¹ Overseas Filipino (OF) cash remittances from countries not elsewhere classified

Details may not add up to total due to rounding.

There are some limitations on the remittance data by source. A common practice of remittance centers in various cities abroad is to course remittances through correspondent banks mostly located in the US. On the other hand, remittances coursed through money couriers cannot be disaggregated by actual country source and are lodged under the country where the main offices are located, which, in many cases is in the US. Therefore, the US would show up to be the main source of OF remittances because banks attribute the origin of funds to the most immediate preliminary

* Effective 17 July 2023, the BSP adopted the country list based on the ISO 3166 Country Codes and the country classification based on Continental Grouping (Asia, America, Oceania, Europe, and Africa).

¹ Overseas Filipino (OF) cash remittances from countries not elsewhere classified
 Details may not add up to total due to rounding.

There are some limitations on the remittance data by source. A common practice of remittance centers in various cities abroad is to course remittances through correspondent banks mostly located in the US. On the other hand, remittances coursed through money couriers cannot be disaggregated by actual country source and are lodged under the country where the main offices are located, which, in many cases is in the US. Therefore, the US would show up to be the main source of OF remittances because banks attribute the origin of funds to the most immediate source.

¹ Overseas Filipino (OF) cash remittances from countries not elsewhere classified

Details may not add up to total due to rounding.

There are some limitations on the remittance data by source. A common practice of remittance centers in various cities abroad is to course remittances through correspondent banks mostly located in the US. On the other hand, remittances coursed through money couriers cannot be disaggregated by actual country source and are lodged under the country where the main offices are located, which, in many cases is in the US. Therefore, the US would show up to be the main source of OF remittances because banks attribute the origin of funds to the most immediate source.
