open or close by reason of emergency.

Posting of schedule of banking days and hours. The schedule of banking days and hours reported to the Bangko Sentral shall be posted conspicuously at all times in the bank's premises.

(Circular Nos. 987 dated 28 December 2017, 930 dated 18 November 2016, 917 and dated 08 July 2016)

109 BANK PREMISES AND OTHER FIXED ASSETS

The following rules shall govern the premises and other fixed assets of banks.

Appreciation or increase in book value. Bank premises, furniture, fixtures and equipment shall be accounted for using the cost model under PAS 16 "Property, Plant and Equipment."¹

Outstanding appraisal increment as of 13 October 2005 arising from mergers and consolidation and other cases approved by the Monetary Board, shall be deemed part of the cost of the assets. However, appraisal increment previously allowed to be booked shall be reversed.

Accordingly, the booking of appreciation or increase in the book value of bank premises and other fixed assets in cases where the market value of the property has greatly increased since the original purchase is no longer allowed.

Ceiling on total investments. The total investment of a bank in real estate and improvements thereon, including bank equipment, shall not exceed fifty percent (50%) of the bank's net worth. In determining compliance with such ceiling, the

¹ With additional special regulatory relief in areas affected by Tropical Depression "Yolanda" as provided under Appendix 93.

following rules shall apply:

- a. The investment shall include all real estate and equipment necessary for the bank's immediate use in the transaction of its business, such as:
 - (1) *Bank Premises - Land and Buildings, Buildings under Construction, Leasehold Rights and Improvements and Furniture, Fixtures and Equipment* (as defined in the Manual of Accounts for All Banks), owned and used by the bank in the conduct of its business, including staff houses, recreational facilities and landscaping costs, net of accumulated depreciation: *Provided, however*, That appraisal increment on bank premises shall not be included in the total investment in real estate and improvements for purposes of these guidelines; and
 - (2) Real properties, equipment or other chattels purchased by the bank in its name for the benefit of its officers and employees, net of depreciation and in the case of land or other non-depreciable property, net of payments already made to the bank by the officers and employees for whose benefits the property was bought, where such property has not yet been fully paid and ownership has not yet been transferred to them.
- b. The following shall be included in the computation of a bank's total investment in bank premises:
 - (1)
 - (a) The cost of real estate leased in whole or in part by the bank from a corporation, other than a corporation primarily engaged in real estate in which the bank has equity, equivalent to the amount obtained by applying the percentage of the equity of the bank in the lessor to the cost of that portion of the property being leased, or
 - (b) the amount of equity in the lessor, whichever is lower, plus the amount obtained by applying the percentage of the equity of the bank in the lessor to any outstanding loans of the lessor with the bank, the proceeds of which were used to purchase, construct or develop the real estate used for the bank's purposes.
 - (2) The lower of –
 - (a) the cost of real estate leased in whole or in part by the bank from a corporation in which any or a group of stockholders owning ten percent (10%) or more of the voting stock of the bank, directors and/or officers of the bank, hold or own more than fifteen percent (15%) of the subscribed capital stock of the lessor, equivalent to the amount obtained by applying the percentage of the equity of said stockholders/directors/officers in the lessor to the cost of that portion of the property being leased by the bank, or
 - (b) the amount obtained by applying the percentage of the equity of the stockholders/directors/officers in the lessor to any outstanding loans of the corporation with the bank, the proceeds of which were used to purchase, construct or develop the real estate used for the bank's purposes.

The equity investment of a bank in a corporation engaged primarily in real estate shall be included in the computation of the bank's total investment in real estate, unless otherwise provided by the Monetary Board.

Reclassification of real and other properties acquired (ROPA) to bank premises, furniture, fixture and equipment; Sanctions. Banks may reclassify ROPA to bank premises, furniture, fixture and equipment, subject to the following conditions:

- a. Prior written approval of the majority of the members of the board of directors has been obtained for such reclassification. The approval shall be manifested in a resolution passed by the board of directors during a meeting and shall contain the following information:
 - (1) Date ROPA was acquired;
 - (2) Description of ROPA property;
 - (3) Outstanding balance of ROPA at the time of reclassification;
 - (4) Specific purpose for reclassifying said property to bank premises, furniture, fixture and equipment; and
 - (5) Justification and plan for expansion, in the case of real and other property earmarked for future use.
- Said resolution shall also be made available for inspection by Bangko Sentral examiners, together with the supporting records and documents involving the ROPA account; and
- b. Only such acquired asset, or a portion thereof, that will be (i) immediately used, or (ii) ready and available for use within a two (2)-year period from date of reclassification (in case of ROPA earmarked for future use) may be reclassified to bank premises, furniture, fixture and equipment;
- c. ROPA reclassified to bank premises, furniture, fixture and equipment shall be recorded at its net carrying amount where the amounts booked as cost, accumulated depreciation and allowances for losses for bank premises, furniture, fixture and equipment shall correspond to the balance of these accounts under ROPA at the time of reclassification. As such, the reclassification shall not give rise to any gains/(losses) being recognized in the bank books; and

- d. Said reclassification shall not cause the bank to exceed the prescribed ceiling on investment in real estate and improvements thereon, including bank equipment, provided under this Section on Ceiling on total investments.

Within five (5) banking days from date of reclassification, the bank shall submit the Certification on Compliance with Regulations on the Reclassification of ROPA to Bank Premises, Furniture, Fixture and Equipment (*Appendix 99*) signed by the president of the bank or officer of equivalent rank, to the appropriate supervising department of the Bangko Sentral. Said certification shall be accompanied by the certified true copy of the resolution of the bank's board of directors authorizing the reclassification.

Sanctions. The following sanctions shall be imposed for violations noted:

1. On the bank

- a. Monetary fines

A bank which fails to comply with the provisions of this Subsection shall be subject to the appropriate monetary penalties under Sec. 1102 (*Guidelines on the imposition of monetary penalties*).

- (1) *For non-submission of the required certification*

A bank which fails to submit the required Certification on Compliance with Regulations on the ROPA to Bank Premises, Furniture, Fixture and Equipment or the certified true copy of the resolution of the board of directors authorizing said reclassification within the prescribed deadline shall be subject to the appropriate monetary penalties under Sec. 1102 (*Guidelines on the imposition of monetary penalties*) which shall be reckoned on a daily basis from the day following the due date of submission until the required certification on compliance or the certified true copy of the resolution of the board of directors is filed with the Bangko Sentral.

- (2) *For false/misleading statements*

A bank which has been found to have willfully made a false or misleading statement in the required Certification on Compliance with Rules and Regulations on the ROPA to Bank Premises, Furniture, Fixture and Equipment or in the certified true copy of the resolution of the bank board of directors shall be subject to the appropriate monetary penalties under Sec. 1102 (*Guidelines on the imposition of monetary penalties*) for the willful making of a false or misleading statement which shall be reckoned on a daily basis from the day following the due date of the said certification until such time that an amended or corrected certification on compliance or certified true copy of the resolution of the board of directors has been submitted to the Bangko Sentral.

2. On the concerned directors/officers of the bank.

- a. For willful non-compliance Directors/officers of the bank who willfully fail/refuse to comply with the provisions of this Subsection shall be subject to the appropriate monetary penalties under Sec. 1102 (*Guidelines on the imposition of monetary penalties*).
- b. For false/misleading statements Directors/officers of the bank which have been found to have willfully falsely certified or willfully submitted misleading statements in the required Certification on Compliance with the Regulation on the Reclassification of ROPA to Bank Premises, Furniture, Fixture and Equipment or in the certified true copy of the resolution of the bank's board of directors shall be subject to the to the appropriate monetary penalties under Sec. 1102 (*Guidelines on the imposition of monetary penalties*), which shall be reckoned on a daily basis from the day following the due date of the said certification until such time that an amended or corrected certification on compliance or certified true copy of the resolution of the board of directors has been submitted to the Bangko Sentral.

The imposition of the above sanctions is without prejudice to the filing of appropriate criminal charges against culpable persons as provided under Section 35 of R.A. No. 7653 for the willful making of a false/misleading statement.

Batas Pambansa Blg. 344 - An Act to Enhance the Mobility of Disabled Persons by Requiring Certain Buildings, Institutions, Establishments and Public Utilities to Install Facilities and Other Devices. In order to promote the realization of the rights of disabled persons to participate fully in the social life and the development of the societies in which they live and the enjoyment of the opportunities available to other citizens, no license or permit for the construction, repair or renovation of public and private buildings for public use, educational institutions, airports, sports and recreation centers and complexes, shopping centers or establishments, public parking places, workplaces, public utilities, shall be granted or issued unless the owner or operator thereof shall install and incorporate in such building, establishment or public utility, such architectural facilities or structural features as shall reasonably enhance the mobility of disabled persons such as sidewalks, ramps, railings and the like. If feasible, all such existing buildings, institutions, establishments, or public utilities may be renovated or altered to enable the disabled persons to have access to them.

Republic Act No. 9994 – An Act Granting Additional Benefits and Privileges to Senior Citizens, Further Amending Republic Act No. 7432 of 1992 as Amended by Republic Act No. 9257 of 2003. To be able to give full support to the improvement of the total well-being of the elderly and their full participation in society, and to motivate and encourage them to contribute to nation building, senior citizens shall be provided with express lanes in all banking establishments, including all their branches and other offices. If the provision of express lanes is logistically impossible in any particular branch or office of any bank, said branch or office shall ensure that senior citizens are accorded priority service. The provision of express lanes and/or priority service shall be made known to the general public through a clearly written notice prominently displayed in the transaction counters of all banks and/or offices.

(Circular Nos. 988 dated 20 December 2017)

B. SPECIAL AUTHORITIES

111 LICENSING

Policy statement and objectives. Consistent with the mandate of the Bangko Sentral to promote a safe and sound banking system, the licensing process on permissible activities of banks is enhanced to align the process with international standards and best practices such as the "Core Principles for Effective Supervision" issued by the Basel Committee on Banking Supervision. The Bangko Sentral will not restrict the scope of risk-taking activities of banks consequent of the licenses and/or authorities granted: *Provided*, That these licenses and/or authorities are in line with their business model and strategic direction: *Provided, further*, That these banks demonstrate the capacity to implement these strategies and the ability to manage risks.

The enhanced policy guidelines set forth the expectations and criteria of the Bangko Sentral with respect to granting of licenses and authorities as well as its right to reject applications if the criteria set forth are not met by the applicant bank ("applicants") or if the information provided is not adequate. The Bangko Sentral also reserves the right to withdraw or revoke the license and/or authority or enforce appropriate actions when an institution no longer meets the criteria or standards required to be met for the exercise of the license and/or authority.

These criteria are intended to incorporate the licensing process into Bangko Sentral's enforcement regime that is anchored on good governance, sound risk management system and effective control systems. Further, these criteria aim to provide more consistency on how the risk-focused supervision function is applied to the licensing process. This enhanced licensing policy aims to ensure that licenses and authorities are granted only to applicants that comply with the standards set.

It is also the thrust of these enhanced policy guidelines on granting licenses/authorities to establish Bangko Sentral's accountability and promote transparency on the licensing process which are consistent with its commitment to deliver prompt and efficient service.

Scope. Applications for licenses and/or authorities shall be categorized as follows:

- a. Type "A" - applications for licenses and/or authorities where compliance with the defined prudential requirements/criteria on licensing as described in this Section is a pre-condition for applicants to be considered eligible;
- b. Type "B" - applications for licenses and/or authorities processed regardless of risk profile; and
- c. Type "C" - activities which no longer require submission of applications and processing but shall be subject to submission of reports/certification/notification within stated deadlines. However, compliance with pre-qualification requirements is subject to post verification and any false information and/or misrepresentation may be a basis for the imposition of appropriate enforcement actions described in this Section. The Bangko Sentral shall use this information to continuously tailor its supervisory strategy for the supervised entities and to maintain and continuously update its institutional database.

Prudential criteria. The prudential criteria set forth in this Section shall be used in determining the eligibility of applicants to the licenses and/or authorities granted by the Bangko Sentral. Accordingly, the following minimum conditions must be met:

- a. Applicant domestic banks must have a CAMELS composite rating of at least "3" and a "Management" rating of not lower than "3", branches of foreign banks must have a ROCA rating of at least "3", and BSFIs must have a RAS rating of at least "Acceptable". Whenever applicable, ratings equivalent to cited minimum rating grade requirements under appropriate rating systems (i.e., IT Rating Systems, Trust Rating Systems, among others) shall apply for certain licenses and/or authorities;
- b. Applicants have no major supervisory concerns in governance, risk management systems, and internal controls and compliance system, and characterize/demonstrate the following:

- (1) Governance

Applicants must display a culture of good corporate governance appropriate to its size, risk profile and

complexity of operations. Board of directors and management, in their respective roles, provide an appropriate level and quality of oversight and support to all of the institution's activities. Sound management practices are observed and demonstrated through (a) active oversight and satisfactory performance by the board of directors and senior management, (b) appropriate policies, processes, and controls relative to the institution's size, complexity and risk profile, (c) maintenance of an independent and effective internal audit and compliance program as well as a sound internal control environment, and (d) effective risk monitoring and management information systems.

Applicants should not be found engaging in an activity which may be considered as conducting business in an unsafe or unsound manner. In cases where weaknesses, violations of law, policy and/or regulation exists, other than those considered unsafe or unsound banking, these should not be material to the safety and soundness of the institution, can be reasonably managed, and are being adequately addressed.

Quality of corporate governance shall be assessed based on the principles and framework set forth in the Guidelines in Assessing the Quality of Corporate Governance in banks.

(2) Risk management system and internal controls

Applicants shall have a comprehensive risk management system approved by its board of directors (or equivalent management committee in the case of foreign bank branches) to identify, measure, evaluate, report and control or mitigate all material risks on a timely basis and to assess the adequacy of their capital in relation to their risk profile and market and macroeconomic conditions and whose sophistication are commensurate to the risks being monitored and controlled. The risk management system must be characterized by a clear delineation of responsibility for risk management, adequate risk measurement systems, appropriate risk limits structure, effective internal controls and complete, timely and efficient risk reporting systems.

Likewise, applicants shall have an effective and adequate system of internal controls for the conduct of their business taking into account their risk profile. These controls deal with organizational structure, accounting policies and processes, checks and balances, safeguarding of assets and investments and appropriate and effective internal audit and compliance functions. Standards and principles as well as the Bangko Sentral's expectations governing internal controls and audit under existing regulations shall apply in assessing the quality and effectiveness of the internal control systems of an applicant; and

(3) Compliance system

Applicants shall have a compliance system, appropriate to its size, risk profile and complexity of operations, designed to specifically identify and mitigate business risks¹ which may erode the franchise value of the institution. Compliance policies and procedures embodied in a Compliance Policy Manual should be sound and effectively implemented. Likewise, compliance monitoring and testing as well as review process should be robust to ensure bank conducts its business/operations in accordance with banking laws, rules and regulation and other laws relevant to banking such as securities laws and regulations. Banks should not have been found significantly non-compliant with prudential requirements such as SBL, DOSRI limits, capital adequacy ratio requirements, among others.

Standards and principles set forth in the Compliance Rating System framework shall apply in assessing the quality of bank's compliance system; and

- c. Applicants have complied with directives and/or are not subject of specific directives and/or enforcement actions by the Bangko Sentral.

Applicants shall have corrected any findings of unsafe or unsound banking and have addressed any outstanding explicit directives from the Bangko Sentral and/or other relevant regulatory bodies, prohibiting the conduct of activities related to the licenses and/or authorities being applied, as of the date of application. Applicants with specific prohibitions to conduct certain activities shall not be eligible to apply for that particular license and/or authority.

No application shall be accepted until such time that enforcement actions are formally lifted by the Bangko Sentral and/or other relevant regulatory bodies after applicants have demonstrated to the Bangko Sentral that safety and soundness concerns are satisfactorily addressed and/or until such time applicants become eligible.

Applications of banks under rehabilitation and/or enhanced supervision status² shall be dealt with in accordance with the eligibility test described in Section II.1(a) of *Appendix 124*.

¹ As defined under Sec. 161 (*Compliance function*) business risk refers to conditions which may be detrimental to the institution's business model and its ability to generate returns from operations, which in turn erodes its franchise value. Business risk includes reputational, compliance, market conduct and legal risks.

² Rehabilitation includes banks under the Prompt Corrective Action (PCA), Rehabilitation Program, Letter of Commitment and any other similar cases where banks are expected to comply specific terms and conditions to restore eligibility (safety and sound) status.

Banks granted with licenses/authorities shall continuously comply with the abovementioned standards and requirements even after the license/authority has been granted; otherwise, any deviation or non-compliance may be a basis for the imposition of appropriate enforcement actions described in this Section.

The specific guidelines and procedures on the Bangko Sentral's licensing framework are shown in *Appendix 124*.

Enforcement actions. In line with the thrust of the Bangko Sentral to incorporate the licensing process into its enforcement regime, the Bangko Sentral reserves the right to deploy, as may be warranted, an adequate range of supervisory tools to ensure that grantees of licenses/authorities are and remain qualified to possess the same, bring about timely corrective actions and compliance with Bangko Sentral directives, and provide safety to depositors, creditors, other stakeholders as well as the public in general.

Enforcement actions that may be imposed include, but are not limited to:

a. Corrective action

Corrective actions are measures intended to primarily require banks with approved licenses/authorities to rectify any deviations from the standards, principles and conditions expected for the exercise of the license and/or authority. Corrective actions may include, but are not limited to, issuance of directives and warnings.

b. Sanctions

The Monetary Board may impose any of the sanctions enumerated hereunder or a combination thereof.

(1) Non-monetary

- (a) *Suspension of activities.* The conduct of activities related to the licenses/authorities granted may be suspended if the Bangko Sentral determines that the concerned bank no longer meets the criteria or standards set; or
- (b) *Revocation of licenses/authorities.* The license/authority granted may be revoked in cases where violation, non-compliance with criteria/standards and/or false information are noted which affects the safety and soundness of banks' operations; and/or
- (c) *Administrative sanctions.* The responsible directors/officers who approve transactions and/or decisions that resulted in violations of laws, rules and regulations, orders, and directives issued by the Monetary Board or the Governor may be subject to reprimand, temporary suspension, and/or disqualification of directors/officers.

The Monetary Board is not precluded to impose non-monetary sanctions other than those identified from Items "(a)" to "(c)"; and/or

(2) Monetary

Monetary penalties may be imposed for any acts, omissions or transactions that are outside the permissible activities of the licenses/authorities granted or are in violation of laws, Bangko Sentral rules and regulations, orders and directives issued by the Bangko Sentral.

Type of License of Permissible Activities¹. The type of license attached to permissible activities of the Bangko Sentral supervised financial institutions (BSFIs) shall be as follows:

Type of License	Permissible Activity	Related Sections
A	Establishment/Sale of Branches/Branch-lite Units ²	Sec. 105 (<i>Application for authority to establish a branch/branch-lite unit</i>) Sec. 105 (<i>Temporary closure, permanent closure and surrender of branch/branch-lite units license, and sale/acquisition of branches/branch-lite units, Item "(c)"</i>)

¹ Transitory Provisions. Applications filed with the Bangko Sentral prior to 6 March 2019 shall not be charged with processing and licensing fees provided under this Section on Processing and Licensing Fees.
For application related to branching activities covered under Sec. 105 (*Processing and special licensing fees*), as amended, approved after 6 March 2019, the processing fees provided under the said Subsection, as amended, shall be collected upon approval of the application.
Applications for Type C licenses received prior to 6 March 2019 shall be deemed to have complied with the notification/certification requirements if after thirty (30) banking days from 6 March 2019, the appropriate supervising department of the FSS does not advise the BSFI concerned of any deficiency on such application.

² Includes conversion of branch-lite unit/s to branch/es

	Equity Investment in Allied and Non-Allied Undertaking	Sec. 371 Sec. 372 Sec. 373 Sec. 375 Sec. 378 Sec. 376-A <i>Appendix 83</i>
	Investments in Subsidiaries and Affiliates Abroad	Sec. 377 <i>Appendix 83</i>
	Trust and Other Fiduciary Business	Sec. 411 Sec. 411-B/C (<i>Grant of Authority to Engage in Limited Trust Business to Thrift Banks/Rural Banks</i>)
	Operate an FCDU/EFCDU	Part IV, Chapter III of the FX Manual
B	Conversion to a Lower Bank Category	Sec. 102 (<i>Conditions for the grant of authority to convert into a lower category</i>)
	Amendment of Articles of Incorporation (AOI) and By-Laws	Sec. 102 (<i>Certificate of Authority to Register</i>)
	Relocation of Head Offices	Sec. 105
C	Conversion of Microfinance-oriented Thrift Banks and Rural Banks	Sec. 102
	Declaration and Payment of Cash and/or Stock Dividends	Sec. 124 <i>Appendix 120</i>
	Relocation of Approved but Unopened Branches/Branch-lite Units	Sec. 105 (<i>Opening of branches/branch-lite units</i>)
	Relocation of Branches/Branch-lite Units	Sec. 105 (<i>Relocation of branches/branch-lite units</i>)
	Temporary Closure of Branches/Branch-lite Units	Sec. 105 (<i>Temporary closure, permanent closure and surrender of branch/branch-lite units license, and sale/acquisition of branches/branch-lite units, Item "(a)"</i>)
	Permanent Closure and Surrender of Branch/Branch-lite Unit License	Sec. 105 (<i>Temporary closure, permanent closure and surrender of branch/branch-lite units license, and sale/acquisition of branches/branch-lite units, Item "(b)"</i>)
	Outsourcing/Insourcing of Banking Functions	Sec. 112 Sec. 112 (<i>Statement of Principle on Outsourcing</i>) <i>Appendix 103</i>
	Servicing Deposits Outside Bank Premises	Sec. 274 (<i>Deposit Operations</i>)
	Issuance of Bonds and Commercial Paper	Sec. 246 (<i>Issuance of Bonds and Commercial Papers</i>)
	Investment in Readily Marketable Bonds and Other Securities	Sec. 381 (<i>Investment in readily marketable bonds and other debt securities</i>)
	Amendment of the Plan Rules of UITF	Sec. 414 (<i>Plan rules</i>)

The permissible activities indicated in the table below shall have Type A license on initial application. Subsequent applications for expansion of the range of activities/services related to the initial license granted shall be classified as Type C licenses subject to the conditions set out in the related Sections of this Manual:

Banking Activity	Related Sections
Bank Offices as Outlet of Financial Products of Allied Undertakings/Investment Houses (Cross-selling Activities)	Sec. 113
Marketing, Sale and Servicing of Microinsurance Products	Sec. 113-B (<i>Marketing, Sale, and Servicing of Microinsurance Products by Thrift Banks</i>) Sec. 113-C (<i>Marketing, Sale and Servicing of Microinsurance Products by Rural and Cooperative Bank</i>) Sec. 314 (<i>Marketing, sale and servicing of micro insurance products by thrift banks</i>) Sec. 314 (<i>Marketing, sale and servicing of micro insurance products by rural and cooperative banks</i>)

Processing and Licensing Fees. All applications shall be charged with the following processing fees pursuant to Section II.3.i of Appendix 124.

	Processing Fees			
Type of License/ Authority	Universal and Commercial Bank	Thrift Bank	Rural and Cooperative Banks	Non-Bank Financial Institutions
A	50,000	20,000	15,000	10,000
B	50,000	20,000	15,000	10,000

Certain Type A licenses shall be charged with the following licensing fees upon approval pursuant to Section II.3.ii of Appendix 124.

	Licensing Fees*			
Type of License/ Authority	Universal and Commercial Bank	Thrift Bank	Rural and Cooperative Banks	Non-Bank Financial Institutions
A	200,000	100,000	50,000	50,000

*Licensing fee shall be net of the processing fee.

The foregoing tables shall not apply to licensing applications with separate fee structure under specific sections this Manual.

(Circular Nos. 1086 dated 06 May 2020, 1031 dated 7 February 2019 and 947 dated 15 February 2017)

112 MANAGEMENT CONTRACTS AND OUTSOURCING

Management Contracts.

- Management contracts of banks with management firms shall be limited to consultancy and advisory services;
- Only a natural person may be elected or appointed as an officer of a bank, without prejudice to such person being a nominee of a management corporation: *Provided*, That the responsibility and/or accountability of anyone elected or appointed to an officer position shall be personal in nature and cannot be delegated to a corporation; and
- Any bank that enters into contracts contrary to this policy shall be denied the credit facilities of the Bangko Sentral.

Outsourcing. A bank may outsource to third parties or to related companies in the group, in accordance with existing Bangko Sentral regulations, certain services or activities to have access to certain areas of expertise or to address resource constraints: *Provided*, That it has in place appropriate processes, procedures, and information system that can adequately identify, monitor, and mitigate operational risks arising from the outsourced activities: *Provided, further*, That the bank's board of directors and senior management shall remain responsible for ensuring that outsourced activities are conducted in a safe and sound manner and in compliance with applicable laws, rules and regulations.

Definition. *Outsourcing* shall refer to any contractual arrangement between a bank and a qualified service provider for the latter to perform designated activities on a continuing basis on behalf of the bank.

Prohibition against outsourcing of inherent banking functions. No bank shall outsource inherent banking functions such as:

- a. Taking of deposits from the public;
- b. Granting of loans and extension of other credit exposures;
- c. Managing of risk exposures; and
- d. General management.

Authority to outsource. Banks may outsource designated activities subject to notification to the Bangko Sentral and compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*). For this purpose, Banks shall submit the following documents to the appropriate supervising department of the Bangko Sentral within 10 banking days after approval of the board of directors of the proposal to outsource/insource banking functions:

- a. Notification letter signed by the president or officer of equivalent rank indicating the description of the activities to be outsourced;
- b. Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the outsourcing activity; and
- c. Certification, signed by the president or officer of equivalent rank and the chief compliance officer, that the bank has complied with all the prudential criteria under Sec. 111 (*Prudential Criteria*) as well as other pertinent banking laws, rules and regulations on outsourcing.

In case of non-compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*), the bank must secure prior approval from the appropriate supervising department of the Bangko Sentral whose evaluation will be based on the bank's ability to manage risks attendant to outsourcing.

Governance and managing of outsourcing risks. Key risk areas related to outsourcing such as strategic; reputational/legal; operational, compliance, country and concentration risks should be evaluated before entering into and while managing outsourcing contracts. In this regard, banks shall:

- a. Perform risk assessment of a business activity and evaluate the implications of performing the activity in-house or having the activity outsourced.

The following factors shall be considered in the assessment:

- (1) Level of importance to the bank of the activity to be outsourced and potential impact on bank's operations, financial condition, reputation, and ability to achieve its objectives, strategies and plans, should the service provider fail to perform the services;
- (2) Outsourcing costs in proportion to total operating expenses and compared with costs of developing own infrastructure and expertise;
- (3) Aggregate exposure to a particular service provider, in cases when the bank outsources various functions to the same service provider;
- (4) Ability to maintain appropriate controls and meet regulatory requirements, in cases of operational constraints of the service provider; and
- (5) Exposure to risk of confidentiality, integrity and availability of customer and bank data.

In cases when the risk management system is deemed inadequate for purposes of managing outsourcing-related risks, the Bangko Sentral may direct the bank to terminate, modify, make alternative arrangements or re-integrate the outsourced activity into its operations, as may be necessary.

- b. Establish policies and criteria to select the "best" service provider for the outsourced activities and to get said services at reasonable price. The following factors should be considered in evaluating potential service providers:
 - (1) Reputation, ownership structure (to identify potential conflict of interest), technical expertise, and operational capability;
 - (2) Financial performance and condition (e.g., ongoing viability, outstanding commitments, capital/funding strength, liquidity and operating results; and reliance on subcontractors) of the service provider and its closely-related affiliates;
 - (3) Operations and internal control environment (e.g., internal controls, facilities management, training, security of system, privacy protection, maintenance and retention of records, business resumption and contingency plans, systems development and maintenance, and employee background checks);

- (4) Fees and charges (e.g., outsourcing cost should be lower than developing the necessary infrastructure and expertise, comparable with market rates, and reasonable vis-à-vis scope and complexity of services);
- (5) Actual performance vis-à-vis service level agreement;
- (6) Performance of the service provider (past and present engagements) including the reasons/causes of disengagements, if any; and
- (7) Compliance with provisions of service agreements, performance standards and adherence to applicable laws, regulations, and supervisory expectations.

In cases when the clients are prejudiced due to errors, omissions, and frauds by the service provider, the bank shall be liable in providing the appropriate remedies or remuneration as may be allowed under existing laws or regulations, without prejudice to the bank's right of recourse to the service provider.

- c. Establish, maintain, and regularly test business continuity and contingency plans for situations wherein the service provider cannot deliver the required services. The contingency plan must indicate whether another service provider will be tapped or the service/activity will be brought back in-house. This should in turn consider the costs, time, and resources that would be involved.

Contingency arrangements in respect of daily operational and systems problems should be covered in the service provider's own contingency plan. The contingency plan must be reviewed regularly to ensure that it remains relevant and ready for implementation.

- d. Ensure that it has adequate resources to manage and monitor outsourcing relationships on a continuing basis. Banks are expected to develop acceptable performance metrics to assess outsourcing contracts. They shall also maintain records of all outsourcing activities which should be updated and reviewed regularly.
- e. Ensure that personnel with oversight and management responsibilities for service providers have the appropriate level of expertise and stature to manage the outsourcing arrangement. The oversight process, including the level and frequency of management reporting, should be risk- focused. Banks should design and implement risk mitigation plans for higher risk service providers. These may include certain requirements or processes such as additional reporting by the service provider or heightened monitoring. Further, more frequent and stringent monitoring is necessary for service providers that exhibit performance, financial, compliance, or control concerns.

Documentations. The bank should maintain necessary documentation to show that outsourcing arrangements are properly reviewed and the appropriate due diligence has been undertaken prior to implementation. The bank shall keep in its file the documents shown in *Appendix 103* and the same shall be made available to authorized representatives of the Bangko Sentral for inspection.

Intra-group outsourcing. The guidelines and requirements of outsourcing to third-party service providers shall be observed when outsourcing within a business group including its head office, another branch or related company. When the bank is the service provider, the bank may only render services it performs in the ordinary course of its banking business: *Provided*, That (i) the service is rendered to subsidiaries, affiliates and companies related to it by at least five percent (5%) common ownership; or (ii) the service is rendered to its own depositors on account of the bank being a depository. The bank, acting as a service provider within its group, shall uphold the following:

- a. Confidentiality of deposits and investments in government bonds as defined under R.A. No. 1405, as amended;
- b. Prohibition on cross-selling except as allowed under applicable regulations.

Offshore outsourcing. Offshore outsourcing exists when the service provider is located outside the country. The intra-group outsourcing under this Section likewise applies in cases of offshore outsourcing. In addition, offshore outsourcing of bank's domestic operations is permitted only when the service provider operates in jurisdictions which uphold confidentiality. When the service provider is located in other countries, the bank should take into account and closely monitor, on continuing basis, government policies and other conditions in countries where the service provider is based during risk assessment process. The bank shall also develop appropriate contingency and exit strategies.

The Bangko Sentral examiners shall be given access to the service provider and those relating to the outsourced domestic operations of the bank. Such access may be fulfilled by on-site examination through coordination with host authorities, if necessary. The domestic branch of foreign bank shall be principally liable in cases where the clients are prejudiced due to errors, omissions and frauds of the service provider located offshore.

The Bangko Sentral may require the bank to terminate, modify, make alternative outsourcing arrangement or re-integrate the outsourced activity into the bank, as may be necessary, if confidentiality of customer information, effective customer redress mechanisms or the ability of the Bangko Sentral to carry out its supervision functions cannot be assured.

Transitory provision. All outsourcing agreements must be aligned with the provisions under this Section. Existing outsourcing agreements which are not in accordance with this Section will not be unwound. However, it must comply with

the requirements provided herein upon renewal of the agreements.

Supervisory enforcement actions. Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in this Section and its Subsections and bring about timely corrective actions. The Bangko Sentral may issue directives to improve the management of outsourcing arrangements, or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety or soundness of the BSFI, among others. Sanctions may likewise be imposed on a BSFI and/or its directors, officers and/or employees.

(Circular Nos. 1031 dated 7 February 2019, 940 dated 20 January 2017, 930 dated 18 November 2016, and 899 dated 18 January 2016)

113 CROSS-SELLING

The Bangko Sentral recognizes that bank premises may serve as the point for the presentation and distribution of a range of financial products. However, this distribution mechanism can give an understanding that these financial products are created by the bank and thus could lead to an impression that the bank ultimately bears the responsibility for their performance. The Bangko Sentral, therefore, provides an enabling environment for cross-selling activities which defines the responsibilities of banks for managing the attendant risks and upholding consumer protection.

Definition. The following terms as used in this Section are governed by the following definition-

- a. *Cross-selling* means the presentation and/or sale of a financial product, other than bank's own financial product, to a bank client inside bank premises through written or verbal communications.
- b. *Financial conglomerate* refers to a group of interrelated entities providing significant services in at least two (2) different financial sectors (banking, securities and insurance). A banking group is subsumed within the context of a financial conglomerate. A financial product provider must have been disclosed and reported as part of the group structure pursuant to Item "d(8)" of Sec. 132 (*Specific duties and responsibilities of the board of directors*).
- c. *Financial product* of an allied undertaking under Section 20 of the General Banking Law refers to financial products created by a financial product provider belonging to the same financial conglomerate.
- d. *Financial product provider* means a financial entity which creates the financial product. The financial product provider should be regulated or supervised by either the Bangko Sentral, the Securities and Exchange Commission (SEC) or the Insurance Commission (IC).
- e. *Bank premises* refer to the physical area occupied by the bank's head office, branches and other offices.
- f. *Investment risk* refers to the potential loss of the principal amount (either full or partial) invested by the investor.

It also refers to the possibility of not achieving targeted rate of returns for a given investment transaction.

Financial products. Unless otherwise provided, financial products should be created by a financial product provider belonging to the same financial conglomerate. Moreover, such financial products should have been duly approved by the respective regulator, as provided under its rules, before these can be presented and/or sold inside bank premises.

Simple retail financial products which do not create exposure to investment risks may be cross-sold inside bank premises. These include:

- a. Retail lending or loan products such as credit cards, home mortgage loans, personal loans, auto loans and other related retail loan products;
- b. Other retail financial products such as cash cards, debit cards and other related products; and
- c. Other similar financial products as may be authorized by the Monetary Board.

Simple insurance products such as traditional life (whole life, term, endowment), non-life (marine, fire, casualty, suretyship), and other similar protection-type insurance products, except variable insurance contracts, as governed by the Insurance Code are considered as simple retail financial products. These may be cross-sold inside bank premises regardless of whether the financial product provider belongs to the same financial conglomerate or not.

Collective investment schemes (CIS) of financial product providers belonging to the same financial conglomerate may be cross-sold inside bank premises. These refer to:

- a. Mutual funds registered with the SEC;
- b. UITFs as authorized by the Bangko Sentral;
- c. Variable unit-linked life insurance policy (VULs) as governed by the Insurance Code or under the relevant rules and regulations as may be issued by the IC.

Governance. The board of directors of the bank (or its equivalent in the case of foreign bank branches) shall oversee the implementation of its policies relating to cross-selling arrangements.

The bank shall exercise due care and diligence in carrying out cross-selling activities. This process shall extend to both the financial products and financial product providers. The bank shall put in place a formal written policy to assess the nature of the financial product and its suitability for target customer segments. This written policy should, at the very least, enable the bank to reach an objective assessment of the suitability of the financial product to be cross-sold.

The bank shall recognize the customers' right to product choice, to refuse bundled or tiered financial products or services under cross-selling arrangements, and to substitute equivalent financial products by reputable competitors.

The bank shall ensure that a mechanism is in place to address any complaints that may arise from cross-selling transactions. This mechanism shall form part of the agreement between the bank and the financial product provider.

The bank shall periodically review all of its cross-selling arrangements. In particular, the bank shall take into account operational and reputational risks that may arise in the arrangement. The results of the continuing review shall be reported to the board of directors of the bank. The bank shall likewise maintain a register of its cross-selling arrangements particularly on the list of financial products and financial product providers.

To avoid any impression that the fulfillment of promises of the CIS products cross-sold within bank premises are guaranteed by the bank, the following shall be observed, at all times:

- a. Unless specifically trained and qualified for the purpose, the role of bank employees in cross-selling CIS shall be limited to the referral of bank clients to the representatives of financial product providers. Clients should give prior consent before any such referral.
- b. There shall be clear distinction between representatives of financial product providers who sell CIS and bank employees. Bank employees authorized to market and/or sell CIS shall be clearly identified.
- c. The presentation and/or sale of CIS shall be conducted in an area distinct from areas where own bank products are sold.

Minimum documentary requirements. The bank should maintain necessary documentation to support that cross-selling arrangements are properly reviewed and appropriate due diligence has been undertaken.

This shall, at a minimum, include the following:

- a. Approval of the board of directors of both the bank and the financial product provider to use the former's bank premises for the presentation and sale of the latter's financial products;
- b. Audited financial statements of the financial product provider for the last three (3) years;
- c. Detailed description of the financial product and proof of regulatory approval, if any;
- d. Registration and/or accreditation of the financial product provider from the respective regulator;
- e. Contract between the bank and the financial product provider;
- f. Sample of contracts between the financial product provider and its clients;
- g. Promotional materials; and
- h. Training profile and necessary license, if required, of representatives who will be handling the cross-selling activity.

These documents shall be made available when requested by Bangko Sentral examiners.

Fair and balanced view of the product. Advertising materials and contracts must give a fair and balanced view of the product. These materials may be considered fair and balanced when they are clear and easily understood; highlight the purpose and risks of the financial product; and do not omit any material information if such omission would cause the materials to be misleading.

Promotional materials. The bank shall ensure that the identity of the financial product provider is prominently displayed in the relevant marketing and advertising materials. The relationship of the bank with the financial product provider may be reflected in the promotional materials as long as it does not create an impression that it is the product of the bank whose premises are used.

The promotional materials should explicitly state that the product is not a deposit. The information contained in any document used in the presentation and sale of financial products inside bank premises must contain, at a minimum, the words: "*financial product/s of (financial product provider) is/are not insured by the Philippine Deposit Insurance Corporation and is/are not guaranteed by the (name of bank)*", as the case may be. This shall be printed in capital letters, black letters against light background/white letters against dark background with the following print size:

Size of Promotional Material	Print Size
Legal/letter size	12
15" x 20"	24

Contracts. The following paragraph shall be printed at the end of the contract in the print size as the rest of the contract, or font size 12 whichever is bigger, in capital letters and in bold font:

"This contract is between (name of client) and (name of financial product provider). All transactions arising out of or related to this contract shall be binding only between these two (2) contracting parties. It is understood that this transaction is neither insured by the Philippine Deposit Insurance Corporation (PDIC) nor guaranteed by the (name of bank)."

Cross-selling of collective investment schemes and its suitability to customers. In the cross-selling of CIS, enhanced consumer protection standards are necessary since bank clients who invest in these products are exposed to investment risk. At the onset, banks must ensure that CIS as financial products are compliant with relevant prudential regulations issued by the respective government bodies and agencies governing their issuance before entering into any cross-selling arrangements. With respect to consumer protection features, a cross-selling bank must ensure that financial product providers observe the following minimum practices:

- a. **Product Highlight Sheet (PHS).** Potential clients must be provided with a PHS. This succinct document summarizes the key information of the financial product which will be material to the proper understanding by the client of the product, its features and risks. The PHS should at least be a separate document but may form part of the prospectus or contract.

Among the key questions that must be covered in the PHS are:

- (1) What are you investing in and who are you investing with?
 - (2) What are the key risks of this investment?
 - (3) What are the fees and charges for this investment?
 - (4) How often are valuation available?
 - (5) How can you exit from this investment and what are the risks and costs in doing so?
 - (6) How do you contact us?
 - (7) What other important information should you know before you invest?
- b. **Client Suitability Assessment (CSA).** A CSA of each client shall be undertaken prior to the acquisition of an investment product by the client. The CSA should determine the client's understanding of, tolerance for and capacity in managing various risks.
 - c. **Investment Policy Statement (IPS).** As a complement to a CSA, an IPS must have been generated for a bank client. The IPS formalizes the investment philosophy of the client as well as any investment directive of the client with respect to the handling of his investible funds.
 - d. **Disclosure of conflict of interest.** Financial product providers should disclose any material information which can give rise to an actual or potential conflict of interest to the client. Financial product providers should take all reasonable steps to ensure fair dealings with client.
 - e. **Standard disclosure statement.** All promotional materials, product highlights sheet and contracts of collective investment schemes should contain a standard disclosure statement which reads as:

"This is not a deposit product. Earnings are not assured and principal amount invested is exposed to risk of loss. This product cannot be sold to you unless its benefits and risks have been thoroughly explained. If you do not fully understand this product, do not purchase or invest in it."

This disclosure statement shall be placed in the front cover of any material used within bank premises for cross-selling purposes. This is in addition to the minimum information provided under this Section on Fair and balanced view of the product. The text should be in bold with a minimum font size of twelve (12).

The cross-selling bank shall maintain adequate documentation, available for inspection by the Bangko Sentral examiners, to evidence that above requisites are properly undertaken.

Financial product providers. The bank shall exercise due care and diligence in selecting financial product providers. The bank shall consider the integrity, operational capability, financial capacity and track record of the financial product provider. In particular, the bank shall ensure that the financial product provider has in place a mechanism to resolve all queries, problems, and other concerns arising from cross-selling activities and this shall form part of the agreement between the bank and the financial product provider.

It is the responsibility of the financial product provider to assess its representatives in terms of sufficient knowledge of the financial product, adequate training and necessary license, when required.

The Bangko Sentral should be satisfied that the bank and the financial product provider belong to the same financial conglomerate, as applicable, before cross-selling arrangements may be allowed.

When the financial product provider is under the supervision of the Bangko Sentral, the financial product provider must have a CAMELS composite rating of at least “3” or its equivalent.

Authority to cross-sell. A bank may engage in cross-selling activities subject to approval of the Bangko Sentral and compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*). A bank applying for authority to cross-sell financial products shall submit the following to the appropriate supervising department of the Bangko Sentral:

- a. Application letter to engage in cross-selling activities signed by the president, or officer of equivalent rank, which shall contain the following: (i) justifications on how the license to engage in cross-selling financial products is aligned with the bank’s business model and strategic direction; (ii) types of financial products that will be offered and the target clients; and (iii) names of financial product providers and description of their relationships with the bank and how they are related in the context of a financial conglomerate. In cases when the bank shall cross-sell simple insurance products of financial product providers that do not belong to the same financial conglomerate as the bank, the bank shall disclose any existing businesses or contractual agreements it has with the concerned financial product providers.
- b. Corporate secretary’s certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the cross-selling of financial products; and
- c. Certification, signed by the president or officer of equivalent rank and the chief compliance officer, that the bank has complied with all the prudential criteria under Sec. 111 (*Prudential Criteria*) as well as other pertinent banking laws, rules and regulations on cross-selling.

Banks may subsequently offer additional financial products from the same or from other financial product providers without prior approval of the Bangko Sentral subject to continuing compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) and submission, within 10 banking days upon approval by the board of directors of the proposal to offer additional financial products, of the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Notification letter signed by president or officer of equivalent rank indicating the description of the additional financial products that will be offered and the target clients;
- b. Names of the other financial product providers and description of their relationships with the bank and how they are related in the context of a financial conglomerate. In cases when the bank shall cross-sell simple insurance products of financial product providers that do not belong to the same financial conglomerate as the bank, the bank shall disclose any existing business or contractual agreements it has with the concerned financial product providers;
- c. Corporate secretary’s certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the cross-selling of additional financial products of the financial product providers; and
- d. Certification, signed by the president or officer of equivalent rank and the chief compliance officer, of the bank’s continuing compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) as well as pertinent banking laws, rules and regulations on cross-selling.

Complaints handling. The bank shall be jointly responsible with the financial product provider in the resolution of any complaint arising from cross-selling transactions. For this purpose, the bank shall establish an effective redress mechanism which shall specifically include processes and procedures for handling any complaint arising from cross-selling transactions.

Sanctions. Violations of the provisions of this Section shall constitute grounds for the imposition on the bank and/or its directors/officers of any or a combination of the following:

- a. Monetary penalty - Any amount as may be authorized by the Monetary Board not to exceed P30,000 a day for each violation from the time the violation was committed until it is corrected; and
- b. Non-monetary sanction - Any sanctions that the Monetary Board may deem appropriate and allowed by law considering the gravity of the offense.

(Circular Nos. 1031 dated 7 February 2019, 969 dated 22 August 2017, and 890 dated 02 November 2015)

113-B MARKETING, SALE AND SERVICING OF MICROINSURANCE PRODUCTS BY THRIFT BANKS¹

In order to better serve microfinance clients pursuant to the financial inclusion thrust of National Strategy and Regulatory Framework for Microinsurance, a TB, including its authorized branch/es, branch-lite unit/s, can present, market

¹ Insurance Commission (IC) issued Circular Letter (CL) No. 2015-54 dated 16 October 2015 requiring the adoption and implementation of the Enhanced Microinsurance Regulatory Framework

and sell microinsurance products as defined under the Insurance Commission's Memorandum Circular (IMC) No. 1-2010¹: *Provided*, That the microinsurance product is duly approved by the Insurance Commission.

The presentation, marketing and sale of microinsurance products by TBs has been determined to be a necessary and complementary component of the primary business of TBs considering the relationship of the latter with their microfinance clients. For this purpose, the Monetary Board has defined that for TBs, microinsurance products as defined under IMC Nos. 9-2006² and 1-2010² shall serve as a "financial product of an allied undertaking" under Section 20 of the General Banking Law.

A TB can also service (i.e., collect premiums and pay claims) microinsurance products as collection and payment agents pursuant to Section 53.3 of the General Banking Law.

A TB which intends to avail of the option to market or sell microinsurance products shall ensure that microinsurance products presented and marketed are clearly distinguishable from bank products. Towards this end, all organic documents, informational and promotional materials used in the presentation and sale of these products shall prominently display both the name of the issuing insurance provider and a clause stating that the insurance product/s of (name of issuing insurance provider) is/are not insured by the PDIC and is/are not guaranteed by the (name of bank)". The bank shall also ensure compliance with pertinent laws and rules on the sale of microinsurance products set by the Insurance Commission. As part of product due diligence, the bank should check whether the microinsurance product-issuing insurance provider has a functioning customer care and claims- handling mechanism to handle consumer protection issues.

A bank, prior to selling and/or marketing microinsurance products, shall submit the following documents to the Bangko Sentral as bases for the latter's evaluation:

- a. Copy of the approval of the bank's board of directors on the presentation, sale and servicing (i.e., collect premiums and pay claims) of microinsurance products;
- b. Copy of duly executed written agreement between the bank and the insurance provider on the presentation, sale and servicing by the bank of the financial products of the latter, including the terms of compensation for the services;
- c. Copy of the letter of approval from the Insurance Commission covering each of the microinsurance product to be marketed or sold by the bank;
- d. Copy of the corresponding Certificate of Authority from the Insurance Commission of the insurance provider/s issuing the microinsurance products to be marketed or sold; and
- e. Bank's license from the Insurance Commission as a microinsurance agent or broker, as may be applicable³.
- f. Certification from the bank president that he/she ascertained and will ensure continuing compliance with the following:
 - (1) The product is authorized for cross selling under existing Bangko Sentral rules and regulations;
 - (2) The microinsurance product is approved by the Insurance Commission and issued by an entity duly licensed and held in good standing by the Insurance Commission;
 - (3) The bank conducted product due diligence to be suitable to its customers;
 - (4) The organic, informational and promotional materials for the microinsurance products comply with Bangko Sentral requirements; and
 - (5) The bank personnel concerned has undertaken the necessary training and passed the qualifying examination for the presentation and sale of microinsurance products, in compliance with the requirements set forth by the Insurance Commission on marketing personnel for insurance products.
- g. A letter of undertaking from the bank president that he/she will ensure the retention of the following:
 - (1) Copies of the latest Certificate of Authority from the Insurance Commission covering all insurance companies whose microinsurance products are being marketed or sold by the bank;
 - (2) Copies of the letters of approval from the Insurance Commission covering all the microinsurance products to be marketed or sold;
 - (3) Bank's license from the Insurance Commission as a microinsurance agent or broker or in lieu of a bank's license as a microinsurance agent or broker, copies of the license from the Insurance Commission covering all its marketing personnel for microinsurance products; and
- h. Such other information that may be required by the Bangko Sentral.

¹ Dated 29 January 2010

² Dated 25 October 2006

³ To act as a microinsurance agent of an authorized insurance provider, a bank needs to acquire the appropriate license from the IC. The requirements for such application consist of: (i) attendance in prescribed microinsurance training course and passing the qualifying examination at the end of the course; and (ii) amending a bank's articles of incorporation (AOI). In view of the latter requirement, applicant banks shall amend their AOI by including a secondary purpose of acting as a microinsurance agent, and shall submit simultaneously the amended AOI to the appropriate Bangko Sentral office and the IC. (See IC Memo Circular No. 6-2011 dated 15 February 2011)

TBs may apply for authority to sell and/or market microinsurance products subject to compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) and the following requirements.

- a. Issuance of license from the Insurance Commission (IC)
 - (1) Submit to the appropriate supervising department of the Bangko Sentral, a notice of intention to act as microinsurance agent or broker. The Bangko Sentral shall then issue a no objection letter pursuant to Memorandum to All Banks No. 2011-15 dated 18 March 2011 on the Reminder on the Proper Offering of Microfinance Services; and
 - (2) Secure license from the IC as a microinsurance agent or broker, as may be applicable¹
- b. Grant of Authority to Sell and/or Market Microinsurance Products. The bank shall secure prior Bangko Sentral approval and shall submit the following documents to the appropriate supervising department of the Bangko Sentral:
 - (1) Application letter signed by the president or officer of equivalent rank including justifications on how the license is aligned with the bank's business model and strategic direction. In addition, the application letter shall contain a description of the relationship of the bank with the financial product provider in the context of the financial conglomerate, as applicable, as well as description of the financial products. In cases when the bank shall cross-sell microinsurance products of financial product providers that do not belong to the same financial conglomerate as the bank, the bank shall disclose any existing businesses or contractual agreements it has with the concerned financial product providers;
 - (2) Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the presentation, sale and servicing (i.e., collect premiums and pay claims) of microinsurance products;
 - (3) Certification, signed by the president or officer of equivalent rank and the chief compliance officer that the bank has complied with all the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) and other pertinent banking laws, rules and regulations, and that:
 - (a) The microinsurance product is authorized for cross selling under existing Bangko Sentral rules and regulations;
 - (b) The microinsurance product is approved by the IC and issued by an entity duly licensed and held in good standing by the IC;
 - (c) The bank conducted product due diligence to be suitable to its customers. As part of product due diligence, the bank has likewise determined that the microinsurance product-issuing insurance provider has a customer care and claims-handling mechanism in place to handle consumer concerns;
 - (d) The organic informational and promotional materials for the microinsurance products comply with BSP requirements; and
 - (e) The bank personnel concerned has undertaken the necessary training and passed the qualifying examination for the presentation and sale of microinsurance products, in compliance with the requirements set forth by the IC on marketing personnel for insurance products;
 - (f) The bank has duly executed a written agreement with the insurance provider on the presentation, sale and servicing by the bank of the financial products of the latter, including the terms of compensation for the services;
 - (g) The bank shall maintain the following documents as part of its records:
 - (i) Copies of the latest Certificate of Authority from the IC covering all insurance companies whose microinsurance products are being marketed or sold by the bank;
 - (ii) Copies of the letters of approval from the IC covering all the microinsurance products to be marketed or sold; and
 - (iii) Bank's license from the IC as a microinsurance agent or broker or in lieu of a bank's license as a microinsurance agent or broker, copies of the license from the IC covering all its marketing personnel for microinsurance products; and
 - (4) Bank's license from the IC as a microinsurance agent or broker.

¹ To act as a microinsurance agent of an authorized insurance provider, a bank needs to acquire the appropriate license from the IC. The requirements for such application consist of: (i) attendance in prescribed microinsurance training course and passing the qualifying examination at the end of the course; and (ii) amending a bank's articles of incorporation (AOI). In view of the latter requirement, applicable bank shall amend their AOI by including a secondary purpose of acting as a microinsurance agent, and shall submit simultaneously the amended AOI to the appropriate BSP office and the IC. (See IC Memo Circular No. 6-2011 dated 15 February 2011).

A bank authorized to sell and/or market microinsurance products must amend its AOI to include acting as microinsurance agent/broker as secondary purpose. The guidelines on the issuance of the Certificate of Authority to register with the SEC to amend the AOI are provided under Sec. 102 (*Certificate of Authority to Register*).

A TB may subsequently sell and/or market additional microinsurance products without prior approval of the Bangko Sentral subject to continuing compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) and submission of the following to the appropriate supervising department of the Bangko Sentral within 10 banking days upon approval by the board of directors:

- a. Notification letter signed by the president or officer of equivalent rank describing the additional microinsurance product that will be sold and/or marketed and the target clients;
- b. Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the selling and/or marketing of additional microinsurance products; and
- c. Certification, signed by the president or officer of equivalent rank and the chief compliance officer, of the bank's continuing compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) as well as with pertinent banking laws, rules and regulations on marketing, sale, and servicing of microinsurance products by thrift banks.

(Circular Nos. 1031 dated 7 February 2019, 917 dated 08 July 2017, M-2015-041 dated 27 November 2015, and Circular No. 890 dated 02 November 2015)

113-C MARKETING, SALE AND SERVICING OF MICROINSURANCE PRODUCTS BY RURAL AND COOPERATIVE BANKS¹

The marketing, sale and servicing of microinsurance products by RBs and Coop Banks shall comply with the guidelines in Sec. 113-B.

(Circular No. 917 dated 08 July 2017 and M-2015-041 dated 27 November 2015)

114 PROHIBITION ON THE SALE OF FOREIGN-BASED MUTUAL FUNDS BY BANKS

Criminal and administrative sanctions prescribed under Sections 36 and 37, respectively, of R.A. No. 7653 (The New Central Bank Act) shall be imposed on banks marketing/selling foreign-based mutual funds using any or all of their branches as outlets and/or selling such financial products without prior Bangko Sentral approval.

C. CAPITALIZATION AND RISK-BASED CAPITAL

121 MINIMUM REQUIRED CAPITAL

Definition of Capital. The following provisions shall govern the capital requirements for banks.

The term capital shall be synonymous to *unimpaired capital and surplus, combined capital accounts and net worth* and shall refer to the total of the unimpaired paid-in capital, surplus and undivided profits. For this purpose, the following items shall likewise be added to or deducted from capital:

- a. Deposits for stock subscription recognized as equity pursuant to Section 123 shall be added to capital.
- b. The following shall be deducted from capital:
 - (1) Treasury stock;
 - (2) Unbooked allowance for probable losses (which includes allowance for credit losses and impairment losses) and other capital adjustments as may be required by the Bangko Sentral;
 - (3) Total outstanding unsecured credit accommodations, both direct and indirect, to directors, officers, stockholders, and their related interests (DOSRI) granted by the bank proper;
 - (4) Total outstanding unsecured loans, other credit accommodations and guarantees granted to subsidiaries;
 - (5) Total outstanding loans, other credit accommodations and guarantees granted to related parties, as defined in Item "n", Sec. 131 (*Definition of Terms*), that are not at arm's length terms as determined by the appropriate supervising department of the Bangko Sentral;
 - (6) Deferred tax assets that rely on future profitability of the bank to be realized, net of any (a) allowance for impairment and (b) associated deferred tax liability, if the conditions cited in PAS 12 on Income Taxes are met: *Provided*, That, if the resulting figure is a net deferred tax liability, such excess cannot be added to net worth;
 - (7) Reciprocal investment in equity of other banks/enterprises, whether foreign or domestic, the deduction shall be the lower of the investment of the bank or the reciprocal investment of the other bank or enterprise; and

¹ IC issued Circular Letter (CL) No. 2015-54 dated 16 October 2015 requiring the adoption and implementation of the Enhanced Microinsurance Regulatory Framework

- (8) In the case of RBs/Coop Banks, the government counterpart equity, except those arising from conversion of arrearages under the Bangko Sentral rehabilitation program.

With respect to Item “b” hereof, the provision in Sec. 341 (*Definitions*) shall apply except that in the definition of *stockholders* in said Section, the qualification that his stockholdings, individually and/or together with his related interest in the lending bank, should at least amount to two percent (2%) or more of the total subscribed capital stock of the bank, shall not apply for the purpose of this Item.

Minimum capitalization. The minimum capitalization of banks shall be as follows:

Bank Category	Required Minimum Capitalization
UBs	
Head Office Only	P3.00 billion
Up to 10 branches ¹	6.00 billion
11 to 100 branches ¹	15.00 billion
More than 100 branches ¹	20.00 billion
KBs	
Head Office Only	P2.00 billion
Up to 10 branches ¹	4.00 billion
11 to 100 branches ¹	10.00 billion
More than 100 branches ¹	15.00 billion
TBs	
Head Office in National Capital Region (NCR)	
Head Office Only	P500 million
Up to 10 branches ¹	750 million
11 to 50 branches ¹	1.00 billion
More than 50 branches ¹	2.00 billion
Head Office in all Other Areas Outside NCR	
Head Office Only	P200 million
Up to 10 branches ¹	300 million
11 to 50 branches ¹	400 million
More than 50 branches ¹	800 million

11 to 50 branches ¹	40 million
More than 50 branches ¹	80 million
Head Office in All Other Areas Outside NCR	
(4th class to 6th class municipalities)	
Head Office Only	P10 million
Up to 10 branches ¹	15 million
11 to 50 branches ¹	20 million
More than 50 branches ¹	40 million

For purposes of compliance with this Section, the term branch shall exclude the *branch-lite* units of banks.

The above shall also be the required minimum capitalization upon (a) establishment of a new bank, (b) conversion of an existing bank from a lower to a higher category bank and vice versa, and (c) relocation of the head office of a TB/RB in an area of higher classification.

For the grant of the following special banking authorities:

¹ Branches- inclusive of Head Office

- a. Quasi-banking functions for TBs;
- b. Trust and other fiduciary business for U/KBs and TBs;
- c. Limited trust for TBs and RBs/Coop Banks;
- d. Foreign currency deposit unit/expanded foreign currency deposit unit (FCDU/EFCDU);
- e. Issuance of foreign letters of credit (LCs) for TBs;
- f. Acceptance of demand deposit and NOW accounts for TBs and RBs/Coop Banks; and
- g. Acting as third party custodian/registry;

the higher of (a) the required minimum capital under this Section at the time of the application for the grant of special banking authority or (b) the amount specified in the applicable Sections for the grant of special banking authorities shall be the required minimum capital which shall be complied with on a continuing basis.

Transitory provisions. Banks which are existing, or which are already authorized by the Monetary Board but not yet operating, or persons from whom completed applications have been received but pending action by the Bangko Sentral, shall be allowed five (5) years from 19 November 2014 within which to meet the above minimum capital requirements. Banks granted with special banking authorities/licenses which require compliance with minimum capital requirements shall be given five (5) years from 19 November 2014 within which to comply.

Banks which comply with the new capital levels shall submit to the Bangko Sentral a certification to this effect within thirty (30) calendar days from 19 November 2014. Banks not meeting the required minimum capital must submit to the Bangko Sentral an acceptable capital build-up program for this purpose within one (1) year from 19 November 2014. If the prescribed minimum capital necessitates an increase in the authorized capital stock, affected banks shall cause the corresponding amendments to their articles of incorporation/cooperation.

The appropriate supervising department of the Bangko Sentral will evaluate the continuing compliance of banks to the aforementioned capital build-up program. The Bangko Sentral may require appropriate actions and/or impose sanctions for non-compliance with the capital build-up program as provided under existing banking laws and/or Bangko Sentral rules and regulations.

Guidelines on proposed investment from third party investors (TPIs) for purposes of complying with the minimum capital requirements. The Bangko Sentral recognizes the indispensable role of banks in providing financial services to the public and their significant role in attaining sustainable economic development, while adhering to its mandate to safeguard and promote the stability of the financial system by ensuring that banks operate in a safe and sound manner. Hence, the Bangko Sentral sets forth the following guidelines on proposed investments from third party investor/s (TPIs) for purposes of addressing the capital deficiency and restoring the viability of banks:

- a. A bank that has already entered into a final agreement with a TPI to invest in the bank, which amount of investment shall cover the full amount of the capital deficiency, shall immediately submit the subscription contract/written agreement with the TPI to the Bangko Sentral. It is understood that with the submission of such contract, the TPI has already agreed to infuse the needed funds to cover the capital deficiency.
- b. In case the transaction requires prior Bangko Sentral approval under Sec. 122 (*Transactions involving voting shares of stocks*, Item “b”), the bank shall submit the following documentary requirements within fifteen (15) banking days from the submission of the aforementioned subscription contract/written agreement or within the timeline prescribed by Sec. 122 (*Transactions involving voting shares of stocks*, Item “b”)¹, whichever is earlier:
 - (1) Bank’s request (*signed by the president or officer of equivalent rank*) for Bangko Sentral approval of the subject transactions (*accompanied by a Board Resolution of the TPI to that effect, if the TPI is a corporation*);
 - (2) Certified copies of documents showing that the amount of proposed investment of the TPI is deposited/placed in an independent bank², such as, certificate of escrow deposit or certificate of deposits with hold-out agreement showing the availability/hold out of funds for the said purpose, together with the corresponding waiver of secrecy of deposits/investments;
 - (3) Documentary requirements under Sec. 122 (*Transactions involving voting shares of stocks*, Item “b”); and
 - (4) Other documentary requirements as may be required by the Bangko Sentral.
- c. The bank shall also comply with the requirements under Sec. 123 on the treatment of deposit for stock subscription as part of the equity, if applicable.
- d. In case a bank has a pending application with the PDIC under the Consolidation Program for Rural Banks (CPRB) or other similar programs, the bank and the TPI shall submit a joint certification signed by the president or officer of equivalent rank of the bank and the TPI concerned that there is a pending application with the PDIC, together with PDIC’s acknowledgement receipt of said application.

¹ Sixty (60) calendar days from date of transaction or thirty (30) calendar days from receipt of corporate secretary of the transaction, whichever comes first.

² Refers to a third party bank

In this regard, it is understood that mere submission to Bangko Sentral of a TPI's Letter of Intent (LOI) to invest in the bank shall not be considered sufficient action to address the bank's capital deficiency. Moreover, the investment of the TPI would not be considered for purposes of addressing the capital deficiency if the aforementioned requirements are not complied with, except in cases when the TPI exhibits strong financial capacity and firm commitment¹ to address the capital deficiency of a bank based on assessment, taking into consideration the submitted documents and other available pertinent information.

If the above requirements are not submitted within the given period, the appropriate supervising department of the Bangko Sentral may proceed in recommending appropriate supervisory action/s on the bank, if applicable.

(Circular Nos. 1027 dated 28 December 2018, 1002 dated 10 May 2018, 987 dated 28 December 2017, 932 dated 16 December 2016, and 914 dated 23 June 2016)

122 SHARES OF STOCKS OF BANKS

The following shall govern transactions affecting shares of stock of banks and the limits on stockholdings in a single bank or in several banks.

For purposes of this Section, the term "corporations" shall include partnerships, cooperatives, associations and other juridical persons/entities.

Limits of stockholdings in a single bank. The stockholdings of an individual, corporation, family group, or same group of persons in any bank shall be subject to the limits prescribed in Sections 11, 12, and 13 of R.A. No. 8791, R.A. No. 7906, R.A. No. 7353, as amended by R.A. No. 10574, R.A. No. 7721 as amended by R.A. No. 10641, and other relevant laws as summarized in the table below:

Particulars	Ceiling
(a) Voting shares of stock of a foreign individual or a foreign non-bank corporation in:	
i. UB/KB, TB and Digital Bank	40%
ii. RB	60%
(b) Aggregate ownership of the voting shares of stock of foreign individuals and/or foreign non-bank corporations in:	
i. UB/KB and Digital Bank	40%
ii. TB/RB	60%
(c) Voting shares of stock of a qualified foreign bank in UB, KB, TB, RB and Digital Bank	100%
(d) Combined ownership of the voting shares of stock of qualified foreign banks in UB, KB, TB, RB and Digital Bank	100%
(e) Voting shares of stock of a Filipino individual or a Philippine non-bank corporation in:	
i. UB/KB, TB and Digital Bank	40%
ii. RB	60%
Voting shares of stock of a qualified Philippine Corporation in UB, KB, TB and RB, prior to the effectivity of R.A. 10641 (7 August 2014)	60%
(f) Combined ownership of an individual and corporation/s which is/are wholly owned or a majority of the voting shares of stock of which is owned by such individual in:	
i. UB/KB/TB and Digital Bank	40%
ii. RB	60%

- a. Any foreign individual or non-bank corporation may each own or control up to forty percent (40%) only of the voting stock of a UB, KB, TB or Digital Bank: *Provided*, That the aggregate foreign-owned voting stock owned by foreign individuals and non-bank corporations shall not exceed forty percent (40%) of the voting stock of the UB/KB, and Digital Bank and sixty percent (60%) in the case of TBs.

For RBs, non-Filipino citizens, excluding foreign banks, may each or in the aggregate, own, acquire or purchase, up to sixty percent (60%) of the voting stock in an RB.

The percentage of foreign-owned voting stock in a bank shall be determined by the citizenship of the individual or corporate stockholders in that bank.

¹ Examples are the following:

- The bank and its eligible TPI-bank communicated the TPI's intent to acquire/merge/consolidate with the bank but needs more time for the completion of the due diligence audit and finalize the agreement between the parties;
- Submission of documents showing the eligibility and seriousness of the commitment of the TPI such as certificate of escrow deposit in an independent bank and other documents such as audited financial statements and income tax returns of the TPI which show its financial capacity to acquire the bank.

- b. Qualified foreign banks may own or control up to 100% of the voting stock of a domestic bank.
- c. Any Filipino individual or a domestic non-bank corporation may each own up to forty percent (40%) only of the voting stock of a UB, KB, TB or Digital Bank, and up to sixty percent (60%) only of the voting stock of an rural bank.
- d. An individual and a corporation or corporations which are wholly-owned, or a majority of the voting stock of which is owned, by him, may own only up to a combined forty percent (40%) of the voting stock of a UB, KB, TB or Digital Bank, and up to a combined sixty percent (60%) of the voting stock of an RB.
- e. Stockholdings of family groups or related interests. Individuals related to each other within the fourth degree of consanguinity or affinity, whether legitimate, illegitimate or common-law, shall be considered family groups or related interests and may each own up to forty percent (40%) of the voting stock of a UB, KB, TB or Digital Bank and up to sixty percent (60%) of the voting stock of an RB: *Provided*, That said relationship must be fully disclosed in all transactions by such individuals or family groups or related interests.
- f. Two (2) or more corporations owned or controlled by the same family group or same group of persons shall be considered related interests but may each own up to forty percent (40%) of the voting stock of a UB, KB, TB or Digital Bank and up to sixty percent (60%) of the voting stock of an RB: *Provided*, That said relationship must be fully disclosed in all transactions by such individuals or family groups or related interests.
- g. Ceiling on stockholdings in a Coop Bank. The equity investment of any cooperative in any Coop Bank shall not exceed forty percent (40%) of the subscribed capital stock of such Coop Bank.
- h. Determination of foreign-owned voting stock and citizenship of corporate stockholders in a bank as well as the relationship of stockholders of a bank.
 - (1) The percentage of foreign-owned voting stocks in a bank shall be determined by the citizenship of all the stockholders in that bank.
 - (2) The citizenship of the corporation, which is a stockholder of a bank shall follow the citizenship of the controlling stockholders of the corporation, irrespective of the place of incorporation. For purposes hereof, the term “controlling stockholders” shall refer to stockholders holding more than fifty percent (50%) of the voting stock of the corporate stockholders of the bank.

In the case of RBs, a corporate stockholder thereof shall be deemed Filipino-owned if it is organized under the laws of the Philippines and at least sixty percent (60%) of its capital is owned by Filipino citizens.

- (3) The relationship of individuals who are stockholders of a bank shall be determined in accordance with the provisions of Articles 963 to 966 of the Civil Code of the Philippines.

Transactions involving voting shares of stocks. The following regulations shall govern all transactions involving voting shares of stocks in banks.

For purposes hereof, “transaction” shall refer to subscription/issuance, purchase/sale, transfer, conversion of preferred shares or debt instruments into voting shares of stock, and such act, contract, agreement or arrangement whereby a person, whether natural or juridical, acquires voting shares of stock from one person, whether natural or juridical, or is vested the right to vote or the control of the voting shares of stock of a bank.

- a. *Unlawful and void transactions involving voting shares of stock of banks.* The following transactions, to the extent of the excess over any of the prescribed ceilings under R.A. No. 8791, R.A. No. 7906, R.A. No. 7353, as amended by R.A. No. 10574, R.A. No. 7721 as amended by R.A. No. 10641 and other relevant laws are hereby declared unlawful and void:
 - (1) Any transaction involving voting shares of stock of a bank, if such transaction, in itself, or in relation with other/previous transaction/s shall result in the ownership and control by an individual or corporation of voting shares of stock in excess of any of the prescribed limits of stockholdings in a bank.
 - (2) Any act, contract, agreement or arrangement, such as voting trust agreement or proxy, which vests in any person, whether natural or juridical, the right to vote or the control of the voting shares of stock of a bank, if such arrangement in itself, or in relation with other/previous transaction/s, shall result in the acquisition of the right to vote or the control of voting shares of stock of the bank, in excess of the prescribed ceilings.
- b. *Transactions requiring prior Monetary Board approval*
 - (1) Prior approval of the Monetary Board shall be required on transaction involving voting shares of stock of a bank, if such transaction, in itself or in relation with other/previous transactions will:

- (a) Result in ownership or control of more than twenty percent (20%) of voting shares of stock of a bank by any person whether natural or juridical or which will enable such person to elect, or be elected as, a director of such bank; or
 - (b) Effect a change in the majority ownership or control of the voting shares of stock of the bank from one (1) group of persons to another group: *Provided*, That in no case shall such transaction be approved unless the bank concerned shall immediately comply with the prescribed minimum capital requirement for new banks, notwithstanding any approved capital build-up program.
- (2) The request for prior Monetary Board approval shall be submitted jointly by the transferor-stockholder (or the bank in the case of additional subscription or conversion of preferred shares or debt instruments) and the transferee-stockholder thru the bank to appropriate supervising department of the Bangko Sentral. The request shall be accompanied by, in the case of transferee-stockholder, the same papers/documents required of incorporators/stockholders of newly established banks as provided in *Appendix 33*. The corporate secretary shall hold in abeyance the registration of the transaction until the required prior Bangko Sentral approval is submitted as provided hereof.
 - (3) In the case of additional subscription, the bank shall not recognize the fund infused by the subscriber in its book as asset and liability or equity unless prior Monetary Board approval is obtained. Pending approval by the Monetary Board, the fund infused by the subscriber shall be placed in an independent bank, such as, in the form of an escrow deposit or deposit with hold-out agreement showing availability/hold-out of funds for the said purpose.
 - (4) *Sanctions*. Any willful delay in the submission by the transferor and transferee of the request for prior Monetary Board approval, together with the required supporting papers/documents, within sixty (60) calendar days from date of transaction or thirty (30) calendar days from receipt by corporate secretary of request for registration of the transaction, whichever is earlier, shall subject the transferor, the transferee, or both to the sanctions prescribed under Section 35 of R.A. No. 7653, without prejudice to the appropriate legal actions for the rescission and invalidation of the transaction.

Moreover, any director and/or officer of a bank found to be acting in the interest of an unregistered stockholder shall be subject to the applicable administrative sanctions under Section 37 of R.A. No. 7653, without prejudice to the filing of appropriate criminal charges as provided under Section 36 of R.A. No. 7653.

Furthermore, any violation of the provisions under Item “b(3)” hereof shall subject the bank and/or its directors and/or officers to the applicable administrative sanctions under Section 37 of R.A. No. 7653, without prejudice to the filing of appropriate criminal charges as provided under Section 36 of R.A. No. 7653.

- c. Duties of a corporate secretary. In all transactions, which may lawfully come to the knowledge of the corporate secretary involving voting shares of stock of a bank such as but not limited to subscription/issuance, purchase/sale, transfer, conversion of preferred shares or debt instruments into voting shares of stock, or registration of voting trust agreements, or any form of agreement vesting the right to vote or the control of the voting shares of stock of the bank, the corporate secretary shall, before registering the transaction or agreement in the stock and transfer book of the bank:
 - (1) ascertain the identity and citizenship of the subscriber, purchaser, transferee or recipient of voting shares of stock, voting trustee, proxy or person vested with the right to vote, and for this purpose, he should require the subscriber, transferee or recipient of voting shares of stock, voting trustee, proxy or the person vested with the right to vote to submit proof of citizenship, which may consist, in case of a corporation, of a certified true copy of the articles of incorporation, accompanied by the affidavit of the corporate secretary of the corporation, certifying to the correctness and accuracy of the list of stockholders, their citizenship and the percentage of shares owned by them;
 - (2) require the subscriber, purchaser, transferee or recipient of voting shares of stock, voting trustee, proxy or person vested with the right to vote, at the time of the receipt of the request for registration of transaction, to disclose all information with respect to persons related to the subscriber, transferee or recipient of voting shares of stock, voting trustee, proxy or person vested with the right to vote, within the fourth degree of consanguinity or affinity, whether legitimate, illegitimate or common-law, as well as corporations, where the subscriber, transferee or recipient of voting shares of stock, voting trustee, proxy or person vested with the right to vote has controlling interest, and the extent thereof;
 - (3) require the subscriber, purchaser, transferee or recipient of voting shares of stock to execute an affidavit (sample format shown in *Appendix 4*) stating, among other things, that the subscriber, transferee or recipient of voting shares of stock is a bonafide owner of the said shares of stock, that he/she is not an agent, assignee, proxy, nominee or a dummy of any person, whether natural or juridical, and that he/she acknowledges full awareness of:
 - (a) the prohibitions against ownership of voting shares of stock in excess of the ceilings prescribed by laws/Bangko Sentral regulations as provided under Item “a” hereof; and/or

- (b) the requirement for prior Monetary Board approval for transactions resulting to significant ownership of voting shares of stock of a bank by any person, whether natural or juridical, or by one (1) group of persons, as provided under Item “b” hereof.

If the request for registration of transaction will cause the voting shares of stocks of an individual or a corporation to exceed the ceilings prescribed by laws/Bangko Sentral regulations, the corporate secretary shall deny the registration of the transaction and forthwith inform the parties to the transaction in writing.

If the request for registration of transaction would result to the significant ownership of the voting shares of stock of a bank by any person, whether natural or juridical, or by one (1) group of persons, requiring prior Monetary Board approval as provided under this Item “b” hereof, and no such prior Monetary Board approval is submitted, the corporate secretary shall hold in abeyance the registration of the transaction and forthwith inform the parties to the transaction in writing.

In the event the corporate secretary has reason to doubt the legality of the transaction sought to be registered, he/she may commence an action before the appropriate body;

- (4) promptly inform stockholders (a) who have reached any of the ceilings prescribed by laws/Bangko Sentral regulations of their ineligibility to own or control more than the applicable ceiling or (b) who would own voting shares of stock requiring prior Monetary Board approval; and
- (5) disclose the ultimate beneficial owners of bank shares held in the name of Philippine Central Depository (PCD) Nominee Corporation in the annual (or quarterly whenever changes occur) report on Consolidated List of Stockholders and Their Stockholdings (BSP 7-16-11), which report shall be made under oath by the corporate secretary. Any Delayed/Unsubmitted report, a Category A-2 report, shall subject the bank to the corresponding penalties in accordance with Sec. 171 (*Non-compliance with the Bangko Sentral reporting standards*).

Sanctions. The corporate secretary found to have willfully falsely certified/submitted misleading statements and/or violated any of the provisions under Item “c” hereof shall be subject to the applicable administrative sanctions under Section 37 of R.A. No. 7653. The imposition of the said administrative actions is without prejudice to the filing of appropriate criminal charges as provided under Section 35 of R.A. No. 7653 for the willful making of false or misleading statement.

- d. **Requirement for newly established banks.** Entities which may hereinafter apply for a license to engage in banking business shall, before being allowed to operate, submit –

- (1) An alphabetical list of stockholders with the number and percentage of voting shares of stock owned by them;
- (2) A separate list containing the names of stockholders who own voting shares of stock in the bank and who are related to each other within the fourth degree of consanguinity or affinity, whether legitimate, illegitimate or common-law (in the case of individuals) as well as corporations which are wholly-owned or a majority of the stock of which is owned by any of such stockholders, including their subsidiaries; and
- (3) An affidavit under oath (sample format shown in *Appendix 4*) from each of the stockholders attesting, among other things, that he/she/it is the bonafide owner of the voting shares of stock of the bank in his/her/its own right, and not as an agent, assignee, proxy, nominee or a dummy of any other person, natural or juridical.

Other foreign equity investment in domestic banks. Except as otherwise covered under Sec. 103 and this Section on Limits of stockholdings in a single bank, the following guidelines shall be observed on equity investments of foreigners in domestic banks:

- a. The prior authority of the Monetary Board shall be obtained by foreign banks, including their subsidiaries and their holding companies having majority holdings in such foreign banks, whenever acquiring more than forty percent (40%) of the voting stock of a domestic bank, including foreign-owned shares outstanding and foreign-held as of 27 April 1973 and which continued to be held by the foreign stockholder up to the date of the acquisition by the foreign banks.
- b. The prior authority of the Monetary Board is not required if the foreign investor is (1) an individual, (2) a non-financial entity, or (3) a non-bank financial entity which is not owned or controlled by a bank, its subsidiary or holding company, and the investor is acquiring foreign-owned shares in existing domestic banks: *Provided*, That said shares were outstanding and foreign held as of 27 April 1973 and which continued to be foreign-held up to the date of acquisition by the foreign investor.
- c. The maximum stockholdings foreigners may own in domestic banks shall continue to be governed by existing provisions of law.
- d. Only foreign-owned shares directly funded by inward remittance of foreign exchange sold to the local banking system are qualified for registration with the Bangko Sentral through its appropriate department for capital repatriation and

remittance of profits/dividends privileges, in accordance with existing Bangko Sentral rules and regulations.

Convertibility of preferred stock to common stock. Out of the convertible preferred shares of stock which KBs/TBs may henceforth be authorized to issue, at least fifty percent (50%) of each such issue, shall be convertible into common stock at the option of the holders thereof after five (5) years from date of issue: *Provided, however, That:*

- a. The bank concerned may allow the conversion of such preferred stock into common stock even before the lapse of five (5) years from date of issue;
- b. At the time of the sale of the preferred stock, both classes thereof (one with convertibility feature and the other without convertibility feature) shall be offered to the purchasers, with the purchasers having the option to acquire either or both classes of preferred stock; and
- c. Preferred shares of stock with a cumulative feature issued by banks shall automatically be convertible into common shares of stock at the option of the holders thereof whenever the right as may be acquired by the holders by virtue of such cumulative feature are not satisfied by the bank within a period of three (3) years from date of issue.
- d. Conversion of preferred shares of stock into voting/common shares of stock, regardless of convertibility features and notwithstanding any provision of existing Bangko Sentral regulations to the contrary, shall be:
 - (1) effected only to the extent of the prescribed ceilings under existing laws; and
 - (2) subject to prior Monetary Board approval whenever said conversion will result to significant ownership of the voting/common shares of stock of a bank by any person, whether natural or juridical, or by one group of persons, as provided under this Section on Transactions involving voting shares of stocks, Item “b”.

The foregoing provision must be specifically stated in the certificates of preferred shares of stock.

Issuance of redeemable shares: conditions; certification and report; sanctions.

- a. *Conditions.* Banks may issue redeemable shares subject to the following conditions:

- (1) The applicant bank prior to the approval of the amendment of articles of incorporation to issue redeemable preferred shares, has complied with the requirements under Items “B1” to “B6”, *Appendix 5*.

The articles of incorporation of an applicant bank shall incorporate the conditions in Items “a (3)(a)”, “a(3)(b)”, “a(3)(c)” and “a(3)(d)” of this Section.

- (2) The applicant bank prior to the issuance of redeemable shares shall comply with, in addition to the conditions in Item “(1)” above, the requirements under Items “B7”, “B8”, and “B12” to “B16”, *Appendix 5*.

- (3) The applicant bank after the issuance of redeemable shares shall comply with the following:

- (a) Redemption of shares shall be allowed at the specific dates or periods fixed for redemption only upon prior approval of the Bangko Sentral and, where the conditions of the issuance specifically state, only if the shares redeemed are replaced with at least an equivalent amount of newly paid-in shares so that the total paid-in capital stock is maintained at the same level immediately prior to redemption: *Provided, That the redemption shall not be earlier than five (5) years after the date of issuance: Provided, further, That such redemption may not be made where the bank is insolvent or if such redemption will cause insolvency, impairment of capital or inability of the bank to meet its debts as they mature;*
- (b) A sinking fund for the redemption of preferred shares is to be created upon their issuance. This is to be effected by the transfer of free surplus to a restricted surplus account. The fund shall not be available for dividends. The guidelines for the establishment and administration/management of sinking fund for the redemption of redeemable private preferred shares are shown in *Appendix 48*.
- (c) The issuing bank shall not treat in any way redeemable preferred shares as time deposit, deposit substitute or other form of borrowings;
- (d) No dividend shall be declared or paid on redeemable shares in the absence of sufficient undivided profits, free surplus;
- (e) The issuing bank shall execute within ten (10) days after the first issuance a Deed of Undertaking (see *Appendix 38*), to be signed by its directors and principal officers, binding them to comply with the requisites and conditions set forth in Items “(a)” to “(d)” above;
- (f) The conditions in Items “(3)(a)”, “(3)(b)”, “(3)(c)” and “(3)(d)” above shall be incorporated in the

certificates of stock; and

- (g) Shares issued with the replacement requirement upon redemption shall be eligible as Upper Tier 2 capital for purposes of computing qualifying capital as provided in applicable and existing capital adequacy framework. Shares issued without such condition shall be eligible as Lower Tier 2 capital.
- b. **Certification and report.** The bank shall submit within fifteen (15) days after every issuance of at least twenty percent (20%) of the redeemable shares whether issued in series or at one (1) time, a certification signed by its President/Chairman under oath, stating that the requirements under Items “a (1)” and “a(2)” above, including all other conditions that the Bangko Sentral may impose, have been complied with. The applicant bank shall, not later than ten (10) days from the end of reference year, submit a yearly report of issuances of preferred shares to the appropriate supervising department of the Bangko Sentral indicating therein the name/s of the subscriber/s, the date the shares were issued and the number/amount of shares issued.
- c. **Sanctions.** Any violation of the foregoing provisions shall be subject to the following sanctions:
 - (1) On the bank:
 - (a) For failure to comply with Items “a(3)(a)” to “a(3)(d)” above:
 - (i) Suspension of branching privilege;
 - (ii) Prohibition against granting of new unsecured loans to DOSRI;
 - (iii) Prohibition against declaration of dividends;
 - (iv) Denial of access to Bangko Sentral rediscounting facilities;
 - (v) Revocation of authority to accept government deposits and to handle government funds as a result of agency agreements with the BIR, SSS, etc.
 - (b) For failure to infuse capital in an amount at least equivalent to amount of redeemed shares as required in Item “a(3)(a)”:
 - (i) Sanctions in Item “(a)” above;
 - (ii) No new loans and investments, except in government securities;
 - (iii) P1,000 fine per day until the required infusion is made.
 - (c) If the certification submitted by the bank required in these guidelines is found to be false, suspension of authority to issue preferred shares for one (1) year.
 - (d) For failure to submit report of issuance of redeemable preferred shares, a fine of P1,200 for UBs/KBs; P600 for TBs; and P180 for RBs/Coop Banks per day of default until the report is submitted.
 - (2) On the directors and officers:
 - (a) For violation of any of the terms of the Deed of Undertaking, the following shall be imposed against the officers and directors of the bank who signed the deed:
 - (i) First offense - A fine of P500 per day for each violation from the time the violation was committed or up to the time the violation is corrected;
 - (ii) Second and subsequent offenses - A fine of P5,000 per day from the time the violation was committed up to the time the violation is corrected.
 - (b) If the certification submitted by the bank as required in these guidelines is found to be false, a fine of P5,000 per day from the time the certification was made up to the time the certification was found to be false, shall be imposed against the certifying officer.

Stock options/warrants. A bank may grant options/warrants to subscribe at par to its capital stock: *Provided, That:*

- a. Provisions authorizing such options warrants shall be embodied in its articles of incorporation and in its by-laws; and
- b. Such options/warrants may be granted for a maximum period of three (3) years from the date such options/warrants become effective.

Dealings with stockholders and their related interests. Dealings of a bank with any of its stockholders and their related interests shall be upon terms not less favorable to the bank than those offered to others. Towards this end, every natural person acquiring shares cumulatively amounting to at least two percent (2%) of the total subscribed capital of a domestic bank must disclose all relevant information on all persons related to him within the fourth degree of consanguinity or affinity, whether legitimate, illegitimate or common law as well as corporations, partnership or associations where he has controlling interests. A corporation acquiring shares amounting to at least two percent (2%) of the total subscribed capital of a domestic bank must disclose its controlling stockholders or group of stockholders as well as the corporations, partnerships or

association where such controlling stockholders or group of stockholders have controlling interest.

The foregoing information shall also be disclosed in cases of the following transactions: availment of credit facility from the bank; purchase or sale of asset from/to the bank; leasing property from or to the bank; providing janitorial, messengerial, security and other services to the bank; and such other transactions as may be required to be disclosed by the Monetary Board. Where the stockholdings of such individual/organization together with his/its related interests amount to at least two percent (2%) of the total subscribed capital stock of the bank, the foregoing transactions shall be subject to the procedural requirements and the reportorial requirements prescribed under Sec. 346.

(Circular Nos. 1105 dated 02 December 2020, 1002 dated 10 May 2018, 963 dated 27 June 2017, 890 dated 2 November 2015, and 888 dated 9 October 2015)

122-A SHARES OF STOCK OF UNIVERSAL/COMMERCIAL BANKS

The following guidelines shall also govern shares of stock in UBs and KBs.

Limits on stockholdings in several banks. Stockholders affiliated to each other through a common interest herein termed a *business group* or any corporation or association majority or all of the equity of which is owned by a business group may not control more than one (1) KB nor more than one (1) UB or both.

Any natural person or a family group, who, together, with any corporation majority or all of the equity of which is owned by such person or family group, owns more than forty percent (40%) of the voting stock of any UB or KB may not acquire more than forty percent (40%) of the voting stock in any other UB or KB, even if the shares of stock are being acquired from a natural person in a single transaction and the stockholding is in excess of forty percent (40%) of the bank's voting stock.

For purposes of determining applicability of the limitations provided in this Section, stockholders shall be deemed as affiliated to each other through common business interest or a business group in cases where the holdings of such stockholders altogether constitute a majority or control in one (1) or more enterprises.

122-B SHARES OF STOCK OF THRIFT BANKS

The following regulations shall also govern shares of stock in TBs.

Preferred shares. Private development banks may also issue ordinary preferred shares of stock to private persons, other than the preferred stock representing government counterpart capital contribution: *Provided*, That said preferred stock sold to private persons shall be governed by the pertinent Bangko Sentral regulations for preferred stock issued to private investors.

Preferred shares of stock of private development banks held by DBP/LBP and sold hereafter to private persons may, at the option of the purchasers, be retained with the same rights as when such shares of stock were held by DBP/LBP, or converted at not less than par to common shares or to ordinary preferred shares of the class issued to private shareholders.

122-C SHARES OF STOCK OF RURAL BANKS AND COOPERATIVE BANKS

The following rules shall govern stockholdings in RBs and Coop Banks:

Government-held shares. The articles of incorporation of RBs or the articles of cooperation of Coop Banks shall provide for: (a) common stock with the power to vote; (b) preferred stock to represent the counterpart capital of the LBP, DBP or any government-owned or controlled bank or FI, which shall be non-voting and preferred as to assets upon liquidation; and (c) preferred stock with such rights, voting powers, preferences and restrictions, as may be approved by the Monetary Board. Preferred and common stocks shall have a minimum par value of one peso (P1.00) per share: *Provided*, That starting 2 July 2009, RBs which have a par value per share higher than P1.00 and choose to lower the par value of their shares of stock will be required to undertake the necessary steps and secure attendant approvals from the board of directors and stockholders of the banks involved as well as from relevant regulatory agencies to ensure that the reduction in par value shall not result to a dilution in the percentage holdings of stockholders and that its effect shall not prejudice the rights of creditor. An RB may not issue no-par value stock.

In the case of an acquisition plan of an RB already approved-in-principle by the Monetary Board where the shares of stock of the target RB are at a par value per share higher than P1.00, the acquiring bank may request from the Bangko Sentral the incentive to value the shares of stock of the to-be-acquired RB at the minimum par value of P1.00: *Provided*, That the acquiring bank will be responsible for securing the necessary approvals from its board of directors and stockholders as well as from the Bangko Sentral and the SEC pursuant to Section 14 of R.A. No. 8791 and Section 38 of the Corporation Code of the Philippines.

The LBP, the DBP, or any government-owned or-controlled bank or financial institution, on representation of the said private shareholders but subject to the investment guidelines, policies and procedures of the bank or financial institution and upon approval by the Monetary Board of the Bangko Sentral, shall subscribe to the capital stock of any RB, which shall be paid in full at the time of subscription, in an amount equal to the fully paid subscribed and unimpaired capital of the private stockholders or such amount as the Monetary Board may prescribe as may be necessary to promote and expand

rural economic development.

Limits on stockholdings in several rural banks. Individuals, banks and non-bank corporations may, subject to applicable ownership ceilings, own voting shares in such number of RBs as may be authorized by the Monetary Board.

Convertibility of preferred stock to common stock. RBs may convert their unissued preferred shares into common stock.

In the case of sale by the DBP, LBP or any government-owned or controlled bank or financial institution of preferred stock to private persons, such stock may be converted into common stock: *Provided*, That such shares may be sold at any time at adjusted book value: *Provided, further*, That pending amendment of the bank's articles of incorporation, if necessary for the purpose of reflecting the conversion, the transfer shall be recorded by the bank in its stock and transfer book and such shareholders shall thereafter enjoy all the rights and privileges appurtenant to the converted stock. The certificates for the government preferred stocks so transferred shall be surrendered and cancelled and the corresponding common stock certificates shall be issued.

The corporate secretary of the bank shall submit to the appropriate supervising department of the Bangko Sentral and the SEC a report of every transfer of preferred stock from the LBP, DBP or any government-owned or controlled bank or financial institution to private shareholders within five (5) banking days from the date of such transfer.

When all the preferred shares of stocks held by the LBP, DBP or any government-owned or controlled bank or financial institution have been sold to private shareholders, the bank's articles of incorporation shall be amended to reflect the conversion, if any, of the preferred shares of stock into common stock.

For this purpose, a certificate that all preferred shares have been sold and transferred to private shareholders shall be issued, duly signed by the president, the corporate secretary, and a majority of the board of directors. The bank shall submit copies of such certificate and the amended articles of incorporation to the Bangko Sentral for the issuance of a certificate of authority for the purpose of registering the amended articles with the SEC.

Guidelines for selection. In determining the fitness and propriety of the non-Filipino citizen, excluding foreign banks that will be allowed to invest in the voting stock of an RB, criteria, such as, but not limited to the following, shall be considered:

- a. strategic objectives in investing in an RB;
- b. demonstrated capacity;
- c. good reputation and integrity; and
- d. business model that is credible, innovative and consistent with the policy objectives of R.A. No. 10574.

A foreign bank seeking to own, acquire or purchase up to 100% of the voting stock in an RB shall meet the qualification requirements and selection criteria under Sec. 103 (*Qualification requirements and Guidelines for selection*).

123 DEPOSITS FOR STOCK SUBSCRIPTION

Deposits for stock subscription refer to payments made by existing stockholders or new subscribers of the bank/QB on subscription to the increase in the authorized capital, which may be recognized either as a liability or equity.

Deposits for stock subscription shall be recognized as part of equity for prudential reporting purposes when all of the following conditions are met:

- a. The deposit for stock subscription meets the definition of an equity instrument under Philippine Accounting Standards (PAS) 32 Financial Instruments: Presentation such that the deposit for stock subscription shall not be interest-bearing nor withdrawable by the subscriber;
- b. The bank's existing authorized capital is already fully subscribed;
- c. The bank's stockholders and board of directors have approved the proposed increase in authorized capital;
- d. The bank/QB has filed an application for the amendment of its articles of incorporation for the increase in authorized capital with the appropriate supervising department of the Bangko Sentral, duly supported by complete documents as prescribed by the Bangko Sentral: *Provided*, That the approval of the Securities and Exchange Commission (SEC) on the same application shall be obtained within the period prescribed under the SEC Financial Reporting Bulletin on Deposit for Future Subscription.

In case the applications for the amendment of articles of incorporation for the increase in authorized capital have been returned due to insufficiency of supporting documents, the deposit for stock subscription shall not qualify for recognition as an equity instrument; and

- e. The bank must have obtained approval of the Monetary Board on transactions involving significant ownership of voting shares of stock by any person, natural or juridical, or by one group of persons as provided in Sec. 122 (*Transactions involving voting shares of stocks*, Item "b"), if applicable.

Deposits for stock subscription, which do not meet the abovementioned conditions shall be classified as a liability.

Deposits for stock subscription, which meet the conditions to be recognized as equity shall form part of a bank's qualifying capital for purposes of computing the risk-based capital adequacy ratio under Sec. 125 for UBs/KBs as well as their subsidiary banks and QBs, and Sec. 127 for standalone TBs, RBs and Coop Banks.

(Circular No. 1027 dated 28 December 2018)

124 DIVIDENDS

The following rules and regulations shall govern the declaration of dividends on shares of stock, regardless of feature, as well as interest payments on unsecured subordinated debt which meet the qualification requirements of Additional Tier 1 or other capital instruments¹ as defined under existing risk-based capital adequacy framework.

Pursuant to Section 57 of R.A. No. 8791, no bank shall declare dividends greater than its accumulated net profits then on hand, deducting therefrom its losses and bad debts. Neither shall the bank declare dividends if, at the time of declaration, it has not complied with the provisions under this Section on Requirements on the declaration of dividends.

Definitions. For purposes of this Section, the following definitions shall apply:

- a. *Bad debts* - shall include any debt on which interest is past due for a period of six (6) months, unless it is well secured and in process of collection.

A loan payable in installments with an automatic acceleration clause shall be considered a bad debt within the contemplation of this Section where installments or amortizations have become past due for a period of six (6) months, unless the loan is well secured and in process of collection. For a loan payable in installment without an acceleration clause, only the installments or amortizations that have become past due for a period of six (6) months and which are not well secured and in the process of collection shall be considered bad debts within the contemplation of this Section.

- b. *Well secured* - A debt shall be considered well secured (or fully secured), if it is covered by collateral in the form of a duly constituted mortgage, pledge, or lien on real or personal properties, including securities, having a loan value sufficient to discharge the debt in full, including accrued interest and other pertinent fees and expenses.
- c. *In process of collection* - A debt due to a bank shall be considered in process of collection when it is the subject of continuing extrajudicial or judicial proceedings aimed towards its full settlement or liquidation or otherwise to place it in current status.

The extrajudicial proceedings, such as the writing of collection or demand letters, must have been initiated by the bank and/or its lawyers before the interest or installments or amortizations on the debt have become past due and unpaid for a period of six (6) months.

The debt shall continue to be considered in process of collection for a period of six (6) months counted from date of the first collection or demand letter and if, within this period, the debtor fails to make a payment of at least twenty percent (20%) of the outstanding balance of the principal on his account, plus all interest which may have accrued thereon, the same shall automatically be classified as bad debts unless judicial proceedings are instituted.

The debt shall continue to be considered in process of collection during the pendency of the judicial proceedings. When judgment against the debtor has been obtained, the bank must be active in enforcing the judgment for the debt to continue to be considered in process of collection.

Requirements on the declaration of dividends. At the time of declaration, banks shall have complied with the following:

- a. Clearing account with the Bangko Sentral is not overdrawn;
- b. Liquidity floor requirement for government funds;
- c. Minimum capitalization requirement and risk-based capital ratios as provided under applicable and existing capital adequacy framework;
- d. The combined requirement for capital conservation buffer and countercyclical capital buffer as defined in *Appendix 59*, Part III, for universal and commercial banks (UBs/KBs) and their subsidiary banks and QBs or capital conservation buffer requirement as defined in *Appendix 62*, Part II.C for stand-alone TBs, RBs and Coop Banks²;
- e. Higher loss absorbency requirement, phased-in starting 1 January 2017 with full implementation by 1 January

¹ This shall include existing issuances of Hybrid Tier 1 capital until maturity/pre-termination/redemption.

² The capital conservation buffer requirement for stand-alone TBs, RBs and Coop Banks, shall take effect on 01 January 2023.

2019, in accordance with Domestic Systemically Important Banks (D-SIBs) Framework as provided under Sec. 128, for UB/KBs and their subsidiary banks and QBs that are identified as D-SIBs; and

- f. Has not committed any unsafe or unsound banking as defined under existing regulations and/or major acts or omissions¹ as may be determined by the Bangko Sentral to be ground for suspension of dividend distribution, unless this has been addressed by the bank as confirmed by the Monetary Board or the Deputy Governor of the appropriate sector, as may be applicable, upon recommendation of the appropriate supervising department of the Bangko Sentral.

Banks shall ensure compliance with the minimum capital requirements and risk- based capital ratios even after the dividend distribution.

Net amount available for dividends. The net amount available for dividends shall be the amount of unrestricted or free retained earnings and undivided profits reported in the Financial Reporting Package (FRP) as of the calendar/fiscal year-end immediately preceding the date of dividend declaration.

The derivation of the amount of dividends from the unrestricted/free retained earnings shall be based on a sound accounting system and loss provisioning processes under existing regulations which takes into account relevant capital adjustments including losses, bad debts and unearned profits or income².

Reporting and verification. Declaration of dividends shall be reported by the bank concerned to the appropriate supervising department of the Bangko Sentral within ten (10) business days after date of declaration in the following manner:

- a. Submission of a duly notarized certification (*Appendix 120*) signed by the President, or an officer of equivalent rank, and the Chief Compliance Officer stating that the bank has complied with the requirements on the declaration of dividends provided under this Section on Requirements on the declaration of dividends, and, in the case of rural banks and cooperative banks, Sec. 124-C (*Limitations/amount available for dividends declared by rural banks and cooperative banks*), as well as other existing applicable laws; and
- b. Submission of the Report on Dividends Declared listed under *Appendix 7*, which shall be considered a Category A-1 report.

However, banks with major supervisory concerns such as those initiated under PCA or with specific MB directive to suspend/refrain/restrict dividend declaration, shall be subject to prior Bangko Sentral verification by the appropriate supervising department of the Bangko Sentral. Pending verification of abovementioned reports, no announcement or communication on the declaration of dividends nor shall any payment be made thereon until receipt of Bangko Sentral advice thereof.

Recording of dividends. The liability for dividends declared shall be taken up in the bank's books upon its declaration.

However, for dividend declarations that are subject to prior Bangko Sentral verification, the liability for dividends declared shall be taken up in the bank's books upon receipt of Bangko Sentral advice thereof. A memorandum entry may be made to record the dividend declaration on the date of approval by the board of directors.

For full disclosure purposes, the dividends declared shall be disclosed in the financial statements either as a footnote in the statement of changes in equity or in the notes to the financial statements. For dividends declared that is still subject to prior Bangko Sentral verification, disclosure by means of a footnote should include a statement to the effect that the dividend declaration is subject to review by the Bangko Sentral.

Issuance of fractional shares. Whenever the declaration of stock dividend results in the issuance of fractional shares, banks may observe the following guidelines:

- a. The amount corresponding to the fraction should be given in the form of cash dividend; and
- b. The certificate of stock issued should be in whole numbers, and the fractional shares shall be issued in the form of scrip certificates. In no case shall the certificate of stock be issued including such fractional share. The scrip certificate is temporary in nature and should be redeemed in cash when the bank is in a position to do so, or stockholders holding such scrip certificates may negotiate with other stockholders for the purchase or sale of such shares to convert them into full shares, subject to the limitations on stockholdings as provided by law.

Supervisory enforcement actions. Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the rules and regulations governing dividend declaration and bring about timely corrective actions.

¹ Major acts or omissions is defined as bank individual failure to comply with the requirements of banking laws, rules and regulations as well as Monetary Board directives having material impact on bank capital, solvency, liquidity or profitability, and/or those violations classified as major offenses under the Report of Examination, except those classified under unsafe or unsound banking.

² Unearned profits or income refers to unrealized items which are considered not available for dividend declaration such as accumulated share/equity in net income of its subsidiaries, associates or joint venture accounted for under the equity method, recognized deferred tax asset, foreign exchange profit arising from revaluation of foreign exchange denominated accounts and others.

The Bangko Sentral may issue directives to suspend/refrain/restrict from performing a particular activity or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety or soundness of the bank, among others. Sanctions may likewise be imposed on a bank and/or its directors, officers and/or employees.

The imposition of sanctions shall be without prejudice to the imposition of administrative sanctions under Section 37 of R.A. No. 7653 including declaring as unsafe or unsound (as defined under Section 56 of R.A. No. 8791) the inappropriate dividend declarations, and/or to the filing of appropriate criminal charges against culpable persons as provided under Section 35 of R.A. No. 7653 for the willful making of a false/misleading statement.

Further, banks subsequently found to have violated the provisions on dividend declaration or have falsely certified/submitted misleading statements shall be reverted to the prior Bangko Sentral verification wherein the bank can only make an announcement or communication on the declaration of dividends or payment of dividends thereon¹ upon receipt of Bangko Sentral advice thereof.

(Circular Nos. 1084 dated 28 April 2020, 1079 dated 09 March 2020, 1051 dated 27 September 2019, 1024 dated 06 December 2018, and 888 dated 09 October 2015)

124-C LIMITATIONS/AMOUNT AVAILABLE FOR DIVIDENDS DECLARED BY RURAL BANKS AND COOPERATIVE BANKS

The following rules shall also govern the declaration of dividends by RBs and Coop Banks.

- a. *Reserve for retirement of government preferred stock.* In addition to the requirements prescribed in Sec. 124 (*Requirements on the declaration of dividends*), an RB/Coop Bank may declare cash dividends only if the amount of its reserve for retirement of government preferred stock is at least equal to the amount which should have been accumulated had the bank transferred annually to the reserve account from its undivided profits an amount equal to at least an average of one-tenth (1/10) of the total amount of preferred stock; and
- b. *Applicability of other laws, rules and regulations for Coop Banks.* Coop Banks shall, likewise, comply with the provisions governing the distribution of net surplus as provided under Article 86 of R.A. 9520, the Coop Bank's By-laws as other laws, rules and regulations.
- c. *Dividends on government shares for RBs*
 - (1) Held prior to 09 June 1992. Whenever dividends of not less than fourteen percent (14%) are declared on common stock, government preferred stock shall be entitled to a cash dividend not to exceed two percent (2%) of total outstanding preferred stock. Should the dividends declared on common stock be less than fourteen percent (14%), the dividend on preferred stock shall be proportionately reduced.
 - (2) Held on or after 09 June 1992. Shares held by the LBP, DBP, or by any government-owned or-controlled bank or FI shall share in dividend distributions from the date of issuance in the amount of four percent (4%) on the first and second years; six percent (6%) on the third and fourth years; eight percent (8%) on the fifth and sixth years; ten percent (10%) on the seventh and eighth years; and twelve percent (12%) on the ninth to the fifteenth years, which shall be cumulative: *Provided*, That the RB and the government-owned or controlled bank are not precluded from entering into an agreement providing for rates of dividends other than those prescribed by law.
 - (3) Held on or after 13 September 2013. Shares held by the LBP, DBP, or by any government-owned or -controlled bank or FI shall share in dividend distributions from the date of issuance in an amount based on the lending benchmark approved by the Bangko Sentral plus the prevailing non-prime spread of the government FI: *Provided*, That the RB and the government-owned or -controlled bank are not precluded from entering into an agreement providing for rates of dividends other than those prescribed by law.

125 BASEL III RISK-BASED CAPITAL

The guidelines implementing the revised risk-based capital adequacy framework for the Philippine banking system to conform to Basel III recommendations is provided in *Appendix 59*.

These guidelines apply to all UBs and KBs as well as their subsidiary banks and QBs. The risk-based capital ratio of a bank, expressed as a percentage of qualifying capital to risk-weighted assets, shall not be less than ten percent (10%) for both solo basis (head office plus branches) and consolidated basis (parent bank plus subsidiary financial allied undertakings, but excluding insurance companies). Other minimum capital ratios include Common Equity Tier (CET) 1 ratio and Tier 1 capital ratios of six percent (6.0%) and seven and a half percent (7.5%), respectively. With respect to the CET1 requirement, in addition to the minimum, the following capital buffers shall likewise be imposed:

¹ Subject banks whose shares are listed with any domestic stock exchange may declare dividends and give immediate notice of such declaration to the SEC and the stock exchanges, in compliance with pertinent rules of the SEC: *Provided*, That no record date is fixed for such dividend pending verification of the report on such declaration by the appropriate supervising department of the Bangko Sentral.

- a. A capital conservation buffer (CCB) of two and a half percent (2.5%); and
- b. Countercyclical capital buffer (CCyB) of zero percent (0%) subject to upward adjustment to a rate determined by the Monetary Board when systematic conditions warrant but not to exceed two and a half percent (2.5%). Any increase in the CCyB rate shall be effective twelve (12) months after its announcement. Decreases shall be effective immediately.

The prescribed ratios shall be maintained at all times.

(The Bangko Sentral's implementation plans for the New International Capital Standards or Basel 2 contained in the Basel Committee on Banking Supervision (BCBS) document "International Convergence of Capital Measurement and Capital Standards: A Revised Framework", are shown in *Appendix 63*)

Market risk capital requirement. UBs/KBs shall also measure and apply capital charges for market risk, in addition to the credit risk capital requirement in this Section, in accordance with the Guidelines to Incorporate Market Risk in the Risk-Basel Capital Adequacy Framework in *Appendix 42*.

The capital treatment of market risk exposures arising from the holdings of Dollar-Linked Peso Notes (DLPNs) is indicated in *Appendix 43*.

The instructions for accomplishing the report on computation of the Adjusted Risk-Based Capital Adequacy Ratio covering combined credit risk and market risk are shown in *Appendices 44* (for UBs and KBs with expanded derivatives authority), *45* (for UBs and KBs with expanded derivatives authority but without options transactions) and *46* (for UBs and KBs without expanded derivatives authority).

Capital treatment of exposures/investments in certain products. The guidelines on the capital treatment of bank's exposures/investments in the following products are in Part VI:

- a. Credit-linked notes in Sec. 624-A.
- b. Structured products in Sec. 625-A (*Capital treatment of banks' exposures to structured products*).
- c. EFCDU investments in Sec. 626-A (*Capital treatment of structured products*).
- d. Investment in securities overlying securitization structures in Sec. 627-A (*Capital treatment of investments in securities overlying securitization structures*).

Required reports. Banks shall submit a report of their risk-based capital adequacy ratio on a solo basis (head office plus branches) and on a consolidated basis (parent bank plus subsidiary financial allied undertakings, but excluding insurance companies) quarterly to the appropriate supervising department of the Bangko Sentral in the prescribed forms within the deadlines, i.e., fifteen (15) banking days and thirty (30) banking days after the end of reference quarter, respectively. Only banks with subsidiary financial allied undertakings (excluding insurance companies) which under existing regulations are required to prepare consolidated statements of condition on a line-by-line basis shall be required to submit report on a consolidated basis. The abovementioned reports shall be classified as *Category A-1* reports.

All UBs and KBs as well as their subsidiary banks shall be subject to all other reporting requirements (i.e., Basel III Capital Adequacy Summary Report) under the Basel III risk-based capital as may be prescribed by the Bangko Sentral.

Erroneous/Delayed/Erroneous and Delayed/Unsubmitted reports relative to the Basel III requirements shall be subject to penalties provided under Sec. 171 (*Non-compliance with the Bangko Sentral standards*).

Sanctions

- a. *For non-reporting of CAR breaches.* It is the responsibility of the bank CEO to cause the immediate reporting of CAR breaches both to its Board and to the Bangko Sentral. It is likewise the CEO's responsibility to ensure the accuracy of CAR calculations and the integrity of the associated monitoring and reporting system. Any willful violation of the above will be considered as a serious offense for purposes of determining the appropriate monetary penalty that will be imposed on the CEO. In addition, the CEO shall be subject to the following non-monetary sanctions:
 - (1) First offense – warning;
 - (2) Second offense – reprimand;
 - (3) Third offense – one (1) month suspension without pay; and
 - (4) Further offense – disqualification.
- b. *For non-compliance with required disclosures.* Willful non-disclosure or erroneous disclosure of any item required to be disclosed under this framework in the Published Statement of Condition shall be considered as a serious offense for purposes of determining the appropriate penalty that will be imposed on the bank. In addition, the CEO and the board shall be subject to the following non-monetary sanctions:
 - (1) First offense – warning on CEO and the Board;
 - (2) Second offense – reprimand on CEO and the Board;

- (3) Third offense – one (1) month suspension of CEO without pay; and
- (4) Further offense – possible disqualification of the CEO and/or the Board.

(Circular Nos. 1024 dated 06 December 2018, 988 dated 20 December 2017, and 956 dated 17 April 2017)

126 CAPITAL INSTRUMENTS ELIGIBLE AS RISK-BASED CAPITAL

Unsecured subordinated debt. The following are the guidelines for the issuance of unsecured subordinated debt (UnSD) eligible as Hybrid Tier 1 (HT1) and Tier 2 capital:

Minimum features of unsecured subordinated debt.

- a. **Form.** A UnSD that will be publicly distributed may either be scripless in form or evidenced by certificates such as: promissory note, debenture or other appropriate certificate of indebtedness. A UnSD in scripless form shall comply with the provisions of R.A. No. 8792, otherwise known as the “Electronic Commerce Act”, particularly on the existence of an assurance on the integrity, reliability and authenticity of the UnSD in electronic form. An independent third party UnSD Registry shall maintain unissued UnSD certificates and the UnSD Registry Book, which must be electronic if the UnSD is scripless in form. A UnSD that will be issued privately or on a negotiated basis shall be evidenced by certificates.

All UnSD shall be registered in the name of individuals or entities and pre-numbered serially.

- b. **Denomination.** The UnSD must be issued in minimum denominations of P500,000 or its equivalent if denominated in a foreign currency.
- c. **Mandatory provisions.** If the UnSD is not scripless in form, the following provisions must appear in bolder prints on the face of every note, debenture or other certificate evidencing the same:

- (1) This obligation is not a deposit and is not insured by the PDIC;
- (2) This obligation is neither secured nor covered by the guarantee of (name of bank) or its subsidiaries and affiliates, or other arrangement that legally or economically enhances the priority of the claim of any holder of the UnSD as against depositors and other creditors (for LT2); depositors, other creditors and holders of LT2 capital instruments (for UT2); and depositors, other creditors and holders of LT2 and UT2 capital instruments (for HT1);
- (3) This obligation does not have a priority claim, in respect of principal and coupon payments in the event of winding up of the (name of bank), which is higher than or equal with that of depositors and other creditors (for LT2); depositors, other creditors and holders of LT2 capital instruments (for UT2); and depositors, other creditors, holders of LT2 and UT2 capital instruments (for HT1); and
- (4) The obligation is ineligible as collateral for a loan granted by (name of Bank), its subsidiaries and affiliates.

If the UnSD is scripless in form, the foregoing provisions/information shall be furnished every buyer/investor in a separate written instrument receipt of which must be duly acknowledged by him.

- d. **Term.** The UnSD qualifying under HT1 capital shall be perpetual. The minimum maturity of a UnSD qualifying under UT2 and LT2 capital shall be ten (10) years and five (5) years, respectively.

Prior Bangko Sentral approval. No UnSD shall be issued without the prior approval of the Bangko Sentral.

Pre-qualification requirements of issuing bank. A bank applying for authority to issue an UnSD shall comply with the following requirements:

- a. It has complied with the minimum amount of capital required under Sec. 121 or its paid-in capital is at least equal to the amount required therein.
- b. It has established a risk management system appropriate to its operations characterized by clear delineation of responsibility for risk management, adequate risk measurement systems, appropriately structured risk limits, effective internal controls and complete, timely and efficient risk reporting system.
- c. It is a locally incorporated bank.

Public issuance of unsecured subordinated debt. Public issuance of UnSD is an issuance offered to the general public, which may or may not be qualified investors/buyers as hereinafter defined. The Issuing Bank must be rated by an independent credit rating agency recognized by the Bangko Sentral and a Public Trustee shall be appointed for investor protection.

a. *Application for authority*

- (1) The application shall be signed by the president or officer of equivalent rank of the applicant bank;
- (2) The application for authority on each UnSD issue/issue program shall be filed with the appropriate supervising department of the Bangko Sentral: *Provided*, That the period of an issue program of two (2) or more tranches shall not exceed one (1) year from date of approval; and
- (3) The application shall be accompanied by:
 - (a) A certified true copy of the resolution of the Issuing Bank's board of directors authorizing the issuance of the UnSD indicating, among others, the issue size, terms and conditions, offering period, purpose or intended use of proceeds thereof, the names of the Underwriter/Arranger, UnSD Registry, Selling Agent(s) and Market Maker(s), and Public Trustee;
 - (b) A certification by the corporate secretary that the issuance of the UnSD has been approved by the stockholders owning or representing at least two-thirds (2/3) of the outstanding capital stock of the Issuing Bank if the UnSD has convertibility feature;
 - (c) A written confirmation from the president or officer of equivalent rank of the Issuing Bank stating that all the conditions/eligibility criteria for UnSD to qualify for capital instruments under applicable and existing capital adequacy framework are complied with and that such conditions/eligibility criteria shall be contained in the UnSD Certificates if the UnSD is not in scripless form, in the Information Disclosure and Purchase Advice.
 - (d) A written undertaking from the president or officer of equivalent rank of the Issuing Bank not to support, directly or indirectly, by extending loans, issuing payment guarantees or otherwise, the buyer/holder of the UnSD of the Issuing Bank;
 - (e) A written confirmation from the president or officer of equivalent rank of the Issuing Bank stating that the designated Underwriter/Arranger, UnSD Registry, Selling Agent(s) and Market Maker(s) were provided with a complete list of subsidiaries and affiliates of the Issuing Bank including their subsidiaries and affiliates;
 - (f) A written undertaking from the president or officer of equivalent rank of the Issuing Bank to update the above-mentioned list within three (3) banking days from the date of change in composition thereof;
 - (g) Specimen of the UnSD;
 - (h) A written external legal opinion that all the conditions/eligibility criteria for UnSD to qualify for capital instruments under applicable and existing capital adequacy framework and loss absorption (for HT1 and UT2) features, have been met; and
 - (i) A certification signed by the president (or officer of equivalent rank) and chief compliance officer of the issuing bank stating the compliance of all parties to the UnSD transaction with the respective prequalification requirements prescribed under Item "c" of this Section on Public issuance of unsecured subordinated debt.

b. *Additional requirements for the issuance of UnSD*

After a bank's application to issue a UnSD has been approved, the applicant shall submit the following additional requirements to the appropriate supervising department of the Bangko Sentral:

- (1) At least fifteen (15) banking days before the date of offering:
 - (a) A written confirmation from the president or officer of equivalent rank of the Issuing Bank stating that the bank has been rated by an independent credit rating agency duly recognized by the Bangko Sentral;
 - (b) Information disclosure of the UnSD issuance prepared by the Underwriter Arranger;
 - (c) Promotional materials;
 - (d) Specimen of the proposed Purchase Advice and Registry Confirmation; and
 - (e) Copy of the agreements between the Issuing Bank and the Underwriter/Arranger/UnSD Registry/Selling Agent(s)/Market Maker(s), and Public Trustee.

The Bangko Sentral reserves the right to suspend the date of offering, within the fifteen (15) banking day period from submission of the above-mentioned requirements.

- (2) Within ten (10) banking days after issuance of the initial and subsequent tranches:

- (a) A written notice of the actual date of issuance/offering of each initial and subsequent tranches.

c. *Requirements for other parties involved*

The issuing bank shall be held accountable for ensuring the continuous compliance by its chosen participant-FIs with the qualification requirements prescribed by the Bangko Sentral.

As such, the issuing bank shall make a careful and diligent evaluation of the parties whom it shall engage to act as underwriter/arranger, UnSD registry, selling agent, market maker and public trustee of its UnSDs.

The following qualification requirements shall be strictly complied with prior to and on a continuing basis by the issuing bank and FIs engaged to act as underwriter/arranger, UnSD registry, selling agent, market maker and public trustee while the UnSDs of the issuing bank remains outstanding:

(1) Underwriter/Arranger

- (a) It is either a UB or an IH: *Provided*, That if an offering is on a best effort basis, the Arranger may also be a KB: *Provided, further*, That if an offering is denominated in foreign currency, the Underwriter/Arranger may also be any reputable international investment bank.
- (b) It must be an independent third party that has no subsidiary/affiliate or any other relationship with the Issuing Bank that would undermine the objective conduct of due diligence.
- (c) If Underwriter, it must have adequate risk management and must be well capitalized, which for a local Underwriter, shall be evidenced by compliance with the risk-based CAR prescribed under applicable and existing capital adequacy framework for the past sixty (60) days immediately preceding the date of application where applicable.

(2) UnSD Registry

- (a) It may be a UB, a KB, or such other specialized entity that may be qualified by the Monetary Board.
- (b) It must be a third party that has no subsidiary/affiliate or any other relationship with the Issuing Bank that would undermine its independence.
- (c) It must not be an Underwriter or a Market Maker of the UnSD.
- (d) It must have adequate facilities and the organization to do the following:
 - (i) Maintain certificates of unissued UnSD and the Registry Book which must be electronic if the UnSD is in scripless form;
 - (ii) Deliver transactions within the agreed trading period; and
 - (iii) Issue Registry Confirmations and UnSD Certificates if they are not in scripless form to buyers/holders of UnSD.
- (e) It must have a CAMELS composite rating of at least "3" in the last regular examination, where applicable.

(3) Selling Agent

- (a) It must be an FI with dealership or brokering license.
- (b) It must be a third party that has no subsidiary/affiliate or any other relationship with the Issuing Bank that would undermine its independence.

(4) Market Maker

- (a) It must be an FI with a dealership or brokering license.
- (b) It must be a third party that has no subsidiary/affiliate or any other relationship with the Issuing Bank that would undermine its independence.
- (c) It must have adequate risk management and must be well capitalized as evidenced by compliance with the risk based CAR prescribed under applicable and existing capital adequacy framework for the past sixty (60) days immediately preceding the date of application where applicable.

There is no need for a Market Maker if the UnSD is to be held on to maturity: *Provided*, That this condition is properly disclosed in the Purchase Advice, Registry Confirmation and Prospectus/Information Disclosure.

(5) Public Trustee

- (a) It must be an FI authorized by the Bangko Sentral to engage in trust and other fiduciary business.

- (b) It must be a third party that has no subsidiary/affiliate or any other relationship with the Issuing Bank that would undermine its independence.
- (c) It must have adequate risk management system and must be well capitalized as evidenced by compliance with the risk-based CAR prescribed under applicable and existing capital adequacy framework for the past sixty (60) days immediately preceding the date of application where applicable. The sixty (60)-day compliance period with the risk-based CAR shall be waived in evaluating a bank's eligibility to act as Public Trustee for another bank's UnSD's Tier 2 offering, if the former bank has instituted remedial measure to its CAR deficiency by issuing Tier 2 capital.
- (d) It may also be the UnSD Registry.
- (e) A Public Trustee is mandatory if UnSD shall be offered to the general public and optional if offering will be limited to qualified investors/buyers.

d. *Functions/Responsibilities of other parties involved*

The respective parties shall have, among others, the following functions/responsibilities:

(1) Underwriter/Arranger

- (a) Conducts due diligence on the Issuing Bank and determines the valuation/pricing of the primary issue;
- (b) Prepares the prospectus/information disclosure, including updates for multi- tranche UnSD issues;
- (c) Formulates the distribution/allocation plan for the initial offering and ensures proper and orderly distribution of the primary offering of the UnSD;
- (d) Disseminates information to prospective investors of UnSD on the terms and conditions of the issue (including information of non-pre-termination at the initiative of the holder and the liquidity mechanism in secondary trading) and the rights and obligations of the holder, issuer, Underwriter/Arranger, UnSD Registry, Selling Agent, Market Maker and Public Trustee; and
- (e) When selling to its clients, it must perform the functions/responsibilities of the Selling Agent under Item "d(3)" hereof.

(2) UnSD Registry

- (a) Keeps unissued UnSD certificates and maintains UnSD Registry book, which must be electronic if UnSD is scripless in form;
- (b) Records initial issuance of the UnSD and subsequent transfer of ownership;
- (c) Issues UnSD Certificates for primary offerings if UnSD is not scripless in form;
- (d) Issues Registry Confirmation to buyers/holders;
- (e) Functions as paying agent for periodic interest and principal payments;
- (f) Monitors compliance with the prohibitions on holdings of UnSD, as prescribed under this Section on Prohibitions on holdings of unsecured subordinated debt hereof; and
- (g) Submits within ten (10) banking days from end of reference month, an exception report on this Section on Prohibitions on holdings of unsecured subordinated debt to the appropriate supervising department of the Bangko Sentral. This report shall be classified as a "Category B" report.

(3) Selling Agent

- (a) Verifies identity of each investor to ascertain that this Section on Prohibitions on holdings of unsecured subordinated debt is not violated and applies appropriate standards to combat money laundering as required under existing Bangko Sentral regulations;
- (b) Determines the suitability of the investor and ensures that he fully understands the features of the UnSD and the risk involved therein; and
- (c) Issues the Purchase Advice for the primary offering of the UnSD to the buyer and sends a copy thereof to the UnSD Registry.

The sale or distribution of UnSD may also be performed by the issuer through its head office and branches subject to the following conditions:

- (i) The in-house distribution shall not exceed fifty percent (50%) of the total issue;
- (ii) The sale/distribution must be done under the supervision of an officer of the Issuing Bank who is capable of determining the suitability of the investor and ensuring that he fully understands the risk in UnSD;
- (iii) All personnel assigned to distribute sell UnSD must be capable of determining the suitability of the investor and ensuring that he fully understands the risk in UnSD; and
- (iv) It must also perform the functions/responsibilities of the Selling Agent.

(4) Market Maker

- (a) Sets an independent pricing for the secondary trading of UnSD;
- (b) Posts daily the bid and offer prices for the UnSD on the screen of at least one (1) of the information providers until the operation of a fixed income exchange for UnSD;
- (c) Verifies identity of each investor to ascertain that the provisions of this Section on Prohibitions on holdings of unsecured subordinated debt is not violated and applies appropriate standards to combat money laundering as required under existing Bangko Sentral regulations;
- (d) Determines the suitability of the buyer and ensures that he fully understands the risk involved in a UnSD;
- (e) Issues the Purchase Advice for the secondary trading of the UnSD to the buyer and sends a copy thereof to the UnSD Registry; and
- (f) Ensures secondary market transfers and registration in coordination with the UnSD Registry.

(5) Public Trustee

- (a) Monitors compliance of the Issuing Bank with the terms and conditions of the UnSD;
- (b) Monitors compliance of the other parties with their functions and responsibilities prescribed under this Section;
- (c) Reports regularly to UnSD holders non-compliance of the Issuing Bank with the terms and conditions of the UnSD and such other developments that adversely affect their interest and advise them of the course of action they should take to protect their interest; and
- (d) Act on behalf of the UnSD holders in case of bankruptcy of the Issuing Bank.

e. *Change of underwriter/arranger, UnSD registry, selling agent(s), market maker(s).* After an application for authority to issue a UnSD has been approved by the Bangko Sentral, the Issuing Bank cannot change its Underwriter/Arranger, UnSD Registry, Selling Agent(s), Market Maker(s) and Public Trustee without prior Bangko Sentral approval.

f. *Agreements between issuing bank and other parties involved.* The agreements between the Issuing Bank and the UnSD Registry/Selling Agent(s)/Market Maker(s)/Public Trustee shall comply with the provisions of Sec. 112 (*Definition*) on bank service contracts. The Issuing Bank shall be liable to investors for any damages caused by actions of the UnSD Registry, Selling Agent(s) and Market Maker(s), which are contrary to the agreements entered into.

g. *Purchase advice and registry confirmation.* The Purchase Advice and Registry Confirmation shall contain all the terms and conditions on the issuance of UnSD and shall conspicuously state the following caveat:

- (1) This UnSD is not a deposit and is not insured by the PDIC.
- (2) This UnSD is neither secured nor covered by a guarantee of the Issuer/Underwriter/Arranger or related party of the Issuer/Underwriter/Arranger or other arrangement that legally or economically enhances the priority of the claim of any holder of the UnSD as against depositors and other creditors (for LT2); depositors, other creditors and holders of LT2 capital instruments (for UT2); and depositors, other creditors and holders of LT2 and UT2 capital instruments (for HT1);
- (3) This UnSD does not have a priority claim, in respect of principal and coupon payments in the event of winding-up of the Issuing Bank, which is higher than or equal with that of depositors and other creditors (for LT2); depositors, other creditors and holders of LT2 capital instruments (for UT2); and depositors, other creditors, holders of LT2 and UT2 capital instruments (for HT1);
- (4) This UnSD is ineligible as collateral for a loan granted by the Issuing Bank, its subsidiaries or affiliates;

- (5) This UnSD cannot be terminated by the holder nor by the Issuing Bank (for HT1). This UnSD cannot be terminated by the holder nor by the Issuing Bank before (maturity date) (for UT2 and LT2).

However, negotiations/transfers from one (1) holder to another do not constitute pre-termination.

For tax purposes, negotiations/transfers from one (1) holder to another shall be subject to the pertinent provisions of the National Internal Revenue Code of 1997, as amended, and BIR regulations.

(Item “g(5)” above shall apply if the Issuing Bank commits no pre-termination of the UnSD. Otherwise, it shall read as follows):

This UnSD cannot be terminated by the holder (for HT1). This UnSD cannot be terminated by the holder before (maturity date) (for UT2 and LT2).

However, it may be pre-terminated at the instance of the Issuing Bank upon:

- (a) Prior approval of the Bangko Sentral subject to the following conditions:
- (i) The repayment is in connection with call option after a minimum of five (5) years from issue date, or even within the first five (5) years from issue date when:
 - (aa) The UnSD was issued for the purpose of a merger with or acquisition by the Issuing Bank and the merger or acquisition is aborted;
 - (bb) There is a change in tax status of the UnSD due to changes in the tax laws and/or regulations; or
 - (cc) The UnSD does not qualify as HT1, UT2 or LT2 capital, as the case may be, as determined by the Bangko Sentral; and
 - (ii) The debt is simultaneously replaced with the issues of new capital which is neither smaller in size nor of lower quality than the original issue, unless the Issuing Bank’s capital adequacy ratio remains more than adequate after redemption; and
- (b) Prior notice to holders on record. Negotiations/transfers from one (1) holder to another do not constitute pre-termination.

However, for tax purposes, negotiations/transfers from one (1) holder to another shall be subject to the pertinent provisions of the National Internal Revenue Code of 1997, as amended, and BIR regulations.

In case there is a feature allowing one-time step-up in the coupon rate in conjunction with a call option, the step-up shall be after a minimum of ten (10) years for HT1 and UT2 and five (5) years for LT2 after the issue date, and shall not result in an increase over the initial rate that is more than:

- (i) 100 basis points less the swap spread between the initial index basis and the stepped-up index basis; or
- (ii) Fifty percent (50%) of the initial credit spread less the swap spread between the initial index basis and the stepped-up index basis.

The swap spread shall be fixed at the pricing date and reflect the differential in pricing on that date between the initial reference security or rate and the stepped- up reference security or rate;

- (6) The holders/owners of this UnSD cannot set off any amount they owe to the Issuing Bank against this UnSD.
- (7) All negotiations/transfers of this UnSD prior to maturity must be coursed through a Market Maker until the operation of a fixed income exchange.
- (8) The payment of principal may be accelerated on this UnSD only in the event of insolvency of the Issuing Bank.
- (9) The coupon rate, or the formulation for calculating coupon payments shall be fixed at the time of the issuance of the UnSD and may not be linked to the credit standing of the Issuing Bank;
- (10) The payment of principal and coupon due on this UnSD shall not be made to the extent that such payment will cause the Issuing Bank to become insolvent (for HT1 and UT2);
- (11) The holders of the UnSD shall be treated as if they were holders of a specified class of share capital in any proceedings commenced for the winding-up of the Issuing Bank (for HT1 and UT2);

(Item “g(11)” above shall apply if such is the manner by which the UnSD is to be treated in loss situation. Otherwise, it shall read as follows):

This UnSD shall be automatically converted into common shares or perpetual and non-cumulative preferred shares (for HT1) or into common shares or perpetual and non-cumulative preferred shares or perpetual and cumulative preferred shares (for UT2) upon occurrence of certain trigger events as follows:

- (a) Breach of minimum capital ratio;
- (b) Commencement of proceedings for winding-up of the Issuing Bank; or
- (c) Upon appointment of receiver for the Issuing Bank.

The rate of conversion shall be fixed at the time of the subscription of this UnSD.

- (12) The amount and timing of coupons on this UnSD shall be discretionary on the Issuing Bank where the Issuing Bank has not paid or declared a dividend on its common shares in the preceding financial year, or determines that no dividend is to be paid on such shares in the current financial year; and the Issuing Bank shall have full control and access to waived payments (for HT1). The coupon payment on this UnSD shall be deferred where the Issuing Bank has not paid or declared a dividend on its common shares in the preceding financial year, or determines that no dividend is to be paid on such shares in the current financial year (for UT2);
- (13) The coupon on this UnSD shall be non-cumulative. In case there is a feature allowing withheld cash coupon to be payable in scrip or shares of stock, the shares of stock to be issued shall not be of lower quality capital than the UnSD (for HT1); and
- (14) The coupon to be paid on this UnSD shall be paid only to the extent that the Issuing Bank has profit distributable determined in accordance with existing Bangko Sentral regulations (for HT1).

N.B.: The last five (5) items (i.e., “10”, “11”, “12”, “13” and “14”) are applicable only to UnSD qualifying under HT1 and UT2 capital, as the case may be. The foregoing information shall also be shown in the Prospectus/Information Disclosure.

h. *Pre-termination by the Issuer*

- (1) The Issuing Bank may pre-terminate the UnSD subject to the following conditions:
 - (a) The Information Disclosure, Purchase Advice and Registry Confirmation shall include the information that the Issuing Bank has the option to pre-terminate the UnSD;
 - (b) Compliance with Items “a(2)(a)vii”, “b(1)(h)v” or “b(2)(c)iv” as may be applicable;
 - (c) Prior notification of thirty (30) banking days or more to holders of record; and
 - (d) Notwithstanding any agreement to the contrary, the Issuer shall shoulder the tax due, if any, on the interest income already earned by the holders.
- (2) Within ten (10) banking days after the completion of the pre-termination transaction, the Issuing Bank must submit a written notice to the appropriate supervising department of the Bangko Sentral of the following:
 - (a) Actual pre-termination date; and
 - (b) New capital composition.

i. *Primary offering/secondary trading*

- (1) The primary offering of a UnSD shall be executed through an Underwriter under a firm commitment or through an Arranger on a best effort basis. Initial sale/distribution of UnSD shall be made by a Selling Agent, the Underwriter/Arranger or, to a limited extent, the Issuing Bank itself. Subsequent negotiations in secondary trading must be executed through authorized Market Maker(s) until the operation of a fixed income exchange.

The primary offering as well as the secondary trading of a UnSD must be supported by Purchase Advice to be issued by the Selling Agent or the Market Maker, as the case may be, with the original given to the buyer and a second copy to the UnSD Registry. Upon presentation by the buyer of the original copy of Purchase Advice, the UnSD Registry shall:

- (a) record the primary issuance in the Registry Book and issue a Registry Confirmation and the corresponding UnSD certificate to the buyer if it is not scripless in form; and
- (b) register the transfer of ownership in the UnSD Registry Book and issue a Registry Confirmation to the buyer, in the case of secondary trading.

Private or negotiated issuance of unsecured subordinated debt.

- a. *Private or negotiated issuance of UnSD* is the issuance of UnSD to qualified investors/buyers, whether individuals or institutions as defined under Sec. 126 (*Qualified investors/buyers*). There is no limit on the number of qualified investors/buyers and on the sale or negotiation of the UnSD: *Provided*, That such sale or negotiation shall only be made to another qualified investor/buyer.

b. *Application for authority of the Issuing Bank*

- (1) The application shall be signed by the president or officer of equivalent rank of the Issuing Bank.
- (2) The application for authority on each negotiated UnSD issue shall be filed with the appropriate supervising department of the Bangko Sentral.
- (3) The application shall be accompanied by:
 - (a) A certified true copy of the resolution of the Issuing Bank's board of directors authorizing the private/negotiated issuance of UnSD indicating, among others, the amount, duration/maturity, interest rate, purpose or intended use of proceeds of the UnSD;
 - (b) A Certification by the corporate secretary that the issuance of the UnSD has been approved by the stockholders owning or representing at least two-thirds (2/3) of the outstanding capital stock of the Issuing Bank if the UnSD has convertibility feature;
 - (c) A written confirmation from the president or officer of equivalent rank of the Issuing Bank stating that all the conditions/eligibility criteria for UnSD to qualify for capital instruments under applicable and existing capital adequacy framework are complied with and that such conditions/eligibility criteria shall be contained in the UnSD Certificates, Prospectus/Information Disclosure and Debt Agreement/Contract.
 - (d) An undertaking from the president or officer of equivalent rank of the Issuing Bank that the UnSD shall be issued only to qualified investors/buyers;
 - (e) A certification from the president or officer of equivalent rank of the Issuing Bank that the investor/buyer shall not be among those prohibited to hold UnSD under this Section on Prohibitions on holdings of unsecured subordinated debt and that the Issuing Bank has applied appropriate standards to combat money laundering as required under existing Bangko Sentral regulations;
 - (f) A written undertaking from the president or officer of equivalent rank of the Issuing Bank not to support, directly nor indirectly, by extending loans, issuing payment guarantees or otherwise, the buyer/holder of the UnSD of the Issuing Bank;
 - (g) Specimen of the proposed Debt Agreement/Contract containing the terms and conditions of the UnSD issuance; and
 - (h) A written external legal opinion that all the conditions for UnSD under applicable and existing capital adequacy framework including the subordination (for HT1, UT2 and LT2) and loss absorption (for HT1 and UT2) features, have been met.

c. *Additional requirements for the private issuance of UnSD.* Within ten (10) banking days after issuance of the UnSD, the Issuing Bank shall submit the following additional requirements to the appropriate supervising department of the Bangko Sentral:

- (1) A written notice of the actual date of full receipt of proceeds, accompanied by a certification from the president or officer of equivalent rank of the Issuing Bank stating that the pre-qualification requirements under this Section have been complied with up to the time of full receipt of proceeds;
- (2) A copy of each of the duly signed Debt Agreements/Contracts between the Issuing Bank and the investor/buyer as specified in the application for authority to issue negotiated UnSD; and
- (3) A copy of the income tax return of the investor/buyer in case of a natural person.

d. *Debt agreement/contract*

The Debt Agreement/Contract shall contain all the terms and conditions on the issuance of UnSD and shall conspicuously state the following *caveat*:

- (1) This UnSD is not a deposit and is not insured by the PDIC.
- (2) This UnSD is neither secured nor covered by a guarantee of the Issuer or related party of the Issuer or other arrangement that legally or economically enhances the priority of the claim of any holder of the UnSD as against depositors and other creditors (for LT2); depositors, other creditors and holders of LT2 capital instruments (for UT2); and depositors, other creditors and holders of LT2 and UT2 capital instruments (for HT1).
- (3) This UnSD does not have a priority claim, in respect of principal and coupon payments in the event of winding-up of the Issuing Bank, which is higher than or equal with that of depositors and other creditors (for LT2);

depositors, other creditors and holders of LT2 capital instruments (for UT2); and depositors, other creditors, holders of LT2 and UT2 capital instruments (for HT1);

- (4) This UnSD is ineligible as collateral for a loan made by the Issuing Bank, its subsidiaries or affiliates.
- (5) This UnSD cannot be terminated by the holder nor by the Issuing Bank (for HT1). This UnSD cannot be terminated by the holder nor by the Issuing Bank before (maturity date) (for UT2 and LT2).

Item “d(5)” above shall apply if the Issuing Bank commits no pre-termination of the UnSD. Otherwise, it shall read as follows:

This UnSD cannot be terminated by the holder (for HT1). This UnSD cannot be terminated by the holder before (maturity date) (for UT2 and LT2).

However, it may be pre-terminated at the instance of the Issuing Bank upon:

- (a) Prior approval of the Bangko Sentral subject to the following conditions:
 - (i) The repayment is in connection with call option after a minimum of five (5) years from issue date, or even within the first five (5) years from issue date when:
 - (aa) The UnSD was issued for the purpose of a merger with or acquisition by the Issuing Bank and the merger or acquisition is aborted;
 - (bb) There is a change in tax status of the UnSD due to changes in the tax laws and/or regulations; or
 - (cc) The UnSD does not qualify as HT1, UT2 or LT2 capital, as the case may be, as determined by the Bangko Sentral; and
 - (ii) The debt is simultaneously replaced with the issues of new capital which is neither smaller in size nor of lower quality than the original issue, unless the Issuing Bank’s capital adequacy ratio remains more than adequate after redemption; and
- (b) Prior notice to investors/buyers.

In case there is a feature allowing one-time step-up in the coupon rate in conjunction with a call option, the step-up shall be after a minimum of ten (10) years (for HT1 and UT2) and five (5) years (for LT2) after the issue date, and shall not result in an increase over the initial rate that is more than:

- (i) 100 basis points less the swap spread between the initial index basis and the stepped-up index basis; or
- (ii) Fifty percent (50%) of the initial credit spread less the swap spread between the initial index basis and the stepped-up index basis.

The swap spread shall be fixed at the pricing date and reflect the differential in pricing on that date between the initial reference security or rate and the stepped- up reference security or rate;

- (6) This UnSD may only be sold, transferred or negotiated to another qualified investor/buyer;
- (7) The holders/owners of this UnSD cannot set off any amount they owe to the Issuing Bank against this UnSD.
- (8) The payment of principal may be accelerated on this UnSD only in the event of insolvency of the Issuing Bank.
- (9) The coupon rate, or the formulation for calculating coupon payments shall be fixed at the time of the issuance of the UnSD and may not be linked to the credit standing of the Issuing Bank;
- (10) The payment of principal and coupon due on this UnSD shall not be made to the extent that such payment will cause the Issuing Bank to become insolvent (for HT1 and UT2);
- (11) The holders of the UnSD shall be treated as if they were holders of a specified class of share capital in any proceedings commenced for the winding up of the Issuing Bank (for HT1 and UT2);

(Item “d(11)” above shall apply if such is the manner by which the UnSD is to be treated in loss situation. Otherwise it shall read as follows):

This UnSD shall be automatically converted into common shares or perpetual and non-cumulative preferred shares (for HT1), or into common shares or perpetual and non-cumulative preferred shares or perpetual and cumulative preferred shares (for UT2) upon occurrence of certain trigger events as follows:

- (a) Breach of minimum capital ratio;
- (b) Commencement of proceedings for winding up of the Issuing Bank; or

- (c) Upon appointment of receiver for the Issuing Bank.
The rate of conversion shall be fixed at the time of the subscription of this UnSD.
- (12) The amount and timing of coupons on this UnSD shall be discretionary on the Issuing Bank where the Issuing Bank has not paid or declared a dividend on its common shares in the preceding financial year, or determines that no dividend is to be paid on such shares in the current financial year; and the Issuing Bank shall have full control and access to waived payments (for HT1). The coupon payment on this UnSD shall be deferred where the Issuing Bank has not paid or declared a dividend on its common shares in the preceding financial year, or determines that no dividend is to be paid on such shares in the current financial year (for UT2);
- (13) The coupon on this UnSD shall be non-cumulative. In case there is a feature allowing withheld cash coupon to be payable in scrip or shares of stock, the shares of stock to be issued shall not be of lower quality capital than the UnSD (for HT1); and
- (14) The coupon to be paid on this UnSD shall be paid only to the extent that the Issuing Bank has profit distributable determined in accordance with existing Bangko Sentral regulations (for HT1).

N.B.: The last five (5) items (i.e., “10”, “11”, “12”, “13” and “14”) are applicable only to UnSD qualifying under HT1 and UT2 capital, as the case may be.

e. *Pre-termination by the Issuer*

- (1) The Issuing Bank may preterminate the negotiated UnSD subject to the following conditions:
 - (a) The Debt Agreement/Contract shall include the information that the Issuing Bank has the option to pre-terminate the UnSD;
 - (b) Compliance with call options as provided in applicable and existing capital adequacy framework;
 - (c) Prior notification of thirty (30) banking days or more to lender/investor; and
 - (d) Notwithstanding any agreement to the contrary, the Issuer shall shoulder the tax due, if any, on the interest income already earned by the holders.
- (2) Within ten (10) banking days after the completion of the pre-termination transaction, the Issuing Bank must submit a written notice to the appropriate supervising department of the Bangko Sentral of the following:
 - (a) Actual pre-termination date; and
 - (b) New capital composition.

f. *Functions/Responsibilities of the Issuing Bank*

- (1) Prepares the Prospectus/Information Disclosure on the UnSD issues;
- (2) Disseminates to prospective investors/buyers information on the terms and conditions of the UnSD (including information on no pre-termination at the initiative of the holder, and where applicable, the liquidity mechanism in secondary trading) and the rights and obligations of the holder and the issuer;
- (3) Keeps unissued UnSD certificates and maintains UnSD Register;
- (4) Records initial issuance of UnSD and subsequent transfer of ownership;
- (5) Issues UnSD Certificates and Registry Confirmation to original investors/buyers;
- (6) Issues Registry Confirmation to subsequent buyers/holders where applicable;
- (7) Ensures compliance with this Section on Prohibitions on holdings of unsecured subordinated debt and applies appropriate standards to combat money laundering as required under existing Bangko Sentral regulations; and
- (8) Determines suitability of the investors/buyers (original or subsequent) and assures that he fully understands the risk involved in a UnSD.

Issuance abroad of unsecured subordinated debt. The overseas issuance of UnSD shall also be subject to the provisions under this Section on Unsecured subordinated debt except for the following:

- a. Overseas issuance of UnSD may be allowed to be governed by the laws and applicable rules and regulations of the country where the UnSD is to be issued with respect to form, qualified investors/buyers and subsequent sale or negotiation;
- b. The requirements under Item “c(1)” on Minimum features of unsecured subordinated debt, Item “g(1)” on Public issuance of unsecured subordinated debt, and Items “d(1)” and “d(6)” on Private or negotiated issuance of unsecured subordinated debt of this Section may be allowed to be dispensed with in cases of overseas issuance of UnSD; and

- c. The subsequent sale/negotiation in the Philippines of the UnSDs originally issued overseas shall not be allowed unless all the requirements for domestic issuance are complied with.

It is however understood that the applicant/issuer shall also secure the approval of the International Department (ID) of the Bangko Sentral for the overseas issuance of foreign currency denominated UnSD.

Qualified investors/buyers. Qualified buyers of, or suitable investors in, a UnSD can be any of the following:

- a. Banks;
- b. Investment house (IH);
- c. Insurance company;
- d. Pension or retirement fund of other entities which have no subsidiary/affiliate or any other relationship with the Issuing Bank;
- e. Investment company;
- f. Funds managed by another bank or other entities duly authorized to engage in trust or other fiduciary business;
- g. Domestic corporate or institutional investors with total assets of at least P100.0 million;
- h. Foreign multilateral organizations such as, the ADB and IFC;
- i. High net-worth individual investor/buyer who is sophisticated enough to understand and appreciate the significance of and the risk involved in UnSD as may be indicated by his/her educational background and/or employment/business experience; and
- j. Stockholder, director or officer with the rank of at least a vice-president of the Issuing Bank.

Prohibitions on holdings of unsecured subordinated debt. The following persons and entities are prohibited from purchasing/holding UnSD of the Issuing Bank:

- a. Subsidiaries and affiliates of the Issuing Bank including their subsidiaries and affiliates; and
- b. Common trust funds (CTFs) managed by the Trust Department of the Issuing Bank, its subsidiaries and affiliates or other related entities: *Provided*, That other funds being managed by the Trust Department of the Issuing Bank, its subsidiaries and affiliates or other related entities are allowed to purchase or invest in UnSD of the Issuing Bank subject to the following conditions:
 - (1) That the fund owners give prior authority/instruction to the Trust Department to purchase or invest in the UnSD of the Issuing Bank; and
 - (2) That the authority/instruction of the fund owner and his understanding of the risk involved in purchasing or investing in UnSD are fully documented.

For purposes of this Section, an *affiliate* refers to a related entity linked by means of ownership of at least twenty percent (20%) to not more than fifty percent (50%) of its outstanding voting stock.

Accounting treatment. Obligations arising from the issuance of UnSD (including the portion exceeding the allowable ceiling for purposes of determining the qualifying capital as provided in applicable and existing capital adequacy framework shall be booked under the following General Ledger account titles:

- a. "Other Equity Instruments - Others" for HT1 capital which shall be presented in the equity accounts section of the Balance Sheet which shall be accounted for in accordance with the provisions of PAS 32; and
- b. "Unsecured Subordinated Debt" for UT2 and LT2 capital, which shall be presented in the liability accounts section of the balance sheet.

However, only the proceeds actually received from the UnSD issues, (i.e., net of discounts, if any, and transaction costs) shall be considered as HT1, UT2 or LT2 capital.

The proceeds actually received from the UnSD issues, (i.e., net of discounts, if any, and transaction costs) eligible as UT2 or LT2 capital shall be considered in the computation of loanable funds for purposes of determining compliance with the mandatory allocation of funds for agri-agra credit required under P.D. No. 717, as amended.

A UnSD eligible as HT1, UT2 or LT2 capital shall be accounted for in accordance with PAS 32 and PFRS 9.

A UnSD denominated in foreign currency eligible as HT1, UT2 or LT2 may be recorded in the regular banking unit (RBU) or foreign currency deposit unit (FCDU/EFCDU) of the issuing bank: *Provided*, That if booked in the FCDU/EFCDU, the following conditions shall be strictly observed:

- a. The issuing bank shall indicate in its application that the UnSD shall be booked in its FCDU/EFCDU;
- b. The UnSD shall remain in the FCDU/EFCDU books until full settlement; and
- c. The UnSD shall be issued only to non-residents and offshore banking units (OBUs) in accordance with Section 72.2.e of CB Circular No. 1389, as amended.

A UnSD eligible as HT1, UT2 or LT2 capital shall be accounted for in accordance with PAS 32 and PFRS 9.

Sanctions. Without prejudice to the other sanctions prescribed under Sections 36 and 37 of R.A. No. 7653 and the provisions of Section 16 of R.A. No. 8791, sanctions shall be imposed on Bangko Sentral-supervised FIs for failure to comply with the provisions of this Section and for non-disclosure or misrepresentation of information, as follows:

- a. *On the issuing bank*
 - (1) Suspension of its authority to issue remaining tranches, if any;
 - (2) Disqualification from future issuance of UnSD;
 - (3) Disqualification of all outstanding issues as eligible Tier 2 capital; and
 - (4) Monetary penalty of P30,000 for each violation.
- b. *On the underwriter/arranger*
 - (1) Disqualification from being underwriter/arranger for three (3) years; and
 - (2) Monetary penalty of P30,000 for each violation.
- c. *On the UnSD registry*
 - (1) Disqualification from being appointed as UnSD Registry for three (3) years; and
 - (2) Monetary penalty of P30,000 for each violation.
- d. *On the selling agent/market maker*
 - (1) Disqualification from being appointed as selling agent or market maker for three (3) years; and
 - (2) Monetary penalty of P30,000 for each violation.
- e. *On the public trustee*
 - (1) Disqualification from being appointed as public trustee for three (3) years; and
 - (2) Monetary penalty of P30,000 for each violation.
- f. *On the certifying officer* - A fine of P5,000 per day from the time of required disclosure up to the time disclosure was made, or from the time misrepresentation was made up to the time the information was corrected, and a possible disqualification if warranted by the gravity of the offense committed.
- g. *On the responsible officer* - A fine of P30,000 for participating in or tolerating the non-disclosure or misrepresentation of information, and a possible disqualification if warranted by the gravity of the offense committed.

FIs not supervised by the Bangko Sentral acting as selling agent and/or market maker of UnSDs and/or its concerned directors/officers that are found to violate rules and regulations in the performance of their functions/responsibilities shall be subject to the provisions of Section 36 of R.A. No. 7653 and shall, likewise, be referred to the SEC for appropriate action.

Interim Tier 1 capital for banks under rehabilitation. The following are the guidelines on the issuance of capital notes that will qualify as interim Tier 1 capital for banks under rehabilitation:

- a. Banks under rehabilitation shall be allowed, upon prior Bangko Sentral approval, to issue capital notes that shall qualify as interim Tier 1 capital: *Provided*, That the PDIC shall be the holder of the said capital notes: *Provided, further*, That any transfer from PDIC of said capital notes shall require prior Bangko Sentral approval.
- b. The interim Tier 1 capital notes shall have the following minimum features:
 - (1) It must be perpetual, unsecured and subordinated;
 - (2) It must be issued and fully paid-up. Only the net proceeds received from the issuance shall be included as Tier 1 capital. The proceeds of the issuance must be immediately available without limitation to the bank;

- (3) It must neither be secured nor covered by a guarantee of the issuer or related party or other arrangement that legally or economically enhances the priority of the claim of the PDIC as against depositors, other creditors of the bank and holders of LT2 and UT2 capital instruments;
- (4) The PDIC, as holder of the interim capital notes must not have a priority claim, in respect of its principal and coupon payments of the interim Tier 1 capital notes in the event of winding up of the bank, which is higher than or equal with that of depositors, other creditors of the bank and holders of LT2 (e.g., limited life redeemable preferred stock) and UT2 (e.g., perpetual and cumulative preferred stock) capital instruments. The PDIC must waive its right to set-off any amount it owes the bank against any subordinated amount owed to it due to the interim Tier 1 capital notes;
- (5) It must not be repayable without the prior approval of the Bangko Sentral: *Provided*, That repayment may be allowed only in connection with a call option after a minimum of five (5) years from issue date: *Provided, however*, That a call option may be exercised within the first five (5) years from issue date upon entry of new investors: *Provided, further*, That such repayment prior to maturity shall be approved by the Bangko Sentral only if it is simultaneously replaced with issues of new capital which is neither smaller in size nor of lower quality than the original issue, unless the bank's capital ratio remains more than adequate after redemption.

It must not contain any clause, which requires acceleration of payment of principal, except in the event of insolvency. The agreement governing its issuance must not contain any provision that mandates or creates an incentive for the bank to repay the outstanding principal of the interim Tier 1 capital notes, e.g., a cross-default or negative pledge or a restrictive covenant, other than a call option, which may be exercised by the bank;

- (6) The PDIC, as holder of the interim Tier 1 capital notes, shall have the right to convert, upon prior notice to the Bangko Sentral, the interim Tier 1 capital notes into perpetual and non-cumulative preferred shares convertible into common shares which may be sold to new investors: *Provided*, That the rate of conversion shall be fixed at the time of subscription of the interim Tier 1 capital notes;
 - (7) The coupons must be non-cumulative;
 - (8) The bank must have full discretion over the amount and timing of coupon payments and it must have full control and access to waived payments;
 - (9) Any coupon to be paid must be paid only to the extent that the bank has profits distributable determined in accordance with existing Bangko Sentral regulations. The coupon rate, or the formulation for calculating coupon payments must be fixed at the time of issuance of the interim Tier 1 capital notes and must not be linked to the credit standing of the bank;
 - (10) It must not have step-up provisions in the coupon rate in conjunction with the call option;
 - (11) All other transactions involving the capital notes shall require prior Bangko Sentral approval.
- c. The bank must submit a written opinion from its external auditor that the features of the interim Tier 1 capital notes shall be accounted for as equity instruments in accordance with PAS 32.

(Circular No. 1011 dated 14 August 2018)

127 RISK-BASED CAPITAL ADEQUACY FRAMEWORK FOR STAND-ALONE THRIFT BANKS, RURAL BANKS AND COOPERATIVE BANKS

The guidelines implementing the risk-based capital adequacy framework for Stand-alone TBs, RBs, and Coop Banks¹ are in Appendix 62.

- a. *Minimum capital requirements.* The minimum capital ratios shall be expressed as a percentage of capital to risk-weighted assets as shown below:

Minimum Capital Ratio	Capital	% of Risk Weighted Assets
Common Equity Tier 1 (CET1) Ratio	CET1	at least 6.0%
Tier 1 ratio	Tier 1	at least 7.5%
Capital Adequacy Ratio (CAR)	Qualifying Capital	at least 10.0%

A capital conservation buffer (CCB) of two and a half percent (2.5%), comprised of CET1 capital, shall likewise be imposed.

Stand-alone TBs, RBs and Coop Banks must meet the foregoing minimum capital ratios at all times for both solo

¹ These refer to TBs, RBs and Coop Banks that are not subsidiaries of UBs and KBs.

basis (head office and branches) and consolidated basis (parent bank and subsidiary financial allied undertakings).

Existing Hybrid Tier 1 capital and Unsecured Subordinated Debt instruments of covered banks shall continue to be recognized as part of Tier 2 capital until maturity/pre-termination/redemption of such capital issuances. In the case of Hybrid Tier 1 capital, no new issuances shall be allowed upon maturity of such instrument.

Capital instruments issued by covered banks starting 1 January 2014 must comply with the criteria for inclusion as capital as provided in *Annexes A to C* and *Annexes E to F of Appendix 59*.

The minimum capital ratios based on the new compositions and the CCB shall take effect starting 1 January 2023.

- b. *Reporting requirement.* Banks shall electronically submit a report on their risk-based CAR to the appropriate supervising department of the Bangko Sentral on both solo and consolidated bases using the prescribed forms in accordance with the following timelines:

Reporting Details	Solo	Consolidated
Frequency	Quarterly	Quarterly
Submission deadline	15 banking days from end of reference quarter	30 banking days from end of reference quarter

Only banks with subsidiary financial allied undertakings [i.e., RBs and venture capital corporations (VCCs) for TBs, and RBs for Coop Banks] which under the existing regulations are required to prepare consolidated financial statements on a line-by-line basis shall be required to submit report on a consolidated basis. The abovementioned reports shall be classified as Category A-2 reports.

The submission of the CAR report shall be subject to the provisions of Sec. 171 on governance process on the quality of bank reporting. Non-compliance with the reporting standards, or non-submission or delayed submission of the CAR report shall be subject to the sanctions provided under Sec. 171.

- c. *Observation period.* Stand-alone TBs, RBs and Coop Banks shall undergo an observation period until 31 December 2022. The observation period intends to ensure that covered banks meet the minimum capital ratios through reasonable measures without disrupting banking activities.

Requirements during the observation period. For monitoring purposes, covered banks shall submit the risk-based CAR reports using the existing and new frameworks, on both solo and consolidated bases, following the submission deadlines set out in Item “b”. Non-submission or delayed submission of the risk-based CAR reports using the new framework during the observation period shall be subject to the sanctions provided under Sec. 171.

- d. *Board and senior management oversight.* It shall be the responsibility of the banks’ board of directors and senior management to institute an appropriate system that would ensure compliance with the minimum capital ratios, accuracy of their calculations and integrity of the related monitoring and reporting systems. It is, likewise, the responsibility of the senior management to cause the immediate reporting of breaches in their minimum capital ratios to the board and to the Bangko Sentral, through the appropriate supervising department, within three (3) banking days from the date of breach in the minimum capital ratios.
- e. *Supervisory enforcement action.* Consistent with the provisions of Sec. 002, the Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in the foregoing guidelines and bring about timely corrective actions and compliance with the Bangko Sentral directives.

In this regard, the Bangko Sentral may issue directives to or impose sanctions on the bank and/or responsible persons which may include, among others, prohibition on the distribution of net profits, restrictions from certain activities (e.g., acquisition of major assets), and issuance of a reprimand to, or the suspension, removal or disqualification of a bank’s directors, officers or employees concerned. Moreover, the Bangko Sentral is not precluded from requiring a TB, RB and Coop Bank that is non-compliant with the minimum capital ratios to develop a capital build-up plan, which must be approved by the board of directors and stockholders of the bank concerned.

In case, however, of a bank merger, or consolidation, or when a bank is under rehabilitation program approved by the Bangko Sentral, the Monetary Board may temporarily relieve the surviving bank, consolidated bank, or constituent bank or corporations under rehabilitation from full compliance with the required capital ratios under such conditions as it may prescribe.

(Circular Nos. 1084 dated 28 April 2020 and 1079 dated 09 March 2020)

128 DOMESTIC SYSTEMICALLY IMPORTANT BANKS (D-SIBs)

It is the thrust of the Bangko Sentral to ensure that its capital adequacy framework is consistent with the Basel principles. Hence, the Bangko Sentral is adopting policy measures for D-SIBs, which are essentially aligned with the

documents issued by BCBS on global systemically important banks (G-SIBs) and D-SIBs. The broad aim of the policies is to reduce the probability of failure of D-SIBs by increasing their going-concern loss absorbency and to reduce the extent or impact of failure of D-SIBs on the domestic/real economy.

The guidelines shall apply on a consolidated basis to all UBs and KBs, including branches of foreign banks established under R.A. No. 7721 (An Act Liberalizing the Entry and Scope of Operations of Foreign Banks in the Philippines and for Other Purposes).

The framework for dealing with D-SIBs consists of three parts, as follows:

a. *Assessment methodology*

The impact of a D-SIB's failure to the domestic economy shall be assessed based on bank-specific factors, to wit: (a) size; (b) interconnectedness; (c) substitutability/financial institution infrastructure; and (d) complexity. Nine (9) indicators related to these categories shall be used to identify D-SIBs. These indicators reflect the factors or criteria which make a bank significant for the stability of the financial system and the economy.

b. *Higher Loss Absorbency (HLA) and interaction with other elements of Basel III framework*

Banks that will be identified as D-SIBs shall be required to have HLA. The HLA requirement is aimed at ensuring that D-SIBs have a higher share of their balance sheets funded by instruments which increase their resilience as a going concern, considering that the failure of a D-SIB is expected to have a greater impact on the domestic financial system and economy.

To determine banks' compliance with the additional CET1 requirement for D-SIBs, the minimum ratio should be complied with by the parent bank and its subsidiary banks and quasi-banks on both solo and consolidated bases.

c. *Intensive supervisory approach*

Banks identified as D-SIBs shall include in their Internal Capital Adequacy Assessment Process (ICAAP) document concrete and reasonable recovery plans which shall be implemented in case the bank breaches the HLA capital requirement. The recovery plans shall include guidelines and action plans to be taken to restore the D-SIB's financial condition to viable level in cases of significant deterioration in certain scenarios. This shall include specific initiatives appropriate to the bank's risk profile such as capital raising activities, streamlining of businesses, restructuring and disposal of assets, to improve capital position.

The framework for dealing with D-SIBs including the guidelines on data requirements and reports, schedule of restriction on distribution of dividends during the phased-in implementation period of the HLA requirement, and recovery plan of a D-SIB are shown in *Appendix 110*.

(Circular No. 1051 dated 27 September 2019)

129 BASEL III LEVERAGE RATIO FRAMEWORK

- a. *Minimum requirement.* The Basel III Leverage Ratio is designed to act as a supplementary measure to the risk-based capital requirements. The leverage ratio intends to restrict the build-up of leverage in the banking sector to avoid destabilizing deleveraging processes which can damage the broader financial system and the economy. Likewise, it reinforces the risk-based requirements with a simple, non-risk based "backstop" measure.

The Basel III leverage ratio is defined as the capital measure (the numerator) divided by the exposure measure (the denominator), with this ratio expressed as percentage:

$$\text{Basel III Leverage Ratio} = \frac{\text{Capital Measure (Tier 1 Capital)}}{\text{Exposure Measure}}$$

The leverage ratio shall not be less than five percent (5%) computed on both solo (head office plus branches) and consolidated bases (parent bank plus subsidiary financial allied undertakings but excluding insurance companies).

The guidelines implementing the Basel III Leverage Ratio framework are provided in *Appendix 116*. The guidelines shall apply to UBs and KBs and their subsidiary banks/QBs.

Starting 31 December 2014 and every quarter thereafter until 30 June 2018, banks concerned shall submit the Basel III Leverage Ratio reporting template, including required disclosure templates, on both solo and consolidated bases for monitoring purposes. The report submission is summarized below:

Report Date	Reference Date	Deadline of Submission
30 September 2017 31 December 2017	31 December 2017	Fifteen (15) banking days from end of reference date on solo basis, and

Report Date	Reference Date	Deadline of Submission
31 March 2018	31 March 2018	Thirty (30) banking days from end of reference date on consolidated basis
30 June 2018	30 June 2018	

During the monitoring period, public disclosure of information relative to leverage ratio shall not be required.

The monitoring of the leverage ratio shall be implemented as a Pillar 1 minimum requirement effective on 1 July 2018. Upon migration to a Pillar 1 requirement, the Basel III Leverage Ratio report shall be submitted quarterly along with the Basel III CAR report on both solo and consolidated bases. The mandatory disclosure requirements provided under *Appendix 116* shall be published in the quarterly published balanced sheet as well as in the annual reports or published financial reports (e.g., audited financial statements).

- b. *Sanctions.* Banks shall not be penalized on any breach on the five percent (5%) minimum leverage ratio during the monitoring period. However, erroneous, delayed, erroneous and delayed, or unsubmitted reports of banks shall be subject to penalties provided under Sec. 171 (*Sanctions on Reports for Non-compliance with the Reporting Standards*). The reports shall be classified as *Category A-1* report.

(Circular Nos. 990 dated 22 January 2018, 963 dated 27 June 2017, 943 dated 26 January 2017 and 881 dated 09 June 2015, and M-2015-026 dated 16 July 2015)

130 INTERNAL CAPITAL ADEQUACY ASSESSMENT PROCESS AND SUPERVISORY REVIEW PROCESS

The guidelines on banks' internal capital adequacy assessment process (ICAAP) and Bangko Sentral's supervisory review process (SRP) are shown in *Appendices 94, 95, and 96*, respectively.

The ICAAP guidelines shall apply to all UBs and KBs on a group-wide basis.

(Circular No. 869 dated 30 January 2015)

D. CORPORATE GOVERNANCE

131 POLICY STATEMENT AND DEFINITION OF TERMS

It is the thrust of the Bangko Sentral to continuously strengthen corporate governance in its supervised financial institutions cognizant that this is central in sustaining the resiliency and stability of the financial system. In this light, the Bangko Sentral is aligning its existing regulations with the Code of Corporate Governance for Publicly-Listed Companies issued by the SEC as well as with best practices and standards issued by globally recognized standard setting bodies.

Definition of terms. For purposes of these regulations, the following definitions shall apply:

- a. *Affiliate* shall refer to an entity linked directly or indirectly to a BSFI by means of:
 - (1) Ownership, control as defined under Item "d" hereof, or power to vote of at least twenty percent (20%) of the outstanding voting stock of the entity, or vice-versa;
 - (2) Interlocking directorship or officership, where the director or officer concerned owns, controls, as defined under Item "d" hereof, or has the power to vote, at least twenty percent (20%) of the outstanding voting stock of the entity;
 - (3) Common ownership, whereby the common stockholders own at least ten percent (10%) of the outstanding voting stock of the BSFI and at least twenty percent (20%) of the outstanding voting stock of the entity;
 - (4) Management contract or any arrangement granting power to the BSFI to direct or cause the direction of management and policies of the entity; or
 - (5) Permanent proxy or voting trusts in favor of the BSFI constituting at least twenty percent (20%) of the outstanding voting stock of the entity, or vice versa.
- b. *Close family members* shall refer to persons related to the BSFI's directors, officers and stockholders (DOS) within the second degree of consanguinity or affinity, legitimate or common-law. These shall include the spouse, parent, child, brother, sister, grandparent, grandchild, parent-in-law, son-/daughter-in-law, brother/sister-in-law, grandparent-in-law, and grandchild-in-law of the BSFI's DOS.
- c. *Complex banks* shall refer to UBs/KBs. Nonetheless, a UB/KB may apply with the Bangko Sentral for a reclassification as simple or non-complex bank in order to avail of the reduced minimum requirement on the constitution of board committees. The Bangko Sentral may likewise declare TBs, RBs or Coop Banks as complex. Any TB, RB or Coop Bank having at least three (3) of the following characteristics shall be deemed a complex bank:

- (1) Total assets of at least P6 billion;
 - (2) Extensive branch network;
 - (3) Non-traditional financial products and services by virtue of special authorities (e.g., trust, quasi-banking, derivatives licenses), as well as distinctive products like credit cards, remittance, trade-related services, contract-to-sell (CTS) financing, among other financial services;
 - (4) Use of non-conventional business model, such as those using non-traditional delivery platform such as electronic platforms; and
 - (5) Business strategy characterized by risk appetite that is aggressive, and risk exposures which are increasing, such as those with robust branch expansion programs or acquisition plans as determined by the Bangko Sentral.
- d. *Control of an enterprise exists when there is:*
- (1) Power over more than one-half of the voting rights by virtue of an agreement with other stockholders; or
 - (2) Power to govern the financial and operating policies of the enterprise under a statute or an agreement; or
 - (3) Power to appoint or remove the majority of the members of the board of directors or equivalent governing body; or
 - (4) Power to cast the majority votes at meetings of the board of directors or equivalent governing body; or
 - (5) Any other arrangement similar to any of the above.

Control is presumed to exist if there is ownership or holding, whether direct or indirect, of twenty percent (20%) or more of a class of voting shares of a company.

Should the BSFI choose to disclaim or rebut the presumption, it should provide facts sufficient to show that there is indeed no control. *Further*, the BSFI shall submit a written commitment that: (a) shares owned or held are exclusively for investment purposes; (b) the BSFI-stockholder will not serve on the board of directors and will not nominate any candidate to serve on the board of directors or otherwise seek board representation; (c) the BSFI-stockholder will have only limited contacts with BSFI management that are customary for interested shareholders; (d) the BSFI-stockholder will engage only in normal and customary transactions with the enterprise; and (e) the BSFI will not pledge the shares acquired to secure a loan with any institution.

- e. *Corresponding persons in affiliated companies* shall refer to the DOS of the affiliated companies and their close family members.
- f. *Directors.* Directors shall include:
- (1) directors who are named as such in the articles of incorporation;
 - (2) directors duly elected in subsequent meetings of the stockholders or those appointed by virtue of the charter of government-owned BSFIs; and
 - (3) those elected to fill vacancies in the board of directors.
- g. *Independent directors.* An independent director shall refer to a person who –
- (1) is not or was not a director, officer or employee of the BSFI, its subsidiaries, affiliates or related interests during the past three (3) years counted from the date of his election/appointment;
 - (2) is not or was not a director, officer, or employee of the BSFI's substantial stockholders and their related companies during the past three (3) years counted from the date of his election/appointment;
 - (3) is not an owner of more than two percent (2%) of the outstanding shares or a stockholder with shares of stock sufficient to elect one (1) seat in the board of directors of the institution, or in any of its related companies or of its majority corporate shareholders;
 - (4) is not a close family member of any director, officer or stockholder holding shares of stock sufficient to elect one (1) seat in the board of directors of the BSFI or any of its related companies or of any of its substantial stockholders;
 - (5) is not acting as a nominee or representative of any director or substantial shareholder of the BSFI, any of its related companies or any of its substantial shareholders;
 - (6) is not or was not retained as professional adviser, consultant, agent or counsel of the BSFI, any of its related companies or any of its substantial shareholders, either in his personal capacity or through his firm during the past three (3) years counted from the date of his election;
 - (7) is independent of management and free from any business or other relationship, has not engaged and does not engage in any transaction with the BSFI or with any of its related companies or with any of its substantial

shareholders, whether by himself or with other persons or through a firm of which he is a partner or a company of which he is a director or substantial shareholder, other than transactions which are conducted at arm's length and could not materially interfere with or influence the exercise of his judgment;

- (8) was not appointed in the BSFI, its subsidiaries, affiliates or related interests as Chairman "Emeritus", "Ex-Officio", Directors/Officers or Members of any Advisory Board, or otherwise appointed in a capacity to assist the board of directors in the performance of its duties and responsibilities during the past three (3) years counted from the date of his appointment;
 - (9) is not affiliated with any non-profit organization that receives significant funding from the BSFI or any of its related companies or substantial shareholders; and
 - (10) is not employed as an executive officer of another company where any of the BSFI's executives serve as directors.
- h. *Majority stockholder or majority shareholder* shall refer to a person, whether natural or juridical, owning more than fifty percent (50%) of the voting stock of a BSFI.
 - i. *Non-executive directors* shall refer to those who are not part of the day to day management of operations and shall include the independent directors. However, not all non-executive directors are considered independent directors.
 - j. *Officers* shall include the chief executive officer (CEO)¹, executive vice president, senior vice-president, vice president, general manager, treasurer, secretary, trust officer and others mentioned as officers of the BSFI, or those whose duties as such are defined in the by-laws, or are generally known to be the officers of the BSFI (or any of its branches and offices other than the head office) either through announcement, representation, publication or any kind of communication made by the BSFI: *Provided*, That a person holding the position of chairman or vice-chairman of the board of directors or another position in the board of directors shall not be considered as an officer unless the duties of his position in the board of directors include functions of management such as those ordinarily performed by regular officers: *Provided, further*, That members of a group or committee, including sub-groups or sub-committees, whose duties include functions of management such as those ordinarily performed by regular officers, and are not purely recommendatory or advisory, shall likewise be considered as officers.
 - k. *Parent* shall refer to a corporation which has control over another corporation directly or indirectly through one (1) or more intermediaries;
 - l. *Related company* shall refer to another company which is:
 - (1) Its parent or holding company;
 - (2) Its subsidiary or affiliate; or
 - (3) A corporation where a BSFI or its majority stockholder own such number of shares that will allow/enable such person or group to elect at least one (1) member of the board of directors or a partnership where such majority stockholder is a partner.
 - m. *Related interest* shall refer to any of the following:
 - (1) Spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, of a director, officer or stockholder of the BSFI;
 - (2) Partnership of which a director, officer, or stockholder of a BSFI or his spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, is a general partner;
 - (3) Co-owner with the director, officer, stockholder or his spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, of the property or interest or right mortgaged, pledged or assigned to secure the loans or other credit accommodations, except when the mortgage, pledge or assignment covers only said co-owner's undivided interest;
 - (4) Corporation, association or firm of which any or a group of directors, officers, stockholders of the BSFI and/or their spouses or relatives within the first degree of consanguinity or affinity, or relative by legal adoption, hold or own at least twenty percent (20%) of the subscribed capital of such corporation, or of the equity of such association or firm;
 - (5) Corporation, association or firm wholly or majority-owned or controlled by any related entity or a group of related entities mentioned in Items "m(2)" and "m(4)" above;
 - (6) Corporation, association or firm which owns or controls directly or indirectly whether singly or as part of a group

¹ Shall also refer to the President or any other title referring to the top management post in the BSF

of related interest at least twenty percent (20%) of the subscribed capital of a substantial stockholder of the BSFI or which controls majority interest of the BSFI pursuant to Item “g” of Sec. 362 (*Definition of terms*);

- (7) Corporation, association or firm which has an existing management contract or any similar arrangement with the parent of the BSFI; and
- (8) Non-governmental organizations (NGOs)/foundations that are engaged in retail microfinance operations which are incorporated by any of the stockholders and/or directors and/or officers or related BSFIs.

The general principles and standards that will govern the business relationship between BSFIs and their related NGOs/foundations engaged in retail microfinance are found in *Appendix 23*.

- n. *Related parties* shall cover the BSFI’s subsidiaries as well as affiliates and any party (including their subsidiaries, affiliates and special purpose entities) that the BSFI exerts direct/indirect control over or that exerts direct/indirect control over the BSFI; the BSFI’s DOSRI, and their close family members, as well as corresponding persons in affiliated companies. These shall also include such other person/juridical entity whose interests may pose potential conflict with the interest of the BSFI, hence, is identified as a related party.

The above definition shall also include direct or indirect linkages to a BSFI identified as follows:

- (1) Ownership, control or power to vote, of ten percent (10%) to less than twenty percent (20%) of the outstanding voting stock of the borrowing entity, or vice versa;
 - (2) Interlocking directorship or officership, except in cases involving independent directors as defined under existing regulations or directors holding nominal share in the borrowing corporation;
 - (3) Common stockholders owning at least ten percent (10%) of the outstanding voting stock of the BSFI and ten percent (10%) to less than twenty percent (20%) of the outstanding voting stock of the borrowing entity; or
 - (4) Permanent proxy or voting trusts in favor of the BSFI constituting ten percent (10%) to less than twenty percent (20%) of the outstanding voting stock of the borrowing entity, or vice versa.
- o. *Related party transactions (RPTs)* shall refer to transactions or dealings with related parties of the BSFI, including its trust department regardless of whether or not a price is charged. These shall include, but not limited to the following:
 - (1) On- and off-balance sheet credit exposures and claims and write-offs;
 - (2) Investments and/or subscriptions for debt/equity issuances;
 - (3) Consulting, professional, agency and other service arrangements/contracts;
 - (4) Purchases and sales of assets, including transfer of technology and intangible items (e.g., research and development, trademarks and license agreements);
 - (5) Construction arrangements/contracts;
 - (6) Lease arrangements/contracts;
 - (7) Trading and derivative transactions;
 - (8) Borrowings, commitments, fund transfers and guarantees;
 - (9) Sale, purchase or supply of any goods or materials; and
 - (10) Establishment of joint venture entities.

RPTs shall be interpreted broadly to include not only transactions that are entered into with related parties but also outstanding transactions that were entered into with an unrelated party that subsequently becomes a related party.

- p. *Risk appetite statement* shall refer to the articulation in written form of the aggregate level and types of risk that a BSFI is willing to accept, or to avoid, in order to achieve its business objectives. It includes qualitative statements as well as quantitative measures expressed relative to earnings, capital, risk measures, liquidity and other relevant measures as appropriate.
- q. *Risk governance framework* shall refer to the framework through which the board of directors and management establish the BSFI’s strategy; articulate and monitor adherence to risk appetite and risk limits; and identify, measure, and manage risks.
- r. *Risk limits* shall refer to the allocation of the BSFI’s risk appetite statement to: specific risk categories (e.g., credit, market, liquidity, operational); the business unit or platform level (e.g., retail, capital markets); lines of business or product level [e.g., concentration, value-at-risk (VaR), or other limits]; and other levels, as appropriate.
- s. *Stockholder* shall refer to any stockholder of record in the books of the BSFI, acting personally, or through an attorney-in-fact; or any other person duly authorized by him or through a trustee designated pursuant to a proxy or voting trust or other similar contracts, whose stockholdings in the BSFI, individual and/or collectively with the stockholdings of: (1) his spouse and/or relative within the first degree by consanguinity or affinity or legal adoption; (2) a partnership in which the stockholder and/or the spouse and/or any of the aforementioned relatives is a general partner; and (3) corporation, association or firm of which the stockholder and/or his spouse and/or the aforementioned relatives own

more than fifty percent (50%) of the total subscribed capital stock of such corporation, association or firm, amount to one percent (1%) or more of the total subscribed capital stock of the BSFI.

- t. *Substantial stockholder* shall refer to a person, or group of persons whether natural or juridical, owning such number of shares that will allow such person or group to elect at least one (1) member of the board of directors of a BSFI or who is directly or indirectly the registered or beneficial owner of more than ten percent (10%) of any class of its equity security.
- u. *Subsidiary* shall refer to a corporation or firm more than fifty percent (50%) of the outstanding voting stock of which is directly or indirectly owned, controlled or held with power to vote by its parent corporation.

132 BOARD OF DIRECTORS

Powers/Corporate powers of the board of directors. The corporate powers of an institution shall be exercised, its business conducted, and all its resources controlled through its board of directors. The powers of the board of directors as conferred by law are original and cannot be revoked by the stockholders. The directors shall hold their office charged with the duty to exercise sound and objective judgment for the best interest of the institution.

Composition of the board of directors.

- a. Pursuant to Sections 15 and 17 of R.A. No. 8791, there shall be at least five (5), and a maximum of fifteen (15) members of the board of directors of a BSFI: *Provided*, That in case of a bank merger or consolidation, the number of directors may be increased up to the total number of the members of board of directors of the merging or consolidating bank as provided for in their respective articles of incorporation, but in no case to exceed twenty-one (21). The board of directors shall determine the appropriate number of its members to ensure that the number thereof is commensurate to the size and complexity of the BSFI's operations.
- b. To the extent practicable, the members of the board of directors shall be selected from a broad pool of qualified candidates. Non-executive directors, who shall include independent directors, shall comprise at least majority of the board of directors to promote the independent oversight of management by the board of directors.
- c. At least one-third (1/3) but not less than two (2) members of the board of directors shall be independent directors: *Provided*, That any fractional result from applying the required minimum proportion, i.e., one-third (1/3), shall be rounded up to the nearest whole number: *Provided, further*, That in the case of RBs, at least one (1) independent director shall be elected to the board of directors: *Provided, furthermore*, That RBs whose business model is deemed complex by the Bangko Sentral, or as directed by the appropriate supervising department, shall have at least one-third (1/3) but not less than two (2) members of the board of directors as independent directors: *Provided, finally*, That any fractional result from applying the required minimum proportion, i.e., one-third (1/3) shall be rounded-up to the nearest whole number.
- d. Non-Filipino citizens may become members of the board of directors of a BSFI to the extent of the foreign participation in the equity of said BSFI: *Provided*, That pursuant to Section 23 of the Corporation Code of the Philippines (BP Blg. 68), a majority of the directors must be residents of the Philippines.

Qualifications of a director.

- a. *A director shall have the following minimum qualifications:*
 - (1) He must be fit and proper for the position of a director. In determining whether a person is fit and proper for the position of a director, the following matters must be considered: integrity/probity, physical/mental fitness; relevant education/financial literacy/training; possession of competencies relevant to the job, such as knowledge and experience, skills, diligence and independence of mind; and sufficiency of time to fully carry out responsibilities.

In assessing a director's integrity/probity, consideration shall be given to the director's market reputation, observed conduct and behavior, as well as his ability to continuously comply with company policies and applicable laws and regulations, including market conduct rules, and the relevant requirements and standards of any regulatory body, professional body, clearing house or exchange, or government and any of its instrumentalities/agencies.

An elected director has the burden to prove that he possesses all the foregoing minimum qualifications and none of the cases mentioned under Sec. 138 (*Persons disqualified to become directors*).

A director shall submit to the Bangko Sentral the required certifications and other documentary proof of such qualifications using *Appendix 101* as guide within twenty (20) banking days from the date of election. Non-submission of complete documentary requirements or their equivalent within the prescribed period shall be construed as his failure to establish his qualifications for the position and results in his removal from

the board of directors.

The Bangko Sentral shall also consider its own records in determining the qualifications of a director.

The members of the board of directors shall possess the foregoing qualifications in addition to those required or prescribed under R.A. No. 8791 and other applicable laws and regulations.

- (2) He must have attended a seminar on corporate governance for board of directors. A director shall submit to the Bangko Sentral a certification of compliance with the Bangko Sentral-prescribed syllabus on corporate governance for first-time directors and documentary proof of such compliance: *Provided*, That the following persons are exempted from complying with the aforementioned requirement:
 - (a) Filipino citizens with recognized stature, influence and reputation in the banking community and whose business practices stand as testimonies to good corporate governance;
 - (b) Distinguished Filipino and foreign nationals who served as senior officials in central banks and/or financial regulatory agencies, including former Monetary Board members; or
 - (c) Former Chief Justices and Associate Justices of the Philippine Supreme Court:

Provided, further, That this exemption shall not apply to the annual training requirements for the members of the board of directors.

b. *Independent and non-executive directors*

In selecting independent and non-executive directors, the number and types of entities where the candidate is likewise elected as such, shall be considered to ensure that he will be able to devote sufficient time to effectively carry out his duties and responsibilities. In this regard, the following shall apply:

- (1) A non-executive director may concurrently serve as director in a maximum of five (5) publicly listed companies. In applying this provision to concurrent directorship in entities within a conglomerate, each entity where the non-executive director is concurrently serving as director shall be separately considered in assessing compliance with this requirement; and
- (2) An independent director of a BSFI may only serve as such for a maximum cumulative term of nine (9) years. After which, the independent director shall be perpetually barred from serving as independent director in the same BSFI, but may continue to serve as regular director. The nine (9) year maximum cumulative term for independent directors shall be reckoned from 2012.

c. *Members of the board of directors shall not be appointed as Corporate Secretary or Chief Compliance Officer.*

Chairperson of the board of directors.

- a. *Roles of the Chairperson of the board of directors.* The Chairperson of the board of directors shall provide leadership in the board of directors. He shall ensure effective functioning of the board of directors, including maintaining a relationship of trust with members of the board of directors. He shall: (1) ensure that the meeting agenda focuses on strategic matters including discussion on risk appetites, and key governance concerns; (2) ensure a sound decision-making process; (3) encourage and promote critical discussion; (4) ensure that dissenting views can be expressed and discussed within the decision-making process; (5) ensure that members of the board of directors receive accurate, timely, and relevant information; (6) ensure the conduct of proper orientation for first-time directors and provide training opportunities for all directors; and (7) ensure conduct of performance evaluation of the board of directors at least once a year.
- b. *Qualifications of the chairperson of the board of directors.* To promote checks and balances, the chairperson of the board of directors shall be a non-executive director or an independent director, and must not have served as CEO of the BSFI within the past three (3) years. The positions of chairperson and CEO shall not be held by one (1) person. In exceptional cases where the position of chairperson of the board of directors and CEO is allowed to be held by one (1) person as approved by the Monetary Board, a lead independent director shall be appointed.

For this purpose, the board of directors shall define the responsibilities of the lead independent director, which shall be documented in the corporate governance manual. The board of directors shall ensure that the lead independent director functions in an environment that allows him to effectively challenge the CEO as circumstances may warrant. The lead independent director shall perform a more enhanced function over the other independent directors and shall: (1) lead the independent directors at board of directors meetings in raising queries and pursuing matters; and (2) lead meetings of independent directors, without the presence of the executive directors.

Board of directors meetings. BSFIs shall include in their by-laws a provision that meetings of their board of directors shall be held only within the Philippines, except in the case of BSFIs with head office located outside the Philippines, where meetings may be held in their respective places of business.

a. *Full board of directors meetings*

The meetings of the board of directors may be conducted through modern technologies such as, but not limited to teleconferencing and video conferencing as long as the director who is taking part in said meetings can actively participate in the deliberations on matters taken up therein: *Provided*, That every member of the board of directors shall participate in at least fifty percent (50%) and shall physically attend at least twenty-five percent (25%) of all meetings of the board of directors every year: *Provided, further*, That the absence of a director in more than fifty percent (50%) of all regular and special meetings of the board of directors during his/her incumbency is a ground for disqualification in the succeeding election.

b. *Board-level committee meetings*

Board-level committees shall meet as prescribed in their respective charters. Participation of committee members may likewise be in person or through modern technologies: *Provided*, That the attendance and participation of members in committee meetings shall be considered in the assessment of continuing fitness and propriety of each director as member of board-level committees and the board of directors.

Specific duties and responsibilities of the board of directors. The board of directors is primarily responsible for defining the BSFI's vision and mission. The board of directors has the fiduciary responsibility to the BSFI and all its shareholders including minority shareholders. It shall approve and oversee the implementation of strategies to achieve corporate objectives. It shall also approve and oversee the implementation of the risk governance framework and the systems of checks and balances. It shall establish a sound corporate governance framework. The board of directors shall approve the selection of the CEO and key members of senior management and control functions and oversee their performance.

a. *The board of directors shall define the BSFI's corporate culture and values.* It shall establish a code of conduct and ethical standards in the BSFI and shall institutionalize a system that will allow reporting of concerns or violations to an appropriate body. In this regard, the board of directors shall:

- (1) Approve a code of conduct or code of ethics, which shall articulate acceptable and unacceptable activities, transactions and behaviors that could result or potentially result in conflict of interest, personal gain at the expense of the BSFI as well as the corresponding disciplinary actions and sanctions. The code of conduct shall explicitly provide that directors, officers, and all personnel are expected to conduct themselves ethically and perform their job with skill, due care, and diligence in addition to complying with laws, regulations, and company policies.
- (2) Consistently conduct the affairs of the BSFI with a high degree of integrity and play a lead role in establishing the BSFI's corporate culture and values. The board of directors shall establish, actively promote, and communicate a culture of strong governance in the BSFI, through adopted policies and displayed practices. The board of directors shall ensure that the CEO and executive team champion the desired values and conduct, and that they face material consequences if there are persistent or high profile conduct and value breaches.
- (3) Oversee the integrity, independence, and effectiveness of BSFI's policies and procedures for whistleblowing. It shall allow employees to communicate, with protection from reprisal, legitimate concerns about illegal, unethical or questionable practices directly to the board of directors or to any independent unit. Policies shall likewise be set on how such concerns shall be investigated and addressed, for example, by an internal control function, an objective external party, senior management and/or the board of directors itself. It shall prevent the use of the facilities of the BSFI in the furtherance of criminal and other improper or illegal activities, such as but not limited to financial misreporting, money laundering, fraud, bribery or corruption.

b. *The board of directors shall be responsible for approving BSFI's objectives and strategies and in overseeing management's implementation thereof.* In this regard, the board of directors shall:

- (1) Ensure that the BSFI has beneficial influence on the economy by continuously providing services and facilities which will be supportive of the national economy.
- (2) Approve the BSFI's strategic objectives and business plans. These shall take into account the BSFI's long-term financial interests, its level of risk tolerance, and ability to manage risks effectively. In this respect, the board of directors shall establish a system for measuring performance against plans.
- (3) Actively engage in the affairs of the BSFI and keep-up with material changes in the BSFI's business and regulatory environment as well as act in a timely manner to protect the long-term interests of the BSFI.
- (4) Approve and oversee the implementation of policies governing major areas of the BSFI's operations. The board of directors shall regularly review these policies, as well as evaluate control functions (e.g., internal audit, risk management and compliance) with senior management to determine areas for improvement as well as to promptly identify and address significant risks and issues.

- c. *The board of directors shall be responsible for the appointment/selection of key members of senior management and heads of control functions and for the approval of a sound remuneration and other incentives policy for personnel.* In this regard, the board of directors shall:
- (1) Oversee selection of the CEO and other key personnel, including members of senior management and heads of control functions based on the application of fit and proper standards. Integrity, technical expertise, and experience in the BSFI's business, either current or planned, shall be the key considerations in the selection process. Moreover, since mutual trust and a close working relationship are important, the members of senior management shall uphold the general operating philosophy, vision and core values of the BSFI.
 - (2) Approve and oversee the implementation of performance standards as well as remuneration and other incentives policy. The policy should be consistent with the long-term strategic objectives and financial soundness of the BSFI and should promote good performance, convey acceptable risk-taking behavior, and reinforce the BSFI's operating and risk culture.
 - (3) Oversee the performance of senior management and heads of control functions:
 - (a) The board of directors shall regularly monitor and assess the performance of the management team and heads of control functions based on approved performance standards.
 - (b) The board of directors shall hold members of senior management accountable for their actions and enumerate the possible consequences if those actions are not aligned with the board of directors' performance expectations. These expectations shall include adherence to the BSFI's values, risk appetite and risk culture, under all circumstances.
 - (c) The board of directors shall regularly meet with senior management to engage in discussions, question, and critically review the reports and information provided by the latter.
 - (d) Non-executive board members shall meet regularly, other than in meetings of the audit, risk oversight, corporate governance, and related party transactions committees, in the absence of senior management, with the external auditor and heads of the internal audit, compliance and risk management functions.
 - (4) Engage in succession planning for the CEO and other critical positions, as appropriate. In this respect, the board of directors shall establish an effective succession planning program. The program should include a system for identifying and developing potential successors for the CEO and other critical positions.
 - (5) Ensure that personnel's expertise and knowledge remain relevant. The board of directors shall provide its personnel with regular training opportunities as part of a professional development program to enhance their competencies and stay abreast of developments relevant to their areas of responsibility.
 - (6) Ensure that employee pension funds are fully funded or the corresponding liability appropriately recognized in the books of the BSFI at all times, and that all transactions involving the pension fund are conducted at arm's length terms.
- d. *The board of directors shall be responsible for approving and overseeing implementation of the BSFI's corporate governance framework.* In this regard, the board of directors shall:
- (1) Define appropriate governance structure and practices for its own work, and ensure that such practices are followed and periodically reviewed:
 - (a) The board of directors shall structure itself in a way, including in terms of size and frequency of meetings, so as to promote efficiency, critical discussion of issues, and thorough review of matters. The board of directors shall meet regularly to properly discharge its functions, and likewise have discussions on values, conduct, and behaviors.
 - (b) The board of directors shall create committees to increase efficiency and allow deeper focus in specific areas. The number and nature of board-level committees would depend on the size of the BSFI and the board of directors, the BSFI's complexity of operations, as well as the board of directors' long-term strategies and risk tolerance.
 - (c) The board of directors shall regularly review the structure, size and composition of the board of directors and board-level committees with the end in view of having a balanced membership. Towards this end, a system and procedure for evaluation of the structure, size and composition of the board of directors and board-level committees shall be adopted which shall include, but not limited to, benchmark and peer group analysis. The results of assessment shall form part of the ongoing improvement efforts of the board of directors.

- (d) The board of directors shall adopt policies aimed at ensuring that the members of the board of directors are able to commit to effectively discharge their responsibilities, which shall include policy on the number of directorship positions and/or other internal/external professional commitments that a director may have, commensurate with the responsibilities placed on the director, as well as the nature, scale and complexity of the BSFI's operations.
 - (e) The board of directors shall ensure that individual members of the board of directors and the shareholders are accurately and timely informed of a comprehensive and understandable assessment of the BSFI's performance, financial condition, and risk exposures. All members of the board of directors shall have reasonable access to any information about the BSFI at all times. The board of directors shall also ensure that adequate and appropriate information flows internally and to the public.
 - (f) The board of directors shall assess at least annually its performance and effectiveness as a body, as well as its various committees, the CEO, the individual directors, and the BSFI itself, which may be facilitated by the corporate governance committee or external facilitators. This exercise shall cover the assessment of the ongoing suitability of each board member taking into account his or her performance in the board of directors and board-level committees.
 - (g) The board of directors shall maintain appropriate records (e.g., meeting minutes or summaries of matters reviewed, recommendations made, decisions taken and dissenting opinions) of its deliberations and decisions. The board of directors shall also ensure that independent views in meetings of the board of directors shall be given full consideration and all such meetings shall be duly minuted.
- (2) Develop a remuneration and other incentives policy for directors that shall be submitted for approval of the stockholders. The board of directors shall ensure that the policy is consistent with the long-term interest of the BSFI, does not encourage excessive risk-taking, and is not in conflict with the director's fiduciary responsibilities.
 - (3) Adopt a policy on retirement for directors and officers, as part of the succession plan, to promote dynamism and avoid perpetuation in power.
 - (4) Conduct and maintain the affairs of the BSFI within the scope of its authority as prescribed in its charter and in existing laws, rules and regulations. It shall ensure effective compliance with the latter, which include prudential reporting obligations. Serious weaknesses in adhering to these duties and responsibilities may be considered as unsafe or unsound banking.
 - (5) Maintain, and periodically update, organizational rules, by-laws, or other similar documents setting out its organization, rights, responsibilities and key activities. The board of directors shall ensure that the BSFI's organizational structure facilitates effective decision-making and good governance. This includes clear definition and delineation of the lines of responsibility and accountability.
 - (6) Oversee the development, approve, and monitor implementation of corporate governance policies. The board of directors shall ensure that corporate governance policies are followed and periodically reviewed for ongoing improvement.
 - (7) Approve an overarching policy on the handling of RPTs to ensure that there is effective compliance with existing laws, rules and regulations at all times, that these are conducted on an arm's length basis, and that no stakeholder is unduly disadvantaged. In this regard:
 - (a) The board of directors shall approve all material RPTs, those that cross the materiality threshold, and write-off of material exposures to related parties, and submit the same for confirmation by majority vote of the stockholders in the annual stockholders' meeting. Any renewal or material changes in the terms and conditions of RPTs shall also be approved by the board of directors. All final decisions of the board of directors on material RPTs, including important facts about the nature, terms, conditions, original and outstanding individual and aggregate balances, justification and other details that would allow stockholders to make informed judgment as to the reasonableness of the transaction, must be clearly disclosed during stockholders meetings and duly reflected in the minutes of board of directors and stockholders' meetings.
 - (b) The board of directors shall delegate to appropriate management committee the approval of RPTs that are below the materiality threshold, subject to confirmation by the board of directors. This shall, however, exclude DOSRI transactions, which are required to be approved by the board of directors. All decisions under the delegated authority must be properly recorded in the minutes of the committee meetings.
 - (c) The board of directors shall establish an effective system to:
 - (i) Determine, identify and monitor related parties and RPTs;
 - (ii) Continuously review and evaluate existing relationships between and among businesses and

counterparties; and

- (iii) Identify, measure, monitor and control risks arising from RPTs. The system should be able to define related parties' extent of relationship with the BSFI; assess situations in which a non-related party (with whom a BSFI has entered into a transaction) subsequently becomes a related party and vice versa; and generate information on the type and amount of exposures to a particular related party. The said system will facilitate submission of accurate reports to the regulators/supervisors. The system as well as the overarching policies shall be subject to periodic assessment by the internal audit and compliance functions and shall be updated regularly for their sound implementation. The overarching policy and the system shall be made available to the Bangko Sentral and audit functions for review. Any changes in the policies and procedures shall be approved by the board of directors.
 - (d) The board of directors shall maintain adequate capital against risks associated with exposures to related parties. In this regard, material risks arising from RPTs shall be considered in the capital planning process. The prescribed scenario/stress tests under the capital planning process shall also capture RPTs in order to determine whether the BSFI is well-insulated from any going concern issue of related parties.
 - (e) The board of directors shall oversee the integrity, independence, and effectiveness of the policies and procedures for whistleblowing. The board of directors should ensure that senior management addresses legitimate issues on RPT that are raised. The board of directors should take responsibility for ensuring that staff who raise concerns are protected from detrimental treatment or reprisals.
- (8) Define an appropriate corporate governance framework for group structures, which shall facilitate effective oversight over entities in the group. The board of directors of the parent company shall ensure consistent adoption of corporate governance policies and systems across the group. In this regard:
- (a) The board of directors shall define and approve appropriate governance policies, practices and structure that will enable effective oversight of the entire group, taking into account the nature and complexity of operations, size and the types of risks to which the BSFI and its subsidiaries are exposed. The board of directors shall also establish means to ensure that such policies, practices and systems remain appropriate in light of the growth, increased complexity and geographical expansion of the group. Further, it shall ensure that the policies include the commitment from the entities in the group to meet all governance requirements.
 - (b) The board of directors shall define the risk appetite for the group, which shall be linked to the process of determining the adequacy of capital of the group.
 - (c) The board of directors shall ensure that adequate resources are available for all the entities in the group to effectively implement and meet the governance policies, practices and systems.
 - (d) The board of directors shall define and approve policies and clear strategies for the establishment of new structures.
 - (e) The board of directors shall understand the roles, the relationships or interactions of each entity in the group with one another and with the parent company. The board of directors shall understand the legal and operational implications of the group structure and how the various types of risk exposures affect the group's capital, risk profile and funding under normal and contingent circumstances. The board of directors shall ensure that the group's corporate governance framework includes appropriate processes and controls to identify and address potential intragroup conflicts of interest, such as those arising from intragroup transactions.
 - (f) The board of directors shall develop sound and effective systems for generation and sharing of information within the group, management of risks and effective supervision of the group.
 - (g) The board of directors shall require the risk management, compliance function and internal audit group to conduct a periodic formal review of the group structure, their controls and activities to assess consistency with the board of directors approved policies, practices and strategies and to require said groups to report the results of their assessment directly to the board of directors.

In cases where the BSFI is a subsidiary/affiliate of a non-Bangko Sentral regulated parent company:

- (i) The board of directors shall define and approve policies and clear strategies for the establishment of new structures (e.g., subsidiaries/affiliate of the BSFI). The board of directors shall also report to the Bangko Sentral any plan to create additional group structures.
- (ii) The board of directors shall understand the roles, relationships or interactions of each entity in the group with one another and with the parent company. The board of directors shall understand the

legal and operational implications of the group structure and how the various types of risk exposures affect the BSFI's capital, risk profile and funding under normal and contingent circumstances.

- e. *The board of directors shall be responsible for approving BSFI's risk governance framework and overseeing management's implementation thereof.* In this regard, the board of directors shall:
- (1) Define the BSFI's risk appetite. In setting the risk appetite, the board of directors shall take into account the business environment, regulatory landscape, and the BSFI's long term interests and ability to manage risk.
 - (2) Approve and oversee adherence to the risk appetite statement (RAS), risk policy, and risk limits.
 - (3) Oversee the development of, approve, and oversee the implementation of policies and procedures relating to the management of risks throughout the BSFI.
 - (4) Define organizational responsibilities following the three lines of defense framework. The business line functions will represent the first line of defense, the risk management and compliance functions for the second line of defense, and the internal audit function for the third line of defense. In this regard:
 - (a) The board of directors shall ensure that the risk management, compliance and internal audit functions have proper stature in the organization, have adequate staff and resources, and carry out their responsibilities independently, objectively and effectively.
 - (b) The board of directors shall ensure that non-executive board members meet regularly, with the external auditor and heads of the internal audit, compliance and risk management functions other than in meetings of the audit and risk oversight committees, in the absence of senior management.

Specific duties and responsibilities of a director. The position of a director is a position of trust. A director assumes certain responsibilities to different constituencies or stakeholders, i.e., the BSFI itself, its stockholders, its depositors and other creditors, its management and employees, the regulators, deposit insurer and the public at large. These constituencies or stakeholders have the right to expect that the institution is being run in a prudent and sound manner. The members of the board of directors should exercise their "duty of care" and "duty of loyalty" to the institution.

- a. *To remain fit and proper for the position for the duration of his term.* A director is expected to remain fit and proper for the position for the duration of his term. He should possess unquestionable credibility to make decisions objectively and resist undue influence. He shall treat board directorship as a profession and shall have a clear understanding of his duties and responsibilities as well as his role in promoting good governance. Hence, he shall maintain his professional integrity and continuously seek to enhance his skills, knowledge and understanding of the activities that the bank is engaged in or intends to pursue as well as the developments in the banking industry including regulatory changes through continuing education or training.
- b. *To conduct fair business transactions with the BSFI and to ensure that personal interest does not bias board decisions.* Directors should, whenever possible, avoid situations that would give rise to a conflict of interest. If transactions with the institution cannot be avoided, it should be done in the regular course of business and upon terms not less favorable to the institution than those offered to others. The basic principle to be observed is that a director should not use his position to make profit or to acquire benefit or advantage for himself and/or his related interests. He should avoid situations that would compromise his impartiality.
- c. *To act honestly and in good faith, with loyalty and in the best interest of the institution, its stockholders, regardless of the amount of their stockholdings, and other stakeholders such as its depositors, investors, borrowers, other clients and the general public.* A director must always act in good faith, with the care which an ordinarily prudent man would exercise under similar circumstances. While a director should always strive to promote the interest of all stockholders, he should also give due regard to the rights and interests of other stakeholders.
- d. *To devote time and attention necessary to properly discharge their duties and responsibilities.* Directors should devote sufficient time to familiarize themselves with the institution's business. They must be constantly aware of the institution's condition and be knowledgeable enough to contribute meaningfully to the board's work. They must attend and actively participate in board and committee meetings, request and review meeting materials, ask questions, and request explanations. If a person cannot give sufficient time and attention to the affairs of the institution, he should neither accept his nomination nor run for election as member of the board.
- e. *To act judiciously.* Before deciding on any matter brought before the board of directors, every director should thoroughly evaluate the issues, ask questions and seek clarifications when necessary.
- f. *To contribute significantly to the decision-making process of the board.* Directors should actively participate and exercise objective independent judgment on corporate affairs requiring the decision or approval of such board.

- g. *To exercise independent judgment.* A director should view each problem/situation objectively. When a disagreement with others occurs, he should carefully evaluate the situation and state his position. He should not be afraid to take a position even though it might be unpopular. Corollarily, he should support plans and ideas that he thinks will be beneficial to the institution.
- h. *To have a working knowledge of the statutory and regulatory requirements affecting the institution, including the content of its articles of incorporation and by-laws, the requirements of the Bangko Sentral and where applicable, the requirements of other regulatory agencies.* A director should also keep himself informed of the industry developments and business trends in order to safeguard the institution's competitiveness.
- i. *To observe confidentiality.* Directors must observe the confidentiality of non-public information acquired by reason of their position as directors. They may not disclose said information to any other person without the authority of the board.

BSFIs shall furnish all of their first-time directors within a BSFI with a copy of the specific duties and responsibilities of the board of directors and as an individual director prescribed under Sec. 132, upon election. The BSFI must keep on file certification under oath of the directors concerned that they have received copies of such specific duties and responsibilities and that they fully understand and accept the same.

(Circular No. 969 dated 22 August 2017)

133 BOARD-LEVEL COMMITTEES

The board of directors may delegate some of its functions, but not its responsibilities, to board-level committees. In this regard, the board of directors shall:

- a. Approve, review, and update, at least annually or whenever there are significant changes therein, the respective charters of each committee or other documents that set out its mandate, scope and working procedures. Said documents shall articulate how the committee will report to the full board of directors, what is expected of the committee members, and tenure limits for serving in the committee. The board of directors shall also consider occasional rotation of committee members and chairs to avoid undue concentration of power and promote fresh perspective.
- b. Appoint members of the committees taking into account the optimal mix of skills and experience to allow the board of directors, through the committees, to fully understand and objectively evaluate the relevant issues. In order to promote objectivity, the board of directors shall appoint independent directors and non-executive members of the board of directors to the greatest extent possible. Towards this end, an independent director who is a member of any committee that exercises executive or management functions that can potentially impair such director's independence cannot accept membership in committees that perform independent oversight/control functions such as the Audit, Risk Oversight and Corporate Governance, Related Party Transactions committees, without prior approval of the Monetary Board.
- c. Ensure that each committee shall maintain appropriate records (e.g., minutes of meetings or summary of matters reviewed and decisions taken) of their deliberations and decisions. Such records shall document the committee's fulfillment of its responsibilities and facilitate the assessment of the effective performance of its functions.
- d. Constitute, at a minimum, the following committees: (1) Audit Committee; (2) Risk Oversight Committee, and (3) Corporate Governance Committee: *Provided*, That the board of directors of simple or non-complex banks may, at a minimum, constitute only the Audit Committee unless directed by the Bangko Sentral to create other board-level committees: *Provided, further*, That the board of directors shall discuss risk management and corporate governance matters in the meetings of the board of directors, with the views of the independent directors duly considered and minuted.

UBs/KBs that are part of a conglomerate shall also constitute an RPT Committee. The Bangko Sentral may likewise direct the board of directors of other BSFIs to constitute an RPT committee as part of their corporate governance reforms.

Audit committee.

- a. *Composition and chairperson.* The audit committee shall be composed of at least three (3) members of the board of directors, who shall all be non-executive directors, majority of whom shall be independent directors, including the chairperson: *Provided*, That in the case of simple or non-complex RBs, the audit committee shall be composed of at least three (3) members of the board of directors who shall all be non-executive directors, including the chairperson who shall be an independent director: *Provided, further*, That the chairperson of the audit committee shall not be the chairperson of the board of directors or of any other board-level committees.

The audit committee shall have accounting, auditing, or related financial management expertise or experience commensurate with the size, complexity of operations and risk profile of the BSFI. It shall have access to independent experts to assist them in carrying out its responsibilities.

b. *Duties and responsibilities of the audit committee.* The audit committee shall:

- (1) *Oversee the financial reporting framework.* The committee shall oversee the financial reporting process, practices, and controls. It shall ensure that the reporting framework enables the generation and preparation of accurate and comprehensive information and reports.
- (2) *Monitor and evaluate the adequacy and effectiveness of the internal control system.* The committee shall oversee the implementation of internal control policies and activities. It shall also ensure that periodic assessment of the internal control system is conducted to identify the weaknesses and evaluate its robustness considering the BSFI's risk profile and strategic direction.
- (3) *Oversee the internal audit function.* The committee shall be responsible for the appointment/selection, remuneration, and dismissal of internal auditor. It shall review and approve the audit scope and frequency. The committee shall ensure that the scope covers the review of the effectiveness of the BSFI's internal controls, including financial, operational and compliance controls, and risk management system. The committee shall functionally meet with the head of internal audit and such meetings shall be duly minuted and adequately documented. In this regard, the audit committee shall review and approve the performance and compensation of the head of internal audit, and budget of the internal audit function.
- (4) *Oversee the external audit function.* The committee shall be responsible for the appointment, fees, and replacement of external auditor. It shall review and approve the engagement contract and ensure that the scope of audit likewise cover areas specifically prescribed by the Bangko Sentral and other regulators.
- (5) *Oversee implementation of corrective actions.* The committee shall receive key audit reports, and ensure that senior management is taking necessary corrective actions in a timely manner to address the weaknesses, non-compliance with policies, laws, and regulations and other issues identified by auditors and other control functions.
- (6) *Investigate significant issues/concerns raised.* The committee shall have explicit authority to investigate any matter within its terms of reference, have full access to and cooperation by management, and have full discretion to invite any director or executive officer to attend its meetings.
- (7) *Establish whistleblowing mechanism.* The committee shall establish and maintain mechanisms by which officers and staff shall, in confidence, raise concerns about possible improprieties or malpractices in matters of financial reporting, internal control, auditing or other issues to persons or entities that have the power to take corrective action. It shall ensure that arrangements are in place for the independent investigation, appropriate follow-up action, and subsequent resolution of complaints.

Risk oversight committee (ROC).

- a. *Composition and chairperson.* The committee shall be composed of at least three (3) members of the board of directors, majority of whom shall be independent directors, including the chairperson. The ROC's chairperson shall not be the chairperson of the board of directors, or any other board-level committee. The risk oversight committee shall possess a range of expertise and adequate knowledge on risk management issues and practices. It shall have access to independent experts to assist it in discharging its responsibilities.
- b. *Duties and responsibilities of the ROC.* The ROC shall advise the board of directors on the BSFI's overall current and future risk appetite, oversee senior management's adherence to the risk appetite statement, and report on the state of risk culture of the BSFI. The ROC shall:
 - (1) *Oversee the risk management framework.* The committee shall oversee the enterprise risk management framework and ensure that there is periodic review of the effectiveness of the risk management systems and recovery plans. It shall ensure that corrective actions are promptly implemented to address risk management concerns.
 - (2) *Oversee adherence to risk appetite.* The committee shall ensure that the current and emerging risk exposures are consistent with the BSFI's strategic direction and overall risk appetite. It shall assess the overall status of adherence to the risk appetite based on the quality of compliance with the limit structure, policies, and procedures relating to risk management and control, and performance of management, among others.
 - (3) *Oversee the risk management function.* The committee shall be responsible for the appointment/selection, remuneration, and dismissal of the chief risk officer (CRO). It shall also ensure that the risk management function has adequate resources and effectively oversees the risk-taking activities of the BSFI.

Corporate governance committee.

- a. *Composition.* The committee shall be composed of at least three (3) members of the board of directors who shall all be non-executive directors, majority of whom shall be independent directors, including the chairperson.

- b. *Duties and responsibilities of the corporate governance committee.* The corporate governance committee shall assist the board of directors in fulfilling its corporate governance responsibilities. In this regard, the corporate governance committee shall:

- (1) *Oversee the nomination process for members of the board of directors and for positions appointed by the board of directors.* The committee shall review and evaluate the qualifications of all persons nominated to the board of directors as well as those nominated to other positions requiring appointment by the board of directors. The committee shall recommend to the board of directors matters pertaining to the assignment to board committees, as well as succession plan for the members of the board of directors and senior management.
- (2) *Oversee the continuing education program for the board of directors.* The committee shall ensure allocation of sufficient time, budget and other resources for the continuing education of directors, and draw on external expertise as needed. The committee shall establish and ensure effective implementation of policy for on-boarding/orientation program for first time directors and annual continuing education for all directors.

For this purpose, the orientation program for first time directors shall be for at least eight (8) hours, while the annual continuing training shall be at least for four (4) hours. The training programs should cover topics relevant in carrying out their duties and responsibilities as directors.

- (3) *Oversee the performance evaluation process.* The committee shall oversee the periodic evaluation of contribution and performance (e.g., competence, candor, attendance, preparedness and participation) of the board of directors, board-level committees, and senior management. Internal guidelines shall be adopted that address the competing time commitments of directors serving on multiple boards.
- (4) *Oversee the design and operation of the remuneration and other incentives policy.* The committee shall ensure that the remuneration and other incentives policy is aligned with operating and risk culture as well as with the strategic and financial interest of BSFI, promotes good performance and conveys acceptable risk-taking behavior defined under its Code of Ethics, and complies with legal and regulatory requirements. It shall work closely with the BSFI's risk oversight committee in evaluating the incentives created by the remuneration system. In particular, the risk oversight committee shall examine whether incentives provided by the remuneration system take into consideration risk, capital, and the likelihood and timing of earnings. Moreover, it shall monitor and review the remuneration and other incentives policy including plans, processes and outcomes to ensure that it operates and achieves the objectives as intended.

Related party transactions committee.

- a. *Composition and chairperson.* The committee shall be composed of at least three (3) members of the board of directors, two (2) of whom shall be independent directors, including the chairperson. The committee shall at all times be entirely composed of independent directors and non-executive directors, with independent directors comprising majority of the members. In case a member has conflict of interest in a particular RPT, he should refrain from evaluating that particular transaction. The compliance officer or internal auditor may sit as resource persons in said committee.
- b. *Duties and responsibilities of the related party transactions committee.*
 - (1) Evaluate on an ongoing basis existing relations between and among businesses and counterparties to ensure that all related parties are continuously identified, RPTs are monitored, and subsequent changes in relationships with counterparties (from non-related to related and vice versa) are captured. Related parties, RPTs, and changes in relationships shall be reflected in the relevant reports to the board of directors and regulators/supervisors.
 - (2) Evaluate all material RPTs to ensure that these are not undertaken on more favorable economic terms (e.g., price, commissions, interest rates, fees, tenor, collateral requirement) to such related parties than similar transactions with non-related parties under similar circumstances and that no corporate or business resources of the BSFI are misappropriated or misapplied, and to determine any potential reputational risk issues that may arise as a result of or in connection with the transactions. In evaluating RPTs, the Committee shall take into account, among others, the following:
 - (a) The related party's relationship to the BSFI and interest in the transaction;
 - (b) The material facts of the proposed RPT, including the proposed aggregate value of such transaction;
 - (c) The benefits to the BSFI of the proposed RPT;
 - (d) The availability of other sources of comparable products or services; and
 - (e) An assessment of whether the proposed RPT is on terms and conditions that are comparable to the terms generally available to an unrelated party under similar circumstances. The BSFI shall have in place

an effective price discovery system and have exercised due diligence in determining a fair price for RPTs.

All RPTs that are considered material based on BSFI's internal policies shall be endorsed by the RPT committee to the board of directors for approval.

- (3) Ensure that appropriate disclosure is made, and/or information is provided to regulating and supervising authorities relating to the BSFI's RPT exposures, and policies on conflicts of interest or potential conflicts of interest. The disclosure shall include information on the approach to managing material conflicts of interest that are inconsistent with such policies; and conflicts that could arise as a result of the BSFI's affiliation or transactions with other related parties.
- (4) Report to the board of directors on a regular basis, the status and aggregate exposures to each related party as well as the total amount of exposures to all related parties.
- (5) Ensure that transactions with related parties, including write-off of exposures, are subject to periodic independent review or audit process.
- (6) Oversee the implementation of the system for identifying, monitoring, measuring, controlling, and reporting RPTs, including the periodic review of RPT policies and procedures.

(Circular No. 969 dated 22 August 2017)

134 OFFICERS

Qualifications of an officer. An officer must be fit and proper for the position he is being appointed to. In determining whether a person is fit and proper for a particular position, the following matters must be considered: integrity/probity, education/training, and possession of competencies relevant to the function such as knowledge and experience, skills and diligence.

In assessing an officer's integrity/probity, consideration shall be given to the officer's market reputation, observed conduct and behavior, as well as his ability to continuously comply with company policies and applicable laws and regulations, including market conduct rules, and the relevant requirements and standards of any regulatory body, professional body, clearing house or exchange, or government and any of its instrumentalities/agencies.

An appointed officer has the burden to prove that he possesses all the foregoing minimum qualifications and none of the cases mentioned under Sec. 138 (*Persons disqualified to become officers*). An officer shall submit to the Bangko Sentral the required certifications and other documentary proof of such qualifications using *Appendix 101* as guide within twenty (20) banking days from the date of meeting of the board of directors in which the officer is appointed/promoted. Non-submission of complete documentary requirements within the prescribed period shall be construed as his/her failure to establish his/her qualifications for the position and results to his/her removal therefrom.

The Bangko Sentral shall also consider its own records in determining the qualifications of an officer.

The foregoing qualifications for officers shall be in addition to those required or prescribed under R.A. No. 8791 and other applicable laws and regulations.

Duties and responsibilities of officers.

- a. *To set the tone of good governance from the top.* Bank officers shall promote the good governance practices within the bank by ensuring that policies on governance as approved by the board of directors are consistently adopted across the bank.
- b. *To oversee the day-to-day management of the BSFI.* Bank officers shall ensure that bank's activities and operations are consistent with the bank's strategic objectives, risk strategy, corporate values and policies as approved by the board of directors. They shall establish a bank-wide management system characterized by strategically aligned and mutually reinforcing performance standards across the organization.
- c. *To ensure that duties are effectively delegated to the staff and to establish a management structure that promotes accountability and transparency.* Bank officers shall establish measurable standards, initiatives and specific responsibilities and accountabilities for each bank personnel. Bank officers shall oversee the performance of these delegated duties and responsibilities and shall ultimately be responsible to the board of directors for the performance of the bank.
- d. *To promote and strengthen checks and balances systems in the BSFI.* Bank officers shall promote sound internal controls and avoid activities that shall compromise the effective dispense of their functions. *Further*, they shall ensure that they give due recognition to the importance of the internal audit, compliance and external audit functions.

Chief Executive Officer (CEO). The CEO shall be the overall-in-charge for the management of the business and affairs of the BSFI governed by the strategic direction and risk appetite approved by the board of directors. He shall be primarily

accountable to the board of directors in championing the desired conduct and behavior, implementing strategies, and in promoting the long-term interest of the BSFI.

(Circular No. 969 dated 22 August 2017)

135 REMUNERATION AND OTHER INCENTIVES

The board of directors shall approve a remuneration and other incentives policy that is appropriate and consistent with the BSFI's operating and risk culture, long-term business and risk appetite, performance, and control environment. Said policy shall cover all employees and should be designed to encourage good performance that supports the interest of the BSFI and its stakeholders. It shall be aligned with prudent risk-taking and explicitly discourage excessive risk-taking as defined by internal policies. The board of directors or a board-level committee (e.g., corporate governance committee) shall monitor and review the remuneration and other incentives policy including plans, processes and outcomes, at least annually, to ensure that it operates and achieves the objectives as intended.

BSFIs shall consider the following in the design of the remuneration and other incentives policy:

- a. The remuneration and incentives package shall take into account the employee's position, role, responsibilities and activities in the BSFI. It shall also consider the risks that the employee takes on behalf of the BSFI. In this regard, it should be sensitive to prospective risks and risk outcomes that have been realized and considers the overall performance of the BSFI.
- b. Remuneration and incentive pay-out schedule should be sensitive to the time horizon of risk. The policy may include provisions that defer payment until risk outcomes are better known or provisions under which remuneration and incentives may be reduced or reversed if new facts emerge showing that the remuneration and incentives paid was based on erroneous assumptions, such as misreporting or if it is discovered that the employee has failed to comply with internal policies or legal requirements.
- c. Remuneration of employees in risk control functions (i.e., internal audit, compliance, and risk management functions) shall be based on the achievement of their objectives and shall be independent of the business lines which they oversee.

Profit sharing programs. Profit sharing programs adopted in favor of directors, officers, and employees shall be reflected in the by-laws of the BSFI, subject to the following guidelines:

- a. The base in any profit sharing program shall be the net income for the year of the bank as shown in its Consolidated Statement of Income and Expenses for the year, net of the following:
 - (1) All cumulative dividends accruing to preferred stock to the extent not covered by earned surplus;
 - (2) Accrued interest receivable credited to income but not yet collected, net of reserves already set up for uncollected interest on loans;
 - (3) Unbooked allowance for credit losses on loans or the amount required to update allowance for credit losses in accordance with the schedule approved by the Monetary Board, as well as all amortizations due on deferred charges;
 - (4) Provisions for current year's taxes;
 - (5) Income tax deferred for the year: *Provided, however*, That in case of reversal of deferred income taxes which were deducted from net income in computing for profit sharing of previous years, the deferred income tax reversed to expense shall be added back to net income to arrive at the base for profit sharing for the year during which the reversal is made; and
 - (6) Accumulated profits not yet received but already recorded by a bank representing its share in profits of its subsidiaries under the equity method of accounting;
- b. The bank may provide in its by-laws for other priorities in the computation of net profits for purposes of profit sharing: *Provided*, That in no case shall profit sharing take precedence over any of the items in the preceding paragraph; and
- c. Prior approval of the Monetary Board shall be necessary before a bank which has received financial assistance from the Bangko Sentral may implement its profit sharing program. *Financial assistance* shall refer to emergency loans and advances and such other forms of credit accommodations which are intended to provide banks with liquidity in times of need.

Loans, advances, and other credit accommodations to officers. BSFIs may grant loans, advances, or any other forms of credit accommodations to their officers as part of a board-approved remuneration and incentive program. The board of

directors shall ensure that these credit accommodations are granted for legitimate purposes, such as among others, financing the housing, transportation, and personal needs of the officers. In this regard, the board of directors shall identify specific purposes eligible for said credit accommodations to officers to promote good performance and acceptable risk-taking behavior consistent with the BSFI's operating and risk culture, long-term business and risk appetite, performance, and control environment. BSFIs shall submit the board-approved purposes for the grant of loans, advances, or any other forms of credit accommodations to officers for approval of the Bangko Sentral. The guidelines and contractual provisions implementing said defined purposes, and any subsequent changes thereto, shall on the other hand, be approved by the board of directors or a board-level committee.

Transitory provision. Existing financing programs for officers that have been approved by the Bangko Sentral prior to 14 September 2017, need not be resubmitted: *Provided*, That BSFIs that shall change any of the provisions of the earlier approved program shall submit for approval of the Bangko Sentral the board-approved purposes for the grant of loans, advances, or any other forms of credit accommodations to officers.

- a. *Funding by foreign banks.* In the case of local branches of foreign banks, financial assistance for their officers and employees may be funded, through any of the following means:

- (1) Through a local affiliate by special arrangement with the head office abroad in any of the following forms:
 - (a) Inward remittance from the head office of the affiliate; or
 - (b) Assignment to the affiliate of equivalent amounts of profits otherwise remittable abroad under existing regulations; or
 - (c) Direct loans by the foreign bank to the affiliate; or
- (2) Through the local branch itself by:
 - (a) Segregation or transfer of undivided profits normally remitted to the head office abroad equivalent to the loans to officers and employees which shall be lodged under "Other Liabilities-Head Office Accounts". This account shall at all times have a balance equivalent to the outstanding loans to officers/employees financed under this scheme; or
 - (b) Inward remittance; or
- (3) Through the local branch from local sources without earmarking an equivalent amount of undivided profits: *Provided*, That the aggregate ceilings on such loans as provided under existing regulations shall apply.

Loans under Items "(2)(a)" and "(2)(b)" above shall be treated in the branch books as loans granted by its head office. The documentation and collection of such loans shall be handled by the branch for the account of the head office.

Loans financed under Items "(1)" and "(2)" above shall be excluded from the computation of the capital to risk assets ratio.

- b. Other conditions/limitations.

- (1) The investment by a bank in equipment and other chattels under its fringe benefits program for officers and employees shall be included in determining the extent of the investment of the bank in real estate and equipment for purposes of Section 51 of R.A. No. 8791.
- (2) The investment by a bank in equipment and other chattels contemplated under these guidelines shall not be for the purpose of profits in the course of business for the bank.
- (3) The aggregate outstanding loans and other credit accommodations granted under the bank's fringe benefits program, inclusive of those granted to officers in the nature of lease with option to purchase, shall not exceed five percent (5%) of the bank's total loan portfolio.

Banks providing financial assistance to their officers/employees shall submit a regular report on "availments of financial assistance to officers and employees" to the Bangko Sentral within fifteen (15) banking days after end of reference semester.

The appropriate supervising department of the Bangko Sentral may further require banks to submit such data or information as may be necessary to facilitate verification of such transactions by Bangko Sentral examiners.

Compensation and other benefits of directors and officers. To protect the funds of depositors and creditors, the Monetary Board may regulate/restrict the payment by the BSFI of compensation, allowances, fees, bonuses, stock options, profit sharing and fringe benefits to its directors and officers in exceptional cases and when the circumstances warrant, such as, but not limited to the following:

- a. When the bank is under controllership, conservatorship or when it has outstanding emergency loans and advances and such other forms of credit accommodation from the Bangko Sentral which are intended to provide it with liquidity in times of need;
- b. When the institution is found by the Monetary Board to be conducting business in an unsafe or unsound manner;
- c. When it is found by the Monetary Board to be in an unsatisfactory financial condition such as, but not limited to, the following cases:
 - (1) Its capital is impaired;
 - (2) It has suffered continuous losses from operations for the past three (3) years;
 - (3) Its composite CAMEL(S) rating in the latest examination is below "3"; and
 - (4) It is under rehabilitation by the Bangko Sentral/PDIC which rehabilitation may include debt-to-equity conversion, etc.

In the presence of any one (1) or more of the circumstances mentioned above, the Monetary Board may impose the following restrictions in the compensation and other benefits of directors and officers:

- a. In the case of profit sharing, the provision under this Section on Profit sharing programs shall be observed except that for purposes of this Section, the total amount of unbooked allowance for credit losses and deferred charges shall be deducted from the net income.
- b. Except for the financial assistance to meet expenses for the medical, maternity, education and other emergency needs of the directors or officers or their immediate family, the other forms of financial assistance may be suspended.
- c. When the total compensation package including salaries, allowances, fees and bonuses of directors and officers are significantly excessive as compared with peer group averages, the Monetary Board may order their reduction to reasonable levels: *Provided*, That even if a bank is in financial trouble, it may nevertheless be allowed to grant relatively higher salary packages in order to attract competent officers and quality staff as part of its rehabilitation program.

The foregoing provisions founded on Section 18 of R.A. No. 8791 shall be deemed part of the benefits and compensation programs of banks.

136 RELATED PARTY TRANSACTIONS

Policy statement. The Bangko Sentral recognizes that transactions between and among related parties create financial, commercial and economic benefits to individual institutions and to the entire group where said institutions belong. In this regard, related party transactions are generally allowed: *Provided*, That these are done on an arm's length basis. The Bangko Sentral expects banks, including their non-bank financial subsidiaries and affiliates, to exercise appropriate oversight and implement effective control systems for managing said exposures as these may potentially lead to abuses that are disadvantageous to the bank and its depositors, creditors, fiduciary clients, and other stakeholders.

RPT policies/roles of senior management and self-assessment functions.

- a. The RPT policies shall include, but not be limited to the following:
 - (1) *Definition of related parties.* The policy shall clearly define "related parties". It shall identify persons and companies that are considered the BSFI's related parties. The policy shall require management to periodically review and update the inventory of related parties to capture organizational and structural changes in the BSFI and its related parties.
 - (2) *Coverage of RPT policy.* The coverage of the RPT policy shall capture a broader spectrum of transactions, covering not only those that give rise to credit and/or counterparty risks but also those that could pose material/special risk or potential abuse to the BSFI and its stakeholders.

Transactions that were entered into with an unrelated party that subsequently becomes a related party may be excluded from the limits and approval process required in the policy. However, any alteration to the terms and conditions, or increase in exposure level, related to these transactions after the non-related party becomes a related party shall subject the RPT to the requirements of the policy. The prospective treatment should, however, be without prejudice to supervisory actions that may be enforced for transactions noted to have not been conducted on an arm's length basis.

- (3) *Guidelines in ensuring arm's length terms.* The policy shall have clear guidelines in ensuring that RPTs are conducted in the regular course of business and not undertaken on more favorable economic terms (e.g., price, commissions, interest rates, fees, tenor, collateral requirement) to such related parties than similar transactions with non-related parties under similar circumstances. This shall include guidance for an effective price discovery mechanism to ensure that transactions are engaged into at terms that promote the best interest of the BSFI and

its stakeholders. The price discovery mechanism may include, but not limited to, acquiring the services of an external expert, opening the transaction to a bidding process, or publication of available property for sale.

- (4) *Conflicts of interest.* The policy shall cover the identification and prevention or management of potential or actual conflicts of interest which may arise. The members of the board of directors, stockholders, and management shall disclose to the board of directors whether they directly, indirectly or on behalf of third parties, have a financial interest in any transaction or matter affecting the BSFI. Directors and officers with personal interest in the transaction shall abstain from the discussion, approval and management of such transaction or matter affecting the BSFI.
- (5) *Materiality thresholds and excluded transactions.* The policy shall include materiality thresholds for RPTs, which shall be set at a level where omission or misstatement of the transaction could pose significant risk to the BSFI and could influence the economic decisions of its board of directors.

Materiality threshold may be set for each type of transaction and for each related party group, depending on the nature of the transaction and risks involved. The RPT policy may also identify transactions excluded from the materiality threshold requirement, such as transactions concerning deposit operations, regular trade transactions involving purchases and sales of debt securities traded in an active market, and those granted under Bangko Sentral approved fringe benefit programs. Materiality threshold levels will vary from one BSFI to another depending on the nature, scope, frequency, value of, and risks associated with the RPT. The BSFI shall document the justifications for the materiality thresholds and exclusions set.

The Bangko Sentral may direct a BSFI to reduce its materiality threshold or amend excluded transactions if the Bangko Sentral deems that the threshold or exclusion is inappropriate considering the BSFI's size, risk profile, and risk management systems.

- (6) *Internal limits for individual and aggregate exposures.* To ensure that RPTs are within prudent levels, the policy shall, in addition to existing prudential limits which shall be complied with at all times, include internal limits or sub-limits for individual and aggregate exposures to a related party and for aggregate exposures to all related parties that are consistent with the BSFI's risk appetite, risk profile, and capital strength.

The internally-set limits shall be tied in with the BSFI's internal definition of capital. Breaches in limits shall be reported to the board of directors with the decision of the board of directors to accept the exposure or to take steps to address the breaches, as may be necessary, duly documented in the minutes of meetings.

- (7) *Whistleblowing mechanisms.* The policy shall include effective whistleblowing mechanisms consistent with the corporate values and codes of conduct set by the board of directors. The policy shall encourage employees to communicate, confidentially and without the risk of reprisal, legitimate concerns about illegal, unethical or questionable RPTs. It shall include guidance on how and by whom legitimate material concerns should be reported, investigated and addressed by an objective independent internal or external body, senior management and/or the board of directors itself.
- (8) *Restitution of losses and other remedies for abusive RPTs.* The policy shall include measures that would cut losses and allow recovery of losses or opportunity costs incurred by the BSFI arising from RPTs that are not engaged on arm's length terms. The policy shall also include the manner of handling personnel, officers or directors, who have been remiss in their duties in handling RPTs.

The overarching policy will consolidate all existing policies that address the above requirements or may make reference to already existing policies.

- b. *Roles of senior management and self-assessment functions.* Senior management shall implement appropriate controls to effectively manage and monitor RPTs on a per transaction and aggregate basis. Exposures to related parties shall also be monitored on an ongoing basis to ensure compliance with the BSFI's policy and Bangko Sentral's regulations.

The internal audit function shall conduct a periodic formal review of the effectiveness of the BSFI's system and internal controls governing RPTs to assess consistency with the board-approved policies and procedures. The resulting audit reports, including exceptions or breaches in limits, shall be communicated directly to the audit committee.

The compliance function shall ensure that the BSFI complies with relevant rules and regulations and is informed of regulatory developments in areas affecting related parties. It shall aid in the review of the BSFI's transactions and identify any potential RPT that would require review by the Board or RPT Committee. It shall ensure that the RPT policy is kept updated and is properly implemented throughout the BSFI.

Disclosure and regulatory reporting. Banks shall adequately disclose in their Annual Report, if applicable, the overarching policies and procedures for managing RPTs, including managing of conflicts of interest or potential conflicts of interest; responsibility of RPT Committee; nature, terms and conditions, as well as original and outstanding individual and

aggregate balances, including off-balance sheet commitments, of material RPTs.

In addition to the required reports on DOSRI and transactions with subsidiaries and affiliates under existing regulations:

- a. UBs/KBs that are part of conglomerates shall report all entities in the conglomerate structure where it belongs. The conglomerate structure shall likewise disclose beneficial owners of shareholdings that are in the name of PCD Nominee Corporation. The report on conglomerate structure shall be submitted to the Bangko Sentral within thirty (30) calendar days after the end of every calendar year.
- b. Banks shall submit a report on material exposures to related parties, which shall include the material RPTs of their non-bank financial subsidiaries and affiliates, based on the bank's internal definition within twenty (20) calendar days after the end of the reference quarter starting with the quarter ending 31 March 2016. Supervised non-bank financial subsidiaries and affiliates are therefore expected to report their material RPTs to the parent bank, which in turn shall report same to the Bangko Sentral.

Transactions concerning deposit operations, credit card availments, regular trade transactions involving purchases and sales of debt securities traded in an active market, are excluded from the reporting requirement to Bangko Sentral: *Provided*, That credit card lines with amounts falling within the definition of "material transactions" shall be reported to the Bangko Sentral upon approval of the line.

Lease contracts and other similar contracts with recurring payment transaction shall only be reported once, upon approval of said transaction by the board of directors. In case the parties involved in the transactions are both supervised by the Bangko Sentral, only the lessor, in case of a lease contract, or the party engaging/requesting for the services of the other bank, in case of other contracts, shall submit the report.

This section amends the reporting requirement on group structure and the report on significant transactions required under Item "d(8)" of Sec. 132 (*Specific duties and responsibilities of the board of directors*).

Applicability to branches of foreign banks. The governance principles and requirements embodied in this Section shall be complied with by branches of foreign banks, to the extent possible, given their distinct organizational set-up. The General Manager or Country Manager is the principal officer that will oversee the implementation of the governance principles embodied in this Section. Branches of foreign banks are not covered by the reportorial requirement on conglomerate structure.

Supervisory enforcement actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in the guidelines under this Section and bring about timely corrective actions and compliance with Bangko Sentral directives. The Bangko Sentral considers abuses in credit to related parties as serious offenses and shall be dealt with severely. In this regard, abuse shall be interpreted to include extending credit to related parties without adopting appropriate internal policies. For this purpose, the Bangko Sentral may, among others, issue directives or sanctions on the bank and responsible persons, which may include restrictions or prohibitions of lending to related parties or from certain authorities/activities, restrictions or prohibitions on dividend declarations; and warning, reprimand, suspension, removal and disqualification of bank directors, officers and/or employees concerned.

(Circular Nos. 969 dated 22 August 2017, 917 dated 08 July 2016, 914 dated 23 June 2016, and 895 dated 14 December 2015)

137 CONFIRMATION OF THE ELECTION/APPOINTMENT OF DIRECTORS/OFFICERS; BIO-DATA OF DIRECTORS AND OFFICERS; INTERLOCKING DIRECTORSHIPS AND/OR OFFICERSHIPS; RULES OF PROCEDURES ON ADMINISTRATIVE CASES INVOLVING DIRECTORS AND OFFICERS OF BSFIS

Confirmation of election/appointment of directors/officers.

- a. *Confirming authority.* The election/appointment of directors/officers shall be subject to confirmation by the following:

Confirming Authority	Position Level
a. Monetary Board	Directors and CEO of UBs and KBs, including their subsidiary banks, QBs, trust corporations ¹ and NBFIs with trust authority; of stand-alone Islamic Banks, TBs, RBs, Coop Banks, QBs and NBFIs with trust authority with total assets of at least P10.0 billion; and of trust corporations with assets under management of at least P10.0 billion.
b. SES Committee	Directors and CEO of stand-alone Islamic Banks, TBs, RBs, Coop Banks, QBs, and NBFIs with trust authority with total assets of less than P10.0 billion; and of trust corporations ² with assets under management of less than P10.0 billion.

¹ As defined under Sec. 102-T (*Definitions*) of the MORNBFI-T

² As defined under Sec. 102-T (*Definitions*) of the MORNBFI-T

	Treasurer and heads of internal audit, risk management and compliance functions, and other officers with rank of senior vice president and above (or equivalent ranks) of UBs and KBs and their subsidiary banks, QBs, trust corporations, and NBFIs with trust authority; of stand-alone Islamic Banks, TBs RBs, Coop Banks, QBs and NBFIs with trust authority; and of trust corporations.
	Trust Officer regardless of rank of banks/QBs/NBFIs as provided in Sec. 412 (<i>Confirmation of the appointment/designation of trust officer and independent professional</i>).

Provided, That BSFIs shall report to the appropriate supervising department of the Bangko Sentral, any succeeding resignation, retirement, or replacement of directors/officers as mentioned within twenty (20) banking days after such resignation/retirement/replacement.

The election/appointment of abovementioned directors/officers shall be deemed to have been confirmed by the Bangko Sentral, if after sixty (60) banking days from receipt of the complete required reports, the appropriate supervising department of the Bangko Sentral does not advise the BSFI concerned against said election/appointment.

However, the confirmation by the Monetary Board/SES Committee of the election/appointment to above-mentioned position levels shall not be required in the following cases:

- (1) Re-election of a director (as a director) in the same BSFI or election of the same director in another bank, QB, trust corporation, and NBFIs with trust authority within a banking group;
- (2) Re-election of an independent director (as an independent director or not) in the same BSFI or election of the same director (as an independent director or not) in another bank, QB, trust corporation, and NBFIs with trust authority within a banking group; and
- (3) Promotion of an officer, other than to that which requires (a) prior Monetary Board approval, or (b) a different set of minimum qualifications, or (c) a different level of confirming authority as provided in the first paragraph hereof, in the same bank or appointment/transfer to another bank, QB, trust corporation, and NBFIs with trust authority within a banking group:

Provided, That the director/officer concerned has been previously confirmed by the Monetary Board, or if previously confirmed by the appropriate supervising department of the Bangko Sentral, his/her re-election/promotion/transfer requires the same level of confirming authority as provided in the first paragraph hereof: *Provided, further*, That said director/officer has had continuous service within the same BSFI or banking group. This exemption shall apply to directors/officers confirmed by the Monetary Board/appropriate supervising department of the Bangko Sentral starting 01 January 2011.

The appointment of officers below the rank of senior vice president (SVP) other than the treasurer, trust officer, and heads of internal audit, risk management, and compliance functions regardless of rank shall be subject neither to Monetary Board approval nor Bangko Sentral confirmation.

For purposes of this Section, the term *banking group* shall refer to the parent bank and its subsidiary banks, QBs, trust entities, and other NBFIs other than stand-alone and trust corporations as well as other banks, QBs, trust entities, and other NBFIs other than stand-alone and trust corporations over which the parent bank has the power to exercise "control" as defined in Sec. 131 (*Definition of terms*).

The required certifications and other documentary proof of qualifications for the confirmation of the election/appointment of directors/officers, and approval of the appointment of compliance officers of banks/QBs/NBFIs with trust authority/trust corporations are shown in *Appendix 101*. Non-submission of complete documentary requirements within the prescribed period shall be construed as his/her failure to establish his/her qualifications for the position.

A director/officer whose election/appointment was not confirmed for failure to submit the complete documentary requirements shall be deemed removed from office after due notice to the board of directors of the BSFI, even if he has assumed the position to which he was elected/appointed, pursuant to Section 16 of R.A. No. 8791.

Bio-data of directors and officers.

- a. BSFI shall submit to the appropriate supervising department of the Bangko Sentral a bio-data with ID picture of their (1) directors and officers who are subject to confirmation under this Section, or (2) officers below the rank of SVP requiring a different set of minimum qualifications, upon every election/re-election/appointment/promotion in a prescribed form and for first time directors/officers within a particular bank/banking group whose election/appointment requires Monetary Board/appropriate supervising department of the Bangko Sentral confirmation, the duly notarized authorization form per *Appendix 80*, within twenty (20) banking days from the

date of election/re-election of the directors/meeting of the board of directors in which the officers are appointed/promoted, in accordance with *Appendix 7*.

The bio-data shall be updated and submitted in cases of change of name due to change in civil status and change of residential address, within twenty (20) banking days from the date the change occurred, and in cases of requests for prior Monetary Board approval of interlocks.

For other officers below the rank of SVP other than the treasurer, trust officer, and heads of internal audit, risk management, and compliance functions regardless of rank, the BSFI shall not be required to submit their bio-data to the Bangko Sentral.

- b. The bank shall, however, keep a complete record of the bio-data of all its directors and officers and shall maintain a system of updating said records which shall be made available during on-site examination or when required by the Bangko Sentral for submission for off-site verification.
- c. Banks shall also submit to the appropriate supervising department of the Bangko Sentral, a duly notarized list of the incumbent members of the board of directors and officers (president or equivalent rank, down the line, format attached as *Appendix 102*, within twenty (20) banking days from the annual election of the board of directors as provided in the bank's by-laws, in accordance with *Appendix 7*.
- d. If after evaluation, the appropriate supervising department of the Bangko Sentral shall find grounds for disqualification, the director/officer so elected/re-elected/appointed/promoted may be recommended for removal from office even if he/she has assumed the position to which he/she was elected/re-elected/appointed/promoted pursuant to Section 16 of R.A. No. 8791.

In the case of the independent directors, the bio-data shall be accompanied by a certification under oath from the director concerned that he is an independent director as defined under Item "g" of Sec. 131 (*Definition of terms*).

Interlocking directorships and/or officerships. In order to safeguard against the excessive concentration of economic power, unfair competitive advantage or conflict of interest situations to the detriment of others through the exercise by the same person or group of persons of undue influence over the policy-making and/or management functions of similar FIs while at the same time allowing banks, QBs and non-bank financial institutions (NBFIs) without quasi-banking functions to benefit from organizational synergy or economies of scale and effective sharing of managerial and technical expertise, the following regulations shall govern interlocking directorships and/or officerships within the financial system consisting of banks, QBs and NBFIs.

For purposes of this Section, QBs shall refer to investment houses, finance companies, trust entities and all other NBFIs with quasi-banking functions while NBFIs shall refer to investment houses, finance companies, trust entities, insurance companies, securities dealers/brokers, credit card companies, non-stock savings and loan associations (NSSLAs), holding companies, investment companies, government NBFIs, asset management companies, insurance agencies/brokers, venture capital corporations, FX dealers, money changers, lending investors, pawnshops, fund managers, mutual building and loan associations, remittance agents and all other NBFIs without quasi-banking functions.

a. *Interlocking directorships*

While concurrent directorship may be the least prejudicial of the various relationship cited in this Section to the interests of the FIs involved, certain measures are still necessary to safeguard against the disadvantages that could result from indiscriminate concurrent directorship.

- (1) Except as may be authorized by the Monetary Board or as otherwise provided hereunder, there shall be no concurrent directorships between banks or between a bank and a QB or an NBFI.
- (2) Without the need for prior approval of the Monetary Board, concurrent directorships between entities not involving an investment house shall be allowed in the following cases:
 - (a) Banks not belonging to the same category: *Provided*, That not more than one (1) bank shall have quasi-banking functions;
 - (b) A bank and an NBFI;
 - (c) A bank without quasi-banking functions and a QB; and
 - (d) A bank and one (1) or more of its subsidiary bank/s, QB/s and NBFI/s.

For purposes of the foregoing, a husband and his wife shall be considered as one (1) person.

b. *Interlocking directorships and officerships*

In order to prevent any conflict of interest resulting from the exercise of directorship coupled with the reinforcing influence of an officer's decision-making and implementing powers, the following rules shall be observed:

- (1) Except as may be authorized by the Monetary Board or as otherwise provided hereunder, there shall be no concurrent directorship and officership between banks or between a bank and a QB or an NBFI; and
- (2) Without the need for prior approval of the Monetary Board, concurrent directorship and officership between a bank and one (1) or more of its subsidiary bank/s, QB/s and NBFI/s, other than investment house/s, shall be allowed.

c. *Interlocking officerships*

A concurrent officership in different FIs may present more serious problems of self-dealing and conflict of interest. Multiple positions may result in poor governance or unfair competitive advantage. Considering the full-time nature of officer positions, the difficulties of serving two (2) offices at the same time, and the need for effective and efficient management, the following rules shall be observed:

As a general rule, there shall be no concurrent officerships between banks or, between a bank and a QB or a NBFI.¹

In the case of non-governmental organizations (NGOs)/foundations that are engaged in retail microfinance operations, as defined under Item “e(8)” of Sec. 341 (*Definition of terms*), BSFI officers are prohibited from holding officership position or other positions that may cause them to be involved in the daily microfinance operations of related NGOs/foundations.

However, subject to prior approval of the Monetary Board, concurrent officerships, may be allowed in the following cases:

- (1) Between a bank and not more than two (2) of its subsidiary bank/s, QB/s, and NBFI/s, other than investment house/s; or
- (2) Between a bank and not more than two (2) of its subsidiary QB/s and NBFI/s; or
- (3) Between two (2) banks, or between a bank and a QB or an NBFI, other than an investment house: *Provided*, That at least twenty percent (20%) of the equity of each of the banks, QBs or NBFIs is owned by a holding company or a bank/QB and the interlocking arrangement is necessary for the holding company or the bank/QB to provide technical expertise or managerial assistance to its subsidiaries/affiliates.

Aforementioned concurrent officerships may be allowed, subject to the following conditions:

- (a) that the positions do not involve any functional conflict of interests;
 - (b) that any officer holding the positions of president, chief executive officer, chief operating officer or chief financial officer or their equivalent may not be concurrently appointed to any of said positions or their equivalent;
 - (c) that the officer involved, or his spouse or any of his relatives within the first degree of consanguinity or affinity or by legal adoption, or a corporation, association or firm wholly- or majority-owned or controlled by such officer or his relatives enumerated above, does not own in his/its own capacity more than twenty percent (20%) of the subscribed capital stock of the entities in which the bank has equity investments; and
 - (d) that where any of the positions involved is held on full-time basis, adequate justification shall be submitted to the Monetary Board; or
- (4) Concurrent officership positions in the same capacity which do not involve management functions, i.e., internal auditor, corporate secretary, assistant corporate secretary and security officer, between a bank and one or more of its subsidiary QB/s and NBFI/s, or between bank/s, QB/s and NBFI/s, other than investment house/s: *Provided*, That at least twenty percent (20%) of the equity of each of the banks, QBs and NBFI/s is owned by a holding company or by any of the banks/QBs within the group.
 - (5) Concurrent officership positions as corporate secretary or assistant corporate secretary between bank/s, QB/s and NBFI/s, other than investment house/s, outside of those covered under Item “c(4)” above: *Provided*, That proof of disclosure to and consent from all of the involved FIs, on the concurrent officership positions, shall be submitted to the Bangko Sentral.

For purposes of this Section, members of a group or committee, including sub-groups or sub-committees, whose duties include functions of management such as those ordinarily performed by regular officers, shall likewise be considered as officers.

It shall be the responsibility of the corporate governance committee to conduct an annual performance evaluation of the board of directors and senior management. When a director or officer has multiple positions, the committee should determine whether or not said director or officer is able to and has been adequately carrying out his/her duties and, if necessary, recommend changes to the board based upon said performance/review.

¹ BSFI officers, who concurrently held officership position or other positions that caused them to be involved in the daily microfinance operations of related NGOs/foundations, were given up to 30 September 2011 to relinquish such officer position.

The general principles and standards that will govern the business relationships between banks and their related NGOs/foundations engaged in retail microfinance are found in *Appendix 23*.

d. *Secondment*

A BSFI may second or transfer its employee to another entity for temporary assignment: *Provided*, That it has a board-approved policy on secondment and that the transfer of the employee is approved by the appropriate authority of the BSFI: *Provided, further*, That the seconded or the transferred employee shall relinquish all his duties, responsibilities, and authorities in the BSFI, and shall receive remuneration and other incentives from the host entity. BSFIs shall submit a notice within ten (10) banking days from the approval of secondments of employees to the appropriate supervising department of the Bangko Sentral.

e. *Representatives of government*

The provisions of this Section shall apply to persons appointed to such positions as representatives of the government or government-owned or controlled entities holding voting shares of stock of banks unless otherwise provided under existing laws.

Rules of procedures on administrative cases involving directors and officers of BSFIs. The rules of procedure on administrative cases involving directors and officers of BSFIs are shown in *Appendices 63 and 135*.

(Circular Nos. 1012 dated 12 September 2018, 969 dated 22 August 2017, 953 dated 27 March 2017, and 887 dated 07 October 2015)

138 DISQUALIFICATION AND WATCHLISTING OF DIRECTORS AND OFFICERS

The Bangko Sentral recognizes that the fitness and propriety of the board of directors and management significantly influences and shapes the quality of corporate governance in a financial institution. Following the standards set forth on the qualifications and responsibilities of the board and management, this Section provides the rules governing the watchlisting and disqualification of persons from becoming directors/officers of banks. The policy aims to further promote the integrity of the financial system and better protect the interest of the public.

Persons disqualified to become directors/officers. Without prejudice to specific provisions of law prescribing disqualifications for directors/officers, the following are disqualified from becoming directors/officers:

a. *Permanently disqualified*

- (1) Persons who have been convicted by final judgment of a court for offenses involving dishonesty or breach of trust such as, but not limited to, estafa, embezzlement, extortion, forgery, malversation, swindling, theft, robbery, falsification, bribery, violation of B.P. Blg. 22(Anti-Bouncing Check Law), violation of R.A. No. 3019 (Anti-Graft and Corrupt Practices Act), violation of R.A. No. 9160, as amended (Anti-Money Laundering Act), and prohibited acts and transactions under Section 7 of R.A. No. 6713 (Code of Conduct and Ethical Standards for Public Officials and Employees);
- (2) Persons who have been convicted by final judgment of a court or other tribunal for violation of securities and banking laws, rules and regulations;
- (3) Persons who have been convicted by final judgment for cases filed against them for offenses under R.A. No. 3591, as amended (PDIC Charter);
- (4) Persons who have been convicted by final judgment of a court for offenses which involves moral turpitude, or for offenses which they were sentenced to serve a term of imprisonment of more than six (6) years;
- (5) Persons who have been judicially declared with finality as insolvent, spendthrift or incapacitated to contract;
- (6) Persons who were found to be culpable for the bank's closure, as determined by the Monetary Board;
- (7) Persons found by the Monetary Board to be administratively liable for violation of laws, rules and regulations implemented by the Bangko Sentral, where a penalty of removal from office is imposed, and which resolution of the Monetary Board has become final and executory; and
- (8) Persons found liable by any government agency/corporation, including government financial institution, for violation of any law, rule or regulation involving dishonesty, misconduct, or any other grave or less grave offense classified under the Revised Administrative Code or Civil Service rules that adversely affects their fitness and propriety as directors/officers, and which finding of said government institution has become final and executory;

b. *Temporarily disqualified*

- (1) Persons who have shown unwillingness to settle their financial obligations, as evidenced by, but not limited to, the following circumstances:
 - (a) the person has failed to satisfy any financial obligation that has been adjudicated by a court;
 - (b) the person has filed for insolvency or suspension of payments that adversely affects his/her fitness and propriety as director/officer; or
 - (c) a person who is delinquent in the payment of: an obligation with a bank where he/she is a director or officer; or at least two (2) obligations with other banks/FIs.

Financial obligations as herein contemplated shall include all borrowings obtained by:

- (i) A person for his/her own account or where he/she acts as a guarantor, endorser or surety for loans;
- (ii) The spouse, except when incurred after legal separation of properties or when the property regime governing the spouses is absolute separation of properties or except when incurred prior to the marriage;
- (iii) Any debtor whose borrowings or loan proceeds were credited to the account of, or used for the benefit of, the person described under Item "b(1)" of this Section (*Persons disqualified to become directors/officers*);
- (iv) A partnership of which a person, or his/her spouse is the managing partner or a general partner owning a controlling interest in the partnership; and
- (v) A corporation, association or firm wholly-owned or majority of the capital of which is owned by any or a group of individuals/entities mentioned in the immediately preceding Items "(i)", "(ii)" and "(iv)".

They shall remain temporarily disqualified until the financial obligations have been settled or satisfied.

- (2) Persons involved in the closure of banks pending their clearance by the Monetary Board;
- (3) Persons confirmed by the Monetary Board to have committed acts or omissions, which include failure to observe/discharge their duties and responsibilities prescribed under existing regulations, that: (a) caused undue injury or disadvantage to the bank through manifest partiality, evident bad faith or gross inexcusable negligence; (b) caused or may have caused material loss or damage to the bank, its depositors, creditors, investors, stockholders, to the Bangko Sentral or to the public in general; or (c) exposed the safety, stability, liquidity or solvency of the bank to abnormal risk or danger;
- (4) Persons found to have been involved in any irregularity/violation which constitutes a just cause for dismissal/termination as defined under the Labor Code of the Philippines, as amended, regardless of any action taken by the bank;
- (5) Persons certified by, or in the official files of, foreign financial regulatory authorities, financial intelligence units, or similar agencies or authorities of foreign countries, as charged with commission of, or having committed, irregularities or violations of any law, rule or regulation, which may adversely affect the fitness and propriety of the person or the ability to effectively discharge his/her duties;
- (6) Persons, other than those covered under Item "b(8)" of this Section (*Persons disqualified to become directors/officers*), who after conduct of investigation by domestic financial or commercial regulatory authorities, financial intelligence units, or similar agencies or authorities such as the Securities and Exchange Commission (SEC), Anti-Money Laundering Council (AMLC), or the Philippine Deposit Insurance Corporation (PDIC), have complaints filed against them by the aforementioned authorities/units/agencies pending before a court of law or quasi-judicial body, or convicted by said court or quasi-judicial body but whose conviction has not become final and executory, for offenses involving violation of laws, rules and regulations, which may adversely affect the fitness and propriety of the person or the ability to effectively discharge his/her duties;
- (7) Persons with cases pending before a court or other tribunal, or those convicted by said court or tribunal but whose conviction has not become final and executory, for offenses involving: (a) dishonesty or breach of trust such as, but not limited to, estafa, embezzlement, extortion, forgery, malversation, swindling, theft, robbery, falsification, bribery, violation of B.P. Blg. 22 (Anti-Bouncing Check Law), violation of R.A. No. 3019 (Anti-Graft and Corrupt Practices Act), violation of R.A. No. 9160, as amended (Anti-Money Laundering Act), and prohibited acts and transactions under Section 7 of R.A. No. 6713 (Code of Conduct and Ethical Standards for Public Officials and Employees); or (b) violation of securities and banking laws, rules and regulations;

- (8) Persons who have been convicted by a court for an offense involving moral turpitude, and persons who have been sentenced to serve a term of imprisonment of more than six (6) years for other crimes but whose conviction has not yet become final and executory;
- (9) Persons with pending cases for offenses under R.A. No. 3591, as amended (PDIC Charter), or those who have been convicted for said cases but whose conviction has not yet become final and executory;
- (10) Persons found by the Monetary Board to be administratively liable for violation of laws, rules and regulations implemented by the Bangko Sentral, where a penalty of removal from office is imposed, and which resolution of the Monetary Board is on appeal, unless execution or enforcement thereof is restrained by the appellate court;
- (11) Persons against whom a formal charge has been filed or who are found liable by any government agency/corporation, including government financial institution, for violation of any law, rule or regulation involving dishonesty, misconduct or any other grave or less grave offense classified under the Revised Administrative Code or Civil Service rules that adversely affects their fitness and propriety as directors/officers, and which finding of said government institution is on appeal, unless execution or enforcement thereof is restrained by the appellate court; and
- (12) Persons found by the Monetary Board to be administratively liable for violation of laws, rules and regulations implemented by the Bangko Sentral, where a penalty of suspension from office or fine is imposed, unless the finding is on appeal and the execution of enforcement thereof is restrained by the appellate court.

Resignation or retirement from his/her office shall not exempt the person from being permanently or temporarily disqualified under this Section.

Persons prohibited to become officers.

- a. The spouses or relatives within the second degree of consanguinity or affinity holding officership positions across the following functional categories within a bank:
 - (1) Decision making and senior management function, e.g., president, chief executive officer (CEO), chief operating officer (COO), general manager, and chief financial officer (CFO);
 - (2) Treasury function, e.g., treasurer or— treasury head;
 - (3) Recordkeeping and financial reporting functions, e.g., controller and chief accountant;
 - (4) Safekeeping of assets, e.g., chief cashier;
 - (5) Risk management function, e.g., chief risk officer;
 - (6) Compliance function, e.g., chief compliance officer; and
 - (7) Internal audit function, e.g., chief audit executive.

The spouse or a relative within the second degree of consanguinity or affinity of any person holding the position of manager, cashier, or accountant of a branch or branch-lite unit of a bank or their respective equivalent positions is prohibited from holding or being appointed to any of said positions in the same branch or branch-lite unit.

- b. Any appointive or elective official¹, whether full time or part time, except in cases where such service is incidental to the financial assistance provided by the government or government-owned or -controlled corporations (GOCCs) or in cases allowed under existing laws.
- c. In the case of Coop Banks.
 - (1) any incumbent officer or employee of the Cooperative Development Authority (CDA), except in a coop bank organized/owned by primary cooperative(s) whose members are officers or employees of the CDA;
 - (2) any incumbent elective public official, except a party list representative who is an officer of a cooperative he represents, and which cooperative is a stockholder of the cooperative bank; and
 - (3) a person engaged in a business similar to that of the cooperative or who in any way has a conflict of interest with it.

Effect of non-possession of qualifications or possession of disqualifications/prohibitions. A director/officer elected/appointed who does not possess all the qualifications under Sec. 132 and Sec. 134 and/or has any of the disqualifications/***prohibitions*** mentioned under Sec. 138 shall not be confirmed by the confirming authority under Sec. 137 and shall be removed from office by the bank even if he/she has assumed the position to which he/she was elected or

¹ In the case of RB, appointive and elective public officials currently holding officership positions shall continue holding such position until the end of their current terms effective 13 September 2013.

appointed pursuant to Section 16 of R.A. No. 8791 (General Banking Law of 2000). A confirmed director/officer or officer not requiring confirmation found to possess any of the disqualifications, shall be subject to the following disqualification procedures.

Disqualification procedures. All directors/officers who are considered disqualified under this Section shall be subject to the disqualification procedures provided herein. Disqualified persons shall be included in the Bangko Sentral Watchlist Files

- a. The bank shall be responsible for determining the existence of the ground for disqualification of the person concerned and for reporting the same to the appropriate supervising department of the Bangko Sentral within ten (10) calendar days from knowledge thereof. The bank shall ensure that the person concerned is informed that his/her offense was reported to the appropriate supervising department of the Bangko Sentral and, as such, may be evaluated for watchlisting. The bank concerned shall conduct its own investigation, impose sanction/s if appropriate, and report the results thereof to the appropriate supervising department of the Bangko Sentral within twenty (20) calendar days from the termination of investigation.

This shall be without prejudice to the authority of the Monetary Board to disqualify a person from being elected/appointed as director/officer in any BSP-supervised financial institution (BSFI) based on information on the existence of any ground for disqualification gathered or obtained from the Bangko Sentral, domestic financial regulatory authorities, financial intelligence units, and similar agencies or authorities of foreign countries, the courts and other quasi-judicial bodies, and other government agencies or the public.

- b. On the basis of knowledge and evidence on the existence of any of the grounds for disqualification mentioned in this Section, the person concerned shall be notified in writing either by personal service or through registered mail or courier at his/her last known address by the appropriate supervising department of the Bangko Sentral of the existence of the ground for his/her disqualification and shall be allowed to submit within fifteen (15) calendar days from receipt of such notice, a sworn statement/explanation on why he/she should not be disqualified and his/her name not included in the watchlist file as provided under this Section, together with the evidence in support of his/her position. The head of said appropriate supervising department of the Bangko Sentral may allow an extension on meritorious ground.
- c. Upon receipt of the reply/explanation of the person concerned, the appropriate supervising department of the Bangko Sentral shall proceed to evaluate the case.
- d. The failure of the person to reply within the period provided under Item "b" of this section (*Disqualification Procedures*), shall be deemed a waiver of opportunity to explain and the appropriate supervising department of the Bangko Sentral shall proceed to evaluate the case based on available records/evidence.
- e. If the person concerned was not served copy of the written notice to explain even after using available modes of service, i.e., personal service or registered mail or courier, the appropriate supervising department of the Bangko Sentral shall proceed to evaluate the case based on available records/evidence.
- f. Upon evaluation of the appropriate supervising department of the Bangko Sentral that a person is disqualified under any of the grounds listed in this Section, said appropriate supervising department of the Bangko Sentral shall elevate to the Monetary Board for approval of the person's disqualification and inclusion in the Bangko Sentral Watchlist Files.
- g. Upon approval by the Monetary Board, the person concerned shall be informed by the appropriate supervising department of the Bangko Sentral in writing either by personal service or through registered mail or courier, at his/her last known address of his/her disqualification from being elected/appointed as director/officer in any BSFI and of his/her inclusion in the masterlist of watchlisted persons so disqualified.
- h. The determination of the Monetary Board shall become final and executory within fifteen (15) calendar days from receipt of the resolution, unless a motion for reconsideration has been filed.
- i. In case the subject of disqualification is an incumbent director/officer, the board of directors of the bank concerned shall be immediately informed of such disqualification approved by the Monetary Board and shall be directed to act thereon not later than the following board meeting. Within three (3) banking days after the board meeting, the corporate secretary shall report to the Bangko Sentral through the appropriate supervising department of the Bangko Sentral the action taken by the board on the person involved.
- j. In cases initiated by the Bangko Sentral which resulted in conviction by final judgment of a court for violation of banking laws, rules and regulations, the Office of the General Counsel and Legal Services (OGCLS) shall recommend to the Monetary Board the permanent disqualification of said person and his/her name shall be included in the Disqualification File "A" (Permanent) upon approval of the Monetary Board.
- k. In administrative complaints against directors and officers filed with the Bangko Sentral which resulted in the

imposition of administrative penalties for violation of banking laws, rules and regulations, the OGCLS shall recommend to the Monetary Board the disqualification of said person, if warranted according to the severity of the offense, and his/her name shall be included in the Disqualification File "A" (Permanent) or "B" (Temporary), as the case may be, upon approval of the Monetary Board.

Watchlist files. The appropriate supervising department of the Bangko Sentral shall maintain two (2) files of watchlisted individuals:

- a. Disqualification File "A" (Permanent) - Persons permanently disqualified by the Monetary Board from holding a director/officer position in any BSFI.
- b. Disqualification File "B" (Temporary) - Persons temporarily disqualified by the Monetary Board from holding a director/officer position in any BSFI.

Delisting/Reclassification.

- a. *Delisting.* All delistings shall be approved by the Monetary Board upon the recommendation of the appropriate supervising department of the Bangko Sentral except in cases of persons known to be dead where delisting shall be automatic upon proof of death.

A person concerned may request delisting only after the lapse of five (5) years from the date of his/her receipt of notice of disqualification, except when a case against a director/officer is decided in his/her favor or upon clearance by the appropriate body, e.g., the judiciary, quasi-judicial bodies and domestic financial regulatory authorities and similar agencies or authorities of foreign countries where the person concerned has a derogatory record. The Monetary Board may consider the time already served under watchlisting by the person concerned.

- b. *Reclassification.* Reclassification from Disqualification File "B" (Temporary) to Disqualification File "A" (Permanent) may be approved by the Monetary Board when the case/s described in Item "b" of this Section (*Persons disqualified to become directors and officers*) becomes final and executory.

Confidentiality.

Watchlist files shall be for the internal use of the Bangko Sentral only: *Provided*, That upon authority of the person/s concerned, the bank can gain access to information in said watchlist files, among other Bangko Sentral records, by using the prescribed authorization form in *Appendix 80* only for the purpose of screening the nominees/applicants for director/officer positions.

(Circular Nos. 1076 dated 18 February 2020, 987 dated 28 December 2017 and 969 dated 22 August 2017)

139 SHARI'AH GOVERNANCE FRAMEWORK (SGF) FOR ISLAMIC BANKS (IBs) AND ISLAMIC BANKING UNITS (IBUs)

The SGF is a comprehensive system that defines a set of appropriate institutional measures, arrangements, requirements, structure and policies of an IB or IBU to ensure that there is effective and independent oversight of Shari'ah compliance of its Islamic banking business. The SGF complements the existing regulatory corporate governance framework.

As part of the corporate governance framework, the following are the minimum expectations of the Bangko Sentral on the SGF required for an IB or IBU:

- a. The SGF shall be commensurate with the size, complexity and risk profile of an IB or IBU. The SGF shall ensure an effective independent oversight of Shari'ah compliance over various structures and processes within the IB or IBU.
- b. The essential components of the SGF are the following:
 - (1) *Effective Board of Directors (BOD) and management oversight over Shari'ah compliance.* The BOD, or its equivalent in case of a foreign Islamic bank branch, shall be ultimately responsible and accountable for ensuring full conformity of the IB or IBU with the Shari'ah principles. The BOD needs to be fully cognizant of the risk of Shari'ah non-compliance and its potential implications on the reputation and business of the IB or IBU. The BOD shall introduce an effective mechanism and oversight on the SGF. The IB or IBU shall ensure continuous enhancement of the competency of the Board, management and all personnel on Islamic banking.

The senior management of the IB or IBU shall be responsible for implementation of the SGF. The relevant policies and procedures on Islamic banking products and services, at a minimum, shall be made available to units concerned and shall constantly be reviewed and updated to reflect current market practices and developments.

The functions and responsibilities of members of the BOD and the Shari'ah Advisory Council (SAC) shall be embedded in the bank's policies and processes covering its SGF. The terms of reference adopted by the BOD in appointing member to the SAC shall include, at a minimum, the SAC's objective, duties and

responsibilities, qualification requirements and the authorities required by the SAC to effectively implement its Shari'ah rulings. All rulings of the SAC on Shari'ah matters shall be final.

- (2) *An independent and effective SAC.* The SAC shall be appointed by the majority stockholders in their annual stockholders meeting upon the recommendation of the BOD pursuant to the IB or IBU's qualification requirements and the minimum prudential expectation set by the Bangko Sentral. The BOD shall have a vetting process to ensure the fitness and propriety of the members of the SAC before endorsing their appointment for approval by the stockholders.

The SAC shall discharge its duties independently and objectively. The SAC shall be empowered to consider, decide and oversee all Shari'ah related matters of the IB or IBU. The BOD shall ensure that the SAC is not subject to any undue influence or pressure from the management and/or its own members in the performance of the following minimum functions:

- (a) Approval and certification for the product structures and all the documentation thereon;
- (b) Rendering opinions or clarifications on Shari'ah compliance matters; and
- (c) Leading the Shari'ah compliance verification of IB or IBU's transactions and operations through an effective internal and/or external Shari'ah audit and issuing an annual Shari'ah Compliance Statement thereon.

A dismissal of a member of the SAC shall require recommendation from the BOD and approval by the stockholders. Generally, a member of the SAC may be disqualified if he/she acted in a manner which may cast doubt on his/her fitness as a member of the SAC.

In vetting the fitness and propriety of the members of the SAC, the IB or IBU shall carry out a background check and ensure that a person to be appointed as a member of the SAC shall have the relevant academic qualifications, experience/exposure, and track record indicating the person's general competence on Shari'ah compliance. The IB or IBU, in consultation with the SAC, may also engage lawyers, accountants, economists and such other professionals to assist and advise the SAC on banking, legal, financial, economic and other relevant matters.

To sustain best practices of corporate governance, there shall be a periodic formal assessment of the effectiveness of the SAC and its members by the BOD or the Head of the IBU. The BOD and the SAC shall meet on a periodic basis to discuss matters of mutual interest. In case of IBU, the SAC shall hold this periodic meeting with at least the Head of the IBU.

An IB or IBU may engage a competent Shari'ah adviser or consultant during the three (3) year period from Bangko Sentral's approval of its application in lieu of an SAC. The Shari'ah adviser or consultant shall have the same functions and responsibilities of an SAC as prescribed in this Section.

- (3) *Independent and effective compliance and internal audit functions.* The compliance function shall, at a minimum, ensure that the rulings of the SAC when adopted by the BOD, are properly implemented. The internal audit must undertake a review of the Shari'ah compliance at least annually in support of the SAC's annual Shari'ah Compliance Statement. Such statement should be considered in the preparation of the Annual Report of the IB or the conventional bank, in the case of IBU.

The IB or IBU may outsource the Shari'ah compliance and audit functions during the first three (3) years of Islamic banking business upon approval thereon by the BOD and with prior notice to the appropriate supervising department of the Bangko Sentral.

(Circular No. 1070 dated 27 December 2019)

E. RISK MANAGEMENT

141 SUPERVISION BY RISK

The guidelines on supervision by risk to provide guidance on how many banks should identify, measure, monitor and control risks are shown in *Appendix 69*.

The guidelines set forth the expectations of the Bangko Sentral with respect to the management of risks and are intended to provide more consistency in how the risk-focused supervision function is applied to these risks. The Bangko Sentral will review the risks to ensure that a bank's internal risk management processes are integrated and comprehensive. All banks should follow the guidelines in their risk management efforts.

Applicability to branches of foreign banks. Branches of foreign banks shall comply with the governance policies, practices and systems of the head office as well as meet the applicable standards, principles and requirements set forth under Secs. 132 and 142, except the reportorial requirements under Sec. 132 (*Specific duties and responsibilities of the board of directors*) on group structures.

Reports of assessment of the risk management, compliance function and internal audit group of branches of foreign banks shall be made available to the Bangko Sentral, during on-site examination or any time upon request.

(Circular No. 969 dated 22 August 2017)

142 RISK GOVERNANCE FRAMEWORK

The risk governance framework shall include policies, supported by appropriate processes and control procedures, designed to ensure that the risk identification, aggregation, mitigation and monitoring capabilities are commensurate with the BSFI's size, complexity, risk profile, and systemic importance. The risk governance framework shall consider the entities in the conglomerate and shall be applied on a group-wide scale.

- a. *Risk appetite.* The BSFI's risk appetite shall be clearly conveyed through a risk appetite statement that can be easily understood by all relevant parties, e.g., board of directors itself, senior management, employees, the public, regulators, and other stakeholders. The risk appetite statement shall represent the individual and aggregate level and types of risk that the BSFI is willing to assume in order to achieve its business objectives and considering its capability to manage risk.
- b. *Risk management policy.* Risk management policies shall cover:
 - (1) structure of limits and guidelines to govern risk-taking. These shall include actions that shall be taken when risk limits are breached, including notification and escalation to higher level of Management and corresponding sanctions for excessive risk taking;
 - (2) clearly delineated responsibilities for managing risk based on the three (3) lines of defense;
 - (3) system for measuring risk;
 - (4) checks and balances system; and
 - (5) framework for risk data aggregation and risk reporting.
- c. *Risk management processes and infrastructure.* The degree of sophistication of the risk management and internal control processes and infrastructure shall keep pace with developments in the BSFI such as balance sheet and revenue growth; increasing complexity of the business; risk configuration or operating structure; geographical expansion; mergers and acquisitions; or the introduction of new products or business lines, as well as with the external risk landscape; business environment; and industry practice. This should enable a dynamic, comprehensive, and accurate risk reporting both at the disaggregated (including material risk residing in subsidiaries) and aggregated level to allow for a BSFI-wide or integrated perspective of risk exposures.

In this respect, BSFIs shall ensure that their risk data aggregation capabilities meet the following principles:

- (1) *Accuracy and integrity* - this refers to the capability to generate accurate and reliable risk data to meet normal and stress reporting accuracy requirements.
 - (2) *Completeness* - this refers to the capability to capture and aggregate all material risk data across the banking group. Data should be available by business line, legal entity, asset type, industry, region and other groupings, as relevant for the risk in question, and should permit the identification and reporting of risk exposures, concentrations, and any emerging risks.
 - (3) *Timeliness* -this refers to the capability to generate aggregate and up-to-date risk data in a timely manner while also meeting the principles relating to accuracy and integrity, completeness and adaptability. Timing shall depend upon the nature and potential volatility of the risk being measured as well as its criticality to the overall risk profile of the BSFI. Timing shall also depend on the BSFI-specific frequency requirements for risk management reporting, under both normal and stress/crisis situations, set based on the characteristics and overall risk profile of the BSFI.
 - (4) *Adaptability* - this refers to the capability to generate aggregate risk data to meet a broad range of on-demand, ad hoc risk management reporting requests, including requests during stress/crisis situations, requests due to changing internal needs and requests to meet supervisory queries.
- d. *Risk identification, monitoring and controlling.* BSFIs shall identify and assess all material risks including new and emerging risks, as well as hard to quantify risks, e.g., reputational risk, on a group-wide and entity specific levels. In this respect, BSFIs should use accurate internal and external data and consider the external operating environment in the risk assessment process to inform strategic business decisions and risk management approaches.
 - e. *Risk communication.* BSFI shall promote an open communication about risk issues, including risk strategies across

the organization. They shall adopt an effective information sharing and communication system enabling the timely, accurate, concise, and understandable transfer of information. This includes the risk reporting framework, which should accurately communicate risk exposures and results of stress tests and should promote robust discussion of risk exposures.

The risk reporting framework should be governed by the following principles:

- (1) *Accuracy* - Reports should accurately and precisely convey aggregated risk data and reflect risk in an exact manner. In this regard, relevant reports should be reconciled and validated.
- (2) *Comprehensiveness* - Reports should cover all material risk areas within the organization. The depth and scope of these reports should be consistent with the size and complexity of the BSFI's operations and risk profile, as well as the requirements of the users of information.
- (3) *Clarity and usefulness* - Reports should communicate information in a clear and concise manner. Reports should be easy to understand and comprehensive enough to facilitate informed decision-making. Reports should include meaningful information tailored to the needs of the recipients.

Risk management function. The risk management function shall be responsible for overseeing the risk-taking activities across the BSFI, as well as in evaluating whether these remain consistent with the BSFI's risk appetite and strategic direction. It shall ensure that the risk governance framework remain appropriate relative to the complexity of risk taking activities of the BSFI. The risk management function shall be responsible for identifying, measuring, monitoring and reporting risk on an enterprise-wide basis as part of the second line of defense. It shall directly report to the Risk Oversight Committee (ROC) or the board of directors, as applicable. Personnel in the risk management function should collectively have knowledge and technical skills commensurate with business activities and risk exposures of the BSFI.

UBs/KBs shall create a separate risk management function that shall primarily assist management in meeting its responsibility to understand and manage risk exposures and ensure the development and consistent implementation of risk policies, processes, and procedures throughout the bank.

In case of group structures, there should be a board-approved policy that defines the risk management framework that shall apply to entities across the group. The policy shall provide the structure that shall be adopted by the group, either to establish the risk management function centrally at the parent bank or in each of the identified subsidiaries. Such policy shall also include the overall responsibility of the parent bank's risk management function with respect to the management of risk exposures of subsidiaries/affiliates.

The establishment of risk management function centrally by the parent bank in group structures shall not fall under the outsourcing framework as provided under Sec. 112 (*Statement of Principle on outsourcing*). In this respect, the head of the risk management function of the parent bank shall define the risk management strategies, processes, and communication framework for the entire group: *Provided*, That this shall be done in consultation and coordination with the respective board of directors of the subsidiary or affiliate BSFI: *Provided, further*, That the board of directors of the subsidiary or affiliate BSFI, shall remain ultimately responsible for the management of risk exposures.

Branches of foreign banks may establish their own risk management function or may be covered by the parent/regional/group risk management function: *Provided*, That all branches of foreign banks shall meet the applicable provisions set forth under this Section, and comply with the policies, practices, and systems of its head office related to the management of risks.

The board of directors of TBs, RBs, and Coop banks, may, at its own discretion, or as directed by the appropriate supervising department of the Bangko Sentral, create a risk management function, that shall report directly to the ROC or the board of directors, as applicable.

Chief Risk Officer (CRO). UBs/KBs shall appoint a CRO to head the risk management function. Other banks, may at their own discretion, or as directed by the appropriate supervising department, appoint a CRO, or any equivalent position to carry out the responsibilities of the position. The appointment, dismissal and other changes to the CRO or its equivalent position shall have prior approval of the board of directors. In cases, when the CRO will be replaced, the BSFI shall report the same to the appropriate supervising department of the Bangko Sentral within five (5) days from the time it has been approved by the board of directors.

The CRO shall have sufficient stature, authority, and seniority within the BSFI. He shall be independent from executive functions and business line responsibilities, operations and revenue-generating functions, and shall have access to such information as he deems necessary to form his judgment. The CRO shall have direct access to the board of directors and the ROC without any impediment. He shall serve on a full-time basis and shall functionally meet/report to the board of directors or board-level committee: *Provided*, That in cases of branches of foreign banks, the CRO shall report to the regional/group risk function. Meetings with the board of directors or board-level committee shall be duly minuted and adequately documented. In this regard, the board of directors/board-level committee shall review and approve the performance and compensation of the CRO, and budget of the risk management function.

- a. *Qualifications of the CRO.* The CRO should have the knowledge and skills necessary to oversee the BSFI's risk management activities. This will be assessed based on the ability of the CRO to influence decisions that affect the BSFI's exposure to risk. The CRO should have the ability to interpret and articulate risk in a clear and understandable manner and, without compromising his independence, can engage in a constructive dialogue with the board of directors, chief executive officer, and other senior management on key risk issues.
- b. *Duties and responsibilities of the CRO.* The CRO shall be responsible for overseeing the risk management function and shall support the board of directors in the development of the risk appetite and risk appetite statement of the BSFI and for translating the risk appetite into a risk limits structure. The CRO shall likewise propose enhancements to risk management policies, processes, and systems to ensure that the BSFI's risk management capabilities are sufficiently robust and effective to fully support strategic objectives and risk-taking activities.

(Circular No. 971 dated 22 August 2017)

143 CREDIT RISK MANAGEMENT

Policy statement. It is the policy of the Bangko Sentral to ensure that FIs under its supervision have adequate and effective credit risk management systems commensurate with their credit risk-taking activities. Towards this end, the following guidelines on credit risk management set forth the expectations of the Bangko Sentral with respect to the comprehensive management of credit risk. The guidelines further articulate sound principles and practices that shall be embedded in the credit risk management framework of FIs and shall cover the following areas: (a) establishing an appropriate credit risk environment; (b) operating under a sound credit granting process; and (c) maintaining appropriate credit administration, measurement, monitoring and control processes over credit risk. While FIs may employ different approaches in the management of their credit risk, the Bangko Sentral expects that all these areas are effectively addressed.

For purposes of these guidelines, FIs refer to UBs, KBs, TBs, RBs and Coop Banks and their respective credit-granting financial subsidiaries (if any) as well as stand-alone QBs.

Evaluation of credit risk management system. The Bangko Sentral shall evaluate the FI's credit risk management system not only at the level of individual legal entities but also across the subsidiaries within the consolidated banking organization. It will not restrict the scope of the credit risk-taking activities of an FI, so long as the FI is authorized to engage in such activities and:

- a. Understands, measures, monitors and controls the risk assumed;
- b. Adopts risk management practices whose sophistication and effectiveness are commensurate with the risk being taken; and
- c. Maintains capital commensurate with the risk exposure assumed.

If the Bangko Sentral determines that an FI's risk exposures are excessive relative to the FI's capital, or that the risk assumed is not well-managed, the Bangko Sentral will direct the FI to reduce its exposure to an appropriate level and/or to strengthen its risk management systems. In evaluating the above parameters, the Bangko Sentral expects FIs to have sufficient knowledge, skills and appropriate system and technology necessary to understand and effectively manage their credit risk exposures.

The principles set forth in the credit risk management guidelines shall be used in determining the adequacy and effectiveness of an FI's credit risk management process and adequacy of capital relative to exposure. The Bangko Sentral shall consider the following factors:

- a. The FI's business strategies, operating environment, and the competencies of its officers and personnel; and
- b. The major sources of credit risk exposure and the complexity and level of risk posed by the assets, liabilities, and off-balance sheet activities.

I. Establishing an Appropriate Credit Risk Environment

Role of the board and senior management.

- a. *Board of directors.* The board of directors shall be responsible for the approval and regular review of credit risk strategy and credit policy, as well as the oversight of the implementation of a comprehensive and effective credit risk management system appropriate for the size, complexity and scope of operations of an FI. The board shall ensure that the system provides for adequate policies, procedures and processes to identify, measure, monitor and control all credit risks inherent in an FI's products and activities, both at the individual and portfolio levels on a consistent and continuing basis; and that an independent assessment of the system is periodically performed, the results of which shall be reported to it or to a board-level committee for appropriate action.
- b. *Senior management.* Senior management shall be responsible for ensuring that the credit risk-taking activities of an FI are aligned with the credit risk strategy approved by the board of directors. It shall also be responsible for developing and implementing an FI's credit policies and procedures that lay down the conditions and guidelines

for an effective credit risk management process, as well as proper channels of communication to ensure that these policies are clearly communicated and adhered to by all levels of the organization.

Credit risk management structure.

- a. Senior management or an appropriate level of management shall implement a board-approved credit risk management structure that clearly delineates lines of authority, establish accountabilities and responsibilities of individuals involved in the different phases of the credit risk management process.
- b. Depending on the size, complexity and scope of credit activities, and in addition to the roles and responsibilities of the board and senior management, an FI's credit risk management organization may be broadly classified into three functional lines of activities: the front, back and middle offices, to properly segregate accountabilities, ensure that no individual is assigned conflicting responsibilities, and effectively monitor and control the risks being taken.
- c. The front office function performs credit originating; recommends internal credit ratings, classifications and allowances for losses including changes thereon, when necessary; and the on-going monitoring of credit exposures of borrowers on a day-to-day basis.
- d. The back office provides support in the overall credit administration, including, among others: ensuring complete documentation, credit disbursement and recording of payments received; maintenance of credit and collateral files; and compilation of management information reports.
- e. The middle office performs risk management and control functions that are independent from the credit originating and administration functions. The risk management function provides meaningful inputs in policy formulation and limits setting; designs and implements the FI's internal credit risk rating system; and performs periodic exposure and exception monitoring. The risk management function shall report directly to the Risk Management Committee (RMC) or appropriate board-level committee or the board.
- f. An independent credit review is a function within the middle office that performs an unbiased assessment of the quality of individual credits and the aggregate credit portfolio, including appropriateness of credit risk rating, classification and adequacy of allowance for loan losses. In the case of simple FIs, such independent credit review function may be concurrently performed by qualified personnel fulfilling other independent control oversight functions (e.g. compliance, internal audit).
- g. The workout or problem loan management is another function within the middle office that is independent from the credit originating function to ensure that problem loans are managed effectively to minimize potential losses. For simple FIs, however, the function may still be performed by the credit originating function and/or unit responsible for monitoring the quality of such credit.
- h. The structure shall likewise provide for independent audits, i.e., internal audit and compliance, to conduct independent credit and compliance audits of the credit risk management system of the FI. The scope of internal audit shall include the evaluation of the independence and overall effectiveness of the credit review function.
- i. Regardless of the organizational structure that an FI adopts, the board shall ensure that the aforementioned key functions are considered and independence and control oversight functions are effective to avoid or address any potential conflict of interest.
- j. Personnel or staff involved in all phases of the credit risk management process shall be qualified, competent and have the necessary training and experience to exercise prudent judgment in assessing, managing and/or controlling credit risk, and a solid understanding of an FI's strategic direction, policies, procedures, risk tolerance and limits. Their qualification standards, roles and responsibilities shall be clearly defined in the credit operating policies and procedures manual of the FI. The board and senior management shall ensure that adequate resources and appropriate level of staffing are allocated to execute all kinds of credit activities.

Credit risk strategy. The credit risk strategy must reflect the FI's profitability and portfolio growth targets, and must be consistent with the credit risk tolerance and overall corporate strategy and business goals of the FI.

- a. In formulating the credit risk strategy, the FI shall articulate the desired market segments and types of credit exposures (e.g., commercial credits, retail credits, real estate, investments, trading products, credit commitments and/or guarantees); specific characteristics of clients, economic sector, geographical location; the portfolio mix that reflects the acceptable level of diversification and concentration; and consider the risk/reward trade-off by factoring in, to the greatest extent possible, price and non-price (e.g. collateral, restrictive covenants, etc.) terms as well as likely downside scenarios and their possible impact on the obligors.

The FI shall likewise define acceptable and unacceptable types of credits, clients, activities, transactions and behaviors that could result or potentially result in conflict of interest, personal gain at the expense of the FI, or unethical conduct.

- b. The credit risk strategy shall consider the cyclical aspects of the economy and the varying effects of the economic cycle on the credit portfolio of the FI.

Credit policies, processes and procedures. FIs shall have in place a sound, comprehensive and clearly defined credit policies, processes and procedures consistent with prudent standards, practices, and relevant regulatory requirements adequate for the size, complexity and scope of an FI's operations. The board-approved policies, processes and procedures shall cover all phases of the credit risk management system.

- a. FIs shall establish appropriate processes and procedures to implement the credit policy and strategy. These processes and procedures, as well as the credit policy, shall be documented in sufficient detail, effectively communicated throughout the organization to provide guidance to staff, and periodically reviewed and updated to take into account new activities and products, as well as new lending approaches. Subsequent major changes must be approved by the board.
- b. The credit policy shall likewise provide for the maintenance of an audit trail documenting that the credit risk management process was properly observed and identifying the unit, individual(s) and/or committee(s) providing input into the process.
- c. The credit culture, which reflects the FI's credit values, beliefs and behaviors, shall likewise be articulated in the credit policy and communicated to credit officers and staff at all levels through the strategic plan. The credit practices shall be assessed periodically to ensure that the officers and staff conform to the desired standard and value.

II. Operating Under a Sound Credit Granting Process

Credit approval process. The approval process for new credits as well as the amendment, renewal and refinancing of existing credit exposures shall be aligned with the credit risk management structure and clearly articulated in an FI's written credit policy. The process shall include the different levels of appropriate approving authority and the corresponding approving authority limits, which shall be commensurate with the risks of the credit exposures, as well as expertise of the approving individuals involved. It shall also include an escalation process where approval for restructuring of credits, policy exceptions or excesses in internal limits is escalated to units/officer with higher authorities. Further, there shall be proper coordination of relevant units and individuals and sufficient controls to ensure acceptable credit quality at origination.

Credit granting and loan evaluation/analysis process and underwriting standards. Consistent with safe and sound banking, an FI shall grant credits only in amounts and for the periods of time essential for the effective completion of the activity to be financed and after ascertaining that the obligor¹ is capable of fulfilling his commitments to the FI. Towards this end, an FI shall establish well-defined credit-granting criteria and underwriting standards, which shall include a clear indication of the FI's target market and a thorough understanding of the obligor or counterparty, as well as the purpose and structure of the credit and its source of repayment.

- a. FIs shall conduct comprehensive assessments of the creditworthiness of their obligors, and shall not put undue reliance on external credit assessments. Credit shall be granted on the basis of the primary source of loan repayment or cash flow, integrity and reputation of the obligor or counterparty as well as their legal capacity to assume the liability.
- b. Depending on the type of credit exposure and the nature of the credit relationship, the factors to be considered and documented in approving credits shall include, but are not limited to, the following:
 - (1) The purpose of the credit which shall be clearly stated in the credit application and in the contract between the FI and the obligor;
 - (2) The current risk profile (including the nature and aggregate amounts of risks, risk rating or credit score, pricing information) of the borrower, collateral, other credit enhancements and its sensitivity to economic and market developments;
 - (3) The sources of repayment, repayment history and current capacity to repay based on financial analysis from historical financial trends and indicators such as equity, profitability, turnover, leverage, and debt servicing ability via cash flow projections, under various scenarios;
 - (4) For commercial credits, the borrower's business expertise, its credit relationships including its shareholders and company directors, as applicable, and the status of the borrower's economic sector and its track record vis-à-vis industry peers;
 - (5) The proposed terms and conditions of the credit (i.e., type of financing, tenor, repayment structure, acceptable collateral) including covenants designed to limit changes in the future risk profile of the obligor;

¹ Obligor refers to an individual or entity that owes another person or entity a certain debt or duty. For purposes of these guidelines, obligor can also be used interchangeably with borrower or debtor.

- (6) Use of credit reports; and
 - (7) Where applicable, the adequacy, valuation and enforceability of collateral or guarantees.
- c. In performing the financial analysis, FIs shall use, to the extent available, credible audited financial statements and other relevant documents and sources. FIs may opt to use financial information/data from other sources: *Provided*, That the process for arriving at such disposition and an evaluation of how much reliance or value was attached into the financial information used is clearly articulated and documented
 - d. When participating in loan syndications, an FI shall not place undue reliance on the credit analysis done by the lead underwriter and shall perform its own analysis and review of syndicate terms. It shall analyze the risk and return on syndicated loans in the same manner as directly sourced loans and ensure that the loan is consistent with its credit risk strategy.
 - e. When an FI purchases securities issued by an obligor that is different from the counterparty (e.g. asset swaps), it shall also analyze issuer risk. For treasury and capital market activities, the structure of products and transactions shall be analyzed to determine the source and volatility of credit exposure.
 - f. When granting consumer credits, an FI shall conduct its credit assessment in a holistic and prudent manner, taking into account all relevant factors that could influence the prospect for the loan to be repaid according to its terms and conditions. This shall include an appropriate consideration of the potential obligor's other debt obligations and repayment history and an assessment of whether the loan can be expected to be repaid from the potential obligor's own resources without causing undue hardship and over-indebtedness. Adequate checkings, including with relevant credit bureaus, shall be made to verify the obligor's credit applications and repayment records.
 - g. FIs shall factor into their credit-granting decisions the likelihood of providing allowance for identified and expected losses and holding adequate capital to absorb unexpected losses for credits with apparent weaknesses.
 - h. FIs may utilize physical collateral (like real estate), financial guarantees and other instruments to help mitigate risk in credit exposures. However, these shall not substitute for a comprehensive assessment of the obligor or fully compensate for insufficient information.
 - i. FIs shall establish adequate policies in determining the acceptability of various forms of credit mitigants and appropriate collateral value limits; procedures for regularly assessing the value of physical collaterals and availability of financial guarantees; and a process to ensure that these are, and continue to be, enforceable, realizable and marketable. Finally, FIs need to consider that the realizable value of the physical collateral or the quality of financial guarantees and other credit mitigants may be impaired by the same factors that have led to the diminished recoverability of the credit.

In the case of guarantees, the level of coverage being provided in relation to the credit quality, financial and legal capacity of the guarantor shall be evaluated.

For credit exposures secured by deposits, FIs shall likewise require obligors to provide a written waiver of his rights under existing laws to the confidentiality of his deposits, and make this available for inspection and/or examination by the appropriate supervising department of the Bangko Sentral.

- j. Netting arrangements also mitigate risks, especially in interbank and off-balance sheet transactions. In order to actually reduce risk, such agreements need to be sound and legally enforceable in all relevant jurisdictions.
- k. For more complex credit risk exposures, (e.g., asset securitization, credit derivatives, credit-linked notes, credit granted internationally, etc.), a more sophisticated tool shall be used for identifying, measuring, monitoring and controlling credit, country and transfer risks. Each complex credit risk product or activity, especially those that are new to banking, shall be subject to a thorough analysis in addition to the regular assessment that is done with traditional credit-granting activities.
- l. For new products and activities, the credit risk shall be appropriately identified and managed through a formal risk assessment program. FIs shall ensure that they fully understand the risk involved in new products and activities and put in place adequate policies, procedures and controls before being introduced or undertaken.

Renewal or extension of maturity date of credits. FIs shall adopt and adhere to the following explicit standards that control the use of renewals and extensions of maturity date of credits:

- a. Credits and other accommodations shall only be renewed or its maturity date extended:
 - (1) Upon re-establishment of the creditworthiness of the obligor using the same credit-granting criteria for the evaluation and approval of new loans; and
 - (2) When the corresponding accrued interest receivable has been paid.

- b. A policy on clean-up of principal, either partial or full, shall be established and appropriate controls put in place to prevent continuous renewal or extension over a long period of time without reduction in principal; otherwise, such credits and other accommodations shall be subject to classification and allowance for credit losses.
- c. Specific and reasonable standards shall be provided for renewals or extensions of certain types of credit exposures that take into consideration the following factors:
 - (1) Borrower's normal operating, trade or production cycle, in the case of credit exposures for working capital, trade financing, production, and/or other similar purposes to ensure a realistic repayment schedule;
 - (2) Transaction history such as frequency of renewal or extension, rate of utilization of facilities granted, and business requirements;
 - (3) Status of collateral and other guarantees in the case of secured credit exposures, including requiring the FI to re-appraise the property especially when there is a material change in market conditions or in the physical aspects of the property that threatens the collateral protection; and
 - (4) Age of the account, utilization rate, average balance carried, delinquency status, payment history, and account profitability (if available) in the case of retail credits.

Credit limits, large exposures, and credit risk concentrations. An FI is exposed to various forms of credit risk concentration which if not properly managed, monitored and controlled may cause significant losses that could threaten its financial strength and undermine public confidence in the FI. Concentration risk can arise from excessive exposures to individual obligors, groups of connected counterparties and groups of counterparties with similar characteristics (e.g., counterparties in specific geographical locations, economic or industry sectors) or entities in a foreign country or a group of countries with strongly interrelated economies.

While concentration of credit risks is inherent in banking and cannot be total eliminated, this can be mitigated by adopting policies and processes that would limit and control credit exposures and employing portfolio diversification strategies. Policies and procedures may include, but are not limited to the following:

- a. Policies and procedures for identifying, reviewing, managing and reporting large exposures and concentration risks of the FI.
- b. Segmenting its portfolio into the following diverse categories or such other segmentations consistent with the FI's credit strategy.
 - (1) Various types of borrowers/counterparties or loan category (e.g., government, banks and other FIs, corporate and individual borrowers, including exchanges, electronic communication networks or ECNs and clearing houses);
 - (2) A group of connected borrowers/counterparties (includes aggregating exposures to groups of accounts exhibiting financial or economic interdependence, including corporate or non-corporate, where they are under common ownership or control or with strong connecting links, e.g. common management, familial ties);
 - (3) Individual industry sectors;
 - (4) Geographic regions or countries;
 - (5) Loan structure, collateral, and tenor; and
 - (6) Various types of investments, including other credit instruments in the trading books and off-balance sheet transactions.
- c. Defining limit structure on each of the foregoing categories. Limits shall meaningfully aggregate credit exposures, both in the banking, trading book and on and off the balance sheet and shall be reasonable in relation to the FI's level of risk tolerance, historical loss experience, capital and resources. Such limits can be based in part on the internal risk rating assigned to the obligor or counterparty.
- d. Procedures shall ensure that limits are not exceeded and are clearly communicated, periodically reviewed and modified, as appropriate. Should exceptions to policy be allowed, the circumstances under which limits may be exceeded and the party authorized to approve such excesses shall be clearly articulated in the credit policy.

Country and transfer risks. Country risk refers to uncertainties arising from economic, social and political conditions of a country which may cause obligors in that country to be unable or unwilling to fulfill their obligations. Transfer risk exists when an obligor is unable to secure foreign exchange to service external obligations due to restrictions imposed by the country on foreign exchange remittance or repayment on foreign-currency denominated assets to a foreign lender. FIs that have cross-border credit risk exposures shall have adequate internal capacity for identifying, measuring, monitoring and controlling country and transfer risks in its international lending and investment activities, and shall not place undue reliance on external ratings. An FI shall consider the following:

- a. Establishing credit-granting criteria taking into consideration country risk factors that shall include the potential for default of foreign private sector obligors arising from country-specific economic, social and political factors, the enforceability of loan agreements, and the timing and ability to realize collateral under the national legal framework. The results of the country risk analysis shall be integrated into the internal credit risk rating of the obligor. These country risk factors shall be regularly monitored. An FI shall also assess an obligor's ability to obtain foreign exchange to service cross-currency debt and honor contracts across jurisdictions.
- b. Country risk limits shall be put in place and regularly reviewed to determine that approved limits still reflect the FI's business strategy in line with the changing market conditions. FIs shall ensure that country exposures are reported and monitored against these limits. Significant country risks shall be assessed and highlighted in credit proposals submitted to management for approval.
- c. Credit policy shall clearly articulate appropriate countermeasures that an FI shall take in the event of an adverse development in a particular country where it has exposures. These measures shall include closer analysis of the obligor's capacity to repay, provisioning and preparation of contingency plans if country risk continues to deteriorate. It shall consider in its monitoring and evaluation of country and transfer risks, the internal and external country risk rating transitions and economic social and political developments of the relevant countries. Any significant changes to the conditions of a country shall also be elevated to the board promptly particularly if the FI has substantial exposure to that country.

Credits granted to related parties. Consistent with sound corporate governance practices, the board and senior management shall articulate and implement clear policies in handling transactions with directors, officers, stockholders, their related interests (DOSRI), the FI's subsidiaries and affiliates, and other related parties, ensuring that there is effective compliance with existing laws, rules, and regulations at all times and that no stakeholder is unduly disadvantaged.

- a. All extensions of credit must be made on an arm's-length basis, in accordance with the FI's credit-granting criteria and in the regular course of business, and upon terms not less favorable to the FI than those offered to non-related borrowers.
- b. FI policies shall cover standards that require directors and/or officers to avoid placing themselves in a position that creates conflict of interest or the appearance of conflict of interest. The board and management shall likewise establish and implement policies that require full disclosure of personal interests that they may have in credit transactions. Directors and officers with personal interest in a transaction shall not participate in any deliberation, approval, or voting on the matter.

III. Maintaining an Appropriate Credit Administration, Measurement, and Monitoring Process

Credit administration. FIs shall have in place a system for the ongoing administration of their various credit portfolios. Credit administration refers to the back office activities that support and control extension and maintenance of credit. FIs shall ensure the efficiency and effectiveness of the following credit administration functions:

- a. *Credit documentation.* Procedures shall be put in place to ensure completeness of documentation in accordance with policy including a file documentation tickler system;
- b. *Disbursement.* Proper approval shall be obtained and complete documentation ensured prior to disbursement. Exceptions, if any, shall be duly approved;
- c. *Billing and repayment.* Payments received shall be properly recorded. Measures shall be in place to ensure that late payments are tracked and collected; and
- d. *Maintenance of credit files.* Credit files shall include sufficient and updated information necessary to ascertain the financial condition of the obligor or counterparty and include documents covering the history of an FI's relationship with the obligor. All loan and collateral documents shall be kept in a secured area under joint custody.

Credit risk measurement, validation and stress testing. FIs shall adopt sound and appropriate risk measurement methodologies which shall provide a framework to control and monitor the quality of credit as well as total loan portfolio.

- a. *Internal credit risk rating system.* FIs shall develop and utilize an internal risk rating system appropriate to the nature, size and complexity of the FI's activities in order to help the board and senior management differentiate risks across the individual credits and groups and to facilitate informed decision making.

FIs shall have sophisticated rating systems involving sufficiently granular rating grades. Simple FIs may adopt simpler systems. In all cases, however, FIs shall demonstrate the influence of the internal risk rating system in the following important functions: i) credit approval and underwriting; ii) loan pricing; iii) relationship management and credit administration; iv) allowance for credit losses and capital adequacy; and v) portfolio management and board reporting.

Internal risk rating systems shall generally observe the following standards:

- (1) It must be operationally integrated into the FI's internal credit risk management process. Its output shall accordingly be an integral part of the process of evaluation and review of prospective and existing exposures. Credit underwriting criteria shall become progressively more stringent as credit rating declines;
- (2) It must be fully documented and shall address topics such as coverage, rating criteria, responsibilities of parties involved in the ratings process, definition of what constitutes a rating exception, parties that have authority to approve exceptions, frequency of rating reviews, and management oversight of the rating process. In addition, FIs must document the rationale for its choice of rating criteria and must be able to provide analyses demonstrating that the rating criteria and procedures are likely to result in ratings that meaningfully differentiate risk;
- (3) All credit exposures shall be rated for risk. Where individual credit risk ratings are not assigned, e.g., small-denomination performing loans, FIs shall assign the portfolio of such exposures a composite credit risk rating that adequately defines its risk, i.e., repayment capacity and/or loss potential;
- (4) The board shall receive sufficient information to oversee management's implementation of the process. Migration analysis/transition matrix of ratings shall be regularly reported to show the actual performance of the rating system over time;
- (5) The risk rating system shall encompass an adequate number of ratings. FIs shall ensure that "pass" credits are sufficiently differentiated and more precisely defined. There shall be a proper process to map the internal rating system to regulatory classification. The FI shall readjust the mapping after every review of its internal risk rating methodology. For FIs whose internal rating systems have several pass grades, special mention loans may pertain to several risk ratings while substandard, doubtful and loss generally correspond to the lowest three risk ratings;
- (6) Risk ratings must be reasonable, timely and dynamic. Ratings shall be reviewed at least annually and shall be modified whenever the borrower's creditworthiness changes;
- (7) The rating criteria shall reflect an established blend of qualitative (e.g., the quality of management, willingness to repay, etc.) and quantitative (e.g., cash flow, profitability, and leverage) factors. The criteria for assigning each rating shall be clearly defined;
- (8) The rating policy shall indicate a time horizon for the risk rating. Generally, the time horizon used for probability of default estimation is one year. However, FIs may use a different time horizon to cover one business cycle;
- (9) Ratings shall reflect the risks posed by both the borrower's expected performance and the transaction's structure. The ratings output of internal credit risk rating systems must contain both a borrower and a facility dimension. The borrower dimension shall focus on factors that affect the inherent credit quality of each borrower. The facility dimension, on the other hand, shall focus on security/collateral arrangements and other similar risk influencing factors of each transaction;
- (10) The rating assigned to a credit shall be well supported and documented in the credit file; and
- (11) Rating histories on individual accounts shall be maintained, which shall include the ratings of the account, the dates the ratings were assigned, the methodology and key data used to derive the ratings and the analyst who gave the ratings. The identity of borrowers and facilities that default, and the timing and circumstances of such defaults, must be retained. FIs must also retain data on the realized default rates associated with rating grades and ratings migration in order to eventually track the predictive power of the risk rating system.

As used in these standards, a default is considered to have occurred in the following cases:

- (a) If a credit obligation is considered non-performing under existing rules and regulations;
- (b) If a borrower/obligor has sought or has been placed in bankruptcy, has been found insolvent, or has ceased operations in the case of businesses;
- (c) If the bank sells a credit obligation at a material credit-related loss¹, i.e., excluding gains and losses due to interest rate movements. Banks' board-approved internal policies that govern the use of their internal rating systems must specifically define when a material credit-related loss¹ occurs; and
- (d) If a credit obligation of a borrower/obligor is considered to be in default, all credit obligations of the borrower/obligor with the same bank shall also be considered to be in default.

¹ This refers to economic loss, thus shall include discount effects, as well as direct and indirect costs associated with collecting on the credit obligation. The FIs' board-approved internal policies that govern the use of their internal rating systems must include specific policies and procedures that shall be followed in the determination of economic loss.

- b. *Credit scoring model.* FIs may use a credit scoring model in measuring credit risk for pools of loans that are similar in purpose, risk characteristics and/or general exposure to groups, industries or geographical locations granted in small denomination: *Provided*, That the FI ensures that the credit scoring model sufficiently captures the credit behavior and other characteristics of the targeted borrowers. These loans include retail loans, loans to micro and small enterprises, microfinance loans and unsecured small business loans, and consumer loans (i.e., housing loans, car or auto loans, loans for the purchase of appliance and furniture and fixtures, loans for payment of educational and hospital bills, salary loans and loans for personal consumption, including credit card loans). Risks for these types of portfolio are generally measured at portfolio level.
- c. *Other credit risk measurement/methodologies.* FIs may likewise adopt other appropriate credit risk measurement methodologies/models to estimate expected losses from credit portfolio.
- d. *Validation of internal rating systems.* Validation is a process to assess the performance of risk component measurement systems consistently and meaningfully, to ensure that the realized risk measures are within an expected range. It not only increases the reliability of a model, but also promotes improvements and a clearer understanding of a model's strengths and weaknesses among management and user groups.

FIs shall establish comprehensive policies and procedures on effective validation of the rating system (e.g. review of model design/developmental evidence, backtesting, benchmarking and assessment of the discriminatory power of the ratings) and rating process (e.g. review of data quality, internal reporting, problem handling and how the rating system is used by the credit officers). This shall be adequately documented and results reported to appropriate levels of the FI. The process shall likewise be subject to periodic review by qualified, independent individuals.

Moreover, FIs shall periodically conduct back-testing in evaluating the quality of their credit risk assessment models and establish internal tolerance limits for differences between expected and actual outcomes and processes for updating limits as conditions warrant. The policy shall also include remedial actions to be taken when risk tolerances are exceeded.

- e. *Stress testing.* When appropriate, an FI shall conduct stress testing and scenario analysis of its credit portfolio including off-balance sheet exposures, both at an individual and group levels to assess the impact of market dislocations and changes in economic conditions or key risk factors on its profile and earnings.
 - (1) Whether stress tests are performed manually, or through automated modeling techniques, FIs shall ensure that:
 - (a) Policies and processes –
 - (i) Are adequate and clearly documented, rational, easily understood and approved by the board and senior management; and
 - (ii) Includes methodology for constructing appropriate and plausible single and multi-factor stress tests, and possible events, scenarios, or future changes in economic conditions that could have adverse impact on credit exposures, and assess the FI's ability to withstand such changes;
 - (b) The inputs are reliable and relate directly to the subject portfolios;
 - (c) The process includes frequency of test and procedures for convening periodic meetings to identify the principal risk factors affecting the portfolio, setting loss limits and the authority for setting these limits, and monitoring stress loss limits;
 - (d) Assumptions are well documented and conservative;
 - (e) Models (if any) are subject to a comprehensive validation process;
 - (f) Exceptions to limits and stress testing results are reported to the senior management and board of directors for appropriate remedial actions; and
 - (g) Results are discussed and actions and resolutions are made arising from the discussion.
 - (2) The linkages between different categories of risk that are likely to emerge in times of crisis shall be fully identified. In case of adverse circumstances, there may be a substantial correlation of various risks, especially credit, liquidity, and market risk.
- f. FIs shall develop a contingency plan for scenarios and outcomes that involve credit risk in excess of the FI's established risk tolerances. This plan may include increasing monitoring, limiting portfolio growth, and hedging or exit strategies for both significant individual transactions and key portfolio segments.

Credit risk management information and reporting systems. FIs shall render accurate, reliable and timely information and reports. Thus, adequate management information and reporting systems shall be in place to identify and measure credit risk inherent in all on- and off-balance sheet activities and ensure the overall effectiveness of the risk management process. The information generated from such systems shall enable the board and all levels of management to fulfill their respective oversight roles, including determining the level of capital commensurate with the credit risk exposure of the FI.

- a. At a minimum, an effective management information system (MIS) shall enable FIs to:
 - (1) Provide adequate information on the quality and composition of the credit portfolio (including off-balance sheet accounts);
 - (2) Determine accurately the level of credit risk exposures of an FI through its various activities (e.g. renewal and extension of loans, collection process, status of delinquent accounts, write-offs, provisioning, among others);
 - (3) Timely identify and monitor credit risk concentrations, exposures approaching risk limits, exceptions to credit risk limits and overrides to ensure that policy and underwriting deviations as well as breaches and other potential problems are promptly reported to the board and management for appropriate corrective action;
 - (4) Aggregate credit exposures to individual borrowers and counterparties as well as to a group of accounts under common ownership or control;
 - (5) Permit additional analysis of the credit portfolio, including stress testing; and
 - (6) Maintain a database for research and use of analytical techniques, report exposures, track quality and account performances, and maintain limits.
- b. The credit policy shall clearly define the types of information and reports to be generated, frequency of reporting, deadline of submission, and the users/recipients of and personnel responsible for the preparation of such information and reports.
- c. FIs shall provide sufficient controls to ensure integrity of the MIS. Reports shall be periodically reviewed to ensure adequacy of scope and reliability and accuracy of the information generated. Internal audit shall also periodically assess the controls over MIS.

Credit monitoring. FIs shall develop and implement comprehensive processes, procedures and information systems to effectively monitor the condition and quality of individual credits and group of credits across the FIs' various portfolios. These shall include criteria that identify and report problem credits to reasonably assure that they are appropriately monitored as well as administered and provided for.

- a. The system shall be able to, among others, provide measures to ensure that the board and management are kept informed of the current financial condition of the borrower and the various credit portfolios; loan covenants are consistently adhered to; cash flow projections meet repayment requirements; prudential and internal limits are not exceeded; portfolios are stress-tested; and potential problem credits and other transactions are identified. Exceptions, breaches and potential problems noted shall be promptly reported to management for corrective action, possible classification and/or provisioning and more frequent monitoring.
- b. Personnel or unit assigned to monitor, on an ongoing basis, credit quality and underlying physical collateral and financial guarantees shall ensure that relevant information is communicated to those personnel or unit assigned to provide internal credit risk ratings.
- c. FIs shall perform post-validation of the actual use of funds to determine that credits were drawn down for their intended purposes. Should funds be diverted for purposes other than what has been applied for and approved, the FI shall immediately re-evaluate its approval or if necessary terminate the credit accommodation and demand immediate repayment of the obligation.
- d. FIs shall monitor individual and aggregate exposures against prudential and internal limits on a regular basis. Large exposures shall be subject to more intensive monitoring.
- e. FIs shall develop a system that allows monitoring of asset quality indicators (e.g. non-performing loans, collateral values, etc.) and trends in loan growth to identify potential weaknesses in the portfolio.

IV. Maintaining an Appropriate Credit Control Process

Credit review process.

- a. FIs shall implement an independent and objective credit review process to determine that credits are granted in accordance with the FI's policies; assess the overall asset quality, including appropriateness of classification and

adequacy of loan-loss provisioning; determine trends; and identify problems (e.g., risk concentration, risk migration, deficiencies in credit administration and monitoring processes).

- b. FIs may employ an appropriate sampling methodology to determine the scope of credit review. At a minimum, credit review shall be conducted on all individual obligors with substantial exposures, and on a consolidated group basis to factor in the business connections among related entities in a borrowing group. Credit review for credits that are similar in purpose or risk characteristics may be performed on a portfolio basis. The portfolio sample selected for review shall provide reasonable assurance that all major credit risk issues have been assessed and valid conclusions can be drawn. Moreover, sampling methodology shall be documented and periodically reviewed to ensure its quality and minimize bias.
- c. Credit review shall also evaluate credit administration function and ensure that credit files are complete and updated, and all loan approvals and other necessary documents have been obtained.
- d. Credit reviews shall be performed at least annually, and more frequently for substantial exposures, new accounts and classified accounts. Assessments shall be promptly discussed with the officers responsible for the credit activities and escalated to senior management.
- e. Results of the credit review shall be promptly reported to the board of directors or the appropriate board-level committee for their appropriate action. The board shall mandate and track the implementation of corrective action in instances of unresolved deficiencies and breaches in policies and procedures. Deficiencies shall be addressed in a timely manner and monitored until resolved/corrected.

Credit classification and provisioning¹

- a. *Classification of loans and other credit accommodations²*. FIs shall have in place a reliable credit classification system to promptly identify deteriorating credit exposures and determine appropriate allowance for credit losses. Classification can be done on the basis of internal credit risk rating system, including payment delinquency status. All credit classifications, not only those reflecting severe credit deterioration, shall be considered in determining the appropriate allowance for credit losses.
- (1) All FIs shall map their classification of loans and other credit accommodations against the regulatory classification criteria provided below. However, FIs are encouraged and not precluded from using additional criteria appropriate to their internal credit risk rating system provided they are consistent with the regulatory classification as follows:
- (a) *Pass*. These are loans and other credit accommodations that do not have a greater- than-normal credit risk. The borrower has the apparent ability and willingness to satisfy his obligations in full and therefore no loss in ultimate collection is anticipated.
 - (b) *Especially Mentioned (EM)*. These are loans and other credit accommodations that have potential weaknesses that deserve management's close attention. If left uncorrected, these weaknesses may affect the repayment of the loan. Some degree of structural weakness may be found in virtually any aspect of the loan arrangement or type of loan, and the presence of one (or more) need not be indicative of an overall credit weakness deserving criticism. Instead, the FI must evaluate the relative importance of such factors in the context of the borrower's overall financial strength, the condition of the borrower's industry or market, and the borrower's total relationship with the FI. Basic characteristics include, but are not limited to, any of the following:
 - (i) Deficiencies in underwriting, documentation, structure and/or credit administration that can compromise an FI's ability to control credit relationship if economic or other events adversely affect the borrower;
 - (ii) Continuous renewal/extension without reduction in principal, except when the capacity to pay of the borrower has been clearly re-established;
 - (iii) Adverse economic or market conditions, that in the future may affect the borrower's ability to meet scheduled repayments. Loans and other credit accommodations affected by these characteristics may retain the EM classification in the next examination should the same adverse conditions persist: *Provided*, That the loans remain current; or
 - (iv) Intermittent delays or inadequate repayment of principal, interest or periodic amortizations of loans and other credit accommodations granted by the FI or by other FIs, where such information is available.

¹ See Appendix 92 on Regulatory Relief for Banks Affected by Calamities.

² Other credit accommodations include other credits such as accounts receivables, sales contract receivables, accrued interest receivables and advances.

- (c) *Substandard*. These are loans and other credit accommodations that have well-defined weakness(es), that may jeopardize repayment/liquidation in full, either in respect of the business, cash flow or financial position, which may include adverse trends or developments that affect willingness or repayment ability of the borrower. Basic characteristics include any of the following:
 - (i) Weak financial condition and results of operation that leads to the borrower's inability to generate sufficient cash flow for debt servicing, except for start-up firms which shall be evaluated on a case-to-case basis;
 - (ii) Past due secured loans and other credit accommodations where properties offered as collateral have been found with defects as to ownership or with other adverse information;
 - (iii) Breach of any key financial covenants/agreements that will adversely affect the capacity to pay of the borrower; or
 - (iv) Classified "Especially Mentioned" as of the last credit review without adequate corrective action.
- (d) *Doubtful*. These are loans and other credit accommodations that exhibit more severe weaknesses than those classified as "Substandard", whose characteristics on the basis of currently known facts, conditions and values make collection or liquidation highly improbable, however the exact amount remains undeterminable as yet. Classification as "Loss" is deferred because of specific pending factors which may strengthen the assets. Some basic characteristics include any of the following:
 - (i) Secured loans and other credit accommodations where properties offered as collateral are either subject to an adverse claim rendering settlement of the loan through foreclosure doubtful or whose values have materially declined without the borrower offering additional collateral for the loan/s to cover the deficiency; or
 - (ii) Loans and other credit accommodations wherein the possibility of loss is extremely high but because of certain important and reasonable pending factors (i.e., merger, acquisition, or liquidation procedures, capital infusion, perfecting liens on additional collateral, and refinancing plans) that may work to the advantage and strengthening of the asset, its classification as an estimated loss is deferred until the next credit review.
- (e) *Loss*. These are loans and other credit accommodations which are considered uncollectible or worthless and of such little value that their continuance as bankable assets is not warranted although the loans may have some recovery or salvage value. This shall be viewed as a transitional category for loans and other credit accommodations which have been identified as requiring write-off during the current reporting period even though partial recovery may be obtained in the future. Their basic characteristics include any of the following:
 - (i) When the borrower's and co-makers'/guarantors' whereabouts are unknown, or they are insolvent, or their earning power is permanently impaired; or
 - (ii) Where the collaterals securing the loans are without recoverable values.
- (2) *Split classification* may apply for non-performing secured loans and other credit accommodations, depending on the recoverability and liquidity of the collateral. The secured portion may be classified as "substandard" or "doubtful", as appropriate, while the unsecured portion shall be classified "loss" if there is no other source of payment other than the collateral.
- (3) In the case of syndicated loans, each participating FI shall maintain credit information on the borrower, and grade and make provision for its portion of the syndicated loan in accordance with the requirements of these guidelines. The lead FI shall provide participating FIs with the credit information on the borrower upon request by the participating FI and inform the latter if the loan will be classified so as to achieve uniform classification of the syndicated loan.
- (4) FIs may upgrade a classified loan or restore it to a pass rating: *Provided*, That it does so on the basis of a written policy on the upgrading of classification or rating and the credit review function is reliable and effective. Such policy shall include a comprehensive analysis of the repayment capability/financial strength of the borrower and the corrective actions made on the weaknesses noted to support the upgrade in classification. Upgrading may be supported by the following developments:
 - (a) When all arrears or missed payments on principal and interests including penalties have been cleared rendering the account to be fully compliant with the original terms of the loan;
 - (b) Upon establishing that the weaknesses were substantially addressed and that the borrower has exhibited a sustained trend of improvement and willingness and capability to fully pay its loans and advances in a timely manner to justify the upgrade;

- (c) Offering of new or additional collateral security; or
- (d) In the case of restructured loans, the classification shall only be upgraded after establishing a satisfactory track record of at least six (6) consecutive payments of the required amortization of principal and interest, or until the borrower has sufficiently exhibited that the loan will be fully repaid (continued collection in accordance with the terms of the loans is expected) and the loan meets the criteria of lower loan classification.

b. *Loan Loss Estimation Methodology, Provisioning and Allowance for Credit Losses*

- (1) All FIs shall develop and document a sound loan loss methodology that can reasonably estimate provisions for loans and other credit accommodations and risk assets in a timely manner, using their experience and research and this guidance to ensure that the specific and collective allowance for credit losses¹ (ACL) are adequate and approximates the expected losses in their credit portfolio.

An FI's loan loss methodology shall consider the following:

- (a) Written policies and procedures for the credit risk systems and controls inherent in the methodology, including roles and responsibilities of the FI's board of directors and senior management;
- (b) A detailed analysis of the entire loan portfolio, including off-balance sheet facilities, performed on a regular basis;
- (c) A realistic view of its lending activities and adequately consider uncertainty and risks inherent in those activities in preparing accounting information. Loan accounting policies and practices shall be selected and applied in a consistent way that reasonably assures that loan and loan loss provision information is reliable and verifiable;
- (d) Identification of loans to be evaluated individually and segmentation of the remaining portfolio into groups of loans with similar credit risk characteristics for collective assessment.
- (i) *Individually assessed loans.* FIs shall establish a materiality threshold for significant credit exposures that will warrant an individual assessment, which threshold shall be regularly reviewed.

The loan loss estimates shall reflect consideration of the facts and circumstances that affect the repayment of each individual loan as of the evaluation date. The following factors are relevant in estimating loan losses for individually assessed loans:

- (aa) Significant financial difficulty of the borrower;
- (bb) Probable bankruptcy or other financial reorganization of the borrower;
- (cc) Breach of contract, such as a default or delinquency in interest or principal payments; or
- (dd) Concession granted by the FI, for economic or legal reasons relating to the borrower's financial difficulty, which would not otherwise be considered.

The methodology shall include procedures describing the determination and measurement of the amount of any impairment, the impairment measurement techniques available and steps performed to determine which technique is most appropriate in a given situation.

- (ii) *Collectively assessed loans.* FIs may use different methods to group loans for the purpose of assessing credit risk and valuation. More sophisticated credit risk assessment models or methodologies for estimating expected future cash flows, including credit risk grading processes, may combine several of the following characteristics: loan type, product type, market segment, estimated default probabilities or credit risk grading and classification, collateral type, geographical location and past-due status.

Estimated credit losses shall reflect consideration of the FI's historical net charge-off rate² of the groups, adjusted for changes in trends, conditions and other relevant factors that affect repayment of the loans in these groups as of the evaluation date, and applied consistently over time;

- (e) Methods used to determine whether and how loans individually evaluated, but not considered to be individually impaired, shall be grouped with other loan (excluding individually assessed loans that are impaired) that share similar credit risk characteristics for collective impairment evaluation;
- (f) The quality and net realizable values of physical collateral and other financial guarantees and credit risk mitigants incorporated in the loan agreement, where applicable;

¹ ACL represents the aggregate amount of individual and collectively assessed probable credit losses.

² The historical net charge-off rate is generally based on the annualized historical gross loan charge-offs, less recoveries, recorded by the FI.

- (g) Address the methods used to validate models for credit risk assessment;
- (h) The analyses, estimates, reviews and other provisioning methodology functions shall be performed by competent and well-trained personnel and be well documented, with clear explanations of the supporting analyses and rationale; and
- (i) *Use experienced credit judgment.* Assessment of expected losses shall not be based solely on prescriptive rules or formula but must be enhanced with experienced credit judgment by the appropriate levels of management¹ in as much as historical loss experience or observable data may be limited or not fully relevant to current circumstances. However, the scope for actual discretion shall be prudently within the following constraints:
 - (i) Experienced credit judgments shall be subject to established policies and procedures;
 - (ii) With approved and documented analytical framework for assessing loan quality applied consistently over time;
 - (iii) Estimates shall be based on reasonable and verifiable assumptions and supported by adequate documentation; and
 - (iv) Assumptions concerning the impact on borrowers of changes in general economic activity, both favorable and unfavorable, shall be made with sufficient prudence.

The method of determining loan loss provisions shall reasonably assure the timely recognition of loan losses. While historical loss experience and recent economic conditions are a reasonable starting point for the institution's analysis, these factors are not, by themselves, sufficient basis to determine the appropriate level of aggregate loan loss provisions. Management shall also consider any current factors that are likely to cause loan losses to differ from historical loss experience, including changes in the following:

- Lending policies and procedures, including underwriting standards and collection, charge-off, and recovery practices;
- International, national and local economic and business conditions and developments, including the condition of various market segments;
- Trend, volume and severity of past due loans and loans graded as low quality, as well as trends in the volume of impaired loans, troubled debt restructurings and other loan modifications;
- The experience, ability, and depth of lending management and staff;
- Changes related to new market segments and products;
- Quality of the FI's loan review system and the degree of oversight by senior management and board of directors;
- The existence and effect of any concentrations of credit, and changes in the level of such concentrations; and
- Credit risk profile of the loan portfolio as a whole as well as the effect of external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the FI's current portfolio.

Experienced credit judgment shall also be used to determine an acceptable period that will yield reliable historical loss rates as loss rate periods shall not be restricted to a fixed time period to determine the average historical loss experience for any group of loans with similar credit risk characteristics. An FI shall maintain sufficient historical loss data over a full credit cycle to provide robust and meaningful statistical loan loss estimates for establishing the level of collective impairment losses for each group of loans with similar credit risk characteristics. When applying experienced credit judgment, an FI shall provide a sound rationale for excluding any historical loss data that is deemed not representative of the performance of the portfolio.

- (2) FIs with credit operations that may not economically justify a more sophisticated loan loss estimation methodology or whose practices fell short of expected standards shall, at a minimum, be subject to the regulatory guidelines in setting up allowance for credit losses prescribed in *Appendix 15: Provided*, That the FIs notify the appropriate supervising department of the Bangko Sentral of this preference. Nevertheless, such FIs shall still use experienced credit judgment, subject to the criteria prescribed in this Section, in determining the ACL.
- (3) FIs shall set up general loan loss provision equivalent to one percent (1%) of the outstanding balance of individually and collectively assessed loans for which no specific provisions are made and/or for which the estimated loan losses are less than one percent (<1%), less loans which are considered non-risk under existing laws, rules and regulations.
- (4) FIs shall ensure the adequacy of the individual and collective ACL for the entire loan portfolio. They shall have a policy for the regular review of the ACL, which shall be conducted at least semi-annually after considering

¹ There may be instances when no adjustments are needed to the data in the recognition and measurement of loan losses because the data are consistent with current conditions.

results of the credit review, level of classified loans, delinquency reports, historical losses and market conditions. Failure to make adequate provisions for estimated future losses results in material misrepresentation of an FI's financial condition.

Credit workout and remedial management of problem credits. FIs shall develop and maintain a disciplined and vigorous process for the early identification and intervention for potential or existing problem credits. The process shall ensure that timely and adequate management action is taken to maintain the quality of the credit portfolio, prevent further deterioration, and minimize the likelihood of future losses.

- a. *Problem credits* refer to credits that display signs of potential problems and/or well-defined weaknesses such as those not performing according to the terms of the contract, or with credit quality impairment, or deficiencies relating to their approval and/or conduct that are not in keeping with sound and prudent credit policies. These shall include past due loans, non-performing loans and restructured loans.
- b. FIs shall adopt appropriate and cost effective workout, restructuring or remedial management policies, processes and strategies to revive and recover problem credits. The strategies shall take into account the specific condition of the obligor and the FI's interest, and shall be approved by the board of directors or management, in accordance with internal policy.
- c. At a minimum, the policies and strategies shall cover the following areas:
 - (1) authority and responsibilities of officers and staff in managing problem credits;
 - (2) collection strategy to be adopted for different types of loans;
 - (3) restructuring and handling of restructured accounts and/or loans for workout;
 - (4) supervision and monitoring of loan recovery performance;
 - (5) management and disposal of real and other properties acquired (ROPA), including appraisal process;
 - (6) management information system to support the reporting, monitoring and decision making processes;
 - (7) defined timelines and provision for regular monitoring; and
 - (8) other strategies, such as the use of collection agencies, and criteria for hiring a consultant on problem credits.
- d. Restructuring strategies
 - (1) Restructuring may be resorted to for the purpose of lessening the financial difficulty of the obligor towards full settlement of his obligation, and restructuring agreements shall always take into account the borrower's capacity to pay his obligation and available credit enhancements such as financial guarantees and physical collateral. Thus, except in special cases which also require approval by the Monetary Board, such as loans funded by foreign currency obligations, FIs shall have full discretion on whether to restructure loans in order to provide flexibility in arranging the repayment of such loans without impairing or endangering the FI's interest.
 - (2) Accounts shall not be restructured unless the financial capacity of the obligor to repay has been re-established, the events or crises that triggered the financial stress had been identified, and the nature and extent of protection of the FI's exposure had been determined, to justify the need for restructuring.
 - (3) At a minimum, the classification and provisioning of a loan, prior to the execution of the restructuring agreement shall be retained until the borrower has sufficiently exhibited that the loan will be fully repaid.
 - (4) A second restructuring of a loan shall be allowed only if there are reasonable justifications: *Provided*, That it shall be considered a non-performing loan and classified, at least, "*Substandard*". The restoration to a performing loan status and/or upgrading of loan classification, e.g., from "*Substandard*" to "*Especially Mentioned*", may be allowed if circumstances warrant an upgrading in accordance with this Section.
 - (5) When restructuring of exposures to DOSRI and other related parties is pursued, this shall be upon terms not less favorable to the FI than those offered to others and shall be approved by the board, excluding the concerned director.
 - (6) Physical collaterals offered, such as real estate, shall be appraised by an independent appraisal company (not a subsidiary or an affiliate of the FI) acceptable to the Bangko Sentral at the time of restructuring and every year thereafter to ensure that current market values are being used. A credit exposure benchmark of P1.0 million for simple FIs and P5.0 million for all other FIs shall be observed, such that physical collaterals for credit exposures beyond this amount will require an independent appraisal.
- e. Problem credits, including restructured accounts, shall be subjected to more frequent review and monitoring. Regular reports on the status of loan accounts and progress of any remedial plan shall be submitted to senior management to facilitate an informed decision whether escalated remedial actions are called for.

Writing off problem credits. Policies for writing off problem credits must be approved by the board of directors in accordance with defined policies, and shall incorporate, at a minimum, well-defined criteria (i.e., circumstances, conditions

and historical write-off experience) under which credit exposures may be written off. Procedures shall explicitly narrate and document the necessary operational steps and processes to execute the policies.

Policies and procedures shall be periodically reviewed and if necessary, revised in a timely manner to address material internal changes (e.g., change in business focus) or external circumstances (e.g., changes in economic conditions).

FIs shall write off problem credits, regardless of amount, against ACL or current operations within a reasonable period as soon as such problem credits are determined to be worthless as defined in the FIs' written policies. However, problem credits to DOSRI shall be written off only upon prior approval of the Monetary Board.

Policies shall define and establish the reasonable period of time within which to write off loans already classified as "Loss". There shall be no undue delay in implementing write-offs. Notice of write-off of problem credits shall be submitted in the prescribed form to the appropriate supervising department of the Bangko Sentral within thirty (30) business days after every write-off with a sworn statement signed by the President of the FI or officer of equivalent rank that write-off did not include transactions with DOSRI and was undertaken in accordance with board-approved internal credit policy.

An effective monitoring and reporting system shall be in place to monitor debts written off and future recoveries. Progress on recovery shall be periodically reported to the board and senior management. A database of loan accounts written off shall be maintained and must be periodically reviewed for updates on individual loan obligor's information.

Enforcement actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to standards and principles set forth in these guidelines, bring about timely corrective actions and compliance with Bangko Sentral directives and ensure that FIs continuously observe the said standards. Persistent non-observance of the provisions of Sec. 143, which may lead to material misstatement of the financial condition or illiquidity of the FI, may be a ground for declaration of unsafe or unsound banking under Section 56 of R.A. No. 8791 and subject the FI to appropriate sanctions.

Enforcement actions shall be based on a holistic assessment to determine if FIs adopt appropriate risk management practices and maintain capital commensurate with the risk assumed based on existing rules and regulations. These may include, but are not limited to, the following:

- a. **Corrective actions.** These are measures intended to primarily require FIs to rectify any deviations from the standards and principles expected in the conduct of its credit risk-taking activities to address the negative impact of such deviation. Corrective actions generally include issuance of specific directives to address supervisory concerns within a reasonable timeframe.
- b. **Sanctions.** The Monetary Board may impose sanctions on an FI and/or its board, directors and officers, as provided under existing laws, Bangko Sentral rules and regulations proportionate to the gravity/seriousness of offense.
- c. **Other enforcement actions.** Subject to prior Monetary Board approval, the Bangko Sentral, when warranted, may deploy other enforcement actions such as:
 - (1) Initiation into the prompt corrective action (PCA) framework whenever grounds for PCA exist;
 - (2) Issuance of cease and desist order (CDO) in case of persistence of unsafe or unsound banking and/or violation of any banking law or any order, instruction or regulation issued by the Monetary Board or any order, instruction or ruling issued by the Governor;
 - (3) Additional capital infusion in case hazardous lending practices resulted in excessive provisions for credit losses leading to capital deficiency;
 - (4) Requiring the FI to gross up the amount of required allowance for credit losses based on the examination of a representative sample of loans, if in the course of the Bangko Sentral examination, a high incidence of non-reporting/concealment of past due and/or problem loans is noted; or
 - (5) Other appropriate non-monetary enforcement actions that the Monetary Board may impose.

(M-2015-039 dated 04 November 2015, Circular No. 890 dated 02 November 2015, M-2015-035 dated 07 October 2015, M-2015-009 dated 28 January 2015, and M-2015-005 dated 20 January 2015)

144 MARKET RISK MANAGEMENT

Policy Statement. The Bangko Sentral recognizes that developments in financial products and markets take place rapidly and that banks may engage in such products and markets in various roles, such as that of an investor or a market-maker. In this regard, the Bangko Sentral expects banks to implement a comprehensive approach to risk management that ensure timely and effective identification, measurement, monitoring and control of market risks. Market risk should be reviewed together with other risks to determine a BSFI's overall risk profile.

General Principles

The requirements for sound market risk management under these guidelines apply to the trading book exposures of all banks. Before transacting in financial markets or instruments or implementing any financial structure or strategy, a bank shall ensure that:

- a. It has the necessary authority to engage in such activities;
- b. The board, management and risk-taking units possess relevant knowledge, expertise and/or experience;
- c. Adequate policies, processes, and systems are in place to effectively identify, measure, monitor, and control the attendant risks under both normal and stressed conditions; and
- d. An appropriate level of capital is held to support these activities.

A bank shall ensure that the market risk management system is integrated into its overall risk management framework.

Market Risk Management Process

A bank's market risk management process should be consistent with its general risk management framework and should be commensurate with the level of risk assumed. Although there is no single market risk management system that works for all banks, a bank's market risk management process should:

- a. *Identify Market Risk.* Identifying current and prospective market risk exposures involves understanding the market risk arising from a bank's existing and new business initiatives. A bank should have procedures in place to identify and address the risk posed by new products and activities prior to initiating the new products or activities.

Identifying market risk also includes identifying bank's desired level of risk exposure based on its ability and willingness to assume market risk. A bank's ability to assume market risk depends on its capital base and the skills/capabilities of its management team. In any case, market risk identification should be a continuing process and should occur at both the transaction and portfolio level.

- b. *Measure Market Risk.* Once the sources and desired level of market risk have been identified, market risk measurement models can be applied to quantify a bank's market risk exposures. However, market risk cannot be managed in isolation. Market risk measurement systems should be integrated into the bank's general risk measurement system and results from models should be interpreted alongside other risk exposures. Further, banks with more complex financial market activities should have more sophisticated tools to measure market risk exposures arising from such activities.
- c. *Control Market Risk.* Quantifying market risk exposures helps a bank align existing exposures with the identified desired level of exposures. Controlling market risk usually involves establishing market risk limits that are consistent with a bank's market risk measurement methodologies. Limits may be implemented through an outright prohibition on exposures above a pre-set threshold, by restraining activities or deploying strategies that alter the risk-return characteristics of on- and off-balance sheet positions. Appropriate pricing strategies may likewise be used to control market risk exposures.
- d. *Monitor Market Risk.* Ensuring that market risk exposures are adequately controlled requires the timely review of market risk positions and exceptions. Monitoring reports should be frequent, timely and accurate. For large, complex banks, consolidated monitoring should be employed to ensure that management's decisions are implemented for all geographies, products, and legal entities.

Definition and Sources of Market Risk

Market risk is the risk to earnings or capital arising from adverse movements in factors that affect the market value of instruments, products, and transactions in an institution's trading book portfolio, both on- and off-balance sheet. Market risk arises from market-making, dealing, or position-taking in instruments and structures, or through strategies that are sensitive to movements in interest rates, foreign exchange rates, credit spreads, and equities and commodities prices.

Interest rate risk is the current and prospective risk to earnings or capital arising from movements in interest rates.

Foreign exchange (FX) risk refers to the risk to earnings or capital arising from adverse movements in foreign exchange rates.

Credit spread risk refers to the risk to earnings or capital arising from changes in the credit risk premia of financial instruments.

Equity risk is the risk to earnings or capital arising from movements in the value of an institution's equity-related holdings.

Commodity risk is the risk to earnings or capital due to adverse changes in the value of an institution's commodity-related holdings.

Sound Market Risk Management Practices and Market Risk Management Framework

A sound market risk management system should cover the following basic elements:

- a. Active and appropriate board and senior management oversight;
- b. Adequate risk management policies and procedures;
- c. Appropriate risk measurement methodologies, limits structure, monitoring and management information systems; and
- d. Comprehensive internal controls and independent audits.

The specific manner in which a bank applies these elements in managing its market risk shall depend upon the complexity and nature of its activities, as well as the level of market risk exposure assumed. What constitutes adequate market risk management practices may therefore vary considerably.

Banking groups (banks and their subsidiaries/affiliates) should monitor and manage market risk exposures on a consolidated and comprehensive basis. At the same time, however, banks should fully recognize any legal distinctions and possible obstacles to risk transfers among affiliates and adjust their risk management practices accordingly. While consolidation may provide a comprehensive measure in respect of market risk, it may also underestimate risk when positions in one affiliate are used to offset positions in another affiliate. This is because a conventional accounting consolidation may allow theoretical offsets between such positions from which a bank may not in practice be able to benefit because of legal or operational constraints. The potential linkages of the bank's trading positions with other risks such as IRRBB, liquidity risk, credit risk and operational risk must be sufficiently understood. For instance, when engaging in FX trading, banks may also be exposed to other risks such as liquidity and credit risks related to the settlement of FX contracts. An integrated approach to risk management shall ensure that the interlinkages of risks are adequately managed.

(1) Active and appropriate board and senior management oversight

Effective board and senior management oversight of a bank's market risk activities is critical to a sound market risk management process. It is important that the board and senior management are aware of their responsibilities with regard to market risk management and understand how market risk fits within the organization's overall risk management framework.

Responsibilities of the board of directors

The board of directors has the ultimate responsibility for understanding the nature and the level of market risk taken by the bank. In order to carry out its responsibilities, the board shall:

- (a) Approve business strategies for the trading book and establish the bank's appetite for market risk. There should be a clear pattern of board reviews, discussions and deliberations on the objectives, strategies and policies with respect to market risk management. In addition, there should be documentary evidence of such.
- (b) Identify senior management with the authority and responsibility for managing market risk and ensure that they take the necessary steps to monitor and control market risk, consistent with the approved strategies and policies. The Bangko Sentral should be able to discern a clear hierarchal structure with straightforward assignments of responsibility and authority.
- (c) Monitor the bank's performance and overall market risk profile, ensuring that the level of market risk is maintained within tolerance and at prudent levels, and supported by adequate capital. The board should be regularly informed of the market risk exposure of the bank and any breaches of established limits for their appropriate action. Reports should be timely and clearly presented. In assessing a bank's capital adequacy relative to market risk, the board should consider the bank's current and potential market risk exposure.
- (d) Ensure that the bank implements sound fundamental principles that facilitate the identification, measurement, monitoring and control of market risk. The board of Directors should encourage discussions among its members and senior management, as well as between senior management and others in the bank, regarding the bank's market risk exposures and management process.
- (e) Ensure that adequate technical and human resources, are devoted to market risk management. While not all board members are expected to have detailed technical knowledge of complex financial instruments, legal issues or sophisticated risk management techniques, they have the responsibility to ensure that they understand the risks that the bank is exposed to and that there are personnel who have the necessary technical skills to evaluate and control market risk. This responsibility includes ensuring that personnel responsible for the management of market risk receive continuous training and that the internal audit function has adequate competent technical staff.

Responsibilities of senior management

Senior management is responsible for ensuring that market risk is adequately managed on both a long-term and day-to-day basis. In managing the bank's activities, senior management shall:

- (a) Develop and implement policies, procedures and practices that translate the board's goals, objectives and risk tolerances into operating standards that are well understood by personnel and that are consistent with the board's intent. Senior management should also periodically review the organization's market risk management policies and procedures to ensure that they remain appropriate and sound.
- (b) Ensure adherence to the lines of authority and responsibility that the board has established for measuring, managing, and reporting market risk exposures.
- (c) Maintain an appropriate limits structure, adequate systems for measuring market risk, and standards for measuring performance.
- (d) Oversee the implementation and maintenance of management information and other systems to identify, measure, monitor, and control the bank's market risk.
- (e) Establish effective internal controls over the market risk management process.
- (f) Ensure that adequate resources are available for evaluating and controlling market risk. Senior management of banks, including branches of foreign banks, should ensure that analysis and market risk management activities are conducted by competent staff with technical knowledge and experience consistent with the nature and scope of the bank's activities. There should be sufficient depth in staff resources to manage these activities and to accommodate the temporary absence of key personnel and the normal succession process.

In evaluating the quality of oversight, the Bangko Sentral shall evaluate how the board and senior management carry out the above functions/responsibilities. Further, sound management oversight is highly related to the quality of other areas/elements of bank's risk management system. Thus, even if board and senior management exhibit active oversight, the bank's policies, procedures, measurement methodologies, limits structure, monitoring and information systems, controls and audit must be considered adequate before the quality of the board and senior management can be considered at least "satisfactory."

Lines of responsibility and authority

Banks should clearly define the individuals and/or committees responsible for managing market risk and should ensure that there is adequate separation of duties in key elements of the risk management process to avoid potential conflicts of interest.

Management should ensure that sufficient safeguards exist to minimize the potential that individuals initiating risk-taking positions may inappropriately influence key control functions of the market risk management process. Banks should therefore have risk measurement, monitoring, and control functions with clearly defined duties that are sufficiently independent from position-taking functions of the bank and which report risk exposures directly to the board of directors.

The nature and scope of safeguards to minimize potential conflicts of interest should be in accordance with the size and structure of a bank. Larger or more complex banks should have a designated independent unit responsible for the design and administration of the bank's market risk measurement, monitoring and control functions.

(2) Adequate risk management policies and procedures

A bank's market risk policies and procedures should be clearly defined, documented and duly approved by the board of directors. Policies and procedures should be consistent with the nature and complexity of the bank's activities. All market risk policies should be reviewed at least annually and revised as needed. Management should likewise define the specific procedures to be used for identifying, reporting and approving exceptions to policies, limits, and authorizations.

Policies and procedures should delineate lines of responsibility and accountability and should clearly define authorized instruments, hedging strategies, position-taking opportunities, and the market risk models used to quantify market risk. Market risk policies should also identify quantitative parameters that define the acceptable level of market risk for the bank. Where appropriate, limits should be further specified for certain types of instruments, portfolios, activities and business units/desks. Banks are likewise expected to implement sound policies and processes for allocating exposures between the trading and banking books.

It is important that banks identify market risk, as well as other risks, inherent in new products and activities and ensure these are subject to adequate procedures and controls prior to introduction. Specifically, new products

and activities should undergo a careful pre-acquisition review to ensure that the bank understands their market risk characteristics and can incorporate them into its risk management process. Major hedging or risk management initiatives should be approved in advance by the board or its appropriate delegated committee.

Proposals and the subsequent new product/activity review should be formal and written. For purposes of managing market risk inherent in new products/activities, proposals should, at a minimum, contain the following features:

- (a) Description of the relevant product or strategy;
 - (b) Use/purpose of the new product/activity;
 - (c) Identification of the resources required and unit/s responsible for establishing sound and effective market risk management of the product or activity;
 - (d) Analysis of the reasonableness of the proposed products or activities in relation to the bank's overall financial condition and capital levels; and
 - (e) Procedures to be used to measure, monitor, and control the risks of the proposed product or activity.
- (3) Appropriate risk measurement methodologies, limits structure, monitoring, and management information system

Market risk measurement models/methodologies

It is essential that banks have market risk measurement systems that capture all material sources of market risk and assess the effect of changes in market risk factors in ways that are consistent with the scope of their activities.

Depending upon the size, complexity, and nature of activities that give rise to market risk, the ability to capture all material sources of market risk in a timely manner may require a bank's market risk measurement system to be interfaced with other systems, such as the treasury system or loan system. The assumptions underlying the measurement system should be clearly understood by risk managers and senior management.

Market risk measurement systems should:

- (a) Assess all material market risk associated with a bank's assets, liabilities, and off-balance sheet positions;
- (b) Utilize generally accepted financial concepts and risk measurement techniques; and
- (c) Have well-documented assumptions and parameters.

There are a number of methods/techniques for measuring market risks. Complexity ranges from simple marking-to-market or valuation techniques to more advanced static simulations using current holdings to highly sophisticated dynamic modeling techniques that reflect potential future business activities. In designing market risk measurement systems, banks should ensure that the degree of detail regarding the nature of their positions is commensurate with the complexity and risk inherent in those positions. For example, simple banks should have the ability to regularly mark-to-market or revalue their investment portfolio while complex banks are expected to use more sophisticated techniques.

Regardless of the measurement system used, the Bangko Sentral will expect the bank to ensure that input data are timely and correct, assumptions are adequately supported and valid, the methodologies used produce reasonable results and the results can be easily understood by senior management and the board.

- (a) Model input. All market risk measurement methodologies require various types of inputs, including hard data, readily observable parameters such as asset prices, and both quantitatively and qualitatively-derived assumptions.

The integrity and timeliness of data is a key component of the market risk measurement process. The Bangko Sentral expects that adequate controls will be established to ensure that all material positions and cash flows from on- and off-balance sheet positions are incorporated into the measurement system on a consistent and timely basis. Inputs should be verified through a process that validates data integrity. Assumptions and inputs should be subject to control and oversight review. Any manual adjustments to underlying data should be documented, and the nature and reasons for the adjustments should also be clearly understood.

- (b) Measurement assumptions. Critical to model accuracy is the validity of underlying assumptions, particularly the parameters used in the model. For instance, the validity of correlation assumptions used to aggregate market risk exposures is important as breakdowns in correlations may significantly affect the validity of model results. Key assumptions should therefore be thoroughly documented and subjected to rigorous review prior to their implementation. Any significant changes should likewise be reviewed and approved in advance by the board of directors.

- (c) Model risk governance. The assessment of model risks related to market risk measurement models should be included in a formal policy that is reviewed and approved by the board. The policy should specify management roles and designate the personnel responsible for the development, implementation, use and oversight of models.

The Bangko Sentral expects banks to periodically review or reassess their modeling methodologies and assumptions. The frequency of review will depend on the model, but complex models should be reviewed at least once a year, and each time changes are made or a new product or activity is introduced. Model review could also be prompted by changes in the bank or the market that should be reflected in the model. The review should be performed by a unit that is independent from the one that developed or uses the model. Revisions to models should be performed in a controlled environment by authorized personnel and changes should be made or verified by a control function. Written policies should specify when changes to models are acceptable and how those revisions should be accomplished.

There should likewise be internal policies for key processes such as initial and ongoing validation, results evaluation, approval, version control, exception management, escalation, modification and decommissioning. The model validation framework should enable the bank to evaluate the sensitivity of the model to material sources of model risk. It should incorporate the following elements: (i) the evaluation of methodological soundness, which include tests of internal logic and mathematical accuracy and the development of empirical support for assumptions; (ii) model monitoring, which includes process verification and benchmarking; and (iii) outcome analysis involving the back-testing of key parameters.

Prior to model usage, model inputs, assumptions, methodologies and outputs, including those that were developed by third-party vendors, should be subject to independent validation. The results of the validation exercise should be presented to the board for approval. Subsequently, the model should be subject to periodic review and process verification to ensure the continuing relevance and accuracy of model output.

Backtesting should be conducted by parties independent of those developing or using the model. Policies should address the scope of the back-testing process, frequency of back-testing, documentation requirements, and management responses. Complex models should be back-tested continually while simple models can be back-tested periodically. Significant discrepancies should prompt a model review.

- (d) Stress testing.¹ The underlying statistical models used to measure market risk summarize the exposures that reflect the most probable market conditions. Regardless of size and complexity of activities, FIs are expected to supplement their market risk measurement models with stress tests. Stress tests are simulations that show how a portfolio or balance sheet might perform during extreme events or in highly volatile markets.

Stress testing should be designed to provide information on the kinds of conditions under which the bank's strategies or positions would be most vulnerable. They must therefore be tailored to the risk characteristics of the bank.

In addition, stress scenarios should include conditions under which key business assumptions and parameters break down and should take into account the risk of a significant deterioration in market liquidity. The assumptions used for stress testing illiquid instruments and instruments with uncertain contractual maturities are particularly critical to achieving an understanding of the bank's risk profile. When conducting stress tests, special consideration should be given to instruments or markets where concentrations exist. Banks should consider also "worst case" scenarios in addition to more probable events.

Further, the Bangko Sentral will expect banks with material market risk exposure, particularly from derivatives and/or structured products, to supplement their stress testing with an analysis of their exposure to "interconnection risk." While stress testing typically considers the movement of a single market factor (e.g., interest rates), interconnection risk considers the linkages across markets (e.g., interest rates and foreign exchange rates) and across the various categories of risk (e.g., credit and liquidity risks). For example, stress from one market may transmit shocks to other markets and give rise to otherwise dormant risks, such as liquidity risk. Evaluating interconnection risk involves assessing the total or aggregate impact of singular events.

Guidelines for performing stress testing should be detailed in the risk management policy statement. Management and the board of directors should periodically review the design, major assumptions, and the results of such stress tests to ensure that appropriate contingency plans are in place.

- (e) Reporting. Reports should be provided to senior management and the board as a basis for making decisions. Report content should be clear and straightforward, indicating the purpose of the model, significant limitations, the quantitative level of risk estimated by the simulation, a comparison to board approved limits, and a qualitative discussion regarding the appropriateness of the bank's current exposures relative to earnings and capital as well as market and macroeconomic conditions.

¹ The provisions on stress testing should be read in conjunction with Sec. 151 on the Guidelines on the Conduct of Stress Testing Exercises.

Sophisticated simulations should be used carefully so that they do not become “black boxes” producing numbers that have the appearance of precision but may not be very accurate when their specific assumptions and parameters are revealed.

Market limits structure

The bank’s board of directors should set the institution’s tolerance for market risk and communicate that tolerance to senior management. Based on these tolerances, senior management should establish appropriate risk limits, duly approved by the board, to maintain the bank’s exposure within the set tolerances over a range of possible changes in market risk factors such as interest rates.

Limits represent the bank’s actual willingness and ability to accept real losses. In setting risk limits, the board and senior management should consider the nature of the bank’s strategies and activities, past performance, and management skills. Most importantly, the board and senior management should consider the level of the bank’s earnings and capital and ensure that both are sufficient to absorb losses equal to the proposed limits. Limits should be approved by the board of directors. Furthermore, limits should be flexible to changes in conditions or risk tolerances and should be reviewed periodically.

A bank’s limits should be consistent with its overall approach to measuring market risk. Market risk limits may include limits on net and gross positions, volume limits, stop-loss limits, value-at-risk limits and other limits that capture either notional or (un)expected loss exposures.

Depending on the nature of a bank’s holdings and its general sophistication, limits can also be identified for individual business units, portfolios, instrument types, or specific instruments. The level of detail of risk limits should reflect the characteristics of the bank’s holdings including the various sources of market risk the bank is exposed to.

The Bangko Sentral also expects that the limits system will ensure that positions that exceed predetermined levels receive prompt management attention. Limit exceptions should be communicated to appropriate senior management without delay, and the actions taken to resolve them should be properly documented. Policies should include how senior management will be informed and what action should be taken by management in such cases. Particularly important is whether limits are absolute in the sense that they should never be exceeded or whether, under specific circumstances, breaches of limits can be tolerated for a predetermined short period of time. The circumstances leading to a tolerance of breaches should be clearly described.

Market risk monitoring and reporting

An accurate and timely management information system is essential for managing market risk exposures. Further, an effective information system that aids in the identification, aggregation, monitoring and reporting of risk exposures both helps to inform management and supports compliance with board policy.

Reports detailing the market risk exposure of the bank should be reviewed by the board on a regular basis. While the types of reports prepared for the board and for various levels of management will vary based on the bank’s market risk profile, they should be prepared regularly and at a minimum include the following:

- (a) Summaries of the bank’s aggregate exposures;
 - (b) Reporting of risk measures, with clear comparisons of current exposure to policy limits and past forecasts or risk estimates with actual results, the latter to identify any modeling shortcomings;
 - (c) Summary of key assumptions;
 - (d) Results of stress tests, including those assessing breakdowns in key assumptions and parameters; and
 - (e) Summaries of the findings of reviews of market risk policies and procedures, and the adequacy of the market risk measurement systems, including any findings of internal and external auditors and/or other equivalent external parties.
- (4) Risk controls and audit¹

Adequate internal controls ensure the integrity of a bank’s market risk management process. These internal controls should be an integral part of the institution’s overall system of internal control and should promote effective and efficient operations, reliable financial and regulatory reporting, and compliance with relevant laws, regulations, and institutional policies.

Policies and procedures should specify the approval processes, exposure limits, reconciliations, reviews,

¹ Refer also to Secs. 162 and 163 for the frameworks on Internal Control Framework and Internal Audit, respectively.

and other control mechanisms designed to provide a reasonable assurance that the institution's market risk management objectives are achieved. Many attributes of a sound risk management process, including risk measurement, monitoring, and control functions, are actually key aspects of an effective system of internal control. Banks should ensure that all aspects of the internal control system are effective, including those aspects that are not directly part of the risk management process.

An important element of a bank's internal control system is regular evaluation and review. The Bangko Sentral expects that banks will establish a process to ensure that its personnel are following established policies and procedures, and that its procedures are actually accomplishing their intended objectives. Such reviews and evaluations should also address any significant change that may impact the effectiveness of controls, and that appropriate follow-up action was implemented when limits were breached. Management should ensure that all such reviews and evaluations are conducted regularly by individuals who are independent of the function they are assigned to review (e.g., the internal or external auditor, or other equivalent external parties) and that the resulting reports are made available to the Bangko Sentral. When revisions or enhancements to internal controls are warranted, there should be a mechanism in place to ensure that these are implemented in a timely manner.

The internal audit function should likewise review the model risk management process as part of its annual risk assessment and audit plans. The audit activity is not intended to duplicate model risk management processes but should review the integrity and effectiveness of the risk management system and the model risk management process.

Supervisory enforcement actions. Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in these guidelines and bring about timely corrective actions. If a bank's risk exposures are not well-managed, the Bangko Sentral may direct the bank to increase its capital, reduce its trading book exposures and/or strengthen its risk management system. The Bangko Sentral may likewise issue directives to limit the level of or suspend any business activity that has adverse effects on the safety and soundness of the bank, among others. Sanctions may likewise be imposed on the bank and/or its directors, officers and/or employees.

(Circular Nos. 1044 dated 6 August 2019 and 903 dated 29 February 2016)

145 LIQUIDITY RISK MANAGEMENT

Policy statement. The Bangko Sentral is cognizant that the viability of financial institutions, particularly banks, is heavily influenced by their ability to manage liquidity, including intraday liquidity positions. Opportunities to expand lending activities, continuous innovations in investment and funding products, growth in off-balance sheet activities, and intense competition for retail and wholesale funds affect the way banks operate. Thus, banks are expected to fully understand, measure, and control the resulting liquidity risk from their operations.

The guidelines in *Appendix 71* shall be used to determine the adequacy and effectiveness of a bank's liquidity risk management process. The sophistication of the liquidity risk management system shall depend on the size, nature and complexity of a bank's activities. However, regardless of its size and complexity, a bank must be able to identify, measure, monitor, and control its exposures to liquidity risk in a timely and comprehensive manner, and maintain a structurally sound funding and liquidity profile. Banks shall likewise hold liquidity in accordance with the minimum prudential requirements set by the Bangko Sentral.

Liquidity Coverage Ratio (LCR)

To promote the short-term resilience of the liquidity risk profile of a bank, it shall maintain an adequate stock of unencumbered high-quality liquid assets (HQLAs) that consists of cash or assets that can be converted into cash at little or no loss of value in private markets, to meet its liquidity needs under stressed conditions. The stock of liquid assets should enable the bank to withstand significant liquidity shocks for at least thirty (30) calendar days, which would give time for corrective actions to be taken by the bank management and/or the Bangko Sentral.

The LCR framework shall apply to all UBs/KBs¹ and their subsidiary banks and QBs on both solo (head office plus branches/other offices) and consolidated (parent bank plus subsidiary financial allied undertakings, but excluding insurance companies) bases.

- a. **Minimum requirement.** The LCR is the ratio of HQLAs to total net cash outflows. Under a normal situation, the value of the ratio shall not be lower than 100% on an ongoing basis. While the LCR is expected to be met in a single currency (i.e., in peso equivalent terms of all currencies), banks are expected to be able to meet their liquidity needs in each currency and maintain HQLA consistent with the distribution of their liquidity needs by currency. The detailed LCR framework is provided in *Part 1 of Appendix 72*.

¹ Including branches of foreign banks

- b. *Reporting and monitoring requirements* – Covered banks shall comply with the minimum LCR requirement on a daily basis, and shall have appropriate systems in place to ensure the same. For reporting purposes, covered banks shall submit a report in accordance with *Appendix 7*.

The LCR Reports shall be accompanied by a certification under oath to the effect that the bank has fully complied with the LCR requirement on all calendar days of the reference period in the form provided under *Appendix 73*. The solo and consolidated LCR Reports, together with the Sworn Certification shall be classified as *Category A-1* reports.

While there is no minimum threshold for LCRs in each significant currency, covered banks shall report the significant currency LCR to the Bangko Sentral for monitoring purposes using the same LCR Report template as of the LCR measurement date. The significant currency LCR shall be reported in the original currency. A currency is considered “*significant*” if the aggregate liabilities denominated in that currency amount to five percent (5%) or more of the banks’ total liabilities as of the measurement date.

The submission of the LCR report shall be subject to the governance process on the quality of bank reporting under Sec. 171. Any non-compliance with the reporting standards, or non-submission or delayed submission of the LCR report and the report on significant currency LCRs shall be subject to the monetary and non-monetary sanctions provided under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*).

- c. *Implementation*. The implementation of the minimum LCR shall be phased in to help ensure that the banks concerned can meet the standard through reasonable measures without disrupting credit extension and financial market activities. In order to facilitate compliance, banks shall undergo an observation period before the LCR becomes a minimum requirement. Subsidiary banks of UBs/KBs shall be subject to an LCR floor of seventy percent (70%) during the observation period. The timelines are set out in the table below:

	Observation Period	Minimum LCR	
UBs/KBs	01 July 2016 – 31 December 2017	01 January 2018 and thereafter– 90%	Starting 01 January 2019 – 100%
Subsidiary Banks and QBs of UBs/KBs	23 February 2018 – 31 December 2019 Floor of 70% - to be applied in 2019		Starting 01 January 2020 – 100%

Requirements during the observation period. For monitoring purposes, banks concerned shall submit the LCR Reports quarterly in single currency and per significant currency, on both solo and consolidated bases following the submission deadlines for consolidated reports set out in Item “b”. Any non-submission or delayed submission of the LCR Report during the observation period shall be subject to the monetary and non-monetary sanctions provided under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*).

During the observation period, the Bangko Sentral is not precluded from assessing the compliance of the banks concerned with the LCR requirement. Banks with LCRs that are already at or near the prescribed minimum should not view the transition period as an opportunity to reduce their liquidity coverage. Where a bank is unable to meet the minimum LCR, as applicable, in single currency on either solo or consolidated basis, as applicable, for two consecutive weeks during the observation period, the bank shall adopt a board-approved liquidity build-up plan not later than thirty (30) calendar days from the end of the two-week period. The plan should clearly articulate the said bank’s defined strategies and timelines for meeting the required LCR, taking into account compliance with other prescribed liquidity metrics and should also include quarterly estimates of the LCR prior to 6 April 2019. The build-up plan shall be submitted to the appropriate supervising department of the Bangko Sentral, within ten (10) banking days from the date of board approval. The supervising department concerned will evaluate and monitor the continuing compliance of the bank with the said plan.

In light of the extended observation period, subsidiary banks concerned that have submitted a liquidity build-up plan in 2018 may revise the same, if they deem necessary: *Provided*, That, the revised liquidity plan shall be adopted by the concerned bank’s Board not later than thirty (30) calendar days from 6 April 2019.

In case of non-compliance, the Bangko Sentral may require the bank concerned to undertake a set of actions. The Bangko Sentral may likewise impose enforcement actions as provided under this Section (*Supervisory enforcement actions*).

LCR disclosure requirements. To improve the transparency of the regulatory liquidity requirement, enhance market discipline, and reduce uncertainty in the market, covered banks shall publicly disclose information related to the LCR in single currency and on solo and consolidated bases as prescribed under *Part II of Appendix 72* starting year 2019 for UBs/KBs and year 2020 for subsidiary banks of UBs/KBs. The mandatory disclosure requirements in single currency should be included in the quarterly published balance sheet, as well as in the annual reports or published financial reports (e.g., the audited financial statements).

Minimum Liquidity Ratio (MLR) for Stand-Alone TBs, RBs and Coop Banks. To promote short-term resilience to liquidity shocks, banks shall maintain a stock of liquid assets proportionate to their on- and off-balance sheet liabilities. The prudential MLR requirement applies to all TBs, RBs and Coop Banks and QBs that are not subsidiaries of UBs/KBs.

- a. *Minimum requirement* - A prudential MLR of twenty percent (20%) shall apply to banks on an ongoing basis absent a period of financial stress. The liquidity ratio is expressed as a percentage of a bank's eligible stock of liquid assets to its total qualifying liabilities.

(1) The stock of liquid assets shall consist of:

- (a) Cash on hand;
- (b) Reserves in the Bangko Sentral;
- (c) Overnight and term deposits¹ with the Bangko Sentral, including reverse repos where the Bangko Sentral is the counterparty;
- (d) Eligible debt securities representing claims on or guaranteed by-
 - (i) The Philippine national government (NG) and the Bangko Sentral; or
 - (ii) Sovereigns, central banks of foreign countries, or by multilateral organizations that are assigned a zero percent risk weight under Part III of *Appendix 62*;
- (e) Deposits in other banks; and
- (f) Interbank loans receivable with contractual maturity dates that fall within the next 30 calendar days.

Provided, That the amounts to be included in the stock of liquid assets are immediately liquefiable and free from encumbrances. The stock of liquid assets shall be based on their net carrying amounts.

(2) The qualifying liabilities shall consist of the following:

- (a) Total liabilities, where the following obligations are subject to the conversion factors set out in the table below:²

Liability	Conversion Factor
• Retail current and regular savings deposits ³ with outstanding balance per account of P500,000 and below	50%
• Deposits where the account holder has no contractual or legal discretion to withdraw said deposit or pre-terminate the account within the next 30 calendar days (e.g., negotiable certificates of deposits)	0%
• Borrowings that are non-callable in, or have contractual maturity dates beyond, the next 30 calendar days	0%
• Obligations arising from operational expenses	0%

Liability accounts that are not assigned conversion factors shall be included as qualifying liabilities at their full carrying amounts.

- (b) Irrevocable obligations under off-balance sheet items, such as:

- (i) Guarantees issued;
- (ii) Trade related guarantees;
- (iii) Letters of credit; and
- (iv) Other committed credit lines.

- b. *Reporting and monitoring requirements.* Covered banks shall comply with the MLR on a daily basis, and shall have the appropriate systems in place to ensure the same. For reporting purposes, covered banks shall submit a monthly report on their compliance with the MLR to the appropriate supervising department of the Bangko Sentral. The report shall be submitted on solo basis in peso-equivalent terms using the prescribed form within fifteen (15) banking days after the end of the reference period, effective 1 January 2019.

The reports shall be accompanied by a certification under oath to the effect that the bank has fully complied with the MLR requirement on all calendar days of the reference period shown under *Appendix 129*. In cases when the MLR is not met but the same do not warrant the submission of a notification to the Bangko Sentral under Item "b" of this Section (*Supervisory framework for the minimum prudential liquidity requirements*), the specific date of the occurrence of the shortfall/s shall likewise be indicated in the certification. These reports shall be considered as *Category A-1 reports*.

¹ To the extent allowed to be drawn down in times of stress.

² To calculate the amount that shall be included as qualifying liabilities, the carrying amount of the liability account shall be multiplied by the corresponding conversion factor.

³ This refers to current and savings deposits raised by the bank from individual clients, including sole proprietorships and partnerships, and those classified as micro and small enterprises.

In addition, banks shall use the MLR template to internally measure and monitor their compliance with the prudential requirement for each currency in which they have significant activities. For this purpose, a currency is considered significant if the aggregate liabilities denominated in that currency amount to five percent (5%) or more of the total liabilities as of the MLR measurement date. Banks are expected to be able to meet their liquidity needs in each currency and maintain a stock of eligible liquid assets consistent with the distribution of their liquidity needs by currency to ensure that risks arising from currency mismatch are properly mitigated.

The submission of the MLR report shall be subject to the governance process on the quality of bank reporting under Sec. 171. Any non-compliance with the reporting standards, or non-submission or delayed submission of the MLR report and the report on significant currency MLRs shall be subject to the monetary and non-monetary sanctions provided under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*).

- c. *Implementation.* In order to facilitate compliance with the MLR, stand-alone TBs, RBs, Coop Banks and QBs shall undergo a one-year observation period beginning 1 January 2018 until the MLR takes effect on 1 January 2019.

Requirements during the observation period. During this period, banks shall submit the MLR report quarterly on a solo basis to the appropriate supervising department of the Bangko Sentral. Each quarterly submission shall consist of the MLR reports for each month-end within a reference quarter. The report shall be submitted within thirty (30) banking days after the end of each reference quarter. For example, a bank's submission for the reference period covering 1 January to 31 March 2018 shall consist of the MLR on solo basis as of end-January, end-February and end-March. The report shall be submitted within thirty (30) banking days after end-March 2018.

The Bangko Sentral is not precluded from assessing a bank's compliance with the MLR during the observation period. Banks with liquidity ratios that are already at or near the prescribed minimum should not view the transition period as an opportunity to reduce their liquidity coverage. Where a bank is unable to meet the MLR for two (2) consecutive weeks during the observation period, the bank shall immediately adopt a board-approved liquidity build-up plan. The plan should clearly articulate the bank's defined strategies and timelines for meeting the required MLR by 1 January 2019, and should include estimates of the liquidity ratio at every quarter prior to the effectivity date. The build-up plan shall be submitted to the appropriate supervising department of the Bangko Sentral, within ten (10) banking days after it is approved by the board. The appropriate supervising department of the Bangko Sentral will evaluate the continuing compliance of the bank with the said plan. In case of non-compliance, the Bangko Sentral may require the covered bank to undertake a set of actions. The Bangko Sentral may likewise impose enforcement actions as provided under this Sec. 145.

MLR disclosure requirements. A bank shall disclose its MLR on a solo basis in its annual report or audited financial statement (AFS), as well as in the quarterly Published Balance Sheet (PBS) starting year 2019.

Net Stable Funding Ratio (NSFR). To promote long-term resilience of a bank against liquidity risk, it shall maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. The NSFR seeks to meet this objective by limiting overreliance on short-term wholesale funding and promoting enhanced assessment of funding risk across all on- and off-balance sheet accounts. The NSFR complements the Liquidity Coverage Ratio (LCR), which promotes short term resilience of a bank's liquidity profile.

The NSFR framework shall apply to all universal and commercial banks and their subsidiary banks and QBs, hereinafter referred to as "covered banks", on both solo (head office plus branches) and consolidated (parent bank plus subsidiary financial allied undertakings, but excluding insurance companies) bases.

- a. *Minimum requirement.* The NSFR is the ratio of a covered bank's available stable funding (ASF) to its required stable funding (RSF), as shown below:

$$\text{Basel III Net Stable} \\ = \text{Funding Ratio (\%)} \quad \frac{\text{Available stable funding} \\ \text{(ASF)}}{\text{Required stable funding} \\ \text{(RSF)}}$$

The covered bank shall maintain an NSFR of at least 100% at all times.

The NSFR shall be computed and reported in a single currency, i.e., in peso equivalent terms of all currencies. Notwithstanding this requirement, a covered bank shall internally measure and monitor NSFR per significant currency. A currency is considered *significant* if the aggregate liabilities denominated in that currency amount to five percent (5%) or more of the covered banks' total liabilities as of NSFR measurement date. The guidelines implementing the NSFR are provided in *Appendix 130*.

- b. *Reporting and monitoring requirements.* Covered banks shall comply with the minimum NSFR on a daily basis, and shall have appropriate systems in place to ensure the same. For reporting purposes, the covered banks shall submit a report of their NSFR to the Bangko Sentral in accordance with *Appendix 7*.

The NSFR reports shall be accompanied by a certification under oath to the effect that a covered bank has fully complied with the NSFR requirement on all calendar days of the reference period in the form provided under *Appendix 131*. This requirement shall take effect on 1 January 2019 for subsidiary banks/QBs. The solo and consolidated NSFR reports, together with the Sworn Certification, shall be classified as *Category A-1* reports.

The submission of the NSFR report shall be subject to the governance process on the quality of bank reporting under Sec. 171. Any non-compliance with the reporting standards, or non-submission or delayed submission of the NSFR report shall be subject to the monetary and non-monetary sanctions provided under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*).

- c. *Implementation*. The implementation of the minimum NSFR shall be phased in to help ensure that the covered banks can meet the standard through reasonable measures without disrupting credit extension and financial market activities. In order to facilitate compliance, covered banks shall undergo an observation period before the NSFR becomes a minimum requirement. Subsidiary banks of UBs/KBs shall be subject to an NSFR floor of seventy percent (70%) during the observation period. The timelines are set out in the table below:

	Observation Period	Minimum NSFR
UBs/KBs	01 July 2018 – 31 December 2018	Starting 01 January 2019 – 100%
Subsidiary banks/QBs of UBs/KBs	01 July 2018 – 31 December 2019 Floor of 70% to be applied in 2019	Starting 01 January 2020 – 100%

Requirements during the observation period. Consistent with the expectations set out on the governance process for an effective reporting system, the Board and Senior Management shall ensure the generation of complete, accurate, consistent, and reliable reports that are timely submitted to the Bangko Sentral. For monitoring purposes, covered banks shall submit the solo and consolidated NSFR Reports in accordance with the following timelines:

	Reporting Details
Frequency	Quarterly
Measurement Date	End-of-quarter
Submission Deadlines	30 banking/business days from measurement date

Any non-submission or delayed submission of the NSFR Reports during the observation period shall be subject to monetary and non-monetary sanctions provided under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*).

During the observation period, the Bangko Sentral is not precluded from assessing the covered bank's compliance with the NSFR requirement. The covered banks with NSFRs that are already at or near the prescribed minimum should not view the transition period as an opportunity to reduce their stable funding profile. Where a covered bank is unable to meet the minimum NSFR in single currency on either solo or consolidated basis, as applicable, for two consecutive weeks during the observation period, the covered bank shall adopt a board-approved stable funding build-up plan within thirty (30) calendar days from the end of the two-week period. The plan should clearly articulate the covered bank's defined strategies and timelines for meeting the required NSFR, taking into account compliance with other prescribed liquidity metrics. The plan should also include quarterly estimates of the NSFR prior to 6 April 2019 and shall be submitted to the appropriate supervising department of the Bangko Sentral, within ten (10) banking days from the date of board approval. The supervising department concerned will evaluate and monitor the continuing compliance of the bank with the said plan.

In light of the extended observation period, subsidiary banks concerned that have submitted a stable funding plan in 2018 may revise the same, if they deem necessary: *Provided*, That, the revised stable funding build-up plan shall be adopted by the concerned bank's Board not later than thirty (30) calendar days from 6 April 2019.

In case of non-submission of, or non-compliance with, the said build-up plan, the Bangko Sentral may require the covered bank to undertake a set of actions. The Bangko Sentral may likewise impose enforcement actions as provided under Sec. 145 (Supervisory enforcement actions).

Supervisory framework for the minimum prudential liquidity requirements.

- a. General Provisions
- (1) While the minimum prudential liquidity requirements establish common parameters for stress testing, they should be viewed as minimum supervisory requirements. Covered banks are expected to conduct their own stress tests in accordance with Part IX of *Appendix 71* as part of their liquidity risk management process in order to identify the risk drivers that may lead to drastic fluctuations in their liquidity positions. Accordingly, banks should be able to assess the level of liquidity they should hold, which could possibly go beyond the regulatory minimum.

Where the Bangko Sentral is not satisfied with the adequacy of a bank's liquidity management framework or where it has particular concerns about a bank's liquidity exposures, it may require the bank to comply with a higher liquidity requirement.

- (2) It shall be the responsibility of the board of directors and senior management, or the equivalent governing bodies in the case of foreign bank branches, to institute a system that would ensure compliance with the minimum liquidity requirements, the accuracy of their calculations, and the integrity of the related monitoring and reporting system. It is likewise the responsibility of senior management to report shortfalls in the minimum liquidity requirements both to their board of directors immediately and to the Bangko Sentral within the prescribed timelines.
- (3) As the stock of liquid assets is intended to serve as a defense against the potential onset of liquidity stress, banks are allowed to use their stock of liquid assets as necessary during a period of financial stress in order to meet unforeseen liquidity needs, thereby causing the LCR to temporarily fall below the minimum requirement or the MLR to be breached. This may also alter the stable funding profile of banks and result in non-compliance with the required NSFR.

Under this condition, the Bangko Sentral will assess the situation to determine the extent to which the reported decline in the LCR or NSFR/non-compliance with the MLR is due to a bank-specific or market-wide shock and will accordingly provide the supervisory response necessary to address the circumstances. The action of the Bangko Sentral shall be proportionate to the drivers, magnitude, duration and frequency of the reported liquidity deficit.

In all cases, the Bangko Sentral will be cognizant of the procyclicality of supervisory actions if applied in circumstances of market-wide stress. Likewise, the Bangko Sentral will consider the potential for contagion to the financial system and the additional restricted flow of credit or reduced market liquidity due to actions to maintain a minimum LCR, NSFR or the MLR. Overall, the supervisory response will be based on a forward-looking assessment of macroeconomic and financial conditions of the financial system as a whole.

b. Liquidity ratios below the minimum

- (1) In the event that a shortfall in the stock of HQLA/eligible liquid assets/available stable funding occurs on three (3) banking/business days within any two-week rolling calendar period, thereby causing the LCR or NSFR to fall below the minimum threshold/the MLR to be breached on such days, the bank must notify the appropriate supervising department of the Bangko Sentral, of such non-compliance within the banking/business day immediately following the occurrence of the third liquidity/stable funding shortfall, notwithstanding the restoration of the LCR or NSFR/compliance with the MLR on the day that the shortfall must be reported.

The shortfall notice shall be signed by the bank President or officer of equivalent rank, and by the officer charged with managing the liquidity of the bank. It shall contain the following minimum information:

- (a) The dates the shortfalls occurred;
- (b) The reason/s or factor/s leading to the utilization of the stock of liquid assets and non-compliance with the minimum LCR/MLR/NSFR;
- (c) The action/s the bank has taken and/or will take to achieve full compliance with the minimum requirement;
- (d) The expected duration and possible extent of the shortfall (although this may no longer be applicable if the LCR or NSFR has been restored/MLR has been met); and
- (e) A commitment to submit its LCR/MLR/NSFR Report weekly until the bank is able to comply with the required LCR/NSFR/MLR.

A shortfall will not necessarily result in supervisory or enforcement action; at a minimum, it will entail heightened supervisory monitoring. The shortfall notice, together with the information gathered from the latest report of examination, regular prudential reports, available market information, and, if available, the internal management reports of the bank, will serve as the basis of the Bangko Sentral in making an assessment of the extent of the liquidity deficit. The Bangko Sentral will also assess whether the non-compliance with the minimum requirement is temporary, part of a regular pattern or practice, or caused by an unusual event.

- (2) The Bangko Sentral will require effective and timely remedial action from the bank to address the deficiency in its liquidity position within a committed timeline under the following circumstances:
 - (a) The liquidity requirement is not met for a prolonged period of time or if the Bangko Sentral has determined that the bank is otherwise materially non-compliant with the minimum LCR, NSFR or the MLR; or
 - (b) The reported shortfall is caused by a firm-specific stress situation, i.e., based on operational issues of the bank which are part of an outstanding supervisory concern (such as imprudent management of liquidity consisting of material and/or persistent breaches of liquidity policies and limits, large funding mismatches and/or concentrations, undue reliance on high cost funds).

Subject to the approval of the Monetary Board, banks may continue to have access to the credit and liquidity facilities of the Bangko Sentral during the period that the liquidity requirement is being restored notwithstanding non-compliance with standard conditions of access to such facilities that pertain to a bank's liquidity position.

Report on Intraday Liquidity¹. In accordance with Section V of the Guidelines on Intraday Liquidity Risk Management in *Appendix 71* which expects banks with large volume of daily payments and settlements to effectively manage their intraday liquidity positions and risks, all UBs/KBs and their subsidiary TBs shall submit the Report on Intraday Liquidity on solo basis. The report is designed to measure and monitor the different aspects of a bank's intraday liquidity position.

Supervisory enforcement actions. Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in these guidelines and bring about timely corrective actions. If a bank's risk exposures are not well managed, the Bangko Sentral may direct the bank to augment its funds management practices and the level of its liquid assets, reduce its liquidity risk exposures, and/or strengthen its risk management system. The Bangko Sentral may likewise impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety or soundness of the bank, among others. Sanctions may likewise be imposed on a bank and/or its directors, officers and/or employees.

The Bangko Sentral reserves the right, upon authority of the Deputy Governor of the appropriate sector of the Bangko Sentral, to require the submission of reports and information prescribed under Item "b" of this Section (*LCR and MLR for Stand-Alone TBs, RBs and Coop Banks, and NSFR*) outside the regular reporting periods, and to conduct on-site inspections outside of regular or special examinations, for the purpose of ascertaining the accuracy of calculations of the minimum liquidity requirement/s as well as the integrity of the related monitoring and reporting systems.

If a bank experiences a shortfall in respect of its minimum prudential liquidity requirement and fails to restore its liquidity position within the committed timeline, the Bangko Sentral may deploy more stringent enforcement actions. In cases where a bank's liquidity problem is deemed to be exceptionally serious from the outset, or when the bank refuses to restore the required liquidity position, the Bangko Sentral may employ more drastic measures based on existing laws, rules and regulations.

(Circular Nos. 1064 dated 03 December 2019, 1035 dated 15 March 2019, 1034 dated 15 March 2019, 1007 dated 6 June 2018, 996 dated 8 February 2018, 981 dated 3 November 2017, and 903 dated 29 February 2016)

146 OPERATIONAL RISK MANAGEMENT

Policy statement.² It is the thrust of the Bangko Sentral to promote the adoption of effective risk management systems to sustain the safe and sound operations of banks. Cognizant that operational risk is inherent in all activities, products and services, and is closely tied in with other types of risks (e.g., credit, liquidity and market risks), the Bangko Sentral is issuing these guidelines to clearly set out its expectations and define the minimum prudential requirements on operational risk management. These guidelines align existing regulations to the extent possible, with international standards³ and best practices. Bangko Sentral expects banks to adopt an operational risk management framework, as part of the enterprise-wide risk management system, that is suited to their size, complexity of operations, and risk profile.

Definition of operational risk. *Operational risk* refers to the risk of loss resulting from inadequate or failed internal processes, people and systems; or from external events. This definition includes legal risk, but excludes strategic and reputational risk. Operational risk is inherent in all activities, products and services, and cuts across multiple activities and business lines within the bank and across the different entities in a banking group or conglomerate where the bank belongs.

Duties and responsibilities.

- a. **Board of directors.** Consistent with the principles embodied under Sec. 132 (*Specific duties and responsibilities of the board of directors*), the duties and responsibilities of the board of directors in relation to the effective management of risk include the establishment of a comprehensive and effective operational risk management framework as part of the enterprise-wide risk management system. In this regard, the board of directors shall:
 - (1) Ensure that it is aware of and understands the nature and complexity of the major operational risks in the bank's business and operating environment, including risks arising from transactions or relationships with third parties, vendors, suppliers including outsourced service providers, and clients of services provided. This should include understanding of both the financial and non-financial impact of operational risk to which the bank is exposed to;
 - (2) Approve the operational risk management framework which shall form part of the bank's enterprise-wide risk management system and shall cover all business lines and functions of the bank, including outsourced

¹ Submission of reports shall commence one (1) year and six (6) months from 24 December 2019.

² Banks shall comply with the foregoing standards on operational risk management within a period of two (2) years from 05 February 2016. In this regard, a bank should be able to show its plan of actions with specific timelines, as well as the status of initiatives being undertaken to fully comply with the provisions of Sec. 146.

³ Embodied in the relevant documents issued by the Basel Committee on Banking Supervision.

services and services provided to external parties. The operational risk management framework should include an enterprise-wide definition of operational risk, which should be consistent with the definition under Sec. 146, governance, and reporting structures including the roles and responsibilities of all personnel, feedback mechanism, as well as standards and tools for operational risk management. In this respect, the board shall:

- (a) Define the operational risk management strategy and ensure that it is aligned with the bank's overall business objectives. Relative to this, the board should set and provide clear guidance on the bank's operational risk appetite (i.e., the level of operational risk the bank is willing to take and able to manage in pursuit of its business objectives as well as the type of risks that are not acceptable to the board and management), which should consider all material risk exposures as well as the bank's financial condition and strategic direction;
 - (b) Approve appropriate thresholds or limits to ensure that the level of operational risk is maintained within tolerance and at prudent levels and supported by adequate capital. Relative to this, the board shall approve policy on resolving limit breaches which should cover escalation procedures for approving or investigating breaches, approving authorities, and requirements in reporting to the appropriate level of management or the board;
 - (c) Ensure that operational risk is appropriately considered in the capital adequacy assessment process;
 - (d) Ensure that it receives adequate information on material developments in the operational risk profile of the bank, including pertinent information on the current and emerging operational risk exposures and vulnerabilities as well as information on the effectiveness of the operational risk management framework. The board must challenge the quality and comprehensiveness of the operational risk information it receives. It should also be satisfied with the reliability of the said information and the monitoring system for operational risk;
 - (e) Ensure that business objectives, risk appetite, the operational risk management framework, and the respective roles and responsibilities of personnel and officers at all levels in terms of implementing the operational risk management framework, are properly disseminated, clearly communicated/discussed, and understood by personnel concerned;
 - (f) Provide senior management with clear guidance and direction regarding the principles underlying the operational risk management framework. The board shall ensure that senior management appropriately implements policies, processes and procedures, and provides feedback on the operational risk management process. In this regard, the board shall establish a feedback and reporting system that will allow employees to raise their concerns without fear of negative consequences; and
 - (g) Ensure that the operational risk management framework is subject to effective and comprehensive independent review, on a periodic basis, by operationally independent, appropriately trained, and competent staff to ensure that it remains commensurate with the bank's risk profile and continues to be adequate and effective in managing operational risk. The review should take into account the changes in business and operating environment, material changes in systems, business activity or volume of transactions, quality of control environment, effectiveness of risk management or mitigation strategies, loss experience, and the frequency, volume or nature of breaches in limits or any policy.
- (3) Provide adequate oversight on all outsourcing activities and ensure effective management of risks arising from these activities. In this regard, the board of directors shall approve a framework governing outsourcing activities, which includes a system to evaluate the risk and materiality of all existing and prospective outsourcing engagements and the policies that apply to such arrangements;
 - (4) Ensure observance of expectations and requirements prescribed under relevant laws, rules and regulations, industry-set standards, and policies on internal control, internal audit, and disclosure;
 - (5) Promote a culture of high standards of ethical behavior. The board shall adopt a code of conduct of ethical behaviors with corresponding disciplinary actions for non-compliance, which should cover, among others, guidance and protocols on conflicts of interest situations, safeguarding of confidential information, and use of sensitive information. The board should likewise institute tools, methodologies, and practices in order to ensure compliance and adherence to the standards by all employees including the senior officers and the board itself. In this regard, employees should be required to acknowledge in writing that they have read, understood, and will observe the code of conduct;
 - (6) Ensure that business and risk management activities, including the operational risk management function, are carried out by adequate and qualified staff with the necessary experience, technical capabilities, and competence. Moreover, the board shall ensure that employees and officers in all areas of operations have a high degree of integrity.

For this purpose, the board shall approve appropriate hiring and selection policies and processes, adopt a continuing professional development program, and institutionalize a framework for continuing assessment of fitness and propriety of employees. These policies, processes and programs should reinforce the conduct and values being promoted in the organization.

Further, the board shall oversee the design and implementation of remuneration policies. It shall ensure that the remuneration policies do not encourage excessive risk-taking or provide incentives to people to perform contrary to the desired risk management values. It shall also ensure that remuneration policies are appropriate and aligned with the bank's long-term strategic direction and risk appetite, as well as with relevant legal or regulatory requirements;

- (7) Ensure that all units in the organization have adequate resources, including personnel complement, and are supported by appropriate technological systems. The use of technological systems must be commensurate with the activities being undertaken; and
 - (8) Oversee implementation of a sound business continuity management framework. The board should create and promote an organizational culture that places high priority on business continuity. This shall include providing sufficient financial and human resources associated with the bank's business continuity initiatives.
- b. *Senior management.* Senior management shall be responsible for the implementation and consistent adherence by all personnel to the operational risk management framework approved by the board of directors. In this respect, senior management shall:
- (1) Translate the approved operational risk management framework into specific policies and processes covering all businesses and functions of the bank, including outsourced services and services provided to external parties. Said policies should be clearly documented, approved by the board of directors and communicated to personnel at all levels. Policies should include, among others:
 - (a) Definition of operational risk and operational risk loss. This should be supported by common operational risk taxonomy that includes the operational risk event type and causes losses to facilitate the consistent identification of operational risks across the bank as well as the management of operational risk in an integrated manner;
 - (b) Appropriate governance and oversight structures, reporting lines, and accountabilities for managing operational risks;
 - (c) Clear description of risk limits and thresholds that correspond to the bank's approved operational risk appetite and tolerance;
 - (d) Risk mitigation strategies and tools for maintaining risks within the thresholds and limits set;
 - (e) Approach to operational risk identification, assessment, monitoring and reporting that utilizes appropriate operational risk management tools. This should include an outline of the reporting framework and types of data/information to be included in the risk management reports; and
 - (f) Requirement for the conduct of independent review of the framework as well as its implementation, on a periodic basis, and whenever there are material changes in the bank's operational risk profile.
 - (2) Communicate individual roles and responsibilities of personnel. It is important that personnel at all levels understand their respective roles in the operational risk management process. In this regard, senior management should clearly assign authority, responsibility, and reporting relationships to encourage and maintain accountability, and ensure that the necessary resources are available to manage operational risk effectively;
 - (3) Establish system to report, track, escalate, and resolve issues; and set the frequency of operational risk management reporting considering the level and type of risks involved as well as the pace and nature of the operating environment of the bank;
 - (4) Assess the appropriateness of the operational risk management process in light of the changing business environment and nature of risks arising from business activities or functions;
 - (5) Ensure that sufficient number of personnel, technical support, and other resources are devoted for operational risk management such that the bank's activities are conducted by qualified personnel with the necessary experience and technical capabilities. It shall also ensure that personnel responsible for monitoring and enforcing compliance with the bank's operational risk policy as well as the compliance and internal audit units have authority independent from the units they review and are knowledgeable about the different areas of operations; and

- (6) Establish policies, standards and processes for an effective business continuity management.
- c. *Business units.* Business line management and personnel, as the first line of defense, are responsible on a day-to-day basis for identifying, managing and reporting operational risks inherent in the products, activities, processes and systems for which they are accountable. In this regard, business line management shall ensure that:
- (1) Internal controls and practices within their business lines are consistent with the enterprise-wide policies and procedures to support the management of operational risk;
 - (2) Business line specific policies, processes, and procedures are adequate and effectively implemented, and personnel are adequate and competent to manage operational risk for all material products, activities, and processes;
 - (3) Operational risk management framework within each business line reflects the scope of that business line and its inherent operational complexity and operational risk profile;
 - (4) Risk mitigation strategies and processes as approved by the board and senior management are established and executed;
 - (5) Internal controls, and operational risk mitigation strategies and processes are periodically reviewed within the business units to effectively manage operational risks within approved risk tolerance, and consistent with enterprise-wide policies and procedures established. There must be clear expectations and processes established to ensure prompt escalation and actions to address any gap or issue identified; and
 - (6) Operational risk-related information (e.g., loss events, incidents, et al.) are adequately and timely communicated/coordinated to Operational Risk Management Function (ORMF) for risk monitoring and reporting, in addition to the usual reporting to senior management and/or board.

Roles and functions.

- a. *Operational risk management function.* UBs/KBs shall create a separate ORMF or assign specific personnel under the risk management unit to handle operational risk concerns. The ORMF shall primarily assist management in meeting its responsibility to understand and manage operational risk exposures and ensure the development and consistent implementation of operational risk policies, processes, and procedures throughout the bank. In this regard, the ORMF shall:
- (1) Recommend to the board of directors and senior management appropriate policies and procedures relating to operational risk management and controls;
 - (2) Design and implement the bank's operational risk assessment methodology tools and risk reporting system;
 - (3) Coordinate risk management activities across the organization;
 - (4) Consolidate all relevant operational risk information/reports to be elevated/presented to the board and senior management;
 - (5) Provide operational risk management training and advice to business units on operational risk management issues; and
 - (6) Coordinate with compliance function, internal audit, and external audit on operational risk matters.

ORMF personnel should have technical proficiency, appropriate educational background, and exposure to enable them to effectively perform the unit's mandate. Banks shall have in place a training program to keep its personnel up-to-date on different operational risk issues and challenges.

The ORMF shall be supported by a board-approved charter that defines its stature, authority, and independence. It shall directly report to the head of the Risk Management Unit (RMU) or to the board-level Risk Oversight Committee (ROC), as appropriate. The head of the RMU or the ROC, as appropriate, shall be responsible for assessing the annual performance of said function taking into account how it carried out its duties and responsibilities.

In case of group structures, there should be a board-approved policy that defines the operational risk management framework that shall apply to entities across the group. The policy shall provide the structure that shall be adopted by the group, either to establish the ORMF centrally at the parent bank or in each of the identified subsidiary. Such policy shall also include the overall responsibility of the parent bank's ORMF with respect to the management of operational risk exposures of subsidiaries/affiliates.

Branches of foreign banks may establish their own ORMF or may be covered by the parent/regional/group ORMF: *Provided*, That all branches of foreign banks shall comply with the policies, practices and systems of its head office relative to the management of operational risk, as well as meet the applicable provisions set forth under this Section.

TBs, RBs and Coop Banks are not required to create an ORMF. However, the board of directors is expected to discuss operational risk issues during its board meetings with discussions adequately documented in the minutes

of meetings. The board of directors of complex¹ TBs, RBs, Coop Banks may, at its own discretion, or as directed by the appropriate supervising department of the Bangko Sentral, create an RMU and assign specific personnel under said unit to handle operational risk concerns. The said RMU shall directly report to the ROC or the board, as applicable. The ROC or the board shall be responsible for assessing the annual performance of the unit taking into account how said unit carried out its duties and responsibilities.

- b. *Compliance function.* The compliance function shall conduct an independent assessment of the bank's compliance with relevant laws, rules and regulations, as well as internal policies, and determine areas that may potentially result in risk of loss due to inadequate or failed internal processes, systems, and people. The latter includes inappropriate conduct/behavior of personnel, officers, and the board, that may lead to fraud or any form of business disruption. The compliance function shall assess whether the identified operational risk exposure by the business units or by the function itself shall affect the franchise value of the bank. In this regard, it shall advise and assist management in establishing guidance on the appropriate implementation of relevant laws, rules and regulations, and internal policies.
- c. *Internal audit.* Internal audit shall conduct an independent assessment of the operational risk management framework, including the implementation of operational risk management policies and procedures. The board of directors, either directly or indirectly through the board-level Audit Committee shall ensure that the scope and frequency of audit is appropriate to the risk exposures. Any operational risk issue identified and reported in the audit process should be addressed by senior management in a timely and effective manner, or raised to the attention of the board as appropriate.

Operational risk management framework. Banks shall have in place an appropriate operational risk management framework, as part of the enterprise-wide risk management system, that is effective and efficient in identifying, assessing, monitoring and controlling/mitigating operational risk. They shall ensure that their operational risk management framework is commensurate with the complexity of their operations, range of products and services, organizational structure, and risk profile.

- a. *Risk identification and assessment.* Risk identification and assessment are fundamental elements of an effective operational risk management system. Effective risk identification shall consider both internal factors (such as bank structure, nature of activities, the quality of human resources, organizational changes and employee turnover, among others) and external factors (such as changes in the broader environment and the industry, advances in technology, and developments in political, legal, and economic factors, among others). Risk identification and assessment allow the bank to better understand its risk profile and allocate risk management resources and strategies more effectively. Since the business lines are expected to have the best knowledge of their risk exposures and processes, these units should play a major role in the identification and assessment of operational risk.

(1) Banks shall consider the following loss event-type categories as part of their risk identification and assessment processes:

- (a) Internal fraud, e.g., intentional misreporting of positions, employee theft, and insider trading on an employee's own account;
- (b) External fraud, e.g., robbery, forgery, check kiting, and damage from computer hacking;
- (c) Employment practices and workplace safety, e.g., workers compensation claims, violation of health and safety rules, organized labor activities, discrimination claims, and general liability;
- (d) Clients, products and business practices, e.g., fiduciary breaches, misuse of confidential customer information, improper trading activities on the bank's account, money laundering, and sale of unauthorized products;
- (e) Damage to physical assets, e.g., terrorism, vandalism, earthquakes, fires and floods;
- (f) Business disruption and system failures, e.g., hardware and software failures, telecommunication problems, and utility outages; and
- (g) Execution, delivery, and process management, e.g., data entry errors, collateral management failures, incomplete legal documentation, unapproved access given to client accounts, non-client counterparty misperformance, and vendor disputes.

(2) Banks shall adopt tools and mechanisms that are appropriate to their size, complexity of operations and risk profile to properly identify and assess operational risk. The tools that may be used for identifying and assessing operational risk may include, but not limited to:

- (a) *Results of internal/external audit and supervisory issues raised in the Bangko Sentral Report of Examination (ROE)* – Internal audit surfaces issues on effectiveness of internal control, risk management,

¹ Sec. 131 (Policy statement and Definition of terms) provides the grounds for classifying banks as 'Complex' for regulatory purposes.

and governance systems and processes of an organization, while external audit focuses on control weaknesses and susceptibility of the bank to material misstatements in the financial statements. On the other hand, the Bangko Sentral ROE highlights deficiencies in the risk management systems and governance processes as well as issues on compliance with relevant laws, rules and regulations, which could have adverse effects on the safety and soundness of the bank;

- (b) *Internal loss data collection and analysis* – Internal operational loss data provides meaningful information for assessing bank's exposure to operational risk and the effectiveness of internal controls. Analysis of loss events can provide insights into the causes of large losses and information on whether control failures are isolated or pervasive. Banks may consider mapping internal loss data to the following business lines:

- (i) Corporate finance;
- (ii) Trading and sales;
- (iii) Retail banking;
- (iv) Commercial banking;
- (v) Payment and settlement;
- (vi) Agency services;
- (vii) Asset management; and
- (viii) Retail brokerage.

Loss events linked to credit and market risk may also relate to operational issues and should be segmented in order to obtain a more comprehensive view of the bank's operational risk exposure;

- (c) *Risk Self Assessments (RSA)/Risk Control Self Assessments (RCSA)* – RSA is a tool to assess processes underlying bank's operations against a library of potential threats and vulnerabilities including their potential impact. A similar approach, RCSA, typically evaluates inherent risk (the risk before controls are considered), the effectiveness of the control environment, and residual risk (the risk exposure after controls are considered). Scorecards on RCSAs may be developed by allocating weights to residual risks to provide a means of translating the RCSA output into metrics that will give a relative ranking of the control environment;
- (d) *Business process mappings* – These help identify key steps in business processes, activities, and organizational functions as well as the key risk points in the bank's overall business process. Process maps can reveal individual risks, risk interdependencies, and areas of control or risk management weakness. They can also help prioritize subsequent management action;
- (e) *Risk and performance indicators* – Risk and performance indicators, such as Key Risk Indicators (KRIs) and Key Performance Indicators (KPIs), provide an insight into a bank's emerging risk exposure. KRIs are used to monitor the main drivers of exposure associated with key risks that contribute to early detection of heightened risk, ongoing monitoring of their movements, and preemptive reactions as necessary. KPIs, on the other hand, provide insight into the status of operational processes, which may in turn provide insights into operational weaknesses, failures, and potential loss. Risk and performance indicators are often used with escalation triggers to warn when risk levels approach or exceed acceptable ranges and prompt mitigation plans;
- (f) *Scenario analysis* – This refers to the process of obtaining expert opinion of business line and risk managers to identify potential operational risk events and assess the potential outcome. Scenario analysis is an effective tool when considering potential sources of significant operational risk and the need for additional risk management controls or mitigation solutions. Given the subjectivity of the scenario process, a robust governance framework is essential to ensure the integrity and consistency of the process;
- (g) *Model measurement* – Larger banks may deem it useful to quantify their operational risk exposures by using the output of the risk assessment tools as inputs into a model that estimates operational risk exposure. The results of the model can be used in an economic capital process and can be allocated to business lines to link risk and return; and
- (h) *Comparative analysis* – Comparative analysis consists of comparing the results of the various assessment tools to provide a more comprehensive view of the bank's operational risk profile.

Comparison of external loss data, if available, such as industry experiences, vis-à-vis bank's internal loss data can also be made to explore possible weaknesses in the financial institution's control environment and enable it to consider previously unidentified risk exposures.

In choosing among these tools, each bank must carefully consider what is proportionate to its size, risk profile, and complexity of operations. Data/information gathered from these tools should enable

banks to make a thorough causal analysis, identify control gaps, and consequently adopt appropriate corrective actions.

UBs/KBs are expected to adopt more sophisticated tools in identifying and assessing their operational risk exposures. TBs, RBs and Coop Banks, on the other hand, are expected to adopt at the minimum, the (i) results of internal/external audit and supervisory issues raised in the Bangko Sentral ROE and (ii) internal loss data collection and analysis.

- (3) Banks shall develop databases to accumulate at least a five (5)-year history of operational risk losses which can be fed back into the operational risk management process. Apart from capturing events that resulted to actual loss, banks shall also gather potential loss or near-misses¹. Said database of loss events provides basis for analysis which can help direct corrective action to improve the control environment, as well as determine risk mitigating actions. Banks should assess the depth of its data collection which is vital in understanding the risk environment. The loss event database shall at a minimum disclose the following:

- (a) Short description of the event;
- (b) Loss event type category;
- (c) Department/Unit/Branch sustaining the loss;
- (d) Business line classification;
- (e) Date of occurrence;
- (f) Date of discovery;
- (g) Date of booking of actual losses;
- (h) Actual loss amount or potential loss amount, if a near-miss event;
- (i) Amount recovered and date of recovery;
- (j) Causes of the event (e.g., control weaknesses identified);
- (k) Consequence of the loss event (e.g., market loss, fees paid to a counterparty, a lawsuit or damage to the bank's reputation); and
- (l) Action(s) taken.

Banks shall define appropriate thresholds for internal loss data collection and must be able to justify the same. Thresholds should be reasonable and should not omit any operational loss event data that is material for operational risk exposure and for effective risk management. Banks shall ensure that the choice of threshold should not adversely impact the credibility and accuracy of operational risk measurement.

- (4) Banks shall determine based on the results of the risk assessment process whether the risks are within the scope of its operational risk management strategy and policies. It shall identify the risk exposures that are unacceptable or are outside its risk appetite and/or risk management capacity, and design and prioritize appropriate risk mitigation and corrective actions with clear accountabilities, roles and responsibilities for implementation within reasonable timelines.
- (5) Banks shall continually assess its operational risk exposures in order to gain broader recognition and understanding of their effects. It shall consider the following factors in the assessment:
- (a) Expected and unexpected changes to the bank's operating environment;
 - (b) Actual operational loss events that could have resulted in substantial losses/damage but were avoided (e.g., near misses) or recovered;
 - (c) Reported external operational losses and incidents which have damaged investor confidence and caused serious reputational harm;
 - (d) Areas of concern or unusual volumes or high number of exceptions; and
 - (e) Results of internal assessment of risks and controls.
- (6) Banks shall ensure that their risk management and control infrastructure keep pace with the growth of or changes in their business activities, i.e., when they engage in any new activity; introduce a new product; enter new or unfamiliar markets; implement new business processes or technology systems; establish subsidiaries/branches that are geographically remote from the head office; and/or embark on an aggressive growth strategy by acquiring problem banks to rapidly increase branch network during a short period of time. Banks should have relevant policies and procedures that address the process for review and approval of new products, activities, processes and systems. The review and approval process shall consider the following:
- (a) Inherent risks in the new product, service, or activity;
 - (b) Changes to the bank's operational risk profile, appetite and tolerance, including the impact on existing products or activities;
 - (c) Necessary controls, risk management processes, and risk mitigation strategies;
 - (d) Any residual risk; and

¹ *Potential loss* is an initial estimate of the loss that the bank may have sustained at the time of discovery of the event. *Near miss* is an adverse operational risk event which was not prevented by internal controls but did not result in an actual adverse impact (financial or reputational) due to chance, recovery or other external factors.

- (e) Procedures and metrics to measure, monitor, and manage the risk of the new product or activity.
- b. *Risk monitoring and reporting.* Banks shall implement a process to regularly monitor their operational risk profiles and material exposures to losses on a continuing basis. The process shall take into account both qualitative and quantitative assessment of exposure to all types of operational risk, assess the quality and appropriateness of corrective or mitigating actions, and ensure that adequate controls and systems are in place to identify and address problems before they become major concerns.
- (1) Risk monitoring should be an integral part of a bank's activities, the frequency of which should reflect the risks involved in these activities as well as the frequency and nature of changes in the operating environment. The results of the monitoring activities, findings of compliance, internal audit and risk management functions, management letters issued by external auditors, and reports generated by supervisory authorities, as appropriate, should be included in regular reports to the board and the senior management to ensure that timely and appropriate measures are undertaken to address the issues/findings.
 - (2) Management shall ensure that regular reports on operational risk are received on a timely basis and in a form and format that will aid in the monitoring and control of their business areas. The board should receive sufficient high-level information to enable it to understand the bank's overall operational risk profile and focus on the material and strategic implications for the business.
 - (3) Management reports should contain relevant internal financial, operational, and compliance data, as well as external market information about events and conditions that are relevant to decision making. They should aim to provide information such as:
 - (a) The critical operational risks facing, or potentially facing, the bank (e.g., as shown in KRIs and their trend data, changes in risk and control self-assessments, comments in audit/compliance review reports, etc.);
 - (b) Major risk events/loss experience, issues identified and intended remedial actions;
 - (c) The status and/or effectiveness of actions taken; and
 - (d) Exception reporting (covering among others authorized and unauthorized deviations from the bank's operational risk policy and likely or actual breaches in predefined thresholds for operational exposures and losses).
 - (4) Reports should be analyzed with a view to improving existing management performance as well as developing new risk management policies, procedures and practices. Moreover, to ensure the usefulness and reliability of the reports received, management should regularly verify the timeliness, accuracy, and relevance of reporting systems and internal controls in general.
 - (5) Management should keep track of the information provided in the reports, particularly the loss data, to establish a framework for systematically tracking and recording the frequency, severity and other relevant information on loss events.
- c. *Risk control and mitigation.* Strong control environment is key to effective risk control and mitigation. In this respect, banks are expected to adhere to the standards set forth under Secs. 162, 163, and 436 (*Internal audit*) and *Appendix 117* on Internal Control and Internal Audit.

Banks shall decide whether to use appropriate procedures to control and/or mitigate the risks, or bear the significant risks that have been identified. In those instances, where internal controls do not adequately address risk and accepting the risk is not a reasonable option, banks may seek to transfer the risk to another party such as through insurance. Relative thereto, the board shall determine the maximum loss exposure the bank is willing to take and has the capacity to assume, and should perform an annual review of the bank's risk and insurance management program.

Banks, however, should not consider risk transfer tools as substitute but as complementary tools to sound controls and risk management system. Management shall also assess the extent to which risk mitigation tools such as insurance reduces risk, transfer the risk to another business sector or area, or create a new risk (e.g., counterparty risk).

Management of human resource-related risk. One of the major sources of operational risk is "people risk". In this regard, banks shall embed in their enterprise-wide risk management framework measures to identify, measure, monitor, and control human resource related risks. Banks shall ensure that there are adequate policies and risk management and control measures in the following areas:

- a. *Recruitment and selection.* The board shall establish efficient process that will facilitate timely recruitment and selection of personnel from a broad pool of candidates with appropriate educational background, skills, experience

and competencies to fulfill the duties and responsibilities of the function. Management shall also ensure that the bank's culture, values and expectations on behavior are compatible with those of its employees so that there is unity of direction and purpose.

- b. *Performance management.* The board shall establish effective performance management framework that will ensure that personnel's performance is at par with the standards set by the board/senior management. Results of performance evaluation should be linked to other human resource activities such as training and development, remuneration, and succession planning. These should likewise form part of the assessment of the continuing fitness and propriety of personnel in carrying out their respective duties and responsibilities.

The assessment of continuing fitness and propriety of personnel should take into account factors that may affect the performance of an individual. For instance, the financial circumstances of an employee who will be responsible for the custody of, or handling of cash related transactions, shall be taken into consideration in the evaluation of his continuing qualification.

- c. *Training and development.* The board shall establish training and development programs that will ensure continuing development of employees' knowledge, competence, and skill. Results of gaps assessment in the performance evaluation/appraisal process can be used in the creation of training and development programs for employees.
- d. *Remuneration and compensation.* The board shall establish sound remuneration and compensation policies that can be used by the institution to attract/recruit and retain highly qualified workforce. Said policies should appropriately motivate personnel and discourage excessive risk taking. This can be achieved through timely assessment of performance and competencies based on set standards. Results of performance assessment/appraisal can be used in the organization's remuneration decisions.
- e. *Succession planning.* The board shall establish an effective succession planning program. The program should include a system for identifying and developing potential successors for key and or critical positions in an organization, through systematic evaluation process and training. This will require identifying critical skills and competencies; assessing gaps; and designing, developing, and delivering training and development programs to build or improve critical skills and competencies. The program should be adequately documented to facilitate monitoring and assessment of its implementation.
- f. *Adequacy of complement.* The board shall establish effective strategic manpower planning to ensure that there is adequate and right manpower complement to meet the strategic goals and operational plans of the organization.
- g. *Disciplinary actions.* The board, officers and all employees are expected to conform to prescribed ethical culture and guidelines, meet performance standards, and to behave ethically/appropriately in the workplace. Disciplinary or corrective actions may be taken to improve/arrest unacceptable behavior or performance. Disciplinary action must be in accordance with the laws and the applicable rules.
- h. *Separation from service.* The board shall establish policies and procedures governing the separation of employees from service (e.g., termination, dismissal, retrenchment, retirement, or resignation), which should include transfer of accountabilities and/or salient information (e.g., client data, business strategies and formula, other trade secrets, etc.) to the successor, and clearance requirements. Policies may also include "non-compete" clauses, in accordance with existing laws.

The Human Resource Department shall assist the board in fulfilling its oversight responsibilities in the areas of recruitment, manpower planning, personnel development, performance appraisal, remuneration, termination, retrenchment and other key human resource issues.

Management of information technology-related risk. Banks shall refer to Sec. 148 for the management of information technology-related risk.

Management of integrity of prudential reports or reports submitted to Bangko Sentral. Banks shall adopt a prudential reporting framework that ensures the integrity of information submitted to the Bangko Sentral. They shall establish a system for ensuring effective compliance with the standards prescribed by the Bangko Sentral on acceptable reporting quality. Banks shall likewise maintain adequate documentation of the processes and procedures covering the prudential reporting framework and conduct a periodic review of their continuing relevance.

Management should be cognizant of relevant guidelines that may be issued by the Bangko Sentral relative to issues on the integrity and accuracy of prudential reports. Persistent concerns on the integrity and accuracy of prudential reports including failure to comply with the directives of the Bangko Sentral in this respect may be considered by the Bangko Sentral as conducting business in an unsafe or unsound manner, subject to applicable provision of laws and regulations.

Management of legal risk exposures. Banks shall adopt a system for identifying and assessing legal risks related to business line functions as well as products and services offered. This shall include a process for assessing the bank's rights and obligations in contractual relationships and in ensuring that all agreements/contracts entered into by the bank conform

to legal and regulatory requirements and that no party is unduly disadvantaged. This shall also include the assessment of trends of customer complaints to determine potential legal risk exposures.

There should be a system in place to manage outstanding legal cases involving the bank or any of its directors and officers, with respect to suits filed in line with the performance of their duties. Said system should cover a periodic review of the status of cases, an assessment of potential outcome including probable liability or receivable, and regular reporting of the same to the appropriate level of management and the board.

Management of operational risk arising from financial inclusion initiatives. Banks that provide financial services to the unserved and underserved sector generally handle small and voluminous transactions, which have inherently high operational risk. Incremental operational risk also comes from the higher number of personnel or from the use of technology-based platform to effectively and efficiently deliver financial services. Banks are expected to identify and understand the distinct operational risk arising from the products and services they offer or innovative delivery channels they use. They should also be cognizant of potential transformation or transfer or risk exposures. In this regard, banks shall adopt an operational risk management framework appropriate to the nature and scale of their operations. Said framework shall consider the principles embodied in this Section designed to suit the bank's business model and ensure sustained delivery of financial services to the unserved and underserved sector.

Notification/Reporting to Bangko Sentral. Banks shall notify the appropriate supervising department of the Bangko Sentral, within ten (10) calendar days from the date of discovery, of any operational risk event¹ that may result in any of the following:

- a. Significant operational losses or exposures;
- b. Activation of business continuity plan; or
- c. Any material change in business and operating environment.

Upon receipt of notification, the Bangko Sentral may require, if warranted, the reporting bank to submit a report detailing the causes and impact of such events and an acceptable action plan to address the issue and any other weakness identified.

Supervisory enforcement actions. Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in this Section and bring about timely corrective actions. The Bangko Sentral may issue directives to improve the operational risk management system, or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety or soundness of the bank, among others. Sanctions may likewise be imposed on a bank and/or its directors, officers and/or employees.

(Circular Nos. 969 dated 22 August 2017, 930 dated 18 November 2016, and 900 dated 18 January 2016)

147 BANK PROTECTION

Each bank shall adopt an adequate security program commensurate with its operations, taking into consideration its size, location, number of offices and business operations.

Objectives. These regulations are designed to:

- a. Promote maximum protection of life and property against crimes (e.g., robbery, hold-up, theft, etc.) and other destructive causes;
- b. Prevent and discourage perpetration of crimes against bank; and
- c. Assist law enforcement agencies in the identification, apprehension and prosecution of the perpetrators of crimes committed against banks.

Designation of a chief security officer. The board of directors of each bank, or the country head in the case of a foreign bank branch, shall designate a chief security officer (CSO).

A full-time CSO shall be designated whenever the bank operates an extensive physical network of branches and other offices that regularly handle cash. For purposes of this section, extensive branch network means a bank has at least ten (10) branches and/or other cash handling banking offices.

A bank that falls outside the preceding criteria is considered to have reduced security risk exposure and may designate a senior officer to act as concurrent CSO: *Provided*, That such designation shall not result to a conflict of interest situation.

In banking group or conglomerate structure, the parent bank or the primary bank may establish a group-wide security management system to facilitate a consolidated approach in handling security risks. This, however, does not relieve each bank from appointing its own CSO.

¹ As enumerated under Sec. 146 (*Operational risk management framework, loss event-type categories*).

Qualification and responsibilities of the CSO.

- a. Before appointing its CSO, the board of directors must ensure that its security officer-designate meets the following minimum qualifications:
 - (1) Be at least thirty (30) years of age;
 - (2) Be a college graduate;
 - (3) Have at least five (5) years experience in the field of law enforcement and/or security operations, two (2) years of which is in a managerial position; and
 - (4) Possess all the qualifications and none of the disqualifications provided for under Secs. 134 and 138, respectively.

In the event that the senior officer, acting concurrently as the bank's CSO, does not meet the minimum experience defined under Item "(3)", said officer shall be supported by a competent consultant/adviser who may be a person or a firm independent of the bank with special knowledge, skill and experience on security management matters. The hiring of said consultant/adviser shall be approved by the board of directors of the bank or the country head in the case of a foreign bank branch.

When assessing competency, the board of directors of the bank should consider the reputation and integrity, the extent of relevant education/training and the knowledge and experience of the consultant/adviser on security management matters.

- b. All CSOs, including those acting in concurrent capacity shall be responsible for:
 - (1) Developing and administering a security program appropriate to the risk profile of the bank;
 - (2) Constituting a security management team, as appropriate;
 - (3) Conducting a security awareness program among bank employees on a continuing basis;
 - (4) Investigating bank robberies/hold-ups, recommending the filing of appropriate charges in court as the evidence may warrant and assisting in the prosecution of the perpetrator(s) thereof;
 - (5) Establishing an effective working relationship with the Bangko Sentral, PNP and other law enforcement agencies in the prevention of bank crimes and other natural and man-made hazards; and
 - (6) Implementing new techniques, methods and equipment to enhance bank protection measures in a cost effective manner.

Security program. The security program of each bank shall be in writing, duly approved by its board of directors or the country head in the case of a foreign bank branch. In addition, the security program shall define measures and procedures to detect and prevent the commission of bank crimes, as well as provide contingency plans in case of calamities, terrorist attacks and other emergency situations. The security program shall include the following:

- a. Installation of the prescribed minimum security devices;
- b. A schedule for the periodic inspection, testing and servicing of all security devices installed in each of the bank's offices, designation of an officer or employee responsible for ensuring that such devices are inspected, tested, serviced and kept in good working order, and requiring record of such inspections, testing and servicing;
- c. Standard operating procedures for the safekeeping of all currencies, negotiable securities and similar valuables in vaults or safes;
- d. Provision for other security measures and procedures aimed at giving added protection to the bank, e.g., procedures for the transport of funds and other cash items, and defining responsibility for their implementation;
- e. Provision for the training and periodic re-training of employees in their respective areas of responsibility under the security program, including the proper use of security devices and proper employee conduct during and after an emergency situation;
- f. Contingency measures for security and rescue operations in emergency situations;
- g. Provision for the posting of adequate number of security personnel in all vital and/or critical areas in the bank's premises, and the minimum number of hours when each personnel shall be on duty; and
- h. Such other provisions/measures as the president of the bank or country head in the case of a foreign bank branch may, in consultation with its security officer, deem appropriate.

Minimum security measures.

- a. ***Guard system.*** All banking offices shall be manned by an adequate number of security personnel to be determined by the bank, taking into consideration its size, location, costs and overall bank protection requirement: *Provided*, That cash centers shall be manned by an adequate number of security guards as may be necessary during banking hours. For this purpose, cash centers shall refer to branches which also handle the cash requirements of other branches of the same bank.

- b. *Security devices.* Within 120 calendar days from 23 September 2008 in the case of existing offices and before opening for business in the case of offices to be opened after 23 September 2008, banks shall effect the installation, operation and maintenance, as individually appropriate, of the following security devices in each banking office;

- (1) A time delay device in the cash vault/safe;
- (2) A lighting system for illuminating the area around the vault, if the vault is visible from outside the banking office;
- (3) Tamper-resistant locks on exterior doors and windows;
- (4) A robbery alarm system or other appropriate device for promptly notifying the nearest law enforcement office either directly or through an intermediary of an attempted, ongoing or perpetrated robbery;
- (5) Anti-burglary or intrusion system capable of detecting promptly an attack on the outer doors, walls, floor or ceiling of the bank premises, including the vault(s); and
- (6) Such other devices like the closed circuit television (CCTV) and video recording system appropriate to deter the commission of bank crimes and assist in the identification and apprehension of the culprit/s: *Provided*, That the bank security officer shall consider, among other things, the following:
 - (a) The incidence of crimes against the particular banking office and other business establishments in the area where the banking office is located;
 - (b) The amount of currency or other valuables exposed to robbery and other man-made hazards;
 - (c) The distance of the banking office from the nearest law enforcement office and the time ordinarily required for law-enforcement officers to arrive at the banking office;
 - (d) The cost of the security devices;
 - (e) Other existing security measures in effect at the banking office; and
 - (f) The physical characteristics of the banking office structure and its surroundings.

Each bank shall install, operate and maintain security devices which are expected to give a general level of bank protection equivalent, at least, to the standards prescribed herein.

- c. *Vaults and safes.* Vault walls, ceilings and floors, shall be made of steel-reinforced concrete or such other equally safe materials/specifications. Vault doors shall be made of steel or other drill and torch resistant material, equipped with a dual combination lock and time-delay device, and provided with inner and outer grill doors: *Provided*, That all vaults constructed after 23 September 2008 shall be equipped with a breathing/ventilation device and emergency button capable of giving audible and visible signal in case of accidental lock-up.

A vault record book shall be maintained to record all activities relative to the opening and closing of the vault.

Safes should be sufficiently heavy or be securely anchored to the premises where located. The door shall be equipped with a combination lock with a time-delay device if used for safekeeping cash and other valuables. The body shall consist of steel with an ultimate tensile strength of 50,000 pounds per square inch or the equivalent in metric system.

Safe and vault combinations must be changed whenever the custodian is terminated or transferred to another place of assignment. A record of the names of the holder of the keys and combinations shall be maintained for each lock, safe, vault and compartment. Changing of combinations shall be documented to pinpoint responsibility and to ensure confidentiality and proper observance of this requirement.

- d. *Security of the premises.* For emergency purposes and where applicable, each banking office shall be provided with a back door with a steel or grill door which shall be used as an alternative exit door for evacuation in case of fire, flood, bomb threats, wind damage, explosion, civil disturbance, earthquake, or other emergency.

Steel grills, where applicable, shall support exterior glass doors and windows of all banking offices for protection against any forcible entry. Access to the back door shall be limited to authorized bank personnel. Opening and closing thereof before and after banking hours shall be recorded in a registry.

Firearms and other deadly weapons shall not be allowed inside bank premises except when so authorized by the bank. A signage for this purpose shall be conspicuously placed near the main entrance door of the bank. Specific guidelines as to when to allow firearms and other deadly weapons inside bank premises should be incorporated in the security program.

A bank shall maintain within its premises a record of the addresses and telephone numbers of the nearest law enforcement agencies, hospitals, rescue agencies and fire departments.

The security officer of each bank shall conduct, at least annually, a security survey of bank premises and make available the inspection report to Bangko Sentral examiners during regular examination.

The bank shall conduct fire, earthquake and bomb threat drill at least once a year.

- e. *ATM.* ATM sites shall be provided with adequate security. Where there are no security personnel assigned to secure the ATM, an anti-tampering device shall be installed on the ATM and its immediate surroundings shall be regularly inspected to promptly detect any attempt to rob or destroy the same.
- f. *Armored Car Operation.* To ensure the protection of crew members and valuables, all armored vehicles shall be built with bullet-resistant materials capable of withstanding the firepower of high-powered firearms, e.g., M16 and M14 rifles. Moreover, armored vehicles shall be equipped with a vault or safe or a partition wall with a combination lock designed to prevent retrieval of the cargo while in transit. When in use the armored vehicles shall be provided with at least two (2) armed guards and its operations must be supervised by at least two (2) officers of the bank.

All canvass bags that contain cash and other items of value shall be provided with padlocks for security and control purposes. Armored cars shall not be operated as a mobile bank.

Reports. Banks shall conduct a review and self-assessment of their security program to ensure their compliance with prescribed security requirements. Any substantive amendment thereto shall be approved by the bank's board of directors or country head in the case of branches of foreign banks. The self-assessment of compliance with prescribed security requirements together with the updated security program (if amended during the year) shall be submitted annually to the appropriate supervising department of the Bangko Sentral on or before 30 January of the following year in accordance with the format shown in *Appendix 10*. The self-assessment together with the updated security program shall be considered Category A-2 reports.

Bangko Sentral inspection. During regular examination, the Bangko Sentral reserves the right to perform a compliance assessment of the adequacy of a bank's security arrangements. The Bangko Sentral, with approval of the Governor, may also conduct at any time a targeted inspection of the bank's implementation of its security program to determine compliance with regulations. For this purpose, the Bangko Sentral may avail of the services of experts as resource persons.

Sanctions. Any violation of the provisions of this Section, as well as non-compliance with the minimum standards set forth or any directive of the Monetary Board issued pursuant hereof, shall be subject to the administrative sanctions provided under Section 37 of R.A. No. 7653 and may, depending on the materiality or seriousness of the violation, constitute a ground for considering the same as an unsafe or unsound banking.

(Circular Nos. 969 dated 22 August 2017)

148 INFORMATION TECHNOLOGY RISK MANAGEMENT¹

The enhanced guidelines on Information Technology Risk Management (ITRM) keep abreast with the aggressive and widespread adoption of technology in the financial service industry and consequently strengthen existing Bangko Sentral framework for IT risk supervision. ITRM should be considered a component and integrated with the institutions' risk management program. The guidelines likewise provide practical plans to address risks associated with emerging trends in technology and growing concerns on cyber security.

Policy statement. The rapid pace of digital innovation has significantly reshaped the financial services landscape. BSFIs employ advances in technology to sharpen business insights, enhance operational efficiencies, and deliver innovative financial products and services in line with emerging market trends and evolving client needs. Technological developments also enable greater access to financial services that promote an inclusive and responsive digital financial ecosystem. As technological innovations become more deeply entrenched in business models, infrastructure, and delivery channels, system-related failures and malfunctions can create major operational disruptions in BSFIs. Social media platforms may further complicate matters as news of disruptions as well as customer complaints can spread at unprecedented speeds. Further, cyber-threats and attacks confronting the financial services industry pose added risks that can undermine public trust and confidence in the financial system.

In line with their growing technology usage and dependence at the back of a dynamic operating and cyber-threat environment, BSFIs should establish robust and effective technology risk management processes, governance structures, and cybersecurity controls. This is to ensure that the benefits derived from technological innovations can be fully optimized without compromising financial stability, operational resilience, and consumer protection.

Purpose and scope. The enhanced guidelines aim to provide guidance in managing risks associated with use of technology. The guidelines outlined are based on international standards and recognized principles of international practice

¹ BSFIs shall comply with the Enhanced Guidelines on Information Security Management within a period of one (1) year from 5 December 2017. In this regard, a BSFI should be able to show its plan of actions with specific timelines, as well as the status of initiatives being undertaken to fully comply with the provisions of this circular, upon request of the Bangko Sentral starting December 2017.

for ITRM and shall serve as Bangko Sentral's baseline requirement for all BSFIs.

The guidelines shall apply to BSFIs which include banks, non-banks with quasi-banking function (NBQB), non-bank electronic money issuers and other non-bank institutions which under existing Bangko Sentral rules and regulations and special laws are subject to Bangko Sentral supervision and/or regulation. Moreover, subject guidelines shall also apply to BSFIs with offshore data processing as may be appropriate to their situation. The framework covers different facets of ITRM, some of which are supplemented with detailed guidelines in *Appendices 74, 75, 76, 77, 78 and 79*. The Bangko Sentral shall keep the Appendices updated and, in the future, issue additional regulations on new and emerging products, services, delivery channels, and other significant applications of technology.

Subject guidelines, including the *Appendices 74, 75, 76, 77, 78 and 79*, are not "one-size-fits-all" and implementation of these need to be risk-based and commensurate with size, nature and types of products and services and complexity of IT operations of the individual BSFIs. BSFIs shall exercise sound judgment in determining applicable provisions relevant to their risk profile.

IT Profile Classification. To ensure that IT risk management system, governance structure and processes are commensurate with the attendant IT risks, the Bangko Sentral shall determine the IT profile of all BSFIs and classify them as "*Complex*", "*Moderate*" or "*Simple*". The IT profile refers to the inherent risk of a BSFI before application of any mitigating controls, and is assessed taking into consideration the following factors:

- a. *IT infrastructure and operations.* Inherent IT risks of a BSFI largely depend on the degree of automation of core processes and applications, the size of branch networks, and the characteristics of its IT organization. BSFIs with larger branch networks and more complex organizational structures usually require a higher degree of reliance on IT systems/infrastructure, which in turn, carry higher levels of inherent IT risks. Interconnectivity risks also play a factor in determining IT risk levels since added connections to third party networks increase complexity as well as exposure to potential information security/cybersecurity risks. These include participation in electronic payment systems and interconnections with other financial institutions, business partners, customers, and third party service providers, among others.
- b. *Digital/Electronic financial products and services.* Digital/electronic financial products and services provided to the BSFI's corporate and retail clients, by their very nature, can have a direct impact on IT risks, including information security/cybersecurity risks. This is because these products and services are normally provided via the internet or public networks which are inherently risky. Digital/electronic financial products and services include ATM debit, prepaid and credit cards and e-channels such as ATM terminals, point-of-sale (POS) terminals, internet banking and mobile banking facilities, among others. BSFIs that are more aggressive in providing such services are expected to have greater IT risks.
- c. *IT projects and initiatives.* The extent and nature of the BSFI's IT projects prospectively impact IT risk exposure and complexity. For instance, developing or acquiring a new core banking system is considered a major project, that if not adequately managed and overseen, may heighten inherent IT risks. Also, IT projects and initiatives entail the use of current resources in terms of funding and manpower that might affect existing IT operations and risk profile.
- d. *Outsourced services.* While outsourcing in general does not diminish the BSFI's responsibility over the function/service outsourced, outsourcing poses an added dimension to IT and information security risks. For this reason, outsourcing arrangements require a higher degree of oversight, due diligence, and risk management controls. Outsourcing core IT services and functions via cloud computing platforms may further intensify IT and information security risks.
- e. *Systemic importance.* The systemic importance of a BSFI is a critical determinant in assessing inherent IT and information security/cybersecurity risks since BSFIs identified as "*Domestic Systemically Important Banks*" or D-SIBs are essentially larger in size and have more complex operations and product offerings. Moreover, cyber-attacks against D-SIBs can have serious implications to financial and economic stability that may undermine public trust and confidence in the financial system.
- f. *Threats.* The volume, type, and severity of cyber-attacks and fraud targeting a specific BSFI affects IT and cybersecurity risk profiles. Some BSFIs may be more prone to attacks compared to others by virtue of their asset size, customer base, systemic importance, and other factors. Thus, BSFIs that are likely targets of these types of threats should have greater degree of cyber-preparedness and resilience.

A general description for each IT profile classification is outlined as follows:

IT Profile Classification	General Description/Attributes
---------------------------	--------------------------------

Complex	A BSFI with complex IT profile uses technology extensively in supporting mission-critical business processes and delivering financial products and services. It has ubiquitous branch network in the country and offers a wide array of digital/electronic financial products and services to a large number of corporate and retail clients. It is highly interconnected with external third party stakeholders and actively participates in electronic payment systems and networks, usually involving large-value transfers. Business strategies and objectives are largely anchored on IT platforms, digital innovation, and technology-based solutions. It is also aggressively utilizing/exploring emerging technologies such as cloud computing, social media and big data.
Moderate	A BSFI classified as moderate uses technology to some extent, but not as aggressively as those classified as complex. Its branch network, IT organization and structure, and extent of IT projects are also relatively less significant than those of complex BSFIs. IT applications and systems are integrated but primarily support traditional banking products and services. It may offer basic digital/electronic products and services, such as ATM terminals/card-based products, to a limited number of clients.
Simple	A BSFI classified as simple generally has very limited use of technology with minimal interconnectivity to its clients and other institutions. Likewise, branch network or geographic presence is confined to a specific locality. IT applications and systems are stand-alone or are not fully integrated and e-banking products and services are rarely offered. A simple BSFI also has few IT personnel and customer base.

The IT profile of rural banks, cooperative banks, NBFIs, and non-bank institutions shall be classified as *"Simple"*, unless notified by the Bangko Sentral of a higher classification. For other BSFIs, the Bangko Sentral shall notify in writing their assigned classification within a reasonable timeline from 5 December 2017. The Bangko Sentral-assigned classification shall remain effective until such time that the Bangko Sentral informs the concerned BSFI of a change in classification.

The Bangko Sentral assessment and classification process should not preclude BSFIs from assessing their own IT profile classification on an ongoing basis. All BSFIs are required to have periodic and rigorous self-assessment exercises using more robust data sets and variables as part of their information security risk management system.

IT rating system. The Bangko Sentral, in the course of its on-site examination activities, shall evaluate BSFIs' ITRM system and measure the results based on Bangko Sentral's IT rating system. A composite rating is assigned based on a "1" to "4" numerical scale, as follows:

4	BSFIs with this rating exhibit strong performance in every respect. Noted weaknesses in IT are minor in nature and can be easily corrected during the normal course of business.
3	BSFIs with this rating exhibit satisfactory performance but may demonstrate modest weaknesses in operating performance monitoring, management processes or system development.
2	BSFIs with this rating exhibit less than satisfactory performance and require considerable degree of supervision due to a combination of weaknesses that may range from moderate to severe.
1	BSFIs with this rating exhibit deficient IT environment that may impair the future viability of the entity, thereby requiring immediate remedial action.

Definition of terms. In these guidelines, terms are used with the following meanings:

- Advanced persistent threat or APT* shall refer to a sophisticated form of attack that involves coordinating multiple methods of identifying and exploiting a target's vulnerabilities over an extended period to do harm.
- Card skimming* shall refer to the illegal copying of information from the magnetic stripe of a credit or ATM card to gain access to accounts.
- Cloud computing* shall refer to a model for enabling ubiquitous, convenient, and on-demand network access to a shared pool of configurable computing resources that can be rapidly provisioned and released with minimal management effort or service provider interaction.
- Compromised state* shall refer to a state wherein someone or something has maliciously broken into networks, systems and computers which raises doubt as to the integrity of information assets, such as but not limited to, program files, image files, and operating system files.

- e. *Cyber-threat* shall refer to a deliberate act of omission or commission by any person carried out using the internet and/or other electronic channels, in order to communicate false or fraudulent representations to prospective victims, to conduct fraudulent transactions, or to illegally obtain proprietary data or information related to the institution, their customers and other stakeholders. Cyber-threat can be used synonymously with cyber-fraud, cyber-attack or cyber-related incidents.
- f. *Cybersecurity* shall refer to technologies, processes, and practices designed to protect a BSFI's information assets and consumers by preventing, detecting, and responding to cyber-attacks.
- g. *Data Breach* shall refer to an incident in which sensitive, protected or confidential data or information has potentially been viewed, stolen, leaked used, or destroyed by unauthorized persons.
- h. *Defense-in-depth* shall refer to a security strategy or design of deploying security controls over multiple or various layers across the network, systems, and applications such that a failure in one control would be compensated by another control in the next layer. This approach effectively delays or disrupts an attacker's ability to progress within the attack sequence.
- i. *Distributed denial of Service (DDoS)* shall refer to a type of attack which makes use of the capacity limitation of enterprise networks, systems or ingress with extreme traffic loads.
- j. *Hacking* shall refer to unauthorized access into or interference in networks, systems and computers without the knowledge and consent of the system/information owner.
- k. *Information security program (ISP)* shall refer to information security policies, standards and procedures, security operations, technologies, organizational structures, and information security awareness and training programs aimed at protecting a BSFI's information assets and supporting infrastructure from internal and external threats.
- l. *Information security strategic plan (ISSP)* shall refer to the roadmap to guide a BSFI in transforming the current state of security to the desired state taking into account business goals and strategies.
- m. *Information security risk management (ISRM)* shall refer to the process of identifying, assessing, mitigating, managing, and monitoring information security risks, including cyber-risk, to ensure these are within acceptable levels. It should be integrated into the BSFI's ISP and enterprise-wide risk management system.
- n. *Malware* shall refer to malicious software that compromises the confidentiality, availability or integrity of information systems, networks or data. Examples of malware include ransomware, trojans, adware, botnets, bugs, and spyware, among others.
- o. *Pharming* shall refer to a form of cyber-attack that redirects a website traffic to another fake website to obtain user credentials and information.
- p. *Phishing* shall refer to the use of electronic communications such as e-mail to masquerade with trusted identity to capture sensitive information to gain access to accounts. It involves tricking customers into giving sensitive information through fraudulent emails or websites.
- q. *Reportable major cyber-related incidents* shall refer to any cyber-related incidents that meet the criteria for reporting/notification to the Bangko Sentral as laid out in Item "a(2)(a)" of this Section (*Reporting and Notification Standards*).
- r. *Security operations center (SOC)* shall refer to a unit or function that provides centralized visibility, continuous monitoring, and rapid response and recovery procedures on security incidents and events.
- s. *Spearphishing* shall refer to a more advanced type of phishing attack which is customized to a particular target (e.g., executives, privileged users, etc.).
- t. *Threat actor* shall refer to a person, group or nation/state/government that carries out or intends to carry out damaging acts against another party. An advanced threat actor shall refer to a person, organized group, or nation/state/government that (a) possesses superior capabilities, resources and skills to launch sophisticated cyber-attacks; or (b) seeks military and/or intelligence information for cyber-espionage purposes.
- u. *Threat intelligence* shall refer to the process of gathering and analyzing information about the proficiencies, tactics, and motives of malicious actors/attackers that enables a BSFI to institute appropriate countermeasures quickly.

Description of IT-related risks. As BSFIs increase their reliance on IT to deliver products and services, inappropriate usage of IT resources may have significant risk exposures. While IT does not trigger new types of risks, it brings in new dimensions to traditional banking risks (i.e. strategic risk, credit risk, market risk, liquidity risk and operational risk) that require new or enhanced control activities (e.g. a failure of a credit risk measurement application is an IT failure and, therefore, a systems failure in the sense of operational risk). Moreover, IT is an implied part of any system of internal

controls, regardless of the type of risk and, consequently, forms an important element in organization-wide risk management. Among the risks associated with the use of IT are the following:

- a. *Operational risk* is the risk to earnings and capital arising from problems with service or product delivery. This risk is a function of internal controls, IT systems, employee integrity and operating processes. Operational risk exists in all products and services;
- b. *Strategic risk* is the risk to earnings and capital arising from adverse business decisions on IT-related investments or improper implementation of those decisions. The risk is a function of the compatibility of an organization's strategic goals, the business strategies developed to achieve those goals, the resources deployed against these goals and the quality of implementation. The resources needed to carry out business strategies are both tangible and intangible which include communication channels, operating systems, delivery networks and managerial capacities and capabilities;
- c. *Reputational risk* is the risk to earnings and capital arising from negative public opinion. This affects the institution's ability to establish new relationships or services or continue servicing existing relationships. The risk can expose the institution to litigation, financial loss or damage to its reputation; and
- d. *Compliance risk* is the risk to earnings and capital arising from the violations of, or non-conformance with laws, rules and regulations, prescribed practices or ethical standards. Compliance risk also arises in situations where the laws and rules governing certain products activities of the BSFI's clients may be ambiguous or untested. Compliance risk exposes the institution to monetary penalties, non-monetary sanctions and possibility of contracts being annulled or declared unenforceable.

IT Risk Management System (ITRMS). As BSFIs become more dependent on IT systems and processes, technology risks and information security issues have become progressively more complex and pressing in recent years. Information security is just as important as the new technologies being installed by BSFIs. As progress in technology shifts to higher gear, the trend in cyber-attacks, intrusions, and other form of incidents on computer systems shows that it will not only persist but will continue to increase in frequency and spread in magnitude.

Management of IT risks and information security issues becomes a necessity and an important part of BSFIs' risk management system. BSFIs are therefore required to establish a robust ITRM system covering four (4) key components: 1) IT governance, 2) risk identification and assessment, 3) IT controls implementation, and 4) risk measurement and monitoring.

- a. *IT Governance.* This is an integral part of BSFIs' governance framework and consists of the leadership and organizational structures and processes that ensure the alignment of IT strategic plan with BSFIs' business strategy, optimization of resources management, IT value delivery, performance measurement and the effective and efficient use of IT to achieve business objectives and effective IT risk management implementation. BSFIs must establish an effective IT governance framework covering the following:
 - (1) *Oversight and organization of IT functions.* Accountability is a key concern of IT governance and this can be obtained with an organizational structure that has well-defined roles for the responsibility of information, business processes, applications, IT infrastructure, etc.

The board of directors is ultimately responsible for understanding the IT risks confronted by a BSFI and ensuring that they are properly managed, whereas the senior management is accountable for designing and implementing the ITRMS approved by the board. For complex BSFIs, the board may delegate to an IT steering committee (ITSC) or its equivalent IT oversight function to cohesively monitor IT performance and institute appropriate actions to ensure achievement of desired results. The ITSC, at a minimum, should have as members a non-executive director who oversees the institution's IT function, the head of IT group/department, and the highest rank officer who oversees the business user groups. The head of control groups should participate in ITSC meetings in advisory capacity only.

A charter should be ratified by the board to clearly define the roles and responsibilities of the ITSC. Formal minutes of meeting should be maintained to document its discussions and decisions. The ITSC should regularly provide adequate information to the board regarding IT performance, status of major IT projects or other significant issues to enable the board to make well-informed decisions about the BSFIs' IT operations.

BSFIs should develop an IT strategic plan that is aligned with the institution's business strategy. This should be undertaken to manage and direct all IT resources in line with the business strategy and priorities. IT strategic plan should focus on long term goals covering three (3) to five (5) year horizon and should be sufficiently supplemented by tactical IT plans which specify concise objectives, action plans and tasks that are understood and accepted by both business and IT. The IT strategic plan should be formally documented, endorsed by the Board and communicated to all stakeholders. It should be reviewed and updated regularly for new risks or opportunities to maximize the value of IT to the institution.

BSFIs should also create an organization of IT functions that will effectively deliver IT services to business units. For complex BSFIs, a full-time IT head or equivalent rank should be designated to take the lead in key IT initiatives and oversee the effectiveness of the IT organization. In addition to managing the delivery of day-

to-day IT services, the IT head should also oversee the IT budget and maintain responsibility for performance management, IT acquisition oversight, professional development and training. The IT head should be a member of executive management with direct involvement in key decisions for the BSFI and usually reports directly to the president or chief executive officer.

A clear description of roles and responsibilities for individual IT functions should be documented and approved by the board. Proper segregation of duties within and among the various IT functions should be implemented to reduce the possibility for an individual to compromise a critical process. A mechanism should be in place to ensure that personnel are performing only the functions relevant to their respective jobs and positions. In the event that an institution finds it difficult to segregate certain IT control responsibilities, it should put in place adequate compensating controls (e.g. peer reviews) to mitigate the associated risks.

- (2) *IT policies, procedures and standards.* IT controls, policies, and procedures are the foundation of IT governance structure. It helps articulate the rules and procedures for making IT decisions, and helps to set, attain, and monitor IT objectives.

BSFIs should adopt and enforce IT-related policies and procedures that are well-defined and frequently communicated to establish and delineate duties and responsibilities of personnel for better coordination, effective and consistent performance of tasks, and quicker training of new employees. Management should ensure that policies, procedures, and systems are current and well-documented. The ITSC should review IT policies, procedures, and standards at least on an annual basis. Any updates and changes should be clearly documented and properly approved. IT policies and procedures should include at least the following areas:

- IT Governance/Management;
- Development and Acquisition;
- IT Operations;
- Communication networks;
- Information security;
- Electronic Banking/Electronic Products and Services; and
- IT Outsourcing/Vendor Management.

For simple BSFIs, some of the above areas (i.e., development, electronic banking, etc.) may not be applicable, thus sound judgment should be employed to ensure that the BSFI's IT policies and procedures have adequately covered all applicable areas.

- (3) *IT audit.* Audit plays a key role in assisting the board in the discharge of its corporate governance responsibilities by performing an independent assessment of technology risk management process and IT controls.

Auditors provide an assurance that important control mechanisms are in place for detecting deficiencies and managing risks in the implementation of IT. They should be qualified to assess the specific risks that arise from specific uses of IT. BSFIs should establish effective audit programs that cover IT risk exposures throughout the organization, risk-focused, promote sound IT controls, ensure the timely resolution of audit deficiencies and periodic reporting to the Board on the effectiveness of institution's IT risk management, internal controls, and IT governance. Regardless of size and complexity, the IT audit program should cover the following:

- Independence of the IT audit function and its reporting relationship to the Board or its Audit Committee;
- Expertise and size of the audit staff relative to the IT environment;
- Identification of the IT audit universe, risk assessment, scope, and frequency of IT audits;
- Processes in place to ensure timely tracking and resolution of reported weaknesses; and
- Documentation of IT audits, including work papers, audit reports, and follow-up.

In case in-house IT audit expertise is not available, such as for a simple BSFI, the IT audit support may be performed by external specialists and auditors of other institutions consistent with existing Bangko Sentral rules and regulations on outsourcing. (Detailed guidelines/standards on IT Audit are shown in *Appendix 74*).

- (4) *Staff competence and training.* The rapid development in technology demands appropriate, skilled personnel to remain competent and meet the required level of expertise on an ongoing basis.

BSFIs should have an effective IT human resources management plan that meets the requirements for IT and the business lines it supports. Management should allocate sufficient resources to hire and train employees to ensure that they have the expertise necessary to perform their job and achieve organizational goals and objectives.

Management needs to ensure that staffing levels are sufficient to handle present and expected work demands, and to cater reasonably for staff turnover. Appropriate succession and transition strategies for key officers and personnel should be in place to provide for a smooth transition in the event of turnover in vital IT management or operations functions.

- (5) *Management Information Systems (MIS)*. The BSFIs' IT organization often provides an important support role for their MIS. Accurate and timely MIS reports are an essential component of prudent and reasonable business decisions. At the most senior levels, MIS provides the data and information to help the Board and management make strategic decisions. At other levels, MIS allows management to monitor the institution's activities and distribute information to other employees, customers, and members of management.

Advances in technology have increased the volume of information available to management and directors for planning and decision-making. However, if technology is not properly managed, the potential for inaccurate reporting and flawed decision making increases. Because report generation systems can rely on manual data entry or extract data from many different financial and transaction systems, management should establish appropriate control procedures to ensure information is correct, relevant, and adequately protected. Since MIS can originate from multiple equipment platforms and systems, the controls should ensure all information systems have sufficient and appropriate controls to maintain the integrity of the information and the processing environment. Sound fundamental principles for MIS review include proper internal controls, operating procedures, safeguards, and audit coverage.

- (6) *IT risk management function*. Management of risk is a cornerstone of IT Governance. BSFIs should have a policy requiring the conduct of identification, measurement, monitoring and controlling of IT risks for each business function/service on a periodic basis. BSFIs should define and assign these critical roles to a risk management unit or to a group of persons from different units collectively performing the tasks defined for this function.

The function should have a formal technology risk acknowledgement and acceptance process by the owner of risk to help facilitate the process of reviewing, evaluating and approving any major incidents of non-compliance with IT control policies. The process can be supported by the following:

- a description of risk being considered for acknowledgement by owner of risk and an assessment of the risk that is being accepted;
- identification of mitigating controls;
- formulation of a remedial plan to reduce risk; and
- approval of risk acknowledgement from the owner of the risk and senior management.

ITRM processes should be integrated into the enterprise-wide risk management processes to allow BSFIs to make well-informed decisions involving business plans and strategies, risk responses, risk tolerance levels and capital management, among others.

- b. *Risk identification and assessment*. BSFIs should maintain a risk assessment process that drives response selection and controls implementation. An effective IT assessment process begins with the identification of the current and prospective IT risk exposures arising from the institution's IT environment and related processes. The assessments should identify all information assets, any foreseeable internal and external threats to these assets, the likelihood of the threats, and the adequacy of existing controls to mitigate the identified risks. Management should continually compare its risk exposure to the value of its business activities to determine acceptable risk levels.

Once management understands the institution's IT environment and analyzes the risk, it should rank the risks and prioritize its response. The probability of occurrence and the magnitude of impact provide the foundation for reducing risk exposures or establishing mitigating controls for safe, sound, and efficient IT operations appropriate to the complexity of the organization. Periodic risk assessment process should be done at the enterprise-wide level and an effective monitoring program for the risk mitigation activities should be manifested through mitigation or corrective action plans, assignment of responsibilities and accountability and management reporting.

- c. *IT controls implementation*. Controls comprise of policies, procedures, practices and organizational structures designed to provide reasonable assurance that business objectives will be achieved and undesired events will be mitigated. Management should establish an adequate and effective system of internal controls based on the degree of exposure and the potential risk of loss arising from the use of IT. Controls for IT environment generally should address the overall integrity of the environment and should include clear and measurable performance goals, the allocation of specific responsibilities for key project implementation, and independent mechanisms that will both measure risks and minimize excessive risk-taking. BSFI Management should implement satisfactory control practices that address the following as part of its overall IT risk mitigation strategy: 1) Information security; 2) Project management/development and acquisition and change management; 3) IT operations; 4) IT outsourcing/Vendor management; and 5) Electronic banking, Electronic payments, Electronic money and other Electronic products and services.

- (1) *Information security*. Information is a vital asset of a BSFI that must be adequately protected and managed to preserve its confidentiality, integrity and availability. Considering the crucial role information plays in supporting business goals and objectives, driving core operations and critical decision-making, information security is intrinsically linked to the overall safety and soundness of BSFIs. Thus, the BSFI needs to put in place a robust, resilient and enterprise-wide framework for ISRM supported by effective information security governance and oversight mechanisms. Information security risk exposures must be managed to within

acceptable levels through a dynamic interplay of people, policies and processes, and technologies and must be integrated with the enterprise-wide risk management system.

Management should adopt a holistic, integrated and cyclical approach to managing information security risks. An ISRM framework should be in place encompassing key elements and phases with effective governance mechanisms to oversee the entire process. The framework represents a continuing cycle that should evolve over time taking into account changes in the operating and business environment as well as the overall cyber-threat landscape.

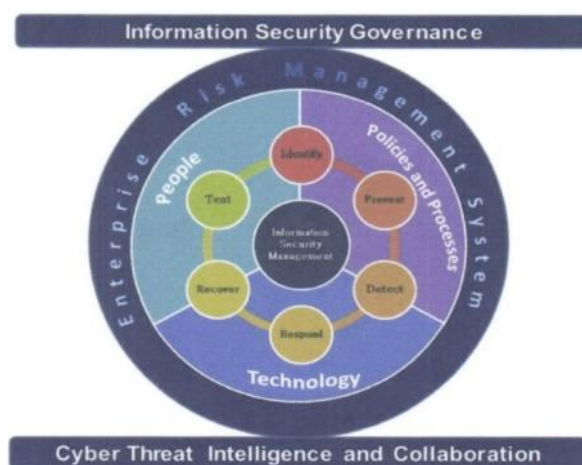

Figure 1. Information Security Risk Management Framework

The ISRM framework is based upon the following underlying fundamental principles and concepts:

- (a) *Strong leadership and effective Information Security (IS) governance and oversight.* The BSFI's board and senior management set the overall tone and strategic direction for information security by providing strong leadership, effective information security governance and oversight. They should take the lead in establishing an information security culture that regards security as an intrinsic part of the BSFI's core business and operations. Instilling a strong security culture ensures that security controls, processes, and measures are deeply embedded into the institution's lines of business, products, services and processes, including its employees and external relationships. The board and senior management should adopt the right mindset and understand the crucial role of information security in supporting/achieving business goals and objectives. Towards this end, they should oversee the development of an information security strategic plan (ISSP) to clearly articulate security strategies and objectives aligned with business plans.

The BSFI should maintain a comprehensive, well-designed and effective information security program (ISP) that is commensurate with its operational and IT profile complexity. To ensure its effectiveness and sustainability, the ISP should have strong support from the board and senior management as well as cooperation of all concerned stakeholders. Management should see to it that adequate resources, organizational functions/capabilities, policies, standards, and procedures as well as the supporting infrastructure commensurate with the BSFI's IT risk complexity and appetite are available and optimized to effectively implement the ISSP and ISP. Lastly, the board and senior management should appoint a chief information security officer (CISO), a senior level executive with sufficient authority within the institution, who will be responsible and accountable for the organization-wide ISP.

- (b) *Integrated, holistic and risk-based approach.* The ISRM should form an integral part of the BSFI's ISP and enterprise risk management system. It encompasses the people, policies and processes, and technology elements in the organization that should be harmonized to support information security goals and objectives. Information security is not achieved by merely focusing on technology or one aspect and no one element is superior over the other. Each of these elements must work together to achieve the desired security posture and manage information security risks to acceptable levels. In line with the increasing interconnectivity of BSFIs and other industry players, the ISRM should also consider security controls and requirements over third party service providers, customers, banks, and other third party stakeholders which are linked or have access to the BSFI's network and systems. This is because threat actors may launch their attacks on the BSFI through these third party networks.

Likewise, the ISRM including cyber-risk management programs should be commensurate with the inherent risks involved. This means that the BSFI's information security controls and maturity levels should be commensurate with its operations and complexity of IT profile. In this regard, in determining whether a certain control requirement is applicable to the BSFI, it shall first assess the complexity of its IT profile pursuant to Sec. 148. BSFIs with complex IT profile are expected to implement the more advanced security control measures and be at the higher levels of the information security/cyber-

maturity curve. BSFIs may also refer to leading standards and frameworks issued by standard-setting bodies¹ on information security and cybersecurity in designing their ISRM.

- (c) *Continuing cycle.* The ISRM involves a continuing cycle consisting of the following six (6) major phases:
- (i) *Identify.* The starting point of the cycle is the identification of the BSFI's information security as well as cyber-related risks. Under this phase, management needs to identify its business processes and functions, information assets classified as to sensitivity and criticality, threats and vulnerabilities, interconnections, and security architecture. Identification of these factors facilitates BSFI's understanding and assessment of its inherent information security and cyber risks which are key inputs in determining, designing, and implementing the appropriate risk treatment options.
 - (ii) *Prevent.* After identifying these key factors and assessing the information security and cyber risks, the prevent phase comes into play where adequate protection mechanisms and controls are designed and implemented. These include measures ranging from baseline to advanced tools and approaches such as defense-in-depth, malware prevention, access controls and cybersecurity awareness programs, among others. These preventive controls are generally categorized into three (3) types, as follows:
 - (aa) *Administrative controls* – refer to the policies, standards, and procedures in place which articulate Management's intent, expectations, and direction on information security. It also includes security trainings and awareness programs and personnel security practices designed to prevent unwarranted employee behavior.
 - (bb) *Physical and environmental controls* – pertain to the security controls and measures implemented to protect physical infrastructure such as data centers, computer facilities, and equipment from damage, unauthorized access or environmental hazards.
 - (cc) *Technical controls* – refer to the logical security controls, security tools, and technologies to ensure that the confidentiality, integrity, and availability objectives for information assets are achieved.
 - (iii) *Detect.* Detection capabilities should also be in place as prevention alone is not sufficient. As demonstrated in recent cyber-attacks, the ability of an institution to quickly detect anomalous activities and evaluate the scope of an attack is an important aspect in significantly reducing negative impacts. Management should design and implement effective detection controls over the BSFI's networks, critical systems and applications, access points, and confidential information.
 - (iv) *Respond.* The response phase is triggered upon confirmation of an occurrence of a cyber-attack or security incident affecting the BSFI and its customers. With the growing incidence of sophisticated cybercrimes and threats, the BSFI should be prepared to respond quickly considering that cyber-attacks are no longer a remote possibility. Therefore, it should develop comprehensive, updated, and tested incident response plans supported by well-trained incident responders, investigators, and forensic data collectors. Through adequate response capabilities, the BSFI should be able to minimize and contain the damage and impact arising from security incidents, immediately restore critical systems and services, and facilitate investigation to determine root causes.
 - (v) *Recover.* This phase encompasses both the resumption of activities at a level which is considered "good enough for a certain period of time" and full recovery, i.e., an eventual return to full service. Management should be able to establish back-up facilities and recovery strategies to ensure the continuity of critical operations. During the recovery phase, it should ensure that information processed using back-up facilities and alternate sites still meet acceptable levels of security. To achieve cyber resilience, the BSFI should consider information security incidents and cyber-related attack scenarios in its business continuity management and recovery processes.
 - (vi) *Test.* The BSFI needs to continually assess and test controls and security measures implemented under the prevent, detect, respond, and recover phases to ensure that these are effective and working as intended. Likewise, a comprehensive, systematic and layered testing and assurance program covering security processes and technologies should be in place. This is to ensure that the ISRM is on track in providing appropriate level of information security commensurate with the BSFI's IT profile complexity. This phase also ensures that both the ISSP and ISP remain effective vis-a-vis the fast-evolving cyber-threat landscape.
- (d) *Cyber threat intelligence and collaboration.* In response to the growing cyber-threat landscape, BSFIs need to step up their information security posture and resilience beyond their respective networks. Likewise, BSFIs need to enhance situational awareness that would provide a keen sense of the threat

¹ US National Institute of Standards and Technology (NIST), ISO/IEC, ISACA and Committee and Payments and Market Infrastructures (CPMI), among others.

landscape as it relates to their IT risk and cyber-risk profiles, operating complexities, and business models. Further, BSFIs need to collaborate with each other, including regulators, law enforcement agencies, and other third party stakeholders for a collective, coordinated, and strategic response through information sharing and collaboration. Information sharing allows BSFIs to enhance threat intelligence that enables quick identification, prevention and response to emerging and persistent threats. (Detailed guidelines/standards on information security are shown in *Appendix 75*).

- (2) *Project management/development and acquisition and change management.* BSFIs should establish a framework for management of IT-related projects. The framework should clearly specify the appropriate project management methodology that will govern the process of developing, implementing and maintaining major IT systems. The methodology, on the other hand, should cover allocation of responsibilities, activity breakdown, budgeting of time and resources, milestones, checkpoints, key dependencies, quality assurance, risk assessment and approvals, among others. In the acquisition and/or development of IT solutions, BSFIs should ensure that business and regulatory requirements are satisfied. (Detailed guidelines/standards on Project Management/Development and Acquisition and Change Management are shown in *Appendix 76*).
- (3) *IT operations.* IT has become an integral part of the day-to-day business operation, automating and providing support to nearly all of the business processes and functions within the institution. Therefore, the IT systems should be reliable, secure and available when needed which translates to high levels of service and dependency on IT to operate.

One of the primary responsibilities of IT operations management is to ensure the institution's current and planned infrastructure is sufficient to accomplish its strategic plans. BSFI management should ensure that IT operates in a safe, sound, and efficient manner throughout the institution. Given that most IT systems are interconnected and interdependent, failure to adequately supervise any part of the IT environment can heighten potential risks for all elements of IT operations and the performance of the critical business lines of the BSFIs. Such scenario necessitates the coordination of IT controls throughout the institution's operating environment. (Detailed guidelines/standards on IT Operations are shown in *Appendix 77*).

- (4) *IT outsourcing/vendor management program.* IT outsourcing refers to any contractual agreement between a BSFI and a service provider or vendor for the latter to create, maintain, or reengineer the institution's IT architecture, systems and related processes on a continuing basis. A BSFI may outsource IT systems and processes except those functions expressly prohibited by existing regulations. The decision to outsource should fit into the institution's overall strategic plan and corporate objectives and said arrangement should comply with the provisions of existing Bangko Sentral rules and regulations on outsourcing. Although the technology needed to support business objectives is often a critical factor in deciding to outsource, managing such relationships should be viewed as an enterprise-wide corporate management issue, rather than a mere IT issue.

While IT outsourcing transfers operational responsibility to the service provider, the BSFIs retain ultimate responsibility for the outsourced activity. Moreover, the risks associated with the outsourced activity may be realized in a different manner than if the functions were inside the institution resulting in the need for controls designed to monitor such risks.

BSFI management should implement an effective outsourcing oversight program that provides the framework for management to understand, monitor, measure, and control the risks associated with outsourcing. BSFIs outsourcing IT services should have a comprehensive outsourcing risk management process which provides guidance on the following areas: 1) risk assessment; 2) selection of service providers; 3) contract review; and 4) monitoring of service providers. Detailed guidelines/standards on IT Outsourcing/Vendor Management and on the adoption of outsourced cloud computing model are shown in *Appendix 78*.

- (5) *Electronic products and services.* The evolution in technology revolutionized the way banking and financial products and services are delivered. Physical barriers were brought down enabling clients to access their accounts, make transactions or gather information on financial products and services anywhere they are, at any time of the day and at their own convenience. As development in technology continues to accelerate, innovative electronic products and services are foreseen to bring more accessibility and efficiency. However, BSFIs may be confronted with challenges relating to capacity, availability and reliability of the electronic services. Likewise, fraudulent activities via electronic channels are also rising in number.

BSFIs should protect customers from fraudulent schemes done electronically. Otherwise, consumer confidence to use electronic channels as safe and reliable method of making transactions will be eroded. To mitigate the impact of cyber fraud, BSFIs should adopt aggressive security posture such as the following:

- (a) The entire ATM system shall be upgraded/converted to allow adoption of end-to-end Triple DES (3DES) encryption standards by 01 January 2015. The 3DES encryption standards shall cover the whole ATM network which consists of the host processors, switches, host security module (HSM), automated teller machines (ATMs), point-of-sale (POS) terminals and all communication links connected to the network;
- (b) ATMs to be installed after 04 September 2014 should be 3DES compliant; and

- (c) ATMs, POS terminals and payment cards are also vulnerable to skimming attacks due to the lack of deployment of globally recognized EMV enabled technology by BSFIs. Magnetic stripe only ATMs, POS Terminals and cards are largely defenseless against modern fraud techniques. Therefore, all concerned BSFIs should shift from magnetic stripe technology to EMV chip-enabled cards, POS Terminals and ATMs. The entire payment card network should be migrated to EMV. This requirement shall cover both issuing and acquiring programs of concerned BSFIs. A written and board-approved EMV migration plan should be submitted to the appropriate supervising department of the Bangko Sentral within six (6) months from 22 August 2013. The guidelines on EMV Implementation are shown in *Appendix 112*. The guidelines on the EMV Card Fraud Liability Shift Framework (ECFLSF) are in *Appendix 113*.¹

Detailed guidelines/standards on Electronic Products and Services are shown in *Appendix 79*.

- d. *Risk measurement and monitoring.* BSFI Management should monitor IT risks and the effectiveness of established controls through periodic measurement of IT activities based on internally established standards and industry benchmarks to assess the effectiveness and efficiency of existing operations. Timely, accurate, and complete risk monitoring and assessment reports should be submitted to management to provide assurance that established controls are functioning effectively, resources are operating properly and used efficiently and IT operations are performing within established parameters. Any deviation noted in the process should be evaluated and management should initiate remedial action to address underlying causes. The scope and frequency of these performance measurement activities will depend on the complexity of the BSFI's IT risk profile and should cover, among others, the following:
- (1) *Performance vis-à-vis approved IT strategic plan.* As part of both planning and monitoring mechanisms, BSFI management should periodically assess its uses of IT as part of overall business planning. Such an enterprise-wide and ongoing approach helps to ensure that all major IT projects are consistent with the BSFI's overall strategic goals. Periodic monitoring of IT performance against established plans shall confirm whether IT strategic plans remain in alignment with the business strategy and the IT performance supports the planned strategy.
 - (2) *Performance benchmarks/service levels.* BSFIs should establish performance benchmarks or standards for IT functions and monitor them on a regular basis. Such monitoring can identify potential problem areas and provide assurance that IT functions are meeting the objectives. Areas to consider include system and network availability, data center availability, system reruns, out of balance conditions, response time, error rates, data entry volumes, special requests, and problem reports.

Management should properly define services and service level agreements (SLA) that must be monitored and measured in terms understandable to the business units. SLA with business units and IT department should be established to provide a baseline to measure IT performance.

- (3) *Quality assurance/quality control.* BSFI should establish quality assurance (QA) and quality control (QC) procedures for all significant activities, both internal and external, to ensure that IT is delivering value to business in a cost effective manner and promotes continuous improvement through ongoing monitoring. QA activities ensure that product conforms to specification and is fit for use while QC procedures identify weaknesses in work products and to avoid the resource drain and expense of redoing a task. The personnel performing QA and QC reviews should be independent of the product/process being reviewed and use quantifiable indicators to ensure objective assessment of the effectiveness of IT activities in delivering IT capabilities and services.
- (4) *Policy compliance.* BSFIs should develop, implement, and monitor processes to measure IT compliance with their established policies and standards as well as regulatory requirements. In addition to the traditional reliance on internal and third party audit functions, BSFIs should perform self-assessments on a periodic basis to gauge performance which often lead to early identification of emerging or changing risks requiring policy changes and updates.
- (5) *External assessment program.* Complex BSFIs may also seek regular assurance that IT assets are appropriately secured and that their IT security risk management framework is effective. This may be executed through a formal external assessment program that facilitates a systematic assessment of the IT security risk and control environment over time.

Reporting and notification standards. In line with the increased reliance on and adoption of technology by BSFIs, along with growing concerns on cybersecurity, BSFIs should submit regular and event-driven reports covering technology-related information as well as incidence of major cyber-attacks and operational disruptions. This will enable the Bangko Sentral to have an enhanced visibility on the changing IT risk landscape and to proactively ensure that the impact and risks arising from cyber-related incidents and operational disruptions are minimized and contained to avert potential systematic risks to the financial system.

¹ This paragraph shall take effect on 01 January 2017.

- a. Reporting requirement. BSFIs are required to submit to the Bangko Sentral the following reports/information:
- (1) Periodic reports. BSFIs shall submit an Annual IT Profile, as listed in *Appendix 7*, electronically to the appropriate supervising department of the Bangko Sentral within twenty five (25) days from the end of reference year.
 - (2) Event-driven reports. BSFIs shall notify the Bangko Sentral upon discovery of any of the following:
 - (a) Reportable Major Cyber-related Incidents. These cover all events which may seriously jeopardize the confidentiality, integrity or availability of critical information, data or systems of BSFIs, including their customers and other stakeholders. Reporting of such incidents to the Bangko Sentral should form part of the incident management plan of BSFIs.

An incident is considered a reportable major cyber-related incident, if after assessing the nature of the incident or attack, the BSFI has determined that the same:

 - (i) resulted in an unauthorized access and infiltration into the BSFI's internal network (i.e., hacking, advanced persistent threats, presence of malware);
 - (ii) involved a system-level compromise (i.e., attacks on BSFI's core systems, as opposed to phishing attempts of individual clients);
 - (iii) affected a significant number of customer accounts simultaneously;
 - (iv) involved significant data loss or massive data breach;
 - (v) indicated spearphishing attacks targeting the BSFIs' directors, senior executives, officers, or privileged users;
 - (vi) resulted in the unavailability of critical systems/services (e.g., Distributed Denial of Service (DDoS) attack resulting in service outage);
 - (vii) inflicted material financial losses to the BSFIs, their customers and other stakeholders; or
 - (viii) has been suspected to be perpetrated by an advanced threat actor.
 - (b) Disruptions of financial services and operations. These include disruption of critical operations which lasts for more than two (2) hours due to internal and external threats, which may be natural, man-made or technical in origin. Such scenarios usually involve loss of personnel, technology, alternate site, and service providers. Causes of such interruptions include, but are not limited to, fire, earthquakes, flood, typhoon, long-term power outage, technical malfunctions, pandemics and other threats.

Security events/attacks which are normally prevented by security systems/devices need not be reported to the Bangko Sentral, except if the same involve significant financial value and/or multitude of customer accounts beyond BSFI's reasonable threshold levels. For instance, an attempt to fraudulently transfer funds involving large sums of money requires immediate notification to the Bangko Sentral as this can be a signal of impending attacks to other BSFIs.
- b. Procedure for event-driven reporting. The following procedures shall be followed by BSFIs in reporting reportable major cyber-related incidents and/or disruptions of financial services and operations stated in Item "(a)2" of this Section (*Reporting and notification standards*):
- (1) The BSFIs' Compliance Officer and/or BSFI-designated Officer shall notify the appropriate supervising department of the Bangko Sentral within two (2) hours from discovery of the reportable major cyber-related incidents and/or disruptions of financial services and operations stated in Item a(2) of this Section (*Reporting and notification standards*), in accordance with *Appendix 7*.
 - (2) The BSFIs shall disclose, at the minimum, the nature of the incident and the specific system or business function involved.
 - (3) Within twenty-four (24) hours from the time of the discovery of the reportable major cyber-related incident and/or disruption, a follow-up report should be sent to the appropriate supervising department of the Bangko Sentral through e-mail indicating the following, as applicable:
 - (a) nature of the incident;
 - (b) manner and time of initial detection;
 - (c) impact of the incident based on initial assessment (e.g., length of downtime, number of affected customers/accounts, number of complaints received, value of transactions involved);
 - (d) initial response or actions taken/to be taken (e.g., conduct of root cause analysis) with respect to the incident; and
 - (e) information if the incident resulted in activation of the Business Continuity Plan (BCP) and/or Crisis Management Plan (CMP).

- c. Verification of root cause. Depending on the nature and severity of the reported incident/disruption, the Bangko Sentral may require BSFIs to provide additional information or updates until the matter is satisfactorily resolved. Likewise, the Bangko Sentral may conduct special examination or overseeing inspection, if necessary, to verify root cause of the incident, assess the impact to the BSFI and the financial system as a whole, identify areas for improvement to prevent recurrence of the incident, and promote enterprise and industry-wide operational resilience.
- d. Compliance with reporting of crimes and losses. Compliance with event-driven report requirement shall not excuse BSFIs from complying with the existing rules on the reporting of crimes and losses under Sec. 173 (*Report on crimes/losses*). Likewise, any cyber-related incident which does not qualify as a reportable major cyber-related incident and other disruptions arising from crimes and losses must be reported to the Bangko Sentral in accordance with the aforesaid regulations. Operational risk events which are covered under Item “a(2)” on the event-driven reporting and notification requirements shall no longer require separate reporting and notification pursuant to Sec. 146 (*Notification/reporting to Bangko Sentral*).
- e. Information gathering. Should the conduct of in-depth studies and research on certain technology development or key area of concern relating to technology risk and cybersecurity be warranted, the Bangko Sentral, from time to time, may request BSFIs to submit specific data and information thereon through surveys, questionnaires or other means.

Sanctions and penalties. BSFIs should make available all policies and procedures and other documents/requirements related to the foregoing during on-site examination as well as provide copies thereof to the Bangko Sentral when a written request is made to determine their compliance with this Section.

- a. Non-compliance with the requirements in Item “b” of Sec. 148 (*Reporting and notification standards*) will be subject to “High” penalty level monetary sanctions pursuant to Sec. 1102 (*Guidelines on the imposition of monetary penalties*).
- b. Consistent with Sec. 002 (*Supervisory enforcement policy*), the Bangko Sentral may deploy applicable enforcement actions on the BSFI and/or its directors, officers, and/or employees for violations on this requirement.
- c. Annual IT Profile and other periodic reports which have been considered as erroneous, delayed or unsubmitted shall be subject to the penalties for Category B reports under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*).

(Circular Nos. 1051 dated 27 September 2019, 1019 dated 31 October 2018, 982 dated 9 November 2017, 958 dated 25 April 2017, and 936 dated 28 December 2016)

149 BUSINESS CONTINUITY MANAGEMENT

Policy statement¹. BSFIs can be adversely affected by disruption of critical operations due to internal and external threats, which may be natural, man-made or technical in origin. Extreme events may cause major disruptions whose impact are very broad in scope, duration or both and can pose a substantial risk to the continued operation of BSFIs. Because BSFIs play a crucial role in the financial system and economy as a whole, it is important to ensure that their operations can withstand the effects of major disruptions. Thus, BSFIs need to have a comprehensive business continuity management (BCM) process as an integral part of their operational risk management system. A well-designed BCM process enables BSFIs to resume critical operations swiftly and minimize operational, financial, legal, reputational, and other material risks arising from a disruption. This also helps mitigate systemic risks as well as maintain public trust and confidence in the financial system.

Purpose, applicability, and scope. The guidelines aim to promote sound management of business continuity risks. These align existing regulations, to the extent possible, with leading standards and recognized principles on BCM, and shall serve as the Bangko Sentral’s baseline requirement for all BSFIs.

The guidelines shall apply to BSFIs which include banks, non-banks with quasi-banking function (NBQB), non-bank electronic money issuers and other non-bank institutions which under existing Bangko Sentral rules and regulations and special laws are subject to Bangko Sentral supervision and/or regulation. Moreover, subject guidelines shall also apply to BSFIs with offshore data processing as may be appropriate to their situation.

Definition of terms. In these guidelines, terms are used with the following meanings:

- a. *Alternate and Business Recovery Sites* shall refer to standby facilities for use during disruption of critical operations to ensure business continuity. These provide work space and/or the necessary technology environment needed to process business-critical information. Organizations may have more than one (1) alternate site. In some cases, alternate sites may involve facilities that are used for normal day-to-day operations but which are able to accommodate additional business processes when a primary location becomes inoperable. Examples of alternate sites include relocation and disaster recovery sites, whether managed directly or maintained by a third party for a BSFI or for use by multiple organizations.

¹ BSFIs shall comply with the foregoing standards on BCM within a period of one (1) year from 11 April 2017. In this regard, a BSFI should be able to show its plan of actions with specific timelines, as well as the status of initiatives being undertaken to fully comply with the provisions of Sec. 149 starting July 2017, upon request of the Bangko Sentral.

- b. *Business Continuity* shall refer to a state of continued, uninterrupted operation of a business.
- c. *Business Continuity Management (BCM)* shall refer to an enterprise-wide framework encompassing policies, standards, facilities, personnel and practices that provides for continuous functioning of the institution during disruptions. It is proportionate to the BSFI's internal and external risk exposures and tailored to the nature, scale, and complexity of its business.
- d. *Business Continuity Plan (BCP)/Plan* shall refer to a documented plan detailing the orderly and expeditious process of recovery, resumption, and restoration of business functions in the event of disruptions. It should be able to cover and establish linkages among its multiple components, such as communication plan, crisis management plan, contingency funding plan, and technology recovery plan.
- e. *Business Impact Analysis (BIA)* shall refer to the process of identifying and measuring (quantitatively and qualitatively) the business impact or loss of business processes in the event of a disruption. It is used to identify recovery priorities, recovery resource requirements, essential staff, and dependencies (internal and external) to be incorporated in the plan.
- f. *Crisis* shall refer to a situation that requires urgent action due to its disruptive impact on the BSFI's core activities or business and operating environment.
- g. *Crisis Management Plan (CMP)* shall refer to a documented plan detailing the actions to be taken when a crisis strikes a BSFI and designed to maintain order amidst the confusion surrounding such situations. During and immediately after a crisis, the members of the crisis management team will convene and activate the plan to attain control over the crisis and minimize its impact to operations.
- h. *Critical Process* shall refer to any activity, function or service, which when lost would materially affect the continued operation of the BSFI.
- i. *Cyber Resilience* shall refer to an organization's ability to anticipate, handle, adapt to, and/or recover from evolving cyber threats.
- j. *Events* shall refer to disruption scenarios such as loss of people, technology, alternate site, and service providers.
- k. *Pandemic* shall refer to epidemics or outbreaks in humans of infectious diseases that have the ability to spread rapidly over large areas, possibly worldwide.
- l. *Recovery Point Objective (RPO)* shall refer to acceptable amount of data loss should a disruption occur without severe impact on the recovery of operations.
- m. *Recovery Time Objective (RTO)* shall refer to the period of time following an incident within which a product, system or business process must be resumed or resources must be recovered.
- n. *Resilience* shall refer to the ability of an organization to anticipate, handle, adapt to and/or recover from a disruption and resume operations.
- o. *Risk Assessment* shall refer to the process involving the identification and assessment of potential threats and vulnerabilities that could severely interrupt a BSFI's business activities and the corresponding likelihood and magnitude of impact on business processes.
- p. *Technology Recovery Plan (TRP)/Disaster Recovery Plan (DRP)* shall refer to a documented plan detailing the technology strategy and requirements during recovery for business and support functions. The relevant regulations are in Item "3.3.2.13" of Appendix 77.

Roles and responsibilities.

- a. *Board of directors and senior management.* The BSFI's board and senior management are responsible for overseeing the implementation of a sound BCM process, which involves the creation and promotion of an organizational culture that places high priority on business continuity. This should be reinforced by providing sufficient financial and human resources associated with the BSFI's business continuity initiatives. Senior management should establish BCM policies, standards, and processes, which must be duly endorsed to and approved by the board.

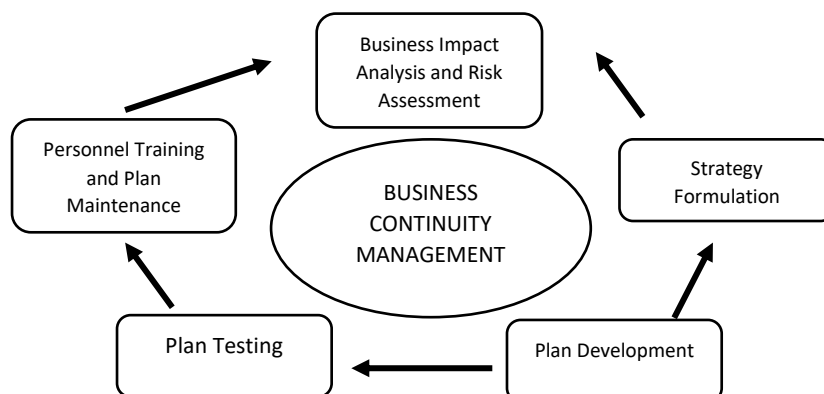

Awareness training and periodic reporting to board and senior management on matters related to business continuity are equally important to ensure their continuing commitment and support. At a minimum, periodic management reports should include the following:

- (1) implementation status of the BCP;
- (2) incident reports;

- (3) plan test results;
 - (4) changes to the plan; and
 - (5) related action items to strengthen the BSFI's ability to recover during disruptions.
- b. **BCM Coordinator/Unit.** Coordination and supervision of all business continuity activities should be assigned to a competent individual and/or unit with technical knowledge and experience consistent with the nature and complexity of the BSFI's business activities. A complex¹ BSFI may need a BCM unit with a team of departmental liaisons throughout the organization. For a simple BSFI, an individual BCM coordinator may suffice. While the BCM coordinator/unit may recommend initiatives or activities to be prioritized, the board and senior management are ultimately responsible for understanding the critical business processes and subsequently establishing plans to meet business process requirements in a safe and sound manner.
 - c. **BSFI Personnel.** BSFI personnel should understand their roles and responsibilities on the prevention of crisis and recovery of business operations during disruptions. Business and support functions should allocate responsibilities for managing disruptions and provide clear guidance regarding the succession of authority to account for unavailability of key personnel in the event of a disruption.
 - d. **Audit.** An independent review of the BSFI's BCM framework and corresponding plans should be periodically performed with frequency based on a sound risk assessment process. This is to ensure that significant policy revisions resulting from changes in the operating environment, lessons learned from plan tests, and internal and regulatory audit recommendations have been considered. Moreover, plan testing exercises should be independently observed, verified, and evaluated to ensure reasonableness and validity of the testing process and the accuracy of test results.

Business Continuity Management Framework. BSFIs should adopt a cyclical, process-oriented BCM framework, which, at a minimum, should include five (5) phases, namely: BIA and risk assessment, strategy formulation, plan development, plan testing, and personnel training and plan maintenance. This framework represents a continuous cycle that should evolve over time based on changes in business and operating environment, audit recommendations, and test results. This framework should cover each business function and the technology that supports it. Other related policies, standards, and processes should also be integrated in the overall BCM framework.

Figure 1. Business Continuity Management Process

- a. **Business impact analysis and risk assessment.** A comprehensive BIA and risk assessment should be undertaken to serve as the foundation in the development of the plan. The BIA entails determining and assessing the potential impact of disruptions to critical business functions, processes, and their interdependencies through work-flow analyses, enterprise-wide interviews, and/or inventory questions. Accordingly, the BSFI should determine the recovery priority, RTO, RPO, and the minimum level of resources required to ensure continuity of its operations consistent with the criticality of business function and technology that supports it. The BSFI should then conduct risk assessment incorporating the results of the BIA and evaluating the probability and severity of a wide-range of plausible threat scenarios in order to come up with recovery strategies that are commensurate with the nature, scale, and complexity of its business functions.

Domestic systemically important banks (D-SIBs). To minimize the extent or impact of a D-SIB's failure in the financial system, BSFIs identified as D-SIBs by the Bangko Sentral, pursuant to Sec. 128, should set the RTO for each of their critical processes to a maximum of four (4) hours from the point of disruption. For non-D-SIB BSFIs, the RTO of critical processes should be primarily driven by their BIA and risk assessment.

- b. **Strategy formulation.** Recovery and resumption strategies to achieve the agreed time-frame and deliver the minimum required services as identified in the BIA should be defined, approved, and tested. The minimum

¹ Pursuant to Sec. 148 (*Complexity of IT risk profile*), BSFIs are classified as "simple" but maybe re-classified as "complex" depending on extent or degree of reliance of core business functions to technology.

requirements for the provision of essential business and technology service levels during disruptions should be established by concerned business and support functions.

- (1) *Recovery strategy.* As business resumption relies primarily on the recovery of technology resources, adequate provisions should be in place to ensure systems availability and recoverability during disruptions as prescribed under *Appendix 77*. Recovery strategies should be able to meet the agreed requirements between business units and support functions for the provision of essential business and technology service levels.
 - (2) *Continuity of operations/business resumption strategy.* The business continuity models adopted by the BSFI to handle prolonged disruptions should be based on the risk assessment of its business environment and the characteristics of its operations. The resumption strategies and resource requirements should be approved by the board as recommended by senior management or the relevant board committees to ensure alignment with corporate goals and business objectives.
- c. *Plan development.* Plans are an important, tangible evidence of the BSFI's business continuity initiatives. The objective of the plan is to provide detailed guidelines and procedures on response and management of a crisis, recovery of critical business services and functions and to ultimately resume to normal operations. The plan should be formulated on an enterprise-wide basis, reviewed and approved by the board of directors and senior management at least annually and disseminated to all concerned employees. The plan should include provisions for both short-term and prolonged disruptions.

A well-written plan should describe the various types of events or scenarios that could prompt BCP activation. It should include, at a minimum, the following components:

- (1) Escalation, declaration and notification procedures;
- (2) Responsibilities and procedures to be followed by each continuity or recovery teams and their members. The procedures should enable the BSFI to respond swiftly to a crisis (i.e., a crisis management plan) and to recover and resume the critical processes outlined in the plan within the stipulated time frame during disruptions;
- (3) A list of resources required to recover critical processes in the event of a major disruption. This would include, but not limited to: (a) key recovery personnel; (b) computer hardware and software; (c) communication systems; (d) office equipment; and (e) vital records and data;
- (4) Relevant information about the alternate and recovery sites; and
- (5) Procedures for restoring normal business operations. This should include the orderly entry of all business transactions and records during disruption into the relevant systems up to completion of all verification and reconciliation procedures.

Communication is a critical aspect of a BCP. In this respect, the BSFI should include a communication plan for notifying all relevant internal and external stakeholders (e.g., employees, customers, vendors, regulators, counterparties, and key service providers, media and the public) following a disruption. The BSFI should maintain an up-to-date call tree and contact list of key personnel and service providers, including communication flow and channels for internal and external stakeholders. Clear and effective communication will facilitate escalation for appropriate management action and instruction to all concerned and help manage reputational risks. The BSFI should consider alternate methods of communication and preparation of predetermined messages tailored to a number of plausible disruption scenarios to ensure various stakeholders are timely, consistently, and effectively informed.

A crisis management plan should be included in the BCP to assist senior management in dealing with and containing an emergency and avoid spillover effects to the business. Senior management should identify potential crisis scenarios and develop corresponding crisis management procedures. This includes identifying a mix of individuals from various departments who are authorized to make instantaneous decisions during crisis situations. This team shall be responsible for the actual declaration of an event, activation of the plan, and internal and external communication process.

When outsourcing plan development, management should ensure that the chosen service provider has the expertise required to analyze the business needs of the BSFI and that the arrangement conforms to legal and regulatory requirements. The service provider should be able to design executable strategies relevant to the BSFI's risk environment and design education and training programs necessary to achieve successful BCP deployment.

d. *Plan Testing*

- (1) *Types of testing methods.* Plan testing is a vital element of the BCM. It ensures that the plan remains accurate, relevant, and operable. Tests should be conducted periodically, with the nature, scope, and frequency determined by the criticality of the applications, business processes, and support functions. In some cases, plan tests may be warranted due to changes in BSFI's business, responsibilities, systems, software, hardware,

personnel, facilities, or the external environment.

Testing methods can vary from simple to complex each bearing its own characteristics, objectives, and benefits. Types of testing methods in order of increasing complexity include:

- (a) *Tabletop exercise/structured walk-through test* – the primary objective is to ensure that critical personnel from all areas are familiar with the plan and that it accurately reflects the BSFI's ability to recover from a disruption.
 - (b) *Walk-through drill/simulation test* – similar to a tabletop exercise but with a more focused application. During this test, participants choose a specific scenario to which relevant plan provisions shall be applied.
 - (c) *Communication/call tree test* – an exercise that validates the capability of crisis management teams to respond to specific events and the effectiveness of the call tree notification process in disseminating information to employees, vendors, and key clients.
 - (d) *Alternate site test/exercise* – tests the capability of staff, systems, and facilities, located at alternate sites to effectively support production processing and workloads.
 - (e) *Component test/exercise* – A testing activity designed to validate the continuity of individual systems, processes, or functions, in isolation.
 - (f) *Functional drill/parallel test* – test to determine capability of alternate site and BSFI employees to support strategy as defined in the plan, which involves actual mobilization of personnel, establishing communications, and recovery processing.
 - (g) *Enterprise-wide full-interruption/full-scale test* – the most comprehensive type of test encompassing the entire organization and requires activation of all the components of the plan at the same time to simulate a real-life emergency and processing data and transactions using back-up media at the recovery site.
- (2) *Test policy/plan.* Testing should be viewed as a continuously evolving cycle. The BSFI should incorporate the results of BIA and risk assessment and work towards a testing strategy that increases in scope and complexity to address a variety of threat scenarios. Test scenarios should vary from isolated system failures to wide-scale disruptions and promote testing its primary and alternate facilities, as well as with key counterparties and third-party service providers.

A testing policy should define roles and responsibilities for the implementation and evaluation of the testing program. Test plans with pre-determined goals and test criteria should be developed for each testing activity. It should clearly define the objectives of testing, identify the functions, systems, or processes to be tested and the criteria for assessing what constitutes a successful test.

Formal testing documentation (i.e., test plans, test scenarios, test procedures, test results) should be prepared to ensure thoroughness and effectiveness of testing and properly maintained for audit and review purposes.

- (3) *Annual enterprise-wide business continuity testing.* The BSFI must conduct an enterprise-wide business continuity test at least annually, or more frequently depending on changes in the operating environment, to ensure its plan's relevance, effectiveness, and operational viability. The scope of testing should be comprehensive to cover the major components of the plan as well as coordination and interfaces among important parties.
 - (4) *Analysis and report of test result.* Plan tests, including successes, failures, and lessons learned, should be thoroughly analyzed to promote continuous BCM improvement. Exceptions noted should be documented and corrective actions should be closely monitored to ensure that they are implemented in a timely manner by concerned parties, including the board of directors and senior management, business line management, risk management, IT management, and other internal stakeholders.
- e. *Personnel training and plan maintenance*
- (1) *Training program.* A business continuity training program should be provided to all concerned employees to promote awareness, familiarity, and understanding of their roles and responsibilities in the event of a disruption. The training program should be offered on a continuing basis for existing and new employees and should be updated to address changes to the plan.
 - (2) *Plan maintenance.* Plans and results of BIA and risk assessment should be reviewed and updated on an ongoing basis (at least annually or when necessary) so that they remain consistent with the BSFI's current operations and business strategies.

BCM-related documents (i.e., BCP, test program, policy guidelines, and program requirements) should be subject to change management process to ensure that these are updated with proper approval and documentation with respect to any significant changes in the business environment or as a result of audit findings.

Other policies, standards and processes. The following policies, standards and processes should be integrated into the BCM process:

- a. *Pandemic planning.* Similar to natural disasters or technical disruptions, pandemics may also interrupt a BSFI's business activities. However, the difficulty in determining a pandemic's scope and duration present additional challenges in ensuring resilience and continuity of a BSFI's operations.

Generally, pandemic plans are integrated in the BSFI's BCP and follow the same BCM process with additional considerations, such as:

- (1) *Business impact analysis and risk assessment.* The BCM process should consider pandemics as early as the BIA and risk assessment phase. The BIA and risk assessment should be updated to incorporate complexities that may arise from pandemics, such as (a) increasing level of absenteeism based on a pandemic's severity; and (b) the need for another layer of contingency plans as regular disaster or emergency response methods are no longer feasible.
 - (2) *Strategy formulation.* To complement strategies for natural and technical disruptions, the following should be given due consideration when planning for pandemics:
 - (a) *Trigger events* – Trigger events and strategies should be defined depending on the nature of a pandemic. Pandemic planning should have the flexibility to accommodate varying degrees of epidemic or outbreak as pandemics normally occur in waves or phases and of varying severity.
 - (b) *Remote access capability* – In the event of a pandemic, enabling remote access may be one of the primary strategies available to a BSFI. To support a telecommuting strategy, the BSFI should ensure adequate capacity, bandwidth and authentication mechanisms in its technological infrastructure against expected network traffic or volume of transactions.
 - (c) *External parties* – With pandemics not limited to the BSFI, establishing working relationships with external parties is an essential component. In addition to the communication plan for all relevant internal and external stakeholders, the BSFI should establish open relationships and communication channels with local public health and emergency response teams or other government authorities. The BSFI should inform concerned parties of any potential outbreaks and, at the same time, be aware of any developments in the expected scope and duration of a pandemic.
 - (d) *Employee awareness* – As information becomes available from reputable sources or local agencies, the BSFI should ensure that steps to limit or reduce the risk of being affected by the pandemic are cascaded to its employees.
 - (3) *Plan development.* Pandemic plans should be commensurate with the nature, size and complexity of a BSFI's business activities and have sufficient flexibility to address the various scenarios that may arise. At a minimum, the pandemic plan should include:
 - (a) Strategy that is scalable dependent on the extent and depth of the outbreak;
 - (b) Preventive measures, including monitoring of current environment and hygiene tools available to employees;
 - (c) Communication plan with internal and external stakeholders, including concerned local public health teams and government agencies; and
 - (d) Tools, systems and procedures available to ensure continuity of its critical operations even with the unavailability of BSFI's staff for prolonged periods.
 - (4) *Plan testing.* Test policy/plan should include strategies to assess capability to continue critical operations, systems and applications even in the event of a severe pandemic. When regular tests are unable to cover pandemic scenarios, separate pandemic plan tests should be carried out.
 - (5) *Personnel training and plan maintenance.* The plan should be updated as developments and information become available. As needed, employee training programs should cover pandemic risks, including the roles and responsibilities of each employee during pandemic situations.
- b. *Cyber resilience.* Cyber-threats and attacks against the financial services industry have become increasingly widespread, sophisticated and coordinated. Recent cyber-attacks worldwide highlight, not only the degree of disruption to a BSFI's operations, but also the extent of reputational damage which could undermine public trust and confidence. As such, the BSFI should consider the potential impact of these cyber events into its BCM process

and institute adequate cyber resilience capabilities.

Given the unique characteristics of cyber-threats and attacks, traditional back-up and recovery arrangements adopted by the BSFI may no longer be sufficient and even increase the damage to the BSFI's network, operations and critical information assets. In worst case scenarios, back-up systems and alternate recovery sites are likewise affected rendering both sites inoperable. To ensure cyber resilience, the BSFI should take into consideration a wide-range of cyber-threat scenarios perpetrated from diverse threat sources (e.g., skilled hackers, insiders, state-sponsored groups) which seek to compromise the confidentiality, availability and integrity of its information assets and networks. Defensive strategies and innovative recovery arrangements should be explored that are commensurate with the BSFI's cyber-security risk exposures and aligned with its information security program in accordance with *Appendix 75*.

- c. *Information security.* Mitigation strategies should consider security controls to manage risks that may arise once an event triggers plan activation. Security during disasters and disruptions is an important consideration to manage risks arising from the change in working environment. The relevant guidelines/standards on information security that may be considered in strategy formulation and/or in choosing alternate sites are in *Appendix 75*.
- d. *Interdependencies.* An effective plan coordinates across its many internal and external components, identifies potential process or system dependencies, and mitigates risks from interdependencies. The BSFI may have very complex operating and recovery environment wherein interdependencies need to be duly considered, such as telecommunications, third party service providers, and recovery site. Given the critical resources and services that are being shared with the BSFI or other entities, additional mitigating controls and recovery strategies need to be integrated in the plan.
- e. *Liquidity risk management.* Sound liquidity risk management practices enable a BSFI to maintain availability of funds even in times of financial stress or adverse changes in market conditions. In the event of a business disruption, sound liquidity risk management practices should similarly apply. The BSFI should ensure it has sufficient liquidity to support its recovery strategies and continue supporting the delivery of basic banking services to the clients pending full business resumption. Guidelines on liquidity risk management are in *Appendix 71*.
- f. *Project management.* Senior management should ensure that availability and business continuity requirements are considered at the planning and development stages of new business products and services and other critical technology processes, such as systems development and acquisition, and change management.
- g. *Event/problem management.* Operations personnel should be properly trained to recognize events that could trigger implementation of the plan. Although an event may not initially activate the plan, it may become necessary as conditions and circumstances change. Management should train and test BSFI personnel to implement and perform appropriate business continuity procedures within the timeframes of the plan.
- h. *Outsourcing.* When a BSFI enters into an outsourcing arrangement, it should put due consideration on the business continuity and disaster recovery arrangements of the service provider to ensure continuity of operations. Detailed guidelines/standards on business continuity considerations for outsourcing arrangements are in *Appendix 77*.
- i. *Insurance.* Insurance is an option available to a BSFI for recovery of losses that cannot be completely prevented and the expenses related to recovering from a disruption. The BSFI should regularly review the adequacy and coverage of its insurance policies in reducing any foreseeable risks caused by disruptive events, such as loss of offices, critical facilities and equipment, and casualty. Insurance policies may also need to address the BSFI's legal responsibilities for failing to deliver services to its customers and counterparties. To facilitate the claims process, the BSFI should create and retain a comprehensive hardware and software inventory list in a secure off-site location and detailed expenses should be documented to support insurance claims.

Supervisory enforcement actions. BSFIs should make available all policies and procedures and other documents/information related to the foregoing during on-site examination as well as provide copies thereof to the regulator when a written request is made to determine compliance.

Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in Sec. 149 and bring about timely corrective actions. The Bangko Sentral may issue directives to improve the BCM process, or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety and soundness of the BSFI, among others. Monetary and non-monetary sanctions, as provided under existing laws, Bangko Sentral rules and regulations, may likewise be imposed on a BSFI and/or its directors, officers and/or employees for violation of subject Sec. 149.

(Circular Nos. 1051 dated 27 September 2019 and 951 dated 20 March 2017)

Policy statement. BSFIs shall comply with the foregoing standards on social media risk management within a period of six (6) months from 04 April 2017. In this regard, a BSFI should be able to show, upon request of the Bangko Sentral, its plan of actions with specific timelines, as well as the status of initiatives being undertaken to fully comply with the provisions of this Section.

Social media, a low-cost solution capable of disseminating real-time information via the internet, presents vast opportunities for growth, customer engagement and business benefits as usage, customer reach and adoption scale up and become widespread and ubiquitous. Considering these potential benefits alongside exponential growth in the number of social media users and its massive reach, BSFIs have started to leverage on social media platform/s to promote their business and improve customer interaction experience to help drive business objectives/strategies.

Similar to any new technology, however, social media introduces a new attack vector which may expose BSFIs to compliance, legal, reputational, strategic, and operational risks. Risks in social media include susceptibility to account take-over, malware distribution, brand bashing, inadvertent disclosure of sensitive information and privacy violation, among other possible threats. As such, BSFIs should adopt an appropriate risk management system, commensurate with the extent and degree of their social media usage, to effectively identify, measure, manage and monitor risks arising from the use of social media platforms. This should form an integral part of their operational risk management system.

Applicability and scope. The guidelines underscore the importance of having a well-defined social media risk management strategy in supporting BSFI's overall business goals and objectives. These guidelines align existing regulations, to the extent possible, with leading standards and recognized principles. They outline the minimum standards/basic principles that shall govern the BSFI's framework to aid in the sound management of risks associated with the use of social media for official purpose or employees' personal use, within and outside the organization.

It is not intended to provide procedural specifics or a "one-size-fits-all" solution for carrying out compliance and risk management responsibilities. Each BSFI is therefore expected to establish its own risk management strategy; suitable to its size, risk tolerance level, and the nature and scope of social media activities engaged in.

The guidelines shall apply to all BSFIs which include banks, NBQB, non-bank electronic money issuers, and other non-bank institutions which under existing Bangko Sentral rules and regulations and special laws are subject to Bangko Sentral supervision and/or regulation.

Definition of terms. In these guidelines, terms are used with the following meanings:

- a. *Attack vector* shall refer to the path or means by which an attacker can gain access to a computer system in order to deliver a malicious code (e.g., virus, worms, trojans).
- b. *Non-technical controls* shall refer to management, administration, and operational controls employed that are manual and procedural in nature (e.g., security-related policies and procedures; operational procedures; personnel, physical, and environmental security controls; performance management and measurement).
- c. *Risk assessment* shall refer to the process involving the identification and assessment of potential threats and vulnerabilities related to the use of social media and determination of the likelihood that the threat will occur as well as the corresponding impact to the business should the threat occur.
- d. *Social media* shall refer to online communication channels dedicated to community-based content generation and sharing, interaction, and collaboration.
- e. *Social media platform* shall refer to any form of interactive communication medium wherein users can generate and disseminate content (e.g., text, images, audio, video) through social networks using the internet. Examples of popular social media platform categories include the following:
 - (1) Social networking (e.g., Facebook, LinkedIn)
 - (2) Micro-blogging (e.g., Twitter, Tumblr)
 - (3) Blogging (e.g., Wordpress, Blogger)
 - (4) Photo Sharing (e.g., Flickr, Instagram, Pinterest)
 - (5) Video Sharing (e.g., Youtube, Vimeo, Vine)
 - (6) Crowdsourcing (e.g., Ushahidi, Inc.)
- f. *Technical controls* shall refer to the controls incorporated into the computer hardware, software, or firmware to aid in the effective implementation of policies and standards (e.g., access control, authentication, web scanner/crawler).

Social media risk management system. BSFIs should establish an appropriate framework that will result in sound social media governance and risk management. At a minimum, the framework shall include the following elements:

- a. Clearly defined governance structure indicating the roles and responsibilities of the board of directors and senior management in setting the direction on the BSFI's use of social media, including its alignment to the BSFI's strategic goals/plans; establishing adequate standards, policies, procedures, and controls; and implementing ongoing risk assessment of social media-related activities.

The board of directors shall be primarily responsible for defining the BSFI's risk tolerance level, understanding the nature and degree of risks the BSFI will be exposed to, and ensuring that these risks are properly addressed. Moreover, the board of directors, as part of its duties, shall approve and oversee the design and implementation of the social media strategy; related standards, policies and procedures; and means to ensure compliance with said standards and/or policies as well as applicable laws and regulations. Senior management, on the other hand, shall be responsible for the implementation of the social media risk management system approved by the board of directors.

The governance process should also include reporting mechanisms to the board of directors and/or senior management to enable periodic evaluation of the effectiveness of the BSFI's social media strategy/program, in terms of achieving its stated objectives, and measures put in place to manage the risks related to its use.

- b. Policies and procedures governing the following, among others:
 - (1) Scope and definition of social media;
 - (2) Social media regulatory landscape reflecting applicable laws, rules and regulations for compliance;
 - (3) Individuals and/or composition of the team/s who will be responsible for the creation, maintenance, and monitoring of the BSFI's proprietary social media sites/pages. Their corresponding roles and accountabilities should also be clearly defined;
 - (4) Content management and approval process;
 - (5) Ongoing assessment, management, and monitoring of risks associated with social media-related activities;
 - (6) Acceptable use as well as prohibitions/restrictions on the business/official use of social media platforms. These guidelines shall likewise apply to the employees'¹ personal use of social media, insofar as it may impact the BSFI's operations, reputation and/or compliance with applicable laws and regulations. These should cover matters such as, but not limited to, expectations, ethical behavior, types/nature and extent of BSFI and/or customer-related information that can be posted, statements that can or cannot be made about or in behalf of the institution, comments that should not be made about a competitor, and corresponding sanctions/penalties for inappropriate use of social media and committing non-permissible activities;
 - (7) Use and monitoring of the BSFI's proprietary social media sites/pages to ensure compliance with applicable laws, regulations and internal policies;
 - (8) Monitoring and recording of suspicious transactions and customer activities on the BSFI's proprietary social media sites/pages;
 - (9) Adoption of technical and non-technical controls to address risks associated with the use of social media platform/s including methodologies to manage risks from online postings, edits, replies and retention;
 - (10) Due diligence process for selecting, managing and continuous monitoring of third-party service providers (TSP) that administer the BSFI's social media site(s)/page(s). In addition, the specific roles and responsibilities of the TSP, including liabilities and accountabilities for errors, omissions, fraud, and other instances, resulting from the TSP's actions, which may adversely affect the BSFI, should also be defined;
 - (11) Social media crisis management plan and escalation procedures;
 - (12) Enterprise-wide employee training and awareness programs covering relevant topics such as the BSFI's social media use policies, employee roles and responsibilities and non-permissible activities;
 - (13) Records retention of social media data; and
 - (14) Communication of the BSFI's official social media sites/pages to its customers to avoid confusion and being misled to unofficial sites.

¹ Includes the BSFI's employees, contractual employees and/or project hires, and third-party service providers

- c. Specific roles and responsibilities of the risk management, consumer protection, audit and compliance functions to ensure that social media risks are adequately managed and integrated in the BSFI's enterprise-wide risk management systems.

BSFIs that do not utilize social media should nevertheless have clear policies and measures in place to address the potential reputational risks that may arise within the various social media platforms and provide guidance on employee use of social media.

Compliance with relevant regulations. BSFIs, in formulating and implementing their social media policies, should ensure compliance with the applicable requirements of Bangko Sentral rules and regulations on financial consumer protection, especially those relating to disclosures and transparency in advertising and promotional materials, protection of client information, effective recourse, and financial education and awareness. They should likewise conform to the relevant provisions of Bangko Sentral outsourcing framework should they decide to outsource the conduct of social media-related activities to a service provider.

The use of social media platforms, including information gathered therein, for the conduct of account origination activities should comply with applicable rules and regulations, especially on the provisions relating to customer identification procedures under the existing anti-money laundering rules and regulations. In the event that BSFIs opt to use social media for processing financial transactions, the applicable Bangko Sentral rules and regulations on electronic payment and financial services and technology risk management should likewise be observed to ensure security, reliability and authenticity of such transactions.

The regulations mentioned herein are not exhaustive. It is the BSFI's responsibility to ensure that all applicable laws and regulations relevant to the activities it will choose to engage in using social media will be adequately complied with. Moreover, the BSFI is expected to stay abreast of and continuously adapt to changes in the regulatory requirements.

Supervisory enforcement actions. BSFIs should make available all policies and procedures and other documents/information related to the foregoing during the on-site examination as well as provide copies thereof when a written request is made to determine compliance.

Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in Sec. 150 and bring about timely corrective actions. The Bangko Sentral may issue directives to improve the social media risk management system or impose monetary and non-monetary sanctions on a BSFI and/or its directors, officers and/or employees.

(Circular Nos. 1033 dated 22 February 2019 and 949 dated 15 March 2017)

151 GUIDELINES ON THE CONDUCT OF STRESS TESTING EXERCISES¹

Policy Statement. Stress testing is an integral part of the risk management systems and capital planning process that would enable banks to effectively manage risk exposures and ultimately promote strong risk governance. In this regard, the following guidelines are issued to define minimum prudential requirements on stress testing. These guidelines shall be read in conjunction with the relevant provisions on stress testing provided under the risk management guidelines covering specific risk areas that were earlier issued by the Bangko Sentral.

Stress testing. Stress testing shall refer to the tool to evaluate the potential effects of a set of specified changes in risk factors on a bank's financial position under a severe but plausible scenario to assist the board and management in decision making. Stress testing refers not only to the mechanics of applying specific individual tests, but also considers the wider environment within which the tests are developed, evaluated and used.

Duties and responsibilities/roles and functions.

- a. Board of Directors. Consistent with the principles embodied under Sec. 132 (*Board of Directors*), the board of directors shall have the overall responsibility in ensuring that the stress testing framework is fully integrated into the bank's risk management framework and capital planning process, and adequately supports decision-making. In this regard, the board of directors shall:
 - (1) Approve the stress testing framework. The framework shall cover the purposes for conducting stress tests, methodologies applicable to the bank, stress scenario selection process, governance and reporting structures, including the roles and responsibilities of business lines and control functions;

The stress testing framework shall provide a clear set of pre-agreed strategies or principles in determining whether remedial actions should be taken in response to stress-testing results. The level of authority (e.g., Asset and Liability Committee and/or Risk Management Committee) for determining remedial actions to be taken should also be clearly designated by the board;

¹ Banks shall complete a gap analysis of the requirements of Sec. 151 vis-à-vis their existing risk management system within six (6) months from 7 November 2020. The results of the gap analysis shall be documented and made available for review by the Bangko Sentral. Banks are expected to develop or make appropriate changes to their policies and procedures on the management of interest rate risk in the banking book by 1 January 2022.

- (2) Ensure that stress testing exercises are linked to the risk appetite, business strategies as well as capital and liquidity plans. The results of the stress testing should also aid in the crafting of policies and setting of risk limits;
 - (3) Ensure that stress testing is considered in planning for business continuity management, and in the case of a domestic systemically important bank¹ (D-SIB), its recovery plan. The board shall likewise ensure that risk mitigation techniques are systematically challenged; and
 - (4) Ensure that the stress testing framework, including scenarios and assumptions used therein, are subjected to an effective and continuous review by an independent and competent professional to ensure that the framework remains appropriate and effective in assessing the bank's vulnerabilities.
- b. Senior Management. Senior management shall be responsible for the effective and consistent implementation of the stress testing framework as approved by the board of directors. In this respect, senior management shall:
- (1) Translate the board-approved stress testing framework into specific policies and procedures, which shall cover, at a minimum, the following:
 - (a) Objectives of stress testing, and the corresponding methodology/ies and frequencies;
 - (b) Roles and responsibilities of business lines, control functions, and board- and/or senior management committees;
 - (c) Parameters in developing assumptions and scenarios as well as units that should be involved in the development;
 - (d) Evaluation of the continuing soundness and relevance of the assumptions and scenarios;
 - (e) Extent of reliance on expert judgment² in the stress testing process;
 - (f) Range of measures or actions to take considering the results of the stress testing exercises; and
 - (g) Documentation requirements.
 - (2) Ensure that the identification of relevant stress scenarios, application of sound modeling approaches, and the appropriate use of stress testing results are done in collaboration with the different senior experts in the bank;
 - (3) Identify the risk drivers to be considered in the stress testing exercise and actively engage in the discussions on assumptions and scenario selection. It shall participate in the review and identification of potential stress scenarios and contribute to the development of risk mitigation strategies;

Below are some common risk factors that are relevant to the banking and trading portfolios of banks:

- (a) Credit risk characterized by the increase in default probabilities (e.g., the rise in delinquencies and charge-offs) and worsening of credit spreads. Banks should be aware of the major drivers of repayment ability, such as economic downturns and significant market shocks, that will affect entire classes of counterparties or credits;
- (b) Concentration risk in terms of the exposures to individual counterparties, group of related entities, industries, market sectors, countries or regions. Banks should assess the effects and possible linkages between different markets, countries and regions as well as the potential vulnerabilities of emerging markets;
- (c) Interest rate risk arising from parallel or non-parallel shifts in the yield curve, and the increase in basis risk (i.e. changes in relationships between key market rates);
- (d) Market or price risk arising from adverse changes in asset prices (e.g., currencies, bonds) and their impact on relevant portfolios and markets;
- (e) Liquidity risk as a result of the tightening of credit lines and market liquidity under stressed situations and the impact on funding sources and cash flow assumptions;
- (f) Operational risk caused by various factors such as internal or external fraud, system failure and security risks (e.g., in respect of transactional e-banking services);
- (g) Reputational risk arising from negative perception on the part of the customers, counterparties, shareholders, investors, debt holders, market analysts, other relevant parties or regulators that can adversely affect a bank's ability to maintain existing or establish new business relationships and continued access to sources of funding;
- (h) Product-specific risks such as prepayment risk for debt securities, including structured products;
- (i) Macro-economic factors [e.g., Gross Domestic Product (GDP) growth, change in property prices, unemployment rate and inflation or deflation rate] and their impact on other risk factors; and

¹ Systemic importance of a bank is assessed in relation to the impact of its failure on the domestic economy based on bank's size, interconnectedness, substitutability/financial institution infrastructures and complexity pursuant to Sec. 128 on D-SIBs.

² An approach for soliciting informed opinions from individuals with particular expertise

- (j) Various political and economic factors pertaining to industries, regions and emerging markets.

The above list is not exhaustive. Banks should identify the risk factors applicable to the circumstances specific to their institutions. They should ensure that important risk factors or relationships between these factors are not omitted from the analysis, as these factors will serve as basis when developing the stress scenarios.

- (4) Ensure that the stress testing program is supported by appropriate infrastructure and adequate resources, which shall include information technology system, qualified professionals, and data of appropriate quality and granularity. The systems in place should be sufficiently flexible to allow the bank to modify methodologies and apply new scenarios as needed and to allow for targeted or ad-hoc stress tests at the business line or institution-wide level to assess vulnerabilities in times of stress;
- (5) Evaluate the results of the stress test and recommend appropriate measures to the board. These measures may vary depending on the circumstances and other available information, examples of which are:
 - (a) Review of the set of limits;
 - (b) Review of capital plans;
 - (c) Use of risk mitigation techniques;
 - (d) Reduction/restructuring of portfolio exposures or business in specific sectors, countries, regions;
 - (e) Reconsideration of the funding policy;
 - (f) Review of strategy or risk appetite; and
 - (g) Development/Revision of contingency plan.

Stress testing framework. The stress testing framework shall be governed by the following guidelines:

- a. Design. The identification of relevant stress events, the application of sound modeling approaches, and the appropriate use of stress testing results require the collaboration of different experts from various business lines and control functions within a bank, and/or from the regional office, in case of branches of foreign banks. The unit responsible for implementing the stress testing program shall organize appropriate dialogue among these experts, challenge their opinions, check them for consistency (e.g., with other relevant stress tests) and develop the design and implementation of the stress tests, ensuring an adequate balance between usefulness, accuracy, comprehensiveness and tractability.
- b. Methodologies. Banks shall conduct stress tests and employ a combination of the different approaches depending on their portfolio risk and complexity of their activities. Effective methods can range from a single-factor sensitivity analysis to a more sophisticated model.

Banks are expected to adopt a combination of the following stress testing methodologies as appropriate to their portfolios or exposures in order to determine the impact of stressed conditions to capital, earnings and/or liquidity position. Stand-alone thrift, rural and cooperative banks should at a minimum, employ the stress testing approaches provided in Item “c” of this Section (Application of the guidelines); however, they are not precluded from applying more sophisticated techniques as their board and/or senior management may deem necessary.

- (1) *Sensitivity Analysis.* Sensitivity analysis assesses the impact of pre-defined movement in risk factors in the value of a portfolio, and provides a fast initial assessment of a portfolio's sensitivity to a given risk factor or closely related set of factors. In conducting sensitivity analysis, the bank shall identify the relevant risk factors or drivers for its portfolio. The risk factors or drivers should be stressed with different degrees of severity in order to help deepen management's understanding of the bank's vulnerabilities and the effect of non-linear loss profiles. Risk factor shocks that are based on historical scenarios should be supplemented with hypothetical shocks based on expert judgment to reflect the risk arising from market developments and provide a more forward looking assessment of the banks' vulnerabilities.

Single factor sensitivity analysis can be supplemented with a multi-factor sensitivity analysis. Banks should conduct sensitivity analysis at different levels, taking into account the identified relevant risk factors or drivers. This may be conducted at the product or portfolio level, business line level, or at institution-wide level. For example, sensitivity analysis may involve an assessment of the impact to the bank's solvency and liquidity in cases where: (a) the probability of default (PD) of its largest counterparty or portfolio class increases; (b) interest rates change; and/or (c) large depositors withdraw significant amount from their accounts.

- (2) *Scenario Analysis.* A scenario analysis measures the change in portfolio value by simulating scenarios (e.g., decline in gross national product or changes in central bank policy rates) that affect a number of risk factors (e.g., interest rates, credit spreads or foreign exchange rates). The scenario should incorporate the dynamics and interrelationship between different economic and financial drivers and provide a more holistic picture of a bank's vulnerabilities, and the combined effect of such changes in risk factors to the bank's financial position. When developing their stress scenarios, banks shall be guided by the following minimum expectations:
 - (a) Scenarios should be forward-looking. In particular, scenarios should take into account market developments or emerging possibilities, and possible changes to the bank's risk profile as a result of new business model or strategies (e.g., deleveraging or roll-out of a major new product).

Scenarios derived from historical data/events may be used as starting point for developing forward-looking hypothetical scenarios, which highly requires expert judgment. Banks should consider their "baseline" scenarios in developing a range of severe scenarios, reflecting an increasing level of stress compared with that of the "baseline".

- (b) The impact of a scenario to all material risk factors (e.g., credit risk, market risk, interest rate risk, market liquidity risk, funding liquidity risk, and reputational risk) of a bank should be taken into account.
 - (c) All major vulnerabilities that are specific to a bank should be covered. Among those that should be taken into account are concentration exposures, and specific product/business line exposures.
 - (d) When performing an institution-wide stress test, scenarios that apply to individual risks or portfolio should be internally aligned so that risk factors behave in ways consistent with other risk factors during times of stress. For example, a spike in interest rates would generally lead to mark-to-market losses, but may also result to a higher net interest margin.
 - (e) The time horizon/s for stress testing should be defined based on the objective for the conduct of the stress test (e.g., tactical or strategic use), as well as the characteristics/risk profile of the underlying portfolio (e.g., maturity and liquidity of positions). Nevertheless, banks should cover substantially longer periods, taking into consideration the ability of the bank (or market, in case of systemic crisis) to react to and withstand a stressed condition.
 - (f) Stress tests undertaken by banks to assess the viability of their capital plan in adverse circumstances should use a time horizon that is consistent with its capital planning exercise.
 - (g) When analyzing the potential impact of a set of macroeconomic and financial shocks, system-wide interactions and feedback effects should be taken into account. This means that apart from the best estimate of how a scenario will impact the bank's capital and liquidity, scenarios should also be developed taking into consideration the possible changes to economic and financial variables as financial institutions, households, firms and policy makers respond to the crisis. These scenarios should capture the dependencies between the different economic and financial drivers. For instance, continuous oil price hike may lead to lower disposable household income, thus affecting retail consumers' debt servicing capability. On the other hand, a prolonged decline in oil price may result in a decline in deposit placements by oil companies, which may adversely affect funding position of a bank.
 - (h) Banks should adequately document each stress scenario, describing and linking the movement in risk factors to economic and financial sector events/developments, such as, monetary policy, political events, natural disasters, and market liquidity. Likewise, the document should provide a qualitative picture of a plausible future state of events.
- (3) *Reverse Stress Test.* Reverse stress tests may be used to determine the stress scenarios that could impair the solvency and/or liquidity of the bank. This type of analysis would help a bank consider scenarios beyond normal business expectations, and challenge common assumptions about performance and risk mitigation strategies. For instance, if a bank has a loan portfolio that is highly concentrated to real estate industry, a reverse stress test may help a bank-identify conditions or changes in key variables that would cause losses sufficient to make the capital ratios fall below regulatory minimum levels.

Reverse stress testing may also be carried out in a qualitative manner. This involves the development of a narrative report that discusses the dynamics of different risk types, risk factors, and feedback effects that would make the business unviable. UBs/KBs are expected to have a more sophisticated qualitative and quantitative methodology for this type of stress testing.

Upon identifying such scenarios, senior management should assess the plausibility of the scenarios, make contingency plans, and/or take other steps to mitigate the identified risks. Diagnostic support should be in place to investigate the reasons for potential failures, if the need arises.

- c. *Severity of Stress Events.* Stress test should cover a range of scenarios, which are exceptional but plausible and with different level of severities, including those that reflect a severe economic downturn. Severity should be understood in the context of the specific vulnerabilities of the bank (as may be identified through reverse stress test). Relevance of certain economic scenarios (e.g., increase in default probabilities in certain economic sectors) depends on a bank's exposure to specific economic sector.
- d. *Portfolio, Individual Risk, and Institution-wide Stress Testing.* The stress test methodologies provided under Item "(b)" of this Section (Stress testing framework), may be performed at portfolio, individual risk, and/or institution-wide levels depending on a bank's activities or business model. Stress tests should encompass all the material risks, both on- and off-balance sheet that are relevant for the bank on solo and consolidated bases. In this regard, the scope of stress test may vary from a simple portfolio-level sensitivity analysis to a comprehensive institution-wide scenario stress test.

- (1) Portfolio and Individual Risk Level Stress Testing. Stress tests on an individual portfolio basis may be performed using sensitivity or scenario analysis, or both. Banks should identify severe stress with respect to a specific portfolio. For instance, in the case of a mortgage portfolio, high unemployment rate and huge spike in interest rates provide a severe scenario. Other portfolios, such as investments in emerging market bonds, expose a bank to different risk drivers and therefore a different stress scenario should be applied.

Portfolios and business units should be stressed to identify risk concentrations that may arise across their book. For example, a credit risk stress across asset classes and portfolios may identify potential concentrations in retail and corporate exposures.

Stress tests should also take into account changes in correlations between risks recognizing interactions between risk types, such as market and credit risk, particularly in times of stress.

- (2) Institution-wide Stress Testing. Stress testing on an institution-wide basis should cover a range of risks in order to deliver a complete and holistic picture of the bank's risk profile. This entails identification of all material risks. Once identified, banks should derive material risk drivers and integrate the same in the institution-wide stress.

Depending on the organizational structure and business model of a particular bank, a complete evaluation of all the risks affecting it would require the performance of stress test exercises both at consolidated and at material entities levels within the group. Furthermore, a bank that is internationally active is also expected to perform stress tests at the level of business units in specific geographic regions, business sectors or business lines. The added value is that a severe stress scenario differs for different businesses and different geographic regions.

When looking at risks at an institution-wide level, particular attention should be paid to risk concentrations on a holistic basis. Bank should also note that risks at the institution-wide level may not be well reflected by simple aggregation of stress tests on individual risk areas or business units. Correlations and offsetting of individual exposures should be adequately captured. Thus, banks should ensure that there is neither double counting of risks or underestimation of the impact of a stress scenario.

- e. Impact Assessment. Senior management and relevant business line managers should be closely informed of the results of stress-testing, drawing their attention to potential risks and vulnerabilities identified and making recommendations for possible courses of remedial action.

The impact of stress tests should be evaluated against one or more measures, depending on the specific purpose of the test, the risk exposures, and particular issues being analyzed. A range of measures may be needed to provide comprehensive perspectives on identified vulnerabilities and the impact of the stress scenarios. Typical measures include, but are not limited to the following: (1) asset values, (2) accounting profit or loss, (3) economic profit or loss, (4) regulatory capital requirements, (5) regulatory liquidity requirements, (6) economic capital measures, and (7) liquidity and funding gaps.

The board of directors should be presented with a holistic view of the effect of stresses so that they can take an aggregated view of the implications. Where formal aggregation is not possible, an informal assessment of the totality of institution-wide effects will still be useful.

Supervisory expectations and independent review.

- a. Supervisory Expectations on the Use of Models for Stress Testing. Due to the complexity involved in modeling hypothetical and macro-economic based scenarios, banks should be cognizant of the model risk involved. In this respect, the board should ensure that an effective model risk management is in place. This includes ensuring that stress test models are subjected to appropriate standards for model development, implementation and use, model validation, and model governance. An effective challenge process by independent and competent parties should be in place for all models prior to use. There should also be sufficient documentation of all models, including assumptions, as well as limitations. Banks should ensure that the assumptions and parameters used in models hold during periods of stress. These minimum expectations apply to models that are either internally developed or acquired from a vendor.

Senior management should provide information to the board of directors that is sufficient to allow the latter to adequately assess and critique the methodologies and results.

- b. Independent Review of Stress Testing. Regular and independent review and assessment of stress testing policies, procedures and processes should be carried out to ensure the quality and effectiveness of the stress testing program. Such review should be undertaken at least once a year, or more frequently if this is warranted by significant changes in the business strategies and risk characteristics of the bank, or in the external environment in which it operates. The review should be undertaken by independent professionals, who may either be internal or external to the bank, but possess the relevant knowledge and expertise.

The review should cover, at the minimum, the following:

- (1) effectiveness of the stress-testing program in meeting its intended purposes;
- (2) adequacy of board and senior management oversight;
- (3) adequacy of documentation for the program;
- (4) integration of stress-testing into the daily risk management and decision-making processes at appropriate management levels, as well as capital and liquidity planning;
- (5) approval process for the program, including the authorization for significant changes;
- (6) implementation of the program, as well as its continuous development or enhancement (i.e., to take account of changes in a bank's business strategies, risk characteristics or external environment);
- (7) methodologies, scenarios and assumptions used;
- (8) scope of exposures captured by the program;
- (9) quality of data used to run the stress tests (i.e., accuracy, consistency, timeliness, completeness and reliability of data);
- (10) integrity of management information and reporting systems for the stress tests; and
- (11) validation of stress testing results by benchmarking with historical scenarios (e.g., the 2008 Financial Crisis and the 1997 Asian Financial Crisis) and their impact on bank's portfolios.

In this respect, issues or weaknesses disclosed during the review should be adequately addressed by the bank, and any consequential changes to the stress testing program should be documented and duly subjected to the approval by the board.

Application of the guidelines.

- a. Banks that are part of group structures, shall conduct stress testing exercises on a consolidated basis or at the parent bank's level, covering all institutions considered as material in the banking group, and on a stand-alone basis, or at the level of each of the bank in the group.
- b. Branches of foreign banks shall comply with the requirements of this Section to the extent applicable and in relation to the stress testing program being implemented by the Head Office. In this regard, stress testing exercises conducted at the branch level shall consider vulnerabilities of the Head Office that may likewise affect branch operations.
- c. Stand-alone TB/s, RB/s, and Coop Bank/s shall conduct simple sensitivity analysis covering credit, liquidity, and operational risks.

These banks shall consider, at a minimum, the following in their stress testing exercises:

- (1) Twenty percent (20%) and fifty percent (50%) of the total loan portfolio turning into non-performing loans (NPL) for full provision of allowance for credit losses;
- (2) Twenty percent (20%) and fifty percent (50%) deposit withdrawal; and
- (3) Recognition of operational losses accounting for five percent (5%) and ten percent (10%) of total assets.

The board of directors of stand-alone TBs, RBs, and Coop Banks are expected to assess the interconnectedness of the impact of the above-mentioned factors. For example, an assumption that may result in twenty percent (20%) default rate of the loan portfolio may likewise affect the liquidity position of the bank.

The board's discussion on stress testing exercises shall be adequately documented. The board shall demonstrate its understanding of the results of the stress testing exercises and how these were considered in the strategies and policies developed as well as decisions made.

Reporting. UBs/KBs shall report the results of the stress testing that were undertaken to the Bangko Sentral on an annual basis as part of the Internal Capital Adequacy Assessment Process (ICAAP) document provided under *Appendix 94*. The report shall cover the results of the latest stress tests under the most severe scenario used, and shall include information on the following:

- a. Description of the coverage;
- b. Conditions prevailing and assumptions used over the stress test time horizon;
- c. Description of the event and details of the conditions prevailing in each scenario such as, but not limited to, the level of GDP, interest rates, unemployment, or exposure concentration. Other significant assumptions used in the stress tests should be included in the list;
- d. Results of stress test, which shall include, at the minimum, the impact on the financial condition at each significant balance sheet date (for example, financial half-year or financial year-end) over the stress test time horizon, absolute amounts and key financial ratios, and other indicators or ratios that the bank considers relevant;
- e. Assessment of vulnerabilities as well as the key risk factor(s) affecting the vulnerable areas. A sufficient level of detail should be given in the assessment in order to provide a meaningful understanding of the vulnerable areas

(for example, business line, geographical sectors, economic sectors or sub-sectors, market segments, borrower groups etc.) and the causes of stress losses; and

- f. Specific decisions or actions taken and the rationale behind the measures adopted.

For other banks, results of their stress testing should be made available any time upon request of the Bangko Sentral.

Supervisory enforcement action. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to this Section to bring about timely corrective actions and compliance with Bangko Sentral directives. For this purpose, the Bangko Sentral may issue directives or impose sanctions on the bank and/or its directors, officers and/or employees.

(Circular Nos. 1101 dated 19 October 2020, 1065 dated 3 December 2019, 1051 dated 27 September 2019, and 989 dated 4 January 2018)

152 MANAGEMENT OF INTEREST RATE RISK IN THE BANKING BOOK¹

Policy Statement. The Bangko Sentral recognizes that changes in the structure of banks' balance sheets and movements in interest rates pose risks to earnings and economic value. In particular, excessive interest rate risk in the banking book (IRRBB) may result in a reduction in earnings or of capital. In this regard, the Bangko Sentral expects banks to implement a comprehensive approach to risk management that ensures timely and effective identification, measurement, monitoring and control of IRRBB. Banks shall be guided by the standards on IRRBB management set out below.

General Principles

The guidelines on managing IRRBB set forth in this Section shall apply to all banks. All banks must adequately identify their IRRBB exposures and take appropriate steps to measure, monitor and control the risk. In managing IRRBB, banks shall duly consider the overall impact of the bank's interest rate-sensitive assets, liabilities and off-balance sheet exposures over short-, medium- and long-term time horizons on their earnings and economic value. Banks shall ensure that the IRRBB management system is integrated into the overall risk management framework and strategic business planning process.

The Bangko Sentral shall evaluate the adequacy and effectiveness of a bank's IRRBB management framework taking into account the size, complexity and nature of the bank's business activities.

Definitions

- a. *Interest rate risk in the banking book (IRRBB)* is the current and prospective risk to earnings and capital arising from adverse movements in interest rates that affect a bank's banking book positions. For purposes of these guidelines, three sub-types of IRRBB are identified: gap risk, basis risk, and option risk.
- b. *Gap risk* arises from the term structure of banking book instruments, and refers to the risk arising from the timing of instruments' rate changes. The extent of gap risk depends on whether changes to the term structure of interest rates occur consistently across the yield curve (parallel risk) or differentially by period (non-parallel risk).
- c. *Basis risk* refers to the impact of relative changes in interest rates for financial instruments that have similar tenors but are priced using different interest rate indices.
- d. *Option risk* arises from optional elements embedded in a bank's assets, liabilities and/or off-balance sheet items or option derivative positions, where the bank or its customer can alter the level and timing of their cash flows automatically or behaviorally.

Interest Rate Risk in the Banking Book Management Process

The management of IRRBB shall form part of the overall risk management framework. At a minimum, the process should:

- a. **Identify IRRBB.** Identifying current and prospective risk involves understanding the IRRBB arising from a bank's existing and new business activities, as well as the impact of hedges or risk management initiatives on exposures.
- b. **Measure IRRBB.** The measurement of IRRBB should enable banks to quantify IRRBB and determine its impact on earnings and economic value. Banks should have the appropriate systems and tools to enable the timely and comprehensive measurement of risk.
- c. **Control IRRBB.** The control of IRRBB necessitates the establishment of internal policies on the extent of IRRBB that is acceptable to the Board on both solo and consolidated bases. The lines of authority and accountability should be clearly defined to ensure that IRRBB exposures remain reasonable and within the risk appetite statement of the board.

¹ Banks shall complete a gap analysis of the requirements of Sec. 152 vis-à-vis their existing risk management systems within six (6) months from 27 August 2019. The results of the gap analysis shall be documented and made available for review by the Bangko Sentral. Banks are expected to develop or make appropriate changes to their policies and procedures on the management of interest rate risk in the banking book by 1 January 2021.

- d. Monitor IRRBB. Monitoring IRRBB requires timely reviews of interest rate risk positions. Monitoring reports should be comprehensive, timely and accurate in order to provide sufficient basis for sound business decisions.

Interest Rate Risk in the Banking Book Management Framework

A sound management system for IRRBB shall cover the following basic elements:

- a. Active board and senior management oversight;
- b. Adequate risk management policies and procedures;
- c. Appropriate limits structure, risk measurement methodologies, and monitoring and management information systems; and
- d. Comprehensive internal controls and independent audits.

Banks with simple operations may generally employ fundamental risk management practices while complex institutions are expected to adopt more sophisticated risk management frameworks. Banking groups shall take a comprehensive perspective in measuring and controlling risk by understanding how financial subsidiaries can magnify or reduce their consolidated IRRBBs.

(1) Board and Senior Management Oversight¹

Responsibilities of the Board of Directors

The board of directors is ultimately responsible for the IRRBB assumed by the bank and the processes used to manage it. In this regard, the board shall:

- (a) Obtain an understanding of the nature and the level of the bank's IRRBB, and its potential linkages with other major risks of the bank (e.g., market, liquidity, credit and operational risks). The board should include members who have sufficient technical knowledge on financial instruments and risk management
- (b) for effectively performing asset and liability management. The board should also encourage discussions between its members and the senior management personnel, and between senior management techniques. Collectively, the board should have the ability to question and challenge strategies and information on risk disclosed in management reports.
- (c) Establish the risk appetite for IRRBB and approve broad business strategies and policies relative to IRRBB. The risk appetite should be clearly articulated in terms of earnings, economic value, or both. The board should ensure that there is clear guidance regarding the acceptable level of IRRBB, given the bank's business strategies.
- (d) Identify and designate senior management personnel or expert individuals responsible for establishing and managing IRRBB positions with clear lines of authority. In the case of large institutions, such functions are usually delegated to the Asset and Liability Committee (ALCO). A simple bank² may not have an ALCO. In this case, the board should identify committees or units within the organization that shall be responsible personnel and other personnel of the bank (e.g., between risk management and the strategic planning units) on the IRRBB management process to facilitate the evaluation of risks arising from future business.
- (e) Ensure that the organizational structure of the bank facilitates effective decision-making and good governance. Responsibilities in key elements of the risk management process should be adequately segregated to avoid conflicts of interest. The IRRBB management functions should have clearly defined responsibilities that are sufficiently independent from risk-taking functions of the bank and should report IRRBB exposures directly to the board.
- (f) Approve significant strategies to hedge or manage IRRBB, including the instruments that are used to carry out the strategies.
- (g) Institute adequate systems and standards for measuring IRRBB, including the internal controls surrounding the development and updating of relevant key assumptions and stress scenarios.
- (h) Allocate adequate resources for the management of IRRBB. This includes ensuring that senior management and the relevant management committee have the technical capability and skills to

¹ This section refers to a management structure composed of a board of directors and senior management. The Bangko Sentral is aware that there may be differences in some financial institutions as regards the organizational framework and functions of the board of directors and senior management. For instance, branches of foreign banks have boards of directors located outside of the Philippines that oversee multiple branches in various countries. In this case, "board-equivalent" committees are appointed. Owing to these differences, the notions of the board of directors and the senior management are used in these guidelines not to identify legal constructs but rather to label two decision-making functions within a financial institution.

² The classification of a bank as complex or non-complex/simple shall be in accordance with the criteria set out in item "(c)" of Sec. 131.

understand and effectively manage IRRBB, and that management information systems that facilitate timely and comprehensive IRRBB reporting are continuously maintained.

- (i) Monitor the bank's performance and IRRBB profile and ensure that the level of IRRBB is maintained within the intended risk appetite and supported by adequate capital. The board shall review, at least quarterly, timely and sufficiently detailed reports to allow it to understand and assess the performance of senior management in monitoring and controlling IRRBB.

Responsibilities of Senior Management

Senior management is responsible for effectively executing business strategies within the IRRBB risk appetite approved by the board and for implementing the IRRBB risk management system. In this regard, senior management shall:

- (a) Implement a board-approved limits structure for IRRBB that incorporates appropriate processes on the resolution of limit breaches;
- (b) Develop and implement IRRBB policies and procedures that translate the board's goals, objectives and strategies into operating standards, and ensure that these are transmitted to and well-understood by all concerned business units and personnel;
- (c) Identify appropriate systems and standards for the measurement of IRRBB;
- (d) Develop asset-liability management strategies that judiciously take into account potential yield curve shifts that can impact the bank's earnings and economic value;
- (e) Meet regularly, in the case of a committee designated to manage IRRBB exposures;
- (f) Adhere to the lines of authority and responsibility that the board has established for managing IRRBB exposures;
- (g) Inform the board of any new and emerging IRRBB concerns in a timely manner, based on the monitoring of trends and market developments that pose significant risk implications on the bank's business model and risk profile.

More detailed expectations on the areas under the responsibility of senior management are discussed in the succeeding sections of the guidelines.

(2) Risk Management Policies and Procedures and Limits Structure

A bank's policies and procedures for IRRBB management shall be comprehensive, clearly defined, documented and duly approved by the board. Policies should clearly define the process for achieving targeted structural repricing gaps vis-a-vis the expected movement in interest rates, hedging strategies, and the models to be used to quantify IRRBB. IRRBB policies should be reviewed at least annually and revised as needed.

Limits shall be consistent with the risk appetite set by the board and the bank's overall approach for measuring IRRBB. The limits shall likewise be appropriate to the nature, size, complexity and capital strength of the bank, as well as its ability to measure and manage these risks. Depending on the nature of a bank's activities and business model, sub-limits may also be identified for gap risks in individual currencies and booking units. The level of detail of risk limits should reflect the characteristics of the bank's IRRBB exposures. Banks with significant exposures to basis and option risk should consider establishing risk tolerances appropriate for these risks.

Aggregate risk limits should be applied on a consolidated basis and, as appropriate, at the level of individual financial subsidiaries. Limits should be developed with due regard to scenarios involving changes in interest rates and/or term structures. The interest rate movements used in developing these limits should represent meaningful and forward-looking shock and stress situations, taking into account the time required by management to mitigate those risk exposures.

There should be systems in place to ensure that positions that exceed, or are likely to exceed limits, receive prompt management attention and are escalated to appropriate authorities without delay. Policies should clearly address details on who shall be informed, how the communication should take place and what actions should be taken in response to an exception. Limits can be designated as absolute in the sense that they should never be exceeded. Policies may also establish when, under specific circumstances, breaches of limits can be tolerated for a predetermined short period of time. Moreover, the actions taken to resolve actual or potential limit breaches should be properly documented.

As part of its new product policy, management should require new products and activities that have a material impact on its IRRBB to undergo a careful review to ensure that the risk management system is capable of handling the

IRRBB associated with those new businesses. Proposals to use new instrument types or new strategies (including hedging) should also be assessed to ensure that the resulting risks are still aligned with the bank's overall risk appetite.

(3) Risk Measurement Methodologies, Monitoring and Management Information System (MIS)

A bank's internal measurement systems (IMS) should capture all material sources of IRRBB and assess the effect of interest rate changes on earnings and/or economic value. The measurement of IRRBB should be based on outcomes arising from an appropriate range of interest rate shocks and stress scenarios. Measurement systems and models used for IRRBB should cover each currency in which a bank has material exposures. Currencies in which a bank has material exposure are those that account for at least five percent of either its total banking book assets or total banking book liabilities.

(a) Earnings- and Economic Value- Based Measures

There are two complementary measures of the potential impact of IRRBB: (a) changes in expected earnings (earnings-based measures); and (b) changes in economic value (EV, or EVE when measuring the change in value relative to equity).

(i) *Earnings-Based Measures*

Earnings-based measures focus on the impact of changes in interest rates on future accrued or reported earnings. These are better suited for measuring the short- and medium-term vulnerabilities, i.e., those occurring within the next three years.

In order to calculate changes in expected earnings under different interest rate shocks and stress scenarios, a bank should be able to project future earnings under both the expected economic scenario that informs its corporate plan and the interest rate shock and stress scenarios.

Depending on the complexity of its operations, a bank will need to develop assumptions on client/market behavior and the bank's own management response to the evolving economic climate, such as:

- (aa) The volume and type of new/replacement assets and liabilities expected to be originated over the evaluation period;
- (bb) The volume and type of asset and liability redemptions/reductions over that period;
- (cc) The interest rate basis and margin associated with the new assets and liabilities, and with those redeemed/withdrawn; and
- (dd) The impact of any fees collected/paid for exercise of options.

Banks may likewise model earnings under the following assumptions:

- (aa) Run-off balance sheet: existing assets and liabilities are not replaced as they mature, except to the extent necessary to fund the remaining balance sheet;
- (bb) Constant balance sheet: total balance sheet size and shape is maintained by assuming like-for-like replacement of assets and liabilities as they run off; and
- (cc) Dynamic balance sheet: incorporates future business expectations, adjusted for the relevant scenario in a consistent manner.

Banks are expected to use assumptions that are appropriate to the complexity, size and nature of its IRRBB exposures. For instance, a bank that has material exposures to complex products or option risk shall measure IRRBB under a dynamic balance sheet approach.

(ii) *Economic Value-Based Measures*

An EV-based measure of IRRBB represents an assessment of the present value of expected net cash flows, discounted to reflect market rates. As fluctuations in interest rates will affect a bank's earnings, they will also affect its net worth. Changes in economic value can be measured using a variety of techniques which differ in terms of complexity and ability to capture different types of interest rate sensitivity (i.e., gap risk, basis risk and option risk).

In coming up with present values, the relevant risk-free rate shall be used to formulate discount factors. The resulting weighted net positions across tenors are aggregated to determine the EVE in each currency under different shock scenarios.

(b) Key Behavioral and Modeling Assumptions

Behavioral assumptions and parameters are vital to both earnings-based and economic value-based measures, such as those relating to:

- (i) Treatment of balances and interest flows arising from non-maturity deposits (NMDs), term deposits that are redeemable ahead of their maturities, and fixed rate loans with pre-payment options for the borrower;
- (ii) Expectations for the exercise of interest rate options (explicit and embedded) by both the bank and its customers under specific interest rate shock and stress scenarios;
- (iii) Treatment of own equity in economic value measures;¹ and
- (iv) The implications of accounting standards that apply to banking book positions.

Thus, senior management is expected to exercise sound judgment in coming up with assumptions. Expectations on the treatment of certain products are set out below:

- (aa) NMDs – Banks should determine appropriate assumptions for NMDs. This entails a qualitative and/or quantitative analysis of the depositor base in order to measure the proportion of core deposits (i.e., NMDs which are unlikely to reprice even when there are significant changes in interest rate environment) and non-core deposits. Assumptions should vary according to depositor characteristics (i.e., retail/wholesale) and account characteristics (i.e., transactional/non-transactional, fixed rate/variable rate). Banks should distinguish between the stable and the non-stable parts of each NMD category using observed volume changes over a sufficient period of time, i.e., the past ten (10) years.
- (bb) Term deposits subject to early redemption risk – Banks may attract deposits with a contractual maturity term or with step-up clauses that enable the depositor in different time periods to modify the speed of redemption. The classification scheme for identifying these products, possible instances when redemption is subject to penalties, as well as other contractual features preserving the cash flows profile of the instrument, should be supported by adequate documentation.
- (cc) Fixed rate loans subject to prepayment risk – Banks should understand the nature of prepayment risk for their portfolios and make reasonable and prudent estimates of the expected prepayments. The assumptions underlying the estimates and possible cases where prepayment penalties or other contractual features affect the embedded optionality should be documented. Specifically, management must be capable of using those assumptions to assess the expected average prepayment speed under each identified scenario.

(c) Interest Rate Shock and Stress Scenarios

Banks should determine, by each material currency, a range of potential interest rate movements against which they will measure their IRRBB exposures. In choosing the appropriate scenarios, the board and senior management should consider the nature and sources of their IRRBB exposures and select the scenarios that provide meaningful estimates of risk. The scenarios should include a range of shocks that is sufficiently wide, possibly incorporating stress elements, to allow board and senior management to understand the risk inherent in the bank's balance sheet structure. The bank should likewise consider the shape and level of the term structure and volatility of interest rates that are relevant to its business model, the time needed to take action to reduce or unwind unfavorable IRRBB exposures, and its ability to withstand losses in order to reposition the risk profile.

In devising the appropriate shocks and stress scenarios for IRRBB, banks should take the following into account:

- (i) Scenarios that identify parallel and non-parallel gap risk, basis risk and option risk. In many cases, static interest rate shocks may be insufficient to assess IRRBB exposure adequately. Banks should ensure that the scenarios are both severe and plausible, in light of the existing level of interest rates and the interest rate cycle;
- (ii) Instruments or markets where concentrations exist, because those positions may be more difficult to liquidate or offset in a stressful market environment;
- (iii) Possible interaction of IRRBB with related and other risks (e.g., credit risk, liquidity risk);
- (iv) Effect on net interest income of adverse changes in the spreads of new assets/liabilities replacing those assets/liabilities maturing over the horizon of the forecast;

¹ Equity usually has a cost in the form of a dividend, and banks seek to stabilize the earnings that can be made on assets funded by equity. Since equity capital has no contractual price reset date, banks may determine their own strategies for managing the earnings volatility that arises from it using techniques similar to those for NMDs.

- (v) Where a bank has significant option risk, scenarios that capture the exercise of such options. Given that the market value of options also fluctuates with changes in the volatility of interest rates, banks should develop interest rate assumptions to measure their IRRBB exposures to changes in interest rate volatilities;
- (vi) The term structure of interest rates that will be incorporated and the basis relationship between yield curves and rate indices. Banks should also estimate how interest rates that are administered or managed by management (e.g., prime rates or retail deposit rates, as opposed to those that are purely market-driven) might change, and management should document how these assumptions are derived; and
- (vii) Forward-looking scenarios that incorporate changes in portfolio composition due to factors under the control of the bank (e.g., the bank's acquisition and production plans) as well as external factors (e.g., changing competitive, legal or tax environments), new products for which only limited historical data are available, and new market information and emerging risks that are not necessarily covered by historical stress episodes.

Banks shall likewise develop and implement an effective stress testing framework for IRRBB as part of their broader risk management and governance processes.¹ Stress tests for IRRBB should be commensurate to the nature, size, complexity, business model and overall risk profile of the bank. The framework should include clearly defined objectives together with scenarios tailored to the bank's risk profile and must be supported by sound methodologies and well-documented assumptions. Stress test results should feed into the strategic decision-making and limit setting processes undertaken by the board and senior management.

Stand-alone thrift, rural and cooperative banks should, at the minimum, measure and assess the impact of a 100-, 200- and 300- basis point movement in interest rates to their net interest income for the succeeding 12-month period. Further, these banks should develop bank-specific stress scenarios, such as an increasing competition, that may result in changes in the interest rates that they offer on their loans and deposits.

(d) Model Risk Governance

The validation of IRRBB measurement methods and assessment of corresponding model risks should be governed by a policy on model risk. Guidelines should specify management roles and designate the personnel responsible for the development, implementation and use of models. These should also specify model oversight responsibilities as well as internal policies for key processes such as initial and ongoing validation procedures, results evaluation, approval, version control, exception management, escalation, modification and decommissioning.

The model validation framework should incorporate: (i) evaluation of methodological soundness; (ii) model monitoring which includes process verification and benchmarking; and (c) outcome analysis that involves back-testing of key parameters. Prior to model usage, model inputs, assumptions, methodologies and outputs including those that were developed by third-party vendors should be subject to independent validation. The results of this validation should be presented to the board for approval. Subsequently, the model should be subject to periodic review and process verification to ensure its continuing relevance and the accuracy of model output.

(e) Risk Monitoring

Measurement outcomes of IRRBB and hedging strategies should be reported to the board on a regular basis, at relevant levels of aggregation, whether on a consolidated basis for a banking group or on a per currency basis for banks having material positions on different currencies.

Reports submitted to the board should clearly compare current exposure with policy limits and should also disclose the results of the periodic model reviews and back-testing. While the types of reports prepared for the board will vary based on the bank's business model, these should, at a minimum include the following:

- (i) Summaries of aggregate IRRBB exposures highlighting the assets, liabilities, cash flows, and strategies that are driving the level and direction of risks;
- (ii) Reports on the results of the bank's risk metrics assessed in relation to the set limits and earnings or capital;

¹ The provisions on stress testing in these guidelines should be read in conjunction with Sec. 151 on the Guidelines on the Conduct of Stress Testing Exercises.

- (iii) Key modelling assumptions reflecting management's judgments (e.g., NMD characteristics, prepayments on fixed rate loans and currency aggregation) to disclose the limitations of the model;
 - (iv) Results of stress tests, including assessment of sensitivity to key assumptions and parameters; and
 - (v) Summaries of the reviews of IRRBB policies, procedures and adequacy of the measurement systems, including any findings of internal and external auditors and/or other equivalent external parties (such as consultants).
- (f) Management Information Systems

A bank's MIS should allow it to retrieve accurate IRRBB information in a timely manner. The MIS should capture interest rate risk data on all the bank's material IRRBB exposures. There should be sufficient documentation of the major data sources used in the bank's risk measurement process. Data inputs should be automated to the extent possible to reduce administrative errors. Data mapping should be periodically reviewed and tested against an approved model version. A bank should monitor the type of data extracts and set appropriate controls.

Where cash flows are slotted into different time buckets (e.g., for gap analyses), the slotting criteria should be stable over time to allow for a meaningful comparison of risk figures over different periods.

(4) Internal Controls and Audit¹

A bank shall have adequate internal controls in place to protect the integrity of its IRRBB risk management processes. Approval processes, exposure limits, independent reviews and other mechanisms should be designed and implemented to provide the board and senior management with reasonable assurance that risk management objectives are being achieved.

Independent reviews should address significant changes that may affect the effectiveness of controls (including changes in market conditions, personnel, technology and structures of compliance with exposure limits), and verify that there are appropriate escalation procedures in place to resolve limit exceptions. When revisions or enhancements to internal controls are warranted, there should be an internal review mechanism in place to ensure that these are implemented in a timely manner.

Supervisory Framework. The Bangko Sentral shall employ a risk-based approach in assessing the level and trend of a bank's IRRBB and the adequacy and effectiveness of its IRRBB management process. This shall be done through a combination of on-site examinations and off-site reviews. This aims to ensure that a bank's earnings and capital are adequate relative to the size of its exposures.

The Bangko Sentral shall consider the following:

- a. The complexity of IRRBB risk management systems relative to the risk posed by assets, liabilities and off-balance sheet activities;
- b. The level of IRRBB in relation to earnings and capital;
- c. The effectiveness of hedging strategies used by management to manage IRRBB; and
- d. The adequacy and effectiveness of risk governance.

Universal and commercial banks are expected to demonstrate that their internal capital is commensurate with the level of IRRBB, taking into account the impact on internal capital of potential changes in the institution's economic value and/or future earnings resulting from changes in interest rates.

A significant change in NII relative to a bank's earnings and capital will not necessarily result in supervisory or enforcement action. It shall be subject to further evaluation by the Bangko Sentral, with particular consideration given to the factors driving the significant IRRBB. The Bangko Sentral may issue directives, as necessary, taking into consideration the business model of the bank, its strategic plans and market conditions.

Supervisory enforcement actions. Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in these guidelines and bring about timely corrective actions. If a bank's risk exposures are not well-managed, the Bangko Sentral may direct the bank to increase its capital, reduce its IRRBB exposures and/or strengthen its risk management system. The Bangko Sentral may likewise issue directives to limit the level of or suspend any business activity that has adverse effects on the safety and soundness of the bank, among others. Sanctions may likewise be imposed on the bank and/or its directors, officers and/or employees.

(Circular No. 1044 dated 6 August 2019)

¹ Refer also to Secs. 162 and 163 for the frameworks on Internal Control System and Internal Audit, respectively.

Policy Statement. The Bangko Sentral is cognizant that climate change and other environmental and social risks could pose financial stability concerns considering their significant and protracted implications on the bank's operations and financial interest. In particular, physical and transition risks arising from climate change could result in significant societal, economic and financial risks affecting the banks and their stakeholders. The Bangko Sentral likewise recognizes the critical role of the financial industry in pursuing sustainable and resilient growth by enabling environmentally and socially responsible business decisions consistent with the aspirations set out for the Filipinos under the Philippine Development Plan.

Towards this end, the Bangko Sentral expects banks to embed sustainability principles, including those covering environmental and social risk areas, in their corporate governance framework, risk management systems, and strategic objectives consistent with their size, risk profile and complexity of operations.

Scope of Application. This Framework shall apply to all banks. Branches of foreign banks may adopt the relevant policies and strategies of their Head Office that are consistent with applicable provisions in this Section.

Definition of Terms. For purposes of this Framework, the following definitions shall apply:

- a. **Sustainable Finance.** This refers to any form of financial product or service which integrates environmental, social and governance criteria into business decisions that supports economic growth and provides lasting benefit for both clients and society while reducing pressures on the environment.

This also covers green finance which is designed to facilitate the flow of funds towards green economic activities and climate change mitigation and adaptation projects.

- b. **Environmental and Social (E&S) Risk.** This refers to potential financial, legal, and/or reputational negative effect of environmental and social issues on the bank. E&S issues include environmental pollution, climate risk (both physical and transition risks), hazards to human health, safety and security, and threats to community, biodiversity and cultural heritage, among others.
- c. **Physical Risk.** This refers to the potential loss or damage to tangible assets arising from climate change and/or other weather-related conditions such as floods, typhoons, droughts, earthquakes, extreme weather variability and rising sea levels.
- d. **Transition Risk.** This refers to the potential economic adjustment cost resulting from policy, legal, technology and market changes to meet climate change mitigation and adaptation requirements.
- e. **Environmental and Social Risk Management System (ESRMS).** This refers to policies, procedures and tools to identify, assess, monitor and mitigate exposures to E&S risks.

Duties and Responsibilities of the Board of Directors and Senior Management.

Board of Directors. Consistent with the expectations set out under Sec. 132 to promote the long-term financial interest of the bank and ensure that it has beneficial influence on the economy, the board of directors (or equivalent management committee in the case of foreign bank branches) shall:

- a. Institutionalize the adoption of sustainability principles, including those covering E&S risk areas in the bank, by incorporating the same in the corporate governance and risk management frameworks as well as in the bank's strategic objectives and operations taking into account the bank's risk appetite and ability to manage risk;
- b. Promote a culture that fosters environmentally and socially responsible business decisions. The board of directors shall ensure that sustainability implications are considered in the overall decision-making process;
- c. Approve the bank's ESRMS that is commensurate with the bank's size, nature, and complexity of operations and oversee its implementation. The board of directors shall ensure that the ESRMS is aligned with internationally recognized principles, standards and global practices and forms part of the enterprise-wide risk management (ERM) system;
- d. Ensure that sustainability objectives and policies are clearly communicated across the institution, and to its investors, clients, and other stakeholders;

¹ **Transitory Provision.** Banks shall be given a period of three (3) years from the effectivity of this Circular within which to fully comply with the provisions in this Section. In this regard, banks shall adopt a transition plan with specific timelines to implement the board-approved strategies and policies integrating sustainability principles into their corporate governance and risk management frameworks as well as in their strategic objectives and operations. Banks shall provide its board-approved transition plan upon request of the BSP starting six (6) months from the effectivity of this issuance.

- e. Adopt an effective organizational structure to ensure attainment and continuing relevance of the bank's sustainability objectives. The board of directors or the designated board-level or management committee shall monitor the bank's progress in attaining sustainability objectives;
- f. Ensure that adequate resources are available to attain the bank's sustainability objectives. The board of directors shall ensure that the members of the board, senior management and personnel are regularly apprised of the developments on sustainability standards and practices; and
- g. Ensure that the sustainability agenda is integrated in the bank's performance appraisal system.

Senior Management. The senior management shall be responsible for the overall implementation of the board-approved strategies and policies in relation to the sustainability objectives of the bank. It shall:

- a. Assess on a periodic basis the continuing relevance of said policies considering the developments in the business environment;
- b. Facilitate the identification, assessment, monitoring and mitigation of E&S risks. The senior management shall ensure that the bank takes a holistic approach in managing these risks aligned with the strategic objectives set by the board of directors;
- c. Assess consistency of operations and performance of personnel with the bank's sustainability objectives; and
- d. Apprise the board of directors on a regular basis on the bank's exposure to E&S risks which shall include potential issues associated with both internal and external activities of the bank and the activities of its clients that may have material impact on the bank's portfolio or reputation. Moreover, the senior management shall report its progress in implementing the bank's sustainability policies and ESRMS.

Environmental and Social Risk Management System (ESRMS). The ESRMS shall be articulated in a separate document solely relating to the management of E&S risk or embedded in existing documents related to the management of specific risk areas, (e.g., credit risk management system). At the minimum, the ESRMS shall:

- a. Define the level of risk appetite of the bank on E&S risk. The scope and complexity of the ESRMS shall be commensurate with the level of E&S risks associated with the bank's portfolio.
- b. Provide clear guidance in assessing E&S risks in the bank's operations, products and services, transactions, activities, and operating environment. The ESRMS shall also identify which sectors or activities have elevated or emerging E&S risks or are considered to have harmful effects to the environment or society.
- c. Provide the tools for monitoring E&S risks as well as the compliance of the bank and its counterparties with sustainability-related standards, laws and regulations. The ESRMS shall likewise provide the measures that should be taken in case of breaches in limits or thresholds or non-compliance with sustainability-related standards, laws and regulations.
- d. Provide tools for assessing identified E&S risks and for considering the same in the aggregate risk exposures of the bank.
- e. Integrate E&S risks in stress testing exercises covering both short-term and long-term time horizons following the principles and requirements provided under Sec. 151. The results of stress testing shall feed into banks' capital and liquidity planning and management exercises as well as in the business continuity and disaster recovery plans.
- f. Identify the unit or personnel responsible for overseeing the management of E&S risks. The bank may establish a new unit to perform such function or integrate the same in the functions of existing risk management units. The ESRMS shall set out the duties and responsibilities of all personnel in the organization in managing E&S risks.

Internal Audit and Compliance Function. The audit and compliance functions shall incorporate in their respective programs the assessment of adherence to policies related to the management of E&S risks and evaluation of the robustness and continuing relevance of said policies. The internal audit function shall also review the bank's adherence to international sustainability standards and principles as well as relevant laws and regulations.

Disclosure Requirements. Banks shall disclose the following information in their Annual Reports:

- a. Sustainability strategic objectives and risk appetite;
- b. Overview of E&S risk management system;
- c. Products/services aligned with internationally recognized sustainability standards and practices. This shall include the issuance of green, social or sustainability bonds;
- d. Breakdown of E&S risk exposures of the bank per industry or sector;

- e. Information on existing and emerging E&S risks and their impact on the bank; and
- f. Other initiatives to promote adherence to internationally recognized sustainability standards and practices.

In addition to the above-mentioned items, banks shall also disclose in their Annual Report the progress of implementation of initiatives undertaken to integrate sustainability principles in their governance framework, risk management system, business strategy and operations.

If the foregoing disclosure requirements are captured in the Sustainability Report that is being submitted by publicly listed banks to the Securities and Exchange Commission, the Sustainability Report may be submitted together with the Annual Report to the Bangko Sentral in compliance with this requirement.

(Circular No. 1085 dated 29 April 2020)

F. COMPLIANCE, INTERNAL CONTROL, AND AUDIT

161 COMPLIANCE FRAMEWORK

Compliance Risk Management. BSFIs shall establish a dynamic and responsive compliance risk management system. The compliance risk management system shall be designed to specifically identify and mitigate risks that may erode the franchise value of the BSFI such as risks of legal or regulatory sanctions, material financial loss, or loss to reputation, a BSFI may suffer as a result of its failure to comply with laws, rules, related self-regulatory organization standards, and codes of conduct applicable to its activities. Said risk may also arise from failure to manage conflict of interest, treat customers fairly, or effectively manage risks arising from money laundering and terrorist financing activities. Compliance risk management should be an integral part of the culture and risk governance framework of the BSFI. In this respect, it shall be the responsibility and shared accountability of all personnel, officers, and the board of directors.

Compliance function. The compliance function shall have a formal status within the organization. It shall be established by a charter or other formal document approved by the board of directors that defines the compliance function's standing, authority and independence. It shall have the right to obtain access to information necessary to carry out its responsibilities, conduct investigations of possible breaches of the compliance policy, and shall directly report to and have direct access to the board of directors or appropriate board-level committee.

The compliance function shall facilitate effective management of compliance risk by:

- a. Advising the board of directors and senior management on relevant laws, rules and standards, including keeping them informed on developments in the area;
- b. Apprising BSFI personnel on compliance issues, and acting as a contact point within the BSFI for compliance queries from BSFI personnel;
- c. Establishing written guidance to staff on the appropriate implementation of laws, rules and standards through policies and procedures and other documents such as compliance manuals, internal codes of conduct and practice guidelines;
- d. Identifying, documenting and assessing the compliance risks associated with the BSFI's business activities, including new products and business units;
- e. Assessing the appropriateness of the BSFI's compliance procedures and guidelines, promptly following up any identified deficiencies, and where necessary, formulating proposals for amendments;
- f. Monitoring and testing compliance by performing sufficient and representative compliance testing;
- g. In the case of branches of foreign banks, the compliance function shall be responsible for maintaining official English translation of bank documents including, but not limited to policies, procedures, manuals, and all documents supporting the approval of transactions and contracts/agreements entered into; and
- h. Maintaining a constructive working relationship with the Bangko Sentral and other regulators.

Compliance program. The compliance program shall set out the planned activities of the compliance function, such as the review and implementation of specific policies and procedures; compliance risk assessment; compliance testing; educating staff on compliance matters; monitoring compliance risk exposures; and reporting to the board of directors or board-level committee. The program shall espouse a risk-based approach and shall have appropriate coverage across businesses and units. For this purpose, the compliance program shall be updated on a regular basis or at least annually.

In case of group structures, there should be a board-approved policy that defines the compliance framework that shall apply to entities across the group. The policy shall provide the structure that shall be adopted by the group, either to establish the compliance function centrally at the parent bank or in each of the identified subsidiary. Such policy shall also include the overall responsibility of the

parent bank's compliance function with respect to the management of compliance risk exposures of subsidiaries/affiliates.

The establishment of compliance function centrally by the parent bank in group structures shall not fall under the outsourcing framework as provided under Sec. 112. In this respect, the head of the compliance function of the parent bank shall define the compliance risk management strategies, processes, and communication framework for the entire group: *Provided*, That this shall be done in consultation and coordination with the respective board of directors of the subsidiary or affiliate BSFI: *Provided, further*, That the board of directors of the subsidiary or affiliate BSFI, shall remain ultimately responsible for the performance of the compliance risk management activities.

Chief Compliance Officer (CCO). The CCO should have the necessary qualifications, experience, and professional background and should have a sound understanding of relevant laws and regulations and their potential impact on the BSFI's operations. The CCO should be up-to-date with the developments in laws, rules and standards maintained through continuous training. BSFIs shall appoint a CCO who shall serve on a full-time basis and shall functionally report to the board of directors or board-level committee. BSFIs operating on a business model deemed simple by the Bangko Sentral, by virtue of their scale and complexity of activities, may designate its Internal Auditor to serve as the CCO in concurrent capacity. Banks with subsidiary banks and quasi-banks may appoint a CCO for the banking group: *Provided*, That the parent bank can show to the Bangko Sentral that the compliance function is conducted on a group-wide basis. In cases of branches of foreign banks, the CCO shall report to the regional/group compliance function.

An appointed CCO has the burden to prove that he possesses all the minimum qualifications and none of the disqualifications by submitting to the Bangko Sentral proof of such qualifications¹. Non-submission of complete documentary requirements within the prescribed period shall be construed as his failure to establish his qualifications for the positions and results in his removal as CCO. The Bangko Sentral shall also consider its own records in determining the qualifications of a CCO.

The CCO shall oversee the identification and management of the BSFI's compliance risk and shall supervise the compliance function staff. He is expected to liaise with the Bangko Sentral on compliance related issues and shall also be responsible for ensuring the integrity and accuracy of all documentary submissions to the Bangko Sentral. He shall functionally meet/report to the board of directors or board-level committee and such meetings shall be duly minuted and adequately documented. In this regard, the board of directors/board-level committee shall review and approve the performance and compensation of the CCO, as well as the budget of the compliance function.

In case of group structure, the head of the compliance function of the parent bank shall define the compliance activities for the entire group: *Provided*, That this shall be done in consultation and coordination with the respective board of directors and CCO of the subsidiary or affiliate BSFI: *Provided, further*, That the board of directors of the subsidiary or affiliate BSFI, shall remain ultimately responsible for the performance of compliance activities.

Responsibilities of the board of directors and senior management. Aside from the duties and responsibilities of the board of directors mentioned under Sec. 132, the board of directors shall ensure that a compliance program is defined for the BSFI and that compliance issues are resolved expeditiously. For this purpose, a board-level committee, chaired by a non-executive director, shall oversee the compliance program.

The board of directors shall ensure that BSFI personnel and affiliated parties adhere to the pre-defined compliance standards of the BSFIs. Implementation of the compliance program rests collectively with senior management, of which the CCO is the lead operating officer on compliance. Senior management, through the CCO, should periodically report to the board of directors or its designated committee matters that affect the design and implementation of the compliance program. Any changes, updates and amendments to the compliance program must be approved by the board of directors. However, any material breaches of the compliance program shall be reported to and promptly addressed by the CCO within the mechanisms defined by the compliance manual.

A compliance system found to be materially inadequate shall be construed as unsafe or unsound banking.

Cross-border compliance issues. The compliance function for institutions that conduct business in other jurisdictions should be structured to ensure that local compliance concerns are satisfactorily addressed within the framework of the compliance policy for the organization as a whole. As there are significant differences in legislative and regulatory frameworks across countries or from jurisdiction to jurisdiction, compliance issues specific to each jurisdiction should be coordinated within the structure of the institution's group-wide compliance policy. The organization and structure of the compliance function and its responsibilities should be in accordance with local legal and regulatory requirements.

Outsourcing of compliance risk assessment and testing. The review, assessment and testing of the compliance program may be outsourced to qualified third parties. The handling and management of this outsourcing arrangement shall be governed by Sec. 112.

(Circular Nos. 972 dated 22 August 2017, 969 dated 22 August 2017, and 893 dated 16 November 2015)

¹ Using the list in Appendix 101 as guide.

Internal control is a process designated and effected by the board of directors, senior management, and all levels of personnel to provide reasonable assurance on the achievement of objectives through efficient and effective operations; reliable, complete and timely financial and management information; and compliance with applicable laws, regulations, supervisory requirements, and the organization's policies and procedures.

Banks shall have in place adequate and effective internal control framework for the conduct of their business taking into account their size, risk profile and complexity of operations. The internal control framework shall embody management oversight and control culture; risk recognition and assessment; control activities; information and communication; and monitoring activities and correcting deficiencies.

Management oversight and control culture. Consistent with the principles provided under Secs. 132 (*Specific duties and responsibilities of the board of directors*) and 134 (*Duties and responsibilities of officers*), the board of directors and senior management shall be responsible for promoting high ethical and integrity standards; establishing the appropriate culture that emphasizes, demonstrates and promotes the importance of internal control; and designing and implementing processes for the prevention and detection of fraud.

- a. The board of directors shall be ultimately responsible for ensuring that senior management establishes and maintains an adequate, effective and efficient internal control framework commensurate with the size, risk profile and complexity of operations of the bank. The board of directors shall also ensure that the internal audit function has an appropriate stature and authority within the bank and is provided with adequate resources to enable it to effectively carry out its assignments with objectivity.

Further, the board of directors shall, on a periodic basis:

- (1) conduct discussions with management on the effectiveness of the internal control system;
- (2) review evaluations made by the audit committee on the assessment of effectiveness of internal control made by management, internal auditors and external auditors;
- (3) ensure that management has promptly followed up on recommendations and concerns expressed by auditors and supervisory authorities on internal control weaknesses; and
- (4) review and approve the remuneration of the head and personnel of the internal audit function. Said remuneration shall be in accordance with the bank's remuneration policies and practices and shall be structured in such a way that these do not create conflicts of interest or compromise independence and objectivity.

The board of directors of UBs/KBs shall likewise commission an assessment team outside of the organization to conduct an independent quality assurance review of the internal audit function at least every five (5) years.

- b. The audit committee shall be responsible for overseeing senior management in establishing and maintaining an adequate, effective and efficient internal control framework. It shall ensure that systems and processes are designed to provide assurance in areas including reporting, monitoring compliance with laws, regulations and internal policies, efficiency and effectiveness of operations, and safeguarding of assets.

The audit committee shall oversee the internal audit function and shall be responsible for:

- (1) monitoring and reviewing the effectiveness of the internal audit function;
- (2) approving the internal audit plan, scope and budget;
- (3) reviewing the internal audit reports and the corresponding recommendations to address the weaknesses noted, discussing the same with the head of the internal audit function and reporting significant matters to the board of directors;
- (4) ensuring that the internal audit function maintains an open communication with senior management, the audit committee, external auditors, and the supervisory authority;
- (5) reviewing discoveries of fraud and violations of laws and regulations as raised by the internal audit function;
- (6) reporting to the board of directors the annual performance appraisal of the head of the internal audit function;
- (7) recommending for approval of the board of directors the annual remuneration of the head of the internal audit function and key internal auditors;
- (8) appointing, reappointing or removing the head of the internal audit function and key internal auditors; and

- (9) selecting and overseeing the performance of the internal audit service provider.

In particular, the audit committee shall be responsible for:

- (1) ensuring independence of the internal audit service provider;
 - (2) reporting to the board of directors on the status of accomplishments of the outsourced internal audit activities, including significant findings noted during the conduct of the internal audit;
 - (3) ensuring that the internal audit service provider comply with sound internal auditing standards such as the Institute of Internal Auditors' International Standard for the Professional Practice of Internal Auditing and other supplemental standards issued by regulatory authorities/government agencies, as well as with relevant code of ethics;
 - (4) ensuring that the audit plan is aligned with the overall plan strategy and budget of the bank and is based on robust risk assessment; and
 - (5) ensuring that the internal audit service provider has adequate human resources with sufficient qualifications and skills necessary to accomplish the internal audit activities.
- c. Senior management shall be responsible for maintaining, monitoring and evaluating the adequacy and effectiveness of the internal control system on an ongoing basis, and for reporting on the effectiveness of internal controls on a periodic basis. Management shall develop a process that identifies, measures, monitors and controls risks that are inherent to the operations of the bank; maintain an organizational structure that clearly assigns responsibility, authority and reporting relationships; ensure that delegated responsibilities are effectively carried out; implement internal control policies and ensure that activities are conducted by qualified personnel with the necessary experience and competence. Management shall ensure that bank personnel undertake continuing professional development and that there is an appropriate balance in the skills and resources of the front office, back office, and control functions. Moreover, management shall promptly inform the internal audit function of the significant changes in the bank's risk management systems, policies and processes.
- d. All personnel need to understand their roles and responsibilities in the internal control process. They should be fully accountable in carrying out their responsibilities effectively and they should communicate to the appropriate level of management any problem in operations, action or behavior that is inconsistent with documented internal control processes and code of ethics.

Risk recognition and assessment. An effective internal control system shall identify, evaluate and continually assess all material risks that could affect the achievement of the bank's performance, information and compliance objectives. The potential for fraud shall be considered in assessing the risks to the achievement of said objectives. Further, the risk assessment shall cover all risks facing the bank, which include, among others, credit; country and transfer; market; interest rate; liquidity; operational; compliance; legal; and reputational risks.

Effective risk assessment identifies and considers both internal (e.g., complexity of the organization's structure, nature of the bank's activities and personnel profile) and external (e.g., economic conditions, technological developments and changes in the industry) factors that could affect the internal control framework. The risk assessment shall be conducted at the level of individual business units and across all bank activities/groups/units and subsidiaries, in the case of a parent bank. Internal controls shall be revised to address any new or previously uncontrolled or unidentified risks.

Control activities. Control activities shall form part of the daily activities of the bank and all levels of personnel in the bank. Control activities are designed and implemented to address the risks identified in the risk assessment process. These involve the establishment of control policies and procedures, and verification that these are being complied with.

Banks shall have in place control activities defined at every business level, which shall include a system that provides for top and functional level reviews; checking compliance with exposure limits and follow-up on non-compliance; a system of approvals and authorizations, which shall include the approval process for new products and services; and a system of verification and reconciliation.

Control activities complement existing policies, procedures and other control systems in place such as, among others, having clearly defined organizational structure and reporting lines, and arrangements for delegating authority; adequate accounting policies, records and processes; robust physical and environmental controls for tangible assets and access controls to information assets; and appropriate segregation of conflicting functions.

- a. *Clear arrangements for delegating authority.* The functions and scope of authority and responsibility of each personnel should be adequately defined, documented and clearly communicated. The extent to which authorities may be delegated and the corresponding accountabilities of the personnel involved shall be approved by the appropriate level of management or the board of directors.

- b. *Adequate accounting policies, records and processes.* Banks shall maintain adequate financial policies, records and processes. These records shall be kept up-to-date and contain sufficient detail to establish an audit trail. Further, banks shall conduct independent balancing and reconciliation of records and reports to ensure the integrity of the reported data and balances. Banks shall also put in place a reliable information system that covers all of its significant activities which shall allow the board of directors and management access to data and information relevant to decision making such as, among others, financial, operations, risk management, compliance and market information. Moreover, these systems shall be secured, monitored independently and supported by adequate contingency arrangements.
- c. *Robust physical and environmental controls to tangible assets and access controls to information assets.* Banks shall adopt policies and practices to safeguard its tangible and information assets. These shall include, but shall not be limited to:
 - (1) identifying officers with authorities to sign for and on behalf of the bank. Signing authorities shall be approved by the board of directors and the extent of authority at each level shall be clearly defined;
 - (2) implementing joint custody on certain assets. Joint custody shall mean the processing of transactions in the presence, and under the direct observation, of a second person. Both persons shall be equally accountable for the physical protection of the items and records involved: *Provided*, That persons who are related to each other within the third degree of consanguinity or affinity shall not be made joint custodians;
 - (3) adopting dual control wherein the work of one (1) person is to be verified by a second person to ensure that the transaction is properly authorized, recorded and settled;
 - (4) incorporating sequence number control in the accounting system which shall also be used in promissory notes, checks and other similar instruments. Management shall also put in place appropriate controls to monitor the usage, safekeeping and recording of accountable forms;
 - (5) restricting access to information assets by classifying information as to degree of sensitivity and criticality and identifying information owners or personnel with authority to access particular classifications based on job responsibilities and the necessity to fulfill one's duties; and
 - (6) implementing authentication and access controls prior to granting access to information such as, among others, implementing password rules. This shall be supplemented by appropriate monitoring mechanisms that will allow audit of use of information assets.
- d. *Segregation of conflicting functions.* Banks shall ensure that areas of potential conflicts of interest shall be identified, minimized and subjected to independent monitoring. Further, appropriate segregation of functions shall be observed in identified areas that may pose potential conflict of interest. Moreover, periodic reviews of responsibilities and functions shall be conducted to ensure that personnel are not in a position to conceal inappropriate actions.

Examples of internal control measures are in *Appendix 117*.

Information and communication. An effective internal control system requires that there are adequate and comprehensive internal financial, operational and compliance data, as well as external information about events and conditions that are relevant to decision making. Information shall be reliable, timely, accessible, and provided in a consistent format. Banks shall have in place a reliable management information system that covers significant activities of the bank and has the capability to generate relevant and quality information to support the functioning of internal control.

Banks shall also establish effective channels of communication to ensure that all personnel fully understand and adhere to policies and procedures and control measures relevant to their duties and responsibilities and that relevant information is reaching the appropriate personnel. Management shall also ensure that all personnel are cognizant of their duty to promptly report any deficiency to appropriate levels of management or to the board of directors, where required. These shall enable them to quickly respond to changing conditions and avoid unnecessary costs.

Monitoring activities and correcting deficiencies. The overall effectiveness of the internal controls shall be monitored on an ongoing basis. Monitoring functions and activities shall be adequately defined by management, integrated in the operating environment and should produce regular reports for review. In this regard, all levels of review shall be adequately documented and results thereof reported on a timely basis to the appropriate level of management.

Evaluations of the effectiveness of the internal control system and the corresponding monitoring activities may be done by personnel from the same operational area in the form of self-assessment or from other areas such as internal audit: *Provided*, That, self-assessment done by business units shall be subject to independent validation.

Evaluations done shall be adequately documented and internal control deficiencies and weaknesses identified shall be reported on a timely basis to the appropriate level of management or the board of directors, where necessary, and

addressed promptly.

(Circular Nos. 969 dated 22 August 2017 and 871 dated 05 March 2015)

163 INTERNAL AUDIT FUNCTION

An effective and efficient internal audit function constitutes the third line of defense in the system of internal control.

Internal audit is an independent, objective assurance and consulting function established to examine, evaluate and improve the effectiveness of internal control, risk management and governance systems and processes of an organization, which helps management and the board of directors in protecting the bank and its reputation. The internal audit function shall both assess and complement operational management, risk management, compliance and other control functions. In this respect, internal audit shall be conducted in frequencies commensurate with the assessed levels of risk in specific banking areas.

- a. *Permanency of the internal audit function.* Each bank shall have a permanent internal audit function. In the case of group structures involving a parent bank and subsidiary or affiliate Bangko Sentral-supervised financial institutions (BSFIs), the internal audit function shall either be established in each of the BSFI or centrally by the parent bank.
- b. *Internal audit function in group structures.* In case each BSFI belonging to group structures has its own internal audit function, said internal audit function shall be accountable to the financial institution's own board of directors and shall likewise report to the head of the internal audit function of the parent bank within a reasonable period and frequency prescribed by the board of directors of the parent bank.

On the other hand, in case the parent bank's internal audit function shall cover the internal audit activities in the subsidiary or affiliate BSFI, the board of directors of the parent bank shall ensure that the scope of internal audit activities is adequate considering the size, risk profile and complexity of operations of the subsidiary or affiliate concerned.

The establishment of internal audit function centrally by the parent bank in group structures shall not fall under the outsourcing framework as provided under Sec. 112. In this respect, the head of the internal audit function of the parent bank shall define the internal audit strategies, methodology, scope and quality assurance measures for the entire group: *Provided*, That this shall be done in consultation and coordination with the respective board of directors and of the subsidiary or affiliate BSFI: *Provided, further*, That, the board of directors of the subsidiary or affiliate BSFI, shall remain ultimately responsible for the performance of the internal audit activities.

- c. *Outsourcing of internal audit activities.* Banks may outsource, in accordance with existing Bangko Sentral regulations on outsourcing, internal audit activities except for areas covered under existing statutes on deposit secrecy. Outsourcing of internal audit activities shall however, be done on a limited basis to have access to certain areas of expertise that are not available to the internal audit function or to address resource constraints: *Provided*, That the internal audit activity shall not be outsourced to the bank's own external auditor/audit firm nor to internal audit service provider that was previously engaged by the bank in the same area intended to be covered by the internal audit activity that will be outsourced, without a one-year "cooling off" period: *Provided, further*, That the head of the bank's internal audit function shall ensure that the knowledge or inputs from the outsourced experts shall be assimilated into the bank to the greatest extent possible.

Non-complex TB, RB and Coop banks on the other hand, shall be allowed to outsource internal audit activities covering all areas of bank operations except for areas covered by existing statutes on deposit secrecy: *Provided*, That the board of directors, through the audit committee, shall be ultimately responsible for the conduct of audit on areas covered by existing statutes on deposit secrecy.

- d. *Internal audit function of branches of foreign banks.* Branches of foreign banks may establish their own internal audit function or may be covered by the regional/group internal audit function: *Provided*, That in case the regional/group internal audit function performs the internal audit activities in branches of foreign banks, the Senior Management team in branches of foreign banks shall conduct a periodic self-assessment of the effectiveness of internal control, risk management and governance systems and processes in the branch and report the results thereof to the regional/group internal audit function to ensure that the scope of internal audit activities is adequate considering the size, risk profile and complexity of operations of the branch: *Provided, further*, That the regional/group internal audit function shall likewise inform the senior management team in branches of foreign banks of the results of internal audit conducted: *Provided, finally*, That in cases when the risk assessment of the senior management team in branches of foreign banks or of the Bangko Sentral differs from the risk assessment of the regional/group internal audit function, the senior management team in branches of foreign banks or the Bangko Sentral may require the regional/group internal audit function to subject the branch to an immediate or more frequent internal audit.

Qualifications of the head of the internal audit function. The head of the internal audit function must have an unassailable integrity, relevant education/experience/training, and has an understanding of the risk exposures of the bank,

as well as competence to audit all areas of its operations. He must also possess the following qualifications:

- a. The head of the internal audit function of a UB or a KB must be a Certified Public Accountant (CPA) or a Certified Internal Auditor (CIA) and must have at least five (5) years experience in the regular audit (internal or external) of a UB or KB as auditor-in-charge, senior auditor or audit manager. He must possess the knowledge, skills, and other competencies to examine all areas in which the institution operates. Professional competence as well as continuing training and education shall be required to face up to the increasing complexity and diversity of the institution's operations.
- b. The head of the internal audit function of a complex TB, RB and Coop Bank; QB and; trust entity must be a graduate of any accounting, business, finance or economics course with technical proficiency on the conduct of internal audit and must have at least five (5) years experience in the regular audit (internal or external) of a TB, national Coop Bank or, at least three (3) years experience in the regular audit (internal or external) of a UB or KB.
- c. The head of the internal audit function of a simple or non-complex TB, RB and Coop Bank; and NSSLA must be a graduate of any accounting, business, finance or economics course with technical proficiency on the conduct of internal audit and must have at least two (2) years experience in the regular audit (internal or external) of a UB, KB, TB, RB, Coop Bank, QB or NSSLA.

A qualified head of the internal audit function of a UB or a KB shall be qualified to audit TBs, RB, Coop Banks, QBs, trust entities, NSSLAs, subsidiaries and affiliates engaged in allied activities, and other financial institutions under Bangko Sentral supervision. A qualified internal auditor of a complex TB, RB, and Coop Bank; QB and trust entity shall likewise be qualified to audit non-complex TB, RB and Coop Bank and NSSLA.

The head of the internal audit function shall be appointed/reappointed or replaced with prior approval of the audit committee. In cases when the head of the internal audit function will be replaced, the bank shall report the same and the corresponding reason for replacement to the appropriate supervising department of the Bangko Sentral within five (5) days from the time it has been approved by the board of directors.

Duties and responsibilities of the head of the internal audit function or the chief audit executive.

- a. To demonstrate appropriate leadership and have the necessary skills to fulfill his responsibilities for maintaining the unit's independence and objectivity;
- b. To be accountable to the board of directors or audit committee on all matters related to the performance of its mandate as provided in the internal audit charter. The head of the internal audit function shall submit a report to the audit committee or board of directors on the status of accomplishments of the internal audit unit, including findings noted during the conduct of the internal audit as well as status of compliance of concerned departments/units;
- c. To ensure that the internal audit function complies with sound internal auditing standards such as the Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing and other supplemental standards issued by regulatory authorities/government agencies, as well as with relevant code of ethics;
- d. To develop an audit plan based on robust risk assessment, including inputs from the board of directors, audit committee and senior management and ensure that such plan is comprehensive and adequately covers regulatory matters. The head of the internal audit function shall also ensure that the audit plan, including any revisions thereto, shall be approved by the audit committee; and
- e. To ensure that the internal audit function has adequate human resources with sufficient qualifications and skills necessary to accomplish its mandate. In this regard, the head of the internal audit function shall periodically assess and monitor the skill-set of the internal audit function and ensure that there is an adequate development program for the internal audit staff that shall enable them to meet the growing technical complexity of banking operations.

Professional competence and ethics of the internal audit function. The internal audit function shall be comprised of professional and competent individuals who collectively have the knowledge and experience necessary in the conduct of an effective internal audit on all areas of bank's operations. The skill set of the internal audit staff shall be complemented with appropriate audit methodologies and tools as well as sufficient knowledge of auditing techniques in the conduct of audit activities.

All internal audit personnel shall act with integrity in carrying-out their duties and responsibilities. They should respect the confidentiality of information acquired in the course of the performance of their duties and should not use it for personal gain or malicious actions. Moreover, internal audit personnel shall avoid conflicts of interest. Internally-recruited internal auditors shall not engage in auditing activities for which they have had previous responsibility before a one-year "cooling off" period has elapsed. The internal audit personnel shall adhere at all times to the bank's Code of Ethics as well as to an established code of ethics for internal auditors such as that of the Institute of Internal Auditors.

Independence and objectivity of the internal audit function. The internal audit function must be independent of the activities audited and from day-to-day internal control process. It must be free to report audit results, findings, opinions, appraisals and other information through clear reporting line to the board of directors or audit committee. It shall have

authority to directly access and communicate with any officer or employee, to examine any activity or entity of the bank, as well as to access any records, files or data whenever relevant to the exercise of its assignment.

If independence or objectivity of internal audit function is impaired, in fact or appearance, the details of the impairment must be disclosed to the audit committee. Impairment to organizational independence and individual objectivity may include, but is not limited to, personal conflict of interest, scope limitations, restrictions on access to records, personnel, and properties, and resource limitations, such as funding.

The internal audit function shall inform senior management of the results of its audits and assessment. Senior management may consult the internal auditor on matters related to risks and internal controls without tainting the latter's independence: *Provided*, That, the internal auditor shall not be involved in the development or implementation of policies and procedures, preparation of reports or execution of activities that fall within the scope of his review.

Staff of the internal audit function shall be periodically rotated, whenever practicable, and without jeopardizing competence and expertise to avoid unwarranted effects of continuously performing similar tasks or routine jobs that may affect the internal auditor's judgment and objectivity.

Internal audit charter. Banks shall have an internal audit charter approved by the board of directors. The internal audit charter shall be periodically reviewed by the head of the internal audit function and any changes thereto shall be approved by the board of directors.

The internal audit charter shall establish, among others, the following:

- a. Purpose, stature and authority, and responsibilities of the internal audit function as well as its relations with other control functions in the bank. The charter shall recognize the authority of the internal audit function, to initiate direct communication with any bank personnel; to examine any activity or entity; and to access any records, files, data and physical properties of the bank, in performing its duties and responsibilities;
- b. Standards of independence, objectivity, professional competence and due professional care, and professional ethics;
- c. Guidelines or criteria for outsourcing internal audit activities to external experts;
- d. Guidelines for consulting or advisory services that may be provided by the internal audit function;
- e. Responsibilities and accountabilities of the head of the internal audit function;
- f. Requirement to comply with sound internal auditing standards such as the Institute of Internal Auditor's International Standards for the Professional Practice of Internal Auditing and other supplemental standards issued by regulatory authorities/government agencies, as well as with relevant code of ethics; and
- g. Guidelines for coordination with the external auditor and supervisory authority.

Scope. All processes, systems, units, and activities, including outsourced services, shall fall within the overall scope of the internal audit function. The scope of internal audit shall cover, among others, the following:

- a. Evaluation of the adequacy, efficiency and effectiveness of internal control, risk management and governance systems in the context of current and potential future risks;
- b. Review of the reliability, effectiveness and integrity of management and financial information systems, including the electronic information system and electronic banking services;
- c. Review of the systems and procedures of safeguarding the bank's physical and information assets;
- d. Review of compliance of trading activities with relevant laws, rules and regulations;
- e. Review of the compliance system and the implementation of established policies and procedures; and
- f. Review of areas of interest to regulators such as, among others monitoring of compliance with relevant laws, rules and regulations, including but not limited to the assessment of the adequacy of capital and provisions; liquidity level; regulatory and internal reporting.

(Circular Nos. 969 dated 22 August 2017 and 871 dated 05 March 2015)

164 FRAMEWORK ON THE SELECTION OF EXTERNAL AUDITORS

Policy statement. The Bangko Sentral considers the external auditing profession as a partner in promoting the integrity of financial reports and transparency in the financial system. In this light, the Bangko Sentral is issuing this framework on

the selection of external auditors (individual practitioners and audit firms) for BSFIs in line with its cooperative arrangements with the SEC, IC, and PDIC, under the auspices of the Financial Sector Forum (FSF).

Appointment of External Auditors of BSFIs.

- a. BSFIs shall engage the services of an external auditor included in the List of Selected External Auditors for BSFIs. In this respect, a BSFI shall only appoint an external auditor belonging to the same category or from categories higher than the category of the BSFI concerned as provided in this Section: *Provided*, That the Monetary Board may require the BSFI to appoint an external auditor from higher categories as part of the Bangko Sentral's supervisory action on the BSFI. The external auditor appointed by the BSFI shall likewise audit the BSFI's trust department as well as its subsidiaries and affiliates engaged in allied activities, as applicable.
- b. External Auditors shall be classified into three categories and shall extend their services to BSFIs belonging to the same category or from categories lower than the category of the external auditor, as follows:
 - (1) Group A
 - (a) UBs/KBs
 - (b) Foreign banks and branches or subsidiaries of foreign banks
 - (c) Banks, trust departments and trust corporations with additional derivatives authority, pursuant to Sec. 613.
 - (2) Group B
 - (a) TBs
 - (b) NBFIs with quasi-banking license
 - (c) Trust departments and trust corporations
 - (3) Group C
 - (a) RBs and Coop Banks
 - (b) Non-stock Savings and Loan Associations
 - (c) Pawnshops
 - (d) Remittance and Transfer Companies (RTCs)/Money Changers/Foreign Exchange Dealers (MCs/FXDs), including Virtual Currency Exchanges and Electronic Money Issuers
 - (e) Credit Card Issuers/Acquirers

The above categories shall include their subsidiaries and affiliates engaged in allied activities and other financial institutions subject to Bangko Sentral's consolidated supervision.

- c. External auditors applying for first time inclusion or renewal of inclusion in the List of Selected External Auditors for BSFIs shall submit their application to the SEC. The application shall be subject to the requirements set out by the SEC as agreed upon by the Bangko Sentral, SEC, IC and PDIC.
- d. The inclusion in the List of Selected External Auditors for BSFIs shall be valid for five (5) years or for a shorter period prescribed by the financial sector supervisors.
- e. The Bangko Sentral shall periodically evaluate the performance of the external auditor through an assessment of the quality of the BSFI's audited financial statements and its compliance with the requirement provided under this Section. The results of assessment shall serve as basis for the continuing inclusion of external auditors in the List of Selected External Auditors for BSFIs.
- f. The external auditor, including the engagement and quality control partners of the audit firm, of the BSFI shall be rotated in accordance with the relevant provisions of the Code of Ethics for Professional Accountants in the Philippines as adopted by the Philippine Board of Accountancy.

Audit Engagement and Reportorial Requirements

- a. The BSFI's Audit Committee/board of directors/board of trustees shall ensure that the scope of external audit work appropriately covers areas relevant to BSFI's operations and risk exposures. These include the following:
 - (1) Review of the adoption of applicable reporting framework as well as the assessment of the accuracy, adequacy, reliability of accounting records and financial reports;
 - (2) Assessment of the propriety and adequacy of disclosures in the financial statements;
 - (3) Assessment of the adequacy and effectiveness of internal controls and risk management systems;
 - (4) Assessment of the quality of capital in relation to risk exposures; and
 - (5) Evaluation of the quality of corporate governance.

- b. The engagement contract of BSFIs with the external auditor shall include at a minimum, the following provisions:
 - (1) That disclosure of information, such as those enumerated under Item “c” of this Section (Audit engagement and reportorial requirements), by the external auditor to the Bangko Sentral and/or other financial sector supervisors shall not constitute a breach of confidentiality on the part of the external auditor nor shall it be a ground for civil, criminal, or disciplinary proceedings against the external auditor;
 - (2) That the external auditor shall be allowed read-only access to the Bangko Sentral’s Report of Examination on the BSFI and that the external auditor shall appropriately consider the contents thereof and maintain its confidentiality; and
 - (3) That the BSFI concerned and external auditor shall comply with all the requirements under this Section. The engagement contract shall be made available by the BSFI to the Bangko Sentral upon request.
- c. The external auditor shall report to the appropriate supervising department of the Bangko Sentral within fifteen (15) calendar days upon discovery of any matter adversely affecting the condition or soundness of the BSFI, such as, but not limited to the following cases:
 - (1) Any material finding involving fraud or error;
 - (2) Actual or potential losses, the aggregate of which amounts to at least ten percent (10%) of the consolidated total assets of the BSFI;
 - (3) Significant doubt as to the ability of the BSFI to continue as a going concern;
 - (4) Material breach of laws or Bangko Sentral rules and regulations such as but not limited to prescribed capital and liquidity ratios, significant deficiency in allowance for credit losses, material weaknesses in fair value measurement methodology, and significant vulnerabilities to money laundering and combating the financing of terrorism;
 - (5) Material internal control weaknesses which may lead to financial reporting problems; and
 - (6) Findings on matters of corporate governance that may require urgent action by the Bangko Sentral.

Where a thorough investigation or evaluation of facts is necessary on the noted case, an initial report shall be submitted within the prescribed timeline: *Provided*, That a complete report is submitted not later than fifteen (15) calendar days from completion of investigation or evaluation.

In case there are no matters to report, the external auditor shall submit to the appropriate supervising department of the Bangko Sentral, not later than 120 calendary days after the close of the calendar year or the fiscal year adopted by the BSFI, a certification that there is none to report.

- d. The board of directors and management of the BSFI shall be primarily responsible for the financial statements submitted to the BAngko Sentral. External auditors are expected to conduct the audit of financial statements in accordance with the provisions of the Philippine Standards on Auditing.
- e. The external auditor shall directly inform the appropriate supervising department of the Bangko Sentral of the pre-termination of the engagement contract or his/her resignation/replacements as external auditor as well as the reasons thereto, within fifteen (15) calendar days of the pre-termination of the contract or his/her resignation/replacement.

Supervisory Enforcement Action

The Bangko Sentral reserves the right to deploy its range of supervisory enforcement actions to promote adherence with the requirements set forth in this Section and bring about timely corrective actions. For this purpose, the Bangko Sentral may issue directives or impose sanctions on BSFIs and/or its directors/trustees who approved the appointment of the external auditor, who/which are not in the List of Selected External Auditors for BSFIs, and/or for non-compliance with the provisions of this Section. The Bangko Sentral may likewise shorten the period of validity of inclusion of an external auditor in the List of Selected External Auditors for BSFIs, suspend, or delist external auditors from its List of Selected External Auditors for BSFIs based on the results of assessment of the quality of audited financial statements (AFS) as well as non-compliance with the provisions of this Section. The guidelines on the supervision/delisting of external auditor in the list of selected external auditors for BSFIs is provided in *Appendix 39*.

Transitory provisions

- a. External auditors whose inclusion in the List of Selected External Auditors for BSFIs is valid to cover the audit of 2018 financial statements are hereby given one (1) year extension on their inclusion in the List of Selected External

Auditors for BSFIs allowing them to engage in the audit of the 2019 financial statements.

- b. All applications (new and renewal) for inclusion in the List of Selected External Auditors for BSFIs to cover in the audit of 2020 financial statements and thereafter shall be filed with the SEC starting June 2019.

(Circular No. 1040 dated 20 May 2019)

G. REPORTING GOVERNANCE

171 REPORTING GOVERNANCE FRAMEWORK

The proper conduct of monetary policy and effective banking supervision are core mandates of the Bangko Sentral. These mandates are facilitated by the accurate and timely submission of required information concerning a bank's financial condition and results of operations. At the same time, high quality individual bank reports contribute to the preparation of aggregate statistics that enable banks to make better informed business decisions.

It is incumbent upon the board and senior management to implement an effective reporting system to generate complete, accurate, consistent, reliable and timely reports to the Bangko Sentral. Banks are expected to capitalize on available information technology in establishing an effective reporting system that is appropriate for their size and complexity of operations. The Bangko Sentral shall prescribe reasonable reporting standards which shall consider the cost of reporting relative to the expected benefits.

Reporting standards. Reports submitted to the Bangko Sentral must be complete, accurate, consistent, reliable and timely to be considered compliant with the Bangko Sentral reporting standards. It follows that the report shall conform to the relevant submission and validation guidelines as prescribed by the Bangko Sentral. Likewise, reports with incomplete schedules or attachments shall be considered non-compliant with the reporting standards. As such, said reports should have been reviewed and validated by the bank prior to submission to the Bangko Sentral to ensure its completeness and correctness. Adequate internal controls should likewise be in place to ensure adherence to the reporting standards.

Reports as contemplated in this Section pertain to a bank's financial condition (i.e., solvency, liquidity, and profitability) as well as its operations and management.

Governance process. An effective governance process over the bank's reporting system must be established by the Board and implemented by senior management to ensure the bank's adherence to the reporting standards. The bank's reporting system should be supported by a combination of systems, policies and procedures that are intended to facilitate the accurate and timely generation of bank reports. A bank's periodic review of the governance process is likewise integral in determining whether the reporting system continues to be relevant and effective.

An effective reporting system shall include the following key components:

- a. A management information system and technology infrastructure capable of supporting the bank's reporting requirements as well as the conduct of its own internal validation prior to the submission of reports to ensure compliance with the Bangko Sentral reporting standards;
- b. Written policies and procedures documenting the bank's standards and processes in generating quality internal and external reports;
- c. Timely and periodic review of the systems, policies and procedures to ensure their continuing relevance and effectiveness conducted by an independent unit within the bank (e.g., internal audit) or an external party contracted by the bank for such purpose;
- d. A process to implement appropriate enhancements in response to changes in the bank's operating environment or in the process of addressing weaknesses noted during periodic reviews conducted; and
- e. A process for the timely reporting to the board and senior management of significant transactions, events and activities that have material impact on the quality of reports of the bank.

Bank reports shall meet the reporting standards prescribed under this Section. To ensure the quality of bank's reporting, this Section on Sanctions on reports for non-compliance with the reporting standards) prescribes the corresponding sanctions for banks that fail to comply with such reporting standards. The Bangko Sentral shall conduct, as described under this Sec. 171 on Assessment of reporting system, an assessment of the quality of a bank's reporting system in order to determine the underlying integrity of reports being submitted and root cause of persistent submission problems, if any.

Sanctions on reports for non-compliance with the reporting standards.

- a. *Definitions*

- (1) *Erroneous report* – A report submitted within the prescribed deadline, but is found to be non-compliant with the Bangko Sentral reporting standards described under this Section shall be classified as “Erroneous”. Submission of an Erroneous Report shall be considered as willful failure to comply with a regulation.
- (2) *Delayed report* – A report that was able to comply with the Bangko Sentral reporting standards after the submission deadline for said report shall be classified as “Delayed”. Submission of a compliant report after the submission deadline shall be considered as willful delay in submission of reports.
- (3) *Unsubmitted* – A report that was not submitted, or was submitted but not able to comply with the Bangko Sentral reporting standards, by the time the next report becomes due or upon the lapse of thirty (30) banking days from the report’s submission deadline, whichever comes first shall be classified as “Unsubmitted”. See Table 2 as reference for the defined number of banking days after submission deadline for a report to be considered “Unsubmitted”. Non-submission of reports under this item shall be considered as willful refusal to comply with a regulation.

b. *Monetary Penalties*

The applicable monetary penalty shall be based on a prescribed fine for each occurrence (in case of Erroneous reports) or for each day (in case of Delayed or Unsubmitted reports) which will accumulate until such time the report has been determined compliant with the prescribed reporting standards, as provided for in Table 1:

Table 1 - Prescribed fines for reporting violations

Bank Type	Primary Report	Secondary Report
UBs/KBs	P3,000	P600
TBs	1,500	300
RBs/Coop Banks	450	150

The list of reports classified as Primary and Secondary are provided under *Appendix 7*.

Erroneous – For a report initially considered *Erroneous* but subsequently complied with the reporting standards within the prescribed deadline, the penalty shall be computed by multiplying the prescribed fine by the number of times the subject report was submitted before being considered compliant.

Delayed – For *Delayed* reports, the penalty shall be computed by multiplying the prescribed fine by the number of calendar days delayed.

Erroneous and delayed – If the report initially considered *Erroneous* was able to comply with the reporting standards but after the prescribed deadline (i.e., *Delayed*), the penalty shall be based on the sum of the penalty for being Erroneous and the penalty for being *Delayed*.

Unsubmitted – For reports classified as *Unsubmitted* (regardless if said report was not submitted or was previously submitted but remains non-compliant as described under this Section on Sanctions on reports for non-compliance with the reporting standards), the monetary penalty shall be three times (3x) the number of days applied for determining such classification, as provided in Table 2:

Table 2 - Defined number of days for penalty computation of reports considered Unsubmitted

(Column A) Reporting Frequency	(Column B) Defined # of banking days after submission deadline to be considered “Unsubmitted”	(Column C) # of days for penalty computation of reports considered “Unsubmitted”
	(A)	(B) = (A multiplied by 3)
Weekly	7	21
Monthly	30	90
Quarterly		
Semestral		
Annual		
Event-based*		

* Refers to reports that are not due under a regular periodicity since their required submission is instead reckoned from the occurrence of an event/incident or upon knowledge thereof.

In the event that a compliant report is received after it has been considered *Unsubmitted*, the applicable penalty shall be based on the number of days provided in Column C of Table 2. This will be the case even if the

actual number of banking days delayed is less than the constant number of days provided in said Column C¹.

Failure to submit a report on time due to fortuitous events such as fire and other natural calamities, public disorders including strike and lockout affecting a bank as defined in the Labor Code or of a national emergency affecting the operation of banks shall not be considered as willful delay or willful failure.

In cases of reports falling due in a period affected by a fortuitous event or within a regulatory relief period as contemplated under *Appendix 92*, said reports should comply with the reporting standards of the Bangko Sentral within fifteen (15) banking days after the end of the said fortuitous event or regulatory relief. Otherwise, they shall be considered *Unsubmitted* and imposed with a monetary penalty equivalent to the applicable fine prescribed in Table 1 multiplied by forty-five (45) days [i.e., three times (3x) fifteen (15) days].

A bank is still required to submit a compliant report regardless if said report has been classified as "*Unsubmitted*" unless the non-submission is approved by the Bangko Sentral. Otherwise, failure to submit a compliant report within seven (7) banking days from the time an instruction was made to submit the said *Unsubmitted* report shall result in disciplinary enforcement action against the bank in accordance with existing regulations such as, but not limited to, the Bangko Sentral's Supervisory Enforcement Policy under Sec. 002.

c. *Implementation*

In the implementation of the rules in this Section, the submission deadline is considered moved to the next banking day should it fall on a non-working day in the locality where the reporting bank is situated or on a working day where business operations in government offices were suspended due to typhoon, flood, or similar fortuitous events.

The submission of reports with the appropriate supervising department of the Bangko Sentral or with the Bangko Sentral Regional Offices shall be effected by sending them electronically or through registered mail/courier or through messengerial services, unless otherwise specified in the circular or memorandum of the Bangko Sentral. The date when the report was sent electronically or the date of mailing postmarked on the envelope or the date of receipt from the messengerial service, as the case may be, shall be considered as the date of filing.

d. *Habituality*

Habituality shall refer to the repetitive incurrence of reporting violations. For the purpose of objectively determining habituality, a demerit points system shall be put into effect. A bank that incurs more than 100 demerit points within a calendar year shall be considered a habitual violator.

The total number of demerit points for a calendar year shall be computed based on the total amount of penalties approved for the said year divided by the prescribed fine for the applicable reporting category. For purposes of determining demerit points, the coverage of approved penalties shall apply to reports prescribed for submission to the appropriate supervising department of the Bangko Sentral.

The demerit points system as well as the coverage of reports for determining habituality shall remain in effect unless otherwise specified by the Bangko Sentral. Table 3 provides an example of how demerit points are computed:

Table 3 - Determination of demerit point incurred by a bank in a reporting calendar year

	Report Category		Total
	Primary	Secondary	
Monetary penalties approved for imposition	P180,000	P30,000	110
Prescribed fine per applicable category based on Table 1	3,000	600	
Number of demerit points (A/B)	60	50	

Based on the sample computation, the bank is considered a habitual violator since it has incurred more than 100 demerit points within the calendar year.

When a bank is considered habitual in incurring reporting violations, the Bangko Sentral shall require the bank to undertake measures to address the root cause/s of the problem. The bank may also be subject to non-monetary sanctions provided under Section 37 of R.A.No. 7653 (The New Central Bank Act), as well as restriction/suspension of branching privileges and other special authorities involving the offering of new products and services to the public.

The non-monetary sanctions shall continue to be in effect until the habituality is considered addressed. The habituality is considered addressed and the non-monetary sanctions will be lifted if the bank did not incur any demerit points (i.e., none of the reports of the bank was classified as either *Erroneous*, *Delayed*, *Erroneous and Delayed*, or *Unsubmitted*) for at least three (3) consecutive months from the time the habituality was observed.

¹ For instance, a weekly report received on the eighth (8th) banking day after the submission deadline will still be penalized the equivalent of twenty-one (21) days, while it likewise follows that a weekly report received on the twenty-eighth (28th) banking day shall still be penalized for twenty-one (21) days.

Assessment of reporting system. If the results of the assessment disclose significant deficiencies in the reporting system, the bank shall be required to submit a Board-approved action plan. Such action plan shall include measures that the bank must undertake within a specified period of time to address the deficiencies noted.

Failure of the board and senior management of the bank to implement the required corrective measures within the specified time frame shall be grounds to subject the bank including its board, senior management and other responsible official/s to the Bangko Sentral's Supervisory Enforcement Policy under Sec. 002. This is without prejudice to imposition of sanctions provided under applicable regulations and law, such as but not limited to, Sections 34, 35, and 36 of R.A. No. 7653 (The New Central Bank Act).

Transitory provisions. Banks have until 31 December 2017 to make the necessary preparations to their systems and processes to ensure compliance with this Section. The period of preparation shall be treated as an observation period wherein banks will be provided information on their accumulated demerit points described under this Section on Sanctions on reports for non-compliance with the reporting standards as of various periods in 2017. The Bangko Sentral shall provide banks with information on their accumulated demerit points within the months of August, and December 2017. Full implementation will take effect beginning 01 January 2018.

(Circular No. 963 dated 27 June 2017)

172 FINANCIAL RECORDS

Banks shall have a true and accurate account, record or statement of their daily transactions. For this purpose, the definition of records under Sec. 001 shall apply. The making of any false entry or the willful omission of entries relevant to any transaction is a ground for the imposition of administrative sanctions under Section 37 of R.A. No. 7653 and the disqualification from office of any director or officer responsible therefor under Section 9-A of R.A. No. 337, as amended. This is without prejudice to their criminal liability under Sections 35 and 36 of R.A. No. 7653 and/or the applicable provisions of the Revised Penal Code.

Records shall be retained for a period of at least five (5) years, unless they are otherwise required by law or other regulations, or as directed by the Bangko Sentral to be retained for a longer period. RBs and Coop banks shall follow the guidelines on the retention and disposal of records in *Appendix 51*. However, records which are the subject of, or are pertinent to, an issue that has been raised during a Bangko Sentral examination shall be preserved until such time that the issue has been fully resolved with finality by the Bangko Sentral.

Adoption of the Manual of Accounts. Banks shall strictly adopt the Manual of Accounts prescribed by the Bangko Sentral for recording daily transactions including reportorial and publication requirements.

Local branches of foreign banks may continue using their parent bank's general ledger accounts: *Provided*, That published statements and reports submitted to the Bangko Sentral follow the account definitions in the Bangko Sentral-prescribed Manual of Accounts: *Provided, further*, That the mathematical formulas for reconciling such published statements and submitted reports with the general ledger accounts of the bank are submitted to the appropriate supervising department of the Bangko Sentral: *Provided, finally*, That said banks prepare for Bangko Sentral use, reconciliations of their ledger accounts with the Bangko Sentral prescribed Manual of Accounts during regular or special bank examinations.

Any bank which fails or refuses to adopt the prescribed Manual of Accounts, or any of the applicable accounts contained therein, or adopts any general ledger account not specified in the said Manual of Accounts without prior written approval of the Governor of the Bangko Sentral, shall be penalized by revocation or suspension of its authority to engage in quasi-banking function.

Financial Reporting Package. In line with the adoption of the Philippine Financial Reporting Standards (PFRS) and Philippine Accounting Standards (PAS) effective the annual financial reporting period beginning 01 January 2005, the Manual of Accounts and the Bangko Sentral reportorial requirements consisting of the Consolidated Statement of Condition (CSOC), Consolidated Statement of Income and Expense (CSIE) and their supporting schedules are amended through the issuance of the new Financial Reporting Package (FRP) for banks.

The general features as well as the implementing guidelines of the FRP is provided in *Appendix 81*.

Philippine Financial Reporting Standards/Philippine Accounting Standards.

Statement of Policy. It is the thrust of the Bangko Sentral to align its financial reporting requirements with standards and practices that are widely accepted internationally to promote fairness, transparency, and accountability in the financial industry. In this light, the Bangko Sentral is issuing guidelines governing the adoption of the PFRS, aimed at ensuring consistency of application and comparability of financial reports across the industry.

- a. **Adoption of PFRS.** BSP Supervised Financial Institutions (BSFIs) shall adopt PFRS in recording transactions and in the preparation of financial statements and reports to the Bangko Sentral. However, in cases where there are differences between Bangko Sentral regulations and PFRS as when more than one (1) option are allowed or certain

maximum or minimum limits are prescribed by PFRS, the option or limit prescribed by the Bangko Sentral shall be adopted by BSFIs. These include the accounting treatment of "Government Grants".

Government grants extended in the form of loans bearing nil or below-market rate of interest shall be measured upon initial recognition at its fair value (i.e. the present value of the future cash flows of the financial instrument discounted using the market interest rate). The difference between the fair value and the net proceeds of the loan shall be recorded under "Unearned Income-Others", and shall be recognized as income on a systematic basis over the period of the loan necessary to match with the related cost for which the grants are intended to compensate.

- b. *Preparation of prudential reports.* For prudential reporting, BSFIs shall adopt in all respect the PFRS except in the following cases:

- (1) In preparing consolidated financial statements, only investments in financial allied subsidiaries except insurance subsidiaries shall be consolidated with the financial statements of the parent bank on a line-by-line basis; while insurance and non-financial allied subsidiaries shall be accounted for using the equity method. Investments in financial/non-financial allied/non-allied associates and joint ventures shall be accounted for using the equity method in accordance with the provisions of the Philippine Accounting Standards (PAS) 28 "Investments in Associates and Joint Ventures".

In preparing solo/separate financial statements, investments in financial/non-financial allied/non-allied subsidiaries/associates, including insurance subsidiaries/associates, shall be accounted for using the equity method as described in PAS 28.

The rules on the preparation of solo financial statements as provided in *Appendix 81* shall apply to banks.

- (2) BSFIs shall recognize adequate and timely allowance for credit losses at all times. In this respect, BSFIs shall adopt the principles provided under the Enhanced Standards on Credit Risk Management under Sec. 143 as well as the provisions of *Appendix 100* in measuring credit losses.

- c. *Preparation of Audited Financial Statements (AFS).* AFS shall in all respect be PFRS compliant and shall be submitted to the Bangko Sentral in accordance with the provisions of Sec. 174.

BSFIs shall submit to the Bangko Sentral adjusting entries reconciling the balances in the financial statements for prudential reporting with those in the AFS.

- d. *Guidelines on adoption of PFRS 9 Financial Instruments.* BSFIs shall adopt, as part of the PFRS framework, PFRS 9: Financial Instruments upon its mandatory effectivity date of 01 January 2018.

For this purpose, BSFIs shall be governed by the following:

- (1) Consistent with the duties and responsibilities of the board of directors provided under Sec. 132 (*Specific duties and responsibilities of the board of directors*), the board of directors or any equivalent governing body in the case of branches of foreign banks, shall ensure that the BSFI appropriately and consistently adopts PFRS 9 as part of its reporting governance process. In this respect, the board shall assess the impact of PFRS 9 on business strategies and risk management systems and ensure availability of sufficient resources, including capacity building initiatives, in adopting the standard.

The board shall approve policies and guidelines relative to the adoption of PFRS 9, which shall cover responsibilities of the different units in the BSFI (e.g., Treasury, Risk Management, Financial Controllershship) as well as the extent of participation or involvement of third parties in the adoption process. The board shall likewise ensure that adequate control measures are in place to ensure integrity of reports.

- (2) Management shall implement the policies set by the board related to the adoption of PFRS 9 and ensure that sound professional judgement is exercised in implementing the provisions of the standard. Management shall provide feedback to the board on the effectiveness of implementation of PFRS 9.

- (3) BSFIs shall be guided by the provisions of Appendix 27 on "Guidelines on the Adoption of Philippine Financial Reporting Standards 9 (PFRS 9) – Classification and Measurement" and Appendix 100 on "Impairment" in implementing the provisions of PFRS 9.

- e. *Enforcement Actions.* Consistent with Sec. 002, the Bangko Sentral reserves the right to deploy its range of supervisory tools and enforcement actions to promote adherence with the requirements set out in this Section and bring about timely corrective actions to ensure appropriate and consistent adoption of PFRS. In this respect, the Bangko Sentral may issue directives or impose sanctions on the BSFI and/or its directors, officers and/or employees concerned for noted supervisory issues on the adoption of PFRS 9.

Prudential reports affected by non-adherence to the provisions of this Section shall be subject to penalties/sanctions provided under Sec. 171 (*Sanctions on Reports for Non-compliance with the Reporting Standards*).

f. **Transitory Provisions.** BSFIs shall observe the following transition rules:

- (1) BSFIs shall apply PFRS 9, retrospectively, in accordance with the transition requirements and guidance provided under PFRS 9 and PAS 8 “*Changes in Accounting Policies, Changes in Accounting Estimates and Errors*”. BSFIs shall be guided by the provisions of PAS 8 if the retrospective application is impracticable.
- (2) A BSFI that applied the earlier versions of PFRS 9 (2009), PFRS 9 (2010) or PFRS 9 (2013) shall be allowed to reclassify its financial assets: *Provided*, That the reclassification requirements under the standard are met.
- (3) A BSFI is expected to comply with the reportorial and disclosure requirements of the Securities and Exchange Commission on the adoption of PFRS 9.

Accounting treatment for prudential reporting. For prudential reporting, banks shall adopt in all respect the PFRS and PAS except as follows:

- a. In preparing consolidated financial statements, only investments in financial allied subsidiaries except insurance subsidiaries shall be consolidated on a line-by-line basis; while insurance and non-financial allied subsidiaries shall be accounted for using the equity method. Financial/non-financial allied/non-allied associates shall be accounted for using the equity method in accordance with the provisions of PAS 28 “*Investments in Associates*”; and
- b. Banks shall be required to meet the Bangko Sentral recommended allowance for credit losses.

Government grants extended in the form of loans bearing nil or low interest rates shall be measured upon initial recognition at its fair value (i.e., the present value of the future cash flows of the financial instrument discounted using the market interest rate). The difference between the fair value and the net proceeds of the loan shall be recorded under “*Unearned Income-Others*”, which shall be amortized over the term of the loan using the effective interest method.

The provisions on government grants shall be applied retroactively to all outstanding government grants received. FIs that adopted an accounting treatment other than the foregoing shall consider the adjustment as a change in accounting policy, which shall be accounted for in accordance with PAS 8.

Notwithstanding the exceptions in Items “a” and “b”, the audited financial statements required to be submitted to the Bangko Sentral in accordance with the provisions of Sec. 174 (*Financial audit*) shall in all respect be PFRS/PAS compliant: *Provided*, That FIs shall submit to the Bangko Sentral adjusting entries reconciling the balances in the financial statements for prudential reporting with that in the audited financial statements.

Guidelines on the preparation of solo/separate financial statements. For purposes of preparing solo/separate financial statements, financial allied, non-financial allied and non-allied subsidiaries/associates/joint ventures, including insurance subsidiaries/associates, shall be accounted for using the equity method, in accordance with PAS 27, as amended.

The rules on the preparation of solo financial statements are also provided under *Appendix 81* on the Financial Reporting Package.

Guidelines on the adoption of PFRS 9 financial instruments¹. Banks, including their trust entities, shall adopt the full provisions of PFRS 9 Financial Instruments only upon its mandatory effectivity date of 01 January 2018. Prior to said mandatory effectivity date, financial instruments of banks, including their trust entities, shall continue to be accounted for in accordance with the provisions of PAS 39 under *Appendix 27*.

As an exception, banks, including their trust entities, which have early-adopted PFRS 9 (2009 and 2010) as of 31 December 2015, shall continue to account for their financial instruments in accordance with the provisions of *Appendix 100* until 31 December 2017.

Marking to market of financial instruments. Financial instruments that are required to be classified and measured at fair value, within the scope of Philippine Financial Reporting Standards (PFRS 9) under *Appendix 27*, shall be marked-to-market in accordance with the provisions of PFRS 13 on Fair Value Measurement and the related rules and regulations issued by the Securities and Exchange Commission. The marked-to-market guidelines for debt and equity securities are set out in *Appendix 28*.

BSFIs and the concerned officers found to have violated the provisions of these regulations shall be subject to the enforcement actions under this Section (*Philippine Financial Reporting Standards/Philippine Accounting Standards*).

(Circular Nos. 1095 dated 8 September 2020, 1081 dated 4 March 2020, 1021 dated 15 November 2018, 1011 dated 14 August 2018, 960 dated 04 May 2017, 957 dated 17 April 2017, 915 dated 05 July 2016, 912 dated 27 May 2016, and 890 dated 02 November 2015)

¹ As an exception, banks, including their trust entities, which have early-adopted PFRS 9 (2009 and 2010) as of 31 December 2015, shall continue to account for their financial instruments in accordance with the provisions of *Appendix 100* until 31 December 2017.

Banks shall submit to the appropriate supervising department of the Bangko Sentral all their statements and/or periodic reports listed in *Appendix 7* in such frequency and deadlines indicated therein. In the preparation of said statements/reports, banks shall use and strictly follow the forms prescribed by the Bangko Sentral.

In line with the policy direction of R.A. No. 8792 (E-Commerce Act), the Bangko Sentral is strongly encouraging banks to submit their regular reports to the Bangko Sentral in electronic form.

However, the Bangko Sentral cannot presently guarantee the security/confidentiality of data in the course of electronically transmitting reports to Bangko Sentral. Bangko Sentral recommends that sensitive or confidential information be provided by ordinary post or courier. The Bangko Sentral will accept no responsibility for electronic messages/reports/information that may be hacked or cracked, intercepted, copied or disclosed outside Bangko Sentral's information system.

Categories and signatories of bank reports.

- a. *Categories of reports.* Reports required to be submitted to the Bangko Sentral by banks are grouped into Category A-1, Category A-2, Category A-3 and Category B reports as indicated in *Appendix 7*.
- b. *Authorized signatories*

- (1) *Category A-1* reports shall be signed by the bank's chief executive officer or, in his absence, by the executive vice president, and by the comptroller or, in his absence, by the chief accountant, or officers holding equivalent positions.
- (2) *Category A-2* reports shall be signed by the president, executive vice president, vice president or by an officer holding equivalent position.
- (3) *Category A-3* and *Category B* reports shall be signed by officers or their alternates, duly designated by the board of directors.

The designated signatories of *Categories A-1, A-2, A-3 and B* reports including their specimen signatures shall be contained in a resolution approved by the board of directors. A copy of the board resolution covering the initial designation and subsequent change(s) in signatories as well as specimen signatures of the signatories and alternates, shall be made available for inspection by Bangko Sentral examiners and submitted to the Bangko Sentral upon request of the appropriate supervising department of the Bangko Sentral.

- (4) Reports in computer media that are submitted by banks shall be subject to the same requirements regarding authorized signatories.
- (5) Any report submitted to the Bangko Sentral that is signed by an officer who is not listed or included in any of the resolutions mentioned above, shall be considered as not having been submitted at all.
- (6) All authorized agent banks shall submit to the Director, Branch Operations, Bangko Sentral, the updated specimen signatures of senior bank officers in their respective head offices who are authorized to authenticate the signatures of their provincial branch officers transacting business with the Bangko Sentral Regional Offices/Branches.

The Bangko Sentral Branch Operations shall be advised of any changes in authorized branch signatories, as well as authenticating head office senior officers.

- c. *Deadline for submission of reports*

- (1) *Regular reports.* Unless otherwise specified, the deadlines for submission of reports enumerated in *Appendix 7*, shall be reckoned on the basis of banking days. For this purpose, banking days shall be understood to mean Monday through Friday or banking days of the Bangko Sentral.
- (2) *Call Reports.* The deadline of submission of call reports shall be specified in the letter calling for the report.

Submission of certain required information.

- a. Banks shall submit to the appropriate supervising department of the Bangko Sentral the following:
 - (1) Information on bank's profile required in *Appendix 8*. Any change in any of the required information submitted, after the initial submission, shall be reported to the said department immediately.

- (2) Any or all of the documents/information on bank's organization structure and operational policies enumerated in *Appendix 9*. Any subsequent change/issuance should be furnished the department within fifteen (15) banking days from such change/issuance.
- b. Banks registered with SEC to act as broker, dealer or transfer agent pursuant to Sections 28 and 39 of R.A. No. 8799 and SRC Rules 28.1 and 36.4 and those accredited by DOF-BTr as GSEDs pursuant to DOF Department Order No. 20-10, shall submit to the appropriate supervising department of the Bangko Sentral not later than December 15 every year, the following reports:

- (1) List of bank personnel acting as salesmen or associated persons;
- (2) List of licenses granted by SEC and/or DOF-BTr (as broker, dealer, broker-dealer, GSED and/or transfer agent); and
- (3) Notarized certification stating that the lists submitted pursuant to Items "b(1)" and "b(2)" of this Section on Submission of certain required information are complete and accurate lists and that the personnel acting as salesmen or associated persons are duly licensed/authorized by the SEC to act as such.

The notarized certification shall be signed by the president or officer of equivalent rank.

- c. *Sanctions*. The following sanctions shall be imposed on the bank and/or its concerned officers for violations of Item "b", of this Section on Submission of certain required information:

- (1) On the bank
 - (a) *For willful delay to submit the documents required under Item "b" of this Section on Submission of certain required information*. A bank failing to submit the required reports which shall be classified as a *Category A-2* report, within the prescribed deadline, shall be subject to monetary penalties applicable for delayed reporting under existing regulations.
 - (b) *For the willful making of a false/misleading statement in the documents required under Item "b" of this Section on Submission of certain required information*. A bank which has been found to have willfully made a false or misleading statement in the documents required under Item "b" of this Section on Submission of certain required information shall be subject to the appropriate monetary penalties under Sec. 1102. The willful making of a false or misleading statement shall be reckoned on a daily basis from the day following the due date of the said certification until such time that an amended or corrected document has been submitted to the Bangko Sentral.
- (2) On the concerned officer
 - (a) *For willful non-compliance*. The concerned officer/s of the bank who willfully fail/refuse to comply with the provisions of Item "b" of this Section on Submission of certain required information shall be subject to the appropriate monetary penalties under Sec. 1102.
 - (b) *For false/misleading statements*. The concerned officers which have been found to have willfully falsely certified or willfully submitted misleading statements in the certification and/or in the list of bank personnel required to be submitted under Items "b(1)" and "b(2)" of this Section on Submission of certain required information, shall be subject to the appropriate monetary penalties under Sec. 1102, which shall be reckoned on a daily basis from the day following the due date of the said certification/list until such time that an amended or corrected certification and/or list of bank personnel have been submitted to the Bangko Sentral.

The imposition of the above sanctions is without prejudice to the filing of appropriate criminal charges against the culpable persons as provided under Section 35 of R.A. No. 7653, as amended, for the willful making of a false/misleading statement.

Submission of certain required information by UBs.

- a. UBs registered with the SEC as Underwriters pursuant to P.D. No. 129 (The Investment Houses Law), R.A. No. 8791 (The General Banking Law), R.A. No. 8799 (The Securities Regulations Code) and the Omnibus Rules and Regulations for Investment Houses and UBs registered as Underwriters of Securities shall submit to the appropriate supervising department of the Bangko Sentral not later than December 15 every year, the following reports:

- (1) List of bank personnel performing underwriting functions; and
- (2) Notarized certification stating that the list submitted pursuant to Item "a(1)" of this Section on Submission of certain required information by UBs is a complete and accurate list and that the personnel performing underwriting functions are duly licensed/authorized by the SEC to perform such functions.
The notarized certification shall be signed by the president or officer of equivalent rank.

- b. **Sanctions.** The following sanctions shall be imposed on the bank and/or its concerned officers for violations of this Section on Submission of certain required information by UBs:

(1) On the bank

- (a) *For willful delay to submit the documents required under Item "a" of this Section on Submission of certain required information by UBs.* A bank failing to submit the required reports which shall be classified as a *Category A-2* report, within the prescribed deadline, shall be subject to monetary penalties applicable for delayed reporting under existing regulations.
- (b) *For the willful making of a false/misleading statement in the documents required under Item "a" of this Section on Submission of certain required information by UBs.* A bank which has been found to have willfully made a false or misleading statement in the documents required under Item "a" of this Section on Submission of certain required information by UBs shall be subject to the appropriate monetary penalties under Sec. 1102. The willful making of a false or misleading statement shall be reckoned on a daily basis from the day following the due date of the said certification until such time that an amended or corrected document has been submitted to the Bangko Sentral.

(2) On the concerned officer

- (a) *For willful non-compliance.* The concerned officer/s of the bank who willfully fail/refuse to comply with the provisions of this Subsection shall be subject to the appropriate monetary penalties under Sec. 1102.
- (b) *For false/misleading statements.* The concerned officers which have been found to have willfully falsely certified or willfully submitted misleading statements in the certification and/or in the list of bank personnel required under Item "a" of this Section (*Submission of certain required information by UBs*), shall be subject to the appropriate monetary penalties under Sec. 1102, which shall be reckoned on a daily basis from the day following the due date of the said certification/list until such time that an amended or corrected certification and/or list of bank personnel have been submitted to the Bangko Sentral.

The imposition of the above sanctions is without prejudice to the filing of appropriate criminal charges against the culpable persons as provided under Section 35 of R.A. No. 7653, as amended, for the willful making of a false/misleading statement.

Report on crimes/losses. Banks shall report on the following matters to the appropriate supervising department of the Bangko Sentral.

- a. Crimes whether consummated, frustrated or attempted against property/facilities (such as robbery, theft, swindling or estafa, forgery and other deceits) and other crimes involving loss/destruction of bank property when the amount involved, in each crime is P20,000 or more.

Crimes involving bank personnel, regardless of whether or not such crimes involve the loss/destruction of bank property, even if the amount involved is less than P20,000, shall likewise be reported to the Bangko Sentral.

- b. Incidents involving material loss, destruction or damage to the bank's property/facilities, other than arising from a crime, when the amount involved per incident is P100,000 or more.
- c. **Definition of terms.** For the purpose of this regulation, the following definitions shall apply:

- (1) **Estafa** – a crime committed by a person who defrauds another causing the latter to suffer damage by means of any of the following:
- (a) unfaithfulness or abuse of confidence;
- (b) false pretense; or
- (c) fraudulent acts/means, under Articles 315 to 317 of the Revised Penal Code, as amended.
- (2) **Theft** – a crime committed by a person who, with intent to gain but without violence against or intimidation of persons nor force upon things, shall take personal property of another without the latter's consent pursuant to Article 308 and other pertinent provisions of Chapter III, Title X of the Revised Penal Code, as amended.
- (3) **Robbery** – a crime committed by a person who, with intent to gain, shall take any personal property belonging to another, by means of violence against or intimidation of any person, or using force upon anything pursuant to Article 295 and other pertinent provisions of Chapter 1, Title X of the Revised Penal Code, as amended.
- (4) **Falsification** – a crime committed by a person who falsifies a document by:
- (a) Counterfeiting or imitating any handwriting, signature or rubric;
- (b) Causing it to appear that persons have participated in any act or proceeding when they did not in fact so participate;

- (c) Attributing to persons who have participated in an act or proceeding statements other than those in fact made by them;
 - (d) Making untruthful statements in a narration of facts;
 - (e) Altering true dates;
 - (f) Making any alteration or intercalation in a genuine document which changes its meaning;
 - (g) Issuing in an authenticated form a document purporting to be a copy of an original document when no such original exists, or including in such a copy a statement contrary to, or different from, that of the genuine original; or
 - (h) Intercalating any instrument or note relative to the issuance thereof in a protocol, registry, or official book and other acts falling under Articles 169, 171 and 172 of the Revised Penal Code, as amended.
- (5) *Credit-card related crimes* – crimes arising through the use of credit cards.
 - (6) *Other crimes that may cause loss to the bank* – crimes committed that cannot be appropriately classified under any of the above classifications.
 - (7) *Negligence* – the failure to exercise the care which an ordinarily prudent person would use under the circumstances in the discharge of the duty then resting upon him (People v. Aguilar, 2899-R, 18 October 1949).
 - (8) *Non-crime related loss* – Incidents that may cause the bank to suffer a loss arising from fortuitous events.
 - (9) *Insider* – person involved include stockholders, directors, officers and employees of the bank.
 - (10) *Outsider* – persons involved other than an insider.
 - (11) *Perpetrator* – a person, whether an insider or outsider, who is responsible for the commission of crime either by direct participation, inducement or cooperation, including accomplices and accessories as defined under Articles 18 and 19 of the Revised Penal Code, as amended.
 - (12) *Victim* – an insider or outsider other than the perpetrator, who is the aggrieved party to the crime and may as a result of the incident, suffered the loss.
 - (13) *Attempted crime* – a crime is attempted when the perpetrator commences the commission of the crime directly by overt acts but does not perform all of the acts of execution which constitute the crime by reason of some cause or act other than his own voluntary desistance under Article 6 of the Revised Penal Code, as amended.
 - (14) *Frustrated crime* – a crime is classified as frustrated, when the perpetrator performs all the acts of execution which should produce the crime as a consequence but which, nevertheless, do not produce it by reason of causes independent of the will of the perpetrator under Article 6 of the Revised Penal Code, as amended.
 - (15) *Consummated crime* – a crime is consummated when all the acts of execution which constitute the crime was performed. As a result, the bank may have suffered a loss, the recoverable portion of which should be deducted to arrive at the probable loss incurred by the bank.
 - (16) *Termination of the investigation* – an investigation is said to be terminated when all the material facts/information which are sufficient to support a conclusion relative to the matters involved have already been gathered and a finding/conclusion may be made based on the gathered information.
- d. The following guidelines shall be observed in the preparation and submission of the report:
- (1) The Branch or Head Office unit's Report on Crimes and Losses (RCL), as listed in Appendix 7, shall be submitted electronically to the appropriate supervising department of the Bangko Sentral) within ten (10) calendar days from knowledge of the crime/incident;
 - (2) The RCL shall be submitted through the bank's head office unit and shall be certified correct by the compliance officer.
 - (3) Where a thorough investigation and evaluation of facts is necessary to complete the report, an initial report electronically submitted within the said deadline of ten (10) calendar days may be accepted: *Provided*, That a complete report is electronically submitted not later than twenty (20) calendar days from the termination of the investigation.

Moreover, an RCL considered as erroneous/delayed/erroneous and delayed/unsubmitted shall be subject to the penalties for *Category B* reports under Sec. 171 (*Sanctions on Reports for Non-compliance with the reporting standards*) but will not form part of the computation of demerit points of BSFI for purposes of determining habituality.

Reconciliation of head office and branch transactions. Banks shall prepare reconciliation statements covering transactions between the head office and all its branches within thirty (30) banking days after the end of each month.

The reconciliation statement shall be made available for inspection by Bangko Sentral examiners and submitted to the Bangko Sentral upon request of the appropriate supervising department of the Bangko Sentral.

List of stockholders and their stockholdings.

- a. Banks shall submit to the appropriate supervising department of the Bangko Sentral annually a complete list of stockholders and their stockholdings in the prescribed form within the deadline indicated in *Appendix 7*.
- b. Any change in the list shall also be reported to the said department in such frequency and within the deadline indicated in *Appendix 7*, indicating the name(s) and/or stockholdings involved which is/are to be cancelled or replaced, and the new name(s) and/or stockholdings which shall be included for that quarter. In case no change occurred during a particular quarter, the report shall provide a notation, viz "no change(s) since last report submitted for quarter ended, _____, 20__".

Bangko Sentral offices, where reports are submitted. Submission of Bangko Sentral periodic or call reports shall be as follows:

- a. All banking offices shall submit the required reports in accordance with *Appendix 7* to the Bangko Sentral, Manila or to the nearest Bangko Sentral Regional Offices: *Provided*, That the head office of a bank may submit to the appropriate supervising department of the Bangko Sentral in electronic form the batched copy of all its banking units' Quarterly Statement of Condition and Statement of Income and Expenses by Banking Unit in behalf of its branches and other offices;
- b. Where a particular report form calls for distribution of copies to other departments of the Bangko Sentral, the bank concerned shall furnish said copies of the report directly to the respective departments of the Bangko Sentral; and
- c. As an exception to Item "a" above, the duplicate copy of the bio-data for directors/officers shall be submitted to the appropriate supervising department of the Bangko Sentral.

Consolidated financial statements of banks and their subsidiaries engaged in financial allied undertakings. Banks shall submit after the end of the calendar year or the end of the fiscal year adopted by the bank their consolidated financial statements and supported by the individual annual financial statements of their subsidiaries engaged in financial allied undertakings.

For purposes of preparing consolidated financial statements, the provisions of Sec. 172 (*Philippine Financial Reporting Standards/Philippine Accounting Standards, preparation of consolidated financial statements*) shall apply.

The consolidated financial statements and the supporting individual financial statements of their subsidiaries shall be submitted to the appropriate supervising department of the Bangko Sentral within the deadline indicated in *Appendix 7*.

Reports required of foreign subsidiaries/affiliates/banking offices or non-bank entities of domestic banks. The submission of periodic reports of a foreign subsidiary/affiliate/banking offices or non-bank entities of domestic banks shall be governed by the following rules:

- a. For foreign subsidiaries/affiliates of domestic banks, the local investor-bank(s) concerned shall regularly submit to the appropriate supervising department of the Bangko Sentral a quarterly statement of condition and quarterly/annual report of income and expenses concerning the operations of the foreign subsidiaries/affiliates, including such other periodic reports which may be required from time to time in the forms prescribed by the Bangko Sentral for domestic financial intermediaries to the extent that their operations are applicable;
- b. For foreign subsidiaries/affiliates of domestic banks, the appropriate supervising department of the Bangko Sentral shall be furnished by said domestic banks copies of the annual report prescribed by any of the supervisory/regulatory authorities in the country of operations;
- c. When material changes noted in the annual financial statements warrant an interim comprehensive evaluation, the foreign affiliate concerned shall be requested to submit to the appropriate supervising department of the Bangko Sentral, through its domestic investor-bank, copies of its quarter/interim reports to stockholders or the call reports in the case of U.S. banks;
- d. Audited financial statements (AFS) of the foreign banking offices and subsidiaries; and
- e. Examination reports done by the foreign bank supervisory authority.

The submission of the documents in Items “d” and “e” to Bangko Sentral shall not be later than thirty (30) banking days from date of submission/release of said reports to the foreign banking offices and subsidiaries of Philippine banks. Material findings, if any, contained in said reports should be highlighted.

f. For purpose of this Section, affiliate shall refer to an entity linked directly or indirectly to a bank by means of:

- (1) Ownership, control as defined under Sec. 131 (*Policy statement and definition of terms*), or power to vote, of at least twenty percent (20%) of the outstanding voting stock of the borrowing entity, or vice-versa;
- (2) Interlocking directorship or officership, where the concerned director or officer owns; controls, as defined under Sec. 131 (*Policy statement and definition of terms*); or has the power to vote of at least twenty percent (20%) of the outstanding voting stock of the borrowing entity;
- (3) Common stockholders owning at least ten percent (10%) of the outstanding voting stock of the bank and at least twenty percent (20%) of the outstanding voting stock of the borrowing entity;
- (4) Management contract or any arrangement granting power to the bank to direct or cause the direction of management and policies of the borrowing entity; or
- (5) Permanent proxy or voting trusts in favor of the bank constituting at least twenty percent (20%) of the outstanding voting stock of the borrowing entity, or vice-versa.

For purposes of this Manual, the above definition of affiliate shall be adopted except where the provision of the regulation expressly states otherwise.

Report on cross-border financial positions. The Report on Cross-Border Financial Positions is designed to measure and monitor the cross-border financial claims and liabilities of UBs and KBs and their subsidiary TBs to provide the Bangko Sentral with a comprehensive view of potential financial risks and transmission channels emanating from foreign counterparties of Philippines banks.

All UBs/KBs and their subsidiary TBs shall submit the Report on Cross-Border Financial Positions on a solo basis in accordance with the Guidelines on the completion of the Report in *Appendix 109*.

This report shall be considered *Category B* report.

Additional reports from UBs/KBs.

- a. **Volume and weighted average interest rates of deposits and loans.** All head offices of UBs/KBs shall report to the Department of Supervisory Analytics of the Bangko Sentral the following: (1) weekly data on volume of transactions and weighted average interest rates on deposits received and loans granted with relevant details as to maturity, size and product category/type, and (2) monthly report on the weighted average interest rate on outstanding loans and deposits by product category/type. This report shall be considered a *Category B* report and shall be submitted in accordance with Appendix 7¹.

Erroneous/delayed/erroneous and delayed/unsubmitted reports shall be subject to penalties in accordance with the provisions of Sec. 171 (*Sanctions on Reports for Non-compliance with the Reporting Standards*) for *Category B* reports.

- b. **Short-term prime rates.** All UBs and KBs shall submit in the prescribed form a report on the volume and interest rates on credit line availments under short-term prime rates in such frequency and within the deadline indicated in *Appendix 7*.
- c. **Foreign Exchange Position Report.** Banks may be allowed to submit on a weekly basis the notarized certification signed by the bank’s president/CEO/country manager and the treasurer to cover the daily hard copies of Schedule 13, FX Form I and CFXPR pertaining to each day of the week. Delayed submission of the notarized certification shall be subject to monetary penalty, as follows:

¹ UBs and KBs shall submit both the existing and amended reports beginning 01 February 2019 until 31 December 2019 without penalty. Starting 01 January 2020, UBs and KBs shall be required to submit the amended reports, and erroneous/delayed/erroneous and delayed/unsubmitted reports shall be subject to penalties in accordance with Sec. 171 for *Category B* reports. The timelines are set out in the table below:

	Timelines
Transitory Period	01 February 2019 to 31 December 2019
Actual implementation	01 January 2020

	Daily Penalty
1st banking day of delay	P6,000 (equivalent P1,200 per day for five report dates covered by the certification on the assumption that the five (5) weekdays of the reference week are all banking days)
2nd banking day of delay and onwards	P1,200 per day

Reports of strikes and lockouts. Banks through their president or chief executive officer shall immediately apprise the Deputy Governor of the appropriate sector of the Bangko Sentral on the status of strikes/lockouts involving their banks, if unsettled after seven (7) calendar days. The bank shall disclose the following pertinent information on the strike/lockout:

- Cause of the strike/lockout and bank management's position on its legality; and
- Bank operations affected.

Notarized contracts/agreements between banks and their related microfinance (MF) non-governmental organizations (NGO's)/foundations. Business relationships between banks and their related MF NGO's/foundations shall be covered by notarized contracts/agreements specifying the nature of transactions and enumerating the terms and conditions thereof.

Banks shall submit said notarized contracts/agreements within fifteen (15) banking days from the date of meeting of the board of directors approving said contracts/agreements.

Said notarized contracts/agreements shall be considered *Category A-3* reports. Submission of said reports shall become effective starting with the reporting period ended 30 September 2011.

Submission of Bank Quarterly Report on Residential Real Estate Loans for the Generation of the Residential Real Estate Price Index. To generate the Residential Real Estate Price Index (RREPI) as a valuable tool in assessing the real estate and credit market conditions in the country, all UBs/KBs and TBs on a solo basis, shall submit a quarterly report to the Bangko Sentral covering the following data on properties acquired through residential real estate loans granted by banks:

Data Item	Unit of Expression
Month of Loan Granted/Booked	Number
Location of Property	Number
Type of Property	Number
Type of Housing Unit	Number
Appraisal Value of Housing Unit	Peso Amount
Total Floor Area	Number
Number of Floors	Number
Number of Bedrooms	Number
Effective Age of Housing Unit	Number
Appraised Value of Lot	Peso Amount
Total Lot Area	Number
Total Appraised Value of Property	Peso Amount
Housing Segment	Number
Acquisition Cost	Peso Amount
Name of Developer	Number
Name of Other Developer	Number

Submission of Quarterly Report on Appraised Commercial Properties (QRACP) for the Generation of the Commercial Property Price Index. To generate a Commercial Property Price Index (CPPI), a complementary indicator to the RREPI, all U/KBs and TBs on solo basis (head office and branches/other offices) shall submit a quarterly report on appraised commercial properties to the Bangko Sentral. The QRACP is necessary to generate a CPPI on a quarterly basis and address the need for a more comprehensive measure of real property prices in the Philippines. The collected information will serve as valuable inputs in the formulation of Bangko Sentral policies.

This report covers all appraised commercial properties, which include property accepted as collateral in lending transactions and acquired asset in the settlement of loans.

The QRACP shall be submitted to the Department of Economic Statics (DES) of the Bangko Sentral, using the DES-CPPI Form 1, and shall cover the following pertinent data on all appraised properties, where appraisals are conducted by both in-house and independent appraisers, as provided in this Manual:

	<u>Data Item</u>	<u>Unit of Expression</u>
I.	Appraisal Month	Number
II.	Location of Property	Alphanumeric

III.	Highest and Best Use (HABU) Classification on Property	Number
IV.	Actual Use of Property	Number
V.	Other Actual Use of Property	Alpha
VI.	Type of Property	Number
VII.	Type of Commercial Condominium Space	Number
VIII.	Appraised Value of Commercial Condominium Space	Peso Amount
IX.	Total Floor Area of Commercial Condominium Space	Number
X.	Appraised Value of Land	Peso Amount
XI.	Total Area of Land	Number
XII.	Total Appraised Value of Commercial Condominium Space/Land	Peso Amount

The QRACP should be considered a Category A-3 report and shall be submitted within the deadlines indicated in *Appendix 7*.

Erroneous/Delayed/Erroneous and Delayed/Unsubmitted reports shall be subject to penalties prescribed for Category A-3 reports under Sec. 171 (*Non-compliance with the Bangko Sentral reporting standards*).

Report on Repurchase Agreements. The Report on Repurchase Agreements is designed to capture timely and comprehensive transactional-level data on repos of UBs and KBs and their subsidiary TBs to strengthen financial surveillance, particularly in monitoring market trends and vulnerabilities in the repo market, and to enable the Bangko Sentral to formulate effective policy responses to ensure continued stability of the financial system.

All UBs/KBs and their subsidiary TBs shall submit the Report on Repurchase Agreements on a solo basis in accordance with the Guidelines on the completion of the Report in *Appendix 122*.

This report shall be considered a *Category B* report.

Erroneous/delayed/erroneous and delayed/unsubmitted reports shall be subject to penalties prescribed under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*) for *Category B* reports.

Report on Project Finance Exposures. The Report on Project Finance Exposures is designed to measure and monitor the exposure of the banking system to project finance as defined under Sec. 344 (*Exclusion from the thirty percent (30%) unsecured individual ceiling for project finance*).

All UBs/KBs shall submit the Report on Project Finance Exposures in accordance with the guidelines on the preparation of solo and consolidated financial statements under Sec. 172 (*Philippine Financial Reporting Standards/Philippine Accounting Standards*); and (b) the line item instructions prescribed under *Appendix 128*.

This report shall be considered a *Category A-1* report and shall be submitted within the deadlines indicated in *Appendix 7*.

a. Bank Report

All UBs/KBs shall submit the Report on Project Finance Exposures on a solo (i.e., head office and branches) basis. UBs/KBs shall, likewise, submit the Report on Project Finance Exposures covering project finance exposures of their trust departments.

b. Banking Group Report

A parent UB/KB shall, likewise, submit the Report on Project Finance Exposures on a consolidated (i.e., consolidated project finance exposures of the banking group) basis, including aggregate project finance exposures of trust departments of banks/Financial Institutions (FIs) that are part of the banking group.

The schedules comprising covered banks' Report on Project Finance Exposures are as follows:

Report	Covered Banks	UBs	KBs
Bank Report. This shall contain the solo report of the bank's project finance exposures. Trust departments of covered banks shall likewise submit the Report on Project Finance Exposures covering the project finance exposure of their clients. a. Bank Proper and Trust Department b. Schedule 1- Bank Proper c. Schedule 2 -Trust Department		x	x
Banking Group Report. This shall contain the consolidated report of the banking group's project finance exposures. UBs/KBs shall likewise submit aggregate project finance exposures of trust departments of banks/FIs that are part of the banking group. Banking Group and Trust Department(s) of Banks/FIs that are part of the banking group Schedule 1- Banking Group Schedule 2 -Trust Department(s)		x	x

A pilot run of the Report on Project Finance Exposures shall be conducted for the quarter-ending 31 March 2018 which shall be submitted within forty-five (45) banking days after the reference quarter. The template of the Report on Project Finance Exposures shall take effect starting with the reporting period ending 30 June 2018.

(Circular Nos. 1102 dated 19 October 2020, 1037 dated 11 April 2019, 1029 dated 25 January 2019, 1019 dated 31 October 2018, 1011 dated 14 August 2018, 988 dated 20 December 2017, 987 dated 28 December 2017, 976 dated 10 October 2017, 969 dated 22 August 2017, 963 dated 27 June 2017, 941 dated 20 January 2017, 923 dated 31 August 2016, 914 dated 23 June 2016, 890 dated 02 November 2015, M-2015-015 dated 16 March 2015, Circular Nos. 870 dated 20 February 2015, and 866 dated 07 January 2015)

174 AUDITED FINANCIAL STATEMENTS

The Bangko Sentral recognizes that external auditors play a vital role in contributing to the conduct of effective supervision and sustaining the confidence of the public in the financial system. In this light, the regulations on financial audit aim to enhance the quality of information channeled to the supervisory process and ultimately promote fairness, transparency and accuracy in financial reporting.

The following rules shall govern the submission of audited financial statements (AFS) of Banks.

For purposes of this Section, AFS shall include the balance sheets, income statements, statements of changes in equity, statements of cashflows, notes to financial statements, and opinion of the external auditor. The AFS of banks with subsidiaries shall be presented side by side on a solo basis (parent) and on a consolidated basis (parent and subsidiaries).

Financial audit. Banks shall cause an annual financial audit by an external auditor included in the List of Selected External Auditors for BSFIs not later than thirty (30) calendar days after the close of the calendar year or the fiscal year adopted by the bank. The AFS shall be submitted by the bank to the appropriate supervising department of the Bangko Sentral not later than 120 calendar days after the close of the calendar year or the fiscal year adopted by the bank, accompanied by the documentary requirements as enumerated under *Appendix 55*.

In addition, the external auditor shall be required by the bank to submit to the board of directors or country head, a LOC indicating any material weakness or breach in the institution's internal control and risk management systems not later than 120 calendar days after the close of the calendar year or fiscal year adopted by the bank. If no material weakness or breach is noted to warrant the issuance of an LOC, a certification under oath stating that no material weakness or breach in the internal control and risk management systems was noted in the course of the audit of the bank shall be submitted in its stead, together with the AFS.

Material weakness shall be defined as a significant control deficiency, or combination of deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be detected or prevented by the entity's internal control. A material weakness does not mean that a material misstatement has occurred or will occur, but that it could occur. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles. The phrase *more than remote likelihood* shall mean that future events are likely to occur or are reasonably possible to occur.

The board of directors, in a regular or special meeting, shall consider and act on the AFS and the Letter of Comments (LOC) and shall submit, not later than 120 calendar days after the close of the calendar year or fiscal year adopted by the bank, a copy of its resolution (containing the date of receipt of the AFS and LOC by the board of directors), to the appropriate supervising department of the Bangko Sentral. The resolution shall show the action(s) taken on the AFS and the findings and recommendations stated in the LOC, if any.

In the case of foreign banks with branches in the Philippines, the country head shall submit a report on the action taken by management (head office, regional, or country, as the case may be) on the AFS and the LOC not later than 120 calendar days after the close of the calendar year or fiscal year adopted by the bank.

Government-owned or-controlled banks, including their subsidiaries and affiliates under Bangko Sentral supervision, which are under the concurrent jurisdiction of the Commission on Audit (COA) shall be exempt from the aforementioned annual financial audit by an external auditor included in the List of Selected External Auditors for BSFIs: *Provided*, That when warranted by supervisory concern such as material weakness/breach in internal control and/or risk management systems, the Monetary Board may, upon recommendation of the appropriate supervising department of the Bangko Sentral, require the financial audit to be conducted by an external auditor included in the List of Selected External Auditors for BSFIs, at the expense of the institution concerned: *Provided, further*, That when circumstances such as, but not limited to loans from multilateral FIs, privatization, or public listing warrant, the financial audit of the institution concerned by an external auditor included in the List of Selected External Auditors for BSFIs may also be allowed.

Banks under the concurrent jurisdiction of the Bangko Sentral and COA shall, however, submit a copy of the annual audit report (AAR) of the COA to the appropriate supervising department of the Bangko Sentral within forty (40) calendar days after receipt of the AAR by the board of directors. The AAR shall be accompanied by the:

- a. certification by the institution concerned on the date of receipt of the AAR by the board of directors;
- b. reconciliation statement between the AFS in the AAR and the balance sheet and income statement of bank proper (regular and FCDU) and trust department submitted to the Bangko Sentral, including copies of adjusting entries on the reconciling items; and
- c. other information that may be required by the Bangko Sentral.

The board of directors of said institutions, in a regular or special meeting, shall consider and act on the AAR, as well as on the comments and observations and shall submit, within thirty (30) banking days after receipt of the report, a copy of its resolution to the appropriate supervising department of the Bangko Sentral. The resolution shall show the action(s) taken on the report, including on the comments and observations and the names of the directors present and absent, among other things.

The AFS required to be submitted shall in all respect be PFRS/PAS compliant. The guidelines under Section 172 shall be adopted

Banks as well as external auditors shall strictly observe the requirements in the submission of the financial audit report and reports required to be submitted under *Appendix 55*.

The reports and certifications of institutions concerned, schedules and attachments required under this Section shall be considered *Category B* reports, wherein Delayed/Unsubmitted reports are subject to the penalties under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*).

Posting of audited financial statements. Local banks shall post in conspicuous places in their head offices, all their branches and other banking offices, as well as in their respective websites, their latest AFS.

The abovementioned documents shall also be posted by foreign bank branches in all their banking offices in the Philippines.

Disclosure requirements to the audited financial statements. Banks shall disclose the information prescribed under Annex A of Appendix 55 in the AFS.

(Circular Nos. 1074 dated 07 February 2020, 1040 dated 20 May 2019, 963 dated 27 June 2017, 957 dated 17 April 2017, and 890 dated 02 November 2015)

175 PUBLIC DISCLOSURES

Publication/Posting of balance sheet.

- a. *UBs/KBs, TBs, RBs and Coop Banks with resources of P1.0 billion and above*

- (1) Banks belonging to this category shall accomplish the prescribed form and publish their quarterly Balance Sheet (BS) as of the cut-off date indicated in the call letter issued by the appropriate supervising department of the Bangko Sentral.

The Consolidated Balance Sheet (CBS) of a bank and its subsidiaries and affiliates shall be published side by side with the BS of its head office and its branches/other offices.

- (2) The CBS of the bank and its subsidiaries and affiliates shall be prepared in accordance with the rules of consolidation provided under the Financial Reporting Package (FRP), in which case, only financial allied subsidiaries, except subsidiary insurance companies, shall be consolidated on a line-by-line basis, while non-financial allied subsidiaries including subsidiary insurance companies shall be accounted for using the equity method.

- (3) Such BS, and CBS where applicable, shall be published in a newspaper of general circulation in the city/province where the principal office, in the case of a domestic bank, or the principal branch/office, in the case of a foreign bank, is located, but if no newspaper is published in the same province, then in a newspaper published in Metro Manila or in the nearest city/province.
- (4) The names and position/designation of the members of the board of directors, president and executive vice presidents (senior vice presidents, if there are no executive vice presidents), shall be published and shown in the right side column of the published BS as of June of every year.
- (5) (a) Before publication, a soft copy of the BS shall be submitted to the appropriate supervising department of the Bangko Sentral within twelve (12) banking days from the date of the call letter.

Further, a hard copy of the control proof list for the said report shall likewise be submitted to the appropriate supervising department of the Bangko Sentral within the said deadline.

- (b) Banks that are incapable of submitting the BS in electronic form shall submit the same in hard copy to the appropriate supervising department of the Bangko Sentral within the said deadline.
- (c) The published BS with the publisher's certificate shall be submitted within twenty (20) banking days after the date of said call letter to the appropriate supervising department of the Bangko Sentral.

b. *TBs/RBs/Coop Banks with resources of less than P1 billion*

- (1) A TB, RB and Coop Bank belonging to this category shall either publish its quarterly BS as of the cut-off date indicated in the call letter issued by the appropriate supervising department of the Bangko Sentral, in a newspaper of general circulation as in Item "a(3)" above or post the same in the most conspicuous area of its premises, in the municipal building, municipal public market, barangay hall and barangay public market where the head office and all its branches are located. The posting shall be printed on 12"x18" white paper, preferably white buff paper (cartolina) and shall be made within twenty (20) banking days from the end of the reference quarter and for a period of thirty (30) successive calendar days.
- (2) (a) A TB, RB and Coop Bank that shall publish/post its quarterly BS shall submit a soft copy of the same to the appropriate supervising department of the Bangko Sentral within twenty (20) banking days after the end of the reference quarter.
- (b) Banks that are incapable of submitting the BS in electronic form shall submit the same in hard copy to the appropriate supervising department of the Bangko Sentral within the said deadline.
- (c) In either case, an affidavit executed by the president, or in his absence, the vice-president or manager, as the case may be, shall likewise be submitted to appropriate supervising department of the Bangko Sentral within the said deadline.

c. *Additional information required.* Banks shall disclose the following information in the quarterly published/posted BS:

- (1) Solo BS (Head Office and Branches/Other Offices)
 - (a) Gross total loan portfolio (TLP);
 - (b) Specific allowance for credit losses on the TLP;
 - (c) Non-performing loans (NPLs):
 - (i) Gross NPLs;
 - (ii) Ratio of gross NPLs to gross TLP (%);
 - (iii) Net NPLs. This shall refer to gross NPLs less specific allowance for credit losses on NPLs;
 - (iv) Ratio of net NPLs to gross TLP (%);
 - (v) Ratio of total allowance for credit losses to gross NPLs (%);
 - (vi) Ratio of specific allowance for credit losses on the gross TLP to gross NPLs (%);
 - (d) Classified loans and other risk assets, gross of allowance for credit losses;
 - (e) DOSRI loans and receivables, gross of allowance for credit losses;
 - (f) Ratio of DOSRI loans and receivables, gross of allowance for credit losses, to gross TLP (%);
 - (g) Gross non-performing DOSRI loans and receivables;
 - (h) Ratio of gross non-performing DOSRI loans and receivables to gross TLP (%);
 - (i) Percent compliance with Magna Carta
 - 8% for micro and small enterprises;
 - 2% for medium enterprises;

- (j) Return on equity (ROE) (%);
 - (k) CAR on solo basis, as prescribed under existing regulations:
 - (i) Total CAR
 - (ii) Tier 1 Ratio
 - (iii) CET1 Ratio
 - (l) Deferred charges not yet written down; and
 - (m) Unbooked allowance for credit losses on financial instruments received.
- (2) Consolidated Balance Sheet (parent bank and financial allied subsidiaries excluding subsidiary insurance companies)
- (a) List of financial allied subsidiaries (excluding subsidiary insurance companies)
 - (b) List of subsidiary insurance companies
 - (c) CAR on consolidated basis, as prescribed under existing regulations:
 - (i) Total CAR
 - (ii) Tier 1 Ratio
 - (iii) CET1 Ratio

For purposes of additional information, all amounts and ratios shall be as of the same call date. However, the basis for computing the ROE shall be the latest quarter immediately preceding the call date using the following formula:

$$\text{ROE (\%)} = \frac{\text{Net Income (or Loss) After Income Tax}}{\text{Average Total Capital Accounts}} \times 100$$

Where net income/(loss) after tax and average capital accounts shall be:

Quarter-end	Net Income (Loss) After Tax (NIAT)	Average Total Capital Accounts
March	Quarter end NIAT multiplied by 4	Sum of end-month capital accounts (December - March) divided by 4
June	Semester end NIAT multiplied by 2	Sum of end-month capital accounts (December - June) divided by 7
September	Nine (9) months-end NIAT multiplied by 1.33333	Sum of end-month capital accounts (December - September) divided by 10
December	Year-end NIAT	Sum of end-month capital accounts (December - December) divided by 13

- d. *Deferment of publication requirement.* The abovementioned publication requirement may be deferred by the Monetary Board by at least five (5) affirmative votes upon application by the bank concerned during periods of national and/or local emergency or of imminent panic which directly threaten monetary and banking stability.

The amended prescribed form for the published BS shall be used starting with the quarter-end March 2013 reports.

Disclosure requirements in the annual report. It is the thrust of the Bangko Sentral to promote greater disclosure and transparency to the public. In line with this, the Bangko Sentral recognizes the importance of the annual report in providing financial information on the bank, which will be useful to the public in understanding the true condition of the bank. This is consistent with financial consumer protection and aligned with international best practices. Accordingly, the Bangko Sentral revised the minimum disclosure requirements in the annual report of banks to ensure that proper disclosure is made on all significant matters regarding the bank, including its financial condition, performance, ownership and governance.

Consistent with the principles embodied under Sec. 132 (*Duties and responsibilities of the board of directors/directors*), the board of directors shall have the overall responsibility in ensuring that the annual report of the bank fully discloses the minimum disclosure requirements as included in this Section. The board of directors may delegate its oversight function to a board-level committee which shall have oversight over the preparation of the annual report.

All banks shall prepare an annual report which shall include a discussion and/or analysis of the following minimum information in no particular order:

- a. Corporate policy;
- b. Financial summary/Financial highlights;
- c. Financial condition and results of operations;
- d. Risk management framework, including practices to mitigate and/or prevent money laundering and terrorist financing risks;
- e. Corporate governance;
- f. Corporate information;
- g. Audited Financial Statements (AFS). For banks with subsidiaries, the AFS should be presented side by side on a solo

- basis (parent) and on a consolidated basis (parent and subsidiaries) as provided under Sec. 174; and
- h. Information on sustainable finance as required under Sec. 153.

For complex banks¹ with various business segments, it shall also disclose the “Financial Results of Business Segments”.

The guidelines for the preparation of disclosure requirements in the annual report are provided in *Appendix 125*.

Additional disclosure requirements for UBs and KBs, as well as their subsidiary banks, are found under Part IX of *Appendix 59*. For stand-alone TBs, RBs, and Coop Banks, additional disclosure requirements are found under Part V of *Appendix 62*.

Locally incorporated subsidiary banks of foreign banks shall likewise be covered by the requirements of this Section. Branches of foreign banks are exempted from compliance with the guidelines.

The revised disclosures shall commence with annual reports for financial year 2017.

Posting and submission of annual report. A copy of the latest annual report shall be posted/displayed by the bank in a conspicuous place in its head office, all its branches and other offices. The annual report should also be published in the bank’s website.

Covered banks shall submit the Annual Report Assessment Checklist (ARAC) together with the annual report. The ARAC identifies the pages and sections of the annual report corresponding to the disclosures.

The deadline for the submission of the annual report and ARAC to the appropriate supervising department of the Bangko Sentral is 180 calendar days after the close of the calendar or fiscal year adopted by the bank.

Banks under the concurrent jurisdiction of the Bangko Sentral and COA, however, shall submit the annual report and ARAC to the appropriate supervising department of the Bangko Sentral within 100 calendar days after receipt of the annual audit report by the board of directors.

The annual report shall be submitted in soft copy to the Bangko Sentral and shall be in Portable Document Format (PDF) as provided in *Appendix 7*. Transmittal of the soft copy of the report shall be covered by a letter to the appropriate supervising department of the Bangko Sentral. On the other hand, banks shall continue to submit the ARAC in hard copy.

Sanctions for non-disclosure of certain information and/or delayed submission of annual report.

- a. *Non-disclosure of certain information.* Willful non-disclosure or erroneous disclosure of any item required to be disclosed under Sec. 175 on disclosure requirements in the annual report shall be subject to the appropriate monetary penalties under Sec. 1102 that will be imposed on the bank.

The Bangko Sentral shall also determine if the non-disclosure or erroneous disclosure involves material information that may mislead the public, which warrants stiffer sanctions as provided under Sec. 002.

Material information refers to information which if omitted or misstated, could change or influence the assessment or decisions of a person relying on the disclosure, such as depositors, creditors, investors, and professional analysts, for the purpose of making deposits and investments, among others.

- b. *Delayed/Unsubmitted annual report.* Sanctions in case of delayed/unsubmitted annual report and the ARAC shall be in accordance with the provision under Sec. 171 (*Non-compliance with the Bangko Sentral reporting standards*).

(Circular Nos. 1085 dated 29 April 2020, 956 dated 17 April 2017, M-2017- 011 dated 31 March 2017, and Circular No. 911 dated 02 May 2016)

H. UNSAFE OR UNSOUND BANKING

181 CONDUCTING BUSINESS IN AN UNSAFE OR UNSOUND BANKING

Whether a particular activity may be considered as conducting business in an unsafe or unsound banking, all relevant facts must be considered. An analysis of the impact thereof on the bank’s operations and financial conditions must be undertaken, including evaluation of capital position, asset condition, management, earnings posture and liquidity position.

In determining whether a particular act or omission, which is not otherwise prohibited by any law, rule or regulation affecting banks, may be deemed as conducting business in an unsafe or unsound banking, the Monetary Board, upon report of the head of the supervising or examining department based on findings in an examination or a complaint, shall consider any of the following circumstances:

¹ As defined under Sec. 131 (*Policy statement and definition of terms*).

- a. The act or omission has resulted or may result in material loss or damage, or abnormal risk or danger to the safety, stability, liquidity or solvency of the institution;
- b. The act or omission has resulted or may result in material loss or damage or abnormal risk to the institution's depositors, creditors, investors, stockholders, or to the Bangko Sentral, or to the public in general;
- c. The act or omission has caused any undue injury, or has given unwarranted benefits, advantage or preference to the bank or any party in the discharge by the director or officer of his duties and responsibilities through manifest partiality, evident bad faith or gross inexcusable negligence; or
- d. The act or omission involves entering into any contract or transaction manifestly and grossly disadvantageous to the bank, whether or not the director or officer profited or will profit thereby. The list of activities which may be considered unsafe or unsound is shown in *Appendix 49*.

Reportorial requirement. For purposes of determining market median rates on deposits and monitoring banks that rely excessively on large, high-cost or volatile deposits/borrowings specified in Item "g" of *Appendix 49*, all banks shall submit a quarterly report on bank deposit interest rates which shall be included in the report of selected branch accounts.

Guidelines on reportorial requirement for bank interest rates is provided in *Appendix 108*.

I. CESSATION OF BANKING BUSINESS

191 VOLUNTARY SURRENDER OF A BANKING LICENSE

Policy Statement. Cognizant that the business of banking is imbued with public interest, it is the thrust of the Bangko Sentral to ensure that no depositor or creditor interest is prejudiced when a bank voluntarily surrenders its banking license. Toward this end, the following guidelines shall be observed when a bank decides to voluntarily surrender its banking license either with a view to proceed to voluntary dissolution and liquidation or with the intention to convert into a non-bank entity. These guidelines, however, shall not apply to surrender of banking license arising from merger, consolidation and purchase of assets and assumption of liabilities transaction.

Criteria for Accepting Voluntary Surrender of a Banking License. A bank that seeks to voluntarily surrender its banking license must obtain prior approval of the Bangko Sentral, which shall only approve such surrender of banking license if the following criteria/conditions are met:

- a. The voluntary surrender of a banking license is based on the plan either to proceed to voluntary dissolution and liquidation, or to convert into a non-bank entity;
- b. The plan has been approved by the required number of the board of directors and stockholders of the bank or members of the cooperative bank as provided under applicable law;
- c. There are no grounds to prohibit the bank from doing business under Section 30 of R.A. No. 7653 or the New Central Bank Act, as amended by R.A. No. 11211;
- d. The bank is solvent and has sufficient liquid assets to fully repay all its depositors and creditors in a timely manner;
- e. The bank has appropriated or set aside immediately accessible funds (e.g., escrow, etc.) equivalent to its outstanding deposit obligations for the purpose of the payment/settlement of such obligations to its depositors in a timely manner;
- f. The bank submits an acceptable board-approved liquidation plan in the case of a plan to proceed to voluntary dissolution or a plan of action for the cessation of the bank's banking business (i.e., plan of settlement of liabilities) in the case of a plan to convert into a non-bank entity; and
- g. Other conditions which the Bangko Sentral deems necessary or as may be warranted by the attendant circumstances in order to protect the public interest.

Application Procedures. A bank contemplating to cease its banking business shall submit to the appropriate supervising department of the Bangko Sentral an application letter, signed by its President or any authorized representative, for voluntary surrender of its banking license. The application letter shall indicate the reason for surrendering the banking license and shall be accompanied by the following documents:

- a. Certified true copy of the resolution of the required number of the board of directors and stockholders of the bank or members of a cooperative bank as provided under applicable law, authorizing the surrender of the banking license to the Bangko Sentral;
- b. Certified true copy of the resolution of the board of directors granting the bank's President or authorized representative the authority to execute: (1) notarized sworn statement attesting that the bank is solvent and has sufficient liquid assets

to fully repay all its depositors and creditors in a timely manner; and (2) notarized sworn statement and/or undertaking that the bank has appropriated or set aside immediately accessible funds equivalent to its deposit obligations for the purpose of the payment/settlement of such obligation to its depositors in a timely manner;

- c. Notarized sworn statement and/or undertaking referred to in Items “(b)(1)” and “(b)(2)” above;
- d. A board-approved liquidation plan, in the case of a plan to proceed to voluntary dissolution and liquidation, which includes, among others, provisions for the following matters:
 - (1) Orderly settlement of all claims from depositors and other creditors, including those existing at the time of, and those discovered after, the surrender of the bank license, as well as the manner of notifying its depositors/creditors;
 - (2) Distribution of the remaining assets after the settlement of all claims;
 - (3) Disposition or maintenance of any remaining/unclaimed assets or unclaimed deposits;
 - (4) Retention of records in accordance with Sec. 172, including information on the physical location, as well as the contact details of the individual(s) and/or entity(ies) responsible for safekeeping of the records; and
 - (5) Relevant details of the individual(s) and/or entity(ies) responsible for the orderly liquidation of the bank, including information on the individuals(s) and/or entity(ies) responsible for addressing consumer complaints;
- e. A board-approved plan of action for the cessation of the banking business, in the case of a plan to convert into a non-bank entity, which shall contain, among others, provisions for the following matters:
 - (1) Orderly settlement of all claims from the depositors and other creditors, including those existing at the time of, and discovered after, the surrender of the bank license, as well as the manner of notifying its depositors/creditors;
 - (2) Disposition or maintenance of any unclaimed deposits;
 - (3) Retention of records pursuant to Sec. 172, including information on physical location, as well as the contact details of the individual(s) and/or entity(ies) responsible for safekeeping of the records; and
 - (4) Information on the individual(s) and/or entity(ies) responsible for addressing consumer complaints; and
- f. Such other documents/information that the concerned supervising department of the Bangko Sentral may require.

In case the bank has other licenses/authorities granted by the Bangko Sentral, such as trust/investment management license, the bank shall also comply with the necessary requirements for surrender of said licenses/authorities, if any.

Approval of Voluntary Surrender of Banking License. The bank, upon receipt of notice of the Bangko Sentral approval of its voluntary surrender of banking license, shall immediately cease to carry on banking business.

In the case of a plan to proceed to voluntary dissolution and liquidation, the bank may retain only the powers necessary to effect orderly dissolution and liquidation pursuant to the provisions of applicable law.

In the case of a plan to convert into a non-bank entity that is not under the supervision of the Bangko Sentral, the banks shall file with the SEC/CDA, the corresponding amendments to its Articles of Incorporation/Cooperation (AOI/C) By-Laws within three (3) months from the receipt of the Bangko Sentral approval of the bank’s voluntary surrender of banking license.

Meanwhile, for a plan to convert into a non-bank financial institution under the supervision of the Bangko Sentral, the bank should first comply with the applicable licensing requirements under existing regulations before filing with the SEC/CDA the corresponding amendments to its AOI/C and By-Laws.

Sanctions. The voluntary surrender of banking license to Bangko Sentral will not exempt the bank’s directors, officers and employees from any administrative or criminal sanctions arising from a determination that a violation of banking law, rule or regulation was committed.

(Circular No. 1050 dated 18 September 2019)

192 VOLUNTARY DISSOLUTION AND LIQUIDATION

The following rules and regulations shall govern the voluntary dissolution and liquidation of banks.

Voluntary Dissolution. It shall be the responsibility of the bank to comply with the requirements for voluntary dissolution pursuant to the provisions of applicable law. The voluntary dissolution process should be completed by the bank

within six (6) months from the date the Bangko Sentral approved the bank's voluntary surrender of banking license, subject to extension on the basis of justifiable reasons or in meritorious cases.

Voluntary Liquidation. Pursuant to Section 68 of R.A. No. 8791 or the General Banking Law of 2000, the bank shall submit a written notification of liquidation to the Monetary Board before such liquidation is undertaken in accordance with the liquidation plan previously submitted to the Bangko Sentral. The said written notice shall be submitted within five (5) banking days from receipt of SEC or CDA approval of voluntary dissolution, as may be applicable. Within thirty (30) days after winding up the affairs of the bank, the board of directors/trustee/receiver shall submit a final liquidation report to the appropriate supervising department of the Bangko Sentral.

In case of voluntary liquidation, the Monetary Board shall have the right to intervene and take steps, as may be necessary, to protect the interest of depositors and creditors.

(Circular No. 1050 dated 18 September 2019)

193 INSOLVENCY OR RECEIVERSHIP OF BANKS

The rules and regulations governing insolvency and receivership are as follows:

Definition of term. A “bank declared insolvent or placed under receivership by the Monetary Board” shall refer to a banking institution that has been forbidden from doing business in the Philippines by the Monetary Board under the applicable grounds provided for under Section 30 of R.A. No. 7653 and placed under receivership of the PDIC.

Prohibited acts. Any director or officer of a bank declared insolvent or placed under receivership by the Monetary Board shall not commit any of the following acts:

- a. refusing to turn over the bank's records and assets to the designated receivers;
- b. tampering with bank records;
- c. appropriating for himself or another party, or destroying or causing misappropriation and destruction of the bank's assets;
- d. receiving or permitting or causing to be received in said bank any deposit, collection of loans and/or receivables;
- e. paying out or permitting or causing to be paid out any funds of said bank; and transferring or permitting or causing to be transferred any securities or property of said bank.
- f. transferring or permitting or causing to be transferred any securities or property of said bank.

Penalties and sanctions. Any director or officer of a bank declared insolvent or placed under receivership by the Monetary Board who commits any of the foregoing acts shall be subject to the sanctions under Sections 36 and 37 of R.A. No. 7653, in correlation with Section 66 of R.A. No. 8791. Moreover, any such director or officer thereby sanctioned shall be included in the watchlist files of directors/officers disqualified by the Monetary Board from holding any position in any bank or FI.

(Circular No. 1050 dated 18 September 2019)

PART TWO

DEPOSITS, BORROWINGS AND OTHER LIABILITIES

A. DEMAND DEPOSITS

201 AUTHORITY TO ACCEPT OR CREATE DEMAND DEPOSITS

Banks may accept or create demand deposits subject to withdrawal by check.

A UB/KB may accept or create demand deposits subject to withdrawal by check, without prior authority from the Bangko Sentral.

A TB/RB/Coop Bank may accept or create demand deposits upon prior authority of the Bangko Sentral.

Prerequisites to accept or create demand deposits for thrift banks/rural banks/cooperative banks. In addition to the *Standard Pre-qualification Requirements for the Grant of Banking Authorities* enumerated in *Appendix 5*, a TB/RB/Coop Bank applying for authority to accept or create demand deposits shall also comply with the following requirements:

- a. The applicant TB/RB/Coop Bank must have complied with the minimum capital required under Sec. 121. The terms *capital* and *net assets* shall have the same meaning as in Sec. 121;
- b. It has neither unpaid assessment due nor past due obligations with the PDIC; and
- c. The applicant bank must have been examined by the Bangko Sentral within one (1) year prior to the date of submission of complete documentary requirements with the appropriate supervising department of the Bangko Sentral.

Requirements for accepting demand deposits. After a TB's/RB's/Coop Bank's application to accept demand deposits has been approved, it may actually accept such deposits, subject to the following conditions:

- a. Submission of a certification signed by the President/Chairman of the Board of the bank stating that the requirements enumerated in this Section on Prerequisites to accept or create demand deposits for thrift banks/rural banks/cooperative banks have been complied with up to the day before the checking account services are actually offered/extended to the public;
- b. That if it is not a member of the Philippine Clearing House Corporation (PCHC), it has appointed a commercial bank, or a normally operating thrift bank which is a direct participant in the clearing with the PCHC/Bangko Sentral and has complied with the minimum capital required for commercial banks, thru which it shall participate in the check clearing system; and
- c. That it has complied with all other conditions that the Bangko Sentral may impose.

The applicant bank shall submit a written notice to the appropriate supervising department of the Bangko Sentral of the actual date when the demand deposit service is offered to the public not later than ten (10) banking days from such offering of the service.

Sanctions. If any part of the certification submitted by the bank as required in these guidelines is found to be false, the following sanctions shall be imposed, without prejudice to the sanctions under Section 35 of R.A. No. 7653:

- a. *On the bank*

Suspension of its authority to accept or create demand deposits for one (1) year

- b. *On the certifying officer*

A fine of P5,000 per day from the time the certification was made up to the time the certification was found to be false

202 RETURNED CHECKS

- a. *Checks without sufficient funds/with stop payment orders*

To complement the provisions of Batas Pambansa Blg. 22, (An Act Penalizing the Making or Drawing and Issuance of a Check Without Sufficient Funds or Credit), the following regulations shall govern checks drawn against insufficient funds and checks drawn against closed accounts:

- (1) The Drawee bank shall generate and transmit to the Presenting bank through the Check Image Clearing System (CICS), the pertinent electronic documents¹ containing information on the dishonored check or the check clearing item including the date when the check is returned and the reason for the refusal to pay the same to the holder thereof.
- (2) Notwithstanding receipt of an order to stop payment, the Drawee bank shall likewise indicate that there are no sufficient funds or credit with such bank for the payment in full of such check or that the account is closed, if such be the fact. The bank shall also indicate receipt of a stop payment order.

For checks which shall be dishonored for the reason that payment has been stopped, the following shall be observed:

- (a) The Drawee bank shall indicate in the electronic documents¹ the date when the check is returned and the reason for the refusal to pay the same to the holder thereof; and
- (b) The Drawee bank shall indicate the remark or notation "Payment Stopped" or "With Stop Payment Order" on the pertinent electronic documents.
- (3) The Presenting bank, on the other hand, shall generate the necessary documents² with the images of the clearing item printed with information on the reason for the dishonor. This document, together with the original check, shall be handed over to the depositor which shall serve as the official notification on the return or the dishonor of the check.
- (4) In front of the original check to be handed over to the depositor, the Presenting bank shall affix a return stamp, indicating therein the date when the check is returned and the reason for refusal to pay the same to the holder thereof.

b. *Checks dishonored due to technical reasons*

In a similar manner, the Drawee bank shall generate and transmit to the Presenting bank, through CICS pertinent electronic document/s³ containing information on the dishonored check or the check clearing item including the reason for the refusal to pay the same to the holder thereof. The Presenting bank, on the other hand, upon receipt of the electronic document/s, shall likewise generate the necessary documents⁴ with the images of the clearing item printed with information on the reason for the dishonor. The same procedure of affixing a return stamp on the check to be handed over to the depositor shall be observed.

c. The Drawee bank shall transmit the electronic documents¹ relative to the dishonor to the Presenting bank within the prescribed period or not later than the cut-off time indicated in *Appendix 35* for returned items in accordance with the following procedures:

- (1) The settlement of interbank transactions vis-à-vis covering reserve requirement/deficiency of banks' demand deposit account (DDA) is shown in *Appendix 35*;
- (2) The AM clearing window for clearing items dishonored due to insufficiency of funds or credit, technical reasons, closed account and/or stop payment order shall be conducted from 4:31 PM of the same day up to the cut-off time indicated in *Appendix 35* for returned items; and
- (3) Returned clearing item in the AM clearing window shall be given value on the same date as the date of original presentation of the Checks and Other Cash Items (COCI) to PCHC. The amount of debits and credits on the date of original presentation shall be reversed to the extent of the amount of credits and debits arising from the returned clearing item. The process restores the balances of the demand deposits of banks with the Bangko Sentral to their position prior to the settlement of the clearing results affected by the clearing items later returned due to insufficient funds or credit, closed account and/or stop payment order.

(Circular Nos. 986 dated 29 December 2017 and 924 dated 07 September 2016)

1 Such as but not limited to the Return Image Cash Letter (Return ICL) containing the dishonored Regular Clearing Item [i.e., electronically generated document showing a Check Image with Electronic Payment Information transmitted via CICS to the Drawee bank for collection of the amount]. Image Cash Letter (ICL) is an ANSI standard interface file specifications (X9.100-187) for electronic exchange of check and image data. It is generated by the front-end system of a Presenting bank or Drawee bank containing CICS Items transmitted to the Drawee bank or Presenting bank, respectively.

2 Such as but not limited to the Return Check Advice (RCA)

3 Such as but not limited to the Return ICL containing the dishonored Regular Clearing Item [i.e., electronically generated document showing a Check Image with Electronic Payment Information transmitted via CICS to the Drawee bank for collection of the amount]. ICL is an ANSI standard interface file specifications (X9.100-187) for electronic exchange of check and image data. It is generated by the front-end system of a Presenting bBank or Drawee Bank containing CICS Items transmitted to the Drawee bank or Presenting bank, respectively.

4 Such as but not limited to the RCA

The following regulations shall govern temporary overdrawings and drawings against uncollected deposits (DAUDs).

- a. *Temporary overdrawings.* Temporary overdrawings against DDA shall not be allowed, unless caused by normal bank charges and other fees incidental to handling such accounts.

Banks which violate these regulations shall be subject to a fine of one-tenth of one percent (1/10 of 1%) per day of violation, computed on the basis of the amount of overdrawn or fines in amounts as may be determined by the Monetary Board, but not to exceed P30,000 a day for each violation.

Technical overdrawings arising from “*force posting*” in-clearing checks shall be debited by banks under “*Returned Checks and Other Cash Items (RCOCI)*” which is part of “*Other Assets*” in the Balance Sheet. Items to be lodged under this account shall consist only of in-clearing checks which may result in “*technical overdrawn*” accounts.

In case a check clearing item is dishonored, the Drawee bank shall generate the pertinent electronic documents¹ on the dishonored clearing item due to insufficiency of funds and electronically submit the same to the Presenting bank within the prescribed period, or not later than the cut-off time indicated in *Appendix 35* for returned items.

Peso DDAs maintained by foreign correspondent banks with UBs/KBs shall not be subject to the above-mentioned regulations: *Provided, That:*

- (1) The maintenance of non-resident correspondent bank’s peso DDAs and overdrawings therefrom are covered by reciprocal arrangement;
 - (2) Temporary overdrawings are covered within fifteen (15) banking days from the date overdrawings are incurred; and
 - (3) Such accounts are credited only through foreign exchange inward remittance.
- b. *DAUDs.* DAUDs shall be prohibited except when the drawings are made against uncollected deposits representing manager’s/cashier’s/treasurer’s checks, treasury warrants, postal money orders and duly funded “*on us*” checks which may be permitted at the discretion of each bank.

(Circular Nos. 986 dated 29 December 2017 and 924 dated 07 September 2016)

204 DEMAND DEPOSITS OF BANK OFFICERS AND EMPLOYEES

As a general rule, officers and employees of banks, their spouses and relatives within the second degree of consanguinity and affinity, including partnerships, associations or corporations in which such officers and employees, their spouses and relatives within the second degree of consanguinity and affinity, individually or as a group, own or control at least a majority of the capital are prohibited from maintaining demand deposits or current accounts with the banking office in which they are assigned. However, officers and employees without direct access and involvement in the handling of transactions and/or records pertaining to demand deposit operations may be allowed to maintain demand deposits or current accounts in the banking office where they are assigned subject to the following conditions:

- a. It shall be the responsibility of the bank concerned to identify the officers, employees, departments or units with direct involvement in its demand deposit operations and/or deposit records;
- b. The opening of current accounts of officers and employees shall be subject to approval of the head of the branches department or any designated higher ranking officer; and
- c. The following minimum operating control measures shall be implemented to ensure systems integrity and mitigate technology-related risks:
 - (1) *Tagging of accounts.* Savings and demand deposits of officers and employees, their spouses and relatives within the second degree of consanguinity and affinity, including partnerships, associations or corporations in which such officers and employees, their spouses and relatives within the second degree of consanguinity and affinity, individually or as a group, own or control at least a majority of the capital shall be tagged in the bank’s current accounts/savings accounts (CA/SA) system;
 - (2) *Monitoring of accounts.* All accounts maintained by officers, employees and said relatives including their business interests shall be monitored by a designated officer who shall be responsible for ensuring that accounts of officers and staff are properly maintained. Any irregularity in the account activity shall be promptly investigated and reported to the appropriate management level;

1 Such as but not limited to the Return ICL containing the dishonored Regular Clearing Item [i.e., electronically generated document showing a Check Image with Electronic Payment Information transmitted via CICS to the Drawee bank for collection of the amount]. ICL is an ANSI standard interface file specifications (X9.100-187) for electronic exchange of check and image data. It is generated by the front-end system of a Presenting Bank or Drawee Bank containing CICS Items transmitted to the Drawee bank or presenting bank, respectively.

- (3) *Access controls.* Access to all data, application software, operating systems and utilities must be restricted to authorized persons through appropriate identification mechanisms and access codes and such authentication and authorization controls must be fully documented and auditable. No officer or employee, regardless of rank or position, shall be allowed to process any transaction from initiation to final authorization;
- (4) *Data capture.* Operating procedures for data capture, update and retrieval must be strictly adhered to. The operating system shall maintain a permanent record of each authenticated user session including every user input; and
- (5) *Audit trails.* Detailed records and audit trails shall be maintained to substantiate the processing of all transactions. Audit trails must be reviewed periodically by a designated officer commensurate with the risk level of the information system. The review process must ensure that the reviewer does not review his/her own activity.

B. SAVINGS DEPOSITS

211 SAVINGS DEPOSIT TRANSACTIONS

Banks are prohibited from issuing/accepting withdrawal slips or any other similar instruments designed to effect withdrawals of savings deposits without requiring the depositors concerned to present their passbooks and accomplishing the necessary withdrawal slips, except for banks authorized by the Bangko Sentral to adopt the no passbook withdrawal system.

The provisions of Item “b” of Sec. 203 shall also apply to withdrawals from savings deposits.

212 PESO SAVINGS DEPOSIT ACCOUNTS OF EMBASSY OFFICIALS

Embassy officials are allowed to open peso savings deposit accounts with Philippine banks: *Provided*, That they submit proof of conversion of foreign currency to peso with Philippine banks.

213 BASIC DEPOSIT ACCOUNT

A *basic deposit account* refers to interest- or non-interest-bearing account designed to promote financial inclusion. This account will enable Filipinos, especially the unserved and underserved, to receive and make payments, as well as have a facility for store of value. It will have the basic functionalities that will characterize ease, accessibility, convenience, and reasonable cost for both banks and customers.

Banks shall be given the liberty to customize their product offerings based on the needs of the identified market: *Provided*, That banks adopt the following minimum key features of a basic deposit account:

Features	
Liberalized customer onboarding	Follows simplified Know-Your Customer (KYC) for low risk customers, wherein identifying the customer and verifying their true identity may be based on any document or information reduced in writing which the covered person deems sufficient to establish customer’s identity as provided under Item “w” of Sec. 904, or other reliable, independent source documents, data, or information.
Opening amount	Not more than P100.00
Minimum maintaining balance	None
Dormancy charges	None
Maximum balance	Not more than P50 thousand; Should the depositor exceed the P50 thousand maximum balance, the bank should convert the basic deposit account to a regular deposit account
Reserve requirement	0%

In offering the basic deposit account, banks shall adopt clearly-defined written policies, procedures and controls to ensure due diligence and compliance with applicable rules and regulations.

(Circular No. 992 dated 01 February 2018)

C. TIME DEPOSITS

216 TERM OF TIME DEPOSITS

Time deposits shall be issued for a specific period of term.

a. *Negotiable Certificates of Time Deposits (NCTDs)*

- (1) UBs/KBs may issue NCTDs without approval of the Bangko Sentral.
- (2) TBs/RBs/Coop Banks may issue NCTDs upon the prior approval of the Bangko Sentral.

b. *Non-Negotiable Certificates of Time Deposit*

Banks may issue long-term non-negotiable tax-exempt certificates of time deposit without approval of the Bangko Sentral.

Prerequisites to issue negotiable certificates of time deposits for thrift banks/rural banks/cooperative banks. In addition to the *Standard Pre-qualification Requirements for the Grant of Banking Authorities* enumerated in *Appendix 5*, a TB/RB/Coop Bank applying for authority to issue NCTDs shall also comply with the following requirements:

- a. Applicant's capital must be at least P150.0 million. For this purpose, capital shall have the same meaning as in Sec. 121; and
- b. It has neither assessment due nor past due obligations with the PDIC.

Requirements for issuing negotiable certificates of time deposits. After a TB's/RB's/Coop Bank's application to issue NCTDs has been approved, it may actually issue the same subject to the following conditions:

- a. Submission of a certification signed by the president/chairman of the board of the bank stating that the requirements enumerated in this Section on Prerequisites to issue negotiable certificates of time deposits have been complied with up to the day before the NCTDs are actually issued to the public; and
- b. That it has complied with all other conditions that the Bangko Sentral may impose.

The applicant bank shall submit a written notice to the appropriate supervising department of the Bangko Sentral of the actual date when the NCTDs are actually issued to the public not later than ten (10) banking days from such issuance.

Minimum features of negotiable certificates of time deposits

- a. *Form; denomination* - NCTDs may be issued in bearer or other form denoting negotiability and shall have a standard format to be prescribed by the Bangko Sentral which shall be prenumbered serially and predenominated. The minimum denomination shall be at the discretion of the issuing bank. No certificate payable to bearer shall contain words prohibiting its negotiation.
- b. *Term* - The minimum maturity of the certificates shall be 731 days.
- c. *Manner of issuance* - The certificates shall be printed on security paper.
- d. *Manner of printing* - NCTDs shall be printed on security paper by the Security Plant Complex (SPC) of the Bangko Sentral.

Orders for the printing of the desired forms shall not exceed a total value equivalent to twenty percent (20%) of the issuing bank's capital accounts (based on the quarter immediately preceding the request for printing) at any one time.

Additional orders for printing which shall result in an excess over the prescribed benchmark shall require prior Bangko Sentral approval.

Insurance coverage. The NCTDs shall be insured with the PDIC. Banks issuing bearer certificates shall imprint on the instrument the following:

"For purposes of deposit insurance by the PDIC, the holder shall have his name registered in the books of the issuing bank."

Desistance from issuing new negotiable certificates of time deposits. Unless authorized by the Bangko Sentral, TBs/RBs/Coop Banks with outstanding NCTDs shall immediately desist from issuing new NCTDs.

All outstanding NCTDs shall be valid and negotiable up to their maturity dates and shall not be subject to renewal.

Sanctions. If any part of the certification submitted by the bank as required in these guidelines is found to be false, the following sanctions shall be imposed, without prejudice to the sanctions under Section 35 of R.A. No. 7653.

a. *On the bank*

Suspension of its authority to issue NCTDs for one (1) year.

b. *On the certifying officer*

A fine of P5,000 per day from the time the certification was made up to the time the certification was found to be false.

Long-term negotiable certificates of time deposit. The following guidelines shall govern the issuance of long-term negotiable certificates of time deposit (LTNCTDs) with a minimum maturity of five (5) years:

- a. *Prior to Bangko Sentral approval.* No LTNCTD shall be issued without the prior approval of the Bangko Sentral.
- b. *Application for authority of the issuing bank.* An application for authority on each issue/issue program of LTNCTD shall be filed with the appropriate supervising department of the Bangko Sentral.

The application shall be signed by the president/country manager (branch of a foreign bank) of the bank. It shall be accompanied by: (i) a certified true copy of the resolution of the bank's board of directors authorizing the issuance of LTNCTD indicating, among others, the issue size, offering period, purpose or intended use of proceeds thereof, registry bank, underwriter/arranger, selling agent(s); and (ii) a Letter of Undertaking (LOU) signed by the president/country manager that the issuing bank will ensure its continuous compliance with the prequalification requirements under Item "(c)1" below up to the time of the last offering of its approved and listed LTNCTDs.

- c. *Pre-qualification requirements.* The issuing bank shall be held accountable for ensuring the continuous compliance by its chosen participant-FIs with the qualification requirements prescribed by the Bangko Sentral. As such, the issuing bank shall make a careful and diligent evaluation of the parties whom it shall engage to act as underwriter/arranger, registry bank and selling agent of its LTNCTDs.

The following qualification requirements shall be strictly complied with prior to and on a continuing basis by the issuing bank and FIs engaged to act as underwriter/arranger, registry bank and selling agent while the LTNCTD of the issuing bank remains outstanding.

(1) *Issuing bank*

A bank applying for authority to issue an LTNCTD shall comply with the following requirements:

- (a) It has complied with the following capital adequacy requirements:
 - (i) Minimum capitalization as defined under Sec. 121; and
 - (ii) Risk-based capital adequacy ratio under Sec. 123 within the sixty (60) days immediately preceding the date of application;
- (b) It has not incurred net weekly reserve deficiencies within eight (8) weeks immediately preceding the date of application;
- (c) It has generally complied with banking laws, rules and regulations, orders or instructions of the Monetary Board and/or Bangko Sentral Management in the last two (2) preceding examinations prior to the date of application, more particularly:
 - (i) The ceilings on credit accommodations to DOSRI;
 - (ii) Liquidity floor requirements for government deposits;
 - (iii) Single borrower's loan limit; and
 - (iv) Investment in bank premises and other fixed assets;
- (d) It maintains adequate provisions for probable losses commensurate to the quality of its asset portfolio but not lower than the required allowance for credit losses as determined by the Bangko Sentral;
- (e) It does not have float items outstanding for more than sixty (60) calendar days in the "Due From/To Head Office/Branches/Offices" accounts and the "Due From Bangko Sentral" account exceeding one percent (1%) of the total resources as of date of application;
- (f) It has no past due obligations with the Bangko Sentral or with any government FI;
- (g) It has established a risk management system appropriate to its operations characterized by clear delineation of responsibility for risk management, adequate risk measurement systems, appropriately structured risk limits, effective internal controls and complete, timely and efficient risk reporting system;
- (h) It has a CAMELS Composite Rating of at least "3" in the last regular examination; and
- (i) It has neither unpaid assessment due nor past due obligations with the PDIC.

(2) *Registry bank*

- (a) It may be a UB, a KB, or such other specialized entity that may be qualified by the Monetary Board; and
- (b) In the case of a UB or a KB:
 - (i) It must be a third party:
 - (aa) with no subsidiary/affiliate relationship with the issuing bank; and
 - (bb) which is not related to the issuing bank in any manner that would undermine its independence.
 - (ii) It must have adequate facilities and the organization to do the following:
 - (aa) Maintain the Electronic Registry Book (ERB);
 - (bb) Deliver transactions within the agreed trading period; and
 - (cc) Issue registry confirmations to holders of LTNCTDs.
 - (iii) It must have a CAMELS Composite Rating of at least “3” in the last regular examination.

(3) *Underwriter/Arranger*

- (a) It is either a UB or an IH: *Provided*, That if an offering is on a best-efforts basis, such arranger may also be a KB.
- (b) A UB/KB or IH that is a related party of the issuing bank, may serve as the underwriter/arranger of the issuance, subject to the following conditions:
 - (i) That there are other third party underwriters/arrangers that are not related in any manner to the issuing bank;
 - (ii) That the objective conduct of the due diligence review is not undermined; and
 - (iii) That the appropriate safeguards and controls as provided under Sec. 136 on related party transactions shall be instituted to prevent conflict of interest on the said arrangement.
- (c) Underwriters must be well capitalized and must have adequate risk management as evidenced by compliance with Items “c(1)(a), (d), (g) and (h)” as may be applicable.

(4) *Selling agent*

It must be an FI with dealership or brokering license.

- d. *Listing of LTNCTD with an accredited exchange.* LTNCTDs duly approved by the Monetary Board shall be issued and immediately listed on an accredited exchange: *Provided*, That banks which opt to issue portions of the approved amount in tranches shall immediately list such tranche issuance: *Provided further*, That if within one (1) year from approval of the Monetary Board, the entire amount of the approved LTNCTDs shall not have been issued, the bank’s authority to issue the unissued portion of the approved amount shall be deemed revoked, and said unissued portion shall no longer be issued.

Banks which fail to list their LTNCTDs on an accredited exchange within the prescribed period shall be subject to the sanctions under Item “p(1)” below.

- e. *Additional requirements for the issuance of LTNCTD.* The following additional requirements shall be submitted to the appropriate supervising department of the Bangko Sentral within ten (10) calendar days after issuance of the initial offering/tranche:
 - (1) Written waiver of the secrecy of deposits on said LTNCTD by the issuing bank, its subsidiaries, affiliates and wholly or majority-owned or controlled entities of such subsidiaries and affiliates;
 - (2) Information disclosure and the terms and conditions of the LTNCTD issuance;
 - (3) Promotional materials; and
 - (4) Specimen of the proposed registry confirmation and purchase advice from each selling agent which will evidence sale of the LTNCTD.

The bank shall, likewise, submit within ten (10) calendar days after issuance of the initial and subsequent tranches, a written notice to the appropriate supervising department of the Bangko Sentral of the actual date of initial/tranche offering.

- f. *Functions/responsibilities of the parties involved.* The respective parties shall have, among others, the following functions/responsibilities:

(1) *Registry bank*

- (a) Generates and maintains the ERB;
- (b) Records any transfer of ownership;
- (c) Issues and sends registry confirmation to holders;
- (d) Functions as paying agent for periodic interest and principal payments; and
- (e) Monitors compliance with the prohibition on holdings of LTNCTD, as prescribed under Item “h” hereof.

(2) *Underwriter/Arranger*

- (a) Conducts due diligence on the issuing bank and determines the valuation/pricing of the primary issue;
- (b) Prepares the prospectus/information disclosure/updates for multi-tranche issues;
- (c) Formulates the distribution/allocation plan for the initial offering and ensures proper and orderly distribution of the primary sale/issue of the LTNCTDs;
- (d) Disseminates information to prospective depositors/investors of LTNCTDs on the terms and conditions of the issue (including information of non-pretermination by the depositor prior to original maturity and the liquidity mechanism in secondary trades) and the rights and obligations of the holder, issuer, selling agent, underwriter/arranger and registry bank; and
- (e) When selling to its clients, it must perform the functions/responsibilities of the selling agent under Items “f(3)(a)” and “(b)”.

(3) *Selling agent*

- (a) Verifies identity of each investor and applies other standards to combat money laundering as required under Sec. 902; and
- (b) Issues the purchase advice for the primary offering of the LTNCTDs.

- g. *Change of underwriter/arranger, registry bank, selling agent(s).* The issuing bank shall notify the appropriate supervising department of the Bangko Sentral in writing of any change in the identity of its registry bank, underwriter/arranger and selling agent within ten (10) calendar days from date of such change.

Said written notice shall state the (i) reasons for the change, (ii) identity of the newly designated FI(s), and (iii) effectivity of the engagement.

- h. *Prohibition on holdings of LTNCTDs¹.* The issuing bank, including its related parties as defined in Section 131, except for its trust department or related trust entities, cannot be a holder of the LTNCTDs issued. The underwriter/arranger that is a related party of the issuing bank may be a holder of the LTNCTDs: *Provided*, That it is part of the underwriting agreement.

The issuing bank shall provide the registry bank with an updated list of all related parties. This report shall be a “Category B” report.

For purposes of this Section, an affiliate is an entity, at least twenty percent (20%) but not exceeding fifty percent (50%) of the outstanding voting stock of which is, owned by the issuing bank.

- i. *Agreements between issuing bank and registry bank/selling agent(s).* The agreements between the issuing bank and the registry bank /selling agents shall comply with the provisions of Sec. 112 on bank service contracts. The issuing bank shall be liable for any damages to investors/depositors caused by actions of said registry bank, selling agent(s) contrary to the agreements entered into.

j. *Minimum features*

- (1) *Form; denomination* - An LTNCTD shall be in scripless form with a third party registry bank maintaining the ERB. To have legal effect, it shall comply with the provisions of R.A. No. 8792 (Electronic Commerce Act) particularly on the existence of an assurance on the integrity, reliability and authenticity of the LTNCTD in electronic form. LTNCTDs shall be registered in the name of individuals or corporations, negotiable and prenumbered serially. The minimum denomination shall be at the discretion of the issuing bank.

- (2) *Currency* - Denomination shall be in Philippine pesos.

1 For further clarification on the prohibition of related entities from holding an issuing bank's LTNCTDs please see Memorandum No. M-2020-001 dated 30 January 2020.

- (3) *Term* - The minimum maturity of the LTNCTDs shall be five (5) years.
 - (4) *Primary Offering/Secondary Trading* - The initial offering shall be executed through an underwriter or an arranger. Subsequent negotiations in secondary trading must be executed through an accredited exchange.
- k. *Purchase Advice and Registry Confirmation*
- (1) The Purchase Advice and Registry Confirmation shall conspicuously contain the following *caveat*:
 - (a) *"This LTNCTD cannot be terminated by the holder nor the Issuing Bank before maturity date. However, negotiations/transfers from one (1) holder to another do not constitute pretermination.*

For tax purposes, negotiations/transfers from one (1) holder to another shall be subject to the pertinent provisions of the National Internal Revenue Code of 1997, as amended and Bureau of Internal Revenue (BIR) regulations."

The *caveat* shall apply if the issuing bank commits no pretermination. Otherwise, it shall read as follows: *"This LTNCTD cannot be terminated by the holder before (maturity date). However, it may be preterminated at the instance of the Issuing Bank upon prior notice to the holder on record. Negotiations/transfers from one (1) holder to another do not constitute pretermination.*

For tax purposes, negotiations/transfers from one (1) holder to another shall be subject to the pertinent provisions of the National Internal Revenue Code of 1997, as amended and BIR regulations"; and
 - (b) *"All negotiations/transfers of this LTNCTD prior to maturity must be coursed through an accredited exchange."*
 - (2) The selling agent shall issue a Purchase Advice to evidence initial purchase of LTNCTD with the original copy given to the holder.
 - (3) The registry bank shall issue a Registry Confirmation to evidence ownership of the LTNCTD, with the original copy given to the holder.
- l. *Deposit insurance coverage.* The LTNCTDs shall be insured with the PDIC, subject to applicable rules and regulations, among others, on maximum insurance coverage.
- m. *Pre-termination by the issuer.* LTNCTDs may be preterminated by the issuing bank, subject to the following conditions:
- (1) The Information Disclosure, Purchase Advice and Registry Confirmation shall include the information that the LTNCTD may be preterminated by the issuing bank;
 - (2) Thirty (30) day prior notification must be given to the appropriate supervising department of the Bangko Sentral together with the justification for the pre-termination;
 - (3) Thirty (30) day prior notification to holders of record;
 - (4) Notwithstanding any agreement to the contrary, the issuer shall shoulder the tax due on the interest income already earned by the holders; and
 - (5) The issuing bank's reserve positions shall be recomputed retroactively based on the applicable reserve rate(s) for regular time deposits during the affected periods.
- If the recomputed amounts result in a reserve deficiency, the issuing bank shall be fined with the corresponding monetary penalties. The preceding monetary penalty, however, shall not be imposed if pretermination by the issuer is due to a change in law or regulation that will increase the cost of maintaining the LTNCTDs.
- n. *Non-pretermination by the holder.* Presentation of the LTNCTD to the issuing bank for payment before the maturity date is not allowed. However, negotiation or transfer from one (1) holder to another shall not constitute pretermination of the LTNCTD. For tax purposes, negotiations/transfers from one (1) holder to another shall be subject to the pertinent provisions of the National Internal Revenue Code of 1997, as amended and BIR regulations.
- o. *Moratorium on issuance of LTNCTD.* Beginning 1 January 2021, there shall be an indefinite moratorium on the issuance of LTNCTDs. LTNCTDs that have been approved but remain unissued as of 31 December 2020 may still be issued: *Provided*, That this is done within the period allowed by the Bangko Sentral: *Provided, further*, That requests for authority to issue LTNCTDs shall only be accepted by the appropriate supervising department of the Bangko Sentral until 30 September 2020. All LTNCTDs issued in accordance with this Section shall remain valid and negotiable until their maturity dates without prejudice to the right of the issuing bank to pre-terminate said LTNCTDs before their maturity dates subject to the conditions set forth under Item "m" of Sec. 217 on the pre-termination by the issuer.

- p. *Sanctions.* Without prejudice to the other sanctions prescribed under Sections 36 and 37 of R.A. No. 7653, as amended by R.A. No. 11211, and the provisions of Section 16 of R.A. No. 8791, the following sanctions will be imposed on Bangko Sentral-supervised FIs for failure to comply with the provisions of this Section and for non-disclosure or misrepresentation of information:

- (1) *On the issuing bank* - Suspension of its authority to issue LTNCTDs, disqualification from future issuance of LTNCTDs and a monetary penalty of P30,000 for each violation.
- (2) *On the registry bank* - Disqualification to be a registry bank for one (1) year and a monetary penalty of P30,000 for each violation.
- (3) *On the selling agents* - Disqualification to be appointed as selling agent for one (1) year and a monetary penalty of P30,000 for each violation.
- (4) *On the certifying officer* - A fine of P5,000 per day from the time of required disclosure up to the time disclosure was made; or from the time misrepresentation was made up to the time the information was corrected.
- (5) *On the responsible officer* - A fine of P30,000 for participating or confirming in the non-disclosure or misrepresentation of information.

FIs not supervised by the Bangko Sentral acting as selling agent of LTNCTDs and/or its directors/officers concerned that are found to violate rules and regulations in the performance of their functions/responsibilities shall be subject to the provisions of Section 36 of R.A. No. 7653, as amended by R.A. No. 11211, and shall, likewise, be referred to the SEC for appropriate action.

Supervisory Enforcement Actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools provided in Sec. 002 to ensure compliance with the provisions of this Section.

Long-term non-negotiable tax-exempt certificates of time deposit. Banks may issue long-term non-negotiable tax-exempt certificates of time deposit without approval of the Bangko Sentral. The issuance of long-term non-negotiable tax-exempt certificates of time deposit shall be governed by the following rules:

a. *Minimum features*

- (1) *Form; denomination* - The certificate shall contain words denoting its non-negotiability and shall be issued by banks only in the name of individuals with denominations in increments of P1,000.00.
- (2) *Term* - The minimum maturity of the certificate shall be five (5) years.
- (3) *Manner of issuance* - The certificate shall be issued only upon receipt of funds equivalent to their face value.
- (4) *Manner of printing* - The certificate shall be printed on security paper.
- (5) *Pre-termination* - In case of pre-termination, the deposit shall be subject to income tax as provided under Section 24(B)(1) of the Tax Reform Act of 1997, as amended by Section 5 of R.A. No. 10963 or Tax Reform for Acceleration and Inclusion (TRAIN), which states that "a final tax shall be imposed on the entire income and shall be deducted and withheld by the depository bank from the proceeds of the long-term deposit or investment certificate based on the remaining maturity thereof:

(a) Four (4) years to less than five (5) years	- 5%
(b) Three (3) years to less than four (4) years	- 12%
(c) Less than three (3) years	- 20%

- b. *Insurance coverage.* The deposits shall be insured with the PDIC, subject to applicable rules and regulations, among others, on maximum insurance coverage.

- c. *Reserves against long-term non-negotiable certificates of time deposit.* The rate and form of required reserves on regular time deposit shall also apply to the required reserves on long-term non-negotiable tax-exempt certificates of time deposit.

(M-2020-001 dated 30 January 2020, Circular Nos. 1062 dated 26 November 2019, 1059 dated 15 November 2019, 890 dated 02 November 2015, and 877 dated 22 May 2015)

218 SPECIAL TIME DEPOSITS

Authority shall be automatically granted to any accredited banking institution which may participate in the supervised credit program to accept special time deposits from the Agrarian Reform Fund Commission with interest lower than the rate allowed on time deposits accepted from the general public. Such deposits shall be exempt from the legal reserve requirements, as an exception to the existing policies on the matter.

D. NEGOTIABLE ORDER OF WITHDRAWAL ACCOUNTS

221 AUTHORITY TO ACCEPT NEGOTIABLE ORDER OF WITHDRAWAL ACCOUNTS

Negotiable Order of Withdrawal (NOW) accounts are interest-bearing deposit accounts that combine the payable on demand feature of checks and investment feature of savings accounts.

A UB/KB may offer NOW accounts without prior authority of the Monetary Board.

A TB/RB/Coop Bank may accept NOW accounts upon prior approval of the Monetary Board.

Prerequisites to accept negotiable order of withdrawal accounts for thrift banks/rural banks/cooperative banks. In addition to the *Standard Pre-qualification Requirements for the Grant of Banking Authorities* enumerated in *Appendix 5*, a TB/RB/Coop Bank applying for authority to accept NOW accounts shall also comply with the following requirements:

- a. The applicant TB must have complied with the minimum capital required under Sec. 121.

In the case of RB/Coop Bank, it must have net assets of at least P5.0 million: *Provided*, That RBs which have been authorized to accept or create NOW accounts prior to the approval of R.A. No. 7353 (Rural Banks Act of 1992) shall be allowed to continue servicing such deposits. The terms *capital* and *net assets* shall have the same meaning as in Sec. 121.

- b. It has neither unpaid assessment due nor past due obligations with the PDIC.

Requirements for accepting negotiable order of withdrawal accounts. After a TB's/RB's/Coop Bank's application to accept NOW account has been approved, it may actually accept the same subject to the following conditions:

- a. Submission of a certification signed by the president/chairman of the board of the bank stating that the requirements enumerated in this Section on Prerequisites to accept negotiable order of withdrawal accounts for thrift banks/rural banks/cooperative banks have been complied with up to the day before the NOW account services are actually offered/extended to the public; and
- b. That it has complied with all other conditions that the Bangko Sentral may impose.

The applicant bank shall submit a written notice to the appropriate supervising department of the Bangko Sentral of the actual date when the NOW account deposit service is offered to the public not later than ten (10) banking days from such offering of the service.

Sanctions. If any part of the certification submitted by the bank as required in these guidelines is found to be false, the following sanctions shall be imposed, without prejudice to the sanctions under Section 35 of R.A. No. 7653:

- a. *On the bank*

Suspension of its authority to accept or create NOW accounts for one (1) year.

- b. *On the certifying officer*

A fine of P5,000 per day from the time the certification was made up to the time the certification was found to be false.

222 MINIMUM FEATURES OF NEGOTIABLE ORDER OF WITHDRAWAL ACCOUNTS

The standards and design of the order of withdrawal form shall be in accordance with the PCHC rules and regulations if said order of withdrawal form is intended to be cleared through PCHC. Otherwise, the minimum features of the pro-forma order of withdrawal shall conform with *Appendix 11*.

(Circular No. 924 dated 07 September 2016)

223 RULES ON SERVICING NEGOTIABLE ORDER OF WITHDRAWAL ACCOUNTS

The following rules shall be observed in servicing NOW accounts:

- a. Prior to or simultaneous with the opening of a NOW account, the bank shall inform the depositor of its terms and conditions;
- b. The bank shall be responsible for the proper identification of its depositors; it shall require, among other things, two (2) specimen signatures and such other pertinent information;

- c. Deposits shall be covered by deposit slips in duplicate duly validated and initialed by the teller receiving the deposit. A copy of the deposit slip shall be furnished the depositor;
- d. NOW accounts shall be kept and maintained separately from the regular savings deposits;
- e. Blank NOW forms shall be prenumbered and shall be controlled as in the case of unissued blank checks;
- f. A bank statement shall be sent to each depositor at the end of each month for confirmation of balances; and
- g. Banks must use the form prescribed by present rules for NOW accounts.

Nothing herein shall be construed as precluding a TB, RB or Coop Bank from applying for authority to accept both demand deposits and NOW accounts.

E. GOVERNMENT DEPOSITS

231 ACCEPTANCE OF GOVERNMENT DEPOSITS

Policy Statement. As a general policy, cash balances of the Government, its political subdivisions and instrumentalities as well as of government-owned or controlled corporations (GOCCs) shall be deposited with the Bangko Sentral, with only minimum working balances to be held by government-owned banks and such other banks incorporated in the Philippines as the Monetary Board may designate: *Provided*, That such banks may be authorized by the Monetary Board to hold deposits of the political subdivisions and instrumentalities of the Government beyond their minimum working balances whenever such subdivisions and instrumentalities have outstanding loans with said banks.

For purposes of this Section:

- a. The term *GOCCs* shall refer to government-owned or controlled corporations which are created by special laws. It shall exclude government FIs such as DBP, LBP and Al-Amanah Islamic Investment Bank of the Philippines, corporations which are created under the provisions of the Corporation Law (Act No. 1459, as amended) or the Corporation Code (BP Blg. 68) and private corporations which are taken over by GOCCs.
- b. *Minimum working balances* shall represent the minimum amounts necessary to enable the government instrumentality/political subdivision making the deposit to transact business efficiently and effectively as determined by the Department of Finance.

Prior Monetary Board approval. No private bank shall, without prior approval of the Monetary Board, accept, as depository, any fund or money from the Government, its political subdivisions and instrumentalities, and GOCCs; nor shall a private bank borrow any fund or money therefrom, through the issuance or sale of its acceptances, notes or other evidences of indebtedness.

Banks which may accept government funds.

- a. Banks, the majority of the capital of which is owned by the Government, may act as depository of funds of the Government, its political subdivisions and instrumentalities, and GOCCs.
- b. Private banks incorporated in the Philippines may act as depository of government funds only with the prior approval of the Bangko Sentral. Local government units may maintain depository accounts preferably in government banks and, in exceptional cases and with the prior approval of the Monetary Board, in the name of their respective government units, in private banks located in or nearest to their respective areas of jurisdiction but the depository bank(s) must also seek the prior approval of the Bangko Sentral: *Provided*, That a TB/RB/Coop Bank may only act as official depository of government funds pursuant to R.A. Nos. 7906, 7353 and 6938, as follows:
 - (1) A TB may only act as official depository of national agencies, and of municipal, city or provincial funds in the municipality, city or province where the TB is located;
 - (2) A RB may only act as official depository of municipal, city or provincial funds in the municipality, city or province where the RB is located; and
 - (3) A Coop Bank may accept deposits of all government departments, agencies and units of the national and local governments including GOCCs.
- c. Where there is no government bank or Bangko Sentral office in the province and the nearest government bank or Bangko Sentral office is inaccessible by ordinary transportation, or transporting/withdrawing the government deposits to and from the said office is impractical or risky, the province, as well as cities and municipalities located therein, may seek approval of the Monetary Board to consider all their funds eligible for deposits with a qualified private depository bank within the province, city or municipality, as the case may be.
- d. Banks acting as official depository of government funds may accept demand, savings or time deposits.

- e. The authority of a bank to accept government deposits does not obligate the Government, its subdivisions and instrumentalities and GOCCs to deposit with that bank. Thus, even if a TB or RB is authorized by the Monetary Board to accept government deposits, a municipality is not obligated to deposit with that TB or RB. Similarly, a bank which is authorized to accept deposits of the Government or a government corporation because of outstanding loans granted by the bank cannot demand as a matter of right that the Government or government corporation make deposits unless there is a stipulation in the loan agreement.

Prerequisites for the grant of authority to accept deposits from the Government and government entities. In addition to the *Standard Pre-qualification Requirements for the Grant of Banking Authorities* enumerated in *Appendix 5*, private banks applying for authority to accept deposits from the Government, its subdivisions and instrumentalities and GOCCs and government banks applying for authority to accept government deposits in excess of minimum working balances shall also comply with the following conditions:

- a. The applicant bank must have complied with the minimum capital required under Sec. 121;
- b. It has neither unpaid assessment due nor past due obligations with the PDIC; and
- c. The bank's CAMELS composite rating in its latest examination is not lower than three (3) with Management component score of not lower than three (3).

Application for authority. An application for authority to accept government deposits shall be signed by the president of the bank and shall be filed with the appropriate supervising department of the Bangko Sentral. The application shall be accompanied by a certification by the bank president or executive vice-president that the bank has complied with all the requirements enumerated in this Section on Prerequisites for the grant of authority to accept deposits from the Government and government entities.

Banks authorized to accept government funds as depository shall continuously comply with the conditions enumerated in this Section on Prerequisites for the grant of authority to accept deposits from the Government and government entities even after the authority to accept government deposits has been granted and during the period while the banks actually hold government deposits, otherwise, any violation may be a basis for the imposition of sanctions against the bank, its directors and officers, or revocation of the authority to accept government deposits.

Deposits maintained by the Government, its subdivisions and instrumentalities and GOCCs shall be supported by the following documents whenever applicable:

- a. A copy of the resolution of the barangay, municipal or city council (Sangguniang Bayan/Panglunsod) or the provincial board (Sangguniang Panlalawigan) authorizing the deposit of municipal, city or provincial funds;
- b. A copy of the resolution of the board of directors of the GOCCs authorizing the deposit of funds of said corporations; or
- c. In case of the National Government, its unincorporated branches, agencies and instrumentalities, a written authority to open deposit accounts and/or deposit government funds signed by the duly authorized official of the Department of Finance/Bureau of the Treasury (DOF/BTr) and of the department, bureau, agency, or office making the deposit.

The resolution or authority should state the name and location of the depository bank, type and terms of the deposit, and that the amount to be deposited represents working balances.

Limits on funds of the Government and government entities that may be deposited with banks.

- a. Funds of the Government, its subdivisions and instrumentalities and GOCCs, deposited with banks authorized to receive deposits shall be limited to the minimum working balance of the depositor.

With prior Monetary Board approval, government or private banks may be authorized to accept amounts in excess of minimum working balances if the Government or government entity making the deposit has outstanding loan obligations to the depository bank but such amounts shall not exceed the amount of its outstanding loan obligations to the depository bank. The amount of non-transferable and non-negotiable government securities with market or below market interest rate at the time of issue, issued by the National Government to the depository bank shall be considered as "outstanding loans" of the National Government to said bank within the meaning of Section 113 of R.A. No. 7653.

- b. The aggregate amount of government funds which a private bank can hold at any given time shall not exceed 200% of the bank's net worth.
- c. Where any director, officer or stockholder of a private bank, as defined under Sec. 341 (*Definitions*), is also an elective or appointive official of a municipality, city or province, said bank is prohibited from accepting deposits from said municipality, city or province unless it is the only bank existing therein: *Provided*, That this provision shall not be construed as a grant of authority to such elective or appointive public official to act as director or officer of a private bank.

Liquidity floor. Unless otherwise prescribed by the Monetary Board, authorized government depository banks other than the Bangko Sentral, and authorized private banks shall, inclusive of the required reserves against deposits and/or deposit substitutes, maintain a fifty percent (50%) liquidity floor with respect to deposits of, borrowings from, and all other liabilities to, the Government and government entities, in the form of transferable government securities which represent direct obligations of the National Government, until 31 December 2017.

Effective 01 January 2018, liquidity floor reserve requirement shall be as follows:

	Required Liquidity Floor	
UBs/KBs	0%	Government deposits and government deposit substitutes shall continue to be subject to the reserve requirements provided under Sec. 251.
For TBs and RBs and Coop Banks	50%	Inclusive of the required reserves against deposits and/or deposit substitutes

Effective 01 January 2019, the liquidity floor reserve requirements shall be as follows:

	Required Liquidity Floor	
For UBs/KBs/TBs/RBs /Coop Banks	0%	Government deposits and government deposit substitutes shall continue to be subject to the reserve requirements provided under Sec. 251

Eligible securities being used as such reserve shall not in any way be encumbered or be subject to any transaction without prior approval of the Bangko Sentral.

Also eligible for liquidity floor are the following:

- a. The free portion of the “Due from Bangko Sentral - Local Currency” after satisfying the legal and other reserve requirements; and
- b. Placement of banks in the Bangko Sentral's Term Deposit Facility, Overnight Deposit Facility, and issued Securities (Bills and Bonds) Facility.

Banks authorized to accept government deposits shall specify in the prescribed reports submitted to the SDC of the Bangko Sentral the balance of government deposits subject to liquidity floor requirement and, if any, the corresponding GS earmarked for subject purpose.

Exempt transactions. The following deposits of, borrowings from and/or liabilities to, the Government and government entities shall be exempt from the liquidity floor:

- a. Obligations to the Bangko Sentral arising from rediscounting facilities and sale of government securities under repo agreements made in connection with the provisions of Sec. 282, and Sec. 601 (Repurchase agreements with Bangko Sentral);
- b. Special time deposits (STDs) and deposit substitutes under the special financing program of the Government and/or international FIs;
- c. Obligations to the Bangko Sentral consisting of emergency advances, overdraft facilities, and those arising from peso swap differentials and supervision and examination fees;
- d. Marginal deposits on importations;
- e. Due to the Treasurer of the Philippines (unclaimed deposit balances);
- f. Funds held by participating financial institutions (PFIs) under the GSIS Housing Loan Programs: *Provided*, That the agreement between GSIS and the conduit banks specify that such funds may be held by the conduit banks for a period of not more than seven (7) calendar days prior to their release to the borrower and prior to the remittance by the conduit banks of payment to the GSIS;
- g. Deposits of the BIR and BOC; and
- h. Any other form of deposits, borrowings and/or liabilities specifically authorized by law or exempted by the Monetary Board.

Reports. Banks shall submit to the appropriate supervising department of the Bangko Sentral a report of their government deposits from all sources in the aggregate in the prescribed form.

Sanctions. Any violation of this Section shall be a ground for the imposition of the following sanctions:

- a. The deposit account with the Bangko Sentral of the bank concerned shall be debited by the Accounting Department of the Bangko Sentral in the amount of the unauthorized deposit or borrowing upon receipt of a report or notice from the appropriate supervising department of the Bangko Sentral and the deposit account of the government institutions with the Bangko Sentral shall be credited for the same amount. A copy of said report or notice of the appropriate supervising department of the Bangko Sentral shall be furnished each to the bank concerned and the government institutions.
- b. The withdrawal of previously granted authority to accept government funds.
- c. Without prejudice to the sanctions under Section 35 of R.A. No. 7653, the following administrative sanctions shall be imposed if any part of the certification as required in this Section is found to be false or misleading:

On the bank - Cancellation of the authority to accept government deposits if one has already been granted and/or disqualification to act as a government depository for not more than one (1) year.

On the certifying officer - A fine of P5,000 per day from the time the certification was found to be false, for each application filed with the Bangko Sentral.

- d. Any bank with deficiency in the required liquidity floor against deposits of, and/or borrowings from, the Government and government entities or with excess holdings of such deposits shall: (1) be denied the credit facilities of the Bangko Sentral; and (2) if the deficiency lasts for four (4) consecutive weeks, the bank shall be prohibited from declaring cash dividends and making new loans and investments, except investments in government securities. The prohibition shall be lifted by the Governor of the Bangko Sentral, upon certification by the appropriate supervising department of the Bangko Sentral that the bank has had no deficiency in its liquidity floor and no excess holdings of government deposits for at least four (4) consecutive weeks.

Acceptance by banks with internet banking facility of payment of fees for account of government entities. Domestic private banks with Bangko Sentral-approved internet banking facility are allowed to accept payment of fees/other charges of similar nature for the account of the departments, bureaus, offices and agencies of the government as well as all GOCCs: *Provided,* That the funds so accepted/collected shall be treated as deposit liabilities subject to existing regulations on government deposits and shall not exceed the minimum working balance of the said government entities.

These banks are required to notify the appropriate supervising department of the Bangko Sentral that supervises the bank, copy furnished the Head of the Technical Working Group on E-Banking, SDC, of the names of the government institutions that will interface with their systems and any changes that may subsequently be made on the arrangements.

(Circular Nos. 1095 dated 08 September 2020, 996 dated 08 February 2018, 946 dated 17 February 2017, and 913 dated 02 June 2016)

F. DEPOSIT SUBSTITUTE OPERATIONS (QUASI-BANKING FUNCTIONS)

241 SCOPE OF QUASI-BANKING FUNCTIONS

The following rules and regulations shall govern the quasi-banking operations of banks.

Elements of quasi-banking. The essential elements of quasi-banking are:

- a. Borrowing funds for the borrower's own account;
- b. Twenty (20) or more lenders at any one (1) time;
- c. Methods of borrowing are issuance, endorsement, or acceptance of debt instruments of any kind, other than deposits, such as acceptances, promissory notes, participations, certificates of assignments or similar instruments with recourse, trust certificates, repurchase agreements, and such other instruments as the Monetary Board may determine; and
- d. The purpose of which is (1) relending, or (2) purchasing receivables or other obligations.

Definition of terms and phrases. The following terms and phrases shall be understood as follows:

- a. *Borrowing* shall refer to all forms of obtaining or raising funds through any of the methods and for any of the purposes provided in this Section on Elements of quasi-banking whether the borrower's liability thereby is treated as real or contingent.

- b. *For the borrower's own account* shall refer to the assumption of liability in one's own capacity and not in representation, or as an agent or trustee, of another.
- c. *Lenders* shall refer to individuals and corporate entities that are not banks, quasi-banks or other financial intermediaries as defined under Sec. 101-Q (*Financial intermediaries*).
- d. *Purchasing of receivables or other obligations* shall refer to the acquisition of claims collectible in money or securities of any amount and maturity from domestic or foreign sources.
- e. *Relending* shall refer to the extension of loans by an institution with antecedent borrowing transactions. Relending shall be presumed, in the absence of express stipulations, when the institution is regularly engaged in lending.
- f. *Regularly engaged in lending* shall refer to the practice of extending loans, advances, discounts or rediscounts as a matter of business, as distinguished from isolated lending transactions.

Transactions not considered quasi-banking. The following shall not constitute quasi-banking:

- a. Borrowing by commercial, industrial and other non-financial companies through any of the means listed under this Section on Elements of quasi-banking, for the limited purpose of financing their own needs or the needs of their agents or dealers; and
- b. The mere buying and selling without recourse of instruments mentioned under this Section on Elements of quasi-banking: *Provided, That*:
 - (1) The institution buying and selling without recourse shall indicate in conspicuous print on its instrument the phrase *without recourse, sans recourse* or words of similar import that will convey the absence of liability or guarantee by said institution; and
 - (2) In the absence of the phrase "*without recourse*", "*sans recourse*" or words of similar import, the instrument so issued, endorsed or accepted, shall automatically be considered as falling within the purview of these regulations: *Provided, further, That* any of the following practices or practices similar and/or tantamount thereto in connection with a without recourse transaction is hereby prohibited:
 - (a) Issuance of postdated checks by a financial intermediary, whether for its own account or as an agent of the debt instrument issuer, in payment of the debt instrument, sold, assigned or transferred without recourse; or
 - (b) Issuance by a financial intermediary of any form of guaranty on sale transactions or on negotiations or assignment of debt instruments without recourse; and
 - (c) Payment with its own funds by a financial intermediary which assigned, sold or transferred the debt instrument without recourse, unless the financial intermediary can show that the issuer has with the said financial intermediary funds corresponding to the amount of the obligation.

Pre-conditions for the exercise of quasi-banking functions. No bank shall engage in quasi-banking functions without authority from the Bangko Sentral: *Provided, however, That* banks authorized by the Bangko Sentral to perform universal or commercial banking functions shall automatically have the authority to engage in quasi-banking functions: *Provided, further, That* the authority to obtain funds from the public, which shall mean twenty (20) or more lenders under existing laws, is not a condition but an authorization for the bank or quasi-bank, once the Monetary Board has granted the quasi-banking license.

In addition to the Standard Pre-qualification Requirements for the Grant of Bank Authorities enumerated in *Appendix 5*, a TB securing Bangko Sentral authority to engage in quasi-banking functions must meet the following requirements:

- a. The bank must have a net worth or combined capital of at least P650.0 million computed in accordance with Sec. 121;
- b. The bank is well capitalized with risk-based capital adequacy ratio of not lower than twelve percent (12%) at the time of filing the application;
- c. The bank's operation during the preceding calendar year and for the period immediately preceding the date of application has been profitable;
- d. The bank has elected at least two (2) independent directors and all its directors have attended the required seminar for directors of banks conducted or accredited by the Bangko Sentral;
- e. The bank has established a risk management system appropriate to its operations characterized by clear delineation of responsibility for risk management, adequate risk measurement systems, appropriately structured risk limits, effective internal controls, and complete, timely and efficient risk reporting system; and

- f. The bank has a CAMELS Composite Rating of at least “3” in the last regular examination with management rating of not lower than “3”.

Certificate of Authority from the Bangko Sentral. A bank securing Bangko Sentral’s Certificate of Authority to engage in quasi-banking functions shall file an application with the appropriate supervising department of the Bangko Sentral. The application shall be signed by the bank president or officer of equivalent rank and shall be accompanied by the following documents:

- a. Certified true copy of the resolution of the bank’s board of directors authorizing the application;
- b. A certification signed by the president or the officer of equivalent rank that the institution has complied with all conditions/prerequisites for the grant of authority to engage in quasi-banking functions;
- c. An information sheet;
- d. Bio-data signed under oath, of the members of the managerial staff who will undertake quasi-banking operations;
- e. Borrowing-investment program for one (1) year which should include at the minimum:

(1) planned distribution of portfolios as to:

- (a) underwriting;
- (b) commercial paper markets;
- (c) stocks and bonds;
- (d) government securities;
- (e) receivables financing, discounting and factoring;
- (f) leasing; and
- (g) direct loans; and

(2) expected sources of funds to support investment program classified as to:

- (a) maturity: short, medium and long- term;
- (b) interest rates; and
- (c) domestic or foreign sources whether institutional or personal.

Sale, discounting, assignment or negotiation by banks of their credit rights arising from claims against the Bangko Sentral to clients. Pursuant to the policy of the Bangko Sentral to promote investor protection and transparency in securities transactions as important components of capital markets development, placements in the Term Deposit Facility (TDF), the Overnight Deposit Facility (ODF) and Reverse Repurchase agreements with the Bangko Sentral, shall not be subject of sale, discounting, assignment or negotiation on a *with or without recourse basis*.

Any violation of the provisions of this Section shall subject the bank and the director/s and/or officer/s concerned to the sanctions provided under Sec. 009.

(Circular Nos. 1061 dated 25 November 2019, 988 dated 20 December 2017, and 913 dated 02 June 2016)

242 DEPOSIT SUBSTITUTE INSTRUMENTS

Any deposit substitute transaction by a bank performing quasi-banking functions shall be limited to its own promissory notes, repurchase agreements, and certificates of assignment/participation with recourse.

Prohibition against use of acceptances, bills of exchange and trust certificates. Acceptances, bills of exchange, and trust certificates shall not be used by banks as evidence of deposit substitute liabilities in connection with their quasi-banking functions. This prohibition shall not apply to the acceptance or negotiation of bills of exchange in connection with trade transactions, or to the issuance of trust certificates creating trust relationships.

Negotiation of promissory notes. Negotiable promissory notes acquired by banks in connection with their quasi-banking functions shall not be negotiated by mere endorsements and/or delivery, if they do not conform with the minimum features prescribed under this Section. If these notes do not contain the features, their negotiation shall be covered by any of the appropriate deposit substitute instruments abovementioned.

Minimum features. Deposit substitute instruments issued by entities performing quasi-banking functions shall have the following minimum features:

- a. The present value and maturity value and/or the principal amount and interest rate and such other information as may be necessary to enable the parties to determine the cost or yield of the borrowing or placement shall be specified.
- b. The date of issuance shall be indicated at the upper right corner of the instrument, and directly below which shall be the maturity period or the word “demand”, if it is a demand instrument.
- c. The payee may be identified by his trust account/deposit account number in both negotiable and non-negotiable instruments.

- d. Securities which are the subject of a repurchase agreement or a certificate of assignment/participation with recourse, shall be particularly described on the face of said instruments or on a separate instrument attached and specifically referred to therein and made an integral part thereof as to the maker, value, maturity, serial number, and such other particulars as shall clearly identify the securities.
- e. The instrument shall provide for the payment of liquidated damages, in addition to stipulated interest, in case of default by the maker or issuer, as well as attorney's fees and costs of collection in case of suit.
- f. A conspicuous notice at the lower center margin of the face of the instrument that the transaction is not insured by the PDIC shall be indicated.
- g. The corporate name of the issuer shall be printed at the upper center margin of the instrument and directly below which shall be a designation of the instrument, such as "*Promissory Note*" or "*Repurchase Agreement*".
- h. The words "*duly authorized officer*" shall be placed directly below the signature of the person signing for the maker or issuer.
- i. Each instrument shall be serially pre-numbered.
- j. The copy delivered to the payee shall bear the word "*Original*" and the copies retained by the issuer shall be identified as "*Duplicate*", "*File Copy*" or words of similar import.
- k. Only security paper with adequate safeguards against alteration or falsification shall be used.

Deposit substitute instruments shall conform to the language prescribed by the Bangko Sentral. Any substantial deviation therefrom or any additional stipulation therein shall be referred to the Bangko Sentral for prior approval. The size and appearance of these instruments shall not be similar to the size and appearance of checks. Rubber stamping, typewriting or handwriting some provisions shall not be considered compliance with said regulations. (Shown in *Appendix 12* are the samples of standardized instruments as evidence of deposit substitute liabilities.)

Delivery of securities

- a. Securities, warehouse receipts, quedans and other documents of title which are the subject of quasi-banking functions, such as repurchase agreements, shall be delivered to a Bangko Sentral accredited securities custodian or an SEC authorized central securities depository in accordance with the guidelines set forth in *Appendix 66*. The securities custodian shall hold the securities in the name of the borrower/seller, but shall keep said securities segregated from the proprietary securities account of the borrower/seller if the borrower/seller has an existing securities account with the custodian: *Provided*, That a bank authorized by the Bangko Sentral to perform custodianship function may not be allowed to be custodian of securities issued or owned by said bank, its subsidiaries or affiliates, or of securities in bearer form.

The delivery shall be effected upon payment and shall be evidenced by a securities delivery receipt duly signed by authorized officers of the custodian and delivered to both the lender/purchaser and seller/borrower.

Sanctions. Violation of any provision of Item "*a*" shall be subject to the following sanctions/penalties:

(1) Monetary penalties

First offense - Fine of P10,000 a day for each violation reckoned from the date the violation was committed up to the date it was corrected.

Subsequent offenses - Fine of P20,000 a day for each violation reckoned from the date the violation was committed up to the date it was corrected.

(2) Other sanctions

First offense - Reprimand for the directors/officers responsible for the violation.

Subsequent offense –

- (a) Suspension for ninety (90) days without pay of directors/officers responsible for the violation;
 - (b) Suspension or revocation of the accreditation to perform custodianship function;
 - (c) Suspension or revocation of the authority to engage in quasi-banking function; and/or
 - (d) Suspension or revocation of the authority to engage in trust and other fiduciary business.
- b. The guidelines to implement the delivery by the seller of securities to the buyer or to his designated securities custodian or central securities depository are shown in *Appendix 66*.

The guidelines on the delivery of government securities to the investor's principal securities account with the Registry of Scripless Securities (RoSS) are in *Appendix 74*.

Sanctions. Without prejudice to the penal and administrative sanctions provided for under Sections 36 and 37, respectively of R.A. No. 7653 (The New Central Bank Act), violation of any provision of the guidelines in *Appendix 73* shall be subject to the following sanctions/penalties depending on the gravity of the offense:

a. *First offense*

- (1) Fine of up to P10,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
- (2) Reprimand for the directors/officers responsible for the violation.

b. *Second offense*

- (1) Fine of up to P20,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
- (2) Suspension for ninety (90) days without pay of directors/officers responsible for the violation.

c. *Subsequent offenses*

- (1) Fine of up to P30,000 a day for the institution for each violation from the date the violation was committed up to the date it was corrected;
- (2) Suspension or revocation of the authority to act as securities custodian and/or registry; and
- (3) Suspension for 120 days without pay of the directors/officers responsible for the violation.

Other rules and regulations governing the issuance and treatment of deposit substitute instruments

- a. If there is any stipulation that payment of the deposit substitute shall be chargeable against a particular deposit account, it shall further provide that the liability of the maker or issuer of the instrument shall not be limited to the outstanding balance of said account.
- b. Any agreement allowing the issuer or maker to substitute the underlying securities shall further provide that the actual substitution shall be with the prior written consent of the payee.
- c. Automatic renewal upon maturity of the instrument may be effected only under terms and conditions previously stipulated by the parties.
- d. Stipulations between the maker or issuer and the payee which are embodied in separate instruments shall be specifically referred to in the deposit substitute instruments and made an integral part thereof.
- e. In the case of repurchase agreements and certificates of assignment/participation with recourse, the stipulation shall clearly state either (1) that the underlying securities are being delivered to the buyer or assignee as collaterals or (2) that the ownership thereof is being transferred to the buyer or assignee.

Repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments. The following regulations shall govern repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments of banks as well as sale on a without recourse basis of said securities by banks with counterparties that meet the definition of lenders under Sec. 241 (*Definition of terms and phrases*).

a. *Proper recording and documentation of repurchase agreements.*

Banks shall have a true and accurate account, record or statement of their daily transactions. As such, repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments must be properly recorded and documented in accordance with existing Bangko Sentral regulations.

The absence of proper documentation for repurchase agreements is tantamount to willful omission of entries relevant to any transaction, which shall be a ground for the imposition of administrative sanctions and the disqualification from office of any director or officer responsible therefor under existing laws and regulations.

b. *Responsibilities of the chief executive officer (CEO) or officer of equivalent rank*

It shall be the responsibility of the CEO or the officer of equivalent rank in a bank to:

- (1) Institute policies and procedures to prevent undocumented or improperly documented repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments;
 - (2) Ascertain and ensure that the bank did not enter into a repurchase agreement covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations and that the bank has strictly complied with the pertinent rules of the SEC and the Bangko Sentral on the proper sale of securities to the public and performed the necessary representations and disclosures on the securities particularly the following:
 - (a) Informed the clients that such securities are not deposits and as such, do not benefit from any insurance otherwise applicable to deposits such as, but not limited to, R.A. No. 3591, as amended, otherwise known as the PDIC law;
 - (b) Informed and explained to the client all the basic features of the security being sold on a without recourse basis, such as but not limited to:
 - (i) issuer and its financial conditions;
 - (ii) term and maturity date;
 - (iii) applicable interest rate and its computation;
 - (iv) tax features (whether taxable, tax paid or tax-exempt);
 - (v) risk factors and investment considerations;
 - (vi) liquidity feature of the instrument:
 - (aa) procedures for selling the security in the secondary market (e.g., OTC or exchange);
 - (bb) authorized selling agents; and
 - (cc) minimum selling lots.
 - (vii) disposition of the security:
 - (aa) registry (address and contact numbers);
 - (bb) functions of the registry; and
 - (cc) pertinent registry rules and procedures.
 - (viii) collecting and paying agent of the interest and principal; and
 - (ix) other pertinent terms and conditions of the security and if possible, a copy of the prospectus or information sheet of the security.
 - (c) Informed the client that pursuant to Secs. 242 (*Delivery of securities*) and 245 (*Delivery of securities*):
 - (i) Securities sold under repurchase agreements shall be delivered in accordance with the guidelines set forth in *Appendix 73*; and
 - (ii) Securities sold on a without recourse basis are required to be delivered in accordance with the guidelines set forth in *Appendix 73*.
 - (d) Clearly stated to the client that:
 - (i) The bank does not guarantee the payment of the security sold on a “without recourse basis” and in the event of default by the issuer, the sole credit risk shall be borne by the client; and
 - (ii) The bank is not performing any advisory or fiduciary function.
 - (3) Report to the appropriate supervising department of the Bangko Sentral any undocumented repurchase agreement within seventy-two (72) hours from knowledge of such transactions.
- c. *Treatment as Deposit Substitutes.* All sales of government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations shall be deemed to be deposit substitutes subject to regular reserves.
- d. *Sanctions.* The Monetary Board may, at its evaluation and discretion, impose any or all of the following sanctions to a bank or the director/s or officer/s found to be responsible for repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations:
- (1) Fine of up to P30,000 a day to the concerned entity for each violation from the date the violation was committed up to the date it was corrected;
 - (2) Suspension of interbank clearing privileges/immediate exclusion from clearing;
 - (3) Suspension of access to Bangko Sentral rediscounting facilities;

- (4) Suspension of lending or foreign exchange operations or authority to accept new deposits or make new investments;
- (5) Revocation of quasi-banking license;
- (6) Revocation of authority to perform trust operations; and
- (7) Suspension for 120 days without pay of the directors/officers responsible for the violation.

Mortgage/chattel mortgage (CHM) certificates of thrift banks (TBs) issued to counterparties that meet the definition of lenders under Sec. 241 (Definition of terms and phrases). With prior approval of the Monetary Board, TBs may issue and deal in mortgage and CHM certificates. The rules and regulations governing the issuance of said certificates are shown in Appendix 14.

(Circular Nos. 1061 dated 25 November 2019, 873 dated 25 March 2015, and 870 dated 20 February 2015)

243 MINIMUM TRADING LOT AND MINIMUM TERM OF DEPOSIT SUBSTITUTE

The minimum size of any single deposit substitute transaction shall be P50,000. No bank performing quasi-banking functions shall issue deposit substitute instruments in the name of two (2) or more persons or accounts except those falling under the following relationships in which cases, commingling may be allowed: (a) husband and wife; (b) persons related to each other within the second degree of consanguinity; and (c) "in trust for" (ITF) arrangements.

244 MONEY MARKET PLACEMENTS OF RURAL BANKS

Banks shall not accept money market placements from any RB unless the latter presents a certification under oath stating: (a) that it has no overdue special time deposits; (b) that it has no past due obligations with the Bangko Sentral or other government financial institutions; (c) the amount of its current obligations, if any, with said government financial institutions; and (d) the amount of its total outstanding money market placements. However, in no case shall such banks sell receivables to RBs without recourse.

Definition of terms. As used in this Section, the following terms shall have the following meanings:

- a. *Money market placements* shall include investments in debt instruments, including purchase of receivables with recourse to the lending institution, except purchase of government securities on an outright basis.
- b. *Government securities* shall include evidences of indebtedness of the Republic of the Philippines, the Bangko Sentral and other evidences of indebtedness or obligations of government entities the servicing and repayment of which are fully guaranteed by the Republic of the Philippines.
- c. *Persistent violation* shall mean the violation of any of the provisions of these rules by the director or officer concerned for four (4) or more times within a 12-month period from the date the first offense was committed.

Conditions required on accepted placements not covered by prohibition. Placements accepted which are otherwise not covered by the above prohibition must comply with the following conditions:

- a. That total money market placements of an RB as stated in the certification, including the placement being accepted by the entity concerned, shall not exceed the RB's combined capital accounts or net worth less current obligations with the Bangko Sentral or other government financial entities;
- b. The maturity of the money market placement shall not exceed sixty (60) days; and
- c. That placements shall be evidenced in all cases by promissory notes of accepting entities/repurchase agreements and/or certificates of participation/assignment with recourse and that underlying instruments shall be certificates of indebtedness issued by the Bangko Sentral or other government securities the servicing and repayment of which are guaranteed by the Republic of the Philippines.

Sanctions. Violations of the provisions of this Section shall be subject to the following sanctions/penalties:

- a. *Monetary penalties*

First offense - Fines of P3,000 a day, reckoned from the date placement started up to the date when said placement was withdrawn, for each violation shall be assessed on the bank.

Subsequent offenses - Fines of P5,000 a day, reckoned from the date placement started up to the date placement was withdrawn, for each violation shall be assessed on the bank.

- b. *Other sanctions*

First offense - Reprimand for the directors/officers who approved the acceptance/placement with a warning that subsequent violations will be subject to more severe sanctions.

Subsequent offenses –

- (1) Suspension for ninety (90) days without pay for directors/officers who approved the placement.
- (2) Suspension or revocation of the authority to engage in quasi-banking functions.

245 WITHOUT RECOURSE TRANSACTIONS

No bank shall sell, discount, assign, or negotiate, in whole or in part, such as thru syndications, participations and other similar arrangements, any notes, receivables, loans, debt instruments and any type of financial asset or claim, except government securities, or be a party in any capacity in any of the above transactions, on a without recourse basis unless such receivables, notes, loans, debt instruments and financial assets or claims are registered with the SEC. This prohibition includes transactions between a bank and its trust department.

Unregistered commercial papers may be sold, discounted, assigned, or negotiated by banks to the following:

- a. other banks;
- b. QBs;
- c. IHs;
- d. insurance companies;
- e. finance companies;
- f. investment companies;
- g. pension or retirement plan maintained by the government of the Philippines or any political subdivision thereof or managed by a bank or other persons authorized by the Bangko Sentral to engage in trust functions;
- h. funds managed by another bank or other entities duly authorized to engage in trust or other fiduciary business; and
- i. such other person as the SEC may by rule determine as qualified buyers, on the basis of such factors as financial sophistication, net worth, knowledge, and experience in financial and business matters, or amount of assets under management.

Delivery of securities

- a. Securities sold on a without recourse basis allowed under this Section shall be delivered directly to the purchaser or to the purchaser's designated Bangko Sentral accredited securities custodian or SEC authorized central securities depository in accordance with the guidelines set forth in *Appendix 73*. The securities custodian shall hold the securities in the name of the buyer: *Provided*, That a bank authorized by the Bangko Sentral to perform custodianship function or an SEC-authorized central securities depository may not be allowed to be custodian/depository of securities issued or sold by said custodian or central securities depository, by entities belonging to the same financial conglomerate or banking group as that of the custodian or depository, or of securities in bearer form.

The delivery shall be effected upon payment and shall be evidenced by a securities delivery receipt duly signed by the authorized officer of the custodian/central securities depository and delivered to the purchaser.

Sanctions. Violation of any provisions of Item "a" shall be subject to the following sanctions/penalties:

(1) *Monetary penalties*

First offense - Fine of P10,000 a day for each violation reckoned from the date the violation was committed up to the date it was corrected.

Subsequent offenses - Fine of P20,000 a day for each violation reckoned from the date the violation was committed up to the date it was corrected.

(2) *Other sanctions*

First offense - Reprimand for the directors/officers responsible for the violation.

Subsequent offense –

- (a) Suspension for ninety (90) days without pay of directors/officers responsible for the violation;
- (b) Suspension or revocation of the accreditation to perform custodianship function;

- (c) Suspension or revocation of the authority to engage in quasi-banking function; and/or
 - (d) Suspension or revocation of the authority to engage in trust and other fiduciary business.
- b. The guidelines to implement the delivery by the seller of securities to the buyer or to his designated securities custodian or central securities depository are shown in *Appendix 73*.

The guidelines on the delivery of government securities to the investor's principal securities account with the RoSS are in *Appendix 74*.

Sanctions. Violation of any provision of the guidelines in *Appendix 73* shall be subject to the sanctions/penalties under Sec. 242 (*Delivery of securities*, Item "b").

Sanctions. Unless specific sanctions are prescribed under these rules, any violation of the provisions of this Section shall be subject to any or all of the following sanctions:

- a. Suspension of quasi-banking authority for a period of six (6) months; and
- b. Monetary penalty of P500 per day per transaction for each officer of the bank involved in any capacity in any transaction violative of these regulations.

(Circular No. 873 dated 25 March 2015)

246 ISSUANCE OF BONDS AND COMMERCIAL PAPERS

All banks with quasi-banking authority issuing bonds or commercial papers to counterparties that meet the definition of lenders under Sec. 241 shall comply with Republic Act No. 8799 or the Securities Regulation Code (SRC) and its Implementing Rules and Regulation, and other applicable rules and regulations issued by the Securities and Exchange Commission (SEC). A bank may issue bonds and/or commercial papers without prior Bangko Sentral approval: *Provided*, That it meets the following prudential criteria as described in Sec. 111 (*Prudential criteria*):

- a. The bank must have a CAMELS composite rating of at least "3" and a "Management" rating of not lower than "3";
- b. The bank has no major supervisory concerns in governance, risk management systems, and internal controls and compliance system; and
- c. The bank has complied with directives and/or is not subject of specific directives and/or enforcement actions by the Bangko Sentral.

Provided, further, That bonds issued are enrolled and/or traded in a market which is organized in accordance with the SEC rules and regulations.

Notice to the Bangko Sentral ng Pilipinas. Within five (5) banking days from approval by the bank's board of directors of the bond/commercial paper issuance, the bank shall submit the following documents to the appropriate supervising department of the Bangko Sentral :

- a. Notification letter signed by the president or officer of equivalent rank, indicating the amount and the terms of the bond/commercial paper issuance. The letter shall also include the funding plan of the bank in the next three (3) years considering its strategic direction and business model. The funding plan, at the minimum, shall contain how the planned issuance factors into the funding plan;
- b. Secretary's certificate on the approval of the board of directors on the bond/commercial paper issuance;
- c. Certification signed by the bank's president or officer of equivalent rank and chief compliance officer, that the bank has complied with the prudential criteria as provided in this Section, and the relevant requirements of the SRC and other pertinent rules and regulations of the SEC; and
- d. Written Undertaking to enroll and/or trade the bonds in a market which is organized in accordance with SEC rules and regulations.

Other Guidelines. A UB/KB or IH that is a related party of the issuing bank, may serve as the underwriter/arranger of the issuance, subject to the following conditions:

- a. That there are other third party underwriters/arrangers that are not related in any manner to the issuing bank;
- b. That the objective conduct of the due diligence review is not undermined; and
- c. That the appropriate safeguards and controls as provided under Sec. 136 on related party transactions shall be instituted to prevent conflict of interest on the said arrangement.

Prohibition on Issuing Banks and Their Related Entities¹. The issuing bank, including its related parties as defined in Sec. 131, except for its trust department or related trust entities, are prohibited from holding or acting as market makers of the bank's listed/traded bonds or commercial papers (CP). The underwriter/arranger that is a related party of the issuing bank may be a holder of the bonds or CPs: *Provided*, That it is part of the underwriting agreement. The registry bank shall likewise be a third party with no subsidiary/affiliate relationship with the issuing bank, and which is not related to the issuing bank in any manner that would undermine its independence.

Enforcement Action. Consistent with Sec. 002 (*Supervisory enforcement policy*), the Bangko Sentral may deploy enforcement actions to promote compliance with the requirements set forth in this Section and ensure timely implementation of preventive or corrective measures as needed. As part of its enforcement actions, the Bangko Sentral may issue directives or impose sanctions which limit the level of or suspend any business activity that adversely affects the safety and soundness of a bank.

(M-2020-001 dated 30 January 2020, Circular No. 1062 dated 26 November 2019, 1061 dated 25 November 2019, and 1010 dated 09 August 2018)

G. RESERVES AGAINST DEPOSITS AND DEPOSIT SUBSTITUTE LIABILITIES

251 ACCOUNTS SUBJECT TO RESERVES; AMOUNTS REQUIRED

The following rules and regulations shall govern the reserves against deposit and deposit substitute liabilities.

Required reserves against deposit and deposit substitute liabilities. The rates of required reserves against deposit and deposit substitute liabilities in local currency of banks effective reserve week 31 July 2020 shall be as follows:

Reservable Liabilities	UBs/KBs	TBs	RBs/Coop Banks
a. Demand Deposits	12%	3%	2%
b. NOW Accounts	12%	3%	2%
c. Savings Deposits (excluding basic deposit accounts)	12%	3%	2%
d. Time Deposits, Negotiable CTDs, Long-Term Non-Negotiable Tax Exempt CTDs	12%	3%	2%
e. Long-term Negotiable Certificates of Time Deposits	4%	4%	4%
f. Deposit Substitutes (DS)	12%	3%	NA
g. Bonds	3%	3%	NA
h. Mortgage/CHM cert.	NA	6%	NA
i. Peso deposits lodged under Due to foreign banks	12%	NA	NA
j. Peso deposits lodged under Due to Head Office/Branches/Agencies Abroad (Philippine branch of a foreign bank)	12%	NA	NA
k. Basic deposit accounts, as defined in Sec. 213	0%	0%	0%

Items "i" and "j" refer to peso deposits, except those utilized as capital of foreign banks (including Head Office/Branches/Agencies abroad of local branches of foreign banks) booked under the "Due to Foreign Banks" and "Due to Head Office/Branches/Agencies Abroad" accounts as provided under Sec. 172 (*Adoption of the Manual of Accounts*), as amended.

(Circular Nos. 1092 dated 27 July 2020, 1082 dated 31 March 2020, 1063 dated 3 December 2019, 1061 dated 25 November 2019, 1056 dated 22 October 2019, 1054 dated 11 October 2019, 1041 dated 28 May 2019, 1004 dated 24 May 2018, 997 dated 15 February 2018, and 992 dated 01 February 2018)

252 COMPOSITION OF RESERVES

Composition of required reserves. The required reserves shall be kept in the form of deposits maintained by banks in the demand deposit account (DDA) with the Bangko Sentral.

Transitory provisions. Government securities which are used as compliance with the regular and/or liquidity reserve requirement as of 06 April 2012, shall continue to be eligible as compliance with the reserve requirement until they mature.

For purposes of this Section, government securities which may form part of the reserves against deposits/deposit substitute liabilities of banks shall refer to bonds or other evidences of indebtedness representing direct obligations of the Government of the Republic of the Philippines: *Provided*, That such securities shall have the following minimum features/conditions:

- The securities must bear an interest rate of not more than four percent (4%) per annum, must be non-negotiable and shall carry Bangko Sentral support;

¹ For further clarification on the prohibition of related entities from holding an issuing bank's/QB's listed/traded bonds or commercial papers please see Memorandum No. M-2020-001 dated 30 January 2020.

- b. The amount, maturity date and rate of interest must be definite and stated in the certificate itself; and
- c. The government securities may not be hypothecated or encumbered in any way or earmarked for any other purpose.

The government securities held as reserves shall be valued at cost of acquisition and the bank may freely alter its composition: *Provided*, That any substitution or acquisition satisfies the eligibility requirements prescribed above: *Provided, further*, That the bank notifies the Bangko Sentral of any such change in the prescribed forms not later than the reporting day following the change.

Only the buying/lending bank in a resale agreement covering eligible government securities may use such securities as reserves against deposits/deposit substitutes. Conversely, the selling/borrowing bank in a repo agreement covering eligible government securities may not use such securities as reserves against deposits/deposit substitutes.

The reserve eligibility of government securities used as collateral in the reverse repo operations of the Bangko Sentral shall be suspended during the term of the reverse repo agreement.

The phrase *non-reserve eligible* shall be stamped on the face of the custodian receipt being issued by the Bangko Sentral to buyer FIs.

Allowable drawings against reserves. Deposit with the Bangko Sentral to comply with reserve requirements are not regular current accounts. The use, therefore, of Bangko Sentral checks for drawings against reserve deposits shall be limited to (a) settlement of obligations with the Bangko Sentral, and (b) withdrawals to meet cash requirements.

Exclusion of uncleared checks and other cash items. COCIs which have not been cleared yet through the Clearing Office should not be debited to the account *Due from the Bangko Sentral* and should not be considered as available reserves against deposit/deposit substitute liabilities. Such items shall be debited to the COCIs account.

Only after the COCIs have been cleared through the Clearing Office can the bank debit the *Due from the Bangko Sentral* account for said items.

Interest income on reserve deposits. Deposits maintained by banks with the Bangko Sentral in compliance with the reserve requirement shall no longer be paid interest effective 06 April 2012.

Book entry method for reserve securities. In the implementation of the book entry system for transactions in government securities eligible for reserves, transactions concerning reserve-eligible securities shall be entered in the respective securities account of each bank with the Bangko Sentral and shall be evidenced by securities account debit or credit advices to be promptly furnished the institution/s concerned. No certificate shall be issued for any purpose. Transactions with third parties other than the Bangko Sentral shall not be recognized.

Allowable modes of alternative compliance. The following alternative modes of compliance with the required reserves against deposit and deposit substitute liabilities shall be allowed:

- a. Peso-denominated loans that are granted to micro-, small- and medium enterprise (MSMEs), as defined under Sec. 332 (*Definition of Terms*), excluding banks and NBQBs that meet the definition of a small- and medium enterprise, subject to the following conditions:
 - (1) The MSME loan was granted after 15 March 2020: *Provided*, That if such MSME loan becomes past due or non-performing, as defined under Sec. 304, it is no longer eligible as an alternative mode of compliance with the reserve requirements, except if such MSME loan has been subsequently renewed/restructured by the bank in accordance with existing regulations. Notwithstanding this provision, a bank may continue to utilize said past due or non-performing MSME loan as alternative compliance with the reserve requirements for an additional thirty (30) calendar days from the date the loan becomes past due or non-performing, whichever comes earlier;
 - (2) An MSME loan that was granted on or before 15 March 2020 but has been renewed or restructured after 15 March 2020 may be used as alternative compliance with the reserve requirements: *Provided*, That the bank demonstrates an increase in its MSME loan portfolio during the month preceding the reserve day. For purposes of determining the increase in the bank's MSME loan portfolio, the bank shall exclude accrued interest and accumulated charges which have been capitalized or made part of the principal of restructured MSME loans; and
 - (3) The MSME loan is not hypothecated or encumbered in any way or rediscounted with the Bangko Sentral or earmarked for any other purpose.

For purposes of computing the reserve position of the current reserve day, qualified MSME loans shall be based on amounts reported as of one (1) banking day prior to the current reserve day. The MSME loans shall be valued at amortized cost, gross of allowance for credit losses, but shall exclude amounts equivalent to accrued interest and accumulated charges which have been capitalized or made part of the principal of restructured MSME loans.

The use of MSME loans as allowable alternative compliance with the reserve requirement shall be available to banks from 24 April 2020 to 29 December 2022, subject to early closure of the eligibility window by the Monetary Board, if warranted and with prior notice.

- b. Peso-denominated loans that are granted to large enterprises, excluding banks and NBQBs that meet the definition of a large enterprise, subject to the following conditions:
 - (1) The loan to the large enterprise was granted after 15 March 2020: *Provided*, That a loan to a large enterprise that becomes past due or non-performing, as defined under Sec. 304, is no longer eligible as an alternative mode of compliance with the reserve requirements, except if such loan to a large enterprise has been subsequently renewed/restructured by the bank in accordance with existing regulations. Notwithstanding this provision, a bank may continue to utilize said past due or non-performing loan to a large enterprise as alternative compliance with the reserve requirements for an additional thirty (30) calendar days from the date the loan becomes past due or non-performing, whichever comes earlier;
 - (2) A loan to a large enterprise that was granted on or before 15 March 2020 but has been renewed or restructured after 15 March 2020 may be used as alternative compliance with the reserve requirements: *Provided*, That the bank demonstrates an increase in its loan portfolio to large enterprises during the month preceding the reserve day. For purposes of determining the increase in the bank's loan portfolio to large enterprises, the bank shall exclude accrued interest and accumulated charges which have been capitalized or made part of the principal of restructured loans to large enterprises; and
 - (3) The loan to a large enterprise is not hypothecated or encumbered in any way, or rediscounted with the Bangko Sentral or earmarked for any other purpose.

For purposes of computing the reserve position of the current reserve day, qualified loans to a large enterprise shall be based on amounts reported as of one (1) banking day prior to the current reserve day. The loans to large enterprises shall be valued at amortized cost, gross of allowance for credit losses, but shall exclude amounts equivalent to accrued interest and accumulated charges which have been capitalized or made part of the principal of restructured loans to large enterprises.

For purposes of determining compliance with the provisions in this Section, a large enterprise shall refer to a sole proprietorship, partnership, corporation or cooperative that meets all of the following criteria:

- a. It does not belong to a conglomerate structure;
- b. It has an asset size (less land) of more than P100 million and an employment size of 200 employees or more; and
- c. It is a critically-impacted business enterprise that has been directly and adversely impacted by the Covid-19 outbreak such that it has experienced a significant decline in gross receipts for at least one calendar quarter and is generally unable to pay or perform its obligations as they fall due in the ordinary course of business, or as determined by the appropriate regulatory agency/ies, if applicable. A significant decline in gross receipts shall refer to at least a twenty five percent (25%) decline in gross receipts for one calendar quarter. A critically-impacted business shall include the transport industry, tourism industry and export-import industry but shall exclude banks and other financial institutions under the supervision of the Bangko Sentral.

The use of loans to a large enterprise as allowable alternative compliance with the reserve requirements shall be available to banks from 29 May 2020 to 29 December 2022, subject to early closure of the eligibility window by the Monetary Board, if warranted and with prior notice.

The reporting of MSME loans and loans to large enterprises that are utilized as alternative compliance shall be subject to the provisions of Sec. 171. The willful making of a false or misleading statement shall subject the bank and the directors/officers responsible for the violation to the sanctions prescribed under Sections 35 and 37 of Republic Act (R.A.) No. 7653 (The New Central Bank Act), as amended by R.A. No. 11211

(Circular nos. 1100 dated 8 October 2020, 1087 dated 27 May 2020, and 1083 dated 22 April 2020)

253 EXEMPTIONS FROM RESERVE REQUIREMENTS

The following shall be exempt from reserve requirements:

- a. All collections credited to the special account "*Due to Bangko Sentral - Internal Revenue Account (Other Cities and Municipalities)*";
- b. STDs from the Agrarian Reform Fund Commission and special savings deposits from farmer-borrowers; and

- c. Unclaimed balances of deposit liabilities already reported to the Treasurer of the Philippines in accordance with the Unclaimed Balances Act (Act No. 3936, as amended) and transferred/reclassified from the deposit liability/other credit accounts to the liability account “*Due to the Treasurer of the Philippines.*”

Local banks may deduct from the amount of their gross demand deposits, the total of their *Due from Local Banks - Demand and Due from PNB - Clearing* in an amount not exceeding the total of their *Demand Deposits-Banks and Due to Local Banks*. As used herein, the term *gross demand deposits* shall mean the sum of all individual deposits, including deposits made by other local banks, the Philippine Government, its political subdivisions and instrumentalities, and GOCCs.

254 COMPUTATION OF RESERVE POSITION

The reserve position of any bank and the penalty on reserve deficiency shall be computed based on a seven (7)-day week, starting Friday and ending Thursday, including Saturdays, Sundays, public special/legal holidays, non-banking days or declared half-day holidays and days when there is no clearing: *Provided*, That with reference to public special/legal holidays, non-banking days, unexpected declared non-banking days, declared half day holidays and days when there is no clearing, the reserve position as calculated at the close of the business day immediately preceding such public special/legal holidays, non-banking days and unexpected declared non-banking days and declared half-day holidays and days when there is no clearing, shall apply thereon. For this purpose, the principal office in the Philippines and all other banking offices located therein shall be treated as a single unit.

The guidelines on the computation of a banks’ reserve position during Philippine holiday are shown in *Appendix 88*.

Measurement of reserve requirement and alternative modes of compliance. The required reserves and the alternative modes of compliance with the required reserves in the current period (reference reserve week) shall be computed based on the corresponding levels of deposit and deposit substitute liabilities of the prior week.

(Circular Nos. 1087 dated 27 May 2020, 1043 dated 2 August 2019, 893 dated 23 November 2017, and 890 dated 02 November 2015)

255 RESERVE DEFICIENCIES; SANCTIONS

Whenever the reserve position of any bank computed in the manner specified in Sec. 254 is below the required minimum, it shall pay the Bangko Sentral one-tenth of one percent (1/10 of 1%) per day on the amount of the deficiency or the prevailing ninety-one (91) day T-Bill rate plus three (3) percentage points, whichever is higher: *Provided, however*, That a bank shall be permitted to offset any reserve deficiency occurring one (1) or more days of the week covered by the report against excess reserves which it may hold on other days of the same week, and shall be required to pay the penalty only on the average daily net deficiency during the week¹.

In case of abuse, a bank shall automatically lose the privilege of offsetting reserve deficiency in the aforesaid manner until such time that it maintains its daily reserve position at the required minimum for at least two (2) consecutive weeks.

As used in this Section, “*abuse*” in the privilege of offsetting reserve deficiencies against excess reserves shall mean having reserve deficiencies occurring four (4) or more times during any given week for two (2) consecutive weeks, whether or not resulting in net weekly deficiencies.

Chronic reserve deficiency; penalties. In cases where the bank has chronic reserve deficiency in deposit/deposit substitute liabilities, the bank shall be denied the credit facilities of the Bangko Sentral; and the Monetary Board may:

- limit or prohibit the making of new loans or investments by the bank; and
- prohibit the declaration of cash dividends. The board of directors of said bank shall be notified of such chronic reserve deficiency and the penalties therefor, and be required to immediately correct the reserve position of the bank.

As used in this section, “*chronic reserve deficiency*” shall mean having net reserve deficiencies for two (2) consecutive weeks.

Failure to cover overdrawings with the Bangko Sentral. Any bank is allowed to incur an overdrawing in its deposit account with the Bangko Sentral shall fully cover said overdraft not later than the next clearing day including interest thereon equivalent to one-tenth of one percent (1/10 of 1%) per day or the prevailing ninety-one (91) day T-Bill plus three (3) percentage points, whichever is higher. In case a bank fails to cover its overdrawings, it shall be excluded from clearing on such day and it shall also be denied the credit facilities of the Bangko Sentral. Such exclusion from clearing shall continue for as long as it has not maintained credit balances with the Bangko Sentral for at least five (5) consecutive banking days. If its clearing account is overdrawn for at least five (5) consecutive banking days, it shall be prohibited from (a) making new loans or investments, except investment in government securities with Bangko Sentral support; (b) declaring cash dividends until it has maintained credit balances in its Bangko Sentral clearing account for at least fifteen (15) consecutive banking days; and (c) establishing branches. The denial from availing of credit facilities of the Bangko Sentral shall continue for as long as the bank has not maintained credit balances with the Bangko Sentral for at least fifteen (15) consecutive banking days.

¹ See *Appendix 99* on Regulatory Relief for Banks Affected by Calamities.

For purposes of computing the total available reserves against deposit/deposit substitute liabilities, the total amount of overdrawn in the clearing account with the Bangko Sentral shall be deducted from available reserves after the required reserves against deposit/deposit substitute liabilities shall have been satisfied.

Payment of penalties on reserve deficiencies. Penalties if unpaid within fifteen (15) days from receipt of the assessment shall be charged against the demand deposit accounts of banks with the Bangko Sentral: *Provided*, That where the bank's credit balance is insufficient and it fails to settle the assessment, the Monetary Board may limit or prohibit the making of new loans or investments by the bank.

(Circular No. 903 dated 29 February 2016, M-2015-039 dated 04 November 2015, Circular No. 890 dated 02 November 2015, M- 2015-035 dated 07 October 2015, M-2015-009 dated 28 January 2015, and M-2015-005 dated 20 January 2015)

256 REPORT ON COMPLIANCE

Every bank shall make a weekly report to the Bangko Sentral of its daily required and available reserves on deposit/deposit substitute liabilities in the prescribed forms.

H. INTEREST AND FEES

261 INTEREST ON DEPOSITS/DEPOSIT SUBSTITUTES

Demand, savings, NOW accounts, time deposits and deposit substitutes shall not be subject to interest ceilings.

Time of payment of interest on time deposits/deposit substitutes. Interest or yield on time deposit/deposit substitute may be paid at maturity or upon withdrawal or in advance: *Provided, however*, That interest or yield paid in advance shall not exceed the interest for one (1) year.

Treatment of matured time deposits/deposit substitutes. A time deposit not withdrawn or renewed on its due date shall be treated as a savings deposit and shall earn interest from maturity to the date of actual withdrawal or renewal at a rate applicable to savings deposits.

A deposit substitute instrument not withdrawn or renewed on its maturity date shall from said date become payable on demand and shall earn an interest or yield from maturity to actual withdrawal or renewal at a rate applicable to a deposit substitute with a maturity of fifteen (15) days.

Banks performing quasi-banking functions shall continue to consider matured and unwithdrawn deposit substitutes as such and subject to reserves.

262 DISCLOSURE OF EFFECTIVE RATES OF INTEREST

Banks are required to disclose to depositors the following information on interest computation and payments:

- a. Type/kind of deposit;
- b. Nominal rate of interest and period covered;
- c. Manner of interest payment, i.e., whether credited in advance or otherwise;
- d. Basis of interest payment, i.e., whether based on average daily balance compounded quarterly or otherwise;
- e. Effective rate of interest expressed as a simple annual rate, on the basis of the information above given and indicating the formula used to arrive at the effective rate of interest; and
- f. Illustration of basis of computing interest on a hypothetical deposit account.

Copies of the abovementioned information shall be made available to each and every depositor by attaching these copies to savings deposit passbooks and time deposit certificates.

Posters disclosing the above information and aggregate deposit rates shall also be displayed conspicuously within the bank premises.

263 FEES ON RETAIL BANK PRODUCTS/SERVICES¹

Pursuant to the consumer protection principle of fair treatment, a bank's board of directors shall adopt a policy on the imposition of any fee on its retail products/services. The policy shall cite the basis for the imposition of fees and rationalize the fee structure/amount.

¹ Effective 25 April 2017

Fees on deposit accounts

- a. **Maintenance Fee.** Banks may impose maintenance fees on a deposit account, whether active or dormant, subject to the following conditions:
 - (1) The required minimum monthly average daily balance (ADB), as well as the imposition and the rate/amount of maintenance fee, are properly disclosed among the terms and conditions of the deposit;
 - (2) The deposit account balance has fallen below the required minimum monthly ADB for at least two (2) consecutive months; and
 - (3) Banks must ensure that clients are notified of any change in the required minimum monthly ADB and amount of dormancy fee at least sixty (60) days prior to implementation.
- b. **Dormancy Fee.** Banks may only impose dormancy fee on a dormant deposit account five (5) years after the last activity therein: *Provided, That:*
 - (1) The balance falls below the minimum monthly ADB, if any;
 - (2) The monthly dormancy fee shall not exceed thirty pesos (P30.00); and
 - (3) The bank complied with the two (2) notice requirement under Items “7.b.(2)” and “7.b.(4)”, Appendix 117, prior to the charging of dormancy fees.

Additional disclosure requirements. Banks shall post fees/charges in readable font size at the following places:

- a. Automated Teller Machine (ATM) transaction fees at the ATM’s on-screen messages¹; and
- b. Fees and charges on all retail bank products/services such as deposit, remittance and loan, on the bank’s official website and at a conspicuous place within the premises of all banking units.

Amendments to terms and conditions of retail bank products and services. Clients should be notified at least sixty (60) days prior to implementation of any amendments to the terms and conditions of retail bank products and services by public notice. Public notice may take the form of posting in public places, such as the bank’s official websites and/or at a conspicuous place within the premises of all banking units.

Changes in deposit interest rate, however, may be immediately effected after the public notice.

Complementary individual notices to a client shall be sent if the amendments pertain to or will result to fees to be paid or charged on the account of the client.

Clients who do not agree with the new/revised terms and conditions have the right to exit the contract without penalty: *Provided, That* such right is exercised within thirty (30) days from receipt of individual notice or thirty (30) days from issuance of public notice.

Individual notifications. Individual notifications shall be sent to the client’s last known postal address/e-mail address/contact number either through postal or registered mail, courier delivery, electronic mail, text messages, telephone calls or other alternative modes of communication, as may be elected by the client.

Non-waiver by contractual provisions. The provisions of Sec. 263 (Amendments to terms and conditions of retail bank Products and Services) shall apply, notwithstanding any contrary provisions in the terms and conditions.

(Circular No. 928 dated 24 October 2016)

I. DEPOSIT OPERATIONS

271 BOOKING OF DEPOSITS AND WITHDRAWALS

The following regulations shall govern the booking of deposits and withdrawals of banks.

1 The lifting of the moratorium on ATM fees shall be subject to the following:

1. Each participating BSFI shall file a letter request with the Bagko Sentral indicating their proposed ATM fees as well as the costs currently incurred by the BSFI with respect to its ATM activities;
2. Costs declared should be clear and adequately supported, such that when deemed necessary, the same may be validated by the Bangko Sentral onsite;
3. Setting of fees, including convenience fees, shall adhere to the pricing principles provided under Bangko Sentral Circular No.980 dated 06 November 2017, whenever applicable;
4. Acquirer-based charging model should already be adopted. To ensure effective implementation of said model, the imposition of fees arising from agreements among BSFIs to fix the fee or have a fix share in fees shall not be allowed; and
5. Appropriate disclosures on ATM fees and charges shall be provided to the cardholders. The amount to be charged to a cardholder shall be clearly displayed on the ATM location and on the screen of the ATM terminal. Said amount shall consist of the fees charged by the acquiring BSFI and the network switch. The notice shall clearly indicate that the amount displayed is on top of the charges that may be imposed by the cardholder’s issuer.

Clearing cut-off time. As a general rule, all deposits and withdrawals during regular banking hours shall be credited or debited to deposit liability accounts on the date of receipt or payment thereof: *Provided, however,* That a bank may set a clearing cut-off time for its head office not earlier than two (2) hours before the start of clearing at the Bangko Sentral, and not earlier than three and one-half (3-1/2) hours before the start of clearing for all its branches, agencies and branch lite unit/s doing business in the Philippines, after which time, deposits received shall be booked as hereinafter provided: *Provided, further,* That banks which are located in areas where there are no Bangko Sentral regional/clearing arrangements may set a clearing cut-off time not earlier than two (2) hours before the start of their local clearing after which time, deposits received shall be booked likewise as hereinafter provided.

Definitions. As used in this Section, the following terms shall have the following meanings:

Regular banking hours shall refer to the banking hours reported to the Bangko Sentral pursuant to Sec. 108, including the extended banking hours reported for servicing deposits and withdrawals.

Clearing cut-off time shall mean the bank's closing time for the acceptance of deposits in the form of checks, bills and other demand items for clearing on the day of their receipt.

Booking of cash deposits. Cash deposits received after the selected clearing cut-off time until the close of the regular banking hours shall be booked as deposits on the day of receipt.

Booking of non-cash deposits. Deposits of checks including "on us" checks, *manager's/cashier's/treasurer's checks* and *demand drafts*, which are drawn against the depository bank and all its offices, as well as treasury warrants and postal money orders, received after the selected clearing cut-off time until the close of the regular banking hours, may, at the option of the bank, be booked as deposits on the day of receipt.

Other non-cash deposits received after the selected clearing cut-off time shall be treated as contingent accounts on the day of receipt and shall be booked as deposits the following banking day.

Booking of deposits after regular banking hours. Deposits, whether cash or non-cash, received after the close of the regular banking hours shall be treated as contingent accounts on the day of receipt and shall be booked as deposits the following banking day.

Other records required. For record and control purposes, banks shall prepare a daily abstract of deposit transactions treated as contingent accounts.

Notice required. Banks shall post at a conspicuous place near each teller's window a notice to depositors indicating their selected clearing cut-off time and a statement to the effect that non-cash items deposited after said cut-off time shall be treated as transactions for the next banking day.

(Circular No. 987 dated 28 December 2017)

272 UNCLAIMED BALANCES

All unclaimed balances, which include credits or deposits of money, bullion, securities or other evidences of indebtedness of any kind, and interest thereon already reported to the Treasurer of the Philippines in accordance with the Unclaimed Balances Act (Act No. 3936, as amended) shall be transferred/reclassified from the deposit liability/other credit accounts to the liability account, "*Due to the Treasurer of the Philippines,*" until they are deposited with or turned over to the Treasurer of the Philippines upon order of the court that the same have been escheated in favor of the Government of the Republic of the Philippines and as such, the unclaimed deposit liabilities shall no longer be covered by reserves required of deposit liabilities.

273 RENTAL DEPOSITS OF LESSEES

The following guidelines shall govern the opening and handling by banks of deposits made by lessees under Section 5(b) of Batas Pambansa Blg. 25, otherwise known as the Rent Control Law:

- a. The deposit made by the lessee shall only be accepted by the bank under a special savings account in the name of the lessor;
- b. The bank shall require the lessee to submit a copy of the written notice sent to the lessor for the deposit made, stating among other things, the date and amount of the deposit and the name and address of the lessor;
- c. The bank, at its option, may require the lessee to submit any supporting document, such as the lease contract or official receipts of previous rentals paid, which will show the specimen signature of the lessor, or other papers to identify the lessor;

- d. The bank shall segregate from its regular savings deposit accounts and maintain a separate subsidiary control ledger for deposits made under Section 5(b) of Batas Pambansa Blg. 25;
- e. Any withdrawal against these special savings deposit accounts may only be allowed in favor of the lessee concerned before the amount deposited under consignment has been accepted by the lessor, or when authorized by the lessor;
- f. The expenses which may be incurred by the bank with respect to such rental deposits shall be charged against the lessor;
- g. All the minimum internal control standards applicable to savings deposit accounts prescribed in Sec.162 shall be complied with; and
- h. The acceptance of such rental deposits, however, shall be optional or discretionary only upon the bank concerned.

274 SERVICING DEPOSITS OUTSIDE BANK PREMISES

A bank may solicit and accept deposits outside of its premises through its employees subject to notification to the Bangko Sentral, compliance with the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*) and the following conditions:

- a. The bank shall observe prudent security measures and shall obtain appropriate insurance coverage;
- b. Transaction with depositors outside bank premises by bank personnel is deemed a transaction within bank premises and shall be recognized and/or recorded by the bank as occurring at actual point of transaction consistent with procedures for transactions made within bank premises. and
- c. The bank's board of directors shall adopt clearly-defined written policies, procedures and controls for the operation of deposit servicing activities outside of bank premises, including but not limited to the criteria for determining to whom the service will be made available, and the terms and conditions for such services.

Servicing of deposits outside the bank premises include deposit pick-up/delivery services using vehicles accompanied by an authorized bank teller/mobile bank teller, and establishment of tellering booths in BIR offices.

Within ten (10) banking days from the approval of the board of directors of the proposal to engage in solicitation and acceptance of deposits outside the bank premises, the bank shall submit the following to the appropriate supervising department of the Bangko Sentral:

- a. Notification letter signed by the president or officer of equivalent rank that the bank will engage in servicing of deposits outside the bank premises;
- b. Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the servicing of deposits outside the bank premises; and
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer, that the bank has complied with (i) all the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*), (ii) conditions set out in this Section; and (iii) other pertinent banking laws, rules and regulations.

Additional conditions for the establishment of tellering booths in BIR offices:

- a. As determined by the BIR, tellering booths may be established in identified BIR offices during the tax collection period. The establishment of tellering booths shall be covered by a service level agreement between the bank and the BIR; and
- b. Tax collections received shall be subject to rules on government deposits.

The Bangko Sentral reserves the right to deploy any of its supervisory tools to promote adherence to the provisions set forth in this Section in accordance with Sec. 111 (*Enforcement Actions*).

(Circular Nos. 1031 dated 7 February 2019 and 940 dated 20 January 2017)

275 CASH PICK-UP/CASH DELIVERY SERVICES; CASH AGENTS

Subject to approval by the Deputy Governor of appropriate Sector of the Bangko Sentral, a bank may accredit third party service providers, which may be authorized by customers to perform cash/check pick-up and/or cash delivery services on their behalf, or contract third party entities as cash agents to accept and disburse cash on the bank's behalf in order to promote operational efficiency, more expanded service delivery channels, and greater convenience of banking customers.

Once given such approval, a bank may continuously undertake these activities unless otherwise ordered by the Bangko Sentral.

Cash pick-up/Cash delivery services. A bank may accredit third party service provider/s, which may be authorized by customers to pick-up cash/checks for deposit and/or deliver proceeds from cash withdrawal and/or cash exchange, subject to the following conditions:

- a. The bank shall exercise due diligence to assure itself that prudent security measures are observed by the service provider, and that customer risk of loss shall be covered by insurance;
- b. The customer executes a written authorization for the cash/check pick-up and/or cash delivery and accepts that no deposit relationship exists with the bank for the cash/checks in transit;
- c. Customer deposit accounts shall be credited or debited when the cash/checks picked up or cash delivered are turned over to the bank by the service provider and vice-versa consistent with procedures for transactions made by clients within bank premises; and
- d. The bank shall ensure due diligence and compliance with applicable rules, regulations and policies on anti-money laundering, consumer protection, bank secrecy, and customer data confidentiality.

The board of directors shall adopt clearly-defined written policies, procedures and controls for cash/check pick-up/cash delivery services, including, but not limited to, the criteria for determining to whom the service will be made available, and the terms and conditions for such services.

Use of cash agents. A bank may contract third party entities as cash agents subject to existing rules on outsourcing: *Provided*, That the following conditions are complied with:

- a. The bank shall have an electronic banking solution to implement its cash agent operations and comply with the requirements of Part Seven, on the Guidelines on Electronic Payment and Financial Services.
- b. Cash agents shall be allowed to accept and disburse cash on bank's behalf in connection with the following self-service transactions of customers:
 - (1) Deposit and withdrawal transactions performed by the customer on his bank account;
 - (2) Fund transfers performed by the customer;
 - (3) Bills payment; and
 - (4) Payments due to government institutions, e.g., members' contributions to the SSS and premiums payable to the Philhealth.

In addition to the above, cash agents are also allowed to perform the following for the bank:

- (a) Perform Know-Your-Customer and other related processes in accordance with existing regulations;
 - (b) Collect and forward applications for opening a savings account;
 - (c) Accept and forward loan application documents; and
 - (d) Market, sell and service insurance products in accordance with existing regulations.
- c. The bank assumes full responsibility and liability for all acts and omissions of its cash agents on bank-related services. The bank shall exercise due diligence to ensure its cash agents comply with applicable rules, regulations, and policies on anti-money laundering, consumer protection, bank secrecy and customer data confidentiality.

The board of directors of the bank shall adopt clearly-defined written policies, procedures and controls for its cash agent operations, including but not limited to cash agent selection and due diligence, and customer care arrangements.

Upon receipt of notice of Bangko Sentral approval to contract cash agents, the bank shall inform the Bangko Sentral of the target launch date of such service, which shall be within six (6) months from the date of said approval.

(Circular Nos. 1033 dated 22 February 2019 and 940 dated 20 January 2017)

276 MISCELLANEOUS RULES ON DEPOSITS

Banks shall also be governed by the following miscellaneous rules on deposits.

Specimen signatures or biometrics, identification photos. For opening an account/establishing relationship under the true and full name of the depositor, all banking institutions are required to obtain a minimum of three (3) specimen signatures, simultaneously executed, or biometrics from their depositors and to update the same based on risk and materiality. Banks may, at their option, require their depositors to submit clear ID photos together with the specimen signatures or biometrics.

For accounts used purely for digital or electronic payments or transactions, banks may define appropriate due diligence procedures provided that ML/TF risks are effectively managed.

Insurance on deposits. All banks shall indicate the coverage of the PDIC in each passbook, certificate of time deposit and/or cover of checkbook for demand deposit/NOW accounts stating, among other things, the maximum amount of insurance.

Certification of compliance with Subsection 55.4 of R.A. No. 8791. Banks shall submit to the appropriate supervising department of the Bangko Sentral, through the Deputy Governor, a statement within seven (7) banking days after end of June and December, signed solely by the Vice-President for Administration or Human Resource or Personnel, or by any officer assuming equivalent responsibility, certifying their institution's compliance with Subsection 55.4 of R.A. No. 8791, which prohibits banks from employing casual, non-regular personnel or too lengthy probationary personnel in the conduct of its business involving bank deposits. A format for the certification of compliance is shown in *Appendix 50*.

In classifying employee/personnel as casual, regular or probationary, banks shall apply the definitions contained in Articles 280 and 281 of the Labor Code of the Philippines for private banks; and Section 2 of the Civil Service Commission Memorandum Circular No. 40 and Rule VII of Civil Service (Laws and Rules for Government Banks). Personnel with too lengthy probationary status are employees who are allowed to work after a probationary period of six (6) months without being considered a regular/permanent employee.

(Circular No. 1065 dated 03 December 2019)

J. BORROWINGS FROM THE BANGKO SENTRAL

281 REDISCOUNTING LINE

The following guidelines shall govern the operations of the Bangko Sentral's rediscounting line by banking institutions.

Coop Banks shall be given the same privileges and incentives granted to RBs, TBs, UBs and KBs to rediscount notes with the Bangko Sentral, the Land Bank of the Philippines, and other government banks.

Credit Information System. The rediscounting availments of all eligible banks shall be drawn against their rediscounting line which is based on their total credit score under the Credit Information System (CRIS). The scoring system under the CRIS shall consider the following factors:

- a. Management and risk management system;
 - (1) Management; and
 - (2) Risk management system;
- b. Financial indicators;
 - (1) Capital adequacy;
 - (2) Asset quality;
 - (3) Profitability; and
 - (4) Liquidity;
- c. Credit experience;
 - (1) Compliance with the terms and conditions of the loan and other Bangko Sentral regulations; and
 - (2) Credit experience with other FIs.

The CRIS guidelines shall be reviewed on a regular basis by the Bangko Sentral's Credit Committee to maximize its effectiveness in managing the credit risk of the Bangko Sentral.

Application Procedures. Banks applying for a rediscounting line shall submit their application in the prescribed form (RL Form No. 1) to the Department of Loans and Credit (DLC), Bangko Sentral-Manila, together with the following documents:

- a. Board resolution duly signed by the board of directors of the applicant bank, authorizing the bank to apply for a rediscounting line with the Bangko Sentral and designating the officer/s of the bank to sign and endorse documents pertaining thereto, together with their specimen signature/s;
- b. Articles of incorporation (for new applicants only) and amendments, if any;
- c. Organizational chart (for new applicants only);

- d. List of board of directors and principal officers [top three (3) executive officers] and their education/training and work experience;
- e. Annual report/AFS for the immediately preceding year; and
- f. For banks applying for microfinance facility, a copy of the Manual of Operations pertaining to microfinance operations.

Approval/Renewal of the line. The approval/renewal of rediscounting line shall be subject to the bank's full compliance with the following requirements:

- a. Minimum capital prescribed under Sec. 111 based on the latest available report of the SDC;
- b. CAR as required under applicable and existing capital adequacy framework, based on the latest available report of the SDC except those with capital build-up program approved by the Monetary Board;
- c. Required reserves against deposit liabilities/deposit substitutes for two (2) consecutive weeks based on the latest available report of the SDC;
- d. NPL ratio lower or equal to the industry average adjusted upward by two percent (2%) based on the latest available report of the SDC, or the allowable NPL ratio approved by the Monetary Board;
- e. Positive DDA balance with the Bangko Sentral as of date of application;
- f. No past due obligations or collateral deficiencies on account of matured notes/unremitted collections/missing collaterals or ineligible papers with the Bangko Sentral as of date of application;
- g. A CAMELS composite rating of "3" or higher based on the latest general examination of the appropriate supervising department of the Bangko Sentral; and
- h. The ratio of past due direct and indirect loans to DOSRI to the aggregate past due loans should not be more than five percent (5%) based on latest available report of the SDC.

Banks applying for the microfinance facility shall also comply with the following requirements based on the latest available report of the appropriate supervising department of the Bangko Sentral:

- a. At least one (1) year track record in microfinance;
- b. At least 500 active microfinance borrowers;
- c. A portfolio at risk ratio (PAR) of not more than five percent (5%);
- d. The ratio of total collections (excluding prepayments) during the preceding 12-month period to total collectibles (past due microfinance loans beginning, plus matured loans/principal amortizations due for the period) should not be less than ninety-five percent (95%); and
- e. Officers and staff responsible for microcredit operations shall have completed: (1) a training course on microfinance; and (2) at least one (1) year experience in microlending activities.

The approval, disapproval, extension, amendment, cancellation, suspension and restoration of the rediscounting line shall be delegated to the Bangko Sentral's Credit Committee.

Banks with approved rediscounting line shall, thereafter, submit the following:

- a. Rediscounting line agreement (RL Form No. 3); and
- b. For new applicant rural/cooperative banks with designated custodian bank, a tripartite depository agreement (RL Form No. 2) by and among the applicant bank, designated depository bank (duly concurred by its Head Office) and the DLC.

For newly merged or consolidated banks, a temporary line not exceeding fifty percent (50%) of its adjusted net worth as of latest date may be granted for a period of 180 days while awaiting the required reports/data from the appropriate supervising department of the Bangko Sentral, renewable for another 180 days or until such time that the required reports/data are made available, whichever comes earlier, subject to the following conditions¹:

- a. Compliance with the requirements cited under Items "e" and "f" under this Section on Approval/Renewal of the line, and other guidelines issued by the DLC; and
- b. One (1) of the merging or consolidating banks has CAMELS composite rating of at least three "3" and minimum CAR of ten percent (10%) based on the latest available SDC data.

Amount of line. The amount of rediscounting line shall be based on the total credit score obtained by the applicant bank computed under the CRIS guidelines which ranges from fifty percent (50%) to 200% of adjusted net worth.

¹ These conditions shall not limit the Monetary Board from granting rediscounting line incentives to merged/consolidated banks pursuant to Sec. 104.

Term of the line. The term of the line shall be for one (1) year unless sooner cancelled, suspended, amended or extended by the Credit Committee. The line is renewable annually upon submission of application one (1) month before the expiry of said line. Should there be special circumstances or information from the appropriate supervising department of the Bangko Sentral that may adversely affect the credit worthiness of a bank in the intervening period, the rediscounting line of the bank concerned will be reviewed immediately and acted upon accordingly.

(Circular Nos. 1077 dated 26 February 2020 and 890 dated 02 November 2015)

282 REDISCOUNTING AVAILMENTS

Banks may avail of the rediscounting facility under a unified rediscounting window. They shall enroll in the Electronic Rediscounting System (eRS) by executing and submitting to the DLC a notarized Electronic Rediscounting System Participation Agreement before availing of the rediscounting facility of the Bangko Sentral.

Eligibility requirements at the time of availment. Banks availing of the Bangko Sentral rediscounting facility must have at the time of availment:

- a. A positive DDA balance;
- b. No past due obligations;
- c. No collateral deficiencies on account of matured notes, unremitted collections, missing collaterals or ineligible papers; and
- d. No chronic reserve deficiency in deposit/deposit substitute liabilities immediately preceding the loan drawdown/availment.

For purposes of determining compliance with the reserve requirement, a bank will be considered non-compliant with the reserve requirement for the reference week when its actual net reserve position for said reference week cannot be determined due to delayed submission or non-submission of the relevant reserve report.

Eligible papers and collaterals. The Bangko Sentral shall accept credit instruments covering all economic activities except the following:

- a. Interbank loans;
- b. Extended/Restructured loans;
- c. Past due loans;
- d. Unsecured loans;
- e. Personal consumption loans;
- f. Loans to NBFIs; and
- g. Loans funded from other borrowings, e.g., government FIs or multi-lateral agencies.

Credit instruments offered as collateral shall be subject to the eligibility requirements provided under Section 82 of R.A. No. 7653.

- a. **Commercial credits** - Bills, acceptances, promissory notes (PNs) and other credit instruments with maturities of not more than 180 days from the date of their rediscount, discount or acquisition by the Bangko Sentral and resulting from transactions related to:
 - (1) the importation, exportation, purchase or sale of readily saleable goods and products, or their transportation within the Philippines; or
 - (2) the storing of non-perishable goods and products which are duly insured and deposited, under conditions assuring their preservation, in authorized bonded warehouses or in other places approved by the Monetary Board.

Credit instruments acquired under commercial credits shall be secured either by:

Type of Collateral	Collateral Value
(1) Duly notarized assignment of export or domestic letters of credit, confirmed purchase order sales contract, quedans	Shall equal or exceed the outstanding balance of the credit instrument
(2) Trust Receipts	Shall equal or exceed the outstanding balance of the credit instrument
(3) Duly registered mortgage on real property	70% of the appraised value shall equal or exceed the outstanding balance of the PN
(4) Credit guarantees/sureties issued by the Philguarantee (PGC) and the national government	Shall equal or exceed the outstanding balance of the PN

(5) Credit guarantees/sureties issued by the Credit Surety Fund (CSF) jointly established by cooperatives and local government units	Shall equal or exceed 80% of the outstanding balance of the PN
(6) Marketable debt instruments issued by the NG and all its instrumentalities, including Republic of the Philippines US\$ denominated bonds or ROPs	Current market value shall equal or exceed the outstanding balance of the PN

The outstanding National Food Authority papers that a bank can rediscount shall not exceed the rediscounting bank's SBL [twenty-five percent (25%) of its net worth].

Dollar-denominated trust receipts covering importation of goods and raw materials are also considered eligible papers for rediscounting under the Exporters' Dollar and Yen Rediscount Facility (EDYRF)

- b. *Production credits* - Bills, acceptances, PNs and other credit instruments having maturities of not more than 360 days from the date of their rediscount, discount or acquisition by the Bangko Sentral and resulting from transactions related to the production or processing of agricultural, animal, mineral, industrial and other products.

Credit instruments acquired under production credits shall be secured by a duly registered mortgage on real property, seventy percent (70%) of the appraised value of which equals or exceeds the outstanding balance of the PN.

- c. *Other credits* - Special credit instruments not otherwise rediscountable under the immediately preceding Items "a" and "b" such as, but not limited to, microfinance, housing, services, agricultural loans with long gestation period and other eligible economic activities with maturity of not more than ten (10) years from date of their rediscount, discount or acquisition of the Bangko Sentral. Dollar-term loans to finance capital expenditures (plant expansion/modernization) by exporters are also considered eligible papers for rediscounting under the EDYRF provided they are booked in the regular banking units.

Credit instruments acquired under other credit shall be secured by:

Type of Collateral	Collateral Value
a. Duly registered mortgage on real property	70% of the appraised value shall equal or exceed the outstanding balance of the PN
b. Duly notarized assignment of receivables from service contract	Shall equal or exceed the outstanding balance of the PN
c. Credit guarantees/sureties issued by the PGC and the national government	Shall equal or exceed the outstanding balance of the PN
d. Credit guarantees sureties issued by the CSF jointly established by cooperatives and LGUs	Shall equal or exceed 80% of the outstanding balance of the PN
e. Marketable debt instruments issued by the NG and all its instrumentalities, including Republic of the Philippines US\$ denominated bonds or ROPs	Current market value shall equal or exceed the outstanding balance of the PN

For housing loans, the lien or mortgage shall cover the property being financed.

An Original Certificate of Title issued by virtue of Free Patent may be accepted as underlying collateral for loans offered for rediscounting with the Bangko Sentral.

A Land Title, with P.D. No. 1271¹ annotation, may be accepted as underlying collateral for loans offered for rediscounting with the Bangko Sentral subject to the following conditions:

- (1) The land titles submitted specify that the original registration date was on or before 31 July 1973; and
- (2) The lands covered by titles are not within any government, public or quasi-public reservation, forest, military or otherwise, as certified by appropriate government agencies.

Unsecured loans may be accepted for rediscounting provided they are:

- (a) Microfinance loans; or
- (b) Loans secured by a duly registered mortgage on real property of the bank, seventy percent (70%) of the appraised value of which equals or exceeds the outstanding balance of the unsecured PN and other collaterals acceptable to the Bangko Sentral, e.g., marketable debt instruments issued by the NG and all its instrumentalities, including Republic of the Philippines US\$ denominated bonds or ROPs.

¹ An act nullifying decrees of registration and certificates of title covering lands within the Baguio Townsite Reservation issued in Civil Reservation Case No. 1, GLRO Record No. 211 pursuant to R.A. No. 931, as amended, but considering as valid certain titles of such lands that are alienable and disposable under certain conditions and for other purposes.

For real estate properties covered by Section 7 of R.A. No. 26 offered as collateral, the following conditions must be met:

- (1) The two (2) year period from date of entry of the notation has already expired;
- (2) The bank has already filed the petition with the court for the cancellation thereof; and
- (3) The bank shall submit prior to the release of the loan a surety bond issued by an insurance/surety company which is acceptable to the Bangko Sentral and is not affiliated with the bank or its subsidiaries, or their stockholder, directors or officers, equivalent to the loan value of the property plus interest and other charges that may fall due, to answer for the payment of the obligations in the event that the petition for cancellation is denied or the notation is not cancelled on or before the maturity of the loan.

Syndicated loans may be accepted for rediscounting, subject to the following minimum requirements:

- (1) The promissory note (PN) is negotiable;
- (2) The master loan agreement allows the endorsement of the PN; and
- (3) The opinion from the borrowing bank's counsel(s) that the master loan agreement allows the endorsement of the PN; that the PN is negotiable; and that no other act or approval is necessary to perfect the endorsement.

Loans with underlying real estate collateral(s) under Mortgage Trust Indentures (MTI) may likewise be accepted, subject to the following minimum eligibility requirements:

- (1) The trustee must be a bank or quasi-bank authorized by the Monetary Board to engage in trust and other fiduciary business;
- (2) The borrowing bank must notify the trustee that it is assigning its participation to the Bangko Sentral by way of collateral;
- (3) The borrowing bank must provide a certification specifying the following: current participations in the MTI; that there is no senior claim to that of the prospective claim of Bangko Sentral; and that it does not violate any existing loan agreement with other creditors; and
- (4) The trustee must provide Bangko Sentral with a certified copy of the relevant collateral(s).

Loan availment procedures. Banks availing of the rediscounting facility shall submit their loan applications electronically to the Bangko Sentral using their eRS registered computers.

Upon receipt of the confirmation of loan approval:

- a. Banks shall execute the PNs with Trust Receipt Agreement and Deed of Assignment (PNTRADA) in favor of the Bangko Sentral (RL Form No. 7 for peso and RL Form No. 8 for dollar and yen), signed by the authorized officer/s of the bank.
- b. Banks authorized to hold-in trust the rediscounted credit instruments and underlying collaterals shall segregate and keep the same together with the PNTRADA at a secured place within their premises under the custody of the accountable officer.
- c. Banks with custodianship agreements shall deposit with their respective depository/custodian bank the rediscounted credit instruments, underlying collaterals and the PNTRADA not later than the next banking day from date of loan grant, receipt of which shall be acknowledged by the depository bank in the List of Rediscounted Loans.

Loan value. The loan value of all eligible papers shall be eighty percent (80%) of the outstanding balance of the borrower's credit instrument but not higher than seventy percent (70%) of the appraised value of the underlying collateral.

Maturities. The maturities of Bangko Sentral rediscounts are, as follows:

Type of Credit	Maturity Date
a. Commercial Credits	180 days from date of rediscount but shall not go beyond the maturity date of the credit instrument
(1) Export Packing	
(2) Trading	
(3) Transport	
(4) Quedan	
(5) Export Bills (EBs)	
At Sight	Fifteen (15) days from date of purchase
Usance EB	Term of draft but not to exceed sixty (60) days from shipment date

b. Production Credits	180 days from date of rediscount but shall not go beyond the maturity date of the promissory note (PN). Renewable, not to exceed 180 days.
c. Other Credits	180 days from date of rediscount but shall not go beyond the maturity date of the PN (renewable depending on the type of credit).

Rediscount/Lending rates. The following are the guidelines in establishing the Bangko Sentral rediscount rates for peso, dollar and yen loans:

a. **Peso Rediscount Rates**

The peso rediscount rate shall be the Bangko Sentral overnight (O/N) lending rate plus a spread depending on the term of the loan as may be determined by the Bangko Sentral. The spread between these two may change periodically to complement changes in the Bangko Sentral's monetary policy goals. Banks eligible to apply in the Bangko Sentral's monetary policy goals. Banks eligible to apply in the Bangko Sentral's peso rediscounting window may avail of a 1-90 days and/or 91-180 days term facility, subject to applicable rediscount rates.

b. **Dollar/Yen Rediscount Rates**

The dollar/yen rediscount rates shall be the 90-day London Inter-bank Offered Rate (LIBOR) or in the absence of LIBOR, an applicable benchmark rate, plus an appropriate spread depending on the term of the loan as may be determined by the Bangko Sentral. The spread between these two rates may also vary to reflect movements in the market interest rates and to achieve monetary policy objectives. Banks eligible to apply in the Bangko Sentral's foreign currency rediscounting window may avail of the 1-90 days, 91-180 days, and/or 181-360 days term facility, subject to applicable rediscount rates.

The applicable rates for both terms of the rediscount window shall be posted in the Bangko Sentral's website, within 10 calendar days from the reference quarter.

Past due Bangko Sentral loans and unpaid matured notes shall be levied liquidated damages equivalent to five percent (5%) per annum¹.

Release of proceeds. The proceeds of the rediscounting availment shall be released, as follows:

- a. *Peso rediscounts* - automatically credited to the borrowing bank's DDA or its depository bank's DDA with the Bangko Sentral on the same day for loan application submitted to the Bangko Sentral before 4:30 pm during banking days.
- b. *Dollar/Yen rediscounts* - released through the Treasury Department, Bangko Sentral, for credit to the designated foreign correspondent bank of the borrowing bank, as follows:
 - (1) Same banking day credit for dollar loan application submitted to the Bangko Sentral before 11:00 am, during banking days; and
 - (2) Following banking day credit for yen loan application submitted to the Bangko Sentral before 11:00 am, during banking days.

Repayments/Remittance of collections/arrearages². The following shall govern repayments, remittance of collections, and arrearages:

a. **Repayments**

(1) **Peso rediscounts**

- (a) The loan value of the rediscounted credit instruments or the amortization plus interest due thereon shall automatically be debited against the borrower bank's DDA with the Bangko Sentral at maturity/amortization due date.
- (b) For microfinance loans, the DDA of the borrower bank shall automatically be debited on the amortization due date for the loan value of the amortization plus interest due thereon. For loans with daily, weekly or semi-monthly amortizations, the borrower bank's DDA shall automatically be debited on the last amortization due date of said month for the total loan value of the amortizations for the month plus interest due thereon.

¹ See Appendix 92 on Regulatory Relief for Banks Affected by Calamities.

² See Appendix 100 on Regulatory Relief for Banks Affected by Calamities.

- (c) The loan value of unremitted collections and of the rediscounted credit instruments and/or underlying collaterals found to be missing, ineligible or with exceptions not corrected within fifteen (15) days from receipt of notice plus interest due thereon shall automatically be debited against the borrowers bank's DDA with the Bangko Sentral.

(2) Dollar/Yen rediscounts

Dollar and yen loans shall be repaid in the same currency under which they were released. For this purpose, the bank shall submit online to the Bangko Sentral its payment instruction one (1) day before the payment date or the maturity date of the loan corresponding to the remittance instruction to its designated correspondent bank. The payment shall cover total collections or payment of maturing loans plus interest due thereon. In case of short payment, the bank's DDA with the Bangko Sentral shall automatically be debited for the peso equivalent of the shortage.

If the foreign currency denominated loans are not settled on maturity date, the borrowing bank's DDA with the Bangko Sentral shall be debited automatically for the peso equivalent of the matured obligation plus accrued interest due thereon. The foreign exchange (FX) rate at the time of the loan repayment shall not be lower than the FX rate at the time of loan avancement and any FX loss arising from default or repayment shall be for the account of the borrower and not for the Bangko Sentral.

b. Remittance of collections

- (1) Total collections received by the borrowing bank before the maturity date of the rediscounted credit instruments shall be remitted not later than five (5) banking days following the date of receipt of collections to the following:

Peso Rediscounts	-	Bangko Sentral
Dollar Rediscounts	-	Federal Reserve Bank of New York for the account of Bangko Sentral
Yen Rediscounts	-	Bank of Tokyo for the account of Bangko Sentral

- (a) *Total collections* shall refer to the loan value of the principal amount collected from rediscounted credit instruments plus accrued interest due on the outstanding balance of subject credit instruments.
- (b) For banks with Bangko Sentral loans under past due status, total collections shall include all collections on principal, interest and penalty.
- (c) In the case of negotiated EBs, the receipt by the borrowing bank of payment from its correspondent bank either through actual remittance or credit advice; or through book entries made by the borrowing bank charging its correspondent bank before receipt of advice shall constitute receipt of collection.
- (2) The bank shall ensure that adequate records are maintained in its Head Office on the collections made by the branches.
- c. Arrearages. The Bangko Sentral shall undertake all necessary collection measures allowed by law, such as foreclosure proceedings against banks with past due loans.

Prohibited transactions. The following shall not be allowed without prior approval of the Bangko Sentral:

- Substitution of rediscounted credit instruments and underlying collateral real properties on outstanding loans with the Bangko Sentral;
- Renewal of rediscounted credit instruments without remitting payment while the loan released against the rediscounted credit instrument is still outstanding with the Bangko Sentral; and
- Acceptance of properties as payment (*dacion en pago*).

Monitoring and credit examination of borrowing banks. The DLC shall conduct an off-site analysis of the Bangko Sentral's credit exposure to borrowing banks and a risk-based on-site credit examination that will focus primarily on determining whether there is a "high", "moderate" or "low" probability of default on the settlement of the banks' rediscounting obligations with the Bangko Sentral.

Penalties/sanctions. The following penalties and sanctions shall be imposed on the erring bank and/or the bank's authorized/certifying officers.

- For serious offense

Aggregate Amount/Penalty Range	Minimum	Maximum
P50K or less	P83	P250

Above P50K to 100K	250	750
Above P100K to P500K	1,000	3,000
Above P500K to 1M	2,500	7,500
Above P1M	5,000	15,000

b. For less serious offense

Aggregate Amount/Penalty Range	Minimum	Maximum
P50K or less	P63	P188
Above P50K to 100K	188	563
Above P100K to P500K	750	2,250
Above P500K to 1M	1,875	5,625
Above P1M	3,750	11,250

c. Minor offense

Aggregate Amount/Penalty Range	Minimum	Maximum
P50K or less	P42	P125
Above P50K to 100K	125	375
Above P100K to P500K	500	1,500
Above P500K to 1M	1,250	3,750
Above P1M	2,500	7,500

The following definition of terms shall apply:

- (1) *Offense* shall refer to a violation that connotes infraction of the terms and conditions of the loans granted by the Bangko Sentral and of the applicable laws, rules and regulations, Bangko Sentral credit policies and non-compliance with the Bangko Sentral/Monetary Board directives.
- (2) *Serious offense* - This refers to acts or omissions constituting violation of the terms and conditions of the loans granted to the bank and of the applicable laws, rules and regulations that constitute unsafe or unsound banking; and the misrepresentation of facts and warranties committed by the bank/individual(s) that influenced the approval and amount of the rediscounting loan/line granted, such as:
 - (a) Rediscounting of ineligible papers, fictitious borrowers/loans/titles or submission of spurious documents;
 - (b) Absence of or failure to execute vital loan documents;
 - (c) Failure or delay in the deposit of rediscounted loan documents with the custodian bank, except those caused by fortuitous events; and
 - (d) Failure to remit to the Bangko Sentral collections on principal of the rediscounted loans within the prescribed period of five (5) banking days from date of actual receipt of collections except collections from microfinance loans.
- (3) *Less serious offense* - This refers to acts or omissions constituting violation of the terms and conditions of the loans granted to the bank and of the applicable laws, rules and regulations that constitute unsafe or unsound banking but not falling under the serious offense category; however, the deficiencies noted should be addressed immediately to mitigate the credit risk of the Bangko Sentral.
- (4) *Minor offense* - This includes acts or omissions which are procedural in nature, not intentional, may not result in any loss or damage to or any significant increase in the risk of the creditor Bangko Sentral and can be resolved immediately during the normal course of business. For purposes of classifying the nature of the offense, this includes all other acts or omissions which cannot be classified under serious or less serious offenses.
- (5) *Aggregate amount* - shall refer to the aggregate amount of the following under the current examination:
 - (a) *Under serious offense*: Total loan value of the following:
 - (i) Rediscounted ineligible papers with serious offense, fictitious loans or spurious loan documents as determined by the Bangko Sentral or Office of Special Investigation;
 - (ii) Undeposited vital loan documents and underlying collaterals as of examination date; and
 - (iii) Collections on principal of rediscounted loans which were not remitted to the Bangko Sentral within the prescribed period of five (5) banking days from date of receipt of collections.

- (b) *Under less serious offense*: Total loan value of rediscounted ineligible papers with less serious offense as determined by the Bangko Sentral.
 - (c) *Under minor offense*: Total loan value of rediscounted ineligible papers with minor offense as determined by the Bangko Sentral.
- (6) *Minimum penalty* - refers to the range of penalties to be imposed if the mitigating factor(s) outweighs the aggravating circumstances, to wit:
- (a) The act or omission is not intentional or the bank acted in “good faith” when the error, deficiency, violation or the absence/lack of the required action were committed.
 - (b) The bank is willing to take immediate action or has started to rectify the deficiencies/violations noted or undertakes to correct the deficiencies within fifteen (15) days from receipt of notice.
 - (c) The bank has voluntarily disclosed the offense/violation committed before it is discovered by the Bangko Sentral or has remitted to the Bangko Sentral the total amount due plus accrued interest.
- (7) *Maximum penalty* - refers to the range of penalties to be imposed if the aggravating circumstances outweigh the mitigating factor(s), to wit:
- (a) The act or omission carries with it the intention to commit or cover up a violation or to defraud the Bangko Sentral.
 - (b) Commission or omission of a specific offense corrected in the past but found repeated in another transaction in subsequent examination.
 - (c) Additional interest charges on unpaid penalty.

An additional interest of twelve percent (12%) per annum shall be assessed on nonpayment of the penalties, from date of demand until full settlement thereof.

The foregoing monetary penalties shall be without prejudice to the cancellation of the bank’s rediscounting line with the Bangko Sentral and/or administrative and criminal sanctions that may be charged against its culpable officers.

Interlocking directorship/officership. Banks owned or managed by the same owners, stockholders, directors, officers or family/business group may also be suspended from availment of the rediscounting facility by the Credit Committee once the rediscounting line of any of the banks belonging to the same group is suspended, until such time that the suspension of the erring bank is lifted.

(Circular Nos. 1072 dated 31 January 2020, 1071 dated 08 January 2020, 1008 dated 14 June 2018, 964 dated 27 June 2017, 948 dated 01 March 2017, 916 dated 08 July 2016, 903 dated 29 February 2016, M-2015-039 dated 04 November 2015, Circular No. 890 dated 02 November 2015, M-2015-035 dated 07 October 2015, M-2015-009 dated 28 January 2015, and M-2015-005 dated 20 January 2015)

283 REPURCHASE AGREEMENTS WITH THE BANGKO SENTRAL

Repo agreements with the Bangko Sentral shall be governed by Sec. 601.

284 BANGKO SENTRAL LIQUIDITY WINDOW

The following guidelines shall govern the grant by the Bangko Sentral of credit accommodations through a liquidity window to banks.

Nature of liquidity window. The window shall meet the liquidity needs of the financial system under normal conditions and shall be distinct from overdrafts and emergency advances.

Terms of credit

- a. **Interest rate** - The rate of interest chargeable on availments under the liquidity window shall be the rate equivalent to the reference rate for ninety (90) days determined and announced by the Bangko Sentral for floating rate loans, plus or minus a rate to be determined by the Bangko Sentral on the basis of the prevailing monetary situation.

The additional or discount rate established for any given time shall be made public by the Bangko Sentral and applied uniformly to all borrowers during that period.

The additional rate to be imposed over and above the reference rate shall not be less than two (2) percentage points, with the applicable additional rate to be determined by the Bangko Sentral on the basis of the prevailing monetary situation.

- b. **Security** - Any paper, irrespective of maturity, eligible under Section 82 of R.A. No. 7653.

- c. *Loan values* - The loan values of the paper offered as collateral should be eighty percent (80%) of the amount still due outstanding on the paper offered as collateral.
- d. *Repayment period* - The term of the credit accommodation shall not exceed seven (7) days.

Limit. Availment by any bank under this facility shall not exceed ten percent (10%) of its net worth, as defined under Sec. 121 as of the end of the quarter preceding the date of application. In the case of branches of foreign banks, the quota shall be ten percent (10%) of the assigned capital as of the date of application. Additionally, a bank or a branch of a foreign bank may avail itself of this facility to the extent equivalent to a further five percent (5%) of its net worth, as defined under Sec. 121 or assigned capital, as the case may be, as of the end of the quarter preceding the date of availment. Any availment of the liquidity window shall fall within the unavailed basic rediscount ceiling of the bank or the branch of a foreign bank as the case may be.

285 EMERGENCY LOANS OR ADVANCES TO BANKING INSTITUTIONS

The emergency loan or advance to banking institutions is governed by the provisions of Sections 84 to 88 of R.A. No. 7653, otherwise known as The New Central Bank Act. The following guidelines shall govern the Bangko Sentral's emergency loans and advances.

Nature of emergency loans or advances. An emergency loan or advance is a credit facility that is intended to assist a bank experiencing serious liquidity problems arising from causes not attributable to, or beyond the control of, the bank management. The grant of such facility is discretionary upon the Monetary Board, and is intended only as a temporary remedial measure to help a solvent bank overcome serious liquidity problems. As provided under Sections 84 to 88 of R.A. No. 7653, no emergency loan or advance may be granted except on a fully secured basis and the Monetary Board may prescribe additional conditions, which the borrowing banks must satisfy in order to have access to the credit facility of the Bangko Sentral.

When an emergency loan or advance may be availed of. An emergency loan or advance may be granted:

- a. In periods of national and/or local emergency or of imminent financial panic which directly threaten monetary and banking stability, i.e., situations involving bank runs, massive movements by depositors of their funds from certain banks to other banks, bank holidays and voluntary cessation of business, or when there are movements which endanger the economy, or when the international stability of the peso is threatened, or when there is an exchange crisis.
- b. During normal periods for the purpose of assisting a bank in a precarious financial condition or under serious financial pressures brought about by unforeseen events or events which though foreseeable, cannot be prevented by the bank concerned.

Provided, That there is a concurrent vote of at least five (5) members of the Monetary Board and the latter has ascertained that the bank is not insolvent: *Provided, further,* That banks with positive CAR of not more than six percent (6%) based on adjusted books of accounts shall submit a Business Improvement Plan (BIP) acceptable to the Bangko Sentral within six (6) months from date of advice by the appropriate supervising department of the Bangko Sentral. For this purpose, the appropriate supervising department of the Bangko Sentral shall warn the concerned banks that failure to submit the required BIP in accordance with the criteria of the appropriate supervising department of the Bangko Sentral shall disqualify the bank from access to the Bangko Sentral's emergency loan facility. Banks with zero to negative CAR should have an existing Bangko Sentral-approved rehabilitation plan and on track with the Plan to be eligible to avail itself of emergency loan.

Allowable amount of emergency loan or advance. The maximum amount of an emergency loan or advance shall be limited to the amount needed by the applicant bank to overcome the emergency or financial predicament but not to exceed the sum of fifty percent (50%) of its total deposits and deposit substitutes as of the last banking day of the month preceding the date of emergency loan application: *Provided,* That, in no case shall such maximum amount exceed the loan values of the collaterals submitted, as determined by the Bangko Sentral.

The amount approved by the Monetary Board shall be released in tranches. The first tranche shall not exceed twenty-five percent (25%) of the total deposits and deposit substitutes of the bank as of the last banking day of the month preceding the date of emergency loan application and shall be released only after the submission of the collaterals and required documents under this Section on Application procedures and Other documentary requirements: *Provided, however,* That upon request of the applicant bank, the Monetary Board may authorize a first tranche in an amount greater than twenty-five percent (25%) of the bank's total deposits and deposit substitutes if the circumstances surrounding the emergency or financial predicament warrant the release of such greater amount and the same is adequately secured by first class collaterals, i.e., assets and securities which have relatively stable and clearly definable value and/or greater liquidity and free from lien and encumbrances.

Except as provided in Item "d" of this Section on Manner and conditions of release hereof, the proceeds of the emergency loan or advance shall be utilized exclusively to service net withdrawals of deposits and deposit substitutes, i.e., amount of the bank's total withdrawals less total deposits.

The principal amount of the emergency loan or advance shall not exceed the difference between the highest level of the bank's deposit and deposit substitutes of the immediately preceding thirty (30)-day period from date of emergency loan application and the current level of deposits and deposit substitutes as determined by the appropriate supervising department of the Bangko Sentral.

Application procedures. Banks applying for an emergency loan or advance shall submit an application (EL Form No. 1) with the appropriate supervising department of the Bangko Sentral, copy furnished the DLC. During normal periods, the applicant-bank shall state the reasons for the proposed loan availment and other details showing the precarious financial condition or the serious financial pressures being experienced by the bank.

The bank shall submit together with the application, the following documents:

- a. Certified Statement of Condition (under oath) as of the last banking day of the month preceding the date of emergency loan application.
- b. A duly notarized secretary's certificate (EL Form No. 2) together with a resolution of the board of directors of the bank:
 - (1) Authorizing the availment by the bank of an emergency loan or advance from the Bangko Sentral.
 - (2) Signifying the bank's commitment to comply with the guidelines set forth herein and the terms and conditions that may be imposed by the Monetary Board.
 - (3) Designating the chairman and the president or in their absence, any of the next two (2) highest officers, as duly authorized signatories for the emergency loan or advance application, promissory notes, and all undertakings. Designated authorized officers not lower than senior vice president, or equivalent position, may be authorized to execute all accessory documents for the emergency loan or advance.
 - (4) Authorizing the Bangko Sentral to evaluate other assets of the bank certified by its auditors to be good and available for collateral purposes should the grant of subsequent tranches be applied for.

After determining the eligibility of the applicant bank to avail of the emergency loan or advance under this Section on when an emergency loan or advance may be availed of, the appropriate supervising department of the Bangko Sentral shall prepare a memorandum to the Monetary Board stating among others, the following:

- a. Validation of the eligibility of applicant bank.
- b. Financial condition of applicant bank.
- c. Volume of deposits and expected withdrawals of deposits.
- d. Amount and terms of the loan.
- e. Whenever applicable, circumstances that warrant the grant of the first tranche greater than twenty-five percent (25%) of the total deposits and deposit substitutes as provided by law.

The applicant bank shall submit to the DLC, prior to the release of the first tranche, the following documents together with the copy of the application:

- a. Listing of assets that are good and available for collateral purposes as certified by the bank's duly appointed external auditor (EL Form No. 3).
- b. Listing of collaterals in the prescribed formats (EL Form Nos. 4/4a/4b) as well as a 3.5" diskette containing the database, (in MS Excel format), together with the documents of title and/or evidences of ownership of the collaterals offered including the following documents:
 - (1) Appraisal reports of not more than one (1) year conducted by an independent appraiser acceptable to the Bangko Sentral in accordance with Bangko Sentral's terms of reference.
 - (2) Latest tax declarations.
 - (3) Current tax receipts, tax clearances and other documents needed for registration of mortgages and deeds of assignment.
 - (4) Current insurance policies covering improvements and official receipts of premium payments.
 - (5) Department of Agrarian Reform (DAR) certification that agricultural properties offered as collaterals are not covered by the Comprehensive Agrarian Reform Program (CARP).
 - (6) Current original promissory notes of bank's borrowers duly endorsed in favor of the Bangko Sentral.
 - (7) Special power of attorney or stockholder's resolution, when appropriate.
- c. Notarized Deed of Undertaking executed by the above-mentioned officers of the bank to: (1) register with the Registry of Deeds all the covering legal documents before loan release at the expense of the bank and that, in the event the Bangko Sentral agrees to release the proceeds of the loan before said documents are registered, the same shall be registered by the bank at its own expense; and (2) submit the documents needed to complete the requirements of the tranche not later than fifteen (15) days from release of the emergency loan or advance (EL Form No. 5).

In case of failure by the bank to register the covering legal documents within fifteen (15) days from date of release of loan proceeds, the Bangko Sentral shall register said documents for the account of the applicant bank, and all costs and expenses shall, at the option of Bangko Sentral, be deducted from any subsequent availments of the bank or from its DDA or be added to its liability account with the Bangko Sentral.

- d. Notarized Joint and Several Undertaking executed by all the controlling stockholders [owning more than fifty percent (50%) of the voting stocks] of the bank and every person or a group of persons whose stockholdings are sufficient to elect at least one (1) director to indemnify and hold harmless from suit the Bangko Sentral, its Monetary Board members, Governor, officers and personnel, and the conservator whose appointment the Monetary Board may find necessary at any time. The Department of Finance or stockholder of record will sign the joint and several undertaking if the government is a stockholder (EL Form No. 6).
- e. Notarized Deed of Undertaking with waiver of secrecy of deposits and commitment by the directors, principal officers with the equivalent rank of vice-president and up, all the controlling stockholders, and every person or group of persons and their respective spouses, whose stockholdings are sufficient to elect at least one (1) director not to withdraw any portion of their deposits and deposit substitutes as of date of release of the first tranche while the emergency loan remains outstanding. In the event of a compelling reason to withdraw, payment of the emergency loan or advance in an amount equivalent to the deposits to be withdrawn shall be made (EL Form No. 7).
- f. Notarized Surety Agreement executed by the controlling stockholders and every person or group of persons whose stockholdings are sufficient to elect at least one (1) director obligating themselves jointly and severally with the bank to pay promptly on maturity, or when due, the Bangko Sentral, its successors or assigns, all promissory notes covering the emergency loan or advance. (The Government, its subdivisions, instrumentalities and agencies, and government entities are exempted from this requirement) (EL Form No. 8).
- g. Notarized Deed of Negative Pledge executed by the controlling stockholders and every person or group of persons whose stockholdings are sufficient to elect at least one (1) director, together with their respective certificates of stock. (The Government, its subdivisions, instrumentalities and agencies, and government entities are exempted from this requirement.) (EL Form No. 9).
- h. Certification under oath executed by the chairman and president of the bank that the bank or any of its stockholders does not fall within the prohibition under Section 16, Article XI of the Constitution (EL Form No. 10).

Prior to the release of the subsequent tranches, the bank shall submit to DLC the documents of title and/or evidences of ownership of the collaterals, together with the other documents referred to in Item “b” above for the amount being applied for release and, where necessary, such other acceptable security which, in the judgment of the Monetary Board, would be adequate to supplement the assets tendered to collateralize the subsequent tranche.

Banks availing of emergency loan or advance may decline to submit either Item “f” or “g” or both, but the loan values specified in Items “b” and “d” of this Section on Acceptable collaterals and their corresponding loan values shall be reduced.

Other documentary requirements. Before release of any emergency loan or advance, the applicant bank shall, aside from the documentary requirements already mentioned above, submit such other requirements/documentation as may be required by the DLC, e.g., duly Notarized Promissory Note in Favor of the Bangko Sentral (EL Form No. 11/11a), Notarized Deed of Real Estate Mortgage (EL Form No. 12-Bank Assets/12a-Stockholder/Third Party Assets), Notarized Deed of Pledge (EL Form No.13- Individual/Corporation/13a- Stockholders’/Third Party Assets), Notarized Deed of Assignment of Mortgages (EL Form No. 14), Hold-out on Foreign Currency Deposits with Bangko Sentral (EL Form No. 15) and Joint Affidavit executed by the bank’s chairman and president and the Individual Mortgagor (EL Form No. 16- Individual) or the Corporate-Mortgagor’s chairman and president (EL Form 16a- Corporation).

Acceptable collaterals and their corresponding loan values. All availments of the emergency loan or advance shall be secured by first class collaterals to the extent of their applicable loan values, as follows:

ACCEPTABLE COLLATERALS	With Surety Agreement and Negative Pledge	With Surety Pledge but no Negative Pledge	With Negative Pledge but no Surety Agreement	No Surety Agreement and no Negative Pledge
a. Government securities - based on the current market value of the securities	80%	80%	80%	80%
b. Unencumbered real estate properties in the name of the bank				
(1) Initial rate - based on the appraised value (AV) of the land and insured improvements	40%	35%	30%	25%

ACCEPTABLE COLLATERALS	With Surety Agreement and Negative Pledge	With Surety Pledge but no Negative Pledge	With Negative Pledge but no Surety Agreement	No Surety Agreement and no Negative Pledge
(2) Final rate - based on the AV of the land and insured improvements determined by a licensed and independent appraiser acceptable to the Bangko Sentral in accordance with Bangko Sentral's terms of reference	70%	65%	60%	55%
c. Hold-outs on foreign currency deposits with the Bangko Sentral based on current market value	80%	80%	80%	80%
d. Mortgage credits (with remaining maturities of not more than 360 days)				
(1) Initial rate - based on the AV of the property securing the loan evidenced by negotiable instruments or the outstanding balance of such loan whichever is lower	40% of AV or 50% of the outstanding balance	35% of AV or 40% of the outstanding balance	30% of AV or 40% of the outstanding balance	25% of AV or 40% of the outstanding balance
(2) Final rate - based on the AV of the property securing the loan evidenced by negotiable instruments as determined by a licensed and independent appraiser acceptable to the Bangko Sentral in accordance with Bangko Sentral's terms of reference or the outstanding balance of such loan whichever is lower.	70% of AV or 80% of the outstanding balance	65% of AV or 75% of the outstanding balance	60% of AV or 70% of the outstanding balance	55% of AV or 65% of the outstanding balance
e. Commercial papers ("AAA")	80%	80%	80%	80%

Mortgage credits arising from syndicated loans and loans with underlying real estate collateral(s) under MTI shall likewise be assigned their applicable loan values based on the submission or non-submission of Surety Agreement and/or Negative Pledge as summarized in the immediately preceding table. Such loans shall be subject to the same minimum requirements under Sec. 282 (*Eligible papers and collaterals*).

Assets of stockholders and of other third parties, the latter acceptable only in instances provided under the last paragraph of this Section on Interest rates, liquidated damages, and penalties are acceptable as collaterals for emergency loan with corresponding loan values, as follows:

ACCEPTABLE COLLATERALS	With Surety Agreement and Negative Pledge	With Surety Pledge but no Negative Pledge	With Negative Pledge but no Surety Agreement	No Surety Agreement and no Negative Pledge
Asset of stockholders to secure new loan releases if the bank has no available first class collaterals:				
a. Unencumbered real estate				
(1) Initial rate - based on the AV of the land and insured improvements	35%	30%	25%	20%
(2) Final rate - based on the AV of the land and insured improvements determined by a licensed and independent appraiser acceptable to the Bangko Sentral in accordance with Bangko Sentral's terms of reference	60%	55%	50%	45%
b. Government Securities	80%	80%	80%	80%
c. Commercial papers ("AAA")	80%	80%	80%	80%

ACCEPTABLE COLLATERALS	With Surety Agreement and Negative Pledge	With Surety Pledge but no Negative Pledge	With Negative Pledge but no Surety Agreement	No Surety Agreement and no Negative Pledge
Assets of other third parties to cover deficiency arising from unpaid interest and liquidated damages, reduction in loan value of existing collaterals and conversion of overdrafts into emergency loan:				
a. Unencumbered real estate				
(1) Initial rate - based on the AV of the land and insured improvements	30%	25%	20%	15%
(2) Final rate - based on the AV of the land and insured improvements determined by a licensed and independent appraiser acceptable to the Bangko Sentral in accordance with Bangko Sentral's terms of reference	50%	45%	40%	35%
b. Government securities	80%	80%	80%	80%
c. Commercial papers ("AAA")	80%	80%	80%	80%

Other types of assets may be acceptable as collateral for emergency loan as the Monetary Board may approve.

The initial valuation rate shall apply in case the appraisal reports of independent appraiser acceptable to the Bangko Sentral for real estate collaterals are not available or not in accordance with Bangko Sentral's terms of reference or the collaterals themselves are with rectifiable minor deficiencies as determined by DLC, but will be adjusted upon compliance with the foregoing requirements.

All collateralization expenses, such as registration fees, documentary stamps, etc., shall be borne by the applicant bank.

Manner and conditions of release. The manner and conditions of release of emergency loan or advance shall be as follows:

- a. The grant of emergency loan or advance shall bear the concurrent vote of at least five (5) members of the Monetary Board.
- b. The emergency loan or advance shall have a ninety (90)-day availability period from date of Monetary Board approval, non-renewable, non-extensible. Request for extension or renewal shall be treated as new loan application to be evaluated by the appropriate supervising department of the Bangko Sentral if qualified under this Section on when an emergency loan or advance may be availed of.
- c. The amount approved by the Monetary Board may be disbursed in one (1) or more releases as dictated by the needs of the bank and availability of first class collateral.
- d. The proceeds of the emergency loan or advance shall be applied first to the advance interest, and then to any outstanding overdrafts that may have been incurred by the bank in its demand deposit with the Bangko Sentral.
- e. The bank shall submit to the DLC a board resolution confirming every receipt of proceeds of emergency loan or advance. Likewise, the bank shall submit a board resolution confirming the undertakings executed by the officers under this Section on Application procedures.

Interest rates, liquidated damages, and penalties. The interest rate that shall be charged on emergency loan or advance shall be based on the Bangko Sentral lending rate plus two percent (2%) per annum. Interest shall be collected in advance from the borrowing bank.

An additional five percent (5%) per annum shall be imposed as liquidated damages on the past due emergency loan or advance.

A penalty of one-tenth of one percent (1/10th of 1%) per day of delay on unremitted/delayed remittance of collections received by the bank from promissory notes covering the assigned mortgage credits or the proceeds of sale from assigned/mortgaged real estate properties commencing on the day following the deadline prescribed in this Section on Remittance of collections/repayments/arrearages shall be imposed on the erring bank.

Any shortfall in collateral due to unpaid accrued interest, liquidated damages, reduction in loan value of existing collaterals and conversion of overdraft into emergency loan may be covered by third party assets after the assets of the bank have been exhausted.

A Joint Affidavit (EL Form No. 16/16a) between the bank's chairman and president and the corporate-mortgagor's chairman and president or the individual mortgagor to be signed and notarized in the Bangko Sentral shall be submitted in support of the mortgage documents. The signing shall be photographed as well as recorded in video.

General terms and conditions. A bank with an outstanding emergency loan or advance shall comply with the following conditions:

- a. The bank shall not, without the prior authorization of the Monetary Board, expand its outstanding loans or investments as of the date of application for emergency loan, except for investment in government securities;
- b. The bank shall not declare cash dividends;
- c. The bank shall not grant new loans to DOSRI or to affiliates and subsidiaries;
- d. The bank shall accept the Bangko Sentral designated Comptroller to be assisted by examiners recommended by the appropriate supervising department of the Bangko Sentral and the DLC to monitor the operations of the bank under the Terms of Reference as determined by the Monetary Board;
- e. The bank shall not be allowed to avail of the Bangko Sentral rediscounting facility; and
- f. The bank shall comply with any other terms and conditions that may be imposed by the Monetary Board.

Maturity/Conditions for renewals. The term of any emergency loan or advance shall not exceed 180 days including renewals. Any request for renewal of an emergency loan or advance shall be treated as a new loan and shall be considered only upon the bank's compliance with the following:

- a. All the requirements of the previous tranche/s;
- b. Remittance of collections/proceeds of sales under this Section on Remittance of collections/repayments/arrearages;
- c. Payment of advance interest;
- d. Submission of a duly notarized promissory note in favor of the Bangko Sentral; and
- e. Other requirements that may be imposed by the Monetary Board on the borrowing bank.

The Director of the DLC shall approve the renewal of an emergency loan or advance.

Remittance of collections/repayments/arrearages. The following shall govern remittance of collections, sale proceeds, repayments and arrearages:

- a. Total collections received on loan accounts assigned to the Bangko Sentral shall be held in trust for, and remitted to the Bangko Sentral not later than five (5) banking days following the date of receipt in payment of the bank's outstanding emergency loan or advance, net of refund of interests, if any.
- b. Proceeds from the sale of properties assigned/mortgaged to the Bangko Sentral shall be held in trust for, and remitted to the Bangko Sentral not later than five (5) banking days following the date of receipt in payment of the bank's outstanding emergency loan or advance, net of refund of interests, if any.

For banks with emergency loan or advance under current status, "total collections" and "proceeds from the sale" shall pertain to the loan value of the mortgaged credits and properties.

For banks with emergency loan or advance under past due status:

- (1) Total collections shall pertain to total collections from the mortgaged credits, i.e. principal plus interest and penalty.
- (2) Proceeds from the sale shall pertain to net proceeds from the sale of assigned/mortgaged properties or the total Bangko Sentral claims pertaining to the sold properties, i.e., loan value plus interest and penalty, whichever is higher.

The bank shall ensure that adequate records on the collections and sale made by the branches are maintained in its Head Office.

- c. Increases in the deposit level of the borrowing bank equivalent to the recovery of the net withdrawal of deposits, shall be remitted to the Bangko Sentral or debited against the bank's demand deposit account in payment of the emergency loan or advance, net of refund of interest.
- d. The loan value of the collaterals of the emergency loan or advance, i.e., mortgaged credits and properties, discovered by the Bangko Sentral falling short of its criteria of first class collaterals, shall be debited against the bank's DDA with the Bangko Sentral, net of refund of interest.
- e. The Bangko Sentral shall undertake all necessary collection measures allowed by law, such as foreclosure proceedings against banks, whether operating or closed, with past due loans.

In the event the bank fails to comply with any of the foregoing, the DLC shall notify, copy furnished the bank, the borrowers of the assignment of their outstanding loans to the Bangko Sentral and advise them to remit payment directly to the Bangko Sentral (EL Form 17).

Default. The following shall constitute events of default which shall render the emergency loan or advance due and demandable and shall be sufficient cause for the Bangko Sentral to stop further releases of funds, without prejudice to any action the Bangko Sentral may decide to take in accordance with R.A. No. 7653:

- a. Insolvency or bankruptcy of the bank.
- b. Appointment of a receiver for the bank.
- c. The bank's property and business is taken possession of or its business suspended or closed by the lawfully authorized governmental agency or authority.
- d. Violation of any of the terms and conditions of all loan and collateral documents.
- e. Non-compliance with the undertakings executed by the borrowing bank.

(Circular No. 1008 dated 14 June 2018)

286 FACILITY TO COMMITTED CREDIT LINE ISSUERS

The following guidelines shall govern the grant by the Bangko Sentral of special credit accommodations to banks which establish committed credit line in favor of corporations proposing to issue commercial paper.

Nature of special credit accommodations. The Bangko Sentral may extend a loan to any bank which on its own or as a member of a group of banks, provides a committed credit line facility to a corporation proposing to issue commercial paper.

Conditions to access. A bank applying for a loan pursuant to the provisions of this Section shall submit to the Bangko Sentral documents showing that it has extended a committed credit line to a commercial paper issuer and that such issuer has availed itself of said credit line.

Terms of credit

- a. **Interest rate.** The rate of interest chargeable on the availment of this credit facility shall be that which is equivalent to eighty percent (80%) of the total of interest and fees received by the bank from the issuer, net of provision for gross receipts tax paid by the bank on such income.
- b. **Security.** The promissory note executed by the commercial paper issuer in favor of the bank for the amount drawn against the committed credit line shall be the security for this credit facility.
- c. **Loan values.** The loan value of paper offered as collateral shall be eighty percent (80%) of the amount still due and outstanding on the paper offered as collateral.
- d. **Repayment period.** The term of the credit accommodation may not exceed ninety (90) days and shall be non-renewable.

Ceiling. If availment of this credit facility is outside the other rediscount ceiling of the bank, it shall be limited to the extent of fifteen percent (15%) of the net worth of the bank.

(Circular No. 1008 dated 14 June 2018)

287-B/C COUNTRYSIDE FINANCIAL INSTITUTIONS ENHANCEMENT PROGRAM (CFIEP) FOR THRIFT, RURAL AND COOPERATIVE BANKS

The CFIEP shall be implemented under the terms of reference indicated in *Appendix 13*.

The bank's liability for papers discounted and/or rediscounted "*with recourse*" with the Bangko Sentral and/or other financial institutions shall be recorded and shown as "*Bills Payable*" in all reports submitted to the Bangko Sentral.

The loans and discounts, bills purchased, acceptances and other accounts affected by such discounting and/or rediscounting transactions shall remain as part of the bank's loan portfolio. A footnote in the financial statement shall indicate the outstanding balances of the discounted and/or rediscounted loans.

289 REDISCOUNTING WINDOW

Rediscounting Window for Low-Cost Housing as Defined by the Department of Human Settlements and Urban Development (DHSUD). The rules and regulations governing the rediscounting of housing loan papers of qualified banks under the low-cost housing program of the DHSUD are shown in *Appendix 36*.

Rediscounting Window Available to TBs for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs. TBs availing of rediscounting facility for purposes of providing liquidity assistance to support and promote microfinance programs shall comply with the guidelines under this Section on Rediscounting Window Available to Rural and Cooperative Banks for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs, except for the requirement of a custodian bank under Item "*a(6)*" of this Section on Rediscounting Window Available to Rural and Cooperative Banks for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs - Documentary requirements.

Rediscounting Window Available to Rural and Cooperative Banks for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs. The following guidelines shall govern the rediscounting facility available to RBs and Coop Banks for the purpose of providing liquidity assistance to support and promote microfinance programs.

a. Eligibility requirements

- (1) *Eligible borrowers* - RBs and Coop Banks with at least one (1) year track record in microfinance and at least 500 active borrowers, ratio of past due microfinance loans to total outstanding microfinance loans of not more than five percent (5%) as of end of the month preceding loan application and collection ratio of not less than ninety-five percent (95%) based on ratio of total collections (excluding prepayments) during the preceding twelve (12)-month period to the sum of past due microfinance loans at the beginning of said period and amount of matured loans including principal amortizations during the same twelve (12)-month period.
- (2) *Eligible papers* - Promissory Note (PN) of the RB or Coop Bank executed in favor of the Bangko Sentral and secured by duly endorsed PN of microcredit borrowers.
- (3) *Manual of operations* - Written policies on microfinance operations must be set forth and documented in a policy manual duly approved by the bank's board of directors. The manual should include the following minimum features:
 - (a) Scope of microfinance activities and the types of services or products offered to clients;
 - (b) Authorities and responsibilities of:
 - (i) Board of directors;
 - (ii) Management;
 - (iii) Chief executive officer or its equivalent;
 - (iv) Credit officers; and
 - (v) Other officers involved in the microfinance operations;
 - (c) Policies and procedures covering microfinance program/project;
 - (d) Client evaluation process which should involve at least: client orientation, pre-application, credit investigation, and loan application process;
 - (e) Loan processing, documentation and release of proceeds;
 - (f) Accounts monitoring system;
 - (g) Accounts delinquency management;
 - (h) Management Information System;
 - (i) Accounting policies, systems and procedures; and
 - (j) Internal controls and audit policies, systems and procedures.
- (4) A copy of System of Reviewing Asset Accounts and Setting Up of Adequate Allowance for Credit Losses submitted.
- (5) *Staff training and experience* - Key officers and staff responsible for microcredit operations must have a minimum experience of one (1) year and have completed a training course in microlending activities.

(6) *Prescribed financial ratios and regulations* - Applicant bank must comply with the following financial ratios and regulations:

- (i) Minimum capital prescribed under Sec. 121;
- (ii) Risk-based capital ratio of not less than ten percent (10%);
- (iii) Reserves against deposit liabilities prescribed under existing regulations;
- (iv) Ratio of past due direct and indirect loans to DOSRI to the bank's aggregate past due loans of not more than ten percent (10%);
- (v) Loans-to-deposits ratio of at least seventy-five percent (75%);
- (vi) Reports required to be submitted to the various departments and/or offices of the Bangko Sentral;
- (vii) CAMELS rating of three "3" or better; and
- (viii) Ratio of past due loans to total loan portfolio of not more than the industry average for RBs as of the preceding quarter.

b. *Microcredit line*

Application for Microcredit Line shall be filed with the DLC, Bangko Sentral at its head office in Manila. The term of the microcredit line shall not exceed one (1) year from the date it is granted. The line may be renewed for another year upon submission of an application at least two (2) months before expiry, subject to full compliance with the prescribed eligibility requirements and the credit review by the DLC.

Total availments against the facility, which shall be charged against the approved microcredit line, shall form part of the total authorized rediscount ceiling of the borrowing bank. The rediscount ceiling for microfinance shall be equivalent to one hundred percent (100%) of the bank's net worth, net of allowance for credit losses and other capital adjustments as recommended by the appropriate supervising department of the Bangko Sentral as of the last regular examination of the bank.

The proceeds of availment or drawdown against the approved microcredit line shall be credited to the account of the RB or Coop Bank maintained with the depository bank or with Bangko Sentral. The RB or Coop Bank shall be notified in writing/electronically of the credit of such account on the same banking day that the proceeds are released.

c. *Terms and conditions*

- (1) The loan value shall be equivalent to eighty percent (80%) of the outstanding balance of the microfinance borrower's PN.
- (2) The RB or Coop Bank's loan from the Bangko Sentral shall have a term of not more than 360 days. The maturity date of the microfinance borrower's PN shall in no case be beyond the maturity date of the RB or Coop Bank's PN.
- (3) The loan shall be assessed an annual interest rate equivalent to the ninety-one (91) day Treasury Bill rate for the last auction date of the preceding month.
- (4) The demand deposit account of the RB or Coop Bank will be automatically debited at the maturity date of the Bangko Sentral loan for the full amount due excluding collections from microfinance borrowers which were credited to the Special Savings Account of the Bangko Sentral with the borrowing bank.
- (5) Any responsible officer who is holding a position that is not lower than manager or equivalent rank must, upon approval by the bank's Board, endorse the rediscounted PNs and certify that the same are still outstanding as of the time of application.
- (6) Collections made on amortizations due and maturing PNs shall be remitted to the DLC not later than two (2) banking days following the date of receipt of collections by the Head Office/branches located within Metro Manila and not later than four (4) banking days following the date of receipt of collections by the Head Office/branches located outside Metro Manila as provided under this Section on Rediscounting Window Available to Rural and Cooperative Banks for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs - Remittance of collections/payments/repayments.
- (7) A penalty of five percent (5%) per annum shall be imposed on matured and unpaid bank PNs in favor of the Bangko Sentral.

Full compliance at all times with the eligibility requirements as prescribed under this Section on Rediscounting Window Available to Rural and Cooperative Banks for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs - Eligibility requirements.

d. *Documentary requirements*

- (1) *Application for Microcredit Line.* RBs or Coop Banks applying for an microcredit line shall submit a letter of application to DLC accompanied by the following documents:
 - (a) Certificate of the Secretary (original) and copy of the resolution duly signed by the board of directors of the applicant bank, authorizing the bank to apply for an microcredit line with the Bangko Sentral and designating the officer authorized under Item “e” of this Section on Rediscounting Window Available to Rural and Cooperative Banks for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs - Terms and conditions to endorse the PNs and sign all papers pertaining to the rediscounting line in the prescribed format.
 - (b) Certification of the applicant bank that it has complied with the financial and regulatory ratios, conditions, and reportorial requirements prescribed under the eligibility requirements for rediscounting as provided under this Section on Rediscounting Window Available to Rural and Cooperative Banks for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs - Eligibility requirements.
 - (c) *Consolidated Financial Statements* - Statement of Condition as of the end of the month immediately preceding the date of application together with the corresponding Statement of Income and Expenses covering the results of operations for the last three (3) years.
 - (d) Report on required and available reserves covering the past two (2) consecutive weeks immediately preceding the date of application.
 - (e) Rediscounting Line Agreement executed by the duly authorized officer/s of the Bank of the RB or Coop Bank.
 - (f) Notarized custodian agreement executed among the duly authorized officer/s of the Bank of the RB or Coop Bank, the third party custodian and the Bangko Sentral.
- (2) *Availment of microcredit Line.* For availment of microcredit line, the RB or Coop Bank shall submit the following documents:
 - (a) Application for Microcredit Line Availment - original and one (1) copy in prescribed form duly accomplished and signed by the duly authorized officer/s of the Bank of the applicant bank;
 - (b) Rediscount Schedule (RS); and
 - (c) Notarized PNs in favor of the Bangko Sentral - original and two (2) copies.

e. *Remittance of collections/payments/repayments*

Collections made on amortizations due and maturing PNs shall be remitted to the DLC not later than two (2) banking days following the date of receipt of collections by the Head Office/branches located within Metro Manila and not later than four (4) banking days following the date of receipt of collections by the Head Office/branches located outside Metro Manila. As an alternative, collections may be deposited in a Special Savings Deposit Account (SSDA) which shall be maintained by the Bangko Sentral with the borrower-bank and remitted to DLC on the last banking day of every month. The SSDA shall earn interest of one percent (1%) lower than the 91-day Treasury Bill rate for the last auction date of the preceding month.

On due date of the PN, the RB or Coop Bank shall remit to the Bangko Sentral the unpaid balance of such PN: *Provided*, That any amount credited to the SSDA shall be applied as payment of the PN in favor of Bangko Sentral. The remittance shall be reported under DLC Form No. 5. The remittance to Bangko Sentral shall be in the form of cash, demand draft, manager’s check or based on authority issued by the bank to debit its demand deposit account with Bangko Sentral. Check payments and demand drafts shall be given value when cleared.

f. *Reports required*

A monthly report on microfinance transactions shall be submitted to DLC within the deadline set in *Appendix 7*.

g. *Accounts verification*

The microcredit accounts rediscounted shall be subject to verification and confirmation by authorized DLC representatives to determine their eligibility and acceptability for rediscounting.

h. *Sanctions*

Any misrepresentation and/or violation of the provisions of this Section shall subject the RB or Coop Bank and/or the erring directors/officers to any of the following sanctions:

(1) *Erring RB or Coop Bank*

- (a) Fines in amounts as may be determined by the Monetary Board to be appropriate, but in no case to exceed Thirty thousand pesos (P30,000) a day for each violation;
- (b) Suspension of rediscounting privileges or access to Bangko Sentral credit facilities; and/or
- (c) Reduction of rediscounting line.

(2) *Erring directors/officers*

For violation of any of the provisions of this Section the following shall be imposed against the directors and officers of the bank:

- (a) *1st offense* - a warning that a repetition of the same or similar offense shall subject the erring director/officer to monetary penalties and/or sanctions;
- (b) *2nd offense* - a fine of P500 per day for each violation from the time the violation was committed up to the time it is corrected without prejudice, however, to the imposition of higher penalties; and
- (c) *3rd and subsequent offenses* - a fine of P5,000 per day from the time the violation was committed up to the time it is corrected without prejudice, however, to the imposition of higher penalties.

If any of the documentary requirements submitted by the bank as required under this Section on Rediscounting Window Available to Rural and Cooperative Banks for the Purpose of Providing Liquidity Assistance to Support and Promote Microfinance Programs - Documentary requirements is found to be false, a fine of P5,000 per day, from the time the certification was made up to the time the certification was found to be false, shall be imposed against the certifying officer.

(Circular No. 1053 dated 7 October 2019)

290 ENHANCED INTRADAY LIQUIDITY FACILITY (ILF)

The ILF is a smoothening mechanism which is available to eligible participant banks in the Philippine Payments and Settlements System (PhilPaSS) to support their liquidity requirements and avoid payment gridlocks in PhilPaSS. The revised features of the enhanced intraday liquidity facility are in *Appendix 18*.

K. OTHER BORROWING OF BANKS

291 BORROWINGS FROM THE GOVERNMENT

Except as may be authorized by existing statutes, no private bank shall, whether or not performing quasi-banking functions, borrow any fund or money from the Government and government entities, through the issuance or sale of its acceptances, notes or other evidences of debt.

Exemption from reserve requirement. The following borrowings shall not be subject to the reserve requirements:

- a. STDs and deposit substitutes of specialized government banks and private banks arising from their lending operations under the special financing programs of the Government and/or international FIs; and
- b. Funds held by participating financial institutions (PFIs) under the GSIS Housing Loan Programs: *Provided*, That the agreement between the GSIS and the conduit banks specify that such funds may be held by the conduit banks for a period of not more than seven (7) calendar days prior to their release to the borrower and prior to the remittance by the conduit banks of payments to the GSIS.
- c. Borrowings by accredited FIs under the Wholesale Lending Program for SMEs of the SBGFC.

292 BORROWINGS FROM TRUST DEPARTMENTS OR INVESTMENT HOUSES

Funds borrowed by banks from trust departments or managed funds of banks or IHs are not considered as interbank borrowings and therefore are subject to the:

- a. Reserve requirement on deposit substitutes; and
- b. Minimum trading lot rule.

The following borrowings from banks, quasi-banks and other financial intermediaries as defined under Sec. 101-Q (*Financial intermediaries*) shall not be considered as deposit substitutes:

- a. *Borrowings from banks, quasi-banks and other financial intermediaries.* Borrowings of banks from other banks, quasi-banks and other financial intermediaries shall be subject to appropriate documentation.

Borrowings of banks from other banks and quasi-banks shall also be subject to the regulations on interbank loan transactions under Sec. 315.

- b. *Repurchase agreements.*

- (1) Repurchase agreements covering government securities that are transacted in an organized market under the Government Securities Repo Program.
- (2) Other repurchase agreements with counterparties that are banks, quasi-banks or other financial intermediaries. These shall be governed by the following regulations:

- (a) *Proper recording and documentation of repurchase agreements.* Banks shall have a true and accurate account, record or statement of their daily transactions. As such, repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments must be properly recorded and documented.

The absence of proper documentation for repurchase agreements is tantamount to willful omission of entries relevant to any transaction, which shall be a ground for the imposition of administrative sanctions and the disqualification from office of any director or officer responsible therefor under existing laws and regulations.

- (b) *Responsibilities of the chief executive officer (CEO) or officer of equivalent rank.* It shall be the responsibility of the CEO or the officer of equivalent rank in a bank to:

- (i) Institute policies and procedures to prevent undocumented or improperly documented repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments;
- (ii) Ascertain and ensure that the bank did not enter into a repurchase agreement covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations and that the bank has strictly complied with the pertinent rules of the SEC and the Bangko Sentral on the proper sale of securities to the public and performed the necessary representations and disclosures on the securities;
- (iii) Inform the client of all relevant disclosures pertaining to repurchase agreements under Sec. 242, as applicable; and
- (iv) Report to the appropriate supervising department of the Bangko Sentral any undocumented repurchase agreement within seventy-two (72) hours from knowledge of such transactions.

Sanctions. The Monetary Board may, at its evaluation and discretion, impose any or all of the following sanctions to a bank or the director/s or officer/s found to be responsible for repurchase agreements covering government securities, commercial papers and other negotiable and non-negotiable securities or instruments that are not documented in accordance with existing Bangko Sentral regulations:

- (a) Fine of up to ₱30,000 a day to the concerned entity for each violation from the date the violation was committed up to the date it was corrected;
 - (b) Suspension of interbank clearing privileges/immediate exclusion from clearing;
 - (c) Suspension of access to Bangko Sentral rediscounting facilities;
 - (d) Suspension of lending or foreign exchange operations or authority to accept new deposits or make new investments;
 - (e) Revocation of quasi-banking license;
 - (f) Revocation of authority to perform trust operations; and
 - (g) Suspension for 120 days without pay of the directors/officers responsible for the violation;
- c. *Bonds.* Bonds that are issued to banks, quasi-banks and other financial intermediaries as defined under Sec. 101-Q (*Financial intermediaries*) shall comply with the regulations prescribed under Sec. 246 on the issuance of bonds and commercial papers; and

- d. *Mortgage and chattel mortgage (CHM) certificates.* With prior approval of the Monetary Board, thrift banks may issue and deal in mortgage and CHM certificates with banks, quasi-banks or other financial intermediaries as defined under Sec. 101-Q (*Financial intermediaries*). The issuance of said certificates shall be governed by rules and regulations under *Appendix 14*.

Delivery of securities

The guidelines on the delivery of securities, warehouse receipts, quedans and other documents of title which are the subject of quasi-banking functions, such as repurchase agreements, under Sec. 242 shall, likewise, apply to borrowings with banks, quasi-banks and other financial intermediaries.

(Circular No. 1061 dated 25 November 2019)

293-B MORTGAGE/CHM CERTIFICATES OF THRIFT BANKS

(Deleted by Circular No. 1061 dated 25 November 2019)

294-C BORROWINGS OF RURAL BANKS/COOPERATIVE BANKS

RBs and Coop Banks may rediscount papers with any bank.

The obligations of RBs arising from availments of rediscounting facilities and other borrowings from the Bangko Sentral, will be considered as deposit substitutes. However, with the qualification in the Tax Code of 1997 that the term *public* means borrowing from twenty (20) or more individual or corporate lenders at any one (1) time, it is clear that the obligations of the RBs to Bangko Sentral, which are entered in their books as "*Bills Payable-Bangko Sentral*," do not presently fall under the category of deposit substitutes.

L. OTHER LIABILITIES

295 COLLECTION OF CUSTOMS DUTIES/TAXES/LEVIES AND OTHER REVENUES, AND ACCEPTANCE, ENCASHMENT OR NEGOTIATION OF CHECKS DRAWN IN FAVOR OF COMMISSIONER

The following regulations shall govern the collection and reporting of customs duties, taxes, levies and other revenues through the banking system.

Coverage. All presently accredited agent banks with demand deposit accounts with the Bangko Sentral and government banks are authorized to collect (a) customs duties, taxes and other levies, (b) import processing fees, and (c) export/premium duties: *Provided, however,* That the collection of taxes from GOCCs shall be made only through banking offices of government banks.

Collection and reporting of internal revenue taxes. Banks which are duly accredited by the BIR to accept payment of internal revenue taxes shall be governed by the relevant BIR Revenue Regulations.

Deposits of the BIR shall be limited to those arising from tax collection.

The Authorized Agent Banks (AABs) shall transfer the deposit collection to the account of the Treasurer of the Philippines with the Bangko Sentral on the sixth day from the day of deposit of the BIR collections.

Collection and reporting of customs duties and import processing fees. Participating banks are authorized to accept payment of customs duties, taxes and other levies, and import processing fees under the following procedures:

- a. The collecting bank shall acknowledge receipt of payments of customs duties, taxes and other levies, and import processing fees by issuing Official Receipts (ORs) in forms to be requisitioned by the Head Office from the General Services Division, Bureau of Customs, Manila;
- b. The collecting bank shall book all such collections and credit the same to the special account "*Due to Bangko Sentral - Bureau of Customs*";
- c. The branch shall report by telephone, telex or other means to its Head Office, at the end of each day, total collections for the day and the inclusive serial numbers of ORs issued, to be used as basis for the preparation by the Head Office of the *Consolidated Report of Daily Collections of Customs Duties, Taxes and Other Levies (RC 82-005)*;
- d. The Head Office and its branches shall accomplish the *Abstract of Daily Collections of Customs Duties, Taxes and Other Levies (RC 82-006)* and submit the same, duly supported with copies of Orders of Payment (OPs), ORs, Release Certificates (RCs) and commercial invoices on the same day to the offices indicated in the form; and

- e. The Head Office of the participating banks shall consolidate all reports of collections with those of its branches and submit the original of the *Consolidated Report on Daily Collections of Customs Duties, Taxes and Other Levies (RC 82-005)* to the Comptrollership Department, Bangko Sentral, Manila on the 10th calendar day following the date of collection. Simultaneously, the remaining copies shall be distributed to the offices indicated in the form.

Deposits of the BOC shall be limited to those arising from customs collection.

The AABs shall transfer the deposit collection to the account of the Treasurer of the Philippines with the Bangko Sentral on the eleventh day from the day of deposit of the BOC collections.

Collection and reporting of export/premium duties. Participating banks are authorized to accept payment of export premium duties under the following procedures:

- a. The collecting bank shall deduct from the export proceeds the estimated amount of export/premium duties due from the export shipment upon negotiation of the shipping documents but shall collect the exact and correct amount of such duties upon presentation of the OP issued by the Export Coordinating Division, Bureau of Customs (For Port of Manila) or the Collector of Customs concerned;
- b. The collecting bank shall issue the corresponding ORs in forms to be requisitioned by the Head Office from the General Services Division, Bureau of Customs, Manila;
- c. The collecting bank shall book all such collections and credit the same to the special account "*Due to Bangko Sentral-Export/Premium Duty*";
- d. The branch/extension office agency shall:
 - (1) Report by telephone, telex or other means to its Head Office, at the end of each day, total collections for the day and the inclusive serial numbers of ORs issued, to be used as basis for the preparation by the Head Office of the *Consolidated Report on Daily Collections of Export/Premium Duty (RC 82-007)*; and
 - (2) Accomplish the *Abstract of Daily Collections of Export/Premium Duty (RC 82-008)* and submit the same, duly supported with copies of OPs and ORs, within ten (10) calendar days from date of collection to the offices indicated in the form.
- e. The Head Office of the collecting bank shall:
 - (1) Consolidate its report of collection with those of its branches/extension offices/agencies and submit to the Bureau of Customs the *Consolidated Report of Daily Collections of Export/Premium Duty (RC 82-009)* on the day following the date of collection; and
 - (2) Consolidate the *Abstract of Daily Collections of Export/Premium Duty (RC 82-010)* with those received from branches/extension offices/agencies. The original of the *Consolidated Abstract of Collection of Export/Premium Duty (RC 82-011)* shall be submitted to the Comptrollership Department, Bangko Sentral, Manila, on the 10th calendar day following the date of collection.

Simultaneously, the remaining copies, with the supporting OPs and ORs, shall be submitted to the Bureau of Customs.

Remittances thru debit/credit advices. The Comptrollership Department of Bangko Sentral, Manila, shall debit the DDAs of the banks concerned for the total daily collection, which is due for remittance on the 10th calendar day from the date of collection (based on either forms RC 82-005, RC 82-007 or RC 82-011). Said Department shall also credit on the same day the account of the Treasurer of the Philippines for all such remittances of tax collections, duties, fees and other levies.

Copies of debit/credit advices to AABs shall be furnished by the Comptrollership Department, Bangko Sentral.

Reconciliation of revenue collections. The Bureau of Customs shall report to the appropriate supervising department of the Bangko Sentral, Manila, any unreported collection or other discrepancies discovered for proper examination. The Bangko Sentral shall take appropriate action, through the Comptrollership Department, either by debiting or crediting the DDA of the bank concerned, upon advice by the appropriate supervising department of the Bangko Sentral on the results of the investigation.

Penalty for willful delay on the reporting of collections/remittances. In the event the Bureau of Customs shall discover, in the course of its verification, any willful delay in the reporting of collections and remittances by banks, said Bureau shall advise the Comptrollership Department of the Bangko Sentral to debit the DDA of the bank concerned with the corresponding penalty therefor, in accordance with this Section (Fines for delayed reports/remittances of collections).

Fines for delayed reports/remittances of collections. Any bank authorized to collect customs duties, taxes and other levies and export/premium duty, which shall willfully delay the submission of reports and remittance of its collection to the Bangko Sentral within the period prescribed thereon, shall pay fines in accordance with the following schedule:

	Per delay in submission of report	Per delay in remittance of collection
a. Per day of default for the first 5 days of default	P60 plus	1/30 of 1% on the amount of delayed remittance
b. Per day of default for the next 5 days of default	P90 plus	1/15 of 1% on the amount of delayed remittance
c. Per day of default for the succeeding days of default	P120 plus	1/10 of 1% on the amount of delayed remittance

Provided, That:

- (1) Fines imposed above shall not be in excess of P30,000 a day;
- (2) The default shall start to run on the day following the last day required for submission of the report or remittance, as the case may be. However, should the last day of filing fall on a non-banking day in the locality where the reporting bank is situated, the default shall start on the day following the next banking day; and
- (3) The manner of payment or collection of fines enumerated under Sec. 1102 (*Guidelines on the imposition of monetary penalties*) shall apply.

Liquidity floor requirement on revenue collections. Revenue collections of AABs shall be subject to the liquidity floor requirement under Sec. 231 (*Liquidity floor*).

Collection of import duties at the time of opening of letters of credit. The following rules and regulations shall govern the collection of import duties at the time of opening of letters of credit (LC) covering imports and for other purposes:

Under Non-Electronic to Mobile (e2m) ports

- a. *Collection of deposits of import duties.* All FIs shall, upon opening of the LC covering imports, collect from the applicant/importer a deposit equivalent to the full amount of import duties due on the importation covered by such LC. The deposit shall not be withdrawable and shall be utilized only by crediting the same to the import duties due on the importation.
- b. *Amount of import duties.* The import duties due shall be determined and declared by the applicant for the LC subject to the penalties prescribed under the Tariff and Customs Code.
- c. *Other payment arrangements.* The requirement of a deposit shall likewise apply even if the importation is effected under other types of payment arrangements or on a deferred payment basis. The deposit should be made upon presentation of the import documents to the agent bank.
- d. *Validation of official receipt.* Such deposits shall be validated by official receipts of the FIs concerned and shall be credited in the final computation of the import duties, taxes and other charges due on the importation, upon the filing of the corresponding import entry.
- e. *Collection of deficiency and refund of excess deposits.* Any deficiency in the deposit made as against the actual import duties, taxes and other charges due on the importation shall be collected by the Bureau of Customs from the importer prior to the release or withdrawal of the shipment. Any excess deposit shall be refunded by the Bureau of Customs to the importer.
- f. *Remittance of collection.* The Bangko Sentral DDA of the FIs concerned shall be debited for the deposits collected, in accordance with Sec. 295 (*Remittances thru debit/credit advices*).

Under e2m ports

- a. *Collection of deposits of import duties.* All FIs shall, prior to opening of the LC covering imports, collect from the applicant/importer a deposit equivalent to the full amount of advance import duties due on the importation covered by such LC. The deposit which shall be effected through an electronic Import Entry Declaration (IED) lodged thru a Value Added Service Provider (VASP), shall not be withdrawable and shall be utilized only by crediting the same to the import duties due on the importation.

- b. *Amount of advance deposit.* The import duties due shall be computed by the Electronic to Mobile (e2m) system based on the applicant's declared descriptions, ASEAN Harmonized Tariff Nomenclature (AHTN), quantities and values in the IED. The LC applicant must ensure that the particulars of the LC application and the supporting pro-forma invoice correspond to those declared in the IED and any undervaluation, misclassification and misdeclaration in the IED shall subject the LC applicant to the penalties prescribed under Section 2503 of the Tariff and Customs Code, as amended. The amount payable to the AAB, which shall be the full advance duty payable on the importation taking into account exemptions obtained, shall be notified to the AAB thru an electronic Advance Deposit Payment Instruction (ADPI).

The net amount payable must be paid within the IED validity period which is reckoned as seven (7) calendar days from date the payment instruction is generated by the e2m system. Beyond the validity period, the IED status will be indicated as expired. For expired IEDs, AABs shall not accept payment. Importers will have to file a new IED.

- c. *Duty exempt imports.* If the importer/applicant declares in the IED that the importation is exempt from duties, such claim shall be taken at face value in the determination by the Bureau of Customs (BOC) of the amount of advance deposit. However, AABs shall, as a requirement for the opening of the LC, require from the applicant a sworn statement to the effect that it is duty-exempt and citing the specific basis/authority of such exemption, supported by a copy of the applicable certification/approval/letter of authority of the government agency concerned.
- d. *Transmittal of the ADPI to the AABs.* The ADPI shall be transmitted by the BOC to the PCHC Payment Gateway which shall have responsibility for forwarding the same to the AAB concerned.
- e. *Collection by debit from designated bank account.* The collection of the advance deposit as well as of the final duties, taxes and other charges payable on the importation shall be by debit from the applicant's bank account designated in the ADPI or in the Final Payment Instruction (FPI) and credited to the BOC's account.
- f. *Validation of advance deposits.* Payment of advance deposits shall be validated by official receipts, such as electronic Advance Payment Confirmations (APC) prepared and transmitted by the AAB using the payment subsystem of the e2m system via the PCHC Payment Gateway.
- g. *Other payment arrangements.* The requirement of a deposit as stated in Item "a" hereof shall likewise apply even if the importation is effected under other types of payment arrangements or on a deferred payment basis. The deposit should be made upon presentation of the import documents to the AAB.
- h. *Confirmation of advance duties collected.* The e2m system shall provide the importer's VASP the APC. The VASP shall in turn notify the importer by e-mail of its receipt of the APC and provide the importer a printed copy thereof upon request.
- i. *Collection of final duties and tax payable.* The final duties and tax payable as computed by the e2m system shall be notified to the AAB concerned thru an electronic FPI. After collecting the amount in the FPI, the AAP shall transmit to BOC via the PCHC Payment Gateway a Final Payment Confirmation (FPC).
- j. *Statement of duties and taxes availment (SDTA).* Upon receipt of the FPC from the AAB, the BOC shall provide the importer electronically an SDTA which shall be his proof of having settled all duties, taxes, and other charges on the importation.
- k. *Phased implementation.* The e2m system shall be rolled out nationwide in phases. Importations to be cleared thru Customs Collection Districts already operating the e2m system shall be paid thru payment system prescribed under this Section. However, importations to be cleared thru non-e2m customs ports shall follow the old payment system during the migration period.

Violations. Any violation of the provisions of this Section shall be penalized under the pertinent provisions of the Tariff and Customs Code of the Philippines, as amended, and/or under Section 37 of R.A. No. 7653.

Acceptance, encashment or negotiation of checks drawn in favor of commissioner/Collector of Customs. All checks payable to the Commissioner/Collector of Customs shall be accepted for deposit only to the account of the Commissioner/Collector of Customs. Banks where the Commissioner/Collector of Customs has no account shall not encash, accept nor negotiate checks payable to the Commissioner/Collector of Customs.

Any attempt to defraud the government or the bank through the irregular or unauthorized encashment or deposit of these checks to accounts other than that of the Commissioner/Collector of Customs shall be reported immediately by the head of the banking office to the BOC, copy furnished the Bangko Sentral.

(Circular No. 987 dated 15 December 2017)

Banks duly accredited by the SSS are authorized to act as collection agents under which agency, members of the SSS may pay their contributions for social security and employees' compensation to the SSS through the said banks. Such banks are also authorized to receive from SSS members amortization payments for loans granted by the SSS and such other payments due to SSS.

The funds thus collected shall be remitted to the SSS within the period prescribed by the SSS. Any form of business/compensation arrangement to the collection agents shall be in accordance with the terms and conditions agreed upon by the parties.

The funds collected by banks shall be handled by the bank proper and not the trust department: *Provided, however*, That: such deposits shall be subject to the reserve requirements and the liquidity floor requirements on government deposits.

297 COLLECTION AGENTS OF PHILHEALTH

Banks are authorized to act as collecting agents of the Philippine Health Insurance Corporation (PhilHealth) under which agency:

- a. PhilHealth members may pay their premium contributions to PhilHealth through the said banks and the funds thus collected shall be remitted to PhilHealth in accordance with PhilHealth's agreed remittance schedule which in no case shall exceed thirty (30) days from receipt thereof;
- b. During the period that such premium contributions are in the custody of banks, such funds shall not earn interest; and
- c. The banks shall not collect from PhilHealth any service charge for such agency.

The funds collected by the banks shall be handled by the operating departments (cash departments) of the banks concerned and not their trust operations: *Provided, however*, that such funds shall be subject to the reserve requirement on deposits and to the liquidity floor on government deposits.

298 DISCLOSURE OF REMITTANCE CHARGES AND OTHER RELEVANT INFORMATION¹

It is the policy of the Bangko Sentral to promote the efficient delivery of competitively-priced remittance services by banks and other remittance service providers by promoting competition and the use of innovative payment systems, strengthening the financial infrastructure, enhancing access to formal remittance channels in the source and destination countries, deepening the financial literacy of consumers, and improving transparency in remittance transactions, consistent with sound banking.

Towards this end, banks providing overseas remittance services shall disclose to the remittance sender and to the recipient/beneficiary, the following minimum items of information regarding remittance transactions, as defined herein:

- a. *Transfer/remittance fee* - charge for processing/sending the remittance from the country of origin to the country of destination and/or charge for receiving the remittance at the country of destination;
- b. *Exchange rate* - rate of conversion from foreign currency to local currency, e.g., peso-dollar rate;
- c. *Exchange rate differential/spread* - foreign exchange mark-up or the difference between the prevailing Bangko Sentral reference/guiding rate and the exchange/conversion rate;
- d. *Other currency conversion charges* - commissions or service fees, if any;
- e. *Other related charges* - e.g., surcharges, postage, text message or telegram;
- f. *Amount/currency paid out in the recipient country* - exact amount of money the recipient should receive in local currency or foreign currency; and
- g. *Delivery time to recipients/beneficiaries* - delivery period of remittance to beneficiary stated in number of days, hours or minutes.

Banks shall likewise post said information in their respective websites and display them prominently in conspicuous places within their premises and/or remittance/service centers.

In case of domestic remittance transactions, all fees to the transactions shall be charged upfront by banks from the sender/remitter's end, with appropriate disclosure to the sender/remitter of the components of the fees being charged. This does not preclude the bank and/or other participants to the domestic remittance transaction from charging service fees. *Domestic remittance transaction*, for this purpose, is a transfer of funds between a sender/remitter and a beneficiary who are both within the Philippines, and is not covered by electronic payment transaction as defined under the National Retail Payment System (NRPS) Framework.

(Circular Nos. 980 dated 2 November 2017 and 952 dated 22 March 2017)

¹ The BSFIs are given until 27 April 2017 to comply with the provision of this Section.

Policy Statement. Pursuant to the Bangko Sentral's policy of promoting the development of domestic capital markets by upholding investor protection and transparency in securities transactions, following are the guidelines relating to the segregation, handling and reporting of customer funds and securities received by banks in the performance of their securities brokering functions.

The limited coverage of the guidelines shall not relieve the bank acting as securities broker of its obligation to comply with other requirements of the Securities Regulation Code (SRC) and its Implementing Rules and Regulations (IRR).

Definition of terms

- a. *Securities brokering* - A securities brokering transaction refers to the act of buying and selling evidences of indebtedness, shares and all types of securities by order of and for the account of customers.
- b. *Securities broker* - A securities broker refers to an entity which is duly-registered by the SEC to engage in securities brokering transactions.
- c. *Customer* - A customer refers to any person from whom, or on whose behalf, a securities broker receives, acquires or holds funds or securities for the account of such person.
- d. *Customer securities* - Customer securities refer to (1) securities received by a securities broker in behalf of any customer; (2) securities carried long by a securities broker for the account of any customer; and (3) securities sold to, or bought for, a customer, by a securities broker.
- e. *Customer funds* - This shall refer to funds received from a customer by a broker under a securities brokering arrangement.
- f. *Broker customer account for settlement of customer trades* - This shall refer to the separate cash account and margin account of the customer which shall be used exclusively for the settlement of securities brokering transactions.
- g. *Broker customer securities account* - This shall refer to customer securities held in accordance with securities brokering agreements such as securities held as margin and/or prior to the settlement of a customer securities transaction.

Segregation of customer funds and securities. A bank which receives customer funds and securities in the performance of their securities brokering transactions shall keep these funds and securities separate from its own assets and liabilities.

- a. For securities brokering purposes, separate accounts, shall be opened and maintained by/for the customers, designated as follows:
 - (1) "Broker Customer Account for Settlement of Customer Trades" where all funds pertinent to securities brokering transactions shall be lodged; and
 - (2) "Broker Customer Securities Account" where all securities pertinent to securities brokering transaction of the customers shall be lodged.
- b. The bank must institute adequate risk management systems and controls to ensure protection of customer funds and securities, proper segregation of functions and prevention of conflict of interest situations that may arise in the conduct of securities brokering activities within the bank.

Accounting and record keeping. A bank shall make and keep current books and records relating to customer funds and securities which shall be maintained in the principal office of the bank.

- a. Customer funds received by banks in its brokering activities shall be recorded in the liability account "Broker Customer Account for Settlement of Customer Trades." This account shall be governed by the following guidelines:
 - (1) All funds under this account are held by the bank in a fiduciary capacity.
 - (2) It shall be free from any and all liens on the bank's assets and shall not be held to answer for any liability of the bank.
 - (3) It shall not earn interest and will not be included under the coverage of an insured deposit under R.A. No. 3591, as amended.
 - (4) It shall also be excluded from the monies/assets for which the Bangko Sentral requires reserves.
- b. Securities received by banks in its brokering activities such as securities held as margin and/or held prior to the settlement of customer securities transaction shall be recorded as an off-balance sheet item under the "Broker Customer Securities Account" in the books of the bank proper. This account shall be governed by the following guidelines:

- (1) All securities under this account are held by the bank in a fiduciary capacity.
- (2) This shall be free from any and all liens on the bank's assets and shall not be held to answer for any liability of the bank.
- (3) This shall also be excluded from the monies/assets for which the Bangko Sentral provides reserve requirements.

Receivership. Whenever a receiver is appointed by the Monetary Board for a bank which is authorized to engage in securities brokering activities, the receiver shall, pursuant to the instructions of the Monetary Board, proceed to close the securities business promptly and arrange for another Exchange Member, where such bank is a member of an Exchange, to take over any outstanding contracts and inform the affected customers in writing that their accounts have been transferred.

Where the bank is not a member of an Exchange, the receiver pursuant to the instructions of the Monetary Board, shall notify the affected customers, if any, of the placement of such bank under receivership and require that they transfer their accounts to another broker.

Reportorial requirements. All banks with securities brokering license shall submit to the appropriate unit of the Bangko Sentral on a monthly basis an additional report listed in *Appendix 7*. This report shall be considered a *Category A-1* report and shall contain the end-of-week balances of cash and securities that are held in accordance with the securities brokering arrangement with its clients.

(Circular No. 903 dated 29 February 2016, M-2015-034 dated 14 September 2015, and Circular No. 885 dated 14 August 2015)

PART THREE

LOANS, INVESTMENTS AND SPECIAL CREDITS

A. GENERAL PROVISIONS ON LENDING OPERATIONS

301 GRANT OF LOANS AND OTHER CREDIT ACCOMMODATIONS

In addition to the principles and standards provided under Sec. 143, the following regulations shall be observed in the grant of loans and other credit accommodations.

Additional requirements. FIs shall require submission and maintain on file updated ITRs of the borrower, and his co-maker, if applicable, duly stamped as received by the BIR together with supporting financial statements, as applicable. FIs shall likewise require borrowers to execute a waiver of confidentiality of client information and/or an authority of the FI to conduct random verification with the BIR in order to establish authenticity of these documents.

Should the document(s) submitted prove to be incorrect in any material detail, the FI may terminate any loan or other credit accommodation granted on the basis of said document(s) and shall have the right to demand immediate repayment or liquidation of the obligation.

The required submission of such documents shall not cover the following credit exposures:

- a. Microfinance loans as defined under Sec. 314 (*Definition*, Item “a”);
- b. Loans to registered Barangay Micro-Business Enterprises (BMBEs);
- c. Interbank loans;
- d. Loans secured by hold-outs on or assignment of deposits or other assets considered non-risk by the Monetary Board;
- e. Loans to individuals who are not required to file ITRs under BIR regulations, as follows:
 - (1) Individuals whose gross compensation income does not exceed their total personal and additional exemptions, or whose compensation income derived from one (1) employer does not exceed P60,000 and the income tax on which has been correctly withheld;
 - (2) Those whose income has been subjected to final withholding tax;
 - (3) Senior citizens not required to file a return pursuant to R.A. No. 7432, as amended by R.A. No. 9257, in relation to the provisions of the National Internal Revenue Code (NIRC) or the Tax Reform Act of 1997; and
 - (4) An individual who is exempt from income tax pursuant to the provisions of the NIRC and other laws, general or special; and
- f. Loans to borrowers, whose only source of income is compensation and the corresponding taxes on which has been withheld at source: *Provided*, That the borrowers submitted, in lieu of the ITR, a copy of their Employer’s Certificate of Compensation Payment/Tax Withheld (BIR Form 2316) or their payslips for at least three (3) months immediately preceding the date of loan application;
- g. Loans and other credit accommodations not exceeding P3.0 million; or
- h. Loans to start up enterprise borrowers during the first three (3) years of their operations or banking relationship.

Prohibited use of loan proceeds. Banks are prohibited from requiring their borrowers to acquire shares of stock of the lending bank out of the loan or other credit accommodation proceeds from the same bank.

Signatories. Banks shall require that loans and other credit accommodations be made under the signature of the principal borrower and, in the case of unsecured loans and other credit accommodations to an individual borrower, at least one (1) co-maker, except that a co-maker is not required when the principal borrower has the financial capacity and a good track record of paying his obligations.

Policies on peso consumer loans to Overseas Filipino Workers, foreign nationals, and embassy officials. Banks are allowed to extend peso consumer loans to the following individuals without prior Bangko Sentral approval:

- a. Overseas Filipino Workers (OFWs) as defined under existing labor laws and regulations;

- b. Embassy officials and employees (foreign diplomats and career consular officials and employees) based in the Philippines; and
- c. Foreign nationals holding valid visas issued by relevant Philippine authorities, subject to the following conditions:
 - (1) That the peso consumer loans that may be extended shall not include real estate or housing loans; and
 - (2) That the lending bank shall ensure that the borrower has resided in the Philippines for a period reasonable enough to allow the bank to make prudent credit decisions.

In this respect, the Bangko Sentral expects the lending bank to adhere to sound credit underwriting practices and to institute appropriate measures to mitigate credit and other risks involved in granting Peso consumer loans to OFWs and eligible foreign nationals.

Minimum required disclosure. Banks shall provide a table of the applicable fees, penalties and interest rates on loan transactions, including the period covered by and the manner of and reason for the imposition of such penalties, fees and interests; fees and applicable conversion reference rates for third currency transactions, in plain sight and language, on materials for marketing loans, such as brochures, flyers, primers and advertising materials, on loan application forms, and on billing statements: *Provided*, That these disclosures of the fees, charges and interest rates in the terms and conditions of the loan agreement: *Provided further*, That such table of fees, penalties and interest rates shall be printed in plain language and in bold black letters against a light or white background, and using the minimum Arial 12 theme font and size, or its equivalent in readability, and on the first page, if the applicable document has more than one (1) page.

Unfair collection practices. Banks, collection agencies, counsels and other agents may resort to all reasonable and legally permissible means to collect amounts due them under the loan agreement: *Provided*, That in the exercise of their rights and performance of duties, they must observe good faith and reasonable conduct and refrain from engaging in unscrupulous or untoward acts. Without limiting the general application of the foregoing, the following conduct is a violation of this Section:

- a. the use or threat of violence or other criminal means to harm the physical person, reputation, or property of any person;
- b. the use of obscenities, insults, or profane language which amount to a criminal act or offense under applicable laws;
- c. disclosure of the names of borrowers who allegedly refuse to pay debts, except as allowed under this Section on Confidentiality of information;
- d. threat to take any action that cannot legally be taken;
- e. communicating or threat to communicate to any person credit information which is known to be false, including failure to communicate that a debt is being disputed;
- f. any false representation or deceptive means to collect or attempt to collect any debt or to obtain information concerning a borrower; and
- g. making contact at unreasonable/inconvenient times or hours which shall be defined as contact before 6:00 A.M. or after 10:00 P.M., unless the account is past due for more than sixty (60) days or the borrower has given express permission or said times are the only reasonable or convenient opportunities for contact.

Banks shall inform their borrowers in writing of the endorsement of the collection of their account to a collection agency/agent, or the endorsement of their account from one collection agency/agent to another, at least seven (7) days prior to the actual endorsement. The notification shall include the full name of the collection agency and its contact details: *Provided*, That the required notification in writing shall be included in the terms and conditions of the loan agreement. Banks shall adopt policies and procedures to ensure that personnel handling the collection of accounts, whether these are in-house collectors, or third-party collection agents, shall disclose his/her full name/true identity to the borrower.

Confidentiality of information. Banks shall keep strictly confidential the data on the borrower or consumer, except under the following circumstances:

- a. disclosure of information with the consent of the borrower or consumer;
- b. release, submission or exchange of customer information with other financial institutions, credit information bureaus, lenders, their subsidiaries and affiliates;
- c. upon orders of court of competent jurisdiction or any government office or agency authorized by law, or under such conditions as may be prescribed by the Monetary Board;
- d. disclosure to collection agencies, counsels and other agents of the bank to enforce its rights against the borrower;
- e. disclosure to third party service providers solely for the purpose of assisting or rendering services to the bank in the administration of its lending business; and
- f. disclosure to third parties such as insurance companies, solely for the purpose of insuring the bank from borrower default or other credit loss, and the borrower from fraud or unauthorized charges.

Sanctions. Violations of the provisions of this Section on Minimum required disclosure, Unfair collection practices and Confidentiality of information shall be subject to any or all of the following sanctions depending upon their severity:

- a. *First offense.* Reprimand for the directors/officers responsible for the violation;
- b. *Second offense.* Disqualification of the bank concerned from the credit facilities of the Bangko Sentral except as may be allowed under Section 84 of R. A. No. 7653;
- c. Subsequent offense/s:
 - (1) Prohibition on the bank concerned from the extension of additional credit accommodation against personal security; and
 - (2) Penalties and sanctions provided under Sections 36 and 37 of R. A. No. 7653.

(Circular Nos. 1058 dated 15 November 2019 and 890 dated 02 November 2015)

302 AMORTIZATION ON LOANS AND OTHER CREDIT ACCOMMODATIONS

The amortization schedule of bank loans and other credit accommodations shall be adapted to the nature of the operations to be financed.

In case of loans and other credit accommodations with maturities of more than five (5) years, provisions must be made for periodic amortization payments, but such payments must be made at least annually: *Provided, however,* That when the borrowed funds are to be used for purposes which do not initially produce revenues adequate for regular amortization payments, the bank may permit the initial amortization payment to be deferred until such time as said revenues are sufficient for such purpose, but in no case shall the initial amortization date be later than five (5) years from the date on which the loan or other credit accommodation is granted: *Provided, further,* That in the case of agriculture and fisheries projects with long gestation periods, the initial amortization payment may be deferred for a longer period based on the economic life of the project as provided under Section 24 of R.A. No. 8435 and implemented under Sec. 313 (*Agriculture and Fisheries Projects with Long Gestation Periods*).

303 SECURED LOANS AND OTHER CREDIT ACCOMMODATIONS

A loan may be considered secured by collateral to the extent the estimated value of net proceeds at disposition of such collateral can be used without legal impediment to settle the principal and accrued interest of such loan: *Provided,* That such collateral must have an established market and the valuation methodology used is sound, and: *Provided further,* That in the case of real estate collateral, the maximum collateral value shall be sixty percent (60%) of its value as appraised by an appraiser acceptable to the Bangko Sentral.

A loan may also be considered as secured to the extent covered by a third party financial guarantee or surety arrangement where the credit enhancement provider is itself considered to be of high credit quality (credit rating of at least AA or equivalent) or is considered to be such by the Bangko Sentral.

Finally, a loan may be secured by a combination of acceptable collateral and guarantee arrangements as defined above, provided such arrangements are independent of one another for credit enhancement purposes.

Participation in foreclosure proceedings. Foreign banks which are authorized to do banking business in the Philippines through any of the modes of entry under Sec. 103 shall be allowed to bid and take part in foreclosure sales of real property mortgaged to them, as well as to avail of enforcement and other proceedings, and accordingly take possession of the mortgaged property, for a period not exceeding five (5) years from actual possession which excludes the redemption period, as defined under this Section on Redemption of foreclosed real estate mortgage, unless actual possession was acquired earlier: *Provided,* That in no event shall title to the property be transferred to such foreign bank.

In case said bank is the winning bidder, it shall, during the said five (5)-year period, transfer its rights to a qualified Philippine national, without prejudice to a borrower's rights under applicable laws. Should the bank fail to transfer such property within the five (5)-year period, it shall be penalized one half (1/2) of one percent (1%) per annum of the price at which the property was foreclosed until it is able to transfer the property to a qualified Philippine national.

To enable the Bangko Sentral to determine compliance with the foregoing, the foreign bank shall maintain, and make readily available for inspection, information pertaining to individual mortgaged properties foreclosed.

This provision does not limit the right of the mortgagee-bank to own condominium units as provided under existing laws.

Foreclosure by thrift banks. The foreclosure of mortgages covering loans granted by TBs and executions of judgment thereon involving real properties levied upon by a sheriff shall be exempt from the publications in newspapers now required by law where the total amount of loan, excluding interests due and unpaid, does not exceed P100,000 or such amount as the Monetary Board may prescribe as may be warranted by prevailing economic conditions and by the nature of service of customers served by each category of the TB. It shall be sufficient publication in such cases if the notices of foreclosure and execution of judgment are posted in the conspicuous area of the TB's premises, municipal building, municipal public market,

the barangay hall, and the barangay public market, if there be any, where the land mortgaged is situated within a period of sixty (60) days immediately preceding the public auction of execution of judgment. Proof of publication as required herein shall be accomplished by an affidavit of the sheriff or officer conducting the foreclosure sale or execution of judgment and shall be attached with the records of the case.

A TB shall be allowed to foreclose lands mortgaged to it: *Provided*, That said lands shall be covered under R.A. No. 6657.

Foreclosure by rural/cooperative banks. The foreclosure of mortgages covering loans granted by RBs and executions of judgment thereon involving real properties levied upon by a sheriff shall be exempt from the publications in newspapers now required by law where the total amount of loan, excluding interests due and unpaid, does not exceed P100,000 or such amount as the Monetary Board may prescribe as may be warranted by prevailing economic conditions. It shall be sufficient publication in such cases if the notices of foreclosure and execution of judgment are posted in the most conspicuous area of the municipal building, the municipal public market, the RB, the barangay hall, and the barangay public market, if any, where the land mortgaged is situated during the period of sixty (60) days immediately preceding the public auction of execution of judgment.

Proof of publication as required herein shall be accomplished by an affidavit of the sheriff or officer conducting the foreclosure sale or execution of judgment and shall be attached with the records of the case: *Provided*, That when a homestead or free patent is foreclosed, the homesteader or free patent holder, as well as his heirs shall have the right to redeem the same within one (1) year from the date of foreclosure in the case of land not covered by a Torrens Title or one (1) year from the date of the registration of the foreclosure in the case of land covered by a Torrens Title. *Provided, further*, That in any case, borrowers, especially those who are mere tenants, need only to secure their loans with the produce corresponding to their share.

In the case of Coop Banks, the foreclosure of mortgages and execution of judgment thereon involving real properties levied upon by a sheriff shall be exempt from the publications in newspaper now required by law where the total amount of loan, excluding interests due and unpaid, does not exceed P250,000 or such amount as the Bangko Sentral may prescribe as may be warranted by prevailing economic conditions and by the nature and character of the Coop Banks. It shall be sufficient publication in such cases if the notices of foreclosure and execution of judgment are posted in conspicuous areas in the bank's premises, municipal hall, the municipal public market, the barangay hall and the barangay public market, if any, where the property mortgaged is situated during the period of sixty (60) days immediately preceding the public auction or execution of judgment. Proof of publication as required herein shall be accomplished by an affidavit of the sheriff or officer conducting the foreclosure sale or execution of judgment and shall be attached to the records of the case.

An RB/Coop Bank shall be allowed to foreclose lands mortgaged to it including lands covered by R.A. No. 6657 (The Comprehensive Agrarian Reform Law of 1988), as amended: *Provided*, That said lands shall be subject to the retention limits provided under R.A. No. 6657: *Provided, further*, That a rural bank's power to foreclose lands mortgaged to it shall be subject to the limitations in the succeeding paragraph.

RBs which are not qualified to acquire or hold land in the Philippines pursuant to existing laws shall be allowed to bid and take part in foreclosure sales of real property mortgaged to them, as well as to avail of enforcement and other proceedings, and accordingly to take possession of the mortgaged property, for a period not exceeding five (5) years from actual possession which excludes the redemption period, as defined under this Section on Redemption of foreclosed real estate mortgage, unless actual possession was acquired earlier: *Provided*, That in no event shall title to the property be transferred to such RB.

In case the RB, which is not qualified to acquire or hold land in the Philippines, is the winning bidder, it shall, during the said five (5) year period, transfer its rights to a qualified Philippine national as defined under existing laws without prejudice to a borrower's right under applicable laws. Should said unqualified RB fail to transfer such property within the five (5) year period, it shall be penalized at one-half (1/2) of one percent (1%) *per annum* of the price at which the property was foreclosed until the property is transferred to a qualified Philippine national.

To enable the Bangko Sentral to determine compliance with the foregoing, RBs not qualified to acquire or hold land in the Philippines shall maintain, and make readily available for inspection, information pertaining to individual mortgaged properties foreclosed.

Transitory provisions. An RB established and operating prior to the effectivity of R.A. No. 10574, and which is considered as an RB not qualified to acquire or hold land in the Philippines starting 13 September 2013, shall:

- a. submit to the appropriate supervising department of the Bangko Sentral a divestment plan for the disposal of its title/interest in all land properties held by it; and
- b. transfer for a period of five (5) years existing owned or acquired properties to qualified Philippine nationals; *Provided*, That upon the expiry of the said five (5)-year period, RBs not qualified to acquire or hold land in the Philippines which fail to transfer their properties to qualified Philippine nationals shall be subject to the penalties under this Section on Foreclosure by rural/cooperative banks.

Redemption of foreclosed real estate mortgage. In the event of foreclosure, whether judicially or extrajudicially, of any mortgage on real estate, the mortgagor or debtor shall have the right within one (1) year after the sale of the real estate, to redeem the property by paying the amount due under the mortgage deed, with interest thereon at the rate specified in the mortgage, and all costs and expenses incurred by the bank or institution from the sale and custody of said property less the income derived therefrom. However, the purchaser at the auction sale concerned shall have the right to enter upon and take possession of such property immediately after the date of the confirmation of the auction sale and administer the same in accordance with the law.

Juridical persons, whose property is being sold pursuant to an extra-judicial foreclosure, shall have the right to redeem the property in accordance with this provision until, but not after, the registration of the certificate of foreclosure sale with the applicable Register of Deeds which in no case shall be more than three (3) months after foreclosure, whichever is earlier.

304 PAST DUE ACCOUNTS AND NON-PERFORMING LOANS¹

The following regulations shall guide BSFIs in determining their past due accounts and non-performing loans.

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Restructured loans* shall refer to loans and other credit accommodations the original contractual terms and conditions of which have been modified in accordance with a formal restructuring agreement that sets forth a revised schedule of payments for the purpose of lessening the financial difficulty of the borrower and maximizing collection and realizable economic value on an obligation within a reasonable period of time. The modification may include, but is not limited to, change in principal due, maturity, interest rate and other charges, collateral, or other terms and conditions.
- b. *Items in litigation* shall refer to loans or other credit accommodations for which cases, such as collection or foreclosure, have been filed in court or sheriff's office, as the case may be. The loan or other credit accommodation shall remain in this account during the pendency of the proceedings, until full payment, restructuring of the obligation, foreclosure of the collateral, or such other disposition is made as would cause such proceedings to cease.

Accounts considered past due. As a general rule, loans, investments, receivables, or any financial asset, including restructured loans, shall be considered past due when any principal and/or interest or installment due, or portions thereof, are not paid at their contractual due date, in which case, the total outstanding balance thereof shall be considered as past due. However, BSFIs may provide a cure period on a credit product-specific basis, not to exceed thirty (30) days within which to allow the obligors or borrowers to catch up on their late payment without being considered as past due: *Provided*, That any cure period policy shall be based on verifiable collection experience and reasonable judgment that support tolerance of occasional payment delays: *Provided, further*, That the observance of a cure period policy shall not preclude the timely adverse classification of an account that has developed material credit weakness/es, and that BSFIs shall regularly review the reasonableness of its cure period policy. For microfinance and other small loans that feature high frequency payments, the cure period allowable by policy shall not exceed ten (10) days.

Accounts considered non-performing. Loans, investments, receivables, or any financial asset shall be considered non-performing, even without any missed contractual payments, when it is considered impaired under existing accounting standards², classified as doubtful or loss, in litigation, and/or there is evidence that full repayment of principal and interest is unlikely without foreclosure of collateral, if any. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than ninety (90) days from contractual due date, or accrued interests for more than ninety (90) days have been capitalized, refinanced, or delayed by agreement.

Microfinance and other small loans with similar credit characteristics shall be considered non-performing after contractual due date or after it has become past due.

Restructured loans shall be considered non-performing. However, if prior to restructuring, the loans were categorized as performing, such classification shall be retained.

Non-performing loans, investments, receivables, or any financial asset (and/or any replacement loan) shall remain classified as such until (a) there is sufficient evidence to support that full collection of principal and interests is probable and payments of interest and/or principal are received for at least six (6) months; or (b) written-off.

¹ Effective from 10 February 2017 up to 31 December 2017, BSFIs shall make the necessary revisions in their management information and reporting systems relating to past due and non-performing loans (NPLs). Effective 01 January 2018, past due and NPLs shall be mandatorily reported in accordance with the requirements of this Section.

² Applicable accounting standard is PAS 39 until 31 December 2017 and International Financial Reporting Standards (IFRS) 9 starting 01 January 2018. A financial asset or a group of financial assets is impaired when there is objective evidence that its recoverable value is less than its carrying amount, as a result of one or more loss events that occurred after the initial recognition of the asset and that the loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. It may not be possible to identify a single, discrete event that caused the impairment. Rather, the combined effect of several events may have caused the impairment.

Updating of information provided to credit information bureaus. Banks which have provided adverse information, such as the past due or litigation status of loan accounts, to credit information bureaus, or any organization performing similar functions, shall submit monthly reports to these bureaus or organizations on the full payment or settlement of the previously reported accounts within five (5) banking days from the end of the month when such full payment was received. For this purpose, it shall be the responsibility of the reporting banks to ensure that their disclosure of any information about their borrowers/clients is with the consent of borrowers/clients concerned.

(Circular Nos. 941 dated 20 January 2017, 903 dated 29 February 2016, M-2015-039 dated 04 November 2015, Circular No. 890 dated 02 November 2015, M-2015-035 dated 07 October 2015, M-2015-009 dated 28 January 2015, and M-2015-005 dated 20 January 2015)

305 INTEREST AND OTHER CHARGES

The rate of interest, including commissions, premiums, fees and other charges, on any loan, or forbearance of any money, goods or credits regardless of maturity and whether secured or unsecured shall not be subject to any regulatory ceiling, except for the interest or finance charges imposed on credit card receivables, including cash advances installment purchases and for the maximum processing fee for credit card cash advances, as provided under Sec. 312 (*Method of computing and imposition of interest or finance charges*).

Rate of interest in the absence of stipulation. The rate of interest for the loan or forbearance of any money, goods or credits and the rate allowed in judgments, in the absence of expressed contract as to such rate of interest, shall be six percent (6%) per annum.

Escalation clause; when allowable. Parties to an agreement pertaining to a loan or forbearance of money, goods or credits may stipulate that the rate of interest agreed upon may be increased in the event that the applicable maximum rate of interest is increased by the Monetary Board: *Provided*, That such stipulation shall be valid only if there is also a stipulation in the agreement that the rate of interest agreed upon shall be reduced in the event that the applicable maximum rate of interest is reduced by law or by the Monetary Board: *Provided, further*, That the adjustment in the rate of interest agreed upon shall take effect on or after the effectivity of the increase or decrease in the maximum rate of interest.

Floating rates of interest. The rate of interest on a floating rate loan during each interest period shall be stated on the basis of Manila Reference Rates (MRRs), T-Bill Rates or other market based reference rates plus a margin as may be agreed upon by the parties.

The MRRs for various interest periods shall be determined and announced by the Bangko Sentral every week and shall be based on the weighted average of the interest rates paid during the immediately preceding week by the ten (10) KBs with the highest combined levels of outstanding deposit substitutes and time deposits, on promissory notes issued and time deposits received by such banks, of P100,000 and over per transaction account, with maturities corresponding to the interest periods for which such MRRs are being determined. Such rates and the composition of the sample KBs shall be reviewed and determined at the beginning of every calendar semester on the basis of the banks' combined levels of outstanding deposit substitutes and time deposits as of 31 May or 30 November, as the case may be.

The rate of interest on floating rate loans existing and outstanding as of 23 December 1995 shall continue to be determined on the basis of the MRRs obtained in accordance with the provisions of the rules existing as of 01 January 1989: *Provided, however*, That the parties to such existing floating rate loan agreements are not precluded from amending or modifying their loan agreements by adopting a floating rate of interest determined on the basis of the TBR or other market based reference rates.

Where the loan agreement provides for a floating interest rate, the interest period, which shall be such period of time for which the rate of interest is fixed, shall be such period as may be agreed upon by the parties.

For the purpose of computing the MRRs, banks shall accomplish the report forms, RS Form 2D and Form 2E (BSP 5-17-34A).

Accrual of interest earned on loans and other credit accommodations. Accrual of interest earned on non-performing loans other credit accommodations shall not be allowed.

Accrued interest receivable shall be classified in accordance with their respective loan accounts and provided with *Allowance for Uncollected Interest on Loans*.

Method of computing interest. Banks may only charge interest based on the outstanding balance of a loan at the beginning of an interest period.

For a loan where principal is payable in installments, interest per installment period shall be calculated based on the outstanding balance of the loan at the beginning of each installment period.

Towards this end, all loan-related documents shall show repayment schedules in a manner consistent with this provision. Marketing materials and presentations shall likewise be consistent with this provision.

To enhance loan transaction transparency, Effective Interest Rate (EIR) calculation models illustrative of common loan features are presented in *Appendix 97* for guidance. It is understood, however, that an EIR calculation model, founded on established principles of discounted cash flow analysis, for a loan should be based on the actual features thereof. A bank shall be solely responsible for the propriety and accuracy of its EIR calculation model. However, for purposes of determining compliance with this Section, the Bangko Sentral's determination of the reasonableness and accuracy of an EIR calculation model prevails.

(Circular Nos. 1098 dated 24 September 2020 and 1011 dated 14 August 2018)

306 "TRUTH IN LENDING ACT" DISCLOSURE REQUIREMENT

Banks are required to strictly adhere to the provisions of R.A. No. 3765, otherwise known as the "Truth in Lending Act", and shall make the disclosure of the true and effective cost of borrowing an integral part of every credit transaction contract.

The following regulations shall apply to all banks engaged in the following types of credit transactions:

- a. Any loan, mortgage, deed of trust, advance and discount;
- b. Any conditional sales contract, any contract to sell, or sale or contract of sale of property or services, either for present or future delivery, under which part or all of the price is payable subsequent to the making of such sale or contract;
- c. Any rental-purchase contract;
- d. Any contract or arrangement for the hire, bailment, or leasing of property;
- e. Any option, demand, lien, pledge, or other claim against, or for delivery of, property or money;
- f. Any purchase, or other acquisition of, or any credit upon security of any obligation or claim arising out of any of the foregoing; and
- g. Any transaction or series of transactions having a similar purpose or effect.

The following categories of credit transactions are outside the scope of these regulations:

- (1) Credit transactions which do not involve the payment of any finance charge by the debtor; and
- (2) Credit transactions in which the debtor is the one specifying a definite and fixed set of credit terms such as bank deposits, insurance contracts, sale of bonds, etc.

Definition of terms.

- a. *Person* means any individual, partnership, corporation, association or other organized group of persons, or the legal successor or representative of the foregoing, and includes the Philippine Government or any agency thereof or any other government, or any of its political subdivisions, or any agency of the foregoing.
- b. *Cash price or delivered price*, in case of trade transactions, is the amount of money which would constitute full payment upon delivery of property (except money) or service purchased at the bank's place of business. In the case of financial transactions, cash price represents the amount of money received by the debtor upon consummation of the credit transaction, net of finance charges collected at the time the credit is extended (if any).
- c. *Down Payment* represents the amount paid by the debtor at the time of the transaction in partial payment for the property or service purchased.
- d. *Trade-in* represents the value of an asset agreed upon by the bank and debtor, given at the time of the transaction in partial payment for the property or service purchased.
- e. *Non-finance charges* correspond to the amounts advanced by the bank for items normally associated with the ownership of the property or of the availment of the service purchased which are not incident to the extension of credit. For example, in the case of the purchase of an automobile on credit, the creditor may advance the insurance premium as well as the registration fee for the account of the debtor.
- f. *Amounts to be financed* consist of the cash price plus non-finance charges less the amount of the down payment and value of the trade-in.
- g. *Finance charge* includes interest, fees, service charges, discounts, and such other charges incident to the extension of credit.
- h. *Simple annual rate* is the uniform percentage which represents the ratio between the finance charge and the amount to be financed under the assumption that the loan is payable in one (1) year with single payment upon maturity and there are no upfront deductions to principal.

For loans with terms different from the above assumptions, the EIR shall be calculated and disclosed to the borrower as the relevant true cost of the loan comparable to the concept of simple annual rate.

For loans with contractual interest rates stated on monthly basis, the effective interest rate may be expressed as a monthly rate.

In accordance with the Philippine Accounting Standards (PAS) definition, EIR is the rate that exactly discounts estimated future cash flows through the life of the loan to the net amount of the loan proceeds. For consistency, methodology and standards for discounted cash flow models shall be prescribed to be used for the purpose.

Information to be disclosed. As a general rule, loan terms shall be disclosed to all types of borrower. For small business/retail/consumer credit, the following are the minimum information to be disclosed (sample form in *Appendix 16*):

- a. The total amount to be financed;
- b. The finance charges expressed in terms of pesos and centavos;
- c. The net proceeds of the loan; and
- d. The percentage that the finance charge bears to the total amount to be financed expressed as a simple annual rate or an EIR as described in Item “h” of Definition of terms in this Section. EIR may also be quoted as a monthly rate in parallel with the quotation of the contractual rate.

Banks are required to furnish each borrower a copy of the disclosure statement, prior to the consummation of the transaction.

Inspection of contracts covering credit transactions. Banks shall keep in their offices or places of business copies of contracts which involve the extension of credit by the bank and the payment of finance charges therefor. Such copies shall be available for examination by the appropriate supervising department of the Bangko Sentral.

Dissemination of Relevant Information. Banks shall ensure that all persons to whom credit is extended are well informed of the salient provisions of Republic Act No. 3765, otherwise known as the “Truth in Lending Act” as contained in the revised format of disclosure statement in *Appendix 16* through any acceptable medium of communication such as, but not limited to, posters, brochures, pamphlets, leaflets, educational videos, corporate websites, infographics and social media platforms. Said information must be conspicuously displayed and made available at all times, in physical or electronic format, to all persons to whom credit is extended by banks subject to the consumer protection standards and social media risk management guidelines. Such medium of communication shall include an explicit notification that the disclosure statement in writing is a required attachment to the credit transaction contract which banks shall provide all persons to whom credit is extended with a copy of said disclosure statement prior to the consummation of the credit transaction.

Sanctions and penal provisions. Non-compliance with any of the provisions of this Section may be subject to appropriate monetary penalties under Sec. 1102, depending on the severity of non-disclosure, number of loans and amount involved in the violation. In addition to sanctions under R.A. No. 3765, the following sanctions may be imposed:

- a. *First offense.* Reprimand on the erring officer/s;
- b. *Second offense.* Reprimand on the entire board of directors; and
- c. *Subsequent offense/s:*
 - (1) Suspension of the erring officer/s and/or entire board of directors; and
 - (2) Restriction on lending activities.

This is without prejudice to other penalties and sanctions provided under Sections 36 and 37 of R.A. No. 7653.

(Circular Nos. 1052 dated 2 October 2019 and 988 dated 20 December 2017)

B. TYPES OF LOANS AND CREDITS

311 SALARY-BASED GENERAL-PURPOSE CONSUMPTION LOANS

Policy statement. The Bangko Sentral recognizes the helpful role of salary-based, consumer lending schemes in allowing an individual borrower to manage his/her cash flows provided these are granted under sound credit standards and fair consumer practices. The Bangko Sentral likewise encourages competition and transparency to promote efficient and innovative delivery of financial services and fair dealing with customers.

Definition; Transactions covered; Exclusions; Report.

- a. *Definition.* Salary-based general-purpose consumption loans refer to unsecured loans for a broad range of consumption purposes, granted to individuals mainly on the basis of regular salary, pension or other fixed compensation, where repayment would come from such future cash flows, either through salary deductions,

debits from the borrower's deposit account, mobile payments, pay- through collections, over-the-counter payments or other type of payment arrangement agreed upon by the borrower and lender.

- b. *Transactions covered.* Salary-based general-purpose consumption loans may include credit accommodations for education, hospitalization, emergency, travel, household and other personal consumption needs.
- c. *Exclusions.* Credit cards, motor vehicles and other personal loans which are covered by other existing applicable regulations are excluded from the coverage of this Section.
- d. *Report.* For the purpose of reporting in the Financial Reporting Package, financial assistance under an approved fringe benefit program should be reported/classified according to the purpose of the financial assistance (e.g., housing/real estate, motor vehicle, salary-based general-purpose consumption, etc.)

Credit granting.

- a. Policies of financial institutions (FIs) shall be consistent with best practices and sound credit processes prescribed under Bangko Sentral regulations, including a comprehensive assessment of the borrower's creditworthiness, and shall not be reliant on mere formula such as those automatically granted based on certain multiples of monthly salary or other regular compensation.
- b. Individual borrowing capacity should be prudently assessed considering reasonable estimates of total personal and household indebtedness as well as disposable income available for family and personal needs after considering debt servicing.
- c. Original loan term shall not exceed three (3) years but may have longer maturity in meritorious cases provided that in no case shall maturity exceed five (5) years;

No loan renewal shall be granted without re-assessing borrowing capacity and establishing continuing creditworthiness. Further, no loan renewal shall be allowed without payment of accrued interest receivable and substantial reduction in principal.

- d. In the case of loan "takeout" from another FI, the FI taking out the loan(s) should ensure that the loan from the originating FI has been fully settled. FIs are expected to institute adequate controls over loan "takeout" such as: (a) directly releasing the loan proceeds to the FIs where the loan will be taken out; and (b) obtaining a copy of the official receipt evidencing full settlement of account from the originating FI, among others.

Consumer protection. FIs are required to strictly adhere to Bangko Sentral regulations on Financial Consumer Protection as prescribed under Part Ten.

Sanctions. The Monetary Board may, at its evaluation and discretion, impose sanctions on an FI and/or its Board, directors and officers, proportionate to the gravity/seriousness of the offense in cases of persistent non-observance of the provisions contained herein.

(Circular Nos. 903 dated 29 February 2016 and 886 dated 08 September 2015)

312 CREDIT CARD OPERATIONS

Policy statement. The Bangko Sentral shall foster the development of consumer credit through innovative products such as credit cards under conditions of fair and sound consumer credit practices. The Bangko Sentral likewise encourages competition and transparency to ensure more efficient delivery of services and fair dealings with customers.

The following rules and regulations shall govern the establishment and operations of all bank credit card issuers, acquirers and all credit card transactions.

Definition of terms.

- a. *Credit card* refers to any card or other credit device, including its virtual representation, intended for the purpose of obtaining money, property, goods or services on credit.
- b. *Minimum amount due or minimum payment required* refers to the minimum amount that the credit cardholder is required to pay on or before the payment due date for a particular billing period/cycle which may include:
 - (1) Outstanding balance multiplied by the required payment percentage or a fixed amount, whichever is higher;
 - (2) Any amount which is part of any fixed monthly installment that is charged to the card;
 - (3) Any amount in excess of the credit line; and
 - (4) All past due amounts, if any.

- c. *Default or delinquency* refers to non-payment of, or payment of an amount less than the “*Minimum Amount Due*” or “*Minimum Payment Required*”, or words of similar import, for at least three (3) billing cycles, in which case, the “*Total Amount Due*” or “*Outstanding Balance*” for the particular billing period as reflected in the monthly statement of account may be considered in default or delinquent.
- d. *Acceleration clause* refers to any provision in the contract between the bank and the cardholder that gives the bank the right to demand the full settlement of the obligation in case of default or non-payment of any amount due, or for any valid reason.
- e. *Simple annual rate* refers to the uniform percentage which represents the ratio between the finance charge and the amount to be financed under the assumption that the loan is payable in one (1) year with single payment upon maturity and there are no upfront deductions to principal.

For loans with terms different from the above assumptions, the effective annual interest rate shall be calculated and disclosed to the borrower as the relevant true cost of the loan comparable to the concept of simple annual rate.

For loans with contractual interest rates stated on monthly basis, the effective interest rate (EIR) may be expressed as a monthly rate.

In accordance with the PAS definition, EIR is the rate that exactly discounts estimated future cash flows through the life of the loan to the net amount of loan proceeds. For consistency, methodology and standards for discounted cash flow models shall be prescribed to be used for the purpose.

- f. *Credit card acquirer* refers to the institution that accepts and facilitates processing of the credit card transaction which is initially accepted by the merchant.
- g. *Credit cardholder* refers to a person who owns and benefits from the use of a credit card.
- h. *Credit card business activity report* refers to a report which contains the quantitative data on the credit card industry.
- i. *Credit card issuer* refers to a bank that offers the use of its credit card.
- j. *Pre-approved credit cards* refer to unsolicited credit cards issued by credit card issuers to consumers who have not applied for such credit cards. Acts described under *Appendix 106* and other similar acts are deemed tantamount to the act of issuing pre-approved credit cards, notwithstanding any contrary stipulations in the contract.
- k. *Application* refers to a request, documented in physical or electronic form with clear and explicit intention and consent of the applicant to avail of a credit card from a credit card issuer.
- l. *Balance transfer* refers to the transfer of the balance in a credit card account with one (1) credit card issuer to another account under a different credit card issuer subject to terms mutually agreed upon by the parties concerned.
- m. *Billing cycle/billing period* refers to the period of time between two (2) successive cut-off dates documented in a billing statement and defined under the terms and conditions of the credit card contract/agreement. A billing cycle/billing period shall comprise of at least fifteen (15) calendar days.
- n. *Card association or payment network or credit card network provider* refers to any company that provides credit card network such as, but not limited to American Express, VISA International, MasterCard International, JCB International, Diners Club and China Union Pay.
- o. *Cash advances* refer to cash obtained by the cardholder from his/her credit card account, availed in any manner as stipulated in the credit card contract/agreement.
- p. *Credit card limit* refers to the maximum total amount for purchases, cash advances, balance transfers, and finance charges, service fees, penalties, and other charges which can be charged to the credit card. It represents the total loan or credit that a credit card issuer can extend to a cardholder.
- q. *Finance charges* refer to the interest charged to the cardholder on all credit card transactions in accordance with the terms and conditions specified in the contract/agreement on the use of the credit card.
- r. *Installment purchases* refer to transactions wherein payment for which is amortized in parts over a fixed period.
- s. *Industry association* refers to an association composed of companies engaged in the business of banking, finance, credit and/or payments.

- t. *Membership fee* refers to the amount a credit card issuer charges the credit cardholder for the right to use its credit card and acquire access to other membership benefits. This may also be referred to as annual membership fee, annual fee, joining fee or application fee.
- u. *Outstanding balance or Total amount due* refers to the amount to be repaid as of statement cut-off date.
- v. *Statement cut-off date* refers to the end date of a billing cycle, as determined by the credit card issuer, when account activities (such as purchases, payments, charges) during the billing cycle are summarized.
- w. *Statement of account or billing statement* refers to the regular statement listing of the purchases, payments and other debits and credits made to the credit card account within the billing cycle.
- x. *Supplementary card or extension card* refers to a credit card issued to another person whose credit limit is consolidated with the primary cardholder.

Minimum requirements for banks operating as credit card issuers.

A duly incorporated bank of good standing which intends to engage in credit card business, may operate as a credit card issuer: *Provided*, That it submits the following requirements:

- a. Notice to the appropriate supervising department of the Bangko Sentral that the Bank will engage in credit card operations; and
- b. Certification under oath executed by the president or officer of equivalent rank of the Bank that it has complied with the relevant risk management standards, including among others, Credit and Information Technology Risk Management.

Commencement of operations as credit card issuer. A bank shall commence its credit card operations within six (6) months from its submission of the documents required under the rules on minimum requirements for banks operating as credit card issuers. The president or officer of equivalent rank of the bank shall submit a written notice of commencement of business operations within ten (10) banking days therefrom.

Minimum requirements for the governance and risk management system for credit card operations of banks. To effectively deliver services, banks must have adequate financial strength, fit and proper board and management and must demonstrate technical and risk management capability to operate a credit card business. Banks shall establish a risk governance framework that includes policies, supported by appropriate processes and control procedures, designed to ensure that the risk arising from credit card operations are identified, aggregated, monitored and mitigated. The risk governance framework of banks shall be guided by Sec. 142, as applicable.

At the minimum, the risk management and control systems on credit card operations shall cover:

- a. Policies, procedures and management information systems for credit card operations. These shall include limits and thresholds on exposures considering the bank's approved credit risk appetite;
- b. Organizational set up and the corresponding roles and responsibilities of personnel in the unit handling the credit card business;
- c. Approach to identifying, assessing, aggregating, monitoring, and reporting risks arising from credit card operations using appropriate risk management tools. This shall likewise include risk mitigation strategies and tools for maintaining risks within thresholds and limits set; and
- d. Internal audit and other independent review of credit card operations.

Written policies, procedures and internal control guidelines shall be established on the following aspects of credit card operations:

- a. Requirements for application;
- b. Solicitation and application processing;
- c. Determination and approval of credit limits;
- d. Issuance, distribution and activation of cards;
- e. Supplementary or extension cards;
- f. Cash advances;
- g. Billing and payments;
- h. Deferred payment program or special installment plans;
- i. Collection of past due accounts;
- j. Handling of accounts for write-off;
- k. Suspension, cancellation and withdrawal or termination of card;
- l. Renewal of cards, upgrade or downgrade of credit limit;
- m. Lost or stolen cards and their replacement;

- n. Accounts of DOSRI and employees;
- o. Disposition of errors and/or questions about the billing statement/statement of account and other customers' complaints; and
- p. Dealings with marketing agents/collection agents.

Minimum requirements for the issuance of credit cards. Banks shall not issue pre-approved credit cards as provided under *Appendix 106* notwithstanding any contrary stipulations in the credit card contract/agreement with the cardholder.

Before issuing credit cards, banks shall conduct know-your-client (KYC) and customer identification procedures, consistent with applicable regulations; and exercise proper diligence in ascertaining that applicants possess good credit standing and are financially capable of fulfilling their credit commitments.

All credit card applications shall undergo a strict credit underwriting process, and information stated thereon shall be verified and validated by authorized personnel of banks, other than those handling marketing.

Information to be disclosed. Banks shall disclose to each of their existing and potential credit cardholders the following information:

- a. the finance charges for unpaid amounts after payment due date to be paid by the cardholder;
- b. other charges or fees, individually itemized, such as membership/renewal fees, processing fees, over-the-limit fees, collection fees, credit investigation fees and attorney's fees to be paid by the cardholder in connection with the transaction and incidental to the extension of credit;
- c. the percentage that the interest/finance charge bears to the total amount to be financed expressed as a simple monthly or annual rate, or a monthly or annual effective interest rate, on the outstanding balance of the obligation, as herein defined.
- d. for installment loans, the number of installments, amount and due dates or payment schedules to repay the indebtedness;
- e. the late payment fee/penalty for late payments or similar delinquency-related charges payable in the event of late payments, which shall be computed in accordance with the late payment fees/penalty for late payment of this Section;
- f. when one (1) or more periodic rates is used to compute interest: each such rate, the balances to which it is applicable, and the corresponding simple annual rate;
- g. in cases when transactions are made in foreign currencies, or for dual currency accounts, or when payments are made in any currency other than the billing currency: the manner of conversion from transaction currency to billing currency; or a general description of the conversion rates;
- h. a reminder to the cardholder in the billing statement, or its equivalent document, that payment of only the minimum amount due or any amount less than the total amount due for the billing cycle/billing period would mean the imposition of interest and/or other charges. A written statement in the following form must be printed in the billing statement:

"Important Reminder: Paying less than the total amount due will increase the amount of interest and other charges you pay and the time it takes to repay your balance."

Banks may provide additional reminders to the cardholder, including but not limited to late payment fees that may be imposed on past due or delinquent accounts;

- i. to the extent practicable, a detailed explanation and a clear illustration of the manner by which all interest, charges and fees are computed.

Banks shall notify the cardholder at least ninety (90) calendar days prior to any change in the manner of computation of the outstanding balance and the amount of fees to be imposed on the cardholder¹. If the cardholder finds the change to be unacceptable, he/she shall have the right to terminate his/her account with the bank, subject to the suspension, termination of effectivity and reactivation of credit cards and termination of accounts of this regulation;

¹ Pursuant to MB Res No. 1185 dated 17 September 2020, banks need not notify their cardholders of the change in interest or finance charges imposed on all credit card transactions and the change in processing fees for credit card cash advances. The said waiver of notice requirement shall only apply to the change in interest or finance charges and the change in processing fees brought about by the imposition of the cap on interest or finance charges on all credit card transactions and the imposition of the maximum amount of processing fee on credit card cash advances which will take effect on 03 November 2020 in accordance with the said MB Resolution.

- j. a table of all applicable fees, penalties, interest rates, conversion reference rates for third currency transactions, and the reason for their imposition, on credit card application forms, billing statements, and in the terms and conditions of the credit card agreement; and
- k. any other information that may be required by the Bangko Sentral.

Banks shall endeavor to convey the above information in a manner that is understandable to the credit cardholder. The items enumerated above may be included in a billing statement on a quarterly basis at the minimum, in tabular format.

The table of fees, penalties, interest rates and reminder shall be printed in plain language and in bold black letters against a light or white background using the minimum Arial 12 theme font and size, or its equivalent in readability, and on the first page, if applicable document has more than one (1) page.

Banks shall ensure that all above information, conveyed through written or electronic forms of communication, is easy to read for the average person. All marketing and advertising materials shall also disclose information that are consistent with the aforementioned provisions.

Banks shall put in place policies and procedures to ensure timely and effective delivery, either through physical or electronic means, of statement of accounts or billing statements, and other important information related to the credit card account of the cardholder.

Dissemination of Relevant Information. Banks operating as credit card issuers shall ensure that all persons to whom credit is extended are well informed of the salient provisions of Republic Act No. 3765, otherwise known as the “Truth in Lending Act” as contained in the revised format of disclosure statement in *Appendix 16* through any acceptable medium of communication such as, but not limited to, posters, brochures, pamphlets, leaflets, educational videos, corporate websites, infographics and social media platforms. Said information must be conspicuously displayed and made available at all times, in physical or electronic format, to all persons to whom credit is extended by banks operating as credit card issuers subject to the consumer protection standards and social media risk management guidelines. Such medium of communication shall include an explicit notification that the disclosure statement in writing is a required attachment to the credit transaction contract which banks operating as credit card issuers shall provide all persons to whom credit is extended with a copy of said disclosure statement prior to the consummation of the credit transaction.

Accrual of interest earned on loans. Accrual of interest earned on loans shall be subject to the provisions of Sec. 305 (*Accrual of interest earned on loans*).

Method of computing and imposition of interest or finance charges. Bank shall impose an interest or finance charge on all credit card transactions not to exceed an annual interest rate of twenty-four percent (24%), except credit card installment loans which shall be subject to monthly add-on rate not exceeding one (1) percent: *Provided*, That in the case of credit card cash advances, aside from the foregoing applicable maximum interest rate caps, no other charge or fee shall be imposed or collected apart from the processing fee in the maximum amount of P200.00 per transaction. Such maximum processing fee and interest rates or finance charges shall be subject to review by Bangko Sentral every six (6) months.

Banks shall only charge interest or finance charges arising from the non-payment in full or on time of the outstanding balance based on the unpaid amount of the outstanding balance as of statement cut-off date, but excluding:

- a. the current billing cycle’s purchase transactions reckoned from the previous cycle’s statement cut-off date; and
- b. deferred payments under zero-interest installment arrangements which are not yet due.

Interest or finance charges shall be imposed on the unpaid outstanding balance as of cut-off date each time a cardholder pays less than, or does not pay on time, the outstanding balance stated in his/her statement of account. Such interest or finance charge shall continue to be imposed until the outstanding balance and applicable interest are fully paid.

For credit card cash advances, a cardholder may be charged cash advance fees and finance charge on the date that the cash is obtained, subject to terms and conditions under the credit card contract/agreement.

For a loan where the principal is payable in installments, interest per installment period shall be calculated based on the outstanding balance of the loan at the beginning of each installment period.

All credit card-related documents shall show repayment schedules in a manner consistent with this provision. Marketing and advertising materials shall likewise be consistent with this provision.

Payment due date. Payment due date, or the date on which payment of the minimum amount due must be made to the bank, shall be specified in the statement of account or billing statement: *Provided*, That:

- a. Payment due date shall be the same whatever the mode of payment: *Provided, further*, That payment through any authorized mode, or made to any accredited payment center of the bank, shall be considered as payment to the

bank made on the same date. Accordingly, Service Legal Agreements between banks and their accredited payment centers shall be amended to operationalize this requirement.

- b. Notwithstanding any provisions in the credit card contract/agreement, if the payment due date falls on a weekend and regular national holidays, the payment due date shall be automatically moved to the next business day and payment thereon shall not be treated as late payment.

Deferral charges. The bank and the cardholder may, prior to the consummation of the transaction, agree in written or electronic form, to a deferral of all or part of one (1) or more unpaid installments; and the bank may collect a deferral charge which shall not exceed the rate previously disclosed pursuant to the provisions on disclosure in this Section.

Late payment fees/penalty for late payment. No late payment fees or penalty for late payment shall be collected from cardholders unless the collection thereof is fully disclosed in the contract/agreement between the bank and the cardholder: *Provided*, That such fees shall be based on the unpaid minimum amount due or a prescribed minimum fixed amount, whichever is lower: *Provided, further*, That said fees may be based on the total outstanding balance of the credit card obligation, including amounts payable under installment terms or deferred payment schemes, if the contract/agreement between the bank and the cardholder contains an “*acceleration clause*” as defined herein, and the total outstanding balance of the credit card is classified and reported as past due.

Confidentiality of information. Banks, their directors, officers, employees and agents shall keep strictly confidential the data on the cardholder, except under any of the following circumstances:

- a. when disclosure of information is with the consent of the cardholder, which shall be stipulated in the application forms, the credit card contract/agreement, or any manner allowed by applicable laws, rules and regulations;
- b. upon orders of a court of competent jurisdiction or any government office or agency authorized by law, or under such conditions as may be prescribed by the Bangko Sentral Monetary Board;
- c. when the cardholder information is released, submitted or exchanged with credit information bureaus, industry associations, card associations or payment networks;
- d. when disclosure to third party service providers is necessary for the sole purpose of assisting or rendering services to the bank in enforcing its rights against the cardholder;
- e. when disclosure to third parties such as insurance companies is necessary for the sole purpose of insuring the bank from cardholder default or other credit loss, and the cardholder from fraud or unauthorized charges; and
- f. when disclosure to third parties is for the purpose of investigating fraud or unauthorized activities or mitigating risk involving card issuance, use and acquiring.

The recipients of information described in Items “a” to “f” above shall likewise be bound to preserve the confidentiality of cardholder data.

The disclosure of cardholder information by banks to third parties shall be subject to applicable laws, rules and regulations on data privacy.

Suspension, termination of effectively and reactivation of credit cards; and termination of accounts. Banks shall formulate criteria or parameters for suspension, revocation and reactivation of the right to use the card, and shall include in their contract/agreement with cardholders a provision authorizing banks to suspend or terminate the credit card effectivity, if circumstances warrant.

A cardholder may cancel or terminate his/her credit card account with any bank anytime: *Provided*, That the cardholder either pays in full, or enters into another agreement for payment of the outstanding balance and new purchases, debits and deferred instalments. Payment may be made either through a one-time payment or on installments within a fixed period of time: *Provided, further*, That repayment in installments shall only be generally subject to interest, unless there is a violation of the above-mentioned new agreement.

A bank may initiate suspension, cancellation or revocation of a credit card account for any valid reason, as indicated in the terms and conditions of the credit card agreement: *Provided*, That the cardholder is notified of the suspension/cancellation/revocation within seven (7) business days from the date of suspension/cancellation/revocation. The credit cardholder shall have the right to appeal the suspension/cancellation/revocation subject to mutual agreement with the bank.

Inspection of records covering credit card transactions; determination of credit card limit; and over-the-limit transactions. Banks shall make available for inspection or examination by the appropriate supervising department of the Bangko Sentral the complete and accurate files on card applicant/cardholder to support the consideration for approval of the application and determination of the credit limit, which shall be in accordance with the verified debt repayment ability and/or net worth of the card applicant/cardholder.

Banks shall determine, based on the credit standing, credit history and financial capacity of the cardholder, the credit limit to be extended to the cardholder. Banks may thereafter implement changes in the credit limit applicable on the account based on their policies: *Provided*, That the cardholder is notified of such changes: *Provided, further*, That any credit limit

increase may be declined by the cardholder: *Provided, finally*, That the cardholder has the option to request for a credit limit adjustment upon submission of updated information, but subject to the approval of the bank.

If a cardholder breaches the credit limit by a new transaction, the transaction may be processed, subject to the discretion of the bank as guided by its policies: *Provided*, That fees on over-the-limit transactions, if any, are clearly and prominently disclosed in the table of fees and charges, pursuant to the rules on information to be disclosed.

Offsets. A bank shall inform the cardholder, through the agreement, contract or any equivalent document governing the use of the credit card that, pursuant to the provisions of Articles 1278 to 1290 of the New Civil Code of the Philippines, as amended, a bank may offset any amount due and payable on the credit card against the cardholder's deposits with the bank, if any.

Handling of complaints, inquiries, or requests. Banks shall establish a Consumer Assistance Unit within its organization, which shall be responsible for providing prompt action for the expeditious resolution of credit card related complaints, inquiries and requests.

- a. Billing statement. Banks shall give cardholders up to thirty (30) calendar days from statement date to report any error or discrepancy in their statement of account or billing statement. The manner of reporting or notice of any billing error or discrepancy to the bank may be through written, verbal or any documented means.

The banks shall take action within ten (10) business days from receipt of such notice together with relevant documents or records in physical or electronic form from the cardholder.

Within ninety (90) days after receipt of the notice, banks shall conduct a thorough investigation; shall make appropriate corrections in their records; and send a written explanation or clarification to the cardholder, prior to taking any action to collect the contested amount, subject to the result of the investigation.

Nothing in this Section shall be construed to prohibit any action by the bank to collect any amount which has not been indicated by the cardholder to contain a billing error.

- b. Lost or stolen Cards. In case a credit card is lost or stolen, any transaction made prior to reporting by the cardholder of the loss or theft of his/her card to the bank shall be for the account of the cardholder: *Provided*, That this is without prejudice to the right of the cardholder to dispute the transaction, which, if found to be an unauthorized or fraudulent transaction, shall be corrected or reversed by the bank, including any finance charges and other fees related thereto, in accordance with the procedures set forth in the aforementioned regulations.

Appropriate manner of collection and use of third party collection agents. Banks may resort to all reasonable and legally permissible means to collect amounts due them under the credit card agreement: *Provided*, That in the exercise of their rights and performance of duties, they must observe good faith, reasonable conduct and proper decorum, and refrain from engaging in unscrupulous acts.

Banks may engage qualified third party service providers/collection agents for the purpose of assisting or rendering services in the administration of the credit card business, including recovery of unpaid obligations and enforcement of rights against the cardholder: *Provided*, That the engagement is in accordance with Bangko Sentral regulations on outsourcing, as applicable: *Provided, further*, That the outsourcing arrangement shall be covered by a Service Level Agreement covering the responsibilities and accountabilities of each party.

Notwithstanding any contractual agreement between a bank and service provider/collection agent, the bank shall be responsible to its customers for maintaining customer service standards, without prejudice to further recourse, if any, by the bank to the service provider/collection agent.

A bank or its service provider/collection agent may communicate with a credit cardholder in connection with the collection of any debt through acceptable and reasonable modes. They shall not harass, abuse or oppress any cardholder or any person, or engage in any unfair practices in the collection of credit card debt.

The following activities are considered as guidelines and are not irrebuttably presumed to be unfair collection practices. Conversely, not all practices which might under the circumstances be termed unfair are mentioned here. The Monetary Board may now and then consider any other acts/omissions as unfair collection practices:

- a. the use or threat of violence or other criminal means to harm a person, or his/her reputation or property;
- b. the use of obscenities, insults, or profane language which amount to a criminal act or offense under applicable laws;
- c. disclosure of the names of credit cardholders who allegedly refuse to pay debts, except as allowed under this Section;
- d. threat to take any action that cannot legally be taken;

- e. communicating or threatening to communicate to any person or entity, credit information which is known to be false, including failure to communicate that a debt is being disputed;
- f. any false representation or deceptive means to collect or attempt to collect any debt, or to obtain information concerning a cardholder; and
- g. making contact at unreasonable/inconvenient hours, defined as contact before 6:00 a.m. or after 10:00 p.m., unless the cardholder has given express permission, or said times are the only reasonable or convenient opportunities for contact.

Banks shall inform their cardholder in writing of the endorsement of the collection of his/her account to a collection agency/agent, or the endorsement of the account from one (1) collection agency/agent to another, at least seven (7) business days prior to the actual endorsement. The notification shall include the full name of the collection agency and its contact details. The requirement to notify in writing shall be included in the terms and conditions of the credit card agreement: *Provided*, That the bank shall refer the collection of an account to only one (1) collection agency/agent at any one time.

Banks shall adopt policies and procedures to ensure that personnel handling the collection of accounts, whether these are in-house collectors, or third-party collection agents, shall disclose his/her full name/true identity to the cardholder.

Application of card payment. Upon receipt of a payment from a cardholder whose account carries different interest rates for different types of purchases (i.e., cash advances, regular purchases, balance transfers), the bank shall apply amounts in excess of the minimum payment amount first to the fees and charges, and then to the billed balance bearing the highest rate of interest, followed by the billed balance bearing the next higher rate of interest, until the payment is exhausted: *Provided*, That the original rates for promotional offers shall be the basis for determining hierarchy of payment.

Service level agreement among industry players. There shall be, in the Service Level Agreement between acquirers and their partner merchants, a provision requiring merchants to perform due diligence to establish the identity of the cardholders, in accordance with applicable laws, rules and regulations.

Nothing in these regulations shall preclude banks from verifying or seeking confirmation with the cardholder any purchase, if in their assessment there is reasonable concern as to the validity of the purchase.

Sanctions and penal provisions. Violations of the provisions of this Section shall be subject to any or all of the following sanctions depending upon their severity:

- a. Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence with the requirements set forth in this Section and bring about timely corrective actions.
- b. Imposition of penalties and sanctions provided under Section 37 of R.A. No. 7653.

The provisions of Section 37 shall be made applicable to any bank, acquirer, their directors and officers including, but not limited to, the administrative sanctions that may be imposed, without prejudice to the criminal sanctions against the culpable persons provided in R.A. No. 10870, for any willful violation of such law, or any related rules, regulations, orders or instructions issued by the Monetary Board: *Provided*, That in addition to the administrative sanctions that may be imposed, the authority of the bank to issue credit cards may be suspended or cancelled by the Bangko Sentral.

- c. Appropriate monetary penalties, sanctions and other enforcement action/s shall be imposed for the following violation/s:

Nature of Violation/Exception	Possible Sanctions/Penalties
i. Operating without prior notification to the Bangko Sentral	<ul style="list-style-type: none"> Applicable penalty prescribed under Section 37 of R.A. No. 7653, as implemented under Sec. 1102 (<i>Guidelines on the imposition of monetary penalties</i>) Applicable enforcement actions under Sec. 002
ii. Violation of any provisions/requirements of this regulation	<ul style="list-style-type: none"> Penalties and sanctions and enforcement actions under applicable laws, such as Section 27 R.A. No. 10870, rules and regulations, such as, but not limited to Sec. 1102 (<i>Guidelines on the imposition of monetary penalties</i>) and Sec. 002.
iii. Erroneous/delayed/unsubmitted reports	<ul style="list-style-type: none"> Applicable penalties under Sec. 171 (<i>Sanctions on Reports for Non-compliance with the Reporting Standards</i>)

Submission of credit card business activity report. For purposes of transparency and availability of data on credit card operations and in light of ensuring consumer protection, as well as managing risks involved in credit transactions, banks shall submit a monthly quantitative report to Bangko Sentral covering the following data on bank credit card issuers/acquirers, cardholders, credit card complaints, and usage location:

Credit Card Issuance	Unit of Expression
I. Cards-in-force per network/brand	Number
II. Cards-in-force per card type	Number
III. Approved credit card applications	Number
IV. Cards issued by status	Number
V. Cards issued per credit limit	Peso amount
VI. Billings per mode of transactions	Peso amount
VII. Billings per network/brand	Peso amount
VIII. Billed fees/charges	Peso amount
IX. Gross payment	Peso amount
X. Receivables	Peso amount
XI. Rates/charges per cardholder	Peso amount
XII. Gross payment Peso	Peso amount
XIII. Receivables	Peso amount
XIV. Rates/charges per cardholder	Peso amount/percentage

Cardholder Profile	
I. Cardholder information (age, occupation, gender, civil status, educational attainment, geographic location)	Number
II. Cardholder by type of payment	Number

Complaints	
I. Cardholder issues	Number
II. Complaint/request resolution	Number
III. External service provider	Number

Usage Location	
I. Incoming	Peso amount
II. Outgoing	Peso amount

Voluntary cessation of credit card business. A bank may undertake voluntary cessation of its credit card business: *Provided*, That it notifies the appropriate supervising department of the Bangko Sentral and submits a plan of cessation of operations within ten (10) banking days from date of approval of such plan of cessation by the bank's Board of Directors.

Transitory provisions. Banks with existing credit card operations shall be allowed a transitory period to make appropriate adjustments in their systems, processes and personnel to be compliant with the following provisions of this Section:

- For method of computing and imposition of interest or finance charges, which pertains to adjustments in the computation and imposition of interest and finance charges; and for application of card payment which pertains to the hierarchy of application of credit card payments: within one (1) year from 6 June 2018;
- For Payment due date, which pertains to same day recognition of payments made in accredited payment centers by banks: within nine (9) months from 6 June 2018;
- For Payment due date, which pertains to adjustment of payment due dates falling on weekends and holidays into the next business day: within three (3) months from 6 June 2018; and
- For late payment fees/penalty for late payment, which pertains to adjustments in the computation of late payment fees or penalty for late payment: within six (6) months from 6 June 2018.

(Circular Nos. 1098 dated 24 September 2020, 1052 dated 2 October 2019, 1003 dated 16 May 2018, and 988 dated 20 December 2017)

Agriculture and fisheries projects with long gestation periods. Pursuant to Section 24 of R.A. No. 8435 (Agriculture and Fisheries Modernization Act of 1997), agriculture and fisheries projects with long gestation periods shall be entitled to longer grace periods in repaying the loan based on the economic life of the project. For purposes of this Section, the following definitions and guidelines shall govern the grant of loans for long-gestating agriculture and fisheries projects.

Definition of terms.

- a. *Gestation period* shall refer to the span of time from the commencement of the project to the time that it is economically productive and producing revenues; and
- b. *Grace period* under this Section shall refer to the period that the initial amortization payment on the loan is deferred. All payments, however, must be made on or before the maturity of the loan.

Grace period. Banks are allowed to extend loans/guarantees with a grace period of up to seven (7) years to viable long-gestating agriculture and fisheries projects.

Suggested gestation and grace periods for some of the long-gestating projects are in *Appendix 32*.

Responsibility of lending banks. Lending banks shall institute the necessary safeguards and precautions to ascertain the viability of the projects financed and the capability of the borrower in fulfilling his commitments.

Past due loans. The rule on past due accounts under Sec. 304 shall apply except that the reckoning date shall be the grace period and not the original maturity of the loan.

Non-performing loans. The rule on non-performing loans under Sec. 304 (*Accounts considered non-performing*) shall apply except that the reckoning date shall be the grace period and not the original maturity of the loan.

Agricultural value chain financing framework. The Bangko Sentral supports the promotion of agricultural value chain financing as an effective and organized approach to channel financing to the agriculture and fisheries sectors and promote financial inclusion. By encouraging the linking of various actors/players in an agricultural value chain, credit risk of participating smallholder farmers/fisherfolks can be reduced. As a result, this type of financing would facilitate and allow small farmers/fisherfolks to have, if not more, access to credit. This is expected to further improve productivity in the agriculture and fisheries sectors and at the same time uplift the lives of these marginalized farmers/fisherfolks.

The provisions covering the agricultural value chain financing framework shall be implemented in consonance with Sec. 143.

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Value chain* - refers to a set of actors/players, e.g., producers (farmers/fisherfolks), traders, suppliers, processors, aggregators, who conduct linked sequence of value-adding activities involved in bringing a product from its raw material stage to the final consumers;
- b. *Value chain finance* - refers to the financial flows to those actors/players from both within the value chain and financial flows to those actors/players from the outside as a result of their being linked within a value chain;
- c. *Agricultural value chain analysis* - refers to the assessment of actors/players, e.g., from input suppliers to producers to processors and to traders, their interests and the factors influencing the performance of a particular value chain, e.g., palay, corn, livestock, marine products, as a whole, as opposed to only examining targeted sections of the chain; it also includes understanding the nature of the chain, identifying the weakest and strongest links along the chain and the business models shown in *Appendix 121*; and
- d. *Value chain aggregator* - refers to any value chain actor/player or any entity outside the value chain which initiates the formalization and/or organization of a value chain and/or which offers services that aim to strengthen existing value chains.

Features of agricultural value chain financing program. Consistent with existing provisions on sound credit risk management practices, the Bangko Sentral hereby recognizes agricultural value chain financing programs that have the following features:

- a. *Agricultural value chain policy and procedures.* The BSFI shall put in place adequate policies and procedures which cover the identification of value chains, comprehensive value chain analysis, and the design of appropriate financial products and services, among others;

- b. *Types of credit products.* BSFIs can design and/or offer appropriate financial products either to a specific actor/player or to various actors/players of the value chain model simultaneously. In addition to the traditional loans and discounts that BSFIs are currently offering, the following products and financial services may also be made available to agricultural value chain actors/players:
- (1) *Trade-receivables finance* - a BSFI advances working capital to agribusiness (supplier, processor, marketing and export) companies against accounts receivable or confirmed orders to producers. Receivables financing takes into account the strength of the buyer's purchases and repayment history;
 - (2) *Factoring* - a financial transaction whereby a business sell its accounts receivable or contracts of sales of goods at a discount to an appropriate BSFI, called a factor, who pays the business minus a factor discount and collects the receivables when due; and
 - (3) *Warehouse receipts* - farmers and other value chain enterprises receive a receipt from a certified warehouse that can be used as collateral to access a loan from an appropriate BSFI against the security of goods in an independently controlled warehouse.
- c. *Loan disbursement.* Loan releases may take the following forms depending on the role that the borrower takes in the value chain and the risks to be addressed by the BSFI:
- (1) *Cash disbursements* - the most common practice which may be completed in one transaction or in installments;
 - (2) *Loan proceeds transfer to suppliers* - under this scheme the BSFI prefers to deal with the supplier directly to control loan utilization and, therefore, prefers to transfer the loan proceeds straight to the supplier upon full acceptance of the buyer (borrower). In case the supplier is a related party, the BSFI shall ensure that the terms and conditions of the loan are not less favorable to the borrower than those offered by other lenders; and
 - (3) *Anchor firm (institutional buyer) triggered loan release* - loan release to the borrower will be endorsed by the anchor firm to ensure the adoption of the technology protocol required by the buyer (anchor firm). This would optimize productivity by the farmer-borrower and the technology adopted conforms with the requirements of the buyer; thus, reduce rejects on the deliveries of the produce;
- d. *Disaster contingency mechanism.* In light of the vulnerability of the agriculture and fisheries sectors which could result in significant credit losses to financial institutions, if not managed well, the BSFI may put in place a disaster contingency mechanism that anticipates such events and provides response mechanisms to mitigate the impact of such inherent risks. The disaster contingency mechanism can provide timely relief to a borrower to facilitate recovery. This mechanism shall be adequately documented with clear policies and guidelines.
- Provided such built-in contingency mechanism is prudently designed, its activation shall not automatically trigger adverse loan classification and past due loan recognition so as to manage credit losses to the BSFI and minimize burden on the client. Any new financing granted under such schemes will also not be adversely classified. However, such credit should be closely monitored and appropriate corrective measure should be taken once it becomes clear that recoverability is impaired.
- e. *Other features.* The following activities may also be allowed:
- (1) Director/s, officer/s and/or stockholder/s of BSFIs engaged in agricultural value chain financing may own and/or control: (i) private entities that would act as aggregators to facilitate the formation of value chains, and (ii) economically-linked entities that are also actors/players in the value chain: *Provided*, That all transactions with such entities shall be in the ordinary course of business and not undertaken on more favorable economic terms to such related parties than similar transactions with non-related parties under similar circumstances. These transactions shall comply and adhere to existing regulations pertaining to DOSRI loans and/or related-party transactions; and
 - (2) The BSFI, if necessary, may initiate the formulation of formal agreement(s) with qualified value chain actors/players to protect the interests of all parties involved.

Regulatory incentives. To encourage BSFIs to engage in agricultural value chain financing, the following incentives shall apply; provided, this Section on Features of Agricultural Value Chain Financing Program is complied with:

- a. Loans granted to agricultural value chain actor(s)/player(s), who are qualified borrowers under Sec. 331 shall be considered as either direct or allowable alternative compliance to the mandatory agriculture and agrarian reform credit allocation; and
- b. Increase in SBL for an additional twenty-five percent (25%) for loans, other credit accommodations and guarantees granted to entities, which act as value chain aggregators of the lending banks' clients, and/or economically-linked entities that are also actors/players in the value chain: *Provided*, That the additional twenty-five percent (25%) will

apply only to non-director/s, officer/s, stockholder/s, and related interest/s (DOSRI)/related party transaction (RPT) loans: *Provided, further,* That such increase in the SBL for an additional twenty-five percent (25%) shall only be for a period of three (3) years starting 02 April 2016¹, subject to review after said period.

Parcellary plans on crop loans. Banks shall require the submission of parcellary plans as requisite for granting crop loans to sugarcane planters.

(Circular No. 908 dated 14 March 2016)

314 MICROFINANCE LOANS

Pursuant to Sections 40, 43 and 44 of R.A. No. 8791 the following rules, regulations and standards shall govern microfinancing operations of banks.

In the implementation of this Section, banks should be guided by the Notes on Microfinance in *Appendix 41*.

Definition.

- a. *Microfinance loans* refer to the amortized cost of loans granted under the bank's microfinance loan products that meet the general features provided under *Appendix 41*, Item "e".
- b. *Refinanced loans* are loans that have been disbursed to enable repayment of prior loans that would not have been paid in accordance with the original installment schedule. Loans granted within a week or less from the date an original loan with more than thirty percent (30%) of the original principal still outstanding had been paid in advance shall be considered as refinanced loans. Refinanced loans shall be classified and reported as restructured loans.

Loan limit; amortization; interest.

- a. The maximum principal amount of microfinance loans shall not exceed P150,000. This is equivalent to the maximum capitalization of a microenterprise under R.A. No. 8425.
- b. The schedule of loan amortization shall take into consideration the projected cash flow of the borrowers which is adopted into the terms and conditions formulated. Hence, microfinance loans may be amortized on a daily, weekly, bi-monthly or monthly basis, depending on the cash flow conditions of the borrowers.
- c. Interest on such microfinancing loans shall be reasonable and just as may be determined by management to be consistent with its credit policies. The interest rate shall not be lower than the prevailing market rates to enable the lending institution to recover the financial and operational costs incidental to this type of microfinance lending.
- d. Interest accrued and/or booked shall be reversed and no accrual of interest shall be allowed after the microfinance loan has become past due as defined in Sec. 304.

Credit information exemption. In cases of microfinancing loans which meet the criteria in this Section on Loan limit; amortization; interest, a bank may not require from its credit applicants, a statement of assets and liabilities, and of their income and expenditures and such information as may be prescribed by law or by rules and regulations of the Monetary Board to enable the bank to properly evaluate the credit application which includes the corresponding financial statements submitted for taxation purposes to the BIR, as prescribed under Section 40 of R.A. No. 8791.

Exemptions from rules on unsecured loans. In view of the unique characteristics of microfinance loans, i.e., small unsecured and based on cash flow of borrowers, these loans may be exempted from rules and regulations which may be issued by the Monetary Board with respect to unsecured loans under Section 41 of the General Banking Law of 2000: *Provided,* That the bank has:

- a. well-defined standards, credit policies and procedures for microfinance loans which are in conformity with microfinance international best practices;
- b. specific measures to be undertaken to ensure collection such as close supervision of borrowers' projects and operations; and
- c. Loan Portfolio and Other Risk Assets Review System required under Sec. 143 (*Credit review process*) which would serve as:
 - (1) An adequate loan tracking system that allows daily monitoring of the status of loan releases, collection and arrearages, any restructuring or refinancing; and
 - (2) A regular monitoring of past due loans and portfolio at risk.

¹ Effectivity date of Circular No. 908 dated 14 March 2016.

Housing microfinance loan. The Bangko Sentral adopts a holistic approach in addressing social and economic objectives through microfinance. Microfinance has been confined to mean financing for microenterprises or small livelihood activities. It has been proven, however, that clients of microfinance also need a wide range of financial services including housing finance. Further, it is typical that some microfinance clients also use their access to credit for their homes.

Housing microfinance involves the application of microfinance principles and methodologies to the provision of housing finance and consists mainly of loans to existing clients of microfinance institutions and other poor and low-income households. With adequate and appropriate risk management measures, the product will enable institutions to appropriately service the housing needs of those who are unable to access traditional housing finance. The provision of housing microfinance is also seen as a way to improve the living conditions of the enterprising poor and the low-income households which will contribute to better health, productivity and quality of life.

Housing as a shelter is a necessity. As a sector, it spurs economic activity and creates employment through the multiplier effects generated in the downstream industries by the procurement of construction materials. It is therefore important to support this sector.

The following rules and regulations shall govern the granting of housing microfinance products:

- a. *Minimum criteria to determine bank's capacity to grant housing microfinance* – Banks planning to grant housing microfinance loans shall ensure that the following requirements are complied with:
 - (1) The bank must have a track record of at least two (2) years in implementing sustainable microfinance programs, including acceptable portfolio-at-risk (PAR) levels as evaluated against prevailing Bangko Sentral standards.
 - (2) The bank must have an appropriate housing microfinance product manual where the product will be included in the bank's microfinance manual as one of the types of services or products offered to prospective clients. Loan/account officers must be trained about the housing microfinance product and that the details of the program can be communicated clearly to the clients.
 - (3) Appropriate verification of the following prudential requirements:
 - (a) latest CAMELS rating of at least "3" and a management score of at least "3";
 - (b) CAR of not lower than twelve percent (12%);
 - (c) no major supervisory concerns as to warrant initiation of Prompt Corrective Action (PCA) under existing regulations;
 - (d) no arrearages in microfinance borrowings; and
 - (4) Appropriate certification of the bank's commitment to implement the housing microfinance product following the guidelines set forth in the submitted manual.
- b. *Basic product characteristics.* The housing microfinance product shall have the following basic characteristics:

Subject	Particulars
Purpose	<ul style="list-style-type: none"> House construction House and/or lot acquisition Lot acquisition should be for housing/business Home improvement/repairs
Eligibility	<ul style="list-style-type: none"> Existing microfinance clients New clients who will normally be eligible for microfinance loans based on banks' policies Borrowers who have qualified for the Credit Surety Fund credit enhancement program provided they qualify with the banks policies
Loan Amount	<ul style="list-style-type: none"> Up to P300,000 for house construction and/or lot acquisition (must show tenure security) Up to P150,000 for home improvement/repairs Incremental loan amounts to support incremental building
Loan Value	<ul style="list-style-type: none"> Up to ninety percent (90%) of the appraised value in case of REM Acceptable valuation in cases of usufruct, leases, etc. Capacity to pay based on household cash flow analysis
Payment	<ul style="list-style-type: none"> Frequent amortization With savings component Loan payments should not exceed a reasonable percentage of clients income as determined by cash flow analysis and capacity to pay determined through a clear credit process
Terms	<ul style="list-style-type: none"> Up to fifteen (15) years for house construction and house and/or lot acquisition subject to banks' credit policies Up to 5 years for home improvement/repairs

The product must share the characteristics of the microfinance loan as described under this Section and *Appendix 41* except for the following:

- (1) The maximum loan amount shall be P300,000.
 - (2) The loans have longer terms with a maximum of five (5) years for home improvement/repairs and fifteen (15) years for house construction and house/lot acquisition.
 - (3) For house construction and house/lot acquisition loans, secure tenure instruments will be used as collateral (See *Appendix 85*).
- c. *Appropriate risk management.* Due to a risk profile that may be different from the typical microfinance loan, the following risk management elements must be highlighted and embedded in the product:
- (1) Clients ability to repay based on cash flow analysis and affordability especially the new clients;
 - (2) Opening of a savings account shall be required for clients with no existing savings account;
 - (3) Secure tenure instruments as collateral/collateral substitutes for loans over P150,000;
 - (4) Adequate loan monitoring, collection, control, provisioning which is also to be included in the banks' housing microfinance manual;
 - (5) Additional risk cover may be availed from government guarantee program;
 - (6) A lien or mortgage covering the house and/or lot financed by the loan shall be executed by the borrower in favor of the lending bank; and
 - (7) Mortgage redemption insurance shall be required to cover against death or permanent disability.
- d. *Regulatory treatment.* The housing microfinance product will be considered as a microfinance loan and will have the following incentives in addition to existing incentives available for microfinance loans:
- (1) The loans shall have an assigned risk-weight of fifty percent (50%) when not guaranteed and zero percent (0%) when guaranteed by the PGC.
 - (2) For housing microfinance loans secured by REM, a ninety percent (90%) loan valuation may be allowed for loans with a government guarantee component.
 - (3) Secure tenure instruments such as freehold, usufruct, leasehold and right to occupy and/or build shall be recognized as collateral/collateral substitute subject to approved loan valuations (*Appendix 85*).

Banks that will offer housing microfinance shall also comply with the following:

- (1) The bank must maintain a subcontrol ledger for the housing microfinance product.
 - (2) The housing microfinance loans shall not exceed thirty percent (30%) of the total loan portfolio.
 - (3) Recording of PAR and the provisioning requirements shall be strictly in accordance with applicable Bangko Sentral regulations.
- e. *Notarized certificate of compliance.* The bank president or officer or equivalent rank and the compliance officer shall submit a notarized certificate of compliance, attesting that the bank meets the minimum prudential requirements and that the housing microfinance loan complies with the prescribed product characteristics/features. (*Appendix 105*)

The notarized certificate shall be submitted within fifteen (15) banking days from the date of meeting of the board of directors approving the housing microfinance loan product.

- f. *Sanctions.*
- (1) In case the submitted certificate of compliance is found later, during on-site examination, to be erroneous and/or untrue, the bank may be sanctioned under Sec. 37 of R.A. No. 7653 for willful making of a false or misleading statement.
 - (2) In addition to the above-mentioned penalty, subject bank is not allowed to grant any new housing microfinance loan and its transaction shall be limited only to the collection of outstanding microfinance housing loan receivables. This prohibition shall remain until bank's compliance with the prescribed regulations is verified to be in order by the appropriate supervising department of the Bangko Sentral.
 - (3) Banks, with certificates of compliance found to be in order, shall continue to comply with the prescribed prudential requirements. If found later on that the bank is non-compliant with any or all of the requirements, it shall be given one examination-cycle to correct any deficiency. If the bank remains non-compliant after the lapse of one examination-cycle, the granting of housing microfinance loan shall be deemed suspended effective on the day after the corrective period has expired. While the suspension is in effect, the bank's transactions shall be limited to the collections of outstanding housing microfinance loan receivables.

For the purpose of this provision, one (1) examination-cycle is defined as the period commencing from the date the bank is formally informed of the findings/exceptions of the last general examination up to the date of the exit conference of the immediately succeeding general examination.

- (4) Other sanctions. The imposition of the foregoing sanctions shall be without prejudice to the imposition of other administrative sanctions, as provided in other regulations in this Manual.

Micro-agri loans; Policy statement. The Bangko Sentral adopts a holistic approach in addressing social and economic objectives through microfinance. Microfinance utilizes an innovative technology and methodology that has proven successful in providing the appropriate financing for microentrepreneurs who were previously underserved by the formal financial system. Through the years, it has been evident that the microfinance technology and methodology can be appropriately utilized to deliver other types of financial services in a sound, prudent and sustainable manner, including credit for small farming activities.

- a. *Minimum criteria to determine bank's capacity to grant micro-agri loans.* Banks planning to grant micro-agri loans shall ensure that the following requirements are complied:

- (1) To ensure that the banks have the financial capacity, managerial and technical capabilities to offer micro-agri loans; the following prudential requirements must be complied at all times:
- (a) CAMELS rating of at least "3" and a 'Management' score of at least "3";
 - (b) CAR of not lower than twelve percent (12%);
 - (c) no major supervisory concerns as to warrant initiation of prompt corrective action under existing regulations; and
 - (d) no arrearages on microfinance borrowings (bills payable) from Bangko Sentral or other creditors.

Banks authorized to offer a micro-agri loan product shall continually comply with the above-mentioned prudential requirements. Banks found to be non-compliant with any or all of the requirements shall be given one (1) examination cycle to correct non-compliance with any or all of the prudential requirements, provided the bank submits a viable plan to rectify pertinent non-compliance. If the bank remains non-compliant after the lapse of one (1) examination cycle, its authority to offer micro-agri loan shall be deemed suspended effective on the day after the corrective period has expired. While the suspension is in effect, bank's micro-agri loan transactions shall be limited to collections of outstanding receivables.

For the purpose of this Section, *one (1) examination-cycle* is defined as the period commencing from the date of the exit conference of the last general examination up to the date of the exit conference of the immediately succeeding general examination.

- (2) The bank must have a track record of at least two (2) years in implementing sustainable microfinance programs, including acceptable portfolio-at-risk (PAR) levels as evaluated against prevailing Bangko Sentral standards; and
- (3) The bank must have well-defined policies covering the micro-agri loan product to be included in the bank's microfinance manual as one of the types of services or products to be granted to prospective clients. Loan/account officers must be trained about the micro-agri loan product and that the details of the program can be communicated clearly to the clients.
- b. *Basic product characteristics.* The micro-agri loan product shall have the criteria/characteristics of a microfinance loan as provided in existing regulations in addition to the following product characteristics:

Subject	Particulars
Purpose/Term	- Short term purposes only (up to 12 months) whether it is for farm activities, agri-business, agri-related fixed assets, among others
Eligibility	Multiple income generation activities (farm and off-farm) Farm activities at least 2 years in operation Existing borrowers with good track record based on banks' policies
Loan Amount	- Up to P150,000 - Loans to start small and increase incrementally based on banks' policies
Loan Value	- Capacity to pay based on household cash flow analysis
Payment	Frequent amortization (weekly, semi-monthly, monthly) Lump sum payment may be considered an option of up to forty percent (40%) of loan amount
Security	- Like microfinance loans, collateral substitutes may be required

- c. *Appropriate risk management.* Micro-agri loans shall be subject to the same risk management mechanisms required for microfinance loans including, but not limited to the following:
 - (1) Clients' ability to repay based on cash flow analysis and affordability especially for new clients. The prospective client must have other sources of income sufficient for the periodic payment of the loan while the loan project is not yet generating income, evaluated through household cash flow analysis;
 - (2) Adequate management information and loan tracking systems, loan monitoring, collection, control, provisioning consistent with existing Bangko Sentral regulations;
 - (3) The loan product is included in the banks' microfinance manual as one (1) of the types of services or products offered to prospective clients; and
 - (4) The micro-agri loans must have a subcontrol ledger.
- d. *Other micro-agri products.* No provision in the micro-agri product inconsistent with Micro-agri loans in this Section shall be allowed except upon prior Bangko Sentral approval. The Bangko Sentral shall allow deviation from the provisions of Micro-agri loans in this Section provided appropriate risk management system compensates for the additional risks involved.
- e. *Regulatory treatment.* The micro-agri loan product will be considered as microfinance loan and will have the same regulatory treatment as provided by existing microfinance regulations.
- f. *Reportorial requirement.* Notarized certificate of compliance. The bank president or officer of equivalent rank and the compliance officer shall submit a notarized certificate of compliance, attesting that the bank meets the minimum prudential requirements and that the micro-agri loan complies with the prescribed product characteristics/features. (Appendix 105)

The notarized certificate shall be submitted within fifteen (15) banking days from the date of meeting of the board of directors approving the micro-agri loan product.

- g. *Sanctions.* In case of non-compliance, the bank shall be subject to the following:
 - (1) In case the submitted certificate of compliance is found later, during on-site examination, to be erroneous and/or untrue, the bank may be sanctioned under Sec. 37 of R.A. No. 7653 for willful making of a false or misleading statement.
 - (2) In addition to the above-mentioned penalty, subject bank shall not be allowed to grant any new micro-agri loan and its transaction shall be limited only to the collection of outstanding micro-agri loan receivables. This prohibition shall remain until bank's compliance with the prescribed regulations is verified to be in order by the appropriate supervising department of the Bangko Sentral.
 - (3) Banks, with certificates of compliance, found to be in order shall continue to comply with the prescribed prudential requirements. If found later on that the bank is non-compliant with any or all of the requirements, it shall be given one examination cycle to correct any deficiency. If the bank remains non-compliant after the lapse of one (1) examination cycle, the granting of micro-agri loan shall be deemed suspended effective on the day after the exit conference, during which the management shall be informed of its failure to make proper corrective actions within the prescribed period. While the suspension is in effect, the bank's transactions shall be limited to the collections of outstanding micro-agri loan receivables.

For the purpose of this provision, *one examination-cycle* is defined as the period commencing from the date the bank is formally informed of the findings/exceptions of the last general examination up to the date of the exit conference of the immediately succeeding general examination.

- (4) *Other sanctions.* The imposition of the foregoing sanctions shall be without prejudice to the imposition of other administrative sanctions, as provided in other regulations in this Manual.

Marketing, sale and servicing of microinsurance products by thrift banks. A TB including its authorized branch/es and branch-lite unit/s shall comply with Sec. 113-B for the presentation, marketing and sale of microinsurance products.

Marketing, sale and servicing of microinsurance products by rural and cooperative banks. An RB/Coop bank including its authorized branch/es and branch-lite unit/s shall comply with Sec. 113-C for the presentation, marketing and sale of microinsurance products.

Required reports. Banks, with retail microfinance operations, shall be required to submit the "Report on Microfinance Products" on a monthly basis, and the "Income Statement on Retail Microfinance Operations" on a quarterly basis. Both reports shall be submitted within fifteen (15) banking days after the end of the reference month and quarter, respectively.

Banks with no microfinance operations, either retail or wholesale, are expected to fill up only Item “3.1.B”, “Other Microenterprises Loans”, under “Additional Information” of the “Report on Microfinance Products”. On the other hand, banks engaged solely in wholesale microfinance operations are expected to fill up only Item “2”, “Wholesale Microfinance Operations”, and its related sub-accounts under “Additional Information” of the ‘Report on Microfinance Products’. These banks, however, are required to submit the quarterly “Income Statement on Retail Microfinance Operations”, indicating that the required data are not applicable, otherwise, these banks will be sanctioned for incomplete submission of reports.

Erroneous/Delayed/Erroneous and Delayed/Unsubmitted reports shall be subject to penalties prescribed for *Category A-2* report under Sec. 171 (*Non-compliance with the Bangko Sentral reporting standards*).

Sanctions. Violations of the provisions of this Section shall be subject to any or all of the following sanctions:

- a. Disqualification of the bank concerned from the credit facilities of the Bangko Sentral except as may be allowed under Section 84 of R.A. No. 7653;
- b. Prohibition of the bank concerned from the extension of additional microfinance loans; and
- c. Penalties and sanctions provided under Sections 36 and 37 of R.A. No. 7653.

(Circular Nos. 987 dated 28 December 2017, 963 dated 27 June 2017, 945 dated 06 February 2017, 941 dated 20 January 2017, and 890 dated 02 November 2015)

315 INTERBANK LOANS

Interbank loan transactions shall include the following transactions with other banks and quasi-banks, (a) call or demand loan transactions; (b) term loan transactions; (c) borrowings evidenced by debt instruments which may include, but need not be limited to, bankers acceptances, promissory notes, participations, certificates of assignment and similar instruments with recourse, and repurchase agreements; and (d) purchases of receivables with recourse: *Provided*, That funds borrowed by banks from trust departments of banks or IHS shall be excluded from the herein definition of interbank loan transactions.

Systems and procedures for interbank call loan transactions. IBCL transactions of banks shall be governed by the Agreement for the PhilPaSS executed on 12 December 2002 between the Bangko Sentral and the Bankers Association of the Philippines (BAP)/Chamber of Thrift Banks (CTB)/Rural Bankers Association of the Philippines (RBAP) and any subsequent amendments thereto.

Accounting procedures.

- a. Both lending and borrowing banks shall immediately pass the corresponding entries in their books.
- b. IBCL transactions shall be recorded by the lending bank as Interbank Call Loans Receivable and by the borrowing bank as Bills Payable Interbank - Call Loans.
- c. Banks shall reconcile their demand deposit accounts (DDAs) with the Bangko Sentral against monthly statements of account to be furnished by the Bangko Sentral Financial Accounting Department, Comptrollership Sub-Sector. In relation to this, banks shall submit a DDA Reconciliation Statement on solo basis as indicated in *Appendix 7¹*. The submission of the DDA Reconciliation Statement shall be subject to the provisions of Sec. 171.

Settlement procedures for interbank loan transactions. Interbank loan transactions (call and term) among banks shall be settled gross with finality subject to the availability of balances in the deposit reserves maintained by banks in the Bangko Sentral in accordance with the provisions of the Agreement for the PhilPaSS executed on 12 December 2002 between the Bangko Sentral and the BAP/CTB/RBAP and any subsequent amendments thereto.

(Circular Nos. 1096 dated 16 September 2020 and 1061 dated 25 November 2019)

316 BANK LOANS TO GOVERNMENT

Domestic borrowings by local government units (LGUs) pursuant to Section 123 of R.A. No. 7653. The domestic borrowings of LGUs within the Philippines, the procedures to be observed as well as the documentary requirements to be submitted, relative to the requests for Monetary Board opinion on the probable effects of the proposed credit operation on monetary aggregates, the price level and the balance of payments (BOP), pursuant to Section 123 of Republic Act No. 7653, as well as other pertinent laws and regulations shall be governed by the guidelines as contained in *Appendix 53*.

Debt service limit on local government borrowings. To ensure the effective implementation of the debt service limit on local government borrowings as stipulated in Section 324 (b) of the Local Government Code of 1991, all banks shall require each borrowing LGU to present a certificate of its debt service and borrowing capacity, duly certified by the Bureau of Local Government Finance – Department of Finance (BLGF DOF).

¹ The regular submission of the DDA Reconciliation Statement shall commence starting with the semester ending 31 December 2021.

Domestic borrowings by Government-Owned and/or –Controlled Corporations (GOCCs), Local Water Districts (LWDs) and State Universities and Colleges (SUCs) pursuant to Section 123 of R.A. No. 7653. The domestic borrowings of GOCCs, LWDs, and SUCs within the Philippines, the procedures to be observed as well as the documentary requirements to be submitted, relative to the requests for Monetary Board opinion on the probable effects of the proposed credit operation on monetary aggregates, the price level and the BOP, pursuant to Section 123 of R.A. No. 7653, as well as other pertinent laws and regulations shall be governed by the guidelines, as contained in *Appendix 54*.

Enforcement actions. Any violation of this Section shall be subject to appropriate enforcement/supervisory action/s provided under Sec. 002 and Sections 36 and 37 of R.A. No. 7653, as well as those contained in other applicable regulations of the Bangko Sentral. Imposition of applicable enforcement action shall be on a per loan/borrowing account, regardless of the number of tranches or releases from the same loan/borrowing.

(Circular No. 926 dated 13 September 2016)

317 OTHER LOANS AND REDISCOUNTING TO THRIFT/RURAL/COOPERATIVE BANKS

Loans under Section 12 of R.A. No. 7353, Section 10 of R.A. No. 7906 and Article 102, R.A. No. 6038, as amended by RA. No. 9520. Banks may rediscount papers of TBs/RBs/Coop Banks. Banks shall specify the nature of papers acceptable for rediscounting as well as the rediscount rate.

Loans under Section 14 of R.A. No. 7353. The following are the guidelines in the grant by the LBP, DBP or any government-owned or controlled bank or FI of a loan to an RB under Section 14 of R.A. No. 7353.

- a. **Issuance of certification.** Subject to the qualifications of the RBs prescribed in Item “b” hereof, the Monetary Board shall issue the certification required under Section 14 of R.A. No. 7353, which shall be final, after the Monetary Board has determined that:

- (1) The resources of the RB are inadequate to meet the legitimate credit needs of the locality wherein the RB is established;
- (2) There is dearth of private capital in said locality; and
- (3) It is not possible for the stockholders of the RB to increase the paid-up capital thereof.

The appropriate supervising department of the Bangko Sentral may prescribe and require the submission by the RB of papers and documents necessary for such determination.

- b. **Qualifications for loan.** In order to qualify for the financial assistance under said provision of law, the RB shall first meet the following requirements:

- (1) Its capital-to-risk assets ratio during the last six (6) months immediately preceding the loan application should be at least ten percent (10%);
- (2) Its past due loans are not more than twenty-five percent (25%);
- (3) It has no deficiency in allowance for probable losses on loans and other risk assets;
- (4) It must not have incurred deficiency in its reserves against deposit liabilities for the last six (6) months preceding the filing of the application;
- (5) It must have been operating profitably for the last three (3) years;
- (6) Its arrearages with the Bangko Sentral or other government FIs, if any, are being liquidated through an approved plan of payment, the conditions of which are being complied with; and
- (7) It is operating substantially in accordance with applicable laws and Bangko Sentral rules and regulations.

- c. **Extension of loan.** The LBP, the DBP or any government-owned or controlled bank or FI shall, within sixty (60) days from issuance by the Monetary Board of the certification, and subject to their loan and investment policies, extend to an RB a loan or loans from time to time, repayable in ten (10) years, with concessional rates of interest, against security/ies which the stockholder or stockholders of the RB may offer.

318 STANDBY LETTERS OF CREDIT

The following shall govern the issuance of standby letters of credit.

Domestic standby letters of credit. Domestic standby letters of credit may be issued or used in transactions other than those involving movement of goods under the following guidelines:

- a. The bank’s obligation to pay shall be either unconditional (as against presentation of a clean draft) or conditional only upon the presentation of documents and not upon actual existence or non-existence of facts, i.e., the bank must not be called upon to determine disputed questions of facts or law;
- b. The bank’s obligation shall be limited to a fixed maximum amount;

- c. The bank's obligation shall have an expressed expiration date;
- d. The standby letters of credit accommodation shall not violate any law or existing Bangko Sentral directives, rules and regulations, such as the SBL and DOSRI ceilings;
- e. The party who opened the standby letters of credit or the ultimate borrower shall not have any past due obligation with the issuing bank for the ninety (90)-day period preceding the date of issuance of the letter of credit; and
- f. The party who opened the letter of credit (borrower or principal obligor) must have an unqualified obligation to reimburse the bank on the same condition as the bank has paid.

319 COMMITTED CREDIT LINE FOR COMMERCIAL PAPER ISSUES

The following guidelines shall govern committed credit line agreements of banks with corporations proposing to issue commercial paper, pursuant to pertinent rules and regulations of the SEC.

Who may grant line facility. A bank with a net worth of at least P1.0 billion as defined in Sec. 121, may provide a committed credit line facility to a commercial paper issuer.

The bank shall exercise proper caution in ascertaining that the party, in whose favor the credit line shall be granted, is capable of fulfilling his commitments to the bank under the credit line agreement.

A bank or a group of banks may enter into a committed credit line agreement with any corporation proposing to issue commercial paper. Where a group of banks is involved, a lead bank shall be designated from among themselves.

Ceilings. The aggregate commitments under committed credit line agreements entered into by each bank pursuant to this Section shall not exceed an amount equivalent to thirty percent (30%) of its net worth, reckoned as of the date of execution of the latest agreement: *Provided*, That in no case shall a bank extend commitments to a single issuer for more than twenty-five percent (25%) of its net worth exclusive of other exposures to the said issuer.

Terms; conditions; restrictions. The committed credit line agreement shall incorporate the following terms, conditions and restrictions:

- a. That the credit line agreement is executed pursuant to the provisions of this Section;
- b. That the bank or banks are committed to make available to the issuer funds equivalent to at least twenty percent (20%) of the aggregate of the commercial paper issued and outstanding at any time;
- c. That the commitment of the bank or banks shall be firm and irrevocable and effective for as long as the issues under a particular permit are outstanding, subject to renewal by the bank;
- d. That availments pursuant to the credit line agreement shall be for the exclusive purpose of meeting obligations arising from commercial paper issues in accordance with the provisions of the Rules on Registration of Commercial Papers, which availments shall be honored not earlier than three (3) banking days prior to the date of payment of obligation arising from outstanding commercial paper;
- e. That the request to avail of the credit line agreement shall be addressed to the bank or to the lead bank acting for a group of banks, which request shall be duly signed by a member of the board of directors and a senior ranking officer of the commercial paper issuer duly authorized for the purpose through an appropriate board resolution, which resolution shall also provide for the designation of the alternate signatories who shall likewise be a member of the board of directors and a senior financial officer of the corporation;
- f. That the extent of the commitment of each participant in a group of banks under a credit line agreement shall be stipulated in the agreement; and
- g. That the commitment of the bank under the credit line agreement shall be a net risk to the bank and the practice of requiring the commercial paper issuer to maintain a compensating deposit with the bank shall be prohibited.

Reports to the Bangko Sentral. The bank or the lead bank, as the case may be, shall report to the Bangko Sentral:

- a. All commitments entered into with commercial paper issuers within ten (10) banking days after the issuer shall have been authorized by the SEC; and
- b. Any availment under the committed credit line agreement within three (3) banking days from date of drawdown.

Loan limit. The liabilities of a commercial paper issuer to a bank arising from the availment by the issuer of the credit line agreement shall not be counted in determining compliance by the bank with the SBL for a period of ninety (90) calendar days from each availment of the credit line¹: *Provided*, That in no case shall they exceed five percent (5%) of the net worth of the bank beyond the normal applicable SBL.

(Circular No. 975 dated 10 October 2017)

C. MANDATORY/SPECIALIZED CREDITS

331 AGRICULTURE AND AGRARIAN REFORM CREDIT

Pursuant to R.A. No. 10000, The Agri- Agra Reform Credit Act of 2009, the following guidelines shall govern the grant of agrarian reform credit by banks, government or private.

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Accredited rural financial institutions (FIs)* shall refer to FIs like RBs, Coop Banks, farmer's cooperatives and farmer's cooperative insurance or mutual benefit associations whose portfolios are substantially agri-agra related and have been certified as such either by the Bangko Sentral, in the case of banks, or by the DA, or by an agency duly-authorized by the DA, in the case of NBFIs.
- b. *Agrarian reform beneficiaries* shall refer to farmers who were granted lands under P.D. No. 27 or the "*Emancipation of Tenants from the Bondage of the Soil, Transferring to Them the Ownership of the Land They Till and Providing the Instruments and Mechanism Therefor*", R.A. No. 6657 or the "*Comprehensive Agrarian Reform Law*" and R.A. No. 9700 or the "*Comprehensive Agrarian Reform Extension with Reforms*" and regular farmworkers who are landless, irrespective of tenurial arrangement, who benefited from the redistribution of lands, regardless of crops or fruits produced, to include the totality of factors and support services designed to lift the economic status of the beneficiaries and all other alternative arrangements to the physical distribution of lands, such as production or profit-sharing, labor administration, and the distribution of shares of stock under the stock distribution option scheme, which will allow beneficiaries to receive a just share of the fruits of the lands they work, which farmers and farmworkers shall be endorsed by the nearest office of the DAR.

The term shall, likewise, include registered agrarian reform beneficiaries' cooperatives/associations/other farm groups respectively endorsed as comprising of agrarian reform beneficiaries by the nearest office of the DAR.

- c. *Agrarian reform credit* shall refer to loans granted to agrarian reform beneficiaries for agricultural and agrarian reform purposes.
- d. *Agricultural credit* shall refer to loans granted to borrowers for agricultural purposes.
- e. *Agricultural lessee* shall refer to any person who, with or without help from his/her immediate farm household, cultivates the land owned by another for a certain price in money, in produce or in both.
- f. *Agriculture and agrarian reform credit* shall refer to loans granted for the following activities and purposes:
 - (1) agricultural production;
 - (2) promotion of agribusiness and exports;
 - (3) acquisition of work animals, farm and fishery equipment and machinery;
 - (4) acquisition of seeds, fertilizers, poultry, livestock, feeds and other similar items;
 - (5) acquisition of lands authorized under the Agrarian Reform Code of the Philippines and its amendments;
 - (6) construction, acquisition and repair of facilities for production, processing, storage, and marketing and such other facilities in support of agriculture and fisheries;
 - (7) efficient and effective merchandising of agricultural and fishery commodities stored and/or processed by the facilities aforecited in domestic and foreign commerce;
 - (8) agricultural value chain financing availed by actor(s)/player(s) who are considered as qualified borrowers under this Section; and
 - (9) other activities identified in Section 23 of R.A. No. 8435, otherwise known as the "*Agriculture and Fisheries Modernization Act of 1997*", as follows:
 - (a) Agriculture and fisheries production including processing of fisheries and agri-based products and farm inputs;
 - (b) Acquisition of work animals, farm and fishery equipment and machinery,
 - (c) Acquisition of seeds, fertilizer, poultry, livestock, feeds and other similar items;
 - (d) Procurement of agriculture and fisheries products for storage, trading, processing and distribution;
 - (e) Acquisition of water pumps and installation of tube wells for irrigation;

¹ This shall cover all new underwritten debt and equity securities issued from 15 February 2013.

- (f) Construction, acquisition and repair of facilities for production, processing, storage, transportation, communication, marketing and such other facilities in support of agriculture and fisheries;
 - (g) Working capital for agriculture and fisheries graduates to enable them to engage in agriculture and fisheries-related economic activities;
 - (h) Agribusiness activities which support soil and water conservation and ecology-enhancing activities;
 - (i) Privately-funded and LGU-funded irrigation systems that are designed to protect the watershed;
 - (j) Working capital for long-gestating projects; and
 - (k) Credit guarantees on uncollateralized loans to farmers and fisherfolk.
- g. *Agro-industry Modernization Credit and Financing Program (AMCFP)* refers to the umbrella credit/financing program of the government for the agriculture and fisheries sector created under R. A. No. 8435.
- h. *Amortizing owners* shall refer to landowners who still amortize payment for the land to a private individual or to the State.
- i. *Bangko Sentral-accredited rural financial institutions (FIs)* shall refer to banks that are accredited by the Bangko Sentral in accordance with criteria set forth in this Section.
- j. *Compact farmers* shall refer to those farmers with adjoining farms operating as a single unit under one management, farm plan and budget.
- k. *Farm to market road* shall refer to roads linking the agriculture and fisheries production sites, coastal landing points and post-harvest facilities to the market and arterial roads and highways.
- l. *Farmer* shall refer to a natural person whose primary livelihood is cultivation of land or the production of agricultural crops, agroforest products, livestock and/or fisheries, either by himself/herself, or primarily with the assistance of his/her immediate farm household, whether the land is owned by him/her or by another person under a leasehold or share tenancy agreement or arrangement with the owner thereof.
- m. *Farmworker* shall refer to a natural person who renders service for value as an employee or laborer in an agricultural enterprise or farm regardless of whether his/her compensation is paid on a daily, weekly, monthly or “pakyaw” basis. The term includes an individual whose work has ceased as a consequence of, or in connection with, a pending agrarian dispute who has not obtained a substantially equivalent and regular farm employment.
- n. *Farmer’s cooperatives* shall refer to organizations composed primarily of small agricultural producers, farmers, farmworkers, or other agrarian reform beneficiaries who voluntarily organize themselves for the purpose of pooling land, manpower, technological, financial or other economic resources, and operate on the principle of one (1) member, one (1) vote. A juridical person may be a member of a cooperative, with the same rights and duties as a natural person.
- o. *Farmer’s and fisherfolk’s organizations or associations* shall refer to farmer’s and fisherfolk’s cooperatives, associations or corporations duly registered with appropriate government agencies and which are composed primarily of small agricultural producers, farmers, farmworkers, agrarian reform beneficiaries or fisherfolk who voluntarily join together to form business enterprises or non-business organizations which they themselves own, control and patronize.
- p. *Fisherfolk* shall refer to people directly or personally and physically engaged in taking and/or culturing and processing, fishery and/or aquatic resources.
- q. *Fisheries* shall refer to all activities relating to the act or business of fishing, culturing, preserving, processing, marketing, developing, conserving and managing aquatic resources and the fishery areas, including the privilege to fish or take aquatic resource thereof.
- r. *Fishworker* shall refer to a person whether or not regularly employed in commercial fishing and related industries, whose income is either from wages, profit sharing or stratified sharing basis, including those working in fishpens, fish corral/traps, fishponds, prawn farms, sea farms, salt beds, fish ports, fishing boat or trawlers, or fish processing and/or packing plants, but excluding administrators, security guards and overseers.
- s. *Loanable funds* shall refer to total funds generated from 20 April 2010, the computation of which is described in this Section.
- t. *National Food Authority*, otherwise known as the NFA, shall refer to the government entity created through P.D. No. 4 dated 26 September 1972. It is currently vested with the function of ensuring food security and stability of price and supply of staple grain-rice through procurement of paddy from individual bonafide farmers and their organizations, buffer stocking, processing activities, dispersal of paddy and milled rice to strategic locations, distribution of the staple grain to various marketing outlets at appropriate times of the year and other similar

activities. As used in these rules, its role shall be limited to the issuance of warehouse receipts, which may be used as collateral for bank loans and loans under the AMCFP value chain financing facility.

As a government non-financial agency, the NFA cannot and will not perform any lending function consistent with the provisions of R.A. No. 8435.

- u. *Owner-cultivators* shall refer to natural persons who own lands by purchase, inheritance, or land distribution by the State. Owner-cultivators can operate the farm themselves, supervise wage labor or delegate operations to farmers.
- v. *Post-harvest activities* shall refer to threshing, drying, milling, grading, storing, and handling of produce and such other activities of a similar nature such as stripping, winnowing, chipping and washing.
- w. *Post-harvest facilities* shall refer to threshers, moisture meters, dryers, weighing scales, milling equipment, fish ports, fish landings, ice plants and cold storage facilities, processing plants, warehouses, buying stations, market infrastructure and transportation facilities supporting post-harvest activities.
- x. *Public infrastructure* shall refer to facilities including, but not limited to, market buildings, slaughterhouses, holding pens, warehouses, market information centers, connecting roads, transport and communication, processing plants, ice plants and cold storage facilities, grain dryers, warehouses, grain silos and cold storage used by the farmers and fisherfolk in the production, processing, storage, transportation, communication, marketing of their produce and such other facilities in support of agriculture and fisheries.
- y. *Settlers* shall refer to persons who range from the forest-clearing pioneers, including indigenous people, with a subsistence economy to the better equipped and more experienced farmers.
- z. *Tenant farmer* shall refer to one (1) who cultivates another's land under a sharing leasehold agreement.

Qualified borrowers. Qualified borrowers for agriculture and agrarian reform credit shall refer to farmers, fisherfolk, agrarian reform beneficiaries, settlers, agricultural lessees, amortizing owners, farmworkers, fishworkers, owner-cultivators, compact farmers, tenant farmers, as well as farmer's and fisherfolk's cooperatives, organizations and associations in good standing, regardless of capitalization, based on the feasibility of the project and their paying capacity, their estimated production, and/or securities they can provide as well as such assets as may be acquired by them from the proceeds of the loan.

Required allocation for agriculture and agrarian reform credit. Banks shall set aside at least twenty-five percent (25%) of their total loanable funds for agriculture and agrarian reform credit in general, of which at least ten percent (10%) of the total loanable funds shall be made available for agrarian reform beneficiaries.

Excess compliance in the ten percent (10%) agrarian reform credit may be used to offset a deficiency, if any, in the fifteen percent (15%) other agricultural credit, in general, but not vice versa.

Direct compliance. Total loanable funds as computed under this Section shall be made available by banks for agriculture and agrarian reform credit.

- a. Twenty-five percent (25%) mandatory agriculture and agrarian reform credit allocation through the following modes of compliance that are undertaken after 20 April 2010:
 - (1) Actual extension of loans to qualified borrowers (gross of allowance for probable losses), for purposes of financing agriculture and agrarian reform activities under Item "f" of Definition of terms in this Section, other than (1) loans rediscounted with UBs/KBs, or (2) loans to the extent funded by proceeds from any of the following:
 - (a) Bond issues for the exclusive purpose of on-lending to the agriculture and agrarian reform sector that have been expressly declared as eligible by the DA, or by an agency duly authorized by the DA, in the case of the DBP/LBP,
 - (b) SDAs maintained for the exclusive purpose of on-lending to the agriculture and agrarian reform sector, in the case of BSP-accredited rural FIs, or
 - (c) Wholesale lending of other banks for the exclusive purpose of on-lending to the agriculture, fisheries and agrarian reform sector, in the case of BSP-accredited rural FIs, or
 - (2) Purchase of eligible loans listed in Item "(1)" above on a "without recourse" basis from other banks and FIs.
- b. Ten percent (10%) mandatory agrarian reform credit allocation through the following modes of compliance that are undertaken after 20 April 2010:
 - (1) Actual extension of loans to agrarian reform beneficiaries (gross of allowance for probable losses), for purposes of financing agriculture and agrarian reform activities under Item "f" of Definition of terms in this

Section, other than (a) loans rediscounted with UBs/KBs, or (b) loans to the extent funded by proceeds from bonds, in the case of DBP/LBP, and/or SDAs and/or wholesale lending of other banks, in the case of BSP-accredited rural FIs listed under Items “a(1)(a)” to “a(1)(c)” above, or

- (2) Purchase of eligible loans listed in Item “b(1)” above on a “without recourse” basis from other banks and FIs.

Allowable alternative compliance. The following alternative modes of compliance to the mandatory agriculture and agrarian reform credit shall be allowed:

- a. Twenty-five percent (25%) mandatory agriculture and agrarian reform credit

- (1) Eligible securities (gross of allowance for probable losses but net of unamortized premium or discount) that are purchased after 20 April 2010:

- (a) Investment in bonds issued by the DBP and the LBP that have been expressly declared as eligible by the DA, or by an agency duly-authorized by the DA, the proceeds of which shall be used exclusively for on-lending to the agriculture and agrarian reform sector;
- (b) Investments in other debt securities that have been declared as eligible by the DA, or by an agency duly-authorized by the DA, the proceeds of which shall be used to finance activities identified under Section 23 of R.A. No. 8435, as defined under Item “f(9)” in this Section (*Definition of terms*); or
- (c) Paid subscription of shares of stock in the following institutions, subject to existing rules and regulations governing equity investments of banks:
 - (i) Accredited rural financial institutions (FIs) (preferred shares only); or
 - (ii) Philippine Crop Insurance Corporation (PCIC).

The eligibility of securities under Item “a(1)” shall be subject to the following conditions:

- (i) Such securities shall neither be hypothecated, encumbered, earmarked for any other purposes, sold/lent in repurchase agreement/securities lending transactions, used as additional collateral in repurchase agreements, nor used as collateral by the borrowing bank in securities borrowing transactions;
- (ii) Such securities can be purchased from the primary or secondary market: *Provided*, That these are traded in a manner that allows for price discovery: *Provided, further*, That the securities are maintained in the books of a designated securities registry that is independent from the issuer;
- (iii) Such securities shall be segregated from the bank’s investment portfolio; and
- (iv) The securities under Item Nos. “a(1)(a)” to “a(1)(c)” above shall not be funded by proceeds from the issuance of bonds under Item No. “a(1)(a)”, in the case of DBP/LBP, and/or SDAs under Item No. “a(2)(a)” and/or wholesale lending of other banks under Item No. “a(2)(b)”; in the case of BSP-accredited rural FIs.

- (2) Loans and other credit (gross of allowance for probable losses) that are granted after 20 April 2010:

- (a) Investments in SDAs of BSP-accredited rural FIs, the proceeds of which shall be used exclusively for on-lending to the agriculture and agrarian reform sector;
- (b) Wholesale lending granted to accredited rural FIs for the exclusive purpose of on-lending to the agriculture and agrarian reform sector;
- (c) Rediscounting facility granted by UBs/KBs to other banks covering eligible agricultural and agrarian reform credits, including loans covered by guarantees of the PCIC;
- (d) Actual extension of loans intended for the construction and upgrading of infrastructure, including, but not limited to, farm-to-market roads, as well as the provision of post harvest facilities and other public infrastructure as defined under this Section on the Definition of terms, for the benefit of the agriculture and agrarian reform sector;
- (e) Actual extension of loans to borrowers for purposes of financing activities identified under Section 23 of R.A. No. 8435, as defined under Item “f(9)” in this Section (*Definition of terms*);

(f) Extension of loans to:

- (i) NFA-registered warehousemen/millers/wholesalers for purposes of financing activities identified under Section 23 of R.A. No. 8435, as defined under Item “f(9)” in this Section (*Definition of terms*); or
- (ii) The NFA: *Provided*, That the NFA shall not use the proceeds of said loans for relending; or

(g) Purchase of eligible loans listed under Item Nos. “a(2)(b)” to “a(2)(f)” on a “without recourse” basis from other banks and Fls after 20 April 2010:

Provided, That the loans under Item Nos. “a(2)(d)” to “a(2)(g)” are not rediscounted with UBs/KBs: *Provided, further*, That the activities identified under Item Nos. “a(2)(a)” to “a(2)(g)” shall not be funded by proceeds from the issuance of bonds under Item No. “a(1)(a)”, in the case of DBP/LBP, and/or the acceptance of SDAs under Item No. “a(2)(a)” and/or wholesale lending of other banks under Item No. “a(2)(b)”, in the case of BSP-accredited rural Fls.

b. Ten percent (10%) mandatory agrarian reform credit

(1) Eligible securities (gross of allowance for probable losses but net of unamortized premium or discount) that are purchased after 20 April 2010:

- (a) Investments in bonds issued by the DBP and the LBP that have been expressly declared as eligible by the DA, or by an agency duly-authorized by the DA, upon due consultation and timely coordination with DAR, the proceeds of which shall be used exclusively for on-lending to agrarian reform beneficiaries; or
- (b) Investment in other debt securities that have been declared as eligible by the DA, or by an agency duly-authorized by the DA, upon due consultation and timely coordination with DAR, the proceeds of which shall be used to finance activities identified under Sec. 23 of R.A No. 8435, as defined under Item no. “f(9)” of the Definition of terms in this Section: *Provided*, That said activities shall generally benefit agrarian reform beneficiaries.

The eligibility of securities under Item No. “b(1)” shall be subject to the same conditions required for securities under Item No. “a(1)”.

(2) Loans and other credits (gross of allowance for probable losses) that are granted after 20 April 2010:

- (a) Investments in SDAs of BSP-accredited rural Fls, the proceeds of which shall be used exclusively for on-lending to agrarian reform beneficiaries;
- (b) Wholesale lending granted to accredited rural Fls for the exclusive purpose of on-lending to agrarian reform beneficiaries;
- (c) Rediscounting facility granted by UBs/KBs to other banks covering eligible agrarian reform credits, including loans covered by guarantees of the PCIC;
- (d) Actual extension of loans to borrowers, for purposes of financing activities identified under Section 23 of R.A No. 8435, as defined under Item No. “f(9)” of the Definition of terms in this Section: *Provided*, That said activities shall generally benefit agrarian reform beneficiaries; or
- (e) Purchase of eligible loans listed under Item Nos. “b(2)(b)” to “b(2)(d)” on a “without recourse” basis from other banks and Fls after 20 April 2010:

Provided, That the loans under Item Nos. “b(2)(d)” to “b(2)(e)”, are not rediscounted with UBs/KBs: *Provided, further*, That the activities identified under Item Nos. “b(2)(a)” to “b(2)(e)” shall not be funded by proceeds from the issuance of bonds under Item No. “b(1)(a)”, in the case of DBP/LBP, and/or the acceptance of SDAs under Item No. “b(2)(a)” and/or wholesale lending of other banks under Item No. “b(2)(b)”, in the case of BSP-accredited rural Fls.

For purposes of implementing the provisions of this Section, the DA, or its duly-authorized agency, shall furnish the Bangko Sentral with information on the debt securities eligible as alternative compliance with the mandatory agri-agra credit.

Computation of loanable funds. Loanable funds shall be computed, as follows:

a. The net increase from 20 April 2010 to date of the report of the individual accounts booked under the Regular Banking Unit which represent the following:

- (1) Total peso deposit (demand, savings, now, time and negotiable CTD accounts) excluding:

- (a) Deposits of banks,
 - (b) Deposits of the National Government, including its political subdivisions and instrumentalities, such as, but not limited to, the BIR, BOC, and LGUs, and
 - (c) Deposits of government-owned and-controlled corporations,
 - (2) Bills payable excluding:
 - (a) Borrowings from the Bangko Sentral in the form of the following:
 - (i) rediscounting,
 - (ii) emergency advances,
 - (iii) availment of overdraft facilities, or
 - (iv) other obligations,
 - (b) Interbank loans payable,
 - (c) Other borrowings, in the form of the following:
 - (i) Repurchase agreements with the Bangko Sentral,
 - (ii) Repurchase agreements with banks,
 - (iii) Certificates of assignment/participation with recourse with banks,
 - (iv) Securities lending and borrowing agreements with banks, and
 - (v) Other borrowings with banks
 - (d) Proceeds from special on-lending programs to the agriculture and agrarian reform sector, including SDAs issued by Bangko Sentral-accredited rural FIs, the proceeds of which shall be exclusively used for on-lending to the agriculture and agrarian reform sector,
 - (e) Proceeds from special on-lending programs, other than for agriculture and agrarian reform, including Time Certificates of Deposit-Special Financing, and
 - (f) Other deposit substitutes in the form of emergency advances from the PDIC, and
 - (3) Bonds payable, net of unamortized premium or discount, other than bond issuances of the DBP and LBP, the proceeds of which shall be used exclusively for on-lending to the agriculture and agrarian reform sector,
 - (4) Unsecured subordinated debt, net of unamortized premium or discount,
 - (5) Redeemable preferred shares, net of unamortized premium or discount,
 - (6) Total equity accounts, as provided under this Section on Computation of total equity,
- b. Less/(Add) the net increase/(decrease) from 20 April 2010 to date of the report of the following accounts booked under the Regular Banking Unit (RBU):
- (1) Debt and equity securities acquired in settlement of loans, net,
 - (2) Sales contract receivable, net,
 - (3) Accrued interest income from financial assets, net,
 - (4) Equity investment in subsidiaries, associates and joint ventures, net,
 - (5) Bank premises, furniture, fixture and equipment, net,
 - (6) Real and other properties acquired (ROPA), net,
 - (7) Non-current assets held for sale, net,
 - (8) Goodwill, net,
 - (9) Other intangible assets, net,
 - (10) Deferred tax assets,
 - (11) Other assets, net,
 - (12) Required reserves against a week ago level of the following accounts:
 - (a) deposit liabilities,
 - (b) deposit substitutes,
 - (c) trust and other fiduciary accounts- others (TOFA), and
 - (d) others, and
 - (13) Security deposit for the faithful performance of trust duties,
- c. Less/(Add) provisions for liquidity equivalent to fifteen percent (15%) of the net increase/(decrease) from 20 April 2010 in total peso deposit liabilities as defined herein under Item “a(1)”.

Computation of total equity. The computation of total equity for purposes of computing total loanable funds under this Section shall be, as follows:

Total Equity under RBU		xxx
Less:		
a. Retained Earnings - Reserves		
(1) Trust Business	xxx	
(2) Self-Insurance	xxx	
(3) Contingencies, and	xxx	
(4) Others	xxx	(xxx)
b. Other Comprehensive Income		
(1) Net Unrealized Gains/Losses on Available for Sale Financial Assets	xxx	
(2) Gains/Losses on Fair Value Adjustment of Hedging Instruments	xxx	
(3) Cumulative Foreign Currency Translation	xxx	
(4) Others	xxx	(xxx)
Total Equity, net of exclusions		xxx

In the case of foreign bank branches, the total equity for purposes of computing total loanable funds under this Section shall be, as follows:

Total Equity, exclusive of Due From/To Head Office/Branches Agencies Abroad, under RBU		xxx
Less:		
a. Retained Earnings - Reserves		
(1) Trust Business	xxx	
(2) Self-Insurance	xxx	
(3) Contingencies, and	xxx	
(4) Others.	xxx	(xxx)
b. Other Comprehensive Income		
(1) Net Unrealized Gains/Losses on Available for Sale Financial Assets	xxx	
(2) Gains/Losses on Fair Value Adjustments Of Hedging Instruments	xxx	
(3) Cumulative Foreign Currency Translation	xxx	
(4) Others	xxx	(xxx)
c. Due from Head Office/Branches/Agencies Abroad		(xxx)
Add: Due to Head Office/Branches/Agencies Abroad		xxx
Total Equity, net of exclusions		xxx

Accreditation of banks as rural financial institutions.

- a. Application for accreditation. A rural FI applying for accreditation shall submit to the appropriate supervising department of the Bangko Sentral a letter stating its intent to apply for such accreditation together with the following information/documents:
 - (1) A notarized undertaking, signed by the president and compliance officer or equivalent, that the bank shall comply with the regulations, directives and instructions of the Bangko Sentral; and
 - (2) A notarized certification, signed by the president and compliance officer or equivalent, that the bank's loan portfolio is substantially agri-agra related.
- b. *Qualification requirements.* A certificate of accreditation will be issued by the appropriate supervising department of the Bangko Sentral to the rural FI should the rural FI satisfy the following criteria based on the last four (4) quarters prior to application:
 - (1) Total loan portfolio is greater than its total investments; and
 - (2) Average credit exposure to agri-agra is greater than any exposure to the other economic sectors as reported in Schedule 11.d of the FRP.
- c. *Certificate of accreditation.* The certificate of accreditation issued to the qualified rural FI will include an accreditation reference number specific to the rural FI, the date of accreditation and a statement that the rural FI has satisfied the above criteria and has sworn to comply with the regulations, directives and instructions of the Bangko Sentral.

- (1) The rural FI, once accredited and issued with the certificate of accreditation, is required to comply with the following:
 - (a) Provide the lending bank with a copy of the certificate of accreditation with the relevant accompanying details (i.e., accreditation reference number and date of accreditation); and
 - (b) Submit on an annual basis to the appropriate supervising department of the Bangko Sentral a notarized certification, signed by its president and compliance officer or equivalent, that its loan portfolio remains substantially agri-agra related. Such notarized certification for annual submission by the rural FI shall be reckoned from the original date of accreditation and should be received by the appropriate supervising department of the Bangko Sentral within ten (10) banking days before the lapse of one (1) year. Non-compliance with the required submission of the annual certification will serve as basis for the Bangko Sentral to revoke accreditation of the rural FI.
- (2) The lending bank, as part of its disclosure to the Bangko Sentral, is required to include the following in its Agri-Agra report in compliance with the reportorial requirements of the Bangko Sentral:
 - (a) Name of rural FI/s and corresponding aggregate amount of exposure to each rural FI; and
 - (b) For each rural FI in Item "c(2)(a)", the accreditation reference number date of accreditation.
- (3) The exposure of the lending bank to the rural FI shall be eligible for purposes of determining compliance with the mandatory agri-agra credit allocation for as long as the rural FI remains accredited with the Bangko Sentral.
- d. *Purpose of accreditation.* The accreditation is solely for the purpose of ascertaining that the portfolio of the rural FI is substantially agri-agra related pursuant to R.A. No. 10000 and should not serve as an endorsement by the Bangko Sentral on the soundness of the rural FI. The accreditation is not intended to take the place of the conduct of due diligence and prudent credit underwriting standards required from the lending bank in determining the credit worthiness of the rural FI.

Syndicated type of agrarian reform credit/agricultural credit. Banks may grant a syndicated type of loan for agrarian reform credit/agricultural credit in general, either between or among themselves. The mechanics, including the recording of such syndicated type of loan transactions, shall follow existing practices and regulations applicable both to the lead bank and other participating bank(s). Accordingly, the booking of loans shall only be for the amount of actual participation of each syndicate-member bank concerned. Memorandum entries, references or notations shall be made for the other participating bank(s).

Interest and other charges. Interest, service fees and other charges shall be governed by existing rules and regulations.

Submission of reports. A quarterly report on the compliance with the mandated credit allocation for agri-agra credit under R.A. No. 10000, which shall be considered a Category A-3 report, shall be submitted to the appropriate supervising department of the Bangko Sentral within fifteen (15) banking days from the end of the reference quarter.

Consolidated compliance. The compliance with agri-agra mandatory allocation of funds under R.A. No. 10000 shall be allowed on a groupwide basis (i.e., consolidation of parent/foreign bank branch and subsidiary bank/s) so that excess compliance of any bank in the group can be used as compliance for any deficient bank in the group: *Provided*, That the subsidiary bank/s is/are at least directly or indirectly majority owned by the parent bank and/or head office, in the case of foreign bank branches: *Provided, further*, That the parent bank/foreign bank branch shall be held responsible for the compliance of the group.

The consolidated report shall be submitted by the parent bank/foreign bank branch in the prescribed form and shall be supported by the individual reports of the parent bank/foreign bank branch within the group and subsidiary bank/s duly signed by each bank's authorized signatory.

Sanctions. The following sanctions shall be applicable for any violation of this Section:

- a. Penalties/sanctions applicable to banks:

- (1) *Monetary fines*

- (a) *For non-compliance /under- compliance*

Annual penalty of one-half of one percent (0.5%) of amount of non-compliance/undercompliance shall be computed on a quarterly basis following this formula:

Penalty = 0.00125 x amount of non- compliance/under-compliance as of the end of the reference quarter

Amount of non-compliance/under-compliance =

- (i) ten percent (10%) of total loanable funds less reported amount of compliance with the mandatory agrarian reform credit, plus
- (ii) fifteen percent (15%) of total loanable funds less reported amount of compliance with the mandatory other agricultural credit in general: *Provided*, That excess compliance in the ten percent (10%) agrarian reform credit may be used to offset a deficiency, if any, in the fifteen percent (15%) other agricultural credit, in general, but not vice versa.

(b) *For erroneous/delayed/erroneous and delayed/unsubmitted reports*

A bank shall be subject to the fines for erroneous/delayed/erroneous and delayed/unsubmitted reports on compliance with the mandated credit allocation for agri-agra credit under R.A. No. 10000 in accordance with the provisions of Sec. 171 (*Non-compliance with the Bangko Sentral Reporting Standards*): *Provided*, That a bank which fails to submit its agri-agra quarter-end report up to the submission deadline of the succeeding quarter-end report, shall be subject to the appropriate monetary penalties for willful delay in the submission of agri-agra report under Sec. 1102, which shall be reckoned on a daily basis from the day following the due date of submission of the report until the report is filed with the Bangko Sentral.

(c) *For false/misleading statements*

A bank which has been found to have made a false or misleading statement in its required report on compliance with the mandated credit allocation for agri-agra credit shall be subject to the appropriate monetary penalties for willful making of a false or misleading statement under Sec. 1102, which shall be reckoned on a daily basis from the day following the due date of submission of the affected report until an amended report has been submitted to the Bangko Sentral.

(2) *Non-monetary fines*

In addition to the above daily monetary fines, any or all of the administrative sanctions, as provided under Section 37 of R.A. No. 7653, may be imposed upon any bank for willful delay or refusal to submit reports or willful making of a false or misleading statement to the Bangko Sentral, without prejudice to criminal sanctions against culpable persons provided under Sections 34, 35 and 36 of R.A. No. 7653.

b. *Penalties/sanctions applicable to directors/officers concerned of the bank*

Directors/officers of a bank which have been found to have willfully falsely certified/submitted misleading statements and/or willfully violated any of the provisions of this Section shall be subject to the appropriate monetary penalties under Sec. 1102 and/or the other administrative sanctions under Section 37 of R.A. No. 7653.

The imposition of the above sanctions is without prejudice to the filing of appropriate criminal charges against culpable persons as provided under Section 35 of R.A. No. 7653 for the willful making of a false/misleading statement.

c. *Disposition of penalties collected*

Ninety percent (90%) of the total penalties collected on non-compliance/under-compliance with the mandatory agri-agra credit under Item "a(1)(a)" above shall be remitted by the Bangko Sentral to the Agricultural Guarantee Fund Pool (AGFP) and the PCIC, in accordance with the following percentage allocation:

Recipient	Percent Allocation
AGFP	Fifty percent (50%)
PCIC	Fifty percent (50%)

The percentage allocation may be amended by the Secretary of DA in consultation with the Agricultural Credit Policy Council (ACPC), PCIC and the Secretary of DAR, according to the needs of the agri-agra sector.

The remaining, ten percent (10%) of the total penalties collected on non-compliance/under-compliance with the mandatory agri-agra credit under Item "a(1)(a)" shall be retained by the Bangko Sentral to cover its administrative expenses.

(Circular Nos. 1061 dated 25 November 2019, 1009 dated 18 July 2018, 988 dated 20 December 2017, 963 dated 27 June 2017, and 908 dated 14 March 2016)

The following rules shall govern the mandatory allocation of credit resources to Micro, Small and Medium Enterprises (MSMEs).

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Lending institutions* shall refer to all banks, namely: UBs, KBs, TBs and RBs/Coop Banks, including government-owned banks.
- b. *Total loan portfolio* shall include all loans and receivables, other than those booked in the FCDU/EFCDU as defined in the Manual of Accounts section of the FRP under Sec. 172, gross of allowance for credit losses, excluding the following:
 - (1) Interbank loans receivable, other than (a) wholesale lending of a bank to conduit banks/QBs for on-lending to MSMEs, and (b) rediscounting facility granted to another bank for loans to MSMEs;
 - (2) Wholesale lending of a bank to conduit non-bank FIs without quasi-banking authority, other than those for on-lending to MSMEs;
 - (3) Loans granted under special financing programs, other than those for MSMEs;
 - (4) Loans granted to MSMEs, other than to BMBEs, to the extent funded by wholesale lending of, or rediscounted with, another bank;
 - (5) Agrarian reform credits/other agricultural loans granted under R.A. No. 10000, other than those eligible for compliance with the mandatory allocation of credit for MSMEs; and
 - (6) Loans and receivables arising from repo agreements, certificates of assignment/participation with recourse and securities lending and borrowing transactions.
- c. *MSMEs* shall refer to any business activity within the major sectors of the economy, namely: industry, trade, services, including the practice of one's profession, the operation of tourism-related establishments, and agribusiness, which for this purpose refers to any business activity involving the manufacturing, processing, and/or production of agricultural produce, whether single proprietorship, cooperative, partnership or corporation:
 - (1) whose total assets, inclusive of those arising from loans but exclusive of the land on which the particular business entity's office, plant and equipment are situated, must have a value falling under the following categories:

<i>Micro</i>	: not more than P 3,000,000
<i>Small</i>	: more than P 3,000,000 to P 15,000,000
<i>Medium</i>	: more than P 15,000,000 to P 100,000,000

 and
 - (2) duly registered with the appropriate agencies as presently provided by law except in the case of microenterprises as defined above.

Period covered; prescribed portions of loan portfolio to be allocated. Banks shall for a period of ten (10) years from 17 June 2008 to 16 June 2018, allocate at least eight percent (8%) for micro and small enterprises (MSEs) and at least two percent (2%) for medium enterprises (MEs) of their total loan portfolio based on their balance sheet as of the end of previous quarter, and make it available for MSME credit.

Banks may be allowed to report compliance on a groupwide (i.e., consolidation of parent and subsidiary bank/s) basis so that excess compliance of any bank in the group can be used as compliance for any deficient bank in the group: *Provided*, That the subsidiary bank/s is/are at least majority owned by the parent bank: *Provided, further*, That the parent bank shall be held responsible for the compliance of the group.

The consolidated report shall be submitted by the parent bank in the prescribed form and shall be supported by the individual reports of the bank and its subsidiaries duly signed by each bank's authorized signatory.

For purposes of determining compliance with the mandated allocation of credit resources to MSMEs, only eligible credit exposures as enumerated in this Section, other than those booked in the FCDU/EFCDU shall be considered.

Eligible credit exposures. Funds set aside in accordance with the foregoing requirement shall be made available for any of the following:

- a. *For MSEs*
 - (1) Actual extension of loans to eligible MSEs, other than to BMBEs which are covered in Item "c(3)" hereof: *Provided, however*, That loans granted to MSEs other than BMBEs, to the extent funded by wholesale lending of, or rediscounted with, another bank shall not be eligible as compliance with the mandatory credit allocation; or

- (2) Loans granted to export, import, and domestic micro and small scale traders, other than to BMBEs which are covered in Item “c(3)” hereof: *Provided, however,* That loans granted to MSEs other than BMBEs, to the extent funded by wholesale lending of, or rediscounted with another bank shall not be eligible as compliance with the mandatory credit allocation; or
- (3) Purchase of eligible MSE loans listed in Items “(1)” and “(2)” above on a “without recourse” basis from other banks and FIs; or
- (4) Purchase/discount on a “with or without recourse” basis of MSE receivables, other than BMBE receivables which are covered in Item “c(3)” hereof; or
- (5) Wholesale lending or rediscounting facility granted to PFIs for on-lending to MSEs, other than to BMBEs which are covered in Item “c(3)” hereof; or
- (6) Wholesale lending or rediscounting facility granted to PFIs for on-lending to export, import, and domestic micro and small scale traders, other than to BMBEs which are covered in Item “c(3)” hereof; or
- (7) Commercial letters of credit outstanding, net of margin deposits, issued for the account of MSEs.

b. *For MEs*

- (1) Actual extension of loans to eligible MEs: *Provided, however,* That loans granted to MEs to the extent funded by wholesale lending of, or rediscounted with, another bank shall not be eligible as compliance with the mandatory credit allocation; or
- (2) Loans granted to export, import, and domestic medium scale traders: *Provided, however,* That loans granted to MEs to the extent funded by wholesale lending of, or rediscounted with, another bank shall not be eligible as compliance with the mandatory credit allocation; or
- (3) Purchase of eligible ME loans listed in Items “(1)” and “(2)” above on a “without recourse” basis from other banks and FIs; or
- (4) Purchase/discount on a “with or without recourse” basis of ME receivables; or
- (5) Wholesale lending or rediscounting facility granted to PFIs for on-lending to MEs; or
- (6) Wholesale lending or rediscounting facility granted to PFIs for on-lending to export, import, and domestic medium scale traders; or
- (7) Commercial letters of credit outstanding, net of margin deposits, issued for the account of MEs.

c. *Alternative compliance for either or both MSEs or/and MEs*

- (1) Paid subscription/purchase of liability instruments as may be offered by the SB Corporation; or
- (2) Paid subscription of preferred shares of stock of the SB Corporation; or
- (3) Loans from whatever sources granted to BMBEs as provided under Sec. 333 (*Incentives to participating financial institutions*).

Ineligible credit instruments. The purchase of government notes, securities and negotiable instruments other than the instruments offered by SB Corporation, and the granting of loans to MSMEs, other than to BMBEs, to the extent funded by wholesale lending of, or rediscounted with, another bank shall not be deemed compliance with the foregoing requirement.

Rights/remedies available to lending institutions not qualified to acquire or hold lands of public domain. Lending institutions which are not qualified to acquire or hold lands of the public domain in the Philippines shall be permitted to bid and take part in sales of mortgaged real property in case of judicial or extra-judicial foreclosure, as well as avail of receivership, enforcement and other proceedings, solely upon default of a borrower, and for a period not exceeding five (5) years from actual possession: *Provided,* That in no event shall title to the property be transferred to such lending institution. If the lending institution is the winning bidder, it may, during said five (5) year period, transfer its rights to a qualified Philippine national, without prejudice to a borrower’s rights under applicable laws.

Submission of reports. Banks shall submit reports on compliance with the mandatory credit allocation on a quarterly basis within fifteen (15) banking days from the end of reference quarter to SDC of the Bangko Sentral. Said report shall be considered *Category A-3* report.

Banks shall maintain appropriate records/details of the reported loans to MSMEs and shall make these available to Bangko Sentral.

Sanctions. The following administrative sanctions shall be imposed on banks:

- a. For non-compliance/under compliance with the prescribed portions of loan portfolio to be allocated to MSEs and MEs:
 - (1) For zero compliance for both MSEs and MEs – P500,000;
 - (2) For under compliance:
 - (a) For MSEs – percentage of undercompliance multiplied by P400,000
 - (b) For MEs – percentage of under-compliance multiplied by P100,000 to be computed as of end of each quarter.
 - (3) For willful making of a false or misleading statement to the Bangko Sentral - P500,000 per quarter-end report without prejudice to the sanctions under Section 35 of R.A. No. 7653.

The imposition of the fines in Items “(1)” to “(2)” shall be without prejudice to the other administrative sanctions under Section 37 of R.A. No. 7653.

- b. For non-submission/delayed submission of reports on compliance with both the prescribed portions of loan portfolio to be allocated to MSEs and MEs, respectively:
 - (1) UBs/KBs - P1,200
 - (2) TB - 600
 - (3) RBs/Coop Banks - 180

per calendar day of delay.

Disposition of penalties collected. Ninety percent (90%) of penalties collected under this Section on Sanctions shall be remitted by the Bangko Sentral to the MSME Development Council Fund, while the remaining ten percent (10%) shall be retained by the Bangko Sentral to cover its administrative expenses.

Accreditation guidelines for Rural and Thrift Banks under the SME Unified Lending Opportunities for National Growth (SULONG). Without prejudice to the refinements as may be suggested by DTI and DOF, the Twelve (12)-Point Accreditation Guidelines for RBs and TBs, and the lending features of short and long term loans for direct or retail lending by participating government FIs under the SULONG, are shown in *Appendix 52*.

333 LOANS TO BARANGAY MICRO BUSINESS ENTERPRISES

The following are the rules and regulations to implement Section 9 and the second paragraph of Section 13 of R.A. No. 9178, otherwise known as the “Barangay Micro Business Enterprises (BMBEs) Act of 2002”.

Credit delivery. The LBP, the DBP, the SBGFC, and the Peoples Credit and Finance Corporation (PCFC) shall set up a special credit window that will service the financing needs of duly registered BMBEs consistent with Bangko Sentral policies, rules and regulations. Said special credit window shall service the credit needs of BMBEs either through retail or wholesale lending, or both, as the concerned FIs may deem consistent with their corporate policies and objectives. The GSIS and the SSS shall likewise set up special credit window that will serve the financing needs of their respective members who may wish to establish a BMBE.

Said FIs are encouraged to wholesale funds to accredited private FIs including community based organizations such as cooperatives, NGOs and people’s organizations engaged in granting credit, for relending to BMBEs.

Private banking and other FIs are encouraged to lend to BMBEs.

Interest on loans to Barangay Micro Business Enterprises. Interest on BMBE loans shall be just and reasonable as may be determined by management of the concerned entity to be consistent with its credit policies.

Amortization of loans to Barangay Micro Business Enterprises. The schedule of loan amortization shall take into consideration the projected cash flow of the borrowers. Thus, loans granted to BMBEs may, at the discretion of the lender, be amortized daily, weekly, monthly or at such interval as the conditions of the business of the BMBEs may warrant.

Waiver of documentary requirements. Banks and other FIs shall not require from duly registered BMBE borrowers the submission of ITR as a condition to the grant of loans considering that BMBEs are exempted from income tax for income arising from their operations. They may, at their discretion, also waive the requirement of submission of financial statements from BMBEs: *Provided*, That before granting any loan, banks shall undertake reasonable measures to determine that the borrower is capable of fulfilling his/its commitments.

Incentives to participating financial institutions. To encourage BMBE lendings, the following incentives shall be granted to banks and other FIs as may be applicable:

- a. All loans from whatever sources granted to BMBEs under R.A. No. 9178 (BMBEs Act) shall be considered as part of alternative compliance to R.A. No. 6977, as amended.

For purposes of compliance with R. A. No. 6977, as amended, loans granted to BMBEs under the BMBEs Act shall be computed at twice the amount of the outstanding balance of the loans: *Provided*, That funds loaned by or rediscounted with government-owned banks and other government FIs to accredited private banking and other FIs for on-lending to BMBEs shall be eligible as part of alternative compliance for R.A. No. 6977, as amended, of the government-owned banks and the accredited private banks at the maximum amount of 100% of their outstanding balance each: *Provided, further*, That loans used as alternative compliance with R.A. No. 6977, as amended, computed at either twice their outstanding balance or their maximum amount of 100% may be used as alternative compliance for either or both the prescribed portions of loan portfolio to be allocated to MSEs and MEs, respectively, as long as the aggregate amount used does not exceed twice their outstanding balance or their maximum amount of 100%, as the case may be.

- b. Any existing laws to the contrary notwithstanding, interests, commissions and discounts derived from the loans by the LBP, DBP, PCFC, SBGFC granted to BMBEs as well as loans extended by the GSIS and SSS to their respective member-employees under BMBEs Act and this Section shall be exempt from gross receipt tax (GRT).

Credit guarantee. The SBGFC and the Quedancor under the DA, in case of agri-business activities, shall set up a special guarantee window to provide credit guarantee to BMBEs under their respective guarantee programs.

Record. The LBP, DBP, PCFC and SBGFC shall maintain separate records of loans granted to BMBEs and the GSIS and SSS shall maintain records of loans extended to their respective members who wish to establish BMBEs.

Reports to Congress. The LBP, DBP, PCFC, SBGFC, SSS, GSIS and Quedancor shall report annually to the appropriate Committees of both Houses of Congress, the status of their implementation of the provisions of Section 9 of R.A. No. 9178.

Administrative sanctions. Any violation by the concerned government FI of the provisions of Section 9 of R.A. No. 9178 shall be subject to a fine of not less than P500 thousand to be imposed by the Bangko Sentral and which shall be payable to the BMBE Development Fund. In case of a banking institution, the foregoing fine shall be without prejudice to the administrative sanctions provided for under Section 37 of R.A. No. 7653.

334 SOCIALIZED CREDIT TO QUALIFIED AGRARIAN REFORM BENEFICIARIES, SMALL FARMERS AND FISHERFOLK¹

Pursuant to R.A. No. 10878², the Land Bank of the Philippines (LBP) shall allocate at least five percent (5%) of its regular loan portfolio for socialized credit to qualified small farmers, small fisherfolk and agrarian reform beneficiaries through qualified conduits.

Further, the LBP may offer and issue common and preferred shares of stocks to agrarian reform beneficiaries, small farmers and fisherfolk through their organizations, cooperatives; federations and cooperative banks; development partners and strategic investors such as multilateral and bilateral institutions; and rural banks and their associations.

The pertinent guidelines are shown in *Appendix 144*.

(Circular No. 1090 dated 20 July 2020)

D. LOANS AND OTHER CREDIT ACCOMMODATIONS TO DIRECTORS, OFFICERS, STOCKHOLDERS AND THEIR RELATED INTERESTS/SUBSIDIARIES/AFFILIATES

341 POLICY STATEMENT

The Bangko Sentral recognizes that transactions of its supervised financial institutions (BSFIs) with related parties, which include dealings with directors, officers, stockholders, and their related interests (DOSRI), subsidiaries, and affiliates, may be both productive and prudent. The Bangko Sentral also recognizes the need to provide BSFIs with flexibility with respect to lending to DOSRI, subsidiaries, and affiliates premised on the overarching principle that the transactions shall at all times be kept above board and conducted on an arm's length basis, and that BSFIs have adopted robust internal policies and procedures in handling related party transactions that are compliant with the minimum requirements of law and regulations.

¹ LBP shall have a period of six (6) months from the effectivity of the IRR to monitor its compliance with the provisions provided in the Act. Thereafter, LBP is expected to fully comply with the requirements of the Act.

² An Act Strengthening and institutionalizing Direct Credit Support of the Land Bank of the Philippines to Agrarian Reform Beneficiaries, Small Farmers and Fisherfolk, Further Amending R.A. No. 3844, Otherwise Known as the "Agricultural Land Reform Code, as Amended"

Definitions. For purposes of these regulations, the following definitions shall apply:

- a. *Directors* shall refer to bank directors as defined in Sec. 131 (*Definition of terms*, Item “f”).
- b. *Officers* shall refer to bank officers as defined in Sec. 131 (*Definition of terms*, Item “j”).
- c. *Stockholder* shall refer to any stockholder of record in the books of the bank, acting personally, or through an attorney-in-fact; or any other person duly authorized by him or through a trustee designated pursuant to a proxy or voting trust or other similar contracts, whose stockholdings in the lending bank, individual and/or collectively with the stockholdings of: (i) his spouse and/or relative within the first degree by consanguinity or affinity or legal adoption; (ii) a partnership in which the stockholder and/or the spouse and/or any of the aforementioned relatives is a general partner; and (iii) corporation, association or firm of which the stockholder and/or his spouse and/or the aforementioned relatives own more than fifty percent (50%) of the total subscribed capital stock of such corporation, association or firm, amount to one percent (1%) or more of the total subscribed capital stock of the bank.
- d. *Substantial stockholder* shall mean a person, or group of persons whether natural or juridical, owning such number of shares that will allow such person or group to elect at least one (1) member of the board of directors of a bank or who is directly or indirectly the registered or beneficial owner of more than ten percent (10%) of any class of its equity security.
- e. *Related interest* shall refer to any of the following:
 - (1) Spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, of a director, officer or stockholder of the bank;
 - (2) Partnership of which a director, officer, or stockholder of a bank or his spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, is a general partner;
 - (3) Co-owner with the director, officer, stockholder or his spouse or relative within the first degree of consanguinity or affinity, or relative by legal adoption, of the property or interest or right mortgaged, pledged or assigned to secure the loans or other credit accommodations, except when the mortgage, pledge or assignment covers only said co-owner’s undivided interest;
 - (4) Corporation, association or firm of which any or a group of directors, officers, stockholders of the lending bank and/or their spouses or relatives within the first degree of consanguinity or affinity, or relative by legal adoption, hold or own at least twenty percent (20%) of the subscribed capital of such corporation, or of the equity of such association or firm;
 - (5) Corporation, association or firm wholly or majority-owned or controlled by any related entity or a group of related entities mentioned in Items “e(2)” and “e(4)” of this Section;
 - (6) Corporation, association or firm which owns or controls directly or indirectly whether singly or as part of a group of related interest at least twenty percent (20%) of the subscribed capital of a substantial stockholder of the lending bank or which controls majority interest of the bank pursuant to Sec. 362 (*Definition of terms*, Item “g”);
 - (7) Corporation, association or firm which has an existing management contract or any similar arrangement with the parent of the lending bank; and
 - (8) Non-governmental organizations (NGOs)/foundations that are engaged in retail microfinance operations which are incorporated by any of the stockholders and/or directors and/or officers of related banks.

The general principles and standards that will govern the business relationships between banks and their related NGOs/foundations engaged in retail microfinance are found in *Appendix 23*.
- f. *Subsidiary* shall refer to a corporation or firm more than fifty percent (50%) of the outstanding voting stock of which is directly or indirectly owned, controlled or held with power to vote by its parent corporation.
- g. *Affiliate* shall refer to an entity linked directly or indirectly to a bank by means of:
 - (1) Ownership, control as defined in Sec. 131 (*Definition of terms*, Item “d”), or power to vote of at least twenty percent (20%) of the outstanding voting stock of the borrowing entity, or vice versa;
 - (2) Interlocking directorship or officership, where the concerned director or officer owns; controls, as defined in Sec. 131 (*Definition of terms*, Item “d”); or has the power to vote of at least twenty percent (20%) of the outstanding voting stock of the borrowing entity;

- (3) Common stockholders owning at least ten percent (10%) of the outstanding voting stock of the bank and at least twenty percent (20%) of the outstanding voting stock of the borrowing entity;
- (4) Management contract or any arrangement granting power to the bank to direct or cause the direction of management and policies of the borrowing entity; or
- (5) Permanent proxy or voting trusts in favor of the bank constituting at least twenty percent (20%) of the outstanding voting stock of the borrowing entity, or vice versa.

In cases where the borrowing entity is linked to the lending bank both as DOSRI and as a subsidiary or affiliate, the DOSRI rules shall apply.

- h. *Unencumbered deposits* shall refer to savings, time and demand deposits, which are not subject to an assignment or hold-out agreement or any other encumbrance.
- i. *Book value of the paid-in capital contribution* shall mean the proportional amount of the bank's total capital accounts (net of such unbooked allowance for credit losses and other capital adjustments as may be required by the Bangko Sentral) as the corresponding paid-in capital contribution of each of the bank's directors, officers, stockholders and their related interests bear to the total paid-in capital of the bank: *Provided*, That as a basis for determining the individual ceiling referred to in Sec. 344, the corresponding book value of the shares of stock of said directors, officers, stockholders and their related interests which are the subject of pledge, assignment or any other encumbrance shall be deducted therefrom.
- j. *Net worth* shall mean the total of the unimpaired paid-in capital including paid-in surplus, retained earnings and undivided profit, net of allowance for credit losses and other adjustments as may be required by the Bangko Sentral.
- k. *Total loan portfolio* shall refer to the sum of all loan accounts outstanding, gross of allowance for credit losses, as reflected in the bank's consolidated statement of condition, excluding outstanding loans financed by special/specific funds from the government FIs.
- l. *Secured loan, borrowing or other credit accommodation* shall refer to any loan, or credit accommodation or portion thereof referred to in Sec. 342 (*Transactions Covered*) which is secured by physical collateral, financial guarantee, or other instruments, that are enforceable, realizable, and marketable and meets the standards prescribed under Secs. 143 (*Credit granting and loan evaluation/analysis process and underwriting standards*) and 303.
- m. *Unsecured loan, borrowing or other credit accommodation* shall refer to any loan, or other credit accommodation or portion thereof referred in Sec. 342 (*Transactions Covered*) which is not secured in accordance with Item "l" above.

(Circular Nos. 969 dated 22 August 2017, 945 dated 06 February 2017, and 914 dated 23 June 2016)

342 TRANSACTIONS, COVERED AND NOT COVERED

Transactions covered. The terms *loans, other credit accommodations and guarantees* as used herein shall refer to transactions of the bank which involve the grant of any loan, advance or other credit accommodation in any form whatsoever, whether renewal, extension or increase, and shall include:

- a. Any advance by means of an incidental or temporary overdraft, cash item, "vale", etc.;
- b. Any advance of unearned salary or other unearned compensation for periods in excess of thirty (30) days;
- c. Any advance by means of DAUDs;
- d. Outstanding availments under an established credit line;
- e. Drawings against an existing letter of credit;
- f. The acquisition of any note, draft, bill of exchange or other evidence of indebtedness upon which the bank's DOSRIs may be liable as makers, drawers, acceptors, endorsers, guarantors or sureties;
- g. Indirect lending such as loans or other credit accommodations granted by another financial intermediary to said DOSRIs from funds of the bank invested in the other institution's trust or other department when there is a clear relationship between the transactions;
- h. The increase of an existing indebtedness, as well as additional availments under a credit line or additional drawings against a letter of credit;
- i. The sale of assets, such as shares of stock, on credit; and

- j. Any other transactions as a result of which the bank's DOSRIs become obligated or may become obligated to the lending bank, by any means whatsoever to pay money or its equivalent.

Transactions not covered. The terms *loans, other credit accommodations and guarantees* as used herein shall not refer to the following:

- a. Advances against accrued compensation, or for the purpose of providing payment of authorized travel, legitimate expenses or other transactions for the account of the bank or for utilization of maternity and other leave credits;
- b. The increase in the amount of outstanding credit accommodations as a result of additional charges or advances made by the bank to protect its interest such as taxes, insurance, etc.;
- c. The discount of bills of exchange drawn in good faith against actually existing values, and the discount of commercial or business paper actually owned by the person negotiating the same, including, but not limited to, the acquisition by a domestic bank of export bills from any of its DOSRI which are drawn in accordance with the terms and conditions of the covering letters of credit: *Provided*, That the transaction shall automatically be subject to the ceilings as herein provided once the DOSRI who is a party to the transaction becomes directly liable to the bank;
- d. Transactions with a foreign bank which has stockholdings in the local bank where the foreign bank acts as guarantor through the issuance of letters of credit or assignment of a deposit in a currency eligible as part of the international reserves and held in a bank in the Philippines to secure other credit accommodations granted to another person or entity: *Provided*, That the foreign bank stockholder shall automatically be subject to the ceilings as herein provided in the event that its contingent liability as guarantor becomes a real liability;
- e. Interbank call loan transactions; and
- f. Short-term exposures of designated clearing and settlement bank to other financial institutions that own or control directly or indirectly such clearing and settlement bank, pursuant to its function as designated clearing and settlement bank. The term designated clearing and settlement bank shall refer to the *designated settlement bank* as defined under Item "j(1)" of Sec. 362 (*Exclusions from loan limit*). For purposes of this Section, short-term exposures shall cover payment transactions pertaining to fund transfer services, check clearing, foreign exchange trades, security trades, security custody services, and other short-term payment transactions that pass through a clearing and settlement account. An exposure is considered short-term if the placement of funds into a clearing and settlement account does not exceed five (5) banking days. The designated clearing and settlement bank shall adopt appropriate control measures to ensure that the account opened in financial institutions that own or control directly or indirectly such clearing and settlement bank is maintained exclusively for facilitating the clearing and settlement of short-term transactions as described in this Section, and said account is not subject to a minimum balance requirement.

Applicability to credit card operations. The credit card operations of banks shall not be subject to these regulations where the credit cardholders are bank's DOSRI: *Provided*, That (a) the privilege of becoming a credit cardholder is open to all qualified persons on the basis of selective criteria which are applied by the bank to all applicants thereof; and (b) the bank's DOSRIs reimburse/pay the bank for the billed amount in full on or before the payment due date in the billing or statement of account, as set by the bank for all other qualified credit card holders on availments made for the same period on their credit cards. However, the transaction shall be subject to applicable DOSRI regulations if the bank's DOSRIs:

- a. fail to reimburse/pay the bank within the period mentioned herein; or
- b. on the outset, opt for deferred payment scheme, and the availment is booked by the bank.

For purposes of this Section, *stockholders and related interests* refer to individual credit card holders.

Loans, other credit accommodations and guarantees granted to subsidiaries and/or affiliates.

- a. ***Ceilings.*** The total outstanding loans, other credit accommodations and guarantees to each of the bank's subsidiaries and affiliates shall not exceed ten percent (10%) of the net worth of the lending bank: *Provided*, That the unsecured loans, other credit accommodations and guarantees to each of said subsidiaries and affiliates shall not exceed five percent (5%) of such net worth: *Provided, further*, That the total outstanding loans, other credit accommodations and guarantees to all subsidiaries and affiliates shall not exceed twenty percent (20%) of the net worth of the lending bank: *Provided, finally*, That these subsidiaries and affiliates are not related interest of any of the director, officer, and/or stockholder of the lending bank.

Loans, other credit accommodations and guarantees granted by a bank to an entity (often a special purpose entity or SPE) that is a subsidiary or affiliate of that bank for the purpose of project finance as defined under Sec. 344 (*Exclusion from the thirty percent (30%) unsecured individual ceiling for project finance*) shall be subject to a separate individual limit of twenty-five percent (25%) of the net worth of the lending bank, subject to the following conditions:

- (1) That the unsecured portion thereof shall not exceed twelve and one-half percent (12.5%) of such net worth when the project is already operational;
 - (2) That such project finance loans are for the purpose of undertaking initiatives that are in line with the priority programs and projects of the government;
 - (3) That the lending bank shall ensure that the standard prudential controls in project finance loans designed to safeguard creditors' interests are in place, which may include pledge of a borrower's shares, assignment of the borrower's assets, assignment of all revenues and cash waterfall accounts, and assignment of project documents;
 - (4) That the lending bank shall consider its total project finance exposures in complying with Sec.361 (*Large exposures and credit risk concentrations*) and Sec. 143 (*Credit limits, large exposures, and credit risk concentrations*) on the guidelines in managing large exposures and credit risk concentrations;
 - (5) That the subsidiary or affiliate is not a related interest of any of the director, officer, and/or stockholder of the lending bank; and
 - (6) That the total outstanding loans, other credit accommodations and guarantees to all subsidiaries and affiliates shall be subject to the aggregate limits for related party transactions.
- b. *Exclusions from the ceilings.* The following loans, other credit accommodations and guarantees shall be excluded in determining compliance with the ceilings prescribed in Item "a" above:
- (1) loans, other credit accommodations and guarantees secured by assets considered as non-risk under existing Bangko Sentral regulations;
 - (2) Interbank call loans; and
 - (3) The portion of loans and other credit accommodations covered by guarantees of international/regional institutions/multilateral financial institutions where the Philippine Government is a member/shareholder, such as the International Finance Corporation and the Asian Development Bank.
- c. *Procedural requirements.* The following provisions shall apply if a bank grants a loan, other credit accommodation or guarantee to any of its subsidiaries and affiliates.
- (1) *Approval of the board, when to obtain.* Except with prior written approval of the majority of all the members of the board of directors, no loan, other credit accommodation and guarantee shall be granted to a subsidiary or affiliate.
 - (2) *Approval by the board, how manifested.* The approval shall be manifested in a resolution passed by the board of directors during a meeting and made of record.
 - (3) *Determination of majority of all the members of the board of directors.* The determination of the majority of all the members of the board of directors shall be based on the total number of directors of the bank as provided in its articles of incorporation and by-laws.
 - (4) *Contents of the resolution.* The resolution of the board of directors shall contain the following information:
 - (a) Name of the subsidiary or affiliate;
 - (b) Nature of the loan or other credit accommodation or guarantee, purpose, amount, credit basis for such loan or other credit accommodation or guarantee, security and appraisal thereof, maturity, interest rate, schedule of repayment and other terms;
 - (c) Date of resolution;
 - (d) Names of the directors who participated in the deliberation of the meeting; and
 - (e) Names in print and signatures of the directors approving the resolution: *Provided*, That in instances where a director who participated in the board meeting and who approved such resolution failed to sign, the corporate secretary may issue a certification to this effect indicating the reason for the failure of the said director to sign the resolution.
 - (5) *Transmittal of copy of board approval; contents thereof.* A copy of the written approval of the board of directors, as herein required, shall be submitted to the appropriate supervising department of the Bangko Sentral within twenty (20) banking days from the date of approval. The copy may be a duplicate of the original,

or a reproduction copy showing clearly the signatures of the approving directors: *Provided*, That if a reproduction copy is to be submitted, it shall be duly certified by the corporate secretary that it is a reproduction of the original written approval.

(Circular Nos. 1107 dated 23 December 2020, 1001 dated 30 April 2018, 978 dated 27 October 2017, and 914 dated 23 June 2016)

343 DIRECT OR INDIRECT BORROWINGS

Loans, other credit accommodations and guarantees to DOSRI shall be considered direct or indirect borrowings in accordance with the following criteria:

- a. *Direct borrowing.* If the director, officer or stockholder of the lending bank is a party to any of the transactions enumerated in Sec. 342 (*Transactions Covered*) for himself, or as the representative or agent of others, or if he acts as a guarantor, endorser or surety for loans from the bank, or if the loan or other credit accommodation to another party is secured by a property interest or right of the director, officer or stockholder.
- b. *Indirect borrowing.* If in any of the transactions in Sec. 342 (*Transactions Covered*) the borrower, guarantor, endorser or surety is a related interest as defined in Sec. 341 (*Definitions*, Item “e”).

Other cases of direct/indirect borrowing shall be resolved on a case-to- case basis.

It shall be the responsibility of the bank concerned to ascertain whether the borrower, guarantor, endorser or surety is related or connected with the bank or with any of the directors, officers or stockholders of the bank in any of the capacities mentioned in Sec. 341 (*Definitions*, Item “e”).

In determining indirect borrowings, as enumerated above, only those cases involving living relatives shall be considered.

344 INDIVIDUAL CEILINGS

The total outstanding loans, other credit accommodations and guarantees to each of the bank’s DOSRI shall be limited to an amount equivalent to their respective unencumbered deposits and book value of their paid-in capital contribution in the bank: *Provided, however*, That unsecured loans, other credit accommodations and guarantees to each of the bank’s DOSRI shall not exceed thirty percent (30%) of their respective total loans, other credit accommodations and guarantees.

Exclusions from individual ceiling. The following loans, other credit accommodations and guarantees shall be excluded in determining compliance with the individual ceiling.

- a. Loans, other credit accommodations and guarantees secured by assets considered as non-risk by the Monetary Board;

Assets considered as non-risk shall refer to the following:

- (1) Cash;
- (2) Debt securities issued by the Bangko Sentral or the Philippine government;
- (3) Deposits maintained in the lending bank and held in the Philippines;
- (4) Debt securities issued by the U.S. government;
- (5) Debt securities issued by central governments, central banks of foreign countries and multilateral financial institutions such as International Finance Corporation, Asian Development Bank and World Bank, with the highest credit quality given by any two (2) internationally accepted rating agencies; and
- (6) Deposits of clients of related non- governmental organizations (NGOs)/foundations, that are engaged in retail microfinance operations, and are maintained with the related lending bank and held in the Philippines: *Provided*, That all of the following conditions are met:
 - (a) existing regulations on the opening of deposit accounts and other deposit transactions shall apply except when specifically stated otherwise;
 - (b) depositors shall issue waivers of confidentiality of their deposits and enter hold-out agreements with the lending bank;
 - (c) interest rates on such deposits shall not be more than those of similar type of deposit accounts;

- (d) collected but undeposited capital build-up funds from clients shall be recorded in a temporary liability account in the books of related NGOs/foundations and shall be deposited with the related bank not later than fifteen (15) calendar days from date of collection;
 - (e) total loans, other credit accommodations and guarantees granted to the related NGO/foundation shall not exceed, at any time, the total deposits owned by its clients; and
 - (f) That the NGO/foundation shall consider as payments to the clients' obligations any deposits used by the lending bank to settle any unpaid obligation(s) of the NGO/foundation.
- b. Loans, other credit accommodations and advances to officers in the form of fringe benefits granted in accordance with existing regulations; and
 - c. Loans, other credit accommodations and guarantees extended by a Coop Bank to its cooperative shareholders.

The general principles and standards that will govern the business relationships between banks and their related NGOs/foundations engaged in retail microfinance are found in *Appendix 23*.

- d. The portion of loans and other credit accommodations covered by guarantees of international/regional institutions/multilateral financial institutions where the Philippine Government is a member/shareholder, such as the International Finance Corporation and the Asian Development Bank.

Exclusions from the thirty percent (30%) unsecured individual ceiling for project finance. Loans, other credit accommodations, and guarantees granted by a bank to its DOSRI for the purpose of project finance, shall be exempted from the thirty percent (30%) unsecured individual ceiling during the project gestation phase¹: *Provided*, That: the lending bank shall ensure that standard prudential controls in project finance loans designed to safeguard creditors' interests are in place, which may include pledge of the borrower's shares, assignment of the borrower's assets, assignment of all revenues and cash waterfall accounts, and assignment of project documents.

For this purpose, "*project finance*" is defined as a method of funding in which the lender looks primarily to the revenues generated by a single project, both as a source of repayment and as security for the exposure. It possesses all the following characteristics either in legal form or economic substance:

- a. The exposure is typically to an entity (often a special purpose entity or SPE) which was created specifically to finance and/or operate physical assets;
- b. The borrowing entity has little or no other material assets or activities, and therefore little or no independent capacity to repay the obligation, apart from the income that it receives from the asset(s) being financed;
- c. The terms of the obligation give the lender a substantial degree of control over the asset(s) and the income that it generates; and
- d. As a result of the preceding factors, the primary source of repayment of the obligation is the income generated by the asset(s) being financed, rather than the independent capacity of a broader commercial enterprise.

(Circular No. 914 dated 23 June 2016)

345 AGGREGATE CEILING

Except with the prior approval of the Monetary Board, the total outstanding loans, other credit accommodations and guarantees to DOSRI shall not exceed fifteen percent (15%) of the total loan portfolio of the bank or 100% of net worth whichever is lower: *Provided*, That in no case shall the total unsecured loans, other credit accommodations and guarantees to said DOSRI exceed thirty percent (30%) of the aggregate ceiling or the outstanding loans, other credit accommodations and guarantees, whichever is lower. For the purpose of determining compliance with the ceiling on unsecured loans, other credit accommodations and guarantees, banks shall be allowed to average their ceiling on unsecured loans, other credit accommodations and guarantees every week.

In evaluating requests for extension of loans in excess of the aggregate ceiling, the Bangko Sentral shall consider the credit standing of the borrower, viability of the projects financed by such other credit accommodations in relation to national objectives, collateral or security and other pertinent considerations.

Exclusions from aggregate ceiling. The following loans, other credit accommodations and guarantees shall be excluded in determining compliance with the aggregate ceiling:

- a. Credit accommodations or portions thereof to the extent secured by assets considered as non-risk by the Monetary Board;
- b. Credit accommodations to a corporate stockholder which meets all the following conditions:
 - (1) The corporation is a non-financial institution;

¹ This refers to the pre-operational phase of the project that does not yet generate cash flows.

- (2) Its shares are listed and traded in the domestic stock exchanges; and
 - (3) No person or group of persons related within the first degree of consanguinity or affinity holds/owns more than twenty percent (20%) of the subscribed capital of the corporation.
- c. Credit accommodations to government-owned or controlled corporations, in cases where a director, officer or stockholder of the lending bank is a representative of the government in the borrowing corporation and does not hold any proprietary interest in such corporation: *Provided*, That other rules on loans to DOSRI, such as procedural and reportorial requirements under Sec. 346 are followed.
- d. Exclusions from individual ceiling mentioned under Items “(b)”, “(c)” and “(d)” of Sec. 344.

346 PROCEDURAL AND REPORTORIAL REQUIREMENTS

Procedural requirements. The following provisions shall apply if the bank’s DOSRI are parties to, or act as representatives or agents of others in, any of the transactions enumerated under Sec. 342 (*Transactions Covered*):

- a. *Approval of the board, when to obtain.* Except with prior written approval of the majority of the directors, excluding the director concerned, no loan, other credit accommodation and guarantee shall be granted nor shall any of the transactions enumerated under Sec. 342 (*Transactions Covered*) be entered into.
- b. *Approval by the board, how manifested.* The approval shall be manifested in a resolution passed by the board of directors during a meeting and made of record.
- c. *Determination of majority of the directors.* The determination of the majority of the directors, excluding the director concerned, shall be based on the total number of directors of the bank as provided in its articles of incorporation and by-laws.
- d. *Contents of the resolution.* The resolution of the board of directors shall contain the following information:
 - (1) Name of the director or officer concerned and his involvement as regards the credit accommodation, such as principal, endorser, spouse of borrower, etc.;
 - (2) Nature of the loan or other credit accommodation, purpose, amount, credit basis for such loan or other credit accommodation, security and appraisal thereof, maturity, interest rate, schedule of repayment and other terms of the loan or other credit accommodation;
 - (3) Date of resolution;
 - (4) Names of the directors who participated in the deliberations of the meeting; and
 - (5) Names in print and signatures of the directors approving the resolution: *Provided*, That in instances where a director who participated in the board meeting and who approved such resolution failed to sign, the corporate secretary may issue a certification to this effect indicating the reason for the failure of the said director to sign the resolution.
- e. *Transmittal of copy of board approval; contents thereof.* A copy of the written approval of the board of directors, as herein required, shall be submitted to the appropriate supervising department of the Bangko Sentral within twenty (20) banking days from the date of approval. The copy may be a duplicate of the original, or a reproduction copy showing clearly the signatures of the approving directors: *Provided*, That if a reproduction copy is to be submitted, it shall contain on its face or reverse side a signed certification by the secretary that it is a reproduction of the original written approval: *Provided, further*, That such written approval shall not be required for loans, other credit accommodations and advances granted to officers under a fringe benefit plan approved by the Bangko Sentral.

Reportorial requirements. Each bank shall maintain a record of loans, other credit accommodations and guarantees covered by these regulations in a manner and form that will facilitate verification of such transactions by Bangko Sentral examiners.

The appropriate supervising department of the Bangko Sentral may require banks to furnish such data or information as may be necessary for purposes of implementing the provisions of the foregoing rules.

Financing plans and amendments thereto shall be submitted to Bangko Sentral within thirty (30) calendar days from approval thereof by the bank’s board of directors. The appropriate supervising department of the Bangko Sentral may require the banks concerned to submit a regular report monitoring the various transactions under the bank’s financing plans for officers/employees.

All banks providing financial assistance to bank officers/employees shall submit a report on “*Availments of Financial Assistance to Officers and Employees*” to the Bangko Sentral within fifteen (15) banking days after end of reference semester.

347 WAIVER OF SECRECY OF DEPOSIT

Any director, officer or stockholder who, together with his related interest, contracts a loan or any form of financial accommodation from:

- a. his bank; or
- b. from a bank (illustrations shown in *Appendix 26*)
 - (1) which is a subsidiary of a bank holding company of which both his bank and the lending bank are subsidiaries; or
 - (2) in which a controlling proportion of the shares is owned by the same interest that owns a controlling proportion of the shares of his bank, in excess of five percent (5%) of the capital and surplus of the bank, or in the maximum amount permitted by law, whichever is lower;

shall be required by the lending bank to waive the secrecy of his deposits of whatever nature in all banks in the Philippines. Any information obtained from an examination of his deposits shall be held strictly confidential and may be used by the examiners only in connection with their supervisory and examination responsibility or by the Bangko Sentral in an appropriate legal action it has initiated involving the deposit account.

348 SUPERVISORY ENFORCEMENT ACTIONS

The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in the foregoing rules and bring about timely corrective actions and compliance with Bangko Sentral directives. The Bangko Sentral considers abuses in credit to related parties (including credit to DOSRI, subsidiaries, and affiliates) as serious offenses and shall be dealt with severely. In this regard, “*abuse*” shall be interpreted to include extending credit to related parties without adopting appropriate internal policies.

For this purpose, the Bangko Sentral may, among others, issue directives or sanctions on the Bank and responsible persons, which may include restrictions or prohibitions of lending to related parties or from certain authorities/activities, restrictions or prohibitions on dividend declarations; and warning reprimand, suspension, removal and disqualification of concerned bank directors, officers, and/or employees. In addition, the Bangko Sentral may apply the borrowing director/officer/stockholder’s share in the bank’s profit sharing program against the excess of credit extended over any of the prescribed DOSRI ceilings.

In case of imposition of monetary sanction for violations of the foregoing provisions, the penalty shall be computed as follows:

a. Loans to DOSRI

For the duration of each violation, imposition of a fine of one-tenth of one percent (1/10 of 1%) of the excess over the ceilings per day but not to exceed P30,000 a day on the following:

- (1) The lending bank;
- (2) The director, officer or stockholder whose borrowing exceeds his individual ceiling; and
- (3) Each of the directors voting for the approval of the loan or other credit accommodation in excess of any of the ceilings prescribed in Secs. 344 and 345.

The penalty for exceeding the individual ceiling, aggregate ceiling and ceiling on unsecured loans shall be computed on the average amount of loans in excess of said ceilings during the same week.

b. Loans to subsidiaries and affiliates

For the duration of each violation, imposition of a fine of one tenth (1/10) of one percent (1%) of the excess over the ceilings per day but not to exceed P30,000 a day on the following:

- (1) The lending bank; and
- (2) Each of the directors voting for the approval of the loan, other credit accommodation or guarantee in excess of any of the ceilings prescribed in Sec. 342 (*Loans, other credit accommodations and guarantees granted to subsidiaries and/or affiliates*).

Transitory Provisions.

- a. The sanctions contained in this Section shall not apply to outstanding loans, other credit accommodations and guarantees, as well as availments of previously approved loans and committed credit lines not considered as DOSRI accounts prior to 10 April 2004, for a period of up to 09 April 2007 or until said loans, other credit accommodations and guarantees become past due, or are extended, renewed or restructured, whichever comes later.

- b. Unsecured outstanding loans, other credit accommodations and guarantees, as well as availments of previously approved loans and committed credit lines not considered as DOSRI accounts prior to 10 April 2004, shall not be deducted from capital accounts for a period of up to 09 April 2007 or until such time that said loans, other credit accommodations and guarantees become past due, or are extended, renewed or restructured, whichever comes later.
- c. Banks shall, however, disclose the following information in their financial statements, annual report and the reports being submitted to Bangko Sentral:
 - (1) DOSRI;
 - (a) Loans, other credit accommodations and guarantees classified as DOSRI accounts under regulations existing prior to 10 April 2004; and
 - (b) New DOSRI loans, other credit accommodations and guarantees granted starting 10 April 2004.
 - (2) Non-DOSRI prior to 10 April 2004 Loans, other credit accommodations and guarantees, as well as availments of previously approved loans and committed credit lines not considered DOSRI accounts prior to 10 April 2004 but are allowed a transition period as provided above.

(Circular No. 914 dated 23 June 2016)

349 APPLICABILITY TO BRANCHES AND SUBSIDIARIES OF FOREIGN BANKS

The individual and aggregate ceilings as well as ceilings on unsecured credit accommodations prescribed herein shall also apply to branches and subsidiaries of foreign banks in the Philippines.

350 APPLICABILITY TO GOVERNMENT BORROWINGS IN GOVERNMENT-OWNED OR -CONTROLLED BANKS

The provisions of Secs. 341 to 347 shall also apply to loans, other credit accommodations, and/or guarantees granted to the National Government or Republic of the Philippines, its political subdivisions and instrumentalities as well as GOCCs, subject to the following clarifications:

- a. Loans, other credit accommodations, and/or guarantees to the Republic of the Philippines and/or its agencies/departments/bureaus shall be considered: (1) non-risk; and (2) not subject to any ceiling;

Investments in Global Peso Notes (GPNs) shall be excluded by government financial institutions in determining compliance with DOSRI ceilings;
- b. Loans, other credit accommodations, and/or guarantees to: (1) GOCCs; and (2) corporations where the Republic of the Philippines, its agencies/departments/bureaus, and/or GOCCs own at least twenty percent (20%) of the subscribed capital stock shall be considered indirect borrowings of the Republic of the Philippines and shall form part of the individual ceiling as well as the aggregate ceiling: *Provided*, That the following loans, other credit accommodations, and/or guarantees to GOCCs and corporations where the Republic of the Philippines, its agencies/departments/bureaus, and/or GOCCs own at least twenty percent (20%) of the subscribed capital stock, shall be excluded from the thirty percent (30%) ceiling on unsecured loans under Secs. 344 and 345:
 - (1) Loans, other credit accommodations, and/or guarantees for the purpose of undertaking infrastructure and other priority programs and projects consistent with the Philippine Development Plan/Public Investment Program of the National Government, duly certified as such by the Secretary of Socio-Economic Planning;
 - (2) Loans, other credit accommodations, and/or guarantees granted to PFIs in the lending programs of the government wherein the funds borrowed are intended for relending to other PFIs or end-user borrowers; and
 - (3) Loans, other credit accommodations, and/or guarantees granted for the purpose of providing (i) wholesale and retail loans to the agricultural sector and micro, small and medium enterprises (MSMEs); and/or (ii) rediscounting and guarantee facilities for loans granted to the said sector or enterprises;
- c. Loans, other credit accommodations, and/or guarantees granted to state universities and colleges (SUCs) shall be excluded from the thirty percent (30%) ceiling on unsecured loans under Secs. 344 and 345;
- d. In view of the fiscal autonomy granted under R.A. No. 7653 and the independence prescribed under the Constitution, the Bangko Sentral shall be considered an independent entity, hence, not a related interest of the Republic of the Philippines and/or its agencies/departments/bureaus. Loans, other credit accommodations and guarantees of the Bangko Sentral shall be considered: (1) non-risk; and (2) not subject to any ceiling;

- e. LGUs shall be considered separate from the Republic of the Philippines, other government entities, and from one another due to the full autonomy in the exercise of their proprietary functions and in the management of their economic enterprises granted to them under the Local Government Code of the Philippines, subject to certain limitations provided by law, hence, not a related interest of the Republic of the Philippines and/or its agencies/departments/bureaus;
- f. Local Water Districts (LWDs), although GOCCs, shall be considered separate from the Republic of the Philippines, other government entities, and from one another due to their fiscal independence from the national government, hence, not a related interest of the Republic of the Philippines and/or its agencies/department/bureaus, for purposes of these regulations;
- g. A director who acts as a government representative in the lending institution shall not be excluded in the deliberation as well as in the determination of majority of the directors in cases of loans, other credit accommodations, and guarantees to the Republic of the Philippines and/or its agencies/departments/bureaus; and
- h. A director of the lending institution shall be excluded in the deliberation as well as in the determination of majority of the directors in cases of loans, other credit accommodations, and guarantees to the borrowing government entity other than the Republic of the Philippines, its agencies, departments or bureaus where said director is also a director, officer or stockholder under existing DOSRI regulations.

(Circular No. 914 dated 23 June 2016)

E. CREDIT CONCENTRATION AND PRUDENTIAL LIMITS

361 LARGE EXPOSURES AND CREDIT RISK CONCENTRATIONS

Definition

“Large exposures” shall refer to exposures to counterparty or a group of connected counterparties equal or greater than five percent (5%) of the FI’s qualifying capital as defined under applicable and existing capital adequacy framework.

“Connected counterparties” refer to a group of counterparties that are connected through (a) direct or indirect control of one of the counterparties over the other(s) or (b) economic interdependencies, and must be treated as a single counterparty. Control shall be determined in accordance with Sec. 362 (*Definition of terms*, Item “g”).

“Economic Interdependence” refers to a situation where counterparties are reliant on each other, such that if one of the counterparties experiences financial problems in repaying its obligations, the creditworthiness of the other(s) would also likely deteriorate. FIs shall define in their credit policy criteria in determining connectedness based on economic interdependence, which shall consider, among others, significant dealings or transactions of one or more counterpart(y/ies) that impact the financial capacity or ability to repay the obligations of the other counterpart(y/ies).

In cases where the criteria do not automatically imply an economic dependence that results in two (2) or more counterparties being connected, the FI shall provide evidence to Bangko Sentral that a counterparty which is economically connected to another, still can pay its liabilities even if the latter’s financial condition weakens.

Scope of application. Large exposures of FIs and their subsidiaries and affiliates to third parties across the relevant regulatory consolidation group shall be aggregated and compared with the group’s qualifying capital.

Exclusions. Loans, other credit accommodations and guarantees that are excluded from the single borrower’s limit (SBL) under Sec. 362 (*Exclusions from loan limit*) as well as intraday and end-of-day interbank exposures arising from interbank payment and settlement processes shall be excluded from large exposures.

Notification requirements. An FI must immediately inform the Bangko Sentral when it has concerns that its large exposures or credit risk concentrations have the potential to impact materially upon its capital adequacy, along with proposed measures to address these concerns.

Reporting. FI’s records on monitoring of large exposures shall be made available to the Bangko Sentral examiners for verification at any given time. When warranted, the Bangko Sentral may impose additional reporting requirements on the FI in relation to its large exposures and credit risk concentrations.

Sanction. Any failure or delay in complying with the requirements under this Section on Notification requirements and Reporting shall be subject to penalty applicable to those involving major reports.

(Circular No. 890 dated 02 November 2015)

- a. Consistent with national interest, the total amount of loans, credit accommodations and guarantees that may be extended by a bank to any person, partnership, association, corporation or other entity shall at no time exceed twenty-five percent (25%) of the net worth of such bank. The basis for determining compliance with the single borrower's limit (SBL) is the total credit commitment of the bank to or on behalf of the borrower.
- b. The total amount of loans, credit accommodations and guarantees prescribed in the first paragraph may be increased for each of the following circumstances:
 - (1) By an additional ten percent (10%) of the net worth of such bank: *Provided*, That the additional liabilities are adequately secured by trust receipts, shipping documents, warehouse receipts or other similar documents transferring or securing title covering readily marketable, non- perishable goods which must be fully covered by insurance;
 - (2) By an additional twenty-five percent (25%) of the net worth of such bank: *Provided*, That the additional loans, credit accommodations and guarantees are for the purpose of undertaking infrastructure and/or development projects under the Public- Private Partnership (PPP) Program of the government duly certified by the Secretary of Socio-Economic Planning: *Provided, further*, That the total exposures of the bank to any borrower pertaining to such infrastructure and/or development projects under the PPP Program shall not exceed twenty-five percent (25%) of the net worth of such bank: *Provided, furthermore*, That the additional twenty-five percent (25%) shall only be allowed for a period of six (6) years from 28 December 2010: *Provided, finally*, That the credit risk concentration arising from total exposures to all borrowers pertaining to such infrastructure and/or development projects under the PPP Program shall be considered by the bank in its internal assessment of capital adequacy relative to its overall risk profile and operating environment. Said loans, credit accommodations and guarantees based on the contracted amount as of the end of the 6-year period shall not be increased but may be reduced and once reduced, said exposures shall not be increased thereafter;
 - (3) By an additional fifteen percent (15%) of the net worth of such bank: *Provided*, That the additional loans, credit accommodations and guarantees are granted to finance oil importation of oil companies, which are not affiliates of the lending bank, engaged in energy and power generation: *Provided, further*, That the oil companies qualify under the credit underwriting standards of the lending bank and the lending bank shall comply with Sec. 361 (*Large exposures and credit risk concentrations*) on the guidelines in managing large exposures and credit risk concentration: *Provided, furthermore*, That the credit risk concentration arising from total exposures to all oil companies shall be considered by the bank in its internal assessment of capital adequacy relative to its overall risk profile and operating environment and shall be incorporated in the Internal Capital Adequacy Assessment Process (ICAAP) document required to be submitted under Sec. 130: *Provided, finally*, That the additional fifteen percent (15%) shall only be allowed for a period of three (3) years from 03 March 2011 or, until 03 March 2014. Said additional loans, credit accommodations and guarantees outstanding as of the end of the 3-year period and in excess of twenty-five percent (25%) of the lending bank's net worth shall not be increased but shall be reduced and once reduced, said exposures shall not be increased thereafter; and
 - (4) By an additional twenty-five percent (25%) of the net worth of such bank: *Provided*, That the additional loans, credit accommodations and guarantees are granted to entities, which act as value chain aggregators of the lending banks' clients, and/or economically-linked entities that are also actors/players in the value chain: *Provided, further*, That the additional twenty-five percent (25%) will apply only to non- DOSRI/RPT loans; *Provided, finally*, That such additional twenty-five percent (25%) shall only be for a period of three (3) years, subject to review after said period.
- c. The above prescribed ceilings shall include: (1) the direct liability of the maker or acceptor of paper discounted with or sold to such bank and the liability of a general endorser, drawer or guarantor who obtains a loan or other credit accommodation from or discounts paper with or sells papers to such bank; (2) in the case of an individual who owns or controls a majority interest in a corporation, partnership, association or any other entity, the liabilities of said entities to such bank; (3) in the case of a corporation, all liabilities to such bank of all subsidiaries in which such corporation owns or controls a majority interest; and (4) in the case of a partnership, association or other entity, the liabilities of the members thereof to such bank.
- d. Even if a parent corporation, partnership, association, entity or an individual who owns or controls a majority interest in such entities has no liability to the bank, the liabilities of subsidiary corporations or members of the partnership, association, entity or such individual shall be combined under certain circumstances, including but not limited to any of the following situations: (1) the parent corporation, partnership, association, entity or individual guarantees the repayment of the liabilities; (2) the liabilities were incurred for the accommodation of the parent corporation or another subsidiary or of the partnership or association or entity or such individual; or (3) the subsidiaries though separate entities operate merely as departments or divisions of a single entity.

- e. Loans, credit accommodations, and guarantees granted by a bank to an entity (often a special purpose entity or SPE) for the purpose of project finance as defined under Sec. 344 (*Exclusion from the thirty percent (30%) unsecured individual ceiling for project finance*) shall be subject to a separate individual limit of twenty-five percent (25%) of the net worth of the lending bank: *Provided*, That such project finance loans are for the purpose of undertaking initiatives that are in line with the priority programs and projects of the government: *Provided, further*, That the lending bank shall ensure that the standard prudential controls in project finance loans designed to safeguard creditors' interests are in place, which may include pledge of a borrower's shares, assignments of the borrower's assets, assignment of all revenues and cash waterfall accounts, and assignment of project documents: *Provided, finally*, that the lending bank shall consider its total project finance exposures in complying with Sec. 361 (*Large exposures and credit risk concentrations*) and Sec. 143 (*Credit limits, large exposures and credit risk concentrations*) on the guidelines in managing large exposures and credit risk concentrations.
- f. The wholesale lending activities of government banks to participating financial institutions (PFIs) for relending to end-user borrowers shall at no time exceed a separate limit of thirty-five percent (35%) of net worth, subject to the following guidelines: (1) it shall apply only to loans granted to PFIs on a wholesale basis for on-lending to end-user borrowers; (2) it shall apply only to loan programs funded by multilateral, international or local development agencies, organizations or institutions especially designed for wholesale lending activities of government banks; (3) the end-user borrowers of the PFIs shall be subject to the twenty-five percent (25%) SBL, not the increased ceiling of thirty-five percent (35%); and (4) government banks shall observe appropriate criteria for accrediting PFIs and for the grant/renewal of credit lines to accredited PFIs.
- g. Loans and other credit accommodations and usual guarantees by a bank to any non-bank entity, whether locally or abroad, shall be subject to the limits as herein prescribed.

Loans and other credit accommodations as well as deposits and usual guarantees by a bank to any other bank, whether locally or abroad, shall be subject to the limits as herein prescribed or P100.0 million, whichever is higher: *Provided*, That the lending bank shall exercise proper due diligence in selecting a depository bank and shall formulate appropriate policies to address the corresponding risks involved in the transactions.

Deposits of RBs/Coop Banks with government-owned or controlled financial institutions like the LBP and the DBP shall not be covered by the SBL imposed under R.A. No. 8791.

In municipalities and cities where there are no government banks, the deposits of RBs/Coop Banks in private banks in said areas shall not be subject to the SBL imposed under R.A. No. 8791. Deposits in private banks located in municipalities/cities where there are government banks shall be subject to the limits as prescribed in the second paragraph above.

The outstanding balance of the demand deposit account in a private depository bank being used by the TBs/RBs/Coop Banks with authority to accept/create demand or current deposits, to fund checks cleared through the said private depository bank shall also be exempt from the SBL imposed under R.A. No. 8791 even if there is a government-owned or controlled financial institution in the area.

- h. Loans, credit accommodations and guarantees to any person, partnership, association, corporation or other entity or group of companies in excess of the applicable SBL arising from acquisition, merger or consolidation of borrower-corporations, which loans, credit accommodations and guarantees were granted prior to and are outstanding as of date of acquisition, merger or consolidation of borrower-corporations shall not be increased, but shall be reduced and once reduced, shall not be increased beyond the applicable SBL.

It is expected that FIs would generally observe a lower internal single borrower's limit than the prescribed limit of twenty-five percent (25%) as a matter of sound practice.

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Total credit commitment* shall include outstanding loans and other credit accommodations, deferred letters of credit less margin deposits, and guarantees. Except as specifically provided, total credit commitment shall be reckoned on credit risk-weighted basis consistent with existing regulations.
- b. *Loans* shall refer to all the accounts under the loan portfolio of a bank as enumerated in the Manual of Accounts for Banks.
- c. *Other credit accommodations* shall refer to credit and specific market risk exposures of banks arising from accommodations other than loans such as receivables (sales contract receivables, accounts receivables and other receivables), and debt securities booked as investments.
- d. *Bank guarantee.* A bank guarantee is an irrevocable commitment of a bank binding itself to pay a sum of money in the event of non-performance of a contract by a third party. The guarantee is a commitment separate and distinct from the principal debt or contract.

- e. *Net worth* shall mean the total of the unimpaired paid-in capital including paid-in surplus, retained earnings and undivided profit, net of unbooked allowance for credit losses and other adjustments as may be required by the Bangko Sentral.
- f. *Qualifying capital* shall mean capital under applicable and existing capital adequacy framework.
- g. The term “*control of majority interest*” shall be synonymous to “controlling interest” and exists when the parent owns directly or indirectly through subsidiaries more than one half of the voting power of an enterprise unless, in exceptional circumstance, it can be clearly demonstrated that such ownership does not constitute control. Control of majority interest may also exist even when the parent owns one-half or less of the voting power of an enterprise when there is:
 - (1) Power over more than one-half of the voting rights by virtue of an agreement with other investors; or
 - (2) Power to govern the financial and operating policies of the enterprise under a statute or an agreement; or
 - (3) Power to appoint or remove the majority members of the board of directors or equivalent governing body; or
 - (4) Power to cast the majority votes at meetings of the board of directors or equivalent governing body; or
 - (5) Any other arrangement similar to any of the above.
- h. *Subsidiary* shall refer to a corporation or firm more than fifty percent (50%) of the outstanding voting stock of which is directly or indirectly owned, controlled or held with power to vote by its parent corporation.
- i. *Credit risk transfer* shall refer to any arrangement that allows the bank to transfer the credit risk associated with its loan or other credit accommodation to a third party.
- j. *Readily marketable goods* shall mean articles of commerce, agriculture or industry of such uses as to make them the subject of constant dealings in ready markets with such frequent quotations as to make their prices easily and definitely ascertainable, or which lend themselves easily to disposal by sale at any time to pay the obligations secured by the said goods.
- k. *Bill of exchange drawn in good faith against actually existing values* shall mean one (1) which is drawn by a seller on the purchaser for the purchase price of commodities sold. A bill of exchange, whether drawn against goods for exports or against goods to be sold locally, which is discounted or purchased by a bank is a bill drawn against existing values only when it is accompanied by shipping documents, warehouse receipts or other papers, securing title to the goods sold. However, bills of exchange drawn in good faith against actually existing values as defined in this paragraph, which are past due or the maturities of which have been extended, shall be considered as additional loans authorized under the second paragraph of this section and shall be subject to the ten percent (10%) limitation provided therein.
- l. *Commercial or business paper actually owned by the person negotiating the same* shall mean a paper arising from an actual business transaction. A trade acceptance or promissory note actually owned by the person negotiating the same is a commercial or a business paper. However, if a bill is drawn against an agent or fictitious drawee, or if a promissory note is executed by an agent or fictitious drawee, neither is a commercial nor a business paper. Commercial or business papers actually owned and discounted by the person negotiating the same, which are past due or the maturity of which have been extended, shall be considered as money borrowed and shall be subject to the limitation of twenty-five percent (25%) provided in the first paragraph of this Section: *Provided*, That commercial or business papers purchased by banks from SMEs which became past due or the maturities of which have been extended, shall be considered additional loan by the bank to the purchaser of goods or services from the SME and shall be entitled to an increased SBL equivalent to ten percent (10%) of the net worth of the concerned bank if the purchasers are companies with credit ratings of at least “AA-” or equivalent from a Bangko Sentral-recognized rating agency.

Rediscounted papers included in loan limit. The liabilities to the bank of borrowers whose papers were rediscounted by banks with the Bangko Sentral shall not be deemed as having been extinguished by the rediscount, but shall be considered as still existing and shall be included in determining the SBL until such papers are paid by the borrowers.

Credit risk transfer. Subject to prior approval of the Bangko Sentral, loans and other credit accommodations covered by a legally effective credit risk transfer arrangement such as guarantee, letter of indemnity, standby letter of credit or credit derivative, may be excluded from the total credit commitment of the bank to a borrower in reckoning compliance with the SBL.

Exclusions from loan limit. The following loans, other credit accommodations, and guarantees shall be excluded in determining compliance with the SBL:

- a. Credit exposures considered as non-risk:
 - (1) Loans and other credit accommodations secured by obligations of the Bangko Sentral or of the Philippine Government;

- (2) Loans and other credit accommodations fully guaranteed by the government as to the payment of principal and interest;
 - (3) Loans and other credit accommodations secured by U.S. Treasury Notes and other securities issued by central governments and central banks of foreign countries with the highest credit quality given by any two (2) internationally accepted rating agencies;
 - (4) Loans and other credit accommodations to the extent covered by the hold-out on or assignment of, deposits maintained in the lending bank and held in the Philippines;
 - (5) Loans, credit accommodations and acceptances under letters of credit to the extent covered by margin deposits;
 - (6) Loans granted to foreign embassies. These loans are considered as loans to their respective central governments and as such shall be considered non-risk; and
 - (7) Other loans or credit accommodations which the Monetary Board may from time to time specify as non-risk items.
- b. The discount of bills of exchange drawn in good faith against actually existing values, and the discount of commercial or business paper which are actually owned by the person, company, corporation or association negotiating the same;
 - c. Credit accommodations to finance the importation of rice and corn to the extent of 100% of the net worth of the bank concerned shall be excluded in determining the SBL prescribed herein, subject to the following conditions:
 - (1) The importation shall be made in pursuance of a national policy duly enunciated by the National Government;
 - (2) The importation shall have been approved by the National Economic Development Authority (NEDA);
 - (3) The letter of credit shall specify that importation shall be made with certification from the National Food Authority (NFA), or the consular establishment of the Philippine government at the source of any such shipment to the effect that the commodity being imported is either rice or corn; and
 - (4) The related bills of lading shall specify in addition to the name of the importer concerned, that the NFA shall be the consignee of the shipment;
 - d. The portion of loans and other credit accommodations covered by the guarantee of PGC;
 - e. The total liabilities of a commercial paper issuer for commercial paper held by a UB acting as a firm underwriter of said commercial paper shall not be counted in determining compliance with the SBL within a period of ninety (90) calendar days from the issuance of the commercial paper: *Provided*, That in no case shall such liabilities exceed five percent (5%) of the net worth of the UB beyond the normal applicable SBL;
 - f. The portion of loans and other credit accommodations covered by guarantees of international/regional institutions/multilateral FIs where the Philippine Government is a member/shareholder, such as the IFC and the ADB;
 - g. Loans and other credit accommodations or portion thereof, specifically provided for with allowance for credit losses: *Provided*, That the bank has no unbooked allowance for credit losses;
 - h. Loans and other credit accommodations as a result of an underwriting or sub-underwriting agreement of debt securities outstanding for a period not exceeding thirty (30) calendar days. Said other credit accommodations shall include, among others, inventories of debt securities such as, but not limited to, bonds and notes purchased by the UB out of its underwriting commitments¹;
 - i. Foreign securities lending under Section 72 (MORFXT) and other domestic securities lending programs duly recognized by the Bangko Sentral containing safeguards consistent with best international practices, to protect securities lenders' risk exposures.
 - j. Short-term exposures of banks to settlement banks arising from payment transactions pertaining to fund transfer services, check clearing, foreign exchange trades, security trades, security custody services, and other short-term payment transactions: *Provided*, That for the purpose of Exclusions from loan limit in this Section, an exposure is considered short-term if it does not extend longer than five (5) banking days after the placement of funds into the clearing and settlement account: *Provided, further*, That the following conditions are met:

¹ It shall cover all new underwritten debt and equity securities issued from 15 February 2013.

- (1) The payment transactions giving rise to short-term exposures are carried out through a clearing and settlement account maintained with a designated local settlement bank, or a foreign settlement bank. A designated settlement bank is a bank that is recognized or assigned by a consortium of banks and/or other financial institutions or by an appropriate body to accept funds from members of the consortium particularly for settlement of transactions among members.
 - (2) Banks shall enter into a formal agreement with the settlement bank, stipulating among other terms and conditions that the account is opened and maintained exclusively for short-term settlement transactions as described in this Section, and said account is not subject to a minimum balance requirement.
 - (3) The clearing and settlement bank shall keep the funds received from client banks separate from its own funds. The client banks shall also segregate their clearing and settlement accounts from any of their other bank accounts.
 - (4) Banks shall adopt an internal control mechanism appropriate to the said payment transactions.
- k. Debt securities acquired as a result of market making activities pursuant to the rules and guidelines of the SEC and the market or exchange¹ where such securities are traded and/or enrolled, *Provided*, That:
- (1) The market-making positions shall be taken up in the trading book in accordance with Sec. 614 on investment activities of BSFI;
 - (2) The market-making positions shall be properly identified and segregated from the BSFI's proprietary positions; and
 - (3) The BSFI shall periodically monitor the market value of the subject debt securities and the number of days the securities have been outstanding from date of acquisition.

Provided, further, That the subject debt securities shall be excluded from the SBL for a period not exceeding the number of calendar days, as indicated below, from date of acquisition:

Calendar Days	Date of Acquisition
90 days	1 August 2020 – 31 July 2021
60 days	1 August 2021 onwards

Sanctions. Violations of the provisions of this Section shall be subject to the following:

- a. **Monetary penalties** - Fines of one- tenth of one percent (1/10 of 1%) of the excess over the ceiling but not to exceed P30,000.00 a day for each SBL violation shall be assessed on the bank to be reckoned from the date the excess started up to the date when such excess was eliminated: *Provided*, That a maximum fine of P500.00 a day for each violation shall be imposed against banks with total resources of less than P50.0 million at the time of granting of loan/credit accommodation.
- b. **Other sanctions**

First offense – Reprimand for the directors/officers who approved the credit availment which resulted in the excess with a warning that subsequent violations will be subject to more severe sanctions.

Subsequent offenses –

- (1) Fine of P1,000.00 for directors/officers who approved the credit availment which resulted in the excess.
- (2) Suspension of the bank's branching privileges and access to Bangko Sentral rediscounting facilities until the excess is eliminated.
- (3) Other penalties as the Monetary Board may impose depending on the gravity of the offense.

Limit for wholesale lending activities of government banks. There shall be a separate SBL of thirty-five percent (35%) of unimpaired capital and surplus for the wholesale lending activities of government banks to PFIs for relending to end-user borrowers, subject to the following guidelines:

- a. Government banks' SBL of thirty-five percent (35%) of unimpaired capital and surplus shall apply only to loans granted to PFIs on a wholesale basis for on-lending to end-user borrowers;
- b. The thirty-five percent (35%) SBL shall apply only to loan programs funded by multilateral, international or local developmental agencies, organizations or institutions specially designed for wholesale lending activities of government banks;
- c. The end-user borrowers of the PFIs shall be subject to the twenty-five percent (25%) SBL, not to the increased ceiling of thirty-five percent (35%); and

¹ It should be organized in accordance with the SEC rules and regulation

- d. Government banks shall observe the minimum criteria for accrediting PFIs and for the grant/renewal of credit lines to accredited PFIs as set forth in *Appendix 37*.

(Circular Nos. 1091 dated 22 July 2020, 1001 dated 30 April 2018, 965 dated 05 July 2017, 908 dated 14 March 2016, and 890 dated 02 November 2015)

363-A LIMITS ON REAL ESTATE EXPOSURES OF UBs/KBs.

- a. *Real Estate Loan Limit.* Total Real estate loans of UBs/KBs, excluding Items “(1)” to “(4)” below, shall not exceed twenty-five percent (25%) of the total loan portfolio, net of interbank loans:
- (1) Loans extended to individual households for purposes of financing the acquisition, construction, and/or improvement of housing units and acquisition of any associated land that is or will be occupied by the borrower, regardless of amount;
 - (2) Loans extended to land developers/construction companies for the purpose of development and/or construction of socialized and low-cost residential properties as defined under existing guidelines of the DHSUD for the implementation of government housing programs, which are intended for sale to individual households;
 - (3) Loans to the extent guaranteed by the PGC; and
 - (4) Loans to the extent collateralized by non-risk assets under existing regulations.

For this purpose, real estate loans shall refer to loans granted to:

- (a) individual households for the acquisition, construction and/or improvement of housing units and acquisition of any associated land that is or will be occupied by the borrower, including loans granted to bank officers and employees for the same purpose which are covered by bank’s fringe benefit plan and which plan was approved by the Monetary Board; and
- (b) land developers/construction companies and other borrowers for the acquisition and development of land and/or construction of buildings and structures, including housing units for sale/lease and/or for use in retail/wholesale, manufacturing or other income-generating purposes, including loans for the land development and construction of residential properties.

It shall not include loans to finance the construction, rehabilitation and improvement of highways, streets, bridges, tunnels, railways, railroad, transport systems, ports, airports, power plants, hydropower projects, canals, dams, water supply, irrigation, telecommunications, land reclamation projects, industrial estates or townships, government buildings and housing projects, public markets, slaughterhouses, warehouses, civil work components of information technology networks and database infrastructure projects, solid waste management, sewerage, flood control, drainage, dredging and other infrastructure projects that are intended for public use.

Purchase by banks of receivables under Contract to Sell (CTS) executed between the real estate developers and home buyers on a with recourse basis shall be considered loans to real estate developers and shall be classified as commercial real estate loans.

Trust departments of UBs/KBs shall be exempted from the prescribed limit on real estate loans.

Under HUDCC guidelines, socialized and low-cost housing units are defined as follows:

Housing Units	Price Ceiling
Low-cost	
Level 1-A (Socialized)	450,000 and below
Level 1-B	Above 450,000 to P500,000
Level 2	Above P500,000 to 1,700,000
Level 3	Above 1,700,000 to P3,000,000

or in such other amounts which HUDCC may prescribe in the future for said housing units.

- b. *Real Estate Stress Test (REST) Limits* A prudential limit is set for real estate exposures of UBs/KBs. Real estate exposures shall refer to:
- (1) Commercial real estate loans, which shall refer to loans granted for purposes of financing real estate activities to the following:
 - (a) individuals (including sole proprietorship), other than residential real estate loans granted to individual households for occupancy;

- (b) land developers/construction companies; and
 - (c) other corporate borrowers, such as
 - (i) real estate brokers;
 - (ii) real estate lessors;
 - (iii) property management companies;
 - (iv) holding companies; and
 - (v) others;
- (2) Investments in debt securities issued by land developers/construction companies and other corporate borrowers, such as real estate brokers, real estate lessors, property management companies, for purposes of financing real estate activities; and
- (3) Investments in equity securities issued by land developers/construction companies and other corporate borrowers, such as real estate brokers, real estate lessors and property management companies, for purposes of financing real estate activities. Equity securities issued by holding companies are likewise covered, if proceeds from the issue shall be/has been invested by the holding company in its subsidiary corporation/s that is/are engaged in real estate activities.

Real estate activities shall refer to the acquisition, construction and improvement of real estate; buying and selling of real estate; rental of self-owned or leased real estate; and management of real estate/real property.

Real estate exposure shall not include loans and investments in debt and equity securities the proceeds of which are used to finance infrastructure projects for public use as defined under Item “a” of this Section.

For this purpose, a stress test will be undertaken on a UB’s/KB’s REEs (Real Estate Exposure) under an assumed write-off of twenty-five percent (25%).

The prudential REST limits, which shall be complied with at all times by UBs/KBs, are six percent (6%) of Common Equity Tier I (CET1) capital ratio and ten percent (10%) of risk-based capital adequacy ratio, on a solo and consolidated basis, under the prescribed write-off rate.

A UB/KB which does not meet either or both the REST limits shall incorporate assessment of risks from this exposure in its Internal Capital Adequacy Assessment Process (ICAAP).

(Circular Nos. 1093 dated 20 August 2020, 1053 dated 07 October 2019, 1051 dated 27 September 2019, 976 dated 10 October 2017, and 890 dated 02 November 2015)

363-B LIMITS ON REAL ESTATE EXPOSURES OF TBs

A prudential limit is set for real estate exposures of TBs as defined under Item “b” of Sec. 363-A. For this purpose, a stress test will be undertaken on a TB’s REEs under an assumed write-off rate of twenty-five percent (25%).

The prudential REST limits which shall be complied with at all times by TBs are:

- a. six percent (6%) of CET1 capital ratio, for TBs that are subsidiaries of UBs/KBs;
- b. six percent (6%) of Tier 1 capital ratio, for stand-alone TBs¹; and
- c. ten percent (10%) of risk-based CAR for all TBs.

A TB that is a subsidiary of a UB/KB, which does not meet either or both the REST limits shall incorporate assessment of risks from this exposure in the group-wide ICAAP of its parent UB/KB.

A TB that is not a subsidiary of a UB/KB, which does not meet either or both the REST limit shall incorporate assessment of risks from this exposures in its capital planning process.

(Circular Nos. 1093 dated 20 August 2020, 1084 dated 28 April 2020, 1079 dated 09 March 2020, and 890 dated 02 November 2015)

364 EXPANDED REPORT ON REAL ESTATE EXPOSURES OF BANKS

The Expanded Report on Real Estate Exposures is designed to measure and monitor the aggregate real estate exposures, as defined under Item “b” of Sec. 363-A, of the banking system. The report aims to provide the Bangko Sentral with a comprehensive view of the quality and type of real estate loans/investments financed by banks.

¹ TBs that are not subsidiaries of universal and commercial banks. The required six percent (6%) Tier 1 capital ratio shall be replaced by the six percent (6%) CET1 capital ratio by 1 January 2023.

The Expanded Report on Real Estate Exposures (ERREE) shall be submitted in accordance with (a) the guidelines on the preparation of solo and consolidated financial statements under Sec. 172 (*Philippine Financial Reporting Standards/Philippine Accounting Standards*); and (b) the line item instructions prescribed under *Appendix 127*, attached as Annex A-2.

This report shall be considered a Category A-1 report and shall be submitted within the deadlines indicated in *Appendix 7*.

a. Bank Report

All UBs/KBs and TBs shall submit the ERREE on a solo (i.e., head office and branches) basis. UBs/KBs and TBs shall, likewise, submit the ERREE covering real estate exposures of their trust departments.

Starting quarter-ending 31 March 2018, a rural bank that is a subsidiary of a UB/KB or TB, shall also be required to submit the ERREE on a solo (head office and branches) basis. Covered RBs shall likewise submit the ERREE covering real estate exposures of its trust departments starting 31 March 2018.

b. Banking Group Report

A parent UB/KB/TB shall, likewise, submit the Expanded Report on Real Estate Exposures on a consolidated (i.e., consolidated real estate exposures of the banking group) basis, including aggregate real estate exposures of trust departments of banks/Financial Institutions (FIs) that are part of the banking group.

The schedules comprising covered banks' Revised ERREE are as follows:

Report	Covered Banks	UBs	KBs	TBs	RBs that are subs. of UB/KB/TBs
1. Bank Report. This shall contain the solo report of the bank's real estate exposures. Covered banks shall likewise submit the ERREE covering real estate exposure of their trust departments.	a. Bank Proper and Trust Department b. Schedule 1- Bank Proper c. Schedule 2 -Trust Department	x	x	x	x
2. Banking Group Report. This shall contain the consolidated report of the banking group's real estate exposures. Covered banks shall likewise submit aggregate real estate exposures of trust departments of banks/FIs that are part of the banking group.	a. Banking Group and Trust Department(s) of Banks/FIs that are part of the banking group b. Schedule 1- Banking Group c. Schedule 2 -Trust Department(s)	x	x	x	

The revised guidelines, line item instructions and reportorial templates shall take effect starting the quarter ending 30 June 2018.

A pilot run of the revised ERREE shall be conducted for the quarter ending 31 March 2018. During the pilot run, covered banks and their trust department shall submit both the original and revised ERREE (on a solo and consolidated basis) in accordance with the following submission deadlines:

Expanded Report on Real Estate Exposures	Submission deadline
a. ERREE template	Within thirty (30) banking days after end of the reference quarter ending as of 31 March 2018.
b. Revised ERREE template in accordance with guidelines provided in this Section	Within forty five (45) banking days after end of 31 March 2018

(Circular No. 976 dated 10 October 2017)

F. EQUITY INVESTMENTS

371 SCOPE OF AUTHORITY

The following rules shall govern the investment of banks in the equities of allied undertakings, whether financial or non-financial, and non-allied undertakings, as well as the establishment/acquisition of subsidiaries and affiliates abroad.

Investment in Equities. Banks may invest in equities of allied or non-allied undertakings, including corporate affiliations or structures, subject to approval of the Bangko Sentral and compliance with the prudential criteria provided under Sec. 111 (*Prudential criteria*). A bank applying for approval to invest in allied or non-allied undertakings shall submit the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Application letter signed by the president or officer of equivalent rank indicating the justifications on how the investment is aligned with the bank's business model and strategic direction. The application letter shall likewise provide the following information:
 - (1) Name of the investee company;
 - (2) Type of business activities; and
 - (3) Interest to be held by the bank and the manner in which such interest will be held;
- b. Corporate secretary's certificate on the approval of the stockholders, when required under the Corporation Code, and the board of directors (or equivalent management committee in the case of foreign bank branches) of the proposed investment;
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer that the bank has complied with (i) all the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*), (ii) the minimum capital required under Sec. 121 (*Minimum Capitalization*), (iii) the criteria on major investments under Sec. 371 (*Guidelines for Major Investment*, Item "(b)"), as applicable, and (iv) other pertinent banking laws, rules, and regulations;
- d. Information on the non-bank allied/non-allied undertaking, as follows:
 - (1) Financial projections (e.g., balance sheets and income statements) for the first three years of operation in case of establishment of a new allied or non-allied undertaking, or audited financial statements for the last three (3) years, in case of new or additional equity investments in an existing company; and
 - (2) List of the members of the board of directors and senior officers;
- e. Articles of incorporation of the investee company;
- f. Corporate secretary's certificate on the approval of the stockholders, when required under the Corporation Code, and the board of directors of the investee company to allow the Bangko Sentral to examine its books; and
- g. Favorable ruling/no-objection ruling or exemption from compulsory notification requirement, as applicable, from the Philippine Competition Commission.

Guidelines for major investments. The following are the guidelines for major acquisitions or investments by a bank including corporate affiliations or structures to implement Section 50 of R.A. No. 8791.

- a. **Definition.** Major investments are those investments in allied or non-allied undertakings including corporate affiliations or structures that give the bank significant interest and/or control, such as stockholdings sufficient to elect one (1) member to the acquired entity's board of directors.
- b. **Criteria for major investments.** Any major investment by a bank should be approved by the bank's board of directors. In acting on such investments, the Board shall consider the following:
 - (1) Such investment must be in accordance with the bank's business plan and management objectives, taking into consideration the economic developments and future prospects. The interests of the different stakeholders of the bank - shareholders, depositors and creditors - should always be considered before any investment is made.
 - (2) Such investments will complement/support the main business of the banks. Extra caution should be taken when investing in activities where the bank has no managerial or technical expertise, or businesses/industries, which are high-risk.
 - (3) Bank management shall provide for an efficient and effective "exit mechanism" or contingency plan in case the investee's operations fail or do not prosper.

- c. The Bangko Sentral may impose conditions on any approval, including conditions to address financial, managerial, safety and soundness, compliance, or other concerns. Further, the Bangko Sentral may disapprove a proposed investment if it finds that the proposal would constitute an unsafe or unsound banking, or would violate any law, regulation, Monetary Board directive, or any condition imposed by, or written agreement with, the Bangko Sentral.

The Bangko Sentral may prescribe other guidelines/regulations as it may consider necessary to ensure that banks' major investments do not expose the banks to undue risks or hinder effective supervision.

- d. The Bangko Sentral shall have the authority to seek corrective action, to issue orders to terminate activities with or divest an interest in an investee company, if it believes that such action is necessary to prevent or redress unsafe or unsound banking by such company that poses a material risk to the financial safety, soundness or stability of a bank.

(Circular No. 1031 dated 7 February 2019)

372 FINANCIAL ALLIED UNDERTAKINGS

With prior Bangko Sentral approval, banks may invest in equities of the following financial allied undertakings, subject to the limits prescribed under Sec. 373:

- a. Leasing companies including leasing of stalls and spaces in a commercial establishment: *Provided*, That bank investment in/acquisition of shares of such leasing company shall be limited/applicable only in cases of conversion of outstanding loan obligations into equity;
- b. Banks;
- c. IHS;
- d. Financing companies;
- e. Credit card companies;
- f. FIs catering to small and medium scale industries including venture capital corporation (VCC), subject to the provisions of Sec. 374;
- g. Companies engaged in stock brokerage/securities dealership; and
- h. Companies engaged in foreign exchange dealership/brokerage.

In addition, UBs may invest in the following as financial allied undertakings:

- a. Insurance companies; and
- b. Holding company: *Provided*, That the investments of such holding company are confined to the equities of allied undertakings and/or non-allied undertakings of UBs allowed under Bangko Sentral regulations.

The Monetary Board may declare such other activities as financial allied undertakings of banks.

The determination of whether the corporation is engaged in a financial allied undertaking shall be based on its primary purpose as stated in its articles of incorporation and the volume of its principal business.

373 LIMITS ON INVESTMENT IN THE EQUITIES OF FINANCIAL ALLIED UNDERTAKINGS

The equity investment of a bank in a single financial allied undertaking shall be within the following ratios in relation to the total subscribed capital stock and to the total voting stock of the allied undertaking:

ACTIVITIES	INVESTOR						
Allied Enterprises	UB		KB		TB	RB	Coop Banks
Financial Allied Undertaking	Publicly-listed	Not listed	Publicly-listed	Not listed			
UBs	100%	49%	100%	49%	49%	49%	49%
KBs	100	49	100	49	49	49	49
Digital Banks	100		49		49	49	49
TBs	100		100		49	49	49
RBs	100		100		49	49	100
Coop Banks	NA		NA		NA	NA	30
Insurance							

ACTIVITIES	INVESTOR						
Allied Enterprises	UB		KB		TB	RB	Coop Banks
Financial Allied Undertaking	Publicly-listed	Not listed	Publicly-listed	Not listed			
Companies	100		NA		NA	NA	NA
VCCs	60		60		60	49	49
Trust Corporation	100		49		40	40	40
Others	100		49		40	40	40

To promote competitive conditions, the Monetary Board may further limit the equity investments in QBs of UBs and KBs to forty percent (40%).

A publicly-listed UB or KB may own up to 100% of the voting stock of only one (1) other UB or KB. Otherwise, it shall be limited to a minority holding.

The guidelines in determining compliance with ceilings on equity investments in financial allied undertakings are shown in *Appendix 83*.

(Circular No. 1105 dated 02 December 2020)

374 INVESTMENTS IN VENTURE CAPITAL CORPORATIONS

The following rules and regulations shall implement Presidential Decree No. 1688 entitled “Authorizing Banks to Invest in the Equity of Venture Capital Corporations (VCCs) to Assist Small and Medium- Scale Enterprises”.

For purposes of this Section, a VCC shall refer to an entity organized jointly by private banks, the National Development Corporation and the Technology Livelihood and Resource Center and/or such other government agency as may be authorized by the appropriate authority, the primary purpose of which is to develop, promote and assist, thru debt or equity financing or any other means, any small and medium- scale enterprise in the country.

Requirements for investors. Banks may invest in a VCC organized to assist small and medium-scale enterprises, subject to the following conditions:

- The bank shall have a minimum capital of P100.0 million as defined in Sec. 121;
- Two (2) or more banks may own up to sixty percent (60%) of the total voting equity and of the total equity of a VCC. A bank shall not be allowed to invest in the equity of more than one VCC;
- The initial paid-in capital of VCC shall not exceed P5.0 million. Any subsequent increase in paid-in capital of the VCC in which a bank owns equity shall be subject to prior approval of the Monetary Board;
- Loans which the investor-bank may grant to a VCC shall be limited to such amounts as would enable the VCC to promote equity financing to viable small and medium scale enterprise: *Provided, however,* That unless otherwise authorized by the Monetary Board, the aggregate outstanding loans of such bank to a VCC shall not exceed twice the amount of its equity investment in the VCC: *Provided, further,* That loans to the VCC, or the small and medium-scale enterprises shall not be subject to the ceilings on DOSRI, except where bank DOSRI are likewise stockholders in the VCC or in the small and medium-scale enterprise;
- The combined equity investments in, and loans of, the bank to its VCC shall not exceed fifteen percent (15%) of the bank’s net worth; and
- The aggregate investments in equities by a bank, including equity investments in a VCC, shall not exceed the prescribed ceilings under Sec. 378 on other limitations and restrictions.

The guidelines in determining compliance with ceilings on equity investments in a VCC are shown in *Appendix 84*.

Banks with acquired shares of stock of VCCs in excess of limits provided in this Section which have not been previously confirmed by the Monetary Board shall seek confirmation of the Monetary Board of such acquisition not later than ninety (90) banking days from 20 December 2009: *Provided,* That said confirmation shall be subject, among others, to the condition that such shares of stock shall be disposed of within a reasonable period not to exceed five (5) years from the date of acquisition thereof.

Equity investments of venture capital corporations. Equity investment of a VCC in small and medium-scale enterprises shall be subject to the following conditions:

- Equity financing by a VCC may be extended to a small and medium-scale enterprise engaged in an industry certified as desirable by the Department of Trade and Industry; and

- b. The total assets of the enterprises shall not exceed P4.0 million, including the VCC's equity investment. Should the total assets of the small and medium-scale enterprise subsequently exceed the prescribed P4.0 million maximum, the VCC equity investment therein made before the total assets of the enterprise exceeded P4.0 million, may be maintained but shall not be increased.

Business name of venture capital corporations. A VCC shall be known by any name not otherwise appropriated: *Provided, however,* That the words "venture capital corporation" are made a part thereof.

Reportorial requirements; examination by Bangko Sentral. A VCC in which a bank owns equity shall be subject to Bangko Sentral reportorial requirements prescribed for non-bank financial intermediaries and may be subject to examination by the Bangko Sentral.

Interlocking directorships and/or officerships. Subject to prior approval of the Monetary Board, a person may concurrently hold the position of a director or officer in a bank and a VCC.

375 NON-FINANCIAL ALLIED UNDERTAKINGS

A bank may acquire up to 100% of the equity of a non-financial allied undertaking: *Provided,* That the equity investment of a TB/RB in any single enterprise shall remain less than fifty percent (50%) of the voting shares in that enterprise: *Provided, further,* That prior Monetary Board approval is required if the investment is in excess of forty percent (40%) of the total voting stock of such allied undertaking.

The determination of whether the corporation is engaged in a non-financial allied undertaking shall be based on the primary purpose as stated in its articles of incorporation and the volume of its principal business.

a. *UBs/KBs/TBs*

UBs/KBs and TBs may invest in equities of the following non-financial allied undertakings:

- (1) Warehousing companies;
- (2) Storage companies;
- (3) Safe deposit box companies;
- (4) Companies primarily engaged in the management of mutual funds but not in the mutual funds themselves;
- (5) Management corporations engaged or to be engaged in an activity similar to the management of mutual funds;
- (6) Companies engaged in providing computer services;
- (7) Insurance agencies/brokerages;
- (8) Companies engaged in home building and home development;
- (9) Companies providing drying and/or milling facilities for agricultural crops such as rice and corn;
- (10) Service bureaus, organized to perform for and in behalf of banks and NBFIs the services allowed to be outsourced enumerated in Sec. 112: *Provided,* That data processing companies may be allowed to invest up to forty percent (40%) in the equity of service bureaus;
- (11) Philippine Clearing House Corporation (PCHC), Philippine Central Depository, Inc. and Fixed Income Exchange;
- (12) Companies engaged in merchant acquiring business;
- (13) Such other similar activities as the Monetary Board may declare as non- financial allied undertakings of banks.

UBs may further invest in health maintenance organizations (HMOs).

In addition, TBs may also invest in the equities of companies enumerated in Item "b" of this Section.

b. *RBs/Coop Banks*

RBs/Coop Banks may invest, as a non- financial undertaking, in the equities of companies engaged in the following:

- (1) Warehousing and other postharvest facilities;
- (2) Fertilizer and agricultural chemical and pesticides distribution;

- (3) Farm equipment distribution;
- (4) Trucking and transportation of agricultural products;
- (5) Marketing of agricultural products;
- (6) Leasing;
- (7) Automated Teller Machine (ATM) networks; and
- (8) Other undertakings as may be determined by the Monetary Board.

The guidelines in determining compliance with ceilings on equity investments in non-financial allied undertakings are shown in *Appendix 83*.

(Circular No. 896 dated 17 December 2015)

376-A INVESTMENTS IN NON-ALLIED OR NON-RELATED UNDERTAKINGS

Only UBs may invest in the equity of an enterprise engaged in non-allied or non-related activities.

The guidelines in determining compliance with ceilings on equity investments in non-allied or non-related undertakings are shown in *Appendix 83*.

Non-allied undertakings eligible for investment by universal banks. The broad category of non-allied undertakings in which a UB may invest directly or through its subsidiary shall require prior approval of the Monetary Board: *Provided*, That individual equity investments in the following broad categories shall not require prior Monetary Board approval, except as may be required in Sec. 371 (*Guidelines for major investments*):

- a. Enterprises engaged in physically productive activities in agriculture, mining and quarrying, manufacturing, public utilities, construction, wholesale trade and community and social services following the industrial groupings in the Philippine Standard Industrial Classification (PSIC) as enumerated in *Appendix 19*;
- b. Industrial park projects and/or industrial estate developments;
- c. Financial and commercial complex projects (including land development and buildings constructed thereon) arising from or in connection with the Government's privatization program; and
- d. Such other broad categories as the Monetary Board may declare as appropriate: *Provided, further*, That the bank shall submit within thirty (30) banking days after the investment, the following information/documents to the appropriate supervising department of the Bangko Sentral:
 - (1) The amount of investment;
 - (2) The name of investee company; and
 - (3) The nature of business, accompanied by such pertinent documents as articles of incorporation, articles of partnership or registration certificate, whichever may be applicable.

Limits on investments in non- allied enterprises.

- a. The equity investment of a UB, or of its wholly or majority-owned subsidiaries, in a single non-allied enterprise shall not exceed thirty-five percent (35%) of the total equity in that enterprise nor shall it exceed thirty-five percent (35%) of the voting stock in that enterprise.

For the purpose of determining compliance with the ceiling prescribed in the preceding paragraph, (i) the equity investment of the bank; and (ii) the equity investment of the bank's subsidiaries, shall be combined.

- b. In no case shall the total equity investments in a single non-allied enterprise of UBs, NBFIs performing QB functions and their subsidiaries, whether or not the parent financial intermediaries have equity investments in the enterprise, amount to fifty percent (50%) or more of the voting stock of that enterprise: *Provided, however*, That equity investments in excess of the ceilings prescribed herein as of 01 April 1980 may be maintained but may not be increased and if reduced, shall not be increased thereafter beyond the ceiling prescribed herein.

377 INVESTMENTS IN SUBSIDIARIES AND AFFILIATES ABROAD

The establishment or acquisition of subsidiaries or affiliates abroad shall require prior approval of the Bangko Sentral.

Application for authority to establish or acquire subsidiaries and affiliates abroad. Banks may invest in subsidiaries and affiliates abroad subject to approval of the Bangko Sentral and compliance with the prudential criteria provided under Sec. 111 (*Prudential criteria*). A bank applying for authority to establish or acquire subsidiaries and affiliates abroad shall submit the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Application letter for authority to establish or acquire subsidiaries and/or affiliates abroad signed by the president or officer of equivalent rank, with justifications on how the investment is aligned with the bank's business model and strategic direction. The application shall likewise include economic justification for such investment, indicating among others, the services to be offered, the minimum outlay such as capital requirement of the host country, and projected results of operations for the first three (3) years of operations;
- b. Corporate secretary's certificate on the approval of the stockholders, when required under the Corporation Code, and the board of directors of the establishment or acquisition of subsidiaries or affiliates abroad;
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer certifying that:
 - (1) The bank has complied with all the prudential criteria prescribed under Sec. 111 (*Prudential criteria*) and other pertinent banking laws, rules, and regulations;
 - (2) The bank has complied with the citizenship requirements, ownership ceilings, and other limitations on voting stockholdings in banks under existing laws, and regulations;
 - (3) The bank has sufficient experience and expertise to engage in international banking operations; and
 - (4) An application for such establishment/acquisition has been filed with the appropriate government agency of the host country; and
- d. Organizational set-up of the proposed banking office showing the proposed positions and the qualifications set out for senior management as well as the names of individuals who will hold said positions.

Conditions for approval of application. The approval of the application to establish or acquire a subsidiary or an affiliate abroad shall be subject to the following conditions:

- a. The senior officers who will be in-charge of the bank's subsidiary or affiliate abroad shall have sufficient background and expertise that are relevant to the positions and possess the qualifications necessary to carry out the corresponding duties and responsibilities;
- b. The applicant shall also comply with the licensing requirements of the host country and the necessary license to operate shall be secured from the appropriate government agency of the host country;
- c. The outward investment representing initial capital outlay and other outlays shall be subject to existing regulations;
- d. All dividends earned shall be inwardly remitted to the Philippines no later than sixty (60) days after the date of payment. For purposes of this Section, re-investment of said dividend proceeds or deposits/placements thereof in accounts of the investor banks with foreign correspondent banks abroad shall be deemed compliance with the requirements of this Section;
- e. The proposed subsidiary or affiliate shall submit the reports required by the Bangko Sentral;
- f. The proposed subsidiary or affiliate shall not carry any of the business of a bank contemplated within the context of the Philippine banking system;
- g. The proposed subsidiary or affiliate shall not engage in stock trading activity;
- h. The applicant shall submit a certification from the host country that the duly authorized personnel/examiners of the Bangko Sentral will be authorized to examine the proposed subsidiary or affiliate; and
- i. The applicant shall defray the necessary cost and expenses to be incurred by the appropriate supervising department of the Bangko Sentral in the examination of the foreign subsidiary; and
- j. Investments in subsidiaries and/or affiliates abroad shall be subject to the limitations and restrictions under Sec. 378.

Investment of a bank subsidiary in a foreign subsidiary. The following guidelines shall govern the investment in a foreign subsidiary by a bank subsidiary:

- a. The investment of a bank subsidiary in the equity of a subsidiary located abroad shall be subject to prior Bangko Sentral approval;
- b. The bank subsidiary may invest in a subsidiary if it meets the following pre-qualification requirements:
 - (1) It has complied with the minimum capital requirement of the host country;
 - (2) It has booked the required allowance for credit losses and other capital adjustments, if any; and
 - (3) Its operations in the preceding three (3) years were profitable; otherwise, the feasibility study on the proposed subsidiary should show profits in the first two (2) years of operations.

- c. The application for authority of a bank subsidiary shall be accompanied by the following:
 - (1) Certified true copy of the resolution authorizing the investment by the board of directors of the parent bank and the bank subsidiary;
 - (2) Feasibility studies on the proposed subsidiary indicating, among others, the economic justification, the type of industry and organizational expenses to be incurred, including the capital expenditures; and
 - (3) Proposed organizational structures, including the proposed officers and their qualifications.
- d. The applicant parent subsidiary shall comply with the licensing requirements of the host country and the necessary license to operate shall be secured from the appropriate government agency of the host country;
- e. The proposed subsidiary may invest in another subsidiary with prior approval of the Bangko Sentral;
- f. Any outward investment representing initial capital and other outlays shall be subject to existing regulations;
- g. At least fifty percent (50%) of the yearly net profits of the proposed subsidiary shall be declared and paid as cash dividends to the parent subsidiary;
- h. The proposed subsidiary shall be subject to –
 - (1) the applicable reportorial requirements such as the submission of quarterly Statement of Condition (SOC) and Statement of Income and Expenses (SIE); and
 - (2) the supervision and examination by the Bangko Sentral and the cost of such examination shall be charged against the grandparent bank; and
- i. Any additional funding or advances of the parent bank in the Philippines to its subsidiaries abroad or the subsidiary will require prior Bangko Sentral approval.

(Circular No. 1031 dated 7 February 2019)

378 PRUDENTIAL LIMITS AND RESTRICTIONS ON EQUITY INVESTMENTS

The following limitations and restrictions shall also apply regarding equity investments of banks.

- a. *In any single enterprise.* The equity investments of UBs and KBs in any single enterprise shall not exceed at any time twenty-five percent (25%) of the net worth of the investing banks as defined in Secs. 121 and 103 (*Capital requirements of foreign banks*, Item “b”).
- b. *Aggregate limits.* The total amount of investments in equities in all enterprises shall not exceed the following ratios in relation to the net worth of the investing bank:

	UB	KB	TB	RB	Coop Bank
LIMIT:	50%	35%	25%	25%	25%

- c. *Exclusion of underwriting exposure from ceiling.* The exposure of a bank with UB authority arising from the firm underwriting of equity securities of enterprises shall not be counted in determining compliance with the ceilings prescribed in this Section and Sec. 376-A (*Limits on investments in non-allied enterprises*) for a period of ninety (90) calendar days from the issuance of such equity securities¹.
- d. The guidelines in determining compliance with the other limitations and restrictions on equity investments of banks are shown in *Appendix 83*.

379 SANCTIONS

The following sanctions shall be imposed for equity investments made without prior Monetary Board approval:

- a. *First offense* - If the investment is not allowable under existing regulations, divestment of the investment and reprimand on officer/director who recommended/approved the investment.
- b. *Subsequent offense* -

On the Bank. If the investment is not allowable under existing regulations, divestment of the investment.

On the director/officer. Fine of P20,000 for each investment to be imposed on the members of the board and the executive officers who recommended/approved the investment per investment and to be shouldered personally by the officer/director: *Provided*, That if the subsequent offense is an investment in a non-allied enterprise, the fine shall be P40,000.

¹ It shall cover all new underwritten debt and equity securities issued from 15 February 2013.

G. SUNDRY PROVISIONS

381 PURCHASE OF RECEIVABLES AND OTHER OBLIGATIONS

The following regulations shall govern the purchase of receivables and other obligations.

Yield on purchase of receivables. The rate of yield, including commissions, premiums, fees and other charges, from the purchase of receivables and other obligations, regardless of maturity, that may be charged or received by banks shall not be subject to any regulatory ceiling.

Purchase of receivables on a “without recourse” basis. The total exposure of a bank to a maker of promissory notes resulting from the purchase of receivables on a without recourse basis shall be subject to the SBL of the bank: *Provided*, That the bank shall evaluate the credit worthiness of the maker of such promissory notes.

Purchase of commercial paper. Before purchasing registered commercial paper, banks authorized to engage in quasi-banking functions shall –

- a. Require the issuing entity to submit a duly certified true copy of its Certificate of Registration and Authority to Issue Commercial Paper; and
- b. Ascertain that the registration number and expiry date indicated in the commercial paper are the same as those in the certificate of registration submitted.

Any violation or failure to comply with the provisions of Purchase of commercial paper in this Section shall subject the erring bank to suspension or revocation of its authority to engage in quasi-banking functions.

Reverse repurchase agreements with Bangko Sentral. Reverse repo agreements with the Bangko Sentral shall be governed by Sec. 601.

Investment in readily marketable bonds and other debt securities. The following rules and regulations shall govern investment in readily marketable bonds and other debt securities.

- a. Banks may invest in the following:
 - (1) Readily marketable bonds and other debt securities which are of such use or demand as to make them the subject of constant dealings in securities markets, with such frequent quotations of price as to make the price easily and definitely ascertainable, and the security easy to realize upon sale at any time: *Provided*, That the bonds and other debt securities have complied with the rules on registration of securities under the Securities Regulation Code: *Provided, further*, That RBs/Coop Banks investing in readily marketable bonds and other debt securities shall comply with the prudential criteria enumerated under Sec. 111 and Sec. 614. In addition to said criteria, the investment shall not be held for trading purposes.

RBs/Coop Banks shall submit a one-time notarized certification that the pre-qualification requirements under Sec. 111 (*Prudential criteria*) have been complied with to the appropriate supervising department of the Bangko Sentral within ten (10) calendar days from date of initial investment. In addition, banks shall conduct a continuous self-assessment of their compliance with said pre-qualification requirements.

TBs may invest in evidences of indebtedness which are registered with the SEC but are not readily marketable securities: *Provided*, That these evidences of indebtedness shall be acquired with recourse against a bank or a QB.

It shall be the responsibility of the investing bank to undertake a due diligence review on its prospective investments, consistent with the risk management guidelines under Sec. 614.

- (2) Evidences of indebtedness of the Republic of the Philippines or the Bangko Sentral, and any other evidences of indebtedness or obligations the servicing and repayment of which are guaranteed by the Republic of the Philippines; *Provided*, That the reports on risk management system under Sec. 614 are met.
 - (3) Securities that serve as an alternative mode of compliance with the mandatory credit allocations under Philippine laws.
- b. Any violation of the provision stated in Item “a” above shall subject the bank and its concerned officer/s to applicable enforcement action enumerated under Sec. 111.

Regular banking unit (RBU) of UBs/KBs and TBs are prohibited from purchasing Philippine debt papers representing debt papers of Philippine public sector and private sector obligors which were restructured during the period of moratorium in the payment of external debt. They may, however, invest in, or purchase, other foreign currency denominated debt instruments, subject to applicable rules and regulations, particularly on risk

management: *Provided*, That the RBU of TBs may invest only in readily marketable foreign currency denominated debt instrument as defined under Sec. 72 of Part V (MORFXT).

(Circular Nos. 1042 dated 25 July 2019 and 960 dated 04 May 2017)

382 ACQUIRED ASSETS IN SETTLEMENT OF LOANS

The following rules shall govern assets acquired in settlement of loans.

Posting. Banks shall post at all times in a conspicuous place in the premises of their head office and each of their branches and other banking offices a list of acquired assets together with the corresponding lowest price at which the bank is willing to sell such property. However, this requirement shall not relieve the bank from the requirement under Section 52 of R.A. No. 8791 to dispose of such acquired assets.

Booking.

a. ROPA in settlement of loans through foreclosure or dation in payment shall be booked under the ROPA account as follows:

- (1) Upon entry of judgment in case of judicial foreclosure;
- (2) Upon execution of the Sheriff's Certificate of Sale in case of extrajudicial foreclosure; and
- (3) Upon notarization of the Deed of Dacion in case of dation in payment (*dacion en pago*).

ROPA shall be booked initially at the carrying amount of the loan (i.e., outstanding loan balance adjusted for any unamortized premium or discount less allowance for credit losses computed based on PFRS 9 provisioning requirements, which take into account the fair value of the collateral) plus booked accrued interest less allowance for credit losses (computed based on PFRS 9 provisioning requirements) plus transaction costs incurred upon acquisition (such as non-refundable capital gains tax and documentary stamp tax paid in connection with the foreclosure/purchase of the acquired real estate property): *Provided*, That if the carrying amount of ROPA exceeds P5.0 million, the appraisal of the foreclosed/purchased asset shall be conducted by an independent appraiser acceptable to the Bangko Sentral.

b. The carrying amount of ROPA shall be allocated to land, building, other non-financial assets and financial assets (e.g., receivables from third party or equity interest in an entity) based on their fair values, which allocated carrying amounts shall become their initial costs.

c. The non-financial assets portion of ROPA shall remain in ROPA and shall be accounted for as follows:

- (1) Land and buildings shall be accounted for using the cost model under PAS 40 "Investment Property";
- (2) Other non-financial assets shall be accounted for using the cost model under PAS 16 "Property Plant and Equipment";
- (3) Buildings and other non-financial assets shall be depreciated over the remaining useful life of the assets, which shall not exceed ten (10) years and three (3) years from the date of acquisition, respectively; and
- (4) Land, buildings and other non-financial assets shall be subject to the impairment provisions of PAS 36 "Impairment"¹.

d. Financial assets, shall be reclassified and booked in accordance with *Appendix 27*, except interests in subsidiaries, associates and joint ventures, which shall be booked under Equity Investments in Subsidiaries, Associates and Joint Ventures and accounted for in accordance with Item "b(1)" Sec. 172 (*Philippine Financial Reporting Standards/Philippine Accounting Standards*).

e. ROPAs that comply with the provisions of PFRS 5 "Non-Current Assets Held for Sale" shall be reclassified and accounted for as such.

f. Claims arising from deficiency judgments rendered in connection with the foreclosure of mortgaged properties shall be lodged under the real account "Deficiency Judgment Receivable"; while probable claims against the borrower arising from the foreclosure of mortgaged properties shall be lodged under the contingent account "Deficiency Claims Receivable".

g. *Appraisal of properties.* Before foreclosing or acquiring any property in settlement of loans, it must be properly appraised to determine its true economic value. If the amount of ROPA to be booked exceeds P5.0 million, the appraisal must be conducted by an independent appraiser acceptable to the Bangko Sentral. An in-house appraisal of all ROPAs shall be made at least every other year: *Provided*, That immediate re-appraisal shall be conducted on ROPAs which materially decline in value.

¹ With additional special regulatory relief in areas affected by Tropical Depression "Yolanda" as provided under *Appendix 93* (Circular No. 820 dated 06 December 2013)

- h. *Non-cash payment for interest.* FIs that accept non-cash payments for interest on their borrowers' loans shall book the acquired assets as ROPA. The amount to be booked as ROPA shall be the booked accrued interest less allowance for credit losses (computed based on PFRS 9 provisioning requirements): *Provided*, That if the carrying amount of ROPA exceeds P5.0 million, the appraisal of the foreclosed/purchased asset shall be conducted by an independent appraiser acceptable to the Bangko Sentral. The carrying amount of ROPA shall be allocated in accordance with Item "b" and shall be subsequently accounted for in accordance with Item "c" above.

The provisions of Booking in this Section shall be applied retroactively to all outstanding ROPAs and sales contract receivables: *Provided*, That for properties acquired before 01 January 2005, the carrying amount of the acquired properties when initially booked under ROPA shall be the cost subject to depreciation and impairment testing, which shall be reckoned from the time of acquisition.

Sales contract receivable

- a. Sales Contract Receivable (SCR) shall be recorded based on the present value of the installments receivables discounted at the imputed rate of interest. Discount shall be accreted over the life of the SCR by crediting interest income using the effective interest method. Any difference between the present value of the SCR and the derecognized assets shall be recognized in profit or loss at the date of sale in accordance with the provisions of PAS 18 "Revenue": *Provided, furthermore*, That SCR shall be subject to impairment provision of PFRS 9.

The provisions of Sales Contract Receivable in this Section shall be applied retroactively to all outstanding ROPAs and SCRs: *Provided*, That for properties acquired before 01 January 2005, the carrying amount of the acquired properties when initially booked under ROPA shall be the cost subject to depreciation and impairment testing, which shall be reckoned from the time of acquisition.

- b. SCRs which meet all the requirements/conditions enumerated below are hereby considered performing assets and therefore, not subject to classification:
- (1) That there has been a downpayment of at least twenty percent (20%) of the agreed selling price or in the absence thereof, the installment payments on the principal had already amounted to at least twenty percent (20%) of the agreed selling price;
 - (2) That payment of the principal must be in equal installments or in diminishing amounts and with maximum intervals of one (1) year;
 - (3) That any grace period in the payment of principal shall not be more than two (2) years; and
 - (4) That there is no installment payment in arrear either on principal or interest: *Provided*, That an SCR account shall be automatically classified "Substandard" and considered non-performing in case of non-payment of any amortization due: *Provided, further*, That an SCR which has been classified "Substandard" and considered non-performing due to non-payment of any amortization due may only be upgraded restored to unclassified and/or performing status after a satisfactory track record of at least three (3) consecutive payments of the required amortization of principal and/or interest has been established.

Joint venture of banks with real estate development companies

- a. *Policy statement.* It is the policy of the Bangko Sentral to encourage banks to dispose of their ROPAs in settlement of loans and other advances either through foreclosure or *dacion en pago* as well as other properties acquired as a consequence of a merger/consolidation which are no longer necessary for their banking operations. Towards this end, banks are hereby authorized to enter into Joint Venture Agreements (JVA) with real estate development companies for the development of said properties, subject to the requirements prescribed herein.
- b. For purposes of Joint venture of banks with real estate development companies in this Section, *joint venture* shall refer to a contractual arrangement/undertaking between a bank and a duly registered real estate development company (developer) for the purpose of developing the abovementioned properties of the bank. The bank contributes said properties to the undertaking while the developer contributes all the development funds, resources, technical expertise, equipment, personnel and all other requirements desired or needed for the implementation and completion of the undertaking including marketing, where applicable. The bank and the developer shall be bound by the contract that establishes joint control of the undertaking. Although the developer may be designated as operator or manager of the undertaking, it does not, however, absolutely control the undertaking but only acts in accordance with the authorities granted to him under the JVA.
- c. *Forms of a joint venture.* A bank and a developer may undertake a joint venture under the following forms:
- (1) A jointly-controlled operation/undertaking, which does not involve the establishment of a corporation, partnership or other entity, or a financial structure that is separate from the bank and the developer

themselves. Under this form of joint venture, the rights and obligations of the bank and the developer shall be governed primarily by their contract that must clearly specify the following:

- (a) authority of the developer to develop/subdivide the property and subsequently, to sell the individual lots under a special power of attorney;
 - (b) sharing in the sales proceeds of the developed ROPAs or in the developed lots;
 - (c) sharing in taxes;
 - (d) sharing in the assets of the joint venture particularly in the developed/subdivided lots should there still be unsold lots at the time of termination of the joint venture; and
 - (e) name under which the subdivided lots shall be registered pending their sale.
 - (2) A jointly-controlled entity, which involves the establishment of a new juridical entity, preferably a corporation that is separate and distinct from the bank and the developer. A jointly controlled corporation may be established either for the purpose of developing properties of banks for immediate sale or converting them into earning assets such as hotels and shopping malls.
- d. *Requirements and limitations in a joint venture.* A bank desiring to enter into a JVA with a developer for the purpose of developing its ROPAs and/or other properties acquired as a consequence of merger/consolidation shall comply with the following:
- (1) The JVA shall be approved by the board of directors of the bank.
 - (2) The bank's contribution to the joint venture, in whatever form undertaken, shall be limited to ROPAs and properties acquired as a consequence of the bank's merger/consolidation with another bank/financial institution.
 - (3) The bank shall not recognize income out of its contribution to the joint venture, regardless of the agreed valuation of said properties.
 - (4) The bank shall not provide funds to the joint venture either as a loan or capital contribution.
 - (5) The JVA or contractual arrangement shall clearly stipulate the rights and obligations of the bank and the developer.
 - (6) The bank shall secure prior Monetary Board approval of the JVA.
- e. *Application for authority to enter into JVA.* A bank desiring to enter into a JVA with a developer for the purpose of developing its ROPAs and other properties acquired as a consequence of its merger/consolidation with another bank/FI shall secure prior Monetary Board approval of said agreement. For that purpose, the concerned bank shall submit an application for Monetary Board approval to the appropriate supervising department of the Bangko Sentral. The application shall be signed by the bank's president or officer of equivalent rank and shall be accompanied by the following documents/information:
- (1) The name of the developer;
 - (2) Name of the principal stockholders and officers as well as members of the board of directors of said company;
 - (3) Relationship of the bank with the developer, if any;
 - (4) List and brief description of the properties to be contributed by the bank including their market values, book values and the valuation agreed upon under the proposed JVA;
 - (5) Certification by the bank's president or officer of equivalent rank that the JVA is strictly in compliance or will strictly comply with the requirements of Joint venture of banks with real estate development companies in this Section; and
 - (6) Such other documents/information that the concerned appropriate supervising department of the Bangko Sentral may require.
- f. *Non-financial allied undertaking.* All types of banks are hereby authorized to invest in the equities of companies engaged in real estate development as a non- financial allied undertaking, subject to the following conditions:
- (1) Investments shall be limited to ROPAs and other properties acquired as a consequence of a bank's merger/consolidation with another bank/FI;
 - (2) Investments shall be subject to existing Bangko Sentral requirements applicable to investments in non-financial allied undertakings; and
 - (3) If there is already an existing subsidiary or affiliate relationship between the bank and the investee corporation prior to the investment, the bank shall not recognize income out of its invested properties. The excess of the value of the capital stock received by the bank over the book value of its invested properties shall be booked as "*Deferred Credits*".

- g. **Accounting treatment.** Accounting treatment of the properties contributed by a bank to a joint venture or invested in the equities of developers.
- (1) In a joint venture in the form of a jointly controlled operations/undertaking, which does not involve the establishment of a corporation or other entity, the bank shall continue to recognize in its books the properties contributed to the undertaking. However, the regular provisioning against probable losses required under existing regulations may be discontinued upon execution and implementation of the JVA.
 - (2) In a joint venture in which a corporation is created, the bank shall book the properties contributed to the undertaking as investment pursuant to the provisions of PAS 31. It shall also recognize its interest in the corporation using the proportionate consolidation method or the equity method as long as it continues to have joint control over the corporation: *Provided*, That the bank shall not recognize income out of its contribution to the joint venture. The excess of the value of the capital stock received by the bank over the book value of the contributed properties shall be credited to the account “*Deferred Credits*”.
 - (3) Properties invested in equities of developers shall be booked in accordance with the PAS: *Provided*, That the bank shall not recognize income out of the properties invested if there is already an existing subsidiary or affiliate relationship between the bank and the investee corporation prior to the investment, regardless of the agreed valuation of said properties. The excess of the agreed valuation of said properties over their book value shall be booked as “*Deferred Credits*”.
- h. **Coverage.** The provisions of Joint venture of banks with real estate development companies in this Section shall apply to ROPAs existing, as well as those which may be acquired by banks in settlement of non- performing or past due loans and advances outstanding, as of 09 March 2006 and to properties acquired as a consequence of merger or consolidation which are outstanding in the books of banks as of said date.
- i. **Sanctions.** Any violation of the provisions of Joint venture of banks with real estate development companies in this Section and/or any misrepresentation in the certification and information required to be submitted to the Bangko Sentral shall subject the bank and the officer or officers responsible therefore, to the penalties provided under Sections 35, 36 and 37 of R. A. No. 7653.

(Circular No. 1011 dated 14 August 2018)

383 LOANS-TO-DEPOSITS RATIO

The following policies and guidelines shall govern the loans-to-deposits ratio (LDR) of head offices and branches.

Policy statement. It is the policy of the Bangko Sentral to promote healthy competition within the banking system as well as provide enhanced banking statistics necessary for informed decision- making.

Regional loans-to-deposits ratio. An individual bank’s regional LDR is a measure of the extent of its lending activity vis-à-vis deposits generated in a region. On an aggregate basis, the regional LDR for the banking system is an indicator of the level of bank deposits which have been transformed into investments in a region. The latter may be used by banks as a benchmark in assessing their regional lending and deposit operations as against that of the industry and their peer group.

Computation of the regional loans-to-deposits ratio. The individual bank’s regional LDR shall be computed by dividing a bank’s aggregate loans by its aggregate deposit liabilities on a per region basis as of the same reporting cut-off date. A bank, in computing its regional LDR, shall be guided by the following:

- a. Loans shall be reported by a bank in the region where the loan proceeds were utilized or channelled to, i.e., location of the end-users.
- b. Deposits, on the other hand, shall be reported by a bank in the region wherein these were generated.

For purposes of this Section, loans shall refer to the amortized cost of a bank’s total loan portfolio, excluding “Loans to Bangko Sentral”, “Interbank Loans Receivable” and loans granted by a bank’s FCDU/EFCDU. Deposits, on the other hand, shall refer to a bank’s total deposit liabilities, excluding FCDU/EFCDU deposits.

384 CREDIT POLICIES OF GOVERNMENT- OWNED CORPORATIONS

Government-owned corporations which perform banking or credit functions shall coordinate their general credit policies with the Schedule of Credit Priorities embodied in *Appendix 20*. Within the provision of their respective charters, these corporations shall limit their credits to the economic activities falling under Priority II of said schedule to fifty percent (50%) of their outstanding loans at any time.

Banks may be allowed to charge their outstanding unbooked allowance for probable losses directly to retained earnings, on one-time basis, subject to the following conditions:

- a. That this is in connection with a comprehensive rehabilitation program approved by the Bangko Sentral; and
- b. The effects thereof, if these had been charged to profit and loss, shall be fully disclosed in the audited financial statements, annual reports and published statement of condition.

PART FOUR

TRUST, OTHER FIDUCIARY BUSINESS AND INVESTMENT MANAGEMENT ACTIVITIES

A. STATEMENT OF PRINCIPLES AND SCOPE

401 STATEMENT OF PRINCIPLES

The cardinal principle common to all trust and other fiduciary relationships is fidelity. Policies predicated upon this principle shall be directed towards observance of the following:

- a. *Prudent administration.* The trust, investment management and other fiduciary accounts shall be administered in conformity with the intention and purpose of the client as manifested in the terms of the agreement, and with the skill, care, prudence and diligence necessary under the circumstance then prevailing that a prudent man acting in like capacity and familiar with such matters would exercise in the conduct of an enterprise of like character and with similar aims.
- b. *Undivided loyalty and utmost care.* In the discharge of fiduciary responsibility, the interests of clients shall be placed above those of the bank. Clear policies and procedures shall be developed in dealing with conflict of interest situations. The fiduciary assets shall be objectively and fairly administered, invested and distributed giving due regard to the beneficiaries' respective interests.
- c. *Non-delegation of responsibilities.* The administration of the trust, investment management, or fiduciary responsibilities or the performance of acts that should be personally performed shall not be delegated as the client's confidence is reposed on the trust entity (TE).
- d. *Preserving and protecting property.* Reasonable care and diligence shall be observed to preserve and protect the property entrusted. Fiduciary assets shall be kept legally separate and distinct from proprietary assets and from one (1) fiduciary/trust/investment management account to another.
- e. *Keeping and rendering accounts.* A true and accurate account or record of transactions entered into shall be kept. Reports on the trust, investment management and other fiduciary accounts shall be rendered to the trustor, principal, beneficiary, or other party in interest, or the court concerned, or any party duly designated by a court order, as the case may be, in accordance with Sec. 435. Likewise, all material facts within the knowledge or reasonably discoverable by the TE, particularly information that would enable clients to make well-informed decisions, shall be promptly transmitted/relayed to clients for them to protect their interests.

Furthermore, practices shall be carried out in accordance with the basic standards (*Appendix 86*) and Risk Management Guidelines (*Appendix 87*) for trust, other fiduciary and investment management accounts.

A bank authorized to engage in trust and fiduciary business is under no obligation, either legal or moral, to accept any such business being offered nor has it the right to accept if the same is contrary to law, rules, regulations, public order and public policy. It shall advertise its services in a dignified manner and enter such business only when demand for such service is evident, when specially equipped to render such service and upon full appreciation of the responsibilities involved. It shall be ready and willing to give full disclosure of the services being offered and shall conduct its dealing with transparency. Harmonious relationship shall likewise be pursued with other professions to achieve the common goal of mutual service to the public and protection of its interest.

Banks may not receive or hold as trustee, agent, administrator, financial manager, or other similar capacity, any fund or money from the Government and government entities, except government financial institutions. Government-owned banks may receive or hold as trustee, agent, administrator, financial manager, or other similar capacity, the following:

- a. Funds of local government units (LGUs) which are expected to be available for investment purposes for a relatively long period of time: *Provided*, That the amounts held in trust or otherwise managed/advised for and in behalf of the LGUs shall be invested only in government securities, specifically, evidences of indebtedness of the National Government, the Bangko Sentral and other evidences of indebtedness or obligations of government entities, the servicing and repayment of which are fully guaranteed by the National Government; and
- b. Funds of government and government entities which are authorized by special laws to be placed in trust.

402 SCOPE OF REGULATIONS

These regulations shall govern the grant of authority to and the management, administration and conduct of *trust, other fiduciary business and investment management activities* (as these terms are defined in Sec. 403) of banks.

The regulations are divided into three (3) Sub-Parts where:

- a. *Trust and Other Fiduciary Business* shall apply to banks authorized to engage in trust and other fiduciary business including investment management activities;
- b. *Investment Management Activities* shall apply to banks without trust authority but with authority to engage in investment management activities; and
- c. *General Provisions* shall apply to both.

403 DEFINITIONS

For purposes of regulating the operations of trust and other fiduciary business and investment management activities, unless the context clearly connotes otherwise, the following shall have the meaning indicated.

- a. *Trust entity (TE)* shall refer to a:
 - (1) bank or an NBF, through its specifically designated business unit to perform trust functions; or
 - (2) trust corporation, authorized by the Bangko Sentral to engage in trust and other fiduciary business under Section 79 of R.A. No. 8791 (The General Banking Law of 2000) or to perform investment management services under Section 53 of R.A. No. 8791.
- b. *Trust business* shall refer to any activity resulting from a trustor-trustee relationship (trusteeship) involving the appointment of a trustee by a trustor for the administration, holding, management of funds and/or properties of the trustor by the trustee for the use, benefit or advantage of the trustor or of others called beneficiaries.
- c. *Other fiduciary business* shall refer to any activity of a trust-licensed bank resulting from a contract or agreement whereby the bank binds itself to render services or to act in a representative capacity such as in an agency, guardianship, administration of wills, properties and estates, executorship, receivership, and other similar services which do not create or result in a trusteeship. It shall exclude collecting or paying agency arrangements and similar fiduciary services which are inherent in the use of the facilities of the other operating departments of said bank. Investment management activities, which are considered as among other fiduciary business, shall be separately defined in the succeeding item to highlight its being a major source of fiduciary business.
- d. *Investment management activity* shall refer to any activity resulting from a contract or agreement primarily for financial return whereby the bank (the investment manager) binds itself to handle or manage investible funds or any investment portfolio in a representative capacity as financial or managing agent, adviser, consultant or administrator of financial or investment management, advisory, consultancy or any similar arrangement which does not create or result in a trusteeship.
- e. *Trust* is a relationship or an arrangement whereby a person called a trustee is appointed by a person called a trustor to administer, hold and manage funds and/or property of the trust or for the benefit of a beneficiary.
- f. *Trust agreement* is an instrument in writing covering the terms and conditions of the trust.
- g. *Trustee* is any person who holds legal title to the funds and/or property of a trust.
- h. *Trustor* is any person who creates a trust.
- i. *Beneficiary* is any person for whose benefit a trust is created.
- j. *Fiduciary* shall refer to any person or entity engaged in any of the other fiduciary business as herein defined where no trustor-trustee relation exists.
- k. *Agency* shall refer to a contract whereby a person binds himself to render some service or to do something in representation or on behalf of another, with the consent or authority of the latter.
- l. *Principal* shall refer to the person who grants authority to another person called an agent, under a contract to enter into transactions in his behalf.
- m. *Agent* shall refer to a person who acts in representation or on behalf of another with the latter's authority.
- n. *Trust department* shall refer to then department, office, unit, group, division or any aggrupation which carries out the trust and other fiduciary business of a bank.
- o. *Trust officer* shall refer to the designated head or officer-in-charge of the trust department.
- p. *Trust account* shall refer to an account where transactions arising from a trusteeship are kept and recorded.

- q. *Fiduciary account* shall refer to an account where transactions arising from any of the other fiduciary businesses are kept and recorded.
- r. *Investment Manager* shall refer to any person or entity engaged in investment management activities as herein defined.
- s. *Investment Management Department* shall refer to the department, unit, group, division or any aggrupation which carries out the investment management activities of a bank that does not have an authority to engage in trust and other fiduciary business.
- t. *Investment Management Officer* shall refer to the designated head or officer-in- charge of the investment management department of a bank which does not have the authority to engage in trust and other fiduciary business.
- u. *Investment Management Account* shall refer to an account where transactions arising from investment management activities are kept and recorded.
- v. *Personal Management Trust* shall refer to a living trust¹ created by an agreement whereby the trustor conveys property or a sum of money to be managed by the trustee, as the agreement dictates, generally for the preservation of the assets or property for future use of the beneficiaries and/or to answer for their current needs. The trustor may or may not nominate third-party beneficiary/ies. The trust agreement must specify the name/s of the beneficiary/ies.
- w. *Unit Investment Trust Funds (UITFs)* shall refer to an open-ended pooled trust funds denominated in pesos or any acceptable currency, which are operated and administered by a trust entity and made available by participation. As an open-ended fund, participation or redemption is allowed as often as stated in its plan rules.

UITFs shall not include long term funds designed for the primary purpose of availing the tax incentives/exemption under Section 24(B)(1) of R.A. No. 8424 (The Tax Reform Act of 1997).

- x. *Board of directors*, for UITFs purpose, shall include a trust entity's duly constituted board of directors or its functional oversight equivalent which shall include the country head in the case of foreign banks.
- y. *Collective investment scheme* shall refer to an investment vehicle where funds are solicited from investors for collective investment and which are managed for the account of such investors.
- z. *Feeder fund* shall refer to a UITF structure that mandates the fund to invest at least ninety percent (90%) of its assets in a single collective investment scheme.
- aa. *Fund-of-funds* shall refer to a UITF structure that mandates the fund to invest at least ninety percent (90%) of its assets in more than one (1) collective investment scheme.
- bb. *Target fund* shall refer to a local or foreign collective investment scheme in which the UITF invests all or a portion of its assets.
- cc. *Investor fund* shall refer to a UITF created to take the form of a feeder fund or a fund- of-funds and is approved by the Bangko Sentral under existing Bangko Sentral regulations.
- dd. *Multi-class fund* shall refer to a UITF structure which has more than one (1) class of units in the fund and is invested in the same pool of securities and the same portfolio, investment objectives and policies.
- ee. *Related party/company*, for UITFs purpose, shall refer to another entity which is the trust entity's (a) parent or holding company or (b) subsidiary or affiliate, and wholly or majority-owned or controlled-entities of such subsidiaries.

B. TRUST AND OTHER FIDUCIARY BUSINESS

411 AUTHORITY TO PERFORM TRUST AND OTHER FIDUCIARY BUSINESS

With prior approval of the Monetary Board, banks may engage in trust and other fiduciary business under Chapter IX of R.A. No. 8791 (The General Banking Law of 2000).

If a bank is found to engage in unauthorized trust and other fiduciary business and/or investment management activities, whether as its primary, secondary or incidental business, the Monetary Board may impose administrative sanctions against such bank or its principal officers and/or majority stockholders or proceed against them in accordance with law.

¹ Being a living trust, PMT becomes operational during the lifetime of the trustor as soon as the agreement is accomplished.

The Monetary Board may take such action as it may deem proper such as, but may not be limited to, requiring the transfer or turnover of any trust and other fiduciary and/or investment management account (IMA) to duly incorporated and licensed entities of the choice of the trustor, beneficiary or client, as the case may be.

No bank shall advertise or represent itself as being engaged in trust and other fiduciary business or in investment management activities or represent itself as trustee or investment manager or use words of similar import; and/or use in connection with its business title the words *trust*, *trust corporation*, *trust company*, *trust plan* or words of similar import, without having obtained the required authority to do so.

Application for authority to perform trust and other fiduciary business. Banks may engage in trust and other fiduciary business subject to approval of the Monetary Board and compliance with the prudential criteria provided under Sec. 111 (*Prudential criteria*). Banks applying for authority to engage in trust and other fiduciary business shall submit the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Application letter signed by the president or officer of equivalent rank with justifications on how the license is aligned with the bank's business model and strategic direction;
- b. Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) to engage in trust and other fiduciary business;
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer certifying that the institution has complied with all the: (i) prudential criteria prescribed under Sec. 111 (*Prudential criteria*); (ii) required minimum capital under Sec. 121 (*Minimum capitalization*); and (iii) pertinent banking laws, rules and regulations on trust and other fiduciary business;
- d. The articles of incorporation or governing charter of the institution which shall include among its powers or purposes, acting as trustee or administering any trust or holding property in trust or on deposit for the use, or in behalf of others; and
- e. The by-laws of the institution which shall include among other things, provisions on the following:
 - (1) The organization plan or structure of the department, office or unit which shall conduct the trust and other fiduciary business of the institution;
 - (2) The creation of a trust committee, the appointment of a trust officer and subordinate officers of the trust department; and
 - (3) A clear definition of the duties and responsibilities as well as the line and staff functional relationships of the various units, officers and staff within the organization.

Required capital. Banks applying for authority to perform trust and other fiduciary business must have minimum capital accounts as follows:

UBs/KBs. The amount required under Sec. 121 or such amount as may be required by the Monetary Board in the future.

Branches of foreign banks. The amount required under Sec. 103 or such amount as may be required by the Monetary Board in the future.

TBs. P650.0 million or such amounts as may be required by the Monetary Board in the future.

Pre-operating requirements. A bank authorized to engage in trust and other fiduciary business shall comply with the following, before engaging in actual operations:

- a. Deposit with the Bangko Sentral eligible government securities amounting to P500,000 as minimum basic security deposit for the faithful performance of trust and other fiduciary duties required under Sec. 417 (*Basic security deposit*);
- b. Completion of the following activities and retention of corresponding supporting documents:
 - (1) Establishment of the trust department, development of policies and procedures related to the trust business, risk management system and internal controls, and delineation of duties and responsibilities of the different units in the trust department; and
 - (2) Establishment of personnel and management positions for trust operations and defining the corresponding qualification requirements and duties and responsibilities. Records of profiles of individuals holding the positions shall be maintained.

The guidelines on the issuance of the Certificate of Authority to register with the SEC and to operate trust and other fiduciary business are provided under Sec. 102 (*Certificate of authority to register*).

Licensing fees. Applicable licensing fee provided under Sec. 111 (*Processing and Licensing Fees*) shall be immediately charged upon approval of the bank's application for the authority to perform trust and other fiduciary business.

(Circular No. 1031 dated 07 February 2019)

411-B GRANT OF AUTHORITY TO ENGAGE IN LIMITED TRUST BUSINESS TO THRIFT BANKS

- a. *Statement of policy.* It is hereby declared the policy of the Bangko Sentral to promote healthy competition in order to improve the delivery of banking services especially in the countryside. Towards this end, authority to engage in limited trust business shall be granted to qualified TBs which meet the minimum capital required for the grant of such authority, among others.
- b. *Scope of limited trust business.* Limited trust business shall be confined to:
 - (1) court trusts or trusts under orders of court of competent jurisdiction, such as acting as: (a) executor or administrator of a will; and (b) guardian of the estate of a minor or incompetent; and
 - (2) administration of properties.
- c. *Required capital.* A TB applying for authority to engage in limited trust business must have minimum capital accounts under existing regulations or such amounts as may be required by the Monetary Board in the future.
- d. *Requirements for engaging in limited trust business.* A TB authorized to engage in limited trust business shall comply with the following requirements:
 - (1) The articles of incorporation of the bank shall include among its powers or purposes, acting as trustee or administering trust or holding property in trust or on deposit for the use, or in behalf of others;
 - (2) The by-laws of the bank shall include among others, provisions on the following:
 - (a) The organization plan or structure of the department, office or unit which shall conduct the trust and other fiduciary business of the bank;
 - (b) The creation of a trust committee, to be composed of at least three (3) members who are all members of the board of directors and who are not operating officers of the bank, and at least two (2) of whom are independent directors: *Provided*, That if the bank decides to have a trust committee composed of at least five (5) members, the provisions of Sec. 412 (*Composition of Trust Committees*) shall apply;
 - (c) The appointment of a trust officer and subordinate officers of the trust department, office or unit: *Provided*, That the trust officer shall have the following:
 - (i) At least two (2) years of actual experience in trust operations; or
 - (ii) At least one (1) year of actual experience in trust operations and:
 - (aa) completion of a training program in trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
 - (bb) completion of a relevant global or local professional certification program; or
 - (iii) At least two (2) years of actual experience as officer of a bank/NBFI or related activities; and
 - (aa) completion of a training program in trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
 - (bb) completion of a relevant global or local professional certification program;
 - (d) A clear definition of the duties and responsibilities as well as the line and staff functional relationships of the various units, officers and staff within the organization.
- e. *Administration of properties held in trust.* The properties held in trust or other fiduciary capacity shall be administered in accordance with the terms of the instrument creating the trust and/or order of the court. Unless otherwise directed in writing by the court, investments of fiduciary funds shall be limited to:
 - (1) Bank deposits; and

- (2) Evidences of indebtedness of the Republic of the Philippines or of the Bangko Sentral, and any other evidences of indebtedness or obligations the servicing and repayment of which are fully guaranteed by the Republic of the Philippines;
- f. *Applicability of the rules and regulations on trust, other fiduciary business and investment management activities.* The provision of this Part which are not inconsistent with the provisions of this Section shall apply to TBs authorized to engage in limited trust business.

Application for Authority to Perform Limited Trust Business. A TB may engage in limited trust business subject to approval of the Bangko Sentral and compliance with the prudential criteria provided under Sec. 111 (*Prudential Criteria*). A TB applying for authority to engage in limited trust business shall submit the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Application letter signed by the president or officer of equivalent rank including justifications on how the license is aligned with the bank's business model and strategic direction;
- b. Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) to perform limited trust business; and
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer certifying that the institution has complied with all the: (i) prudential criteria prescribed under Sec. 111 (*Prudential Criteria*); (ii) minimum capital required under existing regulations or such amounts as may be required by the Monetary Board; and (iii) other pertinent banking laws, rules and regulations.

Licensing fees. Applicable licensing fee provided under Sec. 111 (*Processing and Licensing Fees*) shall be immediately charged upon approval of the bank's application for the authority to perform trust and other fiduciary business.

(Circular Nos. 1031 dated 07 February 2019 and 917 dated 08 July 2016)

411-C GRANT OF AUTHORITY TO ENGAGE IN LIMITED TRUST BUSINESS TO RURAL BANKS

- a. *Statement of policy.* It is hereby declared the policy of the Bangko Sentral to promote healthy competition in order to improve the delivery of banking services especially in the countryside. Towards this end, authority to engage in limited trust business shall be granted to qualified RBs which meet the minimum capital required for the grant of such authority, among others.
- b. *Scope of limited trust business.* Limited trust business shall be confined to:
 - (1) court trusts or trusts under orders of court of competent jurisdiction, such as acting as: (a) executor or administrator of a will; and (b) guardian of the estate of a minor or incompetent; and
 - (2) administration of properties.
- c. *Required capital.* An RB applying for authority to engage in limited trust business must have minimum capital accounts of P100.0 million, or such amounts as may be required by the Monetary Board in the future.
- d. *Requirements for engaging in limited trust business.* An RB authorized to engage in limited trust business shall comply with the following requirements:
 - (1) The articles of incorporation of the bank shall include among its powers or purposes, acting as trustee or administering trust or holding property in trust or on deposit for the use, or in behalf of others;
 - (2) The by-laws of the bank shall include among others, provisions on the following:
 - (a) The organization plan or structure of the department, office or unit which shall conduct the trust and other fiduciary business of the bank;
 - (b) The creation of a trust committee, to be composed of at least three (3) members who are all members of the board of directors and who are not operating officers of the bank, and at least two (2) of whom are independent directors: *Provided*, That if the bank decides to have a trust committee composed of at least five (5) members, the provisions of Sec. 412 (*Composition of Trust Committee*) shall apply;
 - (c) The appointment of a trust officer and subordinate officers of the trust department, office or unit: *Provided*, That the trust officer shall have the following:
 - (i) At least two (2) years of actual experience in trust operations; or
 - (ii) At least one (1) year of actual experience in trust operations and:

- (aa) completion of a training program in trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
 - (bb) completion of a relevant global or local professional certification program; or
- (iii) At least two (2) years of actual experience as officer of a bank/NBFI or related activities and:
- (aa) completion of a training program in trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
 - (bb) completion of a relevant global or local professional certification program;
- (d) A clear definition of the duties and responsibilities as well as the line and staff functional relationships of the various units, officers and staff within the organization.

The guidelines on the issuance of the Certificate of Authority to register with the SEC and to operate trust and other fiduciary business are provided under Sec. 102 (*Certificate of Authority to Register*).

- e. *Administration of properties held in trust.* The properties held in trust or other fiduciary capacity shall be administered in accordance with the terms of the instrument creating the trust and/or order of the court. Unless otherwise directed in writing by the court, investments of fiduciary funds shall be limited to:
- (1) Bank deposits; and
 - (2) Evidences of indebtedness of the Republic of the Philippines or of the Bangko Sentral, and any other evidences of indebtedness or obligations the servicing and repayment of which are fully guaranteed by the Republic of the Philippines;
- f. *Applicability of the rules and regulations on trust, other fiduciary business and investment management activities.* The provision of this Part which are not inconsistent with the provision of this Section shall apply to RBs authorized to engage in limited trust business.

Application for Authority to Perform Limited Trust Business. An RB may engage in limited trust business subject to approval of the Bangko Sentral and compliance with the prudential criteria provided under Sec. 111 (*Prudential Criteria*). An RB applying for authority to engage in limited trust business shall submit the following documents to the appropriate supervising department of the Bangko Sentral:

- a. Application letter shall be signed by the president or officer of equivalent rank including justifications on how the license is aligned with the bank's business model and strategic direction;
- b. Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) to engage in limited trust business; and
- c. Certification signed by the president or officer of equivalent rank and the chief compliance officer certifying that the institution has complied with all: (i) the prudential criteria prescribed under Sec. 111 (*Prudential Criteria*); (ii) minimum capital required under existing regulations or P100.0 million, whichever is higher, or such amounts as may be required by the Monetary Board; and (iii) other pertinent banking laws, rules, and regulations.

Licensing fees. Applicable licensing fee provided under Sec. 111 (*Processing and Licensing Fees*) shall be immediately charged upon approval of the bank's application for the authority to perform trust and other fiduciary business.

(Circular Nos. 1031 dated 07 February 2019 and 917 dated 08 July 2016)

412 ORGANIZATION AND MANAGEMENT

Organization. A bank authorized to engage in trust and other fiduciary business shall, pursuant to Sec. 411, include in its by-laws, provisions on the organization plan or structure of the department, office or unit which shall conduct such business. The by-laws shall also include provisions on the creation of a trust committee, the appointment of a trust officer and other subordinate officers and a clear definition of their duties and responsibilities as well as their line and staff functional relationships within the organization which shall be in accordance with the following guidelines.

- a. Trust and other fiduciary business of a bank shall be carried out through a trust department which shall be organizationally, operationally, administratively and functionally separate and distinct from the other departments and/or businesses of the institution.

A bank which is also engaged in investment management activities, shall conduct the same only through its trust department and the responsibilities of the board of directors, trust committee and trust officer shall be construed to include the proper administration and management of investment management activities.

No bank shall undertake any of the trust and other fiduciary business and, whenever applicable, investment management activities outside the direct control, authority and management of the trust department or through any department or office which is involved in the other businesses of the bank, such as the Treasury, Funds Management or any similar department, otherwise, any such business shall be considered part of the bank's real liabilities.

The bank proper and the trust department may share the following activities: (1) electronic data processing; (2) credit investigation; (3) collateral appraisal; and (4) messengerial, janitorial and security services.

- b. The trust department, trust officer and other subordinate officers of the trust department shall only be directly responsible to the bank's trust committee which shall, in turn, be only directly responsible to the bank's board of directors.

No director, officer or employee taking part in the management of trust and other fiduciary accounts shall perform duties in other departments or the audit committee of the bank and vice versa. However, branch managers duly authorized by the board of directors may, for or on behalf of the trust officer, sign predrawn trust instruments such as UITFs.

- c. The organization structure and definition of duties and responsibilities of the trust committee, officers and employees of the trust department shall reflect adherence to the minimum internal control standards prescribed by the Bangko Sentral.
- d. Provisions shall be made by the bank to have legal assistance readily available in the review of proposed and/or existing trust and fiduciary agreements and documents and in the handling of legal and tax matters related thereto.

Composition of trust committee. The Trust Committee shall be composed of at least five (5) members including the (1) president or any senior officer of the bank; and (2) the trust officer. The remaining committee members, including the chairperson, may be any of the following: (1) non-executive directors¹ or independent directors² who are both not part of the audit committee; or (2) those considered as qualified "*independent professionals*": *Provided*, That the Philippine branch of a foreign bank may appoint its resident manager or chief executive officer in lieu of the president while the positions allotted for members of the board may be filled up by the area manager and/or officers/representatives from the Head Office, or affiliates or subsidiaries of the head office who are not involved in audit-related activities: *Provided, further*, That in case of more than five (5) trust committee membership, majority shall be composed of qualified non-executive members.

A qualified "*independent professional*" shall refer to a person who –

- a. is not a director/officer/employee of the bank during the last twelve (12) months counted from the date of committee membership;
- b. is not a relative within the fourth degree of consanguinity or affinity, legitimate or common-law of any executive director or those involved in the day to day management of institution's operations or officer of the bank; and
- c. is not engaged or does not engage in any transactions with the bank whether by himself or with other persons or through a firm of which he is a partner, other than transactions which are conducted at arm's length and could not materially interfere with or influence the exercise of his judgment.

An independent professional may be appointed as a Trust Committee member of other banks that belong to the same financial conglomerate.

For purposes of this Section, the definition of officer under Sec. 131 shall apply.

Qualifications of committee members, officers and staff. The bank's trust department shall be staffed by persons of competence, integrity and honesty. Directors, committee members and officers charged with the administration of trust and other fiduciary activities shall, in addition to meeting the qualification standards prescribed for directors and officers of banks or for qualified "*independent professionals*", possess the necessary technical expertise and relevant experience in such business which may be indicated by any of the following:

- a. at least one (1) year of actual experience in trust, other fiduciary business, or investment management activities;
- b. at least three (3) years of professional experience in relevant field such as banking, finance, economics, law, and risk management;
- c. completion of at least ninety (90) training hours on trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or

¹ As defined under Sec. 131 (*Definition of terms*, Item "i")

² As defined under Sec. 131 (*Definition of terms*, Item "g")

- d. completion of a relevant global or local professional certification program.

A Trust Committee member should be familiar with Philippine laws, rules and regulations on trust business, as well as uphold at all times ethical and good governance standards.

The trust officer who shall be appointed shall possess any of the following:

- a. at least five (5) years of actual experience in trust operations;
- b. at least three (3) years of actual experience in trust operations and must have:
 - (1) completed at least ninety (90) training hours in trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
 - (2) completed a relevant global or local professional certification program; or
- c. at least five (5) years of actual experience as an officer of a bank and must have:
 - (1) completed at least ninety (90) training hours in trust, other fiduciary business, or investment management activities acceptable to the Bangko Sentral; or
 - (2) completed a relevant global or local professional certification program.

For the purpose of this Section, *actual experience* refers to exposures in trust operations either as officer of a trust entity or member of trust committee.

Responsibilities of administration

- a. Board of directors

The responsibilities of the board of directors in relation to trust activities of a bank shall be those set forth under Sec. 132. The board of directors shall ensure an appropriate degree of independence between the activities of the bank proper and its trust department.

- b. Trust Committee

The trust committee is a special committee which reports directly to the board of directors and is primarily responsible for overseeing the fiduciary activities of the bank. In discharging its function, it shall:

- (1) ensure that fiduciary activities are conducted in accordance with applicable laws, rules and regulations, and prudent practices;
- (2) ensure that policies and procedures that translate the board's objectives and risk tolerance into prudent operating standards are in place and continue to be relevant, comprehensive and effective;
- (3) oversee the implementation of the risk management framework and ensure that internal controls are in place relative to the fiduciary activities;
- (4) adopt an appropriate organizational structure/staffing pattern and operating budgets that shall enable the trust department to effectively carry out its functions;
- (5) oversee and evaluate performance of the trust officer;
- (6) conduct regular meetings at least once every quarter, or more frequently as necessary, depending on the size and complexity of the fiduciary business; and
- (7) report regularly to the board of directors on matters arising from fiduciary activities.

- c. Trust Officer

The management of day-to-day fiduciary activities shall be vested in the trust officer. In this regard, the trust officer shall:

- (1) ensure adherence to the basic standards in the administration of trust, other fiduciary and investment management accounts pursuant to *Appendix 86*;
- (2) develop and implement relevant policies and procedures on fiduciary activities;
- (3) observe sound risk management practices and maintain necessary controls to protect assets under custody and held in trust or other fiduciary capacity;
- (4) carry out investment and other fiduciary activities in accordance with agreements with clients and parameters set by the trust committee as approved by the board of directors;
- (5) report regularly to the trust committee on business performance and other matters requiring its attention;
- (6) maintain adequate books, records and files for each trust or other fiduciary account and provide timely and regular disclosure to clients on the status of their accounts; and
- (7) submit periodic reports to regulatory agencies on the conduct of the trust operations.

Confirmation of the appointment/designation of trust officer and independent professional. An independent professional and trust officer must be fit and proper to discharge their respective functions. In determining whether a person is fit and proper for the position, regard shall be given to the following: Integrity/probity, physical/mental fitness, competence, relevant education/financial literacy/training, diligence and knowledge/experience.

The appointment or designation of independent professional and trust officer shall be subject to confirmation by the supervising department committee of the Bangko Sentral. The bio-data of the proposed independent professional and trust officer shall be submitted to the Bangko Sentral, in a prescribed form indicated in *Appendix 7*, within seven (7) banking days from approval of the board of directors or its functional oversight equivalent which shall include the country head in case of foreign banks. Moreover, the independent professional shall certify that he/she possesses the qualifications as herein prescribed and that all the information thereby supplied are true and correct.

If after evaluation, the Monetary Board shall find grounds for disqualification, the concerned bank shall be informed thereof and the independent professional and trust officer so appointed or delegated shall be removed from office even if he/she has assumed the position to which he/she was appointed or delegated.

(Circular No. 969 dated 22 August 2017)

413 TRUST AND OTHER FIDUCIARY BUSINESS

The conduct of trust and other fiduciary business shall be subject to the following regulations.

Minimum documentary requirements. Each trust or fiduciary account shall be covered by a written document establishing such account, as follows:

- a. In the case of accounts created by an order of the court or other competent authority, the written order of said court or authority.
- b. In the case of accounts created by corporations, business firms, organizations or institutions, the voluntary written agreement or indenture entered into by the parties, accompanied by a copy of the board resolution or other evidence authorizing the establishment of, and designating the signatories to, the trust or other fiduciary account.
- c. In the case of accounts created by individuals, the voluntary written agreement or indenture entered into by the parties.

The voluntary written agreement or indenture shall include the following minimum provisions:

- (1) Title or nature of contractual agreement in noticeable print;
- (2) Legal capacities, in noticeable print, of parties sought to be covered;
- (3) Purposes and objectives;
- (4) Funds and/or properties subject of the arrangement;
- (5) Distribution of the funds and/or properties;
- (6) Duties and powers of trustee or fiduciary;
- (7) Liabilities of the trustee or fiduciary;
- (8) Reports to the client;
- (9) Termination of contractual arrangement and, in appropriate cases, provision for successor-trustee or fiduciary;
- (10) The amount or rate of the compensation of trustee or fiduciary;
- (11) A statement in noticeable print to the effect that trust and other fiduciary business are not covered by the PDIC and that losses, if any, shall be for the account of the client; and
- (12) Disclosure requirements for transactions requiring prior authority and/or specific written investment directive from the client, court of competent jurisdiction or other competent authority.

Lending and investment disposition¹. Assets received in trust or in other fiduciary capacity shall be administered in accordance with the terms of the instrument creating the trust or other fiduciary relationship.

When a trustee or fiduciary is granted discretionary powers in the investment disposition of trust or other fiduciary funds and unless otherwise specifically enumerated in the agreement or indenture and directed in writing by the client, court of competent jurisdiction or other competent authority, loans and investments of the fund shall be limited to:

- a. Traditional deposit products of UBs and KBs in the Philippines with long- term credit rating of at least AA- or its equivalent by a third party credit assessment agency recognized by the Bangko Sentral;

¹ Trust entities shall be given six (6) months from 01 August 2017 to make appropriate changes in their policies, processes, and procedures in order to comply with the above requirements². Example: "Fixed income securities" does not really mean a guarantee of fixed earnings on the investor's participation; "Risk-free" government securities which may be sovereign "risk-free" but not interest rate "risk-free"

- b. Evidences of indebtedness of the Republic of the Philippines and of the Bangko Sentral, and any other evidences of indebtedness or obligations where the servicing and repayment of which are fully guaranteed by the Republic of the Philippines or loans against such government securities;
- c. Loans fully guaranteed by the Republic of the Philippines as to the payment of principal and interest;
- d. Tradable securities issued by the government of a foreign country or any supranational entity with long-term credit rating of at least AA- or its equivalent by a third party credit assessment agency recognized by the Bangko Sentral;
- e. Loans fully secured by a hold-out on, assignment or pledge of deposits maintained either with the bank proper or other banks, or of deposit substitutes of the bank, or of mortgage and chattel mortgage bonds issued by the trustee or fiduciary; and
- f. Loans fully secured by real estate or chattels in accordance with Secs. 303, 143 (*Credit granting and loan evaluation/analysis process and underwriting standards*) and 301 (*Additional requirements*).

The specific directives required under this Section shall consist of the following information:

- (1) The transaction to be entered into;
- (2) Name of the issuer or borrower;
- (3) Amount involved; and
- (4) Terms of the security, including collateral, if any.

Trust entities with composite rating of at least “3” under the Revised Trust Rating System in the latest Bangko Sentral examination will not be subject to the investment limitations provided under this Section.

Transactions requiring prior authority. A trustee or fiduciary shall not undertake any of the following transactions for the account of a client, unless prior to its execution, such transaction has been fully disclosed and specifically authorized in writing by the client, beneficiary, other party-in-interest, court of competent jurisdiction or other competent authority:

- a. Lend, sell, transfer or assign money or property to any of the departments, directors, officers, stockholders or employees of the trustee or fiduciary, or relatives within the first degree of consanguinity or affinity, or the related interest of such directors, officers and stockholders; or to any corporation where the trustee or fiduciary owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity;
- b. Purchase or acquire property or debt instruments from any of the departments, directors, officers, stockholders, or employees of the trustee or fiduciary, or relatives within the first degree of consanguinity or affinity, or the related interest of such directors, officers and stockholders; or from any corporation where the trustee or fiduciary owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity;
- c. Invest in equities of, or in securities underwritten by, the trustee or fiduciary or a corporation in which the trustee or fiduciary owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity; and
- d. Sell, transfer, assign, or lend money or property from one trust or fiduciary account to another trust or fiduciary account except where the investment is in any of those enumerated in Items “a” to “d” of this Section (*Lending and investment disposition*).

DOSRIs covered by this Section shall be those considered as such under existing regulations on loans to DOSRI in Part III - D of this Manual. The procedural and reportorial requirements in said regulations shall also apply.

The disclosure required under this Section shall consist of the following minimum information:

- a. The transactions to be entered into;
- b. Identities of the parties involved in the transactions and their relationships (shall not apply to Item “d” of this Section under *Transactions requiring prior authority*);
- c. Amount involved; and
- d. Collateral security(ies), if any.

The above information shall be made known to clients in a separate instrument or in the very instrument creating the trust or fiduciary relationship.

Ceilings on loans. Loans funded by trust accounts shall be subject to the SBL and DOSRI ceilings imposed on banks under Secs. 362, 344 and 345. For purposes of determining compliance with said ceilings, the total amount of said loans granted by the trust department and the bank to the same person, firm or corporation shall be combined.

Funds awaiting investment or distribution. Funds held by the trustee or fiduciary awaiting investment or distribution shall not be held uninvested or undistributed any longer than is reasonable for the proper management of the account.

Other applicable regulations on loans and investments. The loans and investments of trust and other fiduciary accounts shall be subject to pertinent laws, rules and regulations for banks that shall include but need not be limited to the following:

- a. Requirements of Sections 39 and 40 of R.A. No. 8791 (The General Banking Law of 2000);
- b. Criteria for past due accounts; and
- c. Qualitative appraisal of loans, investments and other assets that may require provision for probable losses which shall be booked in accordance with the Financial Reporting Package for Trust Institutions (FRPTI);
- d. Requirements of Sections 3 and 8 of the Securities and Regulation Code (SRC); and
- e. Provisions of Section 44 - Investments by Philippine residents - of the Bangko Sentral Manual of Regulations on Foreign Exchange Transactions (MORFXT), such that the cross-currency investments of peso trust and other fiduciary accounts, including peso unit UITFs, shall be subject to the following conditions:
 - (1) All cash flows of the trustee or fiduciary shall only be in pesos. In case the foreign exchange acquired or received by the trustee or fiduciary as dividends/earnings or divestment proceeds on such investment are intended for reinvestment abroad, the same proceeds are not required to be inwardly remitted and sold for pesos through authorized agent banks: *Provided*, That such proceeds are reinvested abroad within two (2) banking days from receipt of the funds abroad;
 - (2) The trustee or fiduciary shall purchase, invest, reinvest, sell, transfer or dispose foreign currency-denominated financial instruments, including securities as defined in Section 3 of the SRC, through a distributor or underwriter duly authorized or licensed by the government of the issuer of such instruments, or a counterparty FI (seller or buyer) accredited by the trustee or fiduciary: *Provided*, That, the conduct, documentation, and settlement of any of these transactions shall be outside Philippine jurisdiction;
 - (3) The trustee or fiduciary shall record cross-currency investment transactions in the peso regular books at their foreign currency amounts and their local currency equivalent using the Philippine Dealing System peso/US dollar closing rate and the New York US dollar/third currencies closing rate; and
 - (4) The trustee or fiduciary shall comply with the reportorial requirements that may be prescribed by the Bangko Sentral, which shall include as a minimum, the foreign currency amount and the local currency equivalent of the total cross currency investments with details on: (a) type of investments; and (b) amount of cash flow converted.

For purposes of this Section, "resident", as defined under Section 1 of the FX Manual, shall refer to the (a) trustee or fiduciary that administers the assets received in trust or in other fiduciary capacity; or (b) principal that engages the services of the investment manager under an investment management agreement.

Operating and accounting methodology. Trust and other fiduciary accounts shall be operated and accounted for in accordance with the following:

- a. The trustee or fiduciary shall administer, hold or manage the fund or property in accordance with the instrument creating the trust or other fiduciary relationship; and
- b. Funds or property of each client shall be accounted separately and distinctly from those of other clients herein referred to as individual account accounting.

Tax-exempt individual trust accounts. The following shall be the features/requirements of individual trust accounts which may be exempted from the twenty percent (20%) final tax under Section 24(B)(1) of R.A. No. 8424 (The Tax Reform Act of 1997):

- a. The trust indenture/agreement shall only be between individuals who are Filipino citizens or resident aliens and banks acting as trustee. The trust indenture/agreement shall be non-negotiable and non-transferable;
- b. The trust indenture/agreement shall indicate that pursuant to Section 24(B)(1) of R.A. No. 8424, interest income of the trust fund derived from investments in interest-bearing instruments (e.g., time deposits, government securities, loans and other debt instruments) which are otherwise subject to the twenty percent (20%) final tax shall be exempt from said final tax provided the fund was held by the trustee-bank for at least five (5) years. If said fund was held for a period less than five (5) years, interest income shall be subject to a final tax based on the following schedule –

<u>Holding Period</u>	<u>Rate of Tax</u>
Four (4) years to less than five (5) years	5%

Three (3) years to less than four (4) years	12%
Less than three (3) years	20%

Necessarily, the trust indenture/agreement shall clearly indicate the date when the trustee-bank actually received the trust funds which shall serve as basis for determining the holding period of the funds.

- c. A trustee may accept additional funds for inclusion in trust accounts which have been established as tax-exempt under R.A. No. 8424. However, the receipt of additional funds shall be properly documented by indicating that they are part of existing tax-exempt trust accounts and that the interest income of the additional funds derived from investments in interest-bearing instruments shall be exempt from the twenty percent (20%) final tax under the same conditions mentioned in the preceding item. The document shall also indicate the date when the funds were received by the trustee-bank to serve as basis for determining the minimum five (5)- year holding period for tax exemption purposes of the additional funds; and
- d. Tax-exempt individual trust accounts established under this Section shall be subject to the provisions of this Section under Item "c" of *Minimum documentary requirements and Lending and investment disposition up to Operating and accounting methodology*.

Personal management trust. The guidelines on personal management trust (PMT) accounts are as follows:

- a. *Minimum criteria.* A PMT account shall meet the following criteria:
 - (1) The minimum entry amount and maintaining balance shall be equivalent to at least P100,000: *Provided*, That PMT with balances of up to P500,000 shall only be invested in deposits and government securities;
 - (2) The agreement shall clearly state the specific purpose(s) for which the account was established which shall be consistent with the general objectives of the PMT which is the preservation of the assets or property for the future use of the beneficiaries and/or to answer for their current needs;

The distribution clause shall clearly and specifically define the manner and conditions under which the assets (including income thereof) will be distributed. Any distribution/withdrawal of assets (including income thereof) shall be consistent with the purpose of the PMT, strictly in accordance with the distribution clause, and made only to the designated beneficiary/ies. Consequently, the trustee is expected to obtain adequate documentation to ensure the propriety of distribution/withdrawal of assets (including income thereof).

Pre-printed PMT agreements may be allowed for expediency: *Provided*, That the section for the trust purpose and the distribution clause shall not be pre-printed and shall be filled up only upon signing thereof by the trustor;

- (3) The length of PMT's existence should be consistent with the purpose of the trustor. Any termination for causes that are inconsistent with the purpose/distribution clause shall render the trustor ineligible from opening a new PMT within a period of one year from termination date; and
- (4) Management of the trust assets shall be aligned with the investment objective/s and risk parameters set forth by the trustor.

PMT accounts that do not meet any of the above criteria shall be considered as other fiduciary accounts subject to applicable reserves.

- b. *Marketing.* Officers and personnel of the Bank proper, including branch managers, shall not be allowed to market PMT products and sign pre-printed PMT agreements. However, branch managers/officers may refer clients to the Trust Department and give a short introduction on the PMT product to prospective clients.
- c. *Reserve requirement.* The PMT shall be subject to zero-percent (0%) reserve requirement.

Qualification and accreditation of private banks acting as trustee on any mortgage or bond issuance by any municipality, government-owned or controlled corporation, or any body politic

- a. *Applicability.* Private banks duly accredited by the Bangko Sentral may act as trustee on any mortgage or bond issued by any municipality, GOCC, or any body politic.
- b. *Application for accreditation.* A private bank desiring to act as trustee on any mortgage or bond issued by any municipality, GOCC, or any body politic shall file an application for accreditation with the appropriate supervising department of the Bangko Sentral. The application shall be signed by the president or officer of equivalent rank of the bank and shall be accompanied by the following documents:
 - (1) certified true copy of the resolution of the institution's board of directors authorizing the application;

- (2) a certification signed by the president or officer of equivalent rank that the institution has complied with all the qualification requirements for accreditation.
- c. *Qualification requirements.* A bank applying for accreditation to act as trustee on any mortgage or bond issued by any municipality, government-owned or controlled corporation, or any body politic must comply with the requirements in *Appendix 6*.
- d. *Independence of the trustee.* A bank is prohibited from acting as trustee of a mortgage or bond issuance if any elective or appointive official of the LGU, GOCC, or body politic which issued said mortgage or bond and/or his related interests own such number of shares of the bank that will allow him or his related interests to elect at least one (1) member of the board of directors of such bank or is directly or indirectly the registered or beneficial owner of more than ten percent (10%) of any class of its equity security.
- e. *Investment and management of the funds.* A domestic bank designated as trustee of a mortgage or bond issuance may hold and manage, in accordance with the provisions of the trust indenture or agreement, the proceeds of the mortgage or bond issuance and such assets and funds of the issuing municipality, corporation, or body politic as may be required to be delivered to the trustee under the trust indenture/agreement, subject to the following conditions/restrictions:
- (1) Pending the utilization of such funds pursuant to the provisions of the trust indenture/agreement, the same shall only be deposited in any bank, other than the trustee/bank proper, its subsidiary or affiliate authorized to accept deposits from the Government or government entities, or invested in peso-denominated treasury bills acquired/purchased from any securities dealer/entity, other than the trustee or any of its unit/department, its subsidiary or affiliate.
- (2) Investments of funds constituting or forming part of the sinking fund created as the primary source for the payment of the principal and interests due the mortgage or bonds shall also be limited to deposits in any bank, other than the trustee/bank proper, its subsidiary or affiliate, authorized to accept deposits from the Government or government entities and investments in government securities that are consistent with such purpose which must be acquired/purchased from any securities dealer/entity, other than the trustee or any of its unit/department, its subsidiary or affiliate.
- f. *Waiver of confidentiality.* A bank designated as trustee of any mortgage or bond issued by any municipality, GOCC, or any body politic shall submit to the appropriate supervising department of the Bangko Sentral a waiver of the confidentiality of information under Sections 2 and 3 of R.A. No. 1405, as amended, duly executed by the issuer of the mortgage or bond in favor of the Bangko Sentral.
- g. *Reportorial requirements.* A bank authorized by the Bangko Sentral to act as trustee of the proceeds of mortgage or bond issuance of a municipality, GOCC or controlled corporation, or body politic shall comply with reportorial requirements that may be prescribed by the Bangko Sentral.
- h. *Applicability of the rules and Regulations on Trust, Other Fiduciary Business and Investment Management Activities.* The provisions of the Rules and Regulations on Trust, Other Fiduciary Business and Investment Management Activities not inconsistent with the provisions of this Section shall form part of these rules.
- i. *Sanctions.* Without prejudice to the penal and administrative sanctions provided for under Sections 36 and 37, respectively, of the R.A. No. 7653, violation of any provision of this Section shall be subject to the following sanctions/penalties depending on the gravity of the offense:
- (1) First offense –
- (a) Fine of up to P10,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
- (b) Reprimand for the directors/officers responsible for the violation.
- (2) Second offense –
- (a) Fine of up to P20,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected;
- (b) Suspension for ninety (90) days without pay for directors/officers responsible for the violation; and
- (c) Revocation of the authority to act as trustees on any mortgage or bond issuance by any municipality, GOCCs, or body politic.
- (3) Subsequent offense –
- (a) Fine of up to P30,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected;

- (b) Suspension or revocation of the trust license; and
- (c) Suspension for one hundred twenty days without pay of the directors/officers responsible for the violation.

Trust fund of pre-need companies. The following rules and regulations shall govern the acceptance, management and administration of the trust funds of pre-need companies by banks and other entities authorized to perform trust and other fiduciary functions.

- a. *Administration of trust fund.* In line with the policy of providing greater protection to pre-need plan holders, prudential measures are hereby laid out in the administration of trust funds of preneed companies. The trust fund, inclusive of earnings, shall be administered and managed by the trustee with the skill, care, prudence and diligence necessary under the circumstances then prevailing that a prudent man, acting in the same capacity and familiar with such matters, would exercise in the conduct of an enterprise of a like character and similar aims.

The trustee shall have exclusive management and control over the trust fund and the right at any time to sell, convert, invest, change, transfer or otherwise dispose of the assets comprising the funds.

- b. *Trustee.* No trust entity shall act as a trustee or administer or hold a trust fund established by a pre-need company, which is a subsidiary or affiliate, as defined under existing Bangko Sentral regulations, of such trust entity. Trust entities currently holding or administering trust funds of an affiliate pre-need company may continue to act as trustee of such funds after the transition period provided under Item “g” only upon prior approval of the Monetary Board on the basis of a clear showing that no potential conflict of interest will arise. An absence of any exception or finding on conflicts of interest during an examination of the trust entity shall be deemed as prima facie evidence that no potential conflict of interest will arise.
- c. *Investment of the trust fund.* Unless otherwise allowed under existing laws or regulations issued by the agency having jurisdiction and supervision over pre-need companies, or with prior written approval by said agency, loans and investments of the trust funds shall be limited to:
 - (1) Evidences of indebtedness of the Republic of the Philippines and of the Bangko Sentral, and any other evidences of indebtedness or obligations wherein the servicing and repayment of which are fully guaranteed by the Republic of the Philippines or loans against such government securities;
 - (2) Commercial papers duly registered with the SEC with a credit rating of one (1) for short term and “AAA” for long-term or their equivalent;
 - (3) Loans fully guaranteed by the Republic of the Philippines, as to the payment of principal and interest;
 - (4) Loans fully secured by a hold-out on, assignment or pledge of deposits maintained either with the bank proper or other banks, and/or of deposit substitutes or of mortgage and chattel mortgage bonds issued by the trustee/fiduciary or by other banks;
 - (5) Loans fully secured by real estate in accordance with Section 37 and subject to the requirements of Sections 39 and 40 of R.A. No. 8791 and their implementing regulations; and
 - (6) Loans fully secured by unconditional payment guarantees (such as standby letters of credit and letter of indemnity) issued by banks/multilateral financial institutions.
- d. *Transactions with DOSRI.* The trustee shall not, for the account of the trustor or the beneficiary of the trust, purchase or acquire property from, or sell, transfer, assign or lend money or property to, or purchase debt instruments of, any of the departments, directors, officers, stockholders, employees, subsidiaries and affiliates of the trustee and/or the trustor, and relatives within the first degree of consanguinity or affinity, or the related interests, of such directors, officers and stockholders, without prejudice to any rule that may be issued by the agency having jurisdiction and supervision over such preneed company allowing such transaction with the prior written approval of such agency. Such written approval shall clearly specify the amount of the loan and/or investment including the name of the concerned director, officer, stockholder and their related interests.
- e. *Applicability of the Rules and Regulations on Trust, Other Fiduciary Business and Investment Management Activities (Trust Rules).* The provisions of the Trust Rules consistent with the provisions of this Section shall supplementarily apply to trust funds of pre-need companies.
- f. *Penalties and sanctions.* Any violation of the provisions of this Section on *Trust fund of pre-need companies* shall be a ground for prohibiting the concerned entity from accepting, managing and administering trust funds of pre-need companies without prejudice to the imposition of the applicable sanctions prescribed or allowed under the Trust Rules.

(Circular Nos. 966 dated 11 July 2017, 961 dated 02 June 2017, M-2016-016 dated 18 November 2016, Circular Nos. 920 dated 18 August 2016, and 913 dated 02 June 2016)

The following rules and regulations shall govern the creation, administration and investment/s of Unit Investment Trust Funds (UITFs).

Establishment of a UITF. Any trust entity authorized to perform trust functions may establish, administer and maintain one (1) or more UITFs subject to applicable provisions under this Section. A UITF may be allowed to operate as a 1) feeder fund, 2) fund-of-funds and/or 3) multi-class fund: *Provided*, That the plan rules and related documents shall state that the UITF is a feeder fund or a fund-of-funds, and/or multi-class fund, and provide an explanation or illustration of such structures. A UITF may also be allowed to have a unit-paying feature where the income of the fund is distributed in the form of units called unit income.

Administration of a UITF. The trustee shall have exclusive management and control of each UITF under its administration, and the sole right at any time to sell, convert, reinvest, exchange, transfer or otherwise change or dispose of the assets comprising the fund: *Provided*, That no participant in a UITF shall have or be deemed to have any ownership or interest in any particular account or investment in the UITF but shall have only its proportionate beneficial interest in the fund as a whole.

Relationship of trustee with UITF. A trustee administering a UITF shall not have any other relationship with such fund other than its capacity as trustee of the UITF: *Provided, however*, That a trustee which simultaneously administers other trust, fiduciary or investment management funds may invest such funds in the trustee's UITF, if allowed under a policy approved by the board of directors.

Operating and accounting methodology. A UITF shall be operated and accounted for in accordance with the following:

- a. The total assets and accountabilities of each fund shall be accounted for as a single account referred to as pooled-fund accounting method. The investments of a multi-class fund shall remain as one (1) pool and are not separately allocated to classes.
- b. Contributions to each fund by clients shall always be through participation in units of the fund and each unit shall have uniform rights and privileges, as any other unit; in the case of multi-class fund, units shall be issued as units in a class of a fund.
- c. All such participations shall be pooled and invested as one (1) account (referred to as collective investments).
- d. The beneficial interest of each participation unit shall be determined under a unitized net asset value per unit (NAVPU) valuation methodology defined in the written plan of the UITF, and no participation shall be admitted to, or redeemed from, the fund or class of a fund, except on the basis of such valuation. To arrive at a fund's NAVPU, the fund's total Net Assets is divided by the total outstanding units. Total Net Assets is a summation of the market value of each investment less fees, taxes, and other qualified expenses, as defined under the plan rules.

When there is a different fee structure for each class, the NAVPU of each class shall be computed by dividing total net assets of a class by the total outstanding units of such class; where the net assets of each class shall represent its proportionate share on the net assets of the multi-class fund less the trustee fee and expenses attributable to that class. The net assets of the multi-class fund is the summation of the market value of each investment less fees, taxes, and other qualified expenses, but gross of trustee fees and expenses attributable to a particular class, as defined under the plan rules.

- e. For a UITF with unit-paying feature, the trustee may distribute the income of the Fund subject to the minimum conditions enumerated hereunder.
 - (1) Distribution of income shall be made only from cash received from interest income earned and cash dividends;
 - (2) Distribution of income shall be made after the trust entity has taken into consideration the following:
 - (a) Income for the period; and
 - (b) The investment objective and distribution policy of the fund;
 - (3) Distribution of income to participants shall be after deduction of taxes and expenses (net distribution);
 - (4) Distribution of income shall be effected through conversion of the income for distribution into its equivalent units based on the NAVPU as at the first business day when units in the fund are quoted ex- distribution. Participants shall be entitled to his/her pro-rata share of said units which, on distribution date, shall be automatically considered redeemed;
 - (5) The Plan rules shall state the distribution policy, including the sources of income to be distributed and the intended frequency of distribution

- (6) For monitoring purposes, the trustee shall separately account for the fund's income due for distribution;
- (7) Where a distribution is made, a notice to each participant on his/her unit income shall be made available containing information on the total amount of income for distribution by the trustee, NAVPu ex-distribution and its basis, total number of units for distribution, and unit income. Unit income refers to the number of units for every unit held by the participant entitled for distribution.

Plan rules. Each UITF shall be established, administered and maintained in accordance with a written trust agreement drawn by the trustee, referred to as the "Plan" which shall be approved by the board of directors of the trustee and a copy of which shall be submitted to the Bangko Sentral for processing and approval prior to its implementation. Each new UITF Plan filed for approval shall be charged a processing fee of P10,000.00.

The *Plan* shall contain the following minimum elements:

- a. *Title of the Plan.* This shall correspond to the product/brand name by which the UITF is proposed to be known and made available to its clients. The Plan rules shall state the classification of the UITF (e. g., money market fund, bond fund, balanced fund and equity fund).
- b. *Manner by which the fund is to be operated.* A statement of the fund's investment objectives, policies and limitations, and, if applicable, income distribution policies, distinctive features of the different classes of units such as the level of trustee fees and expenses for each class and other peculiarities which the Bangko Sentral may allow.
- c. *Risk disclosure.* The Plan rules shall state both the general risks and risks specific to the type of fund.
- d. *Investment powers of the trustee with respect to the fund, including the character and kind of investments, which may be purchased, by the fund.* There must be an unequivocal statement of the full discretionary powers of the trustee as far as the fund's investments are concerned. These powers shall be limited only by the duly stated investment objective and policies of the fund.
- e. The unitized NAVPu valuation methodology as prescribed under this Section on *Operating and accounting methodology* shall be employed. The plan rules shall also provide the method of determining the proportionate share of the classes of units to the value of the assets of the fund.
- f. *Terms and conditions governing the admission or redemption of units of participation in the fund.* The Plan rules shall state that the trustee, prior to admission of a client's initial participation in the UITF, shall conduct a client suitability assessment to profile the risk-return orientation and suitability of the client to the specific type of fund. If the frequency of admission or redemption is other than daily; that is, any business day, the same should be explicitly stated in the Plan rules: *Provided*, That the admission and redemption prices shall be based on the end of day NAVPu of the fund or of the class of a fund, if applicable, computed after the cut-off time for fund participation and redemption for that reference day, in accordance with existing Bangko Sentral regulations on mark to market valuation of investment securities.
- g. Aside from the regular audit requirement applicable to all trust accounts, an external audit of each UITF shall be conducted annually by an independent auditor acceptable to the Bangko Sentral and the results thereof made available to participants. The external audit shall be conducted by the same external auditor engaged for the audit of the trust entity.
- h. *Basis upon which the fund may be terminated.* The Plan rules shall state the rights of participants in case of termination of the fund. Termination of the fund shall be duly approved by the trustee's board of directors and a copy of the resolution submitted to the appropriate department of the Bangko Sentral.
- i. *Liability clause of the trustee.* There must be a clear and prominent statement adjacent to where a client is required to sign the participating trust agreement that (1) the UITF is a trust product and not a deposit account or an obligation of, or guaranteed, or insured by the trust entity or its affiliates or subsidiaries; (2) the UITF is not insured or governed by the PDIC; (3) due to the nature of the investment, yields and potential yields cannot be guaranteed; (4) any loss/income arising from market fluctuations and price volatility of the securities held by the UITF, even if invested in government securities, is for the account of the client/participant; (5) as such, the units of participation of the investor in the UITF, when redeemed, may be worth more or be worth less than his/her initial investment/contributions; (6) historical performance, when presented, is purely for reference purposes and is not a guarantee of similar future result; and (7) the trustee is not liable for losses unless upon willful default, bad faith or gross negligence.
- j. *Amount of fees/commission and other charges to be deducted from the fund.* The amount of fees that shall be charged to a fund shall cover the fund's fair and equitable share of the routine administrative expenses of the trustee such as salaries and wages, stationery and supplies, credit investigation, collateral appraisal, security, messengerial and janitorial services, EDP expenses, Bangko Sentral supervision fees and internal audit fees. However, the trustee may charge a UITF for special expenses in case such expenses are (1) necessary to preserve

or enhance the value of the fund, (2) payable to a third party covered by a separate contract, and (3) disclosed to participants. The trustee shall secure prior Bangko Sentral approval for outsourcing services provided under existing regulations. No other fees shall be charged to the fund.

Sales, distribution, marketing and/or other promotional related expenses shall be for the account of the trustee and shall be presumed covered by the trust fee.

In the case of a multi-class fund that have different level of trustee fees and expenses, there shall be a policy on the equitable allocation of any costs, charges, and expenses payable out of the multi-class fund, which are not attributable to any particular class.

- k. Such other matters as may be necessary or proper to define clearly the rights of participants in the UITF. The Plan may be amended by a resolution of the board of directors of the trustee: Provided, however, That participants in the fund shall be immediately notified of such amendments and shall be allowed to withdraw their participations within a reasonable time but in no case less than thirty (30) calendar days after the amendments are approved by the board, if they are not in conformity with the amendments made thereto: Provided, further, That amendments to the Plan may be allowed subject to notification to the Bangko Sentral and continuing compliance of the trust entity with the prudential criteria prescribed under Sec. 111 (*Prudential criteria*). For this purpose, the trustee shall submit the following documents to the appropriate supervising department of the Bangko Sentral, within ten (10) banking days from the approval of the board of directors of the amendments:
- (1) Notification letter signed by the president or officer of equivalent rank indicating the amendments in the UITF;
 - (2) Corporate secretary's certificate on the approval of the board of directors (or equivalent management committee in the case of foreign bank branches) of the amendments;
 - (3) Certification signed by the president or officer of equivalent rank and the chief compliance officer, that the trust entity has complied with all the prudential criteria prescribed under Sec. 111 (*Prudential criteria*) and other pertinent banking laws, rules and regulations; and
 - (4) Amended Plan Rules and Appendices.

Provided, finally, That amendments to the Plan that involve change in the investment objective and/or strategy, and risk profile shall be subject to the approval of the Bangko Sentral. For purposes of imposing monetary penalties provided under Sec. 171 (*Sanctions on reports for non-compliance with the reporting standards*) for Delayed/Unsubmitted reports, the notification on the amendments to the Plan shall be considered as "Category A-3" report.

A copy of the Plan shall be available at the principal office of the trustee during regular office hours, for inspection by any person having an interest in the fund or by his authorized representative. Upon request, a copy of the Plan shall be furnished such interested person.

Minimum disclosure requirements

- a. *Key Information and Investment Disclosure Statement (KIIDS)*. This document shall contain the key features and the prospective and outstanding investments of a UITF. It shall use plain language presented in a concise manner, and shall comply substantially with the format prescribed in *Appendix 56*. This document shall be updated and made available to participants at least every calendar quarter thereof.

For investments of feeder funds/fund of-funds, the trustee shall likewise make available to all UITF clients all relevant information on the target fund/s.

For a UITF with unit-paying feature, the KIIDS shall include the intended frequency of income distribution and the last five distribution dates, with information on the unit income and the distribution yield: *Provided*, That the KIIDS shall disclose that distributions are not guaranteed and are determined by the trustee in accordance with the plan rules; and that income distribution may result in an immediate decrease in NAVPu by the amount of the distribution.

- a. *Distribution of investment units*. The trustee may issue such conditions or rules, as may affect the distribution of investment units, subject to the minimum conditions enumerated hereunder.
- (1) *Marketing materials*. All marketing materials related to the sale of a UITF shall clearly state:
 - (a) The designated name and classification of the fund, the fund's trustee, and the classes of a UITF, if any
 - (b) Minimum information regarding:

- (i) The general investment policy and applicable risk profile. There shall be a clear description/explanation of the general risks attendant with investing in a UITF, including risk specific to a type of fund. Technical terms should likewise be defined in laymen's terms.¹
- (ii) Particulars including administrative and marketing details, such as but not limited to, pricing, cut-off time for participation and redemption, early redemption penalty/ies, and any special features of the UITF, as applicable. For a UITF with unit-paying feature, the marketing materials shall provide relevant information on this feature including, but not limited to, disclosures that distributions are not guaranteed and shall be determined by the trustee in accordance with the plan rules; and that income distribution may result in an immediate decrease in NAVPu by the amount of distribution.
- (iii) All charges made/to be made against the fund or class of a UITF, including trust fees and other related charges.
- (iv) The availability of the Plan Rules governing the fund, upon the client's request and the contact details of the trustee.
- (v) Client and Product Suitability Standards. Prior to admission, the trustee shall perform a client profiling process for all UITF participants under the general principles on client suitability assessment to guide the client in choosing investment outlets that are best suited to his objectives, risk tolerance, preferences and experience. The profiling process shall, at the minimum, require the trustee to obtain client information through the Client Suitability Assessment (CSA) form, classify the client according to his financial sophistication and communicate the CSA results to the subject client. The general principles on CSA shall also require the trustee to adopt a notice mechanism whereby clients are advised and/or reminded of the explicit requirement to notify the trustee or its UITF marketing personnel of any change in their characteristics, preferences or circumstances to enable the trustee to update client's profile at least every three (3) years.
- (c) The participation is not a "deposit account" but a trust product; and that any loss/income is for the account of the participant; that the trustee is not liable for losses unless upon willful default, bad faith or gross negligence.
- (d) A balanced assessment of the possible gains and losses of the UITF and that the participation does not carry any guaranteed rate of return, and is not insured by the PDIC.
- (e) An advisory that the investor must read the complete details of the fund in the Plan Rules, make his/her own risk assessment, and when necessary, he/she must seek independent/professional opinion, before making an investment.
- (2) Evidence of participation. Every UITF participant shall be given –
 - (a) A participating trust agreement. Such agreement shall clearly indicate that (1) the UITF is a trust product and not a deposit account or an obligation of, or guaranteed, or insured by the trust entity or its affiliates or subsidiaries; (2) the UITF is not insured or governed by the PDIC; due to the nature of the investment, yields and potential yields cannot be guaranteed; any loss/income arising from market fluctuations and price volatility of the securities held by the UITF, even if invested in government securities, is for the account of the client/participant; (5) as such, the units of participation of the investor in the UITF, when redeemed, may be worth more or be worth less than his/her initial investment/contributions; (6) historical performance, when presented, is purely for reference purposes and is not a guarantee of similar future result; and (7) the trustee is not liable for losses unless upon willful default, bad faith or gross negligence.

In addition to the agreement, every UITF participant shall be provided with –

- (i) CSA form to be accomplished during the profiling process required under the general principles on CSA. This is designed to ensure that based on relevant information about the client, his investment profile is matched against the investment parameters of the UITF. At the minimum, client information shall include personal or institutional data, investment objective, investment horizon, investment experience, and risk tolerance; and
- (ii) Risk disclosure statement, which in reference to this Section *under Plan Rules*, shall describe the attendant general and specific risks that may arise from investing in the UITF. This statement shall be accomplished by the client every time he participates in a different fund and shall be substantially in the form as shown in *Appendix 57*.

¹ Example: "Fixed income securities" does not really mean a guarantee of fixed earnings on the investor's participation; "Risk-free" government securities which may be sovereign "risk-free" but not interest rate "risk-free"

Both documents shall be signed by the client/participant and the UITF marketing personnel who assessed and explained to the concerned client his/her ability to bear the risks and potential losses.

- (b) A confirmation of participation and redemption made to/from the fund that shall contain the following information:
 - (i) NAVPu of the fund on day of purchase/redemption;
 - (ii) Number of units purchased/redeemed; and
 - (iii) Absolute peso or foreign currency value.
- (2) A participating trust agreement or confirmation of contribution/redemption need not be manually signed by the trustee or his authorized representative if the same is in the form of an electronic document that conforms with the implementing rules and regulations of R.A. No. 8792, otherwise known as the E-Commerce Act.
- c. Regular computation and availability of NAVPu and other information. The trustee managing a UITF shall:
 - (1) Compute the NAVPu daily;
 - (2) Publish at least weekly the NAVPu in one (1) or more newspapers of national circulation: *Provided, That* a pooled weekly publication of such NAVPu shall be considered as substantial compliance with this requirement. The said publication, at the minimum, shall clearly state the name of the fund, its general classification, the fund's NAVPu and the moving return on investment (ROI) of the fund on a year-to-date (YTD) and year-on-year (YOY) basis; and
 - (3) Make available the historical net asset value per unit, declaration of trust or its equivalent document, disclosure documents, and other pertinent information about a UITF via its website or the Trust Officers Association of the Philippines (TOAP)-administered website. For a UITF with unit-paying feature, it shall also disclose when there is an income declaration, the total amount of income for distribution, NAVPu ex-distribution and its basis, total number of units for distribution, unit income and historical distributions, if any.

Exposure limits. The combined exposure of the UITF to any entity and its related parties shall not exceed fifteen percent (15%) of the market value of the UITF: *Provided, That*, a UITF invested, partially or substantially, in exchange traded equity securities shall be subject to the fifteen percent (15%) exposure limit to a single entity/issuer: *Provided, further*, That, in the case of an exchange traded equity security which is included in an index and tracked by the UITF shall be the actual benchmark weighting of the issuer or fifteen percent (15%), whichever is higher.

This limitation shall not apply to non-risk assets as defined by the Bangko Sentral.

In the case of feeder fund/fund-of-funds, the exposure limit shall be applied on the target fund's underlying investments. Notwithstanding said limit, if the target fund is allowed by its respective regulatory authority to invest in units/shares of other open-ended CIS, the exposure limit prescribed by said regulatory authority shall instead apply. Furthermore, the investments in any one (1) target fund shall not exceed ten percent (10%) of the total net asset value of the target fund.

In case the limits prescribed above are breached due to the marking-to-market of certain investment/s or any extraordinary circumstances, e.g., abnormal redemptions which are beyond the control of the trustee, the trustee shall be given thirty (30) days from the time the limit is breached, or in case of investor funds thirty (30) days from date of receipt of report indicating the net asset value of the fund, to correct the same.

Allowable investments and valuation. UITF investments shall be limited to bank deposits and the following financial instruments:

- a. Securities issued by or guaranteed by the Philippine government, or the Bangko Sentral;
- b. Tradable securities issued by the government of a foreign country, any political subdivision of a foreign country or any supranational entity;
- c. Exchange-listed securities;
- d. Marketable instruments that are traded in an organized exchange;
- e. Loans traded in an organized market;
- f. Loans arising from repo agreements which are transacted through an exchange recognized by the SEC, subject to the condition that the repo contracts may be pre-terminated lawfully by the trust entity administering the UITF and acting as lender, with due notice to its counterparty and the market operator;

- g. Units/shares in collective investment schemes (CIS), i.e., target fund, shall include exchange traded fund (ETF) and other CIS, subject to the following:
 - (1) The investment objectives of the target fund are aligned with that of the investor fund;
 - (2) The underlying investments of target funds are limited to the allowable investment outlets set forth in this Section;
 - (3) The target fund is neither structured nor similarly structured as a feeder fund or fund-of-funds; and
 - (4) The target fund is supervised by a regulatory authority, as follows:
 - (a) a local target fund shall either be approved by the Bangko Sentral or registered with the SEC.
 - (b) a target fund constituted in another jurisdiction shall be registered/authorized/approved, as the case may be, and is recognized as a collective investment scheme in its home jurisdiction by a regulatory authority that is a member of the International Organization of Securities Commissions (IOSCO); or any regulatory authority acceptable to the Bangko Sentral to supervise the CIS; and
- h. Such other tradable investment outlets/categories as the Bangko Sentral may allow:

Provided, That the investment of the peso UITF in tradable foreign currency denominated financial instruments shall be subject to Items “e” and “f” of *Other applicable regulations on loans and investments* under Sec. 413.

Provided, further, That a financial instrument is regarded as tradable if quoted two-way prices are *readily* and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm’s length basis: *Provided, finally, That* the financial instrument is easy to realize upon sale at any time.

The UITF may avail itself of financial derivatives instruments solely for the purpose of hedging risk exposures of the existing investments of the Fund, provided these are accounted for in accordance with existing Bangko Sentral hedging guidelines as well as the trust entity’s risk management and hedging policies duly approved by the Trust Committee and disclosed to participants.

The use of hedging instruments shall also be disclosed in the “Plan” as provided in Item “c” of the *Plan rules* and specified in the key information and investment disclosure statement as provided in Item “a” on *Minimum disclosure requirements* of this Section.

In the case of Feeder Fund or Fund-of-Funds, offshore/global funds which use financial derivatives for efficient portfolio management (EPM) may be allowed as target fund: *Provided, That* financial derivatives shall not be extensively or primarily used as an investment strategy of the target fund and that the risk level of the target fund remain consistent with the objective and risk profile of the investor fund. For this purpose, the use of financial derivatives is deemed to be for EPM if:

- a. it is economically appropriate in that it is realized in a cost effective manner;
- b. the exposure is fully covered to meet any obligation to pay or deliver;
- c. it has at least one of the following aims:
 - (1) reduction of risk;
 - (2) reduction of cost with no increase or a minimal increase in risk; or
 - (3) generation of additional capital or income for the scheme with no increase or a minimal increase in risk.

Alternatively, the target fund should comply with the relevant regulatory requirements of its home jurisdiction as regards the use of financial derivatives for EPM.

Other related guidelines on valuation of allowable investments.

- a. In marking to market debt securities, the provisions of *Appendix 28* shall apply.
- b. In case outstanding UITF investments may deteriorate in quality, i.e., no longer tradable as defined under *allowable investments and valuation* of this Section, the trustee shall immediately provision to reflect fair value in accordance with generally accepted accounting principles or as may be prescribed by the Bangko Sentral. If no fair value is available, the instrument shall be assumed to be of no market value.

Unit Investment Trust Fund administration support.

- a. *Backroom operations.* Administrative rules on backroom under Sec. 435 shall be applicable to UITF. Adequate systems to support the daily marking-to- market of the fund’s financial instruments shall be in place at all times. In this respect, a daily reconciliation of the fund’s resultant marked-to-market value with the unrealized market losses and gains (respective contra asset balance) versus the book value of the fund for investments in financial instruments shall be done and all differences resolved within the day.

- b. *Custody of securities.* Investments in securities of a UITF shall be held for safekeeping by Bangko Sentral accredited third party custodians which shall perform independent marking-to-market of such securities.

Investments in target funds of a UITF structured as an investor fund shall be held for safekeeping by an institution registered/authorized/approved by a relevant regulatory authority in its home jurisdiction to act as third party custodian.

Counterparties.

- a. *Dealings with related interests/bank proper/holding company/subsidiaries/affiliates and related companies.* A trustee of a UITF shall be transparent at all times and maintain an audit trail for all transactions with related parties or entities. The trustee shall observe the principle of best execution and no purchase/sale shall be made with related counterparties without considering at least two (2) competitive quotes from other sources.

Consistent with the provisions of this Section on *Relationship of trustee with UITF*, a trustee may invest the funds of a UITF structured as an investor fund in a target fund that is administered by the trustee or its related party/company: *Provided, That:*

- (1) there shall be no cross-holding between the investor fund and the target fund, where cross-holding refers to the holding of shares/units of participation in one another by two (2) or more funds;
 - (2) all initial charges on the target fund are waived; and
 - (3) the trust/management fee shall be charged only once, either at the level of the investor fund or at level of the target fund.
- b. *Accreditation of counterparties.* The Fund shall only invest with approved counterparties qualified in accordance with the policy duly approved by the Trust Committee. Counterparties shall be subject to appropriate limits in accordance with sound risk management principles.

Foreign currency-denominated unit investment trust funds. UITF denominated in any acceptable foreign currency provided under existing Bangko Sentral rules and regulations may be established. Such fund may only be invested in allowable investments denominated in pesos or any acceptable foreign currency as expressly allowed under the fund's plan rules and properly disclosed to fund participants.

Exemptions from statutory and liquidity reserves, single borrower's limit, director, officers, stockholders and their related interests. The provisions on reserves, single borrower's limit and DOSRI ceilings under Sec. 418, and Secs. 362, 344 and 345, respectively, applicable to trust funds in general shall not be made applicable to UITFs.

UITF Marketing personnel¹. The trustee shall ensure that there are board-approved policies and procedures covering the following:

- a. Duties and responsibilities of all UITF marketing personnel;
- b. Conduct of due diligence check on the fitness and propriety of all UITF marketing personnel which includes monitoring and reviewing on an ongoing basis their performance; and
- c. Conduct of continuing training and education especially on updates relative to the fund products.

For purposes of this Section, a UITF may be sold by a bank employee belonging to the same financial conglomerate as the trustee, subject to the provision of the cross-selling framework.

To ensure the competence and integrity of all duly designated UITF Marketing Personnel, all personnel involved in the sales of UITF must be certified as a UITF Marketing Personnel through a UITF Certification Program (UCP) administered by a reputable financial services industry association/organization acceptable to the Bangko Sentral. The certification program, at a minimum, should have a qualifying examination, a requirement for continuing education, and a requirement for registration of the Certified UITF Marketing Personnel. The Guidelines for the Administration of the UCP are provided in *Appendix 134*.

It shall be the responsibility of the Trust Entity (TE) to ensure that its UITF Marketing Personnel continuously comply with the qualification requirements prescribed by the Bangko Sentral, and that they conduct themselves with integrity, honesty and with proper representation to the clients of the TE.

(Circular Nos. 1103 dated 26 November 2020, 1031 dated 7 February 2019, 1021 dated 15 November 2018, 1018 dated 26 October 2018, 999 dated 14 March 2018, 963 dated 27 June 2017, 907 dated 10 March 2016 and 876 dated 20 April 2015)

¹ During the transitory period, UITF Marketing Personnel authorized to sell UITFs under the existing requirements, who shall undergo and fail to pass the UCP, will forfeit their existing qualification and will not be allowed to sell UITF until such time that they obtain the required certification. The Certification requirement shall be fully implemented beginning year 2023.

The conduct of investment management activities shall be subject to the following regulations.

Minimum documentary requirements. An investment management account shall be covered by a written document establishing such account, as follows:

- a. In the case of accounts created by corporations, business firms, organizations or institutions, the voluntary written agreement or indenture entered into by the parties, accompanied by a copy of the board resolution or other evidence authorizing the establishment of and designating the signatories to, the investment management account.
- b. In the case of accounts created by individuals, the voluntary written agreement or indenture entered into by the parties.

The voluntary written agreement or contract shall include the following minimum provisions:

- (1) Pre-numbered contractual agreement form;
- (2) Title or nature of contractual agreement in noticeable print;
- (3) Legal capacities, in noticeable print, of parties sought to be covered;
- (4) Purposes and objectives;
- (5) The initial amount of funds and/or value of securities subject of the arrangement delivered to the investment manager;
- (6) Statement in underlined noticeable print that:
 - (a) The agreement is an agency and not a trust agreement. As such, the client shall at all times retain legal title to funds and properties subject of the arrangement;
 - (b) The arrangement does not guaranty a yield, return or income by the investment manager. As such, past performance of the account is not a guaranty of future performance and the income of investments can fall as well as rise depending on prevailing market conditions; and
 - (c) The investment management agreement is not covered by the PDIC and that losses, if any, shall be for the account of the client;
- (7) Duties and powers of the investment manager;
- (8) Liabilities of the investment manager;
- (9) Reports to the client;
- (10) The amount or rate of the compensation of the investment manager;
- (11) Terms and conditions governing withdrawals from the account;
- (12) Termination of contractual arrangement; and
- (13) Disclosure requirements for transactions requiring prior authority and/or specific written investment directives from the client.

A sample investment management agreement which conforms to the foregoing requirements is shown as *Appendix 21*.

Minimum size of each investment management account. No investment management account shall be accepted or maintained for an amount less than P1.0 million. An investment management account reduced to less than P1.0 million due to investment losses shall be exempt from this requirement.

Commingling of funds. Two (2) or more individual investment management accounts shall not be commingled except for the purpose of investing in government securities or in duly registered commercial papers: *Provided*, That the participation of each of the aforementioned accounts in the commingled account shall not be less than P1.0 million: *Provided, further*, That such commingling has been duly disclosed and specifically agreed in writing by the clients.

Lending and investment disposition. Assets received in investment management capacity shall be administered in accordance with the terms of the instrument creating the investment management relationship.

When an investment manager is granted discretionary powers in the investment disposition of investment management funds and unless otherwise specifically enumerated in the agreement or indenture and directed in writing by the client, loans and investments of the fund shall be limited to:

- a. Traditional deposit products of UBs/KBs in the Philippines with long-term credit rating of at least AA- or its equivalent by a third party credit assessment agency recognized by the Bangko Sentral;
- b. Evidences of indebtedness of the Republic of the Philippines and of the Bangko Sentral, and any other evidences of indebtedness or obligations where the servicing and repayment of which are fully guaranteed by the Republic of the Philippines or loans against such government securities;

- c. Loans fully guaranteed by the Republic of the Philippines as to the payment of principal and interest;
- d. Tradable securities issued by the government of a foreign country or any supranational entity with long-term credit rating of at least AA- or its equivalent by a third party credit assessment agency recognized by the Bangko Sentral;
- e. Loans fully secured by a hold-out on, assignment or pledge of deposits maintained either with the bank proper or other banks, or of deposit substitutes of the bank, or of mortgage and chattel mortgage bonds issued by the investment manager; and
- f. Loans fully secured by real estate or chattels in accordance with Sec. 303 and Secs. 143 (*Credit classification and provisioning*) and 301 (*Additional requirements*).

The specific directives required under this Section on *Lending and investment disposition* shall consist of the following information:

- a. The transaction to be entered into;
- b. Name of the issuer or borrower;
- c. Amount involved; and
- d. Terms of the security, including collateral, if any.

Trust entities with composite rating of at least “3” under the Revised Trust Rating System in the latest Bangko Sentral examination will not be subject to the investment limitations provided under this Section on *Lending and investment disposition*.

Transactions requiring prior authority. An investment manager shall not undertake any of the following transactions for the account of a client, unless prior to its execution, such transaction has been fully disclosed and specifically authorized in writing by the client:

- a. Lend, sell, transfer or assign money or property to any of the departments, directors, officers, stockholders, or employees of the investment manager, or relatives within the first degree of consanguinity or affinity, or the related interests of such directors, officers and stockholders; or to any corporation where the investment manager owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity;
- b. Purchase or acquire property or debt instruments from any of the departments, directors, officers, stockholders, or employees of the investment manager, or relatives within the first degree of consanguinity or affinity, or the related interests of such directors, officers and stockholders; or from any corporation where the investment manager owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity;
- c. Invest in equities of, or in securities underwritten by, the investment manager or a corporation in which the investment manager owns at least fifty percent (50%) of the subscribed capital or voting stock in its own right and not as trustee nor in a representative capacity; and
- d. Sell, transfer, assign or lend money or property from one trust, fiduciary or investment management account to another trust, fiduciary or IMA except where the investment is in any of those enumerated in Items “a” to “d” of lending and investment disposition under this Section.

Directors, officers, stockholders, and their related interests covered by this Section shall be those considered as such under existing regulations on loans to DOSRI in Part III-D of this Manual. The procedural and reportorial requirements in said regulations shall also apply.

The disclosure required under this Section shall consist of the following minimum information:

- a. The transaction to be entered into;
- b. Identities of the parties involved in the transaction and their relationships (shall not apply to Item “d” of this Section on *Transactions requiring prior authority*);
- c. Amount involved; and
- d. Collateral security(ies), if any.

The above information shall be made known to clients in a separate instrument or in the very instrument creating the investment management relationship.

Title to securities and other properties. Securities such as promissory notes, shares of stocks, bonds and other properties of the portfolio shall be issued or registered in the name of the principal or of the investment manager: *Provided*, That in case of the latter, the instrument shall indicate that the investment manager is acting in a representative capacity and that the principal’s name is disclosed thereat.

Ceilings on loans. Loans funded by IMAs shall be subject to the DOSRI ceilings imposed on banks and IHs under Secs. 344 and 345. For purposes of determining compliance with said ceilings, the total amount of said loans granted by the trust department and the bank proper to the same person, firm or corporation shall be combined.

Other applicable regulations on loans and investments. The loans and investments of IMAs shall be subject to pertinent laws, rules and regulations for banks that shall include, but need not be limited to, the following:

- a. Requirements of Sections 39 and 40 of R.A. No. 8791 (The General Banking Law of 2000);
- b. Criteria for past due accounts;
- c. Qualitative appraisal of loans, investments and other assets that may require provision for probable losses which shall be booked in accordance with the FRPTI;
- d. Requirements of Sections 3 and 8 of the SRC; and
- e. Provisions of Section 44 – Investments by Philippine Residents – of the FX Manual, such that the cross-currency investments of peso IMAs, shall be subject to the following conditions:
 - (1) All cash flows of the investment manager shall only be in pesos. In case the foreign exchange acquired or received by the principal as dividends/earnings or divestment proceeds on such investment are intended for reinvestment abroad, the same proceeds are not required to be inwardly remitted and sold for pesos through authorized agent banks: *Provided*, That such proceeds are reinvested abroad within two banking days from receipt of the funds abroad;
 - (2) The investment manager shall purchase, invest, reinvest, sell, transfer or dispose foreign currency-denominated financial instruments, including securities as defined in Section 3 of the SRC, through a distributor or underwriter duly authorized or licensed by the government of the issuer of such instruments, or a counterparty financial institution (seller or buyer) authorized in writing by the principal and/or accredited by the investment manager: *Provided*, That, the conduct, documentation, and settlement of any of these transactions shall be outside Philippine jurisdiction;
 - (3) The investment manager shall record cross-currency investment transactions in the peso regular books at their foreign currency amounts and their local currency equivalent using the Philippine Dealing System peso/US dollar closing rate and the New York US dollar/third currencies closing rate; and
 - (4) The investment manager shall comply with the reportorial requirements that may be prescribed by the Bangko Sentral, which shall include as a minimum, the foreign currency amount and the local currency equivalent of the total cross currency investments with details on: (a) type of investments; and (b) amount of cash flow converted.

For purposes of this Section (*Other applicable regulations on loans and investments*), “resident”, as defined under Section 1 of the FX Manual, shall refer to the principal that engages the services of the investment manager under an investment management agreement.

Operating and accounting methodology. IMAs shall be operated and accounted for in accordance with the following:

- a. The investment manager shall administer, hold, or manage the fund or property in accordance with the instrument creating the investment management relationship; and
- b. Funds or property of each client shall be accounted separately and distinctly from those of other clients herein referred to as individual account accounting.

Tax-exempt individual investment management accounts. The following shall be the features/requirements of IMAs of individuals which may be exempted from the twenty percent (20%) final tax under Section 24(B)(1) of R.A. No. 8424 (The Tax Reform Act of 1997):

- a. The investment management agreement shall only be between individuals who are Filipino citizens or resident aliens and investment manager-banks. The agreement shall be non-negotiable and non-transferable;
- b. The minimum amount of investment for an IMA shall be P1.0 million;
- c. The investment management agreement shall indicate that pursuant to Section 24(B)(1) of R.A. No. 8424, interest income of the investment management funds derived from investments in interest-bearing instruments (e.g., time deposits, government securities, loans and other debt instruments) which are otherwise subject to the twenty percent (20%) final tax, shall be exempt from said final tax provided the funds are held under investment management by the investment manager for at least five (5) years. If said funds are held by the investment manager for a period less than five (5) years, interest income shall be subject to a final tax which shall be deducted and withheld from the proceeds of the IMA based on the following schedule–

<u>Holding Period</u>	<u>Rate of Tax</u>
Four (4) years to less than five (5) years	5%
Three (3) years to less than four (4) years	12%
Less than three (3) years	20%

Necessarily, the investment management agreement shall clearly indicate the date when the investment manager actually received the funds which shall serve as basis for determining the holding period of the funds;

- d. The investment manager may accept additional funds for inclusion in IMAs which have been established as tax-exempt under R.A. No. 8424. However, the receipt of additional funds shall be properly documented by indicating that they are part of existing tax-exempt IMAs and that the interest income of the additional funds derived from investments in interest-bearing instruments shall be exempt from the twenty percent (20%) final tax under the same conditions mentioned in the preceding item. The document shall also indicate the date when the additional funds were received by the investment manager-bank to serve as basis for determining the minimum five (5)-year holding period for tax exemption purposes of the additional funds; and
- e. Tax-exempt individual IMAs established under this Section shall be subject to the provisions of this Section under Item "b" of *Minimum documentary requirements and Minimum size of each investment management account up to Other applicable regulations on loans and investments*.

416 FOREIGN CURRENCY DEPOSIT UNIT/EXPANDED FOREIGN CURRENCY DEPOSIT UNIT TRUST ACCOUNTS; OTHER FIDUCIARY OR INVESTMENT MANAGEMENT ACCOUNTS

Only a bank with authority to operate a foreign currency deposit unit (FCDU) or an expanded foreign currency deposit unit (EFCDU) under R.A. No. 6426, as amended, may accept foreign currency-denominated trust, other fiduciary or IMAs.

Banks with trust authority or investment management authority. A bank authorized to engage in trust business under Section 79 of R.A. No. 8791, or in investment management activities only under Section 53.4 of R.A. No. 8791, which is also authorized to operate an FCDU or EFCDU under R.A. No. 6426, as amended, shall include FCDU/EFCDU trust other fiduciary or IMAs among those managed or administered by its trust/investment management department under the responsibility of the board of directors, the trust/investment management committee and the trust/investment management officer.

Additional deposit for the faithful performance of trust duties or investment management activities. A bank authorized to engage in trust business or investment management activities that accepts FCDU/EFCDU trust other fiduciary or IMAs shall deposit with the Bangko Sentral additional eligible government securities under Sec. 417 as security for the faithful performance of trust duties or investment management activities equivalent to at least one percent (1%) of the value of the FCDU/EFCDU trust or investment management assets based on the average of the month-end balances of such assets during the immediately preceding quarter as converted in the local currency at the prevailing foreign exchange rate. Such securities shall be deposited within thirty (30) banking days after the end of every calendar quarter.

Applicability of rules and regulations. Unless otherwise revised by the provisions of this Section, the rules and regulations governing the administration of trust, other fiduciary or IMAs, including UITFs, shall be observed. Also applicable are rules and regulations on the operations of FCDUs/EFCDUs that include, among other things, regulations on acceptable foreign currencies, eligible and ineligible foreign currency sources; foreign currency cover requirements; and allowable loans and investments.

(Circular No. 966 dated 11 July 2017)

417 SECURITY FOR THE FAITHFUL PERFORMANCE OF TRUST AND OTHER FIDUCIARY BUSINESS

Basic security deposit. Bangko Sentral-supervised financial institutions (BSFIs) authorized to engage in trust and other fiduciary business shall deposit with the Bangko Sentral eligible government securities, pursuant to Sec. 417 (*Eligible Securities*), as security for the faithful performance of its trust and other fiduciary duties equivalent to at least one percent (1%) of the book value of the total trust, other fiduciary and investment management assets: *Provided*, That at no time shall such deposit be less than P500 thousand.

Scripless securities under the Registry of Scripless Securities (RoSS) System of the Bureau of Treasury (BTr) may be used as basic security deposit for trust and other fiduciary duties using the Guidelines enumerated in *Appendix 29*.

The security for the faithful performance of PERA Administrator shall be separately accounted for and calculated as prescribed under Sec. 1121 and *Appendix 30*.

Eligible securities. Government securities which shall be deposited in compliance with the above basic security deposit shall consist of evidence of indebtedness of the Republic of the Philippines or of the Bangko Sentral or any other evidence of indebtedness or obligations the servicing and repayment of which are fully guaranteed by the Republic of the Philippines; or such other kinds of securities which may be declared eligible by the Monetary Board: *Provided*, That such securities shall

be free, unencumbered, and not utilized for any other purpose: *Provided, further*, That such government securities shall have remaining maturity of not more than three (3) years from the date of deposit with the Bangko Sentral.

The requirement for the abovementioned government securities to have remaining maturity of not more than three (3) years from the date of deposit with the Bangko Sentral shall no longer apply starting 31 March 2018.

Valuation of securities and basis of computation of the basic security deposit requirement.

For purposes of determining compliance with the basic security deposit under this Section:

a. Prior to 31 March 2018:

- (1) The amount of securities so deposited shall be based on their book value, that is, cost as increased or decreased by the corresponding discount or premium amortization.
- (2) The base amount for the basic security deposit shall be the average of the month-end balances of total trust, investment management and other fiduciary assets of the immediately preceding calendar quarter.

Effective 31 March 2018, the provisions under Items “a.(1)” and “a.(2)” shall no longer apply.

b. The following provisions on the valuation of eligible assets and computation of the basic security deposit requirement shall be adopted starting 31 March 2018:

- (1) Government securities deposited with the Bangko Sentral shall be measured at fair value according to the marking-to-market guidelines for government securities prescribed under *Appendix 28*, subject to applicable haircuts.

The haircuts that shall be applied to the government securities shall be, as follows:

Residual Maturity of Government Security	Minimum Haircut (in Percent) for Basic Security Deposit
3 years and below	0.0
>3 years up to 5 years	2.0
>5 years	4.0

- (2) The base amount for the basic security deposit shall be the total trust, investment management and other fiduciary assets reported as of the end of the calendar quarter.

Compliance with the basic security deposit requirement.

a. Compliance¹. The trustee or fiduciary shall endure compliance with the required basic security deposit at all times. Any deficiency arising from a withdrawal, replacement or redemption transaction must be corrected through the immediate posting of additional securities. In case a deficiency is calculated at the end of the calendar quarter, the trustee or fiduciary shall have a grace period of thirty (30) calendar days reckoned from the end of the reference calendar quarter within which to deposit with the Bangko Sentral the securities required under this Section.

- (1) *Quarterly compliance*. The trustee or fiduciary shall comply with the basic security deposit requirement on a quarterly basis. In determining quarterly compliance, the fair value of government securities used as compliance with the basic security deposit requirement shall be reckoned as of the end of the calendar quarter and the base amount for the basic security deposit requirement provided under this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*) shall be applied.

Haircuts for government securities prescribed under this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*) shall be determined based on the remaining maturity of the security from the end of the reference quarter, and applied on the fair value of the government securities used as compliance with the basic security deposit.

The trustee or fiduciary shall have a thirty (30)-calendar day grace period after the end of every quarter within which to deposit with the Bangko Sentral, government securities pursuant to existing regulations to comply with the basic security deposit requirement as of the preceding quarter-end.

- (2) *Compliance upon deposit withdrawal, replacement or redemption*. The trustee or fiduciary shall ensure compliance with the basic security deposit requirement after every deposit, withdrawal, replacement or redemption of government securities. The basic security deposit requirement shall be the amount computed as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption under this

¹ The provisions on quarterly compliance and compliance upon deposit, withdrawal, replacement or redemption became effective on 31 March 2018.

Section (*Valuation of securities and basis of computation of the basic security deposit requirement*). The fair value of the remaining government securities, adjusted for relevant haircuts, shall be based on amounts reported as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption, pursuant to this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*) and Sec. 424 (*Valuation of securities and basis of computation of the basic security deposit requirement*). The haircuts shall be determined based on the remaining maturity of the security from the quarter-end preceding the date of the securities transfer transaction.

Securities used as compliance with the basic security deposit requirement that are issued within the calendar quarter shall be valued at their purchase price, adjusted for relevant haircuts that are determined based on their remaining maturity as of the purchase date.

b. **Required Reports.** Trustees or fiduciary shall submit the following reports in accordance with *Appendix 7*.

- (1) Quarterly Report on Compliance with the Basic Security Deposit Requirement (BSD-Form-1); and
- (2) Report on Basic Security Deposit Transactions (BSD-Form-2).

Trustees or fiduciary shall maintain adequate documentation (e.g., screenshots of fair values) to support the computation of their compliance with the basic security deposit requirement, which shall be made available to the Bangko Sentral upon request.

c. **Other Procedural Requirements.**

- (1) Opening of a securities account. The guidelines on the opening of an account with the BTr Registry are provided in *Appendix 29*.
- (2) Deposit, withdrawal or replacement. The trustee or fiduciary shall input the details of securities transfer transactions that are properly supported by notification reports in the BTr Registry to effect the deposit, withdrawal or replacement of securities on the intended date of transfer in the BTr Registry. The input of details of transactions shall be made on or before 12:00 noon for withdrawal or replacement transactions, and on or before 3:30 pm for deposit transactions, on the intended date of transfer as provided in the BSD-Form-2.

Withdrawal or replacement transactions entered after the cut-off time shall be processed on the next banking day: *Provided*, That the trustee or fiduciary re-enters the details of the withdrawal or replacement transaction on or before 12:00 noon of the next banking day: *Provided further*, That deficiency in the basic security deposit arising from failure of the trustee or fiduciary to input details of withdrawal or replacement transactions in the BTr Registry on the intended date of transfer shall cause the imposition of sanctions/penalties under this Section (*Compliance with the basic security deposit requirement*). Failure to enter or re-enter the transaction details on the next banking day will result in the cancellation of the previously submitted BSD-Form-2. To effect withdrawal or replacement transactions, the trustee or fiduciary shall re-submit the BSD-Form-2 in accordance with the prescribed timelines.

- (3) Administration of Proceeds from Deposited Securities. Coupon or interest payments and the redemption value of matured securities that are deposited with the Bangko Sentral shall be credited to the DDA of the trustee or fiduciary or the DDA of the trustee or fiduciary settlement bank.

Trustees or fiduciary shall develop and maintain systems to ensure compliance with the required basic security deposit as prescribed in this Section (*Compliance with the basic security deposit requirement*).

d. **Sanctions.**

- (1) The following sanctions shall be imposed for any deficiency in the basic security deposit for the faithful performance of trust, investment management and other fiduciary duties:

(a) On the bank:

Monetary penalty/ies:

	Offense/Trust Asset Size	First	Second	Third and subsequent offense
Penalty per calendar day	TBs/RBs with Limited Trust Authority	P300.00	P400.00	P500.00
	UBs/KBs/TBs with Full Trust			
	Up to P500 million	P600.00	P700.00	P800.00
	Above P500 million but not exceeding P1 billion	P1,000.00	P1,250.00	P1,500.00

		Above P1 billion but not exceeding P10 billion	P2,000.00	P3,000.00	P4,000.00
		Above P10 billion but not exceeding P50 billion	P5,000.00	P6,000.00	P7,000.00
		Above P50 billion	P8,000.00	P9,000.00	P10,000.00

A bank which incurs a deficiency with the basic security deposit within the quarter, or reports a deficiency with the basic security deposit as of the end of the quarter and fails to deposit government securities to comply with the said requirement within the thirty (30)-calendar day grace period, shall be considered deficient with the basic security deposit requirement from the date the deficiency is incurred up to date the deficiency is corrected or the succeeding quarter-end, whichever comes earlier.

Non-monetary penalty beginning with the third offense (all banks) - Prohibition against the acceptance of new trust and other fiduciary accounts and from renewing expiring trust and other fiduciary contracts up to the time the violation is corrected.

- (b) On the trust officer and/or other officer(s) responsible for the deficiency/non-compliance:
- (i) *First offense* - warning that subsequent violations shall be dealt with more severely;
 - (ii) *Second offense* - written reprimand with a stern warning that subsequent violations shall be subject to suspension;
 - (iii) *Third offense* - thirty (30) calendar day-suspension without pay; and
 - (iv) *Subsequent offense(s)* - sixty (60) calendar day-suspension without pay.
- (2) Notwithstanding the execution of a basic security deposit, withdrawal, or replacement transaction, the Bangko Sentral is not precluded from imposing sanctions against the trustee or fiduciary for non-compliance with the regulations on the basic security deposit, if warranted.

(Circular Nos. 1032 dated 15 February 2019 and 998 dated 1 March 2018)

418 RESERVES AGAINST TRUST AND OTHER FIDUCIARY ACCOUNTS (TOFA) – OTHERS

In addition to the basic security deposit, banks/institutions authorized to engage in trust and other fiduciary business shall maintain reserves on TOFA - Others, except accounts held under (1) *Administratorship*; (2) *Trust Under Indenture*; (3) *Custodianship and Safekeeping*; (4) *Depository and Reorganization*; (5) *Employee Benefit Plans Under Trust*; (6) *Escrow*; (7) *Personal Trust (testamentary or living trust)*; (8) *Executorship*; (9) *Guardianship*; (10) *Life Insurance Trust*; (11) *Pre-need Plans (institutional/individual)*; (12) *Personal Equity and Retirement Account (PERA)*; and (13) *Legislated and Quasi-Judicial Trust*; and (14) *Specialized Institutional Accounts under Trust*.

a. *Reserves against peso-denominated CTFs.*

The required reserves against peso-denominated CTFs and such other managed peso funds which partake of the nature of a collective investment of peso-denominated CTFs shall be as follows:

UBs/KBs	19%
TBs	9%
RBs	4%

Starting reserve week 2 March 2018.

b. *Reserves against TOFA – Others*

The required reserves against TOFA- Others shall be as follows:

UBs/KBs	17%
TBs	9%
RBs	4%

Composition of reserves. The provisions of Sec. 252 shall govern the composition of reserves against TOFA- Others of banks authorized to engage in trust and other fiduciary business.

For purposes of this Section, a separate deposit account shall be maintained by banks with the Bangko Sentral exclusively for trust reserves. Deposits maintained by banks authorized to engage in trust and other fiduciary business with the Bangko Sentral in compliance with the reserve requirement shall not earned interest.

Computation of reserve position. A bank authorized to engage in trust and other fiduciary business shall calculate daily the required and available reserves on the value per books of its TOFA-Others based on the seven-day week, starting Friday and ending Thursday including Saturdays, Sundays, holidays, non-banking days or days when there is no clearing: *Provided*, That with reference to holidays, non-banking days and days where there is no clearing, the reserve position at the close of banking day immediately preceding such holidays, non-banking days or days where there is no clearing, shall apply. For the purpose of computing reserve position, the principal office in the Philippines and all branches and agencies located therein shall be treated as a single unit.

The required reserves in the current period (reference reserve week) shall be computed based on the corresponding levels of TOFA-Others of the prior week.

For purposes of computing the required and available statutory and liquidity reserves for TOFA- Others the term value per books shall refer to the total volume of TOFA-Others less booked “*Allowance for Probable Losses*”.

Reserve deficiencies; sanctions. The provisions of Sec. 255 shall govern the computation of reserve deficiencies for TOFA- Others of banks authorized to engage in trust and other fiduciary business, including the sanctions provided in said Section.

Report of compliance. Every bank shall submit a report to the Bangko Sentral of its daily required and available reserves on TOFA- Others in such frequency and within the deadline stated in *Appendix 7*.

Licensing fees. Applicable licensing fee provided under Sec. 1103 shall be immediately charged upon approval of the bank’s application for the authority to perform trust and other fiduciary business.

(Circular Nos.1031 dated 07 February 2019, 1025 dated 13 December 2018, 1004 dated 24 May 2018, 997 dated 15 February 2018, 906 dated 10 March 2016, 890 dated 02 November 2015, and 878 dated 22 May 2015)

419 REQUIRED RETAINED EARNINGS RESERVED

A bank authorized to engage in trust and other fiduciary business shall, before the declaration of dividends, carry to retained earnings at least ten percent (10%) of its net profits realized out of its trust, investment management and other fiduciary business since the last preceding dividend declaration until the retained earnings shall amount to twenty percent (20%) of its authorized capital stock and no part of such retained earnings shall at any time be paid out in dividends but losses accruing in the course of its business may be charged against retained earnings.

420 UNSAFE OR UNSOUND MANNER

Whether a particular activity may be considered as conducting business in an unsafe or unsound manner all relevant facts must be considered. An analysis of the impact thereof on the bank’s operations and financial conditions must be undertaken, including evaluation of capital position, asset condition, management, earnings posture and liquidity position.

In determining whether a particular act or omission, which is not otherwise prohibited by any law, rule or regulation affecting banks, may be deemed as conducting business in an unsafe or unsound manner, the Monetary Board, upon report of the head of the supervising or examining department based on findings in an examination or a complaint, shall consider any of the following circumstances:

- a. The act or omission has resulted or may result in material loss or damage, or abnormal risk or danger to the safety, stability, liquidity or solvency of the bank;
- b. The act or omission has resulted or may result in material loss or damage or abnormal risk to the bank’s depositors, creditors, investors, stockholders or to the Bangko Sentral or to the public in general;
- c. The act or omission has caused any undue injury, or has given unwarranted benefits, advantage or preference to the bank or any party in the discharge by the director or officer of his duties and responsibilities through manifest partiality, evident bad faith or gross inexcusable negligence; or
- d. The act or omission involves entering into any contract or transaction manifestly and grossly disadvantageous to the bank, whether or not the director or officer profited or will profit thereby.

The list of activities which may be considered unsafe or unsound is shown in *Appendix 49*.

In line with the statement of principles governing trust and other fiduciary business under Sec. 401, the trustee, fiduciary or investment manager shall desist from the following unsound manner:

- a. Entering in an arrangement whereby the client is at the same time the borrower of his own fund placement, or whereby the trustor or principal is a borrower of other trust, fiduciary or investment management funds belonging to the same family or business group of such trustor or principal;

- b. Granting loans or accommodations to any trust committee member, officer and employee of the trust department except where such loans are obtained by said persons as members of an employee benefit fund of the trustee's own institution;
- c. Borrowing from, or selling trust, other fiduciary and/or investment management assets to, the bank proper to cover portfolio losses and/or to guarantee the return of principal or income;
- d. Granting new loans to any borrower who has a past due and/or classified loan account with the bank proper or the trust department; and
- e. Requiring clients to sign documents in blank.

Sanctions. The Monetary Board may, at its discretion and based on the seriousness and materiality of the acts or omissions, impose any or all of the following sanctions provided under Section 37 of R.A. No. 7653 and Section 56 of R.A. No. 8791, whenever a bank conducts business in an unsafe or unsound manner:

- a. Issue an order requiring the bank to cease and desist from conducting business in an unsafe or unsound manner and may further order that immediate action be taken to correct the conditions resulting from such unsafe or unsound manner;
- b. Fines in amounts as may be determined by the Monetary Board to be appropriate, but in no case to exceed P30,000 a day on a per transaction basis taking into consideration the attendant circumstances, such as the gravity of the act or omission and the size of the bank, to be imposed on the bank, their directors and/or responsible officers;
- c. Suspension of interbank clearing privileges/immediate exclusion from clearing;
- d. Suspension of rediscounting privileges or access to Bangko Sentral credit facilities;
- e. Suspension of lending or foreign exchange operations or authority to accept new deposits or make new investments;
- f. Suspension of responsible directors and/or officers;
- g. Revocation of quasi-banking license; and/or
- h. Receivership and liquidation under Section 30 of R.A. No. 7653.

All other provisions of Sections 30 and 37 of R.A. No. 7653, whenever appropriate, shall also be applicable on the conduct of business in an unsafe or unsound manner.

The imposition of the above sanctions is without prejudice to the filing of appropriate criminal charges against culpable persons as provided in Sections 34, 35 and 36 of R.A. No. 7653

C. INVESTMENT MANAGEMENT ACTIVITIES

421 AUTHORITY TO PERFORM INVESTMENT MANAGEMENT

Banks may be authorized by the Monetary Board to act as managing agent, adviser, consultant or administrator of investment management/advisory/consultancy account under Section 53.4 of R.A. No. 8791. However, such authority shall not be construed to include the authority to engage in trust and other fiduciary business under Chapter IX of R.A. No. 8791.

If a bank is found to engage in unauthorized investment management activities, the Monetary Board may impose administrative sanctions against such bank or its principal officers and/or majority stockholders or proceed against them in accordance with law.

The Monetary Board may take such action as it may deem proper such as, but may not be limited to, requiring the transfer or turnover of any IMA to duly incorporated and licensed entities of the choice of the client.

A bank not authorized to engage in investment management activities shall not advertise or represent itself as being engaged in investment management activities or represent itself as investment manager or use words of similar import.

Required capital. Banks applying for authority to perform investment management activities must have minimum capital accounts of not less than P300 million or such amount as may be required by the Monetary Board or other regulatory agency.

Prerequisites for engaging in investment management activities. A bank before it may engage in investment management activities shall comply with the following requirements:

- a. The bank has been duly licensed by the Bangko Sentral or created by special law or charter.
- b. The articles of incorporation or charter of the bank shall include among its powers or purposes the authority to engage in investment management activities.
- c. The by-laws of the bank shall include, among other things:
 - (1) The organization plan or structure of the department, office or unit which shall conduct the investment management activities of the institution;
 - (2) The creation of an investment management committee, the appointment of an investment management officer and subordinate officers of the investment management department; and
 - (3) A clear definition of the duties and responsibilities as well as the line and staff functional relationships of the various units, officers and staff within the organization.
- d. The applicant shall also meet the additional requirements under Sec. 411 (*Prerequisites in trust and other fiduciary business* Item “d” to “m”).

Compliance with the foregoing as well as with other requirements under existing regulations, shall be maintained up to the time the investment management authority is granted. A bank that fails in this respect shall be required to show compliance for another test period of the same duration.

Pre-operating requirements. A bank authorized to engage in investment management activities shall, before engaging in actual operations, submit to the Bangko Sentral the following:

- a. Government securities acceptable to the Bangko Sentral amounting to P500,000 as minimum basic security deposit for the faithful performance of investment management duties required under Sec. 424;
- b. Organization chart of the investment management department which shall carry out the investment management activities of the bank; and
- c. Names and positions of individuals designated as chairman and members of the investment management committee, investment management officer and other subordinate officers of the investment management department.

422 ORGANIZATION AND MANAGEMENT

The provisions of Sec. 412 (except *Confirmation of the appointment/designation of trust officer and independent professional*) shall govern the organization and management of banks without trust license which are engaged in investment management activities only. The following terms shall, however, be used:

- a. *Investment management activities*, in lieu of trust and other fiduciary business;
- b. *Investment management accounts*, in lieu of trust and other fiduciary accounts;
- c. *Investment management committee*, in lieu of trust committee;
- d. *Investment management officer*, in lieu of trust officer; and
- e. *Investment management department*, in lieu of trust department.

423 CONDUCT OF INVESTMENT MANAGEMENT ACTIVITIES

The provisions of Secs. 415 and 416 shall govern the conduct of investment management activities of a bank without a trust license.

424 SECURITY FOR THE FAITHFUL PERFORMANCE OF INVESTMENT MANAGEMENT ACTIVITIES

Basic security deposit. Bangko Sentral-supervised financial institutions (BSFIs) authorized to engage in investment management activities shall deposit with the Bangko Sentral eligible government securities, pursuant to Sec. 417 (*Eligible securities*), as security for the faithful performance of its investment management activities equivalent to at least one percent (1%) of the book value of the total investment management assets: *Provided*, That at no time shall such deposit be less than P500 Thousand.

Scrippless securities under the RoSS system of the BTr may be used as basic security deposit for the faithful performance of investment management activities using the guidelines enumerated in *Appendix 29*.

Eligible securities. The provisions of Sec. 417 (*Eligible securities*) shall govern the basic security deposit requirement for faithful performance of investment management activities.

Valuation of securities and basis of computation of the basic security deposit requirement.

For purposes of determining compliance with the basic security deposit under this Section:

a. Prior to 31 March 2018:

- (1) The amount of securities so deposited shall be based on their book value, that is, cost as increased or decreased by the corresponding discount or premium amortization.
- (2) The base amount for the basic security deposit shall be the average of the month-end balances of the total assets of the investment management funds of the immediately preceding calendar quarter.

Effective 31 March 2018, the provisions under Items “a.(1)” and “a.(2)” shall no longer apply.

b. The following provisions on the valuation of eligible assets and computation of the basic security deposit requirement shall be adopted starting 31 March 2018:

- (1) Government securities deposited with the Bangko Sentral shall be measured at fair value according to the marking-to-market guidelines for government securities under *Appendix 28*, subject to applicable haircuts

The haircuts that shall be applied to the government securities shall be as follows:

Residual Maturity of Government Security	Minimum Haircut (in percent) for Basic Security Deposit
3 years and below	0.0
>3 years up to 5 years	2.0
>5 years	4.0

- (2) The base amount for the basic security deposit shall be the total investment management assets reported as of the end of the calendar quarter.

Compliance with the basic security deposit requirement.

- a. Compliance¹. The investment manager shall ensure compliance with the required basic security deposit at all times. Any deficiency arising from a withdrawal, replacement or redemption transaction must be corrected through the immediate posting of additional securities. In case a deficiency is calculated at the end of the calendar quarter, the trustee or fiduciary shall have a grace period of thirty (30) calendar days reckoned from the end of the reference calendar quarter within which to deposit with the Bangko Sentral the securities required under this Section.

- (1) *Quarterly compliance.* The investment manager shall comply with the basic security deposit requirement on a quarterly basis. In determining quarterly compliance, the fair value of government securities used as compliance with the basic security deposit requirement shall be reckoned as of the end of the calendar quarter and the base amount for the basic security deposit requirement provided under this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*) shall be applied.

Haircuts for government securities prescribed under this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*) shall be determined based on the remaining maturity of the security from the end of the reference quarter, and applied on the fair value of the government securities used as compliance with the basic security deposit.

The investment manager shall have a thirty (30)-calendar day grace period after the end of every quarter within which to deposit with the Bangko Sentral, securities pursuant to existing regulations to comply with the basic security deposit requirement as of the preceding quarter-end.

- (2) *Compliance upon deposit, withdrawal, replacement or redemption.* The investment manager shall ensure compliance basic security deposit requirement after every deposit, withdrawal, replacement or redemption of government securities. The basic security deposit requirement shall be the amount computed as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption under this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*). The fair value of the remaining government securities, adjusted for relevant haircuts, shall also be based on amounts reported as of the quarter-end preceding the date of deposit, withdrawal, replacement or redemption, pursuant to this Section (*Valuation of securities and basis of computation of the basic security deposit requirement*). The haircuts shall be determined based on the remaining maturity of the security from the quarter-end preceding the date of the securities transfer transaction.

Securities used as compliance with the basic security deposit requirement that are issued within the calendar quarter shall be valued at their purchase price, adjusted for relevant haircuts that are determined based on their remaining maturity as of the purchase date.

¹ The provisions on quarterly compliance and compliance upon deposit, withdrawal, replacement or redemption became effective on 31 March 2018.

- b. Required Reports. Trustees or fiduciary/investment managers shall submit the following reports in accordance with *Appendix 7*:

- (1) Quarterly Report on Compliance with the Basic Security Deposit Requirement (BSD-Form-1); and
- (2) Report on Basic Security Deposit Transactions (BSD-Form-2).

Investment managers shall maintain adequate documentation (e.g., screenshots of fair values) to support the computation of their compliance with the basic security deposit requirement, which shall be made available to the Bangko Sentral upon request.

- c. Other Procedural Requirements.

- (1) Opening of a Securities Account. The guidelines on the opening of an account with the BTr Registry are provided in *Appendix 29*.
- (2) Deposit, Withdrawal or Replacement. The investment manager shall input the details of securities transfer transactions that are properly supported by notification reports in the BTr Registry to effect the deposit, withdrawal or replacement of securities on the intended date of transfer in the BTr Registry. The input of details of transactions shall be made on or before 12:00 noon for withdrawal or replacement transactions, and on or before 3:30 pm for deposit transactions, on the intended date of transfer as provided in the BSD-Form-2.

Withdrawal or replacement transactions entered after the cut-off time shall be processed on the next banking day: *Provided*, That the investment manager re-enters the details of the withdrawal or replacement transaction on or before 12:00 noon of the next banking day: *Provided further*, That deficiency in the basic security deposit arising from failure of the investment manager to input details of withdrawal or replacement transactions in the BTr Registry on the intended date of transfer shall cause the imposition of sanctions/penalties under this Section (*Compliance with the basic security deposit requirement*). Failure to enter or re-enter the transaction details on the next banking day will result in the cancellation of the previously submitted BSD-Form-2. To effect withdrawal or replacement transactions, the investment manager shall re-submit the BSD-Form-2 in accordance with the prescribed timelines.

- (3) Administration of Proceeds from Deposited Securities. Coupon or interest payments and the redemption value of matured securities that are deposited with the Bangko Sentral shall be credited to the DDA of the investment manager or the DDA of the investment manager's settlement bank.

Investment managers shall develop and maintain systems to ensure compliance with the required basic security deposit as prescribed in this Section (*Compliance with the basic security deposit*).

- d. *Sanctions*

- (1) The following sanctions shall be imposed for any deficiency in the basic security deposit for the faithful performance of trust, investment management and other fiduciary duties:

- (a) On the bank:

Monetary penalty/ies:

	Offense/Trust Asset Size	First	Second	Third and subsequent offense
Penalty per calendar day	TBs/RBs with Limited Trust Authority	P300.00	P400.00	P500.00
	UBs/KBs/TBs with Full Trust Authority and with Trust Assets of	Up to P500 million	P600.00	P700.00
		Above P500 million but not exceeding P1 billion	P1,000.00	P1,250.00
		Above P1 billion but not exceeding P10 billion	P2,000.00	P3,000.00
		Above P10 billion but not exceeding P50 billion	P5,000.00	P6,000.00
		Above P50 billion	P8,000.00	P9,000.00

An investment manager which incurs a deficiency with the basic security deposit within the quarter, or reports a deficiency with the basic security deposit as of the end of the quarter and fails to deposit securities to comply with the said requirement within the thirty (30)-calendar day grace period, shall be considered deficient with the basic security deposit requirement from the date the deficiency is incurred up to the date the deficiency is corrected or the succeeding quarter-end, whichever comes earlier.

Non-monetary penalty beginning with the third offense (all banks) - Prohibition against the acceptance of new IMAs and from renewing expiring investment management contracts up to the time the violation is corrected.

- (b) On the trust officer and/or other officer(s) responsible for the deficiency/non-compliance:
- (i) *First offense* - warning that subsequent violations shall be dealt with more severely;
 - (ii) *Second offense* - written reprimand with a stern warning that subsequent violations shall be subject to suspension;
 - (iii) *Third offense* - thirty (30) calendar day-suspension without pay; and
 - (iv) *Subsequent offense(s)* - sixty (60) calendar day-suspension without pay.

Notwithstanding the execution of a basic security deposit, withdrawal, or replacement transaction, the Bangko Sentral is not precluded from imposing sanctions against the investment manager for non-compliance with the regulations on the basic security deposit, if warranted.

(Circular Nos. 1032 dated 15 February 2019 and 998 dated 01 March 2018)

425 REQUIRED RETAINED EARNINGS RESERVED

A bank authorized to engage in investment management activities shall, before the declaration of dividends, carry to retained earnings at least ten percent (10%) of its net profits realized out of its investment management activities since the last preceding dividend declaration until the retained earnings shall amount to twenty percent (20%) of its authorized capital stock and no part of such retained earnings shall at any time be paid out in dividends, but losses accruing in the course of its business may be charged against retained earnings.

426 UNSOUND MANNER

The provisions of Sec. 420 shall govern the unsound manner for IMAs.

D. GENERAL PROVISIONS

431 SECURITIES CUSTODIANSHIP AND SECURITIES REGISTRY OPERATIONS

The following rules and regulations shall govern securities custodianship and securities registry operations of banks under Bangko Sentral regulations.

The guidelines to implement the delivery of securities are provided in *Appendix 66*.

Violation of any provision of the guidelines in *Appendix 66* shall be subject to the sanctions/penalties under Sec. 431.

Statement of policy. It is the policy of the Bangko Sentral to promote the protection of investors in order to gain their confidence and encourage their participation in the development of the domestic capital market. Therefore, the following rules and regulations are promulgated to enhance transparency of securities transactions with the end in view of protecting investors.

Applicability of this regulation. This regulation shall govern securities custodianship and securities registry operations of banks and NBFIs under Bangko Sentral supervision. It shall cover all their transactions in securities as defined in Section 3 of the Securities Regulation Code (SRC), whether exempt or required to be registered with the SEC, that are sold, borrowed, purchased, traded, held under custody or otherwise transacted in the Philippines where at least one (1) of the parties is a bank or an NBF under Bangko Sentral supervision. However, this regulation shall not cover the operations of stock and transfer agents duly registered with the SEC pursuant to the provisions of SRC Rule 36-4.1 and whose only function is to maintain the stock and transfer book for shares of stock.

Prior Bangko Sentral approval. Banks may act as securities custodian and/or registry only upon prior Monetary Board approval.

Application for authority. A bank desiring to act as securities custodian and/or registry shall file an application with the appropriate supervising and examining department of the Bangko Sentral. The application shall be signed by the highest ranking officer of the bank and shall be accompanied by a certified true copy of the resolution of the bank's board of directors authorizing the bank to engage in securities custodianship and/or registry and, in the case of a branch of a foreign bank, approval by its highest ranking regional officer with proof of delegated authority from the bank's board of directors.

Pre-qualification requirements for a securities custodian/registry.

- a. The securities custodian must be a bank that is authorized to engage in investment management or trust business. The securities registry must be a bank.

- b. It must have complied with the minimum capital accounts required under existing regulations, as follows:
 - (1) *Domestic banks.* The minimum capital required under Sec. 121 or the minimum capital required for TBs operating in Metro Manila, whichever is higher.
 - (2) *Branches of foreign banks.* The minimum capital required under Sec. 103.
- c. Its risk-based capital adequacy ratio is not lower than twelve percent (12%) at the time of filing the application;
- d. It must have a CAMELS composite rating of at least "4" (as rounded off) in the last regular examination;
- e. It must have in place a comprehensive risk management system approved by its board of directors (or equivalent management committee in the case of foreign bank branches) appropriate to its operations characterized by a clear delineation of responsibility for risk management, adequate risk measurement systems, appropriately structured risk limits, effective internal control and complete, timely and efficient risk reporting systems. In this connection, a manual of operations (which includes custody and/or registry operations) and other related documents embodying the risk management system must be submitted to the appropriate supervising and examining department at the time of application for authority and within thirty (30) days from updates therefrom;
- f. It must have adequate technological capabilities and the necessary technical expertise to ensure the protection, safety and integrity of client assets, such as:
 - (1) It can maintain an electronic registry dedicated to recording of accountabilities to its clients; and
 - (2) It has an updated and comprehensive computer security system, covering system network and telecommunication facilities that will:
 - (a) limit access only to authorized users;
 - (b) preserve data integrity; and
 - (c) provide for audit trail of transactions.
- g. It has complied, during the period immediately preceding the date of application, with the following:
 - (1) ceilings on credit accommodation to DOSRI; and
 - (2) single borrower's limit.
- h. It has no reserve deficiencies during the eight (8) weeks immediately preceding the date of application;
- i. It has set up the prescribed allowances for probable losses, both general and specific, as of date of application;
- j. It has not been found engaging in unsafe or unsound manner during the last six (6) months preceding the date of application;
- k. It has generally complied with laws, rules and regulations, orders or instructions of the Monetary Board and/or Bangko Sentral Management;
- l. It has submitted additional documents/information which may be requested by the appropriate supervision and examination department, such as, but not limited to:
 - (1) Standard custody/registry agreement and other standard documents;
 - (2) Organizational structure of the custody/registry business;
 - (3) Transaction flow; and
 - (4) For those already in the custody or registry business, a historical background for the past three (3) years;
- m. It shall be conducted in a separate unit headed by a qualified person with at least two (2) years experience in custody/registry operations;
- n. It can interface with the clearing and settlement system of any recognized exchange in the country capable of achieving a real time gross settlement of trades; and
- o. A securities custodian which provides the value-added service of securities lending involving securities that are sold, offered for sale or distributed within the Philippines must be a duly-licensed lending agent registered with the SEC.

Functions and responsibilities of a securities custodian. A securities custodian shall have the following basic functions and responsibilities:

- a. Safekeeps the securities of the client;

- b. Holds title to the securities in a nominee capacity;
- c. Executes purchase, sale and other instructions;
- d. Performs at least a monthly reconciliation to ensure that all positions are properly recorded and accounted for;
- e. Confirms tax withheld;
- f. Represents clients in corporate actions in accordance with the direction provided by the securities owner;
- g. Conducts mark-to-market valuation and statement rendition;
- h. Does earmarking of encumbrances or liens such as, but not limited to, Deeds of Assignment and court orders;
- i. Acts as a collecting and paying agent in respect of dividends, interest earnings or proceeds from the sale/redemption/maturity of securities held under custodianship: *Provided*, That the custodian shall immediately make known to the securities owner all collections received and payments made with respect to the securities under custody; and
- j. In addition to the above basic functions, it may perform the value-added service of securities lending as agent: *Provided*, That it complies with Item "o" of the pre-qualification requirements under Sec. 431: *Provided, further*, That the securities lending service shall be covered by a Securities Lending Authorization Agreement (SLAA) which shall be attached to the custody contract.

A securities custodian which renders the value-added service of securities lending involving securities that are sold, offered and distributed within the Philippines shall comply with all other pertinent rules and regulations of the SEC on securities lending and borrowing operations.

Functions and responsibilities of a securities registry.

- a. Maintains an electronic registry book;
- b. Delivers confirmation of transactions and other documents within agreed trading periods;
- c. Issues registry confirmations for transfers of ownership as it occurs;
- d. Prepares regular statement of securities balances at such frequency as may be required by the owner on record but not less frequent than every quarter; and
- e. Follows appropriate legal documentation to govern its relationship with the Issuer.

Protection of securities of the customer. A custodian must incorporate the following procedures in the discharge of its functions in order to protect the securities of the customer:

- a. *Administration of securities custodianship accounts of banks.* Securities custodianship accounts shall be administered in the Trust Unit of a bank.

As an exception, however, a custodian bank may be allowed to administer custodianship accounts in the Bank Proper: *Provided*, That this is limited to custodianship accounts wherein the securities custodian performs the basic functions and responsibilities provided under Sec. 431: *Provided, further*, That the custodian bank secures prior MB approval on this arrangement: *Provided, finally*, That a custodian bank that is seeking exemption from the general requirement should be able to demonstrate that it has instituted adequate risk management systems and prudential controls in the Bank Proper to ensure the protection of client assets, maintain proper segregation of functions and prevent conflict of interest situations that may arise in the administration of securities custodianship accounts.

- b. *Accounting and recording for securities.* Custodians must employ accounting and safekeeping procedures that fully protect customer securities. It is essential that custodians segregate customer securities from one another and from its proprietary holdings to protect the same from the claims of its general creditors.

Securities held under custodianship shall be recorded in the books of the custodian at the face value of said securities in the off-balance sheet account "*Securities Held Under Custodianship by Bank Proper*", if booked in the Bank Proper, or the other fiduciary sub-account "*Custodianship*", if booked in the Trust Department.

Securities held under custodianship where the custodian performs the value-added service of securities lending as agent shall be booked in the Trust Department.

- c. *Documentation.* The appropriate documentation for custodianship shall be made and it shall clearly define, among others, the authority, role, responsibilities, fees and provision for succession in the event the custodian can no longer discharge its functions. It shall be accepted in writing by the counterparties.

The governing custodianship agreement shall be pre-numbered and this number shall be referred to in all amendments and supplements thereto.

- d. **Confirmation of custody.** The custodian shall issue a custody confirmation to the purchaser or borrower of securities to evidence receipt or transfer of securities as they occur. It shall contain, as a minimum, the following information on the securities under custody:
- (1) Owner of securities;
 - (2) Issuer;
 - (3) Securities type;
 - (4) Identification or serial numbers;
 - (5) Quantity;
 - (6) Face value; and
 - (7) Other information, which may be requested by the parties.
- e. **Periodic reporting.** The custodian shall prepare at least quarterly (or as frequent as the owner of securities will require) securities statements delivered to the registered owner's address on record. Said statement shall present detailed information such as, but not limited to, inventory of securities, outstanding balances, and market values.

Independence of the registry and securities custodian. A Bangko Sentral- accredited securities registry must be a third party that does not belong to the same financial conglomerate or banking group as that of the issuer of securities. A Bangko Sentral-accredited securities custodian must be a third party that does not belong to the same financial conglomerate or banking group as that of the issuer and seller of securities held under custody. A bank accredited by Bangko Sentral as securities custodian may, however, continue holding securities it sold under the following cases:

- a. where the purchaser is a related entity acting in its own behalf and not as agent or representative of another;
- b. where the purchaser is a non-resident with existing global custody agreement governed by foreign laws and conventions wherein the bank is designated as custodian or sub-custodian; and
- c. upon approval by the Bangko Sentral, where the purchaser is an insurance company whose custody arrangement is either governed by a global custody agreement where the bank is designated as custodian or sub-custodian or by a direct custody agreement with features at par with the standards set under this Section drawn or prepared by the parent company owning more than fifty percent (50%) of the capital stock of the purchaser and executed by the purchaser itself and its custodian.

Purchases by non-residents and insurance companies that are exempted from the independence requirement of this Section shall, however, be subject to all other provisions of this Section.

Registry of Scripless Securities of the Bureau of the Treasury. The Registry of Scripless Securities (RoSS), operated by the Bureau of the Treasury, which is acting as a registry for government securities is deemed to be automatically accredited for purposes of this Section and is likewise exempted from the independence requirement under Sec. 431 (*Independence of the registry and custodian*). Securities registered under the RoSS shall be delivered in accordance with the guidelines set forth in *Appendices 66 and 67*.

Confidentiality. A Bangko Sentral-accredited securities custodian/registry shall not disclose to any unauthorized person any information relative to the securities under its custodianship/registry. The Management shall likewise ensure the confidentiality of client accounts of the custody or registry unit from other units within the same organization.

Compliance with Anti- Money Laundering laws/regulations. For purposes of compliance with the requirements of R.A. No. 9160, otherwise known as the "Anti-Money Laundering Act of 2001," as amended, particularly the provisions regarding customer identification, record keeping and reporting of suspicious transactions, a Bangko Sentral- accredited custodian may rely on referral by the seller issuer of securities: *Provided*, That it maintains a record of such referral together with the minimum identification, information/documents required under the law and its implementing rules and regulations.

A Bangko Sentral-accredited custodian must maintain accounts only in the true and full name of the owners of the security. However, said securities owners may be identified by number or code in reports and correspondences to keep his identity confidential.

Basic security deposit. Securities held under custodianship whether booked in the Trust Department or carried in the regular books of the bank shall be subject to a security deposit for faithful performance of duties at the rate of 1/25 of one percent (1%) of the total face value of securities held under custodianship, or P500 thousand whichever is higher.

However, securities held under custodianship where the custodian also performs securities lending as agent shall be subject to a higher basic security deposit of one percent (1%) of the total face value of securities held under custodianship.

Compliance shall be in the form of eligible government securities deposited with the Bangko Sentral, pursuant to existing regulations governing security for the faithful performance of trust and other fiduciary business under Sec. 417 (*Eligible securities to Compliance period; sanctions*).

Required Reports. An accredited securities custodian shall comply with the reportorial requirements, prescribed under Item “b” of Sec. 416 (*Compliance with the basic security deposit*).

Sanctions. Without prejudice to the penal and administrative sanctions provided for under Sections 36 and 37, respectively, of the R.A. No. 7653, violation of any provision of this Section shall be subject to the following sanctions/penalties:

a. *First offense –*

- (1) Fine of up to P10,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
- (2) Reprimand for the directors/officers responsible for the violation.

b. *Second offense –*

- (1) Fine of up to P20,000 a day for the institution for each violation reckoned from the date the violation was committed up to the date it was corrected; and
- (2) Suspension for ninety (90) days without pay of directors/officer responsible for the violation.

c. *Subsequent offenses –*

- (1) Fine of up to P30,000 a day for the institution for each violation from the date the violation was committed up to the date it was corrected;
- (2) Suspension or revocation of the authority to act as securities custodian and/or registry; and
- (3) Suspension for one hundred twenty (120) days without pay of the directors/officers responsible for the violation.

(Circular Nos. 1032 dated 15 February 2019, 998 dated 01 March 2018, and 873 dated 25 March 2015)

432 CUSTODY OF ASSETS

All moneys, properties or securities received by a bank in its capacity as trustee, fiduciary, or investment manager shall be kept physically separate and distinct from the assets of its other businesses and shall be under the joint custody of at least two (2) persons, one of whom shall be an officer of the trust or investment management department, designated for that purpose by the board of directors.

The investment of each trust, other fiduciary or investment management account shall be kept physically separated from those of other trust, other fiduciary or IMAs, and adequately identified as the assets or property of the relevant account.

433 FEES AND COMMISSIONS

A bank acting as trustee, fiduciary or investment manager shall be entitled to reasonable fees and commissions which shall be determined on the basis of the cost of services rendered and the responsibilities assumed: *Provided*, That where the trustee, fiduciary or investment manager is acting as such under appointment by a court, the compensation shall be that allowed or approved by the court: *Provided, further*, That in the case of UITFs, the fee which a trustee may charge each participant shall be fully disclosed by the trustee in the UITF plan, prospectus, flyers, posters and in all forms of advertising materials to market the funds and in the documents given to clients as proof of participation in the fund. In no case shall such fees and commissions be based on the excess of the income of the trust, other fiduciary or investment management funds over a certain amount or percentage.

No trustee, fiduciary or investment manager shall solicit or receive rebates on commissions, fees and other payments for the services rendered to the trust, other fiduciary or IMA or beneficiaries of the trust, other fiduciary or IMA by stockbrokers, real estate brokers, insurance agents and similar persons or entities unless the rebates, fees and other payments shall accrue to the benefit of the trust, other fiduciary or IMA or the beneficiaries thereof.

Officers and employees of the trust department or investment management department of banks, while serving as such, shall be prohibited from retaining any compensation for acting as co-trustee or fiduciary in the administration of a trust, other fiduciary or IMA.

No bank shall collect, for its own account, referral and/or arrangement fees, or any other fees that take the nature of payment to the bank from whatever source, in connection with loans sourced from trust funds managed by its trust department: *Provided*, That if such fees are collected, the same shall be properly disclosed to the trustor, and shall accrue to the benefit of the trust, in accordance with the provisions of Secs. 401 and 438.

The terms and conditions of trust, other fiduciary or investment management agreements including UITF plans shall contain provisions regarding the applicability of regulations governing taxation on the income of trust, other fiduciary or IMAs. For this purpose, the trustee, fiduciary or investment manager shall maintain adequate records and shall include information such as the amount of final income tax withheld at source and the amount withheld by the trustee, fiduciary or investment manager in the periodic reports submitted to trustors, beneficiaries, principals and other parties in interest.

With respect to tax-exempt UITFs, individual trust and IMAs established under Section 24(B)(1) of R.A. No. 8424, the bank's trust department or investment management department shall be responsible for obtaining the tax-exemption certifications which may be required by the BIR for the interest-bearing instruments where the UITFs, individual trust funds and investment management funds will be invested. Likewise, the banks shall ensure that the correct amount of final tax on the interest income on the interest-bearing instruments is withheld/deducted from the proceeds from the UITF participation, trust or IMA and remitted to the BIR in the event said tax becomes due such as when funds are withdrawn before the required five (5)-year holding period or when corporations happen to invest in the tax-exempt trust instruments created within the purview of R.A. No. 8424.

435 BOOKS, RECORDS, AND REPORTS REQUIRED

Books and Records. The bank's trust department or investment management department shall keep books and records on trust, other fiduciary and IMAs separate and distinct from the books and records of its other businesses and shall follow the FRPTI prescribed by the Bangko Sentral.

Each trust, other fiduciary or IMA shall have a record separate from all other accounts except only in the case of UITFs where the trustee can maintain common records utilizing pooled fund accounting method for each fund: *Provided*, That the trustee shall clearly indicate in the records the trustors owning participation in the UITF and the extent of the interest of such trustors. Books and records shall contain full information relative to each trust, other fiduciary or IMA and shall be supported by duplicate signed copies of related documents. Said records and duplicate signed copies of related documents shall be compiled and kept as to allow inspection by Bangko Sentral examiners and submission of information or reports as may be required by competent authorities.

The bank's trust department or investment management department shall maintain separate general ledger accounts and other relevant sub-accounts for tax- exempt individual trust accounts and individual management accounts established under Section 24(B)(1) of R.A. No. 8424 and Secs. 413 (for *tax-exempt individual trust accounts*), 415 (under *operating and accounting methodology*). The bank's trust department or investment management department shall also adopt appropriate systems, internal control procedures and audit trail mechanisms to ensure that the correct amount of final tax is withheld or exempted from such accounts.

Reports required to trustor, beneficiary, principal¹. An entity acting as trustee, fiduciary or investment manager shall render reports on the trust, other fiduciary or IMAs to the trustor, beneficiary, principal or other party in interest or the court concerned or any party duly designated by the court order, as the case may be. The reports shall be in such forms as to apprise the party concerned of the significant developments in the administration of the account and shall comply with the following guidelines:

- a. All clients shall be provided with a schedule of earning assets which contains the following information:
 - (1) Borrower's or issuer's name;
 - (2) Type of instrument;
 - (3) Collateral, if any;
 - (4) Principal amount or Acquisition cost;
 - (5) Market value;
 - (6) Marking-to-market gains or losses;
 - (7) Earning rate or yield;
 - (8) Amount of earnings/Accrued interest;
 - (9) Transaction date; and
 - (10) Maturity date, if any.
- b. Additional reports shall be required depending on the investment discretion as follows:
 - (1) For Discretionary accounts, the reports shall also consist of balance sheet, income statement; investment activity report; and Return on Investment report.
 - (2) For Non-discretionary accounts, a confirmation of transaction shall be required covering every purchase and sale instructions. It shall contain the following information:

¹ Trust entities shall be given six (6) months from 01 August 2017 to make appropriate changes in their policies, processes, and procedures in order to comply with the above requirements.

- (a) Transaction entered into;
 - (b) Borrower's or issuer's name;
 - (c) Amount involved;
 - (d) Terms of the security, including collateral, if any;
 - (e) Settlement price;
 - (f) Value date and settlement date; and
 - (g) Fees and charges related to the transaction.
- c. The reports, except for Item "b.(2)", shall be prepared in such frequency as required under the agreement but shall not in any case be longer than once every quarter; and
 - d. The reports shall be made available to clients not later than twenty (20) calendar days from the end of the reference date/period in Item "c" above.

Reports required to the Bangko Sentral. A bank acting as trustee, fiduciary or investment manager shall submit periodic reports prescribed by the appropriate supervising department of the Bangko Sentral on the bank's trust and other fiduciary business and investment management activities within the deadlines indicated in *Appendix 7*.

Audited financial statements. The trust/investment management department shall adopt the provisions of the PFRS/PAS in all respect, for purposes of preparing the AFS of its trust and other fiduciary and investment management activities. The guidelines under Sec. 172 shall be adopted.

(Circular Nos. 1074 dated 07 February 2020, 1023 dated 04 December 2018, 966 dated 11 July 2017, and 880 dated 22 May 2015)

436 AUDITS

Internal audit. The bank's internal auditor shall include among his functions, the conduct of annual audit of the trust department or investment management department. However, should the board of directors, in a resolution entered in its minutes, require the internal auditor to adopt a suitable continuous audit system to supplement and/or to replace the performance of the annual audit, the audit may be conducted in intervals commensurate with the assessed levels of risk in trust and investment management operations: *Provided*, That such intervals shall be supported and reassessed regularly to ensure appropriateness given the current risk and volume of the trust and investment management operations. In any case, the audit shall ascertain whether the institution's trust and other fiduciary business and investment management activities have been administered in accordance with laws, Bangko Sentral rules and regulations, and sound trust or fiduciary principles.

External audit. The trust and other fiduciary business and investment management activities of a bank shall be included in the annual financial audit by independent external auditors required under Sec. 174 (*Financial Audit*).

The audit of the assets and accountabilities of the trust department/investment management department of a bank authorized to engage in trust and other fiduciary business, investment management activities, which shall cover at the minimum a review of the trust investment management operations, practices and policies, including audit and internal control system, shall be subject to auditing standards to the extent necessary to express an opinion on the financial statements.

The audit of the trust/investment management department of a bank authorized to engage in trust and other fiduciary business/investment management activities shall be covered by a separate supplemental audit report to be submitted to the bank's board of directors and to the Bangko Sentral within the prescribed period containing, among other things, the complete set of financial statements of the trust/investment management department of a bank prepared in accordance with the provisions of Sec. 435 (*Audited financial statement*) together with the other information required by the Bangko Sentral to be submitted under Sec. 174 (*Financial Audit*): *Provided*, That a reconciliation statement of the balance sheet in the AFS and the FRPTI shall be prepared for each of the general categories of contractual relationships (i.e., UITF-trust, institutional-trust, and individual trust; other fiduciary; institutional-agency, and individual-agency; and special purpose trust) of the trust/investment management department of a bank with its clients following the format in *Appendix 90*.

Board action. A report of the foregoing audits, together with the actions thereon, shall be noted in the minutes of the board of directors of the bank.

(Circular No. 871 dated 05 March 2015)

437 AUTHORITY RESULTING FROM MERGER OR CONSOLIDATION

In merger of FIs, the authority to engage in trust and other fiduciary business and in investment management activities shall continue to be in effect if the surviving institution has such authority and the same has not been withdrawn by the Bangko Sentral. In case the surviving institution does not have previous authority but desires to engage in trust and other fiduciary business and in investment management activities, it shall secure the prior approval of the Monetary Board to engage in such business as part of its application for merger to enable it to incorporate such among its powers or purpose clause in its articles of incorporation, articles of merger, by-laws and such other pertinent documents.

In the consolidation of FIs where the resulting entity is an entirely new one, it shall secure from the Monetary Board an authority to engage in trust and other fiduciary business or in investment management activities before it may engage in such business.

438 NON-TRUST, NON-FIDUCIARY AND/OR NON-INVESTMENT MANAGEMENT ACTIVITIES

The basic characteristic of trust, other fiduciary and investment management relationship is the absolute non-existence of a debtor-creditor relationship, thus, there is no obligation on the part of the trustee, fiduciary or investment manager to guarantee returns on the funds or properties regardless of the results of the investment. The trustee, fiduciary or investment manager is entitled to fees/commissions which shall be stipulated and fixed in the contract or indenture and the trustor or principal is entitled to all the funds or properties and earnings less fees/commissions, losses and other charges. Any agreement/arrangement that does not conform to these shall not be considered as trust, other fiduciary and/or investment management relationship.

The following shall not constitute a trust, other fiduciary and/or investment management relationship:

- a. When there is a preponderance of purpose or of intent that the arrangement creates or establishes a relationship: other than a trust, fiduciary and/or investment management;
- b. When the agreement or contract is itself used as a certificate of indebtedness in exchange for money placement from clients and/or as the medium for confirming placements and investment thereof;
- c. When the agreement or contract of an account is accepted under the signature(s) of those other than the trust officer or subordinate officer of the trust department or those authorized by the board of directors to represent the trust officer;
- d. Where there is a fixed rate or guaranty of interest, income or return in favor of its client or beneficiary: *Provided, however,* That where funds are placed in fixed income-generating investments, a quotation of income expectation or like terms, shall neither be considered as arrangements with a fixed rate nor a guaranty of interest, income or return when the agreement or indenture categorically states in bold letters that the quoted income expectation or like terms is neither assured nor guaranteed by the trustee or fiduciary and it does not, therefore, entitle the client to a fixed interest or return on his investments: *Provided, further,* That any of the following practices or practices similar and/or tantamount thereto shall be construed as fixing or guaranteeing the rate of interest, income or return:
 - (1) Issuance of certificates, side agreements, letters of undertaking or other similar documents providing for fixed rates or guaranteeing interest, income or return;
 - (2) Paying trust earnings based on indicated or expected yield regardless of the actual investment results;
 - (3) Increasing or reducing fees in order to meet a quoted or expected yield;
 - (4) Entering into any arrangement, scheme or practice which results in the payment of fixed rates or yield on trust investments or in the payment of the indicated or expected yield regardless of the actual investment results; and
- e. Where the risk or responsibility is exclusively with the trustee, fiduciary or investment manager in case of loss in the investment of trust, fiduciary or investment management funds, when such loss is not due to the failure of the trustee or fiduciary to exercise the skill, care, prudence and diligence required by law.

Trust, other fiduciary and investment management activities involving any of the foregoing shall be reported as deposit substitutes and shall be subject to the reserve requirement for deposit substitutes from the time of inception, without prejudice to the imposition of the applicable sanctions provided for in Sections 36 and 37 of R.A. No. 7653.

439 RECEIVERSHIP

Whenever a receiver is appointed by the Monetary Board for a bank which is authorized to engage in trust and other fiduciary business or in investment management activities, the receiver shall, pursuant to the instructions of the Monetary Board, proceed to close the trust, other fiduciary and IMAs promptly and/or transfer all other accounts to substitute trustees, fiduciaries or investment managers acceptable to the trustors, beneficiaries, principals or other parties in interest: *Provided,* That where the trustee, fiduciary or investment manager is acting as such under appointment by a court, the receiver shall proceed pursuant to the instructions of said court.

440 SURRENDER OF TRUST OR INVESTMENT MANAGEMENT LICENSE

Any bank which has been authorized to engage in trust and other fiduciary business or in investment management activities and which intends to surrender said authority shall file with the Bangko Sentral a certified copy of the resolution

of its board of directors manifesting such intention. The appropriate supervising department of the Bangko Sentral shall then conduct an examination of the bank's trust, other fiduciary business and investment management activities. If the bank is found to have satisfactorily discharged its duties and responsibilities as trustee, fiduciary or investment manager, and has provided for the orderly closure or transfer of its trust, fiduciary or investment management accounts, the Monetary Board, on the basis of the recommendation of the examining department, shall order the withdrawal of the bank's authority to engage in trust and other fiduciary management activities.

E. GENERAL PROVISION ON SANCTIONS

499 SANCTIONS

Any violation of the provisions of this Part shall be subject to Sections 36 and 37 of R.A. No. 7653 without prejudice to the imposition of other sanctions as the Monetary Board may consider warranted under the circumstances that may include the suspension or revocation of a bank's authority to engage in trust and other fiduciary business or in investment management activities, and such other sanctions as may be provided by law.

In the case of non-compliance with the requirements of Secs. 401, 411-B/C Items f(2)(c)“(i) – (iii)” and Sec. 412 (specifically on *composition of trust committee, qualifications of committee members, officers and staff, and responsibilities of administration, and confirmation of the appointment/designation of trust officer and independent professional*) additional sanction may be imposed, which may include but not limited to, curtailment of fiduciary activities and/or introduction of new business.

The guidelines for the imposition of monetary penalty for violations/offenses with sanctions falling under Section 37 of R.A. No. 7653 on banks, their directors and/or officers are shown under Section 1102 (*Guidelines on the imposition of monetary penalties*).

(Circular No. 988 dated 20 December 2017)

PART FIVE

MANUAL OF REGULATIONS ON FOREIGN EXCHANGE TRANSACTIONS

(Please refer to separate Manual on Foreign Exchange Transactions)

PART SIX

TREASURY AND MONEY MARKET OPERATIONS

A. MONETARY OPERATIONS OF THE BANGKO SENTRAL

601 MONETARY OPERATIONS

Monetary operations refer to the buying/selling of government securities, lending/borrowing against underlying assets as collateral, acceptance of fixed-term deposits, foreign exchange swaps, and other monetary instruments of the Bangko Sentral aimed at influencing the underlying demand and supply conditions for money.

The following rules and regulations shall govern the buying and selling of government securities in the open market, pursuant to Section 91 of R.A. No. 7653:

- a. The Bangko Sentral may buy and sell in the open market for its own account:
 - (1) Evidences of indebtedness issued directly by the Government of the Philippines or its political subdivisions; and
 - (2) Evidences of indebtedness issued by government instrumentalities and fully guaranteed by the Government.

The above evidences of indebtedness must be freely negotiable and regularly serviced. Purchases and sales in the open market shall be made through banks, QBs and accredited government securities dealers.
- b. Outright purchases and sales of government securities shall be effected at prevailing market prices.
- c. Repo agreements shall be open to banks (except RBs), QBs, and accredited government securities dealers and shall be made under the terms provided for under this Section on Repurchase agreements with Bangko Sentral and the following:
 - (1) The repo agreement may be paid at any time before maturity, subject to mutual agreement of both parties;
 - (2) In the event the securities covered by the repo agreement are not repurchased by the issuer of such agreement, the same may be sold in the open market or transferred to the Bangko Sentral portfolio; and
 - (3) Should an issuer of a repo agreement become no longer qualified as such, its outstanding repo agreement shall immediately become due and payable. If settlement of the amount due is not made within three (3) days from the date of its disqualification, the Bangko Sentral shall proceed to collect said amount in accordance with the preceding paragraph.
- d. Reverse repo agreements covering the sale of portion of the security holdings of the Bangko Sentral portfolio may be made under the terms provided for under this Section on Reverse repurchase agreements with Bangko Sentral.
- e. The purchase and sale of government securities by the National Treasury and government-owned or controlled corporations shall be made only with (a) the Bangko Sentral; (b) the DBP, the LBP, the SSS, the GSIS, the Al-Amanah Islamic Investment Bank of the Philippines and banks that are wholly-owned or controlled by these institutions; and (c) the Philippine Veterans Bank. Transactions shall be done with the bank proper and not through its trust department.

Repurchase agreements with Bangko Sentral.

- a. Repo agreements may be entered into with the Bangko Sentral subject to the following terms and conditions:
 - (1) *Rate.* The rates on repo transactions shall be determined by auction, based on guidelines as prescribed by the Bangko Sentral.
 - (2) *Term.* The tenor of the repo agreement shall be set by the Bangko Sentral.
 - (3) *Security.* Only direct obligations of the National Government and its instrumentalities and political subdivisions, which are fully guaranteed by the Government, with a remaining maturity of at least six (6) days and longer than the tenor of the Repo Agreement and which are freely negotiable, unencumbered, and regularly serviced, shall be eligible as underlying instruments for repo agreements subject to the collateral requirement prescribed by the Bangko Sentral.
 - (4) *Delivery.* Delivery of the underlying instruments shall be made to the Bangko Sentral at the prescribed time based on guidelines as prescribed by the Bangko Sentral.
 - (5) At the maturity of the repo agreement, the Bangko Sentral Treasury Department shall return the underlying instruments to the issuer of such agreement.

- b. US dollar (USD) denominated repo agreement facility may likewise be entered into with the Bangko Sentral, subject to the following terms and conditions, and as may be provided under the repo agreement facility:
 - (1) *Eligible borrowers.* The USD denominated repo facility shall only be available to banks with legitimate foreign currency denominated funding needs as may be provided under the repo facility: *Provided*, That the borrowing shall be for the account of the applicant bank and shall not be used to fund liquidity requirements of foreign branches, affiliates, or subsidiaries.
 - (2) *Security.* Only USD denominated obligations of the National Government of the Republic of the Philippines shall be eligible as collateral.
 - (3) The guidelines on the availment of USD repo agreement with the Bangko Sentral are shown in *Appendix 89*.

The Monetary Board may, at its discretion, impose any or all of the following sanctions to a bank and/or its director/s or officer/s found to be responsible for violation of the provisions on the terms and conditions of the USD-denominated repo agreement with the Bangko Sentral:

- (1) Termination of eligibility and pre-termination of any outstanding balance through repayment and/or sale of the collateral;
- (2) Fine of up to P30,000 per transaction per day of violation reckoned from the time the violation was committed up to the date it is corrected;
- (3) Suspension of interbank clearing privileges/immediate exclusion from clearing;
- (4) Suspension of access to Bangko Sentral rediscounting facilities;
- (5) Suspension of lending or foreign exchange operations or authority to accept new deposits or make new investments;
- (6) Revocation of authority to perform trust operations;
- (7) Revocation of quasi-banking license;
- (8) Suspension for 120 days without pay of the officers and/or directors responsible for the violation; and
- (9) Other sanctions as may be provided by law.

Reverse repurchase agreements with the Bangko Sentral. *Reverse Repurchase Agreement (RRP)* refers to the Bangko Sentral's monetary instrument where the Bangko Sentral sells government securities with a commitment to buy them back at a later date. RRP's shall be open to banks (UBs/KBs and TBs) and NBQBs. These counterparties may enter into RRP transactions with the Bangko Sentral by participating in the RRP auction operation and said transactions with the Bangko Sentral shall be subject to the following terms and conditions:

- a. *Rate.* The interest rate on the RRP facility shall be set by the Bangko Sentral in accordance with its monetary policy decision making.
- b. *Term.* Tenors shall be set at a minimum of one (1) day (overnight) and a maximum of 364 days, or as determined by the Bangko Sentral.
- c. *Auction schedule.* RRP auctions will be held regularly based on a schedule prescribed by the Bangko Sentral.
- d. *Volume.* The auction size will be determined by the Bangko Sentral based on its assessment of liquidity conditions.
- e. *Eligible security.* The underlying securities shall consist of securities representing obligations of the National Government. Such securities shall be valued at 100%. The Bangko Sentral shall prescribe the rules for the constructive delivery of securities.
- f. Access to the RRP facility shall be governed by guidelines issued by the Bangko Sentral.

RRPs entered into by the Bangko Sentral with any AAB are included in the definition of the term "deposit substitutes" under Sec. 22 (y) Chapter 1 of the National Internal Revenue Code of 1997.

The Bangko Sentral shall withhold twenty percent (20%) Final Withholding Tax (FWT) on its interest payments on RRP's, under the following guidelines:

- (1) All overnight RRP's with the Bangko Sentral shall be subject to the twenty percent (20%) FWT, which is deducted from interest payments on each maturity date, for remittance to the BIR; and
- (2) The Bangko Sentral shall withhold the twenty percent (20%) FWT from the concerned banks interest income from RRP's with the Bangko Sentral upon payment or accrual, whichever comes first.

The concerned banks shall bear the direct liability for, and the payment of, the Gross Receipts Tax (GRT) due on the interest payments above.

Settlement procedures on the purchase and sale of government securities under repurchase agreements with the Bangko Sentral. Purchase and sale of government securities under repo agreements (GS/repo agreements) between and among banks and QBs and Bangko Sentral in connection with the latter's open market operations shall be settled in accordance with the provisions of the agreement for the PhilPaSS executed on 12 December 2002 between the Bangko Sentral and BAP/CTB/RBAP and any subsequent amendments thereto.

Borrowings from the Overnight Lending Facility (OLF) of the Bangko Sentral. The OLF is a Bangko Sentral standing facility which allows counterparties to obtain overnight liquidity from the Bangko Sentral on an open-volume basis against eligible collateral in order to cover short-term liquidity requirements. The OLF shall be open to banks (UBs/KBs and TBs) and NBQBs.

Counterparties may avail of borrowings from the Bangko Sentral's OLF subject to the following terms and conditions:

- a. *Rate.* The interest rate on borrowings from the OLF shall be set by the Bangko Sentral in relation to the policy interest rate.
- b. *Term.* Tenor shall be for one (1) day only.
- c. *Volume.* Open volume, limited only by the eligible collateral offered by the availing counterparties.
- d. *Eligible collateral.* Only direct obligations of the National Government or of its instrumentalities and political subdivisions which are fully guaranteed by the Government, with a remaining maturity of not less than six (6) days and which are freely negotiable and are unencumbered, shall be eligible as collateral. The Bangko Sentral shall prescribe rules for the delivery of collateral.
- e. *Operating hours.* The OLF is available on demand to eligible counterparties during trading hours as prescribed by the Bangko Sentral.

Overnight deposits with Bangko Sentral.¹ The Overnight Deposit Facility (ODF) is a Bangko Sentral standing facility which allows banks (UBs/KBs and TBs), and NBQBs to place overnight deposits with the Bangko Sentral, subject to the following terms and conditions:

- a. *Rate.* The interest rate on the overnight deposit facility shall be set by the Bangko Sentral in relation to the policy interest rate.
- b. *Term.* Tenor shall be one (1) day only.
- c. *Volume.* No limit.
- d. *Operating hours.* The ODF is available on demand to eligible counterparties during trading hours as prescribed by the Bangko Sentral.
- e. Access to the ODF shall be governed by guidelines issued by the Bangko Sentral.

The Bangko Sentral shall withhold the twenty percent (20%) FWT on its interest payments on overnight deposit transactions, under the following guidelines:

- (1) All overnight deposit transactions with the Bangko Sentral shall be subject to the twenty percent (20%) FWT, which is deducted from interest payments on each maturity date, for remittance to the BIR; and
- (2) The Bangko Sentral shall withhold the twenty percent (20%) FWT from the concerned banks' interest income from overnight deposits with the Bangko Sentral upon payment or accrual, whichever comes first.

The concerned banks shall bear the direct liability for, and the payment of, the GRT due on the interest payments above.

The Bangko Sentral Term Deposit Facility (TDF). The TDF is a key liquidity absorption facility of the Bangko Sentral used to withdraw liquidity from the system in bulk.² Term deposit transactions shall be open to banks (UBs/KBs and TBs), and NBQBs and may be effected with the Bangko Sentral subject to the following terms and conditions:

- a. *Rate.* The interest rates shall be determined by auction, based on guidelines as prescribed by the Bangko Sentral.
- b. *Term.* The tenor of term deposits shall be set by the Bangko Sentral.
- c. *Auction Schedule.* TDF auctions will be held on a weekly basis or as determined by the Bangko Sentral.
- d. *Volume.* The auction size will be determined by the Bangko Sentral and announced with an appropriate lead time ahead of the auction date.
- e. Placements in the TDF shall be governed by guidelines issued by the Treasury Department of the Bangko Sentral.

¹ The Monetary Board, in its Resolution No. 1945 dated 27 October 2016 approved the discontinuance of access of trust entities to the Bangko Sentral deposit facilities. Trust entities shall no longer have outstanding placement in the ODF and TDF by 30 June 2017.

² The TDF also refers to the Term Deposit Auction Facility in Participation Agreements and Rules and Regulation pertaining to the Bangko Sentral facilities under the Monetary Operations System.

The Bangko Sentral shall withhold the twenty percent (20%) FWT on its interest payments on term deposit transactions, under the following guidelines:

- (1) All term deposit transactions with the Bangko Sentral shall be subject to the twenty percent (20%) FWT, which is deducted from interest payments on each maturity date, for remittance to the BIR; and
- (2) The Bangko Sentral shall withhold the twenty percent (20%) FWT from the concerned banks interest income from the term deposits with the Bangko Sentral upon payment or accrual, whichever comes first.

The concerned banks shall bear the direct liability for, and the payment of, the GRT due on the interest payments above.

The Bangko Sentral Issued Securities (Bills and Bonds). The issuance of Bangko Sentral Securities is an additional monetary instrument for liquidity management. Issued Bangko Sentral Securities shall be offered to banks (UBs, KBs, and TBs), subject to the rules and guidelines issued by the Bangko Sentral. The Bangko Sentral issued Securities shall be subject to the following terms and conditions:

- a. Rate. The interest rates shall be determined by auction, based on the guidelines as prescribed by the Bangko Sentral.
- b. Term. The tenor of the issued Bangko Sentral Securities shall be set by the Bangko Sentral.
- c. Auction Schedule. Issued Bangko Sentral Securities shall be held on a weekly basis or as determined by the Bangko Sentral.
- d. Volume. The auction size shall be determined by the Bangko Sentral and to be announced with sufficient lead time ahead of the auction date.
- e. Placements in the Bangko Sentral Securities Facility (BSP-SF) shall be governed by guidelines issued by the Bangko Sentral.
- f. Currency. Denomination shall be in Philippine peso.
- g. Buy-back/Early Redemption Feature. The Bangko Sentral has the right to buyback or redeem Bangko Sentral Securities. The Bangko Sentral shall announce its intent to buy-back or redeem outstanding Bangko Sentral securities prior to its Maturity Date, at par and by lot, subject to the terms and conditions as may be determined by the Bangko Sentral.
- h. Secondary market trading. Issued Bangko Sentral Securities shall be available for trading in the secondary market and shall be done on the trading platform operated by the Philippine Dealing and Exchange Corporation (PDEX). Banks (UBs, KBs, and TBs) are eligible traders of Bangko Sentral Securities in the secondary market, subject to the rules and guidelines issued by the Bangko Sentral. The trading and Settlement Window/Timeline for secondary market transactions shall follow the Self-Regulatory Organization (SRO) Rules, Guidelines and Conventions. In case of extensions or amendments related trading and settlement hours, these shall be made in close coordination with SEC, PDEX and related parties in the secondary market.

The Bangko Sentral shall withhold the twenty percent (20%) FWT on its coupon payments and discounts on issued Bangko Sentral securities transactions, under the following guidelines:

- (1) Coupon earned on all issued Bangko Sentral Securities transactions with the Bangko Sentral shall be subject to the twenty percent (20%) FWT, which tax is deducted on each maturity date and remitted to the BIR;
- (2) Discount on issued Bangko Sentral Securities shall be subject to the twenty percent (20%) FWT, which tax shall be paid upon issuance of the issued Bangko Sentral Security to form part of the net settlement amount; and
- (3) The Bangko Sentral shall withhold the twenty percent (20%) FWT from the concerned banks coupon receipts from issued Bangko Sentral Securities transactions upon payment or accrual, whichever comes first.

The concerned banks shall bear the direct liability for, and payment of the GRT due on the coupon payments above.

Bangko Sentral trading windows and services during Philippine holidays. The guidelines on Bangko Sentral's trading windows and services during Philippine holidays are shown in *Appendix 88*.

Prohibition against funds from non-residents being accepted in the TDF and ODF and BSP-SF (primary and secondary markets). The TDF, ODF, and BSP-SF are monetary instruments deployed by the Bangko Sentral for the purpose of managing domestic liquidity in the financial system. These facilities should not be made available for opportunistic investment activities funded from non-resident sources. Further, placements in the TDF, the ODF and the BSP-SF are contractual in nature and thus shall be governed by the intent of the contracting parties. In keeping with the nature of these facilities, counterparties of the Bangko Sentral, shall comply with the Guidelines on the Prohibition Against the Use of Funds from Non-Resident Sources for Placements in the Bangko Sentral's TDF, the ODF and the BSP-SF, as shown in *Appendix 82*.

(Circular Nos. 1095 dated 8 September 2020, 1043 dated 2 August 2019, 995 dated 5 February 2018, 961 dated 02 June 2017, M-2016-016 dated 18 November 2016, Circular Nos. 921 dated 22 August 2016, and 913 dated 02 June 2016)

Policy statement. Financial crises and other emergency situations may lead to severe shortage in PHP liquidity that may curtail financing activities in the Philippines and affect the Philippine economy. The establishment of the JPY/PHP Swap Facility in the Philippines allows banks operating in the Philippines to access PHP liquidity against said banks' JPY holdings.

Availment of the JPY/PHP Swap Facility. Banks may avail of the JPY/PHP Swap Facility from the Bangko Sentral during emergency situations.

For purposes of this facility, an "emergency situation" arises when a bank is under a state of severe shortage of PHP liquidity or under serious financial pressures brought about by unforeseen events or events which though foreseeable, cannot be prevented by the bank concerned.

Eligibility requirements. A bank can avail of the JPY/PHP Swap Facility provided it has met the following eligibility requirements:

- a. Has established the presence of an "emergency situation" as defined under this Section on Availment of the JPY/PHP Swap Facility;
- b. Has JPY holdings which can be delivered and deposited to the Bangko Sentral's account at the BOJ;
- c. Has a CAMELS/ROCA composite rating of at least "3" and a Management/Risk Management component rating of at least "3" in the latest Report of Examination;
- d. Has no unsafe or unsound banking cited in the latest Report of Examination; and
- e. Has complied with the minimum capital requirement and risk-based CAR as provided under applicable and existing capital adequacy framework.

The bank shall submit an application letter to the appropriate supervising department of the Bangko Sentral, copy furnished the Treasury Department (TD), along with the following documents:

- a. A certification under oath that the applicant bank meets the eligibility requirements and a declaration that there is an emergency situation in the bank as defined under this Section on Availment of the JPY/PHP Swap Facility.
- b. A duly notarized secretary's certificate together with a copy of the resolution of the board of directors of the bank (or its equivalent in the case of foreign bank branches):
 - (1) Authorizing the application for the JPY/PHP Swap Facility of the Bangko Sentral;
 - (2) Indicating the bank's purpose for the availment and amount to be availed of under the JPY/PHP Swap Facility with supporting documents that indicate the existence of an emergency situation as defined under this Section Availment of the JPY/PHP Swap Facility and certifying that the PHP proceeds of the JPY/PHP Swap Facility shall be utilized by the bank to address PHP liquidity needs specified in its application as approved by the Bangko Sentral;
 - (3) Committing to deposit the JPY currencies to the account of the Bangko Sentral at the BOJ in exchange for the PHP liquidity that it will receive from the Bangko Sentral;
 - (4) Committing to comply with the guidelines set forth under this Section and other terms and conditions that may be imposed by the Bangko Sentral; and
 - (5) Designating authorized officers to sign and execute an agreement and other relevant documents in connection with the availment of the JPY/PHP Swap Facility.

The bank shall execute with TD a Master Swap Agreement (MSA) which TD will provide containing the following provisions, among others:

- a. **Valuation of JPY.** A haircut on the JPY shall be determined by the TD. The TD may make margin calls, as necessary, to cover changes in the value of the JPY against the PHP.
- b. **Pricing and terms.** The price of the JPY/PHP swap transaction shall be determined by the TD, taking into account prevailing liquidity/market conditions. A maximum tenor of thirty (30) days shall apply. Trading time shall be set from 10:00 AM to 12:00 NN, then from 2:00 PM to 3:00 PM.
- c. **Pretermination.** Bangko Sentral shall have the right to terminate any transaction in any of the following events:
 - (1) Funds from the transaction are found to have been used by the bank for purposes other than those they were originally approved for and specified in its application; or
 - (2) Any misrepresentation by the bank.

In addition, any outstanding transaction may be terminated at any time before maturity, subject to mutual agreement of both parties.

Delivery of the JPY to the BOJ. In exchange for the PHP liquidity, banks shall deliver the required amount of JPY to the BOJ. The Bangko Sentral will hold the JPY in its JPY account at BOJ for the term of the JPY/PHP swap transaction.

Allowable amounts. The amount of PHP that may be availed of by the bank will be determined by the Bangko Sentral taking into account, among others, the amount applied for and the bank's JPY holdings.

Execution. The TD will advise the bank of the approval of the swap transaction and execute it in accordance with the MSA referred in Sec. 602 (*Eligibility Requirements*).

Enforcement actions. Consistent with Sec. 002, the Bangko Sentral may employ the appropriate enforcement tools to ensure compliance with the rules and regulations for the operation of the JPY/PHP Swap Facility, including the imposition of sanctions on the bank and/or its directors, officers and/or employees.

The imposition of sanctions shall be without prejudice to the application of administrative sanctions under Section 37 of R.A. No. 7653 (The New Central Bank Act) and/or to the filing of appropriate criminal charges against culpable persons as provided under Sections 34, 35, and 36 of R.A. No. 7653 for refusing to make reports or permit examination, making a false/misleading statement or for willfully violating banking laws or any order, instruction, rule or regulation issued by the Monetary Board.

(Circular No. 919 dated 02 August 2016)

B. TREASURY OPERATIONS OF BANKS

611 TREASURY OPERATIONS

Policy statement. The Bangko Sentral is cognizant that treasury activities may expose BSFIs to significant risks along with profitable opportunities. These regulations are being issued to set out minimum expectations on BSFIs' treasury activities pursuant to Section 4 of R.A. No. 8791 or the General Banking Law of 2000, which recognizes the authority of the Bangko Sentral to issue rules of conduct and establish standards of operation for its supervised financial institutions. These regulations, which cover the governance and operation of the trading function, among others, are aligned with the thrust of the Bangko Sentral to ensure that the activities of BSFIs are undertaken with prudence and integrity, and that these are supported by commensurate risk management systems and internal controls.

Treasury operations.¹ A BSFI's treasury activities may be a significant source of operational risk,² apart from giving rise to market, liquidity and credit risks.³ Losses to the institution may arise from the failure to meet professional obligations to clients, faulty product design, unethical business practices, and the failure to execute transactional processes. The institution must likewise be cognizant of the increased exposure to reputational risk in the presence of such factors.

In this regard, the operational risk management framework for treasury activities shall include the following elements: a strong governance structure that safeguards the integrity of the Treasury unit, especially the trading function; comprehensive policies and procedures; effective internal controls; a reliable management information system that facilitates the comprehensive monitoring and timely reporting of exposures; and a robust process for dealing with clients.

The BSFI shall:

- a. Conduct its treasury activities with a high degree of integrity. Consistent with the principles embodied in Sec. 132 (Specific duties and responsibilities of the board of directors), the board of directors shall be primarily responsible for establishing the tone of good governance from the top and setting standards of appropriate and ethical behavior for itself, senior management, and other employees. The board shall ensure compliance with market conduct rules, and the relevant requirements and standards of any regulatory body, professional body, clearing house or exchange, or government and any of its instrumentalities/agencies.

In accordance with the board's duty to articulate acceptable and unacceptable activities, transactions and behaviors (collectively referred to as "unacceptable practices"), it must adopt a code of conduct and standards of practice that are binding on the Treasury unit, especially personnel involved in risk-taking. The code and standards should highlight and provide specific guidance on upholding market integrity and professionalism. Unacceptable practices refer to (a) practices that undermine market integrity, which include engaging in trading transactions which have the effect, or are likely to have the effect, of creating a false or misleading appearance of active trading in any security, currency or commodity, or with respect to the market for, or the price of, any security, currency or commodity (e.g., pre-arranged transactions, wash sales, painting the tape and marking the close), and (b) practices that result in the misstatement of the BSFI's financial condition, results of operations, disclosures and prudential reports. The code and standards should likewise include safeguards to prevent conflict of interest or self-dealing in any form when allowing personnel to deal for their own account.

¹ This section should be read in conjunction with existing regulations on Operational Risk Management.

² *Operational risk* refers to the risk of loss resulting from inadequate or failed internal processes, people and systems; or from external events. This definition includes legal and compliance risks.

³ BSFIs should refer to Sec. 144 for the Guidelines on Market Risk Management, Sec. 145 for the Guidelines on Liquidity Risk Management and Sec. 143 for the Guidelines on Sound Credit Risk Management Practices.

The code and standards shall be complementary to any codes adopted by the entire institution, as well as those promulgated by the industry. It is likewise the responsibility of the board to institute mechanisms to ensure compliance with the provisions of the code of conduct and the standards of practice, as well as to mete out appropriate sanctions for violations thereof.

- b. Conduct treasury activities within a board-approved structure that is designed to meet the BSFI's objectives while enabling the strict enforcement of controls. The structure shall clearly distinguish between different functions (e.g., between asset-liability management, trading/leadership, underwriting, and brokering) and recognize the need for effective separation between operational units. The scope of authority and responsibility of each personnel shall be adequately defined, documented, and clearly communicated.
- c. Appoint personnel who possess a high degree of integrity and sufficient expertise to understand the financial instruments dealt and transactions entered into by the Treasury unit. These qualifications shall not only apply to personnel who originate and process the transactions but also to those who are responsible for reviewing the transactions' conformity to the BSFI's accepted trading practices. There shall likewise be manpower adept at operating and maintaining the management information system (MIS).
- d. Segregate the duties of the front, risk control and back office functions. The dealers in the front office are primarily responsible for transacting and managing positions. In this regard, the settlement and confirmation of transactions, the recording of contracts in the accounting system, the revaluation of positions, the reconciliations and procedures required to avoid errors, and other related processes in the back office shall be performed outside the dealing room to ensure objectivity and to prevent manipulation or fraud. There should be comprehensive and well-documented policies and procedures that describe the activities performed by each function.
- e. Provide for the prompt evaluation and escalation of suspicious trading trends and patterns, and unusual gains or losses. While the primary responsibility for ensuring that transactions are undertaken with integrity lies with front office personnel, there should be units tasked to perform reviews of treasury activities. The unit responsible for executing such reviews shall be independent from the risk-taking function and accorded sufficient resources and stature in the institution. In this way, it shall be empowered to quickly escalate any activity that seems unusual or inconsistent with compliance, the financial and operational controls to the appropriate authorities. "*Appropriate authorities*" shall refer to persons, units, or committees that are independent of the Treasury function and its management but possess equivalent or higher stature, such as the chief executive officer, the chief compliance officer, or the board-level committee. Personnel tasked to perform reviews shall have, among others, sufficient understanding of the strategies engaged in by trading desks to allow them to evaluate whether trading activities are aligned with the risk appetite of the financial institution.
- f. Regularly and actively engage the control functions namely, risk management, internal audit and compliance, in the oversight of treasury activities. Owing to their inherent responsibilities and stature within the BSFI, the control functions are well placed to perform reviews and render assessment of the Treasury unit and its activities. The operational risk management framework shall include tools and mechanisms to identify, measure, monitor and control risks in all aspects of treasury operations. As an example, risk and performance indicators may consist of those that identify errors in deal entry, track the cancellation of deals, analyze unusual trading activity, and flag limit exceptions, among others. Meanwhile, the compliance function/system referred to in Sec. 161 is responsible for the regular conduct of reviews to ensure that the BSFI's activities conform to applicable laws, rules, and regulations, including securities laws, as well as its obligations as a market participant. Lastly, internal audit shall be tasked with evaluating the Treasury unit's compliance with the BSFI's own policies and procedures, especially in the conduct of trading activities, in accordance with Sec. 163 (*Duties and responsibilities of the internal audit function or the chief audit executive*). The scope of internal audit shall likewise include the review of the performance of risk management and compliance duties in respect of treasury activities.
- g. Employ treasury systems that are able to support the volume and complexity of the treasury transactions in the areas of deal entry, confirmation, settlement and accounting. Institutions that engage in heavy trading should endeavor to move to the use of straight-through processing to minimize input errors. On the other hand, institutions whose processes involve manual intervention should ensure that the integrity of data is preserved through proper controls.
- h. Ensure that the MIS is able to serve the needs of its users. The MIS should enable the accumulation and production of accurate and timely financial, regulatory, and management reports. At a minimum, management reports should highlight trading positions, profits/losses, and limit utilization. If the institution uses more than one (1) system for its information needs, it should establish controls and perform reconciliations to minimize the likelihood of producing corrupted consolidated data.
- i. Subject new products to a rigorous approval process. The handling of new products shall be embodied in an internal policy that, among others, defines the circumstances under which a product shall be considered "new". The policy shall likewise contain guidelines for the review of the product, including the conduct of an analysis of its risks, costs and benefits to the institution; the identification of product features, uses, and target markets, as applicable; potential risks and mitigants to such risks; and the procedures involved in operationalizing the product. The policy shall identify the stages within the product development process at which approvals shall be obtained and from whom. All relevant units should sign off on the product program as part of the new product approval process.

- j. Act with honesty, fairness, and professionalism, and pursue the best interests of its clients. Due to the increasingly sophisticated products being introduced in the market, a BSFI acting as a dealer or broker shall have a clearly articulated strategy for the sale and marketing of financial products. The BSFI is expected to manage the risks arising from such activities and protect the interest of its clients. In this regard, a BSFI shall have appropriate policies, procedures and controls in place to ensure the suitability of products being offered to its clients. It shall ensure that (1) the client understands the nature of the transaction and the risks involved and (2) the transaction meets the client's financial objectives and is aligned with his/its risk tolerance. It shall also provide sufficient, accurate and comprehensible information about the products, including inherent risks, in a clear and balanced manner to enable its clients to make informed financial decisions. The BSFI shall likewise use reasonable diligence to ascertain the best market for the products offered to customers and buy and sell in such market so that the result to the customer is as favorable as possible under prevailing market conditions.

Management should refer to the existing Consumer Protection Framework and Sales and Marketing Guidelines under Sec. 612.

- k. Uphold accountability in its treasury activities by retaining reliable, accurate, and complete records of transactions. In accordance with Sec. 001, deals or transactions that are consummated orally or in written form should be coured through official recorded media. It shall be the responsibility of the BSFI to ensure that other parties to the transaction are aware that a record of the same is being made and shall be deemed part of the formal documentation of the BSFI's transactions. Moreover, it shall also be the responsibility of the BSFI to inform its counterparties that the records of such transactions may be disclosed to regulators. To ensure effective compliance with these requirements, the official telephone lines used by the BSFI to consummate deals or transactions should have an automatic voice-prompted announcement at the start of the conversation/transaction between the BSFI and its counterparties stating that: (1) said conversation/transaction will be recorded; and (2) the recording and/or contents thereof may be disclosed to regulators. The recordings of the conversations and any other records of the exchanges pertaining to the said deals or transactions should be placed under custody of an independent unit and stored in a manner that is practicable to retrieve.

The failure of an institution covered by these guidelines to consistently observe the same may be considered by the Bangko Sentral as conducting business in an unsafe or unsound manner, subject to applicable provisions of laws and regulations.

Supervisory enforcement actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in these guidelines and bring about timely corrective actions and compliance with Bangko Sentral directives. In this regard, the Bangko Sentral may, among others, issue directives to refrain from engaging in treasury activities with serious supervisory issues. Sanctions may likewise be imposed on the BSFI and responsible persons, which may include restrictions or prohibitions from certain authorities/activities; and warning, reprimand, suspension, removal and disqualification of concerned directors, officers and employees.

(Circular No. 1088 dated 11 May 2020, 972 dated 22 August 2017, 969 dated 22 August 2017, 957 dated 17 April 2017, and 889 dated 02 November 2015)

612 SALES AND MARKETING GUIDELINES FOR FINANCIAL PRODUCTS¹

General principles. A BSFI shall always act with honesty, fairness, and professionalism, and pursue the best interests of its clients. Due to the increasingly sophisticated products being introduced in the market, a BSFI acting as a dealer or broker shall have a clearly articulated strategy for the sale and marketing of financial products. The BSFI is expected to manage the risks arising from such activities and protect the interest of its clients. In this regard, a BSFI shall have appropriate policies, procedures and controls in place to ensure the suitability of the products being offered to its clients. It shall ensure that (1) the client understands the nature of the transaction and the risks involved and (2) the transaction meets the client's financial objectives and is aligned with the client's risk tolerance. It shall also provide sufficient, accurate and comprehensible information about the products, including inherent risks, in a clear and balanced manner to enable its clients to make informed financial decisions.

The BSFI shall be guided by the principle of proportionality in setting policies and procedures for its sales and marketing activities. It shall differentiate between less and more sophisticated clients, and tailor the manner by which they are engaged in accordance with such sophistication. Controls shall be in place to ensure that the BSFI complies with its internal policies and procedures, as well as relevant rules and regulations. At the minimum, BSFIs must satisfy the expectations set out in these guidelines.

The BSFI's sales and marketing policies, procedures and controls shall form part of its consumer protection risk management system, consistent with the regulations on financial consumer protection set forth under Part Ten.

Scope of application. These guidelines prescribe the minimum standards for sales and marketing activities of BSFIs acting as dealers or brokers of financial products.

¹ BSFIs shall be given three (3) months from 28 November 2015 to make appropriate changes in their sales and marketing policies, processes and materials in order to comply with the requirements of this Section.

These shall apply to all banks and non- bank financial institutions performing quasi- banking functions. Trust departments shall not be covered by these regulations; they shall continue to be governed by the provisions of Part IV as applicable. Likewise, cross-selling activities shall not be covered by these guidelines; they shall be governed by the provisions of Sec. 113.

Definition of terms. For purposes of this Section, the following terms shall have the meanings set forth below:

- a. *Financial products* – refer to debt and equity securities, hybrid securities, derivatives as defined under Sec. 613, securitization structures, and similar products with substantial investment characteristics.
- b. *Broker* - a person engaged in the business of buying and selling securities for the account of others.
- c. *Dealer* - a person who buys and sells securities for own account in the ordinary course of business.
- d. *Complex products* - refer to financial products whose terms, features and risks are not reasonably likely to be understood by a non-sophisticated client because of their complex structure, and which are also difficult to value, particularly when there is a very limited or no secondary market.

Client suitability guidelines. A BSFI shall ensure that the financial products it recommends to a client are appropriate for that client through a client suitability process, which involves obtaining client information, classifying a client according to financial sophistication and risk tolerance, and conducting a suitability review.

a. *Client Information*

The BSFI shall obtain necessary and sufficient information about the client that will serve as bases for its suitability assessment. At a minimum, the following information shall be obtained in addition to the basic account information:

- (1) Investment amount/investible funds or amount of exposure to be hedged;
- (2) Financial situation - the client's financial standing, which includes information on assets, net worth, financial commitments, regular income, and capacity to withstand losses arising from financial transactions;
- (3) Knowledge of financial products - the client's knowledge and understanding of the financial markets and products and the risks involved therein;
- (4) Investment/hedging experience - the nature of investments and/or derivatives transactions undertaken by the client, including the length of time, frequency of dealings, and the extent to which he/it has relied on the advice of a bank or a financial advisor, if any;
- (5) Financial objectives - the client's goal or purpose for entering into a transaction, whether it be for regular income, capital appreciation, capital preservation, maintenance of purchasing power, hedging as against investment, and/or long-term buy and hold as opposed to short-term active trading;
- (6) Risk appetite – the level of risk a client is willing to take;
- (7) Holding period or investment horizon – the length of time over which the position or exposure to be hedged will be held by the client;
- (8) Regulatory and legal constraints – prohibitions or limitations imposed on the activity of the client by existing laws, rules, and regulations, and;
- (9) Liquidity needs – the client's need to convert positions into cash and the timing of such requirement.

To foster cooperation from the client, the BSFI shall explain the reason for assessing suitability. If the BSFI is unable to obtain sufficient information, it shall refrain from offering or recommending any financial product.

A BSFI may design and use its own system for obtaining client information, which may include questionnaires and interviews. However, pre-formatted questions and responses shall be fit for the purpose and presented in a clear and understandable manner. Likewise, technical or unfamiliar terms shall be explained as needed, in order to prevent different interpretations and/or erroneous responses.

While the client is responsible for providing accurate and updated information, BSFI personnel shall exercise diligence in reviewing the consistency of the responses and reliability of the information provided based on available documents, such as publicly disclosed information and those obtained from the client's existing contractual relationships with the BSFI. It is highly recommended that the BSFI requests for documents to support the client's representations, particularly where the client wishes to transact in complex products. Subsequent changes to client information, if any, shall be adequately documented and concurred with by the client along with the discussions and/or clarifications made.

For a legal entity or a group of two (2) or more natural persons, the BSFI shall obtain evidence that: (1) the client is specifically authorized to enter into all or specific kinds of financial transactions, and (2) the client's representative/s is/are authorized to carry out transactions on behalf of the entity/other parties, in accordance with the applicable legal framework.

When gathering information from a representative, the BSFI should be able to demonstrate that it has taken steps to ascertain that the information obtained is reflective of the entity or group's situation. In addition, it shall determine if the client has competent/qualified personnel to handle the proposed activities.

If a corporate client seeks to participate in complex products, the BSFI shall require the client to incorporate in the document authorizing the latter's activities that it likewise has appropriate risk management systems sufficient to manage and monitor the risks it will take.

At a minimum, client information, including client classification, shall be reviewed and updated prior to transacting in a product that is new to the client, or earlier in case of material changes in the client's financial situation or goals. Adequate controls shall be implemented to ensure the confidentiality and security of client information.

b. *Client Classification*

Based on the information obtained from a client, a BSFI should be able to classify a client into one of the following categories according to financial sophistication:

- (1) *Market counterparty* - refers to any financial institution, only with respect to the instruments in which it is authorized to engage as a broker dealer;
- (2) *Sophisticated institutional client* - refers to an institution that is not a market counterparty but has the level of net worth, knowledge, expertise, and experience to deal with financial products;
- (3) *Sophisticated individual client* - refers to an individual who has demonstrated to the BSFI that he has the level of net worth, knowledge and experience to deal with financial products; or
- (4) *Other clients* – refer to all other institutional or individual clients not categorized as market counterparty, sophisticated institutional client or sophisticated individual client.

BSFIs are encouraged to adopt a more granular categorization according to financial sophistication, provided that the categories can be mapped into the broad classifications above and the differences between categories are clearly set out.

In addition, a BSFI shall classify a client according to risk tolerance. This entails assessing the client's preferences, willingness to take on the risks associated with a product, and ability or capacity to absorb the losses that may arise from such product, as well as whether such losses will have a detrimental impact on the client's financial condition. At a minimum, a BSFI's classification of a client according to risk tolerance shall include, but need not be limited to, the following categories:

- (1) *Conservative* - Client prefers an investment and/or hedging strategy where the primary goal is to prevent the loss of principal;
- (2) *Moderate* - Client is willing and able to expose funds to a moderate level of risk in consideration for higher returns or to meet certain objectives; and
- (3) *Aggressive* - Client is willing and able to accept higher risks involving volatility of returns and even possible loss of investment in return for potentially higher long-term results.

Whenever a scoring system is used for client profiling, the BSFI shall ensure that the system is robust, fit for the purpose, and adequately tested. Any limitation in the system shall be mitigated through client discussions and the suitability review process. The system shall be calibrated as necessary to reflect appropriate results.

The BSFI shall make a record of the classification under which each client is categorized, including sufficient information to support the categorization. The classifications of the client according to sophistication and risk tolerance shall serve as bases for the BSFI's product offerings and the level of disclosures required.

c. *Suitability Review*

Before proposing or recommending a particular product to a client, a BSFI shall determine that the product is:

- (1) Suitable to the client's needs, financial situation, and objectives;
- (2) Consistent with the client's mandate, risk tolerance, and constraints; and
- (3) Aligned with the client's knowledge and experience, such that he/it understands the nature of and risks associated with the product.

Likewise, the BSFI shall inform its client of alternative products that are suitable to his/its circumstances.

A BSFI shall maintain a record of the assessment as well as all information used as bases of its suitability review. This includes written documentation to the extent that such was created to evidence interviews and analyses made in the performance of its due diligence process. The BSFI is expected to conduct a more in-depth assessment before offering complex products. It is highly recommended that a BSFI requires a client to sign his/its conformity to the suitability assessment (including the information on which it is based) in order to avoid disputes with the client.

A client who is classified as conservative may only transact in plain vanilla financial products as follows: (i) peso-denominated Government Securities representing direct obligations of the Government of the Republic of the Philippines; (ii) foreign currency- denominated Government Securities representing direct obligations of the Government of the Republic of the Philippines; (iii) highly liquid sovereign bonds, corporate bonds, and commercial papers issued off-shore rated at least "AA-" or its equivalent by a reputable international credit rating agency; (iv) highly liquid domestic corporate bonds and commercial papers rated at least "AAA" or its equivalent by a reputable credit rating agency; and/or (v) foreign exchange derivatives solely for hedging, subject to the results of the suitability review.¹

In cases where the client is classified as a market counterparty, the BSFI does not need to comply with the required suitability review, considering the client's recognized sophistication. However, a BSFI should be able to provide sufficient support for its classification.

Appropriate controls shall be in place to deter unauthorized overriding of the results of the suitability assessment. A BSFI shall only offer the range of products that is viewed as suitable for the client. Nevertheless, it is recognized that, in certain instances, a client may insist on transacting in a particular product that has previously been assessed as unsuitable for his/its profile. In such cases, the BSFI shall obtain the client's confirmation in writing that:

- (1) The BSFI has informed the client of the protections he/it may lose and conversely, of the risks that he/it is exposed to,
- (2) The client still wishes to proceed with the transaction despite the BSFI's assessment, and
- (3) The client fully understands and is willing to take the risks attendant to the product to be availed of.

However, in no case shall the BSFI offer to its clients the option to automatically and comprehensively waive the outcome of the client classification process and the resulting protections offered by the rules on client suitability.

Disclosures. A BSFI shall always be mindful of its statements regarding its products/services, whether the statements pertain to promotion, marketing or sale thereof or in the course of making the required disclosures. It shall institute measures to ensure that its clients understand the nature of and risks in a financial transaction. Although a BSFI can tailor-fit information, marketing and sales presentations/materials depending upon the sophistication of its client, it shall institute measures to ensure that its clients understand the nature of the financial transaction. The BSFI shall also take further steps to adequately disclose the attendant risks of the financial transactions when dealing with an unsophisticated client, either generally or with respect to a particular product being offered. A BSFI shall adopt standards for its publications/materials/disclosure statements and regularly review the aforementioned documents to ensure that they meet the standards.

A BSFI shall not misrepresent or give a false impression of the financial products it offers in any of its advertisements, electronic communications, written materials (whether publicly disseminated or not) or oral representations. A misrepresentation is any statement that deviates from the truth or omits a material fact or even tends to mislead the recipients.

a. *Financial promotion (marketing and sales)*

A BSFI embarking on a financial promotion, whether through a direct offer or information/sales publications, shall ensure that it gives sufficient information on the entire transaction, including the underlying financial instruments, if any, to enable a client to make an informed decision. A BSFI shall prominently indicate its name in all its promotional materials and specify its role or capacity in the transaction (e.g., issuer, dealer, broker).

A financial promotion is considered clear, fair and not misleading if all of the following requisites are present:

- (1) The information provided does not only emphasize the potential benefits of the product but also presents a fair and prominent description of the relevant risks and assumptions;
- (2) It draws the customer's attention to the warnings, exclusions and disclaimers in all documents relating to the financial product;
- (3) The design, content or format of the presentation does not disguise, obscure or diminish the significance of any statement, warning or other matters that the customer should be aware of;
- (4) A client, by himself, can discern from the presentation whether a statement is a fact, promise or forecast;

¹ The BSFI is expected to have an internal policy for the identification of reputable credit rating agencies and prudent use of external credit assessment.

- (5) The accuracy of all material statements of fact can be substantiated;
- (6) Any comparison or contrast of a product offered is made with another product that is intended to meet the same needs or to serve the same purpose. The comparison or contrast shall include all relevant factors. The facts presented shall be verifiable; alternatively, the relevant assumptions shall be disclosed;
- (7) No reference to an approval by a regulatory body or its officials is made, unless a written approval was actually obtained;
- (8) A recommendation to consult/refer to a financial advisor is made; and
- (9) It does not omit any information, the omission of which causes a material fact to be misleading, unclear, or unfair.

A BSFI shall consider the client's knowledge of the transaction to which the given information relates. However, it shall not assume that clients/recipients necessarily have an understanding of the product being promoted. It shall also assess its usage of terms, especially those which are technical in nature. If promotional or marketing materials are specially designed for a targeted client base that is reasonably believed to have particular knowledge of the investment, this fact shall be made clear in the materials.

b. *Product disclosures*

A BSFI shall endeavor to explain the financial products it offers to its clients to enable the latter to make an informed decision. Product disclosures shall present an adequate description of (a) the nature and features of the financial product, including any underlying instrument(s), (b) the amount of outlay required, (c) the costs involved, and (d) the risks related to the product. In general, disclosures shall always be presented in a balanced manner whereby the potential benefits of a product are tempered by a fair indication of the risks involved.

Disclosure statements shall be presented in a clear, concise and effective manner to promote the client's understanding of the product. The use of industry and legal jargon shall be minimized to the extent possible. If such cannot be avoided, these terms shall be clearly defined and explained to the client. A greater level of disclosure shall be provided if a product is not generally understood by clients, for instance, in the case of new or complex products.

Should the BSFI make use of materials provided by the issuer of a particular instrument, the client shall be made aware that the issuer is responsible for the representations contained therein. However, the BSFI is responsible for communicating the relevance of said materials to the client.

A product disclosure that includes an illustration of past or future performance shall comply with the following:

- (1) When the product's past performance is used to illustrate possible future returns, the disclosure shall state that past performance is not necessarily indicative of future performance. This shall be presented in the main text of the presentation material. Past performance shall be culled from a reasonable time frame to provide a fair and balanced indication of a product's performance;
- (2) When using any forecast on the economy or financial markets, the disclosure shall state that such forecast is not necessarily indicative of the future performance of the product; and
- (3) Illustrations of returns shall include worst-case scenarios (i.e., not just the likely or best scenarios). Benefits shown in headline rates (pro-forma returns highlighted) should be realistic and achievable, and not based on unreasonably optimistic views of events.

Disclosures for products with some form of guarantee or protection should highlight which benefits are guaranteed/protected and those which are not. In instances where the guarantee or protection involves a cost to the client, the BSFI shall disclose the fees or charges for the same. A BSFI shall also disclose to the client the counterparty (e.g., issuer/guarantor) risk involved so that he/it is not misled about the product's capital security/principal protection. When applicable, a BSFI shall state if the guaranteed or protected amount is payable only at the end of the term.

Product disclosures for leveraged transactions¹ should emphasize that while these types of products/strategies amplify the potential gain from an investment, they also increase the potential loss thereof. A client who intends to engage in margin buying, a means of applying leverage in investing, shall be cautioned on possible loss exceeding the margin or initial cash outlay.

c. *Minimum required disclosures*

The minimum required disclosures shall always be in writing. A BSFI shall require its client to sign or initial the disclosure statement as affirmation of the client's receipt and understanding of the disclosure statement, unless the client is a market counterparty. A BSFI may opt to draft an individual or separate disclosure statement for its client or incorporate the same in the main transaction agreement/contract.

¹ Leverage or gearing can be employed in a structured product in order to offer higher yields.

Product-specific minimum disclosures shall include:

- (1) The nature of the financial product, including the underlying financial instruments, and how these products work;
- (2) Investment horizon or tenor of the financial product;
- (3) Fees and charges, if any;
- (4) Details on the issuing entity in case the dealing BSFI is not the issuing institution (i.e., the BSFI acts as a broker/dealer or market maker);
- (5) Returns or benefits likely to be derived from the instrument, the amount and timing thereof and whether the benefits are guaranteed or not;
- (6) All risk factors that may result in the client receiving returns less than the illustrated returns and factors affecting the recoverable amount by the client;
- (7) Details of conflicts of interest, if any;
- (8) Information on the handling of complaints related to the product;
- (9) All termination clauses, when appropriate, including charges and restrictions;
- (10) Any warning, exclusion or disclaimer in relation to the risk and rewards of the product, including, but not limited, to the following:
 - (a) The product carries higher risks than those associated with ordinary bank savings or time deposits;
 - (b) The product is risky and may not be appropriate if the client is not willing and able to accept the risk of adverse movements in the underlying securities or reference rates;
 - (c) Past performance of the product is not a guarantee of its future performance;
- (11) Other disclosures that may be required by existing laws, rules and regulations.

Where applicable, a BSFI shall draw the attention of the client to the following:

- (1) The effect of early redemption of a product on the return (e.g., penalties and/or a poor returns);
- (2) The availability of maximum benefit advertised after a specified period; and
- (3) The required conditions for the advertised growth rate of income to materialize.

Complex products should carry a standard warning that they are not suitable for all clients, and are intended for experienced and sophisticated clients. They should likewise carry appropriate warnings on the high economic risks of the transaction, such as:

- (1) Loss of all or a substantial portion of the investment due to leveraging or other sophisticated practices;
- (2) Mismatch between the change in the price of a hedge versus the change in the price of the exposure it hedges;
- (3) Volatility of returns;
- (4) Lack of liquidity considering that there may be no secondary market for the instrument;
- (5) Restrictions on transferring interests; and
- (6) Absence of information regarding valuation and pricing.

Sales and marketing personnel. Any informational or promotional presentation regarding financial products shall be undertaken only by personnel who are knowledgeable on the products involved. In assessing the knowledge of its personnel, a BSFI may consider their educational background; relevant training; certification; and professional experience in rendering investment advice, making presentations regarding financial products and/or assessing the propriety of financial products for a client. The personnel involved in the transactions shall likewise be familiar with all relevant laws and applicable rules and regulations and shall ensure compliance therewith.

At a minimum, a BSFI shall establish qualification standards for personnel involved in sales and marketing activities and require compliance with the registration requirements prescribed by existing securities laws, rules and regulations. In addition, a BSFI shall implement, and maintain a reasonably comprehensive system of training geared at enhancing the technical knowledge of its personnel to enable them to understand, and explain the nature and risks of a BSFI's financial products, and ensure client suitability.

Management shall regularly review the BSFI's compensation and incentive programs and ensure that such remuneration schemes do not place the interests of the sales and marketing personnel in conflict with those of their clients.

The BSFI's board of directors and senior management shall be liable for the acts performed and representations made by sales and marketing personnel in their official capacity. Notwithstanding the foregoing, a BSFI's board of directors and senior management are not precluded from filing the necessary action against the erring sales and marketing personnel.

Role of control functions. The control functions shall periodically monitor and evaluate the continuing effectiveness and adequacy of the sales and marketing policies and procedures. They shall regularly provide senior management or the Board, as appropriate, with written reports on the results of their review.

A BSFI's operational risk management framework shall take into account sales and marketing activities in the identification and assessment, monitoring and reporting, and control and mitigation of risks.¹ The compliance function referred to in Sec. 161 shall be responsible for monitoring and assessing the BSFI's compliance with applicable laws, rules and regulations in the conduct of sales and marketing activities. The internal audit function shall include in its scope the review and evaluation of the BSFI's compliance with internal policies and procedures for the sales and marketing of financial products, issuance of recommendations based on the results of the audits conducted, and the verification of compliance with those recommendations, in accordance with Sec. 163 (*Duties and responsibilities of the head of the internal audit function and the chief audit executive*).

Record retention. Documents evidencing compliance with this Section shall be retained for a period of not less than five (5) years unless an investigation is being conducted, or a criminal, civil, or administrative case has been filed in a competent judicial or administrative body where a client is involved or impleaded as a party to the case or investigation. In such cases, the above documents shall be preserved beyond the five (5)-year period until such time that a final judgment has been reached by the judicial or administrative body.

Enforcement actions. The Bangko Sentral may deploy its range of supervisory tools to promote adherence to the requirements set forth in these guidelines and bring about timely corrective actions and compliance with Bangko Sentral directives. Sanctions may likewise be imposed on the BSFI and responsible persons, which may include restrictions or prohibitions from certain authorities/activities; and warning, reprimand, suspension, removal and disqualification of concerned directors, officers and employees.

(Circular No. 972 dated 22 August 2017, 917 dated 08 July 2016, and 891 dated 09 November 2015)

613 DERIVATIVES ACTIVITIES

A bank may engage in authorized derivatives activities: *Provided*, That the bank:

- a. Understands, measures, monitors and controls the risks assumed from its derivatives activities;
- b. Adopts effective risk management practices whose sophistication are commensurate to the risks being monitored and controlled; and
- c. Maintains capital commensurate with the risk exposures assumed.

Further, a bank may likewise engage in financial derivatives activities in accordance with these guidelines. The transacting bank shall have the responsibility to comply with the guidelines set out in this Section, including the relevant appendices, and other applicable laws, rules and regulations governing derivatives transaction. In case of derivatives instruments involving foreign currencies and/or other foreign currency- denominated assets, the transacting bank shall observe the pertinent FX rules and regulations. For purposes of these guidelines, a bank that transacts (i.e., transacting bank) whether as end-user, broker or dealer, in derivatives instruments is considered to be engaging in a derivatives activity.

Derivative is broadly defined as a financial instrument that primarily derives its value from the performance of an underlying variable. For purposes of these guidelines, a *financial derivative* is any financial instrument or contract with all of the following characteristics:

- a. Its value changes in response to a change in a specified interest rate, financial instrument price, commodity price, FX rate, index of prices or rates, credit spread, credit rating or credit index or other variables not prohibited under existing laws, rules and regulations (the "underlying");
- b. It requires either no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors; and
- c. It is settled at a future date.

Financial derivatives activities shall also include transactions in cash instruments with embedded derivatives that reshape the risk-return profile of the host instrument, such as credit-linked notes ("CLNs") and other structured products ("SPs").

A market participant may take any of the following roles in a derivatives transaction:

- a. An *end-user* is defined as a financial market participant that enters, for its own account, in a derivatives transaction for legitimate economic purposes. These purposes may include, but are not limited to, the following: hedging, proprietary trading, managing capital or funding costs, obtaining indirect exposures to desired market factors, investment, yield-enhancement, and/or altering the risk-reward profile of a particular item or an entire balance sheet.

An end-user may be classified according to its financial sophistication:

- (1) *Market counterparty* - refers to any UB or KB, only with respect to the instruments for which it is authorized to engage in as a dealer.

¹ BSFIs should refer to existing Guidelines on Operational Risk Management.

- (2) *Institutional counterparty* - refers to an institution which is not a market counterparty and has the level of net worth, knowledge, expertise, and experience to deal with financial derivatives.
 - (3) *Sophisticated individual end-user* - refers to an individual who has demonstrated to the bank as having the level of net worth, knowledge and experience in dealing with financial products, including financial derivatives. An individual may register as a sophisticated individual end-user with the appropriate supervising department of the Bangko Sentral.
 - (4) *Other end-user* - This refers to all other institutional or individual clients not categorized as market counterparty, institutional counterparty or sophisticated individual end-user.
- b. A *broker* is a financial market participant that facilitates a derivatives transaction between a dealer and its client, for a fee or commission. The counterparties to the derivatives contract are the client and an authorized dealer.
 - c. A *dealer* is defined as a financial market participant that engages in a derivatives activity as an originator of derivatives products or as market-maker in derivatives products. A dealer can distribute its own derivatives products, including those of others. A dealer can also act as broker and/or end-user of derivatives instruments.

Definition of terms.

- a. *Credit default swaps (CDS)* - refers to a financial contract between two (2) parties, the protection buyer and protection seller, with reference to a certain notional value of a reference credit or a basket of reference credits, whereby the former pays a premium to the latter, and in return the latter agrees to make certain protection payments to the former contingent upon the occurrence of a credit event with respect to the reference entity(ies)/asset(s).
- b. *Credit-linked note (CLN)* - refers to a pre-funded credit derivative instrument under which the note holder effectively accepts the transfer of credit risk pertaining to a reference asset or basket of assets issued by a reference entity/ies. The repayment of the principal to the note holder is contingent upon the occurrence of a defined credit event. In consideration thereof, the note holder receives an economic return reflecting the underlying credit risk of the reference assets. For purposes of this Section, the term shall generically include similar instruments such as credit-linked deposits (CLDs) and credit-linked loans (CLLs). Unless otherwise stated, the term shall refer only to plain vanilla CLNs. Plain vanilla CLNs are composed of a debt or deposit instrument and a CDS. Non-plain vanilla CLNs are those that are leveraged and/or include features of other SPs (e.g., coupon payments linked to interest or FX rate movements) and/or contains more than one (1) embedded derivative.
- c. *Currency swaps* - refers to an arrangement in which two parties exchange a series of cash flows in one (1) currency for a series of cash flows in another currency, at specified exchange and/or interest rates and at agreed intervals over an agreed period.
- d. *Forward FX contracts* - refers to an agreement for delayed delivery of a foreign currency in which the buyer agrees to purchase and the seller agrees to deliver at a specified future date a specified amount at a specified exchange rate.
- e. *Forward rate agreement (FRA)* - refers to an agreement fixing the interest rates for a specified period whereby the buyer receives (or pays) and the seller pays (or receives) the interest rate differential if the reference rate rises above (or falls below) the contract rate, respectively.
- f. *FX exposure* - refers to an FX risk arising from an existing commitment to or from a non-resident or AAB which leads to payment of an FX obligation or receipt of an FX asset based on verifiable documents on deal date.
- g. *FX obligation* - refers to an actual FX commitment to a non-resident or any AAB where the amount, payment tenor and party have been determined.
- h. *FX options* - refers to option contracts which convey the right or the obligation depending upon whether the bank is the purchaser or the writer, respectively to buy or sell at a specified price by a specified future date, for a fee or a premium, two (2) different currencies at a specified exchange rate.
- i. *FX swaps* - refers to an agreement involving an initial exchange of two (2) currencies, usually at the prevailing spot rate, and a simultaneous commitment to reverse the exchange of the same two (2) currencies at a date further in the future at a rate (different from the rate applied to the initial exchange) agreed on deal date.
- j. *Interest rate swaps (IRS)* - refers to an agreement in which the parties agree to exchange interest cash flows on a principal amount at certain times in the future according to an agreed upon formula.
- k. *Non-deliverable forward (NDF)* - refers to a forward FX contract where only the net difference between the contracted forward rate and the market rate shall be settled at maturity.
- l. *Non-resident* - refers to an individual, a corporation or other juridical person not included in the definition of resident.

m. *Resident* - refers to:

- (1) An individual citizen of the Philippines residing therein; or
- (2) An individual who is not a citizen of the Philippines but is permanently residing therein; or
- (3) A corporation or other juridical person organized under the laws of the Philippines; or
- (4) A branch, subsidiary, affiliate, extension office or any other unit of corporations or juridical persons which are organized under the laws of any country and operating in the Philippines, except OBUs.

n. *Structured product (SP)* - refers to a financial instrument where the total return is a function of one (1) or more underlying indices, such as interest rates, equities and exchange rates. It is composed of a host contract (e.g., plain vanilla debt or equity securities) and an embedded derivative (e.g., swaps, forwards or options) that re-shape the risk-return pattern of the hybrid instrument. For purposes of guidelines under this Section, the term SP does not include asset-backed securities. Provisions under Sec. 627-A shall continue to apply for securities overlying securitization structures.

Generally authorized derivatives activities. A bank may engage in the following derivatives activities without need of prior Bangko Sentral approval: *Provided*, That it observes the provisions of *Appendix 22* and meets the following conditions:

a. UBs and KBs may transact in the following derivatives in the capacities specified:

(1) *As a dealer.* A UB or KB may originate and distribute the following “organized market”-traded financial derivatives:

- (a) FX forwards, FX swaps, currency swaps and analogous financial futures with a tenor of three (3) years or less; and
- (b) Interest rate swaps, forward rate agreements and analogous financial futures with a tenor of ten (10) years or less: *Provided*, That the issuance of sub-participation in any derivatives held as an end-user shall be deemed as undertaking the role of a dealer: *Provided, further*, That the dealer UB or KB observes the provisions of *Section 612* and other pertinent securities laws, rules and regulations.

For purposes of this Section, an *organized market* refers to an exchange or a Bangko Sentral-recognized over-the-counter market governed by transparent and binding market conventions on price transparency, trade reporting, market surveillance and orderly conduct/operations of the market.

(2) *As end-user*¹.

- (a) A UB or KB, including its trust department, may enter in any financial derivatives transaction for the purpose of hedging its own risks: *Provided*, That it observes all the requirements for hedging transactions under PAS.
- (b) A UB or KB may trade with counterparties in order to take positions for its own account in “organized market” - traded financial instruments enumerated under Item “1” above. It can also take long positions in naked FX options with a tenor of three (3) years or less.
- (c) RBU and EFCDU of UBs and KBs, including its trust departments, may invest, for their own account, in the following SPs:
 - (i) Principal-protected foreign currency- denominated SPs, the revenue streams of which are linked to interest rate indices, interest rate instruments, listed equity shares or indices, FX rates, credit rating or index, or gold: *Provided*, That the maximum contractual maturity shall be five (5) years;
 - (ii) Plain vanilla single-name CLNs where the reference asset is an obligation issued or guaranteed by the Republic of the Philippines.

Provided, That the bank or trust entity shall comply with the following conditions:

- (aa) Total carrying value of all investments in SPs shall not exceed 100% of the bank’s qualifying Tier 1 capital or fifty percent (50%) of a trust entity’s trust assets; and
- (bb) For investments in SPs under the EFCDU, total carrying value of SPs as defined herein shall also not exceed twenty percent (20%) of the total FCDU assets: *Provided*, That SPs which are not booked in an investment account (e.g., booked as inter-bank loans), for this purpose, shall be considered as part of the EFCDU assets.

¹ All transactions involving warrants issued under the ROP’s “Paired Warrants Program” shall be considered as among the generally authorized derivatives activities that banks (including TBs and RBs/Coop Banks) may engage in as end-user, without need for additional derivatives authority required under this Section: *Provided*, That banks holding such instruments shall comply with the requirements of *Appendix 22*, where applicable.

An SP is considered principal-protected if the minimum all-in return for such investment is at least zero and such minimum all-in return is guaranteed by an entity (i.e., issuer or a third party) rated at least “A” or its equivalent by an international rating agency acceptable to the Bangko Sentral or fully collateralized by an asset with equivalent credit quality.

- (3) *As a broker.* A UB or KB may facilitate derivatives transactions between dealers and market and/or institutional counterparties and/or sophisticated individual end-users: *Provided*, That the UB/KB, acting as broker, ensures that its client fully understands its limited responsibility as a broker: *Provided*, further, That the bank adheres to procedures for evaluating client suitability, including risk disclosures, as prescribed in *Sec. 612: Provided, finally*, That the bank complies with other pertinent securities laws, rules and regulations.
- b. TBs, RBs and Coop Banks may enter in derivatives transactions as end-user with Bangko Sentral - authorized dealers and brokers solely for hedging purposes: *Provided*, That they observe all the requirements for hedging transactions under PAS¹. A TB, RB or Coop Bank may apply for a Type 3 authority to enter into derivatives transactions as end-user for purposes other than hedging: *Provided*, That the applicant bank agrees to be covered by all regulations prescribing capital for market risk, notwithstanding any provision to the contrary; and
- c. A trust department of a UB or KB may transact, as an institutional counterparty, with financial derivatives instruments enumerated under item “(a)(2)” above on behalf of its trustor/principal/s as may be authorized by such trustor/principal/s: *Provided*, That the trust department observes the relevant provisions of *Appendix 22* and *Sec. 612*. Trust entities other than that within a UB or KB may apply for a Type 3 authority to enter on behalf of its trustor/principal/s in derivatives transactions under item “(a)(2)” above. Any trust entity may also apply for Type 3 authority in order to transact as end-user on behalf of its trustor/principal/s with derivatives instrument outside those enumerated under item “(a)(2)” above.

Activities requiring additional derivatives authority. A bank shall apply for prior Bangko Sentral approval of additional derivatives authority to engage in all other financial derivatives activities not expressly allowed under this Section on Generally authorized derivatives activities. A bank may apply for two (2) or more additional authorities. A bank applying for additional derivatives authority/ies must have and maintain a risk management system commensurate to the additional authority/ies being applied for, in accordance with the provisions of *Appendix 22* and meet other conditions specified under this Section.

a. *Classification of additional derivatives authority*

(1) *Type 1 - Expanded dealer authority*

A UB or KB may apply for a Type 1 authority. A bank with Type 1 authority may transact in any financial derivatives as a dealer: *Provided*, That a bank with Type 1 authority shall comply with the sales and marketing guidelines prescribed in *Section 612*. A bank with Type 1 authority may likewise transact in any financial derivatives as a broker and an end-user.

The Bangko Sentral expects banks applying for Type 1 authority to institutionalize a (a) comprehensive and integrated risk management system; and (b) sales and marketing practices that are deemed appropriate and adequate for the different derivatives activities it expects to engage in. It must be rated at least CAMELS (or ROCA for branches of foreign banks) of “4” or better over-all, notwithstanding any provision to the contrary.

(2) *Type 2 - Limited dealer authority*

A UB or KB may apply for a Type 2 authority. A bank with Type 2 authority may operate as a dealer in specific types of derivatives products with specific underlying reference, as applied for by the bank, outside those financial derivatives instruments under item “(a)(1)” of this Section on Generally authorized derivatives activities: *Provided*, That a bank with Type 2 authority shall comply with the sales and marketing guidelines prescribed in *Section 612*. The Type 2 authority also carries authority to transact as broker and end-user of the said specific derivatives instruments.

A TB with an existing authority to issue foreign letters of credit and pay/accept/negotiate import/export drafts/bills of exchange under *Sec. 101-B* may apply for a Type 2 authority to operate as a dealer of deliverable FX forwards in order to service the trade-related hedging requirements of its clients: *Provided*, That the tenor of the FX forwards dealt shall match the term of the underlying trade transaction: *Provided, further*, That the applicant bank shall be covered by all regulations prescribing capital for market risk, notwithstanding any provision to the contrary: *Provided, furthermore*, That the TB shall comply with the sales and marketing guidelines prescribed in *Section 612*. The Type 2 authority also carries the authority to transact as a broker and an end-user of deliverable FX forwards.

¹ All transactions involving warrants issued under the ROP’s “Paired Warrants Program” shall be considered as among the generally authorized derivatives activities that banks (including TBs and RBs/Coop Banks) may engage in as end-user, without need for additional derivatives authority required under this Section: *Provided*, That banks holding such instruments shall comply with the requirements of *Appendix 22*, where applicable.

(3) Type 3 - *Limited user authority*

Any bank may apply for a Type 3 authority. A bank with Type 3 authority may transact, as an end-user, in specific types of derivatives products, with specific underlying reference, as applied for by the bank, outside of those instruments under Item “(a)(2)” of this Section on Generally authorized derivatives activities. However, as regards a TB, RB or Coop Bank and trust entity other than that within a UB or KB, a Type 3 authority will enable said bank/entity to transact as end-user of a derivative instrument as may be applied for by the bank/entity.

(4) Type 4 - *Special broker authority*

A bank, other than a UB or KB, may apply for a Type 4 authority. A bank with Type 4 authority may facilitate a derivatives transaction between a UB or KB, as dealer, and market and institutional counterparties and sophisticated individual end-users: *Provided*, That the bank, acting as broker, ensures that its client fully understands its limited responsibility as a broker and observes the provisions of Section 612.

A UB or KB may likewise apply for a Type 4 authority to enable itself to broker a derivatives transaction for or with other end-users.

A bank with additional Type 1, 2 or 4 authorities shall be responsible for complying with pertinent securities laws, rules and regulations.

For purposes of this Section, the types of derivatives are classified as follows: forwards, swaps and options. Underlying reference pertains to the following: interest, FX, equity, credit and commodity.

b. *Qualification requirements.* A bank applying for additional authority to engage in expanded derivatives activities shall:

(1) Demonstrate adequate competence in its general operations as evidenced by:

- (a) CAMELS (or ROCA for branches of foreign banks) composite rating of at least “3” with a similar rating for Management;
- (b) No unresolved major safety and soundness issues that threaten liquidity or solvency; and
- (c) Substantial compliance with regulations on anti-money laundering, corporate governance and risk management.

(2) Hold capital commensurate to the risks assumed or to be assumed from the derivatives activities. The Bangko Sentral expects a bank applying for or holding additional derivatives authority to have adequate capital to accommodate existing and future risks from additional and generally authorized derivatives activities as well as risks arising from the bank’s other business activities. For this purpose, the Bangko Sentral may require capital higher than the minimum required under prudential regulations.

(3) Have and maintain a risk management system that conforms to the principles and complies with the minimum standards prescribed in *Appendix 22*.

c. *Applicability to trust entities.* Trust entities may apply for Type 3 authority: *Provided*, That they comply with the requirements prescribed and observe the provisions of Section 612.

d. *Application procedures.* The applicant shall submit to the appropriate supervising department of the Bangko Sentral a written application for additional derivatives authority/ies accompanied by:

- (1) A copy of the board resolution (or equivalent management review body in the case of branches of foreign banks or trust committee, in case of trust entities) approving the application for a specific type of derivatives authority;
- (2) A notarized certification signed jointly by the president, treasurer and compliance officer of the applicant-bank (or two (2) authorized signatories of equivalent rank of the trust committee in case of trust entities), stating that the bank complies with all the requirements for the authority being applied for specified under this Section on Activities requiring additional derivatives authorities; and
- (3) A list of the types of derivatives and underlying reference the bank intends to engage in, including the following information for each derivatives class or type:
 - (a) Target customers for such derivatives;
 - (b) The capacity in which the bank intends to engage in such derivatives;
 - (c) Description of each type of derivatives and underlying reference with which it will deal;
 - (d) Analysis of the risks involved in transacting in each type of derivatives;
 - (e) Procedures/methodologies that the bank will implement to measure, monitor (including risk management reports) and control the risks inherent in the types of derivatives;

- (f) Relevant accounting guidelines, including pro-forma accounting entries;
- (g) Analysis of any actual or potential legal/regulatory restrictions; and
- (h) Process flow chart, from deal initiation to risk reporting, indicating the departments and personnel involved in identified processes.

- (4) Payment of a non-refundable processing fee amounting to:

Authority	Amount	
Type 1	P 200,000	(UBs and KBs)
Type 2	100,000	
Type 3	50,000	
	25,000	(other applicants)
Type 4	25,000	(all banks)

- (5) The Bangko Sentral will not accept applications lacking any of the above-stated requirements. The Bangko Sentral, however, may require additional documents to aid its evaluation of the application. By virtue of the application, the applicant automatically authorizes the Bangko Sentral to conduct an on-site evaluation of the applicant's risk management capabilities, if this is deemed necessary.
- (6) Type 1 authority shall be subject to approval by the Governor, upon recommendation of the Deputy Governor of the appropriate sector of the Bangko Sentral. All other applications for additional authority/ies shall be subject to approval by the Deputy Governor of the appropriate sector of the Bangko Sentral.
- (7) A bank whose application for additional derivatives authority/ies or an upgrade thereof (e.g., from Type 2 to Type 1 authority) has been denied cannot submit a new application for additional derivatives authorities until after six (6) months from receipt of denial. The same rule applies for a bank whose authorities have been limited or downgraded.
- (8) A bank that holds an additional derivatives authority may apply for additional derivatives authorities (e.g., currently holding Type 3 authority who wish to apply for Type 4 authority) or an upgrade thereof only after the lapse of six (6) months from the grant of the previous additional derivatives authority.

Intra-group transactions. All derivatives transactions between a bank and any of its subsidiaries and affiliates shall comply with minimum risk management standards for related-party transactions outlined in *Appendix 22*, as part of the bank's internal control procedures. The Bangko Sentral expects banks to establish internal reporting and monitoring system for derivatives activities for related-party transactions. Failure to comply with minimum standards shall be a ground for citing non-compliance with under this Section on Generally authorized derivatives activities, and Activities requiring additional derivatives authority without prejudice to other Bangko Sentral rules and regulations such as those related to corporate governance and unsafe or unsound banking.

Accounting guidelines. A bank that engages in derivatives activities must strictly account for such transactions in accordance with PAS.

Reporting requirements. A bank or trust department/entity engaged in any derivatives transaction shall submit, in addition to the derivatives reports enumerated under the Bangko Sentral FRP, a monthly report on derivatives transactions/outstanding derivatives within fifteen (15) banking days from end of the reference month. The reports shall be certified by the treasurer.

Sanctions.

- a. ***Unauthorized transactions.*** Sanctions prescribed under Sections 36 and 37 of R.A. No. 7653 shall be imposed on any bank (including its directors and officers) found to have engaged in an unauthorized derivatives activity.

A bank undertaking unauthorized derivatives activities may be considered as conducting its business in an unsafe or unsound manner under Section 56 of R.A. No. 8791.

- b. ***Delayed/erroneous/inaccurate reporting.*** Banks failing to submit the reports required under this Section on Reporting requirements within the prescribed deadline shall be subject to monetary penalties applicable for delayed reporting under existing regulations. Moreover, submission of incomplete, uncertified or improperly certified or otherwise erroneous reports shall be considered non-reporting, subject to applicable penalties for amended/delayed reports. For purposes of imposing monetary penalties, the reports shall be classified as a *Category A-1* report. Habitual delayed or erroneous reporting may be a ground for further sanction, including limitation of generally authorized activities and/or additional authorities and/or suspension of authority to engage in such derivatives activities.

- c. *Non-compliance with the provisions of this Section and Sec. 612 and Appendix 22.* Any bank/trust entity found violating any of the provisions of this Section, Sec. 612 and Appendix 22 shall be sanctioned with the penalties prescribed under Sections 36 and 37 of R.A. No. 7653 in accordance with the gravity/seriousness of the offense taking into consideration the number of times the offense was committed, possible consequent losses on the clients, effect on the financial markets and other relevant factors.
- d. *Curtailment of derivatives authority.* The Bangko Sentral reserves the right to suspend, modify, downgrade, limit or revoke any bank's derivatives authority (including any or all of those generally authorized activities) for prudential reasons as may be evidenced by any or all of the following:
 - (1) The bank is assigned a CAMELS (or ROCA in the case of branches of foreign banks) composite rating or component management rating of lower than that prescribed under this Section on Activities requiring additional derivatives authority, in the most recent regular examination.
 - (2) The bank has not maintained adequate risk management systems given the level and type of derivatives activities it has engaged in as may be determined by the Bangko Sentral in any on-site evaluation and confirmed by the Monetary Board.
 - (3) The Monetary Board has confirmed a finding of the appropriate supervising department of the Bangko Sentral that the bank has conducted business in an unsafe or unsound manner.

An erring bank may apply for reinstatement of its derivatives authority only after six (6) months from lapse of the implementation of the sanction: *Provided*, That the bank has satisfactorily addressed all Bangko Sentral concerns.

(Circular No. 917 dated 08 July 2016)

614 INVESTMENT ACTIVITIES OF BSP-SUPERVISED FINANCIAL INSTITUTIONS (BSFIs)¹

Policy Statement. The Bangko Sentral recognizes that the effective management of risks associated with a BSFI's investment activities is essential in ensuring its continued safety and soundness. These guidelines are being issued to set expectations on the prudent conduct of investment activities and the minimum practices that a BSFI should establish for the management and control of risks associated with investments. These guidelines neither limit nor expand the activities that BSFIs may undertake under existing regulations.

Scope of Application. These guidelines cover all of a BSFI's investments in the trading and banking books. These guidelines do not apply to BSFI's (a) investments that grant control over an enterprise and are accounted for using the equity method, (b) transactions in derivatives involving stand-alone contracts, and (c) receivables arising from repurchase agreements.

Risk Management Framework. A BSFI shall have systems to manage the risks arising from its investment activities. While risk management system will differ among BSFIs, the following elements are fundamental in ensuring that risks are effectively identified, measured, monitored and controlled:

- a. Board and senior management oversight

As investment activities comprise a major area of BSFI's operations, the board of directors shall perform the following, in accordance with Sec. 132 (*Specific duties and responsibilities of the board of directors*):

- (1) Approve portfolio objectives, overall investment strategies, general investment policies, and limits that are consistent with the BSFI's financial condition and risk tolerance. Board-approved objectives, strategies, policies and procedures, and limits shall be documented and clearly communicated to all the personnel involved in their implementation. Changes in strategies and the manner by which investments are managed shall be made under the control of the BSFI's appropriate board-level committees.
- (2) Actively monitor the performance and risk profile of its investments against established objectives, strategies, and policies. Consistent with Sec. 132 (*Specific duties and responsibilities of the board of directors*), the members of the board shall act judiciously on matters pertaining to investments. They shall ensure that investment transactions or proposals undergo a thorough evaluation process.
- (3) Ensure that there is an effective management structure for conducting the BSFI's investment activities that enables the achievement of the objectives, the strict enforcement of controls, and the independence between different functions (e.g., trading and asset/liability management), in accordance with Item "b" of Sec. 611 (*Treasury Operations*).

¹ Banks shall be given a period of six (6) months from the 15 August 2019 to develop or make appropriate changes to their policies and procedures on the risk management system for investment activities.

As senior management is responsible for implementing board-approved strategic objectives, it shall therefore:

- (1) Develop portfolio objectives that set out the acceptable instruments, expected business returns, desired asset allocation and diversification parameters, and other elements of sound investment management. Portfolios managed for the purpose of generating short term profits must be distinct from those utilized to maintain ample balance sheet liquidity, generate accrual income or modify and manage risk profiles.
- (2) Set clear lines of authority and responsibility for investing and managing the risks attendant thereto. Personnel conducting investment activities shall have the requisite technical knowledge and experience.

b. Policies, Procedures, and Limits

A BSFI shall institute policies, procedures, and limits that provide a framework for managing investment activities. The framework shall be consistent with the organization's broader business strategies, capital adequacy, technical expertise, and risk tolerance. In setting policies, procedures and limits, a BSFI shall be guided by the following:

- (1) Policies and procedures should clearly articulate guidelines for the acquisition and recording of investments. A BSFI should be able to designate at the onset a specific investment (e.g., trading or short-term profit taking, or generating accrual income) for a particular security/portfolio and identify the desks/personnel responsible for managing such positions.
- (2) Policies should promote the development of a comprehensive understanding of the risks associated with investments prior to acquisition and on an ongoing basis. In particular, these should require the following:
 - (a) an appropriate level of due diligence to be conducted prior to taking a position in any investment. The depth of the due diligence should depend on an instrument's quality, the complexity of its structure, and the size of the investment. Structured products, in particular, should be subject to more thorough analyses than those applied to traditional products;
 - (b) the investment analysis to be founded on an analytical review of investment opportunities, and be sufficient to support a conclusion that a financial instrument is a sound investment;
 - (c) the due diligence review to cover:
 - (i) an analysis of the risks and cash flow characteristic of the specific investments, especially for products that have unusual, leveraged, or highly variable cash flows;
 - (ii) an assessment of the valuation and accounting policies to be adopted by the BSFI and the extent of its compliance with accounting rules;
 - (iii) an analysis of assumed and actual investment exit strategies, particularly for securities that are illiquid or not readily marketable, and the resulting effect on earnings; and
 - (iv) the identification of appropriate methodologies for the allocation of capital based on the risk inherent in the BSFI's investment activities, and the identification of all material risks and their potential impact on the safety and soundness of the institution;
 - (d) periodic and timely reviews of the investment strategy and performance to be conducted at the individual and portfolio levels;
 - (e) the due diligence and ongoing reviews to be performed by qualified personnel or a unit independent from the risk-taking function. Any third-party analysis independent of the seller or counterparty (e.g., reports prepared by investment managers or credit rating agencies) may only be used to complement a BSFI's own evaluation. Irrespective of any responsibility, legal or otherwise, assumed by a dealer, counterparty, or financial advisor regarding a transaction, the investing BSFI is ultimately responsible for understanding and managing the risks of the transaction; and
 - (f) the adequate documentation of the due diligence reviews and the formal approval of results thereof.

The conduct of due diligence reviews for the new plain vanilla instruments to be entered into by a BSFI for the purpose of trading or short-term profit taking (i.e., to be held in the trading book) may be made at the option of the BSFI: *Provided*, That the incremental positions arising from the investments do not require higher country, market, and other applicable risk limits.

- (3) The limits for investment activities shall be consistent with the BSFI's institution-wide risk limits. The limits structure may apply at the institutional, portfolio, sub-portfolio, or individual instrument levels, or a combination thereof. The BSFI's determination of the appropriate limits structure shall be guided by the diversity, complexity and purpose of its portfolios (e.g., A BSFI with substantial holdings of non-resident issued instruments should establish country risk limits.)
- (4) The limits structure should reflect the amount of exposure that the BSFI is willing to accept, taking into consideration the impact of such exposure to earnings and capital in both normal and stressed conditions. Limits and triggers should be customized to address the nature of the products and any unique risk characteristics thereof (e.g., instruments bearing optionality features or credit event triggers).

c. Risk Measurement, Monitoring and Management Information Systems (MIS)

Given the impact of investments on the risk profile of an institution, BSFIs shall ensure that they possess the capability to measure and monitor the risks associated with their investments prior to acquisition and periodically thereafter. In doing so, a BSFI shall be guided by the following:

- (1) A BSFI shall have the capability to value its positions and measure exposures to each type of risk arising from such positions under both normal and stressed market conditions. Moreover, the risk measurement system should be able to generate timely information about the market value of investments carried at cost and any significant decline from the carrying value. For this purpose, the BSFI shall use reliable data and appropriate tools and metrics that have been properly and independently vetted and approved prior to use (see also Item "d(3) Internal Controls and Audit"). A BSFI with investments in complex instruments shall use a more sophisticated tool for identifying, measuring and controlling risks. On the other hand, BSFIs whose investments are limited to plain vanilla instruments in the banking book should, at a minimum, have the capability to periodically mark the positions to market/obtain the market values of their positions.
- (2) A BSFI shall adopt a proper framework for valuing all positions, including those that are concentrated, less liquid and stale, and make appropriate valuation adjustments for uncertainties in determining the fair value of its investments. It shall likewise establish triggers that would determine whether a presumptive case for challenging the valuation model exists.
- (3) The valuation methodologies shall be adequately documented. The documentation shall set out the BSFI's practices for the initial pricing and marking-to-market/model of its positions. The documentation should also cover model inputs and assumptions, the detail of which would depend on the nature of the financial instruments held by BSFI and its sources of independent prices.
- (4) The Management of a BSFI with significant holdings of complex financial products such as structured products, asset-backed and mortgage-backed securities, or those measured using either inputs other than quoted market prices or unobservable inputs, shall be responsible for reviewing and understanding the assumptions used to price such instruments. The reviews should be sufficiently documented. Further, a BSFI that employs internal models shall have adequate procedures to validate the models and to periodically review all elements of the modeling process, including the assumptions.
- (5) When an incremental change in the value of an investment position is likely to have a significant effect on the risk profile of the BSFI, the BSFI is expected to analyze the impact of such change on its overall financial condition.
- (6) Reports to the board and senior management shall summarize the risks related to the BSFI's investment activities and the performance of portfolios vis-à-vis the established investment objectives and constraints, as well as any exceptions to established policies, procedures, and limits. Reporting should be frequent enough to provide timely and adequate information and enable the execution of appropriate adjustments to address the changing nature of the BSFI's risk profile. The BSFI is expected to adjust the frequency of reporting when there are developments that warrant closer monitoring of its positions (e.g., periods of excessive market volatility) and when actions are taken to adjust the level of its exposures.

d. Internal Controls and Audit

In addition to complying with the supervisory expectations set out in Secs. 162 and 163, a BSFI shall:

- (1) Adopt internal controls that shall ensure the robustness of the approval process for new investment products/activities. Consistent with the requirements under Item "i" of Sec. 611 (*Treasury Operations*), a BSFI shall ensure that the risks involved in new products/activities are fully understood through the implementation of a formal risk assessment program, and that adequate policies, procedures and controls are in place prior to roll out;
- (2) Adopt appropriate accounting policies and processes, and maintain adequate records pertaining to investments. In this respect, a BSFI shall strictly comply with relevant accounting standards and at the same time ensure the consistency of its accounting policies and practices with portfolio objectives and strategies;

- (3) Ensure the integrity of investment valuations, risk measurement methodologies, and controls that address model risk. The valuation process shall be undertaken independently from the risk-taking units. New valuation and risk measurement models shall be validated by an independent, suitably qualified individual/group prior to use. The models, including any material changes made thereon, shall likewise be periodically reviewed to ensure that they remain fit for their intended use. Model validation processes of a BSFI shall meet the minimum expectations set forth under *Appendix 70 (Guidelines on market risk management)* and Sec. 143 (*Credit Risk Measurement, Validation and Stress Testing*);
- (4) Conduct independent reviews of the risk management system on a periodic basis, but by no means to exceed three years, to ensure its integrity and reasonableness. These may be in the form of internal or external audits that cover, at a minimum:
 - (a) compliance with and the appropriateness of investment policies, procedures and limits;
 - (b) propriety of fair valuations and the related processes and controls; and
 - (c) a determination of whether the BSFI's risk measurement and monitoring systems are commensurate to the nature and complexity of its activities.

Risks of Investment Activities. The management of risks arising from a BSFI's investment activities shall be integrated into the BSFI's overall risk management system, as required under Secs. 141 (*Supervision by Risk*); 143 (*Credit Risk Management*); 144 (*Market Risk Management*); and 146 (*Operational Risk Management*).

The guidelines below set out the supervisory expectations on the management of the major risks that are inherent to investment activities. It is incumbent upon a BSFI to identify and manage other risk areas based on a thorough assessment of its activities.

a. Market Risk

The management of exposures to market risk arising from investment activities requires the BSFI to clearly designate positions belonging to either the trading book or the banking book. In accordance with the provisions of Sec. 125 (*Market Risk Capital Requirement*) and its appendices, the trading book consists of proprietary positions in financial instruments which are taken on with the intention of short-term resale or benefiting in the short-term from actual or expected differences between the buying and selling prices or from other price or interest rate variations; positions which arise from the execution of trade orders from customers and market making; and positions taken in order to hedge other elements of the trading book. All other instruments held by a BSFI shall be categorized as banking book positions.

Trading book

- (1) A BSFI that actively engages in the trading of securities is primarily exposed to the risk of adverse movements in the price of their holdings before such holdings can be liquidated or offset. It shall have the capability to measure such exposures on a timely basis, and control the effect of changing rates and prices on its earnings and capital.
- (2) A BSFI shall conduct a price sensitivity analysis for individual or a class of instruments, under both normal and stress scenarios, as part of the due diligence requirement prior to acquiring a position in any investment and on a continuing basis. Where appropriate, such analysis shall encompass a wider range of scenarios, including non-parallel changes in the yield curve and other relevant factors, such as changes in interest rate volatility and in credit spreads. It is recognized, however, that the substance and form of such analyses will vary according to the complexity of an instrument.
- (3) Market risk from trading portfolios shall be calculated at least daily. While this is commonly measured using value-at-risk (VaR),¹ a BSFI may use other risk models. In any case, the board and senior management shall ensure that the measure used is reasonably accurate and rigorous; appropriate to the sophistication and complexity of the BSFI's products, activities and lines of business; and adequately incorporated into the BSFI's risk management process.

Banking Book

- (4) A BSFI with banking book portfolios that are subjected to regular mark-to-market valuation shall monitor the price sensitivity of relevant securities over different interest rate/yield curve scenarios. Price sensitivity limits or triggers at portfolio levels or on individual securities should also be established.

b. Interest Rate Risk in the Banking Book

Investments under the banking book usually represent a significant component of a BSFI's overall interest rate risk profile. Exposures from investments shall feed into the BSFI's institution-wide measurement and monitoring of interest rate risk through earnings- and/or economic value-based methodologies.

¹ VaR is the probable maximum loss over a target horizon at a given confidence level.

c. Credit Risk

- (1) A BSFI's investment policies and objectives shall be consistent with its overall credit risk strategy, as set out under Sec. 143 (*Role of the Board and Senior Management and Credit Risk Strategy*).
- (2) In accordance with Sec. 143 (*Credit granting and loan evaluation/analysis process and underwriting standards*), which requires the conduct of a comprehensive assessment of the creditworthiness of obligors, a BSFI shall not acquire an investment without conducting an independent assessment of the creditworthiness of the issuer. The latter shall form part of the due diligence review to be conducted in accordance with Item "b(2)" (*Policies, procedures, and limits*) of this Section.
- (3) In addition to the guidelines on the factors to be considered in approving credits under Item "b" of Sec. 143 (*Credit granting and loan evaluation/analysis process and underwriting standards*), a BSFI shall consider a variety of factors relevant to a particular security when determining whether it is a permissible and sound investment. The range and type of specific factors a BSFI should consider will vary depending on the particular type and nature of a security. An individual security may require more or less analysis depending on its risk characteristics. The following are examples of factors that a BSFI may consider as part of its credit risk due diligence review:
 - (a) Credit spread to a benchmark security and risk of default compared to bonds of similar credit quality;
 - (b) Issuer's capacity to pay, and operating and financial performance levels and trends through internal credit analysis and/or other third-party analytics, as appropriate for the particular security;
 - (c) The value of an instrument with a prepayment option compared to a plain vanilla security of similar credit quality;
 - (d) Potential impact to an instrument's value of specific product features such as credit-related triggers; and
 - (e) For an investment in a securitization structure, the class or tranche, loss allocation rules, specific definition of default, support provided by credit and/or liquidity enhancements, and the impact of collateral deterioration and potential credit losses under adverse economic conditions.
- (4) Complex financial instruments, such as those enumerated in Item "k" of Sec. 143 (*II. Operating Under a Sound Credit Granting Process*), shall be subject to a greater degree of credit-related due diligence, even when the credit quality is perceived to be very high.
- (5) A BSFI shall conduct a thorough analysis of country and transfer risks in accordance with the guidelines under Sec. 143 (*Country and transfer risks*), as appropriate. Moreover, BSFIs should monitor exposures on a broader (e.g., regional) basis as a country's economic, social and political conditions may be adversely affected through the contagion of problems in other countries. When a BSFI's country and transfer risks are significant, such risk shall also be considered in its Internal Capital Adequacy Assessment Process (refer to *Appendix 94*).
- (6) A BSFI's policies shall incorporate credit risk diversification and concentration limits and prudently define what constitutes concentration to a single or related issuer/s, consistent with the provisions under Sec. 143 (*Credit limits, large exposures and credit risk concentrations*).
- (7) A BSFI's investments shall be subjected to periodic impairment testing in accordance with existing accounting rules and prudential standards. A BSFI shall have processes in place to determine on a timely and holistic basis whether credit risk on an individual financial instrument has increased significantly since its initial recognition, and accordingly provide accounting adjustments when necessary. The analysis shall take into account not only the credit risk of the individual issuer but also the relevant country and transfer risks.
- (8) Engaging in investment activities also exposes a BSFI to counterparty credit risk. Counterparty credit risk arises when a counterparty to a transaction who has received a payment or delivery of assets defaults before delivery of the asset or payment, or when technical difficulties interrupt delivery or settlement despite the counterparty's ability or willingness to perform.

Transactions with a counterparty shall not commence until a credit line has been approved. Credit limits shall consider both settlement and pre-settlement exposures for all counterparties with whom the bank trades. While the structure of the credit approval process may differ across institutions, the process should reflect the organizational and geographic structure of the institution and the specific needs of its treasury activities.

d. Market Liquidity Risk

- (1) The BSFI's process of specifying permissible instruments shall clearly articulate the desired market liquidity¹ characteristics of investments under both trading and banking books. For instance, a BSFI may limit its investments to or in certain securities in view of a perceived lack of market liquidity. Such characteristics shall be aligned with the investment objectives set by the Board.
- (2) The due diligence review required under Item "b(2)" of this Section (*Policies, procedures, and limits*) shall take into account the market liquidity of proposed investments and relate the effect that such characteristics have on achieving the BSFI's investment objectives. A BSFI shall ensure that it considers the effects that market risk can have on the liquidity of different types of instruments under various scenarios.
- (3) A BSFI shall ensure that valuation and risk measurement models are able to capture the illiquidity of investments. Complex and illiquid instruments can often involve greater risk than those that are actively traded. For instance, securities with embedded options may make them highly illiquid during periods of market volatility and stress, despite their high credit rating. If market prices or rates do not move as expected, the demand for such instruments can evaporate, decreasing the market value of the instrument. Such risk is particularly acute for instruments that are highly leveraged.

e. Operational Risk

- (1) A BSFI shall be mindful that effective internal controls at the business units serve as the first line of defense in the management of operational risk in investment activities. Consistent with the operational support for other activities within a BSFI, personnel handling back office functions shall be as independent as practicable from business units. A BSFI shall institute internal controls that ensure the separation of duties and supervision of persons executing transactions from those responsible for processing contracts, confirming transactions, controlling various clearing accounts, preparing or posting the accounting entries, approving the accounting methodology or entries, and performing revaluations.²
- (2) Adequate resources shall be devoted to supporting processes, such that systems and capacity are commensurate with the size and complexity of investment activities. Effective risk management should include, at least, the following:
 - (a) Personnel. Due to the increasingly complex nature of instruments available in the marketplace, BSFIs shall ensure that personnel responsible for managing operational risks have strong technical skills. This enables a better understanding of the complex financial structures of certain investment instruments.
 - (b) Documentation. A BSFI shall set policies on the required documentation for specific financial instruments, especially complex instruments, as well as for saving and safeguarding important documents, and maintaining possession and control of instruments.
 - (c) Conflict of interest. In accordance with Item "a" of Sec. 611, a BSFI shall develop policies and guidelines governing conflicts of interest between traders and other market counterparties. Policies should likewise be developed to ensure that all directors, officers, and employees act in the best interest of the BSFI. Such policies may contain restrictions and prohibitions on engaging in personal transactions, and on the receipt of gifts and gratuities from approved dealer firms and their representatives.
- (3) A BSFI shall comprehensively evaluate the enforceability of any agreements related to its investment activities before individual transactions are consummated. Institutions shall also ensure that the counterparty is authorized to enter into the transaction and that the terms of the agreement are legally enforceable. A BSFI should have knowledge of laws and interpretations governing the use of these instruments and arrangements.

Application of the guidelines.

- a. General Rule. These guidelines shall apply to all banks and non-bank financial institutions performing quasi-banking functions (QBs) and their financial subsidiaries.
- b. Group Structures. The parent bank shall be responsible for ensuring that the risks in the investment activities of its financial subsidiaries are managed in accordance with the guidelines in this Section.
- c. Branches of Foreign Banks. A foreign bank branch may adopt the risk management approach of its parent/regional office/group in respect of its investment activities: *Provided*, That the applicable provisions under this Section are met.
- d. Minimum Requirements for Stand-alone Thrift, Rural and Cooperative Banks and Quasi-Banks with Investments that are Limited to Peso Denominated Government Securities.

¹ Market liquidity risk is defined under *Appendix 71*.

² See also Item "d" of Sec. 611 (*Treasury Operations*).

- (1) The board shall approve investment objectives consistent with the BSFI's financial condition, profile and risk tolerance. Senior management shall set clear lines of authority and responsibility for investing and monitoring the risks attendant to the BSFI's investments. These functions shall be conducted by personnel with adequate technical knowledge and experience;
- (2) A BSFI shall institute policies and procedures for formally approving investments in government securities. The BSFI shall ensure that it conducts an analysis of its investments prior to acquisition and on an ongoing basis. The periodic analysis should incorporate a review of the key risks, including market, market liquidity, liquidity and operational risks, and their impact to earnings and capital, as well as the BSFI's mechanisms for divesting of the investments, if so warranted;
- (3) The Board shall institute limits that reflect its tolerance for risks related to investment activities (e.g., maximum amount of government securities that may be invested in by the BSFI at any point in time, maximum acceptable amount of mark-to-market losses for investments designated at fair value through other comprehensive income or profit and loss). An independent unit/officer shall be assigned to monitor the exposures against the limits and report breaches, as well as the resolution of the breaches, to senior management and the board in timely manner;
- (4) The BSFI shall properly value its investments and measure its exposures under both normal and stressed market conditions (e.g., circumstances that result in sudden decline in value of investments affecting the BSFI's other comprehensive income). The result of stress tests should aid the board and senior management of the BSFI in determining whether the risks and rewards associated with its investments are consistent with its investment objective and business strategy; and
- (5) The BSFI shall set out a process for the effective and timely monitoring and reporting to the Board and senior management of information pertaining to its investments (e.g., coupon vs. prevailing interest rates, market values, gains/losses arising from derecognition).

Supervisory enforcement actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in these guidelines and bring about timely corrective actions and compliance with Bangko Sentral directives. The Bangko Sentral may, among others, cite a BSFI for conducting business in an unsafe or unsound manner should its investment activities result in abnormal risk to the institution. A BSFI may likewise be directed to refrain from engaging in specific investment activities with serious supervisory issues. Lastly, sanctions may be imposed on the BSFI and responsible persons, which may include restrictions or prohibitions from certain authorities/activities; and reprimand, suspension, removal and disqualification of concerned directors, officers and employees.

(Circular No. 1042 dated 25 July 2019)

C. FINANCIAL INSTRUMENTS

621 GLOBAL PESO NOTES

The following are the guidelines on the regulatory treatment of investments of banks in Global Peso Notes (GPNs) issued by the Republic of the Philippines:

- a. Investments in GPNs shall be recorded in the RBU books of a bank as a foreign currency-denominated asset in accordance with the provisions of the Philippine Financial Reporting Standards/Philippine Accounting Standards at their foreign currency amount and local currency equivalent;
- b. Investments in GPNs that are classified at fair value shall be subject to mark-to-market valuation and shall be valued similar to other foreign currency-denominated securities traded abroad;
- c. Investments in GPNs shall be subject to a credit risk weight of twenty percent (20%) for purposes of computing a bank's risk-based CAR;
- d. Investments in GPNs shall be excluded in the computation of a bank's daily net foreign exchange position;
- e. Trading of GPNs shall be subject to pertinent securities laws and provisions, including the appropriate licensing of dealers;
- f. Pursuant to Sec. 350, investments in GPNs shall be excluded by government FIs in determining compliance with DOSRI ceilings; and
- g. Risks attendant to investments in GPNs shall be captured under a bank's Internal Capital Adequacy Assessment Process such that investing institutions must manifest their approach in handling the risks attendant to holding/trading GPNs.

The guidelines governing the forward and swap transactions in Philippine peso are covered under the Manual of Regulations on Foreign Exchange Transactions.

Non-deliverable forward contracts involving the Philippine peso. NDF contracts involving the Philippines peso shall be covered by the provisions of *Appendix 104*.

Any violation of the provisions of *Appendix 104* shall constitute grounds for the imposition on the bank/director(s)/officer(s) of the following:

- a. *First Offense*
 - (1) Reprimand for the directors/officers responsible for the violation with a warning that subsequent violations will be subject to more severe sanctions.
 - (2) Banks in breach of the limits shall be required to submit remedial plan to comply with the limits.
- b. *Subsequent Offense* - Bank will be subject to any or all of the following, as may be recommended by the appropriate supervising department of the Bangko Sentral to the Monetary Board:
 - (1) Restriction or prohibition on the bank from requesting new authority and/or licenses of any sort;
 - (2) Restriction or prohibition on the bank from declaring dividends; and
 - (3) Issuance of an order requiring the bank to cease and desist from conducting business in an unsafe or unsound manner and may further order that immediate action be taken to correct the conditions resulting from such unsafe or unsound banking.

623-A GUIDELINES ON THE INVESTMENTS OF UNIVERSAL BANKS AND COMMERCIAL BANKS IN CREDIT-LINKED NOTES (CLNS), STRUCTURED PRODUCTS AND SECURITIES OVERLYING SECURITIZATION STRUCTURES

In line with the policy of encouraging banks to diversify their investment portfolios and to foster the development of a market for new financial products, the Bangko Sentral has issued guidelines on the investment of UBs and KBs in (1) CLNs and similar products (Sec. 624-A), (2) foreign currency denominated structured products (Secs. 625-A and 626-A) and (3) securities overlying securitization structures (Sec. 627-A).

No prior Bangko Sentral approval is required to enter into authorized transactions. However, it shall be the responsibility of UBs/KBs to fully comply with appropriate risk management standards including, as a minimum, those prescribed under relevant Sections. The regulatory requirements enumerated in *Appendix 64* shall be fully complied with by UBs/KBs investing in products allowed under Secs. 624-A, 625-A and 125 (*Capital treatment of exposures/investments in certain products*).

The guidelines on the accounting for investments in CLNs and other SPs are provided in *Appendix 27*. The guidelines on the reclassification of CLNs and other similar instruments that are linked to the ROP shall no longer apply to financial assets that are accounted for in accordance with PFRS 9.

(Circular No. 1011 dated 14 August 2018)

624-A CREDIT-LINKED NOTES AND SIMILAR CREDIT DERIVATIVES PRODUCTS

The following are the guidelines for the capital treatment of investments in CLNs and similar credit derivative products such as credit-linked deposits (CLDs) and credit linked loans (CLLs).

Definitions.

- a. A *CLN* pertains to a pre-funded credit derivative instrument under which the note holder effectively accepts the transfer of credit risk pertaining to a reference asset or basket of assets issued by a reference entity/ies. The repayment of the principal to the note holder is contingent upon the occurrence of a defined credit event. In consideration, the note holder receives an economic return reflecting the underlying credit risk of the reference asset/s.

All references to CLNs in this Section shall be taken to generically include similar instruments, such CLDs and CLLs.

- b. A *special purpose vehicle* (SPV), for purposes of this Section, refers to an entity specifically established to issue CLNs of a single, homogeneous risk class that are fully collateralized as to principal by high-grade securities purchased out of the proceeds of the note issuance. Collateral shall be limited to securities with an assignable risk weight of not more than twenty percent (20%) under existing regulations.

Qualified banks. In general, only banks with expanded derivatives authority may invest in CLNs as defined above on the principle that such banks have already demonstrated a more sophisticated ability to manage risks. Subject to the provisions in Sec. 627-A, they may also invest in SPV-issued CLNs that co-exist with other CLNs of different seniority of claims against the reference asset pool. As an exception to the general rule, a UB/KB without expanded derivatives authority may invest in single name CLNs where the reference asset is a direct ROP obligation or an obligation fully guaranteed by the ROP.

Capital treatment of investments in CLNs.

- a. **Banking book.** Positions in CLNs in the banking book shall be reported in the computation of the risk-based capital adequacy ratio covering credit risks under applicable and existing capital adequacy framework.

Through holding a CLN, a bank acquires credit exposure on two (2) fronts - to the reference entity of the note and also to the note issuer. The on-balance sheet exposure arising from the CLN should be weighted by the higher of the risk weight of the reference entity or the risk weight of the note issuer. The amount of exposure is the book value of the note. If the CLN principal is fully collateralized by securities that are acceptable as credit risk mitigant under applicable and existing capital adequacy framework and provided such collateral is constituted in a legally effective manner as to give priority to the note holders' interest in the event of bankruptcy of the note issuer, the risk weight of the note issuer is substituted with the risk weight associated with the relevant security.

When the CLN is referenced to a basket of reference entities and the contract terminates and pays out on the first entity to default in the basket, capital should be held to consider the cumulative risk of all the reference entities in the basket. This means that the risk weights of all the reference entities are added up and the sum compared with the risk weight of the note issuer. If the sum of the risk weights of all the reference entities in the basket is higher than the risk weight of the note issuer, then this sum is adopted. The resultant risk-weighted exposure to the basket is, however, capped at ten (10) times the book value of the note. Accordingly, the maximum capital charge is 100% of the book value of the note. The multiplier ten (10) is the reciprocal of the Bangko Sentral-required minimum capital adequacy ratio of ten percent (10%).

If, on the other hand, the risk weight of the note issuer is still higher than the sum of the risk weights of all the reference entities in the basket, then the risk weight of the note issuer is adopted.

When the contract terminates and pays out on the n^{th} (other than the first) entity to default in the basket, the treatment above shall apply except that in aggregating the risk weights of reference entities, the risk weight/s of $n-1$ entity/ies is/are excluded from the computation. The bank may choose which entity/ies to exclude.

If a CLN that pays out on the n^{th} entity to default is rated such that it meets the criteria of a security with the "highest credit quality" as defined under *Appendix 42*, only the highest risk weight in the basket of reference entities is compared with the risk weight of the note issuer.

If the CLN is issued by an SPV, the bank is exposed to both the reference entity and the collateral held by the SPV. Thus, the risk weight/s of the reference entity/ies should be compared with the risk weight of the riskiest eligible collateral for purposes of computing the risk-weighted exposure of the note and the corresponding capital charge.

Subject to prior Bangko Sentral clearance, a bank may disapply the additive rule when a very strong correlation among the reference entities in the basket can be demonstrated.

A CLN which is referenced to entities in the basket proportionately should be risk-weighted according to each reference entity's share of protection under the contract. Thus, if there are two (2) reference entities in a P100.0 million contract, one (1) with a 100% risk weight and a twenty percent (20%) share and the other with a twenty percent (20%) risk weight and an eighty percent (80%) share, the risk weighted exposure is P36.0 million, i.e., $P100.0 \text{ million} \times 20\% \times 100\% + P100.0 \text{ million} \times 80\% \times 20\%$. The corresponding capital charge is P3.6 million ($P36.0 \text{ million} \times 10\%$).

- b. **Trading book.** Positions in CLNs taken up in the trading book should be reported in the computation of the adjusted risk-based capital adequacy ratio covering combined credit risk and market risk under *Appendix 42*.

(1) Standardized approach

The following describes the positions to be reported for investments in CLNs for purposes of calculating specific risk and general market risk charges under the standardized approach.

A CLN investment is treated as a position in the note itself, with an embedded credit default product. The CLN is subject to the specific risk associated with the issuer or the collateral when the issuer is an SPV. In addition, it is subject to general market risk that is a function of the maturity and coupon or interest rate of the note. The embedded credit default product creates a notional position in the specific risk of the reference obligation (with no additional general market risk position created).

Specific risk

A CLN investment should be reported as a long position on the reference obligation and a long position on the note itself.

When a CLN is referenced to multiple obligations in a basket, the positions reported shall depend on the structure of the contract. When the contract terminates and pays out on the first obligation to default in the basket, the note should be reported as long positions in each of the reference obligations in the basket, with the total capital charge for the product capped at the book value of the note.

When the contract terminates and pays out on the n^{th} (other than the first) entity to default in the basket, the treatment above shall apply except that in aggregating the risk weights of the reference obligations, the risk weight/s of $n-1$ obligations is/are excluded from the computation. The bank may choose which obligations to exclude.

Subject to prior Bangko Sentral clearance, a bank may disapply the additive rule when a very strong correlation among the reference obligations in the basket can be demonstrated.

The additive treatment may also be disappplied when an n^{th} -to-default CLN is rated such that it meets the criteria of a security with the “*highest credit quality*” as defined under *Appendix 42*. Positions in the reference obligations can be reported as a single long position in a debt security with the “*highest credit quality*”. A long position on the note should also be reported whether or not the CLN meets the criteria of a security with the “*highest credit quality*”.

When the CLN is referenced to multiple obligations under a proportionate structure, positions in the reference obligations should be reported according to their respective proportions in the contract.

General market risk

A CLN investment creates a long position in the note itself.

(2) Internal models approach

Banks may seek the Bangko Sentral’s approval to include CLNs in their recognized models for calculating capital charges. The detailed requirements relating to the use of internal models are set out in *Annex A* of *Appendix 42*.

While some banks may not be able to run full internal models to calculate market risk capital charges, they may, with the necessary expertise and systems, use preprocessing techniques to calculate capital charge for CLNs. Banks wishing to adopt these techniques should seek Bangko Sentral’s prior consent. The preprocessing models are subject to verification by the Bangko Sentral.

Risk management. CLN structures are considered to be exposed to greater risks than comparable investments in direct obligations. In particular, investing banks should be aware of the potential legal risk arising from an unenforceable contract. They should consult their legal advisors about these and related legal issues before engaging in such transactions. In addition, all investments in CLNs must be duly approved by a bank’s board of directors and subjected to appropriate risk management procedures.

Bangko Sentral approval not required. No prior Bangko Sentral approval is required to invest in CLNs and similar products. However, it shall be the responsibility of UBs/KBs to fully comply with appropriate risk management standards including, as a minimum, those prescribed under this Section. The regulatory requirements enumerated in *Appendix 64* shall be fully complied with by UBs/KBs investing in products allowed under this Section.

Investment in credit-linked notes (CLNs) and similar structured products with embedded credit derivatives, as defined under this Section, including those that were reclassified from HFT to Available for Sale (AFS)/Held to Maturity (HTM)/Unquoted Debt Securities Classified as Loans (UDSCL) or from AFS to HTM/UDSCL in accordance with the reclassification rules under Circular No. 626 dated 23 October 2008 and Circular No. 628 dated 31 October 2008, shall be classified and measured at FVPL upon initial application of PFRS 9.

The accounting treatment for investments in CLNs and other structured products under Bangko-Sentral Memorandum M-2008-10 dated 07 March 2008 and the guidelines on reclassification of CLNs and other similar instruments that are linked to the ROP under Memorandum M-2009-12 dated 16 April 2009 shall no longer apply to financial assets that are accounted for in accordance with PFRS 9.

(Circular No. 890 dated 02 November 2015)

625-A BANK'S EXPOSURES TO STRUCTURED PRODUCTS

The following rules and regulations shall govern the capital treatment of banks' exposures to structured products.

Policy statement. The Bangko Sentral aims to foster the development of a market for new financial products in the country, while at the same time ensure that banks hold sufficient capital commensurate to the risks inherent in these products.

Definition. A *structured product* refers to a financial instrument where the return is a function of one (1) or more underlying indices, such as interest rates, equities and exchange rates. There may also be embedded derivatives such as swaps, forwards, options, caps, and floors that reshape the risk-return pattern. For purposes of this Section, structured products do not include asset-backed securities, credit-linked notes and other similar instruments.

Qualified banks. As a general rule, only UBs and KBs with expanded derivatives license may obtain exposures in structured products. Banks without expanded derivatives license may only invest in structured products duly approved by the Bangko Sentral.

Capital treatment of banks' exposures to structured products.

a. Banking book

- (1) Risk weights. Capital charge for structured products held in the banking book shall depend on the rating of the issuing entity, or rating of the collateral in case of structured products issued by special purpose vehicles (SPVs), given by the following Bangko Sentral-recognized international credit rating agencies:

- (a) Moody's;
- (b) Standard & Poor's;
- (c) Fitch Ratings; and
- (d) Such other international rating agencies as may be approved by the Monetary Board.

In cases where there are two (2) or more types of collateral, capital charge shall depend on the lowest rated collateral.

The mapping of ratings to the corresponding risk weights shall be as follows:

Risk Weight	Moody's	Standard & Poor's	Fitch Ratings
50%	Aaa to Aa3	AAA to AA-	AAA to AA-
100%	A1 to A3	A+ to A-	A+ to A-
150%	Baa1 to Baa3	BBB+ to BBB-	BBB+ to BBB-
Deduction from total of Tier 1 and Tier 2 Capital	Below Baa3	Below BBB-	Below BBB-
	Unrated		

- (2) *Use of ratings.* If an issuer of a structured product has only one (1) rating by any of the Bangko Sentral-recognized international rating agencies, that rating shall be used to determine the risk weight of the product; in cases where there are two (2) or more ratings which map into different risk weights, the higher of the lowest two (2) risk weights should be used.

- b. *Trading book.* Capital charge for structured products held in the trading book shall be determined in accordance with *Appendix 42*.

Bangko Sentral approval not required. No prior Bangko Sentral approval is required to enter into authorized transactions. However, it shall be the responsibility of UBs/KBs to fully comply with appropriate risk management standards including, as a minimum, those prescribed under this Section. The regulatory requirements enumerated in *Appendix 64* shall be fully complied with by UBs/KBs investing in products allowed under this Section.

626-A EXPANDED FOREIGN CURRENCY DEPOSIT UNIT INVESTMENTS IN FOREIGN CURRENCY DENOMINATED STRUCTURED PRODUCTS

The following guidelines allow UBs and KBs without expanded derivatives authority to invest in certain specified structured products.

Policy statement. The Bangko Sentral encourages banks to diversify their EFCDU investment portfolios in order to stabilize earnings, control maturity mismatches and minimize over concentration of exposures.

Scope. EFCDUs of UBs and KBs without expanded derivatives authority may invest, for their own account, in foreign currency-denominated structured products issued by banks and SPVs of high credit quality: *Provided*, That the revenue streams of such products may only be linked to interest rate indices and/or foreign exchange rates other than those that involve the Philippine Peso: *Provided, further*, That the minimum all-in return of such investments may not be lower than zero. For purposes of this Section, structured products do not include asset backed securities, credit-linked notes and other similar instruments.

Other conditions.

- a. **Maturity** - The maximum contractual maturity of any investment in structured products shall be five (5) years.
- b. **Credit quality of issuer** - Acceptable issuers are banks and SPVs collateralized by securities rated at least “A” or its equivalent by an international rating agency acceptable to the Monetary Board.
- c. **Booking** - Investments in structured products as herein defined shall be booked in accordance with *Appendix 33*.
- d. **Prudential limits** - The total carrying value of all investments in structured products as defined herein at any given point in time must not exceed twenty percent (20%) of the total investment portfolio of the EFCDU.
- e. **Risk management** - Investing banks must have established internal processes to identify, evaluate, monitor and manage the risk exposures, e.g., credit risk, market risk, liquidity risk, operational risk, legal risk, compliance risk, created by their investments in structured products. As a minimum:
 - (1) Such investments must be specifically approved by the board of directors and be subject to appropriate internal limits and periodic reporting to the Board.
 - (2) Banks must comply with generally accepted accounting and disclosure standards and/or rules and regulations prescribed by the Bangko Sentral.
 - (3) An independent risk management function must be in place.
 - (4) Banks should have the ability to value their investments on a continuing and consistent basis and to measure their sensitivity to market movements. This should include performing, at regular intervals, stress tests that reflect extreme market conditions. As part of the valuation exercise, banks should be able to obtain bid prices from the issuers of the investment instruments on a monthly basis.
 - (5) Management should ensure that the risks of the investments are accurately aggregated in risk reports on a timely basis.

Capital treatment of structured products. The capital treatment shall be in accordance with existing rules and regulations as modified for structured instruments.

Bangko Sentral approval not required. No prior Bangko Sentral approval is required to enter into authorized transactions. However, it shall be the responsibility of UBs/KBs to fully comply with appropriate risk management standards including, as a minimum, those prescribed under this Section. The regulatory requirements enumerated in *Appendix 64* shall be fully complied with by UBs/KBs investing in products allowed under this Section.

Sanctions. Non-compliance with the provisions of this Section shall subject the bank to a fine of one-tenth of one percent (1/10 of 1%) of the outstanding investment per day, but not to exceed P30,000 per day, to be reckoned from the day the bank is deemed in violation of regulations, until the day the bank has complied with the requirements. Banks may also be temporarily or permanently prohibited from such investments as circumstances may warrant.

(Circular No. 1011 dated 14 August 2018)

627-A INVESTMENTS IN SECURITIES OVERLYING SECURITIZATION STRUCTURES

The following rules shall govern banks’ investments in securities overlying securitization structures.

Policy statement. The Bangko Sentral aims to foster the development of a market for new financial products in the country and provide banks with expanded opportunities for investment diversification, while at the same time ensure that they hold sufficient capital commensurate to the risks inherent in these products.

Definition. Securitization structures refer to:

- a. structures where the cash flow from an underlying pool of exposures is used to service at least two (2) different stratified risk positions or tranches reflecting different degrees of credit risk (also known as traditional securitization); or
- b. structures with at least two (2) different stratified risk positions or tranches that reflect different degrees of credit risk, where credit risk of an underlying pool of exposures is transferred, in whole or in part, through the use of credit derivatives or guarantees that serve to hedge the credit risk of the portfolio (also known as synthetic securitization).

Qualified banks. UBs/KBs with expanded derivatives authority may invest in securities overlying any tranches of securitization structures. UBs/KBs without expanded derivatives authority may also invest but only in securities overlying tranches of securitization structures that are rated at least “A”, or its equivalent, by a Bangko Sentral-recognized credit rating agency.

Capital treatment of investments in securities overlying securitization structures.

- a. Credit risk

- (1) **Risk weights.** Capital charge for investments in securitization structures held in the banking book shall be based on the latest rating given by any of the following Bangko Sentral-recognized credit rating agencies:

- (a) International rating agencies:

- (i) Moody’s;
- (ii) Standard & Poor’s;
- (iii) Fitch IBCA; and
- (iv) Other international rating agencies as may be approved by the Monetary Board

- (b) Domestic rating agencies:

- (i) PhilRatings; and
- (ii) Other domestic rating agencies as may be approved by the Monetary Board

The assignment of risk weights corresponding to agency ratings shall be as follows:

Risk Weight	Moody’s	Standard & Poor’s	Fitch IBCA	PhilRatings
20%	Aaa to Aa3	AAA to AA-	AAA to AA-	Aaa to Aa
50%	A1 to A3	A+ to A-	A+ to A-	A
100%	Baa1+ to Baa3	BBB+ to BBB-	BBB+ to BBB-	Baa
Deduction from total of Tier 1 and Tier 2 Capital	Below Baa3 Unrated	Below BBB-	Below BBB-	Below Baa

- (2) **Use of ratings.** Ratings of Bangko Sentral recognized credit rating agencies shall be used as follows:

- (a) Securities overlying securitization structures created within the Philippines may be rated by any Bangko Sentral-recognized international or domestic credit rating agency, while securities overlying securitization structures created outside of the Philippines may only be rated by any of the international credit rating agencies that are recognized by the Bangko Sentral; and
 - (b) In cases when overlying securities have split ratings which map into different risk weights, the higher risk weight should be used.
- b. Market risk. Capital charge for securities overlying securitization structures held in the trading book shall be determined in accordance with *Appendix 46* and the use of agency ratings for such purpose shall be consistent with the above principles.

Bangko Sentral approval not required. No prior Bangko Sentral approval is required to invest in securities overlying securitization structures. However, it shall be the responsibility of UBs/KBs to fully comply with appropriate risk management standards including, as a minimum, those prescribed under this Section. The regulatory requirements enumerated in *Appendix 64* shall be fully complied with by UBs/KBs investing in products allowed under this Section.

The following regulations shall govern the origination, issuance, sale, servicing and administration of asset-backed securities (ABS) by any bank including its subsidiaries and affiliates engaged in allied activities, which are domiciled in the Philippines.

Definition of terms.

- a. *Assets* shall mean loans or receivables existing in the books of the originator prior to securitization. Such assets are generated in the ordinary course of business of the originator and may include mortgage loans, consumption loans, trade receivables, lease receivables, credit card receivables and other similar financial assets.
- b. *Asset-backed securities* shall refer to the certificates issued by a Special Purpose Trust (SPT) representing undivided ownership interest in the asset pool.
- c. *Asset pool* shall mean a group of identified, self-amortizing assets that is conveyed the SPT issuing the ABS and such other assets acquired as a consequence of the securitization.
- d. *Clean-up call* shall refer to an option granted to the seller to purchase the remaining assets in the asset pool.
- e. *Credit enhancement* shall refer to any legally enforceable scheme that is intended to enhance the marketability of the ABS and increase the probability that investors receive payment of amounts due them.
- f. *Guarantor* shall refer to an entity that guarantees the repayment of principal and interest on loans or receivables included in the asset pool in the event of default by the borrower.
- g. *Investible funds* shall refer to the proceeds of collection of loans or receivables included in the asset pool which are not yet due for distribution to investors.
- h. *Issuer* shall refer to the SPT that issues the ABS.
- i. *Originator* shall refer to a bank and/or its subsidiary or affiliate engaged in allied activities that grants or purchases loans or receivables and assembles them into a pool for securitization.
- j. *Residual certificates* shall refer to certificates issued representing claims on the remaining value of the asset pool after all ABS holders are paid.
- k. *Seller* shall refer to the entity which conveys to the SPT the assets that constitute the asset pool.
- l. *Servicer* shall refer to the entity designated by the Issuer primarily to collect and record payment received on the Assets, to remit such collections to the Issuer and perform such other services as may be specifically required by the issuer excluding asset management or administration.
- m. *Special purpose trust* shall refer to a trust administered by a trustee and created solely for the purpose of issuing and administering an ABS.
- n. *Trustee* shall refer to the entity designated to administer the SPT.
- o. *Underwriter* shall refer to the entity engaged in the act or process of distributing and selling of the ABS either on guaranteed or best effort basis.

Prior Bangko Sentral approval. Any bank including its subsidiaries and affiliates engaged in allied activities, may securitize its assets upon prior approval of the Bangko Sentral.

Board approval requirement. The originator/seller shall have the securitization program approved by its board of directors. The originator/seller shall integrate such securitization program into its corporate strategic plan. The board of directors shall ensure that the securitization of assets is consistent with such program.

Minimum documents required. The application to securitize must be accompanied by the following documents as a minimum requirement:

- a. *Trust indenture* evidencing the conveyance of the assets from the seller to the Issuer or SPT, the features of which shall include the following:
 - (1) Title or nature of the contract in noticeable print;
 - (2) The parties involved, indicating in noticeable print, their respective legal capacities, responsibilities and functions;

- (3) Features and amount of ABS;
- (4) Purposes and objectives;
- (5) Description and amount of assets comprising the asset pool;
- (6) Representations and warranties;
- (7) Credit enhancements;
- (8) Distribution of funds;
- (9) Authorized investment of investible funds;
- (10) Rights of the investor;
- (11) Reports to investors; and
- (12) Termination and final settlement.

The trust indenture shall include as annexes the servicing agreement between the trustee and the servicer and the underwriting agreement between the seller and the underwriter.

b. *Prospectus.* As a minimum requirement, it shall contain the following:

- (1) Summary of the contents of the prospectus;
- (2) Description of each class of certificate, including such matters as probable yields, payment dates and priority of payments;
- (3) Description of the assets comprising the Asset Pool as well as the representations and warranties set forth by the originator and/or seller;
- (4) Assumptions underlying the cash flow projections for each class of certificate;
- (5) Description of any credit enhancements;
- (6) Identity of the servicer; and
- (7) Disclosure statements as required under this Section on Disclosure requirements.

c. Specimen of application to purchase ABS. It shall include the terms and conditions of the purchase and the disclosures required under this Section on Disclosure requirements.

d. Specimen of certificate. It shall indicate the features of the ABS and the disclosures required under this Section on Disclosure requirements.

Minimum features of asset-backed securities. The ABS shall be pre-numbered and printed on security paper. The ABS shall be signed and authenticated by the trustee. They are transferable by endorsement of the certificate. The transfer shall be recorded in the books of the trustee, indicating the names of the parties to the transaction, the date of the transfer and the number of the certificate transferred.

The minimum denomination of any ABS shall be P10,000.

Disclosure requirements. The following disclosures must be provided in a conspicuous manner in any document inviting investment, application to purchase ABS and the certificate itself:

- a. The ABS do not represent deposits or liabilities of the originator, servicer or trustee and that they are not insured with PDIC;
- b. The investor has an investment risk;
- c. The trustee does not guarantee the capital value of the ABS or the collectibility of the asset pool; and
- d. The right of an investor.

The investors shall be required to sign an acknowledgment indicating that they have read and understood the disclosures.

Conveyance of assets.

- a. The conveyance of the assets comprising the asset pool shall be done within the context of a true sale and, for this purpose, the seller may not retain in its books the ABS, except the residual certificate, if any.
- b. The seller shall have no obligation to repurchase or substitute an asset or any part of the asset pool at any time, except in cases of a breach of representation or warranty, or under a revolving structure, to replace performing assets which have been paid out in part or full.
- c. The seller shall be under no obligation to provide additional assets to the SPT to maintain a "coverage ratio" of collateral to outstanding ABS. A breach of this requirement will be considered a credit enhancement and should be charged against capital. However, this will not apply to an asset pool conveyed under a revolving structure such as the securitization of credit card receivables.
- d. Securitized assets shall be considered the subject to a true sale between the seller and the SPT. Sold assets shall be taken off the books of the seller and shall be transferred to the books of the SPT.

For accounting purposes, the transfer shall only be considered a true sale if the following three (3) conditions have been satisfied:

- (1) the transferred assets have been isolated and put beyond the reach of the seller and its creditor;
 - (2) the SPT has the right to pledge or exchange its interest in the assets; and
 - (3) the seller does not effectively maintain control over the transferred assets by any concurrent agreement.
- e. All expenses incidental to underwriting, conveyance of the asset pool including expenses for credit enhancement may be paid by the originator/seller: *Provided*, That no further expenses shall be borne by the originator/seller after the asset pool has been conveyed to the SPT.

Representations and warranties.

- a. *Standard representations and warranties* refer to an existing state of facts that the originator, seller or servicer can either control or verify with reasonable due diligence at the time the assets are sold. Any breach of representation or warranty may give rise to legal recourse.
- b. The representations or warranties shall be clear and explicit and, in particular, shall not relate to the future creditworthiness of the assets in the asset pool or the performance of the SPT or the securities issued.
- c. Any agreement to pay damages as a result of breach of warranties and representations shall hold only where:
 - (1) there is a well-documented negotiation of the agreement in good faith;
 - (2) the burden of proof for a breach of representation or warranty rests with the other party;
 - (3) damages are limited to the loss incurred as a result of the breach; and
 - (4) there is a written notice of claim specifying the basis for the claim.

The Bangko Sentral shall be notified of any instance where a bank or its subsidiaries/affiliates has agreed to pay damages arising out of any breach of representation or warranty.

Third party review. A due diligence review by an independent entity mutually agreed upon by the seller and the Issuer shall be done before the assets are sold.

Originator and seller.

- a. The seller may itself be the originator, and may likewise be designated as the servicer.
- b. The seller or originator shall deliver to the trustee all original documents or instruments with respect to each asset sold.

Trustee and issuer.

- a. The trustee shall be the trust department of a bank licensed to do business in the Philippines.
- b. The trustee shall have the right to manage or administer the asset pool. The trustee shall see to it that necessary measures are taken to protect the asset pool.
- c. The trustee shall undertake a performance review of the asset pool at least quarterly and shall prepare a report to investors indicating, among others, collections, fees and other expenses as well as defaults, which report shall be made available to the investors at anytime after thirty (30) days from end of the reference quarter.
- d. The trustee shall initiate all civil actions including foreclosure of mortgaged properties to effect collection of receivables in the asset pool. The servicer or any other party may be designated by the trustee to perform such function on a case-by-case basis.
- e. The trustee may invest the Investible funds only in obligations issued and/or fully guaranteed by the government of the Republic of the Philippines or by the Bangko Sentral and such other high-grade readily marketable debt securities as the Bangko Sentral may approve.
- f. The trustee shall designate a replacement of the servicer if the latter fails to satisfactorily perform its duties and responsibilities according to the terms and conditions of the servicing agreement.

Servicer.

- a. The servicer shall perform its duties according to the terms and conditions of the servicing agreement and such other written instructions as the trustee may issue on a case-by-case basis. Collections made by the servicer shall

be remitted promptly to the trustee or as may be agreed upon by the parties in the servicing agreement, but in no case shall the remittance period be longer than one (1) month.

- b. The servicer shall prepare periodic reports as may be required by the trustee.
- c. The servicer shall report to the trustee within thirty (30) days, any borrower which fails to pay its debt at maturity date or any adverse development that may affect the collectibility of any loan account or receivable comprising the asset pool.
- d. The servicer shall have no authority to waive penalties and charges except with a written authority from the trustee.

Underwriter.

- a. A UB or IH shall have written policies and procedures on underwriting of ABS.
- b. The underwriter shall perform its functions according to the terms and conditions of the underwriting agreement.
- c. An underwriter may deal in ABS, except those administered by its trust department, the trust departments of its subsidiaries/affiliates, the trust department of its parent bank or the trust department of its parent bank's subsidiaries/affiliates.
- d. A UB/IH may act as underwriter, on a firm basis, of ABS except those administered by its trust department, the trust departments of its subsidiaries/affiliates, the trust department of its parent bank or the trust department of its parent bank's subsidiaries/affiliates.
- e. The underwriter may not extend credit for the purpose of purchasing the ABS which such UB/IH underwrites or that which is underwritten by its subsidiaries/affiliates, its parent bank or its parent bank's subsidiaries/affiliates.

Guarantor.

- a. Only an entity the regular business of which includes the issuance of guarantees or similar undertaking may act as guarantor.
- b. The guarantor must have the financial capacity to perform its responsibilities in accordance with the terms and conditions of the guarantee agreement. It shall submit to the trustee at least once in every six (6) months such financial reports as the trustee may require.
- c. The originator or seller may not issue a counter-guarantee in favor of the guarantor.

Credit enhancement. Credit enhancement may be provided in any of the following manner:

- a. Standby letter of credit issued by a UB/KB other than the originator/seller or its subsidiary/affiliate, its parent bank or the parent bank's subsidiary/affiliate, and trustee or its subsidiary/affiliate;
- b. Surety bond issued by any insurance company other than the originator's/seller's subsidiary or affiliate, the subsidiary or affiliate of the originator's/seller's parent bank and the trustee or its subsidiary/affiliate;
- c. Guarantee issued by any entity other than the originator/seller or its subsidiary/affiliate, its parent bank or the parent bank's subsidiary/affiliate, and trustee or its subsidiary/affiliate;
- d. Overcollateralization provided by the originator/seller wherein the assets conveyed to the SPT exceed the amount of securities to be issued.

Losses arising from overcollateralization shall be recognized by the originator/seller upfront. Such losses shall be treated as capital charges.

- e. Spread account wherein the income from the underlying pool of receivables is made available to cover any shortfall in the repayment of ABS. The spread account shall be handled by the trustee which shall account for it separately. If not needed, this "spread" generally reverts to the holder of the residual certificate.
- f. Subordinated securities that are lower ranking, or junior to other obligations and are paid after claims to holders of senior securities are satisfied.
- g. Other credit enhancements as may be approved by the Monetary Board.

To be consistent with the concept of true sale, subordinated securities shall be sold to third party investors other than originator's/seller's parent company or its subsidiary/affiliate and the trustee or its subsidiary/affiliate or, if held by the seller, capital charges should be booked upfront. Otherwise, the subordinated securities shall be treated as deposit substitute subject to legal reserves.

Clean-up call. A *clean-up call* may be exercised by the seller once the outstanding principal balance of the receivable component of the asset pool falls to ten percent (10%) or less of the original principal balance of the asset pool. Where the asset pool includes foreclosed and other assets, such assets shall be included in the clean-up call and the consideration thereof shall be at current market value. Such a *clean-up call* shall not be considered recourse or in violation of this Section on conveyance of assets.

Prohibited activities.

- a. The seller may not, under any circumstance, designate its trust department, the trust department of its subsidiaries/affiliates, the trust department of its parent bank or the trust department of its parent bank's subsidiaries/affiliates as trustee.
- b. Any director, officer or employee of the originator, seller or servicer may not serve as a member of the board of directors or trust committee of the trustee or vice versa for the duration of the securitization.
- c. The trust indenture shall not contain any stipulation whereby the seller, its subsidiaries/affiliates, its parent bank or the parent bank's subsidiaries/affiliates shall commit to extend any credit facility to the issuer and/or trustee.
- d. The ABS shall not be eligible as collateral for a loan extended by a bank which originated/sold the underlying assets of such ABS.
- e. The trust department of a bank that has discretion in the management of any trust or investment management account may not purchase for said trust/investment management account ABS administered by the trust department of the same bank, the trust department of such trustee's subsidiaries/affiliates, the trust department of such trustee's parent bank and the trust department of the parent bank's subsidiaries/affiliates.
- f. The trustee may not designate its subsidiary/affiliate, its parent or the parent's subsidiaries/affiliates as servicer or vice versa.

Amendment of trust indenture. Any amendment to the trust indenture shall require the prior approval of the Bangko Sentral.

Trustee or servicer in securitization. Without prior approval of the Bangko Sentral, a bank or any entity supervised by the Bangko Sentral may act as trustee or servicer in a securitization scheme originated by an entity not supervised by the Bangko Sentral: *Provided*, That the assets which are the subject of such securitization are existing in the books of the entity prior to securitization: *Provided, further*, That such entity acting as trustee or servicer is not a subsidiary/affiliate of the originator/seller, its parent bank or the parent bank's subsidiaries/affiliates or vice versa: *Provided, finally*, That such entity acting as trustee may not designate its subsidiaries/affiliates, its parent or the parent's subsidiaries/affiliates as servicer or vice versa.

Report to Bangko Sentral. The trustee bank shall submit a report of every securitization scheme in formats to be prescribed by the Bangko Sentral. The report shall be submitted to the appropriate supervising department of the Bangko Sentral, within fifteen (15) banking days after end of every reference quarter. Such report shall be considered a *Category A* report for purposes of implementing fines in the submission of required reports pursuant to existing regulations.

629 THE CURRENCY RATE RISK PROTECTION PROGRAM (CRPP) FACILITY

The CRPP Facility is a non-deliverable USD/PHP forward contract (NDF) between the Bangko Sentral and a UB/KB (the "Bank") in response to the request of bank clients desiring to hedge their eligible foreign currency obligations. Transactions under the CRPP facility are considered part of banks' Generally Authorized Derivatives Activities (GADA).

Banks' exposures arising from NDF transactions under the CRPP facility shall not be included in the computation of total gross NDF exposures for the purpose of determining compliance with the limit prescribed in *Appendix 104*. In addition, the market risk capital charge for the net open position for NDFs under this facility shall be calculated by applying the standard 125% percent multiplication factor instead of the 187.5 percent factor prescribed for other NDFs under *Appendix 42*.

Under the CRPP Facility, only the net difference between the contracted forward rate and the prevailing spot rate shall be settled in pesos at maturity of the contract. Should the eligible obligation be denominated in a foreign currency other than the US dollar, the CRPP contract shall be denominated in the US dollar equivalent using the exchange rate indicated in the Bangko Sentral Reference Exchange Rate Bulletin on deal date.

Coverage. Eligible obligations under the CRPP Facility shall refer to *unhedged* foreign currency obligations in amounts of not less than US\$50,000.00 which are current and outstanding as of date of application. Past due foreign currency obligations are not eligible. The maximum tenor of the CRPP contracts is ninety (90) days.

For this purpose, *unhedged obligations* shall refer to those without outstanding hedge either through forward contracts, options or matched foreign currency assets.

Partially hedged foreign exchange obligations shall be evaluated on a case-to-case basis.

The following are considered eligible foreign exchange obligations:

- a. Bangko Sentral-reported short-term (ST) trade-related loans from banks operating in the Philippines [Foreign Currency Deposit Unit/Expanded Foreign Currency Deposit Unit (FCDU/EFCDU) and Regular Banking Unit (RBU)];
- b. Bangko Sentral-reported medium/long-term trade-related FCDU/RBU loans with payments maturing within ninety (90) days as of date of application;
- c. Bangko Sentral-reported/registered ST trade-related borrowings of oil companies from offshore banking units (OBUs) and offshore banks/sources;
- d. US dollar trust receipts;
- e. Foreign currency import bill/customers' liabilities under acceptances; and
- f. Documents against acceptance (DA)/open account (OA) import obligations duly reported by an AAB to Bangko Sentral under Schedule 10 – Import Letters of Credit (L/Cs) and DA-OA Import Availments and Extensions of FX Form 1.

Implementing Guidelines. The implementing guidelines covering the mechanics, documentary requirements and detailed procedural rules of the Facility are provided in *Appendix 132*.

Supervisory enforcement actions. The Bangko Sentral reserves the right to deploy its range of supervisory tools to promote adherence to the requirements set forth in the guidelines under this Section and bring about timely corrective actions and compliance with the Bangko Sentral directives.

In the performance by the Bangko Sentral of the post-verification of the CRPP contracts through on-site examination or off-site verification to ascertain the eligibility of the underlying foreign currency obligation with the CRPP Facility, the following enforcement actions and procedures shall be employed:

a. Pre-termination Requested by the Bank

- (1) Should the post-verification by Bangko Sentral of pre-termination by the Bank show no proof of actual payment of the foreign exchange (FX) obligation, or the manner of payment was through the renewal of the loan under a new promissory note or by another form of FX obligation, the Bangko Sentral shall debit the Bank's regular demand deposit account with the Bangko Sentral for the amount received by the Bank from Bangko Sentral as a result of the pre-termination of the CRPP contract, if any, plus interest calculated using Bangko Sentral's overnight lending rate from the date the amount was received from the Bangko Sentral to the date the amount is returned to the Bangko Sentral.

In addition, the Bank shall be liable to pay a monetary penalty of ₱30,000.00 per calendar day covering the period from the date of pre-termination up to the date the Bangko Sentral completed its post-verification of pre-termination or maturity of the contract, whichever comes earlier.

- (2) Should the post-verification by Bangko Sentral show that the underlying FX obligation of a CRPP contract pre-terminated by the Bank is ineligible, the Bangko Sentral shall debit the Bank's regular demand deposit account with the Bangko Sentral for the amount received by the Bank from Bangko Sentral as a result of the pre-termination of the CRPP contract, if any, plus interest calculated using Bangko Sentral's overnight lending rate from the date the amount was received from the Bangko Sentral to the date the amount is returned to the Bangko Sentral.

A monetary penalty of ₱30,000.00 per calendar day shall be imposed from contract date up to pre-termination date.

b. Pre-termination by the Bangko Sentral

- (1) The Bangko Sentral shall pre-terminate existing CRPP contracts when the underlying FX obligation is found ineligible during post-verification by the Bangko Sentral. A monetary penalty of ₱30,000.00 per calendar day shall be imposed on the Bank from the contract date up to pre-termination date.
- (2) The Bangko Sentral shall also pre-terminate CRPP contracts when the underlying FX obligation is paid before the maturity of the CRPP contract and the client failed to request for pre-termination. A monetary penalty of

₱30,000.00 per calendar day shall be imposed from the date of payment of the underlying FX obligation up to pre-termination date.

c. Post-verification of Matured Contracts

Should the post-verification of matured contracts show proof that the supporting FX obligation is fictitious or ineligible under the CRPP Facility, a monetary penalty of ₱30,000.00 per calendar day shall be imposed on the Bank for the whole duration of the contract. In addition, the Bangko Sentral shall debit the Bank's regular demand deposit account with the Bangko Sentral for any gains received by the Bank from the Bangko Sentral, if any, plus interest calculated using Bangko Sentral's overnight lending rate from the date the contract matured to the date the amount is returned to the Bangko Sentral.

d. Other Sanctions

In addition to the foregoing prescribed penalties, and subject to the confirmation by the Monetary Board, any violation of the provisions of this Section, including willful delay in the submission, non-submission and/or willful making of a false or misleading statement in the notarized certification required to be submitted to the Bangko Sentral under Sections A.3 and F.4 of *Appendix 135*, shall constitute grounds for the imposition on the Bank of the following:

- (1) First Offense – Reprimand for the director/officers responsible for the violation with a warning that subsequent violations will be subject to more severe sanctions.
- (2) Subsequent Offense – The Bank will be subject to any or all of the following, as may be recommended by the appropriate sector of the Bangko Sentral to the Monetary Board:
 - (a) Restriction or prohibition on the bank from requesting new authority and/or licenses within one year period reckoned from the date of offense; and
 - (b) Restriction or prohibition on the bank from declaring dividends for one year period reckoned from the date of offense; and
 - (c) Issuance of an order requiring the Bank to cease and desist from performing and continuing to perform the acts, practices or transactions which is in violation of banking laws, rules and regulations, as well as an order directing the Bank to immediately stop the violation and take action to correct the conditions resulting from such act, practice or transaction.

(Circular Nos. 1065 dated 3 December 2019, 1015 dated 5 October 2018, and 1014 dated 24 September 2018)

PART SEVEN

ELECTRONIC PAYMENT AND FINANCIAL SERVICES

701 POLICY STATEMENT

The Bangko Sentral recognizes that electronic payment and financial services contribute to economic growth by facilitating the transfer of funds which are necessary for all productive activities. Thus, the Bangko Sentral promotes a safe, efficient, reliable, affordable, and inclusive national payment system to support the delivery of said services.

Definition of terms. In addition to the definitions under Sec. 803 (*Definition of terms*), the definitions of the following terms shall apply for the purpose of this Section:

- a. **Electronic Payment and Financial Services (EPFS)** – products or services offered by Bangko Sentral-supervised Financial Institutions (BSFIs) to enable customers to receive payments or initiate financial transactions and other related services through an electronic device such as a computer, mobile phone, Automated Telling Machine (ATM), and other devices. In particular, EPFS allow customers to electronically access information on their transaction accounts, move or receive funds from one account to another, or avail of credit, investment, trust, or other banking products and/or services (e.g., online or mobile loan application, electronic placement of funds in certain investment outlets, etc.).
- b. **Transaction account** – an account (e.g., deposit account, e-money, electronic wallet, etc.) held or maintained with a BSFI, which could be a bank or a non-bank.

Classification of EPFS. For the purpose of authorizing BSFIs to render EPFS, such services shall be classified as follows:

- a. **Basic EPFS** – These are limited to services allowing only receipt of funds or access to information (e.g., account balance, statement of account, etc.).
- b. **Advanced EPFS** – In addition to basic services, advanced EPFS enable customers to send funds and initiate other financial transactions.

Requirements for the grant of authority to offer EPFS.¹ Pursuant to Sec. 111 on the Bangko Sentral Policy and Regulations on Licensing, BSFIs that intend to offer EPFS shall obtain the appropriate authority/license, as follows:

Classification	Category of License/Authority
Advanced EPFS	Type A ² /B ³
Basic EPFS	Type C

BSFIs shall observe the “Guidelines on Licensing of Electronic Payment and Financial Services” shown in *Appendix 136*.

Compliance with relevant regulations. A BSFI that has been granted an advanced EPFS authority shall at all times comply with the following relevant regulations:

- a. Oversee its EPFS through an appropriate top-level committee to ensure that concerns on these services are timely and properly addressed;
- b. Make its EPFS with funds transfer functionality interoperable by participating in an Automated Clearing House pursuant to the guidelines provided under Part 8 of this Manual on Payment Systems;
- c. Integrate EPFS in its overall strategic plan to ensure that these services do not put undue strain on its systems, financial performance, and risk management capability;
- d. Promote EPFS by implementing appropriate marketing strategies;
- e. Ensure that it satisfies the legal and regulatory requirements for Anti-Money Laundering/Combating Financing of Terrorism; and
- f. Comply with the relevant regulations on payments, Information Technology (IT) Risk Management Standards, Guidelines on Electronic Products and Services, Business Continuity Management regulations, and Consumer Protection Standards of Conduct for BSFIs.

¹ The BSFIs shall re-register their EPFS by accomplishing the attached re-registration form with covering certification (*Appendix 143*). The re-registration form shall be electronically submitted with the subject ““EPFS Re-registration - <name of BSFI> - <date-YYYYMMDD>” to epfs-licensing@bsp.gov.ph not later than 31 March 2019 while the covering certification shall be sent to the Financial Technology Sub-sector of the Bangko Sentral. Failure to submit the re-registration form by 31 March 2019 shall result in the revocation of the issued license/s.

² This applies to BSFIs that *can* be assessed against the prudential criteria provided in the Policy and Regulations on Licensing. These applicants must have been examined by the Bangko Sentral.

³ This applies to proponents that *cannot* be assessed against the prudential criteria provided in the Policy and Regulations on Licensing. These include newly-established BSFIs and new applicants for an authority to operate as “Electronic Money Issuer-Others”.

Enhancements and other changes in EPFS. BSFIs shall seek prior Bangko Sentral approval for the following enhancements and changes in their licensed EPFS:

- a. Replacement of platform;
- b. Upgrade in EPFS from purely informational to transactional services; and
- c. Change in system architecture, altering the risk score or assessment on the system or the other systems related to it.

Reportorial requirements. BSFIs shall provide the Bangko Sentral with the required data and updates on their EPFS.

- a. **Required Reports.** The following reports shall be submitted to the appropriate supervising department of the Bangko Sentral in the manner prescribed under *Appendix 7*:
 - (1) EPFS Transactions and Indicators; and
 - (2) Changes and Enhancements in EPFS.
- b. **Sanctions.** Failure to comply with the reportorial requirements shall subject the concerned BSFI to applicable sanctions for “Erroneous/Delayed/Erroneous and Delayed/Unsubmitted reports” as prescribed under Sec. 171.

Enforcement action. Failure to comply with the provisions of this Section shall cause the concerned BSFI to be subject to enforcement action in accordance with Sec. 002 and/or Sec. 111 (*Enforcement actions*).

(Circular No. 1033 dated 22 February 2019)

702 ISSUANCE AND OPERATIONS OF ELECTRONIC MONEY

The following guidelines shall govern the issuance of electronic money (e-money) and the operations of electronic money issuers.

Declaration of policy. It is the policy of the Bangko Sentral to foster the development of efficient and convenient retail payment and fund transfer mechanisms in the Philippines. The availability and acceptance of e-money as a retail payment medium will be promoted by providing the necessary safeguards and controls to mitigate the risks associated in an e-money business.

Definitions.

E-money shall mean monetary value as represented by a claim on its issuer, that is –

- a. electronically stored in an instrument or device;
- b. issued against receipt of funds of an amount not lesser in value than the monetary value issued;
- c. accepted as a means of payment by persons or entities other than the issuer;
- d. withdrawable in cash or cash equivalent; and
- e. issued in accordance with this Section.

Electronic money issuer (EMI) shall be classified as follows:

- a. Banks (hereinafter called EMI-Bank);
- b. NBFI supervised by the Bangko Sentral (hereinafter called EMI-NBFI); and
- c. Non-bank institutions registered with the Bangko Sentral as a monetary transfer agent under Sec. 901-N of the MORNBF (hereinafter called EMI-Others).

For purposes of this Section:

- a. *Electronic instruments or devices* shall mean cash cards, e-wallets accessible via mobile phones or other access device, stored value cards, and other similar products.
- b. E-money issued by banks shall not be considered as deposits.

Prior Bangko Sentral approval. Banks planning to be an EMI-Bank shall apply in accordance with Sec. 701 relating to the guidelines on electronic payment and financial services and with Sec. 112 on outsourcing of banking functions, when applicable.

Common provisions. In addition to the provisions under Sec. 701 (*Compliance with relevant regulations*), EMIs shall comply with the following requirements:

- a. E-money instrument issued shall be subject to aggregate monthly load limit of P100,000 unless a higher amount has been approved by the Bangko Sentral. In case an EMI issues several e-money instruments to a person (e-money holder), the total amount loaded in all the e-money instruments shall be consolidated in determining compliance with the aggregate monthly load limit;

- b. EMIs shall put in place a system to maintain accurate and complete record of e-money instruments issued, the identity of e-money holders, and the individual and consolidated balances thereof. The system must have the capability to monitor the movement of e-money transactions and link e-money instruments issued to common e-money holders. The susceptibility of a system to intentional or unintentional misreporting of transactions and balances shall be sufficient ground for imposition by the Bangko Sentral of sanctions, as may be applicable.
- c. E-money may only be redeemed at face value. It shall not earn interest nor rewards and other similar incentives convertible to cash, nor be purchased at a discount. E-money is not considered a deposit, hence, it is not insured with the PDIC.
- d. EMIs shall ensure that e-money instruments clearly identify the issuer who is ultimately responsible to the e-money holders. This shall be communicated to the client who shall acknowledge the same in writing.
- e. It is the responsibility of EMIs to ensure that their distributors/e-money agents comply with all applicable requirements of the Anti-Money Laundering Law, rules and regulations.
- f. EMIs shall provide an acceptable redress mechanism to address the complaints of its customers.
- g. EMIs shall disclose in writing and its customers shall signify agreement to the information embodied in Item "c" above upon their participation in the e-money system. In addition, it shall provide clear guidance in English and Filipino on consumers' right of redemption, including conditions and fees for redemption, if any. Information on available redress procedures for complaints together with the address and contact information of the issuer shall also be provided.
- h. Prior to the issuance of e-money, EMIs should ensure that the following minimum systems and controls are in place:
 - (1) Sound and prudent management, administrative and accounting procedures and adequate internal control mechanisms;
 - (2) Properly-designed computer systems which are thoroughly tested prior to implementation;
 - (3) Appropriate security policies and measures intended to safeguard the integrity, authenticity and confidentiality of data and operating processes;
 - (4) Adequate business continuity and disaster recovery plan; and
 - (5) Effective audit function to provide periodic review of the security control environment and critical systems.
- i. EMIs shall provide the appropriate supervising department of the Bangko Sentral quarterly statements containing, among others, information on investments, volume of transactions, total outstanding e-money balances, and liquid assets in such forms as may be prescribed later on.
- j. EMIs shall notify the Bangko Sentral in writing of any change or enhancement in the e-money facility thirty (30) days prior to implementation. If said change or enhancement requires prior Bangko Sentral approval, the same shall be evaluated accordingly. Any change or enhancement that shall expand the scope or change the nature of the e-money instrument shall be subject to prior approval of the Deputy Governor of the appropriate sector of the Bangko Sentral. These changes or enhancements may include the following:
 - (1) Additional capabilities of the e-money instrument/s, like access to new channels (e.g. inclusion of internet channel in addition to merchant Point of Sale terminals);
 - (2) Change in technology service providers and other major partners in the e-money business (excluding partner merchants), if any; and
 - (3) Other changes or enhancements.

Sanctions. Monetary penalties and other sanctions for the following violations committed by EMI-Banks shall be imposed:

Nature of Violation/Exception	Sanction/Penalties
1. Issuing e-money without prior Bangko Sentral approval	Applicable penalties under Sections 36 & 37 of R.A. No. 7653; Watchlisting of owners/partners/principal officers
2. Violation of any of the provisions of R.A. No. 9160 (Anti-Money Laundering Law of 2001 as amended by R.A. No. 9194) and its implementing rules and regulations	Applicable penalties prescribed under the Act
3. Violation/s of this Section	Penalties and sanctions under the abovementioned laws and other applicable laws, rules and regulations

In addition, the susceptibility of a system to intentional or unintentional misreporting of transactions and balances shall be sufficient ground for appropriate Bangko Sentral action or imposition of sanctions, whenever applicable.

Outsourcing of services by Electronic Money Issuers (EMIs) to Electronic Money Network Service Providers (EMNSP).
The guidelines on outsourcing of services by EMIs to EMNSP are shown in *Appendix 98*.

Sanctions. Violations committed by EMIs pertaining to outsourcing activities to EMNSP shall be subject to monetary penalties as graduated under Sec. 1102 and/or other non-monetary sanctions under Section 37 of RA No. 7653.

(Circular No. 1033 dated 22 February 2019)

PART EIGHT

REGULATIONS ON PAYMENT SYSTEMS

801 AUTOMATED TELLER MACHINES

- a. *Off-site ATMs.* Banks may establish off-site ATMs, subject to the following conditions:
 - (1) Banks shall submit a report to the appropriate department of the Bangko Sentral on ATMs which they establish;
 - (2) The off-site ATMs shall be installed only in centers of activity like shopping centers, supermarkets, hospitals, university campuses: *Provided*, That adequate internal control and security measures shall be adopted and submitted to the Bangko Sentral; and
 - (3) Only banks which have shown general compliance with laws, rules and regulations shall be allowed to open off-site ATMs.
- b. *Mobile ATMs.* Banks may also establish mobile ATMs, subject to the following conditions:
 - (1) The mobile ATMs should be allowed to visit only centers of activity as mentioned in Item “a(2)” above;
 - (2) The bank shall secure insurance coverage or adopt a self-insurance scheme to protect itself against losses of whatever nature in its mobile ATM operations; and
 - (3) The bank shall notify the appropriate department of the Bangko Sentral of the actual date a mobile ATM becomes operational and when no longer in operation.

802 CHECK CLEARING OPERATIONS

The PCHC was appointed and designated by the Bangko Sentral as a processing agency and exclusive provider of nationwide Magnetic Ink Character Recognition (MICR)/Automated Clearing Facility. It shall implement Clearing of Checks via Electronic Presentment through its Check Image and Clearing System (CICS) upon receipt by the Bangko Sentral of a written notice from the PCHC that CICS is operational¹.

Banks shall observe the clearing procedures in accordance with the PCHC Clearing House rules and regulations for the clearing of checks including the Banks' responsibility to verify the accuracy of reports and directly communicate with the concerned party regarding any clearing discrepancy or error noted in the course of proving their incoming/outgoing clearing items.

Check Clearing Rules for Banks Authorized to Accept Demand Deposits.² The following are the check clearing rules for banks authorized to accept demand deposits:

- a. Banks authorized to accept demand deposits may participate in the clearing process conducted by the PCHC, subject to the latter's accreditation rules, either through (1) direct participation in clearing operations; or (2) indirect participation through conduit arrangements with UBs/KBs. Other banks may indirectly participate through maintenance of DDAs with UBs/KBs as settlement account for demand deposit or NOW accounts of TBs/RBs.
- b. Banks authorized to participate directly in the clearing in PCHC shall be subject to the following measures to manage the settlement risks:
 - (1) Settlement of both inward and outward items shall be value dated on the day the checks are originally presented to PCHC or RCC, net of AM returns. For this purpose, the *value date or settlement date* referred to herein shall be defined uniformly as the date of original presentation of the COCI to PCHC for the Integrated GM LX and to the RCC for the RLX. For the Integrated GM Outward to Region, Integrated GM Inward from Region and Region to Region clearing, the value date or settlement date shall be on the day the COCIs are received and processed at PCHC.
 - (2) A ceiling shall be set on the amount of overdraft a bank may incur due to failure to cover clearing losses through interbank borrowings and/or repurchase agreements with the Bangko Sentral. The *ceiling* is defined as the sum of clean Overdraft Credit Line (OCL) equivalent to fifteen percent (15%) of rediscounting line with the Bangko Sentral, and the collateralized OCL that will be extended by Bangko Sentral. A bank not meeting the following criteria:
 - (a) CAMELS composite rating of at least “3”;

¹ The new check clearing process shall be implemented on 20 January 2017. For participant banks which will not be compliant with the CICS standard on 20 January 2017, they shall execute a Letter of Commitment stating, among others, the actions that they will be taking to be compliant with the CICS standard until 21 April 2017.

² See schedule of revised clearing and settlement process shown as footnote of Sec. 203.

(b) CAR of at least ten percent (10%); or

(c) No chronic reserve deficiencies for the immediately preceding one (1) year;

or other measures as may be defined by the Bangko Sentral for this purpose, should apply for collateralized OCL in an amount equivalent to at least five percent (5%) of their demand deposit liabilities as of end of month, two (2) months prior to the date of application with the Department of Loans and Credit (DLC); otherwise, its outward clearing items shall be subject to second day value dating.

Other banks may also apply for collateralized OCL in any amount.

(3) Provided the overdraft does not exceed the ceiling as defined in Item “2” hereof, the bank may avail of the clean/collateralized OCL. The availments against the approved clean/collateralized OCL shall bear interest at a rate equivalent to one-tenth of one percent (1/10 of 1%) per day or the 91-day T-Bill rate of the last auction immediately preceding the availment, plus three percentage (3%) points, whichever is higher.

(4) The availment shall be for a maximum period of five (5) consecutive clearing days or five (5) clearing days within any thirty (30)-day rolling calendar period, after which the OCL shall be suspended.

(5) Should the overdraft exceed the ceiling, as defined in Item “2” hereof, no availment of the clean/collateralized OCL shall be allowed.

(a) In the case of end-of-day overdraft, the Payments and Settlements Office (PSO) shall advise the PCHC of the amount available for settlement of the drawee bank’s net clearing loss, beyond which amount inward clearing items will be unwound in accordance with the PCHC Clearing House Rules and Regulations.

(b) In the case of final overdraft, i.e., after AM returns, where unwinding is no longer possible, the bank shall be excluded from next clearing. The PSO shall advise the PCHC of such exclusion upon prior Monetary Board approval.

(6) The collateralized OCL may be converted into an emergency loan provided the bank complies with the guidelines governing the grant of emergency loans under Sec. 285 (*When an emergency loan or advance may be availed of*) or may be subject to foreclosure of collateral. The guidelines implementing Item “b” of this Section are in *Appendix 26*.

c. In indirect participation through conduit arrangement, where the clearing results of participating TBs/RBs are consolidated with those of the conduit UBs/KBs, caps shall be set on the net clearing losses to be passed on to the conduit UB/KB by the TB/RB.

The cap is defined as the combined value of the following amounts:

- (1) the TB/RB’s DDA with the Bangko Sentral; and
- (2) the value of clean/collateralized overdraft credit line that may be extended by the conduit UB/KB to the TB/RB.

The conduit arrangement should include provisions setting aforementioned cap on the net clearing losses.

Clearing of Negotiable Order of Withdrawal Accounts. Any NOW account which may be deposited with a bank other than the drawee bank may be cleared through the PCHC in accordance with the PCHC Clearing House Rules and Regulations.¹ Nothing in this Section shall prevent direct settlement between the parties concerned. The provision of Sec. 203 shall also apply for withdrawals on NOW accounts.

Check clearing operations during Philippine Holidays. The guidelines on check clearing operations during Philippine holidays are shown in *Appendix 88*.

(Circular Nos. 1043 dated 2 August 2019, 974 dated 29 September 2017, M-2017-010 dated 15 March 2017, Circular No. 948 dated 01 March 2017, M-2017-001 dated 17 January 2017, Circular No. 924 dated 07 September 2016, and M-2016-012 dated 08 September 2016)

803 NATIONAL RETAIL PAYMENT SYSTEM (NRPS)

Adoption of the NRPS Framework. It is the policy of the Bangko Sentral to promote the establishment of a safe, efficient, and reliable retail payment system in the Philippines. Towards this end, the Bangko Sentral adopts the NRPS Framework consistent with Bangko Sentral regulations on risk management in light of the complex interplay of different types of risk arising from the rapid evolution of retail payment activities of the BSFIs. The NRPS vision will help achieve higher economic growth and enhance the overall competitiveness of our economy.

¹ See schedule of revised clearing and settlement process shown as footnote of Sec. 203.

In carrying out retail payment-related activities, BSFIs shall adhere to the NRPS Framework as set forth in this Section and *Appendix 126*. This framework requires BSFIs to ensure that the retail payment systems they participate in demonstrate sound risk management, and effective and efficient interoperability. BSFIs shall comply with Bangko Sentral rules and regulations, particularly on information technology, consumer protection, and AML/CFT.

Definition of terms. For purposes of this Section, the following definitions shall apply:

- a. *Automated Clearing House (ACH)* - a multilateral agreement among ACH participants governing the clearing and settlement of payment orders for a specific payment stream.
- b. *ACH Participant*- a financial institution duly licensed by the Bangko Sentral that is a Payment System Management Body (PSMB) member, and undertakes clearing in and is a signatory to at least one (1) ACH.
- c. *ACH Participant Group (ACH-PG)* - a group organized by ACH participants for a payment stream or a group of similar payment streams for the purpose of approving and implementing the clearing rules and agreements applicable to a specific payment stream. It also liaises and consults with other parties in relation to clearing.
- d. *Channel* - the means by which an electronic financial product or service is delivered, e.g., internet, phone, ATM.
- e. *Clearing* - the process of transmitting, reconciling and, in some cases, confirming payment orders prior to settlement, and the establishment of the final obligations for settlement.
- f. *Clearing Switch Operator (CSO)* - provides clearing switch services.
- g. *Direct clearing participant*- a financial institution that is: (a) duly licensed by the Bangko Sentral and is authorized to provide electronic financial and payment services; (b) engaged in holding of funds of customers in the form of accounts (bank account or electronic money account); (c) clears transactions through an ACH and is the participant ultimately responsible for obligations generated from cleared transactions; and (d) has a demand deposit account with the Bangko Sentral and a PhilPaSS member, or is sponsored into settlement by a qualified sponsor which is a member of PhilPaSS and maintains a DDA with the Bangko Sentral, to settle its clearing obligations.
- h. *Electronic payment*- synonymous to electronic fund transfer (EFT); refers to transfers of funds between two transaction accounts in the same or different BSFIs which are initiated and received using electronic devices and channels to transmit payment instructions. This excludes domestic remittance transaction under existing Bangko Sentral regulations.
- i. *Fund*- any unit of value that forms the consideration or object of transactions.
- j. *Interoperability* - enables financial products and services belonging to a particular scheme or business model to be used or interoperated between other schemes or business models usually of another institution. While interoperability often times require technical compatibility between systems, it can only take effect once commercial/business interconnectivity agreements have been completed.
- k. *NRPS* - a policy and regulatory framework that aims to establish a safe, efficient, and reliable retail payment system in the Philippines.
- l. *Payment instrument* - any instrument, whether tangible or intangible, that enables a person to transfer funds.
- m. *Payment order* - an order or message requesting the transfer of funds to the order of the payee.
- n. *Payment system* - the set of payment instruments, processes, procedures and participants that ensures the circulation of money or movement/transfer of funds.
- o. *PSMB* - a private industry-led self-governing body that is duly recognized and overseen by the Bangko Sentral to develop and enforce rules and agreements pertaining to members' clearing and settlement activities in accordance with the NRPS Framework and applicable Bangko Sentral regulations. The body shall be comprised of retail payment industry participants which are direct clearing participants. This body shall be a juridical entity that is not-for-profit and with the power to set and implement rules pertaining to members' clearing activities.
- p. *Point of Interaction (POI)* - a hardware and/or software whereby a customer or user is able to query or initiate a transaction from his account. Examples of POI include kiosk, smart device, etc.
- q. *Retail payments* - payments that meet at least one of the following characteristics: (i) the payment is not directly related to a financial market transaction; (ii) the settlement is not time-critical; (iii) the payer, the payee, or both are individuals or non-financial organizations; and (iv) either the payer, the payee, or both are not direct participants in the payment system that is processing the payment. This definition of retail payment includes

person-to-person, person-to-business, business-to-person, business-to-business, person/business-to-government, and government-to-person/business payments.¹

- r. *Settlement* - an act that discharges obligations in respect of fund transfers between two (2) or more parties.
- s. *Sponsored into Settlement Member* - PSMB members who undertake settlement in at least one (1) ACH by engaging the settlement services of an ACH participant that can directly settle transactions through PhilPASS.
- t. *Settlement sponsor bank or Sponsoring bank* - PSMB members who undertake settlement directly through PhilPASS.
- u. *Working Group* - In the context of an ACH, it is a group organized for a specific payment stream under an ACH Participant Group. The ACH Working Group is responsible for drawing up, reviewing or revising the rules and agreements applicable to a specific ACH.

Purpose and scope. The NRPS Framework shall apply to all BSFIs which meet regulatory requirements and the criteria set on a per ACH basis under the NRPS framework.

The NRPS framework covers all retail payment-related activities, mechanisms, institutions and users. It applies to all domestic payments which are denominated in Philippine Peso (Php), and which may be for payments of goods and services, domestic remittances or fund transfers.

Retail payments under the NRPS Framework are payments that meet at least one (1) of the following characteristics:

- a. the payment is not directly related to a financial market transaction;
- b. the settlement is not time-critical;
- c. the payer, the payee, or both are individuals or non-financial organizations; and
- d. either the payer, the payee, or both are not direct participants in the payment system that is processing the payment.

NRPS key principles. Under the NRPS framework, sound governance shall be performed by a PSMB, an industry-led self-governing body that is duly recognized and overseen by the Bangko Sentral. In the absence of a PSMB which conforms to the NRPS principles in *Appendix 126*, the functions of providing sound governance to the retail payment system participated in by BSFIs shall be discharged by the Bangko Sentral. The CSOs shall not participate in the governance of the payment system.

All clearing shall be done within the NRPS governance structure, wherein exclusive bilateral clearing arrangements are not allowed.

Non-discriminatory participation shall be espoused in the retail payment system. Hence, all BSFIs are highly encouraged to join the NRPS governance structure provided they meet the qualification criteria.

A reasonable market-based and transparent pricing mechanism shall be adopted by all BSFIs participating in the NRPS governance structure.

Further details on the key principles are embodied in the NRPS Framework shown in *Appendix 126*.

Specific rules applicable to transactions performed under the NRPS framework. The following rules shall apply to retail payment transactions which are cleared and settled in accordance with the NRPS framework:

- a. Minimum requirements to offer Electronic Payments and Financial Service (EPFS). EPFS, shall require notification to or approval by the Bangko Sentral in accordance with Sec. 701. To offer EPFS, BSFI shall conform to the following requirements:
 - (1) BSFIs shall make electronic payments available in all its delivery channels whenever applicable;
 - (2) BSFIs shall enable its clients to move/receive funds to/from accounts with other BSFIs, or, at a minimum, receive funds. Movement of funds between BSFIs shall be carried out through participation in an ACH;
 - (3) BSFIs shall immediately credit the account of its clients after receipt of clearing advice; and
 - (4) BSFIs shall conform to Sec. 701 the IT Risk Management Standards and Guidelines on electronic banking, electronic payment, electronic money and other electronic products and services provided in *Appendix 79*.
- b. Fees on transactions. The BSFI's board of directors shall adopt a policy on the imposition of any fee on electronic payment transactions. The policy shall include the basis and quantitative support for the setting of fees and rationalization of the fee structure or amount. Imposition of fees for transactions performed by BSFIs that meet

¹ Developing a comprehensive National Retail Payments Strategy, Financial Infrastructure Service line Payment Systems Policy and Research, World Bank, October 2012, available at http://siteresources.worldbank.org/FINANCIALSECTOR/Resources/Developing_a_comprehensive_national_retail_payments_strategy_for_GPW_10_20%28v1%29.pdf.

the requirements in Item "a" of the specific rules applicable to transactions performed under the NRPS Framework shall be consistent with the following:

- (1) On consumer pricing -
 - (a) BSFIs shall adopt reasonable and fair market-based pricing models, which do not arise from agreements with other BSFIs to fix the price of product or service delivery.
 - (b) The service fees for electronic payments are expected to be lower than the fees collected from transactions made manually or over-the-counter (OTC) as electronic payments are considered to provide more efficient and cost-effective means of delivering service.
 - (c) The recipient shall not pay for electronic crediting to recipient's account and the recipient shall receive the amount in full. Such account to account fund transfers shall not be considered as domestic remittance transactions under Sec. 298.
 - (2) The BSFI shall disclose to the Bangko Sentral the details of all fees that will be charged to the client. This will be posted in an electronic bulletin board of fees for transactions performed under the NRPS framework. The bulletin board shall be maintained by the Bangko Sentral in its website for enhanced transparency and competitiveness.
- c. Anti-Money Laundering Requirements. All BSFIs shall observe applicable AML/CFT requirements under Part Nine for all transactions performed under the NRPS framework. As part of on-going monitoring of customers and their transactions, the following rules shall apply to transactions performed under the NRPS framework by BSFIs that meet the requirements in Item "a" of the specific rules applicable to transactions performed under the NRPS Framework:
- (1) The originating institution (OI) shall be responsible for monitoring, including appropriate watchlist screening or monitoring, its own client's transactions. It is the responsibility of the OI to ensure that the account name of the source account and the amount are consistent with the Sender Name and the amount indicated in the Payment Instruction sent by the OI.
 - (2) The receiving institution (RI) shall be responsible for monitoring, including appropriate watchlist screening or monitoring, its own client's transactions. It is the responsibility of the RI to ensure that the actual account number credited and the amount are consistent with the Beneficiary Account Number and the amount indicated in the Payment Instruction received by the RI.
 - (3) On the basis of the above, account number matching will suffice for domestic account-to-account electronic payments. OIs and RIs shall ensure that customers are informed that account number matching will suffice to implement a transaction, and OIs and RIs shall be held free and harmless from liability for their reliance on account number matching.
 - (4) Nothing in the above rules shall prevent an OI or RI from instituting or implementing additional procedures to comply with AML laws and regulations, and other applicable laws and regulations, prior to executing a transaction performed under the NRPS framework, or debiting/crediting a client's account.
- d. BSFIs participating in the NRPS governance structure are required to comply with existing regulations of the Bangko Sentral.

Reports. BSFIs participating in the NRPS governance structure shall comply with regular reporting requirements, which will be covered by a separate issuance.

Examination of BSFIs. BSFIs shall make available all policies, procedures and other documents/information related to this Section during the on-site examination, as well as provide copies thereof when a written request is made by the Bangko Sentral.

Sanctions. Consistent with Sec. 002, the Bangko Sentral may deploy enforcement actions to promote adherence to the requirements set forth in this Section and bring about timely corrective actions. The Bangko Sentral may issue directives to enforce compliance with the NRPS Framework or impose sanctions to limit the level of or suspend any business activity that has adverse effects on the safety and soundness of the BSFI, among others.

Any violation of this Section shall subject the BSFI and/or its directors, officers and/or employees to the monetary and non-monetary sanctions under Section 37 of Republic Act (R.A.) No.7653, including but not limited to the following depending on the gravity of the violation committed and the circumstances attendant thereto:

- a. Suspension of offering new electronic financial products and services;
- b. Suspension/revocation of authority to provide electronic financial products and services; and
- c. Suspension/revocation of authority to settle through the Philippine Payments and Settlements System.

(Circular Nos. 1033 dated 22 February 2019, 1022 dated 26 November 2018, and 980 dated 06 November 2017)

Policy statement. It is the thrust of the Bangko Sentral to ensure efficiency of payment systems in the country. In line with this thrust, the Bangko Sentral requires the BSFIs participating in an ACH for instant retail payments to ensure that this ACH provides for certainty of settlement of the multilateral clearing obligations of the clearing participants. The settlement scheme agreed upon by the clearing participants shall form an integral part of the comprehensive credit risk management for instant retail payment services.

For the purpose of this Section, an instant retail payment, otherwise known as fast payment, is defined as an electronic payment in which the transmission of the payment message and the availability of “final” funds to the payee occur in real time or near-real time on as near to a 24-hour and seven-day (24/7) basis as possible¹. Moreover, as used in this Section, clearing participants shall refer to direct clearing participants.

Minimum requirements for the operation of a settlement mechanism for instant retail payments. The settlement mechanism for instant payments shall meet the following minimum requirements:

- a. A clearing participant or its settlement sponsor shall maintain with the Bangko Sentral a demand deposit account (DDA) which shall be used specifically for the settlement of the clearing participant’s net clearing obligations arising from instant retail payments;
